The Honorable John A. Carver, Jr.
Member, Federal Power Commission
4421 25th Street North
Arlington, Virginia 22207

Dear John,

This is to confirm what I told you on 18 June 1970 after your speech at Priest Lake, Idaho, at the Idaho Land and Water Resource Seminar.

Your message was well put. The caution that the Commission's report is only the beginning should slow down those who might think it is the panacea to all our land problems.

Sincerely yours,

MAX K. TYSOR
Chief, Real Estate Division
