Mr. Don e. Crabtree
Rt. 1, Box 210
Kimberly, Idaho 83341
U.S.A.

Dear Don :

Thank you very much to your kindness for Mito as kindly as Evelyn. He has the clear memory with the photo of you clowned deer antler and now he feels of you his grandfather in America.

This summer vacation we may have a chance to see you again at Twin Falls around the last week of August. And if I can get your pamiission I want to stay more one or two weeks to learn the lithic technology from you. As Mito must return to Tokyo by August 31st, and school start from September 1st, they can not stay longer.

American Antiquity ~~gy~~ in this October issue you may find my report on Andean Archaeological survey translated by Dr. Shimada who belongs to Oregon University. I'm interested in Lithic and Formative Culture in that area, especialy lithic artifacts and those techniques, and also correlatively Middle and North American's one. Unfortunately, now I couldn't have a chance to study them by myself. If you know some about to study them, please write me.

With best regards,

Tsugio Matsuzawa
