Dear Don:

I am enclosing a copy of the front page of the Los Angeles Times for 13, June 1969. Things are progressing fairly well. We found a quartzite "saw" yesterday. Unfortunately it is from material that I believe to have been worked in the 1914 excavations, hence no stratigraphic control or associations.

I hope you are still planning on coming out here this summer. We are looking forward to seeing you and Mrs. Crabtree again.

Sincerely,

George J. Miller
Rancho La Brea Project Coordinator
