Dear Don:

I am going to be doing a general article on stone chipping for the Scientific American. I would like to be able to describe highlights of your chipping field school. If possible some photographs and/or illustrations from the school would be helpful. Do you have any black and white photos that I might use for this purpose?

If you have any ideas about what results or values the field school has or any other prepared information, I would like to make use of those, with your permission and support of course.

Hope all goes well with you this winter in Idaho. Best wishes as always.

Cordially yours,

*Bill*

*P.S. Thanks for the Christmas card. We didn't get to send any out this year. Still adjusting to all the changes of our move, etc! ☺*
