Dr. Jaroslav Malina
Husitska 1, 612 00
Brno, Czechoslovakia

Dear Doctor Malina:

I am sorry I haven't more or better photographs for your publication. However, you may find a few of these that are usable. I unfortunately have a very limited amount of photographs of myself, and when you are finished with these I would appreciate their return as I have no negatives.

I wish you every success for your book Methods of Experiment in Archaeology. I will give what publicity I can in two of our local experimental archaeological journals. If there is an English translation, it will be possible for me to give more detail.

Sincerely yours,

Don Crabtree, D. Sc
Research Associate in
Prehistoric Technology
