U.S.A.

Dear Mr. Crabtree,

Thank you very much for your letter of 21st October.

I hope your health is satisfactorily improving after your recent hospitalisation. I wish you an early recovery so that you can resume your very interesting work on Lithic experiment technology.

It is a disappointment for me that you cannot come to India this year for the Congress. I certainly hope to meet you one day if not in India, then in your own country.

I am looking forward to meeting Dr. Tixier in December in New Delhi and possibly also at Poona. I will certainly show our microlithic cores to Dr. Tixier, and will write to you his opinion soon afterwards.

With kind regards and Season's Greetings,

Yours sincerely,

V.N. Misra
