Craig Mountain Lumber Company,
Winchester, Idaho.
Gentlemen:-

We will require about 10 barrels of cement and 30 barrels of lime in laying up boiler brickwork.

We would appreciate your seeing that this material is ordered for us and comes forward with the cement which you secure for boiler foundations and other purposes about the plant. We believe that it would be better to place the order for it in this way through you than to attempt to bring in a separate shipment. Will you kindly attend to this for us.

We would like to order slightly more than our requirements on red brick and fire brick, with the idea that you will take any surplus off our hands. If you would agree to this we would not have to hew so close to the line in ordering our brick quantities. We would appreciate your reply regarding this.

Yours very truly,
CHAS. C. MOORE & CO. ENGINEERS
Seattle Office.

Gentlemen:-

We are enclosing herewith tracing of the grate bars used by us in our boilers, and from which you can make whatever blue-prints you require. With reference to your letter of the 12th, regarding brick; would say that we now have close to half a car each of red and fire brick, and we will not be able to use any more until we rebuild our furnaces, which we hope will not be for some time to come. We are sorry that we are unable to agree to take any of your surplus off your hands.

May 17, 1923.

Chas. C. Moore & Co.,
L. C. Smith Bldg.,
Seattle, Wash.

Gentlemen:-

When your representative was here some time ago, the writer informed him that the only places to secure brick were Spokane and Potlatch. Since that time, however, Mr. J. A. Terteling of Lewiston, Idaho, has re-opened a kiln which had been shut down for several years. We understand he is manufacturing a good grade of red brick, and it might be possible to have this shipped from Lewiston to Winchester more advantageously than from either Spokane or Potlatch. If you have not already placed the order for this brick, it might be well to communicate with Mr. Terteling.

Yours truly,

HLC

Gentlemen:-

Referring to your letter of the 17th,
we take it that it will be satisfactory for us to order
a little less than our/requirements on brick and count
on being able to purchase material from you in the event
we need additional, in view of the fact that you have
ample for your requirements.

Yours very truly,

CHAS. C. MOORE & CO. ENGINEERS

Craig Mountain Lumber Company,
Winchester, Idaho.

Gentlemen:

We have ordered red brick for boiler settings from the Potlatch Lumber Company. We have ordered fire brick for same from the Idaho Fire Brick Company, Troy, Idaho. We have not placed order for cement, sand or lime. We are writing to inquire whether you have these commodities in such quantities as to permit filling our requirements from your stock. We will require for boiler brickwork eight barrels of cement, twenty-six barrels of lime and twenty yards of plaster sand.

Thanking you for courtesy of reply and trusting that we may depend upon you for this material, we remain

Gentlemen:-

In reply to your letter of the 21st; would say we have on hand approximately 1500 Red Brick and 2000 Fire Brick. We could spare up to 1000 of the fire brick, and possibly 500 of the red brick. Although we would not care to take any fire brick off your hands that you might have left over, we could take a small quantity of red brick, say up to 1000. We believe this will give you plenty of leeway in estimating your requirements.

Yours truly,

HLC
