

Our speaker list for the remainder of 1974 is as follows:

October 15, 1974
8:00 PM
Life Science Lecture
Center Rm. 15

Dr. Frank Harmon, Associate Professor
of Physics, ISU.

Topic: "The State of Water in Animal
Cells: Recent Evidence from
Nuclear Magnetic Resonance."

November 19, 1974
8:00 PM
Life Science Lecture
Center Rm. 15

Dr. Hans J. Bremerman, Professor of
Mathematics and Medical Physics,
Berkeley.

Topic: "Evolution, Optimization, and
the Origin of Life."

December 10, 1974
8:00 PM
Life Science Lecture
Center Rm. 15

Dr. Barry Keller, Associate Professor
of Biology, ISU.

Topic: "Small Mammal Population
Dynamics."

These seminars are open to the general public, but we urge the
Sigma Xi members to make a special effort to attend. A list of speakers
for Spring Semester will be forthcoming.

We are looking forward to a year of stimulating research.

Sincerely,

Barry Parker, President
J. T. Ulrich, Vice President
Joan H. McCune, Secretary-treasurer
