MR. DUBOIS IN CONGRESS.

The Stars and Bars of Lewiston quotes as follows from the Boise Statesman: "The pretense in the stereotyped mass meeting resolution that Mr. Dubois agreed not to oppose annexation and thereby got his party vote in Nez Perce or Idaho counties, is a delusion and falsehood, which will only delude and fool the falsifiers who vote such a resolution as a truth. They know and so does everybody know who took any part in the election two years ago, that Dubois opposed annexation in North Idaho in every county, and was frank to say so in Nez Perce and Idaho counties, and he was given credit by the press of those counties for being honest and fair in his opposition, and the Republican annexationists worked hard against Dubois on that ground in both Nez Perce and Idaho counties. The good citizens and honest voters of North Idaho will give Dubois credit, whether they agree with him or not, for his manly and open handed position on the annexation question two years ago and ever since."

To which the Lewiston paper replies: Whether the above is true depends upon the methods which Mr. Dubois has used and the manner in which he has fulfilled his pledges. If Mr. Dubois has done as he said he would do, he at least is honest. Has he? The people of North Idaho are interested in this question. He said in his speech at Moscow and which was published as a pledge to the voters that he would not oppose their wishes on annexation. The people of Moscow cast 375 votes. Of these 368 were for annexation and 7 against it. The people of Nez Perce county voted about 1500 for annexation to 50 against it. Can an honest man with ordinary intelligence, doubt what the wishes of the people of the people are upon annexation? Mr. Dubois knows it and he has opposed annexation when he knows that the people to whom he made these pledges are in favor of it. He has broken his pledges and he is not therefore an honest man. But how does he do this? He does not come and say that he would not oppose the Haley bill. That is not what he said. He said, I will not oppose your wishes. He did not say, I will not oppose the Haley bill. He either does not know enough to express what he meant or he is dishonest. He says he said one thing when all our people know he did not say that thing at all. He is dodging. It is not honest.

Again he said the people have changed their views on annexation. He knows that they have not. He and certain others who labored with him in Nez Perce county deliberately conspired to entrap the people. They said, oh, we have talked too much about annexation. Let us stop talking and send someone to Washington to advocate it. With this scheme in his mind he said when he made that speech, I will present anyone you send to advocate your views, to the committee in Congress and will see that you have a fair hearing. He then expected that his partner in this treachery would be the one to come to Washington and together they would sell out the people. But the people did not send him. However, they succeeded in quieting the outcry of our people for annexation, and having done that, he said to Congress you hear no more about annexation. The people have changed their minds. When Senator Stewart proposes to let the people vote on it, Mr. Dubois knows he has not been honest and he opposes the proposition to allow them to vote. Mr. Dubois has not been honest with us.

The Salt Tribune says some important discoveries have lately been made in the country Southeast and Northwest of Nampa. In a line between the lower end of Boise River Canon, above Boise City and White's Ferry on Snake river there is an appearance of Boise river once having run across the peninsula there, and the country having since been filled in with lava, etc. Along this line four caves have been found. Two up near Boise river, and the others near Snake river. These caves are large and have been explored but little. As a strong current of air comes out of the entrance to these, and animals go into them it is pretty certain that there are currents of water in their depths.

Mr. Grumbling of Nampa lately went into the one nearest town, only five or six miles away, and describes it as having large chambers. He went down on a rope ladder thirty-five feet and found parts of a skeleton of a human being. A party that preceded him had carried off the skull. It was thus impossible to tell whether it was a white man or an Indian. A party is to make a more thorough exploration of the cave in a few days.

The Stars and Bars of Lewiston says "Martin Wessles handed us a sample of wheat and oats, of this year's crop on Big Potlatch. We are not surprised to see rare specimens of the cereal productions of the Potlatch agricultural garden. Crops never fail up there, and in the vegetable and fruit line they can raise an exhaustless home supply. The grain yield on the Potlatch is simply enormous. It seems to increase from year to year, the result, as we suppose, of more thorough cultivation. The Palouse country is a fine grain producing section, but it is not equal to the Potlatch; neither has it the mildness and uniformity of weather temperature. But to acknowledge the superior advantages of the Potlatch is not disparaging to other portions of North Idaho, as the beauties and benefits of that garden of Eden are exceptional among the bountiful gifts of Nature."

I. O. O. F. REUNION.

The grand reunion of the Independent Order of Odd Fellows headed by the Patriarch Militant of the order, which opened at Cincinnati, July 24, was perhaps the largest gathering of members of this influential organization ever held in the United States. There was but little parade about it and all the preliminary arrangements, so far as the general public is concerned, were of the most unostentatious character. As there were in the neighborhood of 100,000 members present in the city at that time, the community was stirred to unwarranted excitement and interest in the proceedings of such a vast assembly of men. The reunion lasted four days. The inspection parade and review of the cantonment, when over 30,000 Odd-Fellows of the United States and Canada, 30,000 Odd-Fellows of the United States were in line, making one of the grandest semi-military pageants that has ever been witnessed in the West. Prizes amounting to over \$15,000 were competed for in the competitive drills and parades.

Suggestion for the Comfort of Stock.

How many of the readers of this paper have good places for animals to lie down? Nearly all of the brute creation lie down to sleep. If they have to use a hard plank floor any kind owner should see to it that the cold wind is shut out in Winter. Many men wonder why their horses are not supple of limb after they are eight or ten years old. It is not always the hard work that makes the old. Put yourself in the place for one Winter to sleep on any icy floor. Commence in the Summer so that you will become hardened to it by degrees and see where your agility will come in when Spring comes. Don't fall back on the old-time rule to make a horse tough by using him roughly.

It is understood that the Great San Joaquin ranch, consisting of more than 100,000 acres, has finally been sold to an Eastern syndicate, the price supposed to be \$1,500,000. As good as some Geneese ranches.

A large dynamite bomb, containing enough explosives to demolish an entire train, was found on the Chicago, Burlington & Quincy railroad track in Chicago last week. The police suspect Burlington strikers, but they have no clue.

The yellow fever is raging in Jacksonville, Florida. People are leaving the city by every known means of conveyance. Police force has been increased, and patrol the streets day and night. No case of fever has been reported among the Negroes and it is feared they will plunder the city while it is deserted by those fleeing from the scourge.

War in Egypt continues. 600 auxiliary troops under command of Italian officers, have been destroyed by the Abyssinians. An attack was being made by the auxiliaries upon Sagameh. The catastrophe was occasioned by the treachery of native allies, who joined during the fight.

A strange suicide was committed near Spokane Falls on or about the 12th inst. The lifeless body of Wm. O'Dell, aged 45 years, was found suspended to a tree near Hangman creek. Two silk handkerchiefs were spliced, passed about the neck and tied to a branch of the tree. No cause is assigned for the deed. If the poor fellow had to hang, we don't know that he could have made a better selection of a place.

The old Kentucky West Virginia feud has been again reopened between the Hatfield and McCreary families.

General John M. Schofield.

General John M. Schofield, who led to the temporary command of the army, and who will unquestionably be promoted to the lieutenant general rank. He is a native of New York, born in 1831, graduated from West Point in 1853, and in 1860 became a college professor at St. Louis. He entered the army in 1861 as a brigadier-general of Missouri militia, and in 1862 was made a major-general of volunteers. He bore a conspicuous part in the capture of Atlanta and later was with Thomas, in command of forces which opposed the movement of Gen. Hood toward Nashville. He commanded the 23rd Corps of Franklin in November, 1864, for which service he was made a brigadier-general in the regular army. He was put in command of the department of North Carolina and took possession of Wilmington early in 1865. At Kingston and elsewhere Gen. Schofield showed courage and capacity, and while he never rose to eminent position, held always high rank and was accounted a fine soldier. During the war he had complications of 1868, Gen. Schofield was appointed Secretary of War. As a division commander Gen. Schofield has served in all parts of the United States, for several years being in command of the Division of the Pacific, including Washington Territory. He will retire from active service September, 1895.

Germany in Central America.

Germany is now turning her attention to Central America with a view of possibly constructing a canal across Nicaragua in event the United States failing to do so. She has, as is almost everybody, that the Panama scheme will prove a failure, owing to its impracticable character, and the enormous cost of construction, and hence we are aware if Germany will have secured rights in Nicaragua which the United States could have had for the asking. There are grave questions to be asked and answered in connection with the canal project. Should it be carried out, more than any other people, will be affected both from a political and commercial standpoint. With France located at Panama and interests fastened on Nicaragua, we should ask ourselves the question, is there not danger of these two countries sinking into mere dependencies of Franco and Germany, and if there is, whether the United States out of regard for her own safety and that of her sister Republics should not take steps to prevent it. A canal will surely be built, and it lies with Americans to say whether not it shall be built by Americans and with American capital.

At Nimes a man 75 years of age last Sunday murdered his wife and son. He had six children, so the account says, and so set them up in the world he had been some years ago prevailed on by his wife and children to sell a home. He soon regretted having done so, and gradually fell into a morbid state of mind. He dined with his wife and one son on Sunday and showed a good deal of ill will toward them. Shortly after dinner the old man whose name is Crespe, followed them and without saying a word, stabbed his wife in the back to the heart with a knife. She fell dead on the spot. The son sprang to interfere; but he, too, was struck down dead with the same weapon. For this cold blooded double murder, Crespe was arrested. Far from expressing sorrow or repentance, he told the police commissary he could not feel satisfied because he had only killed his wife and one child and what he wanted was to kill all his family.

James H. Hawley has been nominated by the Democrats of Idaho for delegate to Congress.

United States Attorney for Idaho, is a gentleman of high legal standing and will run ahead of anything the Democrats could have trotted out.

Sam Johnson's steam thrasher was humming away in this neighborhood the past week, and we understand has done some fine work.

We hope the thrashers and farmers will send in reports of the number bushels threshed and the number sacks out, so that we may report to the farmers what this country can do in the way of grain raising.

Don't be misled by reports; no other country can produce as much as this.

Now that the country is young and the best men should be selected for the various offices, we have no man in this district who ought to be overlooked.

It is a matter of course that we have had here a number of years, and we are convinced that the country is becoming more and more successful in agriculture.

We know whether they are successful or not, but the conversation of the farmers is the most interesting.

The farmers are becoming more and more patriotic and are doing more for their country.

Parties will please get their papers at the post office in future that no mistakes may be made.

An Entertaining Firm.

Among the representative and enterprising firms of Moscow is that of M. J. Shields & Co.

Mr. Shields is a native of the Green Isle, and with that genius and business sagacity only known to his countrymen, he has continued to prosper and increase his business facilities from time to time until today he can boast of having one of the most thoroughly equipped hardware establishments in the western country.

Having identified himself with Northern Idaho at an early day he has become acquainted with the needs and wants of our people, and today his stock comprises every conceivable article known to the hardware trade.

Our reporter was invited to look through the several departments of his establishment and took occasion to note a few of the leading features, as follows:

Stoves and tinware in endless variety, builders' hardware, house furnishings, paints, glass and oils, agricultural implements, pumps, belting, ropes, plumbers' goods, iron for blacksmiths at wholesale or retail, hard wood furnishings for wagons and buggies, also carriages, phaetons, hacks, spring and road wagons of the most substantial build.

This firm retain only obliging clerks and your wants will be most promptly supplied by giving them a call.

The President's Message.—The U. S. Senate refused the other day to act on the Fisheries Treaty and the President at once sent a Message to Congress asking that a law be passed granting the Executive power to protect our fishing industry from the abusive caprices and whims of the English authorities in the Canadian provinces.

The message shows our government has admitted \$270,000,000 English merchandise to pass through our ports free of duty.

Canada has even gone so far as to impose a toll on all our boats passing through the canal.

The President proposes that all such indignities to American citizens shall cease, and he is correct.

The thermometer is running up the nineties, yet the people seem to stand it out of doors as well as in and the more you talk about the heat the better it gets.

The town hall is a certainty.

When will that church be built? W. J. Herman has a pretty little house up on the hill.

Wheat, this year's crop, is worth in this market 54 cents. It will be better than that.

Dr. Cox is busy all the time and it's because he advertises in this paper. He reports no dangerous cases.

Charlie Miller has finished putting in the kettles, piping and flues in the brewery, and it is a good piece of workmanship.

It is hard labor to keep track of the buildings, if we fail to notice any, it's not our fault. Come and report and you will be noticed.

The convention at Moscow two weeks from today, has some important work to do. That fact will not be overlooked.

Farmer Jain will thresh his grain on Monday, the 3rd, and has quite a lot to spare. He is one of our substantial growers.

The fruit in the Potlatch country is as fine as can be. Mr. Hans Knudson near town also has a young orchard of fine fruit.

Let it not be forgotten that Al. Harris in the "loss" shoe maker in this upper country. And there is no machine work about his shop.

Sabbath School each Sunday at 2 P. M. A cordial invitation and a hearty welcome given to come and give a helping hand in this noble cause.

Louis Levy & Co. will move into the Hodgins building on Monday or Tuesday. Then look out for a grand rush when they put their ad. in this paper enumerating prices.

Did you ever notice a tramp? When he is hungry, he's as meek as a lamb; when he's filled up with grub, he's more independent than a millionaire. That's tramping.

This is said to be the longest hot spell ever experienced in Northern Idaho. The thermometer is running up the nineties, yet the people seem to stand it out of doors as well as in and the more you talk about the heat the better it gets.

Estimates of the grape crop have been made, but they are necessarily imperfect.

The quantity of table grapes, which are marketed in the state and at Eastern points does not seem to be taken into account, except in a general way, although this is a very profitable and important branch of the grape-growing industry and brings in a large revenue to vinticulturists in various parts of the state.

The yield of wine is placed at sixteen million gallons, and of brandy at from four to five million gallons; and one million twenty-two pound boxes of raisins will probably be cured.

Preferred Special Sales.

On account of removal to the new town, we propose to sell goods for next thirty days at lower rates than ever.

L. Levy & Co.

City and Country Local News.

It is hot weather. Friday was very warm, mercury dangling away up in the nineties. Heap sweat.

Mr. Dittmore is doing well in the law business. Maxwell & Dittmore are a team and don't you say otherwise.

Capt. Hodgins would make a fine run for legislative honors if he could be induced to accept the nomination.

We are a little late, about five hours, but the quality and quantity of the news will suffice for the discrepancy.

Our stage proprietor, C. A. Lundy, Esq., was married a few days ago at Pataha to Miss Hannah J. Throssel. Lundy and his young wife have our best wishes.

John Luy, the carpenter, has begun the building for Mr. Grimes just below Rosestein in Sawtooth street. He is a ruster and so is "Father" Grimes.

The house of Mr. Steltz in the West end and that of Mr. Peterson on the hill in the East end loom up in quite a showy manner. Genesee is going ahead in grand shape.

The Schutte Bros. have leased to Liame & Aesly, blacksmiths, a piece of ground in the rear of the saloon where the firm will immediately move their shop.

The brewery is about ready to get down to business. Geiger & Kamibich deserve well for putting up such a fine building. Go to work on Monday morning and witness the grand opening.

Dr. J. T. Price, a practitioner living near Walla Walla, W. T., is the guest of Dr. Cox of this place. The doctor has great faith in the future growth and prosperity of Genesee.

Dr. E. L. P. Ector, surgeon dentist of Moscow, is one of those genial spirits that does a man's soul good to meet. We found him busy, but he says he intends to visit our thriving town at an early day.

A niece of Mr. C. F. Burr has been visiting his family from the Falls city. Mr. Jones, a brother-in-law, is also here with a view of locating and establishing a jewelry store.

"Billy" Denny has been very ill at his room at the Latah hotel for several days. There are numbers of cases of dysentery in town and country, but none, however, have proven fatal, we believe.

Thanks to those Moscow gentlemen who have sent us a little advertisement. Moscow is a beautiful little burg, but will never be to the town Genesee is sure to be very soon. We invite some of the business men to come down and locate.

Mr. Kane politely asked one to cut a few sticks of wood until breakfast was ready and he said he was not running an elementary institution, the tramp left disgusted. Now that we have a jail, when such fellows come around put them in, it until they agree to go earn a living.

The cards of Messrs. Shields & Co. and Frank Yangel, the first dealers in hardware, etc., the latter a fine merchant tailor, appear in our columns to-day. They are good business men and we can recommend them too.

Mr. E. J. Langdon, who has served the people of this and Nez Perce county faithfully and well in the capacity of Sheriff, will be in the city on Sunday and Monday. Old friends and acquaintances rallied around him and gave him a hearty grasp.

Mr. Ole Frisk, the man who has been operating a brick yard here, skipped out the other day, leaving everything behind to be attached by an officer for debts contracted by him and given him a hearty grasp.

Don't forget the primaries on Saturday.

Turn out and do your country service.

Jacobson has again done a good job by finishing up his addition and putting in new counters. He is also trying to keep up with the procession.

Jacobson, the ruster, has sold more groceries than all the government mules in the country can pull. Why? Because he sells cheaply for cash.

This office has been the center of attraction the past few days, owing parties having legal business with Mr. Dittmore, who has office room here at present.

Dr. Frye and Brown of Moscow, were here a few hours the first of the week. They will return the 13 inst. to practice their profession, and would be pleased to see all needing first-class dental work.

Mr. Larabee has fitted up two neat little rooms between this shop and the hardware store, which are occupied by Mr. Grimes until the completion of his residence just above Dr. Cox's office.

H. K. Barnett buys wheat, barley and flax and pays the highest market price for same. He is selling general merchandise at low prices and asks the farmers to call around to see.

J. F. Edwards hauled to Cameron Bros. & Larabee at one load 2,738 feet of green lumber with four horses. Edwards is a hustler, but he can't prove this statement by more than four witnesses.

L. Stannus, the Lewiston ruster and candidate for Sheriff on the Republican side of the house, was here this week. Gentlemen, we want it distinctly understood that you can't get any votes over here.

R. S. Woodley of whom we made mention as having such large grain, has a bran new 12 pound boy at his house. Woodley was seen trying to lift himself by the boot straps and says it's no trouble at all to accomplish the feat.

The Washington and Idaho fair will open at Spokane Falls on next Monday, September 3d, and last until the 8th. It has been thoroughly advertised, and many exhibits have gone from this section. We predict the fair will be a success in every particular.

Diphtheria is spreading in Palouse City. An emigrant came there sick with the disease and many have since died. Persons should be very careful in passing about that they are not exposed to the contagion. The premises ought to be thoroughly and cautiously infected.

The fellow that pens these lines, Capt. Steen, Ray Arzant, John Bymaster and Ed. Stone, took a little spin the other day down to Fred Schutte's fish ponds and caught quite a nice string of the beauties. Capt. Steen made the trip in 15 minutes, with the assistants he selected.

A Genesee dude came into our sanctum He had a rooster. We kind of thank you. With our office club we gently plunkum over the top of his phizirankum. He swore an oath which sounded like blunkum and gased as like a dinged old crankum, and then there was a vacancy in our sanctum.

Two or three tramps were seen crawling out of a box car at this place a few mornings since. They scattered and went to different houses, begging something to eat. Mr. Kane politely asked one to cut a few sticks of wood until breakfast was ready and he said he was not running an elementary institution, the tramp left disgusted. Now that we have a jail, when such fellows come around put them in, it until they agree to go earn a living.

John Bynmaster, candidate for Sheriff of Nez Perce, was up a few days ago interviewing the boys and girls of Genesee. He is a very quiet, easy, sensible man; appreciate; but it is whispered that he was an enthusiastic and confident of success. He chattered some of the boys who live just across the line in this county a couple of days before the mistake was disclosed to him. He is popular and will make a gallant fight.

I. N. Maxwell, Esq., who has been for years the leading attorney at the city of Lewiston, has established a branch office among his old friends and clients at Genesee, the metropolis of the new county of Latah. Mr. Maxwell has been practicing law for many years, and is almost every man in North Idaho as an able and successful lawyer, and his many old time friends will be pleased to know that he is so popular and will make a gallant fight.

It seems that we are to have a new town hall. Mr. Elliot has been agitating the matter, and parties have agreed to take stock in the hall to an extent sufficient to secure the building. We hope the names will be added to the list which is now being

Extract of a Welsh Sermon delivered by Rev. S. J. Bassett. ACTS FIFTEENTH CHAPTER, 30 VERSE. WHAT MUST I DO TO BE SAVED?

1. Suppose a heathen to put the question: "What must I do to be saved?" The only response would be the echo of his own voice. The oracle of Nature, education, arts, science and philosophy can give no reply.

2. Suppose a lost soul to put it. The sound of his voice would come back from the sides of the pit in mocking echoes—"What must I do to be saved? Memory may reply: The Summer is ended, the harvest past, and I am not saved; or, some taunting fiend may mutter: Too late! too late! too late!!"

3. Suppose one of my congregation should, with an honest heart and solemn purpose, to obey this divine voice, to obey the question to this momentous question there is an answer, divine, authoritative, satisfactory. But my purpose now is not so much to answer the question as to awaken and justify the inquiry—"What must I do to be saved? What could he say otherwise? What can or what will any man say otherwise; when he feels his foot is upon the very threshold of the unseen world. Never did the lips of man utter a more momentous question than this. Were the Sun that glared in the majesty about to set from our system, and were the night agitating the question, "What must I do to be saved?" and to us, it were a trifle, indeed every question in our text, the issue and fall of Empires, the rise and fall of Nations, the life and death of men, would die away in silence. We call attention, I. To Anxiety for Personal Salvation.

II. Some Reasons to Justify it. 1. To anxiety for personal salvation. This deep solicitude we owe to ourselves and to God. We are each distinct persons in a vast world of souls. We have the completeness, identity and separateness of immortal existence in ourselves. We are each pursuing our own path to eternity; we will soon have to go alone through the dark valley of Death; stand personally before God; appear amidst the solemnities of Judgment; amidst all the millions there; we will seem to stand apart and be absorbed with one theme—our own salvation. Our health, our property, our reputation are all of importance to us; but of what importance is anything or everything earthly, compared with ourselves, our deathless souls. Here, then, is cause for anxiety. A new inquiry has come up before us, an inquiry worthy every way of our attention. The state of mind indicates serious reflection. The profoundest thinkers of our race, and the most labored investigations of the human mind have been employed upon religion. Much of the profound reasonings of Socrates, Plato, Cicero, Bacon, Locke and Paul had reference to religion. Men have asked—Is there a God? Is there a hereafter? Is the soul immortal? Is there a way in which sin can be pardoned. Is the Bible from God? Does it show the way of salvation? What is the way of life? How may we know that we are in the way?

There is then— 1. Reflection on the past. Memory goes back to early history, days of childhood, sins of childhood. As life advances it often darkens; as he reviews life he exclaims: Oh! that past, that terrible past! Nothing of the past is forgotten. There is a book somewhere containing a minute, faithful record. There will be a resurrection not of bodies, but of souls.

2. Reflection on the present, on God, holy, etc., on myself, sinful, on Heaven, Hell, the spirit world, &c.

3. On the future; death; Judgment; eternity; what will be my future home, Heaven or Hell; who will be my future companions, angels or devils; immensity around me; eternity before me; a holy God, with a jealous eye, marking my conduct; no wonder there should be anxiety, solicitude deep and overwhelming.

II. The Reasons that Justify Solicitude for Personal Salvation. 1. My first reason is the value of your soul. Let me fix on one of the attributes of the soul—its immortality. Newton could no more sound the fathomless abyss of man's immortality than could the mind of a peasant. We labor and labor to comprehend it, but it is all beyond us. We can compare a moment with millions of ages, but millions of ages cannot be compared with immortality. A globe of water to the ocean, a single sand or an atom to the globe; but we cannot compare a globe of time to the ocean of eternity; an atom of time to the globe of eternity. All men are immortal; they may be poor, unlearned, but he is immortal; he is in existence, and he may dislike it, he may attempt to end it, but exist he must. You may pass from one world to another; you may change the scene and mode, but existence still continues, still goes on.

What possesses this never dying soul, and never ask and urge the question, "What must I do to be saved?" If immortality could break in upon the human mind in all its grandeur and importance at once, the din of business, the clamor of politics, the career of sensuality, the thunders of war, indeed every inquiry that has engaged the human mind, would die away in silence, and one cry would be heard from every quarter, "What must I do to be saved? In fact, if it were not hidden, and it must in some manner be hidden, the human mind would be crushed under the term.

2. The concern which others have manifested about our souls. The whole universe is gathered in deep sympathy around this momentous subject. For this, back before the birth of time, the Trinity sat in council and resolved the great plan of redemption. Redemption was no after thought; no hasty expedient; a great catastrophe was seen ahead and provided for. What was it that brought the Son of God from the throne to the cross; that led him to take the guise of a lowly servant? The salvation of man.

For what, have we a divine revelation? Why did Patriarchs live Priest ministers, prophets predict, and Apostles preach? For the salvation of man. What are angels gathered for over this assembly to-night? To carry back to Heaven the news of the salvation of a soul. There must be something vast in salvation. What are others asking? What shall we do for their salvation? Will you not then ask, "What must I do to be saved?"

3. What the salvation or damnation of the soul includes. I want to raise you out of the region of trifles. Salvation—one word, but millions of ideas—the pardon of all your sins, acquitted, justified; taken into God's happy family, your nature purified, heart and life made holy; comfort in affliction, hope in death, resurrection of the just, life everlasting; a "blessed heaven; to talk, to live, have fellowship with all holy beings, with Christ and God; light of perfect knowledge, glow of perfect love, rapture of perfect felicity; and all this forever and ever. This is Heaven; this is salvation. Turn to the opposite.

What is Hell? Annihilation? There is no such word in the Bible. Hell is the loss of Heaven, but it is conscious existence, prolonged death—no hope, no light, no mercy. It is the wrath of God, bitterness of remorse, darkness of despair, and all this for eternity. How shall we escape Hell and gain Heaven? That is the question to-night.

4. A multitude of souls are forever lost in our next reason. If ever one soul was lost in a century such a catastrophe should awaken the solicitude of all the rest. How much more than should we be anxious, when it is a much more uncommon thing for a soul to be saved than lost. The way to Heaven is narrow and few in it; the way Hell broad and thronged. Shall we not ask the question, "What must I do to be saved?"

5. The last reason I shall mention is this: The soul of each of man and woman, may be saved. The sound of salvation to a lost adds venom to his misery; but it is not your case. You are not in a man sinking in the water after the vessel has foundered. It rises on the waves and feels a consciousness that another and another, and millions more in endless succession are following him, all he gives up in despair. No, you are in a world where mercy reigns; the arms of Jesus are wide open, the spirit fingers around you. Do you ask the question then, "What must I do to be saved?" you search through the vast universe, the answer—Believe on the Lord Jesus Christ and thou shalt be saved. A satisfactory answer to this question to us is of the highest importance. This is that famous ladder, the hand of God has let down to the hand of man, and by it, every day of old, men have been climbing up. With this ladder, every man who reaches up at its foot, and salvation shall be yours.

LATAH'S GOOD SHOWING.—Assessor C. L. Roberts and his worthy assistant Geo. Langdon, have finished the assessment of the new county of Latah, with the following results: Non-resident on Ass'n't roll... 237 Exempt from Poll tax... 295 Poll tax payers... 1606

Total... 2138 At the last assessment two years ago, of Nez Perce county, which embodied all of the territory of both Nez Perce and Latah counties, the total assessment roll showed a net total of about 2000 names. Now, this county exceeds that by over a hundred, which is a decided good showing. Our efficient assessors, Roberts and Langdon have done excellent work and deserve a great deal of credit on account of their careful assessment.—Star of Idaho.

The Moscow Mirror among other good things says: The man who after gaining the confidence of the people as an executioner and then betrays them to Sweet for Debois is a traitor to his friends and has dug his political grave.

The Stars and Bars very properly says that Hon. John Hally is an honest man. When he said he would stand by annexation he did as he said. When he said he wouldn't, he didn't. The Assessors returns are being examined by the Board of Commissioners. Latah county has about \$2,000,000 worth of property. The amount raised by tax will be about 35,000. There are about 2,000 tax payers in this county.

WHAT is the matter with Our Stars and Bars?

We would be pleased to have that spicy little sheet come to us.

The Q. CONTEST.—The difference between the C. B. & Q. management and employees is the most obstinate struggle in the industrial field that has been seen for years, and yet it is between a body of shrewd railroad managers and the most conservative labor organization in the country.

Ten millions in the loss to the Burlington road, and one hundred and fifty thousand dollars loss is sustained by the Brotherhood of locomotive engineers, besides twenty-seven hundred men are thrown out of employment.

By reference to another column it will be seen that a Real Estate Agency has been opened here, where those wanting to sell property can leave a description of the same, with location, price, etc., and if possible, we will find buyers.

Parties will notice that we charge nothing for advertising their property for sale, and if no buyer is found we get nothing for our trouble; but in case a sale is effected, a small per cent. will be charged on gross advertising purposes.

We invite those wanting to sell, to come and see us. It will cost them nothing if we don't find a buyer.

NEW GENESEE ON TOP.

Last Monday the annual election for one school director in each district took place.

Two candidates were put up in this district—Mr. Walby of the old town and Mr. G. J. Parker of Genesee. Quite a lively contest between the two factions was imminent in the early part of the day, and each rallied their forces.

Forty-five votes were polled and Mr. Parker received thirty-six of them; Mr. Walby five. Mr. Parker's majority is a very flattering one. He will do the right thing by the people and the school interests. Now, we sincerely trust that those who oppose the interests of the new town, if there be any to-day, will fall into line and help this side.

All the business here and nothing can now be gained by continually fighting. Both factions might be injured.

OUR NEW TOWN HALL.

The new town hall spoken of in our last issue is an assured fact. Mr. Elliot, the gentleman who will have it built, getting the lumber on the ground as fast as teams can haul it.

Several gentlemen have lent themselves to rent the hall as soon as it is completed, while others have signed an agreement to bear an equal portion of the rent should the income be insufficient to pay it.

The hall will be 30x56 feet, two ante rooms 12x12 each, two double closets, making four separate closets 6x6, elevated platform in front end of building 12x30, three feet high for theatrical purposes, with door leading out on balcony, platform on each side of hall full length, 2x6 feet wide, 8 inches high; ceiling a model hall, worthy a town of more pretensions than this one, and which will be opened for all legitimate purposes at a reasonable remuneration.

THE HAILEY CONVENTION.

A convention of Republican from South Idaho assembled at Hailey last week and re-nominated Mr. Dubois for Congress.

Of the five counties that comprise North Idaho, three sent no delegates to the convention, the fourth—Latah county—sent delegates instructed to support no one for nomination who was opposed annexation, while the fifth—Shoshone—sent a Dubois delegation appointed by the Central Committee of that county.

Mr. Dubois is, therefore, the candidate of the Republican party of Idaho Territory, but of that portion of it that is in South Idaho, the anti-annexationists of South Idaho have made this issue the controlling one in the selection of their candidate. From their standpoint they have displayed magnificent ability.

Dubois is the head and front of the anti-annexationists of Idaho. Anti-annexation is dearer to the hearts of the Republican politicians of South Idaho than the success of their party, therefore they have preferred to start the campaign with a divided rather than a united party.

Of course, no Republican in North Idaho, who favors annexation, will vote for Dubois, whose election will mean the absolute destruction of the annexation scheme, says the Review.

Independent Order of Odd-Fellows.

On Tuesday night a number of Odd-Fellows at this place met at J. C. Martin's shop for the purpose of taking preliminary steps toward the organization of a lodge.

There were present J. C. Martin, C. F. Burr, Wm. Harris, J. S. Larrabee, T. Kennedy and the editor of the Review. The meeting was held in a room in Baltimore in May, 1819.

Another meeting will be held at this office on Wednesday night next, September 12th, for a more thorough organization, at which all Odd-Fellows interested in the establishment of a lodge here are requested to be present.

It is proposed to form an Association until such time as arrangements can be made for a hall and a charter and paraphernalia can be procured. Let all come up and help put the organization on foot.

Getting a Home.

There are two important steps to be taken by every young man who has to depend upon his own exertions for a living.

The first is to get some occupation which he can depend upon in after years for his support.

The three or four years of learning a trade are to most men years of privation, which they are compelled to pass since the most rigorous business training is not given until after the age of twenty.

During the period of apprenticeship, the young man must be able to support himself, comparatively easy of accomplishment. A wage-worker, in the possession of a good trade and a comfortable house to live in, is on the high way to competence.

The greatest obstacle to the steady advancement and prosperity of the sober mechanic is the constant drain which the landlord makes upon his income.

The man who earns from six hundred to a thousand dollars a year has to pay from one-fourth to one-third of his wages for rent, if he wishes to live comfortably.

Even at these figures the house furnished in the larger cities is very deficient in the amenities, especially as regards sanitation and sanitary arrangements.

The demand for dwellings of the character best suited to mechanics is always in excess of the supply, and rents have been steadily on the increase.

It is plain therefore, that the first step towards independence is for the mechanic to own his home.

If he has to pay out in rents every ten years as much money as he would secure for himself a home, there is but a slim chance of his ever accumulating much money.

The true policy is to obtain a home either before marriage or while the family is small and inexpensive.

If the task is delayed for ten or a dozen years the chances are that it will never be accomplished, while a wage-earner becomes his own landlord he can save a sum annually at least equal to what his rent would be, and this continued for a number of years must result in a competence if a judicious use is made of the money.

It may not be possible for all mechanics to obtain homes of the best, but those who do not wish to continue renters all their lives could do so if they would only make an effort. It requires some degree of self-denial to accomplish the result, but once attained it removes the chief obstacle to steady accumulations which are the foundations of all fortunes, great or small.

It would be well for the young men of Genesee and surrounding country to make a note of these facts and profit by them.

Von Moltke's Retirement.

The retirement of Von Moltke from active service in the German army is an event which should not pass unnoticed.

It probably marks the close of the active career of the foremost soldier of his time and one of the most able and profound strategists that the world has ever produced.

It is difficult to assign to Von Moltke his proper place among the great commanders of history. In temperament as well as in method he was essentially different from those with whom he must be compared.

In every game there are elements of skill and chance, and the success of war is no exception. In the success of many soldiers whose recorded deeds occupy considerably more than half a page of the world's universal history, chance was a conspicuous factor.

The incompetency of opposing commanders, the state of the weather, or a failure on the part of a subordinate to carry out the instructions given him, has won for many generals a high place in the regard of the world, but with the success of Von Moltke such chances had little to do.

With him war was reduced to a mathematical science, and his plans were successful because he always had a superior number of soldiers at the critical point at the right time.

It has been said that the presence of the great Napoleon on the battle field was equivalent to a reinforcement of fifty thousand men.

It has never been said that the presence of Von Moltke was equivalent to a single regiment, for his plans could be carried out in his absence as well as in his presence.

By a series of well earned promotions extending over almost half a century he found himself at the head of his country's history at the most marvellous German staff, the most marvellous world has ever seen.

Through years of close application he had elaborate plans for every probable campaign and it remained for him and those under him to carry out those plans as a scientist would apply a mathematical rule.

There was nothing of dash, nothing of personal magnetism, in Von Moltke's methods. When a campaign was to be undertaken the plans were ready, the perfectly trained officers of the staff were prepared to execute them and a countless army was at hand to do the minor work of fighting.

It remained only to apply the formula, laid out at the right time and to follow the designated roads to the enemy's capital.

In Von Moltke's plans were carried out to the letter. The army of Frederick William marched on the field of Sadoma at precisely the right time and the Austrian army was overwhelmed by superior numbers.

The march to Paris took just the number of weeks that it was expected to take, and the French army was destroyed precisely according to programme.

Where war is reduced to a science, as exact the actual presence of the author of the plans is of little importance.

Indeed, unless some unexpected revolution in the art of war takes place, it is probable that German armies will be fighting campaigns according to Von Moltke's plans long years after his body has mingled with the dust.

His work will live after him in sense which is true of that of no other soldier of history.

There have been greater sovereigns than William I. There have probably been greater diplomatists than Bismarck and greater commanders than Von Moltke.

But the world has never seen such a method of war as that of which these were the members.

City and Country Local News.

Miss May Vernon, formerly of this place, was married in Madison, Wisconsin, last week. Mr. Ruddy, live liveryman, was the recipient of some of the wedding cake, and this editor ate a piece.

NOTICE.—Our attention has been called to a petition signed by the voters of School District No. 2, asking that a meeting of said District Board be held on Wednesday, Sept. 20, for the purpose of re-locating said school house or to divide said District; also to transact any other business that may legally come before the meeting.

R. H. Howe and wife, J. H. Howe and wife and Mrs. Ritchie, the former of Lewiston, and the others from Portland, Maine, arrived safely here. The senior Howe was presented with a nice residence upon his arrival in Lewiston. Good. He is the father of Hon. J. M. Howe, of Lewiston.

THE GENESEE ADVERTISER, edited by J. L. G. Mays, brother of Rev. Mays, of Pomeroy, is before us and after looking it over carefully we find it a neat, spicy and interesting little journal, destined to grow up with the country. Success be with it.

The above is from Charles Besser's paper, the Daily Journal of Walla Walla. Besser is the best newspaper man this side of Saint Paul, and can appreciate a live journal.

The hotels are full and running over. The Owen House, Latah hotel and Hotel de Harris are crowded all the time and it is with difficulty a person can get a bed. But still they come.

Dr. Cox was called to see the patients of Dr. Wiley at Uniontown, the latter being sick. Dr. Cox reports Mrs. Kemper, Mrs. Grife and Henry Herman doing well.

Dr. Cox reports the births of a girl at the residence John Neilson and John McGee. We congratulate the gentlemen, but would give them a better puff if the new-comers had been voters.

Jimmy Traynor and W. S. Bradford have been on the sick list the past eight or ten days. They are out now, but weak.

Judge Buck was in town two or three days since, making arrangements to have his nephew dispose of the lots he has for sale.

Capt. Kane lost a hog valued at \$15. He shed tears, but the immense patronage he is receiving is a panacea for all trouble and vexation of spirit.

E. E. Larrimore, who has been doing business for Frank Bros., and Mr. Fleming, is here to remain. Mr. Larrimore is a nice young fellow and book-keeper for the firm.

A set of upper teeth, found by E. A. Stone just this side of Dick Ruddy's place and left at this office, can be had upon payment for this notice. Ed. says that man had better be careful with his head.

Threshing is still going on in the country, and the yield is abundant; but wheat is down to 58 cents.

Henry McCoy is working on some designs, and will make a nice job for you.

It is getting cold up here and printer's ink won't flow as it might.

Mrs. Mastin is here from Minnesota and stepped into a neat residence prepared by her husband.

At the I. O. O. F. meeting on Wednesday evening Wm. Harris was elected chairman and C. F. Burr Secretary. Another meeting will be held Wednesday night.

The Owen house is the best place to go if you want good grub.

Joe Davenport and Bert. left on yesterday morning for their home at Colfax. Jo's music will be missed.

Dittmore is a poet and composer.

Joe Reil and Kasper's heading crew headed 300 acres in 2 1/2 days last week. That is pretty good heading, and if anyone can beat it, we would be glad to know it. Send in your reports at once.

W. White is here representing H. S. Treberne, C. E. of Spokane. He is a nice gentleman and qualified to get up a nice plan.

Mrs. E. T. Platt is visiting in Wisconsin, whither she went ten days ago, accompanied by the little ones.

Mrs. I. Cooper, daughter of Mr. and Mrs. A. Levy, of this place, is visiting her people. Her husband is in a very lucrative business in Farmington.

Edward Randall, of Aberdeen, Dakota, superintendent Dakota Newspaper Union, was to see us.

We have sold 200,000 cedar shingles in the last month, but there are plenty left at \$3 a thousand. Cameron Bros. & Larrabee.

A meeting of the citizens will be held Wednesday night to ascertain if it is advisable to run a man on an independent ticket, pledged to annexation, as representative. We can give no encouragement to the plan and counsel wise action.

Mr. Harris from San Francisco is here representing some good business houses. Try him once.

Mr. F. E. Moore, recently from Wisconsin and with several years' experience in a foundry, desires to perfect arrangements with parties to establish a foundry at this place. Call on him at the Owen House.

Mr. Fleming is now among us and one of us. Glad he has come to a live town. Other such men are needed. Come along.

J. J. Owen has all the machinery necessary for a thorough tinshop. Charlie Burr assumes control when the boss is out.

Uncle Joe Harris from our sister county of Garfield, in the adjoining Territory, was a visitor here on Saturday. He will buy a farm near Genesee to be near his wife.

We delayed this paper to get the report of the convention. Upon the heels of that we made "pi" of nearly a half page, like the Mirror did on Friday. This other has delayed the paper again, in addition to the patent men sending the wrong date. If any man can do more work than ourself, we'd like to see the color of his hair.

Maxwell & Dittmore have money to loan at 11 per cent.

Mrs. Young from the Falls city, is visiting Mrs. Buckley out at Elliot's farm.

Mrs. Towner has been visiting Mrs. Lucas, her daughter, at the old town.

Charles A. Lundy, whose marriage we chronicled last issue, turns out to be single after all, the Pomeroy papers to the contrary notwithstanding. Lundy read his obituary and knows what his friends think of him.

Mr. Stone, whose family arrived on Friday, has purchased property and will build on the North side of the street running by Christopher's drug store up next the hill.

Unlimited capital to loan on long or short time by Maxwell & Dittmore.

Mr. Grimes has moved to his new residence and business house.

M. Phillips has brought us some fine wheat samples from his ranch up near the mountain. His home is at this place.

The hall is framed up to the second story. It will soon be finished.

A prettier street will never be made in Genesee than the one along which Parker, McMahon, Peterson and others are building.

The sign of the P. of G. looms up in front of Levy & Company's.

A little sprinkle of rain, but not enough to lay the dust.

People coming in and wanting homes had better consult this shop.

Mr. Oliver, the junior of the firm of Lucas & Oliver, the blacksmiths, has made the printer a composing rule which he highly appreciates. As we said before, that firm can do any work, and they will be down in a few days to locate among us.

The Genesee delegation stood for the best interests of the county. Give them credit for it.

DIED.—Saturday night, the little child of Mr. Barker, aged about 14 months. Was buried to-day, at two o'clock, Rev. J. D. McConkey conducting the funeral discourse. The little one had been sick about five weeks and has now passed to the great beyond. Suffering was intense and death was a relief, however much all regret the parting; but there is a time which comes to all when the fevered lips of life long for the cool, delicious kiss of death; which, when tired of the dust and glare of the day, they hear with joy and gladness the rustling garments of the night. Take courage, parents and friends and "be ye also ready." Mr. and Mrs. B. have the sympathy of all in this their new home, separated from kindred and ties which were happily cherished in the Sunny South. May grace sustain them in this hour of sore affliction.

This paper was recognized by the convention as one of the Democratic organs. We are practising now and will play an air "in the future to come," as stated by a delegate. "Dinna ye hear the slogan?"

Bro. Brown, of the Star, is a help and quite an addition to the Democracy of Idaho. He is a rustler, a gentleman and a scholar. We don't know whether he is married or not.

There is a man in town who believes he's qualified for the post-master-generalship. We'll state his case to our friends in Washington and see what can be done. "A hint to the wise" don't need a second in parliamentary law.

Levy & Co. and H. K. Barnett, the live merchants, are doing all the salesmen in both houses can attend to. The reason is plain: nothing complicated about it. Both firms advertise in this paper. Do you sabbie?

E. Ellison, who has come here to locate, is running a wash house across the track from the depot. Patronize white people and let Chinamen alone.

Frank A. Jones, Assessor. That will be a fine signature.

Parker, the Republican nominee, and Jones, the Democratic. They are the salesmen for the mercantile establishment of H. K. Barnett are good men and will run well. Vote your sentiments, "pay your money and take your choice."

THE TICKET.—The Democratic convention at Moscow, nominated the following ticket: Sheriff, Geo. Langdon, of Moscow.

Auditor—L. C. Roberts, Four Mile.

Assessor—Frank A. Jones, of Genesee.

Treasurer—Henry Dernham, of Moscow.

Probate Judge—Roland Hodgins, of Genesee.

School Superintendent—J. W. Lienallen, of Moscow.

Prosecuting Attorney—J. C. Elder.

Surveyor—Art Coleburn.

Coroner—J. L. Brown, of Moscow.

Commissioners—District No. 1—J. S. Randolph, Jamestown.

No. 2—A. Elliot, Genesee.

No. 3—Wm. Gray, Brickaville.

Central Committeemen were appointed as follows:

Moscow—Dr. Blake.

Genesee—Capt. Hodgins.

Pine Creek—A. J. Queener.

Gold Creek—J. L. Miller.

American Ridge—A. S. Chaney.

North Palouse—John Buchanan.

Little Potlatch—J. A. Richardson.

Four Mile—C. W. Palmer.

Gold Hill—John Alexander.

Bear Creek—M. L. McGraw.

Thorn Creek—W. A. Calbreath.

The convention was called to order by Dr. Blake, who was made temporary chairman and J. L. G. Mays and J. L. Brown, Secretaries, and after report of Committee the temporary organization was made permanent.

Mrs. JUDGE BUCK gave a brilliant and logical lecture at Mastin & Steltz's hall on Monday evening to an appreciative audience.

Although the public had short notice of the lady's coming, yet a fair audience greeted her in her endeavors to help the temperance cause.

THE Resolution adopted by the

Democratic convention, declaring in favor of better roads and bridges, should, as it most certainly will, have the endorsement of every voter in the county. Good roads and bridges are a necessity in every community. Which way will you vote?

JUDGE BUCK was in the city this week and made us a pleasant call. The Judge is a strong annexationist, and is for anyone favorable to annexation and to beat Dubois. Judge Buck is a conscientious gentleman and if it is decided to run an independent man in North Idaho, he would have a big following.

IMMIGRANTS.—

Monday night a party of immigrants arrived at Genesee from Iowa. The party consisted of fourteen persons, there being four families named Trueblood, Boylan, Blair and Glidden. Mr. Glidden is a brother to Wm. Glidden of Little Potlatch. They had heard of this country through this paper.

For several days the wires to the different towns in the Panhandle have been in use and the people, literally, in a convention. The result is that they have fully determined to put an independent candidate for Delegate in the field. A formal convention will be held at Moscow and beyond any doubt, Judge Buck will be placed under the standard, with no other platform but annexation. The people have no other alternative, as Hawley the Dem. and Dulois the Rep. are both pledged and in-tacted. It is impossible for us to give the date of the convention, but parties can stand ready to send delegates at short notice. Judge Buck has consented to make the fight or furnish a man that will. This will give these people to impress Congress and Boise tricksters that they are at least in earnest. Hurrah! for Buck and annexation.—Palouse City News.

Since the above has been put in type, we have had an interview with Judge Buck, in which he denies saying that he would run or furnish a man.

The political cauldron over in Washington Territory is boiling and the fur is beginning to fly. Voorhees and Allen are on the go.

PRESIDENT CLEVELAND.—

President Cleveland in his powerful and logical letter of acceptance excels even himself. He fairly and squarely plants the standard of Democracy where it can be seen of all men. There are no doubtful passages liable to double or misconstructions. His letter, like himself, is straightforward and honest, and is a literary gem. He reiterates his convictions on the tariff question, giving in support of his views thereon unanswerable argument. He shows conclusively that the Democratic party in its tariff doctrine is the friend of the people at large, in that it proposes to give them cheaper necessities of life; in fact it not only lowers the price of certain manufactured articles which the laborer is obliged to use but also increases the purchasing power of the laborer's wages.

He declares in favor of a restriction of immigration which crowds "every field of employment with an unskillful labor which ought not to satisfy those who make a claim to American Citizenship" He has here sounded the bugle call which will bring a vast army of young men into the Democratic party. The thinking young man of to-day has already reached the conclusion that America is the rightful heritage of the American people, and have only been waiting for one of the great political parties to espouse that cause; they will now enlist in its ranks.

He arraigns the Republican party, who by their representatives in Congress, flagrantly violated their pledge to the people contained in the platform of 1884, and who now stigmatize the careful and conservative efforts of the Democrats to revise the tariff as destructive of the American system of protection. He arraigns them for proposing to increase the duty on all articles produced here and to admit free of duty all articles not produced here, alleging that such a course would only benefit the rich and foster and protect trusts and combines.

RAILROAD LINE BOUGHT.—

The Northern Pacific railroad Company has purchased the entire system of the Coeur d'Alene Railway and Navigation Company, comprising a number of steamers which ply on Lake Coeur d'Alene and Coeur d'Alene River, as well as twenty eight miles of narrow gauge railroad extending from Coeur d'Alene Mission through the mining regions of that name. The newly acquired property gives the Northern Pacific all rail connection with Puget Sound and the mines in Idaho Territory. The narrow gauge road will be widened to standard gauge. The Coeur d'Alene Company pays 2 per cent quarterly upon a capital of \$1,000,000. There are \$300,000 of 6 per cent bonds outstanding.

A meeting of the grain buyers and shippers of the Palouse country was called at Pullman on Thursday of last week, for the purpose of united action in securing better transportation facilities and lower rates of freights over both lines of railroad now traversing this section. The scarcity of freight cars for the handling of the grain crop is working a hardship with shippers, and at the meeting a committee composed of F. G. Gardin, of the N. P. Elevator Co.; John Burke, of Lewiston, and F. M. Wade, of Colfax, was chosen to lay this matter before the companies, as to use every effort to secure a lower freight rate. The committee is now acting upon these instructions. F. M. Wade represented the grain buyers of Colfax, at this meeting.—Commoner.

The Republicans are evidently badly scared, judging from the fact that they are trying to solidify their ring, by circulating a pledge among the members of their party requiring them to sign it, thus pledging themselves to support the ticket.—Star of Idaho.

The mails will come by Spokane and Palouse fast time after the 8th of October. This item of news will be hailed with delight.

NEW OFFICES.—

New postoffices have been established at N. Johnson's place this side of Cameron, with Mr. Johnson as postmaster. Also another has been established beyond Cameron at Mr. Southwick's place. These will accommodate a large number of people in the respective vicinities. The names of the offices we have not learned.

The special features of this paper this week are its complete telegraphic reports, Oregon, Washington and Idaho news, the Portland markets and Notes for Farmers, together with a few local happenings and some editorial matter. The market reports which will from now henceforth be given, are worth the subscription price of the paper.

The cattle last week on the prairie before the rain came were almost starving for water, the pools along Cow creek, which have heretofore furnished plenty of water, having dried up. It seems that humane feelings, to say nothing of the pecuniary interests, would prompt the stockmen to dig wells for watering purposes in case of an emergency, especially when water can be obtained at a depth of from four to sixteen feet below the surface.

BOIL THE WATER.—

Dr. Cox informs us there are a few cases of typhoid fever on the Potlatch and some have proven fatal. He attributes the prevalence of the disease to the bad state of the water caused by the dry weather and advises the boiling of the water used for

ITEMS OF GENERAL INTEREST.

A little colored girl in Albany, Ga., is gradually turning white, the skin of her face and arms being now hardly distinguishable from that of a Caucasian child.

Danbury, Conn., thinks it has something valuable in the Indian arrow and spear-heads recently discovered near there. Over one hundred heads in perfect preservation have been found.

Geo. F. Knapp, of South Bridport, Me., is bragging considerably about his two-year-old heifer. The heifer ought to be proud, any way, for the other day she became the mother of three nice calves—two red ones and one white one of good size, and all males.

There is a wonderful brown and gold bird in Mexico, a species of the bee martin, that is a remarkably expert bee catcher. He has a way of ruffling up the feathers on top of his head, so that his crest looks exactly like a beautiful flower.

A New York business man has a novel method of refreshing his memory. When he has something important to attend to the next day, he writes himself a postcard reminding him of the matter, and, finding the card among the mail the next morning, attends to it the first thing.

A man of Grant County, Wisconsin, drained off his fish-pond the other day, and in the bottom he found four silver watches and chains and a large number of medals, knives and forks. It is supposed that a burglar, finding himself closely pursued, threw the plunder in the pond to get rid of it.

Queen Victoria has now reigned over England longer than any monarch but two—Henry III. and George III. She overtook Queen Elizabeth the first year ago, and has now surpassed her, who only reigned 148 days over a century. It is thought that the queen will live for many years longer.

Mad. Victorin, who is known all over the continent as "the strongest woman in the world," and is sometimes spoken of as "the female Hercules," is of medium height, with a girlish, graceful figure, and nothing Herculean-looking about her. Yet she readily lifts one-thousand pounds weight, and she is a really athletic training fish.

John Leonardy was fishing with a sein in the river at Matanzas, Fla., a few days ago, when an enormous saw-fish ran into the net. The fish struggled fiercely, and the fisherman, who had not succeeded in entangling it, finally captured it. It was measured and found to be 13 feet and 1 inch in length.

Some of the greatest men the world ever saw were superstitious. Napoleon Bonaparte was a believer in omens; the great Duke of Wellington would not offer battle on any day that he met or saw a yellow dog cross his path; Hannibal used to get out of his camp-bed backward so as to insure good luck for the day, and Frederick the Great carried a rabbit's foot to guard against evil.

PACIFIC COAST NEWS.

NEW BORAX MINE FOUND.

The sealing fleet. Striking Seamen. Light-house Contracts. Insular-gration Board Pamphlet.

THE LIGHT HOUSE CONTRACTS.

The sealing schooner Triumph, Capt. Dan McLean, has arrived at Victoria, B. C., with 2,500 skins as the season's catch. The little vessel looks trim and neat after her cruise and made the trip down in fifteen days, close-closed all the way.

Coasting seamen are on the verge of inaugurating another strike, and freights are going down. Seamen are demanding \$10 for the voyage to Port Townsend to San Francisco.

The secretary of the treasury has awarded the contracts for the construction of a lighthouse at Cape Mendocino, Oregon.

The government snag boat Willamette, has been at work pulling snags between St. Johns and the Portland Flouring Mills.

Penalons have been granted. Penalties have been granted as follows: Washington Territory, Original invalid, Ira A. Dwy, Rockford, increase, Watson Spencer, Seattle; Daniel C. Rose, Mount Vernon, Oregon—Increase, Alexander Butwick, Portland.

The Borax Mines. Certain commercial circles at San Francisco are much interested in the recent discovery of borax in the Bay of Loma ranch, Curry county, Or.

The oldest merchant vessel, with one exception, now in actual service, is the schooner Good Intent. She was built by Clapp & Loring, in Braintree, Massachusetts, in 1813, and was originally a sloop.

Water mark.

The bay, which forms a portion of a reach of 1,200 acres, is half a mile in width, with good anchorage, and is located on the northern shore of the white man to come out, but he refused to do so, and after shooting holes in his windows and doors they left.

A New Pump.

A new pump for high service has been shipped from Lockport, New York, for the Portland Water Works.

The Splatler Record Broken. Schriener, the California amateur sprinter, broke the 100-yard record 1-5 of a second, at St. Louis, Mo., his time being 9.4 seconds.

An Aged Missionsman. John Kaufman, aged about sixty years, was found dead at Brazil, Ind., having died of a brain disorder.

A Collision Avoided. The Umattila arrived at Victoria, B. C., from San Francisco and reports that while steaming slowly through a fog 100 miles from San Francisco, a steamer's whistle was heard.

Prospecting for Black Coal. H. Haldenson spent four weeks on Queen Charlotte islands prospecting and trading, and exploring for black coal.

Deaths of the Olden Graduates of West Point. Col. Edward G. Butler, the oldest graduate of West Point, died at St. Louis.

Express Train Held Up. The west-bound express train was stopped by three masked men at Parkers A. T. They did not get anything, but a \$1,500 ransom was paid.

Un distinguished Japanese. Yoshitomo Inasa and Nobuquoh Oi, natives of Japan, on their way to Tokio, arrived at San Francisco from the East.

The Oregon board of immigration is issuing 50,000 copies of a pamphlet entitled, "The New Empire; Oregon and Its Possibilities."

Several Colored Men Killed. A fearful battle between whites and blacks took place at Hilliardsville Ala., in which seven colored men were killed.

AGRICULTURAL.

DEVOTED TO THE INTERESTS OF FARMERS AND STOCKMEN.

A man near Bangor, Me., is trying the experiment of grafting apple twigs into a pine tree. He wants to raise pineapples.

Florida promises to become a large producer of opium. Sixteen plants will produce an acre of opium.

The whole value of fences in the United States may be set down at \$2,000,000,000, and its cost \$100,000,000 annually to keep them in repair.

Crisp radishes are those that grow rapidly. They should have light soil, free from stones or gravel, and the rows should be kept clean.

To prevent birds, mice or squirrels from pulling up seed corn until it is well under ground, then stir a little pine tar until every grain is coated.

It is claimed that the presence of the bean-coli bean plants around the house will prevent mosquitoes from becoming very numerous.

According to an English authority, the world consumes annually 650,000 tons of coffee, which, at an average price of \$400, represents a value of \$260,000,000.

The American Cultivator recommends a mixture of hydraulic cement and skim-milk for painting farm buildings and fences.

The Massachusetts Ploughman says the reason that so many raspberries and blackberries get full of grubs is because they are neglected during August and September.

As a pasture for cows no plant yields sweeter, richer herbage than white clover. It should be sown in the fall.

The plantain is a nuisance is certain, but it is scarcely unmitigated except in the sense that when it has once gained possession it can never be entirely eradicated.

For too few Lima beans are grown. In their dried state they are superior to any other bean, and would be largely used for that purpose.

City and Country Local News.

AT IT STILL.—We learn from reliable parties that the citizens of Moscow are taking preliminary steps to secure funds for the purpose of buying grounds and equipments for a race course and County fair. This they have a right to do, but it does seem they want the Earth and would't object to taking a lien on the Moon. Moscow has the county seat and will soon have nice county buildings, and we think it very wrong to try to knock Genesee out of the benefits our race course would be. Genesee gentlemen have spent time and money to get out fair grounds in good shape, with the expectation that the whole country would be benefitted and advertised. The movement is certainly not in the interest of Genesee. It was hoped and is yet expected that the old animosity had died. We would like to hear from some of the stockholders.

Willis Sweet opened the campaign in the North for Dubois on Monday night. We learn that the encores were like angels' visits—few and far between. He compared Platt of Genesee to Platt of New York. Willis Sweet had better not come around in these diggin's making his comparisons, or he might find that Platt of Genesee is a tongue lasher himself and can make things mighty interestin'.

Judge Hodgins has been home from the county-seat several days attending to his farming interests and shaking hands with numerous friends. Mr. Hodgins is the present Probate Judge of Latah county and the regular Democratic nominee for re-election. He has been a resident of the county a number of years and is thoroughly identified with its interests. Vote for him.

Last week a conductor and a gambler locked themselves in a room at Pullman and had a game of poker. They fell out and fired their guns at each other. The conductor was shot and has since died. The gambler had his trial and was discharged. There was no evidence except the man's own statement, which was that he did it in self-defense.

Mine host of the Owen house was going up street the other day with something on his shoulder resembling a cannon; and in answer to an interrogatory, said he was just starting out to make a canvass of the precinct for Justice of the Peace and wanted the machine to terral voters with. Good idea.

George Leland, while on his way to camp, stopped to see us. He is with Capt. V. P. Nichols' engineer corps about twenty-five miles N. E. of Genesee. They are trying to find a way down the Potlatch or by some other route, and if it is possible Capt. Nichols will find it.

Our friend R. R. Gray will leave in about two weeks to visit his people at Carson City, Nevada. He will invest some of his hard earned cash in mining property if it pays any better than farming in this great country.

Kit Harris, Dudley Strain, Joe Harris and W. C. Mast have been up from near Pomeroy looking for land. Some of the party bought ranches and the others will buy. This paper was the cause of it.

Justice Markham informs us that 60 voters had registered up to yesterday. Gentlemen, if you wish to vote, you must register. Don't put it off until the last moment.

Lumber has been scarce, but the Messrs. Camerons & Larrabee telegraphed to several points and soon had a supply. It requires lots of lumber to build a town.

Mat Weber has Milwaukee beer draught at 25 cents a quart at the Farmers Exchange, Moscow. You can get it by the glass, quart or keg at the price of home made beer and dont you forget it.

Mr. Spurbeck and family and Mr. C. D. Fleuning and his family came up Tuesday to remain. Mr. S's house will be ready for occupancy very soon.

Cool nights these. Politics is becoming hot. People coming in every day. Butter is scarce. Eggs scarce. Eggs-actly so.

There will be court at Judge Markham's office to-day.

Dr. Ector was over from Moscow on Tuesday, attending to business.

Where are you going, me blooming lass? Steering for the P of G.

The hall of Mr. Elliot goes teadily on. It will be a fine structure.

Rev. C. H. Miller has been assigned to this charge by the annual conference.

Notable bargains in Ladies Dress Goods. P. of G. Store, opposite R. R. Depot.

A drop in calico since Mark Means came to town. Dropped about twelve feet.

Al Harris is still in the boot and shoe business. Shop on North side street in Herman's building.

No let down in trade, but prices much. P. of G. Store, opposite R. R. Depot.

The front to Vollmer's store is beginning to attract the attention of passers by.

We were pleased to meet Mr. C. B. Reynolds of the Mirror in town on Wednesday.

Mr. Wm. Brown has made out a bill of lumber for a new house which will be built at once.

When the iron is hot, give it a blow. Bargains! bargains at the P. of G. Store, opposite R. R. depot.

Some of the railroad boys have clubbed together and are boarding themselves at the section house.

Great slaughter in every department at the P. of G. Store, opposite R. R. depot.

Attorney Dittmore left for his home at Asotin Thursday afternoon. He will return Monday.

Don't fail to call on A. Langdon, Notary Public, for any business in his line. Office at L. Levy & Co's.

Miss Lillie Bittner, of Seattle, is visiting her mother, Mrs. Kane, of the Latah hotel. The mother and daughter had not met for years.

Mr. McKenna, the gentlemanly depot agent, is adding many friends to his list every day. Mac is a model agent.

That will do, Jack; if you really require a suit, go to the P of G Store. They sell goods at bed rock prices.

The editor of the Stars and Bars goes for the Pocatello Reporter in good shape. It is needless to say the Reporter is a Dubois organ.

The Walla Walla Fair will begin on Monday, the 1st inst, and last until the 6th. Grand preparation has been made for it.

This office has done some good work this week for Dr. Cox, Ireland & Co, and E. A. Miller. Call around and see samples.

Miss Jennie Ruddy, who has been visiting at Lewiston, has delighted her many admirers herabouts by her return to Genesee.

We cordially invite inspection and comparison. Our determination to lead in style and value will be found self-evident. P. of G. Store. L. Levy & Co, Proprs.

Mr. Mark Means has been here a few days in charge of J. P. Vollmer's business. He is a nice gentleman and making many friends.

George Langdon, Sheriff-to-be, has been circulating among friends and foes this week. He is sure to be elected without all signs fail.

There is a little boy stopping at the residence John Kasper not far from town. Friend Kasper don't care much about the wheat crop now.

Mr. Swank from Uniontown brought his fine trotter last week to train on the Genesee track, but it was a little rough yet for training purposes.

Felix Warren and John Bynaster are candidates for the nomination for sheriff of Nez Perce county. Either would make a good officer and satisfy the Democracy.

The Moscow planing mill owned by Moscow planing Mill Co., was burned to the ground on Saturday evening last, together with 5,000 feet of lumber. Insured for \$4,000.

To Mr. Sweet: The people of the central portion of the county, while you are blowing up Dubois, would like to have you explain away his (Dubois) pledge to the people regarding annexation.

Mr. F. M. Straney came in yesterday and handed us a copy of the Sonoma (Cal.) Democrat, whose editor and manager is our old time friend T. L. Thompson. The Democrat has grown to enormous size since last we saw it!

Look at our Supplement. It contains the latest.

To show the value of advertising, we will simply state that since L. Levy & Co. put their P. of G. advertisement in this paper, no less number than twenty-five men have asked us what the letters mean.

We desire to call the attention of the public to the advertisement of A. Elliot, the Genesee Butcher and stock dealer. Mr. Elliot has a number of the best beef cattle of all sizes and ages, and can supply good meat to all. Don't send away from home for meat.

NOTICE.—To my customers: I desire all persons indebted to me to call and settle by cash or note on or before the 20th day of October, 1888, as I am going to leave for Europe the first day of November. All accounts not settled before that date will be left for collection. E. ENRICKSON.

For cutting hair and shaving neat, WM. BROWN cannot be beat; Call and see him when you can, He keeps a clean towel for every man. Shop on Main St., 1 door West of Dr. W. C. Cox. WM. BROWN, Proprietor.

A man named Reel was promiscuously reeling around our streets yesterday with a team from Genesee. Toward evening he, with another reeler who is reeling a reel in the city, which will no doubt soon reel him into the real place where he really belongs, drove the team against a man who was crossing the street, knocking him down and injuring him. We think our real authorities should show these reeling reelers the reality of real civil government.—Stars and Bars.

APPOINTMENTS.—The following appointments have been made by the Columbia River Conference of the M. E. Church in session at Moscow: Walla Walla district—D. J. Strong, P. Jay Gould considers his time more valuable than money, and is his habit to visit his tailor and tell him to make him to make so many suits of clothes. "I guess you'd better make me about four suits of clothes this time," Mr. Gould would say. Then he will stroke his whiskers, look thoughtful and then add: "Possibly you'd better make me a half a dozen suits this time; have them done as soon as you can, and if they don't prove what I like I will give them to my brother." Mr. Gould leaves everything to his tailor's judgment; that person also selects Mr. Gould's neckties and underwear. The millionaire says himself that he hasn't time to bother with such small details. His tailor explained to me that Mr. Gould's brother, whom he referred to, is rather an erratic individual. He is the opposite of his brother Jay, for he cares nothing for money, neither does he know how to make it. The millionaire seldom trusts him with much money, but he has carte blanche to go to any of his brother's tradespeople and get whatever he may need. He is exactly the same size as his brother, and a suit of clothes that fits one is equally suitable for the other. Sometimes when Mr. Gould orders a half dozen suits of clothes, and they are sent home to him, there may not be one suit that he likes, and he immediately gives an order for another half dozen suits. He does not even think to ask the price and finds no fault with his tailor. His tailor says there are few men in New York that dress better than Mr. Gould.—Washington Star.

The Democratic party does not advocate free trade, but it believes that the interests of all our manufacturing and other industries would be advanced, that the wages of all our laborers would be increased, and the general welfare of the whole country would be greatly promoted by repealing, as far as possible, the taxes upon the raw materials, and reducing or repealing the taxes upon the actual necessities of life; and upon those simple propositions it proposes to stand or fall in the great contest now before it.

SHOT.—On Sunday morning, the 30th of September, 1888, George McCoy was accidentally shot by his nephew, Henry McCoy, on the Little Potlatch, in this county. It appears that Henry McCoy and Robert Parks were hunting birds. George McCoy was on the edge of the clearing in range with a bird which his nephew shot at. He was shot in the side, the ball passing through and lodging in the spine. The ball was a 32 calibre, Winchester, and the recovery of the wounded man is extremely doubtful. The affair is a sad one and no one is to blame for it.

The hardware house of M. J. Shields & Co., the merchants of Moscow, was consumed by fire this morning at two o'clock, together with some other buildings. The light was plainly visible from this town. Uniontown also had a fire this morning, in which three buildings were consumed—the boot and shoe store and bakery. Lewiston also had a fire last night and one house was burned. All the towns around have had fires and we presume Genesee will have the next turn. Try to prevent such a catastrophe.

BUILDINGS.—Since last report, the following parties have constructed or are about to construct residences and business houses: Lou Krum is putting up on Front street a business house for a barber and hair dresser. Will be finished this week. Mr. Jones has the frame up for his jewelry shop and residence. J. C. Martin is putting up a shop 20x60 to be used as wagon and blacksmith shop. Lucas & Oliver have built a huge shop on Front street, and will move down next week. The school building is being moved down from the old town by Tom Worden and his partners. The other buildings are going up rapidly and the place begins to assume the air of a city.

JOHN LUY.—The condition of John Luy, who was hurt by a horse on Sunday morning, is yet very low. In going down the grade just beyond town on the Uniontown road, John and his brother Henry being in a two wheel cart, the horse held back and the pressure on the shafts being almost double the ordinary weight, they broke in two, precipitating the two men under the horse's heels. The horse kicked viciously, hitting John in the breast and side and hitting Henry in the face. John Luy is now lying at his home in a critical condition, although Dr. Cox says he can pull through. He has been expectorating blood for several days, and may be injured internally worse than the physician thinks. All hope for the better.

This editor and Walter J. Hunt took a spin to our sister city Uniontown on Sunday last. Although it was the Lord's day, when all men should have been at rest, we saw several threshing crews at work on the way, trying to save men's earnings before the Fall rains set in. Returning from that embryotic city we stopped at the residence of Mr. Eakin, four miles from Genesee, where we were royally entertained by the Misses May and Kitty Eakin, two most accomplished young ladies. Friend Eakin has about 3,000 bushels of wheat, about the same of oats and nearly as large an amount of flax seed to dispose of this year. He is a model farmer, and always makes money.
There are many beautiful and grain producing farms between here and Uniontown and if the Journal man will work as hard as in this paper, the two towns will be one in the course of a few years.

SALE.—A. Elliot will sell at public auction on the 20th inst. 100 head stock cattle, 25 head work horses, mares and colts. Terms, twelve months time with good security or 10 per cent off for cash.

ANOTHER ACCIDENT.—We learn through Mr. Herman, the hardware merchant, that Joseph Miller was run over by a loaded wagon and killed on yesterday, a few miles East of Uniontown. It seems the loaded wagon was driven across his breast and injured his lungs from the effects of which he expired in a short while.

L. J. Dittmore of the law firm of Maxwell & Littmore, has gone to Camas Prairie on business, and will be compelled to be absent from Genesee for the coming month. He takes this method of informing his clients that any business which may come up in the mean time will be attended to by Mr. Maxwell, the senior partner, upon application to him at Lewiston.

There will be no meeting of the Legislature in Washington Territory this Winter, Congress having failed to legalize the act passed by the last Legislature calling a session of that body in January. This may work a hardship on our big brother of the Pomeroy Independent, but it is "strange what a man will see when he has no gun" with which to defend himself.

George Langdon, of Moscow, has received the nomination on the Democratic ticket in Latah county, for the office of Sheriff. George having had a large amount of experience in the office in years last past as deputy, will enable him to fill the position with credit. He is a young man of good habits and will carry a large vote in that county.—Teller.

MARRIED.—In Lewiston, September 22, by Rev. J. N. Guidi, S. J., Mr. Clyde Parker and Miss Jennie Ruddy. The bride is well known here and is a favorite among many friends. The Teller, speaking of the affair, says: Thus again have two of our young folks determined to walk life's path together. Mr. Parker came to Lewiston about six years ago, and has a host of friends in the city and country. For the past five years he has been in the employ of H. K. Barnett, one of our leading merchants, and is now at the head of the Lewiston house, a most enviable position in business circles, and one which speaks well of Clyde's business ability. The bride, Miss Ruddy, is too well known by all to need any comment other than that by her amiable disposition and lady-like manner, she holds a warm place in the hearts of all, who are rejoiced to see her so nicely settled in life. That their married life may be as happy as their single blessedness, is the wish of the Teller and their many friends.

PORTLAND, Sept. 25.—Hon. William J. McConnell, of the firm of McConnell, McGuire & Co., of Moscow, Idaho, is in the city. Mr. McConnell says the wheat is very large that section, and his firm will handle at least 1,000,000 bushels this year alone. The flax crop is phenomenally large. The firm to which Mr. McConnell belongs has formed a corner in this staple. They already have 4,000 tons stored and are now paying \$1.25 per bushel, and it costs 21 cents per bushel to get it here. Portland buyers are now willing to pay \$1.25 a bushel for it, but Mr. McConnell says they must pay his price or go without it, as he can get a better figure than quoted in San Francisco.

To show how complete the McConnell corner is, it need but be said that the county of Whitman in Washington Territory and Nez Perce and Latah counties in Idaho produce all the flax raised in the Pacific Northwest except a little raised in Linn county. The firm has contracted for all raised in Whitman, Nez Perce and Latah counties, and are therefore masters of the linseed situation.

Mr. McConnell says the people of Northern Idaho are almost a unit on the question of annexation to Washington territory, while the people of Southern Idaho are equally strongly opposed to the scheme. The consequence is that the people of Northern Idaho are practically without representation.—E.

There are twenty-two crematories in Europe, in which over fourteen hundred incinerations have taken place during the past year.

The latest Arkansas sensation is a negro baby with two heads and faces, one arm and three legs, upon which it stands tripod fashion.

A life-size marble bust of Garibaldi, with a marble pedestal of about four feet high, has been received at Washington and placed in a hall of the upper lobby of the senate. It was presented by American citizens of Italian birth.

Mr. Hansen, a well known Norwegian athlete, is about to make the attempt of crossing the vast snow fields of Greenland on snowshoes. A wealthy Danish merchant has supplied the money for the unique enterprise.

To oxidize gold, silver or brass paint over the parts to be oxidized with a solution of chloride of platinum; then let it dry. To make the solution of chloride of platinum dissolve one dram in two ounces of hot water.

Electric rifles are the latest. Instead of the ordinary percussion firing device, a dry chloride of silver battery coil with a fine wire is attached to the rifle. It was lately stated before the American Institute, for the rifle 35,000 miles without recharging.

Profascine, the new tanning agent, is obtained by digesting coal tar with caustic soda at a boil, and neutralizing the resulting liquor with hydrochloric acid. The inventor claims it is only half as costly as the bark process, and from 80 to 90 per cent cheaper than the alum process.

The electrical E view warns manufacturers not to use resin as a remedy for slipping belts. It will produce immediate adhesion of the belt to the pulley, but the resin will soon be ground into the leather, stiffening the material and making the belt very brittle.

It is found that nearly every kind of glass, especially that containing manganese, is liable to a change of color by the action of sunlight, but the glass can be restored to its original color by heating it in a solution of potassium dichromate in water.

According to Mr. E. G. Ravenstein, the English foot is used as the standard of length by countries having 41,000,000 inhabitants, the metric foot by 347,001,000 people, and the Castilian foot by 5,905,000. Denmark and Russia are the only countries in Continental Europe which have not adopted the metric.

Empress Victoria, of Germany, has turned inventor. She drew plans from which a writing desk has been manufactured, which enables the emperor to write whether lying in bed or standing up. It is available in any position, and the mechanism employed is said to be intricate and remarkably effective.

A new candle has been brought out which extinguishes itself in an hour. This is done by means of a wax extinguisher in which is fastened in the wax by wires, and which eventually performs its task. It is only necessary to remove this time-saving extinguisher when its work is done, and the candle is again ready to burn another hour.

A Boston genius has been estimating the candle power of the moon. In comparison with an ordinary candle of four hundred power at a certain distance he finds the light of the moon to be 154,000,000,000,000. This he calculates by means of the number of candles, placed one-half inch apart, it would take to cover one-half the surface of the moon.

Seven pirates—two Ananites and three Chinese—were captured by a French gun-boat the other day at Hong Kong. They were subsequently executed at Hainan. To each man a separate executioner was appointed. Of the seven only one succeeded in striking off the head of the first blow. All the others having to hack them off by a succession of blows.

PACIFIC COAST NEWS.

THE RICH GOLD STRIKE.

Narrow Escape From Starvation. Train in the Mad. Successful Swindlers. Big Explosions.

A WOMAN BURNED AS A WITCH. Thomas Meagher, who is engaged in mining on the Swank, cleaned up \$1,400 in nuggets and fine gold. The nuggets was one weighing \$64. He informed the correspondent that he had traced the float and had discovered a fine ledge, in connection with them as the long-sought mother lode. They first discovered considerable quantities of gold, and after going through this they struck what they regard as the main ledge. There is free milling, and will assay about \$80 to the ton. This gold discovery is within twenty-five miles of Ellensburg, and is the richest yet discovered in the region. It is regarded as a most important discovery.

Trains Stuck in the Mud. The Berkeley train met with an accident near the Moon and gate, which delayed traffic to a considerable extent. Workmen had been engaged in repairing a piece of side track switching off from the main track, and the engine passage was blocked. Berkeley ran into the mud, sinking about three feet. The rear car, however, remained on the track, and the engine and passenger train were not delayed.

A Jewelry Thief Arrested. The mulatto J. Kelly, who broke into the Galin Bros' store at Freepoint, T. W. was arrested at Winalago, and brought back and given a preliminary examination. Justice Hinson bound him over in the sum of \$1,000 and not to come back to the city for a period of three months.

Murder as a Witch. Frank Simon, formerly a policeman at Los Angeles, Cal., says about three weeks ago, near Rock Spring, Oregon, Indians tied a young woman who was reported bewitched to a stake and burned her with hydrochloric acid. The girl's screams were heard for miles around. The Indians told Simon that it had been several years since they had burned a witch, though several had been condemned since then, but managed to escape.

An Escaped Burglar Captured. Henry Cohen, one of the four burglars who committed a daring robbery in Gross Bros' dry goods store at Tacoma, W. T., and who escaped by a run and a jump over the high board fence surrounding the store, was captured and returned to the store by a man who had been watching for him.

Explosion of a Magazine. A magazine on Two Brothers island, Equatorial, exploded, sending up a dense volume of smoke, and demolishing the wooden building. A store in the magazine was blown up, and several men in cartridges, twenty-two bombs, shells, and eight not charged together with a quantity of fuse and gun tackle. A fire was kindled through the keeper burning brush on the island, and this communicated to the magazine. No one was hurt, and the fire brigade on the man-of-war, Equatorial, proceeded to the island and extinguished the flames. The magazine was under charge of O. B. Taylor.

A Narrow Escape. Capt. Saxe, of the schooner Adie C. Haselaine, and his crew, had a remarkable experience on their last voyage. She arrived at San Francisco, and was taken in tow by the U. S. S. Albatross, with not a single thing edible in the store house. Capt. Saxe did not consider when he started that the voyage would last longer than thirty days, but he took provisions sufficient for forty. The little schooner was becalmed for days, and finally the provisions gave out, although toward the last everything was carefully hoarded. Luckily the steward discovered a barrel of beans and some hard, and for several weeks the captain and his six men lived on beans and hard cake, flavored by coconut. They grew so tired of this that they could eat but little.

A Swindler's Death. Daniel Haas, a farm laborer employed on Henry Stover's ranch, on Birch creek, Or., committed suicide by hanging himself in a barn. He was insane. He had been acting strangely for several days and a razor cut across his throat. He was found hanging from a beam in the barn. He took a rope from the barn, made a bridge over a small creek, fastened the rope to the bridge, made a slipknot and it crossed his neck, and he then jumped off. He was strangled to death. Deceased was 24 years old, and his parents live at St. Joseph, Indian.

Successful Swindlers. Two men, registering as A. Blackford of Texas, and F. A. Johnson of Washington territory, have victimized different societies in San Francisco, by a somewhat unusual method. They would visit saloons dressed as country boys who were in the city for the first time. Having given many small orders for various drinks and refreshments, and paying for the same they would present to the waiter a check for the amount of the bill. The waiter, after the careful examination by the proprietor, would be accepted and change returned. The check was then cashed at the bank, and the money was sent to the bank.

Death of a Wealthy Woman. People at Portland, Me., are feeling deeply the sudden death of Mrs. Ann Taylor Patton, a well known society lady of Washington, D. C. Mrs. Patton was one of the richest women in the city. She was a widow, and was worth \$500,000. She was a bold speculator, and during the past few years added largely to her wealth by her investments. Eighteen months ago one of her daughters was married in Washington to Congress- man Charles of Missouri. The wedding was a grand affair, and the occasion by presenting the bride with a million in 4 per cent U. S. bonds.

Lawless Chicago. Mrs. Pfeiffer, of Chicago, on a visit to friends in Chicago, was knocked down in the heart of the business district, in the afternoon, in the presence of hundreds of people. She was then attacked by a man, who carried her to a saloon, and there she was held for ransom. The man demanded \$10,000, and when this was not paid, he threatened to kill her. The police were called, but they were unable to find the man. Mrs. Pfeiffer was released after a ransom of \$5,000 was paid.

of Columbus, Ga., in 1856. The notes were accepted at many places, and in the course of a business were passed from one concern to another. They were considered as good as gold, and were not doubted until a day or two since, when an inquiry having been made at the sub-treasury, one was rejected. The cashier of California is the only paying clerk stated that the note was genuine, but gave it as his opinion that probably it was a counterfeit. The note was closed its door, as hundreds of local banks had done since 1856. As it was the note was no commercial value in any city. The two thieves have appeared. They have been successful, and it is thought they realized several thousand dollars by their scheme.

Swindlers Factory Burned. Bosman & Roder's large furniture factory at Tacoma, W. T., was discovered on fire, and the flames gained such headway before the fire department got into service, that the factory was not stayed and the factory was totally destroyed. The loss is about \$25,000; insurance, \$8,000. The factory was a great success, and its origin is unknown.

Crushed to Death. Patrick Kelly, an employe of Sells Bros' circus, was crushed to death at San Francisco by having a large tank of gasoline thrown upon him from a railroad car while switching.

Mail Service for Enterprise. Senator Dolph has been notified by the second assistant postmaster general that Enterprise, Or., will hereafter be supplied by the mail route to Rio Grande and St. Joseph.

The flood in the Savannah has covered the rice plantations near Savannah, and the rice crop is nearly, if not quite, a total loss. Reports from several of the great rice plantations are that the rice is nearly, if not quite, a total loss. Reports from several of the great rice plantations are that the rice is nearly, if not quite, a total loss.

The grape rarely falls when allowed to climb on trees. It matters not what kind of tree, whether they are living or dead, if they only have branches that the tendrils take hold of.

The damage done to fruit trees by rabbits, hares and insects, may be prevented by applying pine tar to the bodies of the trees. Warm the tar and apply with a brush.

One-fourth of the cows in the United States do not pay the cost of their keep, the cause being the failure of farmers and dairymen to properly grade up their stock.

The saler of very old wood do not contain so much potash as ashes of wood of younger growth. Ashes generally pay well on all ordinary crops, but are specially adapted to the wants of fruit trees, grapes and all kinds of vines, clover and peas.

When chicks are droopy or weak care is needed to recuperate them. A little more green food and onion should be given them, or, if they are too much emaciated, a little condensed milk and bone oil in their soft food.

An Abing form is better than a square one for the home garden. Seeds sown or planted in rows instead of little beds simplifies the whole matter, and admits of the use of the plow and the harrow, and makes the cultivation a pleasure instead of a dreaded task.

The turkey pig must have more flesh and less fat. It must not be a merelard keg. It must be fed upon flesh-forming foods until grown, and then fattened. It means that more clover, peas, oats, milk and such articles of diet must be used, and less corn. We will then have healthier, more palatable pork, and hog cholera will be a thing of the past.

Should a wagon or buggy tire become a little loose from shrinkage of the fellos instead of taking the wheel this is a generally a bad thing, and should be replaced by a gallon of lard, oil, and after heating it pretty well pour the same in a shallow dish and let it set. The lard will harden around the tire, and the tire will be tight again. The oil will prevent the lard from becoming rancid.

No kind of grain is so well adapted to feeding young stock of any kind as oats. Their large proportion of husk keeps them from clogging the stomach, even of stock that has too poor digestion for thriving on corn. The oats should, however, be given together the latter grain, if both are given together, but the pig is not the best judge of what is adapted to his kind. The oats should, however, be given at least half weight to give the best results.

Much of the Western oat crop is generally of low quality, and is very dry, hot weather. The amount of weight of some in Western States is thirty pounds per bushel, and in others as low as twenty-eight pounds.

Senator Leland Stanford's vineyard, near Chico, Cal., comprises 3,600 acres, and is the largest in the world. Last year, 1,000,000 gallons of wine were made.

Matthew Crawford, of Ohio, recommends shallow culture for blackberries. Some very successful plantations are never cultivated, but receive special mulchings.

For mulching gooseberries and currants no material is better than the short shavings from the law. It lies closely, keeps down weeds and promotes needed coolness to the soil.

A new green bug is causing a steady and increasing decline of coffee production in Ceylon.

One of the benefits of Statchood to Dakota is a donation of 9,000 acres of government land for the Agricultural College.

Senator Leland Stanford's vineyard, near Chico, Cal., comprises 3,600 acres, and is the largest in the world. Last year, 1,000,000 gallons of wine were made.

Matthew Crawford, of Ohio, recommends shallow culture for blackberries. Some very successful plantations are never cultivated, but receive special mulchings.

For mulching gooseberries and currants no material is better than the short shavings from the law. It lies closely, keeps down weeds and promotes needed coolness to the soil.

The grape rarely falls when allowed to climb on trees. It matters not what kind of tree, whether they are living or dead, if they only have branches that the tendrils take hold of.

The damage done to fruit trees by rabbits, hares and insects, may be prevented by applying pine tar to the bodies of the trees. Warm the tar and apply with a brush.

One-fourth of the cows in the United States do not pay the cost of their keep, the cause being the failure of farmers and dairymen to properly grade up their stock.

The saler of very old wood do not contain so much potash as ashes of wood of younger growth. Ashes generally pay well on all ordinary crops, but are specially adapted to the wants of fruit trees, grapes and all kinds of vines, clover and peas.

When chicks are droopy or weak care is needed to recuperate them. A little more green food and onion should be given them, or, if they are too much emaciated, a little condensed milk and bone oil in their soft food.

An Abing form is better than a square one for the home garden. Seeds sown or planted in rows instead of little beds simplifies the whole matter, and admits of the use of the plow and the harrow, and makes the cultivation a pleasure instead of a dreaded task.

The turkey pig must have more flesh and less fat. It must not be a merelard keg. It must be fed upon flesh-forming foods until grown, and then fattened. It means that more clover, peas, oats, milk and such articles of diet must be used, and less corn. We will then have healthier, more palatable pork, and hog cholera will be a thing of the past.

Should a wagon or buggy tire become a little loose from shrinkage of the fellos instead of taking the wheel this is a generally a bad thing, and should be replaced by a gallon of lard, oil, and after heating it pretty well pour the same in a shallow dish and let it set. The lard will harden around the tire, and the tire will be tight again. The oil will prevent the lard from becoming rancid.

No kind of grain is so well adapted to feeding young stock of any kind as oats. Their large proportion of husk keeps them from clogging the stomach, even of stock that has too poor digestion for thriving on corn. The oats should, however, be given together the latter grain, if both are given together, but the pig is not the best judge of what is adapted to his kind. The oats should, however, be given at least half weight to give the best results.

Much of the Western oat crop is generally of low quality, and is very dry, hot weather. The amount of weight of some in Western States is thirty pounds per bushel, and in others as low as twenty-eight pounds.

Reasons why the so called Honest man W. W. Langdon should not be elected Treasurer.

It was a fatal mistake when the so called convention held at the Cove school house nominated W. W. Langdon for County Treasurer—the very man named in the act creating Latah County as one of the commissioners of the county and who was known to be a Moscow man, and one of the very men that are to-day building public buildings in Moscow, and issuing or is about to issue the \$20,000 Latah County bonds, and who is working to-day, and has been, in the selling of the bonds, an interested party of the First National Bank of Moscow and the Baker Bank of Moscow, and this so called honest man has been held up by the people of Moscow and surrounding country as a model man and standard for honesty and integrity, and most disgracefully betrays the confidence of the people of the county in him, and has stooped to the level of the most dishonest and vulgarly known of and ever been played upon the people of the county and he has been using himself as a tool while commissioner for and in behalf of the Bakers and the Bank and was appointed solely for that purpose. He has violated and broken the oath of office which he took when he entered upon his duties as an officer and representative of the people. If Mr. Langdon was not working in the interests of the Bakers or bank, why did he not request the Bakers to put in a bid for the bonds on or before the 10th of October, the day when the bids were opened? But no, he wished to ascertain and post the Bakers of the highest bid, so that they could put in a bid that would take the bonds, and then, through his cunning ways and shrewdness, induced the board to reject all bids and allow other bids to be put in, and not to award Mr. Williams of Colfax who was the highest bidder, the bonds and who ought by rights to have had them on the first bid, and upon the second bidding who should have put in a bid by rights except Mr. Williams and the other former bidders, but to the surprise of every person and even the other commissioners, Mr. Baker puts in a bid of \$22,011 and Mr. Williams of Colfax, a bid of \$22,028 and Mr. Williams was again the highest bidder and should have had the bonds. He surprised this so called honest man, W. W. Langdon, and of course he began to kick and buck and squeal and again by his shrewdness and cunning ways induced the board to reject the bids and for new bids to be put in. This unfair business was enough to disgust any honest man, and did disgust Mr. Williams and of course he, as any other man would have done under the circum-

stances, withdrew from the race and returned to Colfax. By his withdrawing, virtually left no competition and the Bakers to have their own way in the matter and the bonds. Now the Bakers have put in another bid of \$21,700, which is \$328 lower than that of Mr. Williams bid, and \$828 less than what Mr. Williams offered for the bonds, providing that they would accept his second bid of \$22,028. Now these are cold facts which cannot be honestly refuted by Mr. Langdon and are not presented at this time for the sole purpose of defeating him at the coming election and taking advantage of him, knowing that he will not have time to deny them, but they are too true and we only wish they were not true, and are presented to the people for their consideration as we believe it our duty to do so at this time.

Now can the people of Latah county afford to give the Baker \$228 which is trying to be defrauded out of them by this so called honest man W. W. Langdon and which will be and is only being delayed until after election, as this honest man is running for a county office and of course is anxious to be elected upon this Mugwump ticket, and as a bolter from the Republican convention and trying to down Mr. R. S. Browne who was nominated over him in the convention by a majority of 18 votes.

Can the voters of Latah county afford to vote for this honest man after he has betrayed them in this way? Can he be trusted in the future with the finances of the county? He certainly cannot, and it is the duty of every honest man who takes an interest in the welfare of the county and in justice to himself to just a vote against Mr. Langdon, and the people are assured that he cannot honestly deny his actions in relation to the bonds and the reasons why they have not been presented to the people of the county before this late day, are that neither of the other papers of the county have had the backbone to present them, and as the editors are both running for office, and were afraid that Mr. Langdon and his many friends might defeat them at the coming election.

The other commissioners have tried to act fair in relation to the selling of the bonds and would have done so had it not been for the shrewd ways in which Mr. Langdon engineered and conducted his scheme, and they now are not disposed and are determined that the Bakers will not get the bonds, providing they can get as much from other parties, which is very doubtful.

To sustain the article written in reference to the actions of the so called honest man W. W. Langdon in connection with the bonds, we will print that letter, written to the editor of the Genesee Advertiser, by E. Williams of Colfax, in reference to it, and please show to the people that they are being deceived by the so called honest man, and that what has been said is absolutely true, which letter is as follows:

Colfax W. T., Oct. 20, 1888.

E. R. Wiswell Esq.,
Moscow, I. T.

Friend Wiswell:—I have yours of the 18th, and to make sure that the commissioners might know at once that I am out of the race, I telegraphed them to-day to that effect. If the commissioners had chosen to give me a fair show, the bonds would have been mine on the first bidding. Had they afterwards made up their minds to be square, the bonds would have been mine on the second bid. But perhaps it is fortunate that they were not honest about it, my company now instructs me that they decide not to hold \$20,000 idle to accommodate the whim of these commissioners for a longer time, that I should withdraw from competition. If we were to buy we would now have to carry the bonds on borrowed money and would have to frame our bid accordingly and too low to take them.

If the commissioners will agree in writing to open bids and make award on them finally and without more "monkeying" I will confer with my company and endeavor to reopen. But it is not likely that I will succeed as the company is disgusted, even more than I am.

Yours truly,
O. E. Williams.

Now the above letter was written in reply to a letter written him by the editor at the request of Mr. Naylor and to the effect that they

would then give him a fair show and for him to bid again after he had made five trips to Moscow in trying to get the bonds, and the editor was again instructed by Mr. Naylor to telephone Mr. Williams after receiving his letter and did on the same or next day that he could have the bonds for \$22,028.

Now as the matter stands the commissioners will not get over 20,600 for the bonds unless they make a sale to the Bakers, and the Bakers have got the bonds corralled. And still the good honest and sturdy farmers want this so called honest man W. W. Langdon for their finance receiver and disburser. Oh! consistency thou art a jewel!

The GENESEE ADVERTISER heretofore run by J. L. G. Mays as its editor and proprietor has been purchased by E. R. Wiswell and will now be continued under that name and run by him as its editor and proprietor. The paper will be republican in principle as to national politics, but as to local and County politics, it will be independent and work for such men as are known to be competent and in every way worthy of support regardless of political beliefs, and will be run strictly in the interests of Genesee and the surrounding country and is in hopes to be an organ in the upbuilding of the young little city. The editor is an attorney at law and will soon enter upon his profession and practice in Genesee and in connection with the paper is in hopes to build up a good business and practice, and he asks the hearty support of the people of Genesee and immediate vicinity in so doing, and he hopes that the past record of the ADVERTISER may be overlooked and that he will try and not betray the confidence of the people in him or it, as did its former editor.

GENESEE, IDAHO TERRITORY.

Saturday, Nov. 3, 1888.

Lanlord Owens has a new pair of blue overalls. "Great is the breadth thereof."

For a wide awake set of young folks, Genesee certainly takes the lead. Come to Genesee if you desire a good time.

Mr. J. D. Kane the genial host of the Latah house is doing a rushing business. His accommodations are first class throughout.

We understand that Messrs Means and Larimore have started the Organization of a Dramatic Club. We trust they will make it a success.

The Owens House is having a brand new wash room built. In the meantime the boarders are enjoying the balmy breezes in the open air.

The Editor has more knowledge regarding the actions of W. W. Langdon in reference to the selling of the Bonds, than any man in Latah County excepting the Commissioners themselves, and the Bakers.

There are a great many different ways to spell different words and different people take different ways, but to spell the name of our town, "Genesee," hurts us more than any thing. (We saw it spelled this way the other day.)

Mr. Elyas is now holding an office upon the Republican ticket as a member of the legislature and is now trying to be elected to a county office upon the so called people's ticket and if he is not a Mugwump where in "Genesee hill" will you find one.

Things were in bad shape when we took charge of the Advertiser, a large amount of the type was piled, therefore we will not be able to get out an interesting paper as we could have done had the office been in good shape, and we hope the people will overlook this issue.

We have been unable to get the latest news in regards to the nomination of councilman and representatives by the joint convention, held at Moscow on last Sunday, but we learned that Warren Brigham was nominated for councilman and H. B. Blake and Mr. Chaney for representatives.

Mr. G. J. Parker the Republican nominee for Assessor is in every respect a first class man and ought to be said against him. He was the unanimous choice of the Convention that nominated him and should be elected. Let every voter in the County look well for whom he votes as assessor.

Warren Brigham, who was nominated for Councilman on last Monday at Moscow, is a young man of good ability and integrity and is one of the rising young men of the country, who will make his mark in the world. The Convention could have made a better selection in the nomination of Mr. Brigham.

Warren Brigham given that he has purchased the Genesee from its former Editor, may as well as all accounts be a new paper, and that said accounts are well understood, who is now the owner and holder thereof. H. R. WINWELL.

GENESEE, IDAHO TERRITORY.

Saturday, Nov. 3, 1888.

City and Country Local News.

The new store building of A. W. Swenson will soon be occupied.

Hon. Norman Buck spoke in the Genesee Hall last Saturday night. Dittmore & Maxwell have money to loan on real estate.

H. J. Bundy is building a new dwelling in town and has it nearly enclosed.

Fred Folliet has gone to Iowa on a visit. Dame rumor whispers, his return will bring another.

Jno. P. Vollmer's new store has been completed and a portion of his stock received. The building is one of the finest in the city.

Charlie Miller and Wm. Stock are about to open a new meat market. They have purchased a lot and will erect a building shortly.

Vote for Mr. Kyle, as he is the man we want and must have for County Recorder, and he is the man who is bound to be elected on Nov. 6.

S. J. Langdon, from Lewiston passed through town last week on his way to Moscow. He is working hard to get his son George elected sheriff.

The first dance in the new hall was held on last Friday evening. A large and select company were present and everybody enjoyed themselves.

If Elder is elected to the office of District Attorney, the County will have to buy him a chair to sit in while Bruce or some other lawyer prosecutes his cases.

Hon. E. T. Platte returned from Spokane last Saturday and says the City is making rapid strides in the way of building, and is bound to be a large city in the near future.

Mr. and Mrs. Harris father and mother of Mrs. E. T. Platte and Wm. Harris, of Genesee, returned with Mrs. Platte from Wisconsin to make this their permanent home.

The town hall building of A. Elliott's is fast nearing completion. It will be fitted up with every convenience for its occupants Frank Bron, and will be a credit to the town.

J. H. Evans of Lewiston was in town last week and consummated a trade of the farm known as the "Old Homestead Ranch" near the town for a fruit farm on the Snake.

E. H. Orcutt and Shank Hughes from Palouse City, the main movers in the so called people's ticket, was in town last week. The people of Genesee and Latah County ought to be able to run their own politics without Washington Territory's assistance.

C. B. Reynolds, the two faced Mugwump and editor of that fanatical Mugwump paper, has been nominated to the office of District Attorney upon the so called people's ticket and he won't stand any more of a show to get that than a bob-tailed bull in fly time.

The Editor of the Star will likely, through that organ, in its last issue before Election attempt to throw considerable mud, thinking perhaps he could defeat some candidate. The people know full well that, and has, but it will only cause a defeat of some of the candidates for whom he has been blowing.

Mr. A. J. Green the nominee for District Attorney upon the Republican ticket is a young man well thought of by the community in which he lives. He is an old timer, a strong annexationist, a self educated man and thorough student, a good adviser and advocate of the law and will make an able prosecutor and if elected to that office will do honor to it.

The Moscow Mirror of Oct. 12th says:—While there may not be so much gush about the campaign as conducted by R. H. Barton, the present efficient sheriff and candidate for election on the Republican ticket, yet the cold facts are that he will not only carry the entire Republican vote, but a large part of the Democratic vote as well, and the reasons are obvious: Is there a chance to build a school for the poor to give to any charitable purpose, R. H. Barton is always one of the best and most liberal donors.

There is not a man on either ticket who has done so much for the upbuilding of Moscow and Latah county as R. H. Barton. Name over the different newspapers which have been started in Moscow and you will find that there has been one of the chief promoters and supporters. He was one of the first settlers of Moscow and has perhaps done as much or more for any other man towards making it what it is.

Judges of Election. (Lewis Jain, Genesee Precinct, Lewis Levy, H. B. Hodgins, N. Buchanan, Little Potlatch Prec. J. W. Brigham, Martin Butler, Z. L. Girard, Thorn Creek Prec. Nels Madison, C. C. GENESEE NEW TOWN

NEW AND FINELY EQUIPPED DRUG STORE. PUBLISHED IN THE GROWING TOWN OF

GENESEE

TERMINUS OF THE S. & P. RAILROAD

PUBLISHED ONCE A WEEK.

The new restaurant near the N. P. Elevator, which has just been started by Mr. Buckley, is doing a big business. Good meals, well done, can be had for two bits.

The following are two Planks in the Platform of the so called people's convention, held at the Cove school house.

"That we demand an honest expenditure of County funds.

"That the County indebtedness be speedily paid, though it has been greatly increased against our wishes and open protest.

It appears strange to every sensible man why this so called convention should after passing such resolutions nominate W. W. Langdon and Wm. Frazier, two of the very men who have caused the county indebtedness to be greatly increased against their wishes and a dishonest expenditure of County funds. As the ticket was gotten up by "soreheads" over the county division and bolters from both of the other Conventions and for the sole and only purpose of downing Moscow as a party and a delegate to the Democratic Convention and the other a bolter.

Now the people of Genesee and vicinity will not swallow such soap as this and we cannot blame them.

The Stars and Bars says—Mr. R. H. Barton, the candidate for sheriff of Latah county, deserves, for many reasons, to be elected. He is a Republican and all Republicans who are in favor of annexation of North Idaho to Washington ought to have an office, and if not an office a chronon. Mr. Barton ought to have the position of Sheriff. He is a pioneer who has done much to develop the resources of the country.

He has always been on the alert to do what he could for his section of the country. He has expended his money in building up the town in which he lives, and a man who works hard for his own friends and neighbors is worthy, generally, of the confidence of the people. He is an old soldier. We do not claim that a man should be elected to office simply because he has been a soldier, but we do say, that a man that will leave his home and go forth to endure the hardships of army life in defense of his country, is worthy of some consideration by the people. On an average, we think, the soldiers in the rebellion shortened their lives, by exposure, at least ten years. None but they who went to the front can feel the indignant approach of disease, such as they do. It is coming to them all. When a man, who, twenty-five years ago, went forth into battle for a country's flag as Mr. Barton did, lives in a community long enough to prove his worth as a man as Mr. Barton has, asks for an office entirely within his capacity as Mr. Barton does, gratitude ought to elect him.

You are cordially invited to call in and look over one of the most complete, best equipped Drug Stores and Pharmacies in the Palouse Country, which is located at Genesee, Idaho Territory, and conducted by a Graduate in Pharmacy. We will always carry in stock as full and complete line as trade demands, comprising

GENESEE ADVERTISER

NOVEMBER 17, 1888.

PERSONAL AND IMPERSONAL.

There are a dozen men in Milwaukee to carry a life insurance of more than two hundred thousand dollars each. One, a prominent railroad man, is insured for five hundred thousand dollars.

KILLED BY A DUMMY.

A convict named Brown, who was brought to a man named Perry, was killed by falling from a bridge near Redford. His arm is broken and he appears to be hurt internally. He was foreman of a gang of bridge builders.

A YOUTH IN TROUBLE.

Wm. Montgomery, of Portland, Or., was arrested in San Francisco and taken to the city prison where a warrant was waiting for him, charging him with forgery. It seems that Brown, Crumley and Montgomery were rooming together. Crumley says he paid the rent of the room, and the latter was out of funds, and also advanced him money at times. September 30th Crumley became seriously ill and Montgomery, in claiming a telegram to the sick boy's parents at Philadelphia, signing Crumley's name, in which he asked for money, was very sick. When the money arrived, amounting to \$30, Montgomery procured it at the expense of Crumley's name.

Forest Fires.

Dr. Jones and R. H. Shingle of Grass Valley, Cal., had a fearful experience. While driving home from a place known as "You Bet" they ran the car into a tree. The car was on both sides of the road, huge pine trees, and one place on their way was blocked by fallen trees. The car was overturned, and the driver was killed. The absence of wind is that allowed them to get through. The timber on the mountain is a fire hazard. At Johnson an extensive fire mill is reported destroyed.

Missing Hunter Found Dead.

Mr. F. K. Erie, of Idaho City, reports the killing of a body. The body was found in a hole in a hunter. Mr. Wallace Brown, son of Robert Brown, proprietor of the Kaweah Ferry, started with a companion named Charles White on a hunting expedition to the mountains. They had with them a good supply of ammunition, blankets and food, besides taking with them a tent. They pitched their tent at the head waters of the fork of Brownlee creek, and about noon of the 2nd of December they started in search of game. White's statement is to the effect that he looked around for Brown but could not find him, and returned to the camp. The evening Brown did not return up to the end of forty-eight hours so White returned to the ferry and notified the police that he was missing. The body was found on the 10th of December, and was about two feet below the surface of the water. On his reporting Brown's disappearance, all the men in the neighborhood started to search for the body, and remained out until noon interfered, but during the entire summer men have been looking for the body of the boy. Two months ago a band of Indians went through the mountains but could get no tidings of the missing boy. Mr. Thomas Arthur, while hunting, discovered a gun and a pair of mittens, lying at the head of a small brook. He reported the matter to the senior Mr. Brown at the ferry, and the latter, who was started out on the 21st of August, found the body of a man, about a quarter of a mile from the tent, and about the same distance from where the mittens had been found. The gun, when found, was still loaded. The body was intact, showing that it had not been tampered with by wild animals.

A "LITTLE NONSENSE."

"It must be the man with a brick in his hat who is full to the brim." - Tom's statement.

Basin.

"Papa, what is a shock of hay?" Papa (who has been twice years old) said: "Oh, it's when a barn is struck by lightning."

Basin.

"Hobson got off a neat thing the other evening." Dobson: "Indeed? What?" "Hobson's 'A lady's ride.'"

Basin.

"Slithers always tries to be strictly accurate. Upon a recent occasion he was asked the name of a certain foreign-named dish. Bring me a plate of plain hash, if you've got any. Water (of an and erect, in tone of dignified approach): "Olla podrida for one." - Chicago Tribune.

Basin.

"The Indians have not the sound of z. All their s's are sibilant. The French missionaries and writers were always at a loss to give a correct description of Indian words. Note the mistake in the word Missouri, the name of a large State, of a great river, and of a famous city. The name is invariably pronounced Missouri, and the natives of the State do likewise." - Montreal Gazette.

Basin.

A Georgia farmer, who is a queer dresser and a nervous nut, only interpreted it to mean that there were \$75,000 buried on his ground, but located the treasure by means of a winning ticket, and received many circumstances that would attend the digging. The excavating party were rapidly becoming impatient, and the man was everything came amissing, like what had been predicted, except the golden treasure.

Basin.

The pigs when two months old should be fed barley and oatmeal morning and evening, and at noon skim milk. The barley and oatmeal may be given separately, if desired, at alternate meals. In this way the pigs will soon grow into porters. Eight porkers will consume about a sack of meal per week. With such feeding and a run on clover piglets develop very rapidly, and are always very healthy, and when old enough will fatten very rapidly.

Indianapolis, Ind., Nov. 14—A brilliant wedding occurred to night in the marriage of Miss Fanny Belle Vallen to Hon. Charles S. Voorhees son of Senator Voorhees, and present Delegate to Congress from Washington Territory.

Mr. C. E. Grimes has just received a new and complete fine millinery and ladies furnishing goods, those wishing to avail themselves of the first choice of any goods in her line should call and make selection at once.

A sidewalk has been built from the Owens house to the Depot and another from Vollmers store to Christophers drug store. We are pleased to see the enterprising citizens of Genesee take such an interest in that direction. Let the good work go on.

We understand that a wreck on a freight train occurred on last Wednesday. It appears that the section gang were putting in new rails and had failed to flag the train in time which was likely the cause of the wreck.

A Stamp, Mr. Stelz and J. N. Oliver are each erecting fine residences in the west part of town. If the building boom keeps up as rapidly as it has in the past five months, Genesee will have more than kept its pace with other towns in the Palouse Country.

Last Thursday was the seventh anniversary of the marriage of Mr. and Mrs. J. E. Larimore. An enjoyable time was had by their friends who were presented, by their friends with an easy rocker and a nice chair for which they requested the Editor to extend thanks in their behalf.

Cameron Bros. & Larabee will move their present store building to the rear of the lots on which now stands and at once erect a two story building 26 by 70 feet which will be covered with corrugated iron. If the building boom keeps up as rapidly as it has in the past five months, Genesee will have more than kept its pace with other towns in the Palouse Country.

At a meeting held for that purpose, on last Wednesday eve, a Dramatic Club was organized composed of Genesee young people. E. E. Larimore was elected president, M. A. Means, Secy. and F. E. Moore, Treasurer. Another meeting is called for Monday evening at E. E. Larimore's hall at 9 P. M. An invitation is extended to all who are interested in such an organization to attend and become a member.

Genesee. Genesee is a garden spot. It is one of the best towns in the Palouse country. It is the largest town in the Spokane and Palouse railroad. It is blessed with the finest climate in the world, and the deepest and richest soil. It is the center of the best fruit in the world, and is the best grain and stock market in Idaho. It is the terminus of the Spokane and Palouse railroad and gives it easy communication with the best markets of the world. It will be the terminus of the S. & P. railroad for all time to come. It is a supply point for a vast country both East and South and always will be. It is in the finest fruit belts on the coast and only time will make it and prove it to be the best fruit country in the world. It has six merchandise stores, four hotels, two very stylish three blacksmith shops, two barber shops, one drug store, two furniture, three hardware stores, one tin shop, one millinery store, two real-estate offices, one butcher shop, one newspaper three grain warehouses, schools and churches, fine residents good store buildings and one brewery.

The city of Seattle has inaugurated the chain-gang system for ridding herself of the nuisance of too many drunks and vagrants. It is invariably a success as it proves in this case.

Last Tuesday night the K. of P.'s instituted and organized a lodge at this place. They met in the commodious Genesee hall. A number of members of the same order were present from Colfax, Spokane, Pullman, Colton and Lewiston. Fifteen new members joined and were initiated. The K. of P. now have twenty-three members. In the evening all partook of a grand supper prepared by the genial host of the Owen's house, consisting of turkey, oysters, cake and etc. A general good time was had.

Business Locals. Wood taken on subscription. Lime and Sand for sale at Cameron Bros. & Larabee. Dittmore & Maxwell have money to loan on real estate.

The Owen house sets the best table in the town. Call and see them. Where are you going, my blooming lass? Steer for the P. of G. Chicken, oysters and Lemon pie every Sunday for dinner at the Owen's house.

Don't fail to call on A. Langdon, Notary Public, for any business in his line. Office at L. Levy & Co's store.

Martin Onberger who has been sick with typhoid fever at Mr. Hegstrom's is improving and will recover.

Call at Mrs. C. E. Grimes millinery store and examine the elegant-trimmed hats and bonnets, first door East of the Post Office.

The new restaurant near the N. P. Elevator, which has just been started by Mr. Buckley, is doing a big business. Good meals, well done, can be had for two bits.

For cutting hair and shaving neat, WM. BROWN cannot be beat. G. A. and see him when you can. He keeps a clean towel for every man.

Shop on main street 1 door west of Dr. W. C. Cox.

All lovers of good sport may be gratified on November 29, by having a chance to try their hand at a turkey shooting at Genesee for Thanksgiving Turkeys. Rules of shooting will be made on the grounds. Nothing but rifles will be used. J. J. Owen.

Notice is hereby given that the undersigned has purchased the Genesee Advertiser from its former Editor J. L. P. Mays as well as all accounts of every description due and owing said Mays from divers and sundry parties, and that said accounts have been duly assigned in writing to the undersigned, who is now the owner and holder thereof. E. R. WISWELL.

Watch this space next week. It will be filled with something startling.

Platts, as well as all accounts of every description due and owing said Platts from divers and sundry parties, and that said accounts have been duly assigned in writing to the undersigned, who is the now the owner and holder thereof. E. R. WISWELL.

Let every body remember the shooting match on the 23rd, just before Thanksgiving. One hundred turkeys and chickens to be shot for, three turkeys and chickens, 5c. to commence at 10 o'clock, A. M., near the brick yard. Every body invited to try their hand. J. J. OWEN.

For Sale. One good 3 1/2 LaBelle wagon, one No. 1 J. I. Case sulky plow, one 60 tooth scratch harrow—3 sections. Enquire of J. J. OWEN. 14-2 Genesee.

Genesee is a garden spot. It is one of the best towns in the Palouse country. It is the largest town of the Spokane and Palouse railroad. It is blessed with the finest climate in the world, and the richest soil. It is the center of the best grain and stock country in the world, and is the best grain and stock market in Idaho. It is the terminus of the Spokane and Palouse railroad and gives it easy communication with the best markets of the world. It will be the terminus of the S. & P. railroad for all time to come. It is a sunny point, and the best country both East and South and always will be. It is the finest fruit belts on the coast and only time will make it and prove it to be the best fruit country in the world. It has six merchandise stores, four hotels two livery stables three blacksmith shops, two barber shops, one drug store, two furniture stores, one hardware store, one tin shop, one millinery store, two real-estate offices one butcher shop, one newspaper three grain warehouses, schools and churches, fine residents and store buildings and one brewery.

At the request of many of the citizens, we are authorized to state that there will be a meeting on next Friday evening, November, 20th, 1888, at 7 o'clock p. m. at the school house for the purpose of talking steps and organizing to get Genesee incorporated. Let every person be present.

The ball at the Elliott hall last evening turned out to be a grand affair. Forty-five numbers were sold. The best of music by Prof. Wood's String Band was had. At about 12 o'clock all partook of a grand supper which was prepared by grand host J. J. Owen, consisting of all the goodies and luxuries that can be found upon any table, after which the light fantastics were tripped until the early dawn of day, when it disbanded and all went rejoicing homeward. The affair might have been a grander one and much nicer time had if all of the gentlemen present had have preceded partners. Boys, all bring your girls next time.

THE GENESEE ADVERTISER

GENESEE, IDAHO TERRITORY.

Thursday, Dec. 8, 1888.

Spokane and Palouse Time Card. Passenger trains leave Genesee at 5.00 a.m. and arrive at Spokane Falls at 1.30 p.m. and arrive at Genesee 7.30

City and Country Local News.

Christmas is drawing nigh; Don't let the little ones sigh. Buy all their stockings with our toys. And great will be their thanks and joys.

Look out or you will get the measles.

New Orleans molasses at L. Levy & Co's. Special bargains in all lines at L. Levy & Co's.

Several cases of small pox are reported at Coeur d'Alene. Headquarters for general medicine. L. Levy & Co.

Property tax will become delinquent on Dec. 10th. Every thing at Bed Rock prices at L. Levy & Co's.

Lime and Sand for sale at Cameron Bros. & Larrabee.

Turkeys are not quite so numerous since thanksgiving. Dittmore & Maxwell will have money to loan on real estate.

Put on your goggles a set the focus of your eye on J. P. Vollmer's new ad.

Twenty-two new subscribers this week. Small favors thankfully received, and large ones in preparation.

It is reported that John Sherman has accepted the position of Sec'y. of State in Harrison's Cabinet.

H. K. Barnett, the popular merchant, was in town for several days during the week looking after his interests here.

Finest stock of imported and domestic cigars at Barnett's that has ever been brought to Genesee. Call and sample them.

Frank Earnst has his new house nearly completed. He will move into it as soon as his things arrive from Port Townsend.

Order a pair of flat boots of Al Harrie the shoemaker. He can fit and please you. Give him a trial. Shop opposite city hall.

Call early and select your Christmas gifts at Vollmer's before their large stock is gone. The early bird catches the worm.

Call and see Mrs J. Harwick below Kane's hotel on front street where you will find a fine assortment of candies, nuts, fruits, &c.

A building owned by C. F. Birk has lately been moved from the hill to a lot on main street just east of the post office where it will be fitted up for retail and fine assortments.

The new restaurant near the N. P. Elevator, which has just been started by Mr. Buckley, is doing a big business. Good meals well done, can be had for two bits.

Mrs. J. D. Kane, the wife of the genial host of the Hotel House, has been very low for the past week. She is slowly gaining under the care of Dr. Wiley of Untown.

A great big counter loaded down with Christmas novelties at J. P. Vollmer's main street. Such a complete and beautiful stock.

Frank Bro's. have the credit of sending out the largest train of grain in one day, ever shipped from this point. They have loaded and sent out 18 cars of wheat on last Tuesday.

P. H. Winston, the former editor of the Spokane Review, has lately severed his connection with the paper, and will be in town at H. E. Houghton and Paul F. Mohr, of that city.

We have hundreds of new and beautiful holiday novelties. It is easy to select a present for a friend. Buy toys for the children, fresh such a complete and beautiful stock.

Notice: Every one knowing themselves indebted to the old firm of Sampson & Jones or to A. Elliott for money etc., will please settle their trouble by calling immediately and settling. L. J. Dittmore, 151f.

Dr. Cox is having his lot, which lays just east of his office, leveled down, and will build in it soon, an elegant one story residence. The plans were drawn by a Spokane architect and are in the hands of the carpenters.

R. S. Stiers had another valuable hare killed in the yards by the train that Monday. It is reported that the company that he had been responsible for the animals were killed within its yard limits. Mr. Stiers is having hard luck lately and as his support depends upon the sale of his team, it will likely be hard on him as winter is drawing nigh.

Come to head quarters where your money will go the farthest and where you are sure to find just what you want. Many new and novel things never offered here before. Our prices suit all. S. G. ISAMAN & Co., Lewiston, I. T.

Geo. Steltz, who recently arrived from Dakota, will soon open a furniture store in the new building being built just east of the S. & P. Livery stable. He will put in a large stock of furniture and be able to supply the increasing demands in that line.

Charley Sampson, who lives between here and the Rim Rock, was lately thrown from a horse and received a very severe sprain of the ankle. He is confined to his bed under the doctors care and it will be some time before he will be around again.

A petition for, and a remonstrance against the incorporation of Genesee are in circulation. The petition contains a large number of signers but it is hard to tell which will get the most signers, the petition or the remonstrance.

There is to be a dramatic entertainment entitled "Above the Clouds" followed by a social hop, in the Genesee Hall on Friday night of December, 21st. Preparations are being made for a grand entertainment which will, no doubt, prove a grand success. Posters will be out in a few days.

D. E. Lesh, the present as well as the sheriff elect, of Yackima Co., W. T., has been in town, going to meet Mr. Derroch, and to show him the way to our office, where we had a pleasant chat. He is a fine appearing man and ought to be a good sheriff, if size is one of the necessary qualifications.

We received a pleasant call on last Saturday in the persons of Harry Cole and T. F. Maher, as well as their names upon our subscription list. Messrs Cole and Maher are two thrifty farmers living a few miles from Moscow. Harry looked as neat as if he had either come out of a band box or bridal chamber.

On the first page will be found a glowing and accurate article upon the Genesee and Palouse countries as well as the town of Genesee. Such an article will be interesting to all our subscribers and extra copies to send to eastern friends, we have plenty extra copies on hand to supply them. Let every subscriber send a few extra copies to his friends and inform them the kind of a country we live in.

Joe Howard, the representative of the National Building Loan and Protective Union has been in town during the week. We understand that an effort will be made to form a local organization in Genesee. Mr. Howard, the head agent located at Spokane Falls, is expected here today to assist in the organization. The company is reliable and the plan upon which it works is a good one. Every man intending to build in Genesee and borrow money should investigate the workings of the company.

"Blessed is the man who sitteth not in the seat of the 'kicker,' nor mingling with the company of the 'mossback' for his delight in new enterprises, and buildings, and in devising schemes for building up his town, he doth meditate both day and night. He shall be like unto an evergreen tree planted by the river of waters--his leaf shall not decay nor his branches wither; but he shall wax fat like unto a bay tree for upon the succulent grain of his land he shall eat, and when the day of forward cometh he shall 'get there, Eli,' while the 'kicker' shall be consigned to outer darkness, where the boomer is not known and the business man never advertises."

An official statement as to the financial standing of Latah county has lately been made by auditor Kyle. It shows the total revenue, both county and territorial, to be \$10,783.51 and the total amount of Warrants drawn, \$38,130.84 besides the \$20,000.00 Latah county bonds, lately issued under the act creating Latah county; for building purposes. The \$22,130.84, the amount of warrants drawn includes the warrants for about \$17,000.00, issued in favor of Nez Perce county in payment of Latah's proportion of Nez Perce county's indebtedness. It shows the area of the county to be about 36 miles square. Population about 10,000. Number of persons assessed for poll tax 1,029. The statement is a fine showing and speaks well for the county.

and saw stretching out before him a clear field for individual endeavor. It is a tribute to the support of his government that it was measured by the cost of it. In early days the people was their government and was enforced by the free, thoughtful and intelligent suffrage of the citizens. Combinations, monopolies, aggregations of capital that were there availed or sternly regulated and restrained. Our business men are manly striving in the race for richer and immense aggregations of capital outbursts in the magnitude of their undertakings. Our farmers, long and patiently struggling in the race of life with the hardest and most unremitting toil will not fail to see the spirit of misrepresentation and misleading fallacies that they are obliged to accept such prices for their products in foreign markets, where they compete with the farmers of the world. It states that the existing situation as to the surplus is injurious to the health of our body politic. It states in those all patriotic love of country and substitutes in its place selfish greed and grasping avarice. It states upon the farmers' man who free from all delusions and no longer frightened by the cry that their wages are endangered by a just revision of tariff laws, will reasonably demand, through such revision, sturdier employment, cheaper means of living in their homes, freedom for themselves and their children from the doom of perpetual servitude, and an open door to their advancement beyond the limits of a laboring class. Others of our citizens, whose comfort and expenditures are measured by moderate salaries and fixed incomes, will insist upon the fairness and justice of cheapening the cost of necessities for themselves and their families.

It states that the necessity of the reduction of our revenues is so apparent as to be generally conceded, and by the means by which this end shall be accomplished and the sum of direct benefit which shall result to our citizens, and the controversy at the utmost importance. There should be no scheme accepted as satisfactory by which the burdens of the people are only apparently reduced, and the public money with all their demoralizing consequence should not be tolerated either as a means of relieving the treasury of its present surplus or as furnishing a pretext for resisting a proper reduction in tariff rates. There should no cessation of the struggle until a plan is perfected, fair and equitable, towards existing industries, but which will reduce the cost to consumers of the necessities of life, while it provides for our manufacturers the advantage of raw materials, and permits no injury to the interests of American labor. He recommends a change or amendment of the land laws, so that their spoliation and diversions to other uses than for homes of honest settlers might be prevented, while a measure to reform remains awaiting the action of congress.

He says that our general pension laws remain confused and imperfect, and some revision of them could be easily made, which would rest upon just principles. He deals upon appropriation bills and states that they are defective, and that provisions to meet private ends and that they would fail to meet with favor unless it contained more for local and private advantage than for public benefit. He states that the rights of American fishermen under the treaty and international comity in the territorial waters of Canada and New Foundland and regrets to say they are not satisfactorily adjusted. He speaks of the unreasonable conduct of the British Minister during the month of October and in the very crises of the presidential election, and that he has not an accurate and precise survey and demarcation of the boundary line, as it is recited in the treaty with Russia under the United States. He states numerous other subjects at length, among which are the consular service, the postal service, the Navy and Army. The message is lengthy and takes about six columns of close reading.

He still says the wrong thing at the wrong time. The President's message is a lengthy one and we are unable to give you a synopsis of it. He says--As you assemble for the discharge of the duties you have assumed as representatives of a free and generous people, your meeting is marked by an interesting and impressive incident. With the expiration of the first century of our constitutional existence as a nation will be completed. Our survival for 100 years is not sufficient to assure us that we no longer have danger to fear in the future, and with all its promised blessings, of a government founded upon the freedom of the people. The time rather of our history has been a struggle whether in the past we have always been kept in the course of safety, and whether we have before us a happy plain and clear which leads to happiness and prosperity. The citizens of our republic in its early days rigidly united upon full compliance with the letter of this bond

Spokane and Palouse Time Card. Passenger trains leave Genesee at 5.00 a. m., and arrive at Spokane Falls 10.50 a. m., and arrive at Spokane Falls at 1.30 p. m. and arrive at Genesee 7.00.

City and Country Local News.

Genesee is booming! Farmers still plowing. Court is in session at Colfax. Warm weather and gentle showers.

Gypsies are playing their vocation at Moscow. Yesterday was the shortest day in the year. Don't fail to make the little one happy on Christmas.

J. Rosenstiel is having a well dug near his residence. Lime and sand for sale at Cameron Bros. & Larrabee.

Dittmore & Maxwell have money to loan on real estate. A kitchen is being added to the north side of the Lath hotel.

The County Commissioners meet on Monday in January. An elegant stock of China ware at Barnett's for Christmas presents.

Geo. E. Ireland & Co. have sold out their cigar store to J. J. Owen. C. L. Gowell, editor of the Colton Eagle, makes a pleasant call on Wednesday.

Judge E. T. Platt has been confined to his house by sickness for the past week. Remember the free Christmas entertainments at Elliott's Hall on Christmas eve.

Call at the drug store for your Christmas goods. An endless variety at bottom prices. J. L. Craig, of Cheney, has rented Mr. Hodgins farm and will move on to it about March 1st.

The saw mill owned by Skeels & Langdon at Palouse City was lately destroyed by fire. Loss about \$12,000. Be sure and call at the drug store and look over that fine lot of Christmas toys. Just the things for children.

The post office will be open on Sunday evening. Instead of 7 to 8 as stated in last week's issue. The frame to the hardware building of Cameron Bros. & Larrabee is up and the corrugated iron siding is being put on.

Finest stock of imported and domestic cigars at Barnett's. Has ever been brought to Genesee! Call and sample them. A dance will be given on Christmas night by the K. of P. of Moscow, instead of Christmas eve as stated in last issue.

Order a pair of fine boots of Al Harrie the shoemaker. He can fit and please you. Give him a trial. Shop opposite city hall. A side walk has been constructed from Barnett's store to the Avanzeros office. It will be extended to the Owens House soon.

Call early and select your Christmas gifts at Vollmer before their large stock is gone. The early bird catches the worm. A territorial convention will be held at Ellensburg, W. on Jan. 3rd, next to take proper steps for statehood of that territory.

Call and see Mrs. J. Hardwick below Kane's hotel on front street where you will find a fine assortment of candles, nut fruits, etc. English Breakfast tea in elegant baskets of different sizes at Barnett's. Examine this tea before you buy elsewhere. The baskets are worth the price of the tea.

All bills against Latah County must be filed with the Auditor on or before the first of January in order to be allowed at the January meeting of the Board. C. A. Christopher & Co. have just received an elegant line of Christmas goods such as plush albums, toilet cases, silverware &c. Don't fail to call and see them.

The new restaurant near the N. P. Elevator, which is just being started by Mr. Buckley, is doing a big business. Good meals, well done, can be had for two bits. A great big counter loaded down with Christmas novelties at J. P. Vollmer's—the mammoth stock of the town, consisting of the plush goods and toys of every description.

Hon. J. P. Clough of Latah, was elected President of the Idaho county on the 10th. Edward L. Curtis was elected chief clerk, and J. P. Campbell, sergeant at arms. H. B. Burkhardt of Kelly was elected Speaker of the House. Clark H. Reed, chief clerk and G. W. Frank, sergeant at arms.

Go call the boys to see our toys, and let the man who calleth be the caller. And in his calling let him nothing call but boys to go see A. P. Volmer's toys.

We have hundreds of new and beautiful holiday novelties. Its easy to select a present for a friend or a toy for the children from such a complete and beautiful stock.

Notice.—Every one knowing themselves indebted to the old firm of Sampson & Jones or to A. Elliott for meat etc., will save themselves trouble by calling immediately and settling. L. J. Dittmore. 15th.

Come to lend quarters where your money will go the farthest and where you are sure to find just what you want. Many new and novel things never offered here before. Our prices suit all.

Rev. R. A. Beard, superintendent of the American Home Missionary Society for Washington Ter., preached in the Genesee hall on last Monday evening. Rev. T. W. Walters, his assistant for eastern Washington, who resides at Colfax, and Rev. Jas. Davis, of Pullman were also present at the meeting. Mr. Beard will return soon and hold a series of meetings here.

From the governors reports of the several territories made to the interior department, we give the following estimates as to population: Dakota, 700,000. Utah, 210,000. Washington, 186,283. New Mexico, 175,000. Montana, 140,000. Wyoming, 85,000. Arizona, census of 1882, 82,965.

At the annual election of officers of the Anderson Post No. 5, G. A. R. department of Idaho, the following officers were elected: W. W. Langdon, Lindol Smith, P. C. Jefferson Wood, Sen. vice Com. B. J. Olson, Jun. C. C. Carpenter, O. D. C. C. Johnston, Chaplain. J. G. McBane, G. M.

Commissioner elect Oylear will begin duties with the new year. He may be sure of no crookedness in his work. Sunday school at Oylear school house has been discontinued, preaching the 4th Sunday of each month by Rev. Moody.

Public institution at next regular meeting on 2nd Saturday of January and bean bake and camp fire at night. The Moscow Mirror says:—We hope that Mr. Wiswell, after reading the honest, upright report of the County Commissioners in this issue will try and repair the injury heaped on the reputation of those honorable servants and especially on W. W. Langdon, when he falsely assailed their good name and fair character in the Advertiser in his issue of the 12th inst.

The entertainment last evening, given by the Genesee "Star Pleasure Party," was a grand success. They intend, after the holidays, to visit a few of the neighboring towns. All lovers of such sport should not fail to see them play their pleasing drama entitled "Above the Clouds."

Little Pothach. Muddy Ridge. Julietta is booming. Many farmers are busy plowing. Leander Ferguson has a new field.

Mr. Johnson's little daughter, who was burned, is improving. Grand corn hunt in which L. C. Tabor and W. Stevens participated.

Rev. Simmons preached the evening of the 17th, to a small congregation. Julietta is booming, but the grade down to the town is improving very slowly.

The messes are in Julietta; there is talk of discontinuing the school in district 26, on account thereof. James Tabor and family have returned to their ranch near Julietta. S. Tabor and wife are visiting with them.

NOTICE:—Every one knowing themselves indebted to the old firm of Sampson & Jones or to A. Elliott for meat etc., will save themselves trouble by calling immediately and settling. L. J. DITTMORE, 154f.

Charles Boyd, chief justice of Washington territory, died at Seattle, on Dec. 15th, of pneumonia, 28 days after his arrival in that territory, to fill the place lately held by the lamented chief justice R. A. Jones, who died suddenly, August 19th, last.

A mass meeting was held Thursday after noon at 4 p. m., in the Genesee hall to take proper steps to prevent the introduction of small pox amongst us. Dr. W. C. Cox, E. T. Platt and A. Elliot were appointed a committee to go to Moscow to present the matter before the county commissioners and board of health and if possible to obtain an order to quarantine the town. They left for Moscow yesterday morning, and returned in the evening with an order from the board of health to quarantine the town.

Twenty styles of chairs at Herman Brothers.

Dr. J. L. Hayes and family, formerly of McMinnville, Oregon, arrived in town on Thursday night. They will go to keeping house at once. The Doctor is a practical dentist and will open his office next to the jewelry store. We wish him the best of success.

Under date of Dec. 7, Mr. C. H. Walker writes to the Oregonian, that fifty years ago he was born at Wallat-poo (William's Mission) near Walla Walla; that he is the oldest living white man born west of the Rocky Mountains; that his mother, Mrs. Mary R. Walker, living at Forest Grove, Oregon, is, he believes, the only surviving white woman of those who crossed the plains previous to 1820, and that she made the six month's journey across the plains on horseback.

It takes live men to make a live town. Dead men are fit only to inhabit cemeteries. If they are decently dead—dead all over—we tenderly lay them away to the sleep of a tomb, but if they are dead to all enterprise, outside of the narrow plane of their own interests, and yet persist in walking around, moving their dry bones and calloused hearts and consciences where real estate is meant to thrive with vigor, they are only like drone bees—in the way until they are stung to death and dragged outside the line of legitimate industry. Twenty real live men are worth more to a town generally than a round full thousand of useless material that lies around like rubbish in a rising stream, which is aching and foaming to turn mills and factories. Yes, live men bless and dead men curse a town. The advertising columns of a newspaper generally show who live men are, especially those in business.—Ex. Fort Worth, Texas, Dec. 20, 1888.

The numbers, 15 and 16 of the GENESSEE ADVERTISER has reached our table by the kindness of publishers or some undiscovered friend. We desire to tender our thanks for the welcome visitor, and also place our seal of approval upon its make-up and general appearance, its valuable news items, and spicy editorials. The ADVERTISER furnishes evidence of push and enterprise upon the part of its proprietors, Wiswell & Barton. On a glance at the local news items we are led to infer that there are stores, factories and courts, and many conveniences of which we boast, here at the hub or center, and that there is enterprise and financial prosperity in the far away land of Idaho territory.

We are pleased to be informed of the improvement and prosperity of the outside world. The ADVERTISER will be a force and power in developing and advancing every general and local interest in that new made territory, which may soon take her place in the constellation of states. In politics the ADVERTISER is decidedly republican, but we appreciate its candor, and admire its aggressive temper in what it thinks the best interests of the greatest number of sixty million of freemen. But as one of the proprietors fearlessly confronted rebel bullets for four successive years in the late war and rendered valuable service in striking the shackles from four millions of the colored race, who to-day walk forth as free men. I would with modesty suggest (not by way of digression) that he enter the prohibition army, and acquit himself as nobly in the effort to redeem more than two hundred millions from the bondage and curse of intemperance. This battle is upon us and must be fought, not with leaden missiles, but by the power of the pen and press.

A few items in regard to our country and city: Our climate is delightful at this writing, even the flies have not gone into winter quarters.—Wheat is promising, never saw it better for the season of the year.—Farmers are busy preparing for corn and oats.—Our rain fall has been more than usual for the last few months.—Country rapidly settling up, and its hitherto unknown resources are being rapidly developed.—Fort Worth, the pride and queen of the west, has justly acquired the appellation of railroad center having eleven outlets, with prospects of three more in the near future. It bids fair to become the manufacturing city of the South, as well the city of magnificent churches.

In conclusion, we wish the ADVERTISER the success it deserves, and if its initial numbers are to be taken as exponents of the future, we feel confident that it will press its way and widen its circle until it will stand the peer of any in the field of journalism. Best wishes for the enterprise and proprietors. A. S. BIDDISON.

[The writer of the above letter has reference to R. H. Barton as to four years service in the army supposing likely that he was a member of the firm of Wiswell & Barton, the publisher of the ADVERTISER. We will state that E. T. Barton is one of the publishers, who is a son of R. H. Barton.—Ed.]

A Brief Abstract of Governor Stevenson's Message.

Governor Stevenson has submitted his biennial message to the Legislature. It is a lengthy one and we give only a short synopsis of it. He states that the establishment of a territorial Board of Equalization is only remedy to relieve the people of the unjust and unequal valuation of property for taxation. It is a notorious fact that a poor man who owns only two or three cows and a pair of horses, is assessed for all he has, and for a full value of the same, while the man who has horses and cattle by the hundreds or thousands is only assessed for about one-fourth of the number he actually owns, and then at one-half of the cash value. He recommends that a law be passed prohibiting minors from entering liquor saloons. That election law be amended so that at the next general election one county commissioner shall be selected for two years, one for four years, and one for six years. That an office of commissioner of immigration be elected, with a salary of \$1,200 per annum, and a contingent fund of \$500 to be used in the printing of circulars &c to induce immigration. That a small appropriation of money be made annually to employ some suitable person to see that the game and fish laws be rigidly enforced.

He asks the legislature to make selection and recommend some worthy young man of good habits for the scholarship of the New York College of Veterinary Surgeons as that college have offered a free scholarship in that renowned institution.

In 1887, there were in the territory 227 school districts, 268 school houses, 865 schools, 10,433 scholars enrolled, 20,130 children of school age, \$101,002.53 were received from county taxes and \$20,910.81 were paid teachers for salaries.

Moscow Letter.

Paradise Lodge No. 17, A. F. and F. M. held a public installation in G. A. R. Hall on the evening of Dec. 27th. The ceremony was very impressive and well conducted. Dr. Watkins, who was marshal of the occasion, did his part well, as he does everything he undertakes. Dr. Worthington, a recent arrival, assisted worshipful Master Maher in the installation services. If we mistake not, Dr. Worthington will make a valuable acquisition both to our society and his profession. Geo. I. Martin was installed master for the ensuing year. If he makes as good a master as he is a citizen, we may well say that Paradise Lodge No. 17 has made an excellent choice. Major Collins Sen. warden is a comparatively new member, but we understand he is very efficient. Some of the officers have escaped our memory at present, as your correspondent had no intent to make a newspaper article out of being present as he was simply an invited guest being present by invitation of J. Q. Jolly an old time Mason. The exercises were interspersed with charming music. Pretty Miss Emma Langdon presided at the organ. But perhaps as fine a part of the exercises was an essay by Mrs. Judge Piper, which was well delivered and showed her to be a writer of no ordinary ability. After singing and talking and having a good time generally, Dr. Worthington brought the three past Masters, E. Mathews, John Moore and T. F. Maher to the altar and in a very neat and affective manner presented each of them with a beautiful past Masters jewel. The marshal next announced a banquet at that reliable hostelry, the Barton House. Your correspondent did not attend the banquet but was informed that it was—a feast fit for a king, and was partaken with toasts and merriment. We are infered to believe that from the spirit of fraternity exhibited toward one another that there is indeed something in Masonry.

In the district court at Walla Walla, Judge Langford, on motion of Hon. Rufus Mallory, attorney for the defendants in the case of Geo. Dacres vs. the Oregon Railway and Navigation Co. for killing a bull gave a non suit, deciding that the Co. was not liable to pay damages occurring because the Co. had not fenced its track; that under common law the owners of cattle must keep them off the premises of others. In short, that the owners of real estate, even of a railroad company, is not bound to fence against the depredations of cattle, in the absence of a special statute.

This is a very important ruling, by which—if sustained—railroads need not fence their tracks. The case will be appealed to the supreme court.—Washingtonian.

Government Land.

There are some government land untaken as yet in the Lewiston Land District, although the land of first choice in the district, as in all other portions of the domain, have been taken up by the homeseekers who have availed themselves of the opportunity while the lands were plentiful. There are yet pub-

lic lands sufficient within the Lewiston Land district to supply homes for many thousands of families which can be had for only the taking up and paying the government fees. True these lands cannot be had close to Genesee or other railroad towns but by going east of here from twenty to forty miles, and from there to Pierce City in Shoshone county, can be found good government land that has never been claimed by any one. "Distant fields are always the greenest;" is an old saying applicable in this connection. It may be said—and it is a fact—that lands have been passed by as not desirable, are often found to be as good and in some instances better than those that were selected long since.

We often find close about us, that for which we seek afar off. Good public lands are growing more and more scarce, and eastern people and others should not retain the idea that upon the public domain as in the past, there will always be room left for one more. The public lands of the world are limited and are growing less and less every year. Uncle Sam has opened wide his doors and invited each and every citizen to take a slice, and many have availed themselves of his county with a great degree of greediness and have had the nerve and push to leave their eastern homes to come out here in the west in an early day while the lands were plentiful and obtain the best of the land at a time when they could be obtained. Immense tracts of land have been given in aid of the railroads and especially to the Northern Pacific. 1280 acres have been reserved in each township for the benefit of the public schools. The good lands that are yet obtainable must be sought out and obtained with patience in nooks and corners, sometimes far away from the railroads and civilization.

The good lands remaining vacant in the Palouse and Genesee counties are becoming scarce. There are some vacant land in forty and eighty acre tracts, but they are growing scarce and not of the best quality. There are plenty of railroad and other lands that can be purchased from \$4.50 to \$10.00 per acre. Now that the facilities for transportation are growing better year by year by the construction of new railroads, the farm lands of the Palouse and Genesee valleys are appreciating in real worth more and more rapidly than the most increases, thus affording good opportunities for investments and the acquisition of homes.

The high lands of the country are as productive as the lower and are some preferred, as the frosts are not so liable to kill the grain and fruit that grow upon the higher lands. Camas Prairie can hardly be excelled for dairying purposes or stockraising. The woods interspersed with prairies, and the frequent clear streams of water and abundance of grass afford all the essentials. Some good unclaimed government land can yet be had upon that prairie, but of course it takes time and patience to hunt it out. A citizen or one who has declared his intention to become such, can homestead 160 acres by filing his application and affidavit, with the land office fee of from \$18 to \$22, in the local land office. The settler is required to live on the land five years and improve it and then is entitled to prove up and obtain the land free of cost except the small fees and expenses of proving up.

The Pre-emption law gives to any citizen of the United States, and to those who have declared their intentions to become such, 160 acres, and the settler has to prove up at the end of 33 months and pay the price of \$2.50 per acre inside of the railroad limits and \$1.25 per acre outside of the limits. Under the Timber-culture act, citizens of the U. S. or those who have declare their intention, are required to plant, protect and keep in a growing condition for eight years, ten acres of trees on a quarter section.

Meachen's Whiskey Bill.

J. B. Meachen has introduced a bill in the House regulating the sale of liquors and restraining saloons. The bill reads as follows:
To sell wines, liquors, beer, etc., in quantities less than one quart, the applicant, to get licence, must present a petition to the commissioners signed by a majority of the residents of the precinct in which the liquids are to be sold recommending that he is a fit person to engage in the business. A tax of not less than \$400 nor more than \$1,000 is levied on each license, the amount to be fixed by the commis-

ioners.
Any person who sells without license shall be fined in any sum not more than \$100; and for subsequent violation shall be fined in the same sum or may be indicted and fined \$500 and jailed six months.

The stuff cannot be sold on Sundays, Fourth's of July or on any election day. Violators are fined not less than \$25 nor more than \$100 or jailed from thirty days, or punished by both and if licensed shall forfeit the same and not allowed another permit for two years.

Must give bonds of \$2,000 that he will keep an orderly house, will not sell to minors nor keep his place open to sell on the forbidden days. Must not sell to drunkards after notice not to do so by his wife, parent, etc., to intoxicated persons, or to minors without consent of parents or guardians. Violation, fine and imprisonment.

Makes it unlawful for any person to get drunk, and all found in that condition are subject to fine of \$5 and costs.

Persons who make others drunk by sale or gift of whiskey, etc., shall be compelled to pay for the care of the victim, and \$5 additional for every day such victim is kept in consequence of the drunk.

For all damages sustained, in person, property, or means of support, at the hands of drunken men, the one who sells or gives away the stuff is held responsible, as well as for exemplary damages; and the married woman has the right to bring suit, prosecute and control the same, and amount recovered; and all damages to a minor shall be paid to such minor or to his or her parents, guardian, or next friend.

To give away the stuff, or other shifts or devices to evade the law shall be deemed unlawful selling.

Real estate and personal property are liable for all fines and costs which latter shall be liens until the same are paid. All buildings, in which violations of this act occur, whose owners knowingly lease or rent them for the purpose, are liable for and may be sold to pay fines and costs.

In prosecuting, it is not necessary to state the kind of liquor sold, nor is it necessary to state the name of to whom sold. Persons to whom sold are competent witnesses to prove the fact. All sale of liquors on credit are void and the debt un-recoverable.

To take effect and be in force after May 1st, 1889.

Statehood for Idaho.

Gov. Stevenson recommends that our Idaho Legislature provide for a constitution for the purpose of forming a convention for the state of Idaho. He says:—The Territory is rapidly growing in population and natural wealth, and something indicates that it will advance, until, in the future, it will equal, if not surpass, any of the other states of the Union in both these respects, while the intelligence and energy of the people is and will be unsurpassed.

The Organic Act of this territory was approved 3rd, 1863. We have then been in a state of tutelage for a quarter of a century, and of all voice in the education of the Federal Government.

That American citizens on American soil should be so long deprived of political rights inestimable to free men, could never have been contemplated by the farmers of the Federal Constitution.

That the Territory form a government is an anomaly under our institutions is admitted by all, necessary for a time, but never to be prolonged after the population, intelligence and wealth to support a state government have followed in the steps of the pioneer, and establish a commonwealth abundantly able to resume and discharge all the responsibilities and demanding of a state in the Union. In my judgment that time has come for Idaho.

I would, therefore, recommend that the Legislature make provision for the election and holding of a convention to form a constitution for the State of Idaho, to be convened at an early day, and that the constitution so formed be submitted to the people for their ratification at the next general election, or at a special election to be held before that time, and that when ratified it be laid before Congress by our delegate, with the request that Idaho be admitted a state of the Union, on an equality with the original thirteen; and that the necessary appropriations to defray the expenses of such constitutional convention be made.
