Lick Larkspur

Ce.7.1.16.1

Hi Don -

Thought you might like this Snap of you with John + Clara taken while we were out there this summer. We did enjoy our little visit with you.

Just got a letter from Ginny saying you are in Hospital again. We are sorry to hear that. but hope you are home again by now.

Doug hasn't been up to par + Drs. can't figure out his problem. They call him their "Problem Child". Sure wish I could figure

Hope you're up to snuff again soon!

out how to help him get some Pep + Strength again. Any ideas? Guess Les is due for surgery this week. Hope all will go real good for him -

John + Clara are about the same. John still works, but really shouldn't, with his poor eyesight. So afraid he'll fall off a roof - or while driving get into a bad accident.

Dot is fine. See + talk to her quite often - especially if we do the calling - Ha!

Do take care of yourself, Don, + don't rush back too quickly. Take it slow + easy - but feel good real soon.

Love —
Dony + Ruthie
