

June 21, 1976

Dear Evelyn and Don,

We have thought of you often during the terrible flood in Idaho, and we hope that it hasn't affected you. It must have been very bad, especially for all the people whose homes were destroyed.

We have also thought of you while we were following Frank Church's campaign. We really like him, and wish that he had started campaigning sooner. It is so refreshing to hear intelligent talk coming from a sensible, well informed candidate. Joe hopes that Carter will select him as his vice president, but I feel that Church would be foolish to accept it - he has much more effective, and powerful, as a senator and a member of key committees.

ce. 7. 7. 85

We are enclosing this picture of you, Evelyn, after all this time. Wasn't that a nice week we all spent in Belize? We would gladly jump on a plane, tomorrow if we could, and try to repeat the experience.

Unfortunately we are not planning a trip west this year. I am working full-time now, and we'll try to plan such a trip for next year. Maybe we will be able to pass by your way. We'd love to introduce our children to you.

We hope you are both well,
and we hope to hear from
you some time.

Love,
Galey & Joe
