

Mr. Don Crabtree
NW of City
Kimberly, ID 83341

Dear Don,

On behalf of the Magic Valley Chapter of Sigma Xi I wish to express our appreciation for your audio visual presentation on stone working techniques. This has always been of great interest to my wife and me and I'm sure that others in the group also have similar interests.

The March 1977 issue of Scientific American carried an article on the culture in the Belise area of Mexico which you may already be familiar with. Again many thanks for your program and get well soon.

Sincerely,

Hank

H.F. Mayland
Program Chairman
