Mr. Don Crabtree,
Rte. 1,
Kimberly, Idaho,
U.S.A.

Dear Mr. Crabtree:

I am interested in experimental archaeology and I have all of your articles on this subject in Tebiwa. If you have articles elsewhere on experimental archaeology, I would appreciate knowing of them. Also, is it possible to get a copy of the transcript of the Conference in France? Was there recently a conference on technology in the U.S., and finally, do you have reference to Borde's work on technology?

Thank you.

Sincerely,

V. Markotic.
