

Herrett Center for Arts and Science: Don Crabtree material

Located in Twin Falls, Idaho near his home, the **Herrett Center for Arts and Science** curates over 500 objects from Don Crabtree's career. The collection predominately features tools from Mr. Crabtree's personal flintknapping kit and examples of experimental flintknapping.

Of note is a personal tool bag and various pressure flaking pads and tools he used throughout his research. Overall, the collection is an archive offering a glimpse into Mr. Crabtree's process.
