

June 2, 1955

Honorable Len Jordan, Chairman  
United States Section  
International Joint Commission  
Washington, D. C.

Dear Len:

Enclosed herewith you will find a copy of a letter I have today written to Senator Dworshak.

Besides this letter, several others have gone out yesterday and today from such people as Don Modie in Lewiston, Bill Marineau in Moscow and various people from this area. Surprising as it may seem, the chairman of the county democratic party, Ray McNichols, is sending a strong letter endorsing partnership power today. It is difficult to realize that everyone in this region is in the strongest support possible regardless of party affiliations.

I certainly hope that nothing slips on this and sincerely feel that it is an absolute must to have a partnership bill introduced. Should the bill be lost we certainly will be able to point with disfavor at those who killed it. Personally, I think we will win because I cannot see how people in Washington and Oregon can vote against it as it would be a vote against the interests of their own people. With kind personal regards and please keep me posted. This country is really worked into a dither.

Sincerely yours,

A. B. Curtis, Mayor
