Dear Sir:

I am doing a study of the proposed Bruces Eddy Dam on the Clearwater River, and I am finding that here in the east, available information is hard to find. It is particularly difficult to locate material published by proponents of the project.

I am writing to ask if your organization has any statements or information on the topic.

Thank you for your help.

Sincerely,

Linda Kester

Dear Miss Kester:

I hope that I am not burdening you with too much information on the Bruce's Eddy project. We are very anxious to be as helpful as possible to those who are interested in the Bruce's Eddy arguement and I hope that you can make good use of the material being sent you.

I am enclosing a number of resolutions and expressions from Chamber of Commerces and other organizations of this area. Thank you very kindly for your interest and if we can be of any further assistance please advise.

Sincerely yours,

A.B. Curtis, Chairman
Water Resources Committee
