Route 1, Box 210

Dear Prof. Crabtree:

Thank you for your kind letter of August 28th. I'm very interested in summer school which you introduced me but at that season, from July through August, we also have scheduled course for beginners and I'm not able to leave here. It is the best chance if I can see you in this November.

Roughly I made a plan to visit your country from 16th of Nov. and return by the end of Nov., about two weeks, during those days if I'll be able to meet you and get a chance to talk with you on the theme at your house or at your university my cavation will be a fruitful, even only one or two days...

Besides visiting your place, I have two aims. One for to go to San Francisco for my wife for sightseeing and another one to go to Disney Land in Lax for my little son.

We're going to your city as the following course.
Tokyo - Los Angeles - San Francisco - Salt Lake City - Twin Falls.

If you're completely occupied with the conferences in those days (mid Nov. to the end of Nov.), we take the another course, San Francisco - Pocatello and visit the university and will meet Mr. Bill Statham. Would you kindly tell me if you are able to meet me or I must contact with Mr. Statham as we must arrange air tickets before departure.

Mr. Kobayashi, I met once and when I visited Prof. Serizawa at Sendai the other day, Mr. Kobayashi was absent as he went to Hokkaido for excavation. I wish to meet him some day and ask him to show me the techniques which he mastered in the States...

Prof. Serizawa, to whom I showed your letter, was glad for me to visit you and he told me that I'll study something and get advices from you, especially Folsom fluted point, during my stay.

CE.7.2.30.1

On 23rd of this month, Prof. Serizawa has a TV programme on "Paleolithic Age in Japan" and I also introduce my technique to make stone tools which I learned by Prof. Bordes last summer.

I'm wishing to hear from you soon, especially your convenience on my schedule,

Sincerely yours,

Tsugio Matsuzawa
