Dear Earl:

Have your note of July 20th suggesting August 8th and 9th for my visit. The wind-up rush getting our book to the printer makes this time impossible for me. It looks like early September or some other time in the fall would be the best prospects from my point of view. Sorry we can't work this out. Let me know the time in October or November when it would be feasible for you.

Cordially yours,

William J. Mayer-Oakes,  
Professor and Head.
