Dear Sylvia:

I have re-written and added to the copy of background we sent to New York for the press there. I believe this will be a little more concise than the copy you showed me and will explain better my work with Dr. Swanson. Am also sending a copy to Earl who I am sure you will want to confer with on this.

I have listed the institutions where I have given lectures and demonstrations but am sure you will not want to print this. However, thought you might want it for your file and, in the article, to just mention appearances in Canada, Europe, Mexico and the U.S.A.

Talked with Swanson about this article and he said he would be glad to go over it with you and be of any assistance he could.

Yours very truly,

Don E. Crabtree
