Irwin & I did it

Anthropology

Dear DON & Evelyn,

I'm sorry to hear about the troubles reoccurring, I hope this won't cut into your time in the South West. Irwin has sent two articles on fluting & facial grinding which are, as far as I can see, pure speculation. Things here are going kind of slow with Earl gone & Bob at the helm. As I was unpacking & sorting the material from this summer I discovered your copy of "Mand Og Flint", it & zerox copies of the articles from Irwin will be sent along shortly, I'm sorry the Melgar book got picked up & packed.

I've written to Carl & Karen but no word from them yet. I've been asked to speak to the Cache Valley Geological & Archeological Society & have been slated to do an E. T. V. series of 2 & maybe 3 programs on flintknapping in Relation to Early man in Idaho.

The Battle Mt. & Spanish Diggins stuff is looking like it will prove to be very helpful, the French have a term for early stages which corresponds approx. to "Rough out" which might prove valuable with quarry stage material as distinguished from blanks etc. perhaps another demension?

I hope to have the thesis written by the end of this semester, that will leave the 2nd semester free for plates, illustrations, and planning what to do next year. I'd like to stay close around even if it means not going to Palm

ca. 7.4.24

springs but perhaps a stint at Pullman.

When you return for the warm weather perhaps we could get together & finalize the organization of the collection as well as, if you would, go over my thesis, I would appreciate the time then if you could spare it.

Before Earl left he wanted me to let you know that if you are here in town his house is open to you folks and he would be more than happy to let you stay over for a few days.

I know you are busy so no reply is necessary, I'll get off a couple of more notes & thanks to the people in Twin who were so kind to us; Howard Johnson, Don, the powers that be etc. A report + evaluation of this summer's work is next on the agenda.

Both of you folks take care & relax for a change

Best

Guy
