3. XII. 79

Dear Don,

Enclosed are a couple of color prints from the 1979 Flintknapping Fieldschool which I have been meaning to send you for months now. It is a shame the group photo wasn't taken when you were visiting us.

It looks like I will be going to New Zealand next year to teach at the University of Otago in Dunedin for 2 terms (May-November). This will give me a good opportunity to examine the blade material from the South Island and continue writing up my Mauna Kea Adze Quarry research.

It was a great pleasure to work with you this past summer and I only wish you could have stayed longer.

All the best,

Pat McCoy
