Dear Dick,

Well, I've finally decided to write to you, although for the first time, and get acquainted.

First, but least, myself. I'm 19 years old, birthday Jan. 31. Am 5 ft. 10 in. tall, weigh 142 lbs., have blue-grey eyes, blonde hair and light complexion.

My favorite sport is football with, golf, baseball, Tennis, and Ping pong following up.

My foremost hobby is Chemistry, with Physics, astronomy, and Geology close behind.

I'll send my card with this and my picture later, and I want you to send me yours.

Be sure and write me a letter about yourself, etc. with a picture.

At present, on the A.I.E., I'm working on shock absorbers, and it's no simple problem, either.

I guess that's all at present, except
your A.I.E. pal,
TOM DANIEL
