

December 22, 1955

Mr. Kinsey Robinson
Washington Water Power Company
Spokane, Washington

Dear Kinsey:

I had a letter from Henry Dworshak today enclosed in which was the so called Trinity River of California Bill.

The Senator has asked that I comment upon this legislation to see how it would fit our needs for Bruce's Eddy and Penny Cliffs. Would you mind looking over this legislation and let me know at an early date your opinion. With recent activities such as our hearings and remarks made by our Army Engineers, it appears that the Senator is more anxious than ever to get some legislation underway. I am sure that you know more about this than I and your frank opinion as to whether or not the Clearwater development could follow the general lines of the Trinity Bill, would be appreciated.

I would rather not go too far discussing this at the local level until I get your confidential expressions, so would appreciate whatever you want to say on it and, of course, will keep it strictly confidential.

Sincerely yours and wishing you a
real happy holiday season,

A. B. Curtis, Mayor
