

May 14, 1955

Honorable Len Jordan, Chairman  
United States Section  
International Joint Commission  
Washington, D. C.

Dear Len:

The temperature favorable to a partnership dam at Bruce's Eddy has increased to a white hot degree.

Last week the Clearwater County Commissioners, incidentally who are all democratic, asked me to have prepared a resolution endorsing the partnership principle. A copy of this resolution is enclosed since you might make good use of it, and I am sure you will. Copies of this has just been released to the local press. Similar resolutions endorsing partnership can be obtained from other county commissioner groups if they will be helpful.

Naturally we are all very anxious for congressional action, and we hope you are making good progress.

Sincerely and kind personal regards,

A. B. Curtis, Mayor
