INTRODUCTION

This Directory of Idaho Wood Products Manufacturers has been prepared to assist in marketing the wide variety of wood products produced in the State of Idaho. It is our intent to list all wood products producers in the State that are interested in making their products and services available to potential customers. Companies listed range from primary wood products manufacturers to specialized niche product producers. Data published in this directory originated from several primary and secondary sources. The source(s) for each listed company is provided as a numeral(s) and corresponds to the following source key:

1. Database Publishing Company (1997), *1998 Idaho Manufacturers Register*, Anaheim, California: Database Publishing Company.
2. Gorman, T.M., F.G. Wagner, and D.P. Wichman (1997), *Directory of Idaho Wood Products Manufacturers*, Miscellaneous Publication 19 (revised), Moscow, Idaho: Idaho Forest, Wildlife and Range Experiment Station, 89 p.
3. Miller Freeman, Inc. (1999), *Directory of the Wood Products Industry*, San Francisco, California: Miller Freeman, Inc. [CD-ROM].
4. Random Lengths, Inc. (1998), *1998 Big Book: The Buyers and Sellers Directory of the Forest Products Industry*, Eugene, Oregon: Random Lengths, Inc., 1044 p.
5. Southern Lumberman (1999), *A Reference of American Sawmills*, Franklin, Tennessee: Greysmith Publishing, Inc. (vol. 260, no. 13), 311 p.
6. Shook, S.R. and F.G. Wagner (1999), *Inland Northwest Forest Products Research Consortium Industry Survey*, Moscow, Idaho: Department of Forest Products.
7. Shook, S.R. and F.G. Wagner (2000), *Directory of Idaho Wood Products Manufacturers -2000*, Miscellaneous Publication 21 (revised), Moscow, Idaho: Idaho Forest, Wildlife and Range Experiment Station, 105 p.
8. Random Lengths, Inc. (2003), *2003 Big Book: The Buyers and Sellers Directory of the Forest Products Industry*, Eugene, Oregon: Random Lengths, Inc., 1024 p.
9. Belingeri Oyarce, Carla D., and S.R. Shook (2004), *Inland Northwest Forest Products Research Consortium Industry Survey*, Moscow, Idaho: Department of Forest Products.

There are two sections to this directory. The first section is an alphabetical listing of all Idaho wood products manufacturers and merchant wholesalers of wood-based materials. This section also contains summaries of company operations, including information concerning products produced, species used, services, marketing, and company size. The notation DNP after a heading indicates *Data Not Provided*.

The second section of the directory categorizes each company by the products it manufactures. The location (city and county) of operation follows the name of each company. Note that several companies are listed in multiple categories. This format makes it easier to locate the companies that manufacture specific products of interest.

While every effort has been made to identify and contact all of Idaho's wood products manufacturers and merchant wholesalers, some companies may have been inadvertently overlooked. We would appreciate learning of any additions or changes that you feel should be made to information contained within this directory. Information that you provide will be used to update future revisions. Please contact us at:
