

December 15, 1960

Colonel Paul Symbol  
District Engineer  
Army Corps of Engineers  
Walla Walla, Washington

Dear Paul:

We decided to memorialize the Idaho Legislature on the Bruce Eddy project. I believe the memorial to our Congress will be helpful and should, in a mild sort of a way, put the forces of opposition in a little tougher position.

Enclosed is about what we had in mind and I have marked up a few corrections which are the product of the study which has been carried on in the last two years. Would you mind having one of your people check this over and pencil in anything that should be corrected? Please have them hurry it back to me since we want to introduce the measure on January 2 in Boise. Kind regards for a real merry Christmas and happy holiday season.

Sincerely,

A. B. CURTIS  
Mayor
