

Mr. A. B. Curtis Professor
Idaho

RECEIVED JAN 17 1965

This is just to let you know what I think of Bruce Eddy Dam on D warshak. you probably wont like it but neither do I the Dam that is! To me it seems Cruel and very destructive and wasteful. It seems like a very mean way to treat all the Northfarbers! Just taking their schools away from them wasnt enough! They had to force them out of their homes they thought so much of too!

Also burn and destroy so much timber and beautiful scenery. lovely sand bars and springs. It seems to me like they would want to make a nice road so people in the

Future could enjoy it
instead of burn it up and
cover it up so it will
never be seen again. Money
just can't buy some things!

This won't mean anything
to you but it didn't seem
right to let people destroy
so much that a person
thought so much of and
not even say anything
about it. What belonged to my
folks too. If it was just a
little along the river but they
buy such huge amounts high
up from river. Also the deer
like to be down there so well
when snow is deep.

I guess I just don't like
destruction of the Dam and you
were main one who did
a Dam Hater.

Mrs. Frank Storkolt
