Dr. John D. Moore  
Associate Executive Editor  
Columbia University Press  
562 West 113th Street  
New York, New York 10025

Dear Dr. Moore:

Thank you for your letter of Nov. 6th. It is, indeed, an honor to have one of my papers included in Dan Ingersoll's book, *Experimental Archaeology*.

The essay in question is now at Idaho State University being prepared by Dr. B. Robert Butler. After receiving your letter, I sent him a copy of the letter and talked with him on the telephone. He informs me that the article is now complete but that some of the sketches should be redone by an artist. He said that he would get in touch with either you or Dan and expedite the paper. The illustrations should be done soon and you should hear from Dr. Butler.

If you care to write to him his address is: Dr. B. Robert Butler, Museum Director, Idaho State University, Pocatello, Idaho 83201.

Very sincerely yours,

Don E. Crabtree
