

HUNTING AND FISHING MAP
 Compliments of
POTLATCH FORESTS INC.
 and
 CLEARWATER TIMBER PROTECTIVE
 ASSOCIATION

ABCurtis Chief Fire Warden

NOTE **GATE. IF LOCKED, PLEASE OBSERVE POSTED RULES**

As a public courtesy P.F.I. permits recreational use of more than 1,000 miles of private roads maintained on Company lands for logging and forest protection. A few roads may be closed at various times for the following reasons:

1. For public safety around active logging or construction operations.
2. By State law during fire season in areas of high hazard.
3. To prevent excessive rutting & erosion of soft roads during wet weather.
4. To discourage theft and vandalism of equipment and supplies.
5. For the safety of livestock in certain areas under grazing lease.

If you find a locked gate on a P.F.I. road you may pass through on foot to hunt, fish, pick berries, etc. -- providing there are no signs stating otherwise.

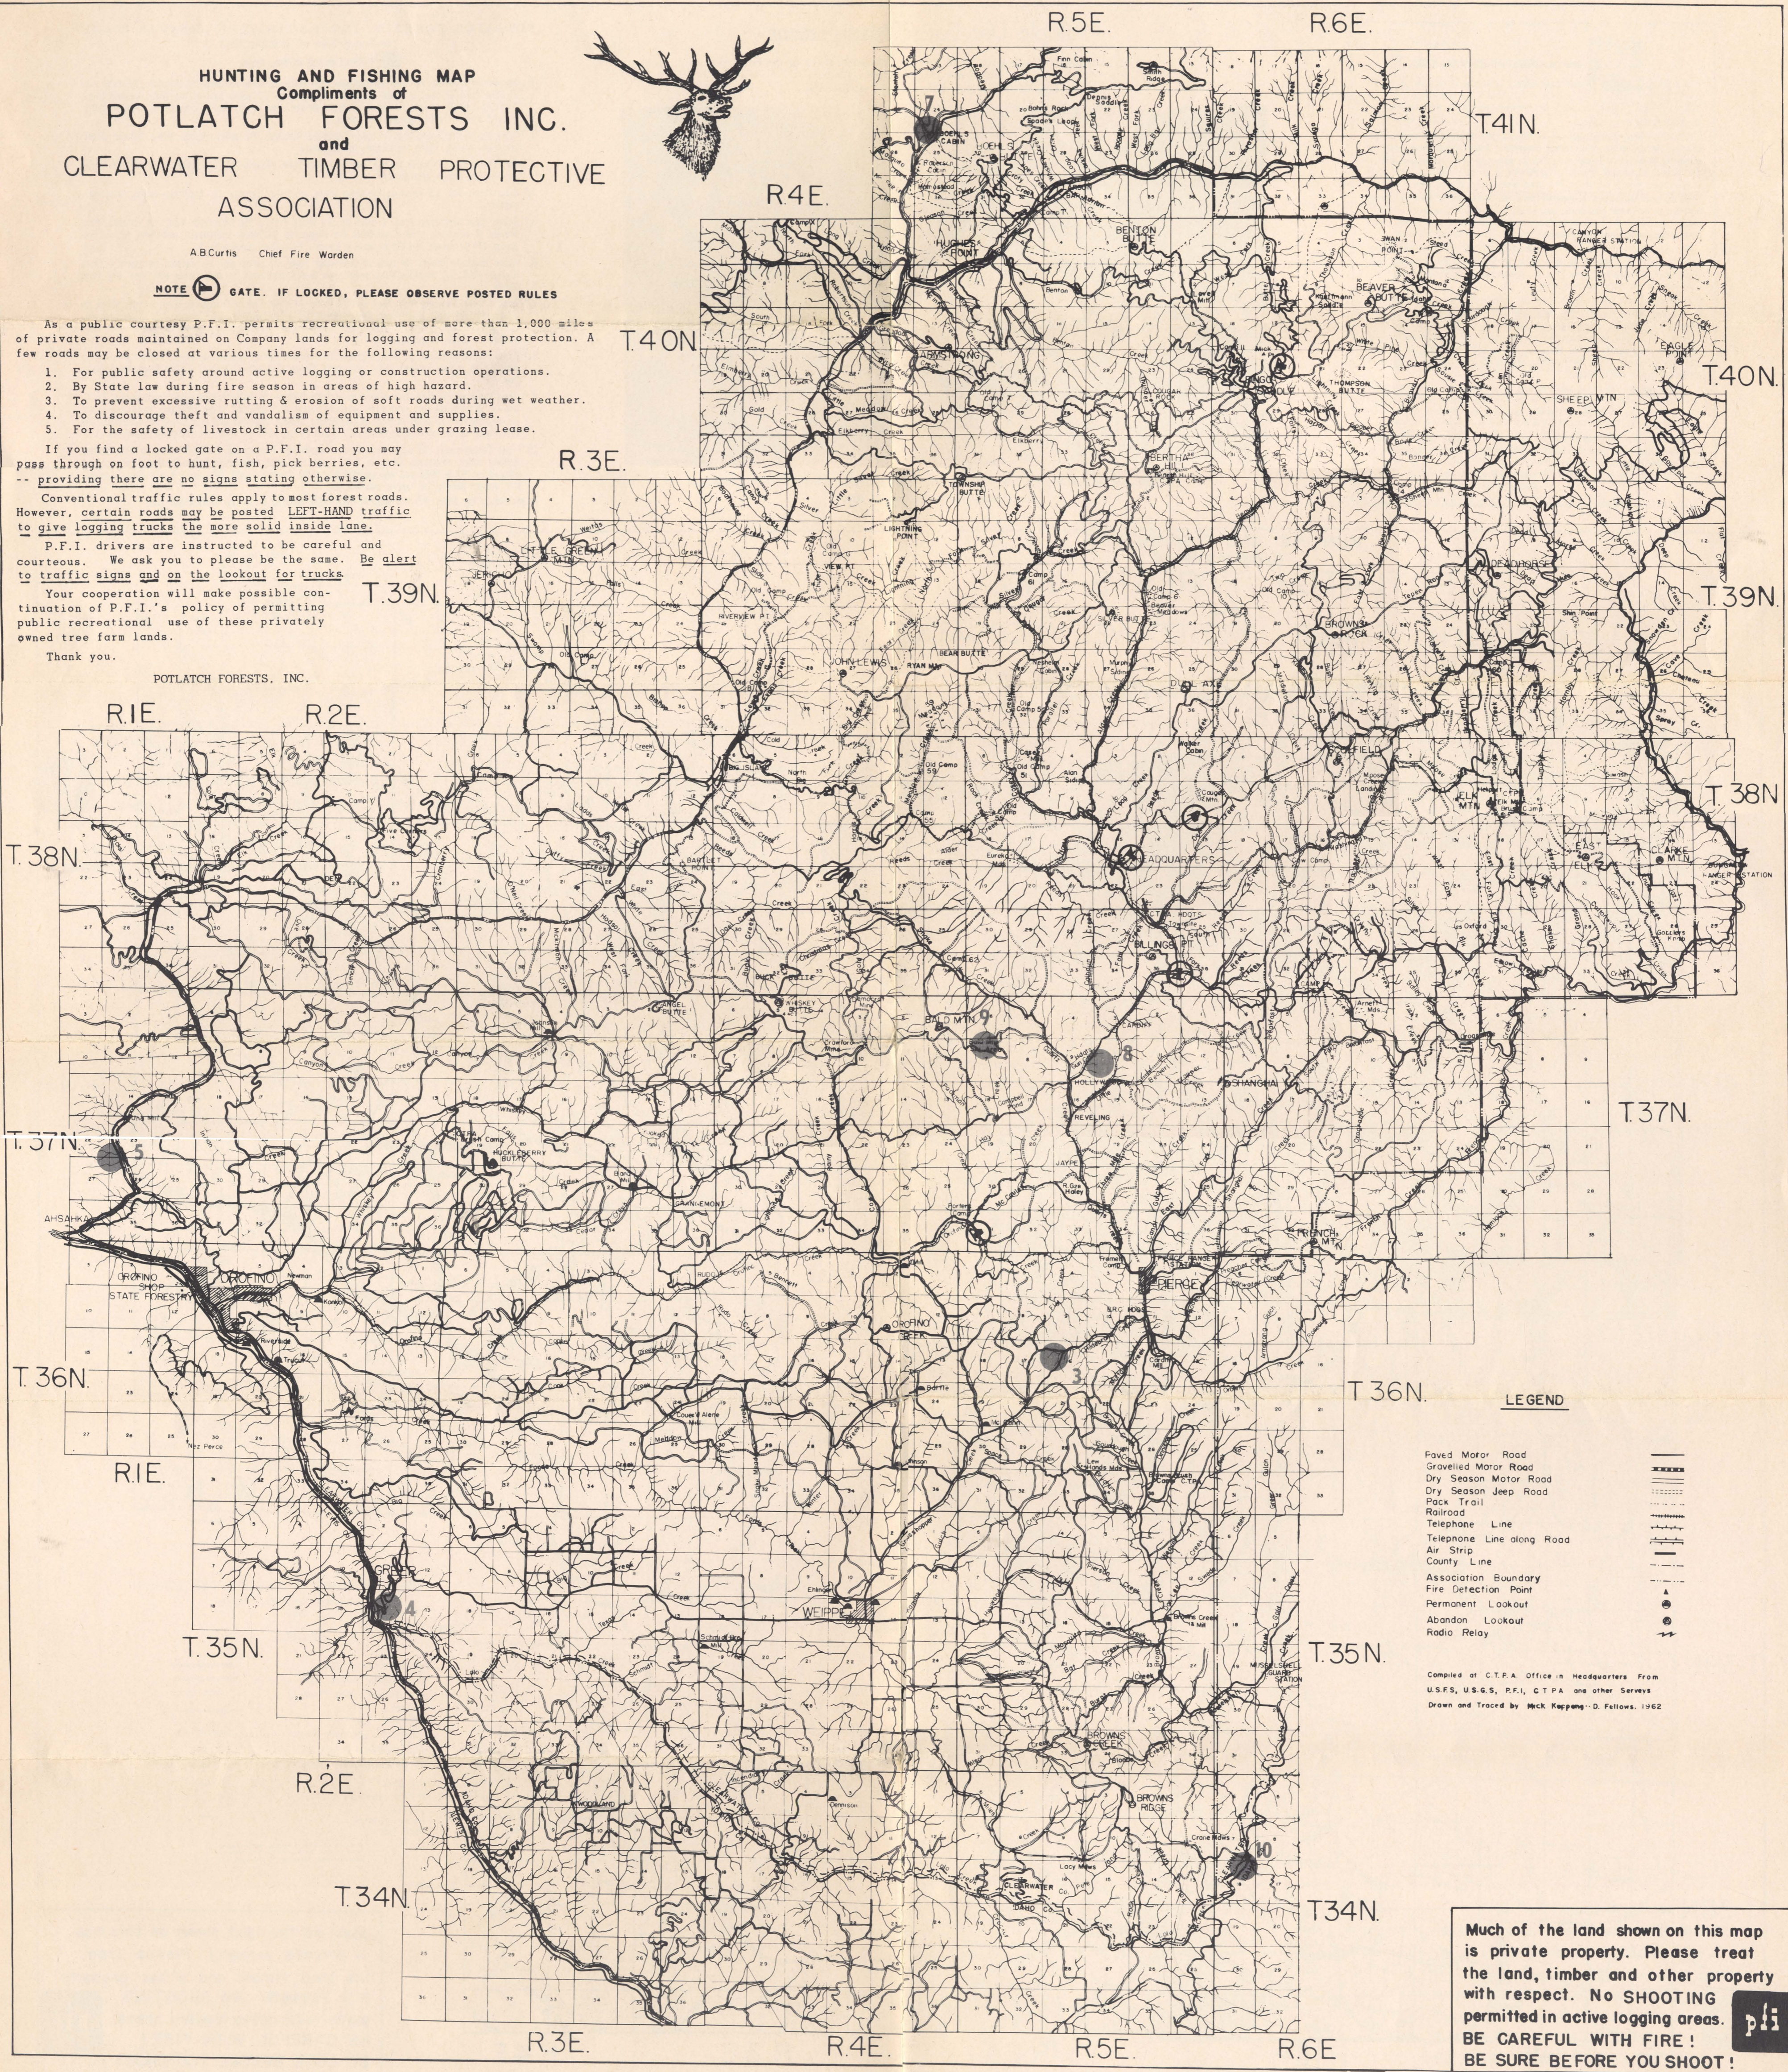

Conventional traffic rules apply to most forest roads. However, certain roads may be posted **LEFT-HAND** traffic to give logging trucks the more solid inside lane.

P.F.I. drivers are instructed to be careful and courteous. We ask you to please be the same. **Be alert to traffic signs and on the lookout for trucks.**

Your cooperation will make possible continuation of P.F.I.'s policy of permitting public recreational use of these privately owned tree farm lands.

Thank you.

POTLATCH FORESTS, INC.

LEGEND

- Paved Motor Road
