Assn. of Interplanetary Engrs.
3012 Williams St.
Denver, Colo.

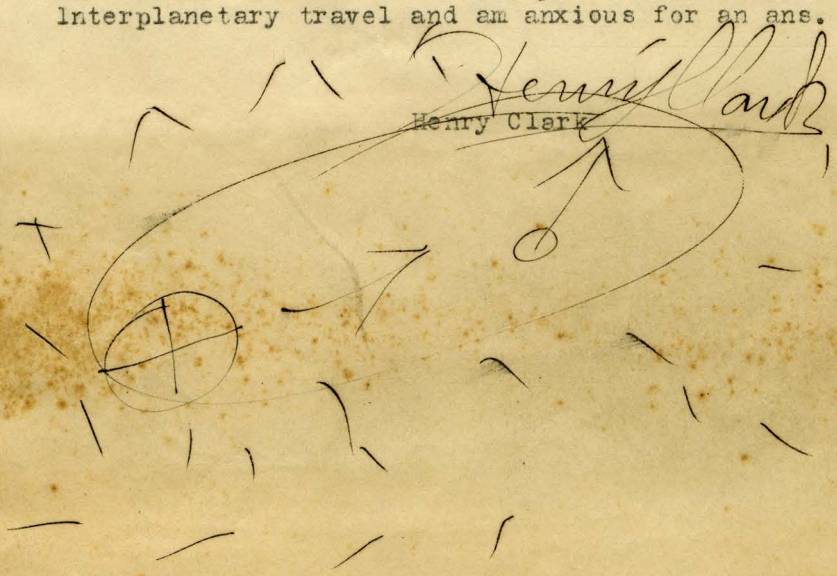
Dear Dick:

I'll start callin' you that from the start. 'Am enclosing this with the Questionaire, to save time, and stamps as it costs 3 cents to send a letter now you know.

This Questionaire I want you understand will be kept strictly confidential, and it is to be answewed with the best of your ability, and also broadmindedly, as it is to gather a brief and general ~~knewledge~~ idea of your knowledge. Some of the questions may sound foolish and absurd, but they are absolutely necessary for the obtaining of as near a perfect crew as possible.

For a good example of what m might occure amoung the BEST of friends and companions read, if you haven't, "MUTINY IN SPACE," in the SEPTEMBER issue of the small size (1931) Wonder Stories-- There is MUCH food for thought in it.

Please return this Questionaire as soon as possible, so we can obtain immediate action.

Well I guess that's all till next time. Till then I'M ever your science Pal in lnterplanetary travel and am anxious for an ans.


Henry Clark
