Mr. Guy Muto
Washington State University
Dept. of Anthropology
Pullman, Washington 99163

Dear Guy:

Thanks for your letter of Jan. 26th and please excuse the tardy reply. I will look forward to participating in the Seminar in May and visiting with all the good people there.

I saw Francois Bordes in December at Urbana, Ill. and he said he plans to be in Kimberly in April. So we may have to change the date. Also heard from Jose Luis Lorenzo that he will be here in conjunction with some meetings in Seattle - Quaternary - in the Spring. Wouldn't it be nice if there was a joint visit by these two men who are fast friends and we could all come to WSU. Also just received a card from Bruce Bradley from Cambridge and it doesn't sound like he will be in this country at that time. Said he would fly over in August though if we get the Cro Magnon thing going. He tells me that he will spend some time at Brandon to study some of the bladmaking techniques. Has found one 80 year old man who still knows the technique.

We had a formal re-opening of the Museum at Pocatello on Feb. 3rd and wish you could have been there. Cris and Pat are doing fine. Do hope that you and Lee are also having good luck. I look at the weather report and think of your driving every day and it makes me shudder. Have also thought of Dick in that grim weather on the Olympic peninsula. He must be growing moss but do hope he has made some new discoveries. Sharon Metzler payed us a brief visit at Christmas and was glad to see her. We often see her folks at church and inquire about your well being.

It sounds like a good seminar you have planned and thanks for asking me. I will make every effort to attend. I hope your lithic school is doing well. Ultimately, I hope this will be a required course in archaeology.

Evelyn and I send our best wishes to you and Lee.

Your friend,

Don
