Doar Dick,
Woll, you ware ono of tho first subsoribars to TTY! By ono of tho first I moan that I rocoivod two subsoriptions in tho same mail, and yours was ono of thom. It is trun that I gave you the first opportunity to bo the first subsoribor. I did give the same "salos talk" to some other follows, but you waro the first. I'm sorry I forgot about tho quartor I owad you for Marcot Doop. Why didn't you romind mo of it bofor $\circ$ ? The troublo probably was that vou taks so long to answor my lottars that I forgot all about it. Woll, anyway that's paid up now, and $\forall o u$ aro on tho list as a subsoribor for a half a yoar.

I'm sorry that you hoar so raroly from Smith. But whan you do got tho information I wish you would rush it. Don't ovon wait for tho rogular answor to my lottor -- if vou want soñ it en a postoard. Ploaso have tho namo of thw story (storios) and placo whoro it'll appoar.

I havo no idoa why Taino didn't havo Tho Timo Stroam publishod boforn now. And if ho did considor it his bost story, thon why tho hockplpo hadeto sond it to wondor storios? I simply can't stand the policy that's around that magazinn. Spocial announcomont: with this issuo wo aro going to prosont to our roadars smooth papar, blah, blah,blah. And what do thoy do with tho current issun but givo it tho worse papar possiblo. My God! how thiok tho magazino is! As a roador onon wat said, "It can bo usod for blotting papor." I can't toll you what I though of tho storios for I havon't road thom. I suppose thoy'll be poor -- vary much so.

Tho latost Astounding is good -- as it always is. Tho Fluing Mon of Orcon was tho bost, with Flagg's story following. Vinoont's and Trnst's storサ wern also intorosting. Woird Talos was groat this month! Tho Monstor of tho Phrophooy was tha bost story, but tho rost wofon't far bohind. I rocoivod tho latost Strango Talos and it is good as Woird. Tho bost was willimaon's wolvos of Darknoss. Man! Thay guy can writo! Tho socond bost was Tho Door Uf Doom and following it was Plagg's Tho Smoll. By tho way, tho bost Woird short story that I ovar road in my lifo was Tho Picturo, by Flagg which appoarod a short timn ago in Woird Talas. Did you raad it? What do you think of it? The Amazing Story's covor is a good ono for a changa. I havon't road any of tho storins in it as yot. Also bought tho now Wondor Storios Quartorly. What did you think of GlassorHilliard's story? Pook protty long to got startod, but thon from tho middlo of tho story on, it was a wow! I do think that such happonings would com about if a Martian ovor landod on Ear th. This baby Hilliard can write too! I'll novor forgot his Tho Groon Torture. That short story swopt ma off my foot. I didn't raad any of tho othor storios in tho quartorly. I don't think I'm going to lika Pratt's novol, Tho onslaught from Rigol. But I hope I'm wrong. It's funny that two authors within two months should use tho samo planet, "Rigol." Robort H. Wilson had a stowy
in the Doc. 1931 Astounding callod Out Around Rigol. This story by tho way graatly rosomblas Brounr's Tho Fitzgorald Contraction.

Glassor got up tho circular to TYT. You bot, it's woll donn. To quoto from L.A. Eshbach's lettor... "it's author must be a student of human natura. He plays upon tho ouriosity of tho roador, tho curiosity and prido of tho writor, and touchos tho most valnorablo spot of tho Soionco fiction collootor. And sinco I'm a roadar, writar and collootor -- horo's my dollar! ... I think ho's describodit in tha bost way possiblo.

Frankonstoin has startod horo in $N$ ow York. Tho oritios havo acolaimed it as tho bast woird picture made. Ther make you stand during tho last rool!

Woll, aftor much thinking about tho subjoot I find that this is all I havo to say.

> Soiontifictionally yours, Julio.
