**GENESEE LEADS IN WEALTH.**  
The following, sent in by the Genesee correspondent, Mr. Bugge, appeared in a recent issue of the Spokesman-Review. While in the main part the items have appeared in recent issues of the News it is a story that will bear repeating:

Genesee has the honor of being the principal producer of wealth in Latah and Nez Pierce counties in 1903. The production of agricultural wealth by the farming community surrounding this point, most of which is shipped away, is variously estimated at from \$750,000 to \$1,000,000. Grain men report that the total production of grain for export is in excess of 1,000,000 bushels. Of this, 700,000 bushels was wheat, which brought a price of 60 to 65 cents a bushel, or about \$450,000. Barley was raised to the extent of 200,000 bushels and sold for \$75,000, while the oat crop brought as much more.

Second only in importance to grain among the farm productions of the Genesee country is hay, of which there were 650 to 700 carloads of baled timothy and grain hay shipped and a large quantity sold here and fed to stock. The value of the hay exported will average \$175 a car, or \$122,500 for the whole. Of hogs, there were shipped from this point between 65 and 75 carloads, of an average value of \$1500 a car, making a total of \$97,500. Dairy stuffs and fruits were of \$50,000, a grand total of \$875,000. When it is remembered that both the town of Genesee and the country surrounding has little, if any, more than 2500 inhabitants, the tremendous proportionate wealth production can be more easily appreciated.

**THE STRIKE ENDED.**  
The loggers union at Princeton held a meeting Saturday night and voted to call off the strike against the Potlach Lumber Co. and the members of the union are now at liberty to go to work for the company if the company wants them to. It is probable that most of the former employees will be reinstated, and it is likewise probable that the ring-leaders of the strike will be allowed to hunt other jobs. The calling off of the strike, as the Star understands it, was done by the union without any concessions from the lumber company, hence the company is under no obligations to reinstate any of the men, but most of them will probably be given a chance to go back to work. McDonald, the president of the union and a ring-leader of the recent disturbance, was in Moscow this week. In discussing the matter he stated that the cessation of the strike was made necessary on account of the large number of the strikers who live in the neighborhood of the operations and who have no other resource than the product of their own labor upon which to support their families, and these laborers would have gone to work shortly in any event, whether the strike was on or off. He intimated, however, that the union, in some manner not described by him would get even with the lumber company for daring to disregard the union's demands. McDonald is indicted to appear before the federal court at Boise on Jan. 4th to show why the temporary injunction against the members of the union, recently issued, shall not be made permanent. He expects to appear, but probably by the time Judge Beatty gets through with him he will conclude that he had better let the Potlach Lumber Co. alone.—Star.

**CATTLE SITUATION.**  
The Hon. William Burke, of Blaine county, member of the last legislature and a veteran cattle man in the state, takes a pessimistic view of the cattle situation. There is no better authority in the state on cattle than Mr. Burke and whatever he says on the subject is always of interest says the Boise Capital News.  
"The cattle situation is in a demoralized condition," he said this morning. "Two years ago an average herd was worth at least \$25 a head. Today the same herd is not worth to exceed \$12 to \$15. You can readily see what this decline in price means to the cattle men of Idaho. There is no reason for this decline except that the packing business controls the

market. The retail price of meat remains the same as it was a year ago in all the eastern markets. What the raiser can do to bring about a condition whereby they can obtain a fair price for their stock is hard to tell. It might alleviate the situation. But it will be a hard matter to raise sufficient capital from the multitude of people interested to cope with the Big Four who now have the stock men in their grip.

"I have been in the cattle business for 50 years and ought to know something of the situation. I can say to you truthfully that the condition of the market is as bad today as it was 12 years ago when the price went down to \$11 to \$13 per head and which was supposed to be the lowest price that it could possibly reach."

**HEYBURN'S LIEU LANDS BILL.**

The bill in full is as follows:  
"A bill limiting the right of selection of public lands of the United States in lieu of surrendered railroad land grant lands. Be it enacted by the senate and the house of representatives of the United States of America in congress assembled, that no right of selection of public lands heretofore given to any person or corporation in lieu of lands surrendered by such person or corporation because of such being within any forest reserve heretofore created or hereafter to be created, shall be exercised by the selection of any even numbered section of the public lands of the United States, except in cases where the land so surrendered was upon such even numbered section.

"Section 2. That when a forest reserve is created in one state all lands taken in exchange for lands which may be surrendered by any person or corporation within such forest reserve shall be exchanged only for lands of a like character within the same state in which said forest reserve is situated, and the provision of this act shall apply to all exchanges made, or to be made, by reason of the surrender of lands within any forest reserve, whether said exchange is made through the medium of land scrip or otherwise.

"Section 3. That nothing in this act shall be construed as recognizing the validity of any selection or entry of even numbered sections of land, either within or without the limits of any railroad land grant heretofore made by such railroad company or its assigns, in exchange for lands included within any forest reserve."

Charges have been made from time to time that corporations have influenced the officials to select lands as a forest reserve that had been taken up as homesteads or railroad grants, and that they were not satisfactory or were comparatively worthless. Then according to the old law the person could surrender the lands within the reserve and in lieu thereof take other unlocated land, which was usually the most valuable in the section.

**AGRICULTURE IN RURAL SCHOOLS.**

There has been a great deal of talk lately in regard to the teaching of agriculture and horticulture in the rural schools. Doubtless great good could be accomplished in this way if there were teachers qualified for that work; but the so-called normal schools turn out too many drilled automat and do little in the real teaching of nature. If the country school teachers could all be given a short course in agriculture and horticulture at the state colleges of agriculture we might after a while have men and women prepared to take up the work in an elementary way in the rural schools; but as the short courses in these colleges mostly come in the winter months, when the teachers are employed, there arises a need for summer schools for that purpose. These might be made a strong force in the progress of nature teaching. With teachers enthused for the work there would soon come some application of what they have learned in the planting and beautifying of the school grounds. There is nothing like the actual work in planting trees and flowers and caring for them to make children fond of nature and her products, and there is nothing better calculated to drive the young people from the farm than the comfortless and ugly school houses and their ill kept surroundings. Getting the young people interested in plant life

will then be apt to draw them to the farmers' institutes, and the institutes will never accomplish what they should in the education of the farmer till they catch him young enough.—Practical Farmer.

**SOUND SENSE.**

A father, talking to his careless daughter, said: "I want to speak to you of your mother. It may be that you have noticed a careworn look upon her face lately. Of course it has not been brought there by any action of yours, still it is your duty to chase it away. I want you to get up tomorrow morning and get the breakfast and when your mother comes and begins to express her surprise go right up to her and kiss her. You can't imagine how it will brighten her dear face. Besides you owe her a kiss or two. Away back when you were a little girl she kissed you when no one else was tempted by your fever-tainted breath and swollen face. You were not as attractive then as you are now. And through those years of childish sunshine and shadow she was always ready to cure by the magic of a mother's kiss the dirty little chubby hands whenever they were injured in those first skirmishes with the rough world. And then the midnight kiss with which she routed so many bad dreams as she leaned over your restless pillow have been on interest these long years. Of course she is not so pretty and kissable as you are, but if you have done your share of work during the last ten years the contrast would not be so marked. Her face has more wrinkles than yours, far more, but if you were sick that face would appear more beautiful than an angel's as it hovered over you watching every opportunity to minister to your comfort and every one of those wavelets of sunshine chasing each other over the dear face.  
"She will leave you one of these

days. These burdens if not lifted from her shoulders will break her down. Those rough, hard hands that have done so many necessary things for you will be crossed upon her lifeless breast. Those neglected lips that gave you your first baby kiss will be forever closed and those sad, tired eyes will have opened in eternity, and then you will appreciate your mother; but it will be too late."

**PACIFIC NORTHWEST OPEN LANDS.**

Washington has a total of 9,485,193 acres that are unreserved and unappropriated. Of this amount 4,464,185 are surveyed but have not been taken up by homesteaders or otherwise, and 5,021,000 are unsurveyed.  
There is still a total of 11,865,205 acres reserved from entry, but this is a smaller amount than in nearly every other western state.

Idaho has large tracts of land yet in the public domain. It has 12,376,285 acres of unsurveyed land and 29,409,495 acres of unoccupied land.

Oregon has 17,382,749 acres of surveyed land and 5,923,067 acres of unsurveyed land. There are 11,801,800 acres tied up in reservations.  
Montana has a grand total of 57,885,663 acres of unappropriated and unsold lands, and has 17,385,134 acres in reservations.  
Colorado has the largest amount of surveyed land that has not been taken up. It amounts to over 33,000,000 acres. This is the largest amount in any state.

The greatest settlement in the past few years, as revealed by the figures, seems to have occurred in Washington and the most desirable land for homestead purposes is rapidly being taken.

The land office disposed of 22,824,299.65 acres during the past fiscal year ending June 30. The cash sales amounted to 3,073,896.90 acres, and the Indian allotments and homesteads amounted to 19,577,031.10 acres. There were 3,335,764.35 more acres disposed of the past year than the year before.

**A Very Close Call.**

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength, and vigor from their use. Try them. Satisfaction guaranteed by Dicus & Co., Druggists. Price 50c.

**Cured After Suffering 10 Years.**

B. F. Hare, Supt. Miami Cycle & Mfg. Co., Middletown, O. suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says, "One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years, and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." Sold by Dicus & Co.

**Croup.**

The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Dicus & Co.

**Just One Minute.**

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by Dicus & Co.

**FROM LENVILLE.**  
Lenville, Dec. 30, 1903.  
The Christmas exercises at the  
Beulah church was enjoyed by a nice  
audience. We noticed the large num-  
ber of young people and their orderly  
behavior, though Beulah people are  
always noted for their good conduct  
in the public congregation, in strict  
contrast to the deplorable attitude  
and trifling scrapes that disturb the peace  
of some communities.

Rev. Braden, the young pastor of  
the Beulah church was present and  
helped to open the exercises. He is  
to preach again next Sunday at 11  
o'clock. Santa was also present, and  
gave away the load of good things on  
the tree. Sen. Brigham was the recip-  
ient of a gold watch, the gift of  
some nice young ladies of the Sunday  
School.

We believe the time is ripe to con-  
nect the Lenville county with  
Moscow or Genesee by phone. A live  
interest would be taken now as farm-  
ers are not very busy in other ways.  
The matter has been talked of for  
some time and now the town that gets  
the connection will doubtless reap the  
benefit of added trade from this busy  
farming population. We desire to  
note the matter in the press and sug-  
gest that rural telephone companies,  
and farmers interested, should hold a  
public meeting soon and come to  
some conclusion in the matter so that  
the line may be built either by some  
company in conjunction with those  
farmers interested or by the farmers  
themselves. We are ready to help.

We must move up along the line a  
little and get quicker connection with  
the business world. The rural de-  
livery is all right, now let us have  
the 'phone.

REPUBLICANS are pleased to see  
that the democrats are trying to make  
a party issue out of the Panama dis-  
cussion. The American people want the  
canal and will surely punish the party  
which opposes the present treaty or  
even makes an attack upon the  
President. During the discussion of  
the treaty in the United States Senate,  
and elsewhere, the case of the Admin-  
istration has been well stated. When  
the democrats assail it they are cer-  
tain of defeat. It is not a question of  
sentiment, or of theory, but of fact.  
Columbia rejected the treaty offered  
her by this country. Her reason for  
doing so was to wait a year or two  
and when the concession to the  
French canal company would run out,  
she hoped to get from the United  
States the forty million which was  
to be paid to the French stockholders.  
For this selfish purpose, Columbia  
was willing to delay the construction  
of the great waterway, to risk the in-  
volving herself and this country in  
trouble with France, who would of  
course protect the interests of her  
citizens in the canal company, and  
lastly to disregard utterly the inter-  
ests of her own citizens who lived in  
Panama. After the treaty was re-  
jected, talk of secession of the isthmus  
was general. It was discussed in  
all the papers of the United States  
and everywhere else. Given the pro-  
vocation and the political habits of a  
Latin American people, a revolution  
in Panama was inevitable. It needed  
not the slightest investigation in  
Washington, and it is ridiculous to  
blame our officials in the Navy De-  
partment for preparing themselves  
for an event which everyone foresaw.  
Not to have done so would have been  
the just cause of complaint. Blind as  
was Columbia to the state of affairs  
on the isthmus, even she realized  
that a revolution was probable and  
had sent troops to Panama. By treaty  
and by obligations to American in-  
terests and the interests of the com-  
mercial world, our government is  
bound to prevent hostilities on or near  
the isthmian railroad, and its termi-  
nals, Panama and Colon. Many  
times we have exercised this right or  
fulfilled this duty, and this particular  
time it happens to be Colombian  
troops which are refused permission  
to land. The easiest answer to the  
critics of the administration is to ask  
them to say what else could have  
been done. The world looks at the  
result. Columbia has lost what she  
was unable and unfit to keep and  
the world has gained what it has a right  
to have, the canal.

### MRS. HENRY WHITTED DEAD.

Death relieved the sufferings of  
Mrs. Henry Whitted Saturday even-  
ing, December 26, when she passed  
away. She was buried Monday  
forenoon in the Genesee cemetery, the  
funeral services being held in the  
Christian church conducted by Rev.  
P. R. Burnett. A large number of  
neighbors and friends followed the  
remains from the home on the Little  
Potlatch to their last resting place.

During the past two years she had  
been under the care of no less than a  
dozen doctors but no one of them was  
able to furnish her any relief. She  
was afflicted with a stomach trouble  
but death was hastened by a hemor-  
rhage. During her long illness she  
had been a great sufferer and often  
wished that she might die.

Mrs. Whitted (Ellen Villier) was  
born in Pennsylvania, March 28, 1855,  
and when quite young moved to live  
with her parents. In early woman-  
hood she moved to Miles City, Mont.,  
where in 1894 she was married to  
Henry Whitted. No children were  
born to the union.

She was held in highest regard by  
neighbors and acquaintances who  
sympathize with Mr. Whitted in his  
bereavement.

**Dislocated Her Shoulder.**  
Mrs. Johanna Soderstrom, of Fergus  
Falls, Minn., fell and dislocated her  
shoulder. She had a surgeon get it  
back in place soon as possible, but it  
was quite sore and pained her very much.  
Her son mentioned that he had seen  
Chamberlain's Pain Balm advertised for  
sprains and soreness, and she asked him  
to buy her a bottle of it, which he did.  
It quickly relieved her and enabled her  
to sleep which she had not done for sev-  
eral days. The balm also relieved her  
with the relief it gave his mother that he  
has since recommended it to many  
others. For sale by Dicus & Co.

### Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.  
It used to be considered that only  
urinary and bladder troubles were to  
be traced to the kidneys,  
but now modern  
science proves that  
nearly all diseases  
have their beginning  
in the disorder of  
these most important  
organs.  
The kidneys filter  
and purify the blood—  
that is their work.  
Therefore, when your kidneys are weak  
or out of order, you can understand how  
quickly your entire body is affected and  
how every organ seems to fail to do its  
duty.  
If you are sick or "feel badly," begin  
taking the great kidney remedy, Dr.  
Kilmer's Swamp-Root, because as soon  
as your kidneys are well they will help  
all the other organs to health. A trial  
will convince anyone.  
If you are sick you can make no mis-  
take in taking the great kidney remedy,  
Dr. Kilmer's Swamp-Root, the great  
kidney remedy, is soon realized. It  
stands the highest for its wonderful effect  
of the most distressing cases, and is sold  
on its merits by all

## SLAUGHTER OF PRICES

Buyers, we wish to expound a few truths to you and in doing so  
will be brief. To make a long story short we will confess to being  
overstocked in certain lines—goods that unless sold within the  
present month will have to be carried over. If slaughtered prices  
will be of any inducement for you to buy now is the opportunity.  
To reduce our stock in these lines we offer at ABSOLUTE COST

## 75 Pieces of Outing Flannel

The most complete assortment of Outing Flannels ever carried in  
Genesee, in fact the stock is too complete.

## 300 Pair of Ladies' and Gent's Shoes

In this line we are also greatly overstocked and are bound to re-  
duce if price is any inducement.

## Ladies', Misses' and Children's Cloaks and Capes

We still have a large assortment to select from and have named a  
price that will make buying easy.

## JACOB ROSENSTEIN

WINTER CAPS, 60 MEN'S OVERSHIRTS, 40 PAIR OF MEN'S  
PANTS, MACKINTOSHES AND ALL WINTER GOODS  
ARE OFFERED AT SLAUGHTER PRICES

**JAMES K. BELL**

FRIDAY, JANUARY 1, 1904.

—Mrs. Emfield is a visitor from  
Spokane.

—Thos. H. Brewer spent Christmas  
with Spokane friends.

—Attorney Bugge left Wednesday  
for Moscow to attend court.

—J. C. Nordby and family now oc-  
cupy the Porter residence near the  
mill.

—Mr. and Mrs. Ebel and son came  
down from Ritzville Friday for a visit  
at the Ebel home.

—Mrs. N. Henson and daughter  
were visitors at the Vic Hasfurther  
home the first of the week.

—Mrs. Walter Savage and son of  
Pullman, have been visitors at the  
Ehlen home during the week.

—The state deposit law, a law  
which was fathered by Governor  
Morrison, has been declared unconsti-  
tutional by the supreme court.

—Read the new adts. of J. Rosen-  
stein, The Fair, Pollett Bros, Cash  
Hardware Store, The Bee Hive, H. F.  
Bilger, Genesee Wood Yard, W. J.  
Herman.

—Mr. and Mrs. P. J. Quillin visited  
Spokane the fore part of the week. In  
their absence Mrs. Smiley, Mrs.  
Quillin's mother, was in charge of  
the store.

—The Men's club will meet next  
Wednesday evening. Banquet at  
7 p. m., and an address by Prof. Snow  
of the Washington Agricultural Col-  
lege on the subject "Witcom  
Riley" at 8 p. m. Members and fam-  
ilies are invited to attend lecture.

—W. E. Gage came in Wednesday  
from Colton where Mrs. Gage and the  
children are now visiting. He informs  
us that their youngest child is again  
seriously ill with pneumonia and is  
while somewhat improved at present  
is still far from being out of danger.  
Mrs. Gage is also sick with a gripe.  
Mr. Gage went to Lewiston Thursday  
to make final proof on his timber  
claim located near Janville.

—It is estimated that it will cost  
the United States \$184,233,458 to ac-  
quire and complete the Panama  
Canal, besides the amount to be paid  
to the government in control of the  
isthmus for the concession. Already  
there has been an immense amount of  
money and energy expended on the  
canal. It is safe to say that a sum  
more than sufficient to dig a waterway  
from ocean to ocean at sea level has  
been collected from investors at differ-  
ent times in its history.—New York  
Tribune.

Let us stop and reflect on the many  
changes this epoch has wrought so far as we  
are concerned.

It has brought about a realization of our  
desire and ambition, in as much as it has  
chronicled the time when we passed from a  
poor, uncomfortable building into our present  
new quarters. We feel justly proud of our  
achievement, friends. We also feel that by  
your support you have made this achievement  
possible, for which we heartily thank you.

We have lived long in your midst and ev-  
ery dollar we have made is invested in Idaho,  
in Latah county—IN GENESEE. We have  
endeavored to make your town and country  
better by giving our hearty support to any  
new worthy enterprise that has come forward.

It will be our aim in the future, not to  
stop when one imaginary goal has been re-  
ached, but to press onward to new fields of con-  
quest. In other words, our ambition now is to  
carry the largest and best line of merchandise  
in your city and with your support we are go-  
ing to do it.

Wishing you all a Happy New Year, we  
remain,  
Yours Truly,

—Mr. and Mrs. M. Driscoll are  
Moscow visitors.

—C. H. Burt was a visitor here this  
week from Connel, Wash.

—Eli Morjan visited Spokane  
and points west this week.

—Dr. W. H. Ehlen is again con-  
fined to his bed on account of sickness.

—Engineer Pears and wife were  
visitors at the Seymour home  
Wednesday.

—An eight pound son was born to  
Mr. and Mrs. Calvin Howton Monday  
of this week.

—Rev. Fr. Corly of Moscow, was  
the guest of Rev. Fr. Keyzer of this  
place the first of the week.

—The dance given Wednesday  
evening by the Canecon dancing  
club was largely attended and a fine  
time is reported.

—About forty couples attended the  
dance given Christmas evening by  
the foot ball boys. They were in  
hopes that they could net enough to  
pay off their indebtedness but were  
unsuccessful.

—A special agent of the secret  
service department has been sent out  
to this state from Washington to make  
a complete investigation of all the  
charges against H. Smith Woolley  
with a view of making a comprehen-  
sive report to the treasury department.

—Mr. and Mrs. W. J. Dermott, old  
residents of this community, visited  
here the first of the week. They had  
been visiting relatives at Moscow to  
which place they returned Wednes-  
day. Their home now is at Granite  
Falls, Wash., where Mr. Dermott is  
engaged in logging. A short time  
before leaving Mr. Dermott informs  
us that the greater part of his logging  
outfit was lost by fire.

—What is known as the "butcher's  
case," wherein Tom Allen had sued  
Nagel & Bomberg for heavy damages,  
alleging carelessness on their part,  
causing him the loss of a leg result-  
ing from the falling off of a wagon  
while Chas. Bomberg was in charge  
of the "ribbons," was decided Wed-  
nesday evening in favor of Nagel &  
Bomberg. Nagel & Bomberg, who  
were in no wise responsible for Allen's  
misfortune, gave him every attention  
after the accident happened and the  
bringing of the suit was decidedly un-  
grateful. Those in attendance at the  
trial from here were Dr. J. L. Conant,  
Frank Williamson, James Hanson,  
W. H. Gage, Fred Nagel and Chas.  
Bomberg.

—It is expected that a paper will  
be established at Post Falls in the  
near future.

day from Spokane for a visit with  
relatives and friends.

—Thos. H. Brewer visited Colton  
Wednesday to attend a meeting of the  
stockholders of the First Bank of that  
place.

—Henry Whitted wishes to extend  
thanks to neighbors and friends for  
their many acts of kindness during  
the sickness and burial of his wife.

—Congressman French has intro-  
duced a bill to appropriate \$50,000  
for the construction of a government  
building at Lewiston.

—Arthur Harris left yesterday for  
Moscow on business connected with  
his law suit against Gordon & Co.,  
the Spokane wholesalers.

—Unity Lodge, No. 32, A. F. and  
A. M., met Friday evening and in-  
stalled the following officers:  
C. F. Burr, W. M.  
Fred Nagel, S. W.  
J. C. Hanson, J. W.  
W. J. Herman, Treasurer.  
G. W. Rabold, Secretary.  
W. C. Fowler, Chaplain.  
U. G. Dickson, Marshal.  
Dr. P. S. Beck, S. D.  
John Hudson, J. D.  
W. C. Brant, Tyler.  
Following the election and instal-  
lation of the officers the members and  
families partook of an excellent  
banquet.

—Beginning Monday, January 4,  
until further notice, I will close my  
store each evening at 6 o'clock.  
Saturday excepted.

General Longstreet Dead.

Was One of the Last Lieutenant Generals of Confederacy.

Atlanta, Ga.—General James Longstreet, soldier, statesman and diplomat, died in Gainesville, Fla., on the last day of his life.

General Longstreet was a sufferer from cancer of one eye, but his general health had been good until recently, when he was seized with sudden cold, developing later into pneumonia of violent form.

He was 84 years old. He is survived by his wife, four sons and a daughter. He will be buried in Gainesville, which has been his home since the civil war.

James Longstreet was born in Edgefield, S. C. January 8, 1821, and graduated from West Point in 1842.

He served in the Mexican, Indian and Civil wars, winning the title of major at the battle of Molino del Rey September 8, 1847.

He later served as a brigadier general, major general and as lieutenant general in the Army of Northern Virginia.

Longstreet commanded personally in many battles and was wounded by the fire of his own troops at the battle of Gettysburg.

He was married to the daughter of Arthur at the bidding of the emperor Napoleon.

Longstreet became a republican. He was appointed collector of customs at New Orleans by President Grant and later was superintendent of the customhouse.

He was United States minister to the United States of Georgia.

Longstreet married Miss Helen Dorich.

LEGATIONS AT PEKIN ARE OF THAT OPINION.

The Japanese Press Urges Immediate Opening of Hostilities—Russians Take a Calmer View—Can Not Believe the Mikado Will Try to Whip the Czar's Legions.

Pekin, Jan. 4.—In the various foreign legations here the opinion is prevalent that war between Japan and Russia is inevitable.

Based on the latest dispatches from Tokyo and upon the conviction that it is not a question of detail which separates Russia and Japan, the various principles whether Japan possesses the right to a voice in the settlement of Manchuria, Russia has all along denied this right, and unless her renunciation is made, she has receded from this position.

TWIN CAN NOT CELEBRATE

Particular Circumstances of Birth at Versailles, Ohio, Jan. 4.—Twins, a daughter and son, were born to Mr. and Mrs. Lewis Brown, residents of this place.

The daughter was born at 10:30 a. m. and the son at 11:30 a. m.

Both are well and hearty, but, although they are twins, they can never celebrate the anniversary of their birth on the same day.

There is also something out of the ordinary connected with the birth of the twins.

The mother, who is one of a pair of twins, and was born on the night of May 31, just before midnight, 25 years ago, and her mate was born on the morning of June 1.

**TELEPHONE COMPANY.**

At a meeting held Monday of this week at the office of C. F. Burr the matter of organizing a telephone company at this place was discussed at some length. There was present at the meeting a large number of business men and others. The object of the company is to erect rural telephone lines throughout the country tributary to Genesee and to establish a system within the city. A committee to examine into the feasibility of the project, composed of Messrs. Driscoll, Fred Follett and Thos. H. Brewer, was appointed. A. Scroggin was delegated to canvass the country tributary to the two rural mail routes out of Genesee and has since been actively engaged in the work and has met with excellent success. Every thing points to the success of the enterprise. All parties interested in the matter are requested to meet at Mr. Burr's office on next Monday afternoon, January 11, at 1:30 o'clock.

**SEES THE ADVANTAGE.**

Lenville, Jan. 6, 1904.

Agreeable to our expectations the projected telephone system connecting the rural districts adjacent to Lenville with Genesee, and probably with adjacent towns, is meeting with very general support and the intelligent farmers are appreciative of the advantages offered thereby. It will bring them into better touch with the markets. If the grain in the warehouse is to be sold it can conveniently be done just the time the market is best. Likewise cattle, hogs, etc., can be delivered at the stock yards when the price is good without the trouble or expense of resorting to several expensive trips to town. Garden truck, fruits, etc., can catch trade right in town and the mistake so commonly made of flooding the market at one time and leaving it bare at another time will be prevented. Machinery repairs in the busy time of harvest can be quickly secured, work exchanged, etc., very conveniently, and many a trip in busy times and inclement weather prevented to the advantage of saving the exposure of horses and human beings.

The doctor could be quickly summoned in emergency of accident or sudden sickness or the assistance of a neighbor secured with no trouble at all compared to conditions as they exist now.

This means a saving of expense, safer business, a better understanding among neighbors, and a rise in value of every acre of land on the farms where the 'phone system can be used. All hail to advancing civilization.

—A ten pound boy was born to Mr. and Mrs. O. P. Surby Friday of last week.

—Ratlon Vollmer left Thursday for Ruby Creek to look after mining interests.

—Rev. P. R. Burnett is in attendance at the Christian church meeting at Moscow.

—Improvements are being made about the interior of the Schreiber Implement Company's store.

—Sleighing was very good early in the week but has been spoiled by the warm sun of the past few days.

—All members of the Knights society should be present at the meeting next Tuesday evening. There will be work in the Knight rank.

—J. L. Goodnight has returned from his trip to Portland and other coast points. While away he attended a family reunion of Goodnights and the number present was by no means small.

—Every farmer in this community should take advantage of our liberal clubbing offer with the New York Tribune Farmer. The two papers for \$1.75. The Tribune Farmer is issued weekly and contains twenty pages. Call and inspect a copy.

**Dislocated Her Shoulder.**

Mrs. Johanna Soderstrom, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Dicus & Co.

—Telephone meeting Monday p. m.

—J. J. Gans and Albert Wisnar, of Uniontown, will establish a brewery at Palouse.

—Mrs. Antone Mertes returned Friday from Uniontown where she had been visiting friends.

—Mr. Morgan is again hustling the dirt out on the Herman corner, getting things in readiness for the erection of that fine brick block.

—A large audience greeted the Alexander minstrel entertainment at Elliot hall Wednesday evening. There was but little merit to the show.

—Henry DeBow is erecting a neat residence on his farm on the reservation about nine miles from Genesee, lumber for the same being hauled out the first of the week.

—The coal famine is expected to be relieved today. Mr. Biram states that he has the billing of a car that has been on the road five days which will certainly reach here today.

—A large sleigh load of Odd Fellows and Rebekahs took a trip to the country Wednesday evening. At the James Hanson home just east of town they tarried long enough to devour a big oyster supper.

—The marriage of Mr. Peter Kinzer to Miss Katie Scharbach is announced and we understand will be solemnized at the Catholic church in this city on Tuesday of next week. Mr. Kinzer has the Baldus ranch leased.

—Beginning today (Friday) the Genesee train will leave Pullman immediately after the arrival of the Spokane passenger at that place, making the time of arrival at Genesee 1:50 instead of 3:05. The time of departure from Genesee has not been changed.

**WOMEN AS WELL AS MEN ARE MADE MISERABLE BY KIDNEY AND BLADDER TROUBLE.**

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depends upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy: **SWAMP-ROOT** is soon realized. This soil by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a **SWAMP-ROOT** pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, **SWAMP-ROOT**. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**FRIDAY, JANUARY 8, 1904.**

—Sleighing parties are numerous.

—R. H. Russell visited Pullman Tuesday.

—Mrs. George Cummings is up from Lewiston.

—Mr. and Mrs. M. W. Ebel returned to Ritzville Monday.

—Frank Robinson transacted business in Moscow the first of the week.

—Joe Davies returned home Tuesday from a visit to the Walla Walla section.

—Miss Brennan and Lulu came down from Princeton, Saturday, for a brief visit.

—The board of county commissioners will meet in regular session next Monday, the 12th.

—The harvest of ice for next summer's ice cream, etc., is now in progress and a very fair article is being gathered.

—W. M. Thompson left Wednesday for Troy to superintend the loading of hay which he says is coming in at a lively rate. Sleighing in that section is now said to be excellent.

—The Genesee Exchange Bank of this place is no longer interested in the First Bank of Colton. Residents of the Colton neighborhood were anxious to own the stock and the local bank was induced to sell.

—A regular meeting of the city council was held Monday evening. A number of bills were allowed. The installing of the water works plant, the macadamizing of "railroad" avenue and numerous other matters concerning the future of the city will occupy their attention from this on.

—Judge Steele Monday of this week, made his order fixing the terms of court for the second judicial district for the year. They are as follows: Idaho county at Grangeville, February 1 and August 29; Nez Perce county at Lewiston, March 1 and October 3; Latah county at Moscow, May 16 and November 21.

—Tuesday evening occurred the marriage of John Lockett to Miss Cora Clelland. The ceremony was performed at the home of the bride, Rev. W. C. Fowler officiating. Relatives and a few invited guests were present. Following the ceremony a wedding supper was served. These young people have been residents of Genesee for the past two or three years and have numerous friends who wish them a happy and prosperous future.

—Professor Cobbs visited Moscow the latter part of the week.

—John Hudson attended the Christian church meeting at Moscow this week.

—The public schools opened Monday with an increased attendance in all departments.

—Our Whitman students returned to Walla Walla Sunday to again resume their studies.

—Mrs. Reynolds, mother of Sam Davidson and daughter of Mr. and Mrs. Nulph, is here on a visit from La Grande, Oregon.

—LaRue Tice is erecting a large ice house near the depot and during the coming season will sell Cooelalla ice, an article gathered in Cooelalla lake near Sandpoint, Idaho.

—Since Monday the greater part of the business houses have been closed in the evening after six o'clock. By mutual agreement the practice will be continued during the winter months.

—John Loring has purchased from the Geaelchen estate the residence and lots near the C. E. Wood company elevator. He contemplates extensive improvements on the residence and to the rear of the lots will erect a large hay and grain shed for the storing of his own hay and grain.

—Charles Larrabee left Sunday morning for Sacramento, California, his former home, where on Saturday evening of this week he will be united in marriage to Miss Louise Just, a very estimable young lady of that city. They expect to return to California the greater part of this month and will then return to Genesee to reside permanently. They will occupy the Ehlen residence which Mr. Larrabee has very comfortably furnished.

—George Tegland was in Tuesday and informed us of a change in rural route No. 1 out of Moscow which had, since being established, passed his farm. The change took effect with the beginning of the new year. From the Bang's school house the route crosses the school section to Lauritz Smith's, then down Cow Creek to D. Smith's, from there over Cornwall road to Kilde's, then west and south to Blaine and then to Moscow over the mountain road. The change affects a number of former patrons. Mr. Tegland, Ingwall Smith and others will now receive their mail at the Genesee office and will be served by route No. 2 out of this place.

**SLAUGHTER OF PRICES**

Buyers, we wish to expound a few truths to you and in doing so will be brief. To make a long story short we will confess to being overstocked in certain lines—goods that unless sold within the present month will have to be carried over. If slaughtered prices will be of any inducement for you to buy now is the opportunity. To reduce our stock in these lines we offer at **ABSOLUTE COST**

**75 Pieces of Outing Flannel**

The most complete assortment of Outing Flannels ever carried in Genesee, in fact the stock is too complete.

**300 Pair of Ladies' and Gent's Shoes**

In this line we are also greatly overstocked and are bound to reduce if price is any inducement.

**Ladies', Misses' and Children's Cloaks and Capes**

We still have a large assortment to select from and have named a price that will make buying easy.

**WINTER CAPS, 60 MEN'S OVERSHIRTS, 40 PAIR OF MEN'S PANTS, MACKINTOSHES AND ALL WINTER GOODS ARE OFFERED AT SLAUGHTER PRICES**

—Attend the telephone meeting next Monday afternoon.

—Mr. and Mrs. Damman, of Pullman visited at the Brant home the latter part of the week.

—The Y. P. S. of our Savior's church will be entertained at the home of Mrs. C. Frang Friday evening.

—Miss Emma Christianson returned to Pullman Monday where she is attending school, having spent her vacation at home.

—The Men's Club will meet some time next week. Date will be announced to all members in due time. A full attendance is desired.

—Those having a change of ad. in this issue: T. Driscoll, F. E. Dicus & Co., J. K. Bell, Follett Bros., LeRue Tice, A. F. Bilger and The Fair.

—Those interested in the forming of a telephone company at this place are requested to meet at the office of C. F. Burr on next Monday afternoon at 1:30.

—The dance given New Year's night by the local lodge of Red Men proved a very enjoyable affair. The attendance was good. Supper was served at the Ross restaurant.

—The entertainment given Thursday evening by the Schubert Symphony Club at the Congregational church was well attended and pronounced excellent by all present.

—A Milton, Oregon, dispatch says that R. E. Frazier and J. H. Grant, the latter well known at this place, have leased a brick block for seven years and will put in a \$10,000 stock of merchandise. The goods have already been ordered.

—The Bunker Hill and Sullivan Mining & Concentrating company, owning silver lead mines at Wardner started the new year by paying a dividend of \$20,000. This makes a total paid since January 1, 1903, of \$125,000, and a total to date of \$1,550,000.

—Mr. and Mrs. Math F. Fuchs were visitors here Friday from Ferdinand. They had been at Uniontown to attend the celebrating of the first mass of Mr. Fuchs' brother who has recently been ordained a priest and to attend the wedding of his brother Fave to Miss Wells. Mr. Fuchs informs us that he is well satisfied with his lot at Ferdinand.

—Who doesn't admire the jolly fellow? One who scatters sunshine and good feeling wherever he goes. One who has a pleasant word for friend and stranger. Think a moment. Can't you call to mind one who the minute he enters your presence, fills the room with glow and cheerfulness? I've seen him enter a hotel, when each guest, seemingly wrapped up in himself, were silent, but in an instant all brightened up because of his appearance. His hearty greeting, his jolly laugh, his whole face beaming with good nature was catching, and the whole world seemed brighter because he was there. Wish the world was possessed of more of him, for all love the kind, sunny, cheerful, and cheerful and pleasant. There is enough of sorrow, of sadness, of strife, of worry, of trouble, heaven knows in this world, and when one comes along, who causes us to forget for a moment the ill of life, he is gladly welcomed by all.—Ex.

—The year just closed was one of splendid activity in the real estate business in Latah county. The records in the auditor's office show the transfer of real estate in the county during 1903, to aggregate \$2,833,527.70, which is believed to be a larger amount than the consideration for land transfers in any other county in the state, not only for the present, but also for any previous year. The total consideration for sales of real estate during the past year by months was: January, \$268,433.30; February, \$150,579.07; March, \$109,488.23; April, \$908,305.71; May, \$300,916.33; June, \$253,378.64; July, \$238,473.95; August, \$114,312.90; September, \$103,485.35; October, \$140,415.95; November, \$121,360.18; December, \$135,881.20. The real estate sales during the year include the transfer of acreage in farm lands in all parts of the county. What has swelled the total particularly, however, has been the sale by the state of a large area of timber land to the Turkish syndicate, last January, and the latter transfer of this land and much more to the Potlatch Lumber company.

 —The report of Secretary of State Will H. Gibson, for the last quarter of 1903 shows a wonderful increase of business in the office during the year. The aggregate receipts for 1903 were \$14,726.95, as compared with a total of \$13,950.50 for both 1901 and 1902. In 1901 the receipts were \$5,940.85 and in 1902 they footed up to \$8,019.75.  
 —The deaf and dumb son of L. Kline, living south of town, has become practically unmanageable. It is his custom of late to run away from home at every opportunity. Tuesday he left home and walked to Johnson. Wednesday he was returned on the local train. Mr. Kline met him at the train but he refused to have anything to do with him and it was with difficulty that he got him to return home. Mr. Kline is in correspondence with State Superintendent Scott and will if possible have him sent to some school for defective youth, which will probably be at Vancouver, Wash.  
 —There has been introduced in congress in the senate by Senator Dolliver of Iowa and in the house by Mr. Chandler of Kansas a pension bill backed by the Grand Army of the Republic, which if enacted into law, will give a pension of \$12 a month to every soldier who served 90 days in the Union army during the civil war, and who was honorably discharged therefrom and who has attained the age of 62. A like pension will be given to the widows of such soldiers in all cases where the marriage took place before June 27, 1890.  
 —According to figures compiled by the Bureau of Labor at Washington, wages and the cost of living have almost kept pace with each other during recent years, and there are exaggerated ideas as regards the advance that either has made. Commissioner Wright figures that instead of the cost of living having advanced from a quarter to a third, it really only shows an increase of from 15 to 17 per cent.  
 The increased wages received by laborers, it is figured, have been equal to the increased cost of living, and the general statement is made that "the condition of the laboring man is better today than ever before in the history of the country."  
 —Here is the way the people of the southern part of the state rid themselves of the rabbit pest: "The biggest rabbit drive of the season was participated in Saturday, Jan. 9, by hundreds of people at Market Lake, Idaho, some coming from as far as Butte, Mont., to take part in the drive. Several miles of territory was worked over and about between six and seven thousand rabbits were killed and captured. A carload was driven into the stock yards and then into a stock car and shipped to the Salvation Army headquarters at Salt Lake City, Utah, for the poor people of that city. The railroad gave reduced rates from all points within 200 miles and also furnished free transportation for the rabbits shipped to Salt Lake. A grand ball was given at night and a good time was had by all who participated."  
 Dislocated Her Shoulder.  
 Mrs. Johanna Soderstrom, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place soon as possible, but it was quite sore and pained her very much. Her son mentions that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by Dicus & Co.

**CHURCH NOTICES.**

**FRIDAY, JANUARY 22, 1904.**  
 —Nagel & Bomberg sent out two cars of fat hogs to Seattle yesterday morning.  
 —An extra look out a full train load of wheat from this station Wednesday night.  
 —Miss Pearl Reese returned home Monday from Wardner where she has been visiting with her sister.  
 —We understand that Frank Adair, formerly in the saloon business at this place, will open up at Princeton, this county.  
 —Jos. Moresch and family returned Friday from a visit of a week with old friends and acquaintances at Uniontown.  
 —The C. E. Wood company is shipping a large amount of flour to outside markets and the mill is kept busy day and night.  
 —The Woman's Relief Corps will give a dime social at the home of Mrs. W. C. Brant on Friday evening, Jan. 29, to which everybody is cordially invited.  
 —Frank Lowen left Wednesday morning for Seattle where he states he will enter one of the hospitals of that city. He may visit California before his return.  
 —Tuesday night of this week was the coldest one this winter, and, in fact, colder than any one of last winter. Bally risers caught the thermometer down to 4 degrees above zero. By noon it had crawled back to the freezing point where it has since remained.  
 —A Mission paper wonders "who is happier, the man who possesses \$100,000 or the man who has seven daughters?" To which another exchange replies: "The man with the surplus girls, of course. The man with the money is not satisfied, and wants more. The man with seven daughters is—he has enough."  
 —Auditor Ramstedt's report has been made out and shows a large increase over last quarter. The total fees received during the last quarter amount to \$1,700.85, which is \$500 ahead of the previous quarter. The remainder's fees alone amount to \$1,388.75. The total business transacted during the year is also very large. From January 12, 1902, to January 11, 1903, the number of instruments filed were 3,994. These were all filed for record. The fees received during the year just ended are \$6,065.70.  
 —Miss Mattie Walby is home from Spokane on a visit.  
 —Fat hogs are now bringing on the local market 4 1/2 cents and fat cattle 3 cents.  
 —Miss Edna Borg returned Sunday from a visit with Moscow friends of several days.  
 —Ed. Dahlke and family left Wednesday morning for Astoria, Oregon, where they will take up a temporary residence.  
 —C. A. Snyder was up from Lewiston the latter part of last week renewing acquaintances and looking after matters of business.  
 —H. C. J. Tvedt and Lars Erickson left Wednesday for a tour of the coast cities. They may visit California prior to their return.  
 —Mrs. Mary S. Stewart and daughter Alice, mother and sister of A. L. Stewart residing on the Jain farm arrived here last week from Boise to remain permanently.  
 —Hubert Harris was gathered in by Marshal Driscoll charged with disturbing the peace at the Steele & Freeland show Saturday evening. He was taken before Justice McMahon who assessed him, fine and costs, \$5. The same was paid.  
 —The new state officers of the socialist party of Idaho are as follows: Secretary-treasurer, L. E. Workman; state organizer, A. G. Miller; state local quorum, with headquarters at Boise, W. D. Candee, Weiser; Frank Page, Nampa; Frank Carter, John Edgren and Wm. Kissack, Boise.  
 —Charles Larrabee and bride recalled Genesee Wednesday from California and at once began housekeeping in the Ehlen residence which Mr. Larrabee had placed in readiness prior to his departure for California. They were accompanied on their return by Miss Lizzie Larrabee, an adopted daughter of Mr. and Mrs. J. R. Larrabee.  
 —At the Ogden convention of the National Irrigation association, the Idaho representatives organized the State Irrigation Association of Idaho and instructed Chief Justice Sullivan to name the county representative. Those for north Idaho are: Charles Heitman of Kootenai, Congressman French of Latah, E. H. Libby of Nez Perce and W. B. Heyburn of Shoshone. The officers are: James A. McGee of Nampa, president; O. E. McCutcheon of Idaho Falls, vice president; Robert Hayes of Pocatello, secretary; E. H. Dewey of Nampa, treasurer.

—Miss Pearl Owen visited at Culdesac over Sunday and reports her mother much improved.  
 —Wm. Gibb and Sherman Wahl left Monday of this week for an extended visit to California.  
 —The Steele & Freeland moving picture show Friday and Saturday evenings drew crowded houses. All were well pleased.  
 —When the additions to our navy already authorized are completed the United States will have a more powerful fleet than any other nation except Great Britain.  
 —While using a bottle of hair tonic, Saturday, Clarence Jain met with a painful accident. The bottle exploded and a piece of glass cut an artery in the palm of his right hand.  
 —J. L. Pickering left Tuesday morning for Spokane. He is in search of a business location and before returning may visit the Sound cities. Mrs. Pickering will remain here for a while.  
 —"Father," said the little boy, "why are patent foods supposed to make people so cheerful?" "Because my son, they are such great practical jokes. They look like awdud and taste like excelsior, and yet they are really good to eat."—Washington Star.  
 —Porter Brown, of Pullman, the gentlemen who purchased a large quantity of hay at this place the past fall, are having more than their share of trouble. One of the brothers has been here this week and states that they are unable to account for some 150 tons. At last account no information had been obtained as to where the missing hay had gone to.  
 —The old Indian agency lands at Lapwai were sold last week at public auction, C. T. Stranahan being the successful bidder. The price paid was \$5,051.26 and the purchase includes 314.24 acres of ground and fourteen buildings, among the number being the old agency building, Indian council room and a number of residences of agency employes and storehouses. The land includes all the land of the old Spalding mission of 1856 at the mouth of Lapwai creek, with the exception of the burial ground in which Rev. Spalding lies. There are about 85 acres of fine garden and fruit land, the remainder being valuable for pasturage. The next largest bidder offered \$300 less than the price paid.  
 —Engineer Brant left Wednesday for Ellensburg to be examined in "air."  
 —Mr. and Mrs. Ed. Bussey, of Seattle, visited here from Sunday until Tuesday.  
 —State Superintendent May Scott announces that \$300,000 were expended for school purposes in Idaho in 1903.  
 —Wheat is worth 60 cents or a little better on the local market. The elevation of the price on the eastern market has not yet affected the coast market.  
 —The supreme court has decided that judgment cannot be recovered under the two-mile limit law in cases in which the sheep are being driven through the state or are taking necessary rest.  
 —A large audience listened to the oratorio "Bethlehem" at the Congregational church Sunday evening and all were well pleased. The choir consisted of Mrs. Bugge, Mrs. Scroggin, Mrs. Sweet, Messrs. Thatcher, Follett, English and Brewer. Mrs. Thompson acted as organist.  
 —During the latter part of last week a light case of scarlet fever developed in the family of J. G. Wright in this city, a nine-year old daughter being the victim. She is now nearly recovered. The house is under quarantine and every possible precaution has been taken to prevent the spread of the disease. Mr. Wright, who has been at the tramway near Nezperce, returned home several days ago.  
 —A few progressive farmers scattered over the country have already demonstrated the difference in results in favor of well bred stock over scrabs. When prices are high good stock yields large profits, when prices are low they save the owner from loss. Beef cattle are low now but the shrewdest men all over the country are quietly buying up calves and young stock, and breeding up their herds to a higher grade knowing well that within one or two years the price will swing back to a normal range.—Tribune.  
 —Albert Selig, who was injured in an accident on the steamer Lewiston a few days ago, was taken to the county hospital in Portland. At the time of the accident the boat was on down trip and was loading grain at Judkin's landing eighteen miles below Lewiston. Selig was trucking grain from the end of the tramway to the boat and at a point on the gangplank lost his footing and fell. The heavily loaded truck passed over his right ankle and it is believed that several of the small bones are fractured. On account of the delay in reaching medical assistance the ankle had swollen to such an extent that it was impossible for the physicians to reduce the fracture and it was deemed advisable to take the injured man to Portland to the company's hospital.—Tribune.  
 —The department of agriculture has just issued a bulletin showing the agricultural products of Idaho during the year 1903. The report shows that Idaho produced 175,640 bushels of corn which netted the producers \$100,115. She produced 2,682,939 bushels of winter wheat which netted the farmers \$2,112,204. The oat crop of Idaho amounts to 3,666,940 bushels, and the value of which was \$1,650,123. The rye crop aggregated 22,348 bushels and the value was \$14,526. The production of hay amounted to 999,084 tons and netted the producer \$6,817,516. Idaho made good showing in the production of potatoes having produced last year 1,867,520 bushels the value of which amounted to \$859,059.  
 —Judge of Probate Lukens reports an increased business the past year in his office, and that the earnings of the office are in excess of his salary. The earnings per quarter for the year ending January 9 are as follows: First quarter, fees \$426.20, criminal and insane \$30, and quarter fees \$194.90, criminal and insane \$26.45; 3rd quarter \$220, criminal and insane \$43.25; 4th quarter \$201.45 and \$30.10 criminal and insane county charges. The total is \$1432.35, from which deduct \$1100 salary. This leaves \$332.35 to be paid into the county treasury. The probate office is a good thing for the county.... County Treasurer, Miss Pauline Moerder, reports in all the funds of the county, on January 9 the sum of \$10,808.10. The total amount of tax collected will reach about \$120,000, leaving \$25,000 delinquent, which is rather more than last year. After the second Monday in January a penalty of ten per cent was added to all unpaid taxes. This penalty will carry taxes until May when a little more will be added.—Mirror.

**WILL THE GOVERNMENT HELP THE FARMER.**

The National Government gives the rivers and harbors some \$30,000,000 a year.

It gives the cities great public buildings, post offices, court houses, etc.

It gives manufacturers protection by the tariff.

It gives its veterans and their families \$140,000,000 a year in pensions as it should.

It has loaned its credit to private individuals to build railways, and given them grants of millions of acres of land.

It has, however, done but little for the farmer and for agriculture.

The farmer is the backbone of the country; it is he who feeds the entire population, and he is no longer satisfied with poor roads.

At last it seems as if the National Government was going to do something for the farmer. A bill has been introduced in Congress called the Brownlow Bill, which appropriates \$24,000,000 as National aid for the building of roads. The farmer wants this bill to pass, and he is determined that the National Government shall do something for him, as well as for the rest of its citizens.

**CHEAP MONEY IN PANAMA.**

The stranger is at first astonished to find Panama a land of much money. The common people of the outlying regions, and it is almost all outlying region down there, come into the city to market with money in both flats, bills of big denominations sticking out of their pockets, and money in baskets and bags—money carried to town in bundles as if it were water-cress or spinach. This wonder ceases somewhat when the stranger gets his hotel bill. "It is no wonder," he says to himself, "that they carry money in baskets. They need it by the basketful to pay their bills." Here is the verbatim bill of my first eight days' stay in Cartagena, one of the coast cities and a port of call for steamers from the north:

Board and room eight days at \$200 per day.....\$1,600  
 Carriage hire, three hours at \$35 per hour..... 105  
 Laundry, eighteen pieces..... 70  
 Soda water, one bottle..... 5  
 Repairing shoes..... 20

If you go out into the markets and shops of the town you find that prices rule equally high there. Potatoes are worth eight dollars, rice five and poor stuff at that, flour six dollars and onions four dollars. All this not by the barrel or bushel or bag, but by the single pound. Six dollars a pound for flour is calculated to cause the housewife dismay and put the bread-winner down on his luck. We pay pretty high prices for beef at home nowadays, but it is still higher there. You pay eighteen dollars a pound for beef in the city, six to seven dollars a pound for it in the country, and this does not mean prime cuts, but just as it comes. The only thing relatively cheap is the mango; you get four of them for a dollar.

Now all this is very dismaying, but I struck a still further cause for surprise at the bank, whither I went quite early in the trip. I wanted small bills in the money of the country for a ten dollar gold piece, and when I passed it to the cashier he began to count money as fast as he could, stacking it up on the counter before him. I waited patiently, knowing that this is a manana region and one has to wait. Probably when he was ready he would wait on me. After a time he pushed a bushel or more of bills under the wicket, saying in Spanish: "Here's your change, sir."

There was a thousand dollars in the pile, and the secret was out. The Colombian dollar is worth just one red cent in Uncle Sam's coin!—From "The Canal Country," by A. G. Kingsbury, in National Magazine for January.

**A BARGAIN FOR FARMERS.**

The New-York Tribune Farmer, a national illustrated agricultural weekly of twenty large pages, has no superior as a thoroughly practical and helpful publication for the farmer and every member of his family, and the publishers are determined to give it a circulation unequalled by any paper of its class in the United States. Knowing that every enterprising, up-to-date farmer always reads his own local weekly newspaper, The New York Tribune Farmer has made an exceedingly liberal arrangement which enables us to offer the two papers at so low a price that no farmer can afford to lose the opportunity. The price of The New-York Tribune Farmer is \$1.00 a year and The Genesee News is \$1.50 a year, but both papers will be sent for a full year for \$1.75. Call and see sample copy.

**MUST SEND CHILDREN TO SCHOOL.**

Under the laws of Idaho it is compulsory for parents or guardians to send children of school age, 8 to 14 years, at least twelve weeks during the school year. The law is by no means lived up to in this district, for daily boys that come under the requirement are allowed to roam the streets.

Any parent or guardian failing to comply with the provisions of the following chapter of the law, shall be liable to a fine of not less than five dollars, nor more than twenty-five dollars for the first offense; nor less than ten dollars, nor more than fifty dollars for the second and each subsequent offense, besides the cost of action.

Every parent, guardian or other person in the state of Idaho, having control of a child or children between the ages of eight and fourteen years, shall be required to send such child or children to a public school for a period of twelve weeks in each school year, at least eight weeks of which shall be consecutive, unless such child or children are excused from such attendance by the board of school trustees of the school district in which such parents or guardians reside, upon it being shown to their satisfaction that the bodily or mental condition of such children has been such as to prevent his, her or their attendance at school, or application at study for the period required, or that such child or children are taught in a private school or at home, in such branches as are usually taught in a primary school, or have already acquired the ordinary branches of learning taught in the public schools. Provided, in case a public school shall not be taught for a period of twelve weeks, during the year, within three miles of the nearest traveled road of the residence of any such parent or guardian within the school district, he or she shall not be liable to the provisions of this chapter.

**Thousands Have Kidney Trouble and Never Suspect It.**

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

**ELECTRIC POWER.**  
If Brought Here Genesee Will Have Electric Lights.  
At the meeting of the council held Friday evening of last week, there was present M. J. Shields and E. S. Aldrich, of Moscow, representing the Moscow Electric Light & Power Co., and A. E. Ransom, representing the Lewiston Water & Power Company. The object of their visit was to interest the people of Genesee in matter of electric power.

As we understand the matter the Lewiston people have entered into an agreement with Mr. Shields, acting for the Moscow company, to extend their electric power line to Moscow and it is Mr. Shields' intention to make Genesee a sub-station if possible. Mr. Shields' proposition, which seems to be a very fair one, that if adopted by the council, will give Genesee an electric light system in addition to furnishing power to operate the pumps for the water-works system. However, the proposition as made to the council has a string to it. An effort is being made to have the power used by the C. E. Wood company to propel the machinery at the mill and elevator "A." In the event that it is not adopted by them Mr. Shields states that he could not afford to run the line to this place. The proposition was thoroughly discussed by the visitors, council members and citizens present and the matter was taken under advisement by the council, action on the same to be taken at some future meeting. Following is the proposition as presented to the council:

Moscow, Idaho, Jan. 25, 1904.  
To The Honorable Mayor and City Council, Genesee, Idaho.  
Gentlemen:—We herewith respectfully submit to your honorable body the following proposition for the pumping of water for your city and for lighting the streets of same:  
First: We will pump not to exceed 50,000 gallons of water per day, for a fixed rate of \$75 per month, which is to be the minimum for the term of the contract. And for all additional water pumped we will make the following rates:

From 50,000 to 100,000 gallons, the rate will be 5c per 1000 gallons.  
From 100,000 to 200,000 gallons, 4c per 1000 gallons.  
From 200,000 to 300,000 gallons, 3½c per 1000 gallons.  
All over 300,000 gallons, 3c per 1000 gallons.

This is based on the city of Genesee to furnish and keep in repair the wells, pipe-line and reservoir. The capacity of reservoir shall not be less than 250,000 gallons and the height of same not to exceed 160 feet above the pumps. The city of Genesee is also to furnish two pumps and motors installed and connected to their wells with capacity of each pump not to be less than 15,000 gallons per hour. These pumps to be of modern make and suitable for electric motors, said pumps and motors to be selected to the satisfaction of all concerned.

The city of Genesee shall also erect a suitable brick building over or adjacent to their wells, large enough to contain electric apparatus, in addition to the pumping machinery.

We will furnish all the necessary labor and electric current necessary to pump the water as herein agreed.

We further submit the following proposition as to the lighting of your streets:

We will install and maintain from 5 to 10 all night standard arc lights, wherever designated by your committee, for the sum of \$10.00 each per month. From 10 to 20 for \$9 each per month. For 20 or more \$8 each per month. The minimum to be 5 lights.

The above proposition is based on a contract of not less than ten years. Operation under same to begin on or before the first day of July, 1904.  
MOSCOW ELECTRIC LIGHT & POWER COMPANY.

At a meeting of the council Monday evening a number of bills were audited and allowed.  
The street committee which had been instructed to investigate what is known as the "Edwards ditch" controversy, made the following report: "Find that Mr. Edwards gave full consent to the mayor, council and street committee to have the ditch dug by his neighbor, N. Blanchard, therefore we recommend that the city take no action in the case." Report was accepted.

**WASHINGTON LETTER.**  
From our own correspondent.

February 1.—The commissioner of the general land office has informed Senator Heyburn that settlers on the unsurveyed lands situated within the late Coeur d'Alene Indian reservation must make formal application to the United States Surveyor General for Idaho at Boise if a survey is desired. Accompanying such application or petition the settlers, so far as is practicable, should also submit their affidavits setting forth length of residence, and nature, extent, and approximate value of improvements on their respective claims. Special agents will examine the bona fides of the settlers and applicants, and the surveys will be authorized or denied on their reports. Blank forms of settlers' applications may be obtained upon application to the Surveyor General.

Congressman French has secured a pension of \$8 per month for Robert Kitchen of Boise. The pension carries with it the sum of \$900 back pay.

Senator Heyburn has introduced a bill appropriating \$100,000 to be expended through the Director of the Geological Survey for survey, reconnaissance, and engineering investigation to determine upon a plan of reclamation for agricultural purposes, of the overflowed lands in the valley of the Kootenai river in northern Idaho and Montana.

The land grant railroads are preparing to wage a bitter fight against the Heyburn bill which provides a stay of all proceedings now pending upon any application to enter or patent even numbered sections in lieu of odd numbered sections surrendered by railroad companies or their assigns within the limits of any forest reserve. Senator Heyburn gave the senate a very illuminating talk on the injustice of the present system of granting lieu scrip and permitting railroad companies to surrender grant lands of little or no value in one state and then scrip the most valuable timber lands in another. The importance of this bill to Idaho will be better understood when it is remembered that the Northern Pacific company holds scrip for more than 2,000,000 acres, which it only waits the completion of surveys to put on the best pine lands in Idaho.

H. S. Wooley's appointment has been referred to a sub-committee composed of Senators Aldrich, Platt and Teller. All the papers in the treasury department will be called for and the charges thoroughly investigated. The committee will not report for a week.

Senators Dubois and Heyburn called on the president Tuesday to protest against the bill introduced by the Washington senators making a soldiers' home on the old Fort Sherman military reservation at Coeur d'Alene City. They asked the president to intervene and have the reservation sold at public auction. Both have maintained their right to indicate the disposition of a reservation which lies in Idaho. The president will give the matter consideration.

Senator Heyburn has been informed by the war department that the Boise barracks will be changed to a regimental quarters instead of quarters for three companies.

**OUR NEIGHBORS AWAKE.**

Good roads seem to be the order of the day in north Idaho counties. In Nez Perce county a movement is on foot to bond the county in a sum not over \$100,000 or less than \$40,000. Petitions are now being circulated throughout the county to be presented at the April term of the board of commissioners. It is said that the petitions will be very generally signed. The form of petition is as follows:

"To the Honorable Board of County Commissioners of Nez Perce County, Idaho—Gentlemen: We, the undersigned residents and tax payers of Nez Perce county, respectfully petition your honorable body to cause to be made a survey and profiles of a system of roads in the county and approximate of their cost. Said system of roads to be laid out as may be agreed upon later; the work to be done this summer in order that your honorable body may give us a detailed account of the work at your October term. In our judgment not more than \$100,000 or less than \$40,000 should be spent."

In Idaho county the matter of bonding the county in a sum not to exceed \$100,000 is also being agitated and in all probability some action will be taken. On the subject the Stites Register says:

Yes, as suggested by the Standard, why not bond the county for \$100,000 and devote the same to the improvement of county roads? It is next to a shame that this great county is cursed with impassable roads. It retards progress, disgusts immigrants, the better class of settlers turn away. There are natural resources in sight in this county that will in a few years develop into millions of money, and subject to taxation. We say give this generation some benefit and the future generations can easily take care of the debt, for they will have the property with which to pay, and in the meantime all will enjoy passable roads. The \$100,000 invested in roads would in two years be returned

**IS A GOOD EXHIBIT.**

Commissioner M. J. Wessels, of the Idaho world's fair commission, arrived in the city yesterday to complete arrangements for making the final shipment of the agricultural and horticultural exhibit from the northern part of the state. Mr. Wessels stated last night that the car is now being loaded at Kendrick and will be brought to Lewiston early next week to receive the products now in storage in this city.

Mr. and Mrs. Wessels will leave for St. Louis at the same time the car is shipped and will immediately commence the installation of the Idaho exhibit. One more car of products remain in the southern part of the state but it will not be shipped until the exhibits now being shipped are placed and the exhibitors are ready for the last of the Idaho collection. More fruits and other products will be shipped as the new crop matures during the season but these shipments will be in small lots and only intended to replace the perishable products now kept in cold storage.

Mr. Wessels stated last night that he believed that the Idaho exhibit would be second to none and that the state would receive her share of the prizes. "As the collection is brought together," said Mr. Wessels, "the importance of the collection is more fully realized and the comprehensiveness of the exhibit is more fully shown. While we have not had sufficient funds to make such an exhibit as might be desired we can feel assured that all of our specimens are the best the state produces and in this we are not surpassed by any locality. Idaho will be well represented and we expect to have many of the first prize ribbons placed on the Idaho products."—Lewiston Tribune, Jan. 30.

**'PHONE COMPANY ORGANIZED.**  
 Work of installing New 'Phones and Extension to Country to Begin at Once.

Articles of incorporation for the Genesee Telephone company have been made out and forwarded to Boise. No difficulty was experienced in securing the required amount of stock, in fact, it would have been possible to double the amount. The company is incorporated with a capital of \$4,000 and \$3,000 of the same will be paid up. \$25 represents the value of a share. The latter part of the week T. Driscoll met a representative of the Inland Telephone company and agreed upon a price for the purchase of the company's Genesee local exchange. Included with the purchase the Genesee Telephone company takes from the Inland company all poles, wires, central office, etc., in Genesee, except that the Inland company retains the poles and wires used to carry on the long distance business. In the matter of 'phones the new company gets possession of all those now installed but leases that portion of the 'phones known as the receiver and transmitter from the Inland company.

The new company will be officered by T. Driscoll, president; P. W. McRoberts, secretary; and Thos. H. Brewer, treasurer. The board of directors will be as follows: Thos. H. Brewer, P. W. McRoberts, T. Driscoll, H. J. Herman and J. W. Brigham.

It is the object of the company to at once extend the lines into the country to the north of Genesee and a vote. At least of poles has been ordered from Sandpoint. Wire and other supplies will be on hand by the time the poles are in place and the rural portion of the system will be in operation at an early date.

The city business will be increased by the installing of at least thirty new 'phones just as soon as the work can be done. Those wishing 'phones who have not already made their wants known will please inform the management.

Miss Pauline Stelz, the present efficient operator for the Inland company, will be retained by the new organization.

Among those who have subscribed stock are: Fred K. Bressler, Thos. H. Brewer, T. Driscoll, John Halvorson, John Meyer, C. E. Wood Co., H. A. Morgan, Henry Stracker, W. A. Nixon, J. L. Conant, Jr., Remi S. Keyzer, W. M. Thompson, P. W. McRoberts, Chas. Power, W. H. Ehlen, J. W. Brigham, W. J. Herman, Fred Follett, Henry Herman, Sherman Wahl, John McMartin, Fred Nagel.

Thursday to Sunday, June 23, 24, 25 and 26, are the dates set for the convention of the Christian Endeavorers of eastern Washington and northern Idaho, which will be held in Spokane next summer.

A merchant knew what he was saying when he said that trade territory of a town is not dependent upon the distance to neighboring trading points but upon the enterprise of the merchants and residents of a town. If a town does not reach out after the trade it will only come as it has to and the town will only grow as it is forced to. But if the merchants go after the business in the surrounding country, advertise in every way and make good every word of advertising, the trade would come from every increasing radius and the town gain a reputation for being wide awake and will forge to the front. It is the men in the town and not altogether the men living within a certain number of miles from it that make a good town.

**SCHOOL NOTES.**  
 The High School Literary Society met last Monday evening. The subject for debate—"Resolved that fire is more destructive than water," was decided in favor of the negative. The subject for next debate is "Resolved that the Indian is happier than the civilized man."  
 Two pupils dropped out of the A grade in the last week—one to get married, the other to attend the U. of I.  
 Mr. Hanson took the picture of the High School last Wednesday.

**CHURCH NOTICES.**  
 The pastor of the Congregational church will next Sabbath morning speak of "The Church" and in the evening of "Betterment."  
 Methodist church: The meetings closed last Tuesday evening. There were, all told, nineteen additions to the church. Services next Sunday at the usual hours. All are cordially invited.

Senator Quay's bill before congress for the admission of Oklahoma and Indian Territory to statehood provides that these states shall never restrict the right of suffrage by an educational qualification, or on account of race, color, or previous condition of servitude. This is something to think about, and the attitude of statesmen upon the proposition will be watched with interest.

From birth a boy can hold property; at seven he is, if intelligent, if swarable for a crime; at fourteen, if necessary, he could choose a guardian; at fourteen punishable for a misdemeanor; at eighteen he is qualified for military service; at twenty-one he may declare himself independent of his father and is old enough to vote. At twenty-one he is eligible to congress; at thirty-five to the United States senate, and at forty-five he is exempt from military duty.

Among the republican possibilities for the nomination for the office of governor at the convention to be held at Moscow August 10, are the present chief executive John T. Morrison, R. H. Dewey of Nampa, son of the late millionaire, Dr. O. B. Steeley of Postello, and Francis Jenkins who was a member of the last legislature for this county. Whether any one of the four is named remains to be seen. Morrison stock is not quoted very high. Dewey says if his nomination depends upon his getting out and making a fight and bartering away all the rights and prerogatives belonging to the chief executive of the state, then he does not wish to be considered a candidate. Dr. Steeley was a candidate for the nomination against the present governor two years ago and lacked little support of winning out. As to the candidacy of Francis Jenkins, well, we pass.

FRIDAY, FEBRUARY 5, 1904.

—Mrs. J. W. Tice returned from Spokane Tuesday.  
 —Miss Borg is in receipt of a greater portion of her spring stock of millinery.  
 —The city of Lewiston, already owning a rock crusher, will invest in a 12-ton street roller.  
 —The ten-cent lunch given by the W. R. C. ladies Friday evening at the W. C. Brant house was well patronized.  
 —The postoffice deficit will be \$7,000 this year, yet people are demanding penny postage. It will come as soon as possible.  
 —Meyer Bros. have secured the agency for the J. I. Case threshing machinery and will handle the same with their implement line.  
 —Our merchants have finished invoicing and all report themselves as being well satisfied with the business they have done during the past twelve months.

—O. Tessara, of Thief River Falls, Minn., accompanied by A. Larson, of Moscow, were visitors here the first of the week. The former gentleman is seeking a location and took a look at some of our farming lands.  
 —Rev. and Mrs. Harold and daughter are visitors in the city from Albion. They are accompanied by Mr. and Mrs. B. C. Spurgin and daughter, daughter and son-in-law, who recently arrived in this section from Kaasas.  
 —C. E. Wood left Tuesday for the tramway near Nezperce to assist in putting in place the new cable. The tramway warehouses are said to be full to the guards and owing to the shutting down of the tramway there is said to be a large amount of grain yet in the hands of the farmers which will now be marketed.

—J. W. Brigham was in Tuesday from Lenville. He says that at no time since his residence in this section has the sleighing in the timbered country to the north of Lenville been any better than during the past few weeks. Farmers have made good use of the same in getting in their year's supply of wood, posts, etc.  
 —Some time during the present week Dave Howe will move his business stock to the Elliot building which is receiving a complete overhauling. The old partitions on the west side of the building have been taken out. More windows will be put in place in that portion of the room used by the harness shop.  
 —The Genesee band is not dead by any means. In conversation with Henry Meyer this week he informed us that the organization would soon be revived and that a number of new instruments would be purchased. He states that an effort will be made to secure the services of an experienced instructor. Realizing that it will be impossible to pay a heavy monthly salary the band members will endeavor to get some one that can devote a portion of his time to some other calling.

—Monday the following members of the local lodge of Odd Fellows drove to Troy to attend the funeral services of Marshal J. H. Hayes who was assassinated at that place last Wednesday by F. E. Caldwell, George Mosch, James Larabee, E. S. Sheldon, George Follett, Wm. Biram, Paul Cann and J. B. Davies. They report that there is a bitter feeling against Sly in Troy and do not understand how it is that he was ever taken out of town alive. Fully a thousand people were in attendance at the sermon. The remains were taken to Moscow Wednesday for burial.

—A petition was circulated this week and very generally signed by those living east of town to have the public road changed in the neighborhood of the Jain farm. The petition asks that the road be changed to pass up the "draw" to the north of Chas. Jain's residence and to meet the present road at the brow of the hill. The object of the change is to do away with the haul over the steep pitch near the school house. Those having the petition in charge say that an effort will also be made to have the road changed from its present course to pass to the east of Ed Peterson's residence and avoid the climbing of what is known as the Miller hill. The matter of a change first mentioned is now up to the commissioners. Mr. Jain contends that if the petition is granted it will be a great injustice to him and will greatly reduce the value of his farm. It is claimed that the old road cannot be closed on account of its leading to a public school house.

—Rodney Olney returned home Tuesday.  
 —Thos. H. Brewer is in Spokane this week.  
 —Chas. Hoppough left Monday for Spokane for a few days visit.  
 —Mr. and Mrs. Gilbert Crawford were over from Troy the first of the week.  
 —R. Pickering left for Moscow Monday when the board of commissioners met in adjourned session. He returned home yesterday.  
 —Dennis Burr returned home Friday from the Ruby creek mines where he has been for the past two months and is again at his post of duty at the First Bank.  
 —Our youngsters have found a new place to coast. On the Miller farm to the south of town it is possible for them to take a swift ride for nearly a quarter of a mile.  
 —The windows of the Idaho building at the World's Fair will be transparencies showing the wonderfully beautiful scenery of this state. The Shoshone falls in Idaho are 220 feet high, 60 feet higher than the great Niagara falls and of great volume.  
 —Fred Hampton's mission to North Carolina is now made plain. Word reached here the first of the week that at Asheville on Wednesday last week he was united in marriage to a young lady of that place. They are expected to reach Genesee about the 10th inst. Mr. Hampton is one of our well-to-do farmers, owning an excellent ranch east of town. The name of the fortunate young lady we have been unable to learn.  
 —The Drover's Journal looks upon the farmer as being an exceptionally fortunate individual. In speaking of the farmer it says: "The man is to be envied who has a good farm well stocked and paid for. There is no life as independent and as free from care unless one puts a lot of useless worry in it. The poor farmer deeply in debt has an up hill pull, but even so, he is infinitely better off than his brother in the city in similar circumstances, for with a little effort the soil will give him a living, and the poor man in the city is gambling with fate to a large extent. A well equipped and a well managed farm which is capable of turning out every year good crops and good stock is a kingdom in itself. No capitalist in the city lives better or more comfortably nowadays than the well-to-do farmer who has had the telephone and the daily mail. He generally has what the city capitalist cannot buy at any price—peace and contentment."

—In a recent interview County Commissioner Keene, speaking on county affairs, said: "Latah county is now in better shape than it has ever been. We have paid our expenses and we went along and have about \$6,000 on hand, besides more tax money due. The only bonded indebtedness the county has is on the court house building which we will create a sinking fund for this year to take up bonds when due. We have reduced the levy so that it will only be 21 mills this year." The board has shown a disposition to favor the good roads movement and purchased two rock crushers last year.

For sale, a sewing machine and a washing machine, each in good working order. Will be sold cheap. Inquire at this office.

**A Mother's Recommendation.**  
 I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For Sale by Dicus & Co.

**Escaped an Awful Fate.**  
 Mr. H. Hagius of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Dicus & Co., Druggists. Price 50c and \$1.00. Trial bottles free.

**An Early Riser.**  
 A strong healthy, active constitution depends largely on the condition of the liver. The famous little pills known as DeWitt's Little Early Risers not only cleanse the system but they strengthen the action of the liver and rebuild the value of his farm. It is claimed that the old road cannot be closed on account of its leading to a public school house.

—The Rebekah lodge will give a general merchandise sale at Moscow next week at Elliot hall. Supper will be served in the lodge room.  
 —Oscar Larson, now operating a general merchandise store at Moscow will move the stock to Troy where he was formerly in business.  
 —The members of the ladies' tennis club are requested to meet at the residence of Mrs. J. L. Conant, tomorrow (Saturday) afternoon at 2:30 o'clock. Business of importance.  
 —The Walby divorce case has been settled out of court. As a result of the settlement we understand that Mr. and Mrs. Walby expect to take up a residence in Moscow. How soon we are not informed.

—The four sweetest words in the English language are said to be "Enclosed please find check." We are anxiously awaiting the receipt of a few communications bearing the above sentence together with the check.  
 —The Kendrick business men observing the active way neighboring towns are organizing telephone companies, in order to protect their interests are planning to organize a company. American Ridge farmers and residents of other sections are anxious to cooperate with them.  
 —Arnold S. Rothwell, state agent for the Equitable Insurance company, was a Genesee visitor Monday of this week. In the afternoon Harry Thatcher, the local agent of the company accompanied him to Lewiston and together they will make a visit to the principal neighboring towns.

—August Beckman, the well known rancher and stock man, is at the present time confined to his home with a serious attack of inflammatory rheumatism. Dr. Fursey attending him and is hopeful of having Beckman all right within a few days. His many friends certainly hope he will not be laid up long.—Asotin Sentinel.

—Johannes Hansen, well known throughout this county, died Saturday at Lewiston. In the campaign of four years ago he was prominently identified with the populist party of the state having been a candidate for the office of lieutenant governor. In the campaign of the fall of 1902, he was an active member of the populist party, having acted as organizer throughout the state and county.

—Miss Clara Ransom, county superintendent of schools has completed the apportionment of school monies for January. The total apportionment is \$20,973.06. Teachers' examinations will be held at Moscow February 25, 26 and 27. Questions in theory and art of teaching will be taken from White's Art of Teaching, that being one of the books recommended for teachers' reading circles by the state board of education. Latah county now has 86 school districts, 80 of which now have schools in session. The school population of the county is 5572. A teachers' reading circle has been organized among the teachers in the county districts surrounding Moscow, and meetings are held every other Saturday with County Superintendent Ransom.

**A BARGAIN FOR FARMERS.**  
 The New-York Tribune Farmer, a national illustrated agricultural weekly of twenty large pages, has no superior as a thoroughly practical and helpful publication for the farmer and every member of his family, and the publishers are determined to give it a circulation unequalled by any paper of its class in the United States. Knowing that every enterprising, up-to-date farmer always reads his own local weekly newspaper, The New-York Tribune Farmer has made an exceedingly liberal arrangement which enables us to offer the two papers at so low a price that no farmer can afford to lose the opportunity. The price of The New-York Tribune Farmer is \$1.00 a year and The Genesee News is \$1.50 a year, but both papers will be sent for a full year for \$1.75. Call and see sample copy.

### WANT CHANGES IN STATE LAWS.

At the recent meeting of the county attorneys held at Boise a number of recommendations were made to the next legislature, some of them being for radical changes in the laws while others provide for the incorporation in the statutes of the practices of the county officials at the present time.

### CONSTITUTIONAL CONVENTION.

The proposal for the calling of a constitutional convention in Idaho was endorsed by unanimous vote of the meeting. The attorneys consider that, while the present constitution did very nicely ten years ago, it has been outgrown and the state is continually meeting new conditions for which the present constitution entirely fails to provide.

It is pointed out by the attorneys that Idaho has a multitude of real estate, agricultural, stock raising, timber, horticulture and a large number of others—and as a direct consequence intricate legal questions are continually arising that do not come up in other states upon the constitutions of which that of Idaho is based.

### FOR SUPERIOR COURTS.

One particular respect in which the attorneys agreed the present constitution should be amended was for the incorporation of a provision for superior courts in each county, as has been heretofore suggested, these courts taking the place of both the probate and district courts. Such courts, the attorneys argue, would provide a source of speedy justice for all citizens, and would permit of speedy trials of all persons accused of crime. The saving of the board bills of prisoners in the county jail, while awaiting sessions of the district court, the attorneys claim, would more than make the extra expense of such superior courts.

The passage of a measure making it a misdemeanor to carry concealed weapons was urged upon the legislature. Such a law was declared null and void by the supreme court, and there is now no law of the state against carrying concealed weapons. A bill was also recommended that all county officers, while away from their homes on official business, be allowed their necessary and actual expenses, including railroad and hotel bills. In most counties this is now the custom, but it seems there is no legislative enactment authorizing it.

### CHANGE IN POOR LAW.

A change is also urged in the law relative to the caring for the poor. At present the county commissioners have no legal authority to take care of the poor or indigent persons, no matter how worthy or in what circumstances, except by sending them to the poor farm, and a change to allow the commissioners some discretion in the matter, along humane lines is suggested.

The entry law is in need of liberal amending, according to the attorneys. In many respects, they claim, the law is at present inadequate and injudicious. One particular amendment suggested is to make it a felony for any person other than the proper officials to be found with branding iron bearing the 'extra' brand in their possession.

It is also pointed out that the law regulating the correction of errors in the assessment rolls of counties is defective, and some change from the present law in this respect is suggested.

The attorneys decided that all opinions furnished by county attorneys during the coming year should be filed with the secretary and by him sent out to the various county attorneys. If any attorney has a perplexing question presented to him for an opinion, he may also send it to the secretary and answers will be furnished by the officials all over the state.

### CARPETS, LINOLEUMS AND RUGS, AT HERMAN'S.

A Cure for Eczema.

My baby had Eczema so bad that his hair was a solid mass of scabs, and his hair all came out. I tried many remedies but none seemed to do any permanent good until I used DeWitt's Witch Hazel Salve. The Eczema is cured, the scabs are gone and the little one's scalp is perfectly clean and healthy, and his hair is growing beautifully again. I can not give too much praise to DeWitt's Witch Hazel Salve. It is the only one containing pure Witch Hazel. The name E. O. DeWitt & Co. is on every box. Sold by Dicus & Co.

### TO PREVENT BLACKLEG.

Dr. Nelson, the Washington State Veterinarian, says he has saved \$15,000 worth of cattle from the ravages of the blackleg during the year on an expenditure of \$1,000. In all parts of the state where there are cattle, blackleg exists. The government furnishes vaccine. We wonder why the government does not try the preventive that we have several times published. When tried in Europe or America, no case of blackleg occurred. The treatment consists of splitting the skin in the parting of each foot of the calf, taking a small amount of water and catching the vein found in the parting, then taking a sharp knife and cutting off the vein below the hoof, thus cutting out half an inch of the vein. Apply a little tar to this slit and the work is done. The seat of the disease seems to be in that particular vein, all the teachings of the experts to the contrary, notwithstanding. The most economical time to do this work is at the time of the roundup when the calf is rogan and thrown for the purpose of branding it.—Northwest Farm and Home.

### BEN COOPER AND WIFE WERE IN TOWN

Wednesday from their Salmon river home. Ben says he has seen for fourteen years and all stock is wintering in fine shape. There has been no loss from bad winter, but a little from rolling although an occasional animal is lost that way. He says all the stock on the river will come out in fine shape this spring.—Cottonwood Chronicle.

### Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given this subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous of diseases, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proved in many of the most dangerous cases in which this remedy has been used during the great prevalence of colds and grip in recent years. Chamberlain's Cough Remedy is a safe and reliable remedy for all cases of pneumonia. Be on the safe side and take Chamberlain's Cough Remedy. It always cures. For sale by Dicus & Co., Druggists.

### Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did more for me than all the medicine I ever used. They have also kept my wife in excellent health for several years. She says Electric Bitters are just splendid for female troubles, and she is a grateful testimonial for their use. I have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this advertisement."—Address: Dr. Kilmer, Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### THE GENESEE NEWS.

ENTERED AT THE POST OFFICE AT GENESEE, IDAHO, AS SECOND CLASS MATTER, FEBRUARY 12, 1904.  
CLASS PERMIT, 100-100.  
PUBLISHED WEEKLY.  
Subscription price, strictly in advance, \$5.00

—The Larrabee families had a jolly sleigh ride out to the Murphy ranch Monday evening. It was Miss Sundholm's first ride after Master Leon's driving.

—Frank Davidson has been taken in charge by the Lew Perce authorities and is now at the newspaper awaiting trial for the theft of a saddle near Nezperce.

—The W. R. C. will have a meeting on Saturday afternoon, February 13. It is hoped that all members will be present as there is important business to attend to.

—A neighboring editor has investigated the new game of gin and says that in his opinion it is no more harmful than a game of draw poker or seven-up unless it is played for money.

—The W. R. C. will serve a supper in the Congregational church basement on Friday evening, Feb. 19, from five to seven. Following the supper will be a short program in the church, free for everyone.

—Monday of this week Will McMahon and Miss Lizzie Steltz were united in marriage at Lewiston by the Presbyterian minister of that city. They returned to Genesee the day following and have since been busy receiving the congratulations of numerous friends. For the present they will reside with Mr. McMahon's people.

—The next teachers' examination will take place at Moscow Feb. 25, 26 and 27 for first, second and third grade certificates; also state certificates and diplomas. Questions in Theory and Art will be taken from White's "Art of Teaching;" in School Law and State Constitution, from entire pamphlet.

CLARA RANDOM,  
School Superintendent.

—The preliminary hearing of Paine Sly, the murderer of Marshall Hays of Troy, was completed at Moscow Thursday. He was held to the district court on the murder charge without bail. Only three witnesses were examined. His trial will come off in May. To an inmate of the county jail before the preliminary hearing Sly said it was a cinch that he would be cleared immediately, as they did not have evidence enough to hold him. It is said that he was very much surprised when he learned that they had bound him over.

—A letter was received at the land office Tuesday, says the Tribune, from Governor John T. Morrison stating that the state would relinquish lands in the Salmon river country to the amount of 45,000 acres. The lands relinquished are in township 26, range 1 east and 1 west; township 28, range 1 east and 1 west; township 29, range 1 west. This land was filed on by the state land board on July 6, 1903, at which time 72,694 acres were covered by a blanket filing. On account of the state land appraiser not having sufficient time to determine the value of the lands the state covered this vast area to allow time for appraisers to visit each section and determine the separate values of the land.

—A very pleasant surprise was given Miss Brennan and Lulu on their return from Princeton Monday. Everything was quiet when they first entered the house but upon entering the parlor a glad shout of "surprise" was given. Those who participated in making it a pleasant event were: Mesdames Herman, Platt, Geiger, Biram, Smolt, Monroe, Tice, Mertes, J. Keane, T. Keane, M. Driscoll, T. Driscoll, Burr, J. S. Larrabee, McMahon, Dorchester, Hickman, Misses Mabel Biram, Fulford, Lorang Mea Keane, Mollie Keane, Kennedy, Messrs. Jim Mullaly, T. Keane, Artie Keane and David Hickman. They brought with them a delicious lunch and a handsome rocking chair and two rugs that will always be a souvenir of their welcome home and they wish to thank those kind friends who made their home coming so pleasant.

Nearly Forfeits His Life.  
A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. Sold by Dicus & Co., Drug Store.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is antiseptic and quickly healing liniment for cuts, bruises and burns. For sale by Dicus & Co.

FRIDAY, FEBRUARY 12, 1904.

—Henry Schmidt, who left here some time ago for the Alberta country, returned Sunday.

—Mrs. T. W. Shirrod returned Sunday from a visit of several weeks at her old home in Iowa.

—LeRue Tice is loading four cars of potatoes for White Bros. of Lewiston for shipment to Kansas City.

—George Sparbeck came over from Troy Tuesday for a few weeks' visit with relatives and friends.

—Chas. Stewart left Genesee Thursday for Tekoa where he expects to secure employment with the O. R. & N.

—A meeting of the stock holders of the Genesee Telephone company will be held this (Friday) afternoon at the office of C. F. Burr.

—During the past ten days there has been quite a movement of wheat from this place to the coast. A number of extra trains have been run.

—Bills are out announcing a dance for this Friday night by the local lodge of Red Men. The dance will be at Elliott hall and supper will be served at the Genesee house.

—The good sleighing of this week has been put to good use by the farmers and a large number have been hauled out of their spring wheat.

—A quorum not being present at the meeting of the council scheduled for last Tuesday evening adjournment was taken until Friday evening. As predicted in last week's issue the proposition of the Moscow Electric Light & Power company was accepted.

—The youth who has been held in quarantine at the Ross restaurant for several days past, he being afflicted with scarlet fever, took French leave Monday and is now at large. Neighboring towns have been notified to be on the lookout for him. He is old enough to have better sense and should be given a term behind the bars. Since his departure the little girl at the restaurant has come down with the disease.

—The contest between the "Reds" and "Blues" of the Christian Sunday school resulted in a "Red" victory. The "Blues" entertained the "Reds" at the church Friday evening. Most of those enrolled as members of the Sunday school were present, there being 108 present including a very few visitors. A short but interesting and entertaining program was rendered after which dainty refreshments were served. The "Reds" and all present pronounce the "Blues" royal entertainers.

—Attorney General John A. Bagley has given an opinion, dated Jan. 14, on the question of the right of the state to lease lands on which stands timber that has been sold by the state. "The state of Idaho will lease lands where it has sold the timber standing thereon, before any or all of said timber has been removed. The purchaser of timber standing on state land gets a title to his land, but no interest whatever in the land, except that he has the privilege to enter upon said lands at any time within twenty years for the purpose of removing the timber and making such roads as are necessary to remove the same. One may lease these lands, notwithstanding the purchaser of the timber standing thereon may object."

—Register J. B. West of the Lewiston land office stated to a Review correspondent that the plats of six townships north and east of Pierce City will be filed in his office on February 24. The state will then have sixty days of preference right of entry and during this time will probably make selections of much of the best timber. Mr. West states, however, that there is a serious misapprehension of just what this preference right of selection of the law by the land department, after February 24, does not prevent any actual settlement making a bona fide homestead settlement upon such land, even if such settlement is made on February 23, and holding the land against the state, scrip holders or anyone else. In the case of the land of which plats will soon be filed a large portion of the best of the timber is claimed by squatters. It is estimated that at least 500 cabins have been built on the land during the past two years, and in a large number of cases some clearing has been done and an attempt has been made at cultivation. During the past six weeks a number of squatters have gone to the section and taken up claims which the first crowd of settlers rejected as not sufficiently heavily timbered.

—John Meyer is transacting business in Spokane this week.

—Miles Miller visited with his daughter at Colton Sunday.

—Near Colton last week the Shirley brothers captured a coyote. They tied a bell around its neck and turned it loose.

—Lester Mumbree, an old Wisconsin acquaintance of the Hobsons of this place, visited here the latter part of the week.

—Mrs. R. Pickering has received word that two of her relatives had lost their lives in the Iroquois theater fire in Chicago.

—It is announced that Bangs & Johnson, recent arrivals from the east will establish a democratic newspaper at Moscow. The Times-Democrat has discontinued publication.

—The road petition for a change of route for the J. & N. neighborhood which was last week presented to the board of commissioners was incomplete and by them referred back to the petitioners.

—Mr. and Mrs. Thomas Lorang left Saturday morning for Nevada where they expect to spend the remainder of the winter. Mr. Lorang has purchased property in Spokane and if not satisfied with Nevada will locate permanently in that city.

—Mrs. Hall and daughter of Rosalia who have been guests at the Marion Nelson home returned to Rosalia Wednesday. Mrs. Hall is a cousin of Mrs. Nelson and the meeting of a few days ago was the first in nearly thirty-five years.

—Mr. and Mrs. W. E. Hickman returned home Sunday from their visit of several weeks at Mr. Hickman's old home in North Carolina. As it had been eleven years since Mr. Hickman left home he naturally noticed many changes. He says the weather south this winter has been much colder than usual.

—The Pacific States Telephone company is endeavoring to sell their city exchange at Palouse to a local company at that place. If the sale is made the city system with the rural lines already established. There are some seventy-five 'phones in Palouse and the system is valued at \$3000.

—Sunday a double wedding took place in Genesee. Perry Sherrod and Miss Emma Hobson and Fred Sherrod and Miss Maude Hall were united in marriage by the Rev. W. C. Fowler. The contracting parties are Uniontown people with the exception of Miss Hobson who has been a resident of this place for the past two years but during the greater part of the time has been teaching school near that place. The Sherrod brothers are prosperous farmers of the Uniontown neighborhood. Miss Hall is the daughter of John Hall living near Uniontown. The wedding was a quiet one and nearly a complete surprise to Miss Hobson's relatives in this place. Following the ceremony they returned to Uniontown where a wedding feast was spread.

A Mother's Recommendation.  
I have used Chamberlain's Cough Remedy for a number of years and have no hesitations in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For Sale by Dicus & Co.

Escaped an Awful Fate.  
Mr. H. Hagins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Dicus & Co., druggists. Price 50c and \$1.00. Trial bottles free.

An Early Riser.  
A strong healthy, active constitution depends largely on the condition of the liver. The famous Little Pills known as DeWitt's Little Early Risers not only cleanse the system but they strengthen the action of the liver and rebuild the tissue supporting that organ. Little Early Risers are easy to act, they never gripe and yet they are absolutely certain in producing results that are satisfactory in cases. Sold by Dicus & Co.

—Mrs. G. H. McDougall was a visitor from Uniontown Friday.

—Mrs. Theresa Jacobs returned Wednesday after a visit of several days at Kamiah.

—Mrs. D. E. Thomas who has been visiting at the C. E. Wood home in this city left Monday for Moscow.

—W. G. Stuppinger, a Kendrick attorney has announced himself as a candidate for the nomination for congress on the democratic ticket.

—A. W. Conway accompanied Thos. H. Brewer home from Culedec Wednesday. Mr. Conway states that Mrs. Owen is 'improving' nicely.

—A very enjoyable time was had by those who attended the Rebekah dance Tuesday night. An excellent supper was spread in the society hall.

—Mrs. Ed. Kempf and son Joe arrived here Sunday from Hemlet, California. Mrs. Kempf's health has not been very good of late and believes that a visit here will benefit her.

—A basket social will be given on Feb. 19 at the United Brethren church at Lewville. Proceeds to go to the support of the Sunday school and Home Mission. All are cordially invited to attend and take baskets.

—Mr. and Mrs. A. A. Haymond have returned from their visit to Mr. Haymond's old home in Nebraska. While they reached this section the first of last week they have been visiting since at the home of Mrs. Haymond's people near Troy.

—Mrs. A. Peterson, mother of Mrs. John Howe, arrived here Sunday from Mayville, North Dakota. She was accompanied by two little girls. Mrs. Peterson will make an extended visit here. She reports an unusually cold winter in Dakota and will undoubtedly appreciate the change to this mild climate.

—China Kimberling, living on the reservation near here, met with a serious accident the first of the week. While splitting wood he brought an axe down across the back of his left hand cutting a gash which laid the flesh open to the bone. As a result of the accident it is doubtful if Mr. Kimberling will again have the free use of the hand.

If you think of selling land come in and let me know what you have. Inquiries from the east are numerous and I need more land on my lists.

—There is a law in South Dakota providing that doors to public buildings, including school houses, churches, hotels, opera houses, etc., must be made to swing outward and must be at least four feet in width. Since the recent Chicago horror the law is being rigidly enforced.

—We are in receipt of a communication from the Moscow Electric Light & Power company. They say: "We expect to be able to deliver power in Genesee by or before July 1. This will be a twenty-four hour service so your citizens will be able to use electric lights and power any time in the day or night and the rates will be so arranged that every store and residence can afford this power and light."

"The girl who works—God bless her. She is brave and active. She is not too proud to earn her own living or to be caught at her daily task. She smiles at you from behind the counter or desk. There is a memory of her own in each gown. She is like a beautiful mountaineer, already far up on the hill, and the sight of her should be an inspiration to us all. Her hands may be stained with dishwashing or sweeping, factory greasy or printing ink, but it is an honest and a helping hand. It stays misfortunes from the houses; it is a shield that protects many a forlorn little family from the alms house."

A BARGAIN FOR FARMERS.  
The New-York Tribune Farmer, a national illustrated agricultural weekly of twenty large pages, has no superior as a thoroughly practical and helpful publication for the farmer and every member of his family, and the publishers are determined to give it a circulation unequalled by any paper of its class in the United States. Knowing that every enterprising, up-to-date farmer always reads his own local weekly newspaper, The New-York Tribune Farmer has made an exceedingly liberal arrangement which enables us to offer the two papers at so low a price that no farmer can afford to lose the opportunity. The price of The New-York Tribune Farmer is \$1.00 a year and The Genesee News is \$1.50 a year, but both papers will be sent for a full year for \$1.75. Call and see sample copy.

## NO FULL MOON IN FEBRUARY.

For the first time in 19 years the moon will not get full this month, at least that is what the astronomers say. It is going to stay sober 29 days. Then it will start with its first quarter, go through its second and third and get full again. The regularity with which the moon gets full is well known, so well known that there are few, perhaps, outside of the astronomers who know that once in 19 years the terrestrial satellite celebrates by going through the entire month of February without following its custom. From time immemorial the farmer has watched for the dark and the full of the moon as a guide in planting his potatoes and corn, but as this month is not a planting month the sobriety of the satellite will cause no trouble on this score.

The cause of this lunar phenomenon is a subject for mathematicians and astronomers. But for those who do not care to delve into the intricacies of calculation, the explanation may be acceptable that, as it is leap year, the girl recently discovered in the moon has induced the man in the moon to join the temperance society. But there is a mathematical explanation for this phenomenon. As is well known, the moon goes through several phases as it travels in its orbit around the earth, each phase being produced by the relative positions of the sun, earth and moon. When the moon is in that portion of its orbit between the sun and earth we have the phase known as the dark of the moon. But when the satellite is in that portion of its orbit opposite sun and earth it is in one phase known as full. Now it requires just 29 1/2 days for the moon to travel this distance back to the same position. This time is known as the lunar month. Owing to the difference between the lunar and calendar months, every 19 years the moon reaches its full phase in the last days of January and begins to wane. As February never has more than 29 days the month passes before the moon again reaches the position where it is in the full phase. This we have had no full moon this month.—Oregonian.

**WASHINGTON LETTER.**  
From our own correspondent.  
Feb. 12.—For ten long years the republicans have remained in control of the house without democratic interference. This fact has emphasized to many of the western states the importance of keeping their good men in congress as long as they are willing to stay. A glance over the names of the members holding chairmanships of the most important committees in both the house and the senate shows only too clearly how decidedly important is the question of tenure of office in both these bodies. The western states in which the political conditions are unsettled and changing, cut but little figure in government legislation. The men at the helm of the government are those potent influences pervading all legislative channels and those whose terms of office have been long and uninterrupted. It is interesting to note that a remarkable change has taken place in the heads of committees. By closely following the policy of the keeping its best men continually in congress, the middle west has attained a pre-eminent place in both houses. Death has invaded the ranks of the delegations from the eastern states and the vacancies have been filled gradually by old members from the middle west. It was not long ago that Maine occupied a pre-eminent place in both houses. Today Iowa, Illinois, Ohio, Wisconsin and Indiana outrank her. Coming over the important committees it is noted that New York is favored with nine chairmanships. The nine members of that state have an aggregate term of office of 118 years. Illinois comes next with eight chairmanships, an aggregate of 137 years. Ohio's eight members occupying chairmanships have served 60 years, Iowa's six, 93 years; Wisconsin's seven, 51 years; Indiana's six, 46 years; and Minnesota's three, 33 years. In the 51st congress when Maine's delegation was so prominent, the average service of her members was 22 1/2 years, but one resignation, two deaths, and one case of insanity compelled her to send new men to the house, and the state lost its prestige.

These facts are advanced as advocating long tenure of office. It is proper that the people should have an opportunity to pass on the congressional record at least every two years, but if the record is good and the congressman develops elements of growing influence and power, he should be returned. The story of influence in congress is a story of long service. The far western states are well represented, but unfortunately the majority of their members are new. Where the states have wisely continued men in office they have been benefited thereby. It is a fact too, however, that the important principle of selecting strong, forceful men for congress and keeping them there has been subordinated only too often to unwise political disagreements resulting in frequent changes in the delegations. If the republican party maintains its integrity in the senate and the house for another long period, and there is every indication that it will, it will more greatly rebound to the benefit of the far western states to return to congress the present members of that party who are daily growing in experience and in value to their constituents.

—Idaho it is said will make a display of fire at the world's fair at St. Louis. Important discoveries of this metal so rare in America were made recently near Salmon City in the southern part of the state.

—Axel Olson predicts a large immigration to Troy from Norway and Sweden the coming spring. The steamboat lines in connection with the railway companies, have placed the rate nearly as low from the old center to Troy from New York City. Mr. Olson is receiving numerous inquiries from those who have friends and relatives across the ocean, and all are exerting their every effort to induce them to locate in the vicinity of Troy.—Troy News.

—In the literary features the March Designer is particularly strong. There is a short story, "Miss Osborne's Christmas," by Miss Wella Tibbor, which supplies the humorous element, and an other—"Penelope's Party," by L. M. Montgomery, which inclines toward the practical, while the parlor drama, "Mademoiselle Prudence," by Thomas Littlefield Marble, furnishes a dainty fantastic love story. "The Carlisle School," by Lillian C. Paschal, describes most entertainingly how the descendants of the original lords of North America are being turned from the wide ways of every to the straight and narrow path of civilization, and the interesting pictorial series, "Women of All Nations," is continued in two especially effective pages.

**WANTED**

**Tendency of the Times.**  
The tendency of medical science is toward preventive measures. The best thought of the world is being given this subject. It is essential and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases to pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, can be relied upon to give the best of results. Pneumonia often results from a slight cold when no danger is apprehended until the attack has begun. It is a fever and difficulty in breathing and pain in the chest, then it is announced that the patient is suffering with pneumonia. Chamberlain's Cough Remedy as soon as the cold is contracted. Address: Chamberlain, 200 State St., Boston, Mass.

## A COMPLICATED LAND CASE.

Two Indian Women Dispute Over Heirship. The following Moscow dispatch appeared in the Friday issue of the Spokesman-Review: "In Probate Judge Lukin's court a complicated case has been on trial for the past two days. The title is 'The matter of the estate of Frank Viles and Henry Viles of Nez Perce county, Idaho.' "Frank Viles was the father of Henry Viles, both now deceased. Frank Viles was hung by a mob at Asotin, Wash., several years ago, and Henry died from sickness. Both were half-breed Indians and each had an allotment of eighty acres on the Nez Perce reservation, located southeast of Genessee. Both tracts are valuable. One Indian woman, Cecile Vile Vale, claims to have been the wife of Frank Viles, and consequently the heir of both. Another Indian woman, Lillie Viles, claims to be the mother of Frank Viles and contends for the property on the grounds that Cecile Vile Vale was never married to Frank Viles, her son, and therefore is not a lawful grand-son.

"The evidence is conflicting, but Cecile Vile Vale admits that there was no marriage ceremony, claiming that under the custom and practice among the Christian Indians their tribal laws never required any ceremony to be performed. To further complicate the points in the case one Frank Williams has filed a contest in the Lewiston land office to the allotment given to Henry Viles, the deceased son. Williams contends that Henry Viles was a Flathead Indian and not entitled to an allotment on the Nez Perce reservation. There is much testimony in support of his contention. The judge has taken the case under advisement."

## A LEWISTON JAP.

The Tribune secured an interesting story from a loyal and very intelligent son of Japan who is working in a Fourth street restaurant. His name is Koochi and to suggest to him the possibility of defeat for his country in the present war would undoubtedly cause trouble. Like all of his nationality he is bitter against everything Russian and he entertained the reporter with a recital that showed familiarity with the motives of both his kinsmen and their foe.

"Are you going back to Japan to fight," the reporter asked. "No," he answered, "I don't belong to the army. All the Japs whom you hear of going to Japan are really soldiers in the Japanese army under what you would call a furlough. I served three years as a soldier but the time during which I was subject to call to complete the war footing has expired. The government permits its soldiers to go into any part of the world after three years of service in the standing army, but for three years longer they are subject to orders from the army headquarters. Until such time as a proclamation is issued calling for volunteers I will stay in America and send as much of my savings as possible to the imperial treasury."

"Yes, Japan will win this war," Koochi concluded, "because she has modern guns with which she can beat behind them and the knowledge that they are right to give her soldiers courage."—Tribune.

## FROM LENNVILLE.

February 24, 1904. One would think from appearances that spring is at hand. Crows, robbers, larks and other birds are returning, the melting snow is disappearing under the alternate influence of sunshine and showers. The coldest day of the winter registered but three degrees above zero, and even the tenderest fruit is uninjured. Snow on the north hills is two feet deep, and it may take a month to take it all away. The south hills are but lightly covered if at all. Winter wheat seems to be brighter than ever, but such steady weather and the ground was not heated. Cattle look well after so long a winter, but indications are that feed will be scarce before long, so spring cannot come too soon. Blackleg has made its appearance among the cattle and farmers are vaccinating their herds to prevent its ravages. A little general information, circulation among the farmers would be helpful to them, as many seem to be unacquainted with the disease, its cause and prevention.

The basket social at the church Friday night was well attended and a nice social time was had. The young ladies had proven themselves to be artists at basket making, as also at back filling. The young beaux didn't seem to have much money and the bidding was not very spirited, so some of the young fellows had to resort to rather questionable ways to get their supper such as borrowing baskets of the fellows who had bought them. Now boys, shame on you to let an old stiff like Sen. Brigham eat with the best looking girl in the house.

Very general satisfaction prevails over the prospect of immediate telephonic communication with Genessee and beyond. An effort is being made to secure connection with the line to the upper end of Fox Ridge so as to reach Bayley, Whitted, Crawford and other enterprising residents there. Now we have further abundant resources to warrant the location of electric car lines through the center of this rich agricultural section. Plenty of straw for paper mills, fruits for canning and jelly factories, potatoes to make starch of, beets for sugar equal to the best, and superior to many, cars of fruit actually unused and wasting, vegetables unrivaled in variety or quality, dairies, swine, etc. coupled with the cereal productions, tons of hay, any kind you want, just utilize the tumbling cataraets and give us speedy communication and transit to the teeming world outside, and we'll show you what this infant country can do when she gets her growth.

If you think of selling land come in and let me know what you have. Inquiries from the east are numerous and I need more land on my lists.

HANS BUGGE.

## LOUIS & CLARK EXPOSITION.

Latah County Receives an Official Invitation. An official invitation is hereby extended to the county of Latah, to make a special exhibit, either in its own behalf or in connection with some other body, municipal or otherwise, at the Lewis & Clark Centennial exposition to be held in Portland in 1905. It is the purpose of the Exposition to encourage comprehensive exhibits by counties and by chambers of commerce, boards of trade and other commercial organizations. For exhibits of this character, illustrating the resources, industries and progress of communities, the following resolutions have been provided.

First. The preparing and installing of exhibits by counties or organizations will be left to the counties or organizations in whose name or under whose authority the exhibits are made. Counties or organizations may erect separate buildings, or may install their exhibits in the state building of the state in which the county or organization is located. Space will be provided on the Exposition grounds for all buildings erected by counties and organizations and no charge will be made therefor. Plans and specifications for such buildings shall be submitted to the director-general for his approval.

Second. All collective exhibits made by counties and trade organizations will be permitted to participate in the general competition; that is, be both collective and competitive. I desire to enlist your co-operation and support in this movement, and respectfully to urge early consideration of this invitation so that, if favorable action be taken, we may allot the necessary space and give you ample time to proceed with preparations for your exhibit. Whatever may be the decision upon our invitation, I am satisfied we can shape our plans so as to harmonize all efforts to the best advantage. Your exhibit may be highly creditable, not only to your progressive community and state, but to the exposition as well.

We feel confident that the arrangement we propose will offer to counties an exceptional opportunity of demonstrating their potentialities at the Lewis & Clark exposition of 1905, and that the result of exhibits made in this way will be beneficial to all.

Very respectfully,  
HENRY E. REED,  
Director of Exploitation.

—C. E. Wood returned Friday from Nezperce for a brief stay. The tramway was started Tuesday of last week the new cable having been put in place, and will now be operated day and night until the grain situation is relieved.

—The stampede in the eastern market has not yet materially affected the coast market. According to the eastern market wheat at this place should be worth about 70 cents but the coast market does not permit of the dealers paying more than 64 cents. Oats are now bringing 20 cents per hundred and barley 75 cents.

—William Hobaus, a member of the H. & H. Hardware company of Grangeville, took his own life in that city last week while temporarily insane. The Grangeville Free Press in giving an account of the occurrence says that Mr. Hobaus was a resident of Genesee some years ago. He leaves a wife and two grown daughters. Financial difficulties are assigned as the cause of the suicide.

—Judge J. H. Forney is interesting himself in a tower clock for the new M. E. church. The Seth Thomas Clock Co., of Connecticut, has offered to furnish a "ticker" listed at \$1,000 for \$500. The railways in the east have agreed to transport same to the Mississippi river free, and the O. R. & N. for about one-third rate to Moscow. It will have four large illuminated dials, striking attachments and wound by electricity. This will be the only tower clock in Idaho.—Moscow Mirror.

—All game licenses expired on the 15th of this month. The open season for the following game is as follows: Turtle dove, snipe and plover, from July 15 to February 15; ducks, geese and swan, from September 15 to February 15. The hunting and killing of moose, buffalo, antelope and caribou are perpetually prohibited. The taking of salmon, sturgeon, carp, mullet, suckers and white fish with seine or spear is permitted. The fine for violating provisions of the game and fish law is not more than \$300 and cost of prosecution, or imprisonment in the county jail for not more than six months; or both fine and imprisonment. All persons except females and children under the age of twelve years, must, in order to legally hunt or take fish, procure a license of the proper class.

—The report of the state land board for the past year gives some interesting figures, showing the investment of state school funds and the income in interest, which has been derived from such funds. The former land board under Gov. Hunt's administration, had invested \$181,613.50 from which an annual income of \$9,957 was derived. When the present administration was inaugurated there were over \$500,000 school funds lying idle in the state treasury. Proceeding on advice of the attorney general the land board invested this sum in state bonds, state warrants and other securities authorized by law. The total amount, now invested, is \$892,967.50 from which an annual income of \$37,550.94 is derived. This investment exceeds that of the former board by \$328,640.56. According to the last bi-annual report of the board the total income of the state amounted to but \$14,684.38 for the two years, while the investment of the present board will bring an income of \$75,103.88 for the same period—more than five times as much. This is a record which reflects credit upon the present administration and is worthy of consideration by the taxpayers.—Bonners Ferry Progress.

—Home made bread on sale at all times at Smoll's confectionery store.

A car load of American Field Fence, at T. Driscoll's.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and quick healing liniment for cuts, bruises and burns. For sale by Deicus & Co.

—The pastor of the Congregational church will next Sabbath morning speak of "Those outside the church" and the evening of "Hopefulness." —Idaho's reform school building is to be three stories high, with basement, fire proof partitions, fire escapes and a slate roof. There is also to be a cottage, two stories and basement, steam heating and water plant with an electric pump. The total cost is estimated at \$34,840.

—The eighth grade examination will be given March 29, 30, 31; April 27, 28, 29; and May 25, 26 and 27. Teachers send to county superintendent for questions. Arbor day will be celebrated April 22. Programs will be sent to teachers.

CLARA RANSOM, County Superintendent.

—Monday of this week being the seventy-second anniversary of the birth of Mrs. Caroline Bressler, a surprise party was arranged for at the home of Mr. and Mrs. Fred Bressler, by her daughters, Mrs. Scroggin and Mrs. Bressler. The surprise was complete and throughout the afternoon things were made merry around the Bressler home by the old ladies present. The seductive game of bing was to have taken the "old ones" as well as the "young ones" as nearly all present took their turn at the game. Vocal and instrumental music also added to the entertainment of the guests. An excellent lunch was served at 5 o'clock. Owing to the very inclement weather a number were unable to attend. Those present were: Mrs. G. W. Daggett, Mrs. R. Pickering, Mrs. F. F. Burdick, Mrs. J. M. Harris, Grandma Follett, Mrs. L. Jain, Mrs. T. J. Wheaton, Grandma Howton, Mrs. J. W. Tice, Mrs. John E. Reed, Mrs. James Larrabee, Mrs. G. N. Hollister, Miss Sundholm.

SCHOOL NOTES.

High school literary society met Monday evening.

Victor Canfield is sick of measles.

Cora Livingston is absent from school this week.

Grace Richardson is absent on account of sickness in the family. Clara Fowler is also on the sick list.

Johnnie Bottjer has not yet recovered from his broken leg.

Will Platte is teaching in Miss Wilson's place this week, she being absent to file on her timber claim.

THE PEDDLER LAW IS INVALID.

No License Necessary Under Idaho Court's Ruling.

The supreme court has decided that the act of the sixth Idaho legislature, approved March 15, 1901, providing for the licensing of peddlers, hawkers and solicitors taking orders for goods, is unconstitutional and an unwarranted interference with interstate commerce, in so far as it attempts to impose such burden upon authorized solicitors and agents of citizens of other states trying to introduce and sell their goods in this state. The question was brought before the court through the original petition of Irvia Kinyon, who was arrested, tried, convicted and fined in this county for violation of this act. Failing to pay his fine, Kinyon was committed to the county jail. He appealed to the supreme court.

Kinyon, who is a resident of the state of Washington, was engaged in soliciting orders in this county for a range company of St. Louis, goods ordered though him to be shipped into Idaho under such orders or contracts. Kinyon traveled about the country with a horse and cart and solicited his orders from a price list. He claimed to have no interest whatever in the goods for which he was soliciting orders. Kinyon did not secure a license as required by the act, and was accordingly arrested.

GRAZING LAND FOR LEASE.

Stockmen and ranchers desiring to lease school land can secure information concerning terms, etc., by inquiring of the County Treasurer or writing Norman Jackson, Chief Clerk State Board of Land Commissioners, Boise, Idaho.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Buckley's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c. at Deicus & Co.'s Drug store.

Mysterious Circumstance.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health uses Dr. King's New Life Pills to maintain it. It is an antiseptic and quick acting, compels good digestion and head off constipation. Try them. Only 25c. at Deicus & Co., Druggists.

FRIDAY, FEBRUARY 26, 1904.

—Mr. and Mrs. H. L. Hardy are visiting at Pullman.

—Mr. and Mrs. S. S. Denning were visitors from Moscow over Sunday.

—N. Henson has disposed of his interests at Colton and will take up a residence in Moscow.

—Victor Hasaforth, John and Antonio Mertes and Peter Johann visited Colton the latter part of the week.

—Mr. and Mrs. W. R. Gardner came down from Spokane Saturday for a short visit with relatives and friends.

—Word comes from Spokane that a girl baby was born to Mr. and Mrs. C. H. Burt at the Hodgins home in that city Wednesday last week.

—Deputy State Inspector Wm. Mohl has completed the inspection of orchards in the Lewiston country since the spraying of infected trees has already begun.

—The Knights of Pythias and families celebrated the fortieth anniversary of the order last Friday evening. At their castle hall progressive card games were played following which a nice lunch was served.

—During the past week we received a communication from S. P. Burr who is putting in the winter in the Roosevelt mining camp. It took Uncle Sam just seventeen days to deliver the communication to this place.

—We have been requested to announce that those wishing to meet Rev. Penrose of the Whitman college to discuss matters, will find him at the Fowler home following the arrival of the train Wednesday afternoon of next week.

—Our Lewville correspondent suggests to us that we publish some information touching on the cause and prevention of blackleg in cattle. The suggestion was received too late for anything to appear in this issue but next week we will give space to an article appearing in the literature of the Pasture Vaccine Co.

—Mrs. Eva Drake, who for the past four months has been a visitor at the J. E. Reed home in this city, left Saturday for Spokane where she will visit for a short time and will then return to her home at Augusta, Ill. Some two years ago Mrs. Drake underwent an operation for a cancer and has since been in poor health. She was considerably benefited by her visit here.

—Mr. and Mrs. Sanford Evans returned Saturday from a visit of several weeks in California. They report having had an excellent time and Mr. Evans is much improved in health. They traveled as far south as Los Angeles. At Hemet Mr. Evans reports visiting with the Kempf people, old residents of this place. Returning they made the trip as far as Astoria and Sanford says he contributed his full quota to the feeding of the fishes. The sea was very rough during the entire voyage.

—Word reached here yesterday from Wetaskiwin, Alberta, that Mr. and Mrs. E. T. Jacobs had lost their third oldest child, a girl, death being caused by diphtheria. Three other children at the time of the message were down with the disease and also two parties who had been engaged in caring for the sick. To add to the seriousness of the case on the day of the death of the little girl Mrs. Jacobs gave birth to a babe. These people have the sympathy of many Genesee friends.

—An effort will be made to have another rural route established out of Genesee at an early date. The proposed route will go south from town by the Krum, Miller and Jamison places to the old Charley Sampson farm then west to the Lewiston Genesee road. From the Rimrock school house a large scope of territory will be included and the return to town will be made by way of the W. J. Mervyn farm. The promoters are sanguine that the requisite number of families can be secured in the given distance.

—H. C. J. Tweed and Lars Erickson who returned last week from a tour of the Sound cities, stopped long enough in the Kennewick country to purchase 40 acres each near the big ditch. Mr. Tweed had previously invested in a ten acre tract. They expect big things from the Kennewick country and think their investments will net them big returns. Louis Tweed and Bert Erickson left for Kennewick the first of the week and will clear the ground purchased by their fathers and prepare it for crop.

Mr. Tweed says at Connell they visited with the Visby people and reported them happy and contented. With a favorable season Mr. Tweed states that the Visby brothers will harvest upwards of 150,000 bushels of grain.

—Some of our newly married folks, and others, were serenaded Thursday evening by a party of local warblers.

—Mr. and Mrs. Josh Lanphear are down from Jansville this week. Visitors at the home of Mr. and Mrs. Walter Jain.

—Miss Anna Headley, of Lewiston, who has been a visitor at the Jack McDonald home, returned to Lewiston Wednesday.

—The Panama canal treaty was ratified by congress Tuesday by a vote of 66 to 34. The administration now proposes to press the canal project by all proper methods.

—To insure a change of ad copy must be in not later than 3 o'clock Wednesday afternoon. To issue the paper on time it is not possible for us to change a number of ads. on Thursday.

—In 1890 the average age at death in the United States was 31.1 years; in 1900 it was 35.2 years, a gain in length of life in this country of 4.1 years during the census period from 1890 to 1900.

—Mrs. P. J. Quillin returned from her visit to Nezperce the latter part of the week. While away she witnessed the marriage of her sister Josephine, whom it will be remembered visited here last summer, to Robert Quinby.

—Steps were taken last week at Moscow to organize a democratic club. It is given out that one of the objects of the organization will be to boom the candidacy of G. W. Suppiger, of Kendrick, for the congressional nomination.

—Mr. and Mrs. W. B. Martin, of Nezperce, former residents of the Rimrock section south of Genesee, were visitors at the Hibbs home over Sunday. They were enroute to California where they will go on the benefit of Mrs. Martin's health.

—Mr. and Mrs. George Bolou came over from Troy Tuesday for a visit with relatives and friends. We are advised that the Sullivan Mill company with whom they have been working has disposed of all their interests in the Troy country, consequently they will look up new locations.

—D. Spurbek transacted business in Moscow the latter part of the week. The Review correspondent of that place quoted Mr. Spurbek as saying that in the early spring he would go to Honolulu to take up a permanent residence. Mr. Spurbek informs us that he has no intention of making such a move.

—At a meeting of the council held Saturday evening a resolution as follows was passed: "Resolved that bonds be issued against special improvement district No. 1 in the amount of \$29,241, being the amount due the unpaid assessments of said district to the extent of the contractors, and the mayor and city clerk are hereby instructed to issue said bonds."

—In all theater history it is believed there has been but two fires equaling the loss of life in the ill-fated Iriquois Theater at Chicago. These were the Ring Theater fire in Vienna, Austria, in which 875 persons lost their lives by burning and panic, and the destruction of Lehmann's Theater at St. Petersburg, where between 600 and 700 persons lost their lives. The fire which destroyed the Brooklyn Theater December 5, 1856, and carried with it the lives of 296 persons, is the worst previous disaster of the kind in America.—Exchange.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For Sale by Deicus & Co.

An Early Riser.

A strong healthy, active constitution depends largely on the condition of the liver. The famous little pills known as DeWitt's Little Early Riser not only cleanse the system but they strengthen the action of the liver and rebuild the tissues supporting that organ. Little Early Risers are easy to act, they never gripe and yet they are absolutely certain to produce results that are satisfactory in all cases. Sold by Deicus & Co.

—Three more cars of potatoes were sent out of here Thursday morning for the Kansas City market. Tom Day is still acting as buyers for the shippers.

—Owing to the failure of the Northern Pacific and Great Northern railway companies to give Spokane lower freight rates, the large shippers of the city have entered into an agreement to throw all their business to the O. R. & N. until the other roads offer satisfactory rates.

—Senator Heyburn has introduced in the senate a bill appropriating \$25,000 for the survey and subdivision of a portion of the Coeur d'Alene Indian reservation and of lands to be allotted to the Indians thereon, the amount so expended to be reimbursable from the proceeds of land, from said reservation when sold. Congressmen French will introduce the same bill in the house.

—Genesee Independent School District No. 2 is in excellent financial condition. While the report as published last week in these columns showed the receipts and expenditures of the district for the past year, from Clerk Nebelsiek we learn the following: There is at present on hand in cash \$3,311.55 for general school purposes. On the outstanding bonds against the district, interest and principle amounting to \$6,500, there is at the present time available in the sinking fund to apply on the debt \$1,200. The bonds will not fall due until 1908.

—Saturday evening in a drunken revelry which number participated in, H. L. Hardy and Bill Ross fired several revolver shots in the Star saloon—"for amusement." One of the bullets passed out of the saloon building and lodged in the Walters jewelry store on the opposite side of the street, very fortunately doing no more damage than the destruction of a window glass. Mr. Bru who was at home sick, in learning of the disorder at the place came down and cleared the house thus quelling the disturbance. Mr. Hardy appeared before Justice McMahon Monday and paid a fine of \$50 and costs for the offense of discharging firearms within the corporation. We understand that a warrant has been issued for the arrest of Bill Ross but owing to his absence from the city the same has not been served. The affair was the sole topic of conversation on the streets the first of the week.

—The Congregational ladies' aid will meet in the church basement Thursday of next week.

—Read the new ads. of The First Bank. The Fair, Follett Brothers, James K. Bell, The Bee Hive.

—Ole Flanoe returned the first of the week from Connell, Wash., where he has been spending the winter.

—The Lewiston Daily Tribune is now issued seven times a week. Few cities of the size of Lewiston in the United States can boast of as good a morning daily.

—Mrs. G. L. Park, wife of Brake-man Park on this run, is here from Spokane on a visit. Mr. Park will move his family here to remain permanently as soon as a suitable residence can be found.

—Genesee has been well represented at Lewiston this week, Wednesday being the day set for making filing on six townships in the Pierce City country. We understand that all of those from here were successful in making homestead filings on the lands previously selected by them.

—The big rock crusher, recently purchased by the city, arrived Monday over the Northern Pacific from Chicago. The crusher has a capacity of 180 tons of rock every ten hours and was manufactured by the Weston & Haines Co., of Chicago. Two similar crushers for Nezperce and Astoria also reached the city Monday. The Cash Hardware Store Monday received a shipment of seven road scrapers, recently purchased by Nez Perce county for work on the county roads.—Tribune.

—J. A. Dodge, an experienced line-man of Spokane, is here this week putting in new telephones for the Genesee Telephone company. Some fifteen or twenty have left orders to have phones installed, principally in residences. Under the new management the charges for a residence phone has been reduced to \$1 and it is expected that fully fifty will now put them in. Orders may be left at the central office. A car load of telephone poles is expected to arrive today and the extension of the line to the country and work on the same will be begun just as soon as the weather will permit. It is a certainty that the line to the country will be very generously patronized.

—Apprentice wanted to learn the millinery trade. MISS E. E. BORG & Co.

—Mrs. Slater, sister of Mrs. Herman Nebelsiek and D. Scharnhorst of this place, returned to her home at Edwall, Wash., Thursday. She was called here some three weeks ago owing to the illness of her mother, Mrs. Scharnhorst, but who is now very much improved.

—D. P. Manning, better known as "Junie," was a visitor among old friends at this place from Monday until Wednesday. He is still located at Caveville, Oregon, but states that about April 1 he expects to leave for South Africa where he will work for a large mining company, in fact, the same company he is now employed with in the Caveville country, they having extensive mining interests in South Africa as well as in this country.

ATTORNEY GENERAL'S OPINION.

Cities Are Entitled to Their Share of the Road Tax. Squabbles over taxes have occurred in nearly every county in the state between the county commissioners and the officials of incorporated cities, towns and villages.

"This law was amended in First session law of 1899-1901, page 192, by virtue of which this fund now goes into the county treasury for the use of the road fund.

"The county commissioners must levy and collect a property road tax. At least 25 per cent of this road tax must be expended in the district from which it is collected.

"I must therefore advise you that the city of St. Anthony is entitled to receive from the county of Fremont 25 per cent of all property road taxes collected since this section was amended, within the corporate limits of said city since it was incorporated.

"As to your right to a set off for moneys expended by the county commissioners within the city limits, our supreme court has not passed.

"The scheme smacks strongly of a legislative job in the interests of the big eastern mail order houses, which are invading Montana, says the Inter-Mountain, as well as every other section of the country.

Retail merchants apparently are alive to the threatened evil. Several months ago they organized a state society for the purpose of fighting legislation of this character.

A Cure for Eczema.

My baby had Eczema so bad that its head was a solid mass of scabs, and its hair all came out. I tried many remedies but none seemed to do any permanent good until I used DeWitt's Witch Hazel Salve.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H.

"The work will include a drilled well, pump, boiler, engine, and all other machinery according to the plans and specifications now on file in the office of the engineer.

BLACKLEG.

Its Prevention by Pasture Vaccination. Blackleg is one of the most prevalent and fatal diseases with which cattle are affected.

CAUSES. Blackleg is a germ disease, the germs entering the body, usually with food, but sometimes through scratches or sores in the skin.

PREVENTION OF BLACKLEG. All kinds of remedies and methods have from time to time been tried, but invariably without permanent success.

SYMPTOMS. The characteristic symptom of blackleg is the appearance of a swelling or tumor under the skin.

WILDES IN OREGON PRISON.

Moscow, Feb. 29.—Many people will be interested to know what became of the notorious William Wildes, who formerly lived on the Palouse river in the northern part of Latah county, Idaho.

THE SPOKESMAN-REVIEW published an account of Deputy Sheriff Campbell of Moscow having chased Wildes from Genesee through the Nez Perce reservation country, back through this county into Kootenai county.

WASH. LETTER.
February 29, 1904.
Mrs. Fred T. Dubois, accompanied by her little daughter Elizabeth, left last week for points along the Gulf of Mexico.

GRAZING LAND FOR LEASE.
Stockmen and ranchers desiring to lease school land secure information concerning terms, etc., by inquiring of the County Treasurer or writing Norman Jackson, Chief Clerk State Board of Land Commissioners, Boise, Idaho.

COUGHED ALL NIGHT
But Quickly Cured by Chamberlain's Cough Remedy.

Happy, Healthy Children.
Any child can take Little Early Risers with perfect safety. They are harmless, never grip or sicken, and yet they are so strong that they can be given to the most delicate and nervous children.

Working Overtime.
Eight hour laws are ignored by those tireless little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, sick headache and all stomach, liver and bowel troubles.

#### LAND OFFICE NEWS.

63 Entries in New Townships Accepted. 123 Rejected.

Since the opening of the land office Wednesday morning of last week 63 applications for homestead entries in the six new townships opened for settlement were filed says the Tribune. The office has also rejected 123 applications on account of the same being in conflict with filings made by the Northern Pacific railway company and the Schofield syndicate.

The following are the entries filed: Ferdinand Roos, Jr., S. G. Curtis, F. A. McConnell, Chas. W. Kays, Chas. E. Berry, Fred H. McConnell, G. C. Kays, R. M. Sanders, T. B. Reed, P. Fitzgerald, Geo. G. James, C. E. Caldwell, J. C. Baber, W. H. Kincaid, C. M. Hooper, L. Grace Rogers, J. J. Eikon, C. E. Rigler, J. W. Lane, A. Clyde, J. A. Keener, C. F. Shumaker, Hugh Downing, Grace B. Wilson, W. Williams, Albert J. Flood, W. R. Lawrence, Harley Cardwell, G. W. Miller, J. Alphan Hans Bugge, J. C. Hammond, C. W. Hanson, A. Anderson, G. Forest, Susan C. Coistock, C. B. Thornburg, M. Cardwell, Carl Johnson, J. M. Beames, Jas. Barnes, C. G. Nogelman, J. E. Nelson, W. J. Brown, M. D. Glover, T. J. Root, A. P. Schnell, J. A. Carr, T. L. Harris, W. S. Harris, Winnifred M. Lane, H. J. Stigep, A. Woblen, A. J. Casey, R. C. Sinclair, D. T. Alkinson, J. W. Taylor, Chas. Chandler, S. Guy, Peter Rosalia, Jene Cortones, Rose Contrones.

All the applications rejected were homestead entries except two. It is expected that all of these applicants will appeal and it is known that many have already placed their case in the hands of an attorney. We note the following Geneseees listed among the rejected applicants: Oscar Surby, C. Wilson, Chas. Swenson, Bessie Wilson.

**TOWNSHIPS 37 AND 40.**  
Lewiston, Idaho, February 23, 1904. Notice is hereby given that the following township plats have been received in this office and will be filed on April 8, 1904, viz:  
Township 37, N. R. 6, W. B. M.  
Township 40, N. R. 5, W. B. M.

The State of Idaho having sixty days prior right, the public will not be allowed to file until June 7, 1904, at 9 a. m.  
J. B. West, Register.

**THE MONEY CAME.**  
Nearly \$3,000 has been subscribed by the students and faculty of Whitman college for the proposed college gymnasium. Professor A. W. Hendrick announced that the faculty had subscribed over \$1,300. The students went wild with delight and the faculty withdrew. "Hez" Brown was at once elected chairman and several students made eloquent appeals on the need of a "gym." Blanks were passed around and in 15 minutes \$1,575 was subscribed.

When the result was announced the assembly broke into an extended session with Whitman spirit and for several minutes pandemonium reigned. The college bell was rung and the enthusiasm continued throughout the day.

At night a bonfire was made on the athletic field and for an hour and a half students, young and old, male and female, celebrated with song and yell the close of the greatest day in the history of the college.

The subscriptions of the students ranged from \$5 to \$50. Full one-third of the enrolled students were not present. It is expected that when all sign up their subscriptions the total amount will be swelled to \$1,750. The total amount pledged by faculty and students was \$2,785. Student committee will meet and plan an active canvass for funds. A special "gym" issue of the Pioneer, the college paper, will probably be put out this week.

The above is from a Walla Walla paper, sent us by Arthur Morgan, and tells of how the Whitman college students and faculty meet emergencies. In the list of those contributing published in the college paper we notice the names of several of the Genesee students at the institution.

### CHURCH NOTICES.

Preaching at the Christian church on Sunday morning and evening. Subject for the morning "Conversion."

Services at the Congregational church both morning and evening next Sabbath.  
Elder D. J. Nelson, presiding elder of the U. B. church, will hold quarterly meeting services at Beulah U. B. church at Lewville Saturday, March 5, at two o'clock p. m. and will preach Sunday, March 6, at 11 o'clock a. m. and 7 o'clock p. m.

—During the heavy rain of last week the basement of the Rimrock mill was flooded with water.  
—Those having new ads in this issue are: Madison Lumber Co., The Fair, H. F. Bilger, George Hobson, The Genesee Exchange Bank, Larabee Co., Clarence Jain.

—Separate quarters will be provided in the Indian reservation for Geromino and Chief Joseph, the two most noted Indian chiefs now alive. Both have led warriors against the United States, and both are actually prisoners, but are accorded much freedom.

—The city council will meet this evening to open the bids for furnishing all the labor and materials necessary to construct the proposed system of water-works in this city. Bidders will have until 8 o'clock this evening in which to file their bids, then the same will be publicly opened. It is expected that a number of representatives of different firms will be present to present their bids in person.

—"You should try to remember," wrote the successful business man to his son, "that your best friend is your money. And this may be said without cause appearing shameful. For the man who has some such resources laid up may be at once regarded as a provident man. This is being true to one's own self, to whom we must first be true that we may not be false to any other man. In this world you will find many men who are to be trusted, and who, in an emergency are to be depended upon to lend the necessary assistance. But that we may be the more worthy of aid in a moment of necessity, we should take the steps necessary to provide against just such an occasion. Your plan seems to have been to be a 'turner fellow' at any price. We should never be niggardly, and among true friends, even generous. But of all things necessary to remember, that our life may be as nearly perfect as possible, you should first of all be just. To be just you will have to hold to a strict regard for the rights and privileges of your neighbor. To sum it all up, first be just, wisely choose your friends, keeping in mind that your money may be estimated as one of the trust, lastly, be provident, so that in the hour of necessity you may be justified in calling for assistance."

**SEED OATS.**  
I have some nice, clean Russian Side Oats for sale. JOHN LORANG.  
Home made bread on sale at all times at Smolt's confectionery store.

When bilious try a dose of Chamberlain's Stomach and Liver Tablets and realize for once how quickly a first-class up-to-date medicine will correct the disorder. For sale by all druggists.

**More Riots.**  
Disturbances of strikers are not nearly so grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorder of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50¢ and satisfaction guaranteed by F. E. Dicus & Co. Druggists.

**The Name Witch Hazel.**  
The name Witch Hazel is much abused. E. C. DeWitt & Co., Chicago, are the inventors of the original and only genuine Witch Hazel Salve. A certain cure for Cuts, Burns, Bruises, Eczema, Tetter, Piles, etc. There are many counterfeits of this salve, some of which are dangerous, while they are all worthless. In buying Witch Hazel Salve see that the name E. C. DeWitt & Co., Chicago, is on the box and a cure is certain. Sold by F. E. Dicus & Co.

—Myer Bros. have received a car of Monitor seeders and drills and Flying Dutchman plows.

—Mrs. Reese left Wednesday morning for Leavenworth, Wash., in response to a message advising her of the death of her mother, Mrs. Johnston.

—Felix Mullaly visited Pullman Friday to meet his mother who returned on that day from an extended visit with her daughter, Mrs. McLaughlin, at Sumpter, Oregon.

—Mrs. J. J. Owens, after an absence of several months at Caltidasc, returned home the first of the week. She is still quite badly crippled as a result of injuries received while away.

—The Genesee kid who cannot contract a case of measles now is not in it. Flags denoting the presence of the disease are scattered promiscuously throughout the entire town. All cases are very mild and few demand the attention of a physician. A few of the older people are taking their turn with the younger ones.

—M. J. Shields was here from Moscow Saturday and met with the council members. He presented a form of contract concerning the proposed electric power for the water-works and electric lights also a form of ordinance authorizing the city to enter into a contract with his company. Each matter was thoroughly discussed and taken under advisement.

—If there is any truth in the old saying "If March comes in like a lion it will go out like a lamb" we can predict some lamb-like weather the latter part of the month. Monday, the first day of the month, was a hammer. Fully eight inches of snow fell, exceeding the snowfall of any day throughout the winter. Owing to the soft condition of the roads prior to Monday the heavy fall of snow has not improved them.

—The meeting of the Congregational Men's Club held Wednesday evening proved of the usual interest and both the banquet and lecture were well attended. At the banquet Hans Bugge responded to the toast, "Grafts," and was heartily applauded. The address of the evening was delivered by Rev. W. B. Penrose, president of Whitman college. He took for his subject, "Good Citizenship," and royally entertained his audience.

—Apprentice wanted to learn the millinery trade.  
Miss E. E. Borg & Co.

—Miss Anna Deesten returned to Genesee Sunday from Edwall, Wash.

—We are informed that Charles Morse, a former well known barber of this city, was recently married at John Day, Oregon.

—Felix Mullaly visited Pullman Friday to meet his mother who returned on that day from an extended visit with her daughter, Mrs. McLaughlin, at Sumpter, Oregon.

Up to date 27 new 'phones have been contracted for the office has been just doubled. As soon as the work of installing the new 'phones has been completed we will publish a list of all those having them in the city.

—The jury of twelve was adopted because the prophets were twelve; there were twelve Jewish justices, twelve pillars of the temple, twelve patriarchs, twelve tribes of Israel, twelve stones of Aaron's breast plate, twelve gates of Jerusalem, twelve signs of the Zodiac. When jurists were first established the judge took the jury around with him on a cart until they agreed upon a verdict. If they did not agree they were fined and imprisoned.

### WASHINGTON LETTER.

From our own correspondents.  
Congressman French has, in be-  
half of the old soldiers of Idaho, intro-  
duced resolutions in favor of the ser-  
vice pension bill, at the request of  
McPherson Post No. 3, MacReynolds  
Post No. 10 and Sherman Post No. 31.  
The Ft. Hall bill, but for a slight  
clerical error in the bill, would have  
been signed by the president last  
week. Senator Dubois introduced a  
resolution in the senate recalling the  
bill for correction and secured its im-  
mediate passage. The resolution was  
then forwarded to the house where  
Congressman French introduced it  
through in a hurry.

Ex-Senator Heitfeld is in the city  
and expects to remain several days  
attending to a number of personal  
matters. The Senator speaks in glow-  
ing terms of the material progress be-  
ing made in his state and particularly  
of the great development in the Pan-  
handle section. The Senator has a  
wide acquaintance and a large num-  
ber of friends in Washington who are  
always glad to meet him.  
The senate finance committee has  
returned a favorable report recom-  
mending the nomination of Smith  
Woolley as assayer at Boise. The  
nomination will be made in the senate  
probably this week.

mile east of Genesee. 35 acres of  
same is now sown to timothy and will  
produce a large crop this year. Re-  
mainder of the 80 is good wheat land.  
MRS. N. J. WALBY.

### CHURCH NOTICES.

At the Methodist church, no preach-  
ing in the morning. Pastor will be  
at Uniontown, but there will be  
preaching in the evening at 7:30.  
Other services at the usual hours.  
There will be preaching at the  
Christian church as usual Sunday  
morning and evening.  
Services at the Congregational  
church next Sabbath both morning  
and evening.  
The Congregational ladies' aid will  
meet in the church basement Wednes-  
day afternoon of next week.

### SCHOOL NOTES.

The high school literary society met  
Monday evening. Although the  
weather was bad there was a large at-  
tendance including a few visitors.  
The subject for debate was, "Resolved  
that the negro is not equal to the  
white man." It was hotly contested  
on both sides but was decided in  
favor of the negative. The subject for  
next debate is "Resolved that capital  
is oppressive to labor."  
Cora Livingston and Victor Can-  
field are back in school after a siege  
of the measles.  
Johnnie Bottjer has partially recovered  
from the effects of a broken leg.  
He still walks on crutches.  
The scholars are getting over the  
measles and the school is gradually  
increasing to its original size.

—Rev. Fr. Corluy, of Moscow, has  
been the guest of Rev. Fr. Keyzer the  
past week.

—Miss Lulu Brennan has accepted a  
position with Miss Borg in the  
millinery store.

—There are 147,272 panes of glass,  
14,223 inches in the palace of agri-  
culture at the world's fair.

—Read the new ads. of The Fair,  
H. A. Morgan, LeRue Tice, F. E. Di-  
cus, Madison Lumber Co. and B.  
Jacobs.

—Mrs. Fred Rodgers is dangerously  
ill with Bright's disease. Yesterday  
she was reported as being slightly im-  
proved.

—Mrs. Tommie Green is conva-  
lescing from a severe attack of typhoid  
fever which she contracted following  
a siege of measles.

—Wm. Rooke, the son of old and  
respected parents residing near  
Grangeville, was last week sentenced  
to ten years in the penitentiary for  
stock rustling. Owing to the fact  
that Rooke has been a resident of the  
Camas Prairie country since  
early boyhood the case has attracted  
an unusual amount of attention.  
Judge Steele is not losing any popu-  
larity by giving the cattle and horse  
thieves "the limit."

The Great White sale at The Fair  
will be continued until Saturday,  
March 19.

Home made bread on sale at  
all times at Smolt's confectionery

ventors of the original and only genuine  
Witch Hazel Salve. A certain cure for  
Cuts, Burns, Bruises, Eczema, Tetter,  
Piles, etc. There are many counterfeits  
of this salve, some of which are dan-  
gerous, while they are all worthless. In  
buying Witch Hazel Salve see that the  
name E. C. DeWitt & Co., Chicago, is on  
the box and a cure is certain. Sold by  
F. E. Dicus & Co.

JOHN MEYER, Manager Genesee Yard

FRIDAY, MARCH 11, 1904.

—An Eye on Hubby" tonight.

—Rev. Canfield visited Okasdale  
this week.

—George Goodnight is suffering with  
la grippe.

—George Hunter was looking after  
interests at Pullman Tuesday.

—C. E. Hibbs took advantage of a  
lull in the grain business at Summit  
to visit home this week.

—In the valley towns the base ball  
season opened last week and several  
games have been played.

—Miles Miller transacted business  
in Spokane the first of the week.

—Mrs. Wm. Harris of Pullman vis-  
ited Genesee friends the first of the  
week.

—Mrs. J. Wilson, of Colton, visited  
with the Ball family the latter part  
of last week.

—The warm weather of the past  
week has brought all the squirrels to  
the surface.

—Frank Moroso and family have  
returned to Genesee from Lewiston to  
remain permanently.

—B. Jacobs, the Uniontown im-  
plement dealer was a Genesee visitor the  
latter part of the week.

—The Waha hotel at Lake Waha,  
owned by H. A. Canter, was com-  
pletely destroyed by fire Friday night  
of last week.

—The Knights of Pythias members  
will hold a social session on the eve-  
ning of the 17th of March at their hall.  
Games, lunch and dancing will make  
up the program of the evening.

—The third annual meeting of the  
Inland Registered Stockbreeders  
association held at Pullman last  
Thursday and Friday and was largely  
attended taking into consideration the  
bad weather.

—In all probability the next meeting  
of the Congregational Men's club will  
be addressed by Professor Hume of the  
University of Idaho, the lecture to be  
illustrated with stereopticon views of  
scenes in Europe.

—Tennis Miller billed the town the  
first of the week announcing two so-  
cialist lectures to be delivered in  
Genesee on the 22nd and 23rd inst. by  
M. W. Wilkins, of California, na-  
tional organizer of the socialist party,  
on "Socialism's Message to the Com-  
mon People."

—Cow Creek has been on a ram-  
page this week and has contained fully  
as much water as at any time in  
the history of the town. The heavy  
snow which came last week was  
melted by the warm weather of Sun-  
day and Monday. Monday night an  
unusually heavy rain set in lasting  
all night and Tuesday morning the  
district in the vicinity of the North-  
ern Pacific depot was completely  
flooded. A large amount of ice was  
floating and it was with considerable  
difficulty that the several bridges  
crossing the stream were saved. Some  
twenty or more cords of wood belong-  
ing to LeRue Tice was afloat and  
was held from passing down stream  
by the Northern Pacific tracks. Some  
damage was done to the tracks in the  
vicinity of the depot. In Krum's ad-  
dition considerable sidewalk was set  
afloat. With a change in the weather  
Tuesday all is again serene and the  
flooded stream is back to its normal  
condition.

—Henry Kuther, a pioneer citizen  
of Idaho county and a merchant of  
Denver, and father of Mrs. Henry  
Stracker of this place, was shot and  
seriously wounded Wednesday eve-  
ning of last week by two masked men  
who entered his store for the purpose  
of robbery. Mr. Kuther was closing  
the store for the night when two  
masked men entered and demanded  
that he open the safe. He complied  
with the request and while the rob-  
bers were in the act of removing the  
contents of the safe Kuther reached  
into a drawer and took out a revolver.  
One of the robbers noticing the move-  
ment opened fire inflicting a serious wound  
in Mr. Kuther's shoulder. The fire  
was returned by Kuther, but without  
effect. The three men grappled and  
Kuther was dealt a blow in the head  
by one of the robbers who then made  
their escape. The desperate encoun-  
ter was witnessed by a 12 year old son  
of Kuther, who stood in the rear of  
the store in the range of the bullets.  
The news of the occurrence soon  
spread and the inhabitants at once or-  
ganized a number of parties to, if  
possible, apprehend the robbers. As  
a result of the chase three men, Bob  
Wilkins, Crawford Hoxie and Bert  
Rhodes were found in hiding in a  
farm house. A fourth party, Asa  
Newell, escaped from the house  
while it was under guard but was  
captured near Nezperce. They are  
now in the Grangeville jail awaiting  
trial. The men under arrest are with  
the exception of one old resident of  
the prairie but it is evident that their  
arrest has caused no great surprise.  
Since the arrest of the offenders it  
seems that one of the parties has  
made a complete confession and told  
enough to clear up another robbery  
which happened at Green Creek last  
December when Barney Steubers a  
merchant of that place was held up  
and robbed. As a result of the con-  
fession Lum Vandell, a farmer well  
known in the Cottonwood section has  
been placed under arrest as a partici-  
pant in the Green Creek robbery.

### FRIDAY, MARCH 11, 1904.

—Miles Miller transacted business  
in Spokane the first of the week.

—Mrs. Wm. Harris of Pullman vis-  
ited Genesee friends the first of the  
week.

—Mrs. J. Wilson, of Colton, visited  
with the Ball family the latter part  
of last week.

—The warm weather of the past  
week has brought all the squirrels to  
the surface.

—Frank Moroso and family have  
returned to Genesee from Lewiston to  
remain permanently.

—B. Jacobs, the Uniontown im-  
plement dealer was a Genesee visitor the  
latter part of the week.

—The Waha hotel at Lake Waha,  
owned by H. A. Canter, was com-  
pletely destroyed by fire Friday night  
of last week.

—The Knights of Pythias members  
will hold a social session on the eve-  
ning of the 17th of March at their hall.  
Games, lunch and dancing will make  
up the program of the evening.

—The third annual meeting of the  
Inland Registered Stockbreeders  
association held at Pullman last  
Thursday and Friday and was largely  
attended taking into consideration the  
bad weather.

—In all probability the next meeting  
of the Congregational Men's club will  
be addressed by Professor Hume of the  
University of Idaho, the lecture to be  
illustrated with stereopticon views of  
scenes in Europe.

—Tennis Miller billed the town the  
first of the week announcing two so-  
cialist lectures to be delivered in  
Genesee on the 22nd and 23rd inst. by  
M. W. Wilkins, of California, na-  
tional organizer of the socialist party,  
on "Socialism's Message to the Com-  
mon People."

—Cow Creek has been on a ram-  
page this week and has contained fully  
as much water as at any time in  
the history of the town. The heavy  
snow which came last week was  
melted by the warm weather of Sun-  
day and Monday. Monday night an  
unusually heavy rain set in lasting  
all night and Tuesday morning the  
district in the vicinity of the North-  
ern Pacific depot was completely  
flooded. A large amount of ice was  
floating and it was with considerable  
difficulty that the several bridges  
crossing the stream were saved. Some  
twenty or more cords of wood belong-  
ing to LeRue Tice was afloat and  
was held from passing down stream  
by the Northern Pacific tracks. Some  
damage was done to the tracks in the  
vicinity of the depot. In Krum's ad-  
dition considerable sidewalk was set  
afloat. With a change in the weather  
Tuesday all is again serene and the  
flooded stream is back to its normal  
condition.

—Henry Kuther, a pioneer citizen  
of Idaho county and a merchant of  
Denver, and father of Mrs. Henry  
Stracker of this place, was shot and  
seriously wounded Wednesday eve-  
ning of last week by two masked men  
who entered his store for the purpose  
of robbery. Mr. Kuther was closing  
the store for the night when two  
masked men entered and demanded  
that he open the safe. He complied  
with the request and while the rob-  
bers were in the act of removing the  
contents of the safe Kuther reached  
into a drawer and took out a revolver.  
One of the robbers noticing the move-  
ment opened fire inflicting a serious wound  
in Mr. Kuther's shoulder. The fire  
was returned by Kuther, but without  
effect. The three men grappled and  
Kuther was dealt a blow in the head  
by one of the robbers who then made  
their escape. The desperate encoun-  
ter was witnessed by a 12 year old son  
of Kuther, who stood in the rear of  
the store in the range of the bullets.  
The news of the occurrence soon  
spread and the inhabitants at once or-  
ganized a number of parties to, if  
possible, apprehend the robbers. As  
a result of the chase three men, Bob  
Wilkins, Crawford Hoxie and Bert  
Rhodes were found in hiding in a  
farm house. A fourth party, Asa  
Newell, escaped from the house  
while it was under guard but was  
captured near Nezperce. They are  
now in the Grangeville jail awaiting  
trial. The men under arrest are with  
the exception of one old resident of  
the prairie but it is evident that their  
arrest has caused no great surprise.  
Since the arrest of the offenders it  
seems that one of the parties has  
made a complete confession and told  
enough to clear up another robbery  
which happened at Green Creek last  
December when Barney Steubers a  
merchant of that place was held up  
and robbed. As a result of the con-  
fession Lum Vandell, a farmer well  
known in the Cottonwood section has  
been placed under arrest as a partici-  
pant in the Green Creek robbery.

The Attorney General Makes Reply to Questions Submitted by the Assessors.

Attorney General Bagley has replied to the twenty-five questions submitted to him by the assessors of the state at their annual meeting at Boise on January 17, 18 and 19.

Among the more important questions passed upon by the attorney general are the following:

Land for which the final receipt is issued after the second Monday in January is not assessable for taxes that year.

The rebate laws on migratory stock apply only to livestock kept, driven, pastured or ranged within the state, and not to teams, wagons and outfits.

The home county is also entitled to the full year's taxes on migratory stock, except the rebate it refunds to the owner for the amount paid in other counties.

A county officer is entitled to board and lodging while away from home in performance of the official duties of his office.

Uncompleted buildings may be assessed before their completion or occupation but circumstances should govern such cases.

A county board of equalization may direct an assessor to assess property which has hitherto escaped assessment. If it cannot be included in the assessor's yearly report it should be included in the subsequent report and assessed double.

Improvements on unpatented lands should be assessed as real estate.

The county where property is held at noon on the second Monday in January is the home county. In other words, if a resident of Ada county owns certain sheep which are in another county on that date, the county in which the sheep are at that time is the home county.

It is important that assessors should examine each piece or parcel of property assessed by them, but not necessarily in order to determine values.

Timber purchased from the state which stands upon lands belonging to the state should be assessed as personal property and may be sold if the taxes are not paid. This is another important question, as such timber has not been assessed in the past, and the state has been deprived of considerable revenue in consequence.

Migratory stock is subject to the special taxes of the counties in which it is grazed.

If a trust company is a banking association or corporation it should be assessed as provided in section 43, session laws, 1901, page 240. If not it should be assessed the same as any other corporation.

A national bank has no right to deduct the amount of United States bonds which it holds from the capital stock in the same manner as it might deduct the value of real estate which it owns from its capital stock.

An assessor has the authority to take immediate possession of a sufficient number of sheep to pay taxes upon sheep where the taxes are not paid and the sheep are not assessed before their completion or occupation but circumstances should govern such cases.

Improvements on unpatented lands should be assessed as real estate.

The county where property is held at noon on the second Monday in January is the home county. In other words, if a resident of Ada county owns certain sheep which are in another county on that date, the county in which the sheep are at that time is the home county.

#### DIED IN A SNOWSLIDE.

Winslow M. Howland Meets Death  
in Avalanche of Snow  
in Oregon.

Saturday of last week the relatives  
at this place of Winslow Howland,  
the Larabee families, were horrified  
to learn that he had met death by a  
snowslide at the Queen of the West  
mine in the Cornucopia district, 60  
miles from Baker City, Oregon, at  
which place he was employed. The  
only information concerning the acci-  
dent so far received is contained in  
the following dispatch:

Baker City, Ore., March 11.—Two  
men were killed in a snowslide last  
night at the Queen of the West mine.  
The dead are W. M. Howland and A. C.  
Cox. Six others were injured, but  
none fatally.

The injured, none of them fatally  
hurt, are G. W. Estes, Thomas Smith,  
T. H. Mills, John Hunt, Frank Larimer  
and Neil Lundstrom.

The crash came at 5 o'clock when  
the miners were coming off the night  
shift. The slide razed the building  
and bunkhouses and swept the occu-  
pied down almost to the bottom of  
the canyon, hundreds of feet below.  
The dead and injured were recovered  
with difficulty.

The mine is located in Bonanza ba-  
sin, one mile from the spot where  
Superintendent Fred C. Dohler of the  
Cornucopia mine lost his life in a  
slide a year ago. The snow in the ba-  
sin was from 10 to 100 feet deep. The  
slide started midway between Queen  
of the West mine and Summit, gather-  
ing mass and momentum as it thun-  
dered down the precipitous escarp-  
ments of the mountain. With a ter-  
rific roar, the avalanche struck the  
surface plant of the mine and in a  
trinking all that was left to mark  
the spot was the office occupied by  
Superintendent Bert Smith. Below  
the mine the mountain side is less  
steep and the slide lost its momentum,  
to which fact is attributed the saving  
of the lives of 12 of the 14 who made  
the wild ride on the top of the slide.

Upon receipt of the telegram an-  
nouncing the death, word was at  
once sent by his relatives at this  
place to the office occupied by  
Superintendent Bert Smith. Below

been received giving a complete  
account of the accident. The recovery  
of the dead and injured was carried  
out with great difficulty. G. W.  
Estes, listed above among the injured  
has since died.

The Larabee families through  
The News wish to express their  
thanks and appreciation for the many  
kindnesses received during their re-  
covery. Especially do they wish  
to thank the members of Co. D.

—Miss Myrtle Day has entered a  
Spokane business college to study  
typewriting and shorthand.

—The Buchanan company showed  
to good houses at Elliot hall Friday  
and Saturday evenings and gave ex-  
cellent satisfaction.

—We have, by a member of the lo-  
cal train crew, been requested to call  
the attention of parents to the fact  
that unless the practice of small boys  
playing around the cars during the  
time of switching is stopped, they will  
be called upon some one of these  
days to attend a funeral. For the  
train men to keep them away is  
utterly impossible, and it is not an  
infrequent occurrence to see some  
little boy climb on a box car while in  
motion that would puzzle an experi-  
enced hand. Parents, attend to this  
matter or you may have cause to  
regret.

—A number of the business men of  
town have signified a willingness to  
again contribute cash for the exten-  
sion of the macadam road east of town  
and are anxious to learn what amount  
of labor will be guaranteed by the  
farmers. The matter of blasting and  
crushing of rock is so small part of  
the expense and considerable cash  
will be needed and it is proposed to  
apply the amount raised to this part  
of the work. The past winter has  
been an excellent one to demonstrate  
the worth of the macadam road made  
last year and it has stood the test in  
every particular. At the present  
time the farmers enroute to town find  
it next to impossible to get across  
Cow creek flat with an empty hack  
but over the macadam road any kind  
of a load can be hauled with ease. In  
short, it is a complete success. For  
the extension of the work there must  
be united action. Who will start the  
ball to rolling? Someone should take  
the matter in hand at once.

At Herman's is the  
place and now is the  
time to see 1904 up-to-  
date patterns.

W. J. HERMAN

FRIDAY, MARCH 18, 1904.

—Mrs. Shirrod was a visitor from  
Uniontown Sunday.

—Robt. McGregor has returned  
from a visit to Dayton.

—C. E. Wood left Monday for the  
trainway near Nezperce.

—Carrie Nation, the second, did a  
turn Saturday evening.

—For Pullman parties Tom Day is  
offering 60 and 65 cents F. O. B. for  
potatoes.

—F. C. Marquardsen transacted  
business in Moscow Tuesday and  
Wednesday.

—Mr. and Mrs. Wm. Smolt visited  
Spokane the fore part of the week,  
returning Wednesday.

—Read the new ads. of Follett Bros.,  
The Fair, Jas. K. Bell, The Bee Hive,  
Madison Lumber Co. and Le Rue Tice.

—Mr. and Mrs. Wm. McLain were  
sponsors of school. They paid an  
official visit to the Genesee schools  
yesterday.

—The funeral of Christina Eikum  
which was held Friday of last week,  
was very largely attended, fully fifty  
teams being in line.

—W. W. Wilkins, a socialist speaker  
of considerable prominence, will deliv-  
er an address in this city at Elliot  
hall, Tuesday evening of next week.  
All are cordially invited.

—Lo. Pickering has purchased an  
interest in the hardware company at  
Whatum that J. W. Hopp is con-  
nected with. He writes that they  
will soon move into one of the finest  
store rooms in that city.

—Wm. Smolt informs us that Frank  
Gesellehen, well known here, has just  
taken possession of a forty room lodg-  
ing house and bar in Spokane, the  
same being located near the Pedicond  
hotel opposite the N. P. depot. It is  
a new building and all furnishings  
are new.

—Jack McDonald and Cal Hough-  
ton who have been associated to-  
gether for some time as blacksmiths,  
have dissolved partnership. Mr. Mc-  
Donald expects to leave about the  
first of the month for Yakima. Geo.  
Houghton has taken an interest in  
the shop with his brother Cal.

—Among those present at the fu-  
neral of Winslow Howland from Mos-  
cow were Mr. and Mrs. Howard and  
son Jesse, Mr. and Mrs. H. H. Bangs,  
Mrs. Chas. Kays, Miss Emma Whit-  
worth, Capt. E. R. Chrisman, Prof. J.  
M. Aldrich, Ben E. Bush and Chas.  
Wildehim. A large delegation from  
the University had planned on being  
present but owing to the impossible  
condition of the roads found it im-  
possible to attend.

—A meeting of the Latah county  
republican central committee will be  
held at Moscow the 26th inst. for the  
purpose of fixing the date of holding  
the primaries for the election of dele-  
gates to the county convention; to  
elect delegates to the state convention  
to be held at Pocatello on May 18, and  
to fix the date for holding the county  
convention and determine the number  
of delegates to be sent to each.

—After a brief illness of acute  
Bright's disease Mrs. Fred Rogers  
died Friday morning of last week.  
The funeral took place Sunday morn-  
ing from the Methodist church, Rev.  
Canfield officiating. Interment was  
made in the Odd Fellows' cemetery.

—Mrs. Rogers left to mourn her early  
demise a husband, a fourteen months  
old daughter, one brother and two  
sisters, one of them being Mrs. F. D.  
Seymour of this city, besides numer-  
ous relatives and admiring friends. Mrs.  
Rogers was a member of the Metho-  
dist church at this place and was  
a sincere christian and an earnest  
worker in the church. Deceased was  
born in Ellensburg, Wash., and had  
lived until the coming September  
old have been 21 years of age.  
One five years ago she came to  
Genesee with her sister and on July  
spot was married to Fred Rogers.

We are thankful to our many kind  
friends for their sympathy for our  
bereavement.

FRED ROGERS AND FAMILY.

COUGHED ALL NIGHT

at Quickly Cured by Chamber-  
lain's Cough Remedy.

A few mornings ago Mr. J. G. Smith,  
a good citizen of this place, came  
the store for a cough medicine," says  
C. S. Farnell of Mapleville, Pa.

He was so hoarse that he could hardly  
talk and said he had coughed all the  
night before.

I sold him a bottle of Cham-  
berlain's Cough Remedy and told  
him that if it did not relieve him he  
might bring the bottle back and get his  
money.

I saw him the next morning  
carrying the bottle to the store where he  
works, and he told me it did him more  
good than any medicine he ever used."

For sale by all druggists.

ated in business with Scott Ogden in  
this city, had died in the Philippines  
where he was serving in the army.

—Chas. Armstrong came down  
from Wilbur, Wash., to be in attend-  
ance at the arrival of Wm. Howland,  
they being classmates at the Univer-  
sity. Mr. Armstrong is now engaged  
with a mercantile company at Wilbur.

—While in Spokane this week Wm.  
Smolt invested in a well soda  
fountain which will cost him nearly  
\$500. He expects to receive and have  
the same in operation within a few  
weeks. The first of the month he will  
discontinue the manufacture of cigars  
and devote his entire time to other  
lines. He will make numerous im-  
provements about his place of  
business.

—C. P. Cooper has on exhibition  
in Genesee a very rare coin which  
has been the property of the Cooper  
family for many years. The coin  
bears the date of 1745 and stamped  
thereon is the "phiz" of King George  
the Fourth. As a rare coin it  
has a money value of \$250. Mr.  
Cooper recently sent it to the Smith  
sonian Institute for inspection and it  
was classed by them as being one of  
the rarest of coins.

—Rev. W. C. Fowler has been a Moscow visitor the greater part of the week.

—As a result of the recent heavy rains the country roads have been seriously damaged and an unusual amount of repairing will be necessary this spring.

—A fair sized audience turned out to hear the socialist speech Tuesday evening followed by M. W. Wilkins. From a socialist view it is said to have been good.

—Those having changes of ads. this week are: Quillin & Co., Jas. K. Bell, W. J. Herman, Bilger's Department Store, T. Driscoll, The Fair, Larrabee Co., Madison Lumber Co.

—A meeting of the school board was held Monday evening. The matter of electing teachers for the coming year was carried over and will be acted upon at the meeting of the board to be held April 11.

—Miss Clara Ransom, county superintendent of schools, who paid an official visit to our schools last Thursday, compliments very highly the present corps of teachers. She found all departments doing very satisfactory work. While here she also found time to pay a visit to the Catholic schools.

—Those senators propose to reclaim the arid lands by selling the timber to the capitalists. If all Idaho was in the sage brush district, the measure would probably meet with unanimous support in the state. Instead, however, the repeal of the timber and stone act is reviewed up north as being an outrage.—Lewiston Tribune.

—Mr. and Mrs. Wallie Owen expect to leave within a day or two for southern California. The trip will be made in the hopes that the milder climate will be beneficial to Mrs. Owen's declining health. Her condition is serious and her many Genesee friends trust that the change of climate will aid in restoring her to her former good health.

—Two men were disputing over their respective churches. Finally one of them called to a neighbor who was passing by and asked his opinion as to which was the only church in which to be saved. Said he: "I have been hating wheat to the mill night on forty years. Now there are several roads leading to the mill. Sometimes I go one and sometimes the other. And never yet, friends, has the miller asked me which road I took, but he always asks: 'Is your wheat good?'"—Ex.

—The first Legislature that met in Utah after the territory had become a state passed a law legitimizing all children born in polygamy or that might be born during the succeeding year. A majority of the members were Mormons. By that law the legislature, at least by implication, declared that after the succeeding year all children born in polygamy should bear the brand of illegitimacy from birth, that the right of natural inheritance should be denied them, that there should be a social taint upon them. No one understood the matter better than President Joseph F. Smith, but it seems he cared nothing for it or for the effect upon his children. And he is the prophet seer and revelator of this kingdom. No wonder his followers want this agitation stopped lest it interfere with business.—Goodwin's Weekly.

—Military maneuvers on a large scale will be conducted in Idaho this summer says a dispatch. Arrangements are now being made between the adjutant general of the state of Oregon, Washington and Idaho, with Adjutant General Evans of the Department of the Columbia to have the militia of the three states camp with the regular army for two weeks next August or September and practice field work. No particular site has been picked upon as yet, but it will be somewhere in a rolling or even mountainous country where a regiment can be taken out and lost and the rest of the army sent to find it as if it were a hostile force. There will be 5000 men in the parade every day, a military showing not seen in this part of the country before. All men under the Department of the Columbia, the militia of the three north-west states and possibly California will be at the encampment. As it would be necessary to transport the California troops over 1000 miles, however, it is doubtful whether they will join the encampment.

—P. J. Quillin transacted business in Lewiston this week.

—We have a quantity of government garden seeds at this office for free distribution.

—George Daggett and J. K. Bell leave for Moscow this morning to attend the meeting of the republican county central committee to be held tomorrow.

—No new candidates have appeared in the arena this week and it is more than likely that no contest will be made for any office except that of city treasurer.

—Attend the athletic entertainment to be given tomorrow evening at Elliot hall by the team from the Washington Agricultural college. Seats on sale at Dicus'.

—It is claimed that nearly a thousand men are now employed in the Hailey mining district in the southern part of the state and that there is renewed activity on every hand.

—During the coming month Rev. O. C. Helgeson expects his father and sister of Minnesota to join him here. The sister will be associated in the millinery and dressmaking business with Miss Aaland.

—The county auditor's office reports that from April 1903 to date there have been 215 coyote scalps paid for from the bounty fund, created by a one cent per head tax on sheep assessed within Latah county.

—Whitman county was organized in 1871 and in 1877 had a population of 2,214 and \$470,000 worth of assessable property. In 1903 this county had a population of about 40,000 and an assessed valuation of over \$13,000,000.—Colfax Gazette.

—The heaviest fall of snow of the season visited this section Tuesday and Wednesday of this week and the ground is now covered to the depth of a foot. An already late spring is made later and it will take considerable warm weather to put the ground in condition for spring work.

—Mr. and Mrs. Geo. Bolio left Saturday for Troy to pack their household goods for shipment. George states that he has a number of positions offered him and is as yet undecided where he will locate but in all probability will accept a position at one of the saw mills on the reservation.

FRIDAY, MARCH 25, 1904.

—George W. Kays is a visitor in the city from Moscow.  
—Selma Murphy and Miss Aaland visited Pullman between trains Wednesday.

—Thos. H. Brewer returned Tuesday from a visit to a number of neighboring towns.  
—The Association of Churches of Eastern Washington and Northern Idaho, will meet at the Congregational church in Genesee, April 5, 6 and 7.

—Messrs. Dickson and Kengel returned Monday from a tour of the coast cities. Mr. Dickson states that he was surprised to find the weather so nice over there.  
—Mr. Carluhn expects to soon begin work on his proposed residence on his acre property adjoining the city on the north. We understand it will be quite a pretentious one.

—The biggest searchlight in the world will be seen at the world's fair. It is recently finished in an electric plant at Lowell, Mass. It weighs nearly four tons, is of 5,250 candle power and projects a beam of light seven feet in diameter.  
—Milton F. Johnston returned Sunday evening from Modesto, California, where he spent a couple of weeks looking over that irrigated section. While there he purchased six acres, and may move to that section later on. At any rate he considers his buy a good investment.—Asotin Sentinel.

—The Nezperce Co-operative Telephone company has been granted a franchise to construct a system within the corporate limits of Lewiston. Against the issuing of the franchise the Inland company put up a strong fight but were defeated. Considerable pressure was brought to bear upon the council members by citizens along the line of the new system.

—Geo. H. McDougall who has been agent for the Northern Pacific at this place for some time has resigned and will leave about the first of the month for the east to look up a location. Mr. McDougall is forced to make this change on account of his wife's health which has been quite poorly for some time. We are sorry to lose Mr. McDougall and his estimable family.

—What is known as the Schutte property, lots and a small block situated near the Northern Pacific depot, has been purchased by the city, the deal having been closed at the council meeting held Monday evening. For the purpose for which the same was purchased it is a valuable property for the city. The pumping station for the waterworks plant will be located there and a more convenient location could not be found in the city. The purchase price was \$301, the city to pay a small amount of back taxes and for the improvements. It had been proposed to locate the pumping station across the track near the depot but it there would be nearly as great and the location anything but a desirable one. The pumping station will now be in a direct line with the reservoir which is considered quite an advantage. There is sufficient room at the two lots for the city to erect buildings for the storing of fire-fighting appliances, storing of city property, etc.

—The newspapers of the great Inland Empire should boost the 1904 wheat crop into trillions of bushels, as is the habit of many daily press correspondents who cannot distinguish between a political campaign and a crop of grain not yet planted, we are certainly going to pile the sea coast forty feet deep in wheat, at the same time depressing the price in the markets of the world. It should be understood that there is a limit to wheat production, even in the United States. It should also be understood by crazy correspondents that when they exaggerate, even deliberately, the production of a country depending largely upon export, they work not only expensive injury to the country at large, but to every producer in it. The world's wheat market is based necessarily upon the irrefutable law of supply and demand. Every word of mouth or newspaper print which exaggerates the production of the Palouse country, or any other country, is nothing more or less than a hammerer down of prices. This is enough said. Palouse country fall wheat looks better than it did last year.—Palouse Republic.

—Ezra Follett was up from Wilota the latter part of the week. Mr. Follett has recently been named postmaster at Wilota.  
—Grandma Hobson returned to Genesee Saturday after an absence of several months at Seattle where she has been living with the family of Mr. and Mrs. Bussey.

—Thursday evening of last week a large party of Knights and ladies, and a number of invited guests, paid tribute to St. Patrick by indulging in cards and dancing at their hall. Lunch was served. An excellent time was had by all present.

—James Larrabee has purchased from S. L. Strickland, lot 12, block 8, North addition to Genesee. This lot adjoins U. G. Dickson's residence property on the east. Mr. Larrabee informs us that just as soon as possible he will have his new residence, the erection of a double residence to contain eight rooms which will be occupied by the two families.

—Saturday evening of this week the athletic team of the Pullman Agricultural college will give an entertainment in Genesee at Elliot hall. This is the eighth annual tour of the team and they are spoken of as being good entertainers. The entertainment will consist of bar work, bag punching, wrestling, club swinging, combination tumbling, slack wire performing, etc. With the team will be Millgard, the champion light weight wrestler of Spokane, and David of San Francisco.

—During the past two or three weeks people who have had occasion to travel much, have doubtless wished for better roads, as the bottoms seemed to have gone altogether. It costs money to build good roads, but sooner or later the people of Asotin county, as well as elsewhere, must face the proposition that money spent in the building of good permanent roads, is one of the best investments that a community or county can indulge in. People who oppose good road building stand in the way of their own interests.—Asotin Sentinel.

**COUGHED ALL NIGHT**  
But Quickly Cured by Chamberlain's Cough Remedy.  
"A few mornings ago Mr. J. G. Smith, a good citizen of this place, came to the store for a cough medicine," says Dr. C. S. Farnell of Mapleville, Ala. "He was so hoarse that he could hardly talk and said he had coughed all the night before. I sold him a bottle of Chamberlain's Cough Remedy and told him that if it did not relieve him he might bring the bottle back and get his money. I saw him the next morning carrying the bottle to the store where he works, and he told me it did him more good than any medicine he ever used." For sale by all druggists.

**Happy, Healthy Children.**

—Athletic entertainment tomorrow evening.  
—Three thousand cowboys are organizing in Denver to carry the western breezes to the Chicago republican national convention.

—Lewiston will have a strong baseball aggregation this year and expects to hold first place among the amateurs. Ray Pickering, now a resident of Lewiston is listed among the players.

—Before buying calendars for the coming year do not fail to consult us. We will have one of the most complete lines obtainable and will be in a position to discount the prices of traveling salesmen.

—Walter Canning and Andrew Blair, the former from Iowa, the latter from Nebraska, visited here this week in search of farms. They had been stopping temporarily at North Creek, Wash. to which place they returned Wednesday. In departing they said they would return within a few weeks when the roads are in a better condition and would in all probability invest.

—Robt. Gray received word Monday from Portland that his son Will was seriously ill with appendicitis. Tuesday morning another message was received saying that he was considerably improved but that it would be necessary for him to go to a hospital. Some seven years ago he was afflicted with the same malady but recovered without having an operation performed. Mr. Gray left for Portland Tuesday morning. A letter stated that he was considerably improved and it is not thought likely that an operation will be necessary.

—A Washington dispatch says that Secretary of the Interior Hitchcock has granted authority for the acceptance of the bid of C. T. Stranahan of Lewiston for the purchase of the Nez Perce Indian agency property in Idaho, the figure being \$5152. Bids for the sale of the tract were received several weeks ago, and the bid by Mr. Stranahan was the best offered. It seems that Indian Agent McArthur recommended that the land on which a number of buildings are also located was of greater value than the amount of the bid offered and for a time it was thought new bids would be called for. The action of the secretary today, however, definitely settles the matter. The tract sold comprises the townsite of Spalding.

—K. Uhre is making some extensive improvements at his residence on his 80 acre farm west of town which he recently purchased from John Mertes.

—Wallie Owen has in operation at his home on a heating stove, a device known as a fuel saver. He says it works to perfection and in his opinion is all that is claimed for it and is satisfied that in its use fully one-third of the fuel is saved. The device is manufactured in Spokane.

—In mentioning the primary held last week to place in nomination a set of officers to be voted upon at the approaching city election, we unintentionally omitted to mention that Pat Ryan received the nomination for city engineer. He was an easy winner in the primary and he will be elected without opposition.

—Two road petitions, one asking for a change in the present road in the Jain district, the other a change of the same through the farms of Ed Peterson and N. J. Walby, have been circulated of late and have been very generally signed, especially by the people living in the country and users of the present road. It is proposed to present the petitions to the board of county commissioners at their coming April session.

—Inspector Wm. Mohl says there are about 1,000 orchards in Latah county and on American Ridge in Nez Perce county but that scarcely more than a dozen of them are money makers to the owners, for the reason that they are not kept in proper shape. Nevertheless, good clean apples are selling in the City of Lewiston today at \$1.50 to \$2.00 per box. The moral is obvious. Clean up the orchard and keep it clean and thrifty, for that means dollars and cents.—Gem State Rural.

—Thos. H. Brewer transacted business at Kendrick the first of the week.  
—Miss Mamie Cunningham left yesterday morning for her home near Troy.

—The home talent play to be presented here Friday evening of next week will be given at Uniontown the following evening, April 9.

—Dr. E. R. Lemman informs us that as soon as he can close up his affairs here he will remove to California.

—John Kambich, the Rimrock farmer, will soon take up permanent residence in Genesee. Tuesday of this week he purchased from D. R. Davis the residence property now occupied by Louis Otness paying \$900 for the same.

—At a meeting of the republican county central committee held Saturday at Moscow it was decided to hold primaries to elect delegates to the Pocatello convention on Monday, May 2. The delegates elected at these primaries are to meet at Moscow, Monday, May 9.

—A Washington dispatch of last Friday says: "The postoffice appropriation bill passed late this afternoon. The item raising the salaries of rural free delivery carriers to \$750 per annum and taking from them the express and news agent privileges was retained after a sharp contest."

—B. Assman and wife, now temporarily residing at Coeur d'Alene, were visitors in the city the latter part of the week. Mr. Assman is looking for a place to invest in a farm and is very favorably impressed with this section. They left for Lewiston the first of the week but will return here at an early date.

—It has been charged that in certain southern counties of this state that the Mormon doctrine is being taught in the public schools, contrary to the express provisions of the state constitution. The matter was referred to Miss Scott, state superintendent, who, having thoroughly investigated the matter, states that the reports are groundless.

—A fair association has been organized at Nezperce with a capitalization of \$30,000. The object of the association will be to hold an annual fair. Thomas Kirby has been elected manager of the company and will remove from Peck to Nezperce to remain permanently. Sixty acres of ground has been purchased adjoining the city and the same will be fenced and improved.

—As soon as the weather will permit the residence now occupied by Dr. Lemman and recently sold to Henry Herman will be removed to lots owned by Mr. Herman just west of the J. J. Owen residence property. While Mr. Herman is still undecided as to what he will do with the lot made vacant we look for him during the coming summer to erect thereon a residence that will be a credit to the city.

—The building for the Lewiston cannery has been completed, and the machinery will be put in place at an early date. Manager Walsh announces that the company is ready to contract for the growing of 100 acres of cucumbers. Mr. Walsh says that at the lowest estimate an acre of land should produce \$300 worth of cucumbers which will cost only about \$20 more to grow than potatoes. Tomatoes will also be used by the cannery.

—W. M. Thompson, Rodney Olney, Miles Miller and Alonzo Hanson were at Pullman Saturday in attendance at the trial of Thompson vs. Fitzgerald. The case was one wherein Thompson sued Fitzgerald for the amount of dockage charged against a car of hay shipped to the coast which was purchased from the defendant. The jury returned a verdict for the defendant who was probably as much surprised at the outcome as any one interested.

—Among the republicans who are candidates to attend the republican national convention are Senator W. B. Heyburn, G. W. Thompson of Lewiston, Judge Warren Truitt of Moscow, Gov. Morrison, W. E. Borah and Judge Richards of Boise, Judge Standrod of Pocatello, ex-Senator Shoup and Frank Gooding. Six delegates will be chosen and a representation of one is conceded to each of the six judicial districts of the state. In this district a contest will be on between Mr. Thompson of Lewiston and Judge Truitt of Moscow with a chance for a third party to come from Idaho county.

—Be on the safe side, Madison Lumber Co's ad.

—Read the new ads. of The Fair, Geo. H. Hobson and Madison Lumber Co.

—The supreme court convened Monday at Lewiston with a calendar of twenty-five cases. It is expected that the court will be in session fully two weeks as the calendar is the longest of any in the history of the northern terms of court.

FRIDAY, APRIL 1, 1904.

—Mrs. Marie Cool visited Moscow Saturday, returning Sunday.

—Mr. and Mrs. Dieus returned to their home at Garfield Saturday.

—A big son was born to Mr. and Mrs. Lee Rodgers Sunday morning.

—Miss Edna Borg was at Colton the fore part of the week with a display of millinery.

—The Troy News came out last week enlarged in size and very much improved in every way.

—Messenger Rogers, of Spokane is in charge of the express business on this branch during the absence of Wallie Owen.

—Dr. J. L. Conant left Wednesday morning for Wallace. From there he will probably go to Boise to attend the meeting of the State Medical Association.

—Mr. and Mrs. Stephen Broemmeling left Wednesday morning for Sumner, Wash., in response to a message advising them of the death of Mrs. Broemmeling's mother at that place. They expect to be gone about a week.

—A million dollar sugar factory is being erected at Blackfoot and farmers have contracted for the raising of 3000 acres of sugar beets this season. Citizens of Blackfoot subscribed \$102,000 to the capital stock of the enterprise.

—Saturday of last week F. E. Burdick purchased from W. F. Curtis, now a resident of Lewiston, the residence property near the Methodist church which the family has occupied for several years. The consideration was \$800.

—Mrs. J. H. Jackson left the first of the week for Pullman to pack their household effects to move them to this place. Mr. Jackson states that being unable to buy a suitable residence he will in all probability soon begin the erection of one.

—Mr. and Mrs. E. T. Platt visited Spokane Monday, returning Wednesday, to consult Dr. Thomas. It is feared that Mrs. Platt will have to undergo a second operation. She will return to Spokane in a short time to take treatment and if necessary undergo the operation.

—C. T. Straanahan who a short time ago received a deed to what is known as the Spalding townsite has transferred the same to a syndicate who will not make their plans known but it is intimated they will endeavor to have a number of manufacturing enterprises started there. The site is without an exception the finest along the river.

—During the week the various rooms of our public schools prepared and forwarded to the state superintendent of schools at Boise an excellent display of the work of the schools to be placed with the state exhibit at the St. Louis exposition. We were accorded the permission of examining the work before it was forwarded and venture the assertion that few, if any, schools of the state can make a better showing. The pen work specimens by Johnnie Bottjer, Henry Herman, James Edwards and Jess George are exceptionally fine.

—A case entitled "In the matter of the estate of Frank Viles and Henry Viles of Nez Perce county," recently tried before Judge Lukins at Moscow, a decision was rendered Friday of last week. A brief history of the case is as follows: Frank Viles was the father of Henry Viles both now deceased. Frank Viles was hung by a mob at Asotin, Wash., several years ago, and Henry died from sickness. Both were half-breed Indians and each had an allotment of eighty acres on the Nez Perce reservation, located southeast of Genesee. Both tracts are valuable. One Indian woman, Cecile Viles Vale claims to have been the wife of Frank Viles, and the mother of Henry Viles, and consequently the heir of both. Another Indian woman, Lillie Viles, claims to be the mother of Frank Viles and contended for the property on the grounds that Cecile Viles Vale was never married to Frank Viles, her son, therefore is not a lawful grand-son. To further complicate matters Frank Williamson of this place filed a contest on the allotment of Henry Viles charging that Viles was a Flathead Indian and not entitled to an allotment on the Nez Perce reservation. Judge Lukins' opinion in substance is as follows: "That the court has no jurisdiction of the said allotment of Henry Viles, deceased, and no right or authority to decree or distribution of the same to a member of the Flathead Indian tribe."

—Mrs. T. V. Williams, Lainingburg, Mich. For sale by all druggists.

—At the constable's sale held Monday of this week, D. Holzman & Co., of Spokane, purchased the Flinn property on railroad avenue. \$200 was the amount bid.

—A special meeting of the council was held Tuesday evening to pass upon the aeries furnished by Naylor & Norlin, the water works contractors, on their bond. The same was accepted and referred to the city attorney to pass upon the legality of certain features.

—Monday evening of next week the Genesee Circle, No. 296, Women of Woodcraft will give an entertainment at Elliot hall to consist of moving pictures and stereopticon views, also vocal and instrumental music. An admission fee of 20 cents for adults and 10 cents for children will be charged. You are invited to attend and enjoy the evening with the Circle and Neighbors of Woodcraft.

—Ralston Vollmer has well under way the work of fencing some 2000 acres of pasture ground on the Rimrock south of town. The ground enclosed will be used exclusively for the pasturing of stock. The fence will be of seven strands of barb wire and will be hog tight. The fence completed will represent a large outlay of money as a large percentage of posts, owing to the rough ground, will have to be placed on top of the ground and banked up with rock.

—In accordance with the instructions of the trustees of the Rhoades scholarship fund, a written examination will be held beginning April 18, at the University of Idaho, Moscow, Idaho. It should be clearly understood that this examination is not competitive, but simply qualifying, and is intended to give assurance that no elected scholar will be unable to respond, the first examination which the University demands of all candidates for the A. B. degree. Six papers will be given in the examination, for each of which two hours will be allowed. Any one wishing to take the examination may obtain full information by addressing W. G. Harrison, registrar of the University.

**TO THE VOTERS OF GENESSEE.**  
I hereby announce myself as a candidate for the office of city treasurer.

—Home made bread on sale at all times at Smolt's confectionery store.

—The present promises to be the most prosperous year in the history of Genesee, especially in the way of building. While we are not at liberty to give full particulars, it is almost absolute certainty that two, and possibly three, handsome brick business blocks will be erected. In the way of residence building it is expected that fully double the number will be erected over any other year in the history of the town. With the installing of the water works system, the electric light plant, the macadamizing of the streets and country roads and the building of the telephone line throughout the surrounding country, the prospects for a busy year are certainly flattering.

One Indian woman, Cecile Viles Vale claims to have been the wife of Frank Viles, and the mother of Henry Viles, and consequently the heir of both. Another Indian woman, Lillie Viles, claims to be the mother of Frank Viles and contended for the property on the grounds that Cecile Viles Vale was never married to Frank Viles, her son, therefore is not a lawful grand-son. To further complicate matters Frank Williamson of this place filed a contest on the allotment of Henry Viles charging that Viles was a Flathead Indian and not entitled to an allotment on the Nez Perce reservation. Judge Lukins' opinion in substance is as follows: "That the court has no jurisdiction of the said allotment of Henry Viles, deceased, and no right or authority to decree or distribution of the same to a member of the Flathead Indian tribe."

—The present promises to be the most prosperous year in the history of Genesee, especially in the way of building. While we are not at liberty to give full particulars, it is almost absolute certainty that two, and possibly three, handsome brick business blocks will be erected. In the way of residence building it is expected that fully double the number will be erected over any other year in the history of the town. With the installing of the water works system, the electric light plant, the macadamizing of the streets and country roads and the building of the telephone line throughout the surrounding country, the prospects for a busy year are certainly flattering.

—A case entitled "In the matter of the estate of Frank Viles and Henry Viles of Nez Perce county," recently tried before Judge Lukins at Moscow, a decision was rendered Friday of last week. A brief history of the case is as follows: Frank Viles was the father of Henry Viles both now deceased. Frank Viles was hung by a mob at Asotin, Wash., several years ago, and Henry died from sickness. Both were half-breed Indians and each had an allotment of eighty acres on the Nez Perce reservation, located southeast of Genesee. Both tracts are valuable. One Indian woman, Cecile Viles Vale claims to have been the wife of Frank Viles, and the mother of Henry Viles, and consequently the heir of both. Another Indian woman, Lillie Viles, claims to be the mother of Frank Viles and contended for the property on the grounds that Cecile Viles Vale was never married to Frank Viles, her son, therefore is not a lawful grand-son. CONCERNING REPEAL OF PRESENT LAND LAWS.

Washington, March 25.—Senator Hansbrough, of North Dakota, charged in the senate today that the movement to secure the repeal of the desert land law, the timber and stone law, and the commutation class of the homestead act was due to the efforts of a lobby composed mainly of holders of land bought in large tracts from railroad companies with a desire thereby to increase the demand for their property.

Dubois intimated that the pressure for repeal was due to large holdings of forest lands by the railroads. Senator Gibson yesterday advocated repealing the laws in question. Hansbrough and Dubois contended that the repeal would be unwise. Newslands favored modification of the laws.

Senator Gibson yesterday advised repealing the laws in question. Hansbrough and Dubois contended that the repeal would be unwise. Newslands favored modification of the laws.

Hansbrough spoke in reply to the speech of Gibson made yesterday on the bill providing for the repeal of the desert land and other bills for the disposal of public lands. He agreed with the Montana Senator in the contention that the timber and stone act and the forest reserve lien law can be disposed of to advantage. He also spoke in support of the commutation class of the homestead act.

Hansbrough intimated that there was an ulterior motive in the movement for the repeal of the laws in question, saying that there was in Washington an organization preparing the way for the repeal of the desert land, timber, stone and commutation laws, and speaking of this organization he said: "I am satisfied it is the purpose of this organization to enhance the value of private holdings in scrip and lands."

He said in this connection he made no charge that any Senator or member of the House of Representatives was interested in any such organization. He added that "one of the individuals in connection with this organization has recently been receiving princely salary from one of the land grant railroads for the past six years."

"I found upon investigation that a great syndicate has recently purchased at the price of 75 cents an acre a large body of land from the Union Pacific Railroad company and the managers of that body have been in Washington conferring with officials to secure the repeal of the laws in question."

"Then, therefore," he added, "Senators talk of syndicates of cattlemen, land barons, etc., and when people on the outside accuse senators of being the agents of such syndicates, I think it no more than fair that attention should be called to other syndicate interests in the repeal of the laws."

Newslands expressed the hope that the land laws might be materially modified. "Monopoly of lands," asserted Newslands, "has been the cause of most of the series of European wars. The concentration of lands in California has interfered with the proper development of the state."

Laws NOT WELL ADMINISTERED. Dubois said the charges of fraud in the public land states were a sweeping indictment of the administration of the land laws, and that he, for one, resented them. He never had known of a case of fraud under the operation of the desert land law in Idaho, and, in view of the fact that it was the only law under which the public land states could be settled, he thought its repeal would be a calamity. He declared the time for large holdings of lands had passed away, and said the only legitimate complaint to be made against the execution of the land laws at present was in connection with the forest lien scrip, most of which he said was held by railroad companies.

Nine feet of snow on the level was reported last week in the Buffalo Hump mining district.

WASHINGTON LETTER.

After a great amount of arguing and an exhibition of considerable feeling on the part of some members of the committee on public lands in the senate, the committee presented the bill repealing the timber act and placing the disposal of all the public lands valuable chiefly for timber in the hands of the secretary of the interior, to be disposed of by public auction to the highest bidder. The money received from such sales to go into the reclamation fund. The bill passed the senate without debate. It is now in the hands of the house committee where it is likely to have rough sledding. The house committee as a whole is believed to be opposed to a measure as radical as this, and doubts are expressed that it will ever get before the house for a vote. Congressman Reeder of Kansas is making a determined fight to get the question of a repeal of the public land laws before the house, and he is certain to call the committee to account if some legislation in this direction is not brought up. The personnel of the public lands committee in the house is said to be favorable to some such legislation in the way of greatly modifying the present laws.

The Ft. Hall bill opening to homestead entry the five mile limit lands around Poetello, after an exceedingly rough course through congress is now in the hands of the president for his signature. It will doubtless become a law before the publication of this letter.

Senator Heyburn is continuing his fight on the land grabbers who are making use of lien land scrip to secure large bodies of valuable lands. He introduced an amendment to an Indian bill this week and secured its passage which denies to the Indians the right to alienate the allotment selection of homesteads, or to have them represented by power of attorney. The amendment is in connection with the Chippewa Indian allotments in other states outside of their reservation. The senator thought the Indians might make their selections in Idaho, and after commencing the exercise of a homestead right would commute the same and thereafter assign their rights. He believed the Indians' rights under this act were cooperative with those of any other homesteader, but did not propose that the Indians be allotted such rights should flood Idaho with any right of exchange which in effect was the same as scrip.

The pure food bill, which is in the charge of Senator Heyburn, was taken up in the senate on Monday, Mar. 28. Indian appropriation bill, appropriating \$25,000, or as much thereof as may be necessary for the survey and subdivision of a portion of the Coeur d'Alene Indian reservation and of lands to be allotted to Indians thereon, passed the senate Tuesday.

"I have been subject to sciatic rheumatism for years," says E. H. Waldron of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache since. This is the best medicine I have certainly a most wonderful relief. For sale by all druggists."

Robbed The Grave. A startling incident is narrated by John Oliver of Philadelphia as follows: "It was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed me of my life, but I am cured. No one should fail to try them. Only 50c. Guaranteed at F. E. Dicus & Co's. drug store."

Good for Children. The pleasant and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and La Grippe because it does not take effect right in the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heats and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. One Minute Cough Cure is safe to take and it is good alike for young and old. Sold by all druggists.

Nothing Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy. "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in our family for many years. E. C. Cook of Nederland, Texas. "We have given it to all of our children. We have used other medicines for the same purpose, but never saw anything so equal to Chamberlain's. If you will use it as directed it will always cure. For sale by all druggists."

# CONGREGATIONAL ANNUAL ASSOCIATION MEETING

The Congregational Ministerial Association of Washington and northern Idaho met with the Congregational church in Genesee Tuesday, Wednesday and Thursday of this week. About thirty ministers and delegates were in attendance and gathered themselves together in busy sessions and rousing services. Each meeting was preceded by a half hour praise or devotional service. Tuesday afternoon a preliminary organization was effected and in the evening the annual sermon was preached by Rev. G. R. Wallace and the Lord's Supper partaken of under the administration of Rev. W. H. Atcheson and Rev. A. L. Knudson.

Wednesday morning the preliminary organization was made permanent and Rev. G. R. Wallace elected moderator and Rev. John Prentiss, clerk. Reports of the year's work were received from the churches of the association. The association also received the reports of its standing committees and appointed its committees for the coming year. Upon the subject being presented by Rev. Samuel Green a proposition was made for a home missionary was discussed.

In the afternoon papers were presented on the Fellowship of the Churches by Rev. J. M. Williams, The Business Side of the Church, by G. S. Allen; The Present Day Worth of the Creed by Rev. C. Clarke and How to Build Up the Prayer Meeting, by Rev. A. R. Johnson. The subject of divorce in the association was also discussed. In the evening the church was crowded to hear sermons by Rev. W. W. Scudder, Jr., on The Religious Life of the Church and Rev. Austin Rice on Liberty in the Palpit and Pew.

Thursday morning the Missionary Outlook and the Sunday School were opened up to a visiting minister by Rev. W. W. Scudder and Rev. J. T. Percival. The doings of the Church Building Society and the need of a Congregational Propaganda were also made known.

In the afternoon Rev. J. H. Bainton presented the Demand of the Age on the Pulpit and Rev. J. A. Henry discussed whether or not Religion is degenerating into Scientism.

In the evening another crowded church listened to sermons by Rev. H. E. Mason on the Sphere of the Church and What the Community Owes the Church by Rev. J. D. Jones. The whole of the visiting delegates was generously entertained in the Congregational homes of the city. Both Wednesday and Thursday evenings a beautiful supper was served by some of the ladies in the church parlors.

On Friday morning the visiting ministers all departed carrying with them the helpful memory of one of the best and busiest association meetings in the last twenty-two years.

The list of ministers and delegates in attendance is as follows:  
H. M. Painter, of Atlanta; D. E. Vernon, of Chatteroy; C. F. Clarke, of Cheney; J. H. Bainton, of Colfax; John D. Jones, of Dayton; G. S. Allen, of Edicott; Mrs. Tice, Geo. Follitt, Mrs. J. E. Reed, W. C. Fowler, of Genesee; John H. Fryard; H. E. Mason, of Medical Lake; Mrs. L. E. Webster, Mrs. Anna W. Lancaster, of Pleasant Prairie; J. M. Williams, of Rosalia; Samuel Green, of Seattle; W. W. Scudder, of Seattle; J. A. Henry, of St. John; Geo. R. Wallace, Deacon Wilson Scott, Westminster church, Spokane; J. T. Percival, Plymouth church, Spokane; W. J. The interesting fact is brought out in the department of commerce bureau of statistics report for February that only about 13,000 bushels of domestic wheat were shipped from the Atlantic coast ports of the United States during that month. When it is mentioned that such ports as Portland, Me., Philadelphia, Boston and Newport News did not ship one bushel of American wheat abroad during that month and, that New York shipped only 13,005 bushels, some idea may be had of the extent to which wheat has sought new routes to Europe and the rest of the world. The Gulf ports of Galveston and New Orleans sent out 1,187,954 bushels, while the Pacific coast ports sent out 221,664 bushels. It may be said that justice is claimed that this condition is to some extent an abnormal one, and that with transportation and price conditions improved this state of affairs will be changed in the months to come; but that such a thing could happen at all is significant of the fact, often remarked upon in these columns, that the physical conditions affecting wheat transportation, as well as the geography of the case, favor the Gulf ports to an extent not fully appreciated in the east.—Bradstreet's.

FRIDAY, APRIL 8, 1904.

—Geo. W. Kays is here from Moscow.  
—Ray Pickering is home from Lewiston on a brief vacation.  
—Mrs. Walter Savage is a visitor in the city from Pullman.  
—Dr. E. R. Lemman and son left Tuesday morning for Spokane.  
—Dr. Smith has been making some noticeable improvements about his residence property this week—by proxy.  
—Gilbert Crawford was here from Troy Wednesday. With his family he informs us that he will again take up a residence in Pullman.

—We call the attention of horse owners to the stallion advertisements of Harry Stracher, John Trutman, U. G. Dickson and Sanford Evans in this issue.  
—In response to a message informing them of the serious illness of their father, Mattie and Teresa Walby came down from Spokane Friday, reaching here a few hours before his death.  
—Roy Hibbs returned the first of the week from Summit where he has been assisting his father in the handling of grain. He reports that the warehouse is empty, everything having been shipped out. Mr. Hibbs is expected down tomorrow.  
—Wesley Dorchester, accompanied by Mrs. Dorchester came out from the Salmon river country Sunday. He reports that stock in that section is looking excellent. The past winter was an exceptionally fine one for cattle and owners sustained practically no loss.  
—George Daggett has leased his residence to Harley Smith. For the present the two families will occupy the house jointly. During the coming month Mr. and Mrs. Daggett will leave on an extended trip east, expecting to be gone some five or six months.  
—O. M. Aaland, with his family, expects to leave Genesee during the coming week. Prior to coming here he purchased a farm near Volga, South Dakota, and he will now move to that place to take up a permanent residence. Miss Hannah Aaland will not accompany her people east but will remain here at least during the summer.  
—Dr. W. H. Ehlen took his departure yesterday morning for Chicago where he will take a two month's post graduate course in diseases of women and children at the Chicago Clinical school. He expects to return in June and during his absence his office will be closed. During the past fifteen years Dr. Ehlen has enjoyed a vacation of only six days and the two months that he will now part in at Chicago will be in the nature of a rest.

—Mrs. Harley Smith entertained a number of children last Saturday afternoon in honor of the ninth birthday anniversary of her little daughter Gretchen. The occasion was a very pleasant one and a number of beautiful presents were presented to Miss Smith. Refreshments of ice cream and cake was served. Following is the list of the names of the little tots who were in attendance: Ella Nebelsieck, Myrtle Swensen, Alta Burr, Gladice Larrabee, Winona Keller, Lilla Rogers, Hattie Driscoll, Alice Gibb, Mary Scroggin, Edith Wright, Mary Kengle, Eva Patterson, Blanch Edwards, Dottie Christianson, Harry Ball, Hubert Keller, Willie Mervyn.

—The interesting fact is brought out in the department of commerce bureau of statistics report for February that only about 13,000 bushels of domestic wheat were shipped from the Atlantic coast ports of the United States during that month. When it is mentioned that such ports as Portland, Me., Philadelphia, Boston and Newport News did not ship one bushel of American wheat abroad during that month and, that New York shipped only 13,005 bushels, some idea may be had of the extent to which wheat has sought new routes to Europe and the rest of the world. The Gulf ports of Galveston and New Orleans sent out 1,187,954 bushels, while the Pacific coast ports sent out 221,664 bushels. It may be said that justice is claimed that this condition is to some extent an abnormal one, and that with transportation and price conditions improved this state of affairs will be changed in the months to come; but that such a thing could happen at all is significant of the fact, often remarked upon in these columns, that the physical conditions affecting wheat transportation, as well as the geography of the case, favor the Gulf ports to an extent not fully appreciated in the east.—Bradstreet's.

—Miss Mattie Walby visited Moscow Tuesday.  
—Miss Lizzie Luhn left Tuesday for Moscow to remain indefinitely.  
—Miss Emma Nebelsieck was a visitor from Moscow over Sunday.  
—James Hanson and Frank Robinson transacted business in Moscow Tuesday.  
—The attendance at the home talent play to be given this evening at Elliot hall promises to be large.  
—Wm. Biram is erecting an addition 14x22 to his residence which is now occupied by Mr. and Mrs. Munroe.  
—Those having new ads. in this issue are: The Fair, H. A. Morgan, Bilger's Department Store, Madison Lumber Company.  
—S. W. Mathews, a brother of Mr. Fred Hampton, arrived here last week from Billmore, N. C., to remain permanently. He is delighted with Idaho.  
—The city council of Asotin has contracted to have installed upon their streets twelve 35-candle incandescent lights, wiring for the same to be commenced at once.  
—The petition circulated for a new rural route to run south and west from town has received about one hundred signatures. It is safe to say that the route will be established. Route number two when established out of this place was brought about by a petition when signed by only eighty-five.  
—John Loring has plans drawn for some very extensive improvements about his farm residence. When carried out they will represent an expenditure of about \$3000 and the Loring will have one of the finest homes in the country. The proposed additions to the present residence will be 16x28 and 16x22, two stories in height.  
—A meeting of the council was to have been held last evening to hear and consider objections to the assessment roll for the macadamizing of Special Improvement District No. 2. Up to the time of going to press no protests had been filed against the roll of the town. The railroad company was represented by an attorney the latter part of the week.  
—Following the Lutheran church services at the Chapel Monday of this week, the entire congregation went out to the O. M. Aaland home and perpetrated a surprise upon Mr. Aaland. T. E. Miller and members of his family furnished music for the occasion. A jolly good time is reported to have been had. It was late in the evening before the guests departed for their several homes.  
—That the much talked of railroad to Big Creek by way of Warren is to become a reality is now a settled fact, says the United States Mining Journal. The Pacific & Idaho Northern, which operates between Weiser and Council, is to be extended from the latter point on to Meadows and Warren, and from there on to Big Creek it will be continued as a narrow gauge. Its construction will be effected at a cost of about six thousand dollars per mile, and as much of the road bed is already graded between Council and Meadows, it is probable that the line can be finished as far as Warren before the close of the present year. These facts were learned by a representative of the journal in an interview during the past month with Lewis A. Hall, the builder of the P. & I. N. railway from Weiser to Council, and practically the sole owner of that line at the present time.  
—If the next legislature of the state of Idaho would place a bounty on cougar payable from the fund received from the sale of hunters' licenses large enough to encourage hunters to go after the game destroyer, it would be highly satisfactory to the sportsmen in general. It is said by hunters that a full grown cougar will kill on an average over one deer per week and it is safe to say that cougars kill more deer than all the hunters. If a bounty was placed on cougar and they were exterminated they could change more for a hunter's license and allow each take four instead of two. A law should be enacted creating a prospectors' hunting license and a reasonable charge made therefor, which license would be good in any county in the state. We think that some changes as suggested would in a great manner tend to protect the game in the state of Idaho.—Grangeville Free Press.

Serious Stomach Trouble Cured.

—A. H. Jarnagin, an uncle of Mrs. Sutton, visited here from Pullman the fore part of the week.  
—W. M. Thompson informs us that he will appeal his "hay case," mention of which was made in these columns last week.  
—Miss Skinner and Mr. and Miss Keller, of Lewiston, were here this week. We understand that the two ladies made application for positions in our schools.  
—Several from this place expect to accompany the Genesee Dramatic club to Uniontown tomorrow evening where they will repeat the play that is to be given at Elliot hall to-night.  
—Sheriff Keane was here from Moscow Wednesday posting notices of sale in the case of Genesee Exchange Bank vs. Holland & Warren, the property to be sold April 14, consisting of three wheel scrapers.  
—Mrs. Heppner and son, mother and brother of Mrs. Chris Steltz, reached here Saturday last week from Wilmot, S. D., to remain permanently. Mr. Heppner has a portion of the Dickson ranch leased where they will make their home.  
—Mr. and Mrs. R. T. Platt left yesterday morning for Spokane where they will remain for some time. Mrs. Platt will take treatment and it may be necessary for her to undergo an operation. Should an operation be necessary the children will all go to Spokane to be present at the time.  
—Casper Stacy, the aged uncle of Mrs. W. L. Biram, died Wednesday afternoon of this week at the Biram home in this city. On account of old age he had for some time been in a helpless condition. He was born in Switzerland and at the time of his death was 80 years old. He was buried in the Old Fellows cemetery yesterday afternoon, the services being conducted at the residence by Rev. W. C. Fowler. Mr. Stacy was one of the first settlers of Genesee having come here when the town was started, and for some time made his home with Mr. and Mrs. A. S. Martin. During the past ten or more years he has made his home with the Biram people, who, in his old age, gave him every care.

—Assessor Langdon began the work of assessing the town Monday, expecting to complete the work before the close of the week.  
—R. R. Gray returned Tuesday from his trip to Portland. He reports that his son will have sufficiently recovered from his recent illness as to be able to again resume his studies at the business college.  
—F. E. Dios has bargained for the purchase of the two lots adjoining the Burck property and across the street from the G. N. Hollister residence, and expects soon to begin the erection of a handsome residence of about nine rooms.  
—Mrs. George Hunter visited Pullman Saturday. While hurrying to catch the train prior to his leaving Pullman on the return Saturday, she was taken suddenly ill. She was sufficiently improved by Monday as to be able to return home, Mr. Hunter going down after her.  
—John Halverson has returned from Kennewick, Wash., and while there invested in 43 acres of land on the big ditch two and a half miles from the town. He made the investment expecting at some time in the future of making it his permanent home. Ernest and Lenus Peterson who accompanied him also invested in a 13 acre tract.  
—James Malloy while enroute to town Sunday, dressed in his very best, met with a distressing accident. He was riding a saddle horse along the grade near the Halverson farm when a large chunk of earth slid into the deep water below, carrying horse and rider with it. After getting back to terra firma James re-olved to postpone attending faster services for at least a year and returned home.  
—Within a week or ten days a new general merchandise store will be opened in Genesee by M. K. Bue & Co., in the Jain building adjoining the post office on which a three year lease has been secured. M. K. Bue, who will have personal charge of the store, reached here several days ago from Lilly, South Dakota, and became so favorably impressed with Genesee and the surrounding country that he was not long in making up his mind to become a permanent fixture of the town. The store room is fast being placed in condition to receive the goods, a portion of which are now here. Mr. Bue is a single man and has had considerable experience in the mercantile business.

## THE GENESSEE NEWS.

ENTERED AT THE POST OFFICE AT GENESSEE AS SECOND-CLASS MAIL MATTER.

CHAS. POWERS, PUBLISHER.

Subscription price, strictly in advance, \$1.50.

—George McMahon is home from the Salmon river.

—LeRue Tice will ship a car of potatoes tomorrow.

—Arthur Scroggin is enclosing a good portion of one of his ranches with a hog tight fence.

—M. J. Chapman, representing the Bankers Mutual Insurance Company, has been here from Pullman this week.

—Lapwai Creek has been out of its banks this week and all trains on the Culeidac branch of the Northern Pacific have been held up. Some damage has been done to property. The Snake and Clearwater rivers are also reported to be rapidly rising.

—Farmers are jubilant over the prospects of a bumper yield of wheat this season. Fall sown wheat never looked better and the acreage has been materially increased this year. In the arid sections it is also claimed that the prospects for a large yield are excellent.

—Miss Lulu French, who has been a teacher in our schools for the past four or five years, has accepted a place in the schools of Coeur d'Alene for the coming year. Miss French has given excellent satisfaction as a teacher here and the patrons of the schools are numerous friends regret to see her leave.

—A jury in the district court at Lewiston Tuesday returned a verdict of not guilty in the case of Eli Hickman, of Spalding, charged with grand larceny of several head of cattle from Joe Zeiver. The contention of the defense was that the cattle in question were purchased from McGrath brothers of Culeidac and checks were introduced in evidence to show the payment made.

—The democratic state central committee is now in session at Boise. It is predicted that Boise will secure the nominating convention and that the convention for nominating delegates to the national convention will probably be held at Coeur d'Alene or Lewiston. It is not likely that a presidential candidate will be endorsed although Henry Heitfield is endeavoring to secure an endorsement of Hearst. The Mormon question is a bone of contention and it is claimed that the anti-Mormon wing, headed by Senator Dubois' followers, are in the majority. Chairman Donnelly predicts a harmonious session.

—In 1902 the city council passed an ordinance known as the "Park street ordinance." A number have taken advantage of the same yet there are many others who are not aware that such an ordinance exists. The ordinance provides that on all streets lying north of and parallel to Walnut street and also on all streets lying north of and at right angles to the said Walnut street, there is reserved and set aside a strip of land fifteen feet wide in front of the lots abutting or contiguous to such streets on each side thereof. The object of the ordinance is for the establishing of park boulevards, and trees may be planted at the extreme outer edge of the reserved strip. It is also permissible to fill the space between the outer line and sidewalk to a depth of eight inches above the street level for the planting of grass and shrubs. A penalty is provided for the interfering with the trees, grass or shrubs so planted.

—A meeting of the directors of the Genesee Telephone company was held Wednesday night and it was decided to at once begin the extension of the line to the country. Wire enough for the construction of 34 miles has been received, also two car loads of poles. The first strip of country to be covered will be west from town to reach out as far as the Henry Herman ranch, then north to Jim Nelson's.

—Mina and Paula Schele, who about a month ago compromised their claim against the estate of Ole O. Svell, deceased, by signing an agreement to accept \$700 each additional to what they were given under the will, have filed proceedings to set aside the settlement in order to again prosecute their claim to the entire estate. S. Knudson of Nez Perce has signified his intention to also claim the estate for one of his daughters, to whom he says Svell years ago promised to leave his property.

## NEW TEACHERS HIRED.

At a meeting of the school board held Wednesday evening, with but one exception the teachers for the coming year were hired. The following members of the board were present and all business transacted was by a unanimous vote: George Mochel, Paul Cann, R. H. Russell and Herman Nebelsieck.

For the coming year two additional teachers will be employed, one to act as assistant to the principal, the other to assume charge of the second primary department. To accommodate the increased attendance of the schools the board will, during the summer vacation, erect a two-room addition to the school building.

The following teachers were employed: Hartzell Cobbs, principal; Miss Blanch Sheldon, assistant to principal; Robert Emmert, of Lewiston, 7th, 8th and 9th grades; Miss Matilda Gerhardt, Pomeroy, (not assigned); Miss Cora Randall, Lewiston, (not assigned); Miss Maude Burdick, primary; Miss Grace Kelsey, second primary.

Salaries were fixed as follows: Professor Cobbs will receive \$92.50 per month; Robert Emmert, Miss Burdick and Miss Sheldon \$60 each, and Miss Gerhardt, Miss Randall and Miss Kelsey \$50. All of the new teachers are graduates of the Lewiston Normal school. Miss French, Mrs. Cool and Mrs. Spurbeck, who are at present teachers in the schools, were not applicants for reappointment by the board.

FRIDAY, APRIL 15, 1904.

—James K. Bell has a handsome new delivery wagon.

—Potatoes are now bringing 80c on the local market for shipment.

—Attorney H. R. Smith was here from Moscow on legal business Saturday.

—C. E. Hibbs, after a visit of several days at home, returned to Sunnuit Wednesday.

—Methodist church: Services Sunday at usual hours. All are cordially invited to attend all services.

—Read the new ads. of J. K. Bell, Meyer Bros., F. E. Dicus, The Bee Hive, Follett Bros., W. J. Herman, Larrabee Co., Madison Lumber Co.

—Miss Edna DeBow, a former resident of this place, was a visitor in the city Friday from Lewiston. She was an applicant for a position in our schools.

—Nellie M. Glover and husband have decided to U. G. Dickson for a North Addition to Genesee. Mr. and Mrs. Glover will continue to occupy the same.

—All signs fail in the Palouse country. Easter Sunday this section was visited by a heavy rain and according to the old adage it should rain for seven Sundays but Sunday of this week was as dry as a whetstone.

—W. E. Smith, the Northern Pacific agent at this place, has purchased the Genesee Exchange Bank building in Lewiston and is considering the same for a first-class repair and occupy it with his family.

—Gustave Roseau, a son of William Roseau, arrived here the latter part of the week from Blue Earth, Minn., to look after the interests of his father. The son, will until such time as the father can dispose of his interests in Minnesota, look after the half section of land purchased here last year.

—Win. Smolt has been making extensive improvements about his place of business this week. The partition separating the two rooms has been moved back. The interior is being repapered and painted and when completed will present a fine appearance. Mr. Smolt expects to install his new soda fountain within a few days.

—The state board of pardons have commuted the sentence of George Levy to life imprisonment. Levy was to have been hung today for the murder of Davis Levy in October, 1901. Evidence has come to light of late which made it possible for another to have committed the crime and it was this that influenced the board in commuting the sentence.

—The season of the year for a general cleaning up of premises is at hand and nearly all are disposing of the old rubbish. With the city water system to be completed by July 1 residents of the city can now in safety plan on keeping lawns green throughout the entire summer. Genesee is today the best kept town in the Palouse country and with light water system installed competitors can be easily distinguished.

—At a special meeting of the council held Thursday evening of last week it was ordered to at once advertise for bids for the macadamizing of Chestnut street from the eastern city limits to a point west of the J. J. Owen residence. The official notice appears elsewhere in this issue. Bids will be opened on the 28th inst. Against the proposed work the Northern Pacific railway company presented a protest the substance of the same being that the proposed assessment against their property will be greater than the benefits derived therefrom.

—C. E. Daves is here from Lewiston to superintend the drilling of the well for the city water works system. A large well drilling outfit was received this week from St. Louis and is now in position on the city lots near the depot. As soon as some necessary parts of the excellent work commenced. The machinery will be propelled by a gasoline engine. Mr. Daves informs us that Naylor & Norlin, the contractors, expect to begin the work of trenching and laying of mains within a few days.

—Why not have ice cream Sunday? LeRue Tice delivers ice Sunday morning. Order Saturday.

—We are here to stay, and don't you forget it.

V. F. Snyder and John Hudson visited Pullman between trains Sunday.

G. N. Hollister transacted business at Lewiston the latter part of the week.

A census bulletin just issued at Washington estimates the population of Idaho in 1903 at 183,738.

The big road grader was put to work on the lower street Tuesday and the street has been very much improved in consequence.

By a vote of 8 to 3, the house committee on irrigation of arid lands defeated the bill to repeal the desert land laws. The vote was taken after protracted hearings.

The passenger train enroute to Spokane from Lewiston Sunday was wrecked at a point about two miles northeast of Moscow. A timber had been placed upon the track which caused the derailing of the engine and express car while the train was running at the rate of thirty miles an hour. No one was injured.

Aside from the generous display of charming summer gowns, which the Standard Patterns supply in May Designer, and in which graduating and commencement costumes are given prominence, there is a special article on "Summer Array for the Wee Ones," in which small girls and boys are pictured in garb at once practical and becoming; and another on "Falls and Fallows," suggesting arrangement of the airy robes which now decorate feminine sleeves and jackets. All the regular departments of the magazine are filled with timely, interesting and practical topics.

Before an immense audience of 12,000 Mormons in the tabernacle at Salt Lake last week, a statement of the signature of President Joseph Smith was read prohibiting plural marriages under the pain of excommunication. Upon a resolution by Apostle Lyman the manifesto was unanimously endorsed by a rising vote of the people. After reciting that there had been no marriages since the manifesto to the knowledge of the church, the second manifesto says: "I hereby announce all such marriages prohibited, and if any officer or member of the church shall assume to solemnize, or enter into any such marriage, he will be deemed in transgression against the church and will be liable to be dealt with according to the rules and regulations thereof and be liable to excommunication therefrom."

A Lewiston correspondent states that an effort will be made while the county commissioners are in session this week to secure an appropriation of \$500 for the permanent improvement of the Lewiston-Uniontown grade. This is the five mile road up the hill lying across Clearwater, north of Lewiston, and is in constant use by all the people of the Genesee country visiting Lewiston. In five miles the road descends over 2000 feet, the drive being through beautiful scenery. During the past six weeks Road Supervisor James Verney and a small party of men have been at work on this road, and a great deal has been done to make it more passable. The road supervisor believes that the road should be further improved by ditching above the roadway on the hillside and by draining the road with drain pipes. The grade can be reduced in some places, making it materially better.

Why do I go to the Humbird yard for my lumber? Because I can save money.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all these conditions. There is nothing so good for coughs and colds incident to childhood. For sale by all druggists.

A Thoughtful Man. M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was fully cured. Only 25c at F. E. Dicus & Co's. drug store.

REPUBLICAN PRIMARIES.

By the authority of the republican county central committee of Latah county, state of Idaho, and in accordance with their action, notice is hereby given that said committee has called the county convention for said county to meet at Moscow, Idaho, May 10, at 10 o'clock a. m. to elect delegates to the republican state convention to be held at Boise, Idaho, June 1, 1904, and for the purpose of electing delegates to the republican national convention to be held June 21, 1904.

The opportunity of delegates to said county convention from the several precincts is as follows: Mt. Moscow, 2; Thorn Creek, 2; Bear Creek, 2; Little Potlatch, 2; Four Mile, 2; Wolf Creek, 2; Pine Creek, 2; Total, 14.

Judge Parker of New York is far in the lead of democratic presidential candidates with members of congress. But his chance of leading them to victory may be said to be small.

Harry Thompson, who was tried at Lewiston for the murder of Stewart Luper on the reservation last winter, was found guilty of manslaughter. Many of Luper's relatives live at Colton at which place he was buried.

O. L. Larson and M. K. Bue, both residents of this city, have shipped the dry goods, groceries, etc., formerly of the Bee Hive Store to Genesee where they will open up for business in a week or so. Mr. Bue will look after the interests of the firm at the new location.—Moscow Journal.

The report of H. W. Weber for the district gives some interesting data relative to the fruit industry of this section. While the San Jose scale is to a certain extent prevalent, it is not noticed in the vineyards, but the owners are willing to do all in their power to eradicate these diseases, meeting the inspectors more than half way. Spraying has been general and it is hoped to have the scale under subjection e'er long; the apples too on the lowlands are being to a large extent dug up, not being as productive as elsewhere and are being replaced by cherries.—Kendrick Gazette.

In response to a request from Superintendent W. R. Riders, of the Pocatello public schools, Attorney General Bagley handed down an opinion last week in which he holds that no religious exercises can be held in the public schools of the state and that teachers are not permitted under the law to even read the bible in the schools. The opinion, which is quite lengthy, quotes from the decisions of different courts to show that the bible is regarded as a sectarian book although all denominations take their doctrines from some portion of it. The opinion in closing holds: "All religious exercises in the public schools are prohibited by law. Bible reading is not permitted in the public schools. Teachers are not permitted to offer sectarian or denominational prayers in school or to require pupils to do so. The singing of all sectarian and denominational songs is prohibited." The request was based on the statement that Mormonism is being taught in some of the schools in southeastern Idaho. The attorney general is a Mormon.

LARGEST FISH HATCHERY IN THE WORLD.

The following interesting data is given by the Weiser Signal regarding the fish hatchery located on the Snake river on the Idaho-Oregon boundary line: The largest fish hatchery in the world is located at Ontario, Oregon. It is now turning out the first batch of young salmon that in four years will reappear in the lower Columbia river and be caught. The state of Oregon owns and operates the largest fish hatchery in the world. It is located at Ontario, Malheur county on the Snake river and is now turning out its first batch of young salmon. About 25,000,000 young Royal Chinook salmon, or sixteen times as many as are annually caught in the Columbia river, will be turned loose at Ontario this spring. The fish are now scarcely more than an inch long and they will go down the Snake and Columbia rivers and out into the Pacific ocean, where they will grow to maturity. Four or five years hence many of them will return weighing on an average of 30 pounds each and worth to the fishermen 5 cents a pound. If only one out of every 20 returns the hatchery will more than keep up the supply of salmon. Recently the state fish commissioner, accompanied by Governor Chamberlain, Secretary of State Dummer and State Treasurer Moore, went to Ontario to make an inspection of this important institution. They were accompanied by Master Fish Warden H. G. Van Dusen and one or two others. They found the hatchery plant in excellent working condition and were each gratified to learn that the first season's operations had proven the wisdom of the selection of that site for a hatchery. The eggs taken at Ontario are from the best specimens of Royal Chinook salmon, thus increasing the number of fish that make the best canned product. The reputation of Columbia river salmon, already the best in the world, will be further strengthened by this artificial propagation of the best variety. The site at Ontario has the advantage of never failing water supply and distance from the ocean. The fish that ascend the river farthest are the ones that come into the river earliest and have flesh of the best flavor. At the recent visit to the Oregon hatchery it was decided to make extensive improvements. About May 1st contract will be let for the construction of a bank house 16x30, a new barn 30x30, an addition to the superintendent's residence and the hatchery

building will be painted inside and out, white and green, Superintendent Brown's colors. The bank of Snake river will also be riprapped. Since April 1st Superintendent Brown has been depositing between 350,000 and 300,000 young salmon in the river daily and it is thought the last batch will be disposed of between May 1st and 10th.

YOUNG LADY WELL KNOWN IN GENEESEE FIGURES IN LEWISTON SENSATION.

Lewiston, Idaho, April 13.—R. C. Bruce, a young farmer from near Pomeroy, Wash., was fined \$11 for carrying concealed weapons today and was paid his fine, "behind his arrested conviction is a story of disappointed love."

According to Bruce, his arrest was made on complaint of Miss May E. Skinner, to whom he was engaged to be married. Bruce says he came from Pomeroy Monday to fulfil this engagement. On arrival he could not see Miss Skinner until this afternoon, when they met on Main street. While talking with her, asking an explanation, he was taken in charge by the police. Bruce claims the police say they had been asked to arrest him for threatening to shoot Miss Skinner. He denies ever having threatened her.

"I have been engaged to May," said Bruce, "two years last February, when they met on Main street. During that past winter, while she was teaching at Pomeroy, I visited her. It was then decided the marriage should occur as soon as her school closed. I had a letter from her two weeks ago in which she said everything was all right. While in Genesee I gave her \$23. I have besides given her a number of valuable presents. Today when I met May I asked for an explanation of her conduct and wanted her to give me back my presents and money."

Miss Skinner could not be seen. Her father, ex-Mayor Skinner, while deploring unwelcome publicity, briefly stated that his daughter had never been engaged to marry Bruce, though he called on her at Genesee last winter and exhibited a pistol in a threatening way and demanded a promise of marriage. She had apparently acquiesced, but had since written Bruce that she would not fulfil this promise given under tacit threats. Mr. Skinner said: "The acquaintance of the young people has never been intimate, and Bruce has never been to our house. Until recently I have never heard of Bruce, and was greatly surprised when he informed me that he desired to marry May."

Miss Skinner taught the last two terms of school in the Jain district, and was an applicant for a position in our city schools.

IDAHO PRESS ASSOCIATION MEETS IN ST. LOUIS.

The Idaho State Press Association are planning to visit the St. Louis exposition early in May. The party will leave Boise on the 11th and will travel east via the O. S. L. D. & R. G., and the Chicago & Alton and will spend two weeks in the exposition city. They will be tendered a banquet at Salt Lake and another at the Idaho building at the exposition grounds.

The following program will be carried out: Opening Remarks—M. S. Parker, secretary, Acme Printing house, Boise. Address of Welcome—David R. Francis, president of the exposition, St. Louis. Response—H. C. Shaver, president, Star, Moscow. "The Press of Idaho."—W. D. Smith, Mirror, Moscow. Recitation—J. D. Flenner, Bulletin, Boise. Address, "Women in Idaho Journalism."—Miss Mabel Payne, Herald, Mountain Home. Address, "Our State"—S. D. Taylor, Herald, Bonner's Ferry. At this meeting plans for seeing the fair will be outlined and it will be so arranged that the members can make the best of the short time they have at the fair.

THINGS NEED FIXING.

Yes they do, and need fixing badly, is plainly evident on a great many farms and premises this year, and the longer it is put off, the more it will cost you. Why not make out a list right now of what you need to put things in shape again, and let us tell you not how much but how little it will cost you. We can make you some astonishingly low figures on anything you might need and as to the quality of our stock, it is without question the finest in this part of the country. Coal, wood and fence posts always on hand.

—Reed Klapp and George McMahon were in Lewiston on business Monday.

—Con Steltz this week disposed of his fat cattle to Lewiston parties at \$3.75.

—The Jain barber shop front has been beautified by a fresh coat of paint.

—J. F. Brazier and G. F. Brazier, brothers, arrived here Tuesday from Motley, Minnesota, to look over this section with a view of locating.

—Harry Phipps made his weekly trip to Uniontown Sunday. He has decided that the bicycle season has not yet opened and that hereafter he will use the more reliable method of travel—via the N. P.

—Senator Burton, of Kansas, has received a sentence of six months imprisonment and a fine of \$5,500 for violating the law denying congressmen the right to receive money for the use of political influence to further his private interests.

—The three year old child of Mr. and Mrs. McGrew, well known to the people of this community, was drowned in the old millrace at Walla Walla last Saturday afternoon.

The McGrew home is near the millrace and the child had been playing around it. The body was recovered shortly after drowning.

—The Men's Club will meet next Wednesday evening in the Congregational church. Banquet at 6:30 is the business. The lecture at 8 o'clock will be by Prof. Helme, on "The Medieval Monastery and Palace." The lecture will be illustrated by stereopticon views. The public is cordially invited to the lecture.

—Ten years ago, an exchange says, a farmer put an X mark on a silver dollar and went to town and spent it with the merchant. Before the year was out he got the marked dollar back again for poultry and spent it again with the village merchant. Four times in six years that dollar came home to him for produce, and three times he heard of it in the pockets of his neighbors. The time he got it it changed three years ago, he sent it to a mail order house that has amassed millions of dollars selling third-rate stuff. He has never seen that dollar since. That dollar will never pay any more road or school tax for him, never help to build up the town or county, never bless and brighten the homes of his neighbors. He sent it entirely out of the circle of usefulness to him.

—Tentative arrangements have been completed for the ceremony at Washington incident to the opening of the Louisiana Purchase exposition. It has been decided that the ceremony should take place in the east room of the white house at 1 o'clock on Saturday, April 30. The justices of the supreme court, the members of the diplomatic corps, the president pro tem of the senate and the speaker of the house, together with a few other guests, will be invited to be present. A special telegraph loop will be run into the east room, affording a direct wire with the exposition grounds at St. Louis. Promptly at 1 o'clock President Roosevelt will press the key that will start the fair. He then will exchange congratulatory messages with President Francis.

—The merger decision has made it necessary to distribute the Northern Securities Co's stock and the conditions are now such that the Harriman people of the Union Pacific are making desperate efforts to get control of the Northern Pacific. It would be a good thing for the northwest if there would be no lack of competition between the two great systems involved in the merger.

—A number of the members of the Swiss colony who arrived in Lewiston on the delayed train early Sunday morning remained in Lewiston until Monday afternoon. The other members of the colony left Sunday morning for Greer, where they were joined last evening by the Lewiston contingent. The party will go to the Weippe section of south Shoshone county, and as an investigation of that section was made by agents of the colony some time ago there is now little doubt but that they will locate there. The colony comprises a well-to-do class, who have been successful in the occupation of diversified farming, and these pursuits they will follow in Idaho.—Tribune.

—We are expecting in a few days a new line of street and trimmed hats of the latest summer styles, ranging in prices from \$1.25 up.

—We have just received a nice lot of children's hats and caps, and baby bonnets. Also new flowers, chiffons and trimmings of all kinds.

—Children's leghorn hats 35c and up. Cuban flats 50c and up.

—Pay us a visit. We are sure we can please you.

### WASHINGTON LETTER.

From our own correspondent.

The greatest handicap a representative has to overcome in the shyness of his term. With only two votes to serve the new member has no chance to make a record. He is scarcely time to fit himself in a seat, and certainly no opportunity to gain experience or impress himself upon his hundreds of colleagues, before he is in the throes of another campaign. He is at the last of the committee assignments and finds the legislative organization controlled by a few old members who very early impress upon him the fact that so far as he is concerned "silence is golden." He leaves his home state flabbed with the adulation of his people and confident that he will immediately impress his individuality upon the house. Arrived here he discovers an obscure niche provided for him and he is indeed lucky if he escapes being more than a mere cipher or a small unit in the large organization. The new members who by their natural ability and aptness in the legislative work rise in their first term above the low plane custom and precedent have established for them, are rare, and states fortunate enough to be represented by such men owe it to their citizens to see that they are returned. The new member from Idaho found a niche prepared for him, but proved too big for it. He made a larger place for himself and today is almost as far advanced as members who are serving their second term. This is said without desire to laud unduly the work he has performed thus early in his career. It is to be hoped that his party is thoroughly cognizant of the value of his efforts and will express its appreciation by returning him for another term.

Senator Heyburn is in receipt of letters from physicians all over the United States endorsing his attitude on the pure food bill and pledging him their cooperation and assistance if necessary toward securing its consideration at this session of congress.

RESOLUTIONS.

Whereas, it has passed Divine Providence to remove from our midst, the wife of our brother and friend, W. C. Owen; and, whereas, she was a good friend, wife and mother and a loss to the community.

Therefore, be it resolved by the members of Star Lodge, No. 5, Knights of Pythias, that resolutions of respect and deepest sympathy be tendered to our brother in his great affliction.

And, be it further resolved, that a copy of said resolutions be placed upon the minutes of our lodge. Also that a copy be sent to our beloved brother and his family, and that one be sent to the Genesee News for publication.

### FRIDAY, APRIL 22, 1904.

—Miss Hattie Prather returned Sunday from Oksdale.

—Mrs. Emma Shirrod was a visitor from Uniontown Friday last.

—Fay Pickering returned to Lewiston Friday last.

—Fred Miller arrived home Saturday from Clearwater where he has been teaching school.

—Mabel Reed left Monday for Troy near which place she will teach a three months term of school.

—Rev. Fr. Faust, of Uniontown, and Rev. Fr. Keyzer, of this place, exchanged pulpits Sunday.

—N. K. Bue, of Lilly, S. D., a brother of M. K. Bue of this place, arrived here Monday to remain a few days visiting his brother.

—The base ball season has opened in the east and a number of the national league teams played their first games this week.

—The exposition hall in Philadelphia, in which the last republican national convention was held, collapsed Friday of last week burying several workmen.

—Oscar Larson, of Troy, who is associated with Mr. Bue in the new store at this place, was here the latter part of the week assisting in the arranging of the goods.

—A. E. Herrin arrived here from Newton, Kansas, the latter part of last week, and will act as engineer for the well drilling machine that will be put in operation in a few days.

—Will Gray and Mark Rosenstein returned home Monday from Portland where they have been attending business college. The boys were unfortunate in missing the train at Pullman and continued the trip to this place by driving.

—Tuesday W. M. Thompson became the possessor of the D. Spruce ranch of 160 acres two miles east of town, having purchased the same from Mr. Spruce at a consideration of \$40 per acre. This is one of the best ranches near Genesee.

—Wm. Hurd, a brick mason and prominent socialist of Astoria, committed suicide at Clarkston Friday of last week by shooting himself through the head. No reason is assigned for the rash deed, as the man was in good financial circumstances.

—The preparatory department of the University of Idaho won the annual debate with the Blair Business college at Moscow last Friday evening. The question debated was that the right of Russia to seize Manchuria, Blair college taking the defense of the Russians. The decision of the judges was unanimous.

—It is evident that Marshal Driscoll set a pace a few weeks ago that has resulted in a decided change in the appearance of the "philistines" or others of our prominent citizens. On Saturday from Detroit in a few weeks, and it is thought with the material now gathered a team can be organized.

—Naylor & Norlin, the contractors for the water-works system, were in the city Wednesday figuring on entering a bid for the macadamizing of Chestnut street. They inform us that the material for the water-works plant is on the way and work will begin upon its arrival.

—Work on the telephone line into the country has been in progress the past few days and there has been four miles of line constructed. With the continuation of favorable weather the company expects to begin the installing of new 'phones within another week.

—Hulda Tiele, a relative of the Meyer people of this place, died Tuesday at Cornwall. Deceased was formerly a resident of Genesee.

Funeral services were held Wednesday, Rev. Eyrich officiating. A number from here were in attendance at the funeral.

—Hans Bugge celebrated his thirty-sixth birthday Tuesday evening with a stag party. Whist and solo were indulged in to a late hour. Those present were: Messrs. T. Driscoll, F. C. Marquardsen, F. K. Bressler, W. E. Smith, Dr. H. J. Smith, H. A. Thatcher, Dr. J. L. Conant, Jr., C. F. Burr.

—A very pleasant surprise was given Miss Gladys Newsom and Miss Clara Hobson Tuesday evening, when a merry little party of their friends stepped into their home and took possession for a few hours. Progressive freshments was the main feature of the evening. The party consisted of Misses Edna Borg, Lizzie Sundholm, Lulu Brennan, Kate Kennedy, Mae Keane, Belle Brant, Mollie Keane, Messrs. James Mullaly, Tom Keane, Will Herman, Reed Klapp, Rodney Olney, George McMahon, Ralph Brooks, George E. Hobson.

### OBITUARY.

Emma Hagen was born at Manitowish, Wisconsin, September 22, 1816. At the age of five she removed with her parents to Northville, Minn., where she remained until the year 1828 when she with her parents moved to Spokane. In 1829 she was married to Wallie Owen at that place, where they resided until 1894 when they came to Genesee which has since been their home. Mrs. Owen's death occurred April 10, at Richmond, Calif., at the residence of A. N. Hill, formerly of Genesee. The remains were shipped to Reardan, Wash., at which place interment was made Friday of last week. To mourn her early death she leaves a husband and three small children, besides a large circle of relatives and friends.

The sympathy of this community goes out to the sorrowing ones in their sad bereavement.

Mr. Owen and the children returned Tuesday from Spokane and he has again taken up his work as messenger on the local train. He informs us that he will remain here permanently, keeping his children with him.

In speaking of their trip Mr. Owen stated that Mrs. Owen stood the trip well from this place to San Francisco, and really seemed to improve and enjoyed it until Saturday, the 9th inst., when she began to rapidly fail and death came early Sunday morning to release her from her sufferings.

Through the Naws Mr. Owen desires to thank the Hill family for their kind efforts in behalf of his wife during their stay at Richmond, the Wells Fargo and Northern Pacific Express companies for the free transportation of the remains to Reardan, and the local train crew and all other friends at this place for the kindness and sympathy accorded her and his children, which will never be forgotten by him.

—Tin, which is mined with profit in but few places in the United States, will be exhibited in the Idaho section of the mines and metallurgy building at the world's fair. Large deposits have been recently discovered near Salmon City.

—A. W. Conway is at present harvesting an 80 acre crop of potatoes which were planted early last fall. The yield is quite large and good prices will be realized. The washout on the Caledonia railroad will necessitate the hauling of the crop to Lapwai for shipment.

—A number of our residents have made their annual spring clean-up about their premises. It is the desire of the city officials, especially the board of health, that all who have not moved rubbish from the alleys and other parts of their premises attend to the matter at once.

—The dam at the Dewey mine six miles east of Grangeville was washed out the latter part of last week and workmen are now out of employment awaiting reconstruction of the same.

The mine is owned largely by Seattle capitalists but some stock is owned by Genesee. The remains were shipped to Reardan, Wash., at which place interment was made Friday of last week. To mourn her early death she leaves a husband and three small children, besides a large circle of relatives and friends.

The sympathy of this community goes out to the sorrowing ones in their sad bereavement.

### LEWISTON GETS CONVENTION.

Lewiston and Weiser Chosen as Places to Hold Democratic State Conventions.

The democratic state committee closed its session at Boise last week. Lewiston gets the convention for the purpose of eliminating the test oath provision met with signal defeat. The convention to be held at Weiser will be on June 6.

Senator Dubois' plan to have the committee go on record in opposition to the proposed constitutional convention desired by the Mormons for the purpose of eliminating the test oath provision met with signal defeat. The opposition headed by Mayor Hawley of Lewiston, and ex-Governor Stuenkel, forced the adjournment just as the letter from Senator Dubois urging the action outlined was about to be presented. There were several Mormons present and those who stood with them did not conceal their pleasure at the outcome of the initial attempt.

The committee on apportionment reported that they believed the proper basis of apportionment of delegates from the several counties to the state convention to be on the average vote cast for the candidates upon the state ticket at the last general election. They reported that they believed the party interest would be best served by conventions attended by a larger number of delegates than usually have been allowed for each 100 votes cast or major fraction thereof cast at the last general election in the several counties of the state after averaging the votes of the candidates on the state ticket.

The report was adopted together with the following apportionment: Ada 22, Bear Lake 12, Bannock 17, Blaine 17, Boise 10, Blaine 12, Custer 8, Canyon 14, Fremont 10, Cassia 7, Latah 15, Elmore 7, Lincoln 5, Idaho 20, Oneida 15, Kootenai 18, Shoshone 23, Lemhi 9, Nez Perce 20, Owyhee 9, Washington 14. Total 293.

The vote on the place for holding the nominating convention was Lewiston, 27; Boise, 22; Weiser was selected over Coeur d'Alene City as the place for holding the next delegate convention by a practically unanimous vote.

After adjournment the members were besieged for inside information regarding the preference for presidential candidates. It was learned that the Hearst and Parker men joined hands in support or opposition to the Mormon resolution so the document cannot be said to have any significance with reference to the presidential preference of the members.

The letter of Senator Dubois which did not get a reading before the committee was a detailed exposition of the Mormon question as it counts the people of the United States generally and Idaho particularly, but does not contain anything not already known to the public.

REPUBLICAN PRIMARIES. By the authority of the republican central committee of Latah county, Idaho, and in accordance with their action, notice is hereby given that said committee has set for the purpose of electing delegates to the republican national convention to be held June 6, 1904, at Lewiston, Idaho, the following names as candidates for the several precincts:

Thors Creek..... E. M. McCow  
Bear Creek..... E. M. McCow  
Little Potlatch..... E. M. McCow  
Gold Creek..... E. M. McCow  
Four Mile..... E. M. McCow  
Corwell..... E. M. McCow  
N. Troy..... E. M. McCow  
Pie Creek..... E. M. McCow

The primaries for the election of such delegates shall be held in each voting precinct of the county on the 15th day of May, at 10 o'clock a. m., and continue until 5 p. m., and in the city or town of Lewiston on the 15th day of May, at 10 o'clock a. m., and continue until 7 o'clock p. m., and at Moscow on the 15th day of May, at 10 o'clock a. m., and continue until 7 o'clock p. m.

### U. G. Dickson transacted business at Pullman Saturday.

Miss Mattie Walby has been named as administrator of the Walby estate.

Mr. and Mrs. W. E. Wilson of Johnson, visited at the U. G. Dickson home over Sunday.

Rodney Olney returned Sunday from a few days visit with his people at Spokane.

The Jim Larrabee residence is beginning to show up and will be quite an addition to the town.

Mrs. Ferguson left yesterday for Quincy, Wash., near which place she will take up a homestead.

Peter Johann and family moved into their recently acquired property in the west part of town Saturday.

Mr. and Mrs. C. E. Wood visited Lewiston Saturday, and from there went up to the tramway, returning home Wednesday.

Steltz Bros. have been given the contract to erect a cave for a basement under the Christian church. Work will begin immediately.

Memorial Day will soon be at hand and it is expected that the G. A. R. Post and citizens of the town will prepare something befitting the occasion.

Dr. Lemman and family moved out to their farm south-east of town the latter part of the week, and expect to make it their permanent residence.

H. C. J. Tweed returned Thursday after an absence of several weeks at Kennewick, Wash. He reports that Rud Miller is among the Genesee investors in Kennewick realty, he having purchased a choice piece of the big ditch.

The W. A. C. debating team were victors in a debate with the University of Montana team before a large audience at Pullman Friday evening of last week. The question debated was "Resolved that the Monroe doctrine should be abandoned." The W. A. C. had the affirmative.

Eight Chinese are now held at Lewiston by the United States government pending trial to determine whether they have a right to remain in this country. They were picked up in different parts of the city and were found to be without the required papers to allow them to remain.

On Tuesday evening of next week the Odd Fellows and Rebekahs will hold their annual anniversary banquet at J. O. O. P. hall, at 6:30 p. m.

All Odd Fellows and Rebekahs and their families are expected to be present. An interesting program will be rendered at the close of the banquet.

Best Cough Medicine for Children. When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all those conditions. There is nothing in the cough and colds incident to childhood. For sale by all druggists.

A Thoughtful Man. M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief and was finally cured. Only 25c at F. E. Dicus & Co's drug store.

I have been subject to sciatic rheumatism for years," says E. H. Wainson of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the trouble for many months. It is certainly a most wonderful liniment." For sale by all druggists.

Robbed the Grave. A startling incident is narrated by John Oliver of Philadelphia as follows: "I was in an awful condition. My skin was almost raw, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Balm and in five days the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know the robbers had the grave of another victim." No one should fail to try this. Only 50c. Guaranteed at F. E. Dicus & Co. druggists.

Nothing Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"We have used Chamberlain's Colic Cholera and Diarrhoea Remedy in our family for years," says Mrs. J. B. Cooke, of Nebraska. "We have given it to all of our children. We have used other medicines for the same purpose, but never found anything to equal Chamberlain's. If you will use it as directed it will always cure. For sale by all druggists."

### LAND GRABBERS AT WORK.

Land Grabbers and Timber Speculators Pay no Attention to Protest.

A Washington dispatch in the Weiser Semi-Weekly Signal has the following to say concerning the work of land grabbers and timber speculators: "No Land Law Reform at this session of congress," is the mandate which has gone forth from the interests of a few million more acres of the people's lands. The mandate is apparently being heeded carefully by congress.

In spite of two annual recommendations from the president; in spite of a special message to congress urging the repeal of the timber and stone act and in spite of the evident national public sentiment favoring the stoppage of land and timber stealing, congress is prepared to admit its domination by a crew of land grabbers and timber and land speculators which will, before the next session, steal tens of millions of dollars' worth of government property which can never be replaced.

The repeal of the Desert Land Act, a tool of the cattle corporations has been voted down in the house irrigation committee, and the repeal of the timber and stone act, under which at least 50 million dollars was lost to the government last year, and which has been specifically recommended by the president and his special land commission, bids fair to be quickly killed on the house floor, if it ever gets past the public lands committee of the house.

This committee has been holding hearings on this act, and timber lords, owning hundreds of thousands of acres of the finest timber in the world which by every law of right and justice should still be the property of the people of the United States, have appeared before that committee and presented eagerly accepted testimony, showing what a hardship it would be on the poor settler who wants a small piece of timber adjacent to his homestead, if the timber and stone act were repealed. Mr. T. B. Walker, of Minneapolis, said to be the largest owner of timber lands in the United States, owning and speculating in timber lands in Minnesota and the Pacific coast states—lands whose title should today be in the government and which are valued at millions of dollars, appeared before the committee and gravely stated that he must protest

### against the repeal of the timber and stone act.

It is true that the bill to repeal the timber and stone act has not yet been introduced into the senate without opposition from the timber senators, even after they had announced that they were opposed to any repeal of the law and the inference is therefore that they assured themselves that the bill would be well taken care of in the house and probably never even get out of the public lands committee. One member of that committee even made such a boast.

Congress is hurrying through with its necessary work; it is proposed to force an early adjournment—within the month. With the ponderous machinery of the legislative branch of the government this will effect a saving of several thousand dollars for every day that the session is shortened; but for every day that congress delays the repeal of the timber and stone act, the commutation clause of the homestead act and the desert land act, it means a loss to the people of the United States of hundreds of thousands of dollars and the absolute loss of a great heritage of future seekers of homes upon the public lands.

Could the people of the country realize the enormity of the crime which is being silently perpetrated upon them and upon their children, they would arise in might and grid to atone the horse of schemers and plunderers who are despoiling the nation of its greatest wealth. It is a silent, insidious force which is with considerable rapidity absorbing that which in a few years will be recognized as the very vitals of the nation. Because of the sinister influence of great land interests, the greatest forests in the world, and the sources of magnificent water supplies as also the choicest agricultural lands capable under irrigation of producing fabulous crops and supporting numberless men and families will continue to be banded back and forth by timber thieves, by speculators, by live-stock corporations and by land monopolists—all while congress rushes through its work to make an early adjournment and refuses to face the question.

### A NEW INDUSTRY.

C. E. Wood, lessee of the Farmers' Grain Company, Ltd., has now definitely decided to transfer hay over the tramway provided the bales will not weigh over one hundred pounds. This will give the farmers of this prairie a new industry and a very profitable one, as it does away with the excessive expenses otherwise connected with the harvesting of grain. If we take as a basis the average yield of hay and grain per acre on this prairie, there is more clear profit in hay at four dollars per ton than wheat at fifty cents per bushel. Within the last several years hay has found a very easy market on the coast and the prices offered would justify us receiving more than double the amount per ton mentioned above. Grass hay is more valuable for shipment than grain hay. The difference in price is generally from two to three dollars more per ton. Timothy is not successful in this country. The summer months are too dry for it for the soil we have here. Although it grows luxuriantly some years, the stems become so hard and moulty that the stock will waste most of it. The most successful grass for hay and also for pasture is the bromes grass. It reaches a height of from four to five feet, and stands extremes of heat, drought and cold, the stems remain tender and it is therefore relished more by stock. Chemical analysis has also shown that it is rich in flesh forming ingredients, much more so than timothy. It is a permanent grass. We hope that the farmers on this prairie will soon understand that diversification in farming is the only way to be successful.—Nepesee Herald.

## POOR JUDGMENT

It's astonishing how alluring the bait of "cheapness" is to some men when buying lumber and building material. But like the kerosene can, it comes back at them when they come to use the stuff. Wise buyers know that cheapness and quality cannot go hand in hand any more than the hired girl can light the fire with kerosene and maintain her equilibrium.

No sir, if you want good lumber you must expect to pay a fair price for it. Our strong suit is quality. Don't infer from this, however, that our prices are high. They're not—but just as low and lower than anybody's. Before buying green, badly manufactured lumber because it is offered cheap, show your good judgment by seeing our stock and prices. We also handle coal, wood and fence posts.

R. Pickering visited Lewiston the first of the week.

Will Gray has returned from Kennewick, and reports that country in a prosperous condition.

Joe Haufather has moved his residence to the lot east and made other improvements about his city property.

The Lewiston city council awarded the contract for the construction of a new reservoir to Naylor & Norlin, the contractors for the water-works at this place. The amount bid was \$4000.

J. W. Tice last week received a quantity of strawberry plants from friends at his former home, Berlin, Wis. He tells us that he is quite proud of the remembrance and will transplant them with the hopes of raising a crop here.

## THE GENESEE NEWS.

ESTABLISHED AT THE POST OFFICE BY DENNIS AT SECOND-CLASS MAIL MATTER.  
CHAS. POWERS, PUBLISHER.  
Subscription price, strictly in advance, \$1.50.

—Read the announcement of M. K. Bue & Co., in this issue.

—Civil Engineer Roberts was in town Wednesday on business connected with the water-works plant.

—Mr. and Mrs. John Platt came in from the Salmon river country Tuesday and will remain a few days.

—Mrs. F. C. Spencer and daughter, Maud left for Spokane yesterday morning, and will probably be gone a couple of weeks. Miss Spencer goes to receive treatment for her eyes.

—H. A. Thatcher this week purchased the Conant property now occupied by the Day family, and will move same to the center of the lot and remodel it before moving his family.

—A number of fine cattle in this vicinity have met their death recently from squirrel poisoning. This is pure carelessness on the part of some one. Why not use more steel traps? The price of one of those cattle would have bought numerous traps. Get a small boy to set them.

—J. C. Pope and O. Struble, of Mora, Minn., were in this vicinity the fore part of the week looking over the country, and report themselves well pleased. They say that the past winter, in their state has been the most on record, and that there is a general exodus from there to the coast country. Mr. Pope is an old neighbor of F. E. Becker of this place.

—A bill to amend the immigration act has been introduced in congress. It proposes to station inspectors and surgeons at foreign ports to examine immigrants and to exclude assisted immigrants, whether by individuals or governments. The tide of immigration to this country for this year is rapidly rising.

—Each day there are new arrivals in the city who have come to look the country over with a view of locating. They come principally from Minnesota and the Dakotas and are greatly pleased with the mild climate and the outlook for good crops. The past winter has been a very cold one for the above mentioned states and has resulted in the seeking of a better country. It is the duty of all to assist the newcomers in every way and impress upon them the real merits of the surrounding country. They come here with a vague idea of all conditions that go to make this state what it is, and help from our citizens is always appreciated.

—What promises to be an interesting and amusing ball game will be played at the ball grounds Sunday afternoon between the Genesee baseball nine and a nine composed of married men of the town. The latter nine will comprise the following noted players: E. E. Oylear, the famous Potlatch pitcher; Bert Gardner, second base, whose reputation is well known throughout the Palouse country; Chas. Larrabee, the ex-leaguer from California; C. Houghton, George Houghton, Dick Schreiner, Ira Hanson and H. A. Morgan all of whom have a world-wide(?) reputation. It was impossible to secure a good "catcher" among the married men and the vacancy has been efficiently filled by Ben Heisterman. The game will be called at 2 o'clock sharp and the public is invited to witness it.

—Read the new ads. of M. K. Bue & Co., J. K. Bell, Bilger's Department Store, Madison Lumber Co.

—J. K. Bell did some improving on his lots west of the Conant residence this week.

—Dr. and Mrs. H. J. Smith, Conrad Martin and Mrs. Marie Cool will attend a grand ball given by the Elks at Lewiston tonight.

—Mrs. J. I. Swartz, of Moscow, vice president at large from the first district of the State Sunday School Association, made an excellent talk to a good sized audience in the Methodist church last Sunday night.

—Mrs. G. L. Park, wife of Brakeman Park, with their baby daughter, arrived here Thursday last week. They have rented the Dr. Ehlen property, now occupied by Chas. Larrabee, and will take possession of same as soon as the Larrabee residence is completed.

—Prof. French, of the University, was here this week talking up farmers institute, and it is expected such an organization will be effected in the near future. This is a move in the right direction as such an organization would be of untold benefit to the farmers.

—Mrs. Walby and Miss Rosa this week had their household effects taken to Moscow where they expect to reside permanently. Miss Rosa will take up the study of music at the University. Miss Mattie Walby expects to return to Spokane soon and again take up her duties in the hospital. The Nest family will at once take charge of the Wall ranch.

—Tuesday evening the 8th anniversary of Odd Fellowship and since then Mr. Bue has been busy further arranging the goods and has enjoyed a good trade to start with. The Nava wishes the new enterprise success.

—That business in all lines in our city is on the boom is plainly evident from the orders taken by the numerous traveling salesmen who are daily visiting our merchants. Another feature suggestive of large business is that our merchants with but few exceptions are able to take advantage of the cash discount on their orders.

—The annual encampment of the cadets of the University of Idaho will probably be held at Wallace and Coeur d'Alene. The encampment was held at Wallace last year and the citizens of that city are anxious to have them again this year. Coeur d'Alene is also trying to secure it and it is now planned to spend some time at each place. There are two companies of the cadets numbering 150, and are accompanied by a band.

—The last important obstacle to begin work on the Panama canal seems to have been overcome. The stockholders of the French company have voted to transfer their rights upon the payment of \$40,000,000 by the United States government. Upon payment of \$10,000,000 to the Republic of Panama, all rights conferred by treaty will be vested in the United States and the transaction will be complete. As the money to pay all these obligations is ready there seems to be nothing more to do but go to digging.

—Saturday will be the opening day for the Louisiana Purchase exposition at St. Louis. All builders and exhibitors are on the rush to have everything in readiness. The railroads have made every effort to expedite the shipment of material and exhibits to the city. The merchants and manufacturers will make the opening day a public holiday, and are preparing to make a grand display to greet the first visitors. Hotels and boarding houses are already filling with visitors who will witness the opening ceremonies. The railway companies have fixed the excursion rates at a fare to a fare and a third for the round trip with limits from ten to ninety days.

—An exciting runaway occurred on our streets Saturday last. The delivery horse belonging to J. K. Bell was hitched to the wagon in the lot at the rear of the store and was in charge of Henry Clelland. The horse started and Henry noticing it jumped into the rear of the vehicle. The attempt of bystanders to stop it and began a lively run which resulted in a collision with a telephone pole completely demolishing one of the front wheels. The horse stopped on reaching the hitch rack in front of the store. The wagon was badly damaged which necessitated Mr. Bell putting his new wagon into service sooner than he had intended. There was some talk of having Henry arrested for fast driving but owing to it being his first offence he was allowed to again take up the work of manipulating the ribbons.

—Peter Steltz is confined to his home with an attack of fever and is threatened with pneumonia.

—E. M. Yearian has sent in his resignation as superintendent of the Lemhi Indian agency, to take effect at an early date. Mr. Yearian owns a fruit farm and a city residence at San Jose, Cal., and will move to that city as soon as he is relieved of his present position.

—The Jackson residence on "Gospel Butte" adjoining the Power residence, is well under way of construction and will make quite an addition to that part of the city. Mr. Jackson informs us that he will have the work pushed as rapidly as possible, and expects to occupy the residence with his family in a very short time.

—A new \$4,000 hospital is to be erected in Palouse in the near future. The institution will be in charge of Dr. E. T. Hein, and will take care of the accident cases of the Potlatch Lumber company. Dr. Armstrong of Spokane has been retained for the difficult and complicated surgical work that may be necessary.

—In all probability a water-works system and electric light plant will be installed by fall. The citizens of our town are growing more enthusiastic daily over the latter question and when the time comes for a popular vote for water-works and electric lights it will carry by a large majority. Several of our business men are in communication with some eastern firms relative to the probable cost of the water-works pumps for the city, also hydrants, mains, etc. As soon as their inquiries are answered the matter will be brought before the people for action.—Troy News.

—The new M. E. church at Moscow was dedicated last Sunday with appropriate exercises. It is an imposing structure from an outside view and the interior is elegantly furnished with the latest styles of church furnishings. The new pipe organ is one of the best makes on the market, being the same as the one in the tabernacle at Salt Lake City. The clock, which is a present from J. H. Forney, will be placed in the steeple and will be very much appreciated by the residents of the city. The speakers of the day were Dr. Rasmus and J. V. Powell.

—On the 19th inst., Mrs. A. McGinity, daughter of Lute Simmons, who formerly lived here, died at Illo of typhoid fever. She leaves a husband and four small children to mourn her death, besides numerous relatives and friends.

—F. E. Dicus began the work Monday of grading the lot which he recently purchased adjoining the Burdick property, and will begin the erection of a residence as soon as he can make the necessary arrangements in the way of lumber and carpenters.

—The work of drilling the well for the city water-works was commenced Monday morning and is progressing rapidly. Everything proving favorable, it will be but a short time until our water-works system is installed, and then there will be water to burn.

—Caleb Powers, the former secretary of state of Kentucky, now under sentence of death for the murder of Governor Goebel, is writing a book concerning his personal experiences during the troublous days of Kentucky's fierce partisan war for control of the state.

—Chas. Olday arrived here Friday from Spokane, and has taken up the work of fireman on the local train. Run by Byers, who has been on this run the past six months, left Monday morning for Spokane, and will act as fireman on a passenger train between that place and Ellenburg. Before going to Spokane Mr. Byers visited a friend at Webb. Mr. Olday was formerly a resident of this place.

—"Death to Weeds" is the name of a new implement at the Meyer Bros. implement store. It is constructed much the same as the disc harrow which has been in use by farmers for several years. The machine has two sets of discs one following the other, and arranged in such a manner that each throw of the soil in an opposite direction. In this way it is impossible for weeds to escape being destroyed. The device was tried on the Dr. Conant grounds the fore part of the week and was found to work good and do all that is claimed for it.

—Harley Smith and family have moved into the Geo. Daggett residence, and will occupy same during Mr. and Mrs. Daggett's visit to St. Louis and other points in the east.

—C. P. Cooper and family arrived here the first of the week from Lewiston and will make this their permanent home, having purchased the Daggett property adjoining the Baxter home.

—The band boys are now practicing twice a week and have fourteen players. The boys are doing a great deal of work and are at considerable expense in order to give the people a good band. They should be encouraged by all who are interested in the welfare of the town.

—Spring work is progressing rapidly among the farmers in this community, and with the continuation of the present good weather it will be but a short time until spring seeding will be finished. Some fruit trees are in bloom, and winter wheat is looking better than it has for several years at this time of the season.

—The state encampment of the G. A. R. will meet in Emmett, June 7, and a large attendance is anticipated. Mr. Russell, of the Hotel Russell, has very generously donated the use of his big hotel free of charge to the old veterans during their stay in Emmett. Mr. Russell's kindness is highly commendable and is much appreciated by the old soldiers.—Capital News.

—The promoters of the base ball team met at the office of C. F. Burr Tuesday evening, and a preliminary organization was effected. Tom Keene was elected manager and other matters pertaining to the organization were attended to. There are already thirteen players in sight and it is probable that the organization will be completed within a week.

—The Evening Capital News is the only democratic paper in the state that favors a constitutional convention and its sole argument is that there are several things which need fixing. The legislature has power to take the initiative in constitution making and the people can do the rest. With this method of correcting defects there seems to be no good reason for a constitutional convention. Even if one were held there is no assurance that it would improve on the work of the first.

—The committee having in charge the raising of funds for the building of an Elk's temple have met with the most gratifying success. After having canvassed Moscow, they visited Pullman, Uniontown, Genesee and Troy, at all places receiving a hearty welcome and most substantial assistance. At Pullman about \$200 was subscribed. The total amount now raised is close to the \$10,000 mark, which would seem to insure the undertaking and completion of the enterprise.—Star.

—The mining interest is in receipt of a letter from Nezperce describing the recent strike in the Clearwater country east of Nezperce. The letter states that the ledge is widening and becoming richer as a greater depth is attained. The ore shows free gold and in the tunnel free gold can be seen in the face of the ledge. It is also stated that ore taken from an adjoining claim shows free gold in large quantities and it is generally believed in the vicinity of the strike that a valuable mine has been discovered. The mountain at this point is covered with soil and vegetation and except for the presence of the ledges the country does not have the appearance of a mineral district.—Tribune.

—Some desperate characters in the way of safe blowers are at large in the northern part of the state. On the night of the 17th the Gribble-Epperson store at Granite was robbed. The safe was blown and Epperson hearing the noise went to investigate and found four men in the store. He opened fire and the robbers fled. They secured about \$100. On Friday evening J. C. Callahan white on his way home was confronted by two masked men who demanded that he give up his money. They secured \$20 in cash. The also took his watch but finding his lodge insignia engraved in the case returned it. A few nights later I. L. Quarles was relieved of \$65 by footpads at Athol.

—On the 19th inst., Mrs. A. McGinity, daughter of Lute Simmons, who formerly lived here, died at Illo of typhoid fever. She leaves a husband and four small children to mourn her death, besides numerous relatives and friends.

—F. E. Dicus began the work Monday of grading the lot which he recently purchased adjoining the Burdick property, and will begin the erection of a residence as soon as he can make the necessary arrangements in the way of lumber and carpenters.

—The work of drilling the well for the city water-works was commenced Monday morning and is progressing rapidly. Everything proving favorable, it will be but a short time until our water-works system is installed, and then there will be water to burn.

—Caleb Powers, the former secretary of state of Kentucky, now under sentence of death for the murder of Governor Goebel, is writing a book concerning his personal experiences during the troublous days of Kentucky's fierce partisan war for control of the state.

—Chas. Olday arrived here Friday from Spokane, and has taken up the work of fireman on the local train. Run by Byers, who has been on this run the past six months, left Monday morning for Spokane, and will act as fireman on a passenger train between that place and Ellenburg. Before going to Spokane Mr. Byers visited a friend at Webb. Mr. Olday was formerly a resident of this place.

—"Death to Weeds" is the name of a new implement at the Meyer Bros. implement store. It is constructed much the same as the disc harrow which has been in use by farmers for several years. The machine has two sets of discs one following the other, and arranged in such a manner that each throw of the soil in an opposite direction. In this way it is impossible for weeds to escape being destroyed. The device was tried on the Dr. Conant grounds the fore part of the week and was found to work good and do all that is claimed for it.

F. E. Becker visited Lewiston Monday.  
Miss Grace Rogers, of Moscow, visited at the George Baxter home this week.  
Dr. J. L. Conant has made extensive improvement about his residence property.

A nine-pound young lady put in her appearance at the John Brown club home, the latter part of last week.  
Mr. and Mrs. Platt arrived home from Spokane Thursday last, where Mrs. Platt has been receiving medical treatment. Her many friends will be glad to know her health is much improved.  
The Woman's Journal, published at Boston, announces in its issue of April 2, the adoption, in the House of Commons, of the resolutions favoring full parliamentary suffrage for women in England, by a vote of 182 to 66.

Mr. and Mrs. Herschel Hill, of Seattle, the former a brother of Mrs. George Hunter, arrived in Genesee last week for a visit with the Hunter family. Mr. and Mrs. Hill were recently married, this being their wedding trip. They will visit Lewiston.  
Otis Faught, formerly of this office, has purchased the St. John Journal and that paper is now published under his caption. Mr. Faught is an up-to-date printer, and will, no doubt, make a success of the venture. The News extends best wishes to Mr. Faught.

The celebrated First Royal Marine Band of Germany, one of the finest in the world, will be one of the attractions at the World's Fair. The members are all first-class and the band is the crack military band of the German Empire. It has a repertoire of 150 compositions.

Jan. K. Bell, the latter part of last week, received notice from the adjacent general's office that equipments for the national guard at this point had been shipped. It was also stated that as soon as an officer could be secured, the Genesee company would be mustered in, which it is expected will be this week.

United States inspectors are busy in many parts of the state investigating the right of certain Chinamen to remain in this country. Last week in Moscow inspectors Hampton and Ely made a tour of inspection of the colonial quarters and found two who were without the necessary papers and captured them after a lively chase. It is probable that they will be deported.

The government trading post at Ross Fork was recently held up by two masked men, who secured about \$1,500 in gold and silver. The robbers entered the store just as an employee named Pyke was transferring the cash from the money drawer to the safe, made a tour of inspection of the hands, then they bound and gagged him, raffled the safe and escaped with the money. Later they were captured at Pocatello with the booty in their possession.

The census bureau now estimates that Idaho has 183,000 population, against 161,772 in 1900. The present estimates are said to be based on the same ratio of increase as in the preceding decade which in Idaho's case was 83 per cent, making her population now 215,000. But Idaho is now growing faster than ever before and the population is now probably 250,000. Still, the only way to take census is to count the people.—Tribune.

A collection of relics unearthed during the work of excavation for the New York City subway forms an exhibit from that city at the world's fair. The collection includes, besides many different kinds of minerals, a number of odds and ends found by the excavators. Among them are the nub and spigot ends of the first wood an water pipe laid in New York during the administration of Aaron Burr, 1799-1804, a house connection of the water-pipe, coins of many sorts and numerous Indian relics.

Arrangements have been completed to establish a daily paper in Moscow to be called the "North Idaho Daily Star," and will make its first appearance about May 1. Will E. Willis, formerly of Spokane, his cousin, Mr. Pratt, of Pasadena, Calif., and H. C. Shaver, the present publisher of the Weekly Star, will compose the new firm. Will E. Willis has made all arrangements and returned to California to close his affairs there. As soon as he returns the paper will be started. A linotype machine has been received to do the work. The Star will be an afternoon paper and republican in politics.

## Where the Chicken Got the Ax

That's where you'll get it, Mr. Farmer, if you use green lumber in that new house or barn. There'll be cracks in it big enough to throw a dead cat through when it dries out. Whenever lumber is used it is supposed to last a long time, and the sounder and drier the material the better the results for all time. You know that as well as we do. Then why use green, badly manufactured stuff just because it is a few cents cheaper? Here at our yards we carry the finest grades of kiln dried stock and when you can get that in preference to the other kind, you're standing in your own light when you don't use it. It will pay you to drive a bit out of your way, if necessary, to get your lumber and building material here. Complete stock of everything in lumber, building material, wood, coal, fence posts.

**DRINGS OF THE COUNCIL.**  
At the meeting held Thursday evening, April 28, permission was granted L. J. Jais to erect a warehouse to the rear of his store building, same to be covered with corrugated iron.

Ordinance No. 78, entitled "An ordinance to establish elevations and grades upon that portion of Chestnut street, between the city limits on the east and west line of Elm street," was passed and ordered published, the same appearing in this issue.

At this session of the council bids for the macadamizing of Chestnut street were to have been opened but none had been filed with the clerk and the matter was passed.

At a meeting of the council held Saturday evening, April 30, the clerk was instructed to ask Naylor & Noyes for a ten day extension of time for the city to decide whether electric or other power should be used at the pumping station. The extension has been granted. The contractors have one hundred days in which to install the motive power from the date they are advised of the kind to be used and it is not likely that the brief extension of time granted will delay the completion of the plant.

Monday evening of this week the regular monthly meeting of the board of public works was held and considerable business was transacted.

A motion was made and carried that a warrant be drawn on waterworks fund in the amount of \$177.45 to pay street grade assessment on lots 11-12, block 19.

A motion was made and carried that a warrant be drawn on general fund in the amount of \$121.85, the remainder of the city's indebtedness on street improvements, and that in the future any collections in favor of the improvement fund shall be placed to the credit of the general fund and the treasurer was so instructed.

The usual number of monthly bills were audited and allowed.

The first meeting of the new council was held Tuesday evening and Councilman Driscoll who succeeds C. E. Wood in the Second ward took his place among the members after qualifying. All other members of the council qualified to serve during the coming year.

The bond of City Treasurer Brewer, in the amount of \$20,000, with Thos. H. Brewer, Fred Nagel, Fred Follett, and Caroline Brewer as sureties was accepted.

The following committees were by the mayor appointed to serve during the year:  
Fire and Water—Driscoll, Thompson and Bell.  
Streets and Public Property—Bell, Driscoll and Scharnhorst.  
Health and Police—Scharnhorst and Thompson.  
Commerce—Thompson, Bell, Driscoll and Scharnhorst.

Councilman Thompson was chosen president of the council to serve during the municipal year 1904-5.

## IRRIGATION SYSTEM ON SNAKE RIVER.

Secretary Hitchcock has finally approved the plan of the Reclamation Engineers and has set aside out of the reclamation fund the sum of \$2,600,000 for the work of constructing an immense irrigation system on the Snake River about six miles south of Missidoko, on the Oregon Short Line Railroad.

It is proposed to construct a rock-filled dam across the Snake river at this point, the material for which will be excavated from the upper end of the main north side canal. The dam will consist of an embankment of loose rock 575 feet in length, with a masonry toe-wall. The rock embankment will be 13 1/2 feet wide on top, and will be carried six feet above flood level. Above the dam site for many miles the Snake is in a canyon, or a very narrow valley, from 40 to 150 feet below the bench lands, and the dam when constructed will back the water up for a distance of about 75 miles. By gravity canal it is proposed to irrigate 68,000 acres of higher land, and from the power developed at the dam, amounting to 10,000 horse power, 3,000 cubic feet of water will be lifted and spread over 53,000 acres of higher land. Fifteen pumps having an average capacity of about 110 second-feet will be utilized for lifting the water. The pumps will be submerged and will discharge directly into the canal above.

The secretary has decided that homestead entry under this project will be limited to 80 acres, except within two miles of a townsite, where the amount is limited to 40 acres. At the present time all but 2,000 acres under the project are vacant public lands. On the basis of an 80-acre homestead entry this tract will provide homes for more than 1,000 families, or about 7,000 people.

### THE GENESSEE NEWS.

ENTERED AT THE POST OFFICE AT GENESSEE AS SECOND-CLASS MAIL MATTER.  
CREAS. POWELL, PUBLISHER.

Subscription price, strictly in advance, \$1.50.

—Mr. and Mrs. R. H. Russell left the first of the week for Spokane and possibly a trip to the coast.

—J. A. Jackson during the week has been forced to be absent from his duties at the Eollett store on account of an attack of the la grippe.

—Frank Morosis has purchased the temperance hall which has been owned and operated in the past by M. D. Glover. He is now in possession of the same.

—Heavy frosts in the southern part of the state have done considerable damage to fruit and it is feared that this season's crop will be considerably shortened.

—R. Jackson was a visitor in the city Monday from Moscow. Mr. Jackson has disposed of his interests in Moscow and will leave within a few days for the coast to look up a business location.

—During the week the frame building adjoining the restaurant building and for some time occupied by C. W. Hanson with his photograph gallery, was torn out. The restaurant building has been covered with corrugated iron and presents a much improved appearance.

—The county commissioners have fixed the salaries of the various county officers for the year 1905 as follows: Sheriff, \$2,500; Assessor and ex-officio Tax Collector, \$3,000; Treasurer and ex-officio Public Administrator, \$1,100; Superintendent of Public Instruction, \$900; Surveyor, \$400 and Coroner \$100.

—A. T. Shane, Grand Chancellor of the order of Knights of Pythias for the domain of Idaho, paid an official visit to the local lodge Tuesday evening of this week. He delivered an excellent address to the members present. He stated that the per cent of increase in the order in the state the past year had been seventeen per cent which is a fine showing. Following the exercises of the evening a sumptuous lunch was served.

—The attorney general has rendered an opinion in reply to a request from Miss Scott, the state superintendent, in regard to the issuing of county certificates, and the qualifications of the county superintendent. The text of the opinion was, that a first grade certificate issued by the county superintendent does not exclude the holder of a life certificate or state diploma issued by the state board of education, or any educational institution, from holding the office of county superintendent. The county superintendent must be a holder of a certificate or diploma issued by a county superintendent.

—Work of installing the various telephone lines to the country by the Genesee Telephone Co. is rapidly progressing. A line has been completed as far north as the James Nelson ranch and as far west as the Charley Ebel place. Eleven subscribers have been secured. Another line has been constructed as far west as the Fred Schornhorst place with five patrons. A line to the south of Genesee has been completed to the W. H. Gage farm. Within a very few days the building of the line to the Lewville section north of town will be completed. This line will traverse quite a large scope of territory and the number of subscribers will be large. At an early date we will publish a complete list of the subscribers on all rural lines.

### CHURCH NOTICES.

There will be preaching at the Christian church as usual Sunday morning and evening.

Services will be held in the Lutheran chapel on Ascension day at 7:30 p. m. Sunday School before services.

The 25th anniversary of Our Saviors congregation will be celebrated with appropriate ceremonies in the church on Sunday, May 15. Revs. Fuss, Bleckham, Moen and probably Christenson, will be in attendance. All are cordially invited to attend. On Monday following a discussion meeting will be held in the church to which all are invited.

Methodist church—Services at the usual hours. The membership, and those who may wish to join are especially requested to be present at the morning service. Five additions were received into the church last Sunday, the Nesbit family, lately from Wisconsin. They are splendid people and will add strength to the church. More additions will follow soon.

—Joe Hafurther and John Metes are making improvements about their residences.

—Carpenters and paper hangers have had the T. Driscoll residence in charge this week.

—We have another small lot of government seeds for distribution. Come early and avoid the rush.

—As was scheduled the ball game between the local team and a team composed of married men of the town was played at the ball grounds Sunday afternoon. The players of both teams did some hard playing and for some time the married men were far in the lead and did commendable work but were finally defeated by the boys by a score of 14 to 17. Muddy grounds was a handicap to the game. Quite a large crowd witnessed the contest.

—During the municipal year just closed it is said that the city council met to transact business something like eighty different times. It is a fact also that at nearly every meeting a majority of the members were present. A large amount of business has been transacted and in a manner that leaves but little, if any, room for complaint. The ruling council is certainly entitled to a vote of thanks from the citizens. The personnel of the new council is the same as the old, except that T. Driscoll succeeds C. E. Wood from the Second ward. Mr. Driscoll has heavy property interests in the city and will without a doubt be a valuable member.

—The writer returned home Monday of this week from a visit of two weeks at Bellingham, Wash., Mrs. Power and the children having stopped off at Spokane for a visit with relatives. It would have been impossible for our visit to have been more enjoyable and all members of the family had the time of their lives. Business men of the Sound country complain of a lull in trade but it would be hard for a visitor to detect it. In a building way the city of Bellingham is now doing as much as at any time in its history. We run across a number of former Geneseeans during our absence and all report themselves as being satisfied with their lot in life west of the Cascades.

FRIDAY, MAY 6, 1904.

—The annual meeting of the gun club will be held in C. F. Burr's office Wednesday of next week at 8 p. m.

—Mrs. Lawrence Emfield, of Spokane, is here for a visit with her parents, Mr. and Mrs. John Patterson.

—Mr. Cunningham, father of Mrs. A. A. Haymond and Mrs. John Magee of this place, has been seriously ill during the past week but is now reported much improved.

—Messrs. J. H. Larabee and W. C. Brant drove out to the Murphy ranch the latter part of the week and found Mrs. Murphy, who has been seriously ill of late, much improved.

—State Senator George E. Crum of Lewiston, has been appointed to succeed Rev. E. P. Gibney of the same city as a member of the board of trustees of the Lewiston state normal school.

—Miss Carrie Savage, a sister of Walter Savage, well known to many at this place, died the first of the week following an operation for appendicitis. She was buried from the Catholic church at Colton and the funeral is said to have been a very large one.

—Messrs. James Hanson, Chas. Bowen and John Kempf, who were appointed as appraisers of the Walby estate, placed a valuation of \$10,079.46 on lands, chattels and money. The amount does not include the 80 acres of land deeded to Mrs. Walby prior to Mr. Walby's death.

—Rodney Olney, who has held a position with the Genesee Exchange bank for the past two years, has accepted a similar position with the First National bank of Coeur d'Alene and left for that place Tuesday morning.

—He has been succeeded by E. O. Catchart, a young man from Elberton, Wash.

—At the approaching state election the proposition of whether or not the southern portion of Shoshone county shall be annexed to Nez Perce county will be voted upon. The Lewiston Tribune states that the sentiment of the people of the portion proposed to be annexed is against annexation and that it is more than likely that another county fight is impending.

—The first match game of base ball will be played Sunday afternoon, May 8, on the Genesee grounds, between the local club and the Johnson aggregation. The game will be called at 2:30 o'clock and an admission fee of 25 cents will be charged. Last season the Johnson boys were successful in defeating the local team on a grand out of a series of three and claim they are greatly strengthened this year.

—Cards are out announcing the approaching marriage of Thos. H. Brewer of this city, to Miss Winifred Walbridge of Spokane. The ceremony will take place in Spokane the 18th inst. at 7:30 p. m. to be followed at 8 o'clock by a reception. They will leave Spokane following the wedding for a visit to California, the World's Fair and other places of interest, devoting some six weeks to traveling and will then settle down in Genesee.

—Follett & Klapp have purchased what is known as the "fruit house" from George Raymond and will move their chop mill, now located in the eastern part of town, to that location. They contemplate a number of changes and will have an up-to-date establishment when the same is completed. The location is a very desirable one, being centrally located. When the new place is in operation they expect to grind for shipment to the outside world.

—Those who are scowling about the late spring should post upon conditions in other sections. On the coast spring is equally late as in this section while to the section east of the Rocky mountains the weather on a late date has been a little ahead of the winter article. While fruit trees are budding slowly everything points to an excellent yield. Garden vegetables and all root crops are making an excellent growth. Winter wheat has never looked better and if present conditions continue the yield will be equal to any season in the past. If things are not exactly to your liking, don't get the "dumps," but take a trip away from home and it is a one hundred to one bet that you will return fully satisfied that the Genesee valley is about the "only pebble." During our recent visit to the coast we met a gentleman who has paid a number of visits to this section and who has traveled extensively in all parts of the United States. He expressed it as his opinion that the Genesee valley, the Big Potlatch and the Nez Perce sections are without an equal and we consider the gentleman competent to judge.

—Mrs. A. Kern returned Monday from a visit to Uniontown.

—Frank Robinson and James Hanson were Moscow visitors Wednesday.

—Fred Dicus has the foundation about completed for the erection of his handsome residence.

—The band boys announce a dance to take place on the evening of May 17. They plan on a big time.

—Rev. Fr. Keyzer was a Colton visitor the first of the week, having exchanged pulpits with Rev. Fr. Frei.

—E. M. Gillette, traveling freight agent of the Northern Pacific, was here in the interests of the company Monday of this week.

—Sam Johnson writes us to change his address for the News from Harpers, Idaho to Goldendale, Wash., to which place we infer he has taken up a residence with his family.

—Oscar Hodgins, a former well known resident of this place but now a resident of Oregon, in company with Sheriff Keane of Moscow, paid a visit here Monday of this week. Tuesday he left for Webb to pay a visit to his daughter Cora who is teaching a term of school at that place.

—At the republican primaries held Monday afternoon to elect delegates to attend the county convention to be held at Moscow Monday the 9th inst., to elect delegates to the state convention to meet at Pocatello the 18th inst. to choose delegates to the national convention, the following delegates were chosen: For East Genesee precinct, W. W. Gray, Wm. Gibb, J. C. Hanson, Will Herman and Chas. Power. West Genesee, Fred Nagel and George Daggett.

—Soren Halvorsen, on his recent visit to Kennewick, invested in ten acres of ground on the irrigation ditch and also purchased a residence in the town of Kennewick. Within a few days he is expected to move his family to that place to take up a permanent residence. These people were among the early settlers of this valley and have a host of friends who regret to see them move away. S. M. Tideman, recently from Sioux Falls, S. D., who purchased the Halvorsen farm near this place, is now in possession of the same, he having moved his family over from Moscow the first of the week.

—Messrs. M. J. Shields and Ed. Aldrich, of Moscow, and A. E. Radson, of Lewiston, were here Saturday evening to attend the council meeting on business connected with the installing of the electric power at this place. They are sanguine that matters in connection with the installing of the plant will be successfully worked out. The following item which appeared in the Lewiston Tribune of the first of the week gives added assurance that the plant will be installed:

"Word has reached the city that E. H. Libby is now enroute home from Boston where he has been for several weeks on important business matters and that he has been successful in the securing capital to the extent of \$2,000,000 for his Lewiston-Clarkston and Lewiston country projects. It is stated that Libby will make a brief visit to Omaha enroute here, but will reach Lewiston about a week."

"The numerous Genesee friends of Conrad Martin and Mrs. Marie Cool were surprised to learn upon their return from a visit to Lewiston Saturday of last week that they had been in the city during the evening previous in that city. In company with Dr. and Mrs. H. J. Smith they left Genesee Friday ostensibly to attend a social session of the Elk's lodge but concluded that it would be an opportune time to perpetrate a surprise. The ceremony was performed in the parlors of the Raymond house, Rev. Wm. Lattimore officiating, Dr. and Mrs. Smith being the only witnesses to the ceremony. The groom is an excellent young man, industrious and of good habits, a brother of Mrs. H. J. Smith of this city, and for some time has been employed in the train service of the Northern Pacific. The bride is the daughter of Mr. and Mrs. Herman Nebelsieck of this city and for the past two years has been a teacher in our public schools. She is a young woman of excellent qualities and enjoys a wide acquaintance at this place where she has been a resident for a number of years. For the present they will make their home with Dr. and Mrs. Smith but with June I will go to housekeeping in the residence owned by the bride in the eastern part of the city now occupied by the Hunter family. Following their return from Lewiston a number of their friends secured the services of the band and treated them to a serenade which was concluded with the burning of a quantity of red fire."

—Work on the Caribou residence in the northern part of town will be commenced in a few days.

—Mrs. A. C. Tucker, of Wilbur, Wash., who has been here on a visit to her people, left Tuesday of this week for her home. Her sister, Miss Ethel Wardrobe, returned with her for an extended visit.

—Steltz Bros. with a force of men began the work Monday of raising and excavating for a basement under the Christian church. The building has been moved back six feet and when the work is completed will have been raised five feet. It is expected that the work will be finished within a few days.

—One of the swellest social events in many a month was the May-day ball given at Elton hall by the Rainbow club Monday evening of this week. About one hundred persons responded to the invitations sent out by the club. The hall and stage was appropriately arranged and artistically decorated in rainbow colors. The evening's entertainment was begun by a grand march participated in by about forty couple, after which the remainder of the evening was spent dancing. Lunch consisting of lemonade and cake was served throughout the occasion. Music was furnished by Hunter's orchestra, Ira Hanson acting as floor manager. At the conclusion of the ball W. C. Hanson took a flash light picture of the crowd. The following young ladies dressed in evening gowns of colors representing the rainbow were responsible for the excellent manner in which the affair was carried out: Misses Edna Borg, Lizzie Sundholm, Belle Brant, Gladys Newsome, Clara Hobson, Pearl Owen, Nellie Brant.

—Good much cows for sale. Call at farm of John Hjelm north of town.

—I have arranged with Oregon locator for yellow pine claims, open to stone and timber entry. About 2,000,000 feet per claim. Near Prineville. See me for details. HANS BUECH.

—Don't overlook the special sale of corsets. Good corsets will be sold at The Fair next week for 45c.

—Seed Potatoes. I have seed potatoes of both white and red varieties at the fruit house for sale. LeRue Tice.

—Wanted, an apprentice girl. MRS. HATTIE KELLER.

Where the chicken got the ax. Madison Lumber Co.

—The 17th of May will be celebrated at Hans Tweed's. Elaborate preparations are being made and a good program will be rendered. The 17th of May oration will be delivered by Rev. L. C. Foss, president of the Pacific district of the Norwegian Synod. Vocal and instrumental music will be furnished. Auction sale by the ladies' aid society and base ball game in the afternoon. A hearty invitation is extended to the public.

—John Kambich is reported seri-  
ously ill with inflammatory rheuma-  
tism.  
—Fay Pickering and Miss Schiebe,

Sunday.  
—Miss Mabel Reed left yesterday  
for Spokane, expecting to be gone  
several days.  
—Mrs. Theresia Jacobs left yesterday  
morning for St. Cloud, Minn., in re-  
sponse to a message stating that her  
father was dangerously ill.  
—W. M. Thompson is seriously ill  
with typhoid fever. Last week he  
was taken ill with a gripe which  
has developed into the fever. His  
many friends hope for a speedy re-  
covery.  
—Herbert Moss who left Genesee  
some two years ago in company with  
F. D. Hasbrouck to attend the North  
Pacific Dental college at Portland, ar-  
rived in the city the first of the week  
for a visit with friends. He reports  
that he and Mr. Hasbrouck will com-  
plete the dental course the coming  
school year. Mr. Moss tells us that  
following the completion of the den-  
tal course he will take up the study  
of medicine in some eastern school.  
—Among those who will be un-  
successful in securing land locations in  
the Pierce City section owing to the  
recent mix-up, are George Miller,  
Gardner, Mr. and Mrs. R. Pickering, Mrs. Will  
Gardner, Mr. and Mrs. Hoag. In the  
case of Mrs. Pickering the state's se-  
lections blocked her filing while prior  
filings shut out the others. It  
means a loss in the neighborhood of  
\$500 in each case in addition to con-  
siderable time in making trips in and  
out of the timber section. Contests  
might be filed against those who  
have filed upon the lands but we un-  
derstand that the losers will allow  
the matter to drop. Those who have  
made homestead filings from here are  
reasonably safe but will yet have the  
scrip filings to fight.  
—The twelve inch hole for the city  
well has been completed and in a  
thorough test made this week was  
found to furnish a supply of water  
equal to about 250 gallons per minute.  
It had been hoped a vein that would  
supply 350 gallons per minute could  
be found at a reasonable depth, but  
such has not been the case. To re-  
medy the matter and to secure a suffi-  
cient supply it has been deemed ad-  
visable to sink a six inch hole close  
to the one completed, work on which  
was commenced yesterday morning,  
and it is expected it will be finished  
by Monday night at an equal depth  
of the other, 97 feet. At a distance of  
about forty feet from the surface in  
the twelve inch hole it was necessary  
to pass through about ten feet of very  
hard rock and it is probable, that in  
order to prevent any surface water  
from getting into the water to be  
used, a sump will be constructed to  
this depth.

## CHURCH NOTICES.

The Y. P. S. will meet in the Miller  
house belonging to G. Tegland on  
Friday evening, May 13.  
The Congregational ladies' aid will  
meet next Wednesday afternoon at  
9 o'clock with Mrs. James Hanson.  
Methodist church: Sunday school  
at 10 a. m. Preaching at 11 a. m.,  
and 8 p. m. Junior League at 3 p. m.  
All are cordially invited.  
All are cordially invited to attend  
the 25th anniversary of Our Savior's  
congregation to be held in the church  
on Sunday, May 15. Also to attend  
the discursive meeting to be held  
in the same place on Monday follow-  
ing.  
—Rasmus Jackson was in the city  
the first of the week and left from  
here for the Sound country. Mr.  
Jackson tells his friends that he  
has found marriage to be a failure  
and that in the future he and his wife  
will live apart.  
—Friday of last week a ball game  
of more than ordinary interest was  
played on the Genesee grounds be-  
tween the nines of the High school  
and the Grammar grades. While con-  
siderably outclassed in size, the mem-  
bers of the latter organization led the  
former a pretty swift chase, and  
although defeated in the end, were  
ahead at the close of the seventh in-  
ning. The final score was 24 to 22.  
A feature of the game was the "root-  
ing," and each nine had followers  
who were willing to "scrap" a little  
to carry their point.  
—It is reported that the immigra-  
tion of Americans into the Canadian  
Northwest this year is greater than it  
has ever heretofore been. There are  
several reasons for this. It is mainly  
the result of fictitious advertising  
sent out by the railroad companies  
and land dealers in that country.  
Settlers are attracted across the  
border by the alluring reports that it is  
a great farming and stock raising  
country and go there to find that the  
winters are long with the temperature  
ranging from zero to 50 degrees below  
for four to six months in the  
year. It is in fact that it is a great  
stock country but the conditions under  
which the industry is carried on are  
such that there is no inducement  
for the people of this country to cross  
the line leaving behind opportunities  
far exceeding those offered in the  
much talked of Canadian Northwest.  
Native cattle only can be wintered  
with any degree of success. To profit-  
ably engage in stock raising it is  
necessary to import cattle from the  
states and the loss from the severe  
winters is so great that it is not a  
safe venture. Another cause for the  
increased immigration into that coun-  
try is the discrimination of the rail-  
way companies in granting colonist  
rates. Better rates are made by the  
roads of the central and northern  
states into that country than are  
given to the coast country and the re-  
sult is only natural.

Until further advised both  
tourist and standard sleeping cars  
will be run through without change  
from Spokane to St. Louis by the  
Northern Pacific. This gives passen-  
gers going to the Fair increased ad-  
vantages over old systems.

with relatives and friends.  
—Mrs. Hobson accompanied Mr.  
and Mrs. George Hobson to Spokane  
and will visit during the summer  
with Mr. and Mrs. Wm. Brown.  
—W. E. Smith has erected a com-  
modious kitchen and pantry to his  
recently purchased residence which  
he expects to occupy with his family  
in a short time.  
—Mrs. Holzer and Miller were in  
the city Tuesday from Uniontown.  
Dr. Holzer recently suffered a broken  
shoulder and his visit here was to re-  
ceive X-Ray treatment from Dr.  
Conant.  
—Milt Johnston was a visitor in the  
city the first of the week from Aootin.  
Mr. Johnston has disposed of a lot and  
a half of ground and the small resi-  
dence adjoining the Klapp property  
to Mr. Klapp.  
—Dr. J. L. Conant is now the owner  
of the west half of lot 9, block 9. Or-  
iginal Genesee, having purchased the  
same from C. E. Grimes for a consid-  
eration of \$475. The residence of  
Mr. Pickering's office building on the  
west. At some future date he may  
erect a building thereon.  
—Mr. and Mrs. X. Henry and Mr.  
and Mrs. Adolph Greiser left Wednes-  
day morning for Spokane to visit  
John Henry who is reported as being  
seriously ill. He is confined to the  
hospital and his recovery is very un-  
certain. He has undergone a num-  
ber of surgical operations for a stomach  
ailment but as yet has not obtained  
desired results. Many Genesee  
friends trust that his condition is not  
as serious as relatives believe and  
that he will soon regain his former  
good health.  
—The first delegation of World's  
Fair visitors left Wednesday morning  
from this place. The party was made  
up of Mr. and Mrs. Leon Follett and  
Fatih, Mr. and Mrs. George H. Hob-  
son, Harold and the baby, Mrs. W. H.  
Ehlen, Will Herman and R. S. Wood-  
ley. On account of getting settled in  
their new home and the illness of Mr.  
Jackson, Mrs. Jackson has postponed  
her trip until later in the season.  
Mrs. Ehlen will be met in St. Louis  
by Dr. Ehlen who is now in Chicago.  
In her absence the children will be  
cared for by Mrs. Walter Savage.  
—At a recent meeting of the G. A.  
R. of Genesee, it was the unanimous  
sentiment of all present, that in view  
of the near approach of Decoration  
day, that the cooperation of the public  
be invoked, to the end that the day  
may be celebrated in such a manner  
as to reflect creditably upon our  
loyalty to the departed, and our civic  
pride. Therefore, it was resolved to  
call a mass meeting of the people of  
Genesee, to meet at the K. P. hall,  
over Herman's store, on tomorrow  
evening, (Saturday, May 14) at 7  
o'clock, so that some definite under-  
standing may be arrived at. Come  
one and all, and let us have a meet-  
ing worthy of the occasion.  
COMMITTEE.  
—The first game of ball of the sea-  
son took place at the hall park Sun-  
day afternoon between the local team  
and the Johnson aggregation. The  
result was a victory for the home team  
by a score of 16 to 9. The game was  
one of considerable interest and was  
witnessed by quite an audience.  
Some excellent plays were made by  
both teams but it was plain to be seen  
that neither team had devoted any  
too much time to practice. The line-  
up of the home team was as follows:  
Davidson c, Pickering p, Gray 1b,  
Brooks 2b, Cathcart 3b, E. E. Oylear  
ss, Roy Hibbs rf, Conant cf,  
Oylear lf. For the game James Mul-  
laly acted as umpire and gave excel-  
lent satisfaction. We understand  
that a return game will be played at  
Johnson Sunday, the 22nd inst. The  
coming Sunday a game will be played  
with the Julietta nine at that  
place and on Sunday, May 29, a game  
will be played with Clarkston on the  
Genesee grounds.

### A STRANDED GROCERY PEDDLER.

"You make a slight mistake, I was one of the grafting grocery peddlers you refer to but am no longer such," said C. F. DeSucca when a reporter of this paper asked about the grocery peddling business.

Continuing Mr. DeSucca said: "Fred McCoy & Co. of 1930, Western avenue, Seattle, last winter made me a proposition to sell goods to the farmers, agreeing to pay 20 per cent of the purchase price. At that time Mr. McCoy represented the business as a strictly honorable one, and a good send to the poor farmers who by this method would be able to secure better goods at lower prices than the local merchants could sell them.

"The proposition outlined by him, seemed fair enough, as he agreed to furnish expense money until he made the first delivery, when I would receive my commission. I worked Harrington and Odessa and he went to Edwall, but the second day I was at Odessa he sent me a letter saying to go to Wilbur as he was going to Seattle not having been able to do any business in Edwall. I came to Wilbur expecting he would send expense money as he promised but it has not come. I am not particularly anxious to work for nothing and laid off pending an answer to my telegram for money. He sent me a wire telling me to come to Seattle but so far I have not received the money or letter. One thing is certain I will stay right here at his expense as he has guaranteed my expenses and I can collect it if he has anything. You can depend on one thing, he will never deliver a shipment in this county till he has settled with me, as I do not think his goods can pass the pure food laws. I will make a test of them at my own expense if the merchants don't."

"Has he any wholesale house in Seattle?"

"No, he buys his goods from Seattle jobbers and ships them to the farmers at about 50 per cent profit.

"How any farmer in his right mind can patronize these peddlers is more than I can understand. Why, the sample of coffee I carry in my case is nothing but a large Mexican Java that can be bought any place for 20 cents per pound, and I do not believe he sends as good quality as the sample. It's a confidence game and I don't want any more of it in mine.

"Why, just think of selling some five pounds of every kind of spice under the sun when you were reasonably certain that the nutmegs were wooden and the spices made of—God only knows what.

"But the worst of all is the 87c a pound tea. If these orders were ever delivered and the farmers saw the tea they bought for 87 cents, I would feel safer on a Russian battleship in Port Arthur, than in Lincoln county. I could ask protection from the marshal.

"It's pretty hard to understand how a smooth talker can make a farmer believe that a Seattle firm can pay a man's expenses and so per cent commission and send him out to sell better goods than the merchants can sell them here.

"But nevertheless a smooth talker can do the business. A man can't make a fortune on a wheat farm but can't protect himself. We sold over \$500 worth of goods at Harrington which would have made a gross profit of 100 per cent, or \$1000. Twenty per cent of that \$2000 or \$400 will go to the salesman. Just what the goods cost and what the farmers of Harrington get for their \$2000 is easily seen.

"Did you see that letter sent out by M. E. Hay a short time ago? Why, I thought that would put the peddlers to the woods but it didn't. However, the suckers are getting scarce and I think the peddling business is about over. This part of Lincoln county has been worked very thoroughly in former years. First by the buggy and store salesmen who were able to place their goods at from \$10 to \$40 higher for ranges and \$20 to \$40 higher on vehicles than they could have bought equally as good, or better, from the local dealers. Then these people were followed by the grocery people. The circular letter that they pay for a certain line of goods such as beans, sugar, flour, bacon and soap. Quote lower prices on these goods than the merchant can possibly meet, but don't let the farmer buy any from you if you can help it, but if he should, it will be sure to be omitted by an oversight of the factory, or the sugar refinery has broken down, or something.

"The prices of Schilling's baking powder is used by the peddler to advantage. The price at which it is generally sold in this country is 40c a can but the impression among consumers is that it contains only 20c. The farmer thinks he is getting a good for 20 cents but when he is shown the 12 oz. stamp on top of the can his passion against the merchant is easily aroused. The peddler sells his baking powder for 35 cents in stamped one pound cans, but he could buy the same powder from any merchant for 25 cents a pound.

"Schilling's tea is another catch like baking powder. It is put up in pound and 1/2 lb. packages the latter being for 20c. Like baking powder the package weighs 16 oz. Show a farmer this fact and he thinks he is getting skinned by the merchant.

"No, sir, I never would have come out from Seattle on this proposition if I had known it was a graft. One thing is certain, I don't want the job at any price."

The reporter then asked Mr. DeSucca if he could use his little conversation as an interview and he replied: "Go at it" and started for the telephone office whistling "I guess I'll have to telegraph my baby."—Wilbur Register.

### STOP A MINUTE

Ask yourself these questions: If you were going to build and was given the choice between a sound, bright and dry stock or a cracked, warped, green and bad manufactured stock, which would be your choice? Which would give the best and longest lasting results, and which would be the cheapest in the end? Remember there is a difference in lumber, the same as in anything else. If you believe that the sound, bright and dry kind should go into your building, when it does not cost more than the poor, green lumber, then we can do business with you. We handle nothing but the best. Coal, wood and fence posts always on hand.

### NORWEGIANS CELEBRATE.

Tuesday of this week the Norwegian people of this vicinity gathered at the farm of H. C. Tweed two miles north of the city and celebrated the 17th of May which is observed annually by these people as Independence day, being the anniversary of separation from Denmark. The crowd gathered to assemble early and it is estimated that there was in the neighborhood of a thousand persons visited the grounds during the day.

The program of the day was opened by music by the Genesee band and was followed by addresses by Revs. Mowen, Foss and Christenson and Fred Miller. The addresses were appropriate to the occasion and were listened to with much interest. The history of the Scandinavian people was reviewed and a clear explanation of the great influence on the civilization of the European countries invaded by the Normans during the middle ages, and later in America, was made. The speeches were all patriotic and showed that these people, who are now among the most loyal American citizens, have yet a great reverence for the mother country. The address by Rev. Christenson, who was formerly pastor of the Our Savior's Lutheran church at this place, was especially well received by his numerous friends. An interesting number on the program was a recitation by Miss Hanna Aaland delivered in the Norwegian language. Miss Aaland was dressed in Norwegian costume which made it an appropriate feature.

Both vocal and instrumental music furnished by the Y. P. S. choir, the Genesee band and Miller's orchestra, was furnished throughout the program. The band boys speak in highest terms of the treatment received from those having charge of the program.

The program was rendered from the south porch of the residence and was listened to by an immense audience which had gathered on the lawn in front. Norwegian and American colors floated conspicuously about the grounds, showing that the matter of decoration had been well attended to. Rev. O. C. Hellekson, the present pastor of Our Savior's Lutheran church, superintended the rendering of the program and was responsible to no small extent for the excellent manner in which the day's celebration was carried out. Following the program the crowd proceeded to partake of dinner, those having brought lunch baskets prepared sumptuous spreads on the lawn and in the house. Those who were not thus provided took advantage of the lunch counter and it is reported that nearly a hundred dollars was taken in in this way.

Immediately after dinner an auction sale consisting mainly of fancy needle work, was conducted by the ladies' aid society. This was successfully

### carried out and a nice sum netted.

In the afternoon a ball game was played between the Cow Creek and Potlatch teams. The game was hotly contested by both teams and some excellent plays made by both sides. The result was a victory for the Potlatchers in the ninth inning by a score of 16 to 10.

It was not until late in the day that the crowd began to disperse carrying with them many pleasant memories of the day thus spent.

### MISS FOWLER WINS CONTEST.

Best at Declamation in Class of Ten Pupils.

"Walla Walla, Wash., May 13.—Miss Madge Fowler of Whitman academy won the declamation contest tonight in a class of ten contestants, by subjecting a 'Second Trial.' Albert Phillips of the Waitsburg academy took second place, with the theme 'The Wild Olive Wreath,' and Miss Edith Lafferty of Union, Ore., third with the theme, 'The Sweet Girl Graduate.'

Judges—A. J. Gillis, Rev. Austin Rice, Miss Caroline Buck, J. M. Dixon of Columbia college, Milton, Ore. The chapel was crowded and interest was intense. There were many beautiful floral offerings to the winners."

The above dispatch has reference to Miss Madge Fowler of this city. In the try-out to ascertain who should represent Whitman college in the contest Miss Fowler was selected and it is evident that no mistake was made. The winning of the contest is a deserved honor and one that she may well feel proud of.

### VOLLMER OWNS SILVER KING.

By purchase of an outstanding undivided interest of the Silver King mine in the Ruby Creek mining district, Jao P. Vollmer's ownership is now complete. The transfer was made Monday, Mrs. D. R. McCoy, of Lapwai, deeding her interest acquired as heir of the estate of James McCoy. The Silver King mine is looked upon by mining men as a substantial proposition, and in general formation and quality of ore is identical to the galena producers of the Coeur d'Alene. One of the choicest ore samples in the mining bureau is a ninety pound sample of Silver King ore.

As to whether Mr. Vollmer will now commence work on the mine the Tribune has no information. Looking back to the discovery of the mine when Abels and McCoy laid bare the ledge while placing up the creek, it can be recalled that great excitement resulted, and that the panic of '93 fortunes were being spent in endeavoring to discover galena. Soon after the discovery Spokane mining men claim \$50,000 was offered for the prospect. Abels and McCoy refused any proposition that would allow the controlling interest to pass out of their hands. Mr. Vollmer secured a one-half interest by advancing a certain amount of money to be used mostly for development purposes, after which Mr. Brady, "father of Ruby creek," states a shaft was sunk 28 feet, producing more than 40 tons of pure galena ore running 200 ounces in silver and 40 to 60 per cent lead. The discoverers, then, according to the same authority, sought to "freeze" out Mr. Vollmer, and spent the balance of the development purchase money in diving a tunnel in a loose hill side.

The money was spent, and later on Mr. Vollmer secured an eighth more, passed the land to patent and today finds himself in complete ownership.—Lewiston Tribune.

"My mother had been a sufferer for many years with rheumatism," says W. H. Howard of Huskwa, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact she is never without it now and is at all times able to walk. A second application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

### DECORATION DAY.

At a meeting of citizens held Saturday evening, to determine whether or not Decoration day should be publicly observed, a number were in attendance. After a general discussion of the matter, a motion prevailed that J. E. Reed be made a committee of one on general arrangements, with power to appoint assistants and sub-committees.

Thos. H. Brewer was made a committee of one on music with power to name assistants.

It was the opinion of those present at the meeting that the day should be fittingly observed and all agreed to work to that end.

Mr. Reed has appointed as assistants on the arrangements committee T. Driscoll, J. K. Bell and Chas. Power.

On finance, John Pollett. Music, Thos. H. Brewer, W. E. English. Program, general committee. Street decorations, F. E. Dicus. Grand stand, George McMahon, Henry Herman, Miss Burdick, Miss Sundholm.

Seating, Thos. Day. The address of the day will be delivered by Rev. W. C. Fowler, James Mullaly will deliver an oration and Miss Pearl Owen will recite. A complete program will be published in our next issue.

### A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. P. Van Metre of Shepherdsburg, W. Va., says: "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by F. E. Dicus & Co., druggists. Trial bottles free. Regular sizes 50c and \$1.00.

### A GOOD WORD FOR THE LARK.

A Council Register editorial on "The Meadow Lark" is worthy of reproduction in all western newspapers, but the best we can do is to repeat its most salient points. The lark, says the Register, is a friend to the farmer and the gardener. He eats no grain and he is not likable for fruits, his diet consisting of harmful bugs and insects, such as beetles, caterpillars, ground worms, spiders, and spiders, flies and wasps.

The lark makes its home in every part of our country, is among the first in the spring to announce a change in weather conditions, is at home on the lawn, in the garden, orchard and field. The lark makes its nest on the ground in a cluster of weeds and bushes, perches on a tree, but prefers to walk or run on the ground. People who are not observant may mistake the lark for a species of quail.

The lark should be encouraged to come and to multiply. Though his flesh is tender and sweet, let the sportsman turn his gun another direction. In England the meadow lark is esteemed for its notes as it rises in the sky, beyond human sight, and is a theme for poets.

Spare the meadow lark! Spare the birds of any name.

Some twenty-five cars of lumber are being shipped from Kootenai county, this state, to Liverpool, England, to be used for the shipping industries at that point. They will be shipped by rail to West Superior and then by way of the great lakes to their destination.

### REPUBLICAN DELEGATES.

At the convention held at Pocatello Wednesday to choose delegates to the republican national convention, the following were elected: First district, Senator W. B. Heyburn; Second district, C. J. Hall, of Whitebird; Third district, W. E. Borah, of Boise; Fourth district, F. R. Gooding, of Shoshone; Fifth district, D. W. Starnord, of Pocatello; Sixth district, J. M. Stevens.

In the Sixth district there was a contest on between Stevens and Ben E. Rich, a prominent Mormon. In the Second district there was a three-cornered fight between Hall of Whitebird, Thompson of Lewiston and Truitt of Moscow. From the start it was a certainty that Thompson would not be selected as the Latah delegates considered him in no wise entitled to the honor and in the event that Truitt could not win out were willing to cast their votes for the Idaho county man.

Congressman French was made chairman of the convention and at the opening delivered a stirring address. President Roosevelt was unanimously endorsed.

Mr. and Mrs. J. E. Reed left Tuesday morning for Spokane to be in attendance at the marriage of Thos. H. Brewer and Miss Walbridge. They will not return until the first of the week.

Mr. and Mrs. X. Henry and Mr. and Mrs. Adolph Greiser returned the latter part of the week from Spokane. They report finding John Henry in a serious condition. He has again been taken to Chicago for treatment.

O. V. Foster and wife have deeded to C. E. Wood, for a consideration of \$4000, lots 1, 2, 3, north 30 feet of lots 10, 11, 12, block 18, West addition to Genesee. This is the old Genesee Roller Mills property and the purchase price includes the building and mill machinery.

The funeral of Mrs. Joseph Kamlich occurred Friday morning of last week from the Catholic church. Rev. Fr. Keyzer officiated and the services were very largely attended. Besides Mr. Kamlich one child, a five year old daughter, is left to mourn her early demise. Mr. Kamlich requests us to express his sincere thanks to all friends who so kindly assisted him.

A crank with a loaded revolver was recently found in John D. Rockefeller's bible class in New York. He did not get to use his weapon and was handed over to the police. Mr. Rockefeller kept cool when the discovery was made. He said it was hard to understand why the wicked so often live at ease and prosper, while the righteous suffer. It is a puzzle. Perhaps they have neglected to buy stock in the Standard Oil concern.

—Ed. O. Martinson, of Lewiston, well known to all Manilla veterans, was a visitor in the city Wednesday. He is serving as deputy assessor for Nez Perce county and called here to see property owners.

On Thursday, the 18th, the Smolt house was the scene of an unexpected though much appreciated little celebration. About thirty friends bearing gifts and good things to eat suddenly emerged from nowhere in the form of a jolly surprise party. Their object was to congratulate Mr. and Mrs. Smolt on the seventeenth anniversary of their wedding day.

—Mr. Norlin, of the firm of Naylor & Norlin, in the city from Lewiston. He informs us that the material for the water works has been on the road since the second of the month and is daily expected to arrive. They still have about forty days in which to install the plant and one hundred days in which to install the power from the date they are notified by the council which kind is to be used.

—Mr. and Mrs. H. A. Morgan witnessed the ball game at Moscow Wednesday between the teams of Whitman college and the University. The result was 16 to 8 in favor of Whitman. Arthur Morgan is playing second base with Whitman. Thursday and Friday they play against the Pullman college team and if successful in winning either one of these games will be winners of the championship of northwest colleges.

## BREWER--WALBRIDGE.

On Wednesday evening May 18, at the home of the bride's parents, Mr. and Mrs. George Walbridge, in Spokane, Thomas H. Brewer of this city was united in marriage to Miss Winifred Walbridge, Rev. George R. Wallace of the Congregational church officiating. Some forty relatives and intimate friends were present at the ceremony and nearly two hundred attended a reception which was held between the hours of 8 and 10 o'clock. Very elaborate preparations had been made for the event and it was one of the notable weddings held in Spokane during the season. They received many beautiful and costly presents.

On the Northern Pacific midnight train out of Spokane Mr. and Mrs. Brewer started on their wedding tour which will end in Genesee about July 4. At Portland they will make a brief stop and then proceed to San Francisco to remain for two weeks.

While on the Southern Pacific from that point they will visit New Orleans and may stop enroute at points of interest. From New Orleans they will take in the fair at St. Louis, then visit with relatives of the bride in Wisconsin.

Cards announce that they will be "at home" to friends after August 15 in Genesee.

The groom is one of the best known citizens of this section, having for the past twelve years been closely identified with the business interests of Genesee, being founder of the Genesee Exchange bank of which institution he is cashier. By tact and industry he is classed among the well-to-do and stands high in the estimation of the people. The bride, while nearly a stranger in Genesee, is an accomplished young lady who is very highly spoken of by those who have been fortunate enough to make her acquaintance.

—R. L. and Hope Burdick, son and daughter of Mr. and Mrs. R. L. Burdick who formerly resided at this place, arrived here Monday from Ashland, Oregon, on an extended visit. They were accompanied as far as Spokane by their mother who will visit eastern relatives.

—Mrs. Clarence Jain left Tuesday of this week for an extended visit with her people at Washburn, Wash. She was accompanied to Moscow by Clarence, Mrs. L. Jain and Mrs. Ferguson.

—Idaho Falls Register, the leading weekly of southeastern Idaho, predicts that by the time the republican state convention convenes, there will be but one name to go before the convention for the congressional nomination, that of the present incumbent, Burton L. French.

—R. L. and Hope Burdick, son and daughter of Mr. and Mrs. R. L. Burdick who formerly resided at this place, arrived here Monday from Ashland, Oregon, on an extended visit. They were accompanied as far as Spokane by their mother who will visit eastern relatives.

—Dedrick Nebelsieck carries one hand in a sling as a result of a bicycling accident Sunday. While riding down a steep incline in the road near the ranch he lost control of the wheel and was thrown into a barb wire fence, severely cutting one of his hands. The accident will lay him up for at least a month.

—Soren Halvorsen and family took their departure Friday for Kennewick where Mr. Halvorsen has purchased a small tract of land on the irrigation ditch, also residence property in the town of Kennewick. They took with them a car of household goods, farm implements, etc. It was with considerable reluctance these people left old friends and acquaintances here where they have resided since the early settlement of the country.

—There is a wide-spread opinion that the government of the United States is very expensive because congress appropriated about one billion of dollars at its two sessions. The department of labor and commerce has been looking into the matter and finds as follows: The amount of money per capita of the population necessary to be raised for the government is in the United States, \$7.97; in Germany, \$9.45; in Spain, \$10.00; in France, \$17.84; in Great Britain, \$21.39; in New Zealand, \$38.38.

—Prof. Shealey, of Spokane, an experienced school instructor, has been engaged by the local organization and will take up the work within a few days. He comes highly recommended and the boys feel confident that he is the man they have been looking for. During the week a subscription paper was circulated among the business men asking for a monthly donation and a guarantee of about \$30 was secured. The Professor expects to find employment in some other line of work and the band boys are in hopes that they can keep him here permanently.

—The contract for the erection of the Genesee Exchange bank building was awarded Monday evening to Collins & Walker, of Lewiston. For the material to be used in the construction of the building, a few changes will be made in the original plans. Instead of using repressed brick in the walls facing the front and side streets, what is known as buff brick will be substituted. The terra cotta trimmings have been cut out. The contract calls for the building to be ready for occupancy by August 15. It is likely that a little delay will be occasioned in securing the common brick but work of clearing the ground for the placing of the foundation will be commenced at an early date.

—Eli Larson is erecting a fine new residence on his farm north of town.

—The James and Charles Larabee families moved into their new home Monday.

—Louis D. Schattner, deputy U. S. marshal, was here from Lewiston on Sunday.

—John Lorang is hauling lumber out for the erection of his new farm residence.

—Nig, the old dog of the Bressler family, departed this life for the happy hunting grounds Thursday of last week.

—R. D. Curtis and Miss Sinclair, the former an old acquaintance of the Bugge people, were visitors from Moscow Sunday.

—Mrs. A. Bilger, of Portland, arrived here Sunday for a visit at the home of her son, H. F. Bilger. She expects to leave Sunday for Clealum, Wash., to visit with a son living there.

—Work on the Carbuhi residence was commenced in the northern part of town Monday of this week. The building will be 28x28, story and a half high, and when completed will add much to the appearance of the northern part of town.

—Dr. H. J. Smith and Conrad Martin attended a session of the Elk's lodge at Moscow Saturday evening. They report that the \$20,000 temple to be erected at Moscow is now an assured fact, the necessary funds having been raised.

—E. G. Beckman, employed with the Craig Mountain Cattle Co., came in the latter part of the week from the Salmon river where he has been spending the winter. While a resident of Genesee Mr. Beckman was associated with C. H. Stancliff in the Blue Front store.

—The Rainbow Club gave another delightful dance at Elliot hall Thursday evening of last week. While the attendance was not as large as at the one given a short time ago, those present had an excellent time. The music was a leading feature of the dance. Light refreshments were served.

—C. E. Wood left Monday morning for Pocatello to attend the republican convention. He was accompanied as far as Walla Walla by Mrs. Wood who will visit with Lena who is attending Whitman college. Fred Nagel, who had intended to accompany Mr. Wood, found it impossible on account of business matters.

—Mr. Mathias Buechler was born in Luxemburg, Germany, January 7, 1832. When 19 years of age he came to America, going to Milwaukee, Wis., and very soon after to St. Louis, Mo. Here he lived for many years, working in various occupations, chiefly milling. In September, 1861, he enlisted in Company E, First Missouri Light Artillery, under Capt. Charles Mann. His company was kept in Missouri until February, 1862, when he was sent to Fort Donaldson, thence to Fort Henry and to Pittsburgh.

At the battle of Shiloh he received a severe wound which disabled him for service, and on the 18th day of September, 1862, he was honorably discharged.

In the year 1865 he was united with Miss Gesine Gieser in holy wedlock. Six children were born to them in this union. Two have gone before him, a son and an infant daughter. He came to the Nez Perce country in the year 1882, and was soon followed by his family which he left in St. Louis while seeking a new home.

His exemplary assiduity and honesty stood him well at all times. He was a prosperous farmer; an advocate of right; a sober and faithful christian, a kind husband, an ardent parent. After a brief illness with acute Bright's disease, on Monday, May 16, 1904, came the final call from his Master, for which he so greatly longed. He departed this life at the age of 72 years, 4 months and 14 days. There remain to mourn his death a sorrowing widow, a daughter, three sons and one brother. The departed was a member of the Lutheran church and was buried in the church by Pastor Eyrich on Wednesday afternoon.

Mr. Buechler was well known by everyone in this community. Of him it can be truly said, he had not an enemy. The sympathy of all goes with the sorrowing relatives.

—Mr. and Mrs. H. D. Rylie, of Colton, were registered at the Grand Central Sunday.

—Eugene Miller, a brother of Mrs. Chas. Jain arrived here Monday from the Coeur d'Alene country on a visit.

—A dance given Tuesday night at Elliot hall by the Hunter orchestra was very largely attended and an enjoyable time had by all those present.

—Rev. G. S. Eyrich conducted confirmation services at Uniontown Sunday. There was present a large delegation from Genesee, including the German Lutheran choir.

—The site on which the Iriquois theatre stood has been sold to New York and Boston capitalists and a new theatre will be erected, to be opened next fall as a vaudeville theatre under another name.

—Agent Smith of the Northern Pacific has presented us with a handsome calendar of the Alberta route, showing a bird's-eye view of the World's Fair grounds at St. Louis. The Alberta route is an eastern connection of the Northern Pacific and parties wishing to visit the fair, going by way of St. Paul should consult him.

—Fire destroyed the farm home of Pete Kennedy near Lenville, Saturday, together with nearly all its contents. The origin of the fire is not definitely known but it is believed to have been started by the careless use of matches. Mr. and Mrs. Kennedy were away from home at the time but two of the boys succeeded in saving a portion of the furniture. We are not advised as to the extent of the loss or whether or not the building and contents were insured.

**POPULAR OCEAN BEACH.**

Many From the Interior Planning to Spend their Vacation at the Sea Shore.

Hundreds from Eastern Oregon and Washington spent their vacation at North (Long) Beach, Washington, last summer, and it is safe to say that this popular resort of the Pacific Coast will be visited by many more this year than ever before in its history.

The trip on the Waimette and Columbia rivers, out of Portland, is one to be remembered the usual heat of a summer afternoon being tempered by a gentle breeze freighted with the aroma of pine trees and seasoned with salt sea air. The scenery includes much that is beautiful. Leaving Portland on one of the Oregon Railroad & Navigation Company's palace river steamers, (the T. J. Potter being queen of the river flyers) the excursionist is carried through its harbor where fly the flags of many nations. The view from the Waimette river is quickly made, and, after sailing the government light-house, marking the junction of the two rivers, the boat swings into the Columbia for the trip down stream.

The morning is clear (generally so from June until September) and a magnificent and inspiring sight meets the eye as the sweep around the bend is made—five snowcapped peaks, Mount Hood, Mount Adams, Mount Saint Helens, Mount Rainier and Mount Jefferson, loom in the distance, their worth traveling thousands of miles to see. On down the picturesque river, past villages, sawmills, fishing fleets, salmon canneries, perpendicular basaltic bluffs, and pretty side-hill farms, the boat pursues its way. The majestic sweep of the river is awe-inspiring. Gradually the shores grow farther apart and, scarcely realizing that the five hours have been consumed in making the trip, the boat steams alongside the wharf at Astoria.

One hour from Astoria, through the famous fishing waters of the Columbia, past scores of salmon traps and nets and as many white-winged fish boats, lands the passengers at Ilwaco, on Baker's Bay, where construction for beach points is made with trains of the Ilwaco Railway & Navigation Company, whose cars stand on the wharf awaiting the steamer. North Beach, where the surf bathing is popular, at low tide is from 300 to 400 feet wide, twenty-three miles long and so compact that a carriage or wagon scarcely leaves a trace upon it. Scattered along the beach are hundreds of cottages and hotels in which summer life is in a pleasing round of pleasure from an opening until the close of the season. The much dreaded "Resort Mosquito" is unknown and no venomous snakes or insects are found. The thermometer rarely goes above 80 degrees in July or August, and light morning and evening and blankets at night are comfortable during the season.

Rates for accommodations at North Beach points are reasonable and vary to suit the visitor. At European hotels and lodging houses rooms range from twenty-five cents to one dollar a day; at restaurants, meals run from twenty-five to fifty cents; and at the American plan hotels, the charges range from one dollar a day to two dollars and upward.

Dosage of the pills may be taken from the beach into the country of wild and picturesque beauty, quiet and secluded among hills and forest, with hunting and fishing in native haunts; to the United States Life Saving stations and lighthouses, cranberry farms, oyster beds, salmon fishing grounds and pantries.

For particulars about the trip to North Beach ask the nearest O. R. & N. agent, or send two cents in stamps to W. E. Smith, Chief, general passenger agent, Portland, for "Beach Recreation Reports", which tells all about the Columbia River summering places.

**WORLD'S FAIR NEWS NOTES.**

The exhibit of the Philippine Islands at the World's Fair costs more than \$1,000,000. More than 1,000 native Filipinos will comprise a part of the exhibit, and 40 acres of ground are required for the Filipino buildings and villages. An accurate reproduction of a section of the wall around ancient Manila is one of the architectural features.

The sculpture adorning the World's Fair grounds at St. Louis, Mo., is the work of the world's greatest sculptors, has cost more than half a million dollars. Sculpture was never used so freely in an exposition grounds, and critics say that the offerings never possessed so great artistic merit.

Until further advised both tourist and standard sleeping cars will be run through without change from Spokane to St. Louis by the Northern Pacific. This gives passengers going to the Fair increased advantages over old system.

**ULTIMATE FAME OF ROOSEVELT.**

In 50 years from now the fame of Theodore Roosevelt will not rest on the fact that at the age when he became president he had crowded more into his life than any other American, living or dead. It will not rest on his romantic record as the gallant leader of the "rough riders" or his valor at San Juan. It will not rest on his "cowardly" as a man of letters or on any of the interesting books he has produced. It will not rest on his strong and attractive individuality or on any of the unique personal traits that have differentiated him from other public men. But it will rest on the consistent hatred that he has shown for grafting and the fine courage he has displayed in cleaning out the departments of the national government, rejecting, not the bottom, but at the top, where corruption may be administered to those who have been guilty of the abuse of power or treachery to their high trusts.—Kansas City Star.

From the Chapin, S. C., News: Early in the spring of 1901 I was afflicted with diarrhoea and so severe were the pains that we called a physician who prescribed for me, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy had given me each of us a dose and we at once felt the effects. I procured a bottle and before long the pain was broken and the bowels entirely cured. It is a wonderful remedy and should be found in every household. C. S. Fuller, Editor. This remedy is for sale by all druggists.

**A Startling Test.**

To save a life, Dr. T. G. Merritt, of Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "A patient was attacked with violent hemorrhages caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at F. E. Dicus & Co., druggists.

**Whooping Cough.**

"In the spring of 1901 my children had whooping cough," says Mrs. D. W. Cappe, of Appa, Ala. "I used Chamberlain's Cough Remedy with the most satisfactory results. I think this is the best remedy I have ever seen for whooping cough." This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells and counteracts any tendency toward pneumonia. For sale by all druggists.

**ARGUES FOR GOOD PRICES.**

United States Wheat Crop for 1904 Will Be Short.

The Cereals Commission Co. market report, dated May 13, says: "The government report issued last Tuesday makes the winter wheat condition the same as last month, 76.5 against 26.6 last year, and a loss of 4,632,000 acres. This suggests a crop of 350,000,000 bushels against a total crop last year of 412,000,000 bushels.

"The market the past two days has kept up its traditional course after a bullish government report and sold off. It is an axiom that the market always sells off on a bullish report. We regard the report as very bullish and as above stated indicates a shortage in the winter wheat crop of about 60,000,000 bushels. On this outlook we do not care to sell wheat short even at higher prices than are now ruling.

"It is probable that before many days there will be much less import, as attached to percentage of condition and more weight given to the shortage of nearly 50,000,000 acres. If it turns out that present prices are not yet high enough to reflect the depleted supplies from the 412,000,000 bushel crop of last year, what may be reasonably expected as a price level for a yield of 350,000,000 bushels, with a smaller reserve to begin the crop year than last year?"

**THE BIG ENCAMPMENT.**

Adjutant General Vickers has been advised by Senator Heyburn that the war department has delegated Captain Walsh of Walla Walla to assist him in organizing and transporting the Idaho national guard to rendezvous at American lake, near Tacoma, in July, says the Boise Statesman. The news will prove especially pleasing to the officers and men of the Idaho regiment with whom Captain Walsh is very popular. General Vickers is also delighted at the prospect of working with the captain in this important undertaking.

Idaho will be represented at the encampment by twelve companies of about sixty men each. The companies from St. Anthony, Idaho Falls, Blackfoot, Pocatello, Albion, Nampa, Fayette and Weiser will each have a special car and another car will be assigned to the officers who will likely meet at Nampa. These companies will journey over the Short Line and O. R. & N. The Northern Pacific will transport the companies from Rathdrum and Sandpoint.

**STATE UNIVERSITY NEWS.**

Last Saturday the University of Idaho brought its athletic year to an end by administering a crushing defeat to Whitman college in the field meet. Idaho won 77 points and Whitman 50. This showing is all the more remarkable when it is remembered that the Idaho faculty refuses to allow any of the students who are deficient in a single study to represent the University in an intercollegiate contest. This strict rule prevented men who hold the college record in seven events, from taking part. They stood on the side lines as spectators. Yet, Idaho's victory was most decisive. This rule has prevented five of Idaho's best base ball men from playing this year.

The bids for the new gymnasium are being considered by the board of regents. Soon the contract will be let and the construction will be begun at once. When completed it will be the finest college building west of the Rocky mountains.

The debate season ended recently with a double victory. On the same night the freshmen team defeated the State Normal School at Cheney, and the preparatory team defeated the high school team at Walla Walla. Hitherto the Walla Walla school has been undefeated. It had defeated the Spokane high school, the college preparatory team of Pullman and Whitman academy. But the Idaho "Prep" team defeated them on their own ground. All the judges were Walla Walla men. This year Idaho has had eight debates and has won six of them. No other University in the country, not even Harvard, can point to such a record as this.

**THERE ARE OTHERS.**

Idaho County seems to be the mecca for which all strive. Every spring, with the approach of good weather, finds them with their junk looking for a vacant building or driving over the prairie to fleece the unsuspecting farmer. With brazen impudence they will declare that what they have to sell is just as good as that offered by your local merchant and you can buy it at half price. They will explain how they came in possession of their goods and why they are selling at a sacrifice. And there is always somebody to buy. Somebody that is always going to get something for nothing and then finds out that he is a sucker. We cannot understand why bright, intelligent people will permit themselves to be victimized by people they have never before seen and will never see again. Your home merchant has goods to sell and if they are not what he represents you have recourse. But when you buy of the peddler and find you have been robbed he has left the country, and takes your money with him. He pays no taxes, never gives to build up your country, gives nothing to your schools and churches, and neither the most nor financial condition of your neighborhood has been benefited by his presence.—Free Press.

**Cured His Mother of Rheumatism.**

"My mother had been a sufferer for many years with rheumatism," says W. H. Howard of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

The condition of W. M. Thompson, though but slightly improved, gives hope of his recovery.  
—Read the new ads. of the Schreiber Implement company, The Fair, The Bee Hive and James K. Bell.

—Arthur Morgan came up Saturday from Pullman where the Whitman college ball team had been playing with the Agricultural college team. He returned to Walla Walla Monday.

—Mr. and Mrs. C. E. Wood returned home Wednesday after an absence of a week from home, the former having attended the convention at Pocatello while the latter visited with her daughter at Walla Walla.

—Marshall Driscoll is hot after loose stock. Wednesday of this week he gathered in about 25 head. To be on the safe side your stock should not be permitted to run at large. Considerable complaint is being made by different parties whose gardens, lawns and shrubbery have suffered in consequence.

—Francis Jenkins' little boomlet for the office of governor received a number of severe punctures at the recent Pocatello convention. At no time has Jenkins' candidacy been considered seriously by nine-tenths of the republican voters of this county. He has no claim upon the party in the county for their support and it is an assured fact that he will not receive it.

—"Enjoy yourself while you can," said the late Bill Nye, "for you will be dead a long time." Optimism is life. The man who is forever drawing about him a shroud of gloom is slowly but surely killing himself. Without the sunshine the flower leads a pale and sickly life. Neither will human kind blossom and gladden itself and its fellows without looking upon the brightness of things.

—A new socialist paper will be issued shortly from Russell. A lot has been purchased and the requisite amount of capital subscribed to launch the enterprise. It was the original intention to locate the paper here at Nezperce but upon a vote being taken Russell was decided upon as the point from which to issue. It is the intention of the promoters to make this the state organ.—Herald.

—One day this week a foreign grocery peddler visited one of the local stores and asked for ten cents worth of raisins. When shown a number of varieties selected an article which is sold at a very low price. It is evident his game is to travel around among the farmers and exhibit them and it is safe to presume that he misrepresents the price at which they are sold. To those who buy from these vendors under such circumstances it is only fair that they take a sample of the articles purchased to the home merchant and compare them with goods carried in stock and ascertain if they cannot be duplicated at an equal price.

**CHURCH NOTICES.**  
There will be no services at the Congregational church next sabbath morning on account of Memorial services at Christian church. Services as usual in the evening.  
Memorial services will be conducted at the Christian church Sunday morning and the sermon will be delivered by Rev. P. R. Burnett. The G. A. R. will attend in a body. The public is cordially invited.

### DECORATION DAY EXERCISES.

Decoration day this year comes next Monday and the day will be fittingly observed by the citizens of Genesee and surrounding country at the city park from 10:30 to 12 o'clock a. m. An excellent program which appears below will be rendered.

There will be a parade by the schools to start from the school house at 10 o'clock headed by the Genesee brass band and chaperoned by Prof. Cobbs.

All who desire to take part in the parade will rendezvous at the school house at 10 o'clock sharp and fall in line in the rear of the schools. Those who do not desire to march in the parade can go direct to the park where seats will be prepared for all.

It is sincerely desired and urged by the managing committee, who have done all in their power to provide an interesting and instructive program, and the speakers who have given their best efforts to preparations for the occasion, that all business places be closed for the short period of two and one-half hours.

Are they asking too much when we consider, that had it not been for the unselfish devotion and sacrifices of the heroes whose graves we decorate, we might not have a free country in which to do business?

**PROGRAM.**  
Music—Address—Genesee Brass Band  
Prayer—Chaplain  
Memorial Day Ode—Glee Club  
Recitation—Fairy Opera  
Orations—James Maltby

### THOSE DANDELIONS.

How to get rid of the dandelions is a problem which owners of fine grass plats would be glad to solve. There are few annoyances that cause the lover of a pretty grass plat so much trouble and as the apparently inexhaustible crop of dandelions, and no matter with how much care the plants are removed, they spring up with renewed vigor in quick time.

A Portland gentleman has written to the Oregonian to say that many people bring more of this trouble upon themselves by trying to exterminate dandelions by cutting the plants off just below the ground. A great deal of this is done early in the spring by people collecting dandelion plants for "greens." This, it is said, does not kill the plant, but causes each root to throw out several shoots, and thus multiplies the number of dandelions. The Oregonian correspondent writes to impress his fellow sufferers that if, when they cut off the dandelion plant below the ground, they will drop a pinch of salt or a teaspoonful of coal oil on the root left in the ground, it will eventually kill it. This may seem to be extra work, but to one who is set on keeping his grass plat clear of dandelions it may save a lot of trouble.—Chronicle.

### O. R. & N. SUMMER BOOK.

The handsome 1904 summer book, "Restful Recreation Resorts," issued by the passenger department of the Oregon Railroad & Navigation Co. is just out. It tells all about the summering places of the Columbia river valley—a brief description of the trips up and down the Columbia river, mountains, beaches, inland resorts and fountains of health, where they are and how to reach them. A copy of this publication may be obtained by sending two cents in stamps to A. L. Craig, general passenger agent of the Oregon Railroad & Navigation Co., Portland.

FRIDAY, MAY 27, 1904.

—Kendrick will celebrate the 4th.  
—Charles Steuart came in Thursday from Tekon.  
—Paul Rock returned to Genesee the latter part of the week from Oregon.  
—Mrs. George Raymond came down from Spokane Thursday for a visit with her people.  
—Le Rue Tice visited Troy the latter part of the week where he went to assist in shipping a car of potatoes from that point.

—Everything is in readiness for the high school commencement exercises which take place at the Congregational church this evening.  
—Ernest Miller writes us from Mullan to discontinue his visit to the Nells at his address at that place as he expects to return to Genesee about the first of the month.  
—Rev. G. S. A. Brylich left Tuesday morning for Cameron where he was called to conduct funeral services over the remains of a four year old child of Rev. and Mrs. Fincke at that place.

—The Beecher family wishes through the News to extend thanks to the many neighbors and friends who befriended them during the illness and burial of their husband and father.  
—Thursday of last week Payne Sly, the murderer of Marshal Hayes at Troy last January, was arraigned in the district court on the charge of murder in the first degree. He pleaded not guilty. His case will come up for trial tomorrow.

—Newton Eller and Jack Anderson were taken in the first of the week by Marshal Driscoll and assessed \$15 and \$30 respectively by Justice Burr for being drunk and disorderly. Not having the price they are bonding at the expense of the city.  
—Our juvenile ball players are playing Lapwai Friday of last week and play against the Indian boys of a like age. Our boys won the contest by a score of 18 to 15. A return game will be played on the Genesee grounds tomorrow afternoon and will be worth witnessing.

—Senator Turner is an open candidate for the vice presidency on the democratic ticket. The democratic state convention for Washington will not be held until after the national convention is held and in the event that he is not chosen for second place on the national ticket it is almost an assured fact that he will accept the nomination for governor.

—The University commencement exercises will be held at Moscow the first week in June. The baccalaureate sermon will be delivered Sunday, June 5, by Rev. C. E. Gibson of Moscow. Tuesday night, June 7, Avery C. Moore of Idaho county will deliver the annual oration. Wednesday, June 8, President Thomas F. Kane of Washington university will give the commencement address.

—It is a little early yet for the people to visit the St. Louis exhibition, since the farmers are still engaged in seeding; but later on the grand rush will begin. The fair really opened a month too soon, and thus far about \$15,000 per day has been paid for admission. But it may yet be a grand success, and save Uncle Sam the necessity of taking charge of the gates and putting the receipts into the pockets of those striped trousers.

—Joubert and O'Donnell who have been touring the coast are reported as being impostors. They have been lecturing supposedly in the interests of establishing a Boer colony in the United States. Interested parties recently made inquiry from the Boer Roy Ethbe injured one of his shoulders and had to withdraw from the game. Will Gray was hit in the forehead by a pitched ball and for a while it was thought that he was seriously injured, but he has again fully recovered. Fay Pickering was up from Lewiston to pitch the game and it is said struck out fifteen men during its progress.

—Our ball boys went to Johnson Sunday to cross bats with the team of that place and returned late in the evening with their colors trailing in the dust. The Johnson team scored 15 runs while the local team was successful only in placing 3 to their credit. It was Genesee's off day and the boys not only put up a poor game but were also out of luck. While making a slide to one of the bases Roy Ethbe injured one of his shoulders and had to withdraw from the game. Will Gray was hit in the forehead by a pitched ball and for a while it was thought that he was seriously injured, but he has again fully recovered. Fay Pickering was up from Lewiston to pitch the game and it is said struck out fifteen men during its progress.

—The effect of the light wheat crop in Washington last year is shown in a dropping off in the foreign commerce of Puget Sound. Returns for the first quarter of 1904 show total foreign exports from the district to have been \$7,015,495, compared with \$9,059,273 for the corresponding month last year. San Francisco during the first quarter had foreign exports of \$6,853,919, against \$7,736,456 last year, showing that the Sound still maintains a lead over its rival at the south. The prospective bumper crop of this year will be welcomed in restoring foreign trade to its normal level of increase as well as for its effects in increasing the wealth of the Eastern Washington farmer.—Trade.

—Mrs. A. J. Favor, of Moscow, is a visitor in the city.

—Mrs. U. G. Dickson returned Saturday from her visit to Spokane.  
—Sam Olson left Tuesday morning for Spokane to receive treatment for his eyes which have been causing him a great deal of trouble of late.  
—A game of ball will be played on the home grounds this afternoon between the high school nine of this place and a nine from the Julietta high school.

—Emil Thoma has purchased the small residence building on the Exchange bank property opposite the News office and will move the same to the three lots which he purchased from W. J. Herman near the Biram home in the northern part of town. The coming fall he expects to build an addition to the same and occupy it with his family.

—Ole Olson, of Duluth, Minn., while in the city the latter part of the week secured an option on the Ed. Walters stock of jewelry. Mr. Olson has returned to Duluth to settle up his affairs and expects to return here within a short time. Mr. Walters states that if the sale is carried out he will remove from Genesee and may possibly take up some other line of business.

—A Texas editor hits the right spot when he says: "The sorriest fellow on earth is the fellow who will sit around and cuss his own town. If I lived astride the north pole, I would call it home and be ready to boost it up. If I could say nothing else about it, I would say that my ice bill did not 'come high.' I would not stay in a town that I had to cuss—not while the world is as big as it is now."

—The last of the season's shipment of potatoes went out Friday morning of last week, two cars being sent to California by J. W. Higgins. Mr. Higgins, who is quite an extensive dealer in produce says that in all probability California will furnish quite a market for potatoes during the coming season as great damage has been done there by floods. During the shipping season just closed 23 cars have been sent out from Genesee to the various markets, and the price paid to the producers has been excellent. For the twenty-three cars sent out not less than \$3000 has been paid the producers tributary to Genesee.

—A game of ball is scheduled to take place on the home grounds Sunday between the local team and the Clarkston nine. Admission to the grounds will be 25 cents and the game will be called at 2:00 o'clock. The Clarkston team has sent word that they will remain until Monday and play another game in the afternoon which will make an additional Decoration day attraction.

—Harry Gordon, who in February, 1896, was sentenced to the state penitentiary from this county for life for complicity in the killing of a young man by the name of Fox in this city, has made another application for pardon which will be heard before the state board at their July meeting. In a former application he asked that his sentence be commuted to a term of year; but the board saw fit to let the verdict of the court and jury stand.

San Francisco during the first quarter had foreign exports of \$6,853,919, against \$7,736,456 last year, showing that the Sound still maintains a lead over its rival at the south. The prospective bumper crop of this year will be welcomed in restoring foreign trade to its normal level of increase as well as for its effects in increasing the wealth of the Eastern Washington farmer.—Trade.

—Mrs. A. J. Favor, of Moscow, is a visitor in the city.  
—Mrs. U. G. Dickson returned Saturday from her visit to Spokane.  
—Sam Olson left Tuesday morning for Spokane to receive treatment for his eyes which have been causing him a great deal of trouble of late.  
—A game of ball will be played on the home grounds this afternoon between the high school nine of this place and a nine from the Julietta high school.  
—Emil Thoma has purchased the small residence building on the Exchange bank property opposite the News office and will move the same to the three lots which he purchased from W. J. Herman near the Biram home in the northern part of town. The coming fall he expects to build an addition to the same and occupy it with his family.  
—Ole Olson, of Duluth, Minn., while in the city the latter part of the week secured an option on the Ed. Walters stock of jewelry. Mr. Olson has returned to Duluth to settle up his affairs and expects to return here within a short time. Mr. Walters states that if the sale is carried out he will remove from Genesee and may possibly take up some other line of business.

—A Texas editor hits the right spot when he says: "The sorriest fellow on earth is the fellow who will sit around and cuss his own town. If I lived astride the north pole, I would call it home and be ready to boost it up. If I could say nothing else about it, I would say that my ice bill did not 'come high.' I would not stay in a town that I had to cuss—not while the world is as big as it is now."

—Dr. and Mrs. W. H. Ehlen returned home Wednesday. Dr. Ehlen left early in the April for Chicago where at the Chicago school he took a post graduate course. Enroute home Mrs. Ehlen met him at St. Louis and together they took in the sights at the big fair. They state that in their opinion it is not advisable for people to visit the fair until later in the season as the exhibits lack a great deal of being completed as yet.

—James H. Wilson, wife and daughter of Fall River, Mass., who have been visiting at the home of Mr. and Mrs. C. E. Bowen during the past two weeks, continued on their journey Thursday. They left their eastern home in March and have visited many places of interest including a tour of California. From here they will take in the sights of Utah, the World's Fair and different points east and south expecting to arrive home in July. Mrs. Wilson is a sister of Mr. Bowen.

—The Petersen & Dunbar vaudeville entertainers have been playing to crowded houses this week. Their final performance will take place Monday evening. Saturday afternoon a matinee will be held and Saturday night following the performance the floor will be cleared to give those who care to an opportunity to dance. The members of the company, besides being good entertainers, are ladies and gentlemen. The performance Wednesday night was considerably marred by the presence of a number of small, twenty year old boys.

—A foreign grocery peddler recently called upon one of our progressive farmers and solicited an order. After he had said his little say the farmer asked him if he would buy his butter and eggs and other produce to which query the peddler responded that his company was not in a position to handle them at the time but were making arrangements to attend to all such business. He was requested by the farmer to move on and call again when his house had completed their arrangements and in the meantime he would continue to patronize those who purchased his produce and pay taxes for the general good of the community.

IN THE EARLY DAYS.

Incidents From the Territorial Days in Idaho When Corruption Prevailed

The message of Governor Lyon to the second territorial legislature of Idaho is scarcely a leaf out of an old book, for the book is new to almost every citizen of the present state.

On July 10, 1863, the territory of Idaho was organized by proclamation of President Lincoln, and William H. Wallace, previously delegate to congress from the territory of Washington, appointed governor.

The second legislature, held in 1864, passed an act removing the capital to Boise, but the change was resisted and maintained in the supreme court, and there the matter rested.

From the Chapin, S. C. News: Early in the spring my wife and I were taken with dizziness and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief.

GRADUATING EXERCISES.

A packed house greeted the graduating class of the Genesee high school at the Congregational church Friday evening, and the manner in which the exercises were received was unmistakable evidence that the public schools hold a high place in the hearts of the people.

The stage decorations were up to the usual standard for such memorable occasions and the class colors of lilac and white were very much in evidence. A choice lot of cut flowers and roses were scattered promiscuously about the stage.

We regret our inability to publish entire the utterances of the graduates. The program was a fine one in every particular and the audience was by no means lacking in appreciation.

Following is the program as rendered: Invocation. Rev. F. M. Canfield. "Joy of Youth" W. K. Haglund, H. A. Thatcher, Mrs. Sweet, Mrs. Ruge.

Salutatory Lucinda Haskin. Oration "Fountain of Happiness" Hattie C. Liane. Valedictory Mollie G. Keane. "True Nobility" Hattie C. Liane.

Instrumental Duet "Midnight Wre Alarm" Hattie Floyd Rosestein, Elva Belle Gray. Class Prophecy Mollie G. Keane. George Mochel.

Six graduates were presented diplomas as follows: Lucinda Haskin, Elva Belle Gray, Hattie C. Liane, Mollie G. Keane, Hattie Floyd Rosestein, William Platt.

The graduates wish to thank all who so generously assisted them in making the exercises a success.

ANOTHER BIG RACE MEETING

Plans are well under way for the holding of the fourth-annual race meeting of the Genesee Driving Club. A committee appointed for the soliciting of funds to assist in making purses, has met with good results and the success of the meet is assured.

Thursday and Friday, June 23 and 24

We expect to be able to publish a complete program in our next issue. The usual games of base ball, Indian races and juvenile events will take place. Tell your neighbors and friends! Watch these columns for particulars.

MEMORIAL DAY.

As per arrangements Memorial day was fittingly observed in Genesee. The day was an ideal one and the attendance was very large. In the early forenoon the G. A. R. members and the W. R. C. ladies drove to the cemetery and decorated the graves of the deceased veterans. Upon their return the school children, headed by the Genesee band, marched from the school house to the city park where the exercises of the day were held.

"SELF RISERS."

"Self Riser" is the nickname of Idahoans. Jack K. Hardy, formerly of Salt Lake, and now private secretary to Gov. Morrison, has become quite a historian to judge from the following story in the Boise Statesman: In running through Governor Morrison's mail the other morning, Secretary John K. Hardy encountered a letter from an eastern publishing house asking for the nickname of the state of Idaho since the people thereof.

The house was about to issue a standard dictionary, the letter explained, and wishing to be exact on this point, it desired that the governor should furnish it the necessary information.

"John," said the governor, "I hereby appoint you a committee of one to consult with whomsoever you consider best qualified to furnish you with the facts in the case and make reply to this letter in accordance with the findings."

Secretary Hardy accepted the commission under protest. He commended with leading old timers and authorities on early day happenings and as a result the following letter was dispatched to the publishing house: "Replying to your communication of the 25th ultimo, inquiring as to the nickname applicable to the state of Idaho and her natives, I beg to advise you that Idaho was called the 'Gem of the Mountains,' her natives 'Self Riser'."

"Twenty-five or thirty years ago, in the days when commodities were transported by freight outfits and pack trains, W. L. Thurman, a miller of the Boise valley, prepared a flour, intended especially for the use of freightmen, which contained all the ingredients necessary to insure light bread; water alone was needed to complete the compound when it left the mill. This flour was called 'Self Raising.' A family of emigrants, coming to the state, secured a number of sacks of flour, and, with true emigrant frugality, the mother of the brood made bread for the future citizens of the 'Gem of the Mountains' from the sacks. Across the seat of the pantaloons of one of the boys, in large blue letters against the white background appeared the words 'Self Raising,' and as the little chap labored with the balance of the family in the clearing of a tract of sagebrush land, he advertised and established the fact that Idahoans are 'Self Risers.'"

Florence Davis, a negro girl of 17 years, stands at the head of her senior class in a high school in Chicago, and will have the distinction of being the first negro girl to become valedictorian of a graduating class in the Chicago public schools.

A car load of American Field Fence, at T. Driscoll's.

Senator Dubois arrived in Salt Lake the latter part of last week from Washington and held a conference with the anti-Smoother people. He declares the Smoot investigation will be pushed to the bitter end, but that nothing will be done until after the election.

A dispatch from Washington states that D. H. Budlong has resigned as register of the United States land office at Coeur d'Alene on account of ill health, and Robert Dunn of Shoshone county has been appointed to the place. Colonel Budlong was serving his second term and was appointed the last time as a compromise candidate after a long and acrimonious campaign in which John F. Vost, formerly of Sandpoint, was an active candidate. Mr. Dunn is a former county attorney of Shoshone county.

For the Sly murder case which is on at Moscow this week, L. Jain, D. Smith, A. A. Dobson, H. W. Morris, H. M. Rogers, Samuel Smith, Victor Welter, S. H. Knepfer, Bernys Brigham, H. J. Starr, John Meyer and John Brown were accepted as jurors. The case was called Tuesday. County Attorney Stillinger, assisted by Frank Moore, has charge of the prosecution and S. S. Denning and Warren Truitt are attorneys for Sly. Sly will claim self defense and will attempt to prove that Hayes fired the first shot.

Evidence that the Chicago & Northwestern Railway company will build an extension from Bellefourche, its present western terminus, to Miles City, Mont., this summer, are responsible for rumors being again circulated that the Northwestern intends to push on to the coast. It would be a good thing for the Pacific northwest should the Northwestern line build into Spokane and then by up the Bellingham Bay & British Columbia way and bring about the dream of its promoters of building across the Cascades through the Okanogan country and into Spokane. This would mean another transcontinental line, feasible and profitable to all parties concerned.—Trade.

Miss May L. Scott, state superintendent of public instruction of Idaho, is at the Hotel Portland today enroute to Vancouver, says Wednesday's Portland Telegram. Here Miss Scott and her sister, Miss Anna Scott, will meet a blind, deaf and dumb ward of Idaho, who have been attending school there for the past nine months, and convey them over the Northern Pacific to Lewiston and their several homes for their three months' vacation. Immediately after locating this class of unfortunate, Miss Scott and her assistant, Miss Margaret Roberts, of Boise, will proceed to Colorado Springs where another class of 30 awaits her arrival. These sadly afflicted little ones are mostly from central Idaho, while those at Vancouver are from the north. There is still another class of 20 blind and deaf-mutes of Idaho attending the institution at Ogden. Idaho has this year 54 pupils of this class attending the three schools, and Miss Scott says they are among the very brightest. They are taught industrial training as well as the regular educational routine. Idaho has just completed a reform school at St. Anthony, in Fremont county, which will be opened this summer, but it has been demonstrated that the blind and deaf-mutes can receive better schooling at well established institutions in adjoining states than would be possible from a school established by the state upon similar appropriation.

One red Pole bull. Will sell or trade. A bargain for any one needing a servicable animal. W. H. BRERKEY.

Startling Evidence. Fresh testimony in great quantity is constantly coming in declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as an example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, Consumption, Pneumonia and Grip. Guaranteed by F. E. Dious & Co., druggists. Trial bottles free, regular size, 50c and \$1.00.

Moersch, John Krier, Mike Driscoll, F. F. Burdick, W. J. Herman. West Genesee—Peter Johann, A. Scroggin, Ed Keane and John Meyer. At the convention D. Spurbek, Jos. Moersch, Ed Keane and Peter Johann represented the two precincts.

It is claimed that for some time past the Indians have been operating fish traps in the Potlatch and other trout streams contrary to the state law. Concerning the traps the Lewiston Tribune says: "The traps now in use have been employed by the Nez Perce Indians for a great number of years and have proved very effective for the catching of all kinds of fish. The leads of the trap are constructed of stone and the entrance into the pocket is protected with sticks in such a manner that a fish in passing up stream will necessarily enter the leads and be guided through the network of sticks and into the pocket from which it is impossible to escape. It is the same principle that is employed by the large canning companies in building the salmon traps that are now catching 75 per cent of the salmon that are canned on the Pacific coast."

Rain began falling Tuesday night and has continued at intervals up to the time of going to press. Everything is thoroughly soaked and all crops have been greatly benefited. It was badly needed for late sown grain and vegetables and farmers and others now wear smiles that are smilies.

The little daughter of Mrs. McLaughlin was voted the most popular "young lady" and received the watch at the Petersen & Dunbar show which closed their engagement at this place Monday night. She received over 4,000 votes. Mr. and Mrs. Hardy's baby carried off the honors in the diamond ring contest.

At the county convention of the democrats held at Moscow Tuesday of this week the following were chosen to represent the party at the Weiser convention to be held Monday of next week: G. P. McKinley, J. G. McGary, Pat Kinneer, J. Day, T. Driscoll, R. M. Walker, O. B. Crawford, J. H. Carlton, J. W. Lieualten, G. W. Suppiger, John Loring, M. W. Harbin, G. A. Johnson, W. M. Morgan and J. H. Forsney. The convention, while not largely attended, was harmonious throughout and the delegates selected were unopposed except to support the national platform.

The year book issued by the department of agriculture, for which so many farmers are anxiously looking, will be ready for distribution in a few days. An edition of half a million copies will be issued. It will be a large volume of 748 pages containing thirty-two articles on as many different subjects. One of these invaluable essays, of the highest importance to all farmers, is by Dr. W. W. Cooke on bird migration. He is anxious to solve the mystery of chimney swifts which lodge in tall chimneys as they drift south. When they reach the Gulf coast they disappear, and the great agricultural problem is what becomes of them? We are also told that the common night-hawk spend its summers in Alaska and its winters in Patagonia. This is a very valuable fact, if true. It has also been revealed that the bobolink winters on the pampas grass of southern Brazil. And more astonishing yet, the golden plover travels 16,000 miles to spend ten weeks on the Arctic coast. How any farmer can remain ignorant of these astounding facts, and prosper is a matter of the utmost concern to all scientists, whenever they draw their pay.

The postmaster general has announced the following changes in salaries of presidential postoffices in Idaho. Increase per annum: Coeur d'Alene \$500, Grangeville \$200, Hope \$100, Nampa \$200, Payette \$200, Rexburg \$200, Shoshone \$100, Wallace \$100, Burke \$100, Genesee \$100, Lewiston \$100, Nezperce \$100, Rathdrum \$200, Sandpoint \$200, Weiser \$100, Harrison and Silver City each are reduced \$200.

In the case of the state of Idaho embalmment which was tried in the district court at Moscow the latter part of last week, for the second time the jury has disagreed and been discharged which will necessitate a new trial at some future date. At the first trial the jury stood ten for conviction and two for acquittal while at the last trial nine stood for conviction and three for acquittal.

The big annual camping of the Church of Christ, for the district of north Idaho, will be held at Caldwell on June 16 and continuing until the 25th. Rev. J. A. Pine will have charge of the meetings and has arranged an excellent program for the series. Rev. J. B. Holmes, the noted Oregon state evangelist will be present and preach each evening. He will be accompanied by the Rev. Gormong who will assist him as a singing evangelist.

Married, Friday evening, May 27, at the Pacific hotel in Spokane, Mr. Ed Whitney, of that city, and Miss Lulu Fowler, daughter of Rev. and Mrs. W. C. Foster of this place. Mr. Whitney is a blacksmith by occupation and for a number of years has been a resident of Moran prairie, north of Spokane. We are informed that he will open up a shop in the city where the newly married will make their home. Rev. Fowler was in attendance at the wedding from Genesee.

A returning visitor from the St. Louis fair has had himself reported in the Spokane paper as disparaging the Idaho exhibit there, particularly the mining exhibit from north Idaho. The mere fact of a quotation in this Spokane paper is always good ground, if standing alone, for accepting the reverse as true, but in this case there have been prior reasons for considering the statement as at least plausible. In the past the Tribune has had occasion to refer to the preceding diligence of the state officials in gathering a creditable mineral exhibit from southern Idaho, while at the same time notifying the northern districts that if they wanted to exhibit they should do so at their own efforts and expense. In the minds of the state officials there seems no such country as northern Idaho except at tax paying time, and northern Idaho keeps on saying it likes it and proves it by voting the ticket.—Tribune.

Professor Cobbs left the first of the week for Princeton where he will teach a two months term of school. During the month of August he expects to take in the sights of the World's Fair and visit eastern relatives and friends.

Sunday, June 12, will be observed by the Odd Fellows as Memorial day. In the forenoon they will march from their hall to the Congregational church where a sermon befitting the occasion will be delivered by Rev. Fowler. In the afternoon they will visit the cemetery and decorate the graves of deceased brothers.

Our juvenile ball tossers were successful in defeating the Spalding Indian kids on the local grounds Saturday of last week. The score of 34 to 23 ought to convince anyone that a large amount of playing was done by both sides. Our boys expect to go to Uniontown tomorrow afternoon to play with the team of that place.

The gun club held their first "shoot" Wednesday of this week at the new track. The attendance was good and an effort will be made to meet regularly throughout the summer. At the first meeting F. C. St. Joseph Court No. 553. C. O. F., will hold their fifth annual picnic this year on Tuesday, June 7. Arrangements are made to make the picnic bigger and better than ever before. Neither time nor expense will be spared to make this day one long to be remembered. Good speaking, good music and all kinds of amusements will be furnished in abundance. If you want to have a good time come to Uniontown June 7.—Press.

What promised to be the best game of ball of the season, between Clarkston and the home team on the Genesee grounds Sunday, proved to be a one-sided affair. The first half of the game was intensely interesting and it was believed that a close score would be the result at the close. By a series of errors on the part of the home team the visitors were then permitted to pile up the runs when at the close they had 14 to their credit. It looked for a while as though the home team would be unable to score at all but before the closing of the game were successful in earning 5 runs. Clarkston has an aggregate of 11 ball players whom it is evident has put in much time at practice. Genesee has equally as good material but must practice to play ball.

Several bushels of seedless apples from Colorado are on exhibition at the World's Fair. This improved seedless apple, like the seedless orange, is the result of the scientific work of horticulturists. The apple tree is blossomless and the fruit is free from worms and hardy enough to endure the severest frost. The blossomless feature of the new tree is one of its most striking peculiarities and will make it a favorite with fruit growers, especially in cold climates. Already nurseries have been started in several states and seedless apple buds are in great demand. John F. Spender, the producer, is experimenting with various varieties.

HERD OF HOLSTEINS AT THE WORLD'S FAIR.

Are Out for a Record—The Average Weight is 3,000 Pounds—Wonderful Milk Producers—Age of the Breed.

Calmly chewing their cud in comfortable stalls in a model barn on the world's fair grounds at St. Louis are 15 big Holstein cows on which the Holstein-Friesian association place their faith and are confident that they will demonstrate the superiority over all other breeds of cattle.

In other stables near by are representative herds of Jerseys, Devons, Brown Swiss and Shorthorns, and the same degree of confidence is evinced among the followers of each breed.

E. B. Von Heyne, who has earned an enviable reputation as a developer of milk cows, is in charge of the Holsteins at the world's fair. He holds this position in the best in the world, and he says that the present test will surely settle the question and demonstrate that the Holstein, as a dairy cow especially, as well as for general purposes, has no equal.

"Yes," said Mr. Von Heyne, as some of the Jerseys were driven by "The Jersey cow won in Chicago, but then it had no competition. The Holsteins did not participate in that test, but that is not to be inferred. We are here to win that prize," and the superintendent leaned back in a self-satisfied manner, as though it were all over but the shouting.

The Holsteins, said Mr. Von Heyne, have been bred in Holland and the Friesian islands for more than 2,000 years, and he thinks that in that country the science of dairying is as far advanced as in any other country of the world.

The Holstein cow is singular of frame, necked and thin, and the average weight is about 3,000 pounds. The Holstein colors are pronounced and unmistakable—the black and white markings.

"The milk cow is never fat," said Mr. Von Heyne, "and she is a machine for the manufacture of milk—not tallow."

The first importation of Holstein cattle to America was made in 1821. Other importations were made at later dates, but no attempt was made to keep the breed pure until 1861, when W. W. Cheney, of Holmwood, Mass., brought over a herd. Since then many other herds have been imported, and there are as many pure blood Holsteins in the United States now as there are Jerseys.

"While I confidently expect to triumph over the Jerseys and all other breeds here at the world's fair, I want to say that we did not consider it necessary to go to the length that the Jersey people did. They selected the choicest specimens from all over the United States. They assembled their cows at Jerseyville, Ill., near St. Louis, and have kept them in training for a year."

"When the Holstein-Friesian association decided to enter the contest I went out into one county in New York State and bought some of the cows. The remainder will come from Wisconsin. They are just good, average, pure blood Holsteins, the same as may be found in any first-class dairy farm. There is no need to spend time in acclimating Holsteins. They do well in Russia and equally as well in South Africa or any climate in the world."

"The milk of the Holsteins is not quite as rich as the milk of the Jerseys, but if more than makes up in the quantity. A Holstein cow will produce 29 quarts of milk at an Amsterdam exhibition at Amsterdam from September 7, 1893, to June 7, 1894, produced 14,223 pounds of milk. The record of Dietrich II. for one year is 30,182 pounds of milk."

"Mercedes Julpes Pieterje, a cow I developed myself, produced as a six-year-old in an official seven-day test 29 quarts and three ounces of butter."

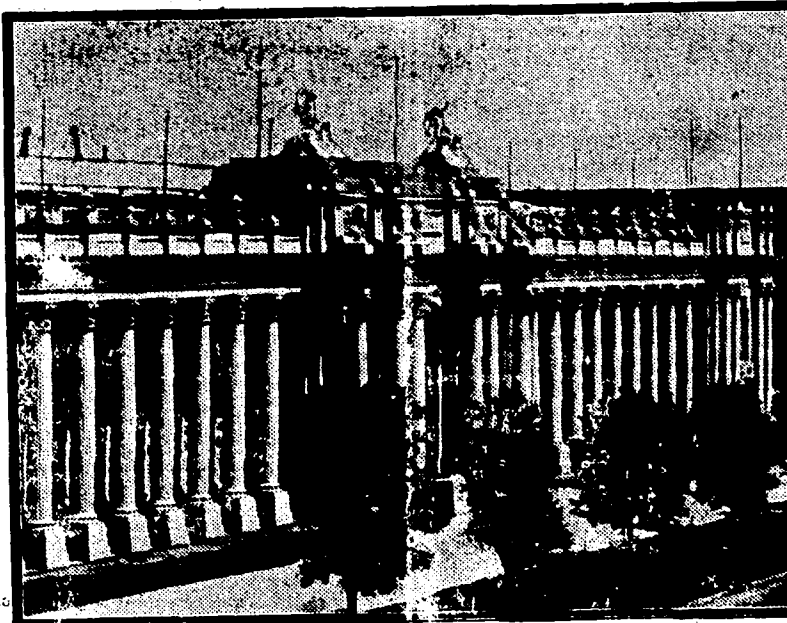

"Saddle Voll Concordia, the present world's champion, not alone among the Holsteins, but of all breeds, produced in an official test in seven days 697 pounds of milk, which yielded 30 pounds and ten ounces of butter. This test was made in New York state at the Cornell experiment station in 1903. This cow at the age of 15 years sold for \$2,300. A calf from this splendid cow, at the age of four weeks, sold for \$4,000."

"Now the Holstein is not only a milk producer without an equal, but she is a producer of meat. We will compare with the Shorthorns on the beef production, a thing the Jerseys would never attempt. The Holstein is the practical and economical breed of cattle for the United States, and it will be proven at the test this summer."

Where Money is Made. A complete mint, in operation, is one of the features shown by the United States government at the world's fair. At the close of the exposition the plant will be sent to Denver, Col., for permanent use.

Big Athletic Event. The Quadrennial Olympian Games will be held for the first time in America in the St. Louis Exposition Stadium during the World's Fair. Athletic from all over the world will compete.

To Show Alaskan Title. Native Alaskan buildings with large totem poles are a part of Alaska's display at St. Louis. Many members of the Alaskan Indian tribes and their modes of life and labor are shown.

**THE BOY WHO WONT WORK.**

What to do with the boy who wont work? Before we could give an answer we should want to know what sort of a boy he is. Maybe he has a natural inventive and mechanical turn of mind; maybe he is a book-worm and would rather read Shakespears and ancient history than plow corn; maybe he is in love with nature and would rather hunt birds nests, chasing butterflies or bugs or watching the clouds and sunsets than should be picking up potatoes. If the boy is built this way, don't lick him and jaw him, but have a little horse sense and do your best to help him along the line of work and study which most interests him, but if he is one of the kind who is simply lazy, with a natural inclination to rob orchards and melon patches, smoke cigars and loaf around, then you should mark him for yellow back dime novels, "pon honor, we believe that a good hickory switch, his dad and the boy can get into an active conjunction nose too quickly. We have come across many men, who arrived at mature years and occupying useful and honorable positions in society, were free to admit that they owed much to a good licking, judiciously administered at the right time. There is no sort of use or sense in a man raising a lzy, worthless son. Nine times out of ten he is that sort just because he was not well trained and because his dad set him a bad example. Every boy will at first take his father for a pattern, and if you are a "so 'count sort of a fellow, your boys will be that way too, unless they have a mighty good woman for a mother, and other she can't save them. You man with a boy to train, just preach less and practice more.—Ez.

**Triumphs of Modern Surgery.** Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they are removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third of the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by all druggists.

**POWER FOR GENESEE.**

Money Secured for Extension of Vineland Plant.

Friday of last week word was received by the city council from the Moscow Electric Light and Power company that E. H. Libby had been fully successful in securing funds for the extension of the Vineland plant and that they were ready to close the agreement with the city. It is expected that the line will reach Genesee early the coming month.

Concerning the enterprise a Moscow dispatch has the following to say: "E. S. Aldrich, superintendent of the Moscow Electric Light company, has received word from E. H. Libby, president of the Vineland company, who has been in the east since early in March, that he has succeeded in securing funds for the new enterprise in connection with the Vineland proposition. Mr. Libby expects to return before the middle of June. Work on the new enterprise will then commence. Mr. Libby says the company will expend upwards of \$2,500,000 in the next five years.

"The first of the new enterprises to be inaugurated will undoubtedly be the electric power plant at the mouth of the Grand Ronde river. This proposition has been in Mr. Libby's mind for the past three years. In 1901 the Vineland company acquired the water rights on the Grand Ronde. Engineers who have made examination of the water power say 25,000 horsepower can be developed. It is not known what other of Mr. Libby's plans will be developed at present.

"Mr. Aldrich says his company has completed arrangements with Mr. Libby to take charge of the distribution of power north of the Snake and Clearwater rivers, and that he has already made provisional contracts for the use of between 600 and 700 horsepower, as soon as the power plant has been put in. The company has decided to replace its present electric

light plant here with a new and better plant. Contracts for supplying both flouring mills with the electric power has been made. The laundry, machine shop, printing offices and other manufacturing establishments will use the power. At Genesee Mr. Aldrich has contracted to run the mills, factories and electric light plant and has made a proposition to the city to run the water works with electric energy. The same proposition has been made to Fallman.

**WILL BE BIG TIME.**

The Indians Prepare for the Fourth of July.

Stephen Reuben, a sub-chief of the Nez Perce tribe, was in the city yesterday and stated that elaborate preparations were now being made in Lapwai for the Fourth of July celebration this year. The Indians expect at least a thousand visiting braves from other tribes and the celebration will be the largest ever held in the inland empire. Large numbers from the Sioux, Crow, Blackfoot, Umatilla and Yakima reservations will visit Lapwai and participate in the celebration, if the present plans mature. The war parade will be a feature perhaps never again witnessed on the Nez Perce reservation, as it has been a number of years since the tribes of the inland empire united in the annual celebration.

The war dance will also be a union celebration but the rivalry between tribes will commence with horse racing. Each tribe is now working up out their best race horses and will be at the celebration prepared to enter all races and back their horses with their money. The racing will continue until late in July when the visiting Indians will depart for their homes and the Nez Perce tribe will seek the berry patches of the mountains.

Chief Reuben states that the old Indians of the tribe are looking forward to the celebration with much interest.

Before the settlement by the white men the northwestern Indians were often at war with the Indians from the southwest country and union celebrations were observed when the warriors would return victorious from the battlefields. The old men of the tribe have been told of these celebrations by their fathers and are much interested in a revival of the former ceremonies.—Lewiston Tribune.

**R. V. COZIER DEAD.**

R. V. Cozier, of Moscow, U. S. District Attorney for Idaho, died Friday at San Francisco where he was in attendance at the court of appeals, after undergoing an operation for ulcer. Some two weeks ago he was taken violently ill and the surgical operation was found necessary. For a few hours following the operation it was thought that he would recover, but fate was against him. His wife was at his bedside when he died. The remains of the deceased reached Moscow Tuesday and it was planned to hold the funeral Thursday, the same to be conducted by the Moscow lodge of Elks.

The deceased was one of the best known public men of Idaho. He was born in October, 1868, at Waukegan, Ohio, and when an infant his parents moved to Atlantic City, Iowa, in 1870, and the graduates from the St. Louis college, having secured his degree in the classical course. He then entered the law firm of Dea, Meigs, Iowa, and later attended the St. Louis law school. United States Judge Thayer was one of his instructors in the latter institution.

He was elected a joint representative to the legislature from Bannock, Blingham and Fremont counties. He was elected speaker of the house and upon the resignation of Meyer, it is believed that Meyer expected to be lynch as he headed his property prior to being taken to Grangeville.

The G. A. R. encampment held last week at Emmett is said to have been one of the most successful in point of attendance ever held in the state. It was voted to hold the meeting next year at Coeur d'Alene, June 21, 22 and 23. The newly elected officers are all residents of south Idaho. They are:

Commander—C. F. Drake, of Weiser. Senior vice commander—George Gardner, of Emmett. Junior vice commander—George Little of Pearl.

Medical director—Dr. W. C. Macey, of Caldwell. Chaplain—Hugh Lamont, of Emmett. Adjutant—Q. M. G.—James J. Whitier, of Boise. Council of Adj.—A. Anderson, of Boise; S. P. Page, of Weiser; J. F. Dailey, of Emmett.

A decision of general importance to teachers was handed down by the supreme court in the case of Elizabeth Erwin vs. Wallace. Independent school district, from Shoshone county. The plaintiff was employed by school district No. 8 on April 4, 1901, for nine months from September 1 at \$75 a month. On May 17, the independent district was organized. The plaintiff taught until February 25, 1902, when she was summarily dismissed. She brought suit for \$300. The defendant district demurred on the ground that the complaint did not state facts sufficient to constitute a cause of action. The demurrer was sustained and this action is affirmed by the supreme court. The point in the case is the difference between the law governing ordinary districts and that covering independent districts, with relation to the dismissal of teachers. In the ordinary district teachers cannot be dismissed until the close of the year except after a hearing. In an independent district the dismissal may be without a hearing.

**STATE ITEMS.**

There are 143 prisoners in the state penitentiary, the largest number since 1898. Eight of them are United States prisoners.

The city of Grangeville will expend \$14,000 the present summer in the macadamizing of her business streets. The contract for the work has already been let.

The old Overland hotel at Boise, one of the first buildings to be erected in that city and well known to pioneer travelers in the state, is to be torn down and a modern hotel to be erected in its place at a cost of \$300,000.

Articles of incorporation have been filed for the Oregon and Idaho Short Line Railroad company. The road proposed to be built runs from the Columbia river through the John Day country in Oregon, missing the Blue mountains and joining the Oregon Short Line at Nampa, Idaho.

It is given out that the lynchings of Meyers which occurred at Whitebird last week were the members of a law and order organization recently formed in Idaho county.

It is estimated that the organization of the society is indirectly the result of heavy taxation that has burdened the taxpayers of the county from the numerous criminal cases that have been fought in the courts during the past few years. It is said that had it been necessary the mob would have cleared the county just to get possession of Meyers. It is believed that Meyers expected to be lynched as he headed his property prior to being taken to Grangeville.

The G. A. R. encampment held last week at Emmett is said to have been one of the most successful in point of attendance ever held in the state. It was voted to hold the meeting next year at Coeur d'Alene, June 21, 22 and 23. The newly elected officers are all residents of south Idaho. They are:

Commander—C. F. Drake, of Weiser. Senior vice commander—George Gardner, of Emmett. Junior vice commander—George Little of Pearl.

Medical director—Dr. W. C. Macey, of Caldwell. Chaplain—Hugh Lamont, of Emmett. Adjutant—Q. M. G.—James J. Whitier, of Boise. Council of Adj.—A. Anderson, of Boise; S. P. Page, of Weiser; J. F. Dailey, of Emmett.

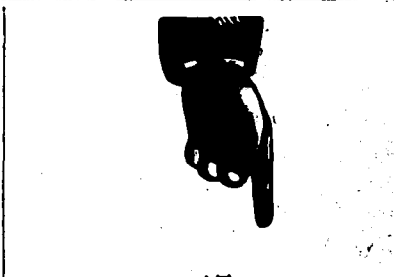

A decision of general importance to teachers was handed down by the supreme court in the case of Elizabeth Erwin vs. Wallace. Independent school district, from Shoshone county. The plaintiff was employed by school district No. 8 on April 4, 1901, for nine months from September 1 at \$75 a month. On May 17, the independent district was organized. The plaintiff taught until February 25, 1902, when she was summarily dismissed. She brought suit for \$300. The defendant district demurred on the ground that the complaint did not state facts sufficient to constitute a cause of action. The demurrer was sustained and this action is affirmed by the supreme court. The point in the case is the difference between the law governing ordinary districts and that covering independent districts, with relation to the dismissal of teachers. In the ordinary district teachers cannot be dismissed until the close of the year except after a hearing. In an independent district the dismissal may be without a hearing.

**Startling Evidence.** Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. L. McFarland, Bentonville, Va., serves as an example. He writes: "I had Bronchitis for three years and doctors failed to cure me. I was being benefited when I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, Consumption, Pneumonia and Grip. Guaranteed by F. E. Dicus & Co., druggists. Trial bottles free, regular size, 50c and \$1.00.

THE MORMON QUESTION.

In a recent issue of the Boise Capital News, the leading democratic paper of south Idaho, appears the following: The morning paper (referring to the Statesman) asserts that Senator Turner, of Washington, will follow the Dubois anti-Mormon program.

THE MORMON QUESTION.

The morning paper (referring to the Statesman) asserts that Senator Turner, of Washington, will follow the Dubois anti-Mormon program. Quite like this is true, since from time immemorial fowls of a feather have flocked together.

IS NOT NOW TAXED.

A timberman who is now in the city states that in Latah and Shoshone counties, where a great deal of the timber sold by the state under the preceding administration is located, two important political questions are being discussed—the non-taxation of this timber and the purpose of the syndicates to ask at the next legislature an additional twenty years, within which to remove this timber, making forty in all.

—Saturday of last week the White-bird stage running out of Grangeville was struck by lightning and both stage horses were instantly killed. Three passengers and the driver escaped without injury.

—A colored map of the American continent, drawn by William Bleuw at Amsterdam in 1643 is a feature of St. Louis University's exhibit in the palace of education at the World's Fair. The border of the map is ornamented with colored drawings of American Indians, which are extremely grotesque.

—Friday of last week seven runaway cars with a speed of ninety miles dashed into Spaulding on the Culdease branch of the Northern Pacific and piled up in Lapwai creek. The cars were loaded with sand for the improvement of the road bed and had been detached from the remainder of the train while other cars were being unloaded.

### Balloon Ascension!

Arrangements have been completed with Prof. B. McClellan, a celebrated aeronaut, to make one of his thrilling ascensions and descend in a parachute on Saturday afternoon, June 25.

A lawn social will be given at the Brant home Wednesday evening, June 24, for the benefit of the Congregational ladies' aid society. All invited.

Wm. Harris has been looking after his interests in Genesee this week. He informs us that he is still undecided as to what he will do in the future.

A special meeting of the Rebekah lodge will be held Monday evening, June 20. The grand president of the state assembly will be present and all members are urged to attend.

H. A. Thatcher left Sunday morning for Gardner to represent the local lodge of Knights of Pythias at the meeting of the grand lodge to be held in that city Monday, Tuesday and Wednesday of this week.

We go to press too early to give an account of the Catholic banquet which has been conducted Wednesday and Thursday of this week at the Driscoll warehouse. We will give a complete report in our next issue.

H. B. Ratzau was drowned last week in Marble creek, a tributary to the St. Joe. He was the owner of a homestead in that section. He had attempted to cross the stream on a log but fell in and was carried down by the swift current. He was a Scandinavian and had no known relatives in this country.

A dispatch from Boise says: Norman N. Rutick, who has been assistant U. S. district attorney, received a dispatch from Senator Heyburn stating that he had recommended him for the appointment as district attorney to succeed R. V. Cozier, who died in San Francisco last week. Rutick has been active in party campaigns since 1898 and is now being considered in connection with the governorship. Prior to 1898 he was a prominent populist and a candidate for U. S. senator in that party against Judge Clagett, resulting in the election of Heitfield.

The annual memorial services of the Genesee Odd Fellow and Rebekah lodges were held Sunday of this week and the attendance of members was good. In the forenoon the members of each society attended the Congregational church in a body where a very able sermon was delivered by Rev. W. C. Fowler, he taking for his subject "Truth." For the occasion the church had been very prettily decorated with flowers and potted plants. In the afternoon the organizations, headed by the Genesee band, visited the cemetery and decorated the graves of deceased members.

### CHURCH NOTICES.

There will be preaching at the Christian church morning and evening. Subject for the evening, "Jesus Not Able to Save Himself."

Methodist church. No preaching at 11 a. m. Preaching at 8 p. m. A picnic will be held in the grove at T. E. Miller's, June 22, east of town. Bring your dinners and some food for your friends. A program consisting of music, etc., will be rendered.

The Sabbath school of the Congregational church will give its annual children's day exercises next Sabbath evening. Everybody invited.

Services in the Lutheran chapel on Sunday evening at 7:30.

Rev. O. C. Hellekson will conduct confirmation services in Our Savior's church on Sunday morning. Communion in the afternoon.

The Y. P. S. will give an ice cream social on Friday evening, June 24. A good program will be rendered. All are welcome.

A daughter was born Wednesday to Mr. and Mrs. Jack Lockett.

W. E. English left Saturday morning for Spokane for a visit at the Raymond home.

Emil Marcks, of Lind, Wash., was here in attendance at the funeral of his father, Carl Marcks.

The population of this valley is gradually on the increase. During the past week three large families arrived from the east to take up a permanent residence.

Owing to the adding of the great balloon attraction to the program of the big celebration the dates have of necessity been changed from Thursday and Friday to Friday and Saturday of next week. It was not possible to secure the services of the aeronaut on the former dates.

Those having new ads. in this issue are: J. K. Bell, Deering machinery; W. J. Herman, stationery, musical goods and blank books; Pollett Bros., low price on clothing; Le Rue Tice, wood; Exchange Bank, modern methods; H. A. Morgan, plumbing; H. F. Bilger, summer dress goods; The Fair, children's dresses and summer underwear.

—Mrs. Walter Savage and Miss Kathlyn Savage were visitors at the Ehlen home from Pullman the first of the week.

—Miss Emma Christenson arrived home Wednesday from Pullman where she has been attending the Agricultural college.

—It is more than likely that the two ball games to be played on the two big celebration days in Genesee, Friday and Saturday of next week, will be between the team of this place and the Uniontown boys.

—Mrs. Antonio Tabbs arrived in Genesee Thursday of last week for a visit with relatives and friends. She left her home in Juneau, Alaska, some six weeks ago and visited at a number of places prior to reaching here.

—A great many inquiries from horsemen are being received concerning the approaching races. The association is satisfied that there will be a good string of horses here and that the meeting will be an interesting one.

—The many friends of W. M. Thompson will be pleased to learn that he has sufficiently recovered from his severe illness as to be able to walk about the house. During the week he has been enjoying a few sun baths on the lawn and is gaining considerable strength.

—Mr. and Mrs. George Daggett left yesterday morning for an extended visit east. They will first visit the big fair at St. Louis and will then mingle with relatives and old acquaintances in Wisconsin and Illinois. They will return to Genesee about September 1.

—We last week reported, too late for publication, a report of a very enjoyable gathering at the J. A. Nisbet home just east of the city. There was present the T. E. Miller family and the Misses Gentry and other friends. The evening was spent in music and games and refreshments were served.

—Ben and Antone Borgen, John Hove and Ingvald Smith, who visited Kennewick last week with a view of investing in some of the irrigated land, each purchased a ten acre tract, paying \$65 per acre for the same. They expect to improve the property and at some future time may take up a temporary residence but they have no intention of disposing of their interests in this neighborhood. We understand that Chris. Odberg has also invested in a small tract close to the town of Kennewick and a restaurant in the city.

—Carl Marcks, who was last week taken to Spokane for treatment at one of the hospitals, died Saturday afternoon following an operation for stomach trouble. His remains were sent to Genesee by express, accompanied by L. Stoltz, who was with him during his dying hours. The funeral took place from the Methodist church, Rev. F. M. Canfield officiating. Interment was in the Odd Fellows cemetery and the procession which followed the remains to their last resting place was a large one. The ailment which caused Mr. Marcks' death was one that had troubled him since 1870. According to his wishes prior to his death in Spokane the Lord's supper was administered to him by Rev. Groschup, the German Lutheran minister in that city. He left an estate valued at about \$20,000 and before going to Spokane willed it about equally to the different members of his family. Mr. Marcks was born in 1841 in Pomerania, Germany, and had an eventful career in the armies of the fatherland before coming to America in 1874. He served through the war with Denmark, the war with Austria and the Franco-German war, and participated in 21 of the big battles of those wars. In this country he first settled in Wisconsin, but removed to Iowa in 1876. In 1899 he removed to Lind, Wash., and in 1902 came to Genesee and purchased the splendid Fred Follett ranch adjoining town. He was twice married, first in 1867 to Hannah Herman, with whom he had three sons and one daughter. She died in 1898, and in 1899 he married Augusta Lenz, who survives him, with one son and five girls.

—Mrs. Maggie Keane is a visitor here this week from Moscow.

—Nagel & Bomberg sent out a car of fat hogs Wednesday morning.

—Mrs. Chas. Schmauder was a visitor in the city Friday from Uniontown.

—Mr. Harvoniun Lawson, of Spokane, was in the city the first of the week.

—Mrs. Fred Bressler and Adeline returned home Wednesday from a visit to Moscow of a week or more.

—Mrs. Walter Savage and Miss Kathlyn Savage were visitors at the Ehlen home from Pullman the first of the week.

# Get Ready

## And Come to the Races June 24 and 25

### A big Balloon Ascension in the Afternoon. Big Time. Big Crowd.

You have worked hard. Take a day off and enjoy yourself. You will never regret it.

Of course you will want that boy and girl of yours to look nice on these days. We are satisfied that the girls will judging by the amount of dress goods we have sold. But you always neglect the boys. Come in and let us fix them out in a new suit of clothes.

We will make a big reduction for this occasion. We can fit them from three years up. Don't think you can't afford it, for you can at the prices we are going to ask for them. We have enjoyed a good business this spring and will treat you pretty nice in all departments for the next two weeks. That means a reduction in all lines.

Geo. JAVLINA, Conductor.

—Messrs. Hoppough and Lockett visited Kennewick this week.

—Work on the water works has been at a stand still this week on account of the nonarrival of a portion of the material.

—Eli Morgan and Miss Anna Deesten left the first of the week for a visit with relatives (of the latter) near Winchester.

—On July 11 a special election will be held in Troy to determine whether or not the city will be bonded in the amount of \$4300 to build a system of water works. The total value of the real estate of the town only permits of their bonding in that amount.

—Considerable complaint is offered over the fact that small boys are permitted to discharge firecrackers throughout the business part of town at any and all times. Those driving spirited horses complain that it is unsafe to drive through the streets.

Without fire protection the property owners realize they are taking big chances from being burned out. The firing of firecrackers within the business part of town should be prohibited.

—A. McPherson, pure food inspector for Idaho, was an official visitor to Genesee this week and paid his respects to all the business houses having food products for sale. He found more or less articles that would not come up to the requirements of the Idaho pure food law and he requested that they be properly labeled or taken from the shelves. Spices, baking powder, extracts, tomato catsup, canned meats, etc., are goods that manufacturers find easy to adulterate. Since the passing of the pure food law Mr. McPherson has pretty thoroughly canvassed the state and is well acquainted with all the brands of goods that are adulterated. He has seized and had destroyed a number of cartloads of goods and returned to the point of shipment a great many more. He states that merchants as a rule are anxious to cooperate with him in ridding the state of the inferior articles that have been disposed to the consumers for years.

—Mrs. P. J. Quillin is again able to be out after a week's serious illness. Her mother, Mrs. Smylie, is here from Nezperce.

—Mr. Norlin informs us that the work of extending the electric power from Lewiston to this city has already been commenced.

—Municipal coupon bonds in the amount of \$20,000 have been sold by the city of Payette to C. H. Coffin & Co., of Chicago, to establish a system of water works in that city. The bonds carry interest at 5% per cent.

—Will Mayer, a young man of Uniontown, while practicing with a 22 caliber rifle Sunday, received a bullet wound in one of his legs, the ball penetrating the leg just above the knee inflicting a flesh wound. He was brought to Genesee and Dr. Ehlen and Conant dressed the wound.

—Tuesday morning of this week a dray team belonging to Mr. Biram took a lively spin down Main street from the lively stable. At the Quillin corner they came near going into the store but succeeded in turning and passing down the side street, the ball penetrating the leg just above the knee inflicting a flesh wound. He was brought to Genesee and Dr. Ehlen and Conant dressed the wound.

—The father and mother of Dr. E. R. Lemman arrived here from Ritzville Wednesday of this week for a visit.

—The State Sunday school convention will come to Moscow June 21st and 22nd inclusive. This will be a very important affair. Workers from various parts of Idaho and from Washington and the east will be present. The morning sessions will take the form of institute work. Mr. Merritt of Tacoma, Wash., will have charge of special teachers work. Mrs. Swain, the delegate to the Jerusalem world's Sabbath school convention, will be present and give her experience at that convention and what she learned there. Rev. Johnson of Spokane will be present and an effort is being made on the part of the State Sabbath school officers to persuade Rev. H. I. Rasmus of Spokane to deliver an address during the convention.

POPULAR OCEAN BEACH. Many From the Interior Planning to Spend their Vacation at the Sea Shore. Hundreds from Eastern Oregon and Washington spent their vacation at North (Long) Beach, Washington, last summer, and it is safe to say that this popular resort of the Pacific Coast will be visited by many more this year than ever before within its history.

The excavating for the Herman brick block has been completed and a portion of the rock for the foundation is on the ground. The statement in our last issue that Payne Sly had been convicted of murder in the first degree was an error. The item should have read second degree.

It is announced that the publication of the Latah County Journal at Moscow will, about the first of the coming month, begin the publication of a daily paper.

We would ask that those on the rural routes having items for publication if possible to send them in Wednesday. Our forms are usually made up on Thursday before the mail is delivered to the post office.

The opening of the new Masonic opera house in Lewiston will occur on the 28th and 29th inst. with a high class vaudeville and minstrel show. To attend this opening will certainly be worth every cent it will cost.

As the St. Louis convention will have 1,000 delegates, it will take 600 women to accompany Parker. He now lacks about 450 of the required number. And Hearst has almost as many delegates as Parker. Some wise politicians think it possible that Gorman, Miles or Folk may come in and gobble up the whole concern.

A ball game took place on the local grounds Sunday between the local team and Thurn Creek. It was a one sided contest and at the close of the sixth inning was declared off, the score being 7 to 21 in favor of Genesee. Kately of Cotton, who was selected with the visitors, as seems to be his habit, succeeded in kicking up a row at the close of the game.

Incubators for artificially hatching eggs and bringing young chicks into life are common, but baby incubators for aiding the frail and imperfectly formed infant to live and develop is something new. A baby incubator fully equipped and nursing new born infants, is one of the attractions at the World's Fair.

Visitors are shown the babies in the incubator and instructed in the methods adopted to bring these frail specimens of humanity into healthy life.

"Cherokee Bill," the individual who has caused Marshal Driscoll considerable trouble of late and who on two different occasions has grazed the city skookum house, was again gathered in Wednesday of this week. He was found in the eastern part of town with his hide, full of red liquor and looking for trouble. He put up a hard fight and gathered in a few bucks but a few poles below the belt in return. On former occasions when the guest of the city he was boarded at the restaurant. On this occasion Marshal Driscoll is also serving in the capacity of chef and if "Bill" persists in being a boarder of the city he will have to take things as they come.

THE CATHOLIC BAZAAR. A Complete Social and Financial Success. A Full Report.

The Bazaar held last week under the direction of the Catholic ladies of this city was a splendid success. Never before in the history of Genesee has one warehouse held such an immense crowd of merry-makers and jolly participants.

In the evening at 7:30 the curtains rose on a fine children's entertainment. The drill and following cantata were a credit to the youngsters and their teachers.

On Thursday our good band boys called the people together for the celebration of 24 day which in animation, social pleasure and financial success was to excel the preceding one.

On Friday our good band boys called the people together for the celebration of 24 day which in animation, social pleasure and financial success was to excel the preceding one.

ball-throwers! Why sir, how the dolls stood it is a mystery to me. They whirled and twirled and whirled—could see no head end or foot end or any end. Never saw any body struck so squarely between the eyes. Why the doll must have been dead in the third degree after the first charge. By mere good fortune the 5 o'clock bell called for supper and partially stopped the execution of the dolls. But, Lord, the tables had to be good for it.

In the afternoon the two voting contests came off with much noise and much cash. His honor, Mayor Conant, had kindly condescended to preside over said contest, adding to it a guarantee of absolute fairness and dignity. From the anxious crowd three gentlemen, Rev. A. Corly, James Mullaly and Ed Kempf were called upon the stage as judges and tellers. The result of the contest was announced to the people by his honor, the mayor, as follows: In the first contest the American girl led with 719 votes; the German girl received 488 votes, and the Irish colleen obtained 351 votes. The second contest brought out the following names and votes: Maggie Broemmeling 512 votes, Angela Lorang 497 votes, Helen Bielenberg 372 votes, Rosalia Lorang 355 votes. The first named carried off the bride amidst the acclamations of the people. It was understood that each vote given to whichever young lady gave the contributor a chance on a beautiful silk cushion. Nearly six hundred names were so given in and just think of our own J. J. Owen, the lucky one in 1600. Talk about luck. The closing of the 24 day and the Bazaar was a splendid feature. The entertainment given by local amateurs was excellent and far above the average. The drama, "The Mothers Curse," the sad was much appreciated. Messrs. Geo. Ebel and Peter Lorang rendered their comical duet pleasantly. And as to "Grandpa" and "A Girl of the Century" well, ask the whole town. Indeed the Bazaar was a decided success, never was there a more orderly crowd, never so many willing hands together. Much credit is due the ladies of the Altar, society, the Sodality, young ladies, the Y. M. I., the musicians, and all who helped to make the Catholic Bazaar such a pleasant affair, such a financial success. R. M. S. KEVZER.

OPINION ON SCHOOL LAW. The attorney general at Boise has issued the following opinion relative to the issuance of certificates to applicants who desire to teach school. It is given at the request of Miss Scott, the state superintendent of public instruction, and is in full as follows: Section 12, page 33, of the school laws of this state provide for the issuance of four grades of certificates, to-wit: First grade. Second grade. Third grade. Fourth grade. First grade certificates are issued to all applicants qualified by law to receive the same, who shall pass an examination in the branches enumerated, in section 11, page 33, of the school laws, with a general average of not less than ninety per cent and a minimum of not less than seventy-five per cent in any branch. Second grade certificates are issued to all persons who shall attain an average of eighty per cent and a minimum of not less than seventy per cent in any branch. Third grade certificates are issued to all such persons as shall attain a general average of seventy-five per cent and a minimum of not less than sixty per cent in any branch. The primary grade certificates shall be granted upon an examination upon questions prepared by the state superintendent of public instruction. Startling Evidence. Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. I. McFarland, Bentonville, Va., serves as an example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I bought Taylor Dr. King's New Discovery, and a few bottles quickly cured me." Equally effective in curing lung and throat troubles, Consumption, Pneumonia and Grip. Guaranteed by F. E. **ROOSEVELT-FAIRBANKS.**  
Theodore Roosevelt and Charles W. Fairbanks have been nominated by acclamation for the offices of president and vice president respectively.

Genesee must be getting easy, judging by the number of grafters that are coming this way.

J. K. Bell has installed a new safe in his store which he purchased from the Hames jewelry store in Lewiston.

Dr. C. A. Follett, of Dayton, Wash., was a visitor with Genesee relatives and friends the latter part of the week.

Fred Nagel and J. K. Bell represented the Genesee precincts at the committee meeting held at Moscow Saturday.

A small boy's coat, which was found at the warehouse during the Catholic bazaar, awaits an owner at this office.

Mr. and Mrs. H. A. Thatcher moved into their new residence Wednesday of this week, the same having been remodeled throughout.

Ernest Miller and family have taken possession of their residence in the western part of town and in the future will be permanent residents of Genesee.

Last week H. F. Bilger was advised by the San Francisco Examiner people that in their drawing he was successful in winning a watch and that the same would be forwarded to him at once. He has received the watch which is of the Elgin make with a fifteen jeweled movement.

D. Spurbek returned home Thursday from his visit to Oregon. He says that in the Willamette valley an unusually light crop is looked for this season owing to the unfavorable spring weather. He says that during his absence he saw no section that would in any way compare with the Genesee valley.

The dates for the Nezperce fair have been changed from October 1 to 22 inclusive to October 24 to 29 inclusive. The change was made in order that the dates would not conflict with the Lewiston fair dates. The people of Nezperce expect to in the future hold an annual fair in that city and are spending considerable money in fixing up permanent grounds. A fund of \$2,000 has already been raised among the business men of Nezperce.

G. W. Oylear of Leland, accompanied by Mrs. Oylear and the children, were visitors with Mr. and Mrs. E. E. Oylear in this city the latter part of the week. Mr. Oylear says the prospects for an immense grain crop were never better on the Big Potlatch than at the present time. Winter wheat is heading out and gives promise of an excellent yield. Says that the town of Leland is enjoying an excellent trade with the surrounding country and there is not a vacant building in the town.

A good story of his editorial days is told of Representative Brownlow of Tennessee. He was running a country paper in that state and had made things pretty warm for some of his enemies, using language which was vigorous and meant fight. Just after the paper had gone to press one week Editor Brownlow was in his den figuring out how to get out of publishing cards of thanks and items of club meetings, when a savage looking fellow, with a heavy club clenched in his hand, walked in and asked if the editor was in. "No, he's out," said the sly Brownlow, "but he'll be back in a few minutes. Just have a seat and I'll go and hunt him up." The man with the club took a chair and putting his feet on top of the desk proceeded to make himself at home. Brownlow walked down the stairs, and at the foot he met another fellow who came from adjoining counties and unknown to the editor. "Will I find the editor of this dirty sheet upstairs?" asked the man of Brownlow. "Yes, sir," came the reply, "he is up there at the desk and just itching for a fight." The fellow ambled up and had no trouble in finding the second man and accepting the information given by Brownlow that he was the editor, the two were soon in a rough and tumble fight while the editor was out on the street talking politics. However he didn't go back to his office that day!

Our summer underwear is the greatest combination of high grade goods at a low price. THE FAIR.

## CHURCH NOTICES.

Methodist church: Preaching at 11 a. m. Children's day exercises at 8 p. m. All are invited.

Preaching at the Christian church Sunday, morning and evening at the usual hours. All invited.

First holy communion will be conducted to a class of twenty-one boys and girls at the Catholic church Sunday morning.

The Congregational ladies' aid society will meet Wednesday of next week with Mrs. Wm. Nixon south of town. The drive out will be made in the forenoon.

The place for the ice cream social to be given by the Y. P. S. on Friday evening has been changed from the Tegland grove to Mr. D. Smith's place. A school picnic will be held at the same place in the afternoon. All are cordially invited.

Messrs. Dr. P. S. Beck, U. G. Dickson, Carl Heppner, Joe Neyens, Wm. Sharp, of this place, E. V. Wilson, of Spokane, N. A. Wilson, D. Briggs, of Johnson and A. M. Davis, of Nezperce, left Saturday afternoon for the north fork of the Clearwater to look after their timber claims. They expect to be gone about ten days.

The following, concerning the uncle of C. F. Burr of this place appeared in Sunday's dispatches: Daniel G. Burr, aged 84, a survivor of Company H., 1st Artillery, recruited at Fort Hill, June 4, 1864, for the war with Mexico, has held a reunion by himself in the fair grounds here. As he had done annually for 40 years, he called the roll of his company from the original roll he had written with a quill pen and of which he had custody as orderly sergeant of the company. Several times in recent years he has held a reunion by himself, owing to the enforced absence of other survivors. He spent the day in meditation, eating his picnic dinner, and after dinner a friend drove to the grounds and accompanied him back to town.

Young man, there is one thing you cannot do. You cannot make a success in life unless you work. Older men than you have tried it and failed. You cannot loaf around the street corner, smoke, tell stories, and sponge on some one else, without making a failure in life. You must learn a trade or get into some honest business. If you don't you will become a chronic loafer and there is no place in the world for loafers. The ripe fruit is at the top of the tree and you must climb if you get it, or some other man will pick it from you. Do something no matter how small or how low the wages, it will be a starter. Help yourself and others will help you. There is no royal road to success; wit, grit, and endurance are the qualities which lead to it.—EX.

FRIDAY, JUNE 24, 1904.

—Dennis Burr has returned from the wilds of Salmon river.

—Miss Dorothy Dahl, of Moscow, is the new clerk at Bue & Co.'s store.

—Read the changes of ads of the Bee Hive store, J. K. Bell and J. Rosenstein.

—Mrs. Walter Savage of Pullman, and Miss Fannie Savage of Colfax, are visitors at the Eblen home.

—Mrs. Aba Hall and daughter, of Rosalia, Wash., arrived at Wednesday for a visit at the Marion Nelson home.

—A car load of delayed pipe for the water works arrived Wednesday and work on the ditches has again been resumed.

—For the game of ball to be played Saturday forenoon the Juliaetta aggregation has been secured. Uniontown will be the contesting team this morning.

—Mrs. Francis Crosson, state president of the Redlocks, paid a social visit to the local lodge Monday of this week. Following the lodge session refreshments were served.

—John Henry came in Wednesday from Chicago where he has been receiving medical treatment. His many friends are pleased to note that he is greatly improved in health. He will remain here a short time and will then return to Spokane.

—The Congregational ladies' aid society social held Wednesday at the Brant residence was largely attended. It was planned to hold the same on the lawn but owing to the unfavorable ice cream weather adjournment was taken to the house. A fine musical program was rendered.

—D. E. Dawes who recently completed the drilling of a well at the depth of nearly one hundred feet on the Joe Kaubach place, by the caving in of the earth has been successful in recovering his drill which is valued at some four or five hundred dollars. An attempt was made to dig it out but the work has been abandoned.

—The Veterans Associations of Whitman and Latah county will hold their annual convention in Moscow on July 13, 14 and 15. The exercises will be in the city park, and the large tent belonging to the city will be utilized for the meetings in case the weather conditions require it; otherwise they will be held in the open air under the trees. The Moscow band will furnish music and there will also be good vocal music.

—George VanBuskirk and Mary O. Gray, of Anderson, Ind., relatives of the Marion Nelson people of this place, arrived here recently and expect to remain until after harvest. These people possess considerable means and contemplate bringing their money here to loan if possible. Mr. VanBuskirk is astonished to learn that so many farmers are able to retire from their farms in so comparatively new a country as this. He says that the margins of profit in Indiana will not permit it.

—An effort is being made to organize a business men's protective association in Genesee. Similar organizations are being formed throughout the county and neighboring towns in Washington and it is expected that they will cooperate together. The idea is not a new one but is one that is being very successfully carried out in many places. Miss Elmira Fry, representing the organization at Moscow, was here Monday evening and met with a number of the business men to talk the matter over. After a thorough discussion of the subject adjournment was taken to Wednesday evening at which time it was expected an organization would be largely attended. It was decided to prepare a list for signatures and make a personal canvass of the business houses and if possible effect an organization in this way. The object of the organization is chiefly to protect those in business against people who obtain goods on credit and refuse to pay for them. Dead beats are blacklisted and are refused credit by all members of the association.

A big Balloon Ascension in the Afternoon. Big Time. Big Crowd.

You have worked hard. Take a day off and enjoy yourself. You will never regret it.

Of course you will want that boy and girl of yours to look nice on these days. We are satisfied that the girls will judging by the amount of dress goods we have sold. But you always neglect the boys. Come in and let us fix them out in a new suit of clothes.

We will make a big reduction for this occasion. We can fit them from three years up. Don't think you can't afford it, for you can at the prices we are going to ask for them. We have enjoyed a good business this spring and will treat you pretty nice in all departments for the next two weeks. That means a reduction in all lines.

## CONCERT AT THE CITY PARK

Sunday, 4 p. m., by the Genesee Band. Following is the program: March—The Christian. Overture—Convention. W. F. Bailey. Waltz—By the Dreamy Sunshades Long Ago. Mackie Byer. Selection—The Cavalier. Harry Frensdorff. March—Mount Vernon. W. Durand.

## Who threw the egg?

—Miss Anna Deesten left Sunday morning for her home at Edwall, Wash., to remain permanently.

—A small insect is said to be doing considerable damage to garden vegetables in the Driscoll ridge section.

—Rev. Father Rooney, formerly of Salt Lake, has been installed as priest at Moscow in place of Rev. Father Corly.

—Mr. and Mrs. Conrad Martin began keeping house in their home near the Morgan hardware store Tuesday of this week.

—Mrs. Antone Tubbs completed her visit at this place and left Saturday morning for Wardner. She does not expect to return to Alaska until September.

—Eli Morgan left Sunday morning for Edwall, Wash., near which place we are informed he has leased 300 acres of land and will take up a permanent residence to carry on farming.

—Sven Swenson, a recent arrival here from Rochester, Minn., will leave the Henry Martinson place east of town. We understand that Mr. Martinson contemplates a trip to his old home in the old country.

—Peter Steltz says that if pasties wishing flowers will call at his home at any hour during the day any member of the family will supply them. It is unnecessary to do the "swipe" act after dark and destroy the vines.

—Rev. O. C. Hellekson, Miss Hellekson and Miss Hannah Aaland will leave tomorrow morning by way of Lewiston for Tacoma to attend a meeting of the Lutheran society at that place. The ladies will also visit Portland and other coast towns and prior to their return will select their fall millinery stock.

—Wm. Biram is now the owner of one of the finest looking mule teams in "these parts." To the average Missourian they "look good." Doc Sevogrin, who has been a resident of Idaho from Missouri for nearly fifteen years says that during the time he has not had an enjoyable drive. He has engaged the team for Sunday and in anticipation of the approaching event his face is wreathed in smiles.

—The delinquent tax sale will be conducted at the court house in Moscow on July 7.

—The town of Troy is making great preparations for a big celebration the Fourth. They have engaged the Genesee band to discourse music for the occasion.

—Will Burr came in Saturday from his timber claim in the northern part of the county. Says the woods are full of campers now and that fishing in the river Potlatch is excellent.

—Rev. John Willis, wife and daughter, of Osceola, Iowa, relatives of Mr. and Mrs. Nixon of this place, visited here the first of the week while enroute to their home after attending the Methodist general conference recently held at Los Angeles, Calif. They were accompanied from Oakesdale here by Mrs. Cozier.

—A blustering self-important man walked into a barber shop says a Michigan paper, and wanted his hair cut. He didn't want any talk. Just a plain hair cut, and he wanted it right away. The modest and unpretentious old gentleman in the shop attempted to explain, but was roughly told to go ahead without a word. After the job was finished the old man who knew everything looked into the glass and was horrified at his appearance. He fairly stormed around, and indignantly asked the old gentleman if he called that a hair cut. The old man replied: "I don't know. You must ask the barber. He'll be in presently. I am the editor of the village paper, and was waiting for a haircut myself, but you wouldn't give me a chance to explain."

—Last week while making an inspection of the different stocks of goods in Genesee, A. McPherson, state pure food inspector, located a quantity of French peas which had been colored with sulphate of copper. The goods were taken from the shelf and destroyed. On the subject of whether or not the use of sulphate of copper is injurious to health a recent official bulletin of the agricultural department makes formal announcement of the discovery that extremely dilute solutions of sulphate of copper will rid large reservoirs of water of all impurities, including the typhoid and cholera germs. The bulletin further states that "solutions of copper much stronger than this are not considered injurious to man or other animals." It would appear from this that coppered peas are not only harmless, but that they might prove veritable life-savers in typhoid districts.

—The cost of the witnesses in the Payne Sly case is \$754. The cost of the jury for the short jury term was \$821.30, inclusive of their board. This makes a cost of nearly \$1,600 for this case.—Moscow Mirror.

—The official call for the republican state convention to be held at Moscow, Wednesday, August 10, has been issued. The convention will be made up of 285 delegates, of which Latah county will have a representation of 18.

—Our Whitman college students, Arthur Morgan, Ilena Wood, May Herman and Madge Fowler, arrived home Thursday of last week from Walla Walla. Their vacation will last until September. Mrs. W. C. Fowler who was present at the closing exercises returned with them.

Sued By His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says E. White, of Cocheville, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic Cholera and Diarrhoea Remedy he used as I had good reason to believe it was and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by all druggists.

—Fred Nagel has been appointed precinct committeeman for the republicans of West Genesee to succeed Geo. W. Daggett, who resigned.

—Out of a total of 120 successful applicants for Rhodes' scholarships in the Oxford (England) University, two were from Idaho. They were Carroll G. Foster and Lawrence H. Gipson.

—Our base ball team went to Uniontown Sunday where they played a matched game with the team of that place. The contest resulted in a victory for the team of Uniontown by a score of 12 to 11.

—Andrew Carnegie has donated \$10,000 to the city of Moscow as a public library building fund. Mrs. Julia A. Moore, in memory of her late husband, Charles Moore, is said to have offered a quarter of a block of ground for a site.

—J. L. Whitted, H. G. Schabbel, Zeb Robinson, Geo. Barnett and H. N. Roberts went to Genesee last Sunday to attend the memorial services conducted there by the Odd Fellows. They report a very cordial welcome from the Genesee Odd Fellows and the memorial services were very impressive and splendidly conducted.—Julietta Enterprise.

—A transfer of the Marcks residence property located in the western part of town was made this week to Mike Evita, the sale of the same having been made some time ago. The consideration was \$1600. Mrs. Marcks and the children will move onto their farm north of town in the near future. We understand that Mr. Evita will lease his farm and take up a permanent residence in town the coming fall.

—According to official reports there is a fearful destruction of crops in all parts of the country from various blights and insect pests as well as worms. It seems almost as if the scientists made matters worse with their theories, insecticides, fungicides, germicides and importation of parasites. We are now told that the plant enemies and insects are countless. The cotton root rot in Texas will cause a loss of \$2,000,000. Potato blight in New York has caused a loss of \$10,000,000. There is corn smut in Maryland, alfalfa rust in Ohio, a rice blast in South Carolina, and in other parts of the land tomatoes, cucumbers, asparagus, fruits of all kinds, walnuts, etc., are suffering from one disease or another. Evidently there is much work for the secretary of agriculture.

—The deaths of Senators Hanna and Quay call attention to the fact that in a short time, at best, many changes will occur in the personnel of the senate. For a body of its small size it contains a large number of old and feeble men. Both of the senators from Connecticut are superannuated. Senator Hawley has lost his mental vigor to such a degree that he has quit attending the sessions of congress. Senator Platt is thin, feeble, old and worn out. Senator Platt of New York is in the same condition, and can hardly drag himself around. Senator Cullom of Illinois may have killed the goose that lays the golden egg by his recent political action in his state. The two senators from Alabama are 80 and 83 years of age. If either should ever die, Bankhead would come to the senate and that would leave the way clear for Hobson to come to the house. Hoar, of Mass., is 77 and Frye of Maine is 73, and Bate of Tennessee is 80. The future of the senate is full of amazing possibilities. And Depew of New York is no chicken any longer.

Special round trip tickets will be placed on sale by the Northern Pacific as follows: July 1 and 2 to Detroit, Michigan, at rate of \$72.35. July 10, 11, 13 and 14 to Cincinnati, Ohio, rate \$70.10. July 7 and 8, Atlantic City, N. Y., \$84.10. August 8, 9 and 10, Boston, Mass., \$85.40. August 8, 9 and 10, Louisville, Ky., \$69.10. Going transit limit must be continuous. Final return limit 90 days. Return portion good for stopover west of Missouri river.

**Triumphs of Modern Surgery.**  
 Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they are removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, ulcers and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third of the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by all druggists.

**NOTICE TO CREDITORS.**

 Notice is hereby given by the undersigned, executrix of the estate of Nels J. Walby, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within six months after the first publication of this notice, to the said executrix at Moscow, Idaho, the same being the place for the transaction of the business of said estate, in Latah county, State of Idaho.  
 MATTIE C. WALBY,  
 Executrix of the estate of Nels J. Walby, deceased.  
 Dated at Moscow, May 30, 1904. 44-5

**NOTICE OF SALE OF REAL ESTATE.**  
 In the Probate Court of the County of Latah, State of Idaho.  
 In the matter of the estate of Ole O. Sveit, deceased.  
 Notice is hereby given that in pursuance of an order made and entered by the Probate Court of the County of Latah, State of Idaho, on the 18th day of May, 1904, in the matter of the estate of Ole O. Sveit, deceased, the undersigned, executor of said estate, will sell at private sale, subject to the confirmation of said Court, the following described real property situated in Latah county, State of Idaho, to wit: The west 2 acres of NE 1/4 NW 1/4, 38 acres of the NW 1/4 NE 1/4 and the NE 1/4 NW 1/4, all in section 26 in township No. 38 N., of Range 5, W. B. M. containing 80 acres more or less. Said land will be sold at private sale upon written bids, to the highest bidder, on or after the 1st day of July, 1904, and bids will be received at the office of Hans Bagg, at Genesee, Idaho, the office of this executor for said purpose. Terms of sale, ten per cent of the purchase price to be paid to the executor on the day of sale and the balance to be paid to him on the day of confirmation of said sale by the Probate Court. Said premises will be sold subject to the crop share lease of C. J. Frenge for the season of 1904, and no record title can be given to the land.  
 Dated this 30 day of June, 1904.  
 ANDREW J. HIXUM,  
 Executor of the estate of Ole O. Sveit, deceased.

### THE RACE MEETING.

The fourth annual meeting of the Genesee Driving club held Friday and Saturday of last week in this city passed off very pleasantly. The attendance at the Friday program while small was made up for on the day following when the big grand stand was packed full. A more orderly crowd never congregated any place.

The Friday program opened with a ball game between Uniontown and Genesee resulting in a score of 14 to 9 in favor of the home team.

The afternoon's races opened with a three eighth mile dash which was won by Dixie, owned by H. J. Mulkey, of Stites. Lottie, owned by Frank Adair, of Princeton, second. Purse \$50.

In the half a mile race J. Nordby's Roan was winner of first money; C. Osmundson's Nellie second.

A quarter mile dash for a \$50 purse was won by Steptoe, with Buck, entered by H. J. Mulkey, second.

The half mile dash for a \$50 purse proved to be one of the most interesting races of the meet. While there were only two entries, Mollie Indred and Dixie, they seemed very evenly matched and came under the wire at the home stretch with Mollie Indred only a nose in the lead.

The last race of the afternoon, a two mile Indian race seemed to please the crowd more than all others. A bay horse entered by Jim Phinney was an easy winner with Carl's black horse second. The famous gray horse which on a number of occasions had been the winner of Indian races on the Genesee track, to the disappointment of a number who saw fit to back her, finished third in the race.

A hundred yard foot race was won by Thoma of Genesee. The exercises of Friday opened with a ball game in the forenoon, Genesee against Juliaetta, which was won by the home team. Score, 17 to 13.

The race program for the afternoon opened with a three eighths mile dash which was won by Mollie Indred with Dixie second. Purse \$50.

A half mile pony race was won by Sherrod's Maud, with Osmundson's Nellie second.

The quarter mile dash was again won by Steptoe, with Vinson's Rob Roy, second. Purse \$50.

A three eighths saddle horse race, with four entries, proved to be one of the best races of the afternoon. Entries for the race were received up to the time of starting and at the "eleventh hour" a sorrel horse owned by Sam Wilson, an Indian was pitted against two horses from Uniontown and a Moscow horse. The Indian horse was winner of first money with Flora, entered by C. W. Miller, second. Purse \$25.

A half mile dash was won by Dixie, with Mollie Indred second for a \$50 purse. Time: \$1.

A two mile Indian race closed the race program and was won by Phinney's bay horse against three others.

The race program of the afternoon was interspersed by a number of foot races. A half mile relay race, with teams entered from Juliaetta, Potlatch and Genesee proved an interesting event for the audience. The Potlatch sprinters were easy winners against the other teams.

A 100 yard foot race was won by John Keefe, with Elmer Armstrong second.

A foot race for girls was won by the little Nordby girl.

Merrel Darr, of Uniontown, and Albert Schmauder of the same place, were winners of first and second money in the foot race for boys.

There were other foot races for juveniles but we were unable to learn the names of winners. Each night of the celebration the Genesee band boys conducted a dance at Elliot hall. The attendance each night was good. Good music was provided and those present had an enjoyable time.

### THE BALLOON ASCENSION.

On Saturday afternoon a balloon ascension had been advertised to take place and owing to the nonappearance of the aeronaut a large number were disappointed. The failure of this part of the program was perhaps more of a disappointment to the com-

mittee having the exercises in charge than those who were present to see the ascension. In the exercises of the afternoon by the adding of different features to the program more money was expended than would have paid the aeronaut for making the ascension. As a number have been free to claim that the advertising of this feature of the program was a fake, a full explanation is necessary.

After the program for the two days meet had been arranged, the secretary of the association received the following communication from the aeronaut who was then at Nezperce: Sec'y Race Meet,

Genesee, Idaho.  
Dear Sir: Would be pleased to set you some very low prices on balloon work for your race meet in June. Write me for prices. I will make them satisfactory. Yours Respy,  
B. McCLELLAN.

After a canvass of the members of the association it was decided to add the feature at any reasonable cost and by telephone with Mr. McClellan, who was then at Pomeroy, an agreement was reached. He had promised to send a contract but in failing to do so excused himself in the following letter mailed from Pomeroy. Sec'y Race Meet,

Genesee, Idaho.  
Dear Sir: Was called away after telephoning you. Have not had time to send contracts but will send them tomorrow, so don't let it worry you. I WILL BE ON HAND WITHOUT FAIL. Yours Respy,  
B. McCLELLAN.

As Mr. McClellan had during the past few seasons made a number of ascensions throughout this territory, sent numerous endorsements by prominent people, among them the Lewiston Fair manager, the Grangeville Street Fair association, and many others, the association was easily led to believe that he was a man of his word and could depend upon his appearance and the ascension being made. He had agreed to reach Genesee on Friday afternoon and in failing so to do a member of the association located him by telephone at Pullman. In conversation he stated that he was on his way to a livery stable and that he would drive to Genesee that night. But it was learned later that he was not serious in what he said. On account of his nonappearance the Pullman office was again called up Saturday and asked if possible locate his honor. It was learned that he had called at the Pullman office prior to the time of the opening of the Genesee office and left word to inform the association, should they inquire as to his whereabouts, that he was enroute to Genesee.

Giving him five hours to drive from Pullman it was believed that he would put in an appearance early in the afternoon in time to make the ascension, but he failed. He deceived the committee in every way and was not gentleman enough to advise them of his change of mind. In conversation over the 'phone with him at Lewiston Tuesday the only excuse he could give for his nonappearance was that the cost of a livery rig from Pullman to Genesee would have been so great that he could not have made any money at the price he agreed to make the ascension at.

### FAIRBANKS' RAPID RISE.

A little more than ten years ago Charles Warren Fairbanks was hardly thought of as a factor in political life. Yet in 1892 he was made chairman of the Indiana republican convention, and one year later received the entire vote of his party in the legislature for the United States senatorship. The vote, however, was not large enough to elect. In 1897 his election came, and scarcely seven years after his appearance in Indiana politics he was talked of for the highest honors in the gift of the people of the United States.

Senator Fairbanks is a native of Ohio, having been born in Unionville Center, that state, in 1852. He was graduated from the Ohio Wesleyan university at the age of 20 and began his career as a newspaper man. Through the influence of his uncle, William Henry Smith, president of the Associated Press at that time, he secured a position with that organization at Pittsburg. He found time to practice journalism and read law at the same time, and soon after he became a graduate of law, his ability secured for him the position of solicitor for the Chesapeake & Ohio railroad. His success in corporation law

gave him a wide reputation, and at the time of his election to the senate he was known as one of the most skillful railroad lawyers and financiers of the west.

Soon after his election to the senate a high compliment was paid to Mr. Fairbanks by his appointment as chairman of the United States branch of the Anglo-American Joint Commission. The questions that the commission were expected to consider were of the highest importance, and their nature was such as to demand not only a profound knowledge of the law, but the theory and practice of diplomacy. Throughout the trying negotiations of the commission Senator Fairbanks conducted the case of the United States in such a way as to command the respect of the British and Canadian officials and to retain their cordial personal regard and good will.

### WOMEN OF WOODCRAFT.

Genesee Circle on Thursday evening, June 23, had a most enjoyable time initiating two candidates and electing officers as follows: G. M., Mrs. Dickson; advisor, Mrs. Swanson; magician, Mrs. Thoma; attendant, Mrs. Miller; inner sentinel, Mrs. M. Driscoll; outer sentinel, Ole Miller; captain of guards, J. B. Davies; musician, Mrs. Kempf; manager, U. G. Dickson, after which they enjoyed one of their usual fine spreads.

### THE GENESSEE NEWS.

Regular services at the Christian church Sunday at 11 a. m. and 8 p. m.

Methodist church: Services Sunday at 11 a. m. and 8 p. m. Presiding Elder Rev. J. D. Crooks will preach. This being the fourth quarterly meeting for the year.

The Dorcas society will give a heart social at Ingwall Smith's place on Sunday afternoon, July 10. All girls bring baskets and make a heart, one part of which will be put in basket and the other worn. All are welcome.

Those having change of ads in this issue are: The Fair, Follett Bros., J. K. Bell, F. E. Dicus.

Mrs. Swain and daughter and Miss Hardwick, of Ellensburg, are visitors at the W. C. Brant home.

A large band of Indians of the Coeur d'Alene tribe passed through Genesee yesterday morning enroute to Lapwai to take part in the big celebration to be held at that place.

—Jake Goodnight is planning on some extensive changes about his farm residence. He has arranged with Peter Steltz to move the present house back and a large addition will be built in front.

—Mrs. E. E. Davis, representing the Northwestern Home Finding association was a visitor in Genesee this week in the interests of the association which she reports to be in a very satisfactory condition.

—The Congregational ladies' aid society was most royally entertained at the Nixon home south of town Wednesday of this week. The members drove out in the forenoon and remained until late in the evening. At the noon hour a spread was arranged for the visitors that will long be remembered.

—The grain business of the Kendrick and Juliaetta sections has practically passed into the hands of the Vollmer-Clearwater Grain Co. and Kestelbach Grain Co., both and Lewiston firms. The Tacoma Grain Co. has decided to withdraw from the field.

—Owing to the reduction in fares from the old world to the new for the trifling sum of \$10, immigration conditions are becoming complicated and promise to cause much suffering and detention of emigrants. Recently a ship arrived in Boston with over 140 Greek boys, most of them about nine years of age. They were not permitted to land as it was discovered that they were to be farmed out for menial employment. The government proposes to enforce a rigid inspection of all immigrants.

—A purse of \$50 is offered this year by the management of the Spokane Interstate Fair Association for a ladies' relay race. The race may be a new idea to some and not familiar to the general public. The plan is to have this race last over a period of five days, four miles being covered each day by the contestants, who change horses at the end of each mile, the winner being the rider making the best time for the twenty miles. Each contestant is expected to furnish her own horses. Full particulars governing entries may be had from Manager Cosgrove.

—It is a foregone conclusion that little if any macadamizing of the country roads tributary to Genesee will be carried out this season. When the piece of road was constructed east of town last season it was thought that the distance macadamized this season could be easily doubled. The road constructed has been a decided success, a fact which all will admit. For the extension of the work it was expected to receive donations of labor from the farmers, whose property would be directly benefited by the work, but it is apparent that they do not feel that the expenditure of labor is equal to the benefits derived, many contending that the general public ought to be taxed for the work. To successfully carry the work out in a general way Idaho will have to adopt a law similar to those in force in the eastern states. The county is a leader in making an appropriation for road building and since 1891 it has paid one third the cost of building good roads from the state treasury. Nearly 1000 miles of road have been macadamized in that state since the law went into effect. Nearly all of what are known as the eastern states have followed the example of New Jersey to a considerable extent. In New York the state pays one half the cost of the roads, the county 25 per cent and the township 15 per cent. Discussing the subject of good roads the Spokane Chronicle says: "The principle of state aid in building of state roads has been firmly established in these eastern states, on the ground that the whole people are interested in the best highways and that all citizens should bear a fair proportion of the cost. Some similar action may well be considered in the west, where perhaps more than in the east, on account of the limited transportation facilities, good roads are a necessity for the economical handling of the produce of the farms and mines."

### CHURCH NOTICES.

Regular services at the Christian church Sunday at 11 a. m. and 8 p. m.

Methodist church: Services Sunday at 11 a. m. and 8 p. m. Presiding Elder Rev. J. D. Crooks will preach. This being the fourth quarterly meeting for the year.

A large band of Indians of the Coeur d'Alene tribe passed through Genesee yesterday morning enroute to Lapwai to take part in the big celebration to be held at that place.

—Jake Goodnight is planning on some extensive changes about his farm residence. He has arranged with Peter Steltz to move the present house back and a large addition will be built in front.

—Mrs. E. E. Davis, representing the Northwestern Home Finding association was a visitor in Genesee this week in the interests of the association which she reports to be in a very satisfactory condition.

—The Congregational ladies' aid society was most royally entertained at the Nixon home south of town Wednesday of this week. The members drove out in the forenoon and remained until late in the evening. At the noon hour a spread was arranged for the visitors that will long be remembered.

—The grain business of the Kendrick and Juliaetta sections has practically passed into the hands of the Vollmer-Clearwater Grain Co. and Kestelbach Grain Co., both and Lewiston firms. The Tacoma Grain Co. has decided to withdraw from the field.

—Owing to the reduction in fares from the old world to the new for the trifling sum of \$10, immigration conditions are becoming complicated and promise to cause much suffering and detention of emigrants. Recently a ship arrived in Boston with over 140 Greek boys, most of them about nine years of age. They were not permitted to land as it was discovered that they were to be farmed out for menial employment. The government proposes to enforce a rigid inspection of all immigrants.

Change Work of Rural Carriers.

Recent legislation, which goes into effect today, will change to a considerable extent the duties of the rural mail carriers, raising their salaries somewhat, and making them more strictly government officials.

The following is the main portion of the carrier's duties as follows:

"On and after July 1, 1904, letter carriers of the rural free delivery service shall receive a salary not exceeding \$750 per annum, and no other or further allowance or salary shall be made to said carriers; and on and after said date said carriers shall not solicit business or receive orders of any kind for any person, firm or corporation, and shall not, during their hours of employment, carry any merchandise for hire; provided, that said carriers may carry merchandise for hire for and upon the request of patrons residing upon their respective routes, whenever the same shall not interfere with the proper discharge of their official duties, and under such regulations as the postmaster general may prescribe."

### FRIDAY, JULY 1, 1904.

—Ernest Miller has an ad in this issue. Read it.

—Mr. and Mrs. E. J. Bru and daughter returned home Friday from their visit to California.

—Miss Cora Hodgins has returned to Genesee from Web where she recently closed a term of school.

—Mrs. Hattie Carson and daughter Blanche were here from Moscow during the races renewing old acquaintances.

—J. E. Reid remembered a number of his friends Saturday morning with a nice bouquet of flowers grown on the Reid hill.

—Miss Emily Wood was a visitor from Pullman Tuesday. Miss Wood is a music teacher and was endeavoring to organize a class here.

—P. O. Alexander was down from Spokane Tuesday of this week sizing up the crop prospects. He is a partner of Ole Flamoe in a threshing outfit.

—Henry BeBow last week received word from Litchfield, Mich., of the death of his father in that city. At the time of his death Mr. BeBow had reached the mature age of 88 years. Some years ago he was a resident of Genesee.

—Mrs. Robinson, wife and children, of Wardner, are visitors at the A. A. Haywood home. Mrs. Robinson is a sister of Mrs. Haywood. After a brief visit here they will take their departure for Alaska to make a permanent residence.

—A number of Moscow's more wealthy citizens have formed a summer colony and purchased a tract of land containing 57 acres on the shores of Lake Coeur d'Alene. It is their intention to erect summer cottages and spend a portion of the summer there.

—D. Spurbeck took his departure this week for Kansas where he will visit for a time with a sister he has not seen for more than twenty years. From there he expects to go to Wisconsin. He is undecided as to where he will settle down.

—An inquiry was received this week from Martin J. Wessels, who is in charge of the Idaho exhibit at the St. Louis fair, asking if Genesee had any advertising literature which they wished to forward to him for distribution among fair visitors at the Idaho building. On account of not having anything to send his offer to distribute the same had to be declined.

—The organization of the militia company at this place has been postponed until later in the season. It was not possible to adjust all matters and complete the organization prior to the holding of the big encampment near Tacoma this month. The promoters of the company have assurance, however, that the organization can be completed at an early date following the encampment.

—J. G. Rehberg was a visitor in the city Wednesday from Juliaetta. Mr. Rehberg is the owner of a farm near the Pine Grove school house but moved to Juliaetta a few years ago to engage in the hardware business. He reports Juliaetta as being prosperous and that during his residence there the town has almost doubled in size. Says that a new store is being put in by Oscar Niles, well known to Geneseeans, and another gentleman.

—Messrs. Brigham, McGee and Courtney Survevor Bush met Saturday for the purpose of viewing the proposed changes in the road leading through the Jain, Peterson and Nisbet farms east of town. While the report of their findings has not been made public officially we are reliably informed that damages in the amount of \$600 will be tendered Mr. Jain, either \$50 or \$75 to Mr. Peterson, and \$20 to Mr. Nisbet. To a News reporter Mr. Jain says he will accept in full the amount if tendered to him and allow the proposed change to be made in the road through his farm without protest.

—It has been well said that the most prosperous town is the one where there is the greatest evidence of local pride. It doesn't require mansions and great lawns and the trappings of wealth to make a prosperous town or city, but order, cleanliness and the evidence of civic pride are an absolute essential. The neat, clean, well kept home with the evidences of things that may be bled, possessed by all save the really unfortunate, are the things which make a town inviting and upon which prosperity in a large measure rests.

—W. E. Stillinger was here from Moscow Friday of last week.

—J. K. Bell is having his residence raised and will have a foundation placed under it.

—A commodious addition has been erected to the Bottjer residence in the western part of town.

—Mrs. F. C. Marquardsen left Sunday morning for Payette. She was called there by the illness of a sister.

—A. Stamps arrived in Genesee Tuesday from Everett and may decide to remain throughout the summer.

—Woman's Relief corps will meet on third Saturday of each month instead of first and third until further notice.

—Samuel Nulph, who was seriously ill last week, is again able to be about. His illness was caused by over work.

—Mrs. E. A. McKenna and three children arrived here Tuesday from Sprague, Wash., for a visit with relatives and friends.

—A delegation of the Salvation army at Lewiston was in Genesee Tuesday evening and held a meeting at the Methodist church.

—Mrs. C. E. Hibbs returned home Wednesday after an absence of several weeks visiting with relatives in the Coeur d'Alene country.

—Mr. and Mrs. George Hobson are now visiting relatives in Wisconsin and are not expected to return to Genesee until after the 4th.

—The sisters' school at this place closed a successful year Thursday of this week. The vacation will continue until the first Monday in September.

—H. A. Morgan is making extensive changes in his residence. Some additions are being constructed and the convenience of the place will be greatly improved.

—The Sunday concerts by the band in the city park are greatly enjoyed by a large number of people. Sunday evening the boys had a large and appreciative audience.

—F. J. Kierce, supreme president of the Young Men's Institute, paid an official visit to the lodge at this place Tuesday of this week. In the evening he delivered an address at Elliott hall after which refreshments were served.

—Work of cleaning the ground for the erection of the Exchange Bank building has been in progress this week and the laying of the foundation is now in progress. A considerable portion of the material is on the ground.

—Senator Heyburn has been named as republican national committee man for Idaho. At the recent Chicago convention he was honored by being named as one of the committee to formally notify President Roosevelt of his nomination by that body.

—The sensational case of manslaughter brought against Dr. T. D. Ferguson of Colfax, for the alleged killing of Miss Agnes Downs by performing an abortion, ended Monday night of this week by the jury rendering a verdict of not guilty.

—Miss Mollie Keane, a member of the 1904 graduating class of the Genesee high school, having received the highest standing in the class, is entitled to the Honor Scholarship offered by Whitman college. We are informed that it is not likely she will accept same.

—H. F. Bilger and Henry Herman visited Lewiston Tuesday where they represented the Genesee tennis players at the tournament being held in that city. In one of the double events, playing against Thomas and Galbraith, two swift players of Lewiston, they made an excellent showing.

—John C. Jackson, a former resident of this locality, but now living near Dublin on the reservation, was an agreeable caller at this office Tuesday of this week. He says that owing to the numerous changes in Genesee and the number of strange faces that are visible he feels like an entire stranger. He says that everything points to an excellent grain

### CONCERNING ELECTRIC POWER.

Mr. Libby's Plans Maturing and Work is in Progress. A large plant, capable of developing 5,000 to 10,000 horse power, will be installed on the Grand Ronde river; this power will be utilized in manufacturing enterprises in the Lewiston valley and at Palouse country towns, and Mr. E. H. Libby's plan for industrial enterprises will be brought to maturity. Such is brief in the result of Mr. Libby's recent trip to the east, where he went to organize sufficient capital to carry out his plans. Yesterday Mr. Libby gave an interview to the Clarkston Republican announcing the entire success of his eastern trip, says the Lewiston Tribune.

The Tribune has had information for some time that the primary object of Mr. Libby's trip east was to secure capital to install the big plant on the Grand Ronde. With this enterprise a reality, the other incidental projects would logically follow. Several months ago Mr. Libby made arrangements with a Moscow company, of which M. J. Shields is manager, to supply this company with power in bulk for lighting and power purposes at Moscow, Genesee, Pullman, Uniontown and other Palouse points. The Moscow company then secured contracts with Genesee and other points for the distribution of this power. These details were all adjusted prior to Mr. Libby's trip east. He now returns prepared to carry out his feature of the contract, and the work is at this time actually in progress.

The plans provide for the installation of a 1,000 horse power steam plant at Vineland, which, in conjunction with the present water power plant at Astoria, will provide power until the Grand Ronde plant can be installed. It will require two or three years to install the latter plant. After it is completed the Astoria plant and the steam plant will be maintained for reserve and emergency. The Astoria plant has a capacity of about 1,000 horse power, thus making the power available for 2,000 horse. There is already in sight a market for this power and it will all be utilized by the time the Grand Ronde plant can be put into service. Engineers are now working on the site for the steam plant, and surveys will be in the field the coming week on the transmission line from Lewiston to Moscow. The other towns will be supplied from it. The power will be transmitted over the lines to Moscow by early fall, the purpose being to tap the present system unless the steam plant is completed by that time. It is also learned that originally the plans of Mr. Libby provided for moving the present Astoria plant to a new location, whereby the capacity of the plant could be increased from 1,000 to 2,500 horse. This step was to have been taken in connection with the project of reconstructing the Vineland ditch on higher ground, thus reclaiming more land back of Vineland, and enabling the larger power plant to be secured. The lands to be reserved by the ditch have been purchased, but it is learned the ditch will not be built this year. Investigation of the power matter it seems had satisfied Mr. Libby that the plant of 2,500 horse power would only temporarily serve the market that will be available for power and he then concentrated his energies on the Grand Ronde proposition, with complete success. This has necessarily left the new ditch project as a secondary matter to logically follow the maturity of the larger power plans.

While the cost of the installation of the Grand Ronde plant has been thoroughly investigated by Mr. Libby no figures have ever been given the public. Outside estimates have placed the figure all the way from \$500,000 to \$1,000,000. The best engineering city in the country has done the work on the surveys. The plant will be located a few miles above the mouth of Grand Ronde river and about 25 miles from Lewiston. The site is at a bend in the river and the water will be conveyed for a great distance through a tunnel. It is known to be Mr. Libby's plan to supply power to Lewiston and Clarkston and the Palouse country towns as far north as Colfax for manufacturing as well as lighting. Power will also be supplied for the mines along the upper Snake river.

### LOTTERY WHEEL.

The Washington correspondent of the New York Herald, says: Four of the greatest lotteries in which the American people have ever participated will open this summer in the western states. They will be conducted under the direction of the United States government, and the seekers for prizes will be persons anxious to take up homesteads. These lotteries will eclipse the great lottery in Oklahoma three years ago, when 12,500 quarter sections of land were raffled at prices before more than 300,000 applicants. The reason assigned by the officials for adopting the lottery plan for the distribution of public lands to homestead applicants is that it precludes disputes, contests and bloodshed. When a man draws a ticket which enables him to a section, he can rest assured the government will stand by him and see that he receives the land he selects. Four Indian reservations are to be opened to public selection. One is in Montana, where 1,100,000 acres of land will be thrown open. The prize winners must pay \$1.25 an acre. In this reservation a homesteader may acquire 640 acres. The opening will take place in August. Other tracts to be opened are the Rosebud reservation in South Dakota; the Devil's Lake reservation, in North Dakota; and the Red Lake reservation in Minnesota. Only 100,416 acres in the Devil's Lake reservation will be opened. This land is very rich, and successful applicants must pay \$4.50 an acre. The opening of this reservation will take place in July. A little more than 216,000 acres in the Rosebud reservation will be thrown open about the same time. Successful contestants will be asked to pay \$3 an acre. The Red Lake reservation contains a little more than 40,000 acres of land.

I had consumption so bad that if I walked a bit I would cough right up and spit blood, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 28 pounds. It's absolutely guaranteed to cure coughs, colds, a gripe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at Dicus' drug store."

Special round trip tickets will be placed on sale by the Northern Pacific as follows: July 1 and 2 to Detroit, Michigan, at rate of \$72.35. July 10, 11, 13 and 14 to Cincinnati, Ohio, rate \$70.10. July 7 and 8, Atlantic City, N. Y., \$84.10. August 8, 9 and 10, Boston, Mass., \$85.40. August 8, 9 and 10, Louisville, Ky., \$69.10. Going transit limit must be continuous. Final return limit 90 days. Return portion good for stopover west of Missouri river. **W. E. SMITH, Agent.**

**Cured of Chronic Diarrhoea After Ten Years of Suffering.** "I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give me entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with it. I cannot say too much in favor of this wonderful medicine." This remedy is for sale by Dicus & Co.

### WILL HOLD ONE CONVENTION.

Latah County Democrats Choose August 6.

Moscow, Idaho, July 3.—The democratic county central committee met here yesterday to fix the time and place for holding primaries and the convention. By a majority vote it was decided to hold the primaries on Monday, August 1. In the country precincts the polls are to open at 3 o'clock and close at 5 p. m.; in the town precincts from 2 o'clock to 6 p. m.

The only debate before the committee was on a proposition to hold two conventions with the same delegates—one to elect delegates to the Lewiston state convention and another at a later date to nominate a county ticket. The committee from county precincts insisted on finally carrying their point. The time fixed is Saturday, August 6. At this convention 15 delegates will be elected to the Lewiston convention and a full county and precinct ticket nominated.

The opinion expressed by many of the committee was that ex-Senator Heifield would have the unanimous support of Latah county for nomination for governor.

G. W. Knepper of Moscow, former president of the Lewiston state normal school, is a candidate for nomination as state superintendent of schools.

### GRAIN YEAR ENDS.

The harvest of 1903-04, brought to an end Thursday, August 5, through the shrinkage of the shipping business of the North Pacific ports. This falling off in exports was occasioned by the decrease in the wheat yield of Oregon, Washington and Idaho as compared with the preceding years. The three states produced last year 33,574,970 bushels of wheat against 37,025,425 bushels in 1902 and 45,364,128 bushels in 1901. Shipments from Portland in the past 12 months, including four as wheat, were 8,400,865 bushels, compared with 14,099,382 bushels in the preceding year, and 16,674,295 bushels two years ago. Puget Sound shipments show the same ratio of decrease, having been 11,868,148 bushels against 18,073,818 bushels in 1902, and 18,825,007 bushels in 1901.

A portion larger than usual of the wheat in the past season went into flour, due in a large measure to the heavy requirements of the Orient just before the breaking out of war between Japan and Russia. Another feature of the season was the demand from eastern markets for northwestern wheat. Shipments from this coast to Chicago and St. Louis were made possible for a short time by the speculative excitement in the middle west, caused by the Armour corner, and 1,483,957 bushels of northwestern wheat found their way across the Rockies against only 25,000 bushels so shipped the year before. With the short supply in this section, there was a still greater shortage, comparatively speaking, in California, which necessitated the movement of a large quantity of wheat southward, and thus reduced the amount available for overseas shipment. Furthermore, it was no prominent in 1902-03, was lacking. Consequently the cargoes that were sent abroad from this port in the year just brought to a close numbered only 39 against 95 in the preceding year.

There is hardly a question but that the Pacific Northwest will this fall harvest the greatest wheat crop in its history. Fifty million bushels is the portion of the government grant allotted to charitable institutions of the state. They are located in southern Shoshone and are considered to be very valuable. Not only will the standing timber bring good prices but once the lands are cleared they will be susceptible of cultivation and owing to the character of the soil they should command a good figure.

Of the 150,000 acres set aside by the federal government for the support of the state institutions, there remains to be selected 6,250 acres. The minimum price at which these lands can be sold is \$10 an acre, but in many localities this figure will be greatly exceeded.

The department is becoming possessed of information regarding other desirable lands that are eligible for selection, especially in the southern part of the state, where so much of the best known lands have been withdrawn for government irrigation projects. These withdrawn lands are open to entry by homesteaders, but the state is denied the privilege of selecting them.

The land department reports that its June purchase of school district bonds will run over \$60,000, and of state warrants \$40,000. The former draw 5 per cent interest and the latter 7 per cent.

It is expected that the July semi-annual apportionment of the common school fund will run close to \$60,000, compared to \$50,000, the largest previous semi-annual apportionment to the common schools of the state.

In spite of the fact that unusually good grass on the range and low prices of livestock have a tendency to curtail the demand for grazing land, new applications for leases are constantly being received. There are but few ranchers and stockmen in the state who are not becoming informed regarding state lands and the liberal terms on which they are sold and leased. By continuing the campaign of education that is now being pushed there is no reason why in a very few years all the lands belonging to the state should not be bringing in revenue for the support of the schools and state institutions.

The last sale of school lands was held at St. Anthony June 25, at which time several acres of choice Fremont county land was sold. Lists are being made up of lands to be offered in Idaho, Nez Perce, Latah and Kootenai counties during the early fall.

On account of the liberal amount of school district bonds that are being offered, and which promises to use up the remaining funds on hand for investment the board has withdrawn from the farm loaning business for the present. From every standpoint the school bonds are regarded as the most profitable investment.

### ANNUAL REPORT.

The local land office closed the fiscal year Thursday, August 5, at which time the division of the lands in the five counties in this district was reported to the commissioner of the land office. The following is the report by counties: Idaho—Surveyed 205,826, unsurveyed 3,336,956, total 3,542,782; acres in reserve 12,000, total 3,554,782; acres in reserve 12,000, total 3,554,782; acres in reserve 12,000, total 3,554,782.

—Sheriff J. J. Keane was here from Moscow on official business Tuesday.  
—The Congregational ladies' aid society will meet next Wednesday with Mrs. J. L. Conant.  
—Miss Ida Bowman, of Milton, Ore., arrived here Wednesday for a visit at the Canfield home.  
—Mrs. P. W. McRoberts and Mrs. H. F. Bilger left Tuesday morning for Spokane to meet their mother, of Olympia, Wash., who will visit at this place.

—Frank Harris is quite seriously ill as a result of being poisoned with some weed while assisting in building a fence on the Vollmer ranch south of town.  
—It is expected that Judge Steele will return here from the Oregon hot springs by the first of the coming week. About his first order of business will be to sentence Payne Sley.  
—Mr. and Mrs. W. J. Herman, May and Henry, left yesterday morning for the St. Joe section where they will enjoy a little camp life. To Lake Coeur d'Alene they will make the trip by rail.

—Mrs. R. L. Burdic arrived here Thursday of last week for a visit with Genesee relatives and friends. She is enroute to her home in Ashland, Oregon, from a visit to the World's Fair and with eastern relatives.  
—Lenus Peterson returned from Kennebec Friday of last week where he had been looking after his recently purchased tract of land. He says there was a great movement of real estate down there during the recent high winds.

—Mrs. Frank Schwenne, a well known citizen of Uniontown, died Monday of this week as a result of heart failure. She was buried Wednesday from the Catholic church at Uniontown. She leaves a husband and six children.  
—Ole Olson, wife and three children, reached here Sunday from Duluth, Minn., to remain permanently. Mr. Olson is the party who purchased the Ed. Walters' jewelry stock and will probably take possession of the same today.

—After considerable delay in securing all necessary attachments, Wm. Smolt now has his handsome new soda fountain in operation. The fountain represents an outlay of several hundred dollars and is one of the latest patterns made. Step in and have Mr. Smolt explain its workings.  
—P. R. Gray, of Mora, Minn., an old acquaintance of the Becker people, was a visitor here the latter part of the week. He was so favorably impressed with Genesee and the surrounding country that he has decided to return with his family and take up a permanent residence. He will engage in some business.

—Miss Alice W. Goldsmith and Mr. Jacob Blakeman were united in marriage Wednesday afternoon at Spalding, the ceremony being performed by Rev. J. D. McConkey. The bride is the daughter of Mr. and Mrs. M. L. Goldsmith, of Spalding, and the groom is the Northern Pacific agent at Coulee City, Wash. The marriage occurred at the Goldsmith home in Spalding. The couple will reside at Spalding.—Tribune.

—A Moscow dispatch says that Wm. Deary, president of the Potlatch Lumber company, was in the city Thursday in consultation with his attorney, G. C. Fickett, in regard to the taxation of the timber lands held by the company. Until last year the holdings of the company, which approximate 50,000 acres, have never been entered for taxation. The company contended that the timber was not legally assessable as it stood on state land. Last year Attorney Stillinger instructed Assessor Langdon to enter it. It was done and the timber is now to be sold for delinquent taxes. The company has decided to fight the matter in the courts. Both parties are very determined and the case will probably be carried to the supreme court.

Latah county is the pioneer in the move of making the timber companies pay taxes. If the state should win, the holdings of the other companies would be taxed and hundreds of thousands of dollars would flow into the treasuries of the different counties. The papers for the suit have not been filed yet but are being made out.

—Miss Emma Nebelsieck was here from Moscow, the guest of relatives over the Fourth.  
—Route Agent Scott, after an absence of several weeks, returned to Genesee Friday of last week.  
—Mr. and Mrs. Eli Morgan, who were recently married at Edwall, Wash., are spending their honeymoon at Lake Coeur d'Alene.  
—An effort is being made to organize a company of militia at Beck, a reservation town. A petition has been forwarded to the governor.  
—Mr. and Mrs. Wm. Welch have disposed of the lodging house in Spokane and for a while will live on their timber claim in the St. Joe country.  
—Monday quite a number of the people of the Little Potlatch section congregated at the Wardrobe farm and enjoyed an old time picnic. A big picnic dinner was a feature of the day.  
—C. T. Cooper is home from Kennebec where he went some time ago. He reports that the entire lower country is now covered with about six inches of dust making travel anything but pleasant.  
—The Kookie Mountaineer of last week contained the following item: "L. H. Palmer is now busy getting out scenery for the new opera house at Asotin, Wash., also the new Electric theater at North Yakima, and new front drop curtains for Genesee, Moscow and Roeland, B. C."

—J. K. Bell, and two children, visited with relatives at Asotin the first of the week.  
—Alfred Smith, who has been attending school at Parkland, Wash., has returned home.  
—The contract for the erection of a Catholic church and school at Nezperce has been let.  
—Mr. and Mrs. Frank Cleveland celebrated the Fourth at their home north of town by the arrival of a girl baby.  
—Wm. Harris writes us to forward the News to his address at Palouse, where we suppose he has taken up a residence.  
—John Halverson who some time ago invested in a tract of land near Kennebec, on an recent visit there was successful in disposing of it.  
—Of the \$1,000,000 appropriated by congress to provide arms and equipment for the organized militia of the United States, \$5,984 were appropriated to Idaho.  
—A much needed rail visited this section the latter part of the week doing useful good to all kinds of grain and vegetables. In the storm of Saturday considerable hail fell northeast of Genesee but the damage done is said to be slight.  
—A meeting of the school board was held Monday evening to open bids for the erection of an addition to the school building. Only one bid had been filed with the clerk. It was decided not to take any action in the matter until Monday evening of next week.  
—Bids were opened last week for the erection of the Elk's temple at Moscow, but all ranged above the amount which the lodge has appropriated for the work. Some changes in the plans will be made and new bids will be asked for. The building is to be 60x100 feet with two stories and a basement. The probable cost of the same will be about \$14,000.  
—Henry Whitted and Miss Leona Hall, both of this place, were married the first of the week at Moscow, the ceremony being performed at the residence of Mr. and Mrs. Chas. Kays. Mr. Whitted is a prosperous farmer of the Little Potlatch neighborhood. The bride has been a resident of this neighborhood for the past two or three years, having come here from North Carolina and for a time kept house for Fred Hampton.  
—Arthur Sheldon, son of Ezra Sheldon, arrived home Sunday from Castle, Pa., where he recently graduated from the industrial school in that city. The young man, during his attendance at the school, has been very prominent in athletics and during the past two seasons has been a star player in the football team. During the coming football season he may return to Carlisle to take part in some of the big games. A younger son of Mr. Sheldon, who has been attending the same school, reached home about a week ago.  
—North Pacific wheat raisers are likely to feel the effects of the recent action of the Shippers' International union in fixing minimum freight rates to European ports from abroad. The union now embraces an aggregate tonnage of 1,366,949, of the total of 1,792,592 tons employed by the British, French and German grain merchant firms in this branch of trade. According to Commercial News, the rates fixed by the union from San Francisco are 22c 3d for wheat, 23c 3d for flour or barley, and 25c for merchandise, with not exceeding 1c 3d less to a direct port and 2c 3d additional to the continent other than Havre, Antwerp, Dunkirk and Hamburg. A flat rate of 22c 3d is fixed for Southern California, 25c 3d for Portland, and 26c 3d for Tacoma and the Sound, but days not before September 1 and Portland and the Sound. Owners will have the right to reimburse the charterers the net cost of any extra insurance paid on cargo owing to the age or condition of the ship. Breaches of the rules by the members are to be punished by a fine of 50c per ton on the dead weight capacity of the ship. The maintenance of these rates would add from 5c to 8c per bushel to ocean carrying charges, as compared with the cost for a large portion of the past season, and must necessarily be deducted from the price of the crop as compared with the usual Liverpool parity. There is a possibility of competition from regular liners and tramp steamers in the event of quiet business in general transportation, while shippers are content to let the situation develop itself. In the meantime, the amount of the cost of future business is not known. It is reported that the ever reported where crop prospects were so favorable for record-breaking shipments.—Trade.

The Idaho anti-Mormon Home Purify Association, like a rolling snowball, enlarges its diameter by all sorts of accretions. When Senator Dubois started to roll, he touched the edge of the Statesman and it wound around him, forming the first layer. Then it gathered up Cy Donnelly, next came Flenner, D. L. Evans accreted. A cross section of that roly-poly would make an elegant object lesson in sexual purity.—Caldwell Tribune.

Much alarm and newspaper discussion has resulted from the fact that immigrants can now cross the Atlantic for \$10. It has been given out that most of the poor people in the old world would at once embark for America, the land of prosperity and high wages. As a matter of fact the immigration up to date is a little less than that of last year when the passage cost more. It is estimated that the total for 1904 will not exceed 700,000.

First and last much has been said in criticism of the president in regard to his executive order giving pensions to old settlers above 62 years of age. It was claimed that an army of pensioners would flood the pension bureau with applications; that an immense sum would be disbursed from the U.S. treasury just as the campaign was coming on; and that millions of dollars would be added to the burden of the tax-payers. All these lamentations and predictions prove to have had no foundation in fact. All told there are only about 55,000 possible age pensioners, and less than 5,000 of these have asked for a pension. So the president is once more vindicated for his wise action.

A few of the newspapers of southern Idaho, that are clamoring for the nomination of C. W. Beale for congressman to succeed Burton L. French, are finding it very difficult to hatch up some real reason why a change should be made. They have worn threadbare the claim that Mr. Beale "will bring to the position the dignity of middle-age." Mr. French has proven to his constituents that gray hair is unnecessary to bring "dignity" to the position. On the other hand Mr. Beale is only a few years his senior, lacks the acquaintance over the state that Mr. French possesses, and it is safe to say could no way better represent the interests of Idahoans at the national capital.

An effort is being made in a modest and underhand way to break into Mr. French's ranks in this county and if possible to deliver a portion of the delegation to Mr. Beale at the state convention. The schemers will not succeed.

Now that the republican nomination platform have both materialized to the satisfaction of the president, and all concerned, and he has for a running mate a senator conspicuous and popular, plans for conducting the campaign are being carefully considered. A republican campaign book will be issued, and Secretary Shaw has announced that the facts and figures will soon be forthcoming to show that no people were ever so happy and prosperous in the history of mankind as are those of the United States at the present time. The plank in the republican platform which attracts the widest attention is the one proposing a reduction in the electoral college in states where the elective franchise has been diminished. Secretary Cortelyou gave up his portfolio Thursday, when the new man from California took hold. For the present the republican headquarters will be in Washington, where the preliminary work will be done. The new secretary of the navy, Mr. Norton, announces that he is a Roosevelt democrat, and he adds, "there are lots of them." He will remain in the cabinet only till March. That there is a strong democratic drift towards the president cannot be denied. Men of all parties like a president who has the courage of his convictions. It is again announced that the president will refrain from speech making during the campaign, save when he is officially informed of his nomination.

CHARGE OF HEINOUS ASSAULT.
Ollie A. Roberts is Sought by Latah Officers.
Kendrick, Idaho, July 4.—News has recently leaked out here that Sheriff Keane has a warrant in his possession for the arrest of Ollie A. Roberts, who lives with her parents on American Ridge. The girl is only 15 or 16 years old. The assault was said to have been committed at the hotel in Julietta July 4 of last year. She has since given birth to a child. It is alleged that Roberts had the girl with him in Genesee and later still at the Lewiston fair last fall.

One of the most singular trees on the American continent is a species of acacia found in northwestern Idaho, and observed closely by a party of scientists recently on a tour through that region. It grows to a height of about eight feet, and when full grown, closes its leaves together in coils each day at sunset and curls its twigs to the shape of pig tails. After the tree has settled itself thus for a night's sleep, if touched the whole thing will flutter as if agitated or impatient at being disturbed. The oftener the foliage is molested, the more violent becomes the shaking of branches, and at length the tree emits a nauseating odor, which if inhaled for a few moments, causes violent, dizzy head-aches. The angry tree, as it has been named, was discovered by travelers, who, upon making a camp for the night, placed one end of a canvas covering over one of the sensitive branches, using it for a support. Immediately the tree began to jerk sharply its branches. The motion continued, growing more nervous, until at last the sickening odor which it gave out drove the tired campers to a more friendly location. Curiosity, of course, prompted an investigation. One of the angry trees was dug up and thrown to one side. Immediately upon being removed from the ground, the tree opened and for something over an hour and a half the outraged branches showed their indignation by

Busy is no name for our present condition. The demand for McCormick Mowers and Rakes so far this season has been tremendous. In fact, we have experienced some difficulty in keeping machines on hand. That these machines are superior to other makes is attested by the fact that more of them are in use in the country adjoining Genesee than all other makes combined.

—A car of hogs went out to Seattle yesterday.

—H. C. Tweed returned the first of the week from a visit to coast points.

—Isadore Abraham, a brother of Mrs. J. Rosenstein, is a visitor here from Roseburg, Oregon.

—Jim Snow, a prominent and wealthy Nez Perce Indian, died Tuesday night at Lapwai as a result of consumption.

—The Martinson sisters came up from Clifton the latter part of the week to spend their vacation among Genesee relatives and friends.

—During the week a large amount of timothy hay has been cut. The yield, while not as good as in some years past, will be nearly up to the average.

—J. E. Reed called Wednesday to exhibit the briefest communication he had ever received. "Is a boy," meaning that a son had arrived at the home of his niece in Pennsylvania.

—The ladies' aid society will hold a social at the W. C. Brant home, Friday evening of next week. Ice cream and cake will be served and good music will be provided. All invited.

—At the meeting of the council held Monday little aside from the regular routine business was transacted. A new side walk was ordered put in fronting on the German Lutheran church property.

—Dedrick Sohamhorst and family, the well known Genesee farmer, spent the Fourth with his sister and brother-in-law, Mr. and Mrs. H. E. Wesells. After a few days in the Cameron country they returned home Thursday.—Kendrick Gazette.

—Mrs. F. C. Marquardsen returned Monday from a short visit to Payette. On her return she was accompanied by her mother and sister, Mrs. W. H. and Cora Platt, who will enjoy the salubrious climate of the Genesee valley during the next few weeks.

—H. C. Shaver, publisher of the North Idaho Star, at Moscow, and wife, were visitors in the city Saturday. Mr. Shaver was circulating among the republicans in the interests of Francis Jenkins who is willing to accept the nomination for governor.

—An unsuccessful attempt was made to exclude the surface water from the snap at the city well. A brick wall, faced with a heavy coating of cement has failed to exclude it and it will now be necessary to dig away the dirt back of the wall and apply a coat of cement.

—The famous tonic, Perana, has had quite a run in an eastern town, and Dr. Hartman wrote to the drug-gist to secure some testimonials. One testimonial, so far unpublished, reads as follows: "Dear Dr. Hartman—I took several bottles of your Perana for worms. I now have the snakes. Desperately yours."

—L. Stoltz has disposed of his fine farm west of town which he purchased some time ago from Henry Meyer, to Henry Luders who has been farming the same the past two years. For the property, consisting of 120 acres, Mr. Luders paid \$5,500. Mr. Stoltz left Tuesday morning for Sheridan and Aurora, Oregon, to look over those places with a view to locating.

—W. A. Husted and Tom Maguire contributed \$15 and \$10 respectively toward the running of the city the first of the week. They were taken on the charge of being drunk and disorderly. "Cherokee Bill" who has been serving a 90 sentence, on a bread and water diet, was released Monday night. In departing he said he hoped some one would take a gun and kill him if he ever returned to Genesee to get drunk again.

—The first sale of grain of the crop of 1904 was closed in this city yesterday when the Vollmer-Clearwater company purchased 35,000 bushels from John Nelson of Tammany. The grain is bluestem and club in about equal quantity and the price was 20 cents for the bluestem and 55 cents for the club. This price is 3 cents over the coast quotations but the purchase was made in competition with future sales for milling purposes. Mr. Nelson, who conducts a combined header and harvester and who is a well known member of the Lapwai section, will begin the threshing of his crop next week.—Tribune.

**Notice of Republican Primaries.**

Notice is hereby given that the republican primaries for the purpose of electing delegates to the county convention to be held at Moscow, Tuesday, July 26, to select 18 delegates to the republican state convention to be held in Moscow, August 10, also to place in nomination a state senator and all county and precinct officers to be voted for at the general election to be held on Tuesday, November 8, will be held in Genesee, Monday, July 18.

Said primary election will be held in East Genesee precinct at the Genesee News office and in West Genesee precinct at the park grand stand, the said election to commence at 2 o'clock p. m., and close at 7 o'clock p. m. of said day.

East Genesee precinct is entitled to ten (10) delegates, and West Genesee precinct to four (4) delegates.

J. K. BRILL,  
Committeeman East Genesee precinct.

FRED NAGEL,  
Committeeman West Genesee precinct.

**CHURCH NOTICES.**

**Safeguard the Children.**

Notwithstanding all that is done by boards of health and charitably inclined persons, the death rate among children is very high during the hot weather of the summer months in the large cities; there is no probably one case of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Dicus & Co.

—Mr. and Mrs. Chris Anderson were visitors here from Moscow Sunday.

—H. A. Thatcher has been looking after insurance matters in Moscow and Lewiston this week.

—Read the new ads. of The Fair, Meyer Bros., J. K. Bell, W. J. Henman, Prof. Geo. Jaunsin.

—George Miller left yesterday for his home in the Pierce City country, expecting to be gone a week or more.

—W. L. Lundy and J. W. Garnette, of Moscow, were Genesee visitors Tuesday. They were looking over the town with a view to engaging in business.

—M. J. Shields' handsome autograph appeared upon the Grand Central register Monday. He was here from Moscow to attend the meeting of the city council on matters concerning the installing of the electric power.

—C. E. Hibbs has purchased a meat market at Summit, Clearwater town where he has been buying grain the past year. He has already assumed charge. Mrs. Hibbs and the children expect to leave for there today to take up a permanent residence.

—The survey for the setting of the poles for the electric power line from Lewiston to this city has been completed and work of setting the poles and stringing the wire will be commenced at an early date. It is planned to locate the substation on the city lots one hundred feet distant from water works pumping station. If this is done it means the erection of a large brick building.

—One hundred photographs from the life of Theodore Roosevelt are contained in a book the title of which is "Our Patriotic President," published by the Elite Art Press of New York. The publishers have carried out a new and original idea in presenting mainly through pictures to the American people the life of the presidential candidate of the republican party, illustrating from the early part of his youth to the present day every moment of importance in Theodore Roosevelt's picturesque and patriotic career.

—In the near future the band boys contemplate the holding of a big picnic at the Meyer farm just west of the city, the object of the same being to raise funds to apply on the purchase of uniforms for the members of the band. The boys are perfectly satisfied with Professor Jaunsin as a teacher and leader and intend, if possible, to keep him here permanently. Under his leadership the boys have made good progress and the band is now that any town might feel proud of. They should be given every encouragement possible. The date for the big picnic has not yet been set but will soon be announced.

—For the first time since the Northern Pacific road was completed to this place, Tuesday of this week Genesee was favored with a visit from the president, he being accompanied by a large party of officials who were traveling in a special train. Their mission here was simply to look over the property of the company. Their stay in the city was brief—just long enough to receive the great number of messages and to turn the engine. We are sorry, very sorry, that their trip over the thirty miles of road from this place to Pullman, without a doubt one of the best paying pieces of track in the Northern Pacific system, was not made in the fall of the year when it is almost necessary on account of the soft condition of the road-bed for a guide to precede a train to learn whether or not the rails are on the right of way. Then, if they love the patrons of the road in this section, they would improve the road bed with gravel. From here they went to Lewiston, from which place President Elliott states the company is planning on building an extension across Camas prairie. The party was made up of the following prominent officials: Howard Elliott, president; J. M. Hannaford, second vice president; Thomas Cooper, land commissioner; E. J. Pearson, chief engineer; S. G. Fulton, assistant general freight agent; A. D. Charlton, assistant general passenger agent; L. S. Spoor, geologist; C. M. Levy, assistant to the president; C. W. Bunn, general counsel; B. S. Gracup, counsel at Tacoma; A. E. Law, assistant general superintendent; A. Beamer, superintendent of this division; B. E. Palmer, superintendent at Missoula, Mont.; R. W. Clark, secretary to Mr. Elliott; F. H. Ford, secretary to Mr. Hannaford, and Jared Hest of St. Paul, a friend of Mr. Elliott's.

—J. L. Naylor was a visitor here from Moscow Saturday.

—Ezra Sheldon returned home Wednesday from a trip to Kennewick.

—The work of laying brick on the Exchange Bank building is progressing nicely.

—For several days this week Genesee experienced a severe famine. The situation was relieved Wednesday by the arrival of a car.

—Miss Edna Borg will leave tomorrow morning for Spokane to meet a traveling salesman when she will purchase her fall stock of millinery. Before returning she will pay a visit to the coast.

—To the many neighbors and Genesee friends, and especially to the Woodmen of the World lodge, Frank Haylett through the news wishes to return thanks for courtesies shown during the sickness and burial of Mrs. Haylett.

—Jesse Collins, partner of Mr. Walker who has been superintending the construction of the Exchange Bank building, came up from Lewiston Wednesday with his family and will remain here during the summer. Says the change is an agreeable one as the heat at Lewiston is something fierce.

—Congressman B. L. French, accompanied by Mrs. French, was visitor in Genesee Monday for a few hours. They were enroute home to Moscow from a trip through Nez Perce and Idaho counties. Mr. French has every assurance that his candidacy will be heartily supported in those counties and expressed himself as being well pleased with the situation.

—R. L. Burdic arrived here Sunday from Ashland, Oregon, for a brief visit with relatives and friends. Mrs. Burdic and the children who have been visiting here will accompany him home and they will start on their journey Saturday. Mr. Burdic reports himself well satisfied with his lot in Ashland which he states is one of the thriving towns of the coast.

He is manager for a big lumber concern in which he is financially interested. Says that Mr. Grant for some time past has been devoting his time to mining and is hopeful of being in a position to "wear diamonds" at no future date. To the unmarried men Mr. Burdic says that Ashland holds out great inducements, the census showing that the place has something over three hundred widows, all handsome, and the majority living on the interest of their money.

**OBITUARY.**

Agnes Haylett, wife of Frank Haylett, died Thursday, July 7, 1904, and was buried Friday, July 8, from the Methodist church, of which she was a member. Rev. F. M. Canfield, officiating. Mrs. Haylett's maiden name was Collins. She was a native of Ontario, Canada. She and her husband were married at Aberdeen, S. D., Dec. 28, 1892. Three little boys blessed their union, who with the husband, her father and one sister survive to mourn her loss.

Mrs. Haylett was an excellent neighbor, a kind mother and loving wife. She was buried in her wedding dress at her own request. Cancer was the dread disease of which she died. A few years ago she underwent an operation for the same but it returned and there was no cure. She died with perfect assurance of eternal life.

**THE GENESEE NEWS.**  
 ENTERED AT THE POST OFFICE AT GENESEE AS SECOND-CLASS MAIL MATTER.  
 CHAS. POWER, PUBLISHER.  
 Subscription price, strictly in advance, \$1.50.  
 —Gust Tanning came over from Troy the first of the week to remain during haying and harvest season.  
 —Mrs. Francis Just, mother of Mrs. Charles Larabee, reached here Wednesday from Sacramento, Calif., for an extended visit.  
 —Payne Sly, who was last week sentenced to life imprisonment, accompanied by a guard, left Moscow Sunday for Boise.  
 —Mr. and Mrs. Walbridge, of Spokane, father and mother of Mrs. Thos. H. Brewer, have been spending the week here. Yesterday, accompanied by Mr. and Mrs. Brewer they drove to Lewiston.  
 —On his farm east of town, Fred Hampton has in course of construction one of the finest farm houses in this section. In size it will be 28x32, two stories with a 14x16 wing. On three sides there will be a wide veranda. Those doing the carpenter work are: C. E. Harris of Lewiston, J. E. Hampton of Moscow, and W. R. Trull of Kendrick.  
 —It will doubtless be interesting to the veterans of Idaho, who saw service in the Philippines, that the war department has announced that they are entitled to receive two months' extra pay. All that is necessary for those entitled to extra compensation to do, is to send to the war department blanks, fill them out and the money will be forthcoming upon the receipt by the auditor of the treasury of the proper papers.  
 —At the republican primaries held last Monday to elect delegates to the county convention to be held next Tuesday at Moscow, in East Genesee precinct an unusually large vote was polled. Prior to the primary a delegation of ten republicans had been selected and a canvass made in their interest, resulting in their election by a large majority. The delegates elected are known to be straight for the candidacy of Burton L. French for congressman, R. Pickering for commissioner and James Mullaney for representative. 104 votes were polled in East Genesee and 29 in West Genesee. In the latter precinct no effort was made to get out the voters. Following are the delegates elected: East Genesee—W. N. Child, W. W. Gray, James Mullaney, J. C. Hanson, C. F. Burr, J. K. Bell, F. A. Robinson, Chas. Power, Ole Flamore and Louis Otnes. West Genesee—C. E. Wood, Fred Nagel, Le Rue Tice and W. C. Owen. Throughout the county primaries were a sweeping victory for the French forces. In Moscow only two Jenkins candidates appeared on the list and it is said that they are opposed to Mr. French, but also favor Mr. Jenkins' candidacy.  
 —A Spalding dispatch of recent date says: There was much excitement here Wednesday among the Indians that are congregated at this place in the annual war dance and celebration. A man rode in Spalding from Uniontown astride a gray horse, from Genesee, a well known Indian spy, who immediately claimed him as one that was stolen some time ago. The party in possession of the animal refused to relinquish the horse claiming that he purchased him from someone at Uniontown. With this statement he started to leave. Indian Moses grabbed the rope around the horse's neck and began to tie him and called several other Indian friends to his assistance. They intended taking the horse by force. A free for all fight was averted and the stranger narrowly escaped with injury and possibly death in the mixup by a number of the white residents of this place coming to his rescue. Moses became enraged to such an extent when the interference of the whites was made that he endeavored to draw a knife which he had in his belt. He was taken hold of and used quite roughly and the knife taken from him. After explanations were made in which the Indians were advised to let the law take its course in the matter the affair cooled down. Moses is now endeavoring to secure relevant papers to secure possession of the horse. The stranger's name could not be learned but he agreed to go back to Genesee with the Indian and prove that he had purchased the horse. This course is not satisfactory to Moses who insists that he will not allow the horse to be taken from the vicinity of Spalding and announces his intention of keeping at his side until he gets possession of him.

**COUNCIL MINUTES.**  
 At a recent session of the council, at which time bids for the supplying the city with hose carts and hose were opened, it was voted by the members to reject all bids on file, as in their opinion all were too high. New bids will be asked for.  
 Marshal was instructed to notify Joe Blanchard and Mrs. J. A. Peterson to construct regulation sidewalks fronting on their residence property in Krum's addition.  
 Marshal was instructed to notify Fred Nagel to move the slaughter house within sixty days and to keep all refuse matter in the same up and buried, and that the slaughter house be removed at least one mile from city limits.  
**CHURCH NOTICES.**  
 There will be preaching at the Christian church Sunday at 11 a. m. and 8 p. m.  
 The Congregational church ladies will serve ice cream, cake and lemonade on the lawn at Mr. Brant's residence tonight. Excellent music will be furnished. Come all.  
 The subject next Sabbath at the Congregational church in the morning will be "Constraints of the Christian," in the evening "Ideals." The pastor's vacation commences next Monday and will include four Sundays. The only services during vacation will be the Sabbath school and the Christian Endeavor.

**KINDS OF GOOD**  
**FRIDAY, JULY 23, 1904.**  
 —Messrs. Walters and Olson visited at Uniontown Sunday.  
 —J. C. Nordby left Wednesday morning for Spokane to be gone a few days.  
 —Miss Francis Mount, who has been visiting here, returned to her home in Spokane Tuesday.  
 —Mrs. John Hollman, who has been visiting relatives at this place, returned to her home at Kendrick Sunday.  
 —Mrs. Will Hales, of Waitsburg, Wash., accompanied by her little daughter, are visiting relatives and friends in Genesee.  
 —Mrs. M. E. Miles of Dayton, Wash., is visiting at the home of her sister, Mrs. E. F. Mochel, where her mother has resided for the last nine months.  
 —Chas. Ingle has leased a farm northwest of town and will take up a residence there in the near future. He has resigned his place with the Genesee Cattle Company.  
 —A franchise has been granted M. F. Mendenhall and associates of Spokane, for the construction of a water system in Caledonia, the estimated cost of the same to be \$15,000.  
 —Judge Norman Buck, an owner of considerable Genesee real estate, was here this week from Spokane looking after his interests. From here he left for Lake Waha near which place he has a large ranch.  
 —Mrs. W. H. Ehlen returned Sunday from a visit to Pullman. She states that Mr. and Mrs. Savage have taken up a residence at Creston, Wash., where Mr. Savage will operate a grain house the coming season and at the same time hold down a homestead near there.  
 —A heavy rain visited this section Friday. As a result considerable timothy hay has been slightly damaged, and it is great. To potatoes and root crops the amount of good is inestimable. No more rain is expected now until after harvest.  
 —Follett was a visitor here from Wilola. In addition to being the ferry and post office place, the Follett family have taken up a store. Mr. Follett took back with him a quantity of bacon, etc., which he purchased here. In his section he states that harvesting and threshing of barley is now in progress.  
 —Thursday of last week at Moscow Judge Steele sentenced Payne Sly to serve a term of life imprisonment for the murder of Marshal Hayes at Troy. It is said that Sly was confident of being let off with a sentence of about ten years and when the sentence was pronounced he was fairly well composed. The case will probably be appealed on the ground that the bailiff allowed the jury to become separated without the knowledge of the court during the progress of the trial.  
 —Monday afternoon of this week, at her home northeast of town, Miss Nancy Linnehan met with a very painful accident. With her father and other members of the family she had just returned home from a trip to the reservation where Mr. Linnehan had been looking after farming interests. In unpacking a trunk containing articles used on the trip, which included a 32 caliber self-cocking revolver, in some manner the same was discharged, the ball passing through the fleshy part of her left wrist and lodging in her right thigh. Medical aid was at once summoned and the wound treated.

—Miss Ruth Mabbott, of Illo, is a visitor at the Jain home in this city.  
 —Mr. and Mrs. Cunningham are over from Troy visiting relatives and friends.  
 —Mrs. Katharine Woodside left Monday morning for her home at Munder, Neb.  
 —Wm. Smolt has been confined to the house for several days as a result of rheumatism in his feet.  
 —Misses Annie Moemann and Annie Wissink of Uniontown were visitors in this city Saturday.  
 —Mr. and Mrs. J. S. Larabee visited Moscow Monday to look after the personal effects of the late Winslow Howland.  
 —Mr. E. J. Proffitt is expected to arrive here today from Coeur d'Alene. Concerning his visit we will have more to say next week.  
 —Mr. and Mrs. A. M. Wardrobe left Monday for a visit with their daughter at Wilbur, Wash. They expect to return home tomorrow.  
 —Mrs. C. H. Murphy during the past week has been very ill and during the latter part of last week it was not thought that she could survive. She is now somewhat improved.  
 —Based upon the school census recently completed in this city, and which shows a gain of nineteen percent over last year, Spokane now claims a population of approximately 65,000 people.  
 —Carroll Conant, Frank Harris, Tom Burge, Tom Edwards and Peter Jackson made up a party which left here yesterday for the tall timber in the Collins section. The latter named gentleman will act as chaperon.  
 —Ed. Wahl, who recently had six head of horses stray away from his place east of town, has recovered four of them. They were returned to him from the Alpowa country. He is still missing two head but thinks he has track of them in the Colfax country.  
 —Messrs. Stillinger and Robbins were Genesee visitors from Moscow Tuesday of this week. Mr. Stillinger, who is now prosecuting attorney for Latah county, is a candidate for re-nomination and will undoubtedly receive the same without opposition. Mr. Robbins, who is a candidate for a very strong vote in the convention.

—Miss Henry, of Pullman, is visiting at the Hardy home.  
 —Read the new ads. of H. F. Bilger, H. A. Morgan and J. K. Bell.  
 —E. M. Gillette, traveling freight agent for the N. P., was here yesterday.  
 —Naylor & Norlin inform us that they expect to finish their part of the water works contract within the next ten days.  
 —Mr. and Mrs. Carbuha moved their household effects up from Uniontown last week and now occupy their fine new home on the hill north of town.  
 —The ice cream social given Tuesday evening at the city park by the Methodist society was very liberally patronized, they having netted about \$20.  
 —William Esser, one of the most prominent citizens of the Uniontown section, died Tuesday at his home near that place. He had for many years been a sufferer with asthma. The funeral was held Wednesday in Uniontown and was very largely attended.  
 —J. M. Cowen, grand master of the Masonic organization for Idaho, accompanied by Mrs. Cowen, paid an official visit to the lodge of this place Thursday evening of last week. Arrangements for the entertainment of the visitors was somewhat marred on account of their non-arrival on a date previously set.  
 —We are authorized to state that those contemplating the taking of city water should not enter into contracts with plumbers until they understand what the city will require of patrons. The city will control the tapping of mains and laying of distributing pipes to the property or curb line.  
 —An exchange gives the following cure for broken dishes. It will not cost much to try it, and if it works good it is invaluable: "A lady has found a cure for broken dishes. If the dish to be mended can be tied together with a stout string, then placed in boiling milk and left for one hour; you can never tell the dish has been broken and it can afterward be put in boiling water without pieces coming apart. This experiment has been tried and proved many are the broken dishes were thought to be useless and now as good as new."

—Fred Sherrod of Uniontown was a guest at the Hobson home Saturday of last week.  
 —Mrs. Divine, a sister of Emmet Elbertson, was a visitor here from Elberton, Wash., the first of the week.  
 —M. C. McGrew and daughter Elba, Walter Carmen and Miss Anderson were visitors here Sunday from Kendrick.  
 —Mr. Scott and daughter, the latter having arrived here Friday of last week, are now keeping house in the Hibbs residence.  
 —Mr. and Mrs. P. W. McRoberts, Dr. H. J. Smith and Harry Thatcher planned on leaving yesterday for a trip to their timber claims east of Collins.  
 —Frank Myrick has purchased the Cummings residence property in the eastern part of town and has taken possession of the same with his family. The consideration was \$500.  
 —While the gun club was practicing last week, Rev. W. C. Fowler received a severe powder burn on the lid on one of his eyes. He was shooting a repeater gun and it is presumed that the chamber was not entirely closed when the shell exploded. While the wound was painful no serious results will follow.  
 —F. E. Becker, who sometime ago purchased the Sampson farm south of town, has twenty-five acres of corn which he says gives every promise of a yield equal to anything he ever produced in Minnesota where he formerly resided. He has cultivated the twenty-five acres some five different times. The corn crop on the Rimrock last year was a very satisfactory one and this year the acreage is largely increased.  
 —"At the present writing we have no desire to leave this vale of tears and hurl ourselves into Abraham's bosom" says the shaggy editor of the woods journal, "but if we should do so we wouldn't lean up on a loaded shot gun and pull the trigger as many do. Neither eat a square meal of rough saw out the gas, drink and sit down in the lap of a woman who smokes a cigarette or call her a poor judge. We would simply get our paper in which the very best of the plain, square-shouldered fellows understand it. Wait the end."

**BITTER ROOT RESERVE.**  
President Roosevelt has issued the following proclamation regarding the Bitter Root forest reserve:  
Whereas, the Bitter Root forest reserve in the state of Idaho and Montana, was established by proclamation dated February 22, 1897, under and by virtue of section 24 of the act of congress, approved March 3, 1891, entitled, "An act to repeal timber culture laws and for other purposes," which provides, "That the president of the United States, may, from time to time, set apart and reserve, in any state or territory, having land bearing forests, in any part of the public lands wholly or in any part covered with timber or undergrowth, whether of commercial value or not as public reservations, and the president shall, by public proclamation, declare the establishment of such reservations and the limits thereof;"  
And whereas it is further provided by the act of congress approved June 4, 1897, entitled, "An act making appropriations for sundry civil expenses of the government for the fiscal year ending June 30, 1898, and for other purposes," that "the president is hereby authorized at any time to modify any executive order that has been or may hereafter be made establishing any forest reserve, and by such modification may reduce the area or change the boundary line of such reserve, or may vacate altogether any order creating such reserve;"  
Now therefore, I Theodore Roosevelt, president of the United States, by virtue of the power vested in me by the aforesaid act of congress, approved June 4, 1898, do hereby make known and proclaim that the following described lands in the state of Idaho are hereby released and eliminated from the aforesaid Bitter Root forest reserve and the aforesaid proclamation dated February 22, 1897, establishing said reserve is hereby vacated to that extent and no more:  
What will be when surveyed sections one (1) to eighteen (18) inclusive, township twenty-six (26) north range six (6) east Boise base and Meridian Idaho; section nineteen (19) to thirty-six (36) inclusive, township twenty-seven (27) north range six (6) east; sections four (4) to nine (9) inclusive, and sections sixteen (16) and seventeen (17) and eighteen (18) township twenty-six (26) north range seven (7) east; sections nineteen (19), twenty (20) and twenty-one (21) and sections twenty-eight (28) to thirty-three (33) inclusive, township twenty-seven (27) north range seven (7) east; and all township twenty-nine (29) north range eight (8) east.  
The lands hereby excluded from the reserve and returned to the public domain shall be open to settlement from the date hereof, but shall not be subject to entry, filing or selection until after ninety days notice by such publication as the secretary of the interior may prescribe.  
In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.  
[SEAL]  
Done at the city of Washington this fourteenth day of June in the year of our Lord one thousand, nine hundred and four, and of the independence of the United States, the one hundred and twenty eighth.  
THEODORE ROOSEVELT,  
By the President:  
JOHN HAY,  
Secretary of State.

**SOCIALIST COUNTY TICKET.**  
At the recent mass convention of the socialist party held at Moscow, the following ticket was placed in the field:  
Sheriff, A. K. Bidgson, Juliaetta. Probate Judge, W. H. Witham, Viola. Superintendent of Schools, Miss Effie Whitmore, Moscow. Surveyor, George A. Eagleson, Princeton. Commissioners, First District, M. Miller, Palouse River; Second District, A. Holm, Moscow; Third District, S. C. Greenwood, Avon. Representatives, A. A. Anderson, Palouse River; T. E. Miller, Genesee; M. C. Davis, Moscow. Senator, A. M. Hoidale, Troy. Attorney, Rev. L. N. B. Anderson, Moscow. Coroner, C. H. Whitmore, Moscow. Treasurer, Mrs. Belle Anderson, Moscow.

The usual socialist resolutions were passed, with the following:  
"Resolved, That no candidate on the county or legislative ticket nominated by the socialist party in Latah county shall enter into agreements of any kind with any other political party or their committees or nominees for the purpose of making any bargain or deals for trading votes for or against any other nominee."  
The county central committee elected consists of only three members: Chairman, S. G. Curtis; secretary, J. C. Elder; treasurer, A. A. Anderson.

Cows are being milked by electricity in some parts of Germany. The American consular agent at Gera reports that the Method is proving very successful, as the cows, which have most interest in the matter, appear to prefer the device to hand milking. Furthermore, absolute cleanliness is said to be assured, the milk flowing from the udder down through a sterilized rubber tube.—Portland Oregonian.

**Cured of Chronic Diarrhoea and Cholera Remedy.**  
After Ten Years of Suffering.  
"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of this wonderful medicine." This remedy is for sale by Dicus & Co.

**Chamberlain's Colic, Cholera and Diarrhoea Remedy.**  
This remedy is certain to be needed in almost every home before the summer is over. It can always be depended upon even in the most severe and dangerous cases. It is especially valuable for summer disorders in children. It is pleasant to take and never fails to give prompt relief. Why not buy it now? It may save life. For sale by Dicus & Co.

## Ride a McCormick and Get in the Swim

Busy is no name for our present condition. The demand for McCormick Mowers and Rakes so far this season has been tremendous. In fact, we have experienced some difficulty in keeping machines on hand. That these machines are superior to other makes is attested by the fact that more of them are in use in the country adjoining Genesee than all other makes combined.

## McCormick Headers and Binders

If you contemplate buying a Header or Binder ask your neighbor how he likes his McCormick. All users only have words of praise for them.

Methodist church: Preaching at 11 and 8 o'clock. Sunday school at 10 a. m. All are invited.

—Read the new ads. of The Fair, Schreiber Implement Co., J. K. Bell, Kalamazoo Corset Co. and Le Rue Tice.

—Rev. Fr. Cataldo came down from Spokane Tuesday. Wednesday Rev. Fr. Keyzer accompanied him to Lewiston.

—Mr. and Mrs. E. E. Carter and three children left yesterday morning for Walla Walla and will later go to Alberta.

—James Mulally left yesterday for Leon where he will operate a grain warehouse for the Puget Sound Warehouse company.

—Sheriff Keane was here yesterday to conduct a sale of the Holland & Warner engine and to deliver supplies to precinct registrars.

—The C. E. Wood Co. has leased warehouses on both the N. P. and O. R. & N. tracks in Moscow and will enter that market to buy grain.

—Mrs. J. J. Owen has returned home from Juliaetta. She states that she is considerably improved and has discarded one her crutches.

—The Christian Endeavor society of the Congregational church was entertained Wednesday evening at the home of Mr. and Mrs. Thos. H. Brewer.

—The price of wheat has had an upward tendency the past week. Wednesday throughout the Big Bend country from 59 cents to 65 cents was quoted for new wheat.

—Henry Martinson returned home Wednesday from Moscow where he has been confined to the hospital for some time. For a time he was very seriously ill. He is now rapidly recovering.

—At a Washington democratic state convention held this week at Bellingham, George Turner was nominated for the office of governor by acclamation on a platform demanding the creation of a regulative railway commission.

—From the following, taken from the Grangeville Free Press, it is evident that the Petersen & Dunbar troupe which showed here some time ago, are still prospering:

"The voting contest carried out here last week by a theatrical company, whereby the most popular young lady voted for received a watch, illustrates a phase of foolishness which we cannot understand in the first place. They are quite necessary to get all the votes desired was plenty of money. To be sure when you bought the votes you got some articles of questionable value but it was the votes that prompted the purchase. Two contests were put through during the week and in the last one alone nearly 20,000 votes were cast. The average cost of these votes was nearly five cents each, aggregating nearly \$1000. For this sum one young lady received a watch. She is a highly esteemed young lady and we are glad she has a watch but the money spent to secure it would have bought a whole lot more of the more young ladies who are also highly esteemed and then had money left. Such contests are permissible when the money raised is used for some local benefit, but when it is paid to a traveling show company and carried out of the country we cannot understand how some of our best people can become involved in a scheme that robs them of their money and gives nothing but remorse and ill feeling in return."

Those owing D. W. Howe & Co. must call and make early settlement that the affairs of the dissolved firm may be wound up.

CONCERNING CREAM. Frank Myrick, in charge of the Hazelwood cream station at this place states that throughout the remainder of the season cream will be received at the station in the forenoon as well as afternoon. Patrons are advised to bring their cream early in the morning, while it is sweet and take advantage of the best price.

I am in the market for a number of young calves and stock hogs. Let me know what you have. HENRY J. HERMAN.

One way tickets reading through St. Louis to points beyond will be made good for ten days stopover at St. Louis on payment of \$1.00 fee. W. E. SMITH, Agent.

### NEW STATE REGISTRATION LAW

Only New Voters Now Have to So Qualify.

The last legislature made a number of changes in the election law, one of which requires the registration books to be open "during every Saturday from the first day of September, to and including the last Saturday next preceding the election." Heretofore the registration books were opened on the first Saturday of August.

Under the law now a person who registered at the preceding election and is still a voter in the same precinct is not required to register again, the registrar being required to transfer all such names to the new election register. Here is the law on that subject:

"The board must also furnish the election register of the qualified electors of the precinct made at the last general election, or when from any cause the register cannot be so furnished, a certified copy thereof. The registrar must immediately upon the receipt of such election register of copy thereof, revise the same by striking therefrom the names of all persons, who by death, removal, from change in the boundaries of the precinct, or from other cause, have ceased to be qualified voters in such precinct, or who may have been, from any cause, wrongfully registered; and upon so striking out the name of any voter who is still residing within the precinct, as it existed at the last general election, he must immediately give him written notice that his name has been so stricken from the register, and any person whose name has been so stricken out may again apply, in the precinct where he resides, for registration, but no elector, who has been duly registered and whose name has not been stricken out, shall continue a qualified voter in the precinct where registered until otherwise notified, and this provision applies to all electors registered at and for the last general election."

The compensation of registrars is also changed to conform to the above provision, as shown by the following:

"The several registrars shall receive such compensation as shall be allowed by the board of county commissioners, which in no case shall exceed twenty-five (25) cents for each name newly registered and ten (10) cents for each name appearing on the last election register which is carried to the new election register, and the compensation herein provided for shall be paid out of the current expense fund."

FRIDAY, AUGUST 5, 1904.

—Wm. Duthie was here from Troy Tuesday.

—An order has been placed for a new carpet to cover the entire floor space of the Methodist church.

—Miss Jennie Collins, of Kendrick, was called here Saturday on account of the illness of her sister-in-law, Mrs. J. F. Collins.

—Rev. W. C. Fowler will devote his summer vacation to writing life insurance and is now working throughout the surrounding country.

—Miss Ernestine Eyrich, a cousin of Rev. Eyrich of this place, arrived here Thursday for an indefinite stay. Miss Eyrich's visit here is largely for the benefit of her health.

—Moscow has abandoned the idea of holding a fair and carnival again this year. The one held last year was a financial success but the business men do not feel disposed to advance funds this year.

—In a fire at Pullman junction Friday night eleven cars were destroyed. Among the number were two cars of wood consigned to Le Rue Tice at this place. It is believed that the fire was started by hoboes.

—Keep in mind the supper to be served by the German Lutheran society at the city park tomorrow evening, from 5:30 to 8. The price for the meal will be 25 cents. Special music will be furnished by the Geneesee band at 6:30 o'clock.

—During the past week there was received at this office a poem, signed "Cononica," and mailed from Arizona. The writer is the Hon. Cornelius Monahan, a former resident of this place and who left here with the Idaho troops for the Philippines. On account of "lack of space" the poem does not appear in this issue.

—At a meeting of the council held Tuesday evening, a new regulation sidewalk was ordered put in on Walnut street from Biram's Mill to the stable west to the Woodley residence.

M. Driscoll was appointed and confirmed as chief of police and street commissioner for the remainder of the present year, to receive the old salary.

—Henry Stracker will start his big threshing outfit Monday of next week on the John Dresher place southeast of town. The first threshing will be done in a field of barley, cutting of which has been in progress throughout the week. When thrasher at the Dresher place Mr. Stracker will work north.

The Swenson brothers will start a new outfit about a week later on the reservation. Thos. Stinson has his outfit about ready for business and will also soon commence operations south of town.

—H. A. Thatcher and Dr. H. J. Smith returned home Sunday evening from their trip to their timber claims in the northern part of the county. They returned much sooner than they expected owing to the illness of Mr. Thatcher. The high living indulged in was too much for Harry causing him to feel unable to return and for five days he subsisted without any kind of nourishment. They report the timber filled with people. They caught a large amount of fish which they report as being plentiful in all the lakes and streams in that section.

—The 1904 issue of "Oregon, Washington, Idaho and their Resources," by the passenger department of the Oregon Railroad & Navigation company and Southern Pacific (lines in Oregon) contains 88 pages and a large map of these states. Every industry in Oregon, Washington and Idaho, is given careful attention. The book is handsomely illustrated, and would be a welcome visitor to any eastern home. By sending the address of some friend in the east, with four cents for post postage, to A. L. Craig, general passenger agent of the Oregon Railroad & Navigation Company, Portland, the book will be promptly mailed.

—The English are large consumers of apples, as is shown by the figures of exports from this country and Canada during the past year. From the United States and Canada combined the apple exports in 1903-04 were 5,505,334 barrels, and 388,975 boxes. In '96-'97, the next largest year, they were 2,919,846 barrels, and in 1902-'03 they reached 2,547,759 barrels. In 1880-'01 the exports aggregated 1,328,806 barrels and then for several years they were considerably below these figures, rising in the season of 1888-'89 to nearly 1,500,000 barrels. The exports were chiefly from New York and Boston. A good many apples were sent from Montreal, Portland, Halifax and St. John's. The bulk of the stock went to Liverpool for distribution.—Ex.

—Mrs. Will Esser and children were visitors here over Sunday from Uniontown.

—Ethel Harris, who has been visiting at the Hickman home, left Friday for her home at Palouse.

—Mr. and Mrs. L. C. Emfield came down from Spokane Sunday for a visit at the Patterson home.

—Mr. McKay, who has been in charge of the Bee Hive for some time past, left Friday for Spokane.

—In addition to erecting a large barn on his farm west of town, X. Henry is building a large addition to his residence.

—Norma Jackson entertained a number of her little friends Friday afternoon, it being the seventh anniversary of her birth.

—G. H. Dawson who has been a visitor at the Fred Rieck home north of town, left Monday morning for his home at Helena, Mont.

—At the republican primaries held in Rimrock precinct Monday J. L. Goodnight, W. H. Gage and Andrew Christenson were elected delegates to the Lewiston convention.

—Robt. Morris, formerly station agent at this place but now of Moscow, visited here a short time Sunday, having driven over after Mrs. Morris who has been a guest at the C. E. Wood home.

—Quite a number of strangers have drifted into town during the past week. A number of them who were in search of work easily found it while a certain per cent of the new comers are looking for anything but work. This class will find Genesee a poor place to camp.

—Rev. P. R. Burnett who has been pastor of the Christian church in this city for some time past, left Wednesday morning of this week for his home at Independence, Oregon. He advises us that it is not likely that he will return to Genesee but will move his family from Independence to McMinnville, Oregon, and take up a permanent residence at that place.

—At the democratic primaries held Monday of this week, the following were elected delegates to the county convention to be held tomorrow at Moscow: East Genesee: F. K. Bressler, M. D. Thompson; Fred Follett, M. Driscoll, W. J. Herman, Ed. Walters. West Genesee: Joe Haffner, Peter Johann, Ed. Keane, John Loring. So far as is known there are no candidates for office among the Genesee democrats.

—We acknowledge receipt of a number of copies of the Bremerton News from E. R. Follett, a former well known resident of this place. Consistent in each of the advertisements of the Navy Yard Cash Store, of which Mr. Follett is the proprietor. We are advised from private sources that Mr. Follett is prospering at his new location which is good news to many Genesee friends. In one issue we note that the Follett family had been paid a visit by Mr. and Mrs. Ingraham and Mrs. Bertrand of Spokane.

—The first of the week we read an interesting letter from S. P. Burr written from Rosevelt in the Thousand Mountain region. He states that he has a mining prospect which has given a good essay and he has hopes of realizing handsome returns from it in the future. He writes that Robt. McGregor is doing assessment work on some promising claims in another part of the same district. He gives an account of the burial of a prospector by the name of Ernest Jones who died alone in the mountains as a result of mountain fever. Mr. Burr was a member of the party which went into the mountains and brought the remains out for burial.

—Bills are out announcing a harvest dance to be given by the band boys at Elliot hall on tomorrow evening commencing at 9:00 o'clock. All are cordially invited to attend.

—Ringing Bros. circus will exhibit at Spokane the 20th inst. For the occasion a special train will be run on the Northern Pacific from Moscow, leaving at about 7 o'clock a. m. and returning in the evening.

—R. H. Schreiber has disposed of his interest in the harness and saddlery firm of D. W. Howe & Co. to Peter Johann. The new firm of Howe & Johann will continue business at the old stand. They have ample funds to carry on the business and expect to handle everything which properly belongs to the harness line. Mr. Howe will have personal charge of the business.

—C. E. Bowen has disposed of his residence property in the western part of town to Jacob Blume for a consideration of \$1700. The property consists of two residences and two lots. Mr. Blume made the purchase with a view to taking up a residence in town at an early date. Mr. Bowen is undecided as to what he will do in the future. If successful in renting a suitable house to live in he and Mrs. Bowen will remain here until late in the fall. On account of Mrs. Bowen's health they will then in all probability take up a residence in one of the towns in the lower country believing that the winter climate will be more agreeable.

—C. F. Burr has been appointed justice for East Genesee precinct. The appointment was made Monday by the commissioners in accordance with a petition circulated Saturday. Since the departure of D. Spurbuck the town has been without a justice.

—During their recent trip to the tall timber Messrs. Smith and Thatcher saw a number of cougars, one being at least seven feet in length. Since returning home and relating what they had experienced it develops "there are others," Monday of this week, Chas. Armstrong, living a few miles northeast of town, was in a small house enclosing a well, and hearing an unearthly noise on the outside looked out and saw a cougar which would measure fully eight feet in length, part way through a wire fence endeavoring to make his escape from the premises. Mr. Armstrong was not more than fifty feet distant from the animal and could very easily have killed him with a rifle. He being some distance from the house the animal made good his escape before a gun could be secured. Mr. Armstrong says that a generous amount of the cougar's hair and cuticle was left hanging to the fence. A few days prior to the occurrence Mrs. Armstrong saw a strange animal near the house and they are now satisfied that it was the same cougar.

IDAHO AT THE WORLD'S FAIR.

St. Louis—One practical result of the great St. Louis World's Fair will be the dissemination of preconceived ideas about countries and peoples. In this exposition are congregated the representatives of all the peoples of the earth, and here can be found the best examples of their arts, industries and productions.

The World's Fair furnishes many distractions. This I realized when I casually stopped to examine the exhibit of this young state in the Palace of Mines and Metallurgy.

A total of more than twenty-one million dollars in a single year added to the coin values of the world is represented here. The illustrations of the sources of this enormous output—the various mineral products—are arranged in a unique manner and serve their purposes well.

KENDRICK FIRE.

Our people were shocked to learn Friday that a terrible fire was raging at Kendrick and that the entire town was threatened.

The fire which caused this disaster started at 10:35 o'clock this morning in a carpenter shed near the Pacific hotel. This shed has been built in connection with plans for remodeling the hotel, which is owned by Mr. Heber, the rich brewery man of Spokane.

and 15 delegates instructed to support the former senator's candidacy for governor were chosen. The delegates were also instructed to vote and work for the nomination in the state convention of George E. Knappier of Moscow for state superintendent of public instruction. Mr. Knappier was formerly president of the Lewiston state normal school, but is now a resident of Latah county.

The following ticket was practically nominated by acclamation, the slate having been agreed upon during a recess of the convention:

State senator, William Harris, Princeton; representatives, William H. Thompson, Genesee; Frank E. Mix, Moscow; Henry H. Bangs, Moscow; commissioner, First district, Louis Sisk, Palouse; Second district, John A. Robinson, Moscow; Third district, Samuel L. Dunlap, Juliaetta; sheriff, Jasper J. Campbell, Palouse; probate judge, Marshall Cozier, Moscow; assessor, Robert Muhlstein, Troy; attorney, Stewart S. Denning, Moscow; school superintendent, Miss Roae E. St. Clair, Collins; coroner, Dr. J. W. Olson, Troy; surveyor, Dan W. Hannah, Moscow.

This was followed by the nomination of precinct officers. The resolutions adopted declare devotion to Jeffersonian principles, endorse candidates for president and vice president; approve national platform and condemn the wasteful and lavish expenditure of public money by the republicans in Latah county.

The efficient administration of Sheriff Keane's office was commended. The convention extended its sympathy to the citizens of Kendrick in the great loss sustained by the disastrous fire of Friday.

STATE DELEGATES. The following delegates were elected to the state convention: Fred Follett, Manford W. Harland, William Hunter, Stewart S. Denning, Henry H. Bangs, Glen F. McKintley, John Jackson, Fred H. Schreiber, George W. Suppiger, John W. Liewallen, Edward Keane, James J. Keane, Frank E. Cornwall, William M. Morgan and James H. Forney.

The convention was called to order by Chairman Liewallen. W. M. Morgan of Moscow was elected temporary chairman by acclamation and Fred Follett temporary secretary. The following committees were appointed.

On credentials: J. W. Liewallen, G. W. P. Hill, Louis Sisk; permanent organization and order of business, Joseph Hafstetter, H. H. Bangs, Walter Ficus; platform and resolutions, J. H. Forney, John Lorang, W. M. Harland, G. W. Grimes, A. H. Hinley. The convention was composed of 73 delegates, and every precinct in the county was represented except one. Immediately after adjournment the new county central committee met and organized by electing W. M. Morgan chairman.

End of Bitter Fight. Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Deuss & Co.'s drug store. Price 50c, and \$1.00. Trial bottles free.

Taken With Cramps. Wm. Kirnise, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. He was so severe that he had to leave the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The brand speaks quite highly of Mr. Gifford's medicine. This remedy never fails. Keep it in your home, it may save life. For sale by Deuss & Co.

### DEMOCRATIC CONVENTION.

At the democratic state convention held this week at Lewiston, the following ticket was placed in nomination:

Presidential Electors: A. F. Parker, Idaho county; W. W. Woods, Shoshone county; John T. Brown, Bingham county.  
Congress: F. H. Holtzheimer, Bannock county.  
Governor: Henry Heitfeld, Nez Perce county.  
Lieutenant Governor: Frank Harris, Washington county.  
Supreme Judge: N. C. Clark, Lemhi county.  
Secretary of State: J. J. Walling, Canyon county.  
State Treasurer: Timothy J. Regan, Ada county.  
State Auditor: W. H. Stufflebeam, Bingham county.  
Attorney General: Carl Payne, Ada county.  
Superintendent of Public Instruction: Miss Fernael French, Blaine county.  
Mining Inspector: M. J. Linke, Shoshone county.

The feature of the convention was the re-nomination of Senator Dubois, Mormon plank by the convention at large after the committee on resolutions, by a vote of 10 to 8, had voted to insert it. Having been clearly defeated Dubois later proved himself master of the situation, and the absolute dictator of the party in Idaho, by again taking up the fight on the floor of the convention and by a vote of 177 to 107 reversed the previous action of the convention and ordered the Mormon plank inserted.

### LATAH'S WEALTH.

The following shows the total assessment of Latah county for 1904:

Number acres, 465,877; real estate valued at \$2,370,023; improvements valued at \$232,139; equities in school land \$319,541; city and town lots \$276,366; improvements on city and town lots \$428,279; improvements on lands belonging to others, \$12,645; money on hand and deposit, \$10,250; 1250 shares of national and other banks, \$1,670; miles of cow, 202,100; valued at \$10,181; furniture and fixtures, \$18,810; harness, etc.; \$13,882; goods, wares and merchandise, \$161,435; lumber and saw logs, \$30,968; musical instruments, \$4,630; vehicles and bicycles, \$44,216; wines and liquors, \$3,945; sheep, 1,812, valued at \$3,931; goats 10, valued at \$35; oats, barley and feed, wheat, flax and wood, \$2,927; farm implements and machinery, \$22,193; watches and jewelry on person, \$165; mining machinery, \$1,200; mills, grist, saw, planing, shingle, \$28,200; timber sold from state land, \$112,800; cattle, 5,519, valued at \$83,744; horses, ponies, pack animals, 5,569, valued at \$38,312; total, \$4,033,650.

To this amount will be added the assessed valuation of all railroads, telegraph and telephone lines in the county, the assessment and valuation of which is made by the state board of equalization. Last year the valuation of all railroads, telegraph and telephone lines in Latah county, as fixed by the state board, was \$255,810.15. The state board raised the valuation last year on all merchandise and some other items, which together with the increasing value placed upon all real estate by the assessor, had the effect of getting practically the same amount of taxes from the county as was required by the state the preceding year. The figures given in the preceding statement have not been passed on by the state board of equalization yet, and when it does the usual raise may be made.

### SPOTTED FEVER.

A new disease fatal to 80 per cent of those stricken, is being investigated by the state board of health. Ticks which live upon the bodies of ground squirrels or gophers carry the disease germs into the human body through their bites, says the Portland Oregonian.

Spotted Fever is the name given to the new disease. It resembles cerebral spinal meningitis, which is also called spotted fever, because eruptions upon the skin become apparent within a short time after the victim feels the first symptoms of high fever. But the disease is entirely different in every other way from the dreaded

### SPOTTED FEVER.

cerebral spinal meningitis, though equally fatal. It is apparently only during the months of May and June.

Dr. Ralph Matson, bacteriologist of the state board of health, has proved that the germ of spotted fever are animal protozoa. Medical science now believes that the germs of nearly every disease but malaria and small-pox are not of animal nature at all, but are of the lowest form of vegetable life. Malaria's animal origin has been satisfactorily proved, small-pox is generally held to be transmitted by protozoa and one or two other and less common complaints are of the doubtful list. The fact it is carried to mankind by supposedly harmless ticks, and that the germs themselves are one of the rare animal microbes are but two of the peculiarities of spotted fever.

The fever is at its worst in the Bitter Root valley of Montana. Here from 75 to 95 per cent of those afflicted with it die. The cases are mostly sheepherders and prospectors, and for this reason the origin of the disease was long laid to drinking snow water.

Harney county, the neighborhood of Huntington and the vicinity of Baker City are afflicted with the disease every year. Thus far there have been almost none of the fatalities shown in the Bitter Root valley. It is therefore believed that two distinct forms of the disease exist.

Dr. E. E. Maxey, of Boise, Idaho, first brought the strange disease to the attention of medical science. Two bacteriologists were sent to Idaho by the Minnesota state board of health to discover the origin of the disease. Gradually it was found that the disease always occurred in connection with the bite of a tick, whose habitat was the gopher. This rodent is plentiful in Idaho as well as in nearly every part of eastern Oregon.

It has been proved that the tick which lives on gophers is the vehicle through which the disease reaches the human body. Dr. Matson is now searching for some anti-toxin which will nullify the bite of the tick.

—Read the new ads. of The Fair, Bee Hive, Meyer Bros., Larrabee Co., H. F. Bilger, Genesee Exchange Bank and O. Olson.

—The ladies of the Home Mission society of the Methodist church will hold an ice cream social in the park on the evening of August 27.

—The brick work on the new Exchange Bank building is about completed and the carpenter work is progressing nicely. The building will be ready for occupancy early next month.

—A threshing machine engine has been put in place at the city well and a test of the same will soon be made. It is proposed to have this engine furnish temporary power for the water works until the electric power is installed.

—Dick Schreiber is no longer associated with J. M. O'Leary in the plumbing business, having disposed of his interests to A. Murphy. The new firm will have quarters in the vacant room adjoining the meat market.

—In the recent fire at Kendrick, M. C. McGrew states that his loss will exceed \$10,000 over and above insurance. He is again doing business with a small stock of goods.

—Theodore Lorang, who suffered the loss of a cigar store, we are informed, will not open up again in Kendrick.

—Mr. and Mrs. L. Jain returned home Wednesday from their trip to the reservation. In the 110 section Mr. Jain says that crop prospects are excellent. At Nezperce and other points he reports having seen a number of Genesee people. Says that R. F. Brooks is now a resident of Nezperce.

—A report comes from Moscow that Judge Steele is again seriously ill with rheumatism and is confined to the hospital. It is said that he will be taken to Green River springs in western Washington for treatment. It is very doubtful whether he will be able to preside over the fall term of court in the district.

—James and John Larrabee and C. F. Burr were among the first of the town sports to take advantage of the open season for the killing of grouse and chicken. Following a three o'clock start they returned home about noon with a dozen fine birds. Charles Larrabee, Bert Gardner and a gentleman at the restaurant went out the day following and brought in fifteen grouse and eight chickens.

—The last census shows that only 128 per cent. of the total manufactured output of the United States is made by trusts; that only 8.13 per cent. of the food supply of the United States is controlled by trusts and that only 7.5 per cent. of the labor employed in manufacturing is employed by trusts. It follows that the remaining 87.2 per cent. of the manufacturing output is made by competing independent industries; that 95.2 per cent. of labor is employed in competing independent industries and that to remove the duty would hurt the competing independent industries more than the trusts.

### BAND CONCERT

At the city park, Sunday, August 21, at 5 p. m.  
March.....A Number One Overture.....Beauty Selection.....Cherry Serenade.....La Colodina Two Step.....Prosperity Gallop.....Overland Route

—The Congregational Christian Endeavor society will give an ice cream social at the city park this evening. All invited to attend and have a social time.

—Methodist church: Preaching next Sunday both morning and evening. The pastor has two more Sundays here before the conference; he is desirous of a full attendance.

—An order has been placed with a Philadelphia house for the uniforms, twelve in number, for the Genesee band. The material will be dark green with black mohair trimmings. Twelve Sousa cups, to match suits, have also been ordered. Following the busy harvest season the membership of the band will be increased, new instruments purchased, and before another summer rolls around Genesee can boast of the best band in the Palouse country.

—William Deary, manager of the Potlatch Lumber company, when interviewed this week on the results of the republican convention said: "We are not altogether pleased with the action of the state convention in nominating Frank R. Gooding for governor; neither was the renomination of French for congress a wise one. The allied interests of all the Weyerhaeuser timber companies now doing business in Idaho were opposed to the renomination of Governor Morrison, and therefore contributed our part to his defeat at the convention. We wanted Francis Jenkins for governor, but we first wanted to accomplish the defeat of Morrison, and to that we had to accept Mr. Gooding. Our people have invested over \$2,000,000 in the timber lands of Idaho, and we certainly can not be blamed for looking out for our interests. It is not a question of republicans or democrats with us at this time, but we had to protect ourselves against such narrow, contracted people as have managed the affairs of Idaho for the past two years."

### American Beauty Corsets

FRIDAY, AUGUST 19, 1904.  
—C. E. Bowen left Tuesday for a visit at Southwick.  
—M. D. Glover was a visitor from Kendrick the latter part of the week.  
—Mrs. A. D. Gerhardt and children were over from Uniontown Monday.  
—W. O. and A. J. Palmer of Uniontown were visitors at the home of Mr. and Mrs. W. E. Smith Monday.  
—George Bozett returned Saturday from Spokane to which place he accompanied Mrs. Bozett who left for Illinois for a visit with her people.  
—Mrs. Arthur Lynch of Spokane, and Miss Letta Helprey, of Boise, were visitors with Mr. and Mrs. Wm. Nixon the latter part of last week.  
—F. C. Marquand and son Ernest and W. H. Platt left Sunday morning for an outing of a week or more in the northern part of the county hunting and fishing.  
—Dr. W. S. Noblitt and mother who have been visiting here for about ten days, left Tuesday morning for Honolulu. The trip will be made by the way of Vancouver, B. C.  
—Fred Follett and Ed. Keane were members of the Latah county delegation at the democratic convention held the first of the week at Lewiston. Ed. Walters drove down Monday and returned with them Wednesday morning.  
—Follett & Klapp have purchased a strip of ground along the railroad track situated between the Puget Sound and Thompson warehouses and within a few days will commence the moving of their chop mill to that location from its present one in the eastern part of town.  
—The local land office is in receipt of eighty-eight patents of timber and stone claims which have been signed by the president and sent to this office by the secretary. The patents many of which cover claims proved upon during the past four years are today being distributed by the local office.—Teller.  
—At a depth of 160 feet a large vein of water was struck last week in a well at Gifford on the reservation. Since the starting of the town only surface water has been obtainable and in consequence the town has been greatly handicapped. It is proposed now to continue sinking the well in the hope that an artesian flow may be secured.  
—C. A. Cruise, a druggist from Sandpoint, was a visitor in the city last week in search of a location for a stock of drugs. He expressed himself as being very favorably impressed with the town and stated that if successful in securing a building here he would open up. We are informed that he is negotiating with the Voltaire people for the erection of a building adjoining the Fair store on the east.  
—Wheat scored a sensational advance Monday at Chicago, passing the one dollar mark, but the rise was largely speculative and the price could not long be maintained. Statistics showing large shipments were ignored in the general frenzy and the reports of damage in the northwest from rust were exaggerated. There is every indication that good to high prices will prevail this season, but there is nothing upon which to base the belief that dollar wheat will be reached and maintained.—Trade.  
—Sunday night at the Johnnie Mathews farm on the reservation where a heading crew was working, George Miller and Mel Simpson got in a mixup which resulted in the latter being severely cut with a knife by Miller. One cut which started in the small of the back and extended around to the stomach was fully eighteen inches in length. He received another severe cut over one of his eyes. Simpson's trouble was brought to town for treatment. For the wound in his back it was necessary to take some fifteen stitches. He is now being cared for at Clelland's lodging house on Front street. It is not likely that any serious results will follow his injuries. Miller's story of the cutting is that he had retired for the night. That Simpson, who had been drinking, crawled in bed with him and picked a quarrel on an old issue and struck him over the head with a whiskey bottle. Miller says that in self defense he resorted to his knife for protection. The sheriff's office at Lewiston, the affair having taken place in Nez Perce county, was notified and Deputy Sheriff Foreman arrived in Genesee in the afternoon and took Miller in charge. He was taken to Lewiston charged with assault with a deadly weapon. Simpson has made the statement that he would not prefer charges against him.

—H. A. Thatcher is again in charge of the East End warehouse and will operate the same throughout the season.  
—H. A. Thomas was over from Asotin the latter part of the week looking after his farming interests.  
—C. T. Cooper, who some time ago purchased one of the Daggert residences in the western part of town, with his family left this week for Moscow. At that place he has leased the Northern Pacific hotel and will operate the same during the coming year.  
—The arc lights which are to be installed for the lighting of the streets will be located at the following corners: The Herman corner, the "four" corner, Rosentia's, the city park and the Grand Central hotel. Poles for the installing of the line were received several days ago and a crew of men will be put to work at an early date in placing them. On the Main street all poles will be put in on the north side.  
—Born to Mr. and Mrs. Will McMahon, Monday morning of this week, a son.  
—J. J. Owen left Wednesday for Culldesca for a visit of a few days with the Conway family.  
—Mrs. J. G. Lanpher came down from Jansville the first of the week for a visit at the Walter Jain home.  
—The Peters family who have been living in the eastern part of town for some time left Monday for their former home near Wilbur, Wash.  
—Mr. and Mrs. Bugge and Mr. Hammond visited Lewiston Friday where the two former made final proof on timber claims in the Pierce City section.

—Thursday evening of last week what might have been a serious fire was extinguished with a slight loss in the Sun It confectionery store. Under the shoving a quantity of paper had accumulated and became ignited it is believed by a parlor match being stepped upon. A couple of buckets of candy were burned and a considerable portion of the shelving was charred.

—F. J. Turnbow, who was shot at Garfield the 9th day of last August by J. E. Brown, is still alive, and Brown is free from the charge of murder should his victim die as a result of the shot. The law specifies that in order to establish a charge of murder, the victim must die as a result of the wound inflicted by his assailant within one year and one day from the time the wound was inflicted. That period expired in this case August 10. Turnbow is alive and may possibly live for months. He has been taken from the shoulders down ever since he was shot, and there seems to be no hope that his condition will improve. He is now at the home of his father, Riky Turnbow, on Tunkaw flat, with his wife and two children. During the year of his suffering he has been cheerful and much of the time hopeful of recovery. Brown is at large on bonds of \$3,000, charged with assault with intent to kill.

—One hundred and fifty Mormons have left Utah on their way to Raymond, Alberta, where they are going to take up land and settle down to ranch life. Most of the party are from southern Utah, and are of the kind of people who make prosperous ranchers. The Mormons have been gradually colonizing the country in the vicinity of Raymond, Alberta, for several years. Hundreds of them are now located there and the number is being constantly augmented.—Nampa Leader.

—Abraham Brooks, one of the best known Indians of the Nez Perce tribe, died last week at Lapwai. He was 79 years of age and his death was caused by consumption. Concerning his death a correspondent in the Lewiston Tribune has the following to say: "He has been a member of the Presbyterian church for the past 33 years and for the past 17 years has been an elder in the Lapwai Indian church. With the death of Brooks, a prominent Indian of the Nez Perce tribe has gone to the happy hunting grounds, the mythical heaven of the redmen. Brooks is the only Nez Perce Indian who has ever drawn a pension from the United States government, and this was for services rendered as a scout in the war with his own tribe. While in the service under General Howard he was wounded by his own people and was taken from the field, supposed to be in a dying condition. The pension was secured through the efforts of ex-Senator Shoup and Brooks thoroughly appreciated the honor that had been conferred upon him. For many years Brooks has resided at the mouth of Soldier canyon and has enjoyed the greatest respect of his tribesmen."

**Suicide Prevented.**  
The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precedes suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitter. It being a great tonic and nerve tonic will strengthen the nerves and build up the system. It's also a great stomachic. Satisfaction guaranteed by Dicus & Co., druggists.

**Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.**  
"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a twenty five cent bottle and after taking three doses it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by Dicus & Co."

**CATTLE TUBERCULOSIS IN IDAHO.**  
Dairy Commissioner McPherson informs the Gem State Rural that tuberculosis is present among the dairy herds of Idaho. He has found it in the counties of Lemhi, Coeur d'Alene, Kootenai and Blaine. Although, as a rule, the disease is of a mild type, as would be expected in a climate like that of Idaho, some fatal cases have, nevertheless, been reported. This condition of things is fresh, and should serve as a forcible reminder, that there is no authority given the inspector, or anyone else, for that matter, to condemn or quarantine animals afflicted with this dangerous trouble. In fact there is no provision in the statutes of the state for stamping out, or even quarantining any disease dangerous to stock; neither is there any state veterinarian, or any official with authority to act, no matter how contagious the disease. Is it at this time for Idaho to act in this matter?

**STATE ITEMS.**  
Percy Beaman, aged 17 years, was drowned the latter part of last week while in bathing in the Snake river near Lewiston. His body was recovered a short time after the accident.  
Q. B. Kelley, chief clerk of the state penitentiary, has been dismissed for cause. Numerous irregularities are alleged and the entire matter is to be taken up by the prison board at once.  
Wednesday night of last week burglars entered the O. R. & N. depot at Moscow and filled the mail pouches. Mail received on the late O. R. & N. train is stored in the depot until the following morning. The robbery was the work of hoboes who gained an entrance to the depot by prying open a window.  
The state board of equalization has decided to make no change in last year's railroad assessments. On merchandise the board decided upon a decrease of 10 per cent in Ada county and five per cent in Canyon and an increase of 10 per cent in Custer, 20 per cent in Kootenai, 10 per cent in Latah, six per cent in Lemhi and 12 per cent in Shoshone.  
The state board of equalization has fixed the assessment on common sheep at \$2 a head, a reduction of 15 cents, and common cattle at \$15, a reduction of \$1.50. Other stock remains the same as last year. The assessment on mining improvements in Shoshone county was raised ten per cent and those in Boise and Owyhee counties five per cent.  
L. R. Randall and J. O. Randall, brothers living near Ilo and who have been farming some Indian land together, quarreled over the division of the land leased. With revolvers they exchanged several shots and the first named received a bullet wound in the leg. Two horses were also wounded in the melee and the shooting was witnessed by the father of the boys.  
The Bonners Ferry Lumber company figure on logging off all their lands burned over this season by forest fires. The fire have burned up but little timber, but has killed the trees where the burn occurred. If logged off this winter there will be but little loss. There has been no great area of the company's holdings burned over, but manager Ricker is figuring on saving the timber on what has.  
E. E. Chalmers, one of the prominent citizens and a leading attorney of Idaho, was instantly killed in front of the depot at Blackfoot Thursday. A freight train was switching in the yard and it is supposed Chalmers attempted to cross the track and missed his footing while attempting to step onto the platform of the depot. Ten cars passed over the body, cutting him in two at the hips.  
Orders have been issued from the U. S. department of agriculture to the effect that all sheep shipped from Idaho as feeders, must be dipped under government supervision, before leaving the state. If the sheep are with scabies, two dipping, 10 days apart, are required, with one of the dips, approved by the department. Clean sheep can be shipped for slaughter without dipping, but if sold afterwards at market points for feeders dipping will be required at such market points. The approved dips are the lime and sulphur, and tobacco and sulphur solutions. So-called dips are approved but it is necessary to put sulphur in all of them.  
The town of Ilo was virtually wiped out by fire Saturday morning, the Ilo hardware store being the only business house left standing. The fire started some time after midnight in the barber shop of Wilbur Jain from a stove in the bath room, the exact cause not now being known. The town being all frame buildings, and no one around at the time the flames spread with terrible rapidity and soon destroyed the general stores of the Idaho Store company, O. W. Laggett & Co. and the Beechell company, Mrs. Smith's hotel, Trueblood & Freeman's livery stable, Dr. J. G. Lenz's drug store, John Hutchins' blacksmith shop and the residences of Ben Lyford, Charlie

Lyford and O. W. Leggett. So quickly did the flames spread that Mrs. Ben Lyford was seriously burned before she could get out of bed and escape. There were a number of other hairbreath escapes from the flames, everyone being caught asleep. In each case the loss was total, nothing remaining. The loss is estimated at \$30,000.  
**ROBBERY AT UNIONTOWN.**  
Uniontown, Wash., Aug. 21.—Joseph Portz, proprietor of the leading saloon of this place, was held up and robbed last night. Portz closed up his saloon and started home about 12 o'clock. Just after he turned the corner of the Commercial hotel three masked men attacked him. One struck him on the head with a sandbag, or other blunt instrument, knocking him down, and then, pointing two guns at his head, told him to lie still.  
They went through his pockets taking about \$50 in money, \$54 in checks, and a gold watch and chain. They then made him get up, and at the point of revolvers marched him down the middle of the street about four blocks to the Northern Pacific tracks, opened the door of an empty boxcar, threw him in and locked the door.  
A. Mossman, proprietor of the Palace saloon, who lives a short distance from the scene of the holdup, heard the scuffle and aroused the city marshal. Together they began an investigation. As they neared the warehouses on the Northern Pacific sidetracks they heard Portz calling. They unlocked the door and released him. He was confined in the car about two hours.  
**CHECKS RECOVERED.**  
Early this morning the marshal and a posse of citizens went to the warehouses. They found three suspicious looking characters and arrested them. Upon search none of the missing articles were found on them, but a pocket book containing the \$54 in checks, a note book and a bunch of keys belonging to Portz were found under one of the warehouses.  
It is believed that the robbery above referred to was carried out by a portion of a gang of hoboes that infested Genesee last week and who left town following the arrest of the two placed in jail. It is a certainty that they had planned to rob a saloon at this place but were foiled in the attempt.

**HOLZHEIMER WITHDRAWS.**  
Boise, Aug. 20.—F. H. Holzheimer of Pocatello, Bannock county, has withdrawn as the democratic candidate for congress. His letter of declination follows:  
"Hon. C. H. Jackson, Chairman democratic state committee, Boise, Idaho.  
"My Dear Sir: When I accepted the congressional nomination at the hands of the democratic party of the state of Idaho in convention assembled, I fully believed that even though the resolution on the Mormon question had been incorporated in our state platform, the matter could be settled and handled in a manner which would be satisfactory and honorable to all concerned. Now, however, conditions have arisen because of the fact that at the meeting of the democratic state committee held in Lewiston after the convention adjourned, the campaign to be waged in our state was outlined, and it appears that the campaign, as it is said, is to be waged on a moral plane as against the Mormon people. I am sure that the resolution is to be made the paramount issue. This being true and as I am not in sympathy or in full accord with the same, I cannot in honor to myself, after the position I took at the democratic convention, both in committee and upon the floor of the convention, remain upon the ticket and make the necessary campaign outlined by our committee and therefore must at this time, and therefore do now, tender the state committee through you, as chairman, my resignation as the congressional nominee of the state of Idaho upon the democratic ticket. Having a deep sense of gratitude for the honor conferred upon me I arrived at this conclusion only after careful deliberation. The confidence shown me by my party is one for which any man

may justly be proud, but the only way I can ever hope to retain that confidence in the future is by taking this step, which I believe to be the only honorable one that I can pursue. This action of mine is a purely personal one and will affect me only but make it possible for the state committee to place upon our state ticket some one who can consistently make the campaign as outlined and be in full accord with the state committee."  
(Signed) F. H. HOLZHEIMER.  
—The passenger department of the Oregon Railroad & Navigation Company has just issued a beautiful and costly panoramic folder entitled "The Columbia River, through the Cascade Mountains, to the Pacific Ocean." From Arlington to Portland, and from Portland to the Pacific Ocean, every curve of the river and every point of interest are shown, while Mt. Hood, Mt. Adams and Mt. St. Helens, perpetually covered with snow, stand out in all their beauty. On the back of the map is an interesting story in detail of the trip from Huntington to Portland, and from Portland to the ocean, not overlooking the beaches and the San Francisco trip by ocean. A copy of this folder may be secured by sending four cents in stamps (in pay postage) to A. L. Craig, General Passenger Agent of the Oregon Railroad & Navigation Company, Portland, Oregon. By sending the address of some friend in the east, and four cents in postage, the folder will be promptly mailed.

### THE GENESEE NEWS.

ENTERED AT THIS POST OFFICE AT GENESEE AS SECOND-CLASS MATTER.

CHAS. POWERS, PUBLISHER.

Subscription price, strictly in advance, \$1.50.

—Mrs. Geo. Hunter returned from Coeur d'Alene yesterday.

—Mr. and Mrs. Brewer have been spending the week in Spokane.

—Work of laying brick on the Herman block is now in progress. In size it will be 50x70.

—Mrs. Chapman, sister of H. A. Thatcher, after a visit here at several days returned to her home at Lewiston Monday.

—F. C. Marquardsen, Ernest and Mr. Platt returned Friday from their trip to the Collins section. They report birds and fish plentiful and that they had a fine time.

—Geo. Hobson was displaying a branch from a cherry tree yesterday grown on his residence property, that measured 24 inches in length and contained three pounds of fine cherries.

—For the Catholic retreat and synod being held this week in Genesee, there are in attendance some seventeen priests from the state diocese, also the Rt. Rev. Bishop Glorieux. Next week we will make a more extended mention of their deliberations.

—Miss Lillie Schutte and brother Arthur arrived here Tuesday from Baker City. The former will visit here until Monday and will then go to Neperce where she will teach during the coming year. She says that her sister Bertha has not improved in health any since leaving Genesee.

—John Halverson received the sad intelligence Tuesday from Modesto, Calif., that his brother Helge had that day met death by being kicked by a horse. Mr. Halverson left for that place yesterday. The deceased for several years was a resident of the Cornwell section and some two years ago moved to California. He leaves a wife and seven children.

—Thursday of this week Miss Ellen Anderson, who for a number of years has made her home with her sister, Mrs. Fred Rieck, living north of town, left for Butte, Mont., where upon her arrival she will be united in marriage to Mr. Harry Dawson, a traveling man making that city his headquarters. Miss Anderson has a large number of admiring friends in this section who wish her all kinds of future happiness.

—J. W. Tice had an experience yesterday morning which he does not care to have repeated. The local train was backing in on the side track and on the crossing, Mr. Tice not noticing its approach, started to cross but a feet ahead. Had it not been for the timely warning of Brakeman Martin it is certain he would surely have been run over. The thoughts of the occurrence now make cold chills chase up and down his spine.

—Marshal Driscoll has in his possession a couple of "bad actors" of the genus hobo variety. They were gathered in Thursday evening of last week after stoutly resisting arrest and one of the pair brandished a knife. Friday, they were taken before Justice Burr and each was assessed \$50 and costs of action which they will "board out" at the expense of the city. The names of the gentlemen are John Clark and James Quinn. While being returned to the city jail Friday after being assessed Mr. Clark got gay and was going to do things to the marshal who subdued him by stroking him over the head with his billy. A gentleman now stopping in the city states that some five years ago, at Ellensburg, he had the pleasure of arresting Mr. Quinn who was afterwards convicted on the charge of assault and robbery and was sentenced to a term in the Walla Walla prison. Monday the pair was put to work on the streets. They worked some—but Tuesday went on a strike. One claimed to be sick, the other said he would not work in the sun.

GOLDEN NUGGETS FOR SALLOW PEOPLE

FRIDAY, AUGUST 26, 1904.

—J. A. Ball visited Pullman Sunday.

—Dan Sullivan was up from Union town Tuesday.

—Mrs. Henry Larkins, a sister of F. E. Dicus, is a visitor from Colfax.

—Mr. and Mrs. Chas. Larrabee, Mrs. Just, and John Larrabee visited Lewiston Tuesday.

—No meeting of the school board was held Monday evening, a quorum not being present.

—Edith Wright returned home Sunday from a visit to Spokane. Mrs. Wright met her at Pullman.

—Mrs. C. H. Belt, of Seattle, who has been visiting her father and sister, Mr. and Miss Scott, returned to her home Tuesday of this week.

—Mrs. Harley Smith and children, who have been visiting at the J. J. Brown home in Spokane for some time past, returned home Sunday.

—Rev. Thompson and wife, of Moscow, were guests of Mr. and Mrs. H. N. Qualey in this city the first of the week. Rev. Thompson has succeeded Rev. Olson as pastor of the Lutheran church at Blaine.

—Sam'l Nulph has sufficiently recovered from his recent illness to be able to walk down town. He says that he is still subject to great pain in his left side and can see but a very little with his left eye.

—In a matched game of ball for a \$1000 purse which was played last Sunday at Spokane between the teams of Wallace and Davenport, Chris Steltz, formerly of this place, pitched for Wallace, the winners. During the game he struck out 10 men.

—George Miller, who was last week sent to Lewiston by the Nez Perce authorities and lodged in jail charged with assault with a deadly weapon on the person of Mel Simpson, was arraigned before Justice Coburn last week and bail was fixed at \$1,000 which he has not as yet been able to furnish. The preliminary examination will be set after the condition of Simpson will permit of his appearance in court.

—The customary rule for measuring land is to subtract the width from the distance over, divide the distance by 2 for the height, multiply the height by the width and this product by the length of the stack. This will give the solid contents in feet. Divide the solid contents by 512, the number of feet in a ton. This will give the number of tons in the stack. This is considered on 30 days standing.

—After hay has stood in the stack for 3 or 4 more months, divide by 417 7-8, which is 7/2 feet square, if in the stack for near a year before measuring, divide by 343 the product of 7 feet square.

—E. S. Aldrich arrived here the first of the week from Moscow with a crew of men and by the close of the week will have all the large poles in position throughout the town ready to string the wires for the installing of the electric light and power plant in Genesee. Mr. Aldrich informs us that poles have been strung from Lewiston to Moscow for the line and work of placing them in the ground will be commenced at once. The matter of securing material for the installing of the line has been a serious one for the promoters but in the future they expect to have smooth sailing. A car of wire, to be used in the construction of the system in Genesee, will arrive the first of the week. It is an assured fact that the entire system for the supplying of light and power will be completed early in October. Those in Genesee who contemplate the use of lights are requested to leave orders for the wiring of their buildings at as early a date as possible. Mr. Aldrich states that while they have a crew of men employed here the expense of wiring can be kept down to the cost of labor and material. When it is necessary to send some person here to do the work the cost will necessarily be greater. Orders for wiring may be left with Mr. Aldrich or with the C. E. Wood Co. An erroneous impression has gone out that the meter system would not be adopted in the residence district. The company will install meters to those who desire them in residences. Mr. Aldrich states that the company can furnish electric power at a less cost than steam or gasoline and is anxious to consult with those using power. Work on the erection of the sub-station will be commenced within a day or two and the same will be located at a point, not yet determined upon, near the city pumping station. A brick building 35x25 will be erected.

—Mr. and Mrs. M. Greif were up from Uniontown Sunday.

—Miss Hattie Prather has returned to Genesee from Spokane.

—Read the new ads. of The Fair, J. K. Bell and O. Olson.

—Miss Agnes Girard, of Uniontown, was a visitor in Genesee Wednesday.

—Mrs. Fred Sherron was over from Uniontown the latter part of last week visiting with relatives.

—Mrs. Murdoch and daughter, of Pullman, who have been visiting Mr. and Mrs. Jackson, returned home Saturday.

—Rev. Fowler returned home Monday after a week's absence in Palouse towns. His annual vacation is now closed and he will again occupy the Congregational church pulpit Sunday.

—On Saturday evening of this week the band boys will conduct another dance at Elliot hall. Music will be furnished by the band orchestra. Dancing will commence at 9 o'clock and throughout the evening ice cream and lemonade will be served.

—Assessor Langdon paid a visit to the northern part of the county last week for the purpose of locating and assessing any sheep that might have been driven across the line from Washington before they are taxed in that state. He was successful in locating over 40,000.

—G. Dickson has purchased three lots from Rev. W. C. Fowler which corner on his residence property in the northern part of town. The price paid was \$300. He has also purchased from Thos. Lorange, for \$200, the three lots adjoining the Brewer residence property on the west.

—Mr. and Mrs. W. H. Platt, who have been visitors at the F. C. Marquardsen home for some time, left Wednesday by way of Spokane for their home at Payette. They were accompanied to Spokane by their daughters, Cora and Mrs. Marquardsen. Miss Platt, who has been greatly improved in health since coming here, will remain indefinitely.

—F. C. Marquardsen is making an effort to have a number of Chinese pheasants planted in some of the nearby canyons. For some time he has been in correspondence with the game warden, W. A. Irons, who states that on behalf of the state he can contribute one-half of the expense (\$20) for the securing of eight pair of these birds. They can be secured from breeders in Oregon at \$5 per pair and if they are purchased the remaining \$20 will have to be raised by private subscription. A number have signified a willingness to contribute in the evening of the state until 1907. It is believed that in any of the canyons east of town they would thrive.

—While the present year is without a doubt a very favorable one for the growing of corn in this section, it is nevertheless a fact that it is a crop that is rapidly growing in favor in this valley. Where a few years ago small patches were grown for fodder, now hundreds of acres are grown. To the south of Genesee, in the Rimrock section, the acreage this season will without a doubt total 1000 acres. Ralston Vollmer, on the old Charley Samspon place, has a field of ninety acres that will rival anything grown in the eastern corn states. Messrs. Craig, Evans, Becker, Beecher, Wilson, Willows, Mrs. Elliot and others have large fields that are equally as good. Mr. Vollmer has purchased a corn binder and is daily cutting a quantity for feed. The growing of corn is by no means confined to the Rimrock. Many farmers to the west and north of town and in the Potlatch section have good fields. The question of building silos is being considered by some.

**AFTER THE COUNTY TREASURERS**  
Attorney General Bagley Says They Must Pay the State.  
The question of collecting from Bear Lake, Bingham, Blaine, Boise, Canyon, Cassia, Custer, Elmore, Fremont, Idaho, Kootenai, Latah, Lemhi, Nez Perce, Owyhee, Shoshone and Washington counties delinquent taxes due the state from these counties has been referred to Attorney General Bagley who has made a demand upon the county commissioners for the back taxes.

About a month ago State Treasurer Coffin called the attention of the county treasurers in the delinquent counties to the fact that a considerable amount of back taxes were due from these counties to the state and made formal demand for the same. In nearly all instances where replies were received the treasurers had referred the matter to the county commissioners.

The following communication has been forwarded by the attorney general to the chairmen of the county boards in the counties which are owing the state:  
"The records in the state auditor's office show your county to be indebted to the state in the amounts shown by the inclosed statement.

"It was the intention of the framers of the constitution to place the state upon a cash basis and have sufficient revenues levied, collected and paid into the state treasury each year to meet the obligations of the state. The legislature fixes the amount of taxes for state purposes and this is divided among the counties in the proportion their respective valuations bear to the entire valuation in the state.

"The amount of revenue due from each county each year for state purposes is a binding obligation which it must pay in full.  
"Section 7, article 7 of the constitution provides:  
"All levies for state purposes shall be paid into the state treasury, and no county, city, town or other municipal corporation, the inhabitants thereof, nor the property therein, shall be released or discharged from their or its proportionate share of taxes to be levied for state purposes."

"You will observe that the county, the people and the property are bound until the county pays its full share of all taxes for state purposes into the treasury.  
"The legislature of 1901 authorized the issuance of deficiency bonds to the amount of \$117,000 to pay the deficiency warrants then outstanding and the legislature in 1903 authorized the deficiency bonds to the amount of \$49,500 to pay the deficiency warrants then outstanding.

"At all times, as nearly as can be ascertained from the records, there was sufficient money due the state from the counties to have paid these demands without issuing bonds. The state has been embarrassed and compelled to issue bonds to maintain its credit and meet its obligations, on account of the failure of the counties to pay taxes levied for state purposes.  
"It is the duty of the county commissioners to arrange immediately for the payment of all back taxes due the state and in the future to make a levy sufficient to raise the amount due the state each year and see that it is paid promptly.

"When the matter was taken up some time ago by the state auditor, there was due the state about \$150,000 from the counties. Through his efforts and those of the state treasurer, some \$60,000 have been paid, leaving a balance now due the state of about \$90,000.  
"With a view of having this amount paid and these old matters straightened up, it has been referred to my office.  
"Kindly take the matter up with your board immediately and arrange for the payment to the state treasurer at once the amounts due from your county as shown by the inclosed statement. Respectfully,  
"JOHN A. BAGLEY, Atty Gen'l."

**AMOUNTS DUE.**

GOLDEN NUGGETS FOR SALLOW PEOPLE

OTTAWA, Canada, is rather startled at the announcement that it is quite possible a daughter of William K. Vanderbilt, of New York, may occupy Rideau Hall as the next vicereine of Canada. What in the world will England come to, if one American woman sits on the throne of India and another on the throne of Canada?

REPORTS from the Maine election held Tuesday are anything but encouraging to the democrats. The republican majority still remains in excess of 30,000, as all republican state officers were elected by majorities ranging in about that amount. The democrats exerted every effort to reduce the republican majority of two years ago but with a less number of votes polled this year have failed in their efforts.

SECRETARY TAYLOR has been speaking his mind about President Roosevelt. He says: "In all my experience I never have met a man in authority who has less pride of opinion in the judgments that he has formed in respect to situations presented to him for action than has Theodore Roosevelt. I have never met a man who was so amenable to reason, so anxious to reach a just conclusion, and so willing to sacrifice a previously formed opinion as the president of the United States. He is not a tyrant, but a leader. Does the American nation object to this?"

A CONTEST is expected in congress next winter waged by the labor men of the Pacific coast for legislation to protect seamen from the importation of Chinese crews on American vessels. Recently the Pacific mail steamship, Siberia, brought in a crew of 270 coolies, destined for the new steamship Manchuria, which recently arrived at San Francisco from Norfolk, Va., where it was built. The coolies escape arrest and deportation on the thin technicality that there is no actual landing of the Chinese in the United States, and that therefore the contract labor law is not violated. It follows, of course, that the docks of these American steamships are no longer regarded an American soil.

SET out an orchard of apple trees ten feet apart, and you will have a very poor orchard. The trees will interfere with each other's growth; they will lack sunlight and moisture and the nourishment of the soil. Many will die. You will get a tenth of a crop of a very poor quality of apples.

Set out your trees forty feet apart, and each one will thrive, without trespassing upon its neighbor. Each will attain a symmetrical growth, with a deep, wide rootage, and broad low-spreading branches. That's the way the Lord intended apple trees to grow.

This isn't a disquisition upon apple trees. It's an allegory. Men are like apple trees—they need room. The more room a man has the more he'll grow and expand and develop. That is one of the chief charms of

the Pacific Coast; we have lots of room. "Room" is another way of saying "opportunity." There are opportunities everywhere, but there are more of them to the square mile on the Pacific Coast than anywhere else in the world. For the same amount of effort, a man can get greater returns here than any place else in the world. Why? The reason is simple. The resources are here, the raw material; wonderful, unguessed treasures of field and mine and stream. That doesn't mean that a man must be a farmer or a miner or a fisherman. These men take the raw material first, and pass it on to the miller, the manufacturer, the merchant, the lawyer. When they prosper, everybody prospers.

That's the first reason: resources. The second is: elbow room. We aren't smothered to death with competition. There is room for all. No matter what your business, the Pacific Coast offers you an opportunity. It's a young, growing, uncrowded country, whose greatest need is men. And there's lots of elbow room. —From the September Pacific Monthly.

**APPORTIONMENT OF TAXES.**  
After three weeks of hard work the force in the office of State Auditor Tamm, the secretary of the state equalization board, has completed the task of figuring the apportionment of the taxes for the support of the state government among the 21 counties of Idaho. According to the enactment of the last legislature, the total of the general fund levy for the year 1904 is \$275,000, while special taxes, authorized by three different laws of the state, bring the total to be collected up to \$304,688.03. These special taxes are for the state wagon road building fund established in 1903, the state industrial school sinking fund, fixed in 1903 at three mills and the state deficiency bond sinking fund of 1903, fixed at one mill. Ada county pays over \$12,000 more state taxes than any other county in the state, because of the larger amount of assessable property in the county. It leads the list of the counties with a total apportionment, for general and special purposes, of \$37,711.50, while Shoshone county, which ranks second, will pay but \$25,344.17. Nez Perce, Kootenai and Latah counties, all from the northern portion of the state, rank third, fourth and fifth respectively, being followed in the order given by Canyon, Bingham, Fremont, Washington and Blaine, all from south Idaho. The county which will pay the smallest amount of taxes for the state government is Custer which will contribute the sum of \$4,778.28, a trifle over one-eighth the amount assessed against Ada county. Boise, the county which ranks next to the lowest, leads Custer by about \$645. The total of the state's taxes for

Nez Perce county is \$23,634.80; Kootenai county, \$23,301.27, and Latah county \$19,964.45.

### ELECTRIC RAILWAY FOR GENESEE

Jay P. Graves, president of the Spokane Traction Co., B. J. Weeks, the general manager of the company, and S. J. Crutcher of Pine City, Wash., were in town last Friday in the interest of a proposed electric line from Spokane through the Palouse country to Moscow. They drove across the country for the purpose of familiarizing themselves with the conditions in the country traversed, with a view to determining whether an electric line would pay. Mr. Graves seemed greatly impressed with what he saw and is evidently of the opinion that a line of this kind built through this country would have plenty of business. He said while here: "This country is a marvel. It grows all manner of grains; it is a great fruit section; it produces big crops of vegetables and the finest sugar beets in the world. All these crops would supply business for an electric line."

Mr. Graves said the plan of his company is to build a main line from Spokane direct to Moscow, and branch lines to such points east or west as may be deemed advisable. This would of course include Pullman, Genesee, Colfax and Union Flat country, with possibly a line to Snake river down the Wawawai grade, which affords an easy and feasible route. In case the open river becomes an established fact a line to Snake would be almost a necessity. The company with Mr. Graves at its head, has recently entered into a contract to produce the product of a large electric plant now being built on the Spokane river two miles below Spokane at a maximum price of \$400,000 per annum per horse power. This is said to be the most favorable contract yet made for electric power in the northwest, and as almost unlimited capital can be had to promote electric enterprises, it would not be surprising if the construction of this line begins next season.—Moscow Star.

**PUBLIC LAND GOES FAST.**  
The government land office has issued a statement of the number of entries, selections and filings made, the area of and the total cash receipts arising from the sale of public lands, fees and commissions collected off lands disposed of otherwise than for cash during the fiscal year ending June 30.

The total amount received was \$3,790,893; the total land disposed of, 16,258,892 acres, representing 172,877 entries in all.

Idaho is credited with 9065 entries, representing 856,754 acres, valued at \$28,650.

Washington entries number 9989, with an acreage of 953,069; value of \$662,893.

Montana entries number 9995, 1,052,994, valued at \$222,542.

On account of the Owyhee river irrigation project in Oregon, 207,360 acres of land, have been withdrawn from settlement by the government.

**Fearful Odds Against Him.**  
Bedridden, alone and destitute. Such is the condition of an old soldier by name of J. J. Havens, Vassarville, for years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies: "I'm on the road to complete recovery. I feel completely restored and kidney troubles and all forms of stomach and bowel complaints. Only \$1.00. Guaranteed by Dicus & Co., drug gists."

### CHURCH NOTICES.

The Y. P. S. will be entertained at Mr. Ingwald Smith's on Friday evening.

Services at the Lutheran chapel on Sunday afternoon at 3 o'clock. Preaching in Norwegian.

The pastor of the Congregational church will speak next Sabbath morning of "The Completeness of Life" and in the evening of "The Glass Mingled with Fire." All cordially invited.

The Edmundson Show Company will hold forth next Monday evening at Elliot hall. Mr. Edmundson gave his entertainment in Genesee some time ago and gave good satisfaction. He promises two hours of education, entertainment and amusement showing the latest moving scenes. Prices 25c and 15c; reserved seats 35c.

**Women riding astride**, like all possessed in a mad race around the fair grounds track, will be one of the most thrilling sights at the Spokane Interstate fair this year. These women will ride a relay race of four miles a day for five days. This race has never been tried in Washington, although it is very popular in Montana, where women seem to have as much bravery and nerve as the men. It is a very dangerous race, but very exciting.

It begins to look as though the electric road through the Palouse country is to be more than a mere "dream." A party composed of several promoters of the scheme recently passed through here on a tour of inspection of the proposed lines and were delighted with the prospects. Those interested in the project have secured a franchise from the county commissioners under the conditions that the work is to be under way within a year after its granting. This line will be a great help to the farmer in the marketing of his produce and we trust our hopes will be realized.—Pullman Herald.

—Floyd Hough left Monday for his home in Spokane.

—F. J. Quillia made a business trip to Colton Tuesday.

—Ray Pickering came up from Lewiston Tuesday for a short visit at home.

—During the month of August the enrollment of the Idaho soldiers' home reached 105.

—Some wild and woolly individual fired a number of revolver shots while leaving town Tuesday evening.

—George M. Olson, son of O. Olson, left Friday last week for Lind, Wash., where he has accepted a position in a drug store.

—Sherman Wahl and O. V. Porter returned home the latter part of this week from a trip to the Frazer river section in British Columbia.

—Peter Johann has purchased from Mrs. Sarah Elliott the frame two-story building on Walnut street known as the Elliot hall building. The consideration was \$3000.

—Mr. and Mrs. Jos. Marshall, the latter a sister of Mrs. J. A. Nisbet, after a pleasant visit of nearly three months with the Nisbet family at this place, left Monday for their home at Tacoma.

—Miss Maud Summers arrived home Friday from Walla Walla for a brief visit with her relatives and friends. For some time past she has been studying to be a trained nurse in a Walla Walla hospital.

—W. F. Curtis who throughout the summer has been doing carpenter work for Chas. Scharnhorst and Henry Herman, left the 125th of the week for Lewiston. Within a day or two he will leave on an extended eastern visit and while away will view the St. Louis fair.

—J. N. Livingston visited Garfield the latter part of last week to look after his interests. He was accompanied by his daughter Cora who has entered the city schools at this place. As soon as it is possible Mr. Livingston will close up his affairs at this place and move his family to his recently purchased farm near Garfield to reside permanently.

—Saturday of last week Mrs. Sanford Evans and children left for Clarkston where they will reside at least throughout the coming winter. As soon as the fall work is completed on the farm Mr. Evans will join them. They have leased some residence property at that place and will give their children the advantages of the Clarkston schools.

—Rev. Canfield and Miss Bessie Wilson returned home Monday from Spokane where they were in attendance at the conference of the Methodist society. Rev. Canfield reports the meeting to have been a very harmonious and pleasant one and that on Sunday a large new church was dedicated by the ministers present in Spokane. He was again returned to Genesee for the coming year, a fact which greatly pleases his congregation at this place. Mrs. Canfield remained in Spokane for a few days visiting with friends.

—According to a recent estimate, there are 364 flour mills, with a combined capacity of 63,885 barrels per day, on the Pacific coast. Of this number of mills, Oregon is credited with 131; California, 89; Washington, 68; Idaho, 48; Montana, 14; Nevada, 6; and British Columbia, 6. The capacity of California mills is estimated at 21,875 barrels per day; Oregon, 18,202 barrels; and Washington, at 16,915 barrels per day. While Oregon has by far the larger number of mills, California exceeds in point of capacity, indicating that Oregon mills are of comparatively small capacity. Both Oregon and California exceed Washington in number of mills and in capacity. Considering the growing importance of this state as a wheat growing country, and the opportunities for export, it appears that there is a better field in Washington for further extension of the flour milling industry than in either Oregon or California.—Trade.

—William Follett is down from Wilola.

—Three keys attached to a ring, found in the eastern part of town, await an owner at this office.

—Dr. Conant has the side entrance to the basement of his brick building nearly completed.

—Miss Ella Martin arrived here Tuesday from St. Paul for a visit of about two weeks with relatives. She is a sister of Mrs. H. J. Smith and Conrad Martin.

—F. E. Dicus has received a large amount of new fixtures for his drug store. When in his new quarters he proposes to carry a much larger stock than he has at present.

—The new two-room addition to the school house is practically completed and will be entirely so by Monday of next week, the opening day of school. The seats are now being put in place.

—Mr. and Mrs. George Daggelt after a visit of nearly three months with eastern relatives and at the big St. Louis fair returned home Wednesday. They report a pleasant time. Mrs. Daggelt stood the long trip remarkably well.

—The horse carts and hose purchased some time ago by the city council has been received. One of the carts will carry 500 feet of hose, and the other 300 feet. Some 600 feet of 2 1/2 inch hose was received and was ordered direct from the factory in Boston. As soon as the city reservoir is filled with water they will be in place to use. It will now be in order to organize a city fire department.

—One day last week T. R. Qualey experienced a runaway which came near resulting seriously for him. He was in the act of driving through a gate at the Nisbet farm east of town when his team became frightened and started to run. They came in contact with a telephone pole and threw Mr. Qualey violently to the ground. He was rendered unconscious for a time and for several days was unable to move about.

—Ed. Peterson is circulating a remonstrance against the proposed road through his farm east of town. As the change is proposed Mr. Peterson claims it will do him great damage as the road would pass through his hog pasture and cut off his water supply from a living spring. Mr. Peterson claims that had the survey been made to the south of the creek he would have no complaint to make but will now fight the proposed change and if necessary in the courts.

—While transferring the big safe of the Exchange Bank from the old building to the new one, rather a serious accident resulted. Following the work of a night and a day of a good sized crew of men the safe, which weighs five tons, was placed on the floor of the west room of the new building ready to be passed through an opening in the wall to the bank room. Under the great weight the floor gave way, the safe tipped over and the main part of the safe separated from the platform which supported it. As luck would have it in the fall the dials to the combinations were not harmed and little damage resulted to the safe. All day Wednesday was devoted to raising the wreck. As we go to press it is in position to be wheeled into the bank room.

—W. H. Gage has a fine new residence well under way on his farm south of town.

—T. R. Qualey and Le Rue Tice are preparing a carload of apples for shipment to Duluth.

—James Gibb returned from Moscow Tuesday. For some time he has been badly crippled with rheumatism in his right hand and is suffering great pain. Recovery from the same is very slow.

—At an "experience" social given by the Congregational C. E. society Wednesday evening, about fifteen dollars was netted. For the best experience poem Miss Newson was awarded the prize.

—At the school election held Monday of this week about fifty votes were cast. C. E. Wood and W. M. Thompson were the successful ones and their terms of office will be for the coming three years.

—H. Nebelsieck has been taking the school census this week and finds that the increase of children in the district during the past year has been something remarkable. While the work of enumerating has not as yet been completed the names of more than 400 children of school age have already been secured.

—Mrs. J. C. Hanson and Mrs. Leon Fossitt have been chosen as delegates from the local lodge to the Rebekah grand lodge meeting to be held next month at Nampa. To the grand lodge meeting of the Odd Fellows, which convenes at the same time and place, L. Jain will represent the local lodge.

—In removing a cemetery at Graueville recently, the body of A. J. McQuade, an old pioneer of that county, was excavated and found to be completely mummified. In life he weighed 225 pounds but the preserved body weighed but 75 pounds. The preservation is so complete that the features are as natural as when the body was buried, and the mustache and hair are as natural as in life. The flesh is apparently as hard as wood and the preservation of an Egyptian mummy could not have been more complete.

—Girl wanted for light house work. Liberal wages given. Call on Mrs. C. Bressler.

LOVE HIT FOR HIS MISTAKES.

Democratic newspapers are saying that President Roosevelt can be defeated because he has made so many mistakes.

He ended the coal strike in 1902, gave work to thousands of miners and reduced the price of coal to millions of American people.

He withdrew troops from Cuba and carried out the pledges made the people of the island.

He led congress to pass the national migration act, which benefited every state and territory of the west.

He made a splendid attempt to enforce the Sherman anti-trust act. He called a halt on England, Germany and Italy in their projected attack on Venezuela and made them settle the trouble by arbitration.

He negotiated a treaty with China and opened the ports in the Far East to the trade of the United States.

He induced England to abrogate the Clayton Bulwer treaty, made a treaty with Panama and will soon start work on a canal that is to be American.

And Leslie adds that "the American people love Roosevelt for some of the 'mistakes' he has made."

5,000,000 Bushels Short.

Portland, Oregon, Sept. 2.—E. W. Wright, commercial editor of the Oregonian, who has just completed a trip of two thousand miles through the wheat districts of Oregon, Washington and Idaho, estimates the wheat crop of the three states for the cereal year 1904-5 to be 45,100,000 bushels.

Mr. Wright's estimate is valuable because during the past five years each of his predictions has been within one million bushels of the actual output.

Of the total crop this year Oregon is credited with 12,950,000 bushels; Washington 27,650,000 bushels and Idaho 4,500,000 bushels.

This year with a crop of 34,775,000 bushels last year, 41,600,000 bushels in 1902 and 46,600,000 bushels in 1901, the latter being the record crop for the three states.

The turn out now estimated by Mr. Wright is fully 5,000,000 bushels under the yield indicated a short time before harvest, the decrease being due to dry weather and frost.

The acreage is larger than ever before and with an average yield equal to that of 1901 would have produced a crop of 55,000,000 bushels.

Would Change the Election Law.

Bartlett Sinclair, who was state auditor under the silver republican rule several years ago, writes to the Statesman making a suggestion regarding the election law. He says:

"I beg leave to offer two suggestions for the amendment and improvement of our election laws.

"The first one is a requirement that a certain day be fixed in the law for the primaries to be held and that all political parties meet in primaries on the same day.

"It seems to me this modification of the law would lessen and perhaps abolish entirely the practice, not at all uncommon at primaries, of delegates participating at republican meetings and vice versa.

Were the primaries exactly contemporaneous as to day and hour, irregularities of this sort would be more likely to fall under police observation than where there exists an interval of perhaps weeks between the various primaries.

"The second suggestion is that no delegate to any county convention be qualified for nomination for a county office by that convention.

"The opportunity for manipulation by a delegate mingling in caucus and open convention with his own ambition uppermost is apt to dull his sense of public responsibility and public duty.

The unfair advantage of candidates who is also a delegate to influence the balance of the delegates often leads to the weakest men being placed on the ticket. I am not quite sure but this rule of disqualification might also well apply to state conventions and state candidates."

Remedy for Chamberlain Colic, Cholera and Diarrhoea

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose I was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." The Walla Walla land office is in receipt of a most important ruling and orders of soldiers must now complete their title to homestead entries by the same actual residence as the sailor or soldier himself.

Heretofore the window or orphan child of a soldier or sailor might prove up on a claim without actually living on the same at all. Now they have to live the full five years, only deducting the time the length of time the soldier relation has actually served. The only exception to this is in the case of a soldier who died in service. Then the whole time of his enlistment counts for the benefit of widow or children. This law will go into effect immediately, and notice will be sent to all those who have filed under the old section that if they fail to comply within 60 days with the new provision, the entry will be vacated. Provision is made that anyone who has filed and is unable to live up to the new requirements can relinquish without losing their homestead right. This decision is far-reaching, and will effect many families of old soldiers in Washington and Oregon.—Walla Walla Argus.

E. A. WALTERS, a well known democratic lawyer of Shoshone, and floor leader of the house majority in the legislature of 1901, has renounced the democratic party. He says "I shall neither support the democratic state nor national ticket, but on the contrary shall support both the republican state and national ticket. I have come to this conclusion after careful consideration."

W. M. THOMPSON, who a short time ago notified the democratic county central committee that he could not accept the nomination on the legislative ticket given him at the county convention, has, by a number of prominent democrats, been induced to withdraw his resignation and will now make the race which he does with the express understanding that he is to do no campaigning.

The democratic state central committee met Tuesday in Boise and filled the three vacancies on the state ticket. Rev. Benjamin Franklin Clay, of Caldwell, was named for congressmen; A. A. Fraser, of Boise, for attorney general, and Ashby Turner, of Idaho City, for auditor. Of thirty members of the state central committee only seven were present in person. Rev. Clay is known to be a radical anti-Mormon man.

UTAH is the place for an anti-Mormon party, if there is a place for one anywhere, just as south Idaho is the place for it, if there is any need of one in this state. Senator Kearns and his newspaper, the Salt Lake Tribune, were not in favor of the recent republican state convention but received rather unmistakable notice of defeat in the approaching contest for the election of his successor. If he had, however, controlled the convention, as he endeavored to do, it is very much of a question whether he would have seen any occasion for organizing a new party. During the convention neither Senator Kearns nor any of his friends objected to the Mormon influence and his belated enlightenment seems at least a trifle fishy.—Lewiston Tribune (Dem.)

What did this howl amount to? A careful analysis of the vote two years ago will demonstrate the fact that the percentage of republican gain was greater in the non-Mormon counties than in Mormon counties. There was proportionately a larger increase in the republican vote in Shoshone, Kootenai, Nez Perce and Latah counties, where there is perhaps not a single Mormon voter, than in Bear Lake, Oneida, Bannock, Bingham and Fremont counties, where perhaps 50 per cent of the voters are Mormons. In Blaine county, where there are not 5 per cent of Mormon voters, the increase in the republican vote was proportionately greater than in Fremont county, where the Mormons constitute perhaps 75 per cent of the voters.

So much for church influence. The fact is that here in southeastern Idaho, where the Mormons live, we can not discover that Mormon voters are influenced politically by any other considerations than those which influence their Gentile brethren. The vote of two years ago seems to prove conclusively that exactly the same considerations that rolled up the republican majorities in Nez Perce and Latah counties lined up the voters for the republican ticket in Fremont, Bannock or Bear Lake counties.—Pocatello Tribune.

WORKING NORTH IDAHO.

A feature of the democratic anti-Mormon campaign that should not be overlooked is the fact that it is in North Idaho, where there are no Mormons Dubois and his men are making their great outcry against the members of the Mormon church. Here in southeastern Idaho, where we live with the Mormon people, do business with them and mingle daily with them in social and political affairs, even the democrats have absolutely repudiated the anti-Mormon issue which Dubois forced on the issue at Lewiston.

There can be no Mormon question in North Idaho for there are no Mormons there. That there is no Mormon question in southeastern Idaho, and of women and children especially. Consultation and examination free.

### AN AGRICULTURAL EDUCATION.

The college season will open in a few days and students from all sections of the country will be enrolled in some of the numerous institutions of learning. If a census of the public were taken and everyone asked to name the occupation he intended making preparations for, about one in one hundred would answer that he intended to be a farmer. The majority would favor some of the professions. Few would approve of any trade or profession requiring manual labor for success. Such is the general conception of the power of education.

Farmers make the mistakes of their lives in attempting to educate their brightest sons and daughters for professions. They argue that the dull pupils can remain at home and work on the farms. As they have accumulated land and money without being educated it is claimed the young man of today can do the same. If the mere getting of money is taken as a basis of success, then few require the assistance of any colleges. Some of the wealthiest men were educated in the common schools. Their success in accumulating riches did not depend on book knowledge.

Modern civilization demands that the agriculturists shall have the best education. Any ordinary man can make money in certain channels of commerce. Special work requires the development of only a limited amount of brain power. A clerical man need not be a student of anything but commercial forms in the line of his work. The business man has but one avenue of thought to direct his actions. The banker does not require more than a common education such as may be had at any of the short course commercial schools. Not so with the student of agriculture.

Agriculture is the foundation of all forms of industrial and commercial prosperity. The basis of wealth is the land and its products. It has been the source of individual happiness and national prosperity since the foundation of the world, and will continue so until the end of the time. It requires the best trained minds to direct it in the most successful channels. The modern farmer should understand the language and law of the country. He cannot succeed without some knowledge of the soil and its numerous productions. He must study political economy and be informed on all that pertains to the commercial manners and customs of the people with whom he deals as producer and consumer.—Seattle P.-I. these and all others.

Mrs. C. E. Hibbs was down from Summit the first of the week. From here she went to Moscow where she made arrangements for her sons, Roy and Guy, to enter the University. At Lewiston Mrs. Hibbs placed her daughter Helen in the Sister's school.

The Latah county commissioners at their session held the first of the week made the tax levy for 1914. 23 mills for county and state purposes. This levy includes also 1 1/2 mills as a bond redemption fund. The levy for Latah county as made is the lowest of any of the five northern counties of the state which means lower taxes.

With a large crew of men Mr. Aldrich began the work of wiring the town for the electric lights Monday of last week. Sufficient material has already been received to complete the work. Mr. Aldrich states that two crews are now engaged in setting poles for the overhead line from Clarkston and will push the work to completion.

About October 3 Mr. and Mrs. Fred Follett will leave for an extended visit to the east. In addition to visiting the St. Louis fair they will devote considerable time to visiting relatives in Iowa and Minnesota. On the same date Mr. and Mrs. E. T. Platt will leave on a similar trip. They will spend considerable time at the fair and will visit relatives and friends in Iowa and other eastern states.

Work of filling the city reservoir was commenced Tuesday and Mr. Naylor states that it will probably require six days pumping to complete the task. Some fourteen or sixteen inches of water which has been standing in the reservoir for several days was let out Monday evening. When relieved it is expected the plant will be ready for general use. As we go to press Mr. Naylor informs us that during the constant pumping of all day Wednesday, the wells supplied 4,000 gallons per hour.

### Republican Speaking

**Honorable Frank R. Gooding**  
Republican nominee for governor, will address the voters of Genesee and vicinity, Saturday, September 24 at Elliott hall, commencing at 7:30 p. m. SHARP.

The date is also the one on which the Genesee Band's harvest festival will be held. Matters have been so arranged that one will not conflict with the other. Follow the crowd, take in the sports and listen to the address of Idaho's next governor.

Mrs. W. M. Nixon is visiting relatives at Oakesdale.

Miss Mollie Keane is learning the art of trimming hats with Miss Borg.

Dick Schreiber returned Wednesday after an absence of several days at Moscow.

Miss Daisy Driscoll and Miss Kate Cunningham are here from Troy visiting relatives and friends.

Miss Ella Martin, who has been visiting here the past two weeks, left yesterday for her home in St. Paul.

Frank Lowen informs us that his barley yielded 70 bushels per acre, which is probably the record yield for this year.

W. M. Thompson has erected another large hay warehouse near the site of those erected some time ago. He is now receiving a large amount of hay.

Follett & Klapp have their chop mill now in position on the lot east of Thompson's warehouse. The task of moving it from its former location was a big one.

Those having new ads. are: J. K. Bell, stoves; The Bee Hive, new cloaks and ribbon remnants; Follett Bros., novelty goods; The Fair, fall styles in ladies' coats; Larabee & Co., fall and winter goods. Read these and all others.

Mrs. P. S. Beck leaves this morning for Denver to continue her studies in one of the medical schools of that city. Following two years more of study Mrs. Beck expects to be able to hang out her shingle as an M. D.

The uniforms of the band boys were received last week. Wearing them they made their first appearance Sunday when they gave their usual Sunday concert in the park. In the new clothes the boys present a fine appearance.

Ilena Wood, Madge Fowler, Pearl Conant, Arthur Morgan and Will Platt left Tuesday morning for Walla Walla to attend Whitman college. May Herman did not accompany them, having decided not to attend until after the holidays at least. Those going drove to Moscow in order to take the early morning train.

Wednesday morning H. Reese, in the W. J. Herman orchard in the northern part of the city, killed a ferocious wild animal, the name of which seems hard to determine. In height it measured about two feet and from tip to tip of paws about five feet. The majority of those who saw the animal which was on exhibition during the day claimed it was a catamount, while others claimed it to be a bobcat. Mr. Reese took a chance for a scrap with the animal by firing at it with a 22 rifle, but was successful in hitting it in the head. How it strayed from the timber into this open country is a quandary.

The Portland Oregonian has prepared carefully compiled estimates, from data secured by a large number of experienced correspondents in the field, showing the wheat crop of Oregon, Washington and Idaho to be approximately 45,000,000 bushels, an increase of more than 10,000,000 bushels over last year and but 1,500,000 bushels less than the record year of 1901. The acreage sown to wheat was much greater than in 1901, but a poor crop in the Willamette valley, the Grand Ronde and the Big Bend materially reduced the average. In the Big Bend alone the crop was 4,000,000 bushels less than in 1901, and the Grand Ronde is about 1,000,000 bushels less than the big year. Had these two districts alone shown the same yield per acre that was reached in 1901, the crop would have been far in excess of 50,000,000 bushels. As a matter of fact early indications pointed to a 50,000,000 bushel crop, but frost and dry weather combined to cut it down in many localities which heretofore have been reasonably immune from serious damage. The Oregonian credits Washington with a yield of 12,550,000 bushels and Idaho 4,500,000, an aggregate of 45,100,000 bushels, as against 34,785,000 bushels in 1903, 41,600,000 bushels in 1902, 46,600,000 in 1901, and 37,000,000 bushels in 1900. It is probable that the figures presented will be found to be well within the bounds of conservatism, some authorities continuing to maintain that the yield will be 50,000,000 to 15,000,000 larger, though the grain trade generally has been in the line to place the limit at 50,000,000 bushels for some time past. At the Oregonian's figures, however, the crop is the most valuable ever harvested in the northwest, and assures the fullest possible measure of prosperity in the great grain-producing area.—Trade.

A couple of Mormon missionaries are touring Latah county.

J. C. Cathcart, of Ellerton, was a visitor over Sunday with his son, E. O., at this place.

Mr. and Mrs. Clarence Jain began housekeeping in their new home Monday of next week.

Miss Antonette Halverson arrived here Tuesday for a short visit. She has been reengaged to teach at Troy the coming year, school to begin Monday of next week.

The present week will come very close to finishing the threshing in this vicinity. Practically all of the headers finished work early in the week. The hauling of grain to the warehouses throughout the week has been very heavy.

J. J. Rogers, a brother of W. D. Rogers, who arrived here a few days ago from Oregon with his family to take up a permanent residence, has purchased the Chas. B. Wiman place near the old town. The property consists of 54 acres of ground, a good residence and barn. The purchase price was \$3024.

Mrs. C. H. Murphy was again taken seriously ill the latter part of last week and it was considered necessary to take her to Spokane for hospital treatment. Mr. Murphy accompanied her to that city Saturday. She stood the trip remarkably well. Mr. Murphy returned home Tuesday and states that when he left she was resting easy and that the physician in charge would be unable to determine for several days whether or not an operation would be necessary.

The board of county commissioners met Monday and fixed the 1904 Genesee county tax levy for the year 1904. The levy was fixed at \$2.40 as compared with \$2.50 last year. The tax will be proportionately the same as last year, \$1.90 in the city of Lewiston and the Independent school district, and \$2.40 outside, the special road district tax of 10 mills, imposed last year, having been eliminated this year. In the arrangement from the levy made last year, the state tax is increased eight mills; the bridge tax reduced five mills; the road tax increased fifteen mills; the bond interest and redemption tax reduced eight mills and the current expense fund tax reduced ten mills. Last year the county realized from taxes, including the school tax, \$138,692.10. The increased assessed valuation this year over that of 1903 is about \$250,000 and the increased tax revenue will therefore be about \$7,000.—Tribune.

### A HARVEST FESTIVAL.

A harvest festival will be given by the Genesee band at Meyer's grove one half mile west of Genesee, Saturday and Sunday, September 24 and 25. The program will continue throughout the entire day Saturday and begin at 1 o'clock p. m. on Sunday. The program will consist of new music dancing, races and sports of all kinds. Cash prizes will be given. All kinds of refreshments will be served. Admission free. Everybody invited.

The proceeds of the festival and dance the boys propose applying to the purchase of a piano. With favorable weather there is no doubt but what the attendance will be large. We will publish a complete program next week.

## STATE AND OTHER ITEMS.

The Idaho county commissioners have fixed the 1904 tax levy at \$3. Thursday of last week the old mining town of Warren was almost totally destroyed by fire.

The tenth annual Whitman County Fair takes place at Colfax October 12 to 15 inclusive. \$2,300 will be offered in premiums.

During the severe forest fires of the past week in Kootenai county, wild beasts were driven from the timber into the open. Five bears were killed near Athol.

The macadamizing of the Palouse city streets was completed last week. The rock crusher was taken to Teton where it is now crushing rock for the streets of that town.

Idaho Falls, one of the principal towns of the southeastern part of the state, suffered a \$350,000 fire the first of the week. The fire burned for seven hours destroying nearly every building in seven blocks.

The advance agent who is pioneering the project of the Chicago & Northwestern to build a line from Wyoming to the coast asks \$375,000 terminals and right-of-way in consideration of building through Boise. In default of this, he threatens to lay out the line through Nampa.

For the convenience of miners working in the Canyon mines tributary to Wallace, an effort is being made to have the O. & N. run a train morning and evening so that miners may live in Wallace. The company agrees to supply the service on a guarantee of \$20 per day.

A party of Ohio capitalists visited Moscow last week on business connected with the White Cross mine near that city. A great amount of development work has already been done on the property and it is claimed that a sufficient body of ore is in sight to make the mine a dividend payer. An air compressor and cyanide plant will be installed.

A booze and gambling joint was "Carrie Nationalized" at Spalding Sunday afternoon by two married women whose husbands frequented the place. They smashed in the door with an axe. While the ladies were gaining an entrance to the place the keeper and those present "fired" the stock of liquor through a rear window into Lapwai creek thinking the raiders were the U. S. marshall and the sheriff. Following the raid one of the women went home triumphantly leading her hubby by the coat collar.

On January 1 a bulletin will be issued by the state board of horticultural inspection and one by the dairy and pure food commission. The latter bulletin will be of special interest and importance. It is the intention to give all analyses that have been made of foods during the two years. The bulletin shows all deleterious goods offered for sale and those that are unsafe. It will be of great benefit to merchants and others and a guide to the people in making their purchases. Those analyses are still in progress, and it is expected to have the field covered in time for the bulletin.

A year ago H. B. Baker, who lives several miles southwest of Emmett, imported a large number of cranberry plants as an experiment. The bushes are thriving and berries are appearing on the vines. Mr. Baker has an acre planted in cranberries. Cranberries, like strawberries and other fruits, require several years of cultivation before they bear a full crop. The berries are now about one-third grown. Mr. Baker will eat cranberry sauce Thanksgiving day made from cranberries raised on his own place. Next year he will have enough to supply all Emmett and vicinity. This is the only cranberry patch in this section of the country.—Emmett Index.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John H. Smith, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." For sale by F. E. Dicus.

The company organized in Colfax last year for the purpose of constructing an electric railway from this city to Palouse has been working steadily upon its plans ever since and is now in a position where it expects to commence active operations. The directors of the company took the board of county commissioners over a day, outlining to that body the line which they propose to follow along certain county highways. I. B. Harris, president of the Whitman Electric Company, and Chas. F. Stuart, secretary, are enthusiastic and announce that grading will begin next week. The work will commence at the city limits and will continue up Spring flat to a point near E. H. Newton's place. From there it will be pushed on toward Albion as rapidly as possible. The present plan of the company is to build from Colfax to Palouse through Albion. Plans are also under consideration for a spur to run from Four Mile to Viola, Idaho. This proposed line will tap one of the richest farming sections in the Palouse country and the line will be upon a paying basis immediately following the opening of traffic.—Colfax Gazette.

A deed was filed for record Monday conveying to Geo. W. Daggett for the sum of \$7,750, NW 1/4 34-38-4, by Mary Niles, Charles A. Niles and Alice Niles and wife, Alice Niles and husband and Amelia Shoop and husband.

Until further advised both tourist and standard sleeping cars will be run through without change from Spokane to St. Louis by the Northern Pacific. This gives passengers going to the Fair increased advantages over old system. W. E. SMITH, Agent.

## LATAH'S TAX LEVY.

At the session of the board of county commissioners held last week for the purpose of fixing the 1904 tax levy, the following proceedings were had:

The board of county commissioners in and for Latah county, Idaho, met this second Monday in September, 1904, pursuant to law and adjournment. All members present.

This being the time prescribed by law for the fixing of the tax levy for the year 1904, after due consideration, it is ordered that the sum be and is hereby fixed for the several state and county funds, as follows:

State general fund \$46.00. State wagon road fund \$27.00. State industrial school fund \$100.00. State deficiency fund \$101.00. School fund \$500.00. Current expense fund \$48.00. Bridge fund \$12.00. Warrant redemption fund \$30.00. Road fund \$10.00. Bond interest fund \$10.00. Bond redemption fund \$12.00.

Being \$1,200.00 assessed valuation of taxable property within Latah county, Idaho, for the year 1904. It is further ordered that a special tax of one cent per head upon all sheep assessable within the said county, be and is hereby levied for the county sheep bounty fund.

On each \$100. assessed valuation of taxable property within Latah county, Idaho, for the year 1904. It is further ordered that a special tax of one cent per head upon all sheep assessable within the said county, be and is hereby levied for the county sheep bounty fund.

Whitman county must pay the American Bridge Company \$1753. the amount of a warrant stolen by C. G. Raby white auditor. This is a case where the county has been forced to pay the same bill twice.

Major Nesbit was born in Pennsylvania and was an old soldier, having served in the Fifty-fifth Pennsylvania regiment of volunteers as captain, then as major. He was the father of ten children, of whom six are living in this county and three are in Dakota. The latter were notified of his death this morning by Deputy Sheriff Campbell.

Deputy Sheriff Campbell arrived in Troy at 2 o'clock this morning and is making the necessary funeral arrangements. The funeral will take place at Avon tomorrow. Mr.

## STATE AND OTHER ITEMS.

Lewiston is to have a gas plant in operation by March 1. There are 143 convicts in the Idaho state penitentiary.

Jessie H. Cole, an old timer of Latah, was admitted to the county home at Moscow last week. The Lewiston Tribune estimates that already 350,000 bushels of grain have been sold by Lewiston grain companies for eastern markets.

The general land office has directed that on account of the Payette-Boise irrigation project 4,400 acres of public land in the Boise, Idaho, land district, be withdrawn from all forms of disposal.

The strike of the Coeur d'Alene mill men which has been in progress since April, has been called off. Concessions were made by both sides. The mills, which since April have been idle will now start up with a double shift.

It has been learned that J. C. Adams, of San Antonio, Texas, has purchased the Idaho building at the world's fair. According to the terms of the contract for the construction of the building, the building proper was to be given to the contractor, the Idaho commission retaining the interior fixtures and furnishings, the doors and windows being made of timber brought from Idaho. Adams purchased the interest of Contractor Frederick Wagner for \$500 and the commission was made by wire, the terms not being disclosed. At the close of the exposition Adams will remove the building to San Antonio where he will use it as a residence.

At the session of the Masonic grand lodge held last week at Boise the following officers were elected: Albert W. Gordon, Kendrick, grand master; J. W. Robinson, Boise, deputy grand master; William F. Smith, Mountainhome, grand warder; William C. Whitall, Salmon City, junior grand warder; Charles Himrod, Boise, grand treasurer; Theo. W. Randall, of Boise, grand secretary; William B. Goodheart, of Weiser, grand lecturer; James W. Brown, of Boise, grand chaplain; Wm. C. Fowler, of Genesee, grand orator; Wm. R. Hamilton, of Silver City, grand marshal; R. S. Matthews, of Moscow, sword bearer; E. G. Cummings, of Lewiston, grand deacon; Edward L. Liggitt, of Wallace, junior grand deacon; Albert F. Isham, of Caldwell, senior grand steward; Henry Carrick, of Montpelier, junior grand steward; Otis B. Steward, of Harrison, grand purveyor; Newton W. Hawn, of Boise, grand tyler.

## STATE AND OTHER ITEMS.

The board of county commissioners ordered Auditor Raby to draw a warrant in favor of the American Bridge Co. in the sum of \$1753 as final payment for a bridge across the river at Palouse. Raby drew the warrant, signed the bridge company's name to it over his own endorsement, and cashed the paper, using the money to gratify his own reckless nature. Raby was arrested for embezzlement, found guilty and sentenced to eight years in the penitentiary, which term he is now serving.

The bridge company sued the county for the amount of the warrant and secured judgment. The case was appealed to the supreme court, which confirmed the judgment. Prosecuting Attorney Hanna then asked for a rehearing and this has been refused by the supreme court. The notification of the refusal having reached Colfax last week. The county will now be compelled to pay the money. A suit against Raby's bondsmen, a snit against Raby, will probably follow.—Colfax Gazette.

## FOUND BODY OF NESBIT.

A Moscow dispatch of Saturday says: Major J. S. Nesbit, who left home near Avon on Saturday morning, and who since then has been wandering through the lumber country surrounding Avon hopelessly in search of his son James yesterday at 1 o'clock, 10 miles east of that place dead.

Tuesday evening a message came to the sheriff's office here from the Avon neighborhood asking for assistance in the search for the missing man. Early Wednesday morning, Deputy Sheriff J. J. Campbell departed for the scene and has ever since directed the searching party which through that mountainous country.

Thursday morning they found Nesbit's shoe track on Burnt mountain. Late in the afternoon they found the clear foot prints of bare feet and yesterday morning they found him lying on his side beside a large cedar tree, shaded by a growth of underbrush that hid him from view. A faithful shepherd dog, which was remained with him to the last, famished and almost dead, was standing guard over his dead master's body. Exhausted by the mad race through the woods, without food or water, Nesbit had laid down and entered the last sleep.

Major Nesbit was born in Pennsylvania and was an old soldier, having served in the Fifty-fifth Pennsylvania regiment of volunteers as captain, then as major. He was the father of ten children, of whom six are living in this county and three are in Dakota. The latter were notified of his death this morning by Deputy Sheriff Campbell.

## STATE AND OTHER ITEMS.

Campbell has been at the head of the search party since Wednesday morning and is completely worn out. He states that all the searching party agree that it would have been impossible to find Mr. Nesbit's dead body had it not been for his dog, as the place was of such character that had there been nothing to mark it or call their attention to it would without doubt have escaped their notice.

### Cottage Manual Training School.

The Cottage Manual Training School has recently been incorporated under the laws of the state of Washington and has its headquarters at Spokane. A communication to the editor of the News from J. W. Williams, president and manager of the school, states that the chief object of the school will be to teach the boys and girls of the inland Empire who may take advantage of the school to do some useful thing, and do it well. The Manual Training School is successor to the North-western Home Finding Association, which has been providing for homeless children by placing them in good family homes for adoption. This work will be carried on as one of the departments of the Manual Training School. There is a special fund created for this work, also for paying the tuition of boys and girls who may be found unable to pay their tuition. Those who are able to pay will be expected to do so.

The school will be conducted on the cottage plan, each cottage being arranged to accommodate ten or twelve pupils. These pupils will be in charge of a kind, capable woman, who will give them instruction in two some life.

The school already has engaged for the coming year a graduate from the Oread Institute of Domestic Science of Worcester, Mass. This teacher will give instruction in advanced and scientific cookery and all other branches of domestic work, teaching girls to do their work in a proper and scientific way. The girls will also be under the direction of a good instructor in art and music. Boys will be given instruction in cabinet, carpentry and other lines of manual work. Part of the time each day will be given to manual work and the remainder to the perusal of such courses of study as the pupils may require. It will be the policy of the school as an engagement to pay each pupil for whatever they may produce in the manual training departments, and the goods made by them will be sold for the benefit of the pupils and the school. The use of the best materials and the doing of the best kind of work under first-class instructors will be the aim.

The school will be able to accommodate about thirty pupils this year. It owns a farm of 100 acres of good land just outside the city limits of Spokane, upon which the school will ultimately be located. It also owns a large, commodious property at No. 307 Chelan avenue, where the work is being carried on at the present. As the school advances, different departments will be added until instructions will be given in every line.

—John H. Uglie, secretary and treasurer of the Madison Lumber company, has been here several days this week from Moscow.

—It is more than likely that a full car load of Genesee people will leave here about Oct. 1 for the St. Louis fair. A special car will be provided.

—Will Herman has been chosen a delegate from the subordinate lodge to the grand lodge of Odd Fellows which meets in Nampa the coming month.

—The ladies' aid society of the Congregational church will meet next Wednesday at 8 o'clock in the basement of the church. Come prepared to work.

—The pastor of the Congregational church will speak Sabbath morning of "The Man with Two Talents" and in the evening of "Spirituality." Everybody invited.

—Mr. Nodland, an old acquaintance of Jeweler Olson, visited here the first of the week. He was enroute to meet Mr. Westby, Wis., from a visit to Alberta.

The records of the pension office for the year past show a net decrease in the number of pensioners and in the total paid out. This is the first time since the war that the number of new pensioners has not exceeded the number of those dropped from the rolls by reason of death or other cause. Altogether 47,374 names were added to the rolls, while 49,151 were dropped. The appropriation for pensions was \$146,419,396. Of this a balance remains of \$1,706,208. During the year ended in June last 43,820 pensioners died, 30,071 of these having been volunteers of the civil war.

—We love the man with roses on his tongue, the man who sees the boy's dirty face but mentions his bright eyes, who notices his shabby coat but praises his studious habits, the man who sees all the faults, but whose tongue is quick to praise and slow to blame, says an exchange.

We like to meet the man whose smile will light up dreariness, whose voice is full of the music of the birds, whose handshakes is an inspiration and his "God bless you" is a benediction. He makes us forget our troubles as the raven's dismal croak is forgotten when the wood-thrush sings: "God bless the man of cheer. There is plenty of trouble here, but we need not increase it. There is a lot of dying done ahead of time."

### BIDS WANTED.

The city council of Genesee, Idaho, will receive bids Sept. 26th, 1904, until 8 o'clock p. m., for tapping city mains and furnishing the labor and material necessary to convey the water from the city mains to the nearest property line.

A list of material required can be seen at the city clerk's office. C. F. BURR, City Clerk. Genesee, Idaho, Sept. 19, 1904.

### BETTER TAKE ADVANTAGE

Of the low rates east Oct. 3rd, 4th and 5th. Pretty soon there will be no more such opportunities and you will be regretting that you did not take that long expected trip. "The North-Western line" is the best line to use in going to the world's fair and our rate on above dates will be very low indeed. If you are thinking of going, write me for any information desired.

—Miss Blanche Ellis, of Colfax, was a guest at the Dicus home over Sunday.

—Theodore Kluss, after a short visit here, left Saturday for his home at Santa Anna, Calif.

—Under the Idaho estray law estray stock can only be taken up from November 1 to April 1.

—Mr. and Mrs. Le Rue Tice now occupy the residence on the hill adjoining the Biram home.

—The Genesee bill boards were decorated Friday by glaring posters advertising the big Lewistown fair which takes place October 17 to 22.

—F. L. Sweet has disposed of his residence property in the western part of town to Fred Hooser. The consideration is said to be about \$600.

—Miss Hattie Rosestein left Wednesday morning for Portland where she will enter school. Mr. Rosestein accompanied her as far as Colfax.

—The new school board met and organized Saturday evening. E. T. Platt was chosen chairman of the board and Herman Nebelsteck was re-elected secretary.

—Hauling of grain to the warehouses is now well along. Buyers pronounce the grain produced this year in quality equal to that of any season in the past. The berry is large and plump and weighs out well.

—Mr. and Mrs. Wm. Welch will again take a residence in Genesee. Mrs. Welch, who arrived here last week, will be joined in a day or two by Mr. Welch. About the first of the coming month Mr. Welch will begin a term of school in the Ingie district south of town.

—Enroute home from Boise Rev. W. C. Fowler paid a visit to White fount college at Walla Walla. He found the Genesee students very nicely located and reports that those who attended the school the past year at the commencement of school this year were admitted to the college course and will finish school in four years instead of five.

—L. W. Tate, of Asotin, a recruiting officer for the Sons of Veterans, is sojourning in Genesee. If possible he will recruit a camp at this place and is anxious to meet all who are eligible for membership, they being sons of veterans or grand sons over 18 years of age. The district which includes Idaho takes in also Montana, Washington and Alaska.

—Owing to the fact that a dance by the band boys is to be held tomorrow night at Elliot hall, it will be necessary to begin the political speaking at 7:30 o'clock sharp. Please bear this in mind and go early. It will probably be the only opportunity of the voters of Genesee to hear Mr. Goeling the republican nominee for governor during the campaign.

—At a meeting of the council held Monday evening the clerk was authorized to issue a call for bids for the furnishing of material to the city for tapping of water mains. Dan Healy, owner of the Grand Central hotel, recently presented a petition asking permission to put in a private sewer to connect with drain tile on Fir street. The committee to whom the petition had been referred made an unfavorable report. A motion was also made and carried that no person be allowed to connect with the tile drain on Fir street.

—George H. Hobson has on exhibition, at the Bee Hive store, without a doubt the finest collection of pigeons on this coast. During his recent trip east he purchased them from eastern fanciers, but only received them during the past week. In the lot are a number of fine carrier pigeons and today if they were turned loose would return to their eastern home. It will be necessary for them to hatch young ones before they will be contented to remain here. In the lot are also a number of fan tails and owls, all of which are registered birds.

—For sale cheap, an Imperial wind mill with steel tower. Inquire at Jain's barber shop.

—Dr. E. R. Lemman has moved his family to Lewiston for the winter.

—Ormand Patterson left Monday for Pullman to enter the college at that place.

—Mrs. J. W. Beckett, of Spokane, a daughter of Wilson Scott, is spending the week here.

—Miss Emma Christensen returned to Pullman Tuesday to again enter the Agricultural college.

—Andrew Diettinger completed the erection of a commodious barn, Tuesday, on his residence property in the western part of town.

—The Troy Lumber and Manufacturing Company has been granted a franchise for the erection and maintenance of an electric light system in Troy.

—Tuesday of this week F. C. Marquand reports having seen a good sized fox at the evening of the school district. With a kodak he was successful in taking a snap shot at a number of them.

—Mrs. Hattie Carson, in renewing her subscription to the News says: "I have opened up a nice boarding house on South Almond St., No. 232, and would be pleased to have all my old friends and patrons call on me when in Moscow."

—While working at the school building Monday a chisel fell from a staging above striking Sam Olson on the head, making quite a serious wound. Mr. Olson has many words to praise for a bevy of school ma'ams who bathed his wounds and offered words of sympathy.

—W. S. Robbins, the republican nominee for sheriff was a visitor from Moscow the first of the week. Mr. Robbins is the first of the county candidates to make an appearance in Genesee. He will make a vigorous canvass of the county and has every reason to feel that he will be elected.

—Mr. and Mrs. J. H. Gaffney, now of Seattle, but former well known residents of Genesee, renewed acquaintances here from Sunday until Tuesday. While here they were guests of Mr. and Mrs. E. K. Bressler. Prior to coming here they visited with Mrs. Gaffney's people at Kellogg.

—Harvest for 1904 is about a thing of the past. The "oldest inhabitant" cannot call to mind any season since the settlement of the country that a harvest has passed when as little moisture has fallen. During the haying and harvest season just passed scarcely an hour's time has been lost on account of rain. The hauling of grain to the warehouses is now well along and farmers would welcome a heavy rain to put the ground in condition for fall work.

—A 25 to 30 bushel yield and a price of 70 cents has put many a Genesee valley farmer on easy street this year. One in a position to familiarize himself with conditions stated that it would surprise the average citizen to learn of the number of young men who are clearing from one to three and four thousand dollars a year at farming in this neighborhood. A number of them are prospering on rented land, others are farming land which they have purchased from their earnings.

—Those who intend to go from this part of the country to the Spokane Interstate fair this year should prepare to go Thursday, October 6, for on that day the Northern Pacific and the O. R. & N. roads grant a low rate of a single fare for the round trip. This rate is good on these roads on that day from all points on the Northern Pacific main line between Wallace, Lewiston, Walla Walla and up the Clearwater, and it is good on the O. R. & N. into the Coeur d'Alenes and to all points between Spokane and Walla Walla. Besides this one fare rate for the round trip, good on this particular day, these roads also give a fare and a third, good any day of the fair. Persons going on either of these tickets can remain as long as they please up to the day following the close of the fair.

—Having opened a plumbing shop in the room adjoining the butcher shop we are prepared to do any and all work in our line. The installing of water pipes, toilets and lavatories a specialty. We can furnish at the lowest possible price all necessary pipes, fittings, bath tubs, sinks, lavatories, etc., and having had years of experience in installing same can guarantee complete satisfaction. Call and see us before having any work done. MURPHY & O'LEARY.

—Victor Hasfurther has resigned as justice of the peace in West Genesee precinct.

—Mr. and Mrs. John Spencer left Monday for Olympia, Wash., the home of Mrs. Spencer's people, to remain during the winter.

—The Livingston people have disposed of their residence property in Genesee to Will Gray. They also disposed of their ranch on the Potlatch the first of the week. They will leave in a short time for their new home in Whitman county.

—Word was received here Tuesday from Spokane that it would be necessary to perform an operation upon Mrs. Murphy. Mr. Murphy went up Wednesday morning. Her case has been diagnosed as tumor which is said to be making a rapid growth.

—Herman Nebelsteck, who last week completed the school census found there were 413 children of school age in the Genesee independent school district. Of this number 211 are boys and 202 girls. Compared with the census of 1903 a very material increase is shown. There were then a total of only 370 children in the district—183 boys and 187 girls.

—E. C. Clement, a government rural route agent, arrived here Tuesday. Wednesday he was plotted over the proposed rural route, No. 3, to the south and west of town by U. G. Dickson. It is doubtful whether the route will be established. It was found that in the distance of about 25 miles traveled that the number of families to be served would not come up to the requirements.

—H. A. Morgan, coming down town Wednesday evening on his bicycle, in the road opposite the Seymour residence, met with a serious fall. For some time he lay unconscious and when found he had to be assisted home. As a result of the fall his face is badly scratched and his left eye is swollen shut. How the accident happened Mr. Morgan cannot explain—says he remembers nothing from the time it happened until being assisted home by Marshal Driscoll.

**MILLINERY OPENING.**

Miss E. E. BORG & Co.

—Read the new ads. of The Fair, Bilger's Department Store and W. J. Herman.

—Miss Pearl Owen will leave for Moscow next week to enter the University.

—A three year old son of Mr. and Mrs. Jake Kaumbich died at their home in this city Tuesday of this week after an illness of several days with summer complaint. The funeral took place Thursday morning from the Catholic church and the remains were interred in the cemetery west of town. A large number attended the funeral.

—A pleasant surprise was given on Marie Olson, Sunday evening, by a number of her young friends. Until the hour of midnight they enjoyed themselves with music and conversations. Refreshments were also served. Those who partook of the evening's amusement were: May Rekdahl, Alfrida and Emma Rosenau, Jennie Halverson, Pearl and Ivy Dugger, Pearl and Dollie Johnson, Marie and Josephine Olson, Clarence Dugger, Henry, Engle and Antone Halverson, Albert and Lenis Peterson, Felix Mullaly, Frank Vanouck, George Rosenau, Ed, Gerker, Jare Pauls, Arnold and Elmer Olson.

—Leo Peterson, editor and manager of the Commercial Review, of Portland who recently made a tour of this section, to a Lewistown Tribune reporter said:

"Of the 53,000,000 bushels of wheat that will be raised in the northwest this year about 39,000,000 will be exported and the balance used for home consumption, feed and carried over. This exportation formerly was made to foreign countries but at the present time the eastern and middle states are making a call for wheat and fortunately the northwest is the only section having a supply more than will be required for home consumption."

"With a shortage of 150,000,000 bushels in the United States the prices of wheat are sure to advance higher than present quotations. I find the farmers selling more freely at the beginning of the season than since I engaged in the publication of grain estimates in the west 18 years ago. This free selling has caused surprise and wonder, on my part, in the face of certain news from the east that the prices are destined to advance. I think the farmers would profit by selling a little at a time, if they are in need of ready money, and holding the balance for higher prices, which they are certain to get. This will seem like strange advice for me, having been a persistent bear in the past four years, but there is no getting around the facts so clearly proven and buyers from the east are securing the country for wheat."

—Jack Koepfel, of Pullman, a brother of Mrs. Kaumbich, was in the city yesterday.

—The brick work on the Herman block is now completed and Mr. Herman anticipates that he will occupy the same within thirty days.

—In case of rain the band boys festival will be postponed to some future date. However, should rain interfere with the exercises at the grounds, an elaborate dinner will be served at Elliot hall. The grand ball will also take place, rain or shine.

—Grandma Hall, well known to a large number at this place, after a long illness, died at her home near Uniontown Tuesday of this week. Here remains were laid to rest in the Uniontown cemetery Wednesday, a number from this place being in attendance at the funeral. Next week we will publish a complete obituary.

I sell tickets on White Star, American and Canadian Pacific steamship lines. Rates are now low will go up soon \$15.00 a ticket. Buy before the raise. HANS BUGGER, HERMAN.

## THE GENESEE NEWS.

ENTERED AT THE POST OFFICE AT GENESSEE AS SECOND CLASS MAIL MATTER. CHAS. POWELL, PUBLISHER.

Subscription price, strictly in advance, \$1.50. —Wm. Lockridge, father of Mrs. Fred Follett arrived here Monday from Iowa.

—Those having new ads. this week are: The Fair, H. F. Bilger, O. Olson, Wm. Smolt and Follett & Klapp.

—Chas. Hoppough, who during the past year has been employed in the local barber shops, left Wednesday for Spokane.

—Wednesday of this week F. E. Dicus began moving into his new quarters in the Exchange Bank block. It will be several days before he is fully settled. It is expected the bank room will be ready for occupancy by tonight.

—An operation was very successfully performed upon Mrs. C. H. Murphy Thursday last at Spokane. Mrs. Stryker went up Saturday. She returned home Wednesday and reports that her mother is resting easy and is making rapid strides toward recovery.

—Monday of last week Lulu Brennan began a term of school in the Jain district east of town. Tuesday of this week Miss Jane Brennan moved out in the country and together with Lulu will occupy a residence owned by Fred Hampton near the school house.

—At a recent session the Washington state grain commission voted to reestablish the old wheat grades. The rules establishing the old grades provided that if an inspecting grain it is found that any of them has not been properly cleaned, the inspector shall place upon it the grade it is entitled to "if properly cleaned." It is not thought probable that the commission will adopt any system of dockage this year.

—According to the Examiner, agents of a Chicago grain house are in San Francisco buying wheat for the eastern market. It is said that 100,000 bushels of wheat have been bought in Oregon and Washington for shipment east and that 8,000,000 bushels of wheat have also been purchased in Oregon and Washington, principally in the latter state, by eastern buyers for shipment to the east by rail. "These western purchasers of wheat," one of the grain agents is quoted as saying, "cannot affect the Chicago grain market. There is a shortage east for the millers and the purchases on the Pacific coast are simply to supply the urgent demands of the eastern millers."

—Thursday being the 56th birthday anniversary of Mrs. Louis Jain, a large party of friends treated her to a pleasant surprise Wednesday evening. They took possession of the Jain home early in the evening and brought with them a quantity of good things to eat. The surprise was a complete one on Mrs. Jain. Those present were: Mr. and Mrs. L. Jain, Mr. and Mrs. Clarence Jain; Mr. and Mrs. W. J. Herman, Mr. and Mrs. J. S. Larrabee, Mr. and Mrs. Chas. Power, Mr. and Mrs. S. Nulph, Mr. and Mrs. W. C. Brant, Mr. and Mrs. W. C. Fowler, Mr. and Mrs. Wm. McFadden, Mr. and Mrs. J. Owen, Mrs. E. T. Platt, Mrs. Springer, Mrs. G. N. Hillister, Mrs. R. Pickering, Miss Pearl Owen, Miss Nellie Brant, Clara and Ruth Fowler and Wallace McKenna.

### Amended Rule for Sale of Indian Lands.

Washington, Sept. 20.—One of the most drastic orders ever issued by the government for the protection of the Indian tribes, against frauds and robbery was promulgated today by Acting Secretary of the Interior Ryan. The order amends the rule for the sale of inherited Indian lands, so as to require that the proceeds to be derived from their sale shall be placed with the most convenient United States depository to the credit of each heir in proper proportion subject to the check of such heirs of their recognized guardians for amounts not exceeding ten dollars to each in any one month. Before being paid, however, it will be necessary for these checks to be approved by the agent or other officer in charge. For sums in excess of ten dollars per month, the money will be paid upon the approval of the agent only when specifically authorized to do so by the commissioner of Indian affairs.

Acting Secretary Ryan said that heretofore the lands have been sold to the highest bidder and the proceeds paid directly to the Indians, with the result that in many instances the Indians soon were divested of their

## CHURCH NOTICES.

Services in the Lutheran chapel on Sunday afternoon at 3 o'clock.

The ladies of the Home Mission society of the Methodist church will serve dinner and perhaps supper on election day.

Methodist church: Sunday school at usual hour. Sunday school rally at 7:30 p. m. Good music both vocal and instrumental. All are cordially invited.

Communion will be administered next Sabbath morning at the Congregational church. Subject in the morning "The Souls Refuge" and in the evening "The Man With the One Talent." Evening service begins at 7:30.

—Mr. and Mrs. J. W. Lankford of Moscow spent Saturday and Sunday at the Frank Williamson home.

—From figures recently compiled in Spokane, it appears that only nine out of every one hundred children who are started in school, complete the twelve years' course of free public instruction offered them; and furthermore, that two-thirds of the school children do not even finish the grammar schools. There is a law in Washington requiring all children, unless especially excused for good causes, between the ages of eight and fifteen years, to attend either a public or private school at least five months in each school year. A similar law exists in Idaho. In Spokane a "truant" officer has been appointed by the board who is making a search of the city for children who are not living up to the requirements of the law and already a number of cases are being prosecuted.

—Prof. Geo. Jauslin visited Pullman Wednesday.

—The attendance in our public schools this week reached 236, an increase of about 30 since the opening day.

—Our final order for calendars will be placed with the manufacturer within a short time. Place your order early.

—Mrs. Just, mother Mrs. Chas. Larrabee, after a pleasant visit of several weeks at this place, left Friday for her California home.

—Conspicuous in the audience Saturday evening were a number of democrats who never lost a chance to cheer any reference made of the name of Roosevelt.

—Mr. and Mrs. Jake Kambich wish through the News to express thanks to their neighbors and friends who assisted them during the sickness and burial of their little son.

—Grandmother Gray, mother of R. R. and W. W. Gray and A. M. Wardrobe, and who is at present living with the family of the latter, fell Wednesday evening, breaking her collar bone in three places. Owing to her extreme old age, 96 years, the accident is a very serious one.

—Peter Pauls is making preparations to move his family to Lewiston to reside permanently. He purchased property there some time ago. On the 13th of the coming month he will conduct a sale at his farm near here to dispose of his chattels. Chris Freng also expects to move to Lewiston to reside this fall.

—S. S. Denning, Wm. Morgan and Henry Briggs, prominent Latah county politicians, were here Saturday from Moscow. Their visit was for the purpose of delivering addresses in the afternoon at the band boys' picnic held at Meyer's grove. Owing to the very poor attendance no addresses were made and they returned home early in the afternoon.

—Wednesday of this week Andrew Schmidt, while working around a hay baler, met with a serious accident. While standing on a bundle of hay in the jaws of the machine, the horses started. His feet were caught, both being very badly bruised, and one leg was broken. While his injuries are very painful it is not thought that any very serious results will follow.

—Dr. E. R. Lenman has on exhibition at Hans Bugge's office and First Bank a few samples of vegetables and apples which are hard to best. They were grown on his 20 acre tract of ground near town and prove conclusively that the soil is equal to any on earth. Samples of onions shown will measure fully five inches across and potatoes that will make a meal for a large family. Dr. Lenman took particular pains to prune his apple orchard and has been rewarded by a fine crop. On his small farm this year he says he will dispose of more than \$500 worth of produce.

—On Tuesday of next week a special car will leave from this place for the St. Louis exposition. The party will include the following residents of this section: Mr. and Mrs. F. K. Bressler and three children, Mr. and Mrs. Fred Follett, Mr. and Mrs. E. T. Platt, Herman Broemmeling and daughter and Mrs. W. E. Smith of Genesee, M. Schutte and sister of Colton, Barthel Weber, John Hehl, J. J. Schlee, Mr. and Mrs. J. A. Palmer, Mrs. Herman Stuber, Miss Nellie Reilly, Mrs. Schomaker and daughter and Antony Esser of Uniontown, and Mrs. C. C. Stuber, of Nez Perce. A few others will be in the party but we have been unable to learn their names. The car they travel in will go direct to St. Louis and it is needless to say they will have an enjoyable trip. At St. Louis the party will disband and the return will be made by some other different route.

**A GOOD WOMAN GONE.**

Grandma Hall's Life Work is Finished.

Mrs. James Hall, whose maiden name was Mary Johnson, died at her home in Uniontown, Wash., Sept. 20, 1904. She was born Oct. 26, 1825, in Yorkshire, England. At the time of her death was 78 years 11 months and 24 days old. Was married Nov. 23, 1844, to James Hall. The fruit of this union was four children—three boys and one girl. Two boys are still living, together with her aged husband and six grandsons and five granddaughters to mourn her loss.

They came from England to America in 1850, settling in Wisconsin, where they resided until the fall of 1872 when they came to Washington, where they have continued to make their home. Mrs. Hall was a truly good woman. To know her was to love her. She was an affectionate wife and kind and loving mother. As a neighbor she was respected and loved. She was charitable to all. The needy never passed her door, and God blessed her efforts as she had plenty and always some to spare. In sickness and death among her neighbors she was always ready and willing to give what help she could. "We shall meet but we shall miss her."

The funeral services took place at her home, conducted by Rev. J. T. Percival, Congregational minister of Spokane. The interment was in the Uniontown cemetery. The family have the sympathy of the entire community in the loss of an affectionate wife and kind and loving mother.

—Chas. Elmer, representing the Lewiston Daily Tribune, was a visitor in the city Saturday.

—Mrs. Hill, mother of Mrs. Hunter, left Friday for Pullman. Mr. Hunter accompanied her, returning the same day.

—Alfred Smith leaves today for Parkland, Wash., to again enter the University at that place. Miss Marie Olson will also attend the same school in the coming year and will leave for their in a few days.

—It is said that a considerable quantity of Russian thistle has been found growing in summer fallow ground near Colton. Samples of the weed will be placed on exhibition at Colton, Johnson, Uniontown and Pullman. From the amount found it is evident that it has been growing for several years.

—T. Driscoll transacted business at Oakesdale this week.

—Mrs. Martin Williams left Monday for a visit with Montana relatives and friends.

—Mr. and Mrs. Wm. Gardner, after a visit of several weeks at this place, returned to their home at Spokane, Monday.

—Mrs. Minnie Priest Dunton, of Boise, assistant vice-chairman of the republican state central committee, is expected to reach Genesee Monday of next week to organize a woman's republican club.

—W. A. Trimble, who arrived here a few days ago from Ft. Dodge, Iowa, Monday of this week purchased from Thos. H. Brewer 80 acres of land on the Potlatch, paying \$2,000 for the same. Mr. Trimble states that a number from his former home are planning on coming to Idaho to invest in farm lands.

—A large number of sidewalks are being put down in various parts of the city. We doubt whether there is a town of equal size on the coast that can boast of as many miles of good sidewalk as Genesee.

The Irish World, the recognized organ of the Irish-Americans, is supporting Roosevelt and Fairbanks. JUDGE PARKER is on record as stating that one term would satisfy him, but in view of the trend of public opinion, it now looks as though one nomination would abundantly satisfy his political ambitions.

CONGRESSMAN E. L. FRENCH delivered his first address of the campaign at Rexburg, Wednesday last week. Throughout southeastern Idaho he is being warmly received. His remarks are confined largely to national issues.

The democratic county central committee has filled the vacancies on their ticket which were caused by Mrs. Olive Rayburn and Marshall Conner resigning. For treasurer, Gaisford P. Mix, of Moscow, has been placed upon the ticket, and for probate judge, Geo. E. Kepper, of Moscow.

CHIEF JOSEPH, the aged leader of the Nez Perce Indians, died Wednesday last week at Nepilem, Wash. He had been failing rapidly for the past few months. His death was due to heart failure. Newspaper writers have made Joseph great, and since the Nez Perce Indian war they have filled pages telling of his achievements. There are those living in the Whitebird section and at other places who will shed no tears over the news of Joseph's death.

The price of bread has gone up in England, owing to the belief that there is a shortage in the world's wheat crop. England will be forced to take all the surplus food stuffs the United States can spare, and pay for it, too, in gold. This will bring additional prosperity to the agricultural regions of America, and will rapidly extinguish any deficit there may be in the treasury. For the Americans are liberal buyers in the foreign markets, and imports will increase hand in hand, with exports.

"We have known no party in dealing with offenders, and have hunted down without mercy every wrongdoer in the service of the nation whom it was possible by the utmost vigilance to detect; for the public interest who betrays his trust and the private individual who debauches him stand as the worst of criminals, because their crimes are crimes against the entire community, and not only against this generation but against the generations that are yet to be."—Roosevelt's Letter of Acceptance.

"The mass of the democratic party feel outraged at the way in which their leaders sold them to Wall Street. I do not believe that six and a half million men who followed Bryan, with cheers on their lips and warm convictions in their hearts, can now be delivered like cattle to the Clevelandites who knifed the ticket or bolted it in 1896. I believe that the great majority of the men who voted for Bryan are men of conviction; that I am fighting their battle now."—Thomas E. Watson's Speech Accepting Populist Nomination.

Why should there be a change in the national administration? What is the matter with Roosevelt? Has anything gone wrong? Has it been necessary to issue bonds to pay the running expenses of the government? Is there any money in the treasury? Has the soup house asserted its supremacy since the palmy days of Grover? Has Theodore Roosevelt betrayed any trust reposed in him, or has he manifested any symptoms of a democratic party stained by assurance to the American people that they are any more proficient in the twentieth century than they were in the nineteenth.

At the Nez Perce democratic convention held Friday last week at Lewiston, the following ticket was placed in nomination: For state senator—W. S. Rice of Boomer. For representatives—F. E. Fogg of Lewiston, J. S. Hogue of Gilbert, Eben Mousae of Lewiston, Daniel Green of Cavendish. For sheriff—George M. Henderson of Caldwell. For treasurer—W. B. Reese of Gilbert. County attorney—S. L. McFarland of Lewiston. Probate judge—J. F. Wall of Lewiston. Assessor—J. H. Wans of Spalding. School superintendent—Miss Bernice McCoy of Lewiston. Coroner—W. B. Cooper of Lewiston. Surveyor—D. C. Wrighter of Lewiston. Commissioners—First district, Wm. Bollinger, Lewiston; second district, J. P. Sorenson of Mohair; third district, Wm. Musterman of Leland.

A FIRE DEPARTMENT.

At a well attended meeting held Tuesday evening of this week steps were taken toward the organizing of a fire department for Genesee. It was decided to organize two hose teams to be known as No. 1 and No. 2, with a total membership of about twenty-four men. A temporary organization was effected by naming Fred E. Dicus as chief and Chas. Larrabee captain of company No. 1 and Wm. Chilton captain of No. 2. The following are classed as members of company No. 1: Chas. Larrabee, Leo Follett, J. C. Lockett, Herb Klapp, Ogdel S. Carey and George Bostet.

Of company No. 2: George McMahon, Wm. Chilton, Wm. Herman, George Howton, Calvin Howton, E. E. Oyles, D. C. Burr and E. W. Vanocut.

LEWIS AND CLARK DOLLARS. The first \$25.00 in gold souvenir dollars for the Lewis and Clark expedition has been received by the First National bank of Portland, from the government mint at Philadelphia. The coins are a trifle smaller than a dime. Each coin is inscribed on one side with the legend, "Lewis and Clark Expedition," while on the other side appear the words, "United States—One Dollar."

The installment just received is the first issuance of the \$250,000 gold coin appropriation allowed by the government in accordance with the terms of the Lewis and Clark expedition bill. Each coin will be sold for \$2 and to the purchaser of five an additional one will be presented. The expedition management is confident of a large sale of these unusual souvenirs.

REPUBLICAN COUNTY CAMPAIGN. The republican county campaign opened Monday of this week at West Cove, the speakers being O. A. Lende and M. E. Lewis, the republican candidate for state senator. These gentlemen will conduct meetings throughout the northern part of the county this week. During the remainder of the campaign W. E. Stillinger of Moscow and James McElroy of this place will assist in the meetings, the dates of which are as follows:

East Cove, October 10; Berry school house, October 11; Freeze, October 12; Burden, October 13; Upper Crain creek, October 14; Avon, October 15; Jansville, October 17; Bear creek, October 18; Taney, October 19; Buckhorn school house, October 20; Lindon, October 21; Driscoll Ridge, October 25; Cornwall, October 26; Blaine, October 27; Viola, October 28; Aspendale, October 29; Moscow, October 30; Princeton, November 1; Troy, November 3; Kendrick, November 4; Julietta, November 5; Genesee, November 7.

STATE AND OTHER ITEMS.

J. B. Lafferty and F. H. McConnel, state timber selectors, have returned to Boise, after spending nearly two months on the north fork of the Clearwater, in Shoshone county. They selected some 15,000 acres of good timber land, which the state may file on, after the plats from the surveyor general's office have been filed in the land office.

Asa Newell, who confessed to the Denver holdup, perpetrated several months ago, when Wm. Keuter, the Denver merchant, was robbed and shot, but not fatally, has been sentenced by Judge Steele to serve a term of thirty years in the state penitentiary. Newell is twenty years of age and has relatives residing near Orofino in the Nez Perce reservation country.

Much excitement has been occasioned at Shoshone by the discovery of what appears to be extensive beds of mesquite in the deposit was found by Joseph Montgomery and George Deluc, and said to be a mile long and a quarter of a mile in width. From trenches along the bed it is estimated that the deposit is from fifteen to fifty feet in thickness.—Weiser Signal.

Lawrence H. Gipson of Caldwell, a graduate of the University of Idaho, and who has been selected by the faculty of that school for one of the Cecil Rhodes scholarships at Oxford in England, is on his way to England to enter the famous English institution in October. Mr. Gipson sailed from Boston aboard the Cunard liner Ivernia on September 29, and is expected to reach England about October 10.

The past two or three seasons have not produced enough salmon in Puget Sound to justify the water employed in the packing industry. With the proposed winding up of the affairs of the Pacific Packing & Navigation company by the receiver, it is stated that the interests of the concern will aggregate about \$3,000,000. The capitalization was \$25,000,000, or about eight times the amount of the investment, indicating that there were other fish beside salmon caught in this the only real local experience with industrial combination methods.—West Coast Trade.

Indians from all over the northwest have been summoned to gather at North Lapwai, on the Nez Perce Indian reservation, in order to celebrate a feast and dance in memory of their late leader, Chief Joseph. At the same time a successor will be chosen to rule the tribe. Summons by mail and messengers have been sent to all the wandering bands, including Nez Perce, Lapwai, Blackfoot, Spokanes, Colvilles and other tribes. It is believed that 3000 Indians will be invited. The date of the affair will be fixed later by the sub-chief. A week will be devoted to feasting, dancing and balloting for a new chief.

Rufus Utt, the three-year-old son of R. W. Utt, was found dead Saturday morning about 8 o'clock by his mother, a few rods from the home, on Hatter creek, four miles east of Princeton, his life crushed out by a log which had rolled onto him. A log 12 feet long and 17 inches in diameter had been hauled to the yard, to be split into rails, and was left lying lengthwise on a slight incline. The little lad was out playing, and had evidently sat down on the log, which started to roll, pinning him to the ground and crushing his life out. The child had only been absent a few minutes when he was found cold in death, with the log lying across his body, the face pushed into the ground.—Palouse Republic.

FIGURES TELL THE STORY.

Statistics are generally dry, but those which deal with the material progress of the United States since the birth of the republican party possess interest for every American citizen. Since 1861, when Abraham Lincoln was first inaugurated, our population has increased from 31,000,000 to 79,000,000; our national wealth from about \$16,000,000,000 to nearly \$150,000,000,000. The deposits in our savings banks have increased from \$146,729,882 to \$2,935,20,845, and the number of depositors from about 787,000 to over 7,000,000. There has been an increase in our exports of 318 per cent. and in our imports of 143 per cent. and in 1860 there were 1,300,000 wage earners in the United States; in 1900 there were 5,316,000.

These figures tell convincingly the story of our development as a nation. With the exception of a few disastrous years of democratic rule, that development has all taken place under republican administrations, and the stimulating influence of republican policies.

Chamberlain's Cough Remedy. No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to children as to adults. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. ### A LETTER TO DUBOIS.

The following open letter to Senator Fred T. Dubois, who is now directing the destinies of the democratic party in Idaho and who has succeeded in shaping the democratic platform and ticket to suit his own ends, was handed the *Post-Register* Tribune for publication. It says: Hon. Fred T. Dubois, United States Senator of Idaho:

Dear Sir:—You are the son of that celebrated Doctor Jesse K. Dubois of Springfield, Illinois, the boom friend of the immortal Abraham Lincoln and one of the founders of the republican party. You were reared in an atmosphere of republicanism and of party loyalty. You came to Idaho, then a young territory, and received your first office, that of United States marshal, at the hands of a republican president, and through the influence of republicans.

A little later on you organized the old anti-Mormon party, which was effective in the southeast, and you were elected to congress—a republican in the north and an anti-Mormon in the south. This office you were twice honored with.

Still later on when statehood was acquired, you were honored by a republican legislature with the election to the United States senate, winning the six year term from George L. Shoup and W. J. McConnell.

Toward the end of your term you became a so-called silver republican, leading the boiling delegation from the St. Louis national convention and carrying two-thirds of the republican party of Idaho with you. I was a delegate to the Pocastello state convention which sent you and your associates to St. Louis, and I supported you because I believed your position on the money question to be a correct one. The present Senator Heyburn was the only man in that convention who had the courage to rise and plead that the republicans of Idaho remain loyal to the national party, and he was supported by a mere half dozen. He was jeered at and Senator Shoup, our national committeeman, was refused the empty honor of an election as delegate to St. Louis.

By this time, however, the populist party had become a formidable factor and one to be reckoned with. In fact, it was the dominant party of Idaho and a fusion with the democrats swept the state like an avalanche. You were defeated by election to the senate by Hon. Henry Heitfeldt after a long and acrimonious struggle. After several years you were again elected senator by a combination vote in the legislature and made a notable speech in the capital building before the joint assembly, in which you stated: "I am just as good a democrat as anybody." You have acted and voted with that party in the senate, but seeing inevitable defeat ahead, you have again trimmed your sails, fully intending, and with every chance of success, to disrupt the democratic party of Idaho, as you so successfully disrupted the republican party almost a decade ago. You have now fathered the so-called "American" party.

This makes about six political parties you have belonged to and have led in Idaho within the past twenty years, with strong tendencies toward others. Is not that a rather weighty political record for one man? Can you change your political belief as rapidly as a chameleon changes color? Have you any political beliefs at all? Isn't your anxiety to ride in on the crest of each popular wave only the morbid longing to hold political office, instead of pure patriotism and the "purity of the American home?" It is admitted that you are an astute politician, but you have over-shot the mark this time. There are few, indeed, who do not know that you entertain no idea of winning the present contest in Idaho for political supremacy. You fully realize that yours is a hopeless fight; so does Chairman Jackson; S. P. Donnelly; your candidate for governor, Mr. Heitfeldt, who seems to be a willing sacrifice; C. J. Bassett, and, in fact, all of those who have any inner knowledge of your intentions. But that is not the question with you and your immediate followers. Your intention is to create a formidable breach in the democracy and two years hence, when your successor in the United States senate is to be elected, alienate our republicans

from that party—men who had followed you before—and join with what is left of the democracy and make a supreme effort for a majority in the legislature which will assure your reelection.

Less than two years ago you were on an extremely friendly relations with the Mormon people and in reply to Senator Hale in your speech, delivered February 5, 1903, when he asked you: "That, as the years go by and as the older generation disappears, polygamy will be practically removed?" you replied: "There is no question about it; and I will say to the senator owing to the fierce contest in Idaho, I, with others who had made the fight, thought we were justified in making this promise to the Mormon people. We had no authority of law, but we took it upon ourselves to assure them that the elder men who were living in the polygamous relation, who had grown old in the practice of the same, and were rearing before the manifesto was issued, and at a time when they thought they had a right under the conditions to enter the polygamous relation—that those older men and women and their children should not be disturbed; that the polygamous man should be allowed to support his numerous wives and their children.

And again you are quoted in the congressional record as follows: "I say there is no polygamy, and no contented relation between the Mormon church and myself. It was a fierce fight for years, and in my feeble way I did all I could to suppress it, and this helped us to do it. It is fully and waste of time for me to continue to demonstrate here now that polygamy is a liveness. It is dead."

And one more, referring to your memorable speech in the United States senate: "I am not anxious for the amendment and do not want it, because it is not necessary. Polygamy is dead and cannot be made more dead. Now, my dear senator, since when this wonderful change of heart and for what purpose? There has now no state election in Idaho to indicate that conditions have changed since that time. Why have you deserted those whom, only a few months ago, you so gallantly championed? Your present attitude at all consistent? Either you were grievously in error then or you are now, because hardly possible that with all the thought given the matter by you for many years you should be led into the error of misstatement before the United States senate. So what are we to believe?"

Sincerely yours,  
EX-SILVER REPUBLICAN.

**REPUBLICAN SPEAKING.**  
Senator W. E. Heyburn will address the Genesee voters Tuesday evening, October 18. He began his tour of the northern part of the state Monday, addressing an audience at Bonner's Ferry. On Wednesday evening, November 2, Congressman Berlon French will deliver an address at this place. He closes his work in the southern part of the state Saturday of next week at Payette and Monday, Oct. 17, will begin his tour of the northern part of the state, starting at St. Maries. Broke Into His House. B. Le Inno of Cavendish, Vt., was robbed of his customary health by invasion of chronic constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he writes: "I am now guaranteed to cure, S. C. Deuss & Co.'s drug store. For eruptions, sores, pimples, kidney, and liver troubles, constipation, indigestion, use Hollister's Rocky Mountain Tea. Carries new life to every part of the body. Tea or tablet form. 35 cents. —Deuss & Co.

**Case of Lockjaw.**  
Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by a nail, or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most violent poison known. The germs may be destroyed and all danger removed by applying Chamberlain's Pain Balm freely as an antiseptic to the wound. It also soothes the injured tissue and prevents the usual treatment. Sold by Deuss & Co.

**Saves Two from Death.**  
"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had contracted an influenza, also used this wonderful medicine and she is perfectly well." Dr. King's New Discovery is a field-bred medicine, and is the only one of its kind. It is a sure cure for whooping cough and colds. 50c and \$1.00 for coughs and colds. Sold by Deuss & Co. Trial bottles free.

### THE DEMOCRATIC RALLY.

The democratic rally held Tuesday evening of this week at Elliot hall was well attended. Prior to the meeting a quantity of red fire was burned and the band played several selections.

The speakers of the evening were Senator Fred T. Dubois and William H. Stalker, the latter, who states that he is a republican in belief, was raised in the southern part of the state by Mormon parents, but as we are informed has been a resident of Oregon for many years. His claim of Boise as a place of residence is done for political effect.

S. S. Denning, of Moscow, whom it seems has had a "revelation" since the Lewiston convention, at that time being one of Mr. Dubois' strongest opponents, presided over the meeting. He made a brief address and stated that while at Lewiston Saturday of last week he noticed a great change of sentiment in favor of the anti-Mormon crusade, adding also that the Lewiston Tribune, the leading democratic paper of the north, had fallen into line. In the last statement Mr. Denning is certainly mistaken for following the Dubois line of Lewiston. The Tribune contains in the following editorial, which we believe voices the sentiment of a large portion of the democratic voters of Idaho. Senator Dubois' line of argument at his meeting at this place was practically the same as at his meeting in Lewiston, consequently the editorial is applicable:

Considering the dignity that has been lent to the anti-Mormon crusade in Idaho by its endorsement by the democratic State organization; by the expounding of that doctrine upon the hustings by a senator of the United States and by the nomination for governor of the greatest and most enduring political party that this Idaho has ever produced, it is not surprising that the question should not be fairly and fully discussed. It is to be understood that this statement is premised with the declaration, heretofore made, that such campaign is wholly disagreeable to the secretary to the Tribune and, in its opinion, renders the democratic party, in which he justly avows his frankness and sincerity in dealing with the public on public questions, a party that he will not support. If others follow in his example, if you please, also desire to be frank and sincere in their mutual interest, then of candor and sincerity, it seems to the Tribune that the party which has justly avowed the core of his controversy in this statement by him: "I myself, do not believe there ever was a Mormon plural marriage celebrated in Idaho, they do not celebrate the plural marriage in Idaho. If a young man, desiring to marry a plural wife, he takes his wife to Blackfoot, for instance, where they are married in the temple by a Mormon official and no record is kept of this marriage." If the inference conveyed in this statement is true, that there are such marriages, to any greater

A feature of the campaign in the state to which attention cannot be called too frequently is the matter of a railway to connect the northern and southern portions of the state.

The people generally appreciate the necessity for securing such a road. They know that both ends of the state have become too important to remain separated as now.

How the building of the road can be promoted none has assumed to say, for all realize that the problem is surrounded by many complications.

**THE DUBOIS CLACKERS.**  
To the Editor: Just to show the political character of the gentlemen who are now directing the destinies of the democratic party in Idaho, the following categorical statement of past party affiliations may prove of interest:

Senator Fred T. Dubois—Republican; anti-Mormon; silver republican; fusionist; democrat; "American."  
Charles E. Arney—Secretary to Senator Dubois and secretary of the democratic state central committee; republican; anti-Mormon; silver republican; fusionist, democrat, "American."

Si P. Donnelly, ex-chairman democratic central committee—Republican; silver republican; fusionist; democrat; "American."

C. J. Bassett, ex-secretary of state—ex-secretary republican state central committee; Mormon; Jack-Mormon; republican; anti-Mormon; silver republican; fusionist; democrat; "American."

F. M. Davis, ex-state insurance commissioner—Populist; "American."

C. Harvey Jackson, chairman democratic state central committee—Tammany democrat from New York City, and the only one in high democratic circles who is not a political renegade from some other party.

Fine showing, isn't it? One calculated to arouse unbounded enthusiasm among real democrats who still believe in the fundamental doctrines of their party as enunciated by great men like Jefferson, Jackson and Calhoun!

Let the truth be understood. This is a fight being made under guise of democracy by Dubois and his committee without a thought or reference to any tenet of the doctrines of the party, national or local. This fight is being waged (feebly to be sure) solely in the interests of one man who desires re-election to the United States senate and the scheme is so patent that a blind man might read it. It is simply the attempted revival of a religious question finally settled fourteen years ago and dead ever since then. Even Senator Dubois himself admitted this in the United States senate a little more than a year ago.

The real democratic party of Idaho never desired to resurrect this mouldering corpse of the past, but the delegates to the Lewiston convention, were, by some hypnotic means, called into making it the one issue of the campaign. It was a mistake that will split their party asunder and disorganize it for years. The real democrats, represented by such able newspapers as the Daily Capital News of Boise; the Daily Tribune of Lewiston; the Advance of Pocatello, and a score of others will not follow the lead of this mongrel aggregation but they will still maintain the semblance of an organization and will eventually elect the leadership of the party from those who have destroyed it. There will come a time when democrats and republicans of Idaho can fight it out squarely and honestly upon issues that are of vital importance to the state and nation. But not this year. This is to be a one-issue campaign, if Mr. Dubois and his followers can make it so.

### SENATOR HEYBURN'S SPEECH.

Despite the fact that a heavy rain was falling, a full-house greeted Senator W. B. Heyburn Tuesday evening at Elliot hall. The greater part of his remarks were devoted to national issues. He reviewed at some length the achievements of the republican party. He was particularly severe on the democratic party in his review of what that party had maintained as paramount issues since its organization. He drew a comparison between the presidential candidates, making a close review of their public acts.

The senator made clear his position on the Mormon question. He contends that Mormonism is not an issue in this campaign. In the past, when it was an issue, he called attention of the voters to the fact that the republican party was against the Mormons while the democratic party supported them. He claims that the present laws are ample to punish all those living in a polygamous state and that if Dubois and others were sincere in their utterances that they could easily prosecute under the present laws. He paid his respects to Dubois and Stalker in plain language and his remarks were heartily applauded.

On the whole the speech of Senator Heyburn was one of the strongest ever delivered to a Genesee audience.

—W. E. English is again able to be out.

—Mr. and Mrs. John Symlic are here from Nezperce.

—Judge Warren Tuit, republican county chairman, was here from Moscow Tuesday at the Heyburn speaking.

—Last Sunday the stores remained closed. By mutual agreement the practice will now be continued indefinitely.

—Some twenty-five applications have already been filed with the city clerk for permission to tap the city water mains.

—Mrs. J. B. Jackson left Wednesday morning for her old home at Darlington, Wis. Her father is very ill and her return will be governed by his condition.

—The work on the power transmission line is progressing rapidly. The company hopes to be able to meet the demands of Genesee for light and power in about a month.

—Word reached here this week from Seattle that the three-year old son of Mr. and Mrs. Edwin Landon had died in that city. The burial was to have taken place in Lewiston Monday.

—R. F. Dougherty, wife and three children, arrived here Thursday last week from Darlington, Wis., with the expectation of making this place their home. Mrs. Dougherty is a sister of J. B. Jackson.

—The News office is now graced with a fine regulator, supplied by O. Olson, our up-to-date jeweler. A half dozen of these handsome clocks have been received by Mr. Olson to be placed in as many business houses.

Those who wish board and rooms at reasonable rates will please call on Mrs. Sherry, at the Brennan place.

## HON. B. L. FRENCH

Representative in Congress, will address the voters of Genesee and vicinity, at Elliot hall, **Monday, Oct. 24** commencing at 7:30 p. m., from a republican standpoint.

Congressman French is one of the best political scholars of Idaho. All citizens of Genesee and community are especially requested to be present to enjoy an intellectual feast on political subjects. The Genesee Band will furnish music.

—Miss Luhn was here from Moscow over Sunday.

—Mr. and Mrs. J. A. Ball visited Pullman Saturday.

—A new Catholic church is being erected in Lewiston at a cost of \$6,400.

—Mrs. James Wright visited friends at Palouse the latter part of the week.

—Tom Day loaded a car of hogs Tuesday morning for Mr. Buckley of Pullman.

—Mr. and Mrs. H. A. Thatcher are among the fair visitors at Lewiston this week.

—If you move from one precinct to another between now and election, you will lose your vote.

—Chas. Swenson drove to Lewiston Tuesday after Mrs. Swenson who has been visiting there the past week.

—The drug store building formerly occupied by F. E. Dicus, will be remodeled and occupied by Mrs. Hattie Keller, as dress-making parlors.

—H. A. Thomas, who has been up from Asotin the past week or so, returned home Tuesday. Says that in the Asotin climate Mrs. Thomas has greatly improved in health. His mission here was to look after his farming interests.

—Geo. H. Brockbank, of Seattle, representing the Polk directory people, canvassed Genesee the latter part of the week. There will shortly be issued a directory to embrace Latah and Nez Perce counties. A directory of Genesee is to appear.

—Chas. Komenda has disposed of his residence property near the Genesee mills to C. R. Meyer for \$1300. The property consists of four lots and residence. Mr. Komenda will remove to Uniontown with his family where he has purchased a blacksmith shop.

—James Mulalley came in Sunday from Troy for a very brief stay. He is with a number of republican speakers and during the past week spoke at a number of places in the northern part of the county. Says that the northern part of Latah county will give a handsome majority for the republican ticket.

—Friday evening of last week the John Rodgers family, now living on the Chas. Bowman farm which they recently purchased, were treated to a genuine surprise by their neighbors and a few young folks from town. Instrumental music, games and social intercourse made up a pleasant evening. Those present were the T. E. Miller and J. A. Nisbet families, Messrs. Fred and Frank Brazier, Chas. Hanson and Mr. Evans.

—Sunday of this week, F. C. Margardsen received the six pair of Chinese pheasants from Woodbury, Ore., mention of which was made in our last issue. The birds are all young ones and are fine specimens. Tuesday they were taken to one of the canyons east of town and liberated. By being properly protected by the residents of that section it is believed that they will stand the climate and multiply rapidly. By the state game law they are protected until 1907.

—Recently a family of colored people, said to be industrious and respectable were driven out of the town of Mountain Home in the southern part of the state by a crowd of masked men numbering about 25. The principal objection the residents of the place had against the colored people was that they were sending their children to the public schools. Some of the colored people of Boise have, it is said, started a movement to bring civil action against those who compelled the colored family to leave town. The matter, it is said, will be referred to President Roosevelt and Governor Morrison.

—Have you registered? —Read the new ads. of The Fair and the Genesee Wood Yard.

—S. N. Tiedeman returned home Sunday from a trip to North Dakota. He reports a very poor crop in the section that he visited.

—The inventor of the typesetting machine died the other day in a charity hospital. His death reminds us once more that the majority of the men who have, through their inventions, revolutionized or helped to revolutionize industry, have died poor. Few men whose genius in the arts or in the industrial world illuminates the ages are gifted with that hard, cold, practical common sense which leads on to a fortune and keeps one.—Tacoma News.

—G. W. Ford, manager of the Pullman Auditorium, was a visitor in the city Monday. Mr. Ford's mission here was to arrange, if possible, a theatre party to witness the performance of Ralph Stuart in "By Right of Sword," which takes place in Pullman Saturday evening. He was successful in interesting a large number and a special train has already been ordered to carry the crowd. A number will also go from Uniontown and Colton. Mr. Ford made arrangements for the Genesee band to accompany the party to discourage sweet strains. It is expected that the train will leave here at about 6:30, and will arrive in Pullman at about 8:00. Those who desire to join the party may see Mr. Bugge in regard to seats. "By Right of Sword" is the dramatization of Arthur W. Marchmont's novel and is favorably spoken of. Concerning it the Oregonian recently said: "By Right of Sword," as a play, is the kind people like. It is an unusual combination of melodrama, light comedy and romanticism. No one can complain that it lacks action. There are many moments in it as strenuous as a horse race, and many more as tense as that which comes in a tied ball game with the bases full and two men out. There are a lot of brightly humorous lines, and the love-making is fine and possible and free from gush. The play ran a long time in New York, it has done remarkably well in the provinces, and it suits Portland. Mr. Marchmont tells us he and Mr. Stuart are considering an offer to take it to the British Isles next year. It ought to go there. It ought to go anywhere where people eat beef and wear uniforms."

—The Jackson and Christie residences are receiving attention at the hands of the painters.

—The auction sales held last week by Peter Pauls and Ole Miller were well attended and goods sold brought fair prices.

—The Genesee band orchestra will conduct a dance at Troy Thursday night of next week, and one at Julietta on Friday night. The orchestra is made up of five pieces and they put up a good article of music.

—Carpets to order. New samples now in.

—The University of Idaho recently issued a bulletin on "Trap Rocks of Palouse Region as Road Material." If interested send for a free copy.

—Mrs. J. C. Hanson, Messrs. George Mochel and Louis Jain, at Nampa this week in attendance at grand lodge session of the Rebekah and Odd Fellows lodges.

—Word comes from St. Louis from the Idaho representatives at the fair that the state so far has been awarded seven medals in the educational exhibit and twenty-eight in agriculture. The mining display awards have not yet been announced.

—W. S. Robbins, the republican nominee for sheriff, was circulating among the voters here the first of the week. For some years Mr. Robbins was chief of police of the city of Moscow and in that capacity made an excellent sheriff and will in probability be elected by a good majority.

—On the Sundell ranch, near Troy, last week, a large bear was captured in a trap. The top of a tree was bent to the ground and fastened, the trap being fastened to the tree. After being caught the bear succeeded in getting away with the trap and a large portion of the tree; but in his attempt to pull the tree through a barbed wire fence met his finish.

—The room formerly occupied by the Exchange bank has been remodeled and will be occupied by the post office within a few days. The change will be greatly appreciated by patrons of the office. In the new quarters there will be ample room for the carrying on of the business of the office. In ten days O. Olson will occupy with his jewelry stock the room to be vacated by the post office, which will make him improved quarters.

—High prices for the American wheat crop of the present year are the logical result of a short crop in this country and in Europe; these important sources of supply producing from 200,000,000 to 300,000,000 bushels below the normal. It is not impossible, of course, that the effects of the lessened harvest may have been over-estimated for speculative purposes, and that when the southern hemisphere comes forward with a promising yield prices may suffer some in consequence, though in this result is not a foregone conclusion by any means. The point we wish to make is that the claims of the American Society of Equity that its influence in the matter, through counselling the farmers to hold their wheat until the \$1.20 mark had been reached at Chicago, has been a most potent factor, is an amusing assumption. It is a very easy matter to propound "hold-your-wheat" arguments. There were many adepts at it before the American Society of Equity took up the cause of the farmer. When the cereal is bringing high prices there appear to be more adherents to the belief that the roof is the limit than at other times, and quite often more money is made by holding than by letting go soon after harvest, but it is very doubtful if any concerted movement of the kind of itself ever helped the grower to secure better figures, unless he sold out while holders were attempting to bull the market to the desired figure. To the Washington farmers, who piled up several crops of dollar wheat and finally sold it at from thirty to fifty cents a bushel, the plan of this society of equity does not look good, and a majority are comforting themselves with the seventy to eighty cents in the pocket rather than take chances on the possible dollar a bushel next May or June.—West Coast Trade.

ORDINANCE NO. 82.

An ordinance prescribing the manner of making application for water, fixing the rate for tapping the mains, fixing the rate to be charged for water, and adopting rules and regulations governing the use of water in the City of Genesee, Idaho.

Sec. 1. Every owner on whose premises water is taken, must make application to the city clerk, who shall be superintendent of water rents and water permits, to tap the mains, and at the same time deposit a fee of \$9.00 for tapping, which amount is to be credited to him on his water bill.

Sec. 2. Regulations: Every owner on whose premises water is taken, and every applicant or consumer of water furnished or to be furnished by the City of Genesee, is subject to the following conditions, rates and regulations and to such other as the City of Genesee may from time to time adopt and no person except a regularly authorized plumber will be allowed to do the city plumbing work.

1. Application for the introduction of water into any premises shall be in the hands of the applicant, and the applicant must state fully and truly all purposes for which it is required.

2. The stop cocks at the main side walk, together with the box and cover, are the property of the city, and all persons are prohibited to tamper with them, under a penalty of \$10 and the water shut off from such person or persons.

3. All water rent must be paid monthly in advance, at the office of the City Treasurer or his deputies provided, no deduction will be made on water rents on account of service pipes being frozen, or derangement of pipes or machinery, or for cuts off water for repairs or extensions.

4. The city reserves the right at any time to cut off the water in the main without notice.

5. No water will be furnished any consumer for water closet, urinal, water trough or sprinkling hose only, unless the regular rate is paid in advance, and no deduction will be made on water rents on account of service pipes being frozen, or derangement of pipes or machinery, or for cuts off water for repairs or extensions.

6. When two or more tenants are in the same building, the water rent will be charged to one person only, which may be renter or owner, who must pay the full rate, and the renter shall be held liable for that part of the water rent which does not use water.

7. Parties renting whole premises for manufacturing, will be required to pay the water rents for the whole premises.

8. No person shall be allowed to use for any purpose other than that stated in the agreement of the water rent, water supplied by the city, or to supply water to any other person or families.

9. The city reserves the right to apply a meter to any service pipe, at the expense of the customer or consumer, and to be located as the superintendent may direct.

10. No alteration or extension shall be made in any water pipe, except as directed by the city engineer, and no intended change to the superintendent of water works and obtaining a permit therefor.

11. No water will be turned on any premises until the work is inspected and found satisfactory and no extension to all these rules.

12. The inspector or other properly authorized officer, shall be admitted at all reasonable hours to all parts of any premises supplied with city water, and the owner or renter, and consumers shall answer frankly and truthfully all questions concerning the use of water, and the inspector may seal them.

13. It is expressly understood and agreed that the City of Genesee, shall not be held liable under any circumstances for a deficiency or failure of water, whether by shutting off of the water to maintain pressure, or for any other cause whatsoever.

14. All service pipes must be laid at least six feet deep except by consent of the superintendent.

### THE GENESEE NEWS.

ENTERED AT THE POST OFFICE AT GENESEE AS SECOND CLASS MAIL MATTER.  
CHAS. POWELL, PUBLISHER.

Subscription price, strictly in advance, \$1.50.

—Attorney Bugge transacted legal business at Moscow the fore part of the week.

—Mrs. Will McMahon left Tuesday morning for Troy on a visit with the Caldwell family.

—Mrs. Hill and son, Oscar, were visitors at the Hunter home the first of the week from Pullman.

—The fine weather of the past week or ten days has been put to good use by the farmers, a large amount of plowing and seeding being done.

—The fair which closed at Lewiston Saturday was a great financial success. Fine weather favored the management. Genesee was well represented throughout the week and many expressed themselves as being well pleased with the entertainment.

—The Moscow Evening Journal is the latest exchange at the News office. The new daily is a six-column folio in size and the initial numbers show fair support. The publishers are experienced newspaper men and should succeed in building up a good business.

—At a meeting of the city council held Monday evening, new sidewalks were ordered constructed fronting on the Morgan, Dickson and Brewer residence lots in the northern part of town. During the past few weeks fully a mile of new walk has been put down in different parts of town.

—Miss Nellie Payne, daughter of W. E. Payne, of Rimrock, had her ankle broken yesterday while descending the grade to the Clearwater river. The buggy was overturned and Miss Payne received severe bruises. She was removed to St. Joseph's hospital for treatment.—Lewiston Tribune.

—It is reported that "The Idaho Home-Savers" had a meeting at the Hotel Spokane last Sunday. The members present are said to have been Senator Dubois, St. Donnelly, Ramsey, Walker and one or two others. The mothers of Idaho may now banish all sorrow and care. Their homes are safe.—Moscow Star.

—It may not be generally known but Genesee entertained a vice presidential candidate last week in the person of T. H. Tibbles, of Lincoln, Neb., who is candidate on the populist ticket. He had expected to deliver an address here but through some misunderstanding no previous arrangements had been made and he journeyed on to Moscow. At that place, with other prominent populists, he delivered an address. In interviews Mr. Tibbles says: "Our party is not making any effort to elect officers this year, with one exception, Nevada. We will poll more votes than ever before. The highest populist vote was one million and a quarter for Weaver, and I feel sure the results this year will be over two millions."

—One of the most significant features of the American administration of Philippine affairs is the unanimous praise received from churchmen of all denominations, men prone to disagree on many subjects, but a unit in their commendation of the McKinley and Roosevelt administration of the Philippines. Rt. Rev. J. J. Harty, the Roman Catholic bishop of Manila has declared that he hopes Roosevelt will be elected because of his eminent fairness in dealing with the Philippines and has made the prophecy that "Under divine guidance the beneficent rule of America is destined ultimately to place the christian Malay race on a moral and political plane that as yet has never been attained by an oriental people." Rt. Rev. Charles H. Brent, Protestant Episcopal bishop of the Philippines, has said, "Today the one force that makes for peace and unity (in the Philippines) is the American hand. Those of us who are convinced that we are pursuing the one course honorable to ourselves and just to the Filipino are not unmindful of our national heritage of principles of liberty." Dr. Warren, the Methodist bishop of Colorado recently said on this subject, "We should, not only for the benefit of the Filipinos and not only for the benefit of the American, but for the benefit of all Christian nations, for the benefit of mankind, regard it as of the utmost importance that the work begun in the Philippines should go on. The flag should continue to float over the Philippines as guaranteed by the United States."

—Carpets, Linoliums and Rugs, at HERMAN'S.

### CHURCH NOTICES.

Sunday school will be held in Pine Grove school house next Sunday at 2 p. m. and preaching at 3 p. m.

The ladies of the Congregational church will give dinner and supper on election day in Mr. Heiman's new building.

Next Sabbath morning there will be a rally service at the Congregational church. Every member of the church is urged to be present.

—Sheriff Keane was a visitor from Moscow Saturday.

—Regular Idaho weather—cool nights and bright days.

—Tom Day loaded a car of hogs for shipment the first of the week.

—Mrs. R. Pickering returned home Saturday after a visit of several weeks at Spokane.

—John Larabee went to Pullman Saturday to meet and purchase goods from a traveling salesman.

—Mrs. George Bozett and children returned home Saturday from a visit of several weeks with eastern relatives. Mr. Bozett went up to Spokane Friday to meet them.

—Owing to a change in dates Congressman B. L. French did not reach Genesee Monday to fill his appointment on that evening. Early in the campaign November 2 was assigned to him as a speaking date at this place, later it was changed to Monday of this week, but he is again scheduled to speak here on November 2, which is Wednesday of next week.

—You can vote a ticket straight by placing an x in a large circle below the name of the party you wish to vote for. You can scratch your ticket by placing an x in the small circle to the right of the name and erase the name you do not wish to vote for. Should you place an x at the head of the ticket, you will vote for every man on that ticket. Should you place an x at the head of one ticket and desire to vote for one or more on another you place an x in the circle after the name for which you wish to vote and draw a line through the name for which you do not wish to vote. Should you not put an x at the head of the ticket, you must put an x in the circle at the right or after the name of every person for whom you wish to vote. And without the x at the head of the ticket your vote will not count for any person thereon unless you place an x in the circle after his name.

Those who wish board and rooms at reasonable rates will please call on Mrs. Sherry, at the Brennan place.

HANS BUGGE.

FRIDAY, OCTOBER 28, 1904.

—Have you registered? —Mrs. Wheaton returned to Genesee Saturday from Moscow.

—S. W. Lawson was a visitor in this city Tuesday from Uniontown.

—Mrs. Hobson and sister, Mrs. Bolivar, came over Sunday from Moscow.

—Mrs. E. J. Profit came down from Coeur d'Alene the latter part of last week for an extended visit with parents and friends.

—James Mullaley spent Sunday at home. We are told that Mr. Mullaley is one of the best campaigners in the county and is a very entertaining speaker.

—During the past two weeks Fred Nagel has shipped to the coast market six cars of hogs and one of cattle, three cars of the number being sent out yesterday.

—Theo. Lorang, Jr., was a visitor here the first of the week. As soon as a building can be secured in Kendrick he will again open his cigar factory at that place.

—The band boys will give a big dance on the night of election, Tuesday, Nov. 8, at Elliot hall. A prize of \$5 will be given to the most proficient couple at dancing a two step.

—Mrs. J. Rosenstein and daughters Julia and Erma, left Tuesday morning for Portland expecting to remain throughout the winter. Mr. Rosenstein accompanied them as far as Pullman.

—The post office is now located in the new quarters made vacant by the removal of the Exchange bank. A large lobby is now provided for the patrons of the place and ample room is retained for the working force of the office. A large number of new boxes have been put in place and the office in all respects is a big improvement over anything the town has ever had.

—Among the deeds filed for record this week are the following: Ingvald Smith to Lauritz Smith, \$1,000, sw 1/4 10, 38, 5w; Norman Buck to C. E. Wood, \$150, 6 lots in block 18; D. S. Sampson and wife to N. Blanchard, \$20, lot 9, block 6, North addition; N. Blanchard and wife to Hans Fos, \$20, lots 9, 10, 11, block 5, North addition; F. K. Robinson to Jno. P. Vollmer, \$1,000, 2 1/2, nw 1/4, 15, 37, 4w.

—Representative French is meeting with wavitations wherever he appears. His meetings reflect the spirit of the people and foreshadow a very large majority for him. He would be elected if he should go home and sit still until election day, but as a result of his meetings his majority will be swelled by very large figures, while the majorities for the rest of the ticket will also be increased through his efforts.—Boise Statesman.

—The Oregonian has made a complete canvass of the state of Washington by counties to determine as nearly as possible the course of the state and national elections November 8. Its purpose was to learn from impartial sources the most authoritative opinion as to results for both governor and president. To that end it forwarded letters to leading citizens in all of the 36 counties, and to its correspondents as well, asking for a conservative judgment as to the outcome. As a result of the canvass the state is claimed for Roosevelt by 34,275, not one county in the state being conceded to Parker. By the canvass a plurality of 480 is claimed for Mead, the republican candidate for governor.

—The excursion last Saturday evening to Pullman from this place to witness the "By Right of Sword" performance by Ralph Stuart and company, was a great success. The delegation from Genesee numbered about eighty and other towns along the line swelled the total number to fully two hundred. The Genesee band accompanied and furnished music for the occasion. Those who made up the party were more than pleased with the performance by Mr. Stuart and company which was in every way satisfactory. Not a word of complaint was heard from the large delegation of visitors, but on the contrary all were generous in their praises. It is the intention of Mr. Ford, the manager of the Pullman auditorium, to repeat these excursions throughout the winter whenever extraordinary attractions are secured at Pullman.

### POLITICAL MEETINGS.

The following political meetings have been arranged for Genesee: Saturday, Oct. 29, Hon. W. E. Borah, at Boise.

Wednesday, Nov. 2, Congressman B. L. French.

Thursday, Nov. 3, Hon. Henry Heitfeld.

Saturday, November 5, democratic county candidates and Mrs. Anna McKean White.

Monday, November 7, the republican county candidates.

**FIREMEN'S BALL.**

On Friday night of next week, November 4, at Elliot hall, the local organization of firemen will give their initial ball. They propose making it an occasion long to be remembered. The hall will be tastefully decorated with their paraphernalia, bunting and evergreens. Refreshments will be served. The full "Rainbow" orchestra will furnish music. The full membership of the department will act as a committee on reception and a way up time is assured to all.

—Mrs. Chas. Stuart returned to Genesee Wednesday from Seattle.

—James Hanson is taking extra good care of one of his hands of late. By the running of a siver in one of his fingers he has had to battle against blood poisoning.

—Miss Cora Platt, who has been a visitor at this place for several months, left Saturday for her home in Payette. She was accompanied by Ernest Marquandson who will remain at Payette indefinitely. Of late she has been afflicted with inflammatory rheumatism and it is hoped that a drier climate will benefit him.

—William M. Thompson left Tuesday for Moscow. He had business before the county commissioners but before his return expects to canvass a portion of the county in his interests as a democratic candidate for representative. While he does not feel able to "rough it" in long drives, he expects to devote the greater part of his time to his candidacy from now until after election.

—Ed. Peterson has been here the past week from Bellingham looking after his interests. He appeared before the board of county commissioners the first of the week to protest against a public road being made through his farm. He had previously given consent to allow the road to pass within a given distance from his buildings, but now contends that where the survey has been made great damage would be done him. We have been unable to learn what action has been taken in the matter by the board. Mr. Peterson says that his brother Gus, has taken up a residence in Bellingham and engaged in business.

—The Northwestern Miller, under date of October 5, has made an exhaustive review of the wheat crop of the three Northwestern states, and inasmuch as its estimates come nearer to the figures given out by the government than any other trade report, its figures are given herewith. While the government places the average yield in the three states at 11.3 bushels per acre, the Miller figures on 11.1 bushels, says "Frisco Commercial News. On the basis of the crop, 173,976,200 bushels while the government estimate is about 3,000,000 more. In the report of the Miller it is stated that allowance should be made for much of the macaroni crop, as in most reports received that variety was not included. It adds that it would be a liberal allowance to charge the macaroni yield off against the abandoned acreage in the rust affected districts. Of the total yield it is estimated that there will be approximately 164,000,000 bushels of milling wheat. The average yield per acre is only a trifle under the 1903 average and as the 1904 acreage exceeds that of 1903 materially the total yield of the three states is well up to the average volume of recent years. The average weight of the measured bushel is figured from two to three pounds lighter this year than last. Of the total yield Minnesota is credited with 72,989,200 bushels; North Dakota, 63,950,000, and South Dakota, 37,038,000.

**Milinery at 25 Per Cent Off.**

From this date with every dollar's worth of goods purchased at our store we will give a 25 per cent reduction. This reduction applies on all trimmed and street hats, velvets, ribbons, feathers and bird plumage.

—Mr. and Mrs. Andrew Hasfurther are the proud parents of a daughter, born the latter part of last week.

—Monday night, Oct. 31, will be hallowe'en. It might be well to take your signs in for the night and turn the dog loose in the back yard.

—Congressman French will positively address the Genesee voters, Wednesday evening of next week at Elliot hall. All voters should attend.

—Henry Bangs, S. S. Denning, P. T. Dunlap and Geo. E. Knepper, democratic county candidates, were circulating among the Genesee voters yesterday.

—John Platt, for the past 45 years an acquaintance of Jacob Blume of this place, visited here several days this week while enroute to his home at Plum City, Wis., from a business trip to Greer.

—Miss Rose Glen Webster, of Indiana, is coming to Idaho to tell the women of the state how to vote. She represents the Baptist organization and is said to be one of the best speakers of her sex now before the public.

—There are already about thirty-five customers to the city water system and it is expected that the number will be increased to fifty before winter. Those who have already begun the use of the water find the same to be soft and without any objectionable taste. The pressure is all that could be wished for even at the highest elevations.

—Tuesday of this week, at the Catholic church in this city, Rev. Fr. Keyzer officiating, occurred the marriage of Mr. Frank J. Scharbach and Miss Kate Broemmeling, two well known young people of this community. Miss Anna Broemmeling, sister of the bride, acted as bridesmaid, and Mr. Joe Scharbach, brother of the groom acted as best man. Following the ceremony which was largely attended a wedding dinner was served at the home of the bride's parents, Mr. and Mrs. John Broemmeling, northeast of town. The newly married were the recipients of many beautiful and costly presents. In the evening Elliot hall was taken possession of and a big free dance was indulged in to a late hour in the morning. The newly married will at once take up a residence on the John Broemmeling farm north of town. Many friends wish them a happy and prosperous future.

—A Moscow dispatch of Tuesday says: "Suit was filed in the district court yesterday against E. H. Schriber, president of the Schriber Implement company of this place, by the Marshall-Wells Hardware company, a corporation, for \$2711.47. The filing of this action created much surprise here, as it has been generally understood that Mr. Schriber and the Schriber Implement company were among some of the solid business institutions of the country. The company also has a branch house at Genesee. It is claimed by some that the suit is the outcome of a disagreement and that the company is not embarrassed financially. This may be correct, as no attachment proceedings have been issued."

—Frank Snelling left yesterday for a visit with eastern relatives and at the St. Louis fair.

—72 cents is being paid for wheat on the local market, 82 1/2 cents for barley and \$1.02 for oats.

—Read the new ads of The Fair, J. K. Bell, Genesee Exchange Bank and Kalamazoo Corset Co.

—W. E. English has again been quite ill the past week. He is now reported as being much improved.

—Among the recent arrivals are a girl at Fred Scharnhorst's, born the 15th and a boy at Jens Lande's born the 17th.

—Le Rue Tice has entered the market for the purchase of apples and will begin the packing of a car for eastern shipment within a few days.

—It is claimed that the vote of Nez Perce county will be increased this year by more than 2,000, or a total of about 7,200. Lewiston city will cast about 2,200.

—We are reliably informed that the electric line will be completed to Genesee from Lewiston by November 15. The company expects to be ready to supply power and lights by December.

—Mrs. Owen, mother of W. C. Owen, came down from Spokane Sunday to assist in caring for her little granddaughter who for the past week has been so seriously ill. Yesterday she was reported somewhat improved, but is still far from being out of danger.

—Voters of this vicinity will have an opportunity tomorrow evening of hearing Hon. W. E. Borah deliver a political address at Elliot hall. Mr. Borah is one of the foremost speakers of the northwest and in the present campaign is speaking to crowded houses. All voters should hear him.

—A Moscow dispatch of Tuesday says: "Suit was filed in the district court yesterday against E. H. Schriber, president of the Schriber Implement company of this place, by the Marshall-Wells Hardware company, a corporation, for \$2711.47. This may be correct, as no attachment proceedings have been issued."

—John Pauls and Miss Emma Tweed have enrolled as students at the Lewiston normal.

—A. B. Wallace, who for some time has been assisting the C. E. Wood Co., left the first of the week for Moscow to take a position with the N. P. depot force.

—Mrs. Hans Bugge entertained a number of friends Thursday evening of last week in honor of Miss Cora Platt. Duplicate whist furnished amusement.

—Clara Fowler and Edith W. Williamson entertained a number of their high school friends at the home of the former Friday of last week. Refreshments were served.

PARTY EMBLEMS.

Secretary of State W. H. Gibson has received all the party emblems that will be placed on the party tickets. As to what they represent, Deputy Hiatt said the republican emblem is an eagle with outstretched wings in the attitude of swooping down after poultry. The democratic emblem is a rooster with head erect in a defiant attitude. The socialist emblem is a globe, showing the western hemisphere, with hands clasped around it. The prohibitionists and populists filed no emblem, but Mr. Hiatt said he thought he would represent the prohibitionists with the figure of a crow and the populists with a vigorous cut of a Nebraska cyclone.—Capital News.

ROOSEVELT BLACKLISTED. In that part of "Everybody's Magazine" for November in which Lawson answers his critics appears the following paragraph: "Theodore Roosevelt, while president of the United States, refused to allow 'Standard Oil' to run him, and 'Standard Oil' got hotter and hotter; but, not daring to rage openly how they did spit fire 'on the quiet.' If I have listened once, I have twenty times, while Mr. Rogers saved at that—well, I won't use his exact language—it wouldn't be respectful to our president. At last, as in all such cases, there came an absolutely-not-to-be-borne tramping on 'Standard Oil' dignity, and Theodore Roosevelt was on the 'Sycams' blacklist until eternity."

LIGHTNING ROD SHARKS. Colfax, Wash., Oct. 30.—Reports of a swindle by lightning rod agents have been received here, and farmers are anxious that a warning be sounded. It is alleged an agent for lightning rods visits the farmer who has a nice house and barn and endeavors to secure the privilege of putting up lightning rods on his buildings, "merely as an advertisement." The agent measures the building and announces that it will require a certain number of feet of lightning rod to cover them. He then agrees to put this up free of charge, with the exception of five feet, for which the farmer is to pay at the rate of 75 cents per foot. The obliging agent also agrees that this amount will be taken in horse feed and board of the men who put up the lightning rods. As an evidence of good faith he secures the farmers signature to a contract in which all of this is set forth. The farmer signs the contract, which on investigation, proves to be so worded that he is clearly held for the whole amount of work involved. It is said a prominent farmer near here was "hooded" of \$200 by this swindle, and that he gave his check for the amount, but has tried to stop payment on the check. Local banks will not give the name of the farmer, but state that the story is true and ask that the Spokesman-Review publish a warning to farmers to sign no such contracts.

THE following is from the Nampa Leader, by one of the women of Idaho and her statements on the subject may be taken as an index of the feeling of other women of the state on the subject. The Leader says: "Mrs. W. R. White, representing the international council of women, on which Helen Gould is vice president, had come to Idaho to go to work for the Dubois-Fletcher home purifiers. It is difficult for the average person to see just where the Idaho home needs purifying, it is a very glaring fact that Idaho politics needs cleaning, and if Mrs. White will direct her efforts toward urging the women to vote unanimously to turn down a lot of political renegades who are at the head of the Dubois-American party, she will be doing a great work, otherwise she had better have remained at home. When eastern women come out here to talk about national issues they will demand attention and do some good work for their cause. When they come to mix up in local matters, they are talking about something they do not know anything about, and on which Idaho women are posted.

LATAH COUNTY REPUBLICAN TICKET.

Following is a brief resume of the nominees on the republican county ticket. A stronger ticket has never been named in Latah county and it is one that all republicans can vote for from start to finish. SENATOR.

M. E. Lewis, who heads the ticket for the office of state senator, is a resident of Moscow and one of the best and most successful farmers of the county. He is the owner of about eight hundred acres of farm land and a considerable amount of city property. Being thoroughly identified with the business interests of the county he is naturally greatly concerned in its future welfare. He is a man of exceptional ability and in the state senate would prove one of the most valuable members ever sent to Boise from north Idaho. Mr. Lewis is a man of family and a man of good morals. Any legislation calculated to "protect the homes" will be heartily supported by him.

For representatives the republican convention honored three excellent men with places on the ticket. They are James A. Nelson, of Bear Ridge, James J. Mullaley, of Genesee, and S. M. Smith, of Cora. Mr. Nelson was one of the representatives from Latah in the last legislature and voted right on all matters concerning the welfare of the taxpayers. He merited a re-nomination. S. M. Smith has been a resident of the county for nearly thirty years and is thoroughly acquainted with its needs in matters of legislation. As a farmer Mr. Smith has been a success and owns a large body of land in the northern part of the county. One of the best things that can be said in favor of Mr. Smith is that neighbors of all political beliefs, openly state that they will support him at the polls. Mr. Mullaley needs no praise at our hands in this part of Latah county. Since boyhood he has been a resident of this community, except those years he has been absent to acquire an education. He is a young man of excellent character, a hunter, and would prove a valuable representative. We predict that Mr. Mullaley will be elected by a flattering majority.

TREASURER. The nominee for this office is the present incumbent, Miss Pauline Moerder. During the past two years Miss Moerder has proven herself in every way qualified to fill this important office. She is at all times at her post of duty, painstaking and obliging. COUNTY ATTORNEY.

Little need be said for Wm. E. Stillingger. He has been successful to exceed himself and without a doubt will do so. During the past two years Mr. Stillingger has prosecuted to conviction a very large per cent. of all cases brought before him and in so doing has at all times represented the best interests of the taxpayers. He has proven himself in every way qualified for the position and is entitled to the vote of every republican in Latah county.

CLERK. The nominee for this office is the present incumbent, Miss Pauline Moerder. During the past two years Miss Moerder has proven herself in every way qualified to fill this important office. She is at all times at her post of duty, painstaking and obliging.

COMMISSIONERS. In closing a lengthy writup of the republican nominees, the Moscow Mirror has the following to say: "We have left this to the last. Not because they are least in importance, but for the reason that the present commissioners are first and foremost in their importance to the county. We wish to present their claims last that it may longest remain on your minds. The republican nominees are all men of business ability, business training and experience as well as of character and standing in their respective communities. Two of the three, Messrs. Pickering and Anderson, are re-nominees. This is done because of splendid service the past two years and for the further reason that their experience is valuable to the county. Mr. Edward Lamb, of Troy, is the third nominee. As a member of the school board, of Troy, he displayed peculiar fitness for public business. This district was in debt, but when his term had expired this indebtedness was liquidated and a comfortable balance in the treasury. In every position held Mr. Lamb has shown business tact, prudence, foresight and uprightiness. He will make a most excellent commissioner. Vote for Pickering, Anderson and Lamb."

WHERE ARE THEY. Where is Frank W. Hunt, twice nominee of the democrats of this state, and once triumphantly elected governor? Why is he not participating in advising the people to support the ticket? Where is Frank Steensenberg, twice elected governor on the democratic ticket, once by a majority that has never been surpassed and never has been equalled? Do the women of this state believe that this man who did so much for the establishment of law and order in the state and for good government is lying idle by when the homes of the state are in danger of an invasion of polygamists? Do they think that he would remain quiet if there were any such danger? Where is he? His voice is not heard proclaiming the dangers that are said to exist. Why is it? Where is Hon. J. H.

ASSASSIN.

R. B. Vaughn, sometime for assessor and tax collector is an experienced man in this line of work. In the assessing of all property Mr. Vaughn may be expected to give a square deal—whether it is the holdings of a poor man or a corporation. SUPERINTENDENT OF SCHOOLS.

During the past two years the schools of Latah county have been under the supervision of Miss Clara Eastman whose public relations have honored with a re-nomination. She has proven herself in every way competent for this important office and will certainly be returned to the office by a handsome vote.

PROBATE JUDGE. In the adjusting of estates honesty as well as efficiency is required of a probate judge. Charles M. Leikian, the nominee to succeed himself in that position, answers both requirements. The work of the office under his management has been attended to the letter. He has been painstaking and at all times at his post of duty. He will receive a handsome vote in this part of the county.

SHERIFF. For this important office Wm. S. Robbins of Moscow was accorded the nomination at the county convention without opposition. For some years Mr. Robbins was chief of police of the city of Moscow and proved an excellent official. He has made a thorough canvass of Latah county during the present campaign and personally met a large per cent of the voters. If successful at the approaching election the sheriff's office will be in good hands the coming two years.

SURVEYOR. This office is one of considerable importance. The nominee, Howard Kirkwood, during the past two years has been Surveyor Bush's assistant and is thoroughly acquainted with the duties of the office.

Very often the office of coroner demands that a competent official be placed in nomination a man who will fill every requirement in the person of J. H. Ashby.

COMMISSIONERS. In closing a lengthy writup of the republican nominees, the Moscow Mirror has the following to say: "We have left this to the last. Not because they are least in importance, but for the reason that the present commissioners are first and foremost in their importance to the county. We wish to present their claims last that it may longest remain on your minds. The republican nominees are all men of business ability, business training and experience as well as of character and standing in their respective communities. Two of the three, Messrs. Pickering and Anderson, are re-nominees. This is done because of splendid service the past two years and for the further reason that their experience is valuable to the county. Mr. Edward Lamb, of Troy, is the third nominee. As a member of the school board, of Troy, he displayed peculiar fitness for public business. This district was in debt, but when his term had expired this indebtedness was liquidated and a comfortable balance in the treasury. In every position held Mr. Lamb has shown business tact, prudence, foresight and uprightiness. He will make a most excellent commissioner. Vote for Pickering, Anderson and Lamb."

WHERE ARE THEY. Where is Frank W. Hunt, twice nominee of the democrats of this state, and once triumphantly elected governor? Why is he not participating in advising the people to support the ticket? Where is Frank Steensenberg, twice elected governor on the democratic ticket, once by a majority that has never been surpassed and never has been equalled? Do the women of this state believe that this man who did so much for the establishment of law and order in the state and for good government is lying idle by when the homes of the state are in danger of an invasion of polygamists? Do they think that he would remain quiet if there were any such danger? Where is he? His voice is not heard proclaiming the dangers that are said to exist. Why is it? Where is Hon. J. H.

RELIABLE LIFE INSURANCE.

Last week Flintott Smith, a special representative of The Mutual Life Insurance Company of New York, paid Miss Elsie Watkins, as guardian of Caroline S. Ryrie, minor child of the late Mrs. Henrietta Brown of this city, \$5,000. The policy was taken out by Mrs. Brown, when in good health, and delivered to her thirty-eight days before her death. The company promptly paid the claim, after the legal appointment of a guardian for the minor beneficiary. The record of this company, now in its sixty-second year, is phenomenal, and should be investigated by all who contemplate taking insurance. It has paid over six hundred million dollars to policy holders. It has over four hundred million dollars in assets, being the largest financial institution in the world. This wonderful record, by a purely mutual company, has been accompanied by reason of conservative management; honest treatment of policy holders; prompt payments and never disputing bona fide claims. The majority of the people of Idaho, taking out insurance, for either protection or investment, evidently realize this as the amount of business written by the Mutual Life of New York last year in this state greatly exceeded the amount written by any other company.—North Idaho Star.

OSTEOPATHY.

This science as originated and developed by Dr. A. T. Still, of Kirksville, Mo., is a science of treating diseases of the human body, which regards disease as the product of an obstruction to or derangement of nerve force and circulation. It requires faith, or drugs. Osteopathy views man as a machine of so many parts, its keynote is adjustment. When all parts are properly adjusted and not overworked, health is the result. Hence by manipulation of the bones, muscles and ligaments, or by stimulation or inhibition of nerve and nerve centers we remove the obstruction or derangement, so that nature may resume her perfect work. When all parts are properly adjusted, health is the result. Almost every form of ailment or disability has succumbed to this treatment.

Consultation and examination free. Cons. Idaho at Dr. Ida KARTWITZ. Office at Ed Follett residence.

#### COMMISSIONERS' PROCEEDINGS.

The following items concerning this part of the county, are gleaned from the proceedings of the session closed last week:

In the matter of Henry Bottjer et al for a change of public road in road district No. 8, the viewers' report therein having been filed it is ordered that the date of hearing be and is hereby fixed at 10 o'clock a. m. of the 14th day of January, 1905.

In the matter of the petition No. 1 of F. C. Spencer et al for a public road in road district No. 28, the viewers' report therein having been filed, it is ordered that the date of hearing be and is hereby fixed at 10 o'clock a. m. of the 14th day of January, 1905.

In the matter of the petition No. 2 of F. C. Spencer et al for a change of public road in road district No. 28, this being the time fixed for a hearing therein, the evidence of A. N. Coverdale, Gustav Dochow, Robert R. Gray, H. A. Whitted, T. R. Qualey, T. E. Miller, J. H. Frizell, John A. Nesbit, H. C. J. Tweed, C. F. Jain, Edwin Peterson and James Nesbit having been heard, it is ordered that the Dygert, A. S. Lyon and Ben F. Bush, county surveyor, be and are hereby appointed to meet at Genesee on the 1st day of December, 1904, at 10 o'clock a. m., of the proposed road passing over the NW 1/4, Sec. 18, Tp. 37, N. R. 4 W. B. M. and report to this board.

In the matter of the petition of Thos. H. Brewer et al for a public road in road districts Nos. 5, 6, 26 and 28, this being the time set for a hearing therein, Thos. H. Brewer, appearing by his counsel, Hans Bugge, and John P. Vollmer, appearing by S. D. White, the evidence of Nels C. Swenson, Nils Simonson, G. D. Roennas, John E. Gehrke, Gus. H. Roennas and S. D. White, county surveyor, be and are hereby appointed to meet at Genesee on the 1st day of December, 1904, at 10 o'clock a. m., of the proposed road passing over the NW 1/4, Sec. 18, Tp. 37, N. R. 4 W. B. M. and report to this board.

In the matter of the petition of the City of Genesee for the construction of a bridge across Cow creek on Walnut street within the corporate limits of the City of Genesee, Latah county, Idaho, it is ordered that the petition be granted and the clerk of this board is hereby directed to advertise bids for the construction of said bridge according to the plans and specifications on file in this office. Bids to be filed with the clerk of this board not later than 5 o'clock p. m. of the second day of December, 1904, to be opened December 3, 1904, at 10 o'clock a. m. Bids to be sealed and marked "Bids for Bridge Contract to be opened December 3, 1904."

The board reserves the right to require a bond for the faithful performance of contract and the right to reject any and all bids. It is further ordered that the City of Genesee be and is hereby required to furnish a good and sufficient bond in the sum of \$25,000 guaranteeing the payment to Latah county by said City of Genesee of 40 per cent of the cost of construction of said bridge.

Elsewhere in The Press is an advertisement from Surveyor General Eagleson, calling for bids for surveying all of the Coeur d'Alene Indian reservation excepting townships 44 and 45, range 5, west. There are 23 full townships and 5 fractional portions. By reference to the map it seems that the two townships omitted embrace the land lying east of Tekoa which is settled upon by the remaining members of the Coeur d'Alene tribe. All of this land to be surveyed in Kootenai county. The present survey is carrying out the provisions of a bill introduced last winter in the senate by Senator Heyburn, of this city. It is regarded as the first step toward opening the reservation for settlement. There is a vast amount of good timber and the very best of farming land on this reserve.—Wallace Press.

I offer my residence property for sale. Wm. McMAHON.  
Doesn't Respect Old Age.  
It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. ### BORAH AND FRENCH.

Saturday of last week and Wednesday of this week two very successful political meetings were held at this place.

On Saturday evening W. E. Borah, of Boise, spoke to a full house. His remarks were confined to national issues and the Mormon question. On national issues he very eloquently portrayed the history of the republican party. Taking up the Mormon question he charged Dubois with insincerity and presented many facts to prove the correctness of his statements.

The meeting held Wednesday evening with Congressman Burton L. French as the speaker, was one of the greatest political meetings ever held in Genesee. His hearers were not disappointed. For nearly two hours he presented the republican side of questions bearing on the present campaign in an eloquent, convincing and practical manner. His remarks were confined largely to national questions, dwelling at considerable length on protective tariff matters which directly concern Idaho. He paid a glowing tribute to Roosevelt, the great friend of the west, and made mention of a number of measures which the president favors which concern the future welfare of Idaho.

Turning to the Mormon question he charged Dubois with insincerity. He at some length reviewed the history of the republican party on the question in Idaho and presented undeniable proof that its attitude was one for republicans not to be ashamed of.

Mr. French's address was a fine one from start to finish. Tonight and Saturday night he will hold meetings in Kootenai county and Monday night will close the campaign at Moscow.

## DO YOU KNOW

That 20 year gold filled cases wear better than a solid gold case? Do you know that it stands more hard work and protects a movement better in most cases? Gold filled cases are today made with skill and perfection that is marvelous. They wear as well as gold as far as appearance goes, and wear much better in practical service. I keep a large variety of the best cases made. They are protected by an iron-clad warrant.

Have you registered? T. P. Darr transacted business in Spokane this week. Mrs. H. J. Smith left Wednesday for a few days visit at Colfax. Mrs. E. J. Profit returned to her home at Coeur d'Alene Wednesday. Chris Olberg left Sunday for Kennewick to remain during the winter. Brakeman Parks and wife left Monday for a visit in California, expecting to be gone about a month. Mr. and Mrs. E. E. Oylear returned home Tuesday from a visit of several days with relatives at Lewiston. Mrs. W. A. Gardner, an old neighbor and acquaintance of Mr. and Mrs. A. J. Christie, visited here this week while enroute to Frazer from Roseburg, Ore. Ben Heistmann, who during the past two or three years has been employed by John Kempf, accompanied by Joe Kempf left Monday morning for California to spend the winter. Lauritz Smith left here Sunday for Kennewick with a carload of household goods. The car was made up with his personal effects and also those of his father, Ingwall Smith, and Ben Borgen, who will follow in a short time. George Williams, of Salvaynia, Ohio, a brother of Martin Williams living near this place, arrived here a short time ago to take up a permanent residence. He is delighted with Idaho. As soon as eastern possessions can be disposed of he will be joined by his family. At the recent fair held at Lewiston, T. H. Lorang of this place was the winner of a number of prizes in the awards. On one-half bushel of oats he was given first prize; first prize for three heads of cabbage and first prize for fifteen pounds of turnips. Deputy Sheriff Foreman, who was here Tuesday night, stated to the Press that there is absolutely no trace of Wilson, the man who shot James Burke at Dublin a few days ago, although the officers in five counties have been constantly on the lookout for him ever since the tragedy. The man seems to have disappeared as completely as though the earth had swallowed him up.—Peck Press.

### FRIDAY, NOVEMBER 4, 1904.

QUILLIN'S STORE BURNED.  
About four o'clock Thursday morning the Quillin store was discovered to be on fire, the interior at that time being a mass of flames. Those early on the ground saw that to save the stock would be impossible so directed their efforts to the saving of the household effects of Peter Peterson and the Quillin family who lived in the rooms adjoining the store. They were successful in saving nearly everything.

In the fighting of the fire the new water system was of no value owing to the fact that the hoses received some time ago did not fit the taps on the hydrants and was returned to the shippers for correction. The bucket brigade was brought into action and did its usual good work in protecting adjoining buildings. The John Kempf residence, situated fifty feet east from the burned building, had a narrow escape and had it not been for a force pump and string of hose owned by Mr. Kempf which were brought into use, the home would have been burned.

The Quillin stock was valued at from \$4,000 to \$5,000 and was insured for \$3,000. A policy of \$1,000 would have expired on the 15th inst. The building burned was owned by Wm. Harris, now a resident of Palouse, and while not a very substantial one was paying the owner interest on at least a \$1,500 or \$2,000 valuation. He carried only \$675 insurance.

Caused by the heat the plate glass front of the Hezeman brick block on the opposite side of the street was greatly damaged, nearly all of the large windows being badly cracked. The large plate glass in the window to the east of the Conant block was badly cracked as were also a number of window panes in the upper story.

Scarcely any wind was blowing at the time of the fire and the matter of fighting it was made easy. The origin of the fire is unknown. When discovered it was burning fiercely toward the rear of the store room. Mr. Quillin has been at Lapwai the greater portion of the week and had not returned up to the hour of going to press, consequently no statement can be made of the actual value of the stock.

A SECOND BLAZE.  
About ten o'clock yesterday morning an alarm was sent out from the Cal. Howton residence in the eastern part of town. Neighbors and the bucket brigade promptly responded and extinguished a small blaze which had started in the roof of the kitchen caused by the pipe becoming unjointed. There was more excitement than fire, but had it not been discovered in time it would have resulted seriously to Mr. Howton.

There is some talk of reviving the old reading circle.  
Mrs. Reynolds, mother of Sam Davidson, has returned to Genesee from Moscow.

—Mr. and Mrs. F. C. Marquardsen received word Wednesday from Payette that their son Ernest was again here this morning.  
—Mrs. Bert Wilcox, sister of F. E. Dicus, visited here the first of the week. Mrs. Dicus returned to Colfax with her Monday for a few days visit.

—You can vote a straight ticket by placing an x in the large circle at the head of the column. The republican ticket first, the democratic ticket second, socialist third, prohibition fourth and people's party fifth.  
—Following the grading of the ground around the Exchange Bank building it was thought it would be right and proper to sow the ground to clover seed. Seed was procured and Mr. Hudson was engaged to sow it. The seed sown was good without a doubt for today the ground is covered with an excellent stand of turnips.

—The strip of land which lies between the Rocky mountains and the Pacific ocean has practically already gone republican. All the trade and commerce of the Pacific coast is going to float westward. The republican party is endeavoring to promote this trade in every way, and the democratic party under the cry of "imperialism" is trying to embarrass it in every way. Well, the western fringes of the states of the United States is peopled by intelligent human beings. Is there any question as to how they will vote?

## Fifty Years the Standard

Made from pure cream of tartar derived from grapes. PRICE BAKING POWDER CO. CHICAGO.

A sale of state lands will be conducted at the court house in Moscow, Saturday, November 26. The land which will be offered for sale has been appraised at from \$10 to \$18 per acre and is located in ranges 38, 39, 40, 41 and 43 north.

Peter Johann has made some needed improvements about his Elliot hall building this week. A new stairway and a walk leading to the same has been put in. A portion of the lower floor will again be partitioned off making a room to be occupied by George Hunter with his barber shop.

As a great many citizens do not even know that Wm. Thompson is a candidate for the legislature the interests of all requires a special mention of the fact. His record as a citizen of Genesee is certainly such as to commend him to every voter. His sterling integrity, business ability, thoroughness and incorruptibility, admitted by all who have had business relations with him, certainly qualify him as a legislator. He has been a citizen of which Genesee may well be proud as it may of all its citizens whose names appear on the different tickets. A vote cast for him means good legislation that will be to the benefit of all.

IDAHO HEARD FROM.

Idaho has been heard from at the St. Louis exposition, having been awarded second prize for its unique and attractive state building.

Against the big republican majority he led his ticket by over one hundred votes.

Little Potlatch gave an increased Roosevelt majority over two years ago. Roosevelt received 75 votes, Parker 22.

Idaho is already a state of large rivers and vast water power, and with the irrigation of great areas in the central and southern part of the state, homes will eventually be provided for hundreds of thousands of people.

### REPUBLICAN LANDSLIDE.

New York, Nov. 8.—The republican national ticket has been elected by a vote in the electoral college that will exceed that of 1892 given for McKinley in 1900. The result of today's balloting was astounding even to the most sanguine of the republican managers. Confident as they were of success, they were not prepared for the astonishing figures which followed the closing of the polls, bringing into the republican column not only all of those states they had claimed as sure for their candidates, but, with the possible exception of Maryland, every state classed as doubtful.

The democratic states are confined to the solid south, in which Kentucky is included, and Mr. Parker has not carried a single state which did not give its vote to Mr. Bryan. Four years ago. Official returns indicate that he has lost some of those which the Nebraska candidate held for his party. Official figures from some of the northwest states may slightly change the totals but based on the returns available at a late hour to-night the electoral votes stand 325 for Roosevelt and 151 for Parker.

The period of suspense that followed the closing of the polls was not prolonged. In no election in recent years has the result been definitely known so soon. Hardly had the sun gone down when the results in New York began to appear. Bulletin followed bulletin, each showing large republican gains and by 7 o'clock it was evident that the great Empire State had given the republican candidates a majority beyond the predictions of the party managers. There was no disposition to hope against hope. As state after state sent in its republican majority and the wires told the tale of the ballots, bringing even from the commonwealths upon which they had based their figures of democratic success, reports of unprecedented republican majorities they frankly conceded defeat and offered no explanation. Soon after Mr. Belmont's admission Judge Parker acknowledged the situation by telegraphing President Roosevelt his congratulations.

The perfect weather conditions which prevailed over practically the entire country brought out a vote which experienced politicians predicted would be a record-breaker. It is not only a year of phenomenal votes but phenomenal republican majorities as well. Pennsylvania heads the list as the banner republican state with the magnificent plurality of 325,000; New York comes next with 125,000; Nevada, which was carried by Bryan four years ago, is republican and the indications are that Montana, Idaho and Colorado, also democratic in 1896, have gone back to the republican column. Delaware is estimated at about 5,000 republican; Massachusetts at about 45,000 and Connecticut is about 25,000 for Roosevelt.

While on the national ticket the democrats have suffered a crushing defeat they have retrieved themselves on some of the state tickets. They have reversed the national vote by electing governors of Massachusetts, Minnesota and Colorado, Nebraska, and possibly West Virginia. Montana also elects a democratic governor.

### IN COUNTY AND STATE.

At time of going to press we are advised from Moscow that all candidates on the republican county ticket, with the exception of sheriff, have been elected by an average majority of about 100.

The election of J. J. Campbell, the democratic candidate for sheriff, is conceded by a majority of about 25 over W. S. Robbins, the republican candidate.

The majority for Roosevelt in the state will be about 25,000 and on Gooding for governor about 20,000. In the coming session of the legislature the democrats will have three members in the lower house and one member in the senate.

In the state of Washington the election of Mead is conceded by about 14,000.

**Doesn't Respect Old Age.**  
It is shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off uratic acid no matter how severe and irrespective of old age. Dyspepsia, indigestion, fever, constipation all yield to this perfect pill, 25c, at Dicus & Co.'s drug store.

### HOME TEAM VICTORIOUS.

Defeat the Lewiston Normal at Lewiston Saturday.

The Lewiston Tribune gives the following account of the football game played in that city Saturday of last week:

The colors of the Lewiston Normal football team was trailed in the dust yesterday afternoon by a score of 34 to 0, the overwhelming defeat being administered by the Genesee team. The game was played on the normal grounds and was witnessed by a large crowd. The visitors had an advantage in weight and were playing older players, the normal team being composed largely of players from the second team. It was the visitors' game all of the time and large gains were made through the home line and around the ends.

Only once did the home team have a chance of scoring, but the ball was fumbled within six inches of the touchdown. The officials of the game were Fred Cox, of Lewiston, and Mr. Calhoun, of the normal school. Genesee won the toss and chose the south goal and Lewiston took the kickoff. In the first half three touchdowns were made, the first being made in two and a half minutes after the ball was played. Two of these touchdowns were made by Gibbs and one by Tweed. Two goals were made during the first half and the score was 17 to 0 when the whistle sounded. In the second half the first touchdown was made by Genesee in one and one half minutes after the game started, and it was then that the normal team threatened to score.

The ball was on the normal forty yard line and Gregory was given the ball on a double pass and made sixty yards before being downed. The normal team came back with another double pass and Reese was sent around the end for twenty yards. The ball was now within six inches of the touchdown line and the width of the ball would have given the normal school team a score. The ball was snapped back for the play, but was fumbled and a Genesee man fell on it. The opportunity had passed and the visitors steadily worked the ball across the field for a touchdown. Three touchdowns were made in the last half and goals were secured in each case, and the game closed with a score of 34 to 0 in favor of the visitors.

Code, Crum, Spencer, Davis, Thompson and Mettenbach, who played with the normal team yesterday, were members of the second team. Fluharty, Reese, Gregory and Hamill played the star game for the normals.

The visitors are strong in individual playing as well as being well up in team work. The members of the team are engaged in daily work on the farms and at the warehouses at Genesee and practice only twice each week.

The following was the lineup of the teams:

Genesee	Position	Normal
L. Tweed	r. t.	Spencer and Code
C. Tweed	r. g.	Paula
F. Tweed	c.	Crom
Davidson	l. b.	Reese
Emmett	q. b.	Gwin
Gibbs	h. b.	Gregory
Thompson	l. e.	Fluharty
Olson	r. e.	Young
Harris	t.	Hamill
Vandenberg	l. e.	Smith
Burr	q. b.	Kettenbach

The star player of the game was Captain Tweed, of the Genesee team, who played the position of right tackle.

## DO YOU KNOW

That 20 year gold filled cases wear better than a solid gold case? Do you know that it stands more hard work and protects a movement better in most cases? Gold filled cases are today made with skill and perfection that is marvelous. They wear as well as gold as far as appearance goes, and wear much better in practical service. I keep a large variety of the best cases made. They are protected by an iron-clad warrant.

FRIDAY, NOVEMBER 11, 1904.

—Read the new ads. of Geo. H. Hobson and Follett Bros.

—A son was born to Mr. and Mrs. James Willows Wednesday morning of this week.

—Mr. and Mrs. Chris. Giesey, who have been visiting at the Ehlen home, left Sunday for Albany, Ore.

—The dinners served on election day by the Methodist and Congregational societies were generously patronized.

—The weather on election day could not have been better. It was clear and bright and the perfect condition of the roads aided in a large vote being polled.

—Wm. Harris has been in the city this week from Palouse. He advises us that it is not his intention to rebuild as a result of the fire last week but will offer his lot for sale.

—Merrel Parr, Roy Skeels, Fred Wilke, Peter Luy and Will Ory were Sunday visitors in the city from Uniontown.

—Mr. and Mrs. Peter Peterson now occupy rooms in the Nebelsieck block and Mr. and Mrs. Quillin the Jacobson building.

—Gust Tonnig was here from Troy Saturday. In the evening he took the third degree in the local lodge of Odd Fellows.

A new paper has been established at Thunder Mountain by Clarence E. Eddy, a former well known newspaper man of Moscow.

—Those interested in the organization of a reading circle in Genesee are invited to meet this (Friday) evening at the home of Miss Maude Burdick.

—During the coming winter it is said a \$60,000 hotel will be erected at Coeur d'Alene. F. A. Blackwell and the Coeur d'Alene and Spokane Railway Company are back of the enterprise.

—President Roosevelt has issued his proclamation setting apart Thursday, November 24, "to be observed as a day of festival and thanksgiving by all of the people of the United States at home and abroad."

The many friends of Mrs. Eli Johnson, who is now visiting with the family of her daughter, Mrs. W. S. Noblitt, of Honolulu, H. I., will be pleased to learn that she is recovering from two very severe operations for cancer.

L. K. Krum has disposed of his 20 acre tract of ground adjoining the city limits on the south to Mr. Fischer who settled here last fall from Iowa. \$2,000 was the purchase price. Mr. Fischer has also purchased the G. D. Blake three acre tract in the western part of town, paying \$750 for the same.

The firemen's dance last Friday night proved a very enjoyable affair. While the inclement weather prevented a number from attending, a sufficient number was present to comfortably fill the hall. For the occasion the boys went to great pains to decorate the hall which presented a very neat appearance. About sixty-five tickets were disposed of at \$1 each and after paying expenses about \$40 was netted. The profits will go toward buying paraphernalia for the fire company.

—Wesley Dorchester was here the first of the week from the Salmon river country. With others he delivered a bunch of cattle at Lewiston to Wyatt brothers, who will fatten for market at Yakima. Mr. Dorchester says that while the weather has been fine in the Salmon river country, feed has not been as good as in former years owing to the dry season and the fact that grasshoppers did a great deal of damage to the growing grass. At the present time grass is growing fine.

—Mr. and Mrs. F. K. Bressler and children and Mr. and Mrs. E. T. Platt returned home Sunday evening from their visit to the St. Louis fair and at other eastern points. The Bressler family, aside from putting in a number of days very profitably at the fair, visited with Illinois relatives. Returning home they visited Salt Lake, Walla Walla and Cheney. Mr. and Mrs. Platt in addition to devoting considerable time at the fair, visited several days at their Wisconsin home. Both families report having had a very pleasant visit.

—Yesterday morning, at the farm home of Mr. and Mrs. M. H. Nordby near this city, occurred the marriage of their daughter, Olga, to H. A. Mitting. Quite a number of invitations had been issued for the occasion and a big wedding dinner had been planned. The bride has been a resident of this section for the past three years and has made many friends. The groom is the son of friends. The growth of the Blaine section, Fred Mitting, of the Blaine section, where he has grown to manhood. We understand the newly married will take up a residence on a farm near Blaine. Many friends wish them a happy and prosperous future.

—On the local market 75c is being paid for wheat, \$1.02 for oats and \$2 1/2 for barley.

—R. C. Miller left yesterday for Kennewick where he may remain during the winter.

—Mrs. Alfred Miller, of Mohler, who has been the guest of relatives and friends at this place, left yesterday for her home.

—Messrs. Peter Steltz, George Daggett, W. W. Gray and H. A. Thatcher went to Moscow Wednesday with the returns for the Genesee precincts.

—The engine room at the mill has been remodeled for the use of the Genesee Electric Light company. The side walls have been raised and a concrete floor put in. The building will make excellent quarters.

—Jeweler Olson has moved his stock into his new quarters in the room vacated by the post office. He has installed a complete set of fixtures which represent a large outlay of money. When placed upon the shelves he will have one of the best stocks in the state.

—The Congregational ladies' aid will meet Wednesday of next week with Mrs. John Larrabee.

There will be revival services held at the Congregational church commencing next Sabbath morning and extending through the following week. The Rev. Edmund Owen of Comery will assist.

To the more than three hundred people who ate at our tables on election day, to those who helped in any way, the Genesee band especially for their music and use of their hall, the W. H. M. society of the Methodist church and the church in general wish to return our sincere thanks and invite you to attend our church services whenever you can.

**A CARD OF THANKS.**

"I was troubled with constipation and stomach troubles, lost flesh, my complexion was ruined; Hollister's Rocky Mountain Tea brought back my health and complexion."—Mary Allen, St. Louis. 35 cents. Dicus & Co.

—The Northwestern Miller continues bearish on the wheat price, in fact is becoming almost rabidly bearish. The Record is inclined to meet them more than half way, but at the same time it must be admitted that there are two sides to the present controversy about legitimate price level and that a comparison with 1888 is hardly fair.

There is little doubt, however, that we must seek a level with the world's price on wheat, unless there be manipulation it will tend to prolong the time for the inevitable decline and make the undoing of the manipulators more thorough.

In its current issue the Miller says: "The following little problem of wheat submitted for the benefit of whom it may concern:

IN 1888  
Population of U. S. 63 millions.  
Wheat crop, 416 millions bushels.  
Average per capita, 6 60-100 bushels.

Price of wheat, \$1.12 per bushel.  
Elimination of export trade.  
Domestic trade supplied exclusively.

Result: By December, complete stagnation of flour trade, ultimate decline in wheat equal to 40 cents from the high point.

IN 1904  
Wheat crop (lowest estimate,) 526 millions.

Average per capita, 6 57-100  
Price of wheat, \$1.20 per bushel.  
Elimination of export trade.  
Domestic trade exclusively.

DIFFERENCE  
In 1888, there was no Canadian crop to draw from.

In 1888, Pacific coast wheat and flour were not factors in the eastern trade.

QUESTIONS  
When will the wheat market be congested in 1904?

When will present inflated values topple to their fall?

How far will prices have to decline in order to find a legitimate basis?

How many millers will go broke this year, compared with 1888, as a result of over confidence in a stimulated market?

THE ANSWERS  
May be found by the thoughtful who are willing to learn from experience; who believe in facts, rather than fancies, and who do not believe in the infallibility of the wheat speculator's reasoning powers."—Duluth Commercial Record.

Dear Sir:—

We take pleasure to announce that Star brand Shoes were awarded GRAND PRIZE at the St. Louis World's Fair.

A Grand Prize is the highest award, and although several Grand Prizes were given, our award covers our entire line, and no higher award was given on shoes to any exhibitor.

Considering the fact that our firm is only six years old and our shoes were entered in this contest in competition with well known brands that have been on the market for many years, we feel that our award is the greatest compliment possible, and our slogan "Star Brand Shoes are Better" now stands confirmed by a jury of experts from this and foreign countries, acting for the greatest exposition the world has ever seen.

Yours truly,

### WHEAT PRICES.

The Northwestern Miller continues bearish on the wheat price, in fact is becoming almost rabidly bearish. The Record is inclined to meet them more than half way, but at the same time it must be admitted that there are two sides to the present controversy about legitimate price level and that a comparison with 1888 is hardly fair.

There is little doubt, however, that we must seek a level with the world's price on wheat, unless there be manipulation it will tend to prolong the time for the inevitable decline and make the undoing of the manipulators more thorough.

In its current issue the Miller says: "The following little problem of wheat submitted for the benefit of whom it may concern:

IN 1888  
Population of U. S. 63 millions.  
Wheat crop, 416 millions bushels.  
Average per capita, 6 60-100 bushels.

Price of wheat, \$1.12 per bushel.  
Elimination of export trade.  
Domestic trade supplied exclusively.

Result: By December, complete stagnation of flour trade, ultimate decline in wheat equal to 40 cents from the high point.

IN 1904  
Wheat crop (lowest estimate,) 526 millions.

Average per capita, 6 57-100  
Price of wheat, \$1.20 per bushel.  
Elimination of export trade.  
Domestic trade exclusively.

DIFFERENCE  
In 1888, there was no Canadian crop to draw from.

In 1888, Pacific coast wheat and flour were not factors in the eastern trade.

QUESTIONS  
When will the wheat market be congested in 1904?

When will present inflated values topple to their fall?

How far will prices have to decline in order to find a legitimate basis?

How many millers will go broke this year, compared with 1888, as a result of over confidence in a stimulated market?

THE ANSWERS  
May be found by the thoughtful who are willing to learn from experience; who believe in facts, rather than fancies, and who do not believe in the infallibility of the wheat speculator's reasoning powers."—Duluth Commercial Record.

#### ROBBINS ELECTED SHERIFF.

The board of county commissioners met Monday at Moscow to canvass the election returns. Their work was completed Wednesday and shows that, in addition to the remainder of the republican ticket, W. S. Robbins has been elected sheriff by a plurality of 7 votes over J. J. Campbell.

Unofficial returns gave the office to Campbell by 18 votes, but a number of errors appeared in the returns. Boulder creek was reported as giving Campbell 35 votes and Robbins 13. Official returns gave Campbell 26, Robbins 13. It was supposed that Campbell had carried Cora precinct by 3 votes, but the poll books showed that Robbins led in the precinct by eight votes. An error of one vote was also found in one of the Moscow precincts.

Concerning the result the Moscow Journal has circulated the following: In West Genesee the returns indicated that nineteen ballots cast had not been credited on either side in the race for sheriff, the reason being presumably that the election judges had thrown out these particular ballots.

Whether or not the writer of the above has been misinformed he is none the less excusable. Had he taken the trouble to look the matter up he would have discovered that out of a total of 163 votes cast in the precinct 162 were recorded for the office of sheriff, Campbell having received 97 and Robbins 65. The missing ballot was so mutilated that no record could be made of it.

#### DR. W. S. NOBLITT DEAD.

Word reached here last week that Dr. W. S. Noblitt, well known at this place, had died at his home in Honolulu, H. I., on October 19, at the age of 38 years and 6 months. This news will come as a surprise to numerous acquaintances in this section as it has only been a few weeks since he visited here and at that time was in apparent good health. Shortly after his return to Honolulu he was taken ill with rheumatism. Later he contracted typhoid fever which resulted in his death. It was his dying wish that his body be cremated and the remains buried in Honolulu. The request has been complied with.

Dr. Noblitt was for a number of years agency physician at Lapwai and resigned his position to settle in Honolulu shortly after the acquisition of the islands by the United States and was classed as one of the leading physicians of the islands. In June he was honored by being named as a delegate from Hawaii to the democratic national convention at St. Louis.

A short time prior to leaving the United States to settle in Honolulu, he was married to Miss Bernice Johnson, daughter of Mr. and Mrs. Eli Johnson, residing north of Genesee, a lady who has hosts of friends who will sympathize with her in her bereavement.

At the time of his death, in addition to Mrs. Noblitt and their one child, he was surrounded by his mother who accompanied him to Honolulu last fall, and Mrs. Eli Johnson, mother of Mrs. Noblitt, from this place. Dr. Noblitt also leaves to mourn his death a brother who resides at Lapwai and a sister, Miss Leona Noblitt, now living with the Johnson family north of town.

We are informed that Mrs. Noblitt plans on remaining in Honolulu until spring at least.

#### GOVERNOR GOODING TALKS.

Boise, Idaho, Nov. 14.—Governor-elect Frank R. Gooding is in the city today, this being his first visit here since he was elected. He is busy getting his private affairs in shape preparatory to starting for St. Louis. He wishes to make a careful inspection of the Idaho exhibit there with a view of seeing how much of it can be used in the display at Portland next year. It is essential, he said, that the state should have a very good display at the latter place and he would do all he could to make the exhibit thoroughly representative of the resources and industries of the state and a credit to the people.

Speaking of political matters Mr. Gooding said he was entirely satisfied that there were no new cases of polygamy in the state; there were polygamists, but they are those who took plural wives before the manifesto. Nor did he believe there was any church dictation. The people are thoroughly aroused on the sub-

ject, he said, and the church could not dictate if it wished. It would be resented by the Mormons. He added that the coming legislature would do all that should be done in the enactment of legislation. It would enact a strong adultery law. A strong unlawful cohabitation law would also be passed and any other measures necessary. Moreover, if it were found that anything was wrong in the Mormon counties it would be corrected.

Mr. Gooding reiterated his determination to make an effort to bring about the construction of a railway connecting the northern and southern portions of the state. He said he had received a great number of letters on the subject.

#### CHURCH NOTICES.

Services at the Methodist church Sunday at the usual hour.

The Rev. A. J. Adams of Rosalia will begin revival meetings in the Christian church November 27.

The young folks of the Methodist church will hold a social at the home of Mrs. Geo. Miller Friday evening, 15 cts. for refreshments and lots of pleasure. All are invited.

Thanksgiving services will be held in the United Norwegian Lutheran church in Genesee Valley on Thanksgiving day at 10:30 a. m. The ladies' aid society serves Thanksgiving dinner at the parsonage near the church at 12 o'clock. After dinner the society has its annual sale at the parsonage. All are invited.

FRIDAY, NOVEMBER 18, 1904.

—M. A. Means is a visitor in the city from Lewiston.

—Nathan Edwards has purchased the Magnolia saloon from Ed Keane.

—James Mullaney has accepted a position in the office of the C. E. Wood company.

—A number of the ladies contemplate the organizing of a musical club, to meet one afternoon in each week.

—M. C. McGrew has closed up his affairs at Kendrick and will take up a permanent residence in Walls, Walla.

—Mr. and Mrs. Henry Reese, Miss Ida and two sisters, left yesterday morning for Wallace to remain at least during the winter.

—In honor of Mrs. C. F. Burr, who on Tuesday of this week passed another mile stone, the Rebekah members served a lunch following the lodge session.

—City water will soon be supplied at the school building. The board is also working on a plan to make the closets sanitary. The cess pool system will probably be adopted.

—In the case of the state versus George Sparbeck, which was tried at Lewiston Thursday last week, the jury returned a verdict of guilty of assault. A fine of \$50 and costs was imposed.

—Born to Mr. and Mrs. Le Rue Tice, in this city, Tuesday morning of this week, a son. We are informed by neighbors that Le Rue is devoting a considerable portion of his time now yelling "papa" in a rain barrel to get accustomed to the title.

—Married, on Sunday, the 16th inst., Lewis Rogers of this city and Miss Flora Wilson of the Rimrock. Both young people are well and favorably known here. The groom is a member of the Methodist church, whose pastor, Rev. F. M. Canfield, officiated.

—A. A. Goodhue, of the Commercial Cream company, Salem, Oreg., will soon establish a large creamery at Lewiston. They will attempt to stock the country with fine dairy cattle, selling same to farmers and taking care in payment.

—Louis and Fred Tweedt left yesterday morning overland for Kennewick. Dave Howe, with his household effects, accompanied them as far as Pomeroy. H. C. Tweedt and Lars Erickson will leave the first of the week with a carload of personal effects, expecting to take up a permanent residence in Kennewick.

—E. S. Aldrich arrived here yesterday from Moscow with a carload of wire the sub-station, the business houses and residences. He informs us that the line is now completed to within seven miles of Genesee and that they are traveling at the rate of a mile a day. They expect to be able to turn on lights in Genesee by Saturday of next week and to commence business in dead earnest by Dec. 1.

—S. W. Lawson, who for some time has been in charge of the Hazelwood station at Uniontown, has also been given the Genesee station to look after. He will make Genesee his headquarters and make about three trips a week to Uniontown to receive cream. Frank Myrick, who has been in charge of the Genesee station, will go to work for the company at Moscow and will move there with his family in a short time.

—At a meeting of the band boys held last week, the contract time for which they had engaged Prof. Jauslin having expired, it was voted to reengage him. Under his leadership and management the boys have made excellent progress during the past few months. He has proven not only a good instructor but a hustler for the band's interests. The boys should be offered every encouragement to keep up their organization.

—Mrs. T. Driscoll visited over Sunday at Lewiston.

—James Wright returned Monday from a business trip to Palouse.

—Oscar Larson was here from Troy this week looking after his interests.

—Mr. and Mrs. A. W. Conway were up from Caldwell the first of the week.

—Mrs. Chas. Power and son left yesterday for Spokane to visit with relatives.

—Since returning from the east, Carrie Breesler has been quite ill with malaria fever.

—Clyde Sparbeck, daughter of George Sparbeck, was a visitor over Sunday from Colton.

—Our football team is scheduled for a game at Lewiston tomorrow against the high school team of that place.

—The city council is again considering the macadamizing of Chestnut street, starting in the eastern city limits.

—Frank Vanouck is temporarily operating a barber shop in Julietta during the absence of the owner, Mr. Whitted.

—Revival meetings are being conducted this week at the Congregational church. Rev. Owen of Pomeroy is assisting Rev. Fowler in the work.

—Eli Harris, of Moscow, was here Wednesday to look over the ground for the proposed new bridge at the end of Walnut street, with a view to putting in a bid for the work.

—F. O. Haylett, who recently disposed of his ranch south of town, left Sunday morning for Aberdeen, So. Dak., expecting to take up a permanent residence. He took with him a car load of cattle and horses.

—An Idaho exchange remarks that Fred T. Dubois is not politically dead. This proof accumulates that Chemist Wiley knew what he was talking about when he said the whiskey of the nation is impure.—Capital News.

—L. Jain, Peter Steltz and E. T. Platt returned home Monday from Moscow where the two former served on the federal grand jury. Mr. Platt was drawn but was excused from duty. George Daggett, who accompanied them over, is serving on the trial jury.

—The Genesee public schools football team went to Lewiston Saturday to play with the second team of the Lewiston high school. A score of 52 to 0 in favor of Lewiston resulted. It was the first game for our boys and they claim to have been greatly outclassed in size.

—The Genesee branch of the other excursion train will run over the Genesee branch, on the day the "Tenderfoot" appears at the Auditorium, Monday, November 28. A rate of one fare for the round trip will be made, and the train will arrive just before the performance commences and return at its close. Mr. Ford says the hot air furnace will be in place in about ten days more.—Pullman Herald.

—A son put in an appearance at the H. L. Hardy home Saturday morning.

—Rumor has it that one of our bachelors will soon take unto himself a wife.

—Read the new ads. of Bilger's Department Store, Genesee Exchange Bank and The Fair.

—Mr. and Mrs. Ingwall Smith left the first of the week for Kennewick to take up a residence.

—George Sparbeck has been a visitor here this week from Troy. He expects to leave in a few days for the coast.

—The vote of Idaho was about 65,000 and Roosevelt seems to have received about 75 per cent of the total vote cast.

—Tim Sullivan left Friday for Dayton, Ohio, where he has been offered a good position by a Socialist publishing company.—Uniontown Press.

—John Halterman and Charley Stamps left Monday morning for their homes at Snohomish and Everett, Wash., to remain at least through the winter.

—For a limited time only we will receive subscriptions to the Chicago Daily Tribune, together with the N.Y. at \$3.75 per annum. To those wishing to receive an eastern daily this is an exceptionally good offer.

—W. A. Wheeler, who for some time has been assisting at the depot at this place, left Friday for Toppenish, Wash., where he will act as helper at that N. P. station. Maurice Phipps, of Uniontown, is now assisting at this place.

—The dead body of a nigger was found in the reservoir of the city water company at Yakima Sunday. It is presumed that he had been out looking for a chicken roost the night before and in the darkness fell in. The Genesee reservoir has a good board cover and when the new fence is constructed, which has been ordered by the council, there will be no danger chicken thieves or other things falling in.

—Friday evening of last week, in response to a call issued for the purpose of organizing a reading circle, quite a number met at the home of Miss Maude Burdick. An organization was effected, Mrs. Wm. Welch having been chosen president, and Mrs. Chas. Power secretary. It was voted to read Shakespeare for a while.

—Wheat, 72 cents.

—T. Driscoll transacted business at Oakesdale this week.

—We made an attempt last week to bull the wheat market. A price of 75 cents quoted should have been 72 cents.

—Chas. Johnson has blossomed out as a hotel man. He is now landlord of the Hotel Russell, at Mohler, for which place he will soon leave.

—Frank Standish, a former resident of Genesee, came in Friday from Cunningham, Wash., to which place he moved with his family from Weiser last June. He has purchased a quarter section of land near that place. He was greatly pleased with the appearance of Genesee, noticing improvements on every hand. He returned home yesterday.

—The official count shows the following results: For presidential electors the figures show a total vote in the county of 4,678. The majority of Roosevelt was 2,323; French for congress, 1,994 and Gooding for governor 924. The socialists cast 283 votes; prohibitionists 139 and populists 37. The vote of the republican and democratic state candidates was as follows: Republican—French, 3,018; Sullivan, 2,801; Gooding, 2,646; Steeves, 2,690; Gibson, 2,809; Coffin, 2,772; Bragaw, 2,795; Gubeen, 2,795; Scott, 2,804; Bell, 2,820.

—Democratic—Clay, 1,224; Clark, 1,404; Heitfeld, 1,723; Harris, 1,486; Walling, 1,419; Reagan, 1,423; Turner, 1,416; Frazier, 1,422; French, 1,418; Lincke, 1,402.

We had been promised a complete and tabulated report of the vote as canvassed but was disappointed from the Moscow end of the line at the eleventh hour.

#### GENESEE LOST 10 TO 0.

Genesee lost in football Saturday to the splendid High school team by a score of 10 to 0. It was a fast game and the interest did not wane until the game was finished. Lewiston was the game in the first ten minutes of the play, having the first touchdown in three minutes after the ball was put in play and the second score in five minutes after the second kickoff. Genesee here took a brace and it was given and take during the remainder of the game.

Only at one time was the Lewiston goal seriously in danger and that was the end of the first half when the ball was in the hands of the visitors and was on the Lewiston ten-yard line. For Genesee Davidson at half-back played the star game and went through the line for repeated gains. Genesee played a game with a number of double passes but the Lewiston line was strong and held the visitors for yardage on repeated occasions. The Genesee team is fast and have a good formation of interference, with a snappy and strong game, but it was not their day yesterday. The Lewiston team played new tactics. They played the game in the beginning and it won.

The Lewiston people are proud of the Lewiston High school team and many compliments were paid the team last evening on account of yesterday's victory.

**FOOTBALL OF THE GAME.**  
Lewiston won the toss and chose to defend the east goal. Genesee chose to defend the west goal and gave the kickoff to Lewiston. At 2:53 Neal sent the sphere to Genesee's 10-yard line, the ball being advanced about five yards when the runner was downed and Lewiston held for downs receiving the ball. Then the spectators were treated to a sample of fierce, fast football. In four downs, by straight line bucks, Bursell went through for a touchdown in just three minutes after the kickoff. It was too fast for Genesee and the way Vernon and Edmiston opened up holes for the fierce attacks of Bursell and Small, brought cheer after cheer from the crowd. Neal failed to kick goal, score 5 to 0 for L. H. S.

Genesee kicked off, Lundstrum receiving the ball and advancing to yards before being downed. Then by a series of line bucking, end runs, fake punts and double passes the High school team carries the ball straight through for a touchdown in five minutes, never losing the ball. The work of Bursell who made this touchdown, was sensational. He hurled the Genesee line and with two or three men clinging to him plunged over the line for a touchdown. Neal again failed on goal; score 10 to 0, in favor of the High school.

Neal for Lewiston kicked off too low and the ball stopped by Genesee's center on the 40-yard line, who advanced the ball ten yards before being downed. The ball was changed from team to team for several minutes and the half ended with the ball on the Lewiston ten-yard line. This was the only time in the game when the High school goal was endangered.

In the second half the High school was satisfied to hold Genesee and played a defensive game. The Genesee team was heavier by about fifteen pounds to the man but were unable to make yardage more than once out of two trials. In this half Lundstrum played a remarkable game—time after time he was through the line tackling the runner for a loss. All of the High school team played a star game and the work of Pierstorf and Edmiston at halfbacks, and Small and Bursell at fullbacks, would be hard to excel. The game ended with the ball in Lewiston's possession on the Genesee's ten-yard line.

In the middle of the first half Morris gave place to Pierstorf, the old reliable, at tackle, and in the second half Muhlenberg was injured in the shoulder and was relieved by Garby who did excellent work. Garby was a speedy player and got under Small's punts in fine shape once gaining about forty yards by falling on a fumble punt. Altogether it was a fine game, a hard game and a well earned victory for the High school.

The contest illustrated, with no discredit to the visiting eleven, that the High school team is worthy of the support of the Lewiston people and the grounds should be crowded to witness the game with Walla Walla on Thursday and with Seattle on Saturday. Victory in these games

will give the Lewiston team the championship of Idaho, Washington and Montana.

The lineup was as follows:  
Lewiston—McMinimy, right end; Morris, (Anderson, first story) right tackle; Morris (Anderson) right guard; Vernon, center; Muhlenberg (Garby) left guard; Edmiston, left tackle; Neal, left end; Lundstrum, quarter; Small, right half; Bursell, left half, and Kerns, full back.

Genesee—Olson, right end; Armstrong, right tackle; Spurbek, right guard; Linnehan, center; Vanderberg, left guard; Harris, left tackle; Wahl, left end; Emmett, quarter; Thompson, right half; Davidson (GBH) left half; Burr, full back, and Armstrong, substitute.

Officers: Referee, Professor Calhoun; umpire, Gus R. Thiering; time keeper, Professor Wright. Time, 20 and 25 minute halves.— Tribune.

—A Thanksgiving dance was given last evening by the hand boys at Elliot hall.

—As we go to press a football game is in progress between the High school team and an eleven from Uniontown.

—An evangelist in a little town in trying to give his hearers an idea of the length of time those must suffer, the end of whose journey is the terminus of the broad road, said: "My brethren," he exhorted, "if a little bird were to dip its beak into the Atlantic ocean, gather up a drop of water and then hop across the continent—not fly, but hop its way inch by inch—until it reached the broad Pacific, and there deposit the little drop of water, walk back and again dip its beak into the Atlantic, and continue this operation until it had emptied the Atlantic into the Pacific, my brethren, it wouldn't yet be sun up in hell." Some shuddered in their seats at the awful word picture, while others of the more zealous brethren cried aloud, "Amen!"—Life.

FRIDAY, NOVEMBER 25, 1904.

—Bernard Hofer drove over from Uniontown Tuesday.  
—Miss Hannah Aaland will leave next month for Howard, South Dakota, to spend the holidays with her people.

—Fred Nagel sent out three cars of fat hogs to the Seattle market Saturday of last week. The price paid was \$4.85.  
—Tom Linnehan returned home Thursday of last week from a visit of several weeks at his old home in New York state.

—Peter Steltz and A. A. Haymond left the first of the week on a goose hunting expedition in the Snake river valley.  
—Mr. and Mrs. Thos. H. Brewer left Tuesday morning for Spokane to spend Thanksgiving with relatives and friends.

—Henry Martinson has moved his family from the farm east of town to Lewiston where they will reside at least during the winter months.  
—While in the city last week Mark Means disposed of his residence property to a Uniontown party whose name we have been unable to learn.

—U. G. Dickson has moved his family out to the farm on the Rimrock for the winter. Mr. and Mrs. George Hunter have moved into the Dickson residence.  
—Mr. and Mrs. J. L. Goodnight will leave Saturday for Vancouver, Wash. Enroute home they will visit all points of interest in the Sound country.

—Sherman Wahl has under construction a house 14x28 and a barn 35x52 on his farm 5 miles east of town. When completed it will be occupied by Will and Albert Beckman who have leased the farm.

—At the recent election a voter, residing not a thousand miles from Genesee, got somewhat bewildered when looking over the big ballot. In discussing the matter with a friend following the election, said: "I guess I voted all right—just signed my name at the bottom of the second column."

—Henry Stracker, with a force of five or six men, has been busily engaged in changing the car track and opening up a new ledge in the rock quarry during the past week, getting things in readiness to begin the work of macadamizing Chestnut street at an early date. The work will be done in accordance with the ordinance passed some months ago.

—With the election over, the scramble for appointive offices is now on. Latah county has two candidates for state positions—C. J. Munson and W. J. McConnell. Mr. Munson is an applicant for the position of state land selector. For many years having been one of the most efficient workers for republican success, and having an excellent acquaintance throughout the state, he will prove a very strong candidate. He is deserving and competent. Mr. McConnell, who has during the past year been repeatedly honored by the voters of the county, in fact, there are those who are of the opinion that he has received about all he has coming—is a candidate for the position of immigration commissioner.

—To date the following are using, or have applied for the use of city water. Residences: C. F. Burr, H. L. Hardy, Henry Flomer, E. J. Bru, W. L. Biram, Le Rue Tice, J. J. Owen, D. Scharnhorst, J. E. Reed, Geo. H. Hobson, H. A. Thatcher, H. J. Herman, Dr. J. L. Conant, W. J. Herman, F. J. Morosic, L. K. Krum, C. E. Wood, E. Thomas, G. K. Bressler, J. N. Hasfarther, Fred K. Bressler, Caroline Bressler, P. L. Sweet, Meyer Bros., implements; John McMartin, saloon; Follett Bros., store; E. J. Bru, saloon; Fred Nagel, meat market; A. Murphy, blacksmith shop; Jos. Geiger, brewery; Chas. Swenson, hotel; W. L. Biram, livery; Genesee Exchange Bank; F. E. Dicus, drugs; Dr. H. J. Smith, office; Dr. J. L. Conant, office; C. W. Hanson, gallery; F. A. Robinson, hotel; C. L. Jain, barber shop; H. Nebelsieck, office; W. M. Thompson, barn; W. R. Hickman, livery; The C. E. Wood Co. Taking into consideration that the system has only been in operation a month the showing is an excellent one. A great many plan on putting water in their residences in the early spring. Those using the water are more than all taint and also soft. The material is on the ground and the work of putting in the two inch service pipe in the Bressler neighborhood and on the Congregational hill is now in progress.

—Will Elder was over from Uniontown Wednesday.  
—Ed. Prather and H. J. Herman returned Saturday from a trip to the country north of Troy.  
—Miss Helen Schoenberg and Miss Anna Raeh were Genesee visitors Tuesday from Uniontown.  
—O. A. Leade, of Moscow, is an applicant for the appointment of assistant United States attorney.

—Mr. and Mrs. John Marlett, of Uniontown, were guests of Dr. and Mrs. H. J. Smith over Sunday.  
—George Jamison last week moved his family down to Spalding where they may decide to reside permanently.  
—Mrs. W. E. Smith and brother, Harry Phipps, returned Tuesday from a six weeks' visit at the St. Louis fair and other eastern points.

—Le Rue Tice left Monday morning for Omaha, Neb., on business connected with the shipment of apples. Some time ago he shipped a car to that city but the same was not accepted by the commission because of which it was assigned. He took with him two cars which he will try and distribute in Montana points.  
—The state laws provide that elections should be held in each road district on the first Monday in December in each year to select road supervisors. The day is not far distant and now is the time to take the matter in hand. The very best men should be selected for this important office.

—Owing to the large amount of business to be disposed of at the Lewiston term of court, Judge Steele has postponed the Latah term which was to have convened Monday of this week to Monday, December 12. Judge Steele, who for some time has been badly crippled with rheumatism, is considerably improved, now being able to walk several blocks at a time.  
—A pleasant surprise took place at the G. H. Roseman home, 4 miles northeast of town, Thursday evening of last week, in honor of Mr. Roseman's birthday anniversary. Some twenty-four guests were present. The evening was spent in music and dancing until the midnight hour, when a fine supper was served. Following supper the young folks occupied the dining room until late in the evening, in fact some of them were present at a six o'clock breakfast. All report having had a fine time.

—Tuesday being the crystal wedding anniversary of Mr. and Mrs. John Meyer, neighbors and friends to the number of about seventy-five gave them a surprise at their home in the western part of town on that evening. Guests began putting in an appearance as early as 5 o'clock in the afternoon and by supper time all were present. The spread was one fit for the gods. Mr. and Mrs. Meyer were the recipients of a number of nice presents and best wishes from all present for future happiness and prosperity. The Genesee band, of which Mr. Meyer has long been a member, was present to furnish music.

—Miss Mattie Walby is here from Moscow.  
—J. B. Davies has purchased the Livingston residence property near the round house.  
—The ladies' aid of the Congregational church will meet next Wednesday at 2 p. m., with Mrs. C. F. Burr.

—A. S. Haun, well known at this place and for some time a representative of the Hazelwood company, plans on establishing an independent creamery at Moscow. Mr. Haun claims that he can start out with the product of 500 cows.  
—A gentleman, well informed on the subject, said to the writer in Lewiston this week, that the residents of Genesee can thank their lucky stars that in the construction of the city water system at this place, iron pipe was used instead of the "trouble breeding" wood article.

—Mr. and Mrs. Fred Follett returned home Tuesday from their extended trip east. They devoted considerable time to seeing the sights at the big St. Louis fair, with relatives in Iowa and at numerous places of interest. They returned home over the Union Pacific, stopping at Salt Lake and Payette.  
—There will be no contest over the office of sheriff. J. J. Campbell, the democratic candidate, who came within so few votes of being elected, has made a statement to the Spokesman-Review reporter, denying the many statements that have been made to the effect that he would contest. He said: "No, there will be no contest. The statement published that money was being raised by my friends and relatives for contesting is false. It is sufficient satisfaction to me to know that a majority of the people of Latah county intended to vote for me when they placed their vote opposite my name, but which vote in most cases was counted for my opponent under a technical construction placed upon the law, because some of my friends failed to scratch out my opponent's name. I am a law abiding citizen, and if it is the law that several hundred of the voters should be disfranchised because they overlooked scratching my opponents name after voting for me, it is the fault of the law that defeats me and defeats as well the intention of a good majority of the voters. While this is true, I do not want the office bad enough to go into the courts for it. I wish to publicly say to my friends that I feel just as grateful to them as though I had been given the office."

—The new Catholic church in Thorn creek was yesterday dedicated as a place of worship. In the absence of Bishop Groulx, who was unable to attend, Rev. Fr. Keyzer of this place was authorized by him to officiate. The church choir from this place was in attendance to assist in the services. The church as completed is one that the Thorn creek people may well feel proud of. It is a large and well built church, 30 feet high and will seat close to 300 people. Last week a bell, weighing 1750 pounds, was placed in position.

—The Palouse irrigation project on Tuesday received the preliminary approval of Secretary Hitchcock. The secretary also authorized the geological survey to push its investigations to completion and to negotiate the necessary rights and privileges in the premises. The estimated cost of reclaiming, by this project, some 80,000 acres of land is about \$2,800,000. Negotiations are in progress between the government and the O. R. & N. company for the settlement of difficulties in connection with the Washburn reservoir site, and if the railway people will meet the government half way there is apparently nothing in the way of the starting of construction work on this big and important project in the near future.—Trade.

#### HENRY HERMAN SHOT.

Word reached here by telephone from Forest Friday evening that Henry, the youngest son of Mr. and Mrs. W. J. Herman, who for some time has been stopping with the Dorchester and Platt families on the Salmon river, had been shot and for them to at once send medical aid. Owing to the brevity of the message relatives and friends were greatly exercised as to the seriousness of his wounds. Dr. Conant, accompanied by George McMahon who is familiar with the road to be traveled to reach the Platt ranch, the scene of the accident, left at once. At Sweetwater a fresh team was secured and Dr. Conant was joined by Dr. Burke of Caldwell. They reached the Platt ranch about Saturday noon but were preceded there a few hours by Dr. Blake of Keuterville.

#### STORY OF THE ACCIDENT.

Henry, in company with John Platt left the Platt residence about noon and traveled up the canyon. After going some distance they became separated, Henry, who had with him a .22 rifle had taken the same apart but had neglected to remove the cartridge. In some manner the barrel slipped from his hands and striking a pebble discharged the cartridge, the ball entering his right thigh and taking an upward course lodged near the right shoulder blade. Following the accident he called to Mr. Platt, who was some distance away and who is hard of hearing, but was unable to make his wants known. After waiting sometime he resolved to, if possible, mount his horse and ride to the cabin. He was successful in mounting but owing to the numbness of his leg he was unable to keep his balance and would repeatedly fall to the ground. Finally being successful in retaining a position on the faithful animal he reached the cabin. Word was then dispatched for medical aid.

#### LOCATE BULLET.

Following the dressing of the wound in his leg an effort, and a successful one, was made to locate the bullet. By making an incision in the back at a point near where the bullet was supposed to have lodged it was located and removed with but little difficulty.

Dr. Conant and Burke remained with the patient until Sunday noon, having done all that was in their power to relieve him. Dr. Conant arriving home Monday morning. Following the return of Dr. Conant, Mrs. Herman, mother of Henry, and Miss Mattie Walby, a trained nurse, left for the river to aid in caring for the injured boy. They were taken in by Reed Klapp.

Will Herman, who left for the scene of the accident Saturday morning, returned home yesterday in company with Reed Klapp.

As we go to press Wesley Dorchester phoned from Forest that Henry's condition was very serious and that in the opinion of Miss Walby it was doubtful if he would survive the day. Upon receipt of the news, Mr. Herman, father of Henry, and Dr. Conant left at once for the river.

Wheat is quoted on the local market at 70c, barley 82 1/2c, oats 1.02.

As an indication of the business being done by the N. P. at this point, Wednesday of this week 21 car loads of grain and hay were shipped.

Professor H. T. French of the state university is endeavoring to have the public schools of the state take up the teaching of agriculture. He has prepared a 26 page pamphlet, which is to contain the first lessons. These he will have distributed throughout the state. A Moscow correspondent commenting on the subject says: "This pamphlet will be followed later by others with advanced studies and by degrees. It is hoped the necessity of teaching agriculture will become so apparent throughout the state that the various schools will adopt the study as a part of the regular course. There is as yet no state law compelling this study. Four or five different pamphlets will be sent out free this year and may be followed up again next year, but by that time it is expected many of the schools will adopt regular text books. The study will come in about the eighth or ninth grade, following nature study."

### CHURCH NOTICES.

The Rev. Davis, pastor of the M. E. church at Colton will exchange pulpits with the pastor of Congregational church next Sabbath. Services at the Lutheran chapel on Sunday p. m. at 3 o'clock. The annual meeting of Our Savior's church will be held in the church on Tuesday, Dec. 6, at 10 a. m.

The Genesee Electric Light company has made arrangements with F. E. Dicus & Co., to carry a sample line of chandeliers, lamps and other fixtures and the same will be on exhibition within a few days. Patrons are requested to call and inspect same.

—Mrs. Will McMahon is quite ill with typhoid fever.

—Miss Pearl Owen returned to school at Moscow Monday.

—A daughter was born to Mr. and Mrs. Peter Kinzer on Thanksgiving day.

—The next National Irrigation convention will be held in Portland 1905.

—Troy claims to have expended nearly \$50,000 during the past season in improvements.

—Read the new ad. of M. K. Bue & Co., also the changes of The Fair, Bilger's Department Store, James K. Bell and the Genesee Exchange Bank.

—Chas. Kays, well known at this place, has secured a good position with one of the big mining companies at Mullau and with his family has taken up a residence at that place.

For the nine months ended with September, 1904, American trade with the Orient amounted to \$212,637,477, compared with \$105,183,591 for the same period in 1903 and \$97,203,390 for the first three quarters of 1902. Of the total trade our exports to Japan, China, Hongkong, Russia and Corea amounted to \$56,448,225, \$44,807,366 and \$47,663,031 for the respective periods mentioned. Japan continues relatively our best customer, having increased her imports from this country from \$14,569,350 in 1902 to \$18,709,755 for the nine months of 1904, and her exports to America from \$29,472,239 to \$34,277,115, while China shows a modest decrease in her purchases, from \$18,455,905 in 1902 to \$16,710,381 in 1904 though there is an increase of nearly \$5,000,000 from nine months of 1903. While exports to this country have increased from \$19,855,517 to \$21,474,816 in the two years, Hongkong took American goods to the value of \$7,140,149 and exported \$1,211,236 in 1904, while Russian purchases were \$13,335,770 and exports \$8,424,965. The continued and rapid expansion in our trans-Pacific commerce in the face of adverse conditions in the Orient during the past few years is certainly gratifying, while the trend of events are so shaping themselves as to clearly indicate that a renewed impulse is soon to be imparted to our trade with the Far East.—Trade.

### FRIDAY, DECEMBER 2, 1904.

—H. E. Church, who was last week quite ill, is again able to be out.

—Miss Scott returned home Tuesday after a visit of several days at Spokane.

—Mrs. Rogers reports the arrival of a son at the Charles Clark home Sunday, Nov. 27.

—At the St. Louis exposition the Idaho educational exhibit was awarded seven medals.

—P. R. Kelsey and family, of Spokane, were the guests of his mother and sisters in this city Thanksgiving day.

—A few nights ago a Michigan editor was about to slip into his new \$10,000 automobile when three bed slats gave way and he awoke.

—Le Rue Tice sends word home from Omaha that the eastern market is overstocked with apples. He gave instructions to have the packing house closed.

—The W. R. C. ladies will meet tomorrow (Saturday) afternoon at Odd Fellow's hall, for the purpose of electing officers. All members are requested to be present.

—Keep in mind the fact that the election of road supervisors takes place in the various districts Monday, December 5. See to it that only the best men are elected to this important position.

—At the recent sale of school lands held at Moscow, a 40 acre tract located a few miles north of Genesee, was sold for about \$34 per acre. A few years ago this same piece would not have brought the appraised value of \$10 per acre.

—M. K. Bue returned home Wednesday from Moscow where he attended the funeral of his father, Tuesday, who died in that city Saturday. Some weeks prior to his death the old gentleman wished that he could survive until his 81st birthday and he did, but passed away on the anniversary day.

—The excursion Monday evening to Pullman to witness the performance of The Tenderfoot at the Auditorium, in point of numbers was a great success. Three coaches were well filled, the number including about fifty from Genesee. The Genesee band furnished music for the occasion. The performance was highly satisfactory to all.

—A. A. Haymond, Peter Steltz and Gustave Dochow, who left here the 20th inst. on a hunting trip, returned home Monday. They visited the Rock lake country in northern Whitman county but were not successful in bagging any great quantity of game. They had expected to find goose hunting good but were disappointed. They report a very enjoyable outing.

—Peter Sorenson came in Saturday from the Ruby Creek mining district for a few days visit. It has been 26 months since Mr. Sorenson left Genesee for the mines and during that time he has not visited a settlement. He has devoted the greater part of his time to doing assessment work on different mining properties in the Ruby Creek district for different owners and on properties he has acquired since locating there. He says that owners are still hopeful that eventually the camp will be a paying one and in his opinion has properties today that would bring rich returns if transportation for the ore were provided. Mr. Sorenson expects to return home again today. Dan Burr, who has been spending several weeks in the district came out with Mr. Sorenson to remain at home for a while.

—A number of those who have filed on land in the Mindoka district under the government reclamation project, have asked for leaves of absence on account of the fact that there is no water available. The department in a ruling denying the applications holds that a leave of absence can only be granted, under the act of March 2, 1899, when, by reason of partial or total destruction or failure of crops, sickness or other unavoidable casualty, a settler is unable to secure from the land settled upon support for himself or those depending upon him. There is no provision for leave of absence on account of a lack of water with which to irrigate the land. Unless congress makes provision covering such cases it will be difficult for those who have filed on land in the Mindoka district to make proof, as, for the most part, they cannot remain on the land to establish residence.—Payette Independent.

—Will Gray will leave soon to spend the winter at San Francisco.

—Ed. Merrill returned Saturday from a visit of several days at Moscow.

—Mrs. Sam Prince, of Julietta, is visiting at the home of her brother, E. E. Oylear.

—Emma Vinson has filed a suit for divorce against John Vinson, alleging abandonment and non-support.

—C. F. Cooper, of Moscow, was a visitor here Tuesday. He states that he has disposed of his hotel interests at that place but will continue to reside there.

—A son was born to Mr. and Mrs. Bagley, living on Mrs. Brigham's place, Saturday last week, so reports Dr. Beck. Also a big boy at the Ed. Brigham home, born yesterday morning.

—Because Missouri went republishing at the last election nearly 200 farmers of Dunklin county, which lies in southeast Missouri on the northern boundary of Arkansas, have signed a petition asking that the state legislature pass an act allowing the county to be transferred to Arkansas.

—About 50 residents of Harrison, find that their homes are built on government land, as a result of a ruling by the general land office at Washington, in the case of John L. Dirks against A. A. Crane. The homes and business property involved are worth, it is said, about \$100,000.

—Adolph, the 8-year-old son of G. H. Roseman, met with a serious accident Monday morning while playing football at school near his home northeast of town. He was thrown into a barb wire fence receiving a cut on the right side of his head above the temple, measuring three inches in length, cutting two arteries and scraping the skull. Dr. Ethen was called and dressed the wound. He is reported as doing nicely at present.

—Mr. and Mrs. A. Serogin and children returned home Tuesday from their extended eastern visit. They devoted considerable time to seeing the sights at the St. Louis fair. They visited with relatives and friends at various points in Illinois, Missouri and Kansas, and returning home made stops at Colorado Springs, Pueblo and other points. They report a very pleasant visit from start to finish.

—The Knights of Pythias have chosen officers as follows for the ensuing term:  
F. E. Dicus, C. C.  
Hans Bugge, V. C.  
Dr. H. J. Smith, M. of W.  
W. C. Owen, P.  
Conrad Martin, M. at A.  
John Hudson, C. of R. and S.  
W. W. McRoberts, M. of F.  
Chas. Power, M. of Ex.  
W. E. Smith, I. G.  
A. J. Fitz, O. G.

—William Calbreath, who since the early settlement of Latah county has been a resident, died Wednesday of last week at the Moscow hospital as a result of consumption. The funeral took place Thanksgiving day from the residence of his daughter, Mrs. Frank Bowman, interment being in the Odd Fellows cemetery. Relatives will transfer the remains to a cemetery on American ridge next season, near which he resided for some years. He leaves a family of grown children, among them being Mrs. Joe Blanchard and Mrs. Frank Bowman. At the time of his death he was 70 years, 4 months and 26 days of age.

### PROCLAMATION

I want all the girls, boys, men and women to know that Santa Claus has engaged all my spare room for his large stock of toys, albums, table cases, etc., at BECK'S DRUG STORE.

No Cases of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures cough and so do perfectly, so do not take chances with some unknown preparation which may contain opiates, which may cause a permanent condition that retards recovery from a cold. Ask for Foley's Honey and Tar and return safe substitute offered. Sold by Dr. E. S. Beck.

—The Odd Fellows lodge has elected officers as follows:  
Hans Bugge, N. G.  
George McMahon, V. G.  
Will Herman, Secy.  
C. F. Burr, Treas.  
C. F. Burr, George Mochel and Follet, Trustees.  
Paul Cann, District Deputy.

—In the football game played Thursday afternoon between the Genesee high school team and an eleven from Uniontown, the local team was victorious by a score of 15 to 0. On Saturday afternoon the Genesee boys defeated a team from the Pullman high school by a score of 5 to 0. Both games were hotly contested and the home boys have good reason to feel proud over their victories. They expect to play Sunday with a team from Blaine.

—While going to his home in the eastern part of the city Sunday evening, in the extreme darkness Mr. Gertz came in contact with one of the large trees in front of the Bilger store and was again a good sized piece of cuticle from his proboscis. The accident emphasizes the fact that obstructions such as trees should have no place in the sidewalks. There are very few who will not admit that the removal of the trees in front of the Exchange bank and other buildings added to the appearance of Walnut street.

—The city fire hose, which was returned to Seattle some time ago on account of not fitting the hydrants, was again received Friday and found to be o. k. in all particulars. The boys lost no time in putting it in place on the hose carts. The carts are now temporarily housed in the building on the city lot near the Biram stable. Sunday the firemen got out to try their skill at stringing hose and making couplings. They fought an imaginary fire at the mill and in doing so made a little dough. The roof leaked. We understand the council contemplates the purchase of a new fire bell and will have the same mounted at some point in the business part of town.

IRA WYCKOFF.

—Quite a severe wind and rain storm visited this section Sunday morning.

—H. R. Smith, of Moscow, has been named as U. S. commissioner by Judge Beatty.

—F. P. Menecey, a former resident of this place, was last week at Moscow married to Eliza Clark.

—Mr. and Mrs. George Parks returned home Wednesday from their visit of several weeks in California.

—Dr. Ida Kartowitz has leased rooms in the Nebelsieck block and will take possession of the same Tuesday of next week.

—Mr. and Mrs. Lewis Rogers returned from Pomeroy Friday. On Saturday evening they were serenaded by the Genesee band which furnished some excellent music.

—The boy who haunts the streets after nightfall without business or permission, is cultivating a very dangerous habit. Any place where a boy has no business is a dangerous place for him, whether it is on the street, in the store or elsewhere. A boy that is all right likes his home, friends, books, or newspapers, in preference to the class found on the streets without business. Business men of all kinds look upon the boy loiterer as the deadbeat of the future.

—The Idaho agricultural exhibit has been awarded the grand prize at the World's fair in St. Louis. This means that in the estimation of an impartial jury the agricultural display from this state is the best in the universe. Idaho thus obtained the highest award possible to secure for agricultural products. In making the award the jury considered the quality of the grains and grasses and the manner in which the exhibit was arranged. The commissioner and Mrs. M. J. Wessels are rewarded for their painstaking and artistic work in presenting the magnificent products of the Gem state. Especial credit is due Mrs. Wessels for the originality of her work, which went a long way towards attracting attention to the exhibit. The announcement of the award was made in St. Louis yesterday.—Sunday's Statesman.

A famous physician upon being asked recently what is the chief cause of ill health replied: "Thinking and talking about it all the time. This ceaseless introspection in which so many of the rising generation of nervous folk indulge, is certainly wearing them out. When they are not worrying as to whether they sleep too much or too little, they fidget over the amount of food they take or the quantity of exercise necessary for health. In short, they never give themselves a moment's peace. Our grandfathers did not concern themselves with these questions. They ate, drank, slept as nature prompted them. Undoubtedly they were healthier in mind and body for their sublime indifference, and if we asked ourselves fewer questions, we should have less time to analyze or imagine ailments."

#### HOW TO PREVENT DIPHTHERIA.

The state board of health of Montana has found it prudent to issue a bulletin on the restriction and prevention of diphtheria. Owing to the fact that the disease is prevalent in many parts of the state, it is urged that the rules set forth in the bulletin be read by every household. It is placed upon the danger of allowing children in infected districts to play with cats and dogs, especially the former, as they are nocturnal ramblers against whom no quarantine can be enforced. This is a good rule to observe anywhere, and as a protection from scarlet fever as well as from diphtheria. The fur of the cat and the hair of the dog offer vehicles for the transit of the germs of these diseases superior to that offered by the clothing of nurses or others in attendance in the sickroom. A dispatch from Lebanon, in this state, tells of the closing of the public schools to prevent a possible epidemic of scarlet fever, of which there are a number of cases in the village. The hint of the Montana board of health in regard to the danger of infection from cats and dogs that have access to the sickroom, the street and the house, is timely. Let these domestic pets be banished from the sickroom, and let children be instructed not to play with them while either of these dreaded scourges of childhood—diphtheria or scarlet fever—is prevalent in neighborhood.—Oregonian.

**THAT BOY OF YOURS.**  
It may always have been so, but it is especially true today, that this country is producing a higher type of womanhood than of manhood. In all our towns and cities there are more young women whom you would welcome to your homes as daughters-in-law than young men whom you would welcome as son-in-law. There are reasons why this is so but there is no excuse in that being so. There is nothing in the world so well worth looking after as the boy and there is no human being in the world so neglected. We have provided a little pleasant room for him. He is welcome to the home as a baby and he is welcome as a man, but there is little welcome for him as a boy. We chaperone our girls and carefully guard them against unworthy boys, but we leave the boy to choose for himself his associates and his achievements. We give him much sage advice perhaps but little sympathetic guidance. The loneliest, most unloved human creature is the boy. Girls are naturally winsome, gentle, companionable. They win their way in the homes and hearts. But the boy, noisy, awkward, mischievous, is invited into few homes and feels none too much at home in his own. About the only door that swings with sure welcome to the boy, about the only chair that is shoved near the fire especially for the boy, about the only place where he is sure of a cordial greeting—is where he ought not to go. It is one of the hardest things in the world to get hold of a boy—to get a sure grip on him. It is hard to win the companionship the faith and confidence of your boy. He has almost occult powers of observation and (conclusion.) You think you know him through an occasional glance but the chances are he knows you far better than you know him. He is hungry for companionship and he will have it. You can't claim him away from it. He wants the companionship of boys, and nothing will take its place. If the time of selfishness has so incased your heart that the joys and hopes of your boy cannot enter into it, the boy is to be pitied, but so are you. Few fathers and sons are more than fairly intimate acquaintances. It is always the father's fault.—Aberdeen Bulletin.

### It was a maxim with the diplomatists of the Ancient Regime that a snuff-box was man's best ally in that work of "concealing his thoughts" in which, Tallyrand maintained, the usefulness of speech chiefly consisted. But the man of to-day cares not to conceal but rather to collect his thoughts, and his best ally is Chase & Sanborn's Seal Brand Coffee. It sharpens his wits, quickens his perception, and makes him twice as clever. Many a man dates his popularity in conversation from the day he began using Seal Brand Coffee.

FRIDAY, DECEMBER 9, 1904.

—Fine weather and fine roads.

—Miss Maud Sutton returned to Spokane Saturday.

—Prof. Geo. Jauslin was a Spokane visitor the first of the week.

—Dr. Miller was a visitor in the city Sunday from Uniontown.

—Mr. and Mrs. H. C. Powers, of Sublet, Idaho, are visiting with the Gray people.

—Conrad Martin took a layoff this week to do a little needed carpenter work about town.

John Kimble recently completed a large addition to his residence in the northern part of town.

—The board of commissioners met Wednesday to let the contract for building the bridge across Cow creek in this city.

—Mrs. Wyckoff and son Harry left Saturday for Harrison in response to a message stating that Mrs. Walter Whitcomb was seriously ill.

—R. W. Morris, at one time N. P. agent at this place and who during the past year has been agent at Moscow, has been assigned the station of Toppish on the main line.

—At the recent sale of school land held at Moscow C. Shoup purchased a forty in 16 at \$33 per acre and another forty in the same section at \$27. Others who purchased forty acre tracts in the same section were: Claus Peterson, at \$33; C. Wilson, at \$28.50.

—Idaho women have shown their interest in the Lewis and Clark Centennial by voting to move \$1,000 worth of fine furniture, purchased by the federation of women's clubs, from the Idaho building at the St. Louis World's Fair, to Portland. In case Idaho should not have a building at the Centennial, they will offer the furniture for use in the general reception rooms set aside for women in the Oregon building.

—The caretakers of the Washington Agriculture college, at Pullman, numbering 300 students, with a band of 30 pieces, will camp at the Lewis and Clark Exposition next June. The organization will participate in military parades and give daily drills on the exposition grounds. Many other military organizations will camp at the exposition during the summer and military parades and drills will be a feature of exposition ceremonies.

—Reports of Intermediate department, third month, ending Dec. 2. Number enrolled, 28; number days taught, 18; average attendance, 15.3; number in perfect attendance, 6; Wesley Morgan, Cornelia Kamritch, Oliver Nisbet, Eva Patterson. Number of tardiness, 12; Mabel Steltz, 3; Julia Waller, 2; Carrie Matson, 2; Pearl Spurbuck, 1; Elsie Matson, 2; Henry Day, 1; Joseph Kern, 1.

Bassie Wilson, Teacher.

—An army of 800 men has been secured actively to represent the Lewis and Clark Centennial in territories covering nearly the entire area of the United States. These men are the immigration agents of the Union Pacific and Northern Pacific railroad companies who come in contact with hundreds of tourists and homeseekers every month. The agents have promised to do all in their power to induce people to visit Portland next summer, and it is expected that their efforts will bring several hundred visitors to the fair.

The bright day in the calendar will soon be with us again, though the sun will have set its face towards the summer. The passing years have not dulled the eagerness with which men cherish the Evangel of Bethlehem. There have been many messages in these later days, but in the midst of our intellectual unrest and social discontent, there is none so meaningful, so profoundly insignificant, so deeply spiritual, none that the world is more in need to hear more frequently than this: "Behold, I bring you good tidings of great joy, which shall be to all people, for unto you is born this day in the city of David a Saviour, which is Christ the Lord." This is the message that strikes through our earthly pessimism with a power that recovers and blesses our lives. The Christ-child is still the most splendid fact in the history of this cold cynical world. Cramped and crowded as we are by the things that are seen, it means much that this fact still the great world's noisy machinery, closes the offices and work shops, causes the man on the street, as well as the man in church, to move nearer to a knowledge of Him whose nature and whose name is love.—From The Pacific Monthly for December.

—Oscar Larson was here from Troy Tuesday.

—W. C. Owen is transacting business in Spokane this week.

—Mrs. Chas. Power returned home Sunday from her visit to Spokane.

—Mrs. Lanta Stuart left Wednesday morning for Seattle to reside permanently.

—Mr. and Mrs. P. J. Quillin now occupy the living rooms in R. Pickering's building.

—Miss Randall, of Palouse, a sister of Miss Cora Randall, was a visitor here over Sunday.

—The News office this week supplied a number of the business houses with a fine assortment of calendars.

—The extensions to the water system in the Bressler neighborhood and on the Congregational hill are about completed.

—Frank Haylett, who left here a few weeks ago to take up a permanent residence at Aberdeen, So. Dak., returned to Genesee Friday.

—Mr. and Mrs. George Raymond came down from Spokane Tuesday for an extended visit. For some time Mr. Raymond has been in poor health and is still somewhat indisposed.

—The rural telephone system is gradually on the increase. The following new 'phones have or will be installed at once on the line east of town: Al. Whitted, Henry Whitted, J. H. Frizzell, T. O. Miller, A. M. Wardrobe, M. N. Fellers, Arthur Butzner, Martin Williams, Ernest Peterson.

—Thomas H. Brewer, one of the bankers of Genesee, Idaho, and a stockholder in the Northern Mercantile company in this city, was a Sandpoint visitor last week looking over the company's business and the foundation work for their new business block on First street.—Sandpoint News.

—Rev. O. C. Hellekson returned Friday after an absence of several weeks. At Coeur d'Alene he assisted in dedicating a new Lutheran church. At Kennewick he conducted services at which there was present some twenty-five or thirty former residents of this section. He reports that they all seem well and happy and that they wished to be remembered to all old friends here.

—The divorce case, Lanta Stuart vs. Chas. Stuart, was tried Monday of this week at Lewiston before Judge Steele. The divorce was granted and Mrs. Stuart was given the care and custody of the two minor children. Their acre property and residence in the northern part of town has been disposed of to M. L. Hardy, the proceeds of the sale going to Mrs. Stuart. At the trial Mrs. Stuart was represented by Attorney Hans Bugge and Mike Driscoll and Tom Day appeared as witnesses.

—Thursday of last week Ben E. Bush, county surveyor, and Albert Dygert and A. S. Lyon, viewers, met at the Ed. Peterson farm just east of town for the purpose of making a resurvey for the proposed change of road. The road as now mapped out will be some distance east of the former survey, and while in not as good ground, the same being considerably lower, will be where Mr. Peterson desired to have it. A large number of people from the Potlatch section and in the Peterson neighborhood who are interested in the proposed new road were present when the survey was made.

**No Cases of Pneumonia on Record.**  
We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures cough and cold perfectly, so do not take chances with a severe winter preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. Sold by Dr. P. S. Beck.

—Tom Day loaded a car of hogs for shipment Wednesday.

—James Mullaley left Friday for a visit at Spokane and Kennewick.

—C. E. Wood and J. K. Bell transacted business in Lewiston Tuesday.

—The dance given Friday evening by the Knights of Pythias was well attended and a fine time was had by all present.

—Mrs. James Jackson returned home Tuesday from her visit of several weeks at her former home in Darlington, Wis.

—Math Jacobs, a former well known resident of this county, but now a resident of San Francisco, was a visitor here the latter part of the week.

—H. J. Blake, of Chicago, a traveling special sale conductor for The Fair stores, is here this week assisting Mr. Marquand to arrange for the special sale which starts at the local Fair store tomorrow.

—Ira Wyckoff has disposed of his residence property in the eastern part of town to J. E. Moore and will give possession in a day or two. Today, commencing at 1 p. m. he will dispose of his household effects and as soon as affairs can be straightened up will leave for Kennewick with his family where he expects to work at carpentering throughout the winter.

—A Kennewick item in the Spokesman-Review says: "A brass band will be organized here in a few days. Among the many strangers that have arrived during the first six months there have been an unusual number of musicians, and a meeting was called when so young men were found who played some instrument. It was decided to send to Genesee for a leader, and as soon as he arrives the band will be organized."

—The Northern Pacific Railway announces that a regular heating service will be maintained on freight cars during the winter months. Cars heated by lamps will be re-oiled every twelve hours by train crews and when held at terminals will be run into roundhouses if temperature reaches to degrees below. Cars of fruit, vegetables, eggs or cheese, when not heated with lamps are to be roundhouses when the thermometer registers 5 below zero, unless they are equipped with a stove and a man accompanies them to tend the fires. Cars of beer and canned goods are to be roundhoused at 10 below zero and all perishable freight delayed at terminals is to be put in the roundhouse when the weather falls below zero.—Trade.

—Skating on Cow creek is said to be quite good.

—Nat Brown, of Moscow, was a visitor in the city yesterday.

—Mrs. Will McMahon, who has been seriously ill, is reported as being greatly improved.

—Mr. and Mrs. Hans Bogge, Messrs. Hammond and Elkum visited Lewiston Wednesday.

—Daniel Sullivan, who left here a few weeks ago for Dayton, Ohio, where he is associated with a socialist publishing house, writes to have the News sent to his new address.

—Mr. and Mrs. Martin Hasfurther, who left here with the special car some weeks ago bound for St. Louis, returned home Saturday. After devoting considerable time in viewing the fair they visited with Mr. Hasfurther's relatives in Chicago.

—E. S. Aldrich advises us that a dynamo will be installed at the mill the coming week for the purpose of starting the electric light plant to temporarily provide lights until the electric line from Clarkston is completed. The report circulated this week to the effect that the line from Clarkston would not be put into use at Genesee until the new auxiliary plant is completed at Clarkston, is denied by Mr. Aldrich, who says that they expect to have everything in running order by the first of the year.

—Word reached here Wednesday from Salmon river that Henry Herman, who was last week accidentally shot with a 22 caliber rifle, was being brought out and would be taken to Spokane to be operated upon. The message came from Forest and stated that while he was in a very serious condition as a result of the bullet having punctured the intestines, he had stood the hard trip up the hill remarkably well. It was planned to reach Spalding yesterday morning in time to catch the early train for Spokane. George McMahon, who has been on the Salmon since the accident took place, left there a short time in advance of the party and reached here Wednesday evening. While coming up the big hill from the river to Forest, Mrs. W. J. Herman was thrown from a horse and severely bruised.

—We are in receipt of a communication from J. B. Lees, a former well known Geneseean, who is now residing at Sterling, Kansas. Said he sent to St. Louis to meet some of the Idaho folks, but failed. He is anxious to know whether or not local democrats have read carefully the late election returns. He concludes his letter by saying: "On looking at the calendar, find the mud seven inches deep in Genesee on this date. Kansas beats Idaho for weather and roads for certain." That must have been Hick's calendar, James, that you looked at, and one of very ancient date. On this date and throughout the entire fall, Idaho has enjoyed an article of fine weather that would put the bleedin' Kansas variety to shame. And the roads, say Jim, they're immense.

### SCHOOL CENSUS OF IDAHO.

Over Sixty-Eight Thousand of School Age in the State.

According to reports received by Miss Scott, state school superintendent, from county superintendents, there are 68,537 persons of school age in the state. Miss Scott admits the probability of the returns being faulty, some of the county superintendents having reported that the greatest difficulty had been experienced in getting anything like a correct enumeration. The following shows the census of last year in comparison with that of 1904, as reported to Miss Scott:

County.	1003	1904.

### FIIGHT FOR TIMBER TAXES.

#### Latah County Attorney WM Givens

Moscow, Idaho, Dec. 4.—County Attorney Stillinger is preparing to put up a hard fight next March in Boise when the famous timber taxation case comes up in the federal court. Mr. Stillinger has secured Attorney C. J. Orlan to assist him, and expresses confidence that Latah county will not lose the taxes on the timber lands for 1903 and 1904.

"The reason I consented to a continuance at the last term of court here," said Mr. Stillinger, "was because W. E. Borah, the attorney for the timber companies, was busy at Walla Walla and could not attend. He requested that the case be continued till March, when it will be tried at Boise.

"This suit involves about \$4,000 of back taxes on timber lands, which these big corporations have bought of the state. The companies not owning the land on which the timber stands, claim it can not be assessed as real estate, and also contend that timber is not personal property. The question to be decided by the court is whether the timber is taxable and under what classification.

"I have advised the county assessor to assess the timber as equity, which I believe will hold good whether the court decides that it is real or personal. I do not think Latah county will lose. Some of the other counties which may have assessed the timber under some classification that will not apply to the court's ruling may lose back taxes. Latah county is alone in this fight, but the case is of the utmost importance to all northern Idaho."

### IDAHO FRUIT GETS MEDAL.

Best Collective Display and Keeping Qualities.

Boise, Idaho, Dec. 3.—A dispatch from World's Fair Commissioner Hurt brings the information that Idaho has secured the gold medal for collective display of fruits and for keeping qualities of fruit. The fruit exhibit has secured 56 gold, silver and bronze medals.

### RECTOR OF ST. LUKES.

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 18, 1908.—I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was distressed with a cold and cough that I did not think I was able to take any medicine the next day, as my voice was almost choked by the cough. The same day I received an order for a bottle of your cough remedy. I at once procured a sample bottle and took about three doses of the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your cough remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy. Respectfully yours, B. A. LAMORELLO, M. A., Rector of St. Luke's Church. This remedy is for sale by Dicus & Co.

### WILL REVIVE MORMON ISSUE.

Former Senator Heitfeld Declares Next Election Issue.

Lewiston, Idaho, Dec. 4.—"The Mormon question will undoubtedly be the principle issue in the campaign two years hence," said former Senator Henry Heitfeld last evening. "The past election has by no means settled this important question. It has only paved the way for the election two years from now when the question, in my opinion, will be fought out on strictly party lines, with the democrats taking the same stand they did this year. Democrats all over the county are taking the same stand."

Mr. Heitfeld has been confined to his home for the past three weeks with a badly wrenched knee, resulting from a fall. He expects to be out again in a few days, but declared his intention of giving up his law practice.

"It has given up enough time in the past eight years," said he, "and next spring I will move to my ranch in the northern part of the county with my family and live there. I shall not maintain my law office. I prefer the life on the farm, and it is more profitable."

### Write Me About Your Trip.

"The Northwest Line" offers the best of everything at lowest rates. Close connections made at St. Paul with all transcontinental trains. ### Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended early by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after every thing else had failed. Improvement came at once and four bottles entirely cured her." (Instigated by Dicus & Co., druggists.)

Entered at the Post Office at Genesee as Second Class Matter.

Genesee, N. Y., Dec. 16, 1904.

Subscription price, strictly in advance, \$3.00.

—Mr. and Mrs. Marion Nelson left Monday for Rosalia in response to a message stating that a cousin of Mrs. Nelson was dangerously ill at that place.

—On Tuesday of next week a shooting contest will be conducted on the Robert Heingartner place near Lenville. A large number of geese and ducks will be given as prizes.

—The condition of Henry Herman who was last week taken to Spokane is but little changed. Owing to his weakened condition an operation was not performed. His recovery is very doubtful.

—The following are the newly elected Rebekah officers: P. N. G., Mrs. Mattie Keiser, N. G., Mrs. Jennie Robinson, V. G., Mrs. Lulu Jain, F. S., Mrs. J. A. Ball, P. S., Mrs. Hans Bugge.

—Le Rue Tice returned home Saturday from his trip to Omaha and other Nebraska points. He was successful in disposing of three cars of apples which he took with him but at a very small margin of profit.

—The Rainbow club has issued some beautiful poetical invitations for a "last chance" leap year dance to be given Monday night of next week at Elliot hall. Tickets will be \$1, and the grand march will form at 8 o'clock.

—Gust Peterson writes us from Bellingham that Mrs. Peterson is very dangerously ill. Saturday of last week she was so low that very little hope for her recovery was entertained. At date of writing, Monday, she was some better.

—The Woodmen of the World have elected officers as follows: Mike Driscoll, C. C.; Harry Wyckoff, A. L.; D. C. Burr, banker; Albert Sanford, clerk; P. S. Beck, clerk; D. Sweezy, watchman; Ed. Erickson, secretary; Emil Thoma, manager.

—Dr. E. R. Lemman was here from Lewiston the latter part of last week. While here he completed a sale of his so acre tract of ground east of the city to J. M. Ramsey, a son in law to Mr. Rogers and a recent arrival from Oregon. He was given immediate possession.

—Mrs. Paul Blanchard, living in the eastern part of town, died yesterday morning after a brief illness. The case is a sad one and particulars of the death would not look well in print. She leaves a husband and two small children. At time of going to press arrangements for the funeral were not completed.

—Joseph Rossi, an Italian who has been stopping at the Summit house at the top of the Fountain grade on the Lewiston road, is reported to have fallen heir to his uncle's estate in Italy valued at \$58,000,000. Rossi was highly educated in Europe and came to this country several years ago. He married a Spokane lady against his father's wishes and on returning home was disinherited. Later he returned to this country penniless and about that time his uncle died leaving his property to his nephew but placed it in the father's charge who held it until recently before turning it over to his son. Rossi intends going to Italy in the spring and will then sell his vast estate and return to this country to live. He says that to gratify a wish of his wife he will finance the electric road from Lewiston to Grangeville. He plans on building a mansion in Lewiston.

Those wishing cider call at fruit house or see LE RUE TICE.

**OSTEOPATHY.** This science as originated and developed by Dr. A. T. Still, of Kirksville, Mo., is a science of treating diseases of the human body; which regards disease as the product of an obstruction to or derangement of nerve force and circulation. It requires no faith, or drugs. Osteopaths views man as a machine of so many parts, its keynote is adjustment. When all parts are properly adjusted and not overworked, health is the result. Hence by manipulation of the bones, muscles and ligaments, or by stimulation or inhibition of nerves and nerve centers we remove the obstruction or derangement, so that nature may resume her perfect work. When all parts are properly adjusted, health is the result. Almost every form of ailment or disability has succumbed to this treatment. Consultation and examination free. DR. IDA KARTOWITZ. Office in the Nebelbeck block.

—John Kambich is again seriously ill with inflammatory rheumatism.

—Asotin will have a new brick hotel, the same to be erected by Ben Ayers.

—The Congregational ladies' aid will meet Wednesday of next week in the church basement.

—Jack Koepfel, brother of Mrs. John Kambich, was a visitor here from Pullman over Sunday.

—The big St. Louis fair, while not a great financial success, took in sufficient funds to liquidate all debts.

—Frank Robinson was a Moscow visitor the latter part of the week and took the Red Cross degree in Masonry.

—Max Aronson, the well known Moscow tobacconist and confectioner, has suspended business, his stock having been attached by creditors.

—Dr. J. L. Conant returned home Sunday after an absence of several days in the Salmon river country and at Spokane on professional business connected with the Henry Herman case.

—The proposed amendment voted on by the people of Idaho at the recent election to change the mode of electing county commissioners so that the term of all would not expire at once was defeated by a majority of 1798.

—George Steltz returned Saturday from a visit to Irrigon, Oregon, situated in an irrigation district opened up last year. He made an investment of nine acres of ground on the ditch. In his opinion the place has quite a future before it. Says land sells at from \$50 to \$100 per acre.

—David Spurbeck came in Saturday after an absence of several weeks in the eastern states. From here he went to Klamath, then to Duluth, Wis., where he joined a G. A. R. party and took in the big encampment at Boston. Returning he visited with relatives and friends in New York state and Minnesota. He reports having had the time of his life. He expects to remain here until after Christmas at least.

—An open meeting of the Moscow Business Men's association was held Wednesday evening in that city. It was aimed to have every locality in the county represented at the meeting and to give all a chance to discuss matters concerning the county to be brought before the coming session of the legislature. James Mulalley, representative elect, left for Moscow Wednesday morning to be in attendance at the meeting. A number of others had planned on driving across but were prevented owing to the stormy weather.

—At last the pension roll of the United States exceeds one million of persons, the number now being 1,000,881. It is thought the maximum has been reached. There has been a corresponding increase in the payments, but it is given out that the expenses of running the bureau are to be curtailed, and that in the near future some five hundred clerks may be dispensed with. Many of them are receiving larger salaries than they could earn if left to their own resources, and reductions are proposed. This has already taken place in the fees of examining surgeons. As Speaker Cannon says, one way to make both ends meet is to practice economy. Other people have to do this, and government employees are not exempt from the common lot of humanity.

**PIPES.**

Nothing would be more acceptable to the average husband than his better half for a Christmas present than one of the fine amber or briar pipes on sale at SMOLT'S.

Do not overlook the fact that you ought to have your Photos made before Xmas. I now have a nice line of new mounts to select from. I will be here every day except next Sunday when I will be in Uniontown. I will be back in the afternoon perhaps in time to open up. C. W. HANSON.

Thousands of little ones die every year of croup. Most of them could have been saved by a few doses of Foley's Honey and Tar, and every family with children should keep it in the house. It contains no opiates and is safe and sure. Mrs. George H. Fickett, San Francisco, Cal., writes: "My baby had a dangerous attack of croup and so I thought she would choke to death, but one dose of Foley's Honey and Tar relieved her at once after other remedies had failed. We are never a minute without it in the house." Sold by Dr. P. S. Beck.

—H. L. Hardy has invested in several pens of blooded chickens. Those who have seen the birds say they are fine ones.

—Robt. Wardrobe, who for some time has been working with a surveying party in the southern part of the state, returned home Saturday to remain until spring.

—Moscow will make an effort to have a federal building erected in that city. The matter is now in the hands of a committee which will at once begin work on the project. If successful the building will be used for the federal court, the necessary offices, and the post office.

—L. F. Darr Tuesday purchased from J. J. Gaus the lots on the corner of Main street just north of Vollmer & Scott's store. Consideration \$500. Mr. Darr will erect a modern brick block on the lots to be occupied by his hardware, furniture, harness and implement business.—Uniontown Press.

—Our merchants are showing the finest line of holiday goods this year they have ever carried, and in their efforts to keep from carrying any great amount over are naming prices that are hard to duplicate. Christmas trade has opened greatly in advance of previous years and those who have planned on buying any article displayed would do well to have them reserved.

—All members of Unity lodge No. 32 A. F. and A. M. are requested to be present at the next regular communication, Dec. 23, 1904. Business of importance demands your attention. C. F. BURR, W. M.

—Hiram E. Church and David E. Church have deeded to Robert H. Russell for a consideration of \$1,600, the residence and lots 1 and 2, block 15, North addition to Genesee. The property has been occupied by Mr. Russell and family for some time.

—Troy was visited by a \$20,000 fire Friday morning of last week. The fire had its origin in the saloon of John Knudsen and soon spread to adjoining building. Chas. Reimann, who conducted a meat market in the principal loser. C. A. Sullivan sustained a loss of \$2,200 and a number of others' less amounts. The fire, which started at 2 a. m. is supposed to have been of incendiary origin.

—Last Thursday night, Fred Parrot, who operates the N. P. lunch counter at Pullman, when returning home was shot at by some unknown person who was concealed behind a box car. The bullet plowed through Mr. Parrot's hat. Drawing his own revolver he fired several shots at the would be assassin who in turn fired one more shot. It is believed that the shooting was the work of a novice at the holdup business. It is believed that two were implicated and suspicion points to two young men who had been hanging around Pullman prior to the shooting but disappeared immediately afterwards.

—D. Scharnhorst and T. P. Darr returned the latter part of last week from a hunting trip in the Lolo country. Leaving the train at Genesee they were joined by a third party and with team drove to the end of civilization. They then packed their outfit a considerable distance. In the upper Weippe they were successful in killing two deer and in the Lolo country two more. After having killed the first two they hung them high up in a tree and in returning for them some days later found that a cougar had been helping himself and had eaten a considerable portion of one of the carcasses.

—The Devil's Auction has been on the road continuously for twenty-two seasons. The circus has sold its many thousands of patrons throughout the country. It has always been kept up to the times with novelties and innovations, making it each season a new performance, simply retaining the old name as a trademark. It has never presented anything so different and new to women and children. The theatre going public are always sure of enjoying a pleasant evening's entertainment and seeing what the management has in store. One reason that everybody should see it this year is that the 23rd edition of "The Devil's Auction" is new in its entirety. Manager Ford of the Auditorium gives his personal guarantee that "The Devil's Auction" is one of the best, if not the best, attractions he has booked this season. At the Auditorium, Friday evening, Dec. 16.—Pullman Herald.

For the above entertainment another excursion will run from Genesee to Pullman. Leaving time of train will be 6:30 and the fair will be charged for the round trip. Theatre prices are: Lower floor, \$1.00; balcony, 75c; gallery, 50c. Those wishing to engage seats may call upon Hans Bugge.

—The funeral of Mrs. John Olson, who died Thursday of last week, took place Saturday from Vor Freiler's Norwegian Lutheran church, north of town, Rev. O. C. Hellekson preaching the sermon. The deceased was about 57 years old and died from cancer of the stomach. Mrs. Olson's later years were sad ones. Six years ago her husband induced her to join in selling their ranch north of town, and the money was divided between them, she receiving nearly \$2,000 for her share. A little later he prevailed on her to go with him to British Columbia, on the plea that they could get free land there and buy other land and become wealthy in a short time. There she said he secured possession of her money and left her stranded. Some friends cared for her during the winter and helped her to return to Genesee. Meanwhile the husband went to Norway, giving out that he was an American millionaire. A visitor from this place to Norway put an end to that claim by exposing him, and he disappeared. He is supposed to be in this country now. Of late years Mrs. Olson has occupied a small house which she built out of her savings on the Lars Olson farm, and has supported herself by working as cook for threshing crews and in private families until sickness laid her low. Then a son of her husband by a former marriage cared for her till her death. A large concourse of people attended the funeral.

—The dynamo to be used in supplying lights until the current on the Clarkston line is turned on, arrived here Wednesday from Moscow and is now being put in position at the mill. Mr. Aldrich states that lights will be turned on Saturday or Monday. The setting of poles and stringing of wire on the Clarkston line is now practically completed but owing to the nonarrival of some necessary supplies the current will not be turned on for some time yet.

Experience has taught us that you can do business with some of the people some of the time with a small stock of goods, but to do business with all of the people all of the time, you must not only carry a large stock of goods but the stock must consist of a great variety.

**Our Christmas Stock This Year is the Admiration of All Who See It**

We often hear it remarked: "What do you expect to do with all of these?" We simply reply: "Sell them, of course, that is what we bought them for." In buying in such large quantities, we bought them right. That means you can buy them from us the same way.

We invite you to visit our Christmas booth whether you buy or not. We certainly want you to see our display.

HUMPHREY IN PORTLAND.

Moscow, Idaho, Dec. 12.—Nicholas Humphrey, the aged man who suddenly disappeared from home in Portland, Ore., by Casper C. Lien, was seen at 530 Williams avenue, Portland, and W. K. Hilton, whose address is room 504 Mohawk building, Spokane. Both Lieualle and Hilton were former residents of Moscow and knew Humphrey well several years ago.

Both men having read in The Spokesman-Review an account of the disappearance of Mr. Humphrey, wrote to the sheriff's office here the fact of having seen and conversed with Mr. Humphrey at the corner of Third and Burnside streets, in Portland, on the 26th day of October. Mr. Hilton wrote from Spokane recently stating that he had seen Mr. Humphrey on that date, while in Portland in company with Mr. Lieualle. The next day a letter was received from Mr. Lieualle, from Portland, saying that while in company with Mr. Hilton he had met and conversed with Mr. Humphrey, but that he was not sure as to the date.

HUMPHREY ACTED QUERULY. This information is accepted as being correct. The men wrote that Mr. Humphrey acted rather queerly for an old acquaintance, and seemed to be restless and nervous, and after giving them a brief account of what some of their old acquaintances in Moscow were doing, inquired as to how they were getting on in their new surroundings. It is thought by way that the place for which Mr. Humphrey inquired was the home of some friend, but this has not yet been confirmed.

What a feeble man, 78 to 80 years old, with only \$12.50 to start with, could be doing among strangers for seven weeks is puzzling officials who are looking into the matter.

It is now believed the report that Mr. Humphrey was seen in Colfax by Joe Keefe and J. J. Turriah of Spokane was correct, but that they are mistaken as to the date.

PRESIDENTIAL RESULTS.

A canvass by the New York Times of the popular vote at the last presidential election, complete except as to one county in Tennessee, and four counties in Michigan, for which estimates are given, shows that President Roosevelt defeated Judge Parker 2,546,219. He polled the largest vote ever given a president of the United States, 7,640,360. This is more than 400,000 in excess of the vote cast for McKinley in 1900.

The official figures for Missouri show that Roosevelt carried that state by 25,600.

In Maryland one republican elector received the largest vote, but his colleagues were defeated. The democrats of Maryland therefore will have seven votes in the electoral college, while the republicans will have only one.

A comparison of the vote table of 1900 shows a marked change in the socialist vote. Debs, the candidate of the party that year, was also this year's candidate and his vote shows an increase of more than 300,000.

The total vote is given as 13,534,119, and that for each presidential candidate is given as follows: Roosevelt, republican, 7,640,360; Parker, democrat, 5,094,341; Debs, socialist, 392,857; Swallow, prohibitionist, 248,411; Watson, populist, 124,381; Corraigan, socialist labor, 33,519.

The electoral vote will be 336 for Roosevelt, and 140 for Parker.

Doctors Could Not Help Her. "I had kidney trouble for years," writes Mrs. Raymond, daughter of Shelton, Wash., "and doc's r's could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief, and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eliminate the poisons from the blood. Unless they do this, good health is impossible. Sold by Dr. P. S. Beck.

A Costly Mistake. Blindness are some times very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for dyspepsia, biliousness, headache, liver or bowel troubles. FOLEY'S HONEY AND TAR. For children's cough, croup. No opiates.

DOES IT PAY?

The question is often asked, does it pay to farm a large acreage, or is it more profitable to have a small farm? In regard to this we publish the following clipping which shows that there is some argument in favor of the small farm.

"Ten years ago a German market gardener, trained in the thorough methods of the Fatherland, came to Omaha and began a search for a small patch of ground, says a writer in the Boston Transcript. He bought a three acre corner from a 280-acre farm, paying for it in installments in cash and going in debt for the remainder of the price. The man from whom he bought was farming on the western plan—raising corn, corn, corn, year after year, on his entire acreage—and finding it decidedly unprofitable. Each succeeding year left him more and more discouraged and out of countenance with his craft as his liabilities accumulated and his assets were eaten away. He laughed at the hope of the German that he could prosper on a paltry three acres.

"The German said nothing, but sawed wood. He studied the needs of his market, near by, and then set about supplying them. Himself an example of tireless energy and shrewdness, he made his little tract a model garden. Every day of the year he worked, using every square foot of soil to the uttermost, throughout the season. His stuff was always of the best, and every ounce was saleable. He had canceled his debt, he had bought two more acres, he had tucked away a comfortable little fund of rainy day money, and meanwhile he had supported a family of the regular German size. To-day he has 10 acres—such as he wants, and is reaping the fruit of his wisdom.

"The pretty girl on the cover of The Designer for January will undoubtedly tempt more than one man to investigate the pages to which the look of soul beauty in this number has a decidedly western flavor: 'A Chinese New Year in California,' by Jessie Juliet Knowl, and 'The Stanford University and Its Girls,' by Sarah Comstock, Stanford, '96. The unfortunate musician who has had a Wagnerian afternoon ruined by chattering neighbors, will heartily appreciate 'At the Matinee,' a monologue by Harvey Peake; and the observing man of the woman who has watched the wonderful contortions of which the human countenance is unconsciously capable, will concur with Bertha Hasbrook, who writes on 'The Making of Faces,' in 'The Interest of Beauty.'"

Fight Will Be Bitter. Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles. If not ended earlier by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after every other had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by Dicus & Co., druggists.

Pirating Foley's Honey and Tar. A GENTLEMAN'S RESORT

JOHN McMARTIN, Prop.

—A party of railway surveyors, supposed to represent the O. R. & N., are said to be running a line in the northwestern part of the county.

—Ben M. McConnell, son of ex-Governor McConnell, has been recommended to succeed Robert Briggs as supervisor of the Priest River forest reserve.

—The application of Harry Gordon for a commutation of sentence from life to a term of years, was last Thursday denied by the state board of pardons. Gordon was sent up from this county some years ago for complicity in the killing of a young man by the name of Fox.

—There is little doubt but what the next legislature will pass a road law which will come nearer meeting the needs of the people than the present luxury. There seems to be an unusual interest in the matter throughout the state and a number of changes to remedy the defects in the present law are proposed.

—Surveyor General Esglepp opened bids at Boise the 18th inst., for surveying 16 full and fractional townships in the Couer d'Alene Indian reservation. There were 14 bidders, the lowest being Johnson, Hingate & Kioshen of Oregon City, Oregon. The estimate of the surveyor general for the work was in the neighborhood of \$22,000. The bid of the lowest bidder will amount to about one-half of this amount. The work totals about 180 miles of surveying.—Boise Capital News.

—There are in the United States 15,925,887 pupils enrolled in the public schools. New York has the most, 1,268,625. Pennsylvania is second, 1,163,509. Georgia, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Michigan, Minnesota, Texas, Wisconsin, have more than 400,000 each. Delaware, Idaho, Montana, New Hampshire, North Dakota, Rhode Island, Utah, Vermont, Wyoming have fewer than 100,000 each. The average percentage of enrollment to the population is 20.2; that is to say, there are a little over 20 per cent of the people of the United States in school. The percentage of school population enrolled is 71.54 per cent. The highest is in Idaho, 89.02 per cent. This speaks well for the pupils of Idaho, and for the educational interest of the people of Idaho.

—Not many years ago bank robbing was a successful occupation for crooks and thieves. This is now comparatively rare owing to the improved methods of constructing bank buildings, and the use of burglar proof safes and vaults. Post offices have taken the place of the old time banks and at present a wide and easy field for the burglar. During the last fiscal year no less than 1593 post offices in this country were robbed, or at the rate of over four for each day. In addition to these crimes go street and rural free delivery boxes were riddled of their contents. Exactly how to account for this increase of crime may be difficult, but it is plain that post offices are not protected as they should be.

—An immense toboggan slide, two thousand feet long, is one of the latest sensations planned for the Lewis and Clark exposition. The toboggan slide will extend from the high land on the main land facing Guild's lake, crossing the lake and ending at the Government peninsula, where the government buildings are located. Roller sleds will convey passengers, and the incline is steep enough so that the lake, almost a mile wide, will be crossed in a few exhilarating seconds. Connections with the Government peninsula will be numerous, but it is doubtful if any will prove as popular as the toboggan route. The Bridge of Nations, two thousand feet long, will be the ordinary route, but an automobile line and an electric launch system are also planned.

—According to the Tribune Engineer Folland, of the Northern Pacific, who has been operating on the prairie during the past few months in secret, is again in the field and is thought to be checking up the electric line survey and securing all the data available concerning that road. As the electric line, if constructed, will tap the center of the Nezperce and Camas prairie country and secure all the tonnage from this large section it is thought the object of the Northern Pacific at this time is either to purchase the electric right of way or construct a road into this section before the electric line can build as it is well known that when the electric line is once here it will control the bulk of the freight and traffic, which cannot be diverted to a road coming in later.

—John McMartin and John Larrabee returned home the latter part of last week from their trip to the Weippe country.

—The Washington state commission will ask the state legislature for \$75,000 to carry out the state's work in the Lewis and Clark Centennial exposition to be held in Portland next year.

—Voting machines were used for the first time this year in Evansville, Indiana. Forty of them were installed in as many voting districts. Twelve thousand votes were cast in these polling places. Three hundred candidates were voted for. Full returns from one district on presidential electors, state and county and township officers and members of the legislature were received just four minutes and thirty seconds after the voting was over. All of the others reported in full within an hour or two. The people of Evansville knew, long before bedtime, the exact majority received by each of the successful county and legislative candidates, as well as the majorities of the state nominees. Every voter was enabled to vote promptly, every vote was properly registered and the returns were given in full in a wonderfully short time.—Salt Lake Herald.

—At a farmers' institute held last week at Preston in the southern part of the state, Prof. Judson, in discussing the troublesome pear blight, is quoted as follows:

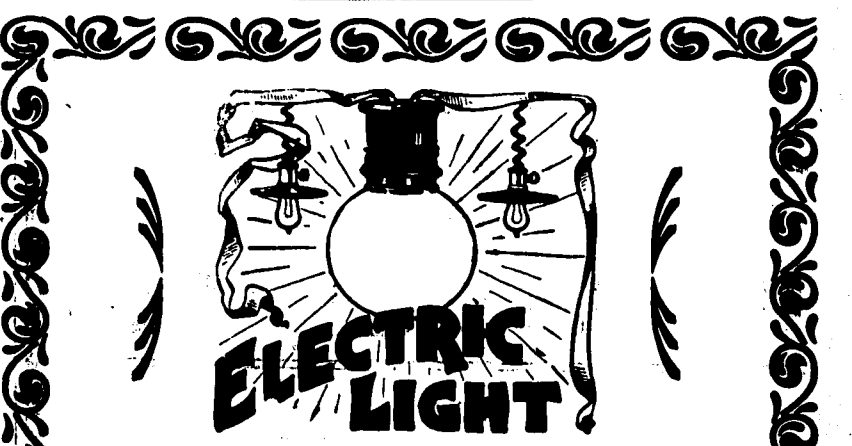

"He explained how the nectar of the flower is the very best place for the bacteria to multiply and how they go from there into the cambium layer of the tree and spread rapidly in the spring while the sap is in full flow. Prof. Judson cautioned against the so-called preventatives or remedies such as sprays and sulphur applications. Referring to one of these, composed mainly of sulphur and charcoal, which is recommended to be inserted in the tree by means of a hole to be plugged up after the preparation is inserted. Prof. Judson said that neither sulphur nor charcoal, is soluble in water, and hence could hardly enter the circulation. For that reason the alleged remedy could scarcely be effective. The only known remedy is the knife or saw, together with the use of disinfectants."

—James Conners was hanged at the Boise penitentiary Friday for the murder of Deputy Sheriff E. P. Sweet of Blingham county, at Blackfoot, on the evening of September 25. Sweet was attempting to place Conners under arrest for robbing the members of a Japanese section gang when Conners shot him.

—At the recent meeting of the University regents held at Moscow it was decided to ask the legislature for appropriations for two new buildings, one for a metallurgical laboratory and another for an agricultural experiment station. The estimated cost of the first building is \$35,000 and of the latter \$50,000. They will also ask for an increase in appropriation for maintenance over last year of about \$15,000.

—James Enstler, one of the proprietors of the Idaho saloon in Moscow, attempted suicide Sunday morning by shooting himself. He was disappointed in love.

—An Irishman and a colored man had a grievance, and agreed to fight. They further agreed that when one of them was licked, and wanted to stop he must yell "sufficient!" and the other must let him up. In a secluded spot they went at it hot and heavy. After half an hour the colored man gave up and whispered from the bottom of the mixup "sufficient." "Begorry! what a man you have," said the Irishman. "O'iv been trying to think of that word for ten minutes."—Ex.

There is nothing more satisfactory than to have your house thoroughly lighted in the most convenient manner possible and at the same time reduce your expenses to the minimum. This you can do with electricity. The light is always ready—there are no matches to bother with and no danger of fire. Simply turn a button and your whole house is lighted or a single light is turned on—as you like. There is nothing better, cleaner, handier or more satisfactory in any way. —Our merchants report having had an excellent Christmas trade.

—P. J. Quillin has been confined to the house this week on account of sickness.

—James Mulalley and other legislative representatives from this county will leave early next week for Boise to begin their labors.

—The usual Christmas services will be held at the Catholic church Sunday, at 5, 8 and 10 o'clock a. m. Special music has been arranged.

—The population of the Pine Grove neighborhood was increased Tuesday morning by the arrival of a ten-pound boy at the Ben Jackson home.

—A big New Year ball will be given on the night of the 31st inst. A charge of only 50 cents will be made for tickets and ladies will be admitted free.

—Peter Jackson and Oscar Surby left Wednesday for a hunting trip in the Blue mountain country south of Anatone. They expect to bag some big game before returning.

—The house committee on public lands Wednesday last week by a vote of ten to four, indefinitely postponed the senate bill repealing the timber and stone land laws.

—The electric lights were turned on Monday evening and in the main are giving excellent satisfaction. In some districts it has been found necessary to make changes in the transformers.

—The federal building at Boise which has been in process of construction for some years, is now practically completed, although it will not be ready for occupancy before March 1.

—Peter Steltz, Gust Beecher, George Blume and Ira Wyckoff have returned home from their trip to Irrigon, Oregon, where they went last week with a view to investing in some of the irrigated land in that section. As proof of their belief that the place has a bright future each invested in a five acre tract. In the irrigated territory there are some 12,000 acres which is owned by a private company. The land is held at from \$100 to \$150 per acre and is sold on easy payment. While there Peter Steltz invested in a business lot in the town for Dr. P. S. Beck.

Ira Wyckoff also invested in a town lot. He is the only one of the number who has decided to permanently locate there. He left with his family yesterday morning.

—The Herald is of the opinion that the new registration law ought to be repealed. The law as it stood was far better than the new law. The county commissioners have unearthed additional evidence to justify the repeal of the law. In checking up the registers they found a number of instances where the officers in transferring names from the old to the new register, neglected to transcribe the additional data that is supposed to accompany each name. This and the fact that election officers often fail to turn in their records would soon put our registration books in an utter state of uselessness. Election day found many voters who had changed residence, registered in more than one precinct, by reason of the mistakes liable under the new law.—Kootenai Herald.

**OSTEOPATHY.** This science as originated and developed by DR. A. T. STILL, of Kirksville, Mo., is a science of treating diseases of the human body; which regards disease as the product of an obstruction to or derangement of nerve force and circulation. It requires no faith, or drugs. Osteopathy views man as a machine of so many parts, its keynote is adjustment. When all parts are properly adjusted and not overworked, health is the result. Hence by manipulation of the bones, muscles and ligaments, or by stimulation or inhibition of nerves and nerve centers we remove the obstruction or derangement, so that nature may resume her perfect work. When all parts are properly adjusted, health is the result. All most every form of ailment or disability has succumbed to this treatment.

**CHURCH NOTICES.**

Services in the Lutheran chapel on Christmas day at 2:30 p. m.

Services as usual will be held at the Congregational church Sunday morning. Christmas services will be held in the evening with special music.

The ladies' aid society and the Dorcas society of Our Savior's congregation will serve a dinner and hold an auction sale at the home of Mr. George Tegland on Friday, Dec. 30. Both societies have a nice line of needlework that would prove a useful article and an ornament in every home. All are cordially invited to attend.

—An army of 800 men has been secured actively to represent the Lewis and Clark Centennial in territories nearly the entire area of the United States. These men are of the immigration agents of the Union Pacific and Northern Pacific railroad companies who come in contact with hundreds of tourists and homeseekers every month. The agents have promised to do all in their power to induce people to visit Portland next summer, and it is expected that their efforts will bring several hundred visitors to the fair.

—One day last week Barney Broemmeling and Frank Bowman had rather an eventful experience on the reservation east of town. To start the day's excitement in the morning together they had been out hunting. Having bagged a number of birds Mr. Broemmeling asked Mr. Bowman to hold the birds, and after delivering them, in lowering his gun to the ground caused the same to be discharged, the shot passing upward and made a good sized hole in his hat brim. While Mr. Broemmeling thought the occurrence excitement enough for one day such was not the case. Some time after nightfall when the two men were visiting at Mr. Bowman's home, a family dog set up an unearthly howl. Mr. Bowman, with the aid of a lantern, started out to learn what was causing the disturbance. To the rear of an old shed the form of what he supposed was some wild animal could be seen in the darkness. He called to Mr. Broemmeling at the house to come to his assistance and to bring the shot gun. He complied with the request and was by Mr. Bowman shown the supposed animal and was asked to take a shot at it. Mr. Broemmeling was of the opinion that Mr. Bowman should do the shooting and that he should hold the lantern. The exchange was made after taking deliberate aim Mr. Bowman let blaze. To their great surprise, following the shot, an Indian's form rolled into full view. The charge of shot had narrowly missed taking effect in his body and as it was a few feet lodge in his shoulder and several passed through his wide brimmed hat. It seems the Indian, who was full to the neck of corn juice, in passing by had taken shelter aside of the shed. When first seen only his head and shoulders were discernible in the darkness and it was very easy to mistake him for a wild animal. Following the shooting it was hard to convince the Indian that any of the shot had taken effect. The scare though had the effect of sobering him to the extent that he could walk home.

**PIPES.** Nothing would be more acceptable to the average husband from his better half for a Christmas present than one of the fine amber or briar pipes on sale at SMOLT'S.

Good 5c cigars at BECK'S DRUG STORE.

Do not overlook the fact that you ought to have your Photos made before Xmas. I now have a nice line of new mounts to select from. I will be here every day except next Sunday when I will be in Uniontown. I will be back in the afternoon perhaps in time to open up. C. W. HANSON.

**A Frightened Horse.** Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable saline handy and there's none so good as Buckley's Arnica Salve. Burns, cuts, sores, eczema and piles disappear quickly under its soothing effect. 25c, at Dicus & Co.'s drug store.

**THE NEWS AND SPOKESMAN-REVIEW TOGETHER ONE YEAR \$2.25.**

When you feel like sighing—sing, sighing will never pleasure bring, learn to laugh, you can laugh and laugh right. Buy taking Rocky Mountain Tea at night. Dicus & Co.

**Of Interest to Mothers.** Thousands of little ones die every year of croup. Most of them could have been saved by a few doses of Foley's Honey and Tar, and every family with children should keep it in the house. It contains no opiates and is safe and sure. Mrs. George H. Pickett, San Francisco, Cal., writes: "My baby had a dangerous attack of croup and we thought she would choke to death, but one dose of Foley's Honey and Tar relieved her at once after other remedies had failed. We are never a minute without it in the house." Sold by Dr. P. S. Beck.

Those wishing cider call at fruit house or see LE RUE TICK.

**HOLIDAY GOODS**

Saleable only at this time of the year is not my specialty, hence I do not overcharge for what I sell you in order to feel better able to carry the dead overstock of so-called holiday goods over until next Xmas.

Holiday goods are every day goods in my business—they are yearlong staples, but well as you all know, make the most appropriate holiday gifts and you will make no mistake in making your selection from my up-to-date stock.

—Band dance tonight.

—H. A. Morgan transacted business in Moscow Tuesday.

—Hans Bugge transacted legal business in Lewiston the last of the week.

—Mrs. Reidal and daughter returned Monday from their visit to the coast.

—Geo. Wahl, holding number 42, was the winner of the toilet set at Bilger's.

—Miss Clara Hobson and Miss Gladys Newsum are visiting Uniontown friends.

—Mr. Kartowitz, a brother of Dr. Ida Kartowitz, was a visitor here Sunday from Moscow.

—Mrs. Gilbert Crawford came down from Spokane the latter part of the week to remain during the absence of her mother, Mrs. Burr, in Alberta.

—Mr. and Mrs. J. L. Goodnight returned home Friday night from their visit with Mr. Goodnight's people at Vancouver, Wash. Returning home they visited at the coast cities and met a number of Geneseeites.

—Will Gray left Monday, by way of Lewiston, for California, where he will spend the winter months. He was accompanied by Mr. and Mrs. H. C. Powers who have been visiting with the Gray people at this place.

—The funeral of Mrs. Paul Blanchard, whose death occurred Thursday last week, took place Friday from the Methodist church, Rev. Canfield officiating. Her remains were laid to rest in the Odd Fellows cemetery.

—Clinton Wilson, from the Genesee country, arrived in Asotin last Friday evening and visited until Wednesday with the family of Frank Berry. It was his first visit to Asotin, and it is needless to say that he was very agreeably impressed.

—Mrs. C. F. Burr left Monday morning for Wetsakwin, Alberta, on a visit of several weeks with her father, sister and brother who reside at that place. She was accompanied by her daughter Mary. Mrs. Burr is making the visit largely to see her father who is now past 81 years of age.

—The excursion Friday to Pullman to witness the Devil's Auction performance was well patronized, the number going from here equalling that of previous excursions. All expressed themselves as being greatly pleased with the performance. The Genesee band accompanied the crowd and furnished music.

—J. N. Livingston was here from Graceland the first of the week, looking after his interests. Since moving to Whitman county Mr. Livingston has satisfied himself of one thing and that is that all lines of merchandise can be bought in Genesee at a less price than in the towns near where he lives. As proof of the fact while here he did a good amount of trading in our stores.

—H. A. Morgan informs us that a Denver party by the name of Reed has taken a ninety day option on 40 acres of his farm south of town, and as a guarantee deposited \$50. What the party wishes of the land Mr. Morgan is not fully advised but states that in his opinion the stranger is satisfied that the ground contains a deposit of fire clay and that it is his intention to establish a manufacturing plant.

—Rev. Fr. Berlocher is expected to arrive here today from Idaho Falls to remain permanently. He has been assigned to this field by Bishop Gloritus to assist Rev. Fr. Keezer in the missions of Thron Creek, Julietta and Kendrick.

—A three year old daughter of Mr. and Mrs. Joe Troutman died Wednesday morning at their home east of town and was buried Thursday morning from the Catholic church. The little one was one of twins and had, since birth, been an invalid.

—Christmas exercises will be held this (Friday) evening at the Methodist and Congregational churches. Great preparations have been made in the rehearsing of those who will take part in the exercises and each of the churches will be tastefully decorated.

—Fred Hanning, a bar tender in the Idaho saloon at Troy, has confessed to starting the recent blaze in that city which destroyed some \$20,000 worth of property. In a sworn confession made before County Attorney Stillinger he states that John Knutson, the owner of the stock and fixtures of the saloon, agreed to give him \$200 for the job. The stock and fixtures of the saloon had been insured for \$1,800, an amount said to have been greatly in excess of their value, and in the adjusting of the loss it is said that Hanning was trapped in a number of falsehoods which aided in getting him to make the confession. It is also said that Hanning claims that Knutson failed to live up to his part of the agreement, not having paid him the \$200 as agreed. Knutson is a well known farmer of the Troy country and is said to be worth at least \$10,000. Both Hanning and Knutson were placed under arrest and lodged in the county jail. They were given a preliminary hearing Monday and bound over to the district court. Bond was fixed in each case at \$1,500. Knutson employed S. S. Denning to defend him while County Attorney Stillinger is prosecuting the case. At the preliminary hearing no evidence was introduced.

—Wm. Follett has been a visitor here this week from Wilota.

—Saturday afternoon of last week Mrs. Budlong, state counselor, and Mrs. Nesbit, state secretary of the W. R. C. society, met with the local organization.

—The scholars of the rooms in our schools taught by Miss Burdick and Miss Kelsey will combine this afternoon in giving a Christmas cantata. The exercises will begin at 1:45 p. m.

—Will Gibb, who during the past summer and fall has been working with a state surveying party in the American Falls section in the southern part of the state, returned home Saturday to remain during the winter.

—W. J. Herman returned home Friday from Spokane where he has been looking after his son Henry. Miss May Herman went up Saturday to remain with him for a while. Thursday of last week he is reported to have taken a change for the better and the attending physician now states that he has a good show of recovering.

—James Mulalley, who attended the meeting of the Moscow Business Men's association at Moscow last Wednesday evening, reports that the same was well attended. The matter of granting the timber syndicates an extension was the principal topic up for discussion and a very small per cent of those in attendance at the meeting were favorable to an extension. In the late campaign the candidates on the county republican legislative ticket committed themselves at practically all of the political meetings held to oppose any measure introduced in the legislature favoring an extension of time for the syndicates to remove timber from the state lands. Mr. Mulalley states he is still of the opinion that the position taken by the candidates was a proper one and that he proposes to live up to it. Representatives Smith and Nelson are each on record as being opposed to an extension of time being granted.

Is Larger and Better Than Ever

Experience has taught us that you can do business with some of the people some of the time with a small stock of goods, but to do business with all of the people all of the time, you must not only carry a large stock of goods but the stock must consist of a great variety.

**Our Christmas Stock This Year is the Admiration of All Who See It**

We often hear it remarked: "What do you expect to do with all of these?" We simply reply: "Sell them, of course, that is what we bought them for." In buying in such large quantities, we bought them right. That means you can buy them from us the same way.

We invite you to visit our Christmas booth whether you buy or not. We certainly want you to see our display.

**Revolution Imminent.**  
A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly diagnose the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its soothing and strengthening influence. Electric Bitters is only 50c, and that is returned if it does not give perfect satisfaction. Guaranteed by Dicus & Co., Druggists.

**Doctors Could Not Help Her.**  
"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash. "and doct rs could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief. I am now cured. I cannot say too much for Foley's Kidney Cure. It makes the diseased kidney sound so they will eliminate the poisons from the blood. Unless they do this, good health is impossible." Sold by Dr. P. S. Beck.

**A Costly Mistake.**  
Blunders are sometimes very expensive. Occasional life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for dyspepsia, dizziness, headache, liver or bowel troubles. They are gentle yet thorough. 25c at Dicus & Co's drug store.

**STILLINGER'S OPINION.**  
County Attorney Stillinger has given out the following interview, concerning the timber question which appeared in last week's Mirror:  
"The concessions offered by the timber men to the people of Latah county, so far as I have been able to ascertain, in consideration of an extension of time, seem to me to be entirely unworthy of any consideration or serious thought on the part of the people. They tell us that if the time is extended they will build roads and mills. There are matters that they of necessity build anyway, from the very nature of their industry, and when they build them they will be erected wherever it is most advantageous and convenient to the company and the people of Latah county will not be considered. They tell us that they will withdraw their suits now pending in the courts and pay their taxes. The sovereign power to decide this matter does not repose in the Potlatch Lumber Company, but in the people of Idaho. We are here to say that if they will not pay their taxes voluntarily, to see that the laws demand that it be done, and if our present laws should not be sufficient to compel the payment, I know of no barrier to prevent the people from making laws that will have the necessary power."

When asked if he thought the Potlatch Lumber Company would hold the pending suit in court as a club over the legislature he said: "I cannot say as to that, but the people according to the conclusions of myself and associate counsel, need not entertain no fears in that matter. As I stated before, the sovereign power to make laws lies with the people and not with the lumber companies. They tell us also that they will manufacture this lumber in Idaho. Here is another matter that rests with the people and is not in the power of the lumber company to say whether or not they will manufacture in Idaho or any other state but with the voters of the state. Montana has laws compelling the lumber companies to manufacture all of the timber in the state where it is grown and what authority can the lumber companies quote us that will stand as a barrier to prevent the people from passing a similar law in Idaho?"

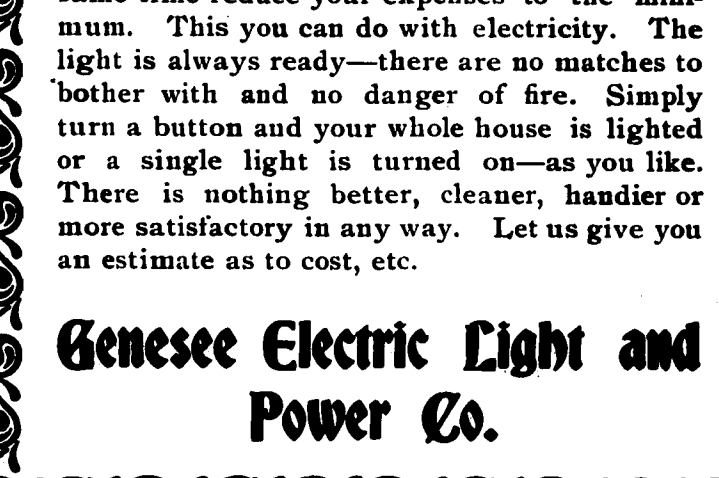

"They tell us that they will begin operations in 1906 if an extension is granted. Their vast holdings will compel them to begin equally as soon if no extension is granted. This concession has not a single prop to hold it up as a rightful concession. If this timber question must create such a sea of trouble and if it is necessary that the people of Idaho must make enormous sacrifices to a timber company, already wealthy and may grow richer in wealth then I hold that it would be far wiser and better for the people of Idaho to re-cure those lands which ought to be a good investment. This is a question that has two sides to it—that of the Potlatch Lumber Company and that of the state—and if the state does not want to lose its rights or make sacrifices that can never be repaid, they must not be led away by illusive concessions."

**NORMAN JACKSON ON EXTENSION.**  
Norman Jackson, chief clerk of the state land board, in a recent interview expressed himself as follows:  
"It would be a great injustice to the state as well as to the interests of the people should the extension be granted and would work no hardship against the timber interests by reason of a refusal."  
Mr. Jackson states that when the timber was sold to the syndicate on state lands three years ago that they were fully advised that the right only to cut timber from the lands for a period of twenty years was sold and that those directly interested were fully informed on the situation. He states that they will have seventeen years to work off the timber and there is no doubt but what many millions of dollars worth of timber would be cut during that time. That timber which remains on the ground after that period will revert to the state and it would deter the progress of the country were the contract originally set forth not carried out. All the land when cleared of timber will revert to the state and Mr. Jackson states that this fact alone will give many settlers an opportunity of settling on the land and cultivate the same. The laws are very explicit with reference to the taxes on the

timber and in the opinion of Mr. Jackson there is no way that the timber interests can escape paying the taxes.  
He states that there is a widespread sentiment all over the state in opposition to granting the twenty-year extension and that the idea is not looked on with favor at all. The question is being agitated quite freely by those interested in securing the extension and there is considerable prospect, says Mr. Jackson, of a lively contest by the timber interests to secure this legislation at the coming session.

**PUBLISH THE LAWS.**  
No man in the state, better than the country editor, knows the annoyance and inconvenience of the present method of disseminating the state laws—either those now on our statute books or new laws as they are passed by the legislature when in session. Any one wishing to learn the provisions of a certain law is required to buy from the state. And then the next legislature will probably "knock it out." Many a case is brought into civil courts because of ignorance of the law governing the case at the starting of the controversy. But ignorance of a law is no excuse in either civil or criminal law. It would be more to the point, however, if the next legislature would pass a law so that no one could make a plea of ignorance. In Minnesota the session laws are published in the newspapers of the state for the benefit of the whole people. We believe that Idaho should do the same, paying therefor what is honest compensation for the service, and no more.

**BOOSTER CLUB.**  
It has been suggested that a "Boosters" club be organized in Idaho for the purpose of advertising the state wherever its members travel. The plan, in one form or another, is followed in some states, and it proves very effective. The obligation taken by each member is to get himself interviewed in every city he visits, talking of the resources, climate and other attractions of the state. A clever man who can tell a good story can nearly always get an interview in a newspaper, especially when he comes from a far distant point. He can secure an introduction to the editor, the managing editor, the city editor

**Genesee Electric Light and Power Co.**

There is nothing more satisfactory than to have your house thoroughly lighted in the most convenient manner possible and at the same time reduce your expenses to the minimum. This you can do with electricity. The light is always ready—there are no matches to bother with and no danger of fire. Simply turn a button and your whole house is lighted or a single light is turned on—as you like. There is nothing better, cleaner, handier or more satisfactory in any way. Let us give you an estimate as to cost, etc.

H. A. Morgan has commenced an action against Collins & Walker, of Kendrick, to enforce payment of an account for plumbing work performed on the Exchange Bank building. It seems the interpretation of the contract is the bone of contention. Constable Robinson visited Kendrick Friday to serve papers in the case.

At the recent Nez Perce county sale of state lands held at Lewiston some twenty-six parcels of land were offered for sale and sixteen were sold. The total acreage sold was 804 1/2 acres totaling \$17,726.27. Among those who purchased were W. H. Gage, 45 1/2 acres at \$25 per acre and Sarah Elliott, 45 1/2 acres at \$26 per acre.

Representative James Mulalley left Tuesday morning for Boise. He was accompanied by his mother who will remain in Boise with him during the session of the legislature. Mr. Mulalley informed us prior to his departure that he would do all that is within his power to have a road law passed that would come nearer meeting the needs and demands of the people than the one now in force.

That Idaho will see a series of sensational land fraud prosecutions similar to those now under way in Oregon was disclosed Saturday by a statement by Colonel A. R. Greene, special inspector of the Department of the Interior. Colonel Greene, after denying that Secretary Hitchcock was instigator of the investigations, President Roosevelt being personally interested, said Idaho frauds were probably as great as those of Oregon and that the government would not rest until every violator has been punished if possible.

Peter Jackson and Oscar Surby who left last week for the Blue mountain country to hunt big game, returned home Monday. They returned empty handed and state that no game of any description was to be found. Mr. Jackson informs us that enroute to the hunting grounds they stopped over night with Charley Snyder, for many years a farmer in this community, but who is now the owner of several hundred acres of land in the Anatone country. Mr. Jackson gives it as his opinion that Mr. Snyder has one of the finest openings for accumulating wealth of any one in that section.

A Moscow special of Friday says: "One of the largest sales of timber ever reported in Latah county was made public today when a deed was placed on record by which the entire holdings of William Codd and wife passed into the hands of the Potlatch Lumber company. The transfer enumerates the lands as located in Latah and Whitman counties. The large sawmill located at Colfax is also included. William Codd is the pioneer sawmill man of the Palouse country and has owned extensive timber holdings on the Palouse river and other timber districts of the county. The consideration of the transfer is \$105,000."

The Congregational ladies' aid will meet Wednesday of next week with Mrs. Fowler.

Peter Jacobs, L. F. Darr's chief assistant at Uniontown, accompanied by his family, spent Christmas day with G. E. relatives.

Ornand Patterson came up from Pullman Saturday, at which place he is attending college, to spend the week with relatives and friends.

110 land patents for homesteads were received at the Lewiston land office last week for distribution. A large part of these are for lands situated on the reservation.

G. W. Ford has leased the Pullman Auditorium and will take up a residence in Seattle. It is understood that the new management will continue the excursions to Pullman when attractions will warrant.

O. D. Masters, a recent arrival here from Nebraska, and a relative of M. N. Fellers, has the foundation for a new residence completed in Herman's addition. The main building will be 26x26 with a kitchen annex 12x16. Mr. Masters is a carpenter by trade.

A number of the teachers in our schools took advantage of the week's vacation to visit their homes. Miss Gerhart going to Pomeroy, Miss Randall to Palouse, Miss Sheldon and Miss Kelsey to Lewiston. The latter was accompanied on her visit by her mother and sister.

The inaugural hall to be given in honor of Governor-elect Gooding, the state officers and the members of the legislature, will take place at the Natorium in Boise, January 3. The occasion will be complimentary to the incoming officials and to the general public tickets of admission will be \$5. It is proposed to make the function the grandest in the state's history.

Senator Lattimer's good roads bill, carrying \$24,000,000, has been favorably reported from the committee on agriculture and forestry. This appropriation would be available in three annual installments of \$8,000,000 for road construction, the several states doing the work of construction and paying half the cost and the national government paying the other half. As affecting the domestic economy and furthering the development of the nation, no more important bill will come before the present session of the congress, providing as it does for the systematic and uniform construction of public highways under federal supervision, and it is sincerely to be hoped that the bill will receive due consideration and will be passed.—Trade.

Appropriate exercises were held by the public schools. On Thursday afternoon the rooms taught by Miss Gerhart and Miss Randall combined in an entertainment, consisting of songs, recitations, etc. On Friday afternoon the rooms taught by Miss Kelsey and Miss Burdick presented a Christmas cantata. Invitations had been sent to parents of the little folks and a large number were present. The entertainment was given in Miss Burdick's room, while in Miss Kelsey's room light refreshments were served to the visitors. The teachers had on display a large amount of work done by the little folks during the term which was pronounced fine by all. On Monday evening an open literary meeting was held by the scholars of the high school at which a large number were present. The teachers of the various rooms on the closing days remembered their scholars with gifts and in turn were remembered by the scholars. At the close of school the enrollment in the various rooms reached close to the 300 mark. School will again open Monday of next week.

FRIDAY, DECEMBER 30, 1904.

Frank Harris has returned to Genesee.

Mrs. W. C. Brant is visiting her daughter Belle in Spokane.

Pearl Owen has been spending her holiday vacation at home.

Miss Cora Hodgins left Saturday for a week's visit at Connel with the Burt family.

The M. K. Bue & Co. have installed a telephone for the convenience of customers.

David Spurbek has decided to W. M. Thompson, for \$125, lots 11 and 12, block 22, in Genesee.

Mrs. F. C. Marquardsen and son Ernest returned home Friday from a visit of several weeks at Payette.

Hans Bugge left yesterday morning for Seattle and other coast cities and may decide to locate permanently.

Invitations are out for a return leap year ball by the young men, the same to be given Friday night of next week.

Edna Driscoll is home from Lewiston, where, during the past two months she has been attending the high school.

The Sveli will case, wherein Mina and Paula Scheele have brought suit against Andrew Eikum, the administrator, for possession of real property and damages, was tried Monday before Judge Steele who has taken the matter under advisement.

Monday, the day generally observed throughout the country as a legal holiday, was not observed by Genesee people to any great extent. While the banks remained closed throughout the day, about all the other business houses remained open.

A gentleman was here from Moscow who was endeavoring to lease a building in which to start a billiard hall and as a side issue a branch office of the Coe Commission Co., now operating in some of the neighboring towns. He was successful in securing a suitable room.

Joe Wells arrived here the first of the week from his home near Greer for a visit with Genesee relatives and friends. He will leave for home early next week. It has been nearly three years since Mr. Wells left Genesee and he was greatly surprised at the marvelous growth of the place.

During the past week we have enjoyed a variety of weather. What promised to be a "green Christmas" was changed into a "white Christmas" by a good fall of snow Friday, followed by a few days of reasonably cold weather. A change in the temperature Wednesday brought sleet and rain and mother earth is now as sleek as a pecked onion.

Ed Beckman, formerly associated with C. H. Stanchiff in the Blue Front store at this place, came in the latter part of the week from the Salmon river where he is now employed with the Craig Mountain Cattle company. Mr. Beckman states that they but a few months ago moved their cattle down to the river from Craig's mountain for winter feeding. Says that feed on the river is unusual scarce owing to the work of grasshoppers during the summer months and that in all probability losses will be correspondingly heavy.

Beginning Monday, January 2, until further notice, The Fair store will be closed each evening, Saturday excepted, at 6 o'clock.

Prof. Jaustin returned Tuesday after a Christmas visit at Spokane. He is now enjoying a visit here from his son.

Claude Mochel, who for some time has been working in the Last Chance mine in the Coeur d'Alenes, was a visitor here from Saturday until Thursday.

The Church Bros. have leased their large farm south of town and have taken up a residence in Asotin where they purchased residence property some time ago.

Mrs. Laura Mortimora, who by our citizens was remembered by a cash gift of about \$25 on Christmas day, wishes through the News to express her thanks to the donors and to assure all that she appreciates their kindness.

Mat. Kambitch arrived home Saturday from Wenatchee, Wash., for a visit of a couple of weeks with his family. Mr. Kambitch and a Spokane party recently completed a brewery at Wenatchee which they will operate.

Ben F. Childress, of West Virginia, old friend and parishoner of Rev. F. M. Canfield, was here from Thursday of last week until Tuesday of this visiting Rev. Canfield. He will bring his family to the northwest in the spring to permanently reside.

The following deeds were filed for record at Moscow Friday: William N. Gibb and wife to Amelia B. Scroggin, \$1,225, ne 1/4, sec 16, 16-37-4w, except 5 acres; Amelia B. Scroggin to Sherman A. Wahl, \$900, 22.83 acres in sec 16, 16-37-4w; Lena M. Jain and husband to John A. Mead, \$1,000, lots 1, 2, 3, 4, 5, block 1, Old Town.

The local Masonic lodge has installed the following officers: F. A. Robinson, W. M.; J. C. Hanson, S. W.; P. W. McRoberts, J. W.; W. J. Herman, Treas.; G. W. Rabold, Sec'y; Rev. W. C. Fowler, Chaplain.

Dr. P. S. Beck, S. D. F. C. Marquardsen, J. D. W. C. Brant, M. J. Christenson, S. S. W. J. Mervyn, J. S. H. F. Bilger, Tyler.

It is now believed that the mystery surrounding the sudden and mysterious departure of Nicholas Humphrey from Moscow has been solved. The research made by the sheriff's office has brought to light the fact that a man, who in every way answers the description of Mr. Humphrey, committed suicide in Halsey, Oregon, on the night of October 29, and was buried by the authorities. It seems the suicide had asked for a night's lodging at the Halsey city jail and during the night took his life. A description sent of the man tallies with that of Mr. Humphrey and it is the opinion of Sheriff Keane that this has been his sad ending.

A large party of parents, pupils and friends assembled at the Jain school house east of town on Friday evening, Dec. 23. Under the supervision of the teacher, Miss Lola Brennan, an excellent program, consisting of dialogues, recitations and songs was rendered. It showed exceptionally bright intellects on the part of the pupils, and untiring efforts on the part of the teacher. The Misses Spencer, although not pupils of the school, helped out the program by speaking and singing. The teacher had the assistance of the parents in decking a Christmas tree with gay ornaments. Old Santa Claus made his appearance amid great jingling of bells, and distributed candy and nuts freely to all. Every one went home highly pleased with the entertainment.

A. F. Shultz, of Oregon City, Oregon, was a visitor in the city the latter part of the week. While here he effected a term lease of the Conant building, now occupied by W. J. Herman, and during the coming month will open up a store. He did not fully make known what lines he would carry except that he would deal largely in gents furnishings. Nearly a year ago Mr. Shultz, with his wife, paid a visit to Genesee and was very favorably impressed with the town and practically made up his mind at that time to engage in business here. He had been negotiating for the lease of the Conant building for several months. Mr. Shultz was formerly connected with Oregon City wool mills and is said to represent considerable money. He has two grown sons who we understand will be placed in charge of the store.

The Lewiston Teller has again resumed publication.

The Knights of Pythias will entertain this evening at cards.

Miss Emma Nebelschke was a visitor at home over Sunday from Moscow.

M. C. McGrew states that in all probability he will reengage in business in Kendrick the coming spring.

Pearl Conant and Will Platt, two of the Whitman students from this place have been spending the week at home. They will return to Walla Walla tomorrow.

Representative Goodnight left yesterday for Boise. Mr. Goodnight will be active in "good roads" legislation and holds some very pronounced views against the twenty year timber extension.

Christmas exercises were held in three of the Genesee churches Friday evening. At the Christian church, while no program was carried out, a tree had been arranged in the church basement and the usual quantities of candies and nuts were distributed among the young folks. At the Congregational and Methodist churches programs were carried out before good sized audiences. Trees and gifts of candy and nuts to the children were features.

On Tuesday evening, January 10, Genesee theatre goers will have an opportunity of witnessing a home talent 4-act drama, "The Noble Outcast," the same to be presented under the auspices of the Genesee band. E. Frank Bernard, a professional actor is in charge of the rehearsals and the cast will include some of our best talent. For the presenting of this play, and for future use, Elliot hall will have a complete overhauling. The old stage will be torn out and reconstructed on modern lines. Mr. Bernard, who is a scenery painter has been engaged by Mr. Johann to paint a drop curtain, a back curtain and a set of wings. When the new stage is completed, electric lights having already been installed, the hall will present a very changed appearance.

## A Happy New Year to All

In bidding adieu to 1904 we take this opportunity of thanking the public for their liberal patronage for the past year and hope, by honest, upright dealings to merit a continuance of the same for 1905.

We do not expect to give you something for nothing because we cannot afford it. Experience has taught us that those who think they have got something for nothing find out in the end that they have got nothing for something. Is not this good, sound, common sense?

Below we enumerate a few reasons why we think it will be to your interests to trade with us:

FIRST. We pay spot cash for all our goods and buy in large quantities thereby getting them at the lowest price.

SECOND. We conduct our business at a very low cost consequently do not have to add much to the first cost of goods for running expenses.

THIRD. We carry a line of merchandise that we can stand back of and guarantee.

FOURTH. We never refuse credit to any one who shows a disposition to do what is right, not even those who send their money out of the country to pay for foreign goods.

FIFTH. We have never been known to crowd a man for money.

Wishing you all a happy and prosperous New Year, we hope to still remain your servants.

## SENATOR GEO. L. SHOUP.

All that was mortal of the late George L. Shoup, whose death occurred at Boise Wednesday of last week, was laid to rest in the Masonic cemetery at Boise Friday afternoon, the funeral being perhaps the largest of any ever held in the state. From 10 o'clock until 2 on the day of the funeral the remains were viewed in the corridor of the state house by a vast concourse of admiring friends from all walks of life. The burial services were held from the Episcopal church, Bishop Funsten officiating. The pall bearers were: Governor John T. Morrison, Joseph Pinkham, Peter Sonna, Frank Coffin, James A. Pinney and John Meyers.

George Laird Shoup was born at Kittanning, Armstrong county, Pennsylvania, June 15, 1836; was educated in the public schools of Freeport and Slate Lick; moved with his father to Illinois in June 1852; was engaged in farming and stock raising near Galeburg until 1858; removed to Colorado in 1859; was engaged in mining and mercantile business until 1861; in September, 1861, enlisted in Captain Backus' independent company of scouts, and was soon thereafter commissioned second lieutenant; during the autumn and winter of 1861 was engaged in scouting along the base of the Rocky mountains; was ordered to Fort Union, New Mexico, in the early part of 1862; was kept on scouting duty on the Canadian, Pecos, and Red rivers until the spring of 1863, and during this time was promoted to a first lieutenant; was then ordered to the Arkansas river; had been assigned in 1862 to the Second Regiment Volunteer Infantry, but was retained on duty in the cavalry service; was assigned to the First Colorado Regiment of Cavalry in May, 1863; in 1864 was elected to the constitutional convention to prepare a constitution for the proposed state of Colorado and obtained leave of absence for thirty days to serve as a member of said convention; after performing this service he returned to active duty in the army; was commissioned colonel of the Third Colorado cavalry in September, 1864, and was mustered out at Denver with the regiment at the expiration of term of service; engaged in the mercantile business in Virginia City, Mont., in 1866, and during the year established a store at Salmon City, Idaho; since 1866 has been engaged in mining, stock raising, mercantile, and other business in Idaho; was a member of the Territorial legislature during the eighth and tenth sessions; was a delegate to the national republican convention in 1880; was a member of the republican national committee from 1880 to 1884; was United States' commissioner for Idaho at the World's Cotton Centennial exposition at New Orleans, La., in 1884-1885; was again placed on the republican committee in 1888, re-elected in 1892 and again in 1896; was appointed governor of Idaho territory in March, 1890, which position he held until elected governor of the state of Idaho, October 1, 1900; was elected to the United States' senate December 18, 1890, and took his seat December 18, 1890; was re-elected in 1895, his term expiring March 3, 1901, when he retired to private life. Since that time he has spent his time at Boise and Salmon City. For a year past he has been in quite feeble health.

## Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by Deuss & Co., druggists.

## Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eliminate the poisons from the blood. Unless they do this, good health is impossible. Sold by Dr. P. S. Beck.

## A Costly Mistake.

Blunders are some times very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for dyspepsia, dizziness, headache, liver or bowel troubles. They are gentle yet thorough. 25c at Deuss & Co's drug store.

## PUBLIC BUILDING FOR MOSCOW.

Washington, Dec. 25.—Congressman Burton L. French has been spending most of his time with the members of the public buildings committee of the house. There are three public buildings he wants constructed in Idaho. The members of the committee have already practically agreed to give Idaho one public building, to be located at Moscow, but this is unsatisfactory to the young, energetic and enthusiastic congressman from the state. He believes Idaho is entitled to more than one building, and is now making a personal canvass of every member on the committee in an endeavor to obtain appropriations for public buildings at Lewiston and Pocatello.

Since the president admonished the members of congress to hold down appropriations, and since Speaker Cannon informed the committee that the omnibus public building appropriation bill must be held down to a figure not exceeding \$10,000,000, the members of the committee have concluded that one building is all that Idaho is entitled to. Acting upon data furnished by the department they have concluded that this building should be located at Moscow. The theory upon which this conclusion has been reached is that Pocatello and Lewiston will increase in population during the next 10 years much faster than Moscow, and that a building located at either of these towns, which would meet the present requirements, would be inadequate to meet the needs of the service 10 years hence. Congressman French does not admit the force of this argument, but the committee has maintained in their position by estimates furnished by the department. The supervising architect of the treasury has advised Chairman Gillet of the committee that a public building at Lewiston to meet the present needs of the service would cost not less than \$165,000 for the building and \$15,000 for the site. At Pocatello the estimate is \$175,000 for the building and \$15,000 for the site. The estimate for Moscow is \$150,000 for the building and \$25,000 for the site.

Beginning with the first of the New Year the United States army will be equipped with a new magazine rifle, the deadliest in the hands of any soldiers in the world. Fully assembled, the rifle weighs a trifle more than eight pounds, whereas the present rifle weighs ten. It has an effective fighting range of 4,781 yards, and at 50 feet has penetrated 4 1/2 feet of white pine. It is equipped with a spring bayonet shaped like a ramrod. It tests it has been fired 35 times a minute with the magazine and 23 times as a single loader. It is covered with wood on the under side to prevent the heat of rapid discharges from blistering the shooter's hands.

## RECTOR OF ST. LUKES.

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 18, 1903.—I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your cough remedy. I at once procured a sample bottle and took about three doses of the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your cough remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy. Respectfully yours,  
E. A. LANGFELDT, M. A.,  
Rector of St. Luke's Church.
