Dear Mr. Coobtree -

(Idaho State)
The University gave me your address and suggested you may be able to help me. I am a student currently enrolled at San Francisco State University and will be leading a lithics seminar there this fall. I desperately need to find someone who is willing to help me improve my flintknapping techniques. (I was turned down for the flintknapping field school at Wash. State Univ.) Do you know of

anyone I might be able to study with this summer? I will drive my where in the western USA and will bring California obsidian with me.

thanks for your help -
