

April 29, 1955

Kinsey Robinson, President
Washington Water Power Company
Spokane, Washington

Dear Kinsey:

I am enclosing a copy of a letter I received today from Senator Dworshak and a copy of Major General S. D. Sturgis' testimony before the Appropriations Subcommittee.

On the last two pages, or rather the last half of his testimony, mention is made of our Brucers Eddy Project. It appears to me that General Sturgis might be a little presumptuous in saying that the power companies are not interested. The last word I had on this project was that a bill would be introduced real soon for authorization for partnership permitting the Department of Interior to work out the partnership features and giving them a year and one-half to do so.

Sincerely,

A. B. Curtis, Mayor
