Dear Professor Crabtree,

Thank you for your very kind letter and the information which I received on December 20, 1979. I will be very glad if you are able to send me a black-and-white photograph of you (a portrait or a photograph taken when carrying out experiments). As for your experiments, I would like to ask you to send me black-and-white photographs and colour slides.

At the end of February will appear the book "Methods of Experiment in Archaeology" which I will send you. I would be very glad if you wrote a review of it for some journal.

With my thanks and best regards

*Jaroslav Malina*
