Dear Dick:

Although I haven't gotten an Answer from you as yet, I'm just writing this little note of explanation to accompany the OUTLINE.----- Please be careful with the carbon as it will probably be used by several of the members. At the present I'm only asking you to type a copy for yourself and one for Granville if you wish to. Later on I may ask you to type another copy for Bill Smith as, he has no typewriter, you see several of the members haven't a typewriter so one of us who have will have to make a copy for them.

Now as soon as you get this typed----- which will probably be some time----- let me know RIGHT AWAY so I can get you two started on a problem. I mentioned my main reason in my last letter. AND now I want to offer an apology----- I made 3 carbons and a original so that accounts for the poor shape it is in, and also I'm a "H&P" typest so pardon the misspelling- The material is there never-the-less.

Please let me know if you RECIEVED this package--- even if it's just a post card-- cause I want to be sure it reaches the right person.

Well, Old Man, The BEST OF LUCK and more POWER to you and your Pal Granville.

SO~~LO~~SOLONG

HC

Henry Clark

Personally I think this Outline is pretty thoroughly done- What say?

On to Mars

⊕ sizzling Rockets I almost forgot.
