GOODING INAUGURATED. Legislators Now Actively Engaged in Work of Session.

Boise, Jan. 2-It required less than twenty minutes to shift the burden of state government from the shoulders of the outgoing to those of the incoming officials, and to set the law machinery in motion. The ceremony which was witnessed by as many as could crowd their way into the house plusage.

It lacked 15 minutes of the noon hour when Governor-elect Gooding, Mrs. Gooding, Lieutenant Governor alighted from a carriage at the Jefferson street entrance. Adjutant General Vickers met them at the gate and escorted them between two files walk, the governor and lieutenant governor leading and Chairman Brady escorting Mrs. Gooding. Governor office, where Attorney General-elect the time of the attempted holdup. Guheen, Secretary of State Gibson, State Auditor Turner, State Auditoreleet Bragaw, Attorney General Bagley, State Treasurer Coffin, School Superintendent Miss Scott and her assistant, Miss Chamberlain, Deputy State Treasurer Coleman, Chief Clerk Hyatt, of the secretary's office, Justices Sullivan and Ailshie, of the supreme court, Mine Inspector Bell, Col. Allen Miller and others were assembled. A hearty handshaking followed and the quarter of an hour passed in the exchange of greetings and jokes. Everything was in the best of humor and the time passed quickly.

GO TO TAKE THE OATH.

Promptly at noon Governor Morrison and Governor-elect Gooding linked arms and headed the procession for the house chamber. The members of the house were at their desks, senators were grouped on both sides of the main isle and the chamber was thronged with visitors. The visitors were greeted by a sp.endid outburst of applause. In the speak. er's chair sat Chief Justice Sullivan and beside him was Representative Fred J. Turner, of Bingham county. The members of the party were seated, Governor-elect Gooding stepped in front of the clerk's desk and bowed to the chief justice.

"Mr. Chief Justice," said Governor Morrison, "I have the honor and the pleasure to present to you Hon. Frank R. Gooding, of Shoshone, who has been duly elected to succeed me as governor of the state of Idaho, and who desires to take the oath of

ing," said Chief Justice Sullivan, and arm.

"Do you solemnly awear that you will support the constitution of the son, a few being caught the latter United states and the constitution part of October.

As another reason in early spring and laws of the state of Idaho, and and laws of the state of Idaho, and the fish go up into the mountain streams far from habitation, and to the duties of governor to the best of catch them we must necessarily folyour ability, so help you God?"

"I do," responded the governor and

In rapid succession the remaining officers were sworn in. After selecting J. Frank Hunt.

speaker, and George Hairigfeldt temporary secretary, the house adjourned for the day.

nominees were elected.

The principal contest in the opening of the session was the selection of tion, proving everywhere a sensation a speaker of the house. The princi. unparalled in the history of the pal candidates were J. Frank Hunt, drama. of Bannock county, Judge Richards of Boise and J. L. An unsuccessful attempt was made last week to hold up the Nez-Steeves and State Chairman Brady perce-Kamiah stage by a lone robber. Saluting the stage driver with 'hands up'' he fired a shot from a Winchester and the ball passed close to the driver and tore a hole in the of the Boise high school cadets which stage seat. The driver, Charles were lined up on either side of the Pomeroy, with a revolver answered the shot and was successful in putting the would-be robber to flight. It is said that the "boot" of the stage con-Morrison received the party in his tained several thousand dollars at

> Concerning the recent meeting of the state teacher's association held at Boise, the Lewiston Tribune says:

This meeting of the association was especially important in that many conclusions were reached in regard to legislation and some changes will be made in the school law which will greatly improve the conditions of the Idaho schools. It was decided to recommend that the standard for teachers' certificates be raised and that hereaster all papers on the teachers' examination be examined by a state board of examiners instead of being examined in each county as has been in the past. Provision was also made for the uniting of counties in institute work and that a regular force of state institute conductors be chosen to conduct these institutes, the instruction at the institute be directed mainly to the theory and practice of teaching. There will be some change in the law in regard to independent districts so that they will be put under supervision of the state superintendent of schools. In regard to the adoption of a new set of text books for the state the matter will be in the hands of a commission consisting of seven members who will be responsible for the choice of books. The book companies are to be compelled to place three state depositories for the books, one at Lewiston, one at Boise and one at Pocatello.

An effort will probably be made to repeal, during the present session of the legislature, that portion of the from Nov. 1 to April 1. A gentleman all developments. favoring a change being made in the law writes as follows.

repeal of this clause, that the fish are not protected during their spawning season, as would possibly seem the necessity for such closed season, and I would add that it has been my ex-"Raise your right hand, Mr. Good- perience with these fish that they would not bite when spawning, and therefore need no closed season for their protection for that period. CULVER MAKES CHARGES.

Washington, Jan. 3-An investigation of alleged frauds in Idaho has been brought about by affidavits addressed to President Roosevelt by Fred Culver, of Lewiston, Idaho, candidate for attorney general of his state on the democratic ticket two years ago. The affidavits charged frauds against W. F. Kettenbach, president of a bank; George Kester, cashier of a bank, and Clarence Robnett, all of Lewiston. The charges are made in connection with the entry of over a million dollars worth of white pine through J. B. West, register of the land office at Lewiston, Mr. Culver sent the affidavits to Senator Dubois, who, without comment, transmitted them to the president.

REFERRED TO HITCHCOCK.

Secretary Hitchcock, to whom the affidavits were referred by the president, instituted the investigation. Information sent to the interior department charges that frauds have been perpetrated upon the land office at Boise as well as at Lewiston, and it is estimated that the inquiry when fairly started will reach out in many directions and many prominent citizens of Idaho may become entangled.

In connection with the Idaho affidavits it is alleged that a syndicate exists, formed to acquire valuable timber lands from the government. Other affidavits than those mentioned are expected shortly in the Idaho cases.

Within the past three weeks over ,500 patents on timber and homestead lands in the Roseburg, Ore., land office, covering about 38,000 acres of land have been held held up at the Interior department pending investigation.

Roseburg is the home of Representative Hermann, who was recently indicted by the grand jury in connection with alleged land frauds.

An inspector of the department of the interior has been ordered to Idaho to investigate the charges made by affidavit as to frauds in Idaho, and he is believed to have already begun his labors. No information on the subject could be obtained at the interior department and Secretary Hitchcock will not discuss it. The papers in the case, however, have been forwarded to the inspector. It is expected that he will keep Secregame law making the closed season tary Hitchcock promptly advised of

When shown the above dispatch by a Lewiston Tribune representa-We would urge as reasons for the tive, Mr. Kettenbach said: "The charges made by Frederick D. Culver are false and malicious in every particular and remind me of a circular spread broadcast over the county the day before the recent election which was in itself of a nature libelous, blackmailing and anonymous. The records of the land office are open to inspection to the public and any script filings or lieu selections that I have made are in strict accordance with the law and are similar to hundreds of other filings made in other land offices in all parts of the United States. This is an attempt by my enemies to injure me personally and to injure the business of the Lewiston National Bank. I court a full investigation by the proper officers and will give them all of the assistance in my power whenever the time for investigation, if such investigation is reasonable, arrives."

Do Not Suppress a Cough.

When you have a cough do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructed the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually than ever before attempted at any as the cough. For sale by all druggists.

Greatly in Demand.

Nothing is more in demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach 414 Main street, Lewiston, Idaho. and liver troubles. Try them. At Dicus & Co.'s drug store, 25c., guaranteed.

While cient that the husband did not do his no municipal improvements are entire duty toward earning a living,

> Governor-elect A. E. Mead Washington has given it out that he will ask the next legislature to pass a more stringent divorce law—that is, law that six month's notice must be given before a decree of divorce can be granted. At the present time, n this state, there is one divorce for about every four marriages, a condition that is notoriously lax and wrong. He will also advise the attachment of a section making wife desertion a felony. Both of these laws would undoubtedly remedy, to a great extent, the bad social conditions of the present day. At any rate, their presentation will create some good, healthy discussion along the lines of social reform. The scandals of high society, murders and suicides, insanity and failures in business, mind and health, are in most all cases, the result of wrong social practices and the weaknesses of manhood and womanhood attending thereto.-Adams County News.

A Happy New Year to All

In bidding adieu to 1904 we take this opportunity of thanking the public for their liberal patronage for the past year and hope, by honest, upright dealings to merit a continuance of the same for 1905.

We do not expect to give you something for nothing because we cannot afford it. Experience has taught us that those who think they have got something for nothing find out in the end that they have got nothing for something. Is not this good, sound, common sense?

Below we enumerate a few reasons why we think it will be to your interests to trade with us: FIRST. We pay spot cash for all our goods and buy in large quantities thereby getting them at the lowest price.

SECOND. We conduct our business at a very low cost consequently do not have to add much to the first cost of goods for running expenses. THIRD. We carry a line of merchandise that we can

stand back of and guarantee. FOURTH. We never refuse credit to any one who shows a dispositian to do what is right, not even those who send their money out of the country to pay for foreign goods. FIFTH. We have never been known to crowd a man

Wishing you all a happy and prosperous New Year, we hope to still remain your servants.

There is nothing more satisfactory than to have your house thoroughly lighted in the most convenient manner possible and at the same time reduce your expenses to the minimum. This you can do with electricity. The light is always ready—there are no matches to bother with and no danger of fire. Simply turn a button and your whole house is lighted or a single light is turned on—as you like. There is nothing better, cleaner, handier or more satisfactory in any way. Let us give you an estimate as to cost, etc.

There is nothing more satisfactory than to have your house thoroughly lighted in the most convenient manner possible and at the same time reduce your expenses to the minimum. This you can do with electricity. The light is always ready—there are no matches to bother with and no danger of fire. Simply turn a button and your whole house is lighted or a single light is turned on—as you like. There is nothing better, cleaner, handier or more satisfactory in any way. Let us give you an estimate as to cost, etc.

ESTRAY NOTICE.

Dated this 5th day of January, 1905.
W. W. SMITH.

business with strong sure strokes.
Once you begin, sustain the method fearlessly, and the chances are then with you.

Too many advertisers plunge into the dark, and "go to pieces" and perish of fright. The advertising journey oftentimes leads through a long tunnel of twilight. Fix your eyes on the speck of white light ahead, as seen by experience and faith, and keep going. Once started rightly in the advertising way, continue fearlessly.—By Clifton S. Wady.

Business with strong sure strokes.

Once you begin, sustain the method fearlessly, and the method fearlessly, and the method fearlessly, and the method fearlessly, and the chances are then with you.

Business with strong sure strokes.

Notice is hereby given, that I, W. H. Smith, residing on P. L. Smith's farm about 12 miles south of Moscow, in Latah county, state of Idaho, on the 44th day of November 1904 at my farm take up as estrays certain animals described as follows:

One light red yearling heifer, white face, right ear cropped and left ear split, branded on right hip times; 3.

One dark red heifer about two years old, white face, right ear cropped and underbit on left ear, no brand visible.

to the front and let us get our bearing.

We have sent our favorites to Boise. Turned them loose, as it were, for good or evil. We are fearful of results and wonder what the harvest will be. Is this right? No, emphatically no. This blasted tinkering and patching of our laws by an apparently empty-headed lot of would-be-legislators with no other qualification than the gift of gab is contemptible. While we grant the legislator the right and privilege to act in accordance with existing conditions as they appear at the time, we firmly believe we have the right to furnish the lines along which we expect him to work for our betterment. Under the legislator and our favorites to the state, to erect our large mills in the state, to erect our large mills in the state, to erect our large mills in the state, to build railroads to the timber will are our contention as to take, to build railroads to the timber will are reaction as the state, to erect our large mills in the state, to erect our large mills in the state, to erect our large mills in the state, to build railroads to the timber, to yield our contention as to takes and who left for Kendrick last Monday, is a skillful occulist who fits weeks and who left for kendrick last meets and the state, to erect our large mills in the state, to build railroads to the timber, to yield our contention as to takes and to cut the timber clean and release the land back to the state as fast as cut regardless of the twenty years, was sufficiently to the interest of the people. With more time we would have been prepared also to take up the small holdings of the individuals who are so auxious to sell. In fact, we think the people of the north where this is of most direct interest, are in favor of extension. But the legislature and the power nor seem to fine twenty with the legislature and the power of work has given entire satisfaction.—

RAILWAY COMMISSION BILL. one horse was badly cut by the A bill calling for an appointive, reg- Nelson was 50 years old. He Nelson was 50 years old. He when you have a cough do not try to leaves a wife, one child and brother. He came here from Nebraska and introduced in the Washington state senate by Walter J. Reed of Yakima county. The bill provides Moscow, where he had delivered for a commission of three to be approximately approximately suppressible. When you have a cough do not try to suppress it, but remove the cause. The cough is only a symptom of some discussion of the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppressi Yakima county. The bill provides for a commission of three to be appointed by the governor, one for the term of six years, one for four years and one for two years, and thereafter each commissioner to hold office for six years. The governor is to have absolute power to remove at will. The commissioners give a \$20,000 bond, each, receive \$4,000 annual salary, may employ a secretary at \$2,000 and are common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing the cough, and preparations containing chloroform, opium, etc., are used for that liquor. The tragedy took place on what is known as the old stage road to Genesee, via Blaine, at a point just over the divide from Moscow within about two miles of Nelson's home. He was buried Tuesday of this week at Blaine.

HAND LAND OFFICE

Yakima county. The bill provides for a commission of three to be appointed by the governor, one for the term of six years, one for four years and one for two years, and thereafter each commissioner with the cough, and preparations containing the cough, but relieves it by removing from the in about two miles of Nelson's home. He was buried Tuesday of this week at Blaine.

Greatly in Demand.

Greatly in Demand.

The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing the cough, and preparations containing the cough, and preparations containing the cough, but relieves it by removing from the trivelieves it by removing from the throat and lungs the mucus which obstructed the breathing and allaying the irritation and tickling in the throat. It also opens the secretious and effectually and permanently curses the cough. For sale by all druggists.

produced about \$14,000,000 worth of ore. Vast copper mines await better transportation facilities and are contiguous to the Snake river between Lewiston and Pittsburg landing. It is estimated that the white pine in Idaho alone would scale 2,700,000,000 feet and it covers 270,000 acres of land. It is said by lumbermen to be the finest body of white pine in the United States to day. In eastern Oregon there is a forest of yellow pine which, it is estimated, would scale 2,500,000,000 feet and which covers 250,000 acres. Tributary to these rivers in Idaho, Oregon and Washington are other tracts of valuable timber awaiting the means to reach the markets of the world. Last year 75,000 car loads of lumber was shipped from this region. Besides this there are loads of lumber was shipped from this region. -To Representative James Mulalley we are indebted for a copy of State Immigration Commissioner Egleston's report for the years 1903-4. The book contains some 200 pages of interesting matter concerning Idaho and is profusely illustrated with full page half tones. It is evident that the compiler of the work is better acquainted with conditions in the southern part of the state than in the northern part. Two full page half tones are used to picture existing conditions in Latah county. One is that of a combined header and thresher, the other a steam plow. Nothing could be more misleading from conditions as they actually exist as implements of this character have never been operated within the borders of the county. The work shows that Latah county ranks fourth in the number of pupils enrolled in public schools, having 4,758. Ranks third in the number of teachers employed and owns \$90,500.00 worth of school property. In the schedule showing the number of acres of land that is assessed in each county and the assessed value per acre, Latah is only exceeded by one in number of acres and ranks first in total value of patented lands. Kootenai has 594,224 acres, assessed at \$1,491,502.24. Latah has 465,827 acres, assessed at \$2,370,023. The assessed value of Nez Perce county patented lands is \$1,984,080. The assessed valuation of Latah county for 1904 is given at \$4,146,088.50, an amount exceeded only by three other

THE STATE VETERINARY.

If our legislators hesitate about the need of creating the office of state veterinary, they should get into communication with the legislators, of our sister state of Washington. During the year ending December 31, 1904, one of the large packing firms of Seattle had condemned by government inspectors 840 head of cattle, sheep and hogs that were infected with that horrible disease tuberculosis. This inspection is done alone at the packing house by the government and local slaughter houses have no one to inspect the cattle, hogs or sheep that are killed by them for local use. Just recently an entire carload of hogs brought from a creamery at Mabton, Yakima county, Washington, and consigned to a packing house in Seattle, were condemned. Investigation brought out the startling fact that these hogs were fed on milk from cows infected with tuberculosis. While it is not known whether this disease exists

Congressman French has secure among the stock of this state at the a favorable report on his bill appropresent time, still the need of a state priating \$25,000.00 for a fish hatcher self-evident. In Washington this passed the senate, so when the gendisease is on the increase and this eral appropriation bill becomes a law, disease is on the increase and this state bordering as it does on ours there is no telling when our stock will become infected. This is the time to act. The state veterinary or inspector should have power to get from butchers a carefully prepared.

Sealed bids, addressed to C. F. Burr, city clerk Genesee, Idaho, will be received at his office. Sealed bids, addressed to in spectual B p. m. February 6, 1905, and then publicly opened for the grading and macadamizing portion of the state the hatchery will be located, for Mr. French has nothing to plans and specifications now on file in his office. -Under the conditions of the recommend of the legislative committee appointed to inspect the state asylum at Blackfoot, and to look into the advisability of making an appropriation for a new institution at some point in the north, which recommend is published elsewhere in this issue, if the conditions are lived up to a number of the present candidates will be put out of the running. The committee recommends that the institution be located within one mile of some railroad station. This provision would make Grangeville an impossibility. Another provision is that not less than 640 acres of good farm land be obtained for the site. Few of the present towns in the race could meet this requirement. While Genesee has by no means been an active caudidate in the matter it is a certainty that no place in North Idaho can come as near to meeting the demands of the recommend. While in the city Sunday we were informed by Representative Goodnight that in all probability a committee would be appointed by Governor Gooding to view the various proposed sites and to report back

AMERICAN CAMERA MFG. CO. 946 St. Paul St., Rochester, N. Y.

LEGISLATIVE DOINGS. Boise, Feb. 2, 1905.—Besides the tates and county depository acts, and the proposed act against polygamy and adultery, there are a number of bills especially advocated by the administration which are in a fair way to secure speedy and favorable consideration. The one most likely to be immediately considered is the bill for the reorganization of the state land department. A measure with this object, which was one of the strong recommendations of the governor, has been introduced in the house, and will probably come up for action this week. Largely through the demand of the administration a committee to thoroughly investigate the state land department has been appointed by the house. The services of an expert have been secured and the work of investigation will be -

commenced at once. The scope of and boundaries; amending election the investigation is expected to be law, (two bi!ls) privileges and elecfar reaching. There have been tions; prohibiting desecration of rumors that fraud has been practiced United States flag; military; annexon the state, and that in a number of ing territory in Nez Perce county to cases there is a fair chance of secur-second judicial district; judiciary. ing valuable lands and timber, and of punishing those who have defrauded measures are being considered: the state. It is known that the Militia law; military committee; funds of the various educational and amending water rights; irrigation; other state institutions have been repealing sewerage law; judiciary; madly mixed, and that many of the funds in the case of educational incommittee of whole; removing female stitutions has been credited to the common school fund. There is a state; state affairs; relating to estates feeling among the members of the of deceased persons; judiciary. be of almost infinite value to the

board and the state. One of the strongest recommendawhich speedy action has been as manded by the public. The governor and many members of the legislature have received letters and credit—one an act allowing its members.

Two bills that are strongly advo- ances, gambling, horse racing, cock cated by the administration, are those fighting or any noisy amusement on which combine the offices of state Sunday.—Pocatello Tribune. bank examiner and insurance com issioner, and a bill which provides for the creation of the office of travel- exposition business President H. -At a meeting of the Chamber of

Commerce held Monday of this week

attempt at having the proposed north Idaho insane asylum located near Genesee, a committee, consist ing of the following business men was named to take charge of the matter: Dr. J. I. Conant, J. K. Bell Chas. Power, Thos. H. Brewer and C. E. Wood. Under the conditions named in the recommend to the legis lature by the committee which was appointed to inspect the present asyum at Blackfoot and to make suggestions in regard to the establishing of a branch institution at some point in the northern part of the state, which recommends were published in full in our issue of last week, it was the unanimous opinion of those pres ent at the meeting that no place in north Idaho could present equal claims with Genesee. It is a well known fact that farming is the principal work carried on at these instiutions, consequently when practicable they are located where the richest agricultural land can be secured. In this respect no place in the entire state can present an equal laim. It has been announced that the matter of selecting a site will be left entirely to a commission to be named by Governor Gooding. It is he purpose of the committee named v Chamber of Commerce to invite he asylum commission to visit Gene see and to lay our claims before them. The committee asks the united support of all business men and others in Wednesday stating that Latah county would be barred in the asylum mat

—H. A. Thatcher, one of the Geneee party that attended the Twin Falls land drawing last week, returned home Tuesday. The renainder of the party, consisting of red Nagel, F. K. Bressler, P. Quillin, J. L. Goodnight and F. C. Iarquardsen are making some side rips and will not return until the irst of next week. At the drawing Fred Nagel held the proxies of Con. Steltz and Chas. Bomberg, Mr. Steltz's number being 50th in the list, the remainder being scattered throughout the 354 tickets. Five elections were made by the Genesee. ites as follows: Con. Steltz, 80 acres; Chas. Bomberg, So acres; H. A. Thatcher, 120 acres; J. L. Goodnight. 160 acres; F. C. Marquardsen, 80 actes. The selections were all made in a tract of land situated about fifteen miles distant from Twin Falls near which place it is said another town will be established. On the lands selected no water will be available for use the coming year and possibly not next year. At the time of the drawing a payment of \$3.25 per acre was made and no other payments will have to be made until water for irrigation is on the land.

and building material from the Madison Lumber Co.? My Dad says they are the best people to tie to in this town, and he ought to know, because he has tried them all. He says they have the finest stock, the dryest stock, and the lowest price, and you can't catch him buying any more green, badly sawed stuff from the small mills around here. He has had one experience with some of that stock-and it will be the last, he says, especially when he can get such kiln dried Oregon fir from the Madison people at about the same prices. Now just mind what I say, and is you want complete satisfaction with your building material, follow my dad's advice and go to the

A Washington dispatch of last Saturday states: The secretary of the interior today set apart \$1,300,000 from the reclamation fund for the purpose of beginning operations in connection with the Payette-Boise irrigation project in Idaho and \$1,000,000 for the same purpose in connection with the Milk river project in Montana. It is calculated that 270,000 agrees will be reclaimed. Lewis and Clark exposition, lumber that 370,000 acres will be reclaimed Lewis and Clark exposition, lumber that 370,000 acres will be reclaimed in Idaho and 325,000 in Montana and the ultimate cost of the two enterprises is fixed at \$11,000,000 and \$10,000,000 respectively. A Lewiston dispatch of the 30th information about towns and cities says: The railroad building outlook along the O. R. & N. and the South-

says: The railroad building outlook has assumed a new aspect and it appears as if the Harriman and Hill interests had signed a truce again as to the building into competitive territor, the building into competitive territaken from actual photographs, the to the building into competitive terms taken from actual photographs, the tory in the northwest. With the facts and statistics are based on consame unexpected suddenness that brought them into this country a few of the work make it of great value to weeks ago, the surveyors are leaving, flocking out of the country in all directions, as if there were not enough exits. At the Northern Pacific station in this city are piled camp utensils, tents and enough provisions to and friends in other states who may keep the party for many weeks, be induced to come and live in the

> -A Kendrick correspondent to the Lewiston Tribune of Monday says Mr. and Mrs. M. J. Wessels left for Portland, Ores, this morning to ar ange for placing the Idaho horticul tural exhibit in the Idaho building s soon as it is ready. Since coming rom St. Louis fair Mr. and Mrs Wessels have been working diligently on some of their artistic decor ations which the citizens of Kendrick are having an opportunity to see or lisplay in the show window of the H P. Hull store. The work is in the orm of two large oval shaped pastels on which are worked from corn, beans and other products of the soil a striking picture of Governor Gooding who is represented as the chief of 1905, and the face of the primitive Indian who is marked as the chief of 1805. On the other large pastel i the life size Indian woman with he iress most artiscally and ingeniously worked out of corn husks and decorated with kernels of wheat and corand beans and a back ground o mountains made up of heads of grains all of which are made as true to na ture as is possible from the standpoint of decorative art. The work is the most artistic and ingenious that Mr. and Mrs. Wessels have ex-

THE DEADLY PARALLEL

Prices Charged by Genesee Dealers Compared With Those of a Peddler

During the present week what is known as a "grocery peddler" has been touring this neighborhood soliciting orders. A Genesee merchat, in conversation with a gentleman who had given an order, made the statement that he would, not knowing at what prices goods had been sold, be willing to take a chance on duplicating the order with an equal class of goods and guarantee a saving of at least 5 per cent, in addition to freight. A copy of an order was produced and the business man had reason to be astonished at the high prices being charged by the peddler. The person who placed the order was honest enough to admit that he had been charged, not including the charge of 9 per cent for freight for which he had agreed to pay the peddler, fully one-third more on an average of the bill than he could have secured the same goods at any Genesee store. He stated that it was his intention to countermand the order. We herewith produce the substance of the order given the peddler, quoting the price, per quote the prices which the goods can be purchased for at any Genesee store and from which prices the 9 per cent freight charge may be

acaucicu.

FOLEYSHONEYAND TAR

A MATTER OF HEALTH The east needs an introduction the middle west. Both the east and the middle west need and an introduction to the far west. That introduction is going to be made, both formally and informally—you may take your choice-this year, and the Lewis and Clark exposition at Portand, Oregon, will be the introducer. This exposition, which opens June 1, will be useful in many ways, but in noway will it be more useful to mericans than in making the far-divided sections of this great country acquainted with each other. What does the man who lives in Augusta on the Kennebeck, for instance, know about the man whose home is at Salem on the Willamette? And the Walla HAS NO SUBSTITUTE Walla Washingtonian—what is his conception of the Washingtonian whose residence is in the District of Columbia? Between San Francisco and New York stretch 3,000 miles of

ty and eat it with a relish that well. 35 cents, Tea or tablets. makes the owners feel good, al- & Co. though he may be somewhat hoggish about the quantity consumed. Cory and Crosby are good varieties for the second early. These will be followed by Early Minnesota, Zig Zag, Stowell's evergreen and the Mammoth Sweet. We can assure our readers a field of sweet corn composed of the varieties named will be worth to the family much more than it cost because it will furnish a supply of luxury fit for a king which will last from the Fourth of July until winter as it will keep crisp and fresh in large shocks for weeks and weeks after the appearance of killing frosts. Sweet corn should be cut and bound with the corn harvester and carted to the barn or feeding racks. Don't at tempt to "back it" from the field to he barn because it will not get there f you do it that way.

The price of sweet corn seed is very asonable this year, much lower han it has been for some time. Plant sweet corn by the bushel every year, as suggested, then you will be prepared to judge of its value as a starter for the pigs and a money maker with the cows and young stock .- Northwestern Agriculturist.

THE FAIR, F. C. Marquardsen

Boise. May 7.—The question of the Wagon Road Commissioners Lewis portation of sheep from the states of site for the new capitol building has and Wheeler left Weiser on Saturday Oregon, Washington, Utah, Montana passed by the Idaho legislature in finally been settled by the capitol for the Salmon river country. The building commission deciding to recommission expected to first proceed tain the present site, and to take up down the Little Salmon to Goff, and clear bill of health. This inspection passed by the Idano legislature in 1901, assessing and taxing the net product of mines of the state, seems in every respect satisfactory and just, GENESEE, : IDAHO.

the option of the Boise school board then ascend the main Salmon, along to acquire the central school block the line of the proposed Salmon river for \$25,000. This block has a large trail to the mouth of the east fork of brick building on it, of three stories Salmon, and then up the east fork to and a basement, which was built where they strike the present trail Governor Gooding has issued the three years. No one in this district

and a basement, which was built twenty years ago, at a cost something like \$60,000. It is explained that the building has been deteriorating for several years, and it would be necessary to replace it in the near of the proposed wagon road to warrens. The commission will the capitol commission the school is to have the use of the building during the coming school year, while a new building is being erected.

WILL ERRCT A WOMEN'S WARD.

The last legislature provided that women who were sentenced to state's prison in this state, could be kept in the conting and form that point go over the line of the proposed wagon road to Warrens. The commission will then of the proposed wagon road to Warrens. The commission will then of the proposed wagon road to Warrens. The commission will then of the proposed wagon road to Warrens. The commission will then of the proposed wagon road to warrens. The commission will then of the proposed wagon road to warrens. The commission will then of the proposed wagon road to warrens. Abstract of Title should be a part of every real estate transfer. Insist on one being first shell by the I, Frank R. Gooding, governor of PIANOS AT WHOLESALE FOR

lease such prisoners upon writs of habeas corpus, and that perhaps under a strict interpretation of the law, it might be difficult for courts not to release them if such proceedings were taken.

It was then determined that a women's ward should be built in portion of the state, and provided for show our love of country, and our the state of Idaho, do hereby designate Wednesday, June 14, 1905, as flag day, and recommend and urge the display of the flag throughout that day. Let it fly to every breeze in Idaho—from church steeple and schoolhouse staff—public buildings and private residences. Let us then show our love of country, and our our love of country, and our love of country the state of Idaho, do hereby desigconnection with the Idaho prison. its prevention and cure in the most show our love of country, and our faith in what the flag represents. In testimony whereof, I have here-

unto set my hand, and caused the to secure a permanent location at that Capital surpli of the old warden's residence. A portion of southern Idaho, from near great seal of the state to be affixed, place we have decided to dispose of this 2nd day of May, 1905. F. R. GOODING,

> Attest: W. H. GIBSON. Secretary of State. JUVENILE COURTS.

The law has worked so much good in

Colorado that it has been extensively copied in other states. The reports made by the juvenile courts of Den-

ver and Chicago show that the law is

working a grand influence in reform-

ing the delinquent youths of the

cities Every probate judge should

obtain a copy of a pamphlet witten

by Judge Lindsay, "the father of ju-

enile courts," and give it careful study. It was the reading of this

pamphlet and a study of the opera-

ions of the law, while visiting Chicago and Denver last year, which

caused Governor Gooding to become

strongly impressed with the impor-

tance of its passage in this state.

He urged it in his inaugural mes-

sage, had copies of Judge Lindsay's

amphlet distributed and the enact-

ent of the law was assured.-Owy-

Mr. C. B. Wainwrght of Lemon City,

Fla., has written the manufacturers that

"as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several mediates."

ceremony by the W. R. C. —A number of meetings of the school board have been held during the past week but no decision has been reached yet in regard to the many dimerent doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at F. E. Dicus & Co.'s drug store; price 50c. been reached yet in regard to the hiring of a principal. Miss Grace Kelsey has declined the offer of the board to act as first primary teacher kidney disorders. Foley's Kidney Cure

board to act as first primary teacher and the position has been tendered to Miss Mary Dexter, of Cedar Falls, Iowa.

—A Bellingham dispatch of last Monday says: "Clinging to a pile until their limbs were almost numb with pain and their voices strained the position of the pain and their voices strained the position of the pain and their voices strained the position of the position of the pain and their voices strained the position of the position of the position of the pain and their voices strained the position has been tendered to kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure and the position of the pos shouting for help, Hans Bugge, an = attorney, and his son Elwyn, six years of age, were rescued from the cold waters of the bay off the G street wharf yesterday afternoon about 4 o'clock. For half an hour or more they clung to the slippery timber. they clung to the slippery timber.

Mr. Bugge's cries attracted the atFor terms apply to keeper, tention of a young couple who chanced to pass that way, and discovering the predicament of the two they hastened to their rescue. Calling to their assistance two young men they secured a rope, lowered it and drew the exhausted boy to the wharf. The rope was lowered again and Mr. Bugge was also brought up through the gaping hole in the plank dray line, in the future will make through which the boy had fallen headquarters at the Biram stables.

BEIZES GATEWAY TO LEWISTON.

Electric Road Makes Dirt Fly—Blocks
N. P. Plans.
Lewiston, Idaho, May 15.—The
Lewiston, Idaho, May 15.—The
Lewiston & Southern Electric railway
Sunday countered upon the Northern
Pacific by putting 50 men, with teams
and scrapers, to work upon the right
of way three miles south of this city,
at the mouth of Tammany hollow, the
sateway from Lewiston to the prairie
country. The men are divided into
two crews, one working toward in
two crews, one working toward in
the city and the other working in the opposite direction. This force will probably be doubled tomorrow.

This move was wholly unexpected,
oven by many citizens who have been
leaders in the subscription campaign,
as it was only last night at midnight
that Colonel Judson Spofford closed
the contract with Naylor & Norlin for
six miles of grading.

The men were at work at 7 o'clock
Sunday morning, and at 8 o'clock

Around Your Home

the paint brush and now is your opportune time for buying paint. Prior to purchasing J. K. Bell's large stock of paint we had purchased our season's supply. We realize that to

unload the surplus stock at regular prices could hardly be accomplished during the painting season. 'To make sure that we will succeed we have combined the two stocks and

Reduced the Price

to where everything is bound to move. Scarcely a thing used in the line of paints, oils, lead, alabastine, or painters' materials is not included in the immense line. Any color of paint can be secured and in almost any quantity. The brands included are standard and are fully guaranteed. See us if you intend to paint. We will guarantee to save you money.

county, in January, 1904. The ap- won practically all games played durpeal was on technicalities, the infor- ing the season but have not as yet the ground that it did not charge the crime with sufficient clearness. An other point was that the jury was separated, one being taken to the hospital and another to the postoffice.

The bazar given Thursday of last week by the German Lutheran ladies' society proved a great financial success. After all expenses had been nospital and another to the postoffice.

In passing on the point the supreme court takes occasion to severely criticise the looseness of bailiffs in this in the matter of church extension, work of which is now in progress. An addition to the church 20x32 is

being built, of which 20x20 feet will be used as a school room. The interior of the church will be remodeled and a space of 12x20 feet added. The mprovements begun and contemplated will total about \$600. The utheran ladies have every reason to e 1 elated over the success of their efforts, and wish to publicly thank all who assisted and patronized them -A grape-vine message was re

ceived here early this week to the effect that the long promised train service on the Genesee branch was a matter of history. No reason has as vet been made known why the promises made the people for relief from the present service would not be kept. t seems that a new time card had been made up to take effect on May 28 and that after the same had been "posted" was called in. The reason for its annulment was to do away with the proposed change of time on this branch. It is understood that a new card will go into effect Sunday, announcing changes on the system in this territory, but whatever changes are made will not concern the people of the Genesee branch. A. D. Charlton, general passenger agent, J. G. Woodworth, general traffic manager, and two or three other officials who recently visited this territory it seems are responsible for the change in plans. We are reliably informed that Superintendent Beamer is very much disappointed over his failure to carry out his wishes and promises. It is evident that we are in for a continuation of the present very unsatisfactory service—and look pleasant, i

when easterners, and even

IDAHO AT PORTLAND

Larrabee Co. There are exclamations of smaze-

esterners, enter the Idaho agricultural exhibit, ranging with its big building at the Lewis and Clark exposition, and containing material that ought to increase the farming popu. lation of that state twenty per cent during the next two years. "Why, I thought Idaho was only a

mining state," is the cry from practically everyone east of the Rocky h '"Are you sure they grew all this grain in Idaho?" And Mr. and Mrs. M. J. Wessels of Cameron, who have spent many months getting the display of cereals and e grasses together, convince the ques. o ioners that they are sure.

Wheat, barley, oats, flax, corn. eans, potatoes, emmer, timothy, alfalfa and timothy and alfalfa seed ompose the Idaho exhibit. Surprisarieties of wheat, each with specinens of the corresponding stalk above in , and it is not only the splendid quality of the grain exhibited but ite variegated species that astounds the hard-headed farmers of the cost who sift it through their fingers. Most of the wheat is from Nez Perce, Fremont and Latah counties.

Of oats, 27 varieties are on display Lemhi, Nez Perce, Latah and Fremont being the principal contributors.

Of the First Mational Bank of Lewis- open bins of wheat, oats, barley and flax. Statistics of weight, as given by Mr. and Mrs. Wessels particularly samples of Lemhi oats weigh 46 pounds to the bushel, while all the cereals in the building go over standard. "Nothing goes quite so far with the homeseeker," said Mr. Wessels, "as to be able to dabble in the grains himself, and do a little .\$ 697.972 94 weighing on his own account. That process will start many a man for

Idabo." Whatever it is, something is starting a good many men for Idaho. Last week nearly a score of well-to-de ranchers from the middle west states were dispatched to different parts of Idaho to look over farming lands, and the influx of easterners has not begun. Hundreds will probably be sent direct before the exposition

H. Hudson, the transfer having been made Tuesday. Mr. Hudson informs us that he will continue in the employ of the company and will take charge of a yard at Hay, Washington, station on the O. R & N. line in Whitman county. We understand that the Potlatch people will largely increase their present stock at this place and add new lines, such as

vood, lime, cement, etc.

-Plans for carrying out the big

celebration Tuesday of next week are well in hand and all committees are faithfully at work. The morning exercises will be a leading feature o the celebration. The parade will b a good one and all may depend upon stening to a fine address by Con ressman B. L. French. The singing y the chorus of fifty voices and all other features of the morning program will be pleasing. The Genesee and has done a large amount of practicing of late and will be in shiphape to furnish music for the occaion. The afternoon program will be one of interest to all. The ball game Iniontown vs. Potlatch promises to be a warm one as both teams have won practically all games played during the season but will play against each other for the first time on the Fouth. The program of races and sports to take place following the ball game is long and varied and has been arranged to please and entertain all. Those who remain in town in the evening will be given an opportunity to witness a fine display o fireworks. Genesee business men and others have contributed very liberally to defray the expenses of the celebration. Those with large families of small children may come to Genesee on the Fourth and put in day of genuine amusement at the least possible expense. No admission fee will be charged to any race, game or contest. Everything free and the purses hung for all events will be paid in liberal cash sums. All roads will lead to Genesee on the ourth. Come early and stay late.

now completed and ready to turn over to the local company. The plant is said to be complete in every detail and is capable of handling the milk from 1,000 cows. We understand the building and fixtures represent an expenditure of \$5,000. Properly managed and patronized the creamery will be a boon to the town of Troy and the farmers of the surrounding country.

—Prosecuting Attorney W. E. Stillinger has been named as deputy United States district attorney. The appointment comes from N. M. Ruick of Boise who holds the first -The new creamery at Troy is

Ruick of Boise who holds the first position in the state and was entirely unsolicited by Mr. Stillinger. The position pays \$1,200 a year, which | n amount will probably be increased at an early date. During the past two and one half years, as prosecuting attorney, Mr. Stillinger has made an excellent record which record was largely responsible for Mr. Ruick naming him to the new position. Mr. Stillinger will tender his resigination as prosecuting attorney to take effect July 1 at which time he will take up his new duties. The board of county commissioners will convene on July 10 at which time Mr. Stillinger's successor will be named. As applicants there are: G. G. Pickett, Charles Peterson, C. J. Orland, O. A. Lende and William E. Lee. Judge Warren Truitt, chairman of the republican county central committee, has called a meeting of the executive committee for Saturday, July 1, at 2 o'clock for the purpose of considering a successor to Mr. Stillinger and to make recommendation to the county commissioners.

[Since the above was placed in type it is given out that the appointment of Mr. Stillinger has been held up. G. G. Pickett denies being a candidate for prosecuting attorney.]

-The Portland harbor presents a

war-time appearance just now, for

three of Uncle Sam's warships are anchored in the river, and the booming of big guns reverberates from the wharves to the grounds of the Lewis and Clark exposition. The ships at anchor in the harbor, which compose part of the United States government's magnificient display at the Coast Fair, are the protected cruisers Boston and Chicago, and the torpedo destroyer Perry. They will remain indefinitely, possibly for the whole exposition period, and certainly for several weeks. The three vessels are anchored just above the steel bridge, opposite the heart of the business center of the city. They may be visited from one to five o'clock every afternoon, and hundreds of people have taken advantage of the opportunity to go aboard and see how Uncle Sam's jackies live, and to study the methods of naval warfare. The Boston was one of Dewey's vessels in the battle of Manila Bay, and the Chicago has the distinction of being the nucleus of the present great which chiefly ship the proposed good orad district in Latha court, which the public highway which passes over the first of the NE% of the Sale of the S and Clark exposition. The ships at anchor in the harbor, which compose

of having your picture taken. If it is not possible for you to attend to the matter now, plan on doing it July 4. I can make you some nice ones at prices ranging from \$1 to \$4. New assortment of cards, paper, etc. Accidents sometime happen, so prepare yourself before you take a journey. Do not procrastinate.

C. W. HANSON, The Photographer.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have ease is, and that ordinary remedies have little more effect than so much water. Cuban Diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this in the torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption, from the beginning to the very end, is a sumption. The progress of consumption.

When I had consumption in its first when Mrs. When I had consumption in its first tage," writes Wm. Myers, of Cearfoss, Md., "After trying different medicines and good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, but the very end, is a sumption.

plat thereof.
Your petitioners further represent that the said territory of which the said proposed good road district is composed contains more than twenty-five resident taxpayers and that there are fifty-three freeholders in said proposed good road district and that the assessed values of all the assessable property embraced within the said proposed district is as follows, to-wit:

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholers and Diarrhoes remedy at Colle, Cholera and Diarrhoea remedy at hand ready for instant use. Attacks of colle, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colle, Cholera and Diarrhoea remedy which is one of the best medicines I ever saw. I "eep a bottle of it in my room as I have had several attacks of colle and it has proved to be the best medicine I ever used." Sold by all druggists.

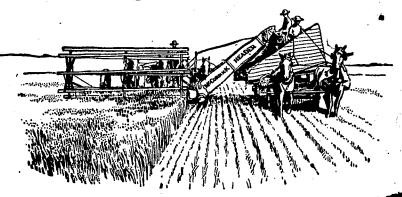

Dying of Famine

A GREAT CELEBRATION.

A more orderly, better natured, better dressed, better looking and better feeling crowd never congregated under the canopy of heaven than took part in the big celebration held in Genesee Tuesday.

The weather could not have been better had it been made to order and the crowd in attendance was variously estimated at from 2500 to 3500 people. Uniontown and Potlatch made up the greater per cent. of visitors, but there were people here from all the surrounding towns.

The morning exercises opened with a parade which had never been equalled in the history of the town. Headed by Marshal Morgan and aides the line-up was as follows:

Genesee Brass Band. Grand army members. Company H, I. N. G.

Mayor, council members and Congressman B. L. French, speaker of the day.

Liberty wagon carrying goddess and little girls representing states and territories.

The following business houses were represented with finely arranged

W. J. Herman, furniture and house furnishings.

Bee Hive Store, general merchan-

The Fair, dry goods, clothing, etc. H. A. Morgan, hardware. Follett Bros., general merchandise.

O. Olson, optician and jeweler. S. O. Salverson, general merchanise and house furnishings.

Larrabee Co., general merchandise Johann & Miller, implements.

Wm. Smolt, confectionery. T. Driscoll, hardware. Magnolia saloon.

Greaves' drug store.

The Genesce fire department with nose cart and hook and ladder truck were last in line.

The line of march was over Walout and Chestnut streets to the city park where the morning exercises took place. The program carried out was as follows:

Music by the Genesee band. Song by the glee club.

Prayer, by Rev. G. S. A. Eyrich. Reading of declaration of indepen lence by Miss Madge Fowler.

Oration by Congressman B. L. French.

Song by glee club.

Music by Genesee band.

The exercises throughout were excellent. The large chorus, under the direction of Rev. Fr. Keyzer, furnished an article of music which would be hard to equal.

ever delivered in Genesee. closely followed the history of the country, making comparisons with the government of this country with that of others. He endeavored to set before the people the condi tions of our government today in comparison with conditions in centuries past. His comparisons were pleasing and logical and throughout his discourse was accorded marked ettention. His atterances were clear and distinct and heard by all. Many of those in the large audience had traveled for many miles to listen to the gifted speaker and were not disappointed. efforts were fully appreciated.

THE AFTERNOON PROGRAM Early in the afternoon the large crowd assembled at the ball park to witness the ball game between Union-Wm. Hickman, Prop. town and Potlatch. Those present

were not disappointed in witnessing a good, clean contest, which was close and interesting from start to finish. It may be said that the Potlatch boys were a little outclassed, but at no stage of the game did Uniontown have a walk-over. Gray for the Potlatch boys did excellent work in the box. The final score was 4 to 3 in favor of Uniontown and Uniontown was awarded the \$30 prize. James Mulalley officiated as

umpire. Following the ball game the horse race events took place. The boys' pony race was won by Kamiah, owned by Jake Vanouck, with Spurbeck's pony second.

The saddle horse race was won by a horse owned by Ray Hall, of Uniontown. Kamiah was winner of second money.

The third event, a pony race with only two entries, was won by Kam-

Adjournment was then taken to the city park where the foot races and contests took place.

The fat men's race was the first on the program and the start was made by the following: Marion Nelson, Henry Baumgartner, Tom Linnehan and Frank Cleveland. Mr. Baum-

gartner won the event. The foot race, for girls 12 years or over, was won by Pearle Spurbeck, who was also winner in the race for girls 12 years and under.

The 100 yard race for men was won by Lonnie Rogers.

The race for boys from 15 to years was won by Pearl Rogers. In a race for boys, 12 to 15 years,

Johnnie Thoma was winner. So numerous were the entries for the race for boys 12 years and under

that three events had to be pulled off. Jimmie Keane was winner of the for the position of assistant. Later, first event, Jimmie Magee, the second. We were unable to learn the name of the winner in the third race. We were unable to learn names of

winners in rabbit race and other

Following the race for young men a special race was arranged between Pearle Rogers of Genesee and Merrel Darr of Uniontown. The former won. The tug of war, by two picked

teams, proved an interesting contest. The exercises of the day were concluded by a fine display of fireworks. CELEBRATION NOTES.

The dances given in Elliot hall and at Russell's warehouse were largely attended and dancing was carried on until daylight Thursday morning.

While a number of special police had been detailed, Chief of Police Driscoll states that throughout the office force." day there was not the slightest breach French was one of the most pleasing of the peace. A more orderly crowd He never congregated.

aways-in short it was a day of gen- his whiskers, no buttons on his vest. uine plesure.

Every number on the program was carried out and the cash paid in all glimmer in his eye bespoke the ready

The free lemonade feature was appreciated by all—not from the fact clothes; they said he'd take a "tie that it was free, but in the spirit it pass" back before the winter snows. was given. Frank Greiser, who had But old "Missouri" got a job and charge of the stand, and who was assisted by L. Stoltz, informs us that from 10 a. m. up to 6:30 p. m., some eighteen large wash tubs full of lemonade, made just as good as it was possible to make them, were dished up to the crowd. This feature of the celebration represented a cash outlay of over \$40.

If there was a man, woman or child who left town dissatisfied with any feature of the program we have been unable to learn his or her name.

The various commitees and individuals in charge of the day are entitled to great credit for the manner in which the program was carried hearts within them sank-for old

JOHN HENRY PROMOTED.

Former Genesee Boy Chief Clerk Great Northern.

Several changes in personnel go into effect at the general offices of the Great Northern here this morning. W. Willerton, assistant superintentendent of the Spokane division, leaves for St. Paul, where he will undertake special work at the head offices of the company. He will be succeeded as assistant superintendent by George E. Johnson, hitherto chief clerk to Henry A. Kennedy, assistant general superintendent. Mr. Johnson will be succeeded in turn by John Henry, who has been his senior clerk for some time.

The appointments of Messis. Johnson and Henry are qualified as temporary, but the presumption about the general offices is that both will be permanently advanced to their new offices at a comparatively early date.

Mr. Johnson was the recipient of warm congratulations at general offices yesterday. He has been exceedingly courteous in the discharge of his important duties as chief clerk to Mr. Kennedy during the past three

Mr. Henry has earned his promotion through close adherence to duty, and shared with Mr. Johnson in the congratulations extended by the office force.—Spokesman Review.

ATTORNEY RUICK'S REMARKS.

United States Attorney Ruick in speaking of temporarily withholding his recommendation for W. E. Stillinger as assistant U.S. attorney says:

"I made the recommendation of Mr. Stillinger to the attorney general entirely upon my own motion, be lieving him to be an excellent man on learning that he had at one time made an entry of timber land, which he had shortly thereafter disposed of, I temporarily withdrew the recommendation for this reason: In view of the pending investigation into timber entries, I wish to take every means to avoid any embarrassments in my office, and out of an abundance of caution I temporarily withdrew my recommendation and asked that the appointment be withheld for the present. Understand, this is no reflection upon Mr. Stillinger, for whom my feelings are unchanged, and whose appointment I think will follow the closing investigations that I have spoken of. My action was taken solely to save any possible embarrassments for either myself or the man whom I had selected to join my

HE CAME TO IDAHO.

A tourist from Missouri hit the rild and wooly west with hayseeds in The patches on his pantaloons resembled Asia's map, and the roguish scrap. The kids all guyed "Missouri," with flour sack filled with settled in the west; his nickels grew to dollars and his dollars grew to fives, while the dandy dudes that laughed at him were idling out their lives. A homestead on the desert where a wildcat wouldn't stay: he worked and planted in the sand but always made it pay. Five years slipped by in measured thread. when he saunters down the street nobody guys him now! The boys who wore high collars and hooted him so gay are hauling dung for old 'Missouri' at 50 cents a day. And when they heard the startling news, their "Missouri's" gone to town and opened up a bank!-Ex.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten percent of his earnings. He must spend nine dollars in living exwrites: "Before I started to use Foley's penses for every dollar saved. That he-Kidney Cure I had to get up from twelve ing the case he cannot be too careful bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and bottle of it leads the wind the state of the state o often a few cents properly invested, like before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." -Saturday of last week a nine Lumber Co's ad. cent arrivals here from Sioux City. Iowa, and who are stopping at the M. H. Nordby home near town climbed into a tree, and resting on he branches went to sleep. He was unnoticed by those about the place and while asleep fell to the ground esulting in the breaking of the bone protruding through the skin. His cries soon brought assistance and

nedical aid was at once summoned.

-Spokane has abolished the verti

cal system of writing in the public schools. Superintendent J. A. Tormey said yesterday: "The vertical system is being generally discarded. The eason is that it is too slow. Pupils nave a tendency to draw the etters instead of writing them. The system has been discredited in Chicago and other eastern cities as well as throughout Washington. When we adopted new books for the eity schools the principals of the 20 schools in the city were unanimously opposed to retaining the vertical sysem. This had a great effect on our ecision, as we wished to respect the vishes of the teachers where possiole. "The system we have adopted is what is known as the normal of intermediate slant. It is a compromise between the old slant style and the vertical. It combines the legibility of the vertical with the speed of the slant, and should give satisfaction. The vertical system was good for legibility, but it lost in speed. The old slant system was speedy, bu it lacked legibility. The new system is expected to combine the good points of both."-Spokesman-Review

JOHANN & MILLER

Calculations made by the Coeur d'Alene Press based on figures taken from the United States land office, show that of 145 townships comprising the total area of Kootenai county, 50 have been granted by the government to the Northern Pacific railway, 25 are withdrawn in the Priest river reserve, no in the Coeur d'Alene Indian reserve, and io in the new reserve, making 95 townships, or two-thirds of the county, appropriated by the federal government. In Shoshone county similar conditions exist. That county has within its boundaries 131 townships. Eleven townships are already in a forest reserve and it is proposed to add 54 more, a total of 65 townships, leaving 66 townships in the county outside the leaving forms of the le county and the state selections and there are but few townships left for settlement or private ownership. The Idaho county figures are not immediately available, but the condition there is probably worse than in C. H. WOOD, VICE Pres. & Magr. either of the foregoing instances. As an instance of how these reserves are administered, the Elk City Miner reports that "Wm. Finley is owner of a placer claim on Red river which passes the Elk City-Dixie wagon FLOUR PRICES: PATENT, \$1,25 road, by the side of which he has built his house, and which in re-

a road house. In rebuilding his house, recently destroyed by fire, he seeded a shake tree, and his own claim not producing suitable timber, which under the laws, he had a right to do. This right, however, the way with the miner."

way with the miner."

It will doubtless be found in course that the private business and private rights of citizens are thus being taken over into government control at the behest of the man who finds his jack in practical politics.

Mr. Pinchot, for example, has now becomes large and important functionary, having whole empires of territory under his thumb as absolutely as the carar has his dominions and with a little army of underlings to do his bidding. The misrepresentatives who enable his policies to become effective will, there is every reason to believe, be duly taken care of with "something just as good" when their present commissions have expired.

Meantime the Idako man is upagainst a new set of statutory offenses if he presumes to set foot within the wide domain that was once his state and where once he was a governign and where once he was a sovereign and where once he was a sovereign to the form of the presumes to set foot within the wide domain that was once his state and where once he was a sovereign to the form of the presumes to set foot within the wide domain that was once his state and where once he was a sovereign the form of the proposed good sort, show to explain the care of the presumes to set foot within the wide domain that was once his state and where once he was a sovereign the form of the proposed good sort, show to explain the care of the presumes to set foot within the wide domain that was once his state and where once he was a sovereign the form of the proposed good sort, show to explain the care of the proposed good sort, show to explain the care of the proposed good sort, show to explain the care of the presumes to set foot within the wide domain that was once his state and where once he was a sovereign the proposed good sort, show to control t

wide domain that was once his state and where once he was a sovereign citizen. He is not only forbidden to build him a home and open roads and engage in useful industry in all that territory, but if he even ventures upon it as a traveler he forfeits his rights as a free man and comes under the dominion of the whims of the ranger crew. Thus the business and the rights of the citizen are whipped down thinner and thinner, the business and the rights of the politician grow greater and lordlier and as we run more and more to politics, spoils and graft so does the end draw nearer when the people will rise up and mock and destroy their own institutions as they have never failed to do when things got to running that

when things got to running that way.-Lewiston Tribune. On and after August 1, 1905,

The following description of the washing to the Historical Society why not erect one over the place where Lew Day was shot, one over the scene of Captain Randall's death; or one where Ben Evans or D. H. Howser were killed while going to the relief of soldiers who were reported as being the corrected by the Washing.

The following description of the sum memory.

The following description of the sum memory.

The following description of the washing to the sum memory.

The following description

Mr. Wilmot was a volunteer scout a lawful feace under the Idaho laws: and accompanied the United States If made of stone, four and one-half and accompanied the United States troops and volunteer parties during the days when Chief Joseph and his warriors wrought so much havoc in Camas county, Idaho. Mr. Wilmot believes Chief Joseph to be nothing more than a murderer and suggests that if the Washington State Historical Society has any money to be spent in monuments they should be erected to commemorate the bravery of men shot down, some of them in cold blood, by this Indian chief to whose memory Professor Meany, of the Washington State University, desire: the erection of a monument.

Mr. Wilmot has written to the News protesting against this action on the part of the historical society. In his communication he says:

If made of stone, four and one-nant feet high, two feet base and one foot on top. If a worm fence the rains must be the same height as for one, the posts must be firmly set in the state stand office, Lepison, Meany, the portsions of the set of flusher made in the state of \$70\$ for the round trip from Genesee and all points in this territory. The above sum includes stage transportation and accommodations of the washington State University, desire: the erection of a monument.

Mr. Wilmot has written to the News protesting against this action on the part of the historical society. In his communication he says:

If made of stone, four and one foot on top. If a worm fence the rains must be the same height as for the states.

A Man With Fits

There is a man in Genesee who has lits, that is has fits for defective eye-sight. If your eyes trouble you you should not neglect to see him. He charges you nothing for examining your eyes. Remember that headaches in ninety cases out of every one hundred comes from eyestrain and that to twenty times a night, and I was all often a few cents properly invested, like fits will cure this dreadful ailment.

The man with fits is **OLSON, The Optician**

became imbedded in the trunk.

-The sacred concert given under the auspices of the Y. P. S., in Our Savior's church last Sunday evening, for the benefit of the mission, was a good one and enjoyed by all who attended. The entire program was rendered by home talent, the chorus and choir having been trained by Student of Theology Olaf Borge, of the theological seminary of the Synod for the Norwegian Lutheran church of America, located at St. Paul, Minn. Mr. Borge last Thursday completed a two months term of parochial school in the congregation, in which he also drilled the children in hymn singing and the pupils assisted at the concert. The soloists all acquitted themselves with credit, and the declamation by Miss Marie Olson was appropriate and listened to with attentive ears. In the intermission between the first and second part of the program the pastor addressed the audience in the interest of the mission. The total receipts for the sale of tickets was

n Portland, will be an occasion never be forgotten by the citizens of Idaho, who are present, as well as by the visitors of the exposition on that day. It is hoped that the railroad companies can be induced to give round trip rate considerably less than one fare, in the event that it can be shown that a large number will go from each of the principal points of the state. In this way it is elieved that several thousand Ida: o citizens would visit Portland at that time, and that the state would get the enefit of the unconscious advertising that the presence of so large a number of prosperous people from an

interior state on one day would create. The present intention is to have a program of exercises on that day, that will in a measure be an oratorical history of the state The pioneers will be present in numbers, and will be given a prominent place on the program. Some attempt will be made to tell those witnessing the exercises how the Gem of the Mountains was leveloped within thirty years from a

dition of prosperous growth.

Boise, July 16-The equestrian Among the features that it is hoped statue of Washington which has stood to show in Portland on Idaho day is on the capitol grounds for 38 years, a representative Idaho State Band, of was removed from its pedestal dur- 75 pieces, the performers all being ing the past week, and is now stored citizens of the state. -The NEWS man and wife returned 10me Wednesday evening after an absence of three weeks at Portland and Bellingham. The entire trip was a very enjoyable one. While at Bellingham a camping party was organized by former Geneseeites now residing in that city and a day was very pleasantly spent at Chuckanut bay on the Sound. Boating, bathing and the digging and baking of clams furnished amusement for the day. Those making up the party were: Mr. and Mrs. Thos. H. Brewer and Mr. and Mrs. Chas. Power, of Genesee; Mr. and Mrs. B. M. Easterbrooks, Mr. and Mrs. Hans Bugge, Mr. and Mrs. J. L. Pickering, Mr. and Mrs. August Peterson, Mrs. J. W. Hopp, Antone Bugge and Mr.

-The Portland Oregonian recently had the following to say of Idaho: "Of our new states none is making more rapid progress than Idaho. is just at the beginning of a marvelous career. Its possibilities of production are immense. Idaho is among the greatest of our mineral states already, and the development of its mines is just begun. Its stores of timber are scarcely exceeded even by Washington and Oregon. It has a vast area of productive soil, and its cereals, vegetables and fruits are surpassed nowhere. Lying wholly west of the Rocky mountains, and subject to the controlling influence of the Pacific ocean, Idaho climate is equable and mild. The numerous and powerful streams that pour out of the moun-

JOHANN & MILLER

HOW IDAHO IS GOING AHEAD.

Col. Allen Miller, state immigrawith the Tribune yesterday, said: "It goes without saying that Idaho is more prosperous today than at any time in her history. Development and improvement is the order of the day. The Shortline railroad is doing a great work for the sections of the state through which it runs. It is state through which it runs. It is now constructing a branch from Idaho Falls, Bingham county, to Moran, in Freemont county, a distance of about twenty-five miles through a very rich agricultural country. Another branch is under construction from Downey in Utah into and through the fertile Malad valley to Malad City in Oneida county. Both these branches will be completed and the cars running on them in the early fall. Another branch leaves

CREAL

completion of this branch will be celebrated at Twin Falls on Tuesday tartar derived from grapes. next by the presence of Governor Gooding, Senator Heyburn, Burton SOLOE SAKING POWDER OG. L. French and other notables who are scheduled to make appropriate speeches and eat roast ox. The little of preparing an agricultural schedule

P. I. & N. will extend its line from of questions to be answered by the Council to the Meadows on the head-clerk of each school district in the waters on the Little Salmon river, reaching the center of quite a large and very fine body of yellow pine timber. Then the O. R. & N. is already throwing dirt on the line from Riparia dorsed by the assessor and school the companied by a letter signed by the commissioner and heartily endorsed by the assessor and school Northern Pacific will take up the counties, setting forth the importance work and continue it to Grangeville of the farming statistics to the state this an electric line from Boise to Caldwell, a distance of thirty miles, is already assured, and Col. Spofford informs me that his electric line from the sport of the larming statistics to the state and the people. These schedules are to be returned to the assessor by the clerks who undertake to aggregate them and send them to the commissioner. These two officers, with the sport of the state Lewiston to Grangeville is now an as-sured fact and that construction work counties, have cordially entered into will be commenced on the first of the the work and are aiding the office in month. This is certainly a pretty good showing for railroad building this year.

"There is scarcely a town of any territorial unit known to the state,

this year.

"There is scarcely a town of any importance in the state where some public improvements is not in process or contemplation. In one place it may be water works. In another an electric plant, and in another a modern opera house.

"The prospect of a great and abundant crop is most flattering. The grain crop of the south and southeast is siready practically all cut and in shock or stack, and is the finest ever known in that part of the state. Two good crops of alfalfa have also been harvested. The third crop of alfalfa will be very light in the southern portion of the state on account of a scarcity of water which is caused by the decrease in fall of snow during the last winter. The fruit crop will also be light, perhaps not more than half the usual average. not more than half the usual average. sult before the farmers in the east, The late spring frosts are responsible the middle west and the south, and for the shortage in this line of pro-

all in Canyon county. The one at

CHOLERA AND DIAR-RHOEA REMEDY. are to be built in the near future. "The lederal government under the everywhere, and nine out of ten will give "The federal government under the provisions of the reclamation act of congress, is now constructing the Minadoka irrigating canal which, when completed, will put under cultivation 130,000 acres. The Payette-tivation 130,000 acres. The Payette-tivation act, has been ordered constructed by the interior department and the money appropriated for the work. This canal will put under cultivation 350,000 acres. The Twin Falls canal, constructed under the Carey act, will put under cultivation 240,000 acres. A little forethought may save you no end of trouble. Anyone who makes it a will put under cultivation 240,000 end of trouble. Anyone who makes it a acres, and the Emmett canal, near rule to keep Chamberlain's Colic

the town of Emmett in Canyon county will put 15,000 acres under cultivation. The homestead under the great irrigation ditches ranges from o acres up to 160, the size being regulated by the proximity to a town-site. All the land under these litches, aggregating nearly three- the ravages of consumption, the "white

ditches, aggregating nearly three-quarters of a million acres, has already been homesteaded except a few under the Payette-Boise valley scheme, the entrymen being granted leave of absence until the water is available for the irrigation and improvement of the land.

"Now, in regard to your inquiry touching the work being done in the office of commissioner of immigration, labor and statistics. I will state that within the next sixty days I will print the season of room the season of ro within the next sixty days I will

for the shortage in this line of production.

"The crop on Camas Prairie and Nez Perce and Latah counties is simply immense. To be fully appreciated it must be seen. We have no hesitency in saying that its equal does not exist in the United States. The beet crop in Bingham, Freemont and the southeastern portion of Oneida bids fair to be the best yet raised in that section. If any man goes hungry in the state of Idaho during the next year, it will be an indiscretion or suicidal purpose.

It will wash and not rub off This complexion all envy me It's no secret so I'll tell E. Dicus & Co.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from uselees doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured."

Juaranteed at F. E. Dicus & Co's drug store; price 50c.

Do not use any substitute, but give the oldfashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by F. E. Dicus & Co.

Electric Flat Irons

Of all electric heating devices the Electric Flat Iron is one of the most commonly used today. Its advantages over the old style are so great and so obvious that no up-to-date housewife will hesitate for a moment in adopting it, and no one who has once used an Electric Flat Iron would ever willingly use any other. It has been on the market for over ten years, during which time it has been improved and perfected in every detail.

This iron is particularly economical for general use. The electric heat is concentrated right in the bottom of the ironing surface, where every particle of it is effective. None of the heat is transmitted to the handle or into the room. of the heat is transmitted to the handle or into the room. No matter how hot the iron, the ironer may always be cool. In kitchen and laundry it saves time, temper and money. There is no loss occasioned by changing of irons, by waiting for irons to get hot or for overheated irons to cool. The electric current generates a steady heat of absolute evenness which may be maintained in one iron all day if desired.

Those desiring any information concerning these irons may call upon E. M. Murphy or at Dicus' drug store. Genesee Electric Light & Power Co

JOHANN & MILLER

A recent issue of the Portland Telegram contained the following very complimentary article concerning the Idaho exhibit at the fair: If the legislators of Idaho, when

making an appropriation for an Idaho exhibit at the Lewis and Clark exposition, had had in mind solely the benefits to come to that state in the way of immigration and investment of capital, they could not have outlined a better character of display than the one which causes so many favorable comparisons when the Gem state building is visited. In "playing" for the homeseeker, if that was really the purpose of the exhibit made, Idaho has singularly and hap-

LARGE COWS OVERESTIMATED. Most farmers overestimate the real Northern Pacific Railway will sell value of large cows and large milkers tickets to the Yellowstone park at and as a rule underestimate the value rate of \$70 for the round trip from of a small cow, giving a light flow of Genesee and all points in this terrimilk rich in butter fat. In entering tory. The above sum includes stage the dairy barn at the Minnesota State transportation and accommodation farm, there are two cows standing at the Park hotel for not to exceed side by side; one weighs 1,300, and five and one-half days. Tickets on the other 875 pounds. Invariably when visitors enter, favorable comments are made upon the fine large cow with the big udder, and on only one occasion has the small cow been pointed out as an ideal dairy cow, and that was by a prominent milk producer from New England who called at the station for the express purpose of seeing the cows whose

records have received so much attention in our dairy literature. The large cow is the deepest milker in the herd, while the small cow never gives a large mess even when fresh. The large cow invariably decreases rapidly in her flow, while the small one is a persistent milker, generally giving as much in the spring as when she went into winter quarters. The large cow, during the past three years, has averaged 295 pounds of butter per year, while the small one gave 341 pounds. The large one yields 3 per cent. milk, while the small one gives 5.5 per cent. milk .-Professor Haecker, in Farm, Stock

Electric Flat Irons

Of all electric heating devices the Electric Flat Iron is one of the most commonly used today. Its advantages over the old style are so great and so obvious that no up-to-date housewife will hesitate for a moment in adopting it, and no one who has once used an Electric Flat Iron would ever willingly use any other. It has been on the market for over ten years, during which time it has been improved and perfected in every detail.

This iron is particularly economical for general use. The electric heat is concentrated right in the bottom of the ironing surface, where every particle of it is effective. None of the heat is transmitted to the handle or into the room. No matter how hot the iron, the ironer may always be cool. In kitchen and laundry it saves time, temper and money. There is no loss occasioned by changing of irons, by waiting for irons to get hot or for overheated irons to cool. The electric current generates a steady heat of absolute evenness which may be maintained in one iron all day if desired.

These desiring any information concerning these irons.

Those desiring any information concerning these irons may call upon E. M. Murphy or at Dicus' drug store. Genesee Electric Light & Power Co.

RETINOSCOPY

Is the modern and most scientific method for testing eyes. The finding of the defect by this way of testing is the most correct, as the Geneva Retinoscope, the instrument I make use of, will accurately measure and register the defects of the human eye without any guess work by the optician. In connection with the perfect testing I am in contact with one of the best eastern lens grinders where I get my prescriptions properly filled. In this way I am well prepared to take care of any case which belongs within the limits of the optician's field of practice, and will guarantee satisfaction. No charge for testing eyes.

RETINOSCOPY

Is the modern and most scientific method for testing eyes. The finding of the defect by this way of testing is the most correct, as the Geneva Retinoscope, the instrument I make use of, will accurately measure and register the defects of the human eye without any guess work by the optician. In connection with the perfect testing I am in contact with one of the best eastern lens grinders where I get my prescriptions properly filled. In this way I am well prepared to take care of any case which belongs within the limits of the optician's field of practice, and will guarantee satisfaction. No charge for testing eyes.

JOHANN & MILLER

GOODING AND, PINCHOT AGREE. Boise, Idaho, Sept. 5.—As a result of a conference today between Gover

nor Gooding and Gifford Pinchot, chief of forestry service, a perfect un lerstanding has been reached between the state and national governments on the subject of forest reserves. The state government and forestry

service will cooperate hereafter to the fullest extent on all mutters pertaining to the protection of the forests and water sheds. An important feature of the understanding is the relation to the school sections embraced in the reserves. After Governor Gooding and set forth the condition in which these school sections are left an agree-

ment was reached that the state should be given a solid body of timber land in exchange for the school lands, this land to be maintained as a state reserve, the proceeds of the timber sales from it, going into the public

Mr. Pinchot explained the scope of the new regulations and plans of the ervice for the future. This was enirely satisfactory to the governor and ie stated that as nothing was left he could wish to criticise, he was ready to give his fullest support to the for-

The governor called attention to the fact that he had never been opposed to the principle of forest reserves. He believed that the establishment and aintenauce of reserves would be a great thing for the country. He had found, however, that rules formerly enforced were often unreasonable and people and state. Pinchot interrupted him while he, was speaking to say that he thoroughly agreed with the governor on that point. The rules and regulations had been very crude, he said. They worked an injustice and it had been marvelous to him to observe how patient the people had been in view of the just grievances

they could bring forward. Continuing, Governor Gooding said he was entirely satisfied after his talk with Pinchot; he felt entirely different and was ready to assist in every way he could in the projection of forest and water sheds of the state. He found the plans of the service and new regulations that were being put into effect, were reasonable and satisactory in the highest degree, while a most favorable agreement had been reached with reference to sections 16

Pinchot said he and the governor had discussed the forest reserve policy of the government and the forest reserves established in this state in all their phases. They found perfect greement on all points. At the outet they were in complete accord on The Blair Bersiness College all general principles of the forest reserve system and when they had finished there was no difference on any

With reference to the school sections embraced in the reserves, Mr. Pinchot said it had been agreed at a proper time that he should arrange to have an exchange made, under which A Bay Mediane for Bay People. the state would secure a solid body of tions.—Lewiston Tribune

The reasons for the lessening of the day.

In the past few days the Idaho fruit The announcement that the Inland company will ultimately make as to their Lewiston-Clarkston terminal will probably show that the plan of the company and Mr. Adams is to make these cities the base for a second system of electric line feeders which can be built to serve the prairie region east of Lewiston, the Asotin section and the eastern Oregon country.

The reasons for the lessening of the levy for the county are: The amount of outstanding warrants have been decreased; the amount apportioned for bridge purposes is less; the amount of cash on hand in the treasury to the credit of the various funds is greater. The following are the comparative tax levies for the past 12 years: 1892, \$2.50; 1894, \$2.35; 1895, \$3.00; 1896, \$2.90; 1897, \$2.70; 1898, \$2.90; 1899, which they had imagined would not

> Section 1094, of the school laws of 1905, provides, that every child be tween the ages of 8 and 14 years. whose physical condition will permit. hall be kept in school for at least 12 weeks in each school year. And section 1098 of said law, that the orincipal or superintendent shall serve notice on the parents or guardian of said child demanding the attendance of said child within ten days from said service, designating the school which said child shall at-

Section 1097 provides that if at the expiration of said ten days, said parent shall refuse to cause the attendance of said child, the superintendent r principal shall on five days notice proceed to collect a fine from said parent of not less than five or more han twenty five dollars, for the first offense and not less than ten or more than fifty dollars for the second offense, said fines to go into the

Section 1101 also makes it the duty of the teachers to report all children between the age of 8 and 14 years that do not attend school, and it then becomes the duty of the trustees to proceed to collect the penalties set forth in section 1098, and it also becomes the duty of the trustees to post

notices of these requirements in three public places in their district.

The foregoing are the requirements. briefly stated, of the teachers and trustees of our school districts by the school laws of this state. DELINQUENT CHILDREN ACT.

Section 9 of the "Act to Provide for the Care of Delinquent Children" found on page 106 of the session laws of 1905, states that all parents, guardians and other persons having the care of children between the ages of 8 and 16 shall send said children a public, private or parochial school for the entire year, during which the public schools are in session. This act does not however apply to children over 14 years of age who have completed the eighth grade, or where its help is necessary for its own or parents' support, or for any good cause showing it would be for the best interest of the child it may be relieved from its attendance at school, or if the child's mental or bodily condition does not permit of its attendance at school, it can be excused. The act further provides that the su-perintendent of the school district, if there be one, and if not, the county superintendent, shall hear and determine all applications of children desiring to be excused from attending school for or on account of any of the foregoing reasons. This matter is not left to the parents of children as

RUICK TO TRY THE LAND FRAUD CASES. Advices from Boise are to the effect A MATTER OF HEALTH

that United States District Attorney N. M. Ruick expects to try the land fraud cases that have arisen in the north, as well as those to come up later, personally, with the assistance of Deputy Attorney Miles S. Johnson, of Lewiston, no special prosecutor having been assigned by the department of justice to assist him nor to take charge of the prosecution over

When asked regarding the matter he stated that he expected to take personal charge of the matter, as he had learned that it was not the intention of the government to assign other counsel, but were on the other hand relying upon him for the duty. No intimation, even, has been received that the Washington authorities desired to furnish assistance to him.

Vacation will be your song. WE FIND OURSELVES HEAVILY

IDAHO'S POPULATION.

That is the estimate placed upon he population of this state by Colonel Allen Miller, state immigration commissioner, who bases his estimate upn figures found in the office of Miss Scott, state superintendent of public instruction. School superintendents of the various counties in the state have sent in their reports on the school census of June 4, 1905, and from these it has been definitely determined that on that date there were 73,000 children of school age in the

The government census of 1900 gave Idaho a population of 162,000, and the number of children of school age in that year was given at 54,000. This would give a proportion of three to one. Using that ratio this year would result in a present population of 219,000, but Commissioner Miller is very firm in the belief that since June of this year there has been a substantial increase in the number of school children in the state, and a still more substantial increase in the general population. He therefore conservatively estimates the present number of people in Idaho at a quar-

being left behind in the race for success. Government supervision is needed quite as much in the interest genuine right to complain take many shapes. Rebates are not now often given openly. But they can be given ust as effectively in convert form; nd private cars, terminal tracks and the like must be brought under the control of the commission or administrative body, which is to exercise supervision by the government. But in my judgment the most important thing to do is to give to this adminstrative body the power to make its free Dishes to All findings effective, and this can be done only by giving power, when complaint is made of a given rate as being unreasonable or unjust, if it ands the complaint proper, then itself to fix a máximum rate which it regards as just and reasonable, this rate to go into effect practically at once, that is within a reasonable time, and to stay in effect unless reversed by the courts. I earnestly hope that we shall see a law giving this power passed by congress. Moreover I hope that by law power will be conferred upon representatives of the government capable of performing the duty of public accountants carefully to examine into the books of railroads, when so ordered by the interstate commerce commission, which should itself have power to prescribe what books and what books only, should be kept by railroads. If there is in the minds of the commission any suspicion that a certain railroad is in any shape or way giving rebates or behaving improperly, I wish the commission to have power as a matter of right, not as a matter of favor, to make a full and exhaustive investigation of the receipts and expenditures of that railroad, so that any violation or evasion of the law may be detected. This is not a revolutionary proposal on my part, for I only wish the same power given in reference to railroads that is now exercised as matter of

Spokesman-Review of Friday, was

Moscow, Idaho, Nov. 6.-While the eight indictments returned today by defendants named is correct. In the eight indictments returned there are so separate counts. There are also just eight defendants, and it will be seen that a number of the defendants

appear in more than one indictment. The number of times each defendnt was indicted by this grand jury is summed up as follows: William F. Kettenbach, three indictments for onspiracy; George H. Kester, two indictments, conspiracy; William Free Dishes to All Dwyer, two indictments, one conspiracy and one subornation of perjury; C. W. Robnett, three indictments, one conspiracy, two subornation of perjury; W. B. Benton, two ornation of perjury; Ed. L. Kinght,

one indictment, perjury. END OF LONG TASK It was 11:30 this morning when the grand jury, which has been in session D for the past to days, finished its labors and filed into Judge Beatty's court to make its final report. The indictments were silently handed to the court, and on ascertaining that the jury had completed its labors, Judge Beatty thanked them for efficient work and discharged them, and the timber fraud investigation, so far as the present term of court is

ncerned, came to an end. Of those indicted, Kettenbach, Kester, Dwyer and Robnett were already under indictment, indictments having been returned by the grand jury at Boise last July. Indictments returned today are all upon entirely different transactions than those investigated at Boise. Throughout the investigation the sessions of the grand jury were harmonous, and while all the indictments were not all voted unanimously, it is understood that in all cases the government had several votes more than the necessary number. The jury numbered 20, and it took a vote of 12 to secure an indictment.

The most striking feature of the indictments is the prominence of the men charged, and the fact also that all save one are Lewiston business

-Mrs. Sherry and daughter, who left here about a year ago for the Lake for home missions in the morning. Chelan country, were the guests of friends this week.

-The next regular teachers' examination will be held at Moscow, Nov. 23, 24, 25 for first, second and

third grade certificates. CLARA RANSOM DAVIS, Co. Supt.

-Oscar Samuelson is down on his the past week. homestead south of Colton, spending his summer's wages in building fences Harris accompanied him.

O-The weather of the past two weeks has never been excelled in Idaho, or any other state for that matter. Farm work is now well up and seeding has been practically completed.

-We were in error last week in stating that the purchase price of the Mrs. Tyler recently arrived in this 160 acre farm sold by John Christen. son to Gustav Roseneau was \$45 per acre. The price was \$42. The additional 160 acres now makes Mr. Roseneau the owner of 480 acres.

-We are very reliably informed that John P. Vollmer, of Lewiston, will be the principal owner of at least three new townsites along the proposed new railroad between Lewiston and Grangeville. We understand one of the new towns will be located

-At a special session of the board of county commissioners, held Saturday of last week, and called for the purpose of extending the tax levy to conform with that made by the state board of equalization, made necessary by the recent supreme court decision, it was found necessary to increase the levy of 20 mills made by the board in September to 22½ mills, ½ mill less than the levy of 1904. Assessor -John Hudson was here from Plaza Vaughan advises us that he is now in readiness to receive taxes.

O-A Northern Pacific traveling freight agent recently made a canvass Genesee branch alone there still remains for shipment fully a million pleted in a few days. For the grain and a half bushels of wheat, barley which the producers had given up as and oats, exceeding the total amount and in the entire Clearwater section. Nearly one-half of this amount is being held in Genesee warehouses.

-A regular meeting of the school believing that any attempt at saving board was held Monday evening. it would be futile. The grain in that Aside from the allowing of the usual section was almost wholly cut with monthly bills no business of importbinders and practically no stacking ance was transacted. The fact was brought to light, however, that the amount of money, about \$300, at the present time in the treasury would by C. and U of I. teams, was without a no means pay the running expenses doubt the most interesting event of until the receipt of more money from county taxes, which will not be available until about February 1st. Destimated at over 5000, about 1500 of ficiency warrants will have to be ishe number being from Pullman, sued, or a loan made. The increasing of the teachers' salaries, appropriating about \$300 toward a school library and the expense of plumbing the school building for water are items sible for the shortage.

-A man giving the name of N. J. orthwest championship. The weight Allen, and representing a Lewiston tated back to near the wrist. -Mrs. J. Tyler, a sister of C. C. Stuber, is a visitor here this week. section from her home in Fairbanks. Alaska.

-A meeting of the G. A. R. society will be held tomorrow afternoon at the K. of P. hall. It is very necessary

that all should be present.

J. E. REED, Commander, -Beginning with the 15th inst. or as soon as the stock of money orders on hand at the various postuffices throughout the country, a new form will be issued, one similar to those in use a few years ago, a metal cutter being used to separate the original from the coupon. It is claimed that the old orders are frequently "raised."

—Friday evening of last week Leon Larrabee celebrated a birthday anniversary by inviting a number of young friends to his home. The evening was very pleasantly spent. Those present were: John Thoma, Willie Springer, Charlie Mochel, Earl Dickson, Thames Williamson, Wesley Morgan, Alva Greaves, Leonard Mochel, Fred Nordby, Olive Larrabee, Gladys Larrabee, Ila Larrabee, Alta Burr, Dora Burr, Lydia Carbuhu, Ruth Fowler, Lucile Conant, Bernice Conant.

-Gustav Dochow left here Wednesday afternoon for North Yakima with a carload of personal effects, the family expecting to make that place their future home. Mrs. Dochow and the children will not leave until Mr. Dochow has secured suitable living quarters. On a recent visit there Mr. Dochow became very favorably impressed with the country and is now returning to invest in irrigated lands. During his residence of a few years near this place he has accumulated a very tidy sum at farming and recently disposed of a 160 acre ranch at an advance of about one hundred per cent above what he paid for it.

-Wednesday of this week Ed Prather met with a very serious accident. He was assisting Oscar Surby about the gasoline wood saw. Fol. lowing the noon hour the machine was pulled into the Springer yard in the east end of town and things were about in readiness to begin sawing wood. Mr. Surby was supplying the tank with water and Mr. Prather in passing up a bucket full, it seems, to support himself, very thoughtlessly placed his left hand over the rapidly revolving saw resulting in the hand being completely severed back of the knuckles. Unaided he ran to Dr. Conant's office. Drs. Ehlen and Smith were hastily summoned and the remainder of the hand was ampufall heavily upon the family. Mr. gregation being about two pounds camped for the night at the Craig Prather, who is a brick and stone eavier to the man. The injuring of farm on the reservation. During the mason, will no longer be capacitated to follow that line of work and the second half, seems to have caused he claims was valued at \$300, was family finances can ill afford to lose

IS YOUR HOME WIRED FOR ELECTRIC LIGHT?

If not, the Genesee Electric Light & Power Company will help you to have it Wired, so that you can enjoy the incomparable conveniences and advantages of ELECTRIC LIGHT in your home at comparatively

HOW WE WILL HELP YOU WIRE YOUR HOME

It often happens that to Wire an entire residence from cellar to attic involves a considerable expense—more than the householder feels like paying, or is in a position at the moment to pay. If however, the less important rooms are eliminated from consideration and the living rooms—those rooms in which an Electric service would be the biggest boon to you-dining, kitchen, parlor, halls, etc., are Wired, then the expense of Wiring is comparatively small, and within the means of the average person. The company has, by competitive bids and by buying goods in large quantities, made arrange-

TEN DOLLARS

You Can Have Your Home Wired and Equipped for Electric Lighting, as Follows:

Sitting Room Parlor -**Dining Room** 1 Light Kitchen -

This price covers everything you will be called upon to pay for this installation, including lamps.

There are no extras. If you desire more lights than provided for in this plan, you can secure them at approximately proportionate cost.

Of course you understand that with current from any of these outlets you can run an electric fan or heat an electric flatiron or water boiler, coffee pot, chafing

By this arrangement you can enjoy at once an Electric service with all that it means in the way of health, comfort, convenience, conservation of eyesight and the additional "tone" to your home; and if later on you desire to extend the service to other parts of the house, this may easily be done, as the installation is so arranged as to permit of extensions with economy and expedition. Moreover under improved modern methods of wiring, the work can be done with no injury to decorations and little inconvenience to the household.

Partial Payments if You Wish.

If it is inconvenient just at this time for you to expend \$10.00 in a lump sum, we will finance the deal, and you can pay us in four monthly installments without interest, or we will allow 5 per cent off for cash. As for the actual Cost for Electric Lighting

you will find that, in spite of its immense superiority,

RETURN COUPON

Please have your representative call and see me in regard to wiring my residence for Electric Lighting.

Genesee Electric Light and Power Co.

under rates reduced since January 1st, 1905, Electric Light is now practically As Cheap as Coal Oil.

The above is the new proposition for Wiring local residences. The rest is "up to you." Do you want to be up to date? Do you care to have your home as convenient and comfortable for you and yours as you can make it? You would consider it poorly equipped without modern sanitary plumbing with no better heating system than was used twenty years ago, with a well in he front yard instead of a connection with city water.

None of these things is more essential or more truly effective for health and comfort than Electric Light, which requires no matches, has no open flame, does not consume oxygen or pollute the air, is a balm to tired eyes, sheds a golden refulgence that is the acme of the Ideal illumination, at the same time adding a new element of beauty and elegance to the home.

If you would like to have this benificent Lighting and Power service in your home, let us hear from you. A simple method of communication is to tear off the Coupon in the right hand lower corner of this page, fill in your name and address and mail to us. You will receive prompt response from an intelligent representative, who will be glad to furnish further details and

talk the matter over with you. By acting promptly your home can be Electrically Lighted for the holidays. Genesee Electric Light and

YOUR HOME WIRED FOR ELECTRIC LIGHT?

If not, the Genesee Electric Light & Power Company will help you to have it Wired, so that you can enjoy the incomparable conveniences and advantages of ELECTRIC LIGHT in your home at comparatively

HOW WE WILL HELP YOU WIRE YOUR HOME

It often happens that to Wire an entire residence from cellar to attic involves a considerable expense-more than the householder feels like paying, or is in a position at the moment to pay. If however, the less important rooms are eliminated from consideration and the living rooms—those rooms in which an Electric service would be the biggest boon to you-dining, kitchen, parlor, halls, etc., are Wired, then the expense of Wiring is comparatively small, and within the means of the average person. The company has, by competitive bids and by buying goods in large quantities, made arrange-

TEN DOLLARS

You Can Have Your Home Wired and Equipped for Electric Lighting, as Follows:

1 Light Parlor -**Dining Room** - 1 Light Kitchen -

This price covers everything you will be called upon to pay for this installation, including lamps. There are no extras. If you desire more lights than provided for in this plan, you can secure them at approximately proportionate cost.

Of course you understand that with current from any of these outlets you can run an electric fan or heat an electric flatiron or water boiler, coffee pot, chafing

By this arrangement you can enjoy at once an Electric service with all that it means in the way of health, comfort, convenience, conservation of eyesight and the additional "tone" to your home; and if later on you desire to extend the service to other parts of the house, this may easily be done, as the installation is so arranged as to permit of extensions with economy and expedition. Moreover under improved modern methods of wiring, the work can be done with no injury to decorations and little inconvenience to the househo

Partial Payments if You Wish. If it is inconvenient just at this time for you to expend \$10.00 in a lump sum, we will finance the deal, and you can pay us in four monthly installments without interest, or we will allow 5 per cent off for cash.

As for the actual Cost for Electric Lighting you will find that, in spite of its immense superiority, under rates reduced since January 1st, 1905. Electric Light is now practically

RETURN COUPON

Genesee Electric Light and Power Co.

As Cheap as Coal Oil.

GENESEE

The above is the new proposition for Wiring local residences. The rest is "up to you." Do you want to be up to date? Do you care to have your home as convenient and comfortable for you and yours as you can make it? You would consider it poorly equipped without modern sanitary plumbing with no better heating system than was used twenty years ago, with a well in the front yard instead of a connection with city water.

None of these things is more essential or more truly effective for health and comfort than Electric ight, which requires no matches, has no open flame, does not consume oxygen or pollute the air, is a balm to tired eyes, sheds a golden refulgence that is the acme of the Ideal illumination, at the same time adding a new element of beauty and elegance to the home.

If you would like to have this benificent Lighting and Power service in your home, let us hear from you. A simple method of communication is to tear off the Coupon in the right hand lower corner of this page, fill in your name and address and mail to us. You will receive prompt response from an intelligent representa-tive, who will be glad to furnish further details and

talk the matter over with you. By acting promptly your home can be Electrically Lighted for the holidays.

"Charges were preferred against West some time ago, alleging that he was making improper use of his office and participating too freely in politics. Numerous specifications were submitted, charging that West, aided by his brother, has induced settlers to make filing on lands which had previously been filed on by other persons. They then persuaded settlers to institute contests before the Lewiston land office, and immediately entered into negotiations with parties to the contest, inducing one or the other to make a relinquishment in favor of the other. When they secured the relinquishment in favor of the other when they secured the relinquishments, the West brothers collected money from the successful contestants. In

Closing Out Sale

AT THE NEW STORE

Beginning Friday, Dec. 1,

1905, 8:30 a. m.

Beginning Friday, December 1st, 1905, at 8:30 a. m., we are going to have a closing out sale of odds and ends and broken lots of new, clean up-to-date seasonable merchandise, such as Jackets, Skirts, Underwear, Shirt Waists, Sweaters, Fascinators, Blankets, Comforts, Outing Flannels, Shirts, Hats and Caps, Gloves, Furs, Shoes, Etc. Here is an opportunity for you to save money and get new goods fresh from the factory at less money than is often paid for old shelfworn shoddy stuff. No old goods in the lot, therefore, this is an opportunity you cannot afford to miss. Bargains like these are not to be had every day. If you have no need for any of these articles at present, the prices are such that it will pay to buy now and keep for future use. We carry a good line of Infant's, Children's, Misses', Boys', Ladies' and Men's Shoes. Broken lots and odd numbers must go in order to make room for other goods. These Shoes are all of eastern manufacture. Style and wearing quality is unsurpassed. It will pay you to investigate very carefully and figure out how much you can save, also consider the quality offered for the prices.

In order that everybody shall be properly waited upon, extra experienced salespeople have been engaged. We want to treat every one right, therefore will gladly show you the goods, even though you may not be wanting to buy. Satisfaction always or your money refunded.

Genesee July 4 last.

-Rain is badly needed in this section of the state. The range is unusually dry and range animals are working down to the canals in droves. This has been a freakish year. The spring rains were unprecedented and the wind storms during the summer were worse than had ever been known. The present spell of glorious weather is normal but it should have been preceded by drenching showers in October. The first earthquake ever felt in this locality was experienced Saturday last. It was very mil in Twin Falls, so mild, in fact, that many did not notice it. In other parts of the state it was somewhat startling. Heretofore the mountain tops have always been covered with snow at this time of year. At present only the crests of the summits show traces of white. Altogether it has been an unusual year.-Twin Falls

December 1st to December 31st, 10 per cent discount will be given on Rockford and Roger's Silverware, Haviland and other makes of Fancy China, Cut Glass and Silver Novelties, at Olson's.

THANKFUL

We should all be for the many blessings which we have received during the past year.

We especially wish to truly thank the public for their liberal patronage. We realize that little can we accomplish without your support. We are striving as we always have been to build up a reputation for honesty that the public will have sufficient confidence in to favor us with their patronage.

We also realize that we sometimes make mistakes. "I think we all do," but we always stand ready to rectify

Trusting that you all have as much to be thankful for

We Remain as Ever,

O. G., Elmer Vanouck. -The Thanksgiving doings in Our avior's congregation are reported as being very successful. The services in the church were impressive. The pastor expounded the thankfulness we as citizens of a free christian country owe to God on this national day of thanksgiving and how we The Kind You Want and Demay render such thanks to God aright. Following the services the whole assemblage adjourned to the home of Mr. Hans Halvorson where the "Kvindeforening" and Dorcas CORRECT society had prepared a sumptuous dinner. Owing to the good arrangement of the cooks and snappy work of the waitresses, about 150 people were served in a very short while, and at 2 o'clock the sale was in full progress. Albert Halvorson served as auctioneer and acquitted himself with credit. A handsome lot of goods City Dray Line were sold, some of which, such as drawnwork, knit lace, embroidery and hardanger," would be hard to duplicate at any store. The dinner and

sale netted the two societies a hand-

told will be donated to the Alaska sonable price. Roosevelt attached his signature to the Reclargation Act and made it s law which will result most beneficially for the great west and add-innummerable millions to the wealth o our nation. The law requires that all moneys accruing from the sale of public lands in thirteen states and three territories, except a five per cent school fund, shall be set aside for the reclamation of the arid lands in these states and territories. As each project is undertaken an accurate acount is kept of all expenses and when the work is completed each acre irrigated is assessed a pro rata of the total cost and this the settlers must repay in ten annual installments, without interest. Already this fund totals \$30,000,000 and the Complete Stock of Wines rrigation of 1,800,000 acres is planned. The average value of irri-

gated land in the United States is GENESEE, \$47 per acre. This acreage will therefore add \$87,000,000 to the taxable property of the United States in land Genesee values. According to the census report of 1900, the average annual income of irrigated land is \$15 an acre; Extra Fine Lager Beer Sold at on this basis \$28,000,000 per annum will be added to the nation's wealth .-

the city yesterday morning, says the

Lewiston Tribune of Friday, from the

learwater country and departed on

the Owl train last night for Spokane.

Mr. Ude visited Grangeville and

other towns of the Clearwater section.

and it is understood his object was to

ecure the views of people there rela-

ive to a change in the train schedule.

The plan appears to be to change the

time of the Owl train so that it will

lepart from Spokane and Lewiston at

o'clock in the afternoon, instead o

1 o'clock, and arrive at 10 or 1

'clock at night instead of 7 in the

orning. In connection with the

hange of this train, a change of the

time of the Clearwater train is now

ontemplated, whereby the hour of

eparture from Stites will be 7 o'clock

the morning instead of 4 o'clock

and the hour of departure from Lew-

ston 2:30 or 3 o'clock in the after-

noon instead of 1:45. If the Owl

schedule is changed a diner will take

the place of the sleeper. For some time a new schedule on both the

Spokane and Clearwater branches

has been under consideration, and it

is now believed that a decision will

be reached and an announcement

My stock of Watches, Clocks, Jewelry, Silverware, Silver and Ebony Toilet and Manicure goods, Haviland Chiha, etc., etc.' is larger and more complete than ever before and every piece is well adapted for an Xmas gift.

I offer you nothing cheap—everything the best. Here are thousands of suggestions, among them are articles not expensive and still they make favorable gifts. For instance: A pair of spectacles for grandma; a Gold-headed Cane for grandpa; a piece of Silver, Haviland China or Cut Glass for ma; a Watch-charm, with his societie's emblem on, for pa; a Ring or Bracelet for sister or daughter; a Watchchain or a Fountain Pen for brother or son, and I wish you would come in and look around for something for your best girl or best fellow and for your other friends and I am sure that you can find something suitable for Holiday gifts for anybody and the prices I guarantee to be the lowest considering the quaility of the goods.

Drop in and look around whether you care to buy or not. No trouble to show goods.

A Fearful Fate.

It is a fearful fate to have to endure

the terrible torture of Piles. "I can

truthfully say," writes Harry Colson, of

Masonville, Ia., "that for blind, bleed-

ing, itching and protruding piles, Buck-

len's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries 25c at F. E. Dicus & Co., druggists.

Torture of a Preacher.

The story of the torture of Rev. O. D

Moore, pastor of the Baptist church, of

Harpersville, N. Y., will interest you.

He says: "I suffered agonies, because

of a persistent cough, resulting from the

grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for consumption, coughs and colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At F. E. Dicus & Co., druggists; price 50c and \$1.00, guaranteeed. Trial bottle free.

one of the items. This will be of interest to farmers who had already made an appeal to the commission.

The only item of genuine importance which was not included in the they would fight through the courts

the state, as it gives them an opportunity to dispose of their products west of the mountains to a better ad-

The rates will practically be effectve at once, and the formal order of the commission will be issued in a few days. The railway companies will prepare new tariff sheets, which will include all the items contained

in the agreement.

The joint order effects coal shipments from Roslyn to Eastern Washington, and hay, oats, barley and mill feed from Eastern Washington to Puget Sound points; merchandise and commodities from Western Washington east, and live stock from Eastern Washington west of the mountains. The joint rate on coal to Colfax from Roslyn will be approximately \$3, a reduction of 25 cents less than the rate canceled in 1902. The merchandise rate, first class, will be \$1.25 maximum to O. R. & N. points, instead of \$1.60 as made up of the sum of the locals. The joint rate on coarse grain re-establishes the former rates between O. R. & N. and Great Northern, which now applies to Northern Pacific also.—West Coast Trade.

a queer situation. A gentleman recently took his third wife to the he newly-wed couple took their seats the man looked around and to his consternation beheld all three of his wives seated in a row beside him.

He must have felt like a Mormon. -The sale of state school lands in Nez Perce county yesterday brought the sum of \$37.550 to the state treesnry. The sale was conducted by State Land Commissioner Munson and Agent J. L. Goodnight at the ourt house, and a large number of people were in attendance says the Tribune. Two thousand acres were sold and nearly every parcel of land offered was accepted. The average price per acre was \$18.78, and the ntisfactory to the officials and they say the reason there was not a greater amount of money above the appraisnent is due to the fact that the land value. While much of the land was purchased at the appraised value, in a number of instances where choice tracts were involved the bidding was quite spirited and the land brought good prices. The highest price paid was by M. F. Raudall for 80 acres west of Ilo. This tract was appraised at \$25 and sold for 33 per scre. The next highest prices paid were for 40 who paid \$31 per scre and by Wm.

ontha of the present year shows ponding period of the year preceeding. The export business has increased \$1,000,000 in the Philippines, about the same in exports to Hawaii, twice as much to Alaska, and three times as much to Porto Rico. An increase of \$7,000,000 is not to be sneezed at. In ten months our increase in Chinese ports on exports amounts to \$30,000,000. A comparison of October exports of 1904 and 1905 with exports for the same month during the four years preceding shows how great trade with China became. In 1900 export trade with China amounted to \$579,000. In 1903 it reached \$1,324,000. In 1904 it amounted to \$3,800,000, and it was approximately the same this year. Total exports for ten months in 1895 amounted to \$3,834,000. This year the ten months show about \$50,104,coo. Of this trade cotton goods led, their value shipped to China being about \$27,000,000. It may be remembered that much of the shipments, particularly of flour to Hongkong, was destined for China, and so even these large figures fail to adequately express the full value of the trade. And, large as it is, it is prophetic of still larger business in the immediate

GOVERNOR'GOODING AT WASHINGTON.

Concering the recent visit of Governor Gooding to: Washington, he is quoted as follows:

"While in the capital city, I called on the president in company with Senator Heyburn. I found that the president and the senator were especially friendly, Mr. Heyburn being requested to remain until after the visiting delegations had gone. Lifeel that in Senator Heyburn and Congreasman French the state has two strong men, who are working hard at all times protecting, the state's best interests. I feel that neither the senator nor the congressmen, are getting a aquare deal from the special newspaper representatives that furnish with Washington news. Everything is highly colored in the interest of Senator Dubois. The people should not be misled by these Washington reports. I found that Heyburn and French were especially strong with the departments, and and feel confident that they will be able to do much good for Idaho. With the exception of the president's torest reserve policy, I believe Senator Heyburn is in full accord with the administration on all other measures. "The next day I called on the

president again, in company with Chief Forester Pinchot, to discuss the connection of the state with the forest reserves. Several months ago it had been agreed between Mr. Pinchot and myself that there should be an exchange for sections 16 and 36 in each towaship in the forest reserves, for a body of good timber land on one or more of the established reserves. The object of the meeting was to get the president's approval of this agreement. This he gave very heartily, assuring me that he would gladly co-operate with Pinchot in bringing about such an adjustment of the matter. I explained to the president what this would mean to the future of the common schools of the state. President Roosevelt expressed himself very strongly on the matter. I now feel that there will be no trouble in the state in securing a fine selection of valuable timber lands; which will be worth millions of dollars to the common school funds. Under the law passed by the eighth session of the legislature the state is now able to preserve its forests the same as the general government does. It will mean a great deal for future generations. I hope to see the time come when through these great land grants our public institutions and common schools will be in large part

"While in Washington I called on Commissioner Richards of the general are interested in Idaho. Among the completely knocked out the grip. number were prominent railroad people: These were in the interest of The eyes of the east are turned toward Idaho. I feel that the immigration next year will be much larger than ever before. I found some of the results of the splendid showing we had made at Portland everywhere in the east. This has made it easier to enlist eastern capital in our great irrigation enterprise."

WILL NOT STOP DISCRIMINATIONS:

business that will in every way merit your patronage. Horses and rigs will be "It does not follow," so says the Milwaukee Sentinel, "that the federal government must assume and exercise the rate-making power in order to secure justice, nor is it certain that even if it should adopt that plan it would be successful. It:would be as easy to grant a secret rebate on a-rate Fruit and Confectionery Store fixed by the interstate commerce commission as on one established by the carrier itself. The greatest evil in the transportation business is discrimination of one kind or another. Government rate-making will not do away with discrimination. Let congress pass a law granting to the interstate commerce commission the power to make rates and put them in force at once and the problem of preventing disciminations would still be unsolved.

"This, the Sentinel believes, is the real question congress should undertake to answer: How are discriminations to be abolished? The interstate commerce commission is now engaged in examining into the practices of private refrigerator car companies. It assumes that it has the right to make such inquiries in face of the demurrer filed by the private car line officers, who contend that they are not engaged in interstate commerce.

"The interstate commerce commis-IDAHO sion has formally expressed the opin-

Billiousness, dyspepsia, loss of appetite, disturbed sleep, nervousness, headache, giddiness and drowsiness, wind and pain or fullness of the stomach after meals, cold chills and flushings of heat, shortness of breath — these are the blank cheques of physical bankruptoy.

The man who suffers from these disorders and neglects them will soon be in the releutless grasp of some fatai disease. If he is naturally narrow chested and shallow lunged, it will probably be consumption; if his father or mother died of paralys; so rosme nervous trouble, it will probably be nervous exhaustion or prostration, or even insanity; if there is a taint in the family blood, it will be blood or skin disease; if he lives in a new or a low, swampy country, it will be malaria; if he lives a life of exposure; it may be rheumatism. There is one safe course for a man to follow who finds himself "out of sorts" and suffering from the symptoms described. It is to resort to Dr. Pierce's folden Medical Discovery. This medicine makes the appetite keen, corrects all disorders of the digestion, renders assimilation perfect, invigorates the liver, purifies and enriches the blood and builds firm, healthy flesh and nerve tissue. It cures almost all diseases that result from mangificient or improper nourishment of the brain and nerves. Bronchial, throat, and even lung affections, when not too far advanced, readily yield to it.

A man or woman who neglects constipation suffers from show polynomy. The Pierce's Piessant Peler

A man or woman who neglects constipation suffers from slow polsoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. Don't let a selfish seller over-persuade you to accept a substitute for these Original Little Liver Prits, first put up by old Dr. R.V. Pierce over 60 years Ruch imitated but never equaled.

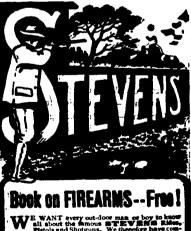

ion that the practices adopted by the terminal companies, branches of large manufacturing corporations and organized primarily for the purpose of securing rebates under cover of a joint rate arrangement, are in direct violation of the anti-rebate law. The thing to do then is to enforce the
