Dear Pat:

I want to thank you so very much for the beautiful pictures. It certainly brings back fond memories. That was a great camp and we all had so much fun. The pictures are excellent - you are a very good photographer.

It sounds like you're going to have an exciting experience when you go to New Zealand this year. I hear New Zealand offers so very much in the way of climate and terrain and all varieties of things including an obsidian quarry. Junius Bird sent me some samples of obsidian from New Zealand, which I appreciate, but while you're there, try to find the source of the nephrite jade called locally "green stone."

I see that you are going to write a chapter about the Mauna Kea adz quarry for Peabody. I only wish you weren't so far away and that we could have a long visit some day. I certainly enjoyed seeing you again last spring and wish that we could have had more time together.

Do have a prosperous and happy new year.

Your friend,
