Anthropology

Dear Don + Evelyn,

Just a quick Note to Thank you for the Christmas card & to keep you posted on what I am doing.

Lee & I intend to spend Christmas and New Years in Los Angeles, then back up here to finish up the Thesis thing. I hope the roads are clear & the snow holds off.

Hope too, that your holiday season is the brightest possible.

Just recieved a letter from H. Menhinney, my Identification of his flakes very nearly floored him, Now I suppose I must get a Note off to Am. Antiquity with results of my experimentation and the criteria used.

ce. 7.7.15

Went back to Pullman Dec 12-13,  
it looks promising, but is not the town  
that Lee would like to settle in for  
3-4 years. I just don't know. I  
would like to use you, Don, as a  
reference if I may; your acceptance  
however may place the burden of a  
letter on your shoulders; let  
me know as I'll be sending in  
the forms around the second wk.  
in January.

There are 4 people  
currently drawing for me, so  
we can look the results over  
and decide on an illustrator  
for the glossary.

I spent about 2 hrs.  
with Rich Harrison, I don't think  
you know him, going over your  
collection in the museum, and  
the ordering and organization  
is under way.

will call when  
I'm back —

Guy
