GENESEE MAN PLATS ORCHARD TRACT.

Geo. Martin, who last spring purchased 530 acres of farm land on the Snake river at Riparia, Washington, has decided to put 168 acres of this land, which is the flat low land along the river, on the market in 5-acre tracts. He has had this part fully platted and laid out, while the balance of the farm, which is highland, he will reserve for his own use at present.

The land of Mr. Martin lies within 4 blocks of the hotel in that city, and is on the north side of the river and east of the O. R. & N. main line between Spokane and Pendleton. He has also made arrangements to water the entire tract, taking water from the Snake river by means of current pumps of sufficient capacity to supply an abundance of water. This combined with the mild climate and the probable removal of the O. W. R. & N. shops from Starbuck to Riparia, promises to make the land some of the most valuable in the northwest. One-half will be set out to fruit trees while the rest, for the time being, will be cropped with broom-corn, potatoes and melons, the former of which is proving to be a very productive crop along the Snake river.

Within two miles of this tract is the 560-acre farm of President Bryan of Washington State College, who is also plating and putting on the market a considerable portion of his land for fruit purposes. Electric pumps will furnish the water for irrigation here, electric lights and water will be installed in the homes and telephone lines will cover the country. Also within a mile or so of his place the Badger Land & Water Co., of Milwaukee, Wisconsin, is putting in a commercial orchard covering a quarter section of land.

Although Mr. Martin has been offered over three times the price he paid for the entire tract for that 168 acres of low land alone, he has refused the offer, and considers that within five years the land will be worth many times its present value. He says there is no doubt but that the land is equal to that of Kennewick, Yakima and Wenatchee as an orchard proposition and its ideal location, coupled with the prospects of its becoming a railroad center, make it one of the most promising propositions in the future of the northwest country.

INSANE MAN COMMITTED TO OROFINO.

Carl Hendrickson, a young German, claiming to be from the north-eastern part of Prussia, Germany, near the Russian border, was taken to Moscow last Sunday by Marshal Fitz and this week adjudged insane and committed to the North Idaho Insane asylum at Orofino.

He was first seen in this neighborhood last Wednesday in a Northern Pacific box car at the depot. That afternoon he left town going east into the Little Pottlach first stopping at Will Gray's place a few miles out, then at the Oberg farm, adjoining, where he was kept until Saturday. On being questioned at C. F. Burr's office, he stated that he did not know his name, was 26 years old (although he appeared to be but 22 or 23) and that he had come from Germany. He further said that he had never been here previous to that day, (although several saw him the Wednesday before) and that he had come from Pasco. How he got here he did not know, first stating that he rode in, then that he walked, and finally he did not really know how. While at Pasco he was working with a construction crew on the North Coast railroad, but his statements were misleading as to how long he was there. Neither did he know how he got into the United States, nor into the north-western country.

He was confined in the local "cooler" during Saturday night and seemed extremely grateful to Marshal Fitz for the accommodations, such as the bed and a warm fire, telling the marshal that "he (Fitz) was the best friend he had in the world." The man was very thin clad, and seemed to suffer from the cold, wearing only a very thin shirt and a pair of trousers and it is a wonder he had not frozen to death in his wanderings. He refused to tell his name here, although he told the authorities in Moscow that it was Carl Hendrickson and he was so booked in the records at the sheriff's office.

SOLVES A DEEP MYSTERY.

"I want to thank you from the bottom of my heart," wrote C. R. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c at F. E. Dicus & Co.

AN OLD AND WELL TRIED REMEDY.

BOARD REFUSES TO REDUCE RANK.

By a vote of two to one the county commissioners, of Whitman county, Washington, last Tuesday refused to reduce the classification of that county in accordance with the federal census showing, and by an unanimous vote of nearly 200 delegates the Whitman county farmers' union and the Pomona grange, in joint convention, voted to take the case into the courts and carry it to the supreme court if necessary. It was also decided to bring suit to recover the salaries paid to the various county officers under the classification to which the commissioners raised the county two years ago.

The farmers came from all parts of the county and the convention of members of the grange and farmers' union was one of the largest ever held in the county. A large portion of the wealth of the county was represented and there has seldom been a more earnest or determined gathering of men in Colfax.

The committee which visited the commissioners offered to "let bygones be bygones" if the commissioners would "right the wrong we believe you committed with honest intentions," but when the olive branch was spurned the battle cry was sounded and in a few minutes sufficient money was pledged to employ an attorney and carry the case to the supreme court. Many farmers pledged \$25 each to pay the costs of fighting the case.

The convention met in Workmen hall in the forenoon and appointed the committees and a special committee composed of J. M. Reid of Pullman, R. C. McCroskey of Garfield, G. W. Case, Jr., of St. John, J. C. Farr of Albion and A. J. Chase of Tekoa who visited the board at 2:30 o'clock and asked for a hearing. Messrs. Reid, McCroskey and Case spoke. Chairman Ruple of the commission-

ers said the board had acted from honest motives, believing the county had 35,000 inhabitants. Chairman Ruple voted in favor of the resolution and Commissioners McCoy and Ellis voted against it. The committee thanked the board for its attention and reported to the convention, which promptly took action toward taking the case in court.

Another important step taken by the farmers' union on that day was the disclosure of plans to send C. W. Nelson, state sales agent for the union, to Europe to contract wheat direct with the consumers.

COLLEGE EXPERTS SAY HYDROPHOBIA.

The dog's head which was sent to Pullman last week Wednesday by Veterinary J. D. Adams, was pronounced, by the experts who examined it there, to be affected with rabies. This was the dog which was seen at the Con Steltz place and later found dead in the creek south of the East End elevator.

On Tuesday morning of this week, Section Foreman C. H. Wheeler also killed a dog which was similarly afflicted and which W. S. C. experts say was the worst case they have seen. The dog saw first on the bank of the Creek near the stock pens east of the depot. He had undoubtedly come there to get water but the creek was frozen over. When first seen the dog was lying on his back, frantically kicking his feet, at the same time frothing at the mouth. Mr. Wheeler struck him with an ax, killing him instantly.

The health authorities are exercising much vigilance in preventing the spread of this disease, and dogs are not allowed to run loose on the streets. Two or three dogs have been killed this week and the people of Genesee and the surrounding country who own dogs are asked to cooperate with the officers by keeping their dogs tied up.

WOMEN WILL MEET AT TACOMA.

Ex-Governor James H. Brady, last week called a delegate convention of the five women suffrage states to meet at Tacoma, Wash., on Jan. 14th, the representation to be exclusively women. This will be the first national convention of women voters ever held on earth so far as history reveals.

The governor sent letters to the governors of the other four equal suffrage states: Utah, Wyoming, Colorado and Washington, representing about 270,000 women votes.

The delegates named by the governors are:

Idaho—Margaret S. Roberts.
Utah—Mrs. Susan Young-Gates.
Wyoming—Mrs. Zell Deming.
Washington—Mrs. Virginia Wilson Mason.

The Colorado delegate will be named later.

The promoters of the new organization propose to call it "the national council of women voters," and plans already have been perfected for the publication at Tacoma of a national organ.

All of the governors of the equal suffrage states except Governor Shafroth of Colorado, who, however, is known to be in sympathy with the convention, have written to Governor Brady warmly endorsing the proposed national organization, and it is expected that some or all of these governors will attend.

TAXES ARE TOO HIGH.
 In yesterday's Journal appeared an article written by B. S. Deffenbach, of Sandpoint, pointing out what he believes to be some defects in the present law and giving some points remedying them.
 Whether we agree with Mr. Deffenbach or not in all the details, it is very evident that he has thought considerably upon the subject and that he has struck at the root of the ills.
 He says: "The method now employed in Idaho for arriving at the value of property for purposes of taxation is a farce." Never was there a truer statement. The law provides that the actual cash value must be the basis of taxation. But what do we actually find? That every assessor in the state is knowingly and willfully violating this law—yes, deliberately violating this law.
 Every year they convene at Boise and scheme as to how they can get the best of each other for their respective counties, agree upon a basis in direct violation of law, agree faithfully they will stand by their agreements and scheme how they may violate not only their pledges to each other but the law itself. In one county the basis is 20 per cent, in another it is 30 per cent and in a third it is 50 per cent and, there you have it! All these contributing to meet the state's expense at these many bases.
 But this deceit, law violation of assessors leads to much more trouble and injustice. The deputy assessor goes from house to house assessing. He may be a poor judge of valuations. He puts in one piece of property at \$500 which is worth in cash \$2500, and the nearest neighbor pays on an assessed valuation of \$500 on property worth in cash \$2000. What can be done? He goes to the assessor who tells him he is assessed at 40 per cent and therefore he should not complain. Should he go into court it would be held that he should pay on assessed valuation of \$500. So he has no relief although he knows that his neighbor is paying but one half the proportion of taxes he himself is compelled to pay. In other words at 60 mills he pays \$48 on \$2000 worth of property while his neighbor pays \$30 on property worth \$2500 cash and this is called equalization of taxes!
 Meanwhile the investor comes into the state and learns that the taxes are 60 mills and he goes elsewhere with his money. If the man who pays on \$2500 at 60 mills paid his taxes at actual value of his property he would pay 12 mills to get the same amount of taxes or one-fifth the 60 mills. The investor would say I can afford to put money in such a place. There are a few hindrances to the carrying out of the present law, but these may be easily removed at once in order that taxes may be equalized and that investors may not shun the state.—Coeur d'Alene Journal.

—President Taft's release of the \$20,000,000 appropriated for reclamation work just announced from Washington, is good news to many sections of the Pacific Northwest in which portions of the money are to be spent. Under the law the entire sum must be used within five years so that work will soon begin. The northwestern projects which will be immediately benefited and the sum to be spent on them are the Payette project in Idaho, \$2,000,000; the Umatilla, Oregon, \$3,500,000; the Klamath, Oregon, \$2,000,000; the Sanny-side and Tieton, Washington, \$1,250,000 and \$655,000 respectively. Funds sufficient for maintenance or operation are to be allowed for the Kittitas and Benton units of the Yakima project, and an allotment from the general fund will go to the Okanogan project in Washington.

MRS. MARTIN ANDERSON.
 Mrs. Martin Anderson, a well known pioneer of the Thore Creek country, died at the Grimsen hospital in Moscow last Thursday morning, and was buried the following day in the Moscow cemetery. The funeral services were held from the Methodist church of that city, Rev. B. E. Knott officiating. The cause of her death was a complication of diseases for which she was operated on at the hospital last Monday and from which she never recovered.
 Mrs. Anderson was born in Sweden in 1846 and came to this country in 1871, first settling in South Dakota. She removed to Idaho in 1898 where she was married to Martin Anderson. They settled on the homesteaded 8 miles north of town and have lived there ever since that time. At the time of her death she was aged 64 years, 3 months and 20 days.
 She is survived by a husband and seven children, three girls, Lana, Hattie and Marie, and four boys, Alfred, Oscar, Clarence and Printis, to mourn her loss.

—Dr. J. D. Adams was a business visitor in Pullman last Tuesday afternoon.
 —Harry Vandenberg came in from Boville Monday afternoon for a short visit with his parents.

Arch Fig Senna Syrup
 A very pleasant yet efficient remedy for constipation, sick headache, biliousness, and all diseases arising from disordered liver, and stomach or bowels. The special advantages of this preparation are its mild action and its safety as a laxative. It does not gripe nor sicken the stomach. As a remedy for constipation it is greatly to be preferred to the various pills and mixtures advertised for that purpose, which enfeeble the muscular action of the bowels and eventually do harm. When you need a laxative try Arch Fig Senna Syrup Two Sizes, 25 and 50 cents.

STATE ITEMS.

William Mohl, of Lewiston, has been appointed state horticultural commissioner by Governor-elect Hawley. Mr. Mohl is well qualified for the office, having been a deputy state fruit inspector for several years.

Sam Rich of Fremont county has been chosen by Governor-elect J. H. Hawley for the position of state immigration commissioner. Rich is a Mormon and his appointment is being opposed by F. T. Dubois, former United States senator.

The new packing plant which is being erected in Moscow for Hagan & Cushing is fast nearing completion. It is expected that everything will be in readiness in the near future. It is constructed almost entirely of brick, cement and iron and is practically fireproof.

As the result of an order issued by Governor Brady to Adjutant General A. M. Rowe last week Colonel Robert Landon was dismissed from his position in the Idaho national guard. Landon claims his removal was made because of his work against the governor during the recent campaign. The Lewiston state normal school will ask the legislature to appropriate for its use during the next two years \$137,500, according to a statement of the requirements of the institution submitted this week by President George H. Black to the legislative delegation from Idaho and Nez Perce counties, which visited the school.

The Camas Prairie Railroad company is taking every possible precaution to keep the road open for traffic and eliminate the blockades that embarrass travel to the prairie country last winter. At the present time the company has a force of men engaged in the construction of snow fences at points on the line where snow drifting closed the road to traffic last year.

D. C. Nigh at Kendrick has a specimen of new wheat which he planted last year which made one of the best yields for a small patch so far reported this year. The wheat is called the Red Wonder and Mr. Nigh planted two rows, which were threshed and recently he figured up the yield as being over 150 bushels to the acre. Next year he will plant all that was threshed this season.

Thirty depositors placed more than \$900 in the United States Postal Bank which opened at Coeur d'Alene this week Tuesday. Mrs. S. D. Beebe, wife of the postmaster, was the first depositor. The system was in perfect working order at the opening of this bank, the first and only one of its kind in Idaho, one man depositing the limit of \$500. Scores of stamps worth to cents each were sold to school children who will paste them on a card for the postal department. When \$5 worth of stamps has been collected the bank will accept the deposit.

The state supreme court has issued a temporary writ of prohibition restraining the state land board from selling public school lands in Latah and Nez Perce counties. Most of the land in question contains timber which was sold to the Potlatch Lumber company under a time limit of 20 years in which to remove the timber, all timber remaining after the 20 years to revert to the state. The company wants to buy the land so that it will not have to remove the timber, but the petitioners claim the state has no right to sell the land.

WHERE STATE TAXES GO.

For the first time in the history of this state the cost of conducting the government of Idaho is given by State Auditor Stephen D. Taylor, who tells in his report to the governor just where the people's money goes to and what the several amounts are for in the various departments.

In discussing this matter, Mr. Taylor said in part:

"I cost \$1,814,506.32 to pay the maintenance account of the government of the state of Idaho from the period extending from October 1, 1908, to October 1, 1910. The figures for the cost of maintenance for other biennial periods are not available, for the reason that they have never been given in any state report to be found. Under the head of receipts and disbursements, it is shown that the total disbursements from the treasury, exclusive of the handling of endowment funds, was \$3,464,794.32, and of this amount there was used \$160,128.31 for the redemption of warrants outstanding from the previous administration, and over and above the amount issued for the past biennial period. This would leave \$3,334,666.01, which would actually represent the amount actually expended in administering the affairs of the state from October 1, 1908, to October 1, 1910."

The following summary shows the purposes for which this amount was expended, according to Mr. Taylor: For maintenance, \$1,814,506.32; for relief measures and deficiencies, \$65,398.11; for amount paid to counties, \$535,808.32; for refunds, \$11,150.27; for public improvements, \$539,238.49; for bonds redeemed, \$135,000.00; for coupons on bonds, \$126,785.45; for interest on warrants, \$16,784.96. Total amount for all state expenses, \$3,334,666.01.

Following is a summary by Mr. Taylor of expenditures for maintenance: Legislative, \$53,269.04; the executive departments \$133,655.99; appointive state officers and state boards, \$474,726.50; judicial department, \$169,050.38; state institutions \$474,726.50; judicial department, \$169,050.38; state institutions, \$861,317.50; miscellaneous, 117,381.61. Total maintenance, 1,814,506.32— Boise Statesman.

THREE FACTS!

Fact No. 1. The Idaho National Harvester, made in Moscow, is the best built piece of harvesting machinery in the world. It is built to stand the strain. It is ball and roller bearing from end to end and side to side.

Fact No. 2. The Idaho National does the best threshing of any machine in the world. It does not crack the grain, and when we make this claim we mean it. The machine not only does not crack grain, but positively does save the grain.

Fact No. 3. The Idaho National puts the grain from the field into the sack cheaper than any other machine or by any other method.

Keeping this in mind: The profits on an acre of wheat are not measured by the size of the machine; it is not determined by the length of the sickle, nor by the weight of the machine. It is determined entirely by the COST per bushel and by this only. The Idaho National decreases the cost and increases the profits.

NOTE—Wouldn't you like to own a few shares of Idaho National stock? Don't the above facts mean something to you? Think it over.

MORE GOOD ROADS FOR GENESEE.

That the farmers of the Genesee country are becoming disgusted with the bad conditions of our roads every winter is vouched for in recent actions of surrounding road districts, the latest of which is the decision of district No. 57, James C. Hanson, overseer, lying east of town, to make permanent repairs and betterments on some of its thoroughfares. At present several men are engaged in drilling and blasting rock from the quarry on the southeast corner of the J. C. Hanson place, which will be used as the foundation for the new roads.

The first piece of improvement work will be started with the opening of spring, when the main road east will be macadamized from the end of the present rock road at Old Town to the Peterson farm, adjacent at least a half a mile of permanent rock road. Other roads will be improved, as quickly as possible, depending upon the amount of rock which can be taken out this winter and the available help next spring before the summer farm work opens.

The rock which is being taken out of the quarry is in fine shape and will make a splendid macadam. The county commissioners are furnishing the drills, powder and fuses for this work without cost to the district, and the blasting and hauling will be carried on all winter when the weather permits.

This good roads question is undoubtedly the most important one which the people of this county and state will have to meet sooner or later. While we all believe in good roads, as a general rule, we never let it get beyond mere talk, many claiming that they cost more than they are worth. Farmers in this county are gradually learning that this is not the case, however, and when it is considered that it costs our farmers one cent, for every bushel of grain hauled one mile through the mud, a different view point on the good roads question will be taken. The little pieces of macadamized road here and there in wide awake road districts are gradually awakening an interest among other districts and the time will come when the people will see in these macadamized roads the same economy that a railroad corporation sees in a ballasted track. The News heartily endorses the action taken by district No. 57, and its progressive farmers and hopes that it will be a stimulus to the building many more miles of good roads in the Genesee country.

SIX GOVERNORS WILL VISIT SPOKANE. Trustees of the Spokane chamber of commerce, headed by Frank Culbertson, acting president, and the entertainment committee, of which W. S. McCrea is chairman, have invited the governors of Washington, Oregon, Idaho, Montana, Wyoming and California to attend the annual meeting and banquet of the organization in the Masonic Temple, in that city, the evening of January 17. The invitation says among other things:

"During the past year in particular the states of Washington, Oregon, California, Idaho, Montana and Wyoming have become thoroughly imbued with the spirit of co-operation. When any city in these states invites a national convention, the governors, mayors and chambers of commerce vie with each other in securing and endorsing the invitation, the idea being that what helps one community is of benefit to the others.

"The Spokane chamber of commerce fully appreciates the prompt and cordial support and co-operation of the governors, mayors and chambers of commerce of these states.

"At the annual meeting and banquet the prevailing idea will be that of co-operation. It is conceded that if we stand together we are invincible. We are standing together now, and on the occasion of the yearly meeting we desire to proclaim this to the entire country."

The chamber of commerce also has extended an invitation to Colonel Theodore Roosevelt to be its guest while in Spokane on a tour of the northwestern states next April. It is expected he will pass several days there before going to the Pacific coast.

SCHOOLS WELL PROVIDED FOR.

Interesting data on the receipts from sales and leases of lands given Idaho by the government for the benefit of educational institutions, covering the transactions of the state land board for the last two years, have been compiled by Herbert D. Hale, chief clerk of the board, for public information. Mr. Hale says in part:

"The federal government granted to Idaho for the benefit of the common schools sections 16 and 36 in every township in the state, and made land grants to various other public institutions, the total acreage in each being as follows:

General school	3,000,000 acres
Insane asylum	50,000 acres
Public buildings	32,000 acres
Normal school	100,000 acres
Charitable institutions,	
etc.	150,000 acres
Scientific schools	100,000 acres
Agricultural college	90,000 acres
Penitentiary	50,000 acres
University (State)	50,000 acres
University (Ter)	45,000 acres
Total	3,668,000 acres

"From these various grants the board has sold during the past two years 73,465.13 acres at public auction sale for \$1,397,741.44.

During the same period the state has leased of these lands 670,665.15 acres, deriving therefrom \$91,466.07.

"The timber from a 137.58 acres has been sold for \$38,259.75.

"And before this year has ended fully 30,000 acres more will be sold, besides a great quantity of timber, and doubtless thousands of acres of additional lands will be leased.

"The average daily receipts of the department amount to upwards of \$4,000. The total cash receipts for the biennial period, 1909-10, up to November 1, amount to \$4,597,696.07.

"The funds received as principal from these sales are deposited in the perpetual endowment funds of the particular institutions which they belong. The interest and rental is used for the general maintenance of the institutions.

"Of the principal in these funds the state has now invested in the school bonds, drawing 5 per cent interest, the enormous amount of \$2,010,953; in mortgages on farm lands, drawing 6 per cent and 7 per cent interest, \$817,662.74; and in state warrants, drawing 6 per cent interest, \$479,310.24.

"It may readily be seen from the foregoing that the common schools, colleges and other public institutions of the state are well provided for. Not an acre of these immense land grants can be sold for less than \$10 per acre, or the appraised valuation, whatever that may be in excess of this figure. With interest on deferred payments on sale certificates, the interest received from investments and the rental of the lands, these various institutions will soon, as certain of them now are, be self-supporting, without taxing the people a cent."—Ex.

O. V. PORTER DEAD.

O. V. Porter, a pioneer of the Lewiston country, died suddenly at his room at the Hotel De France last Thursday evening shortly before 6 o'clock. Mr. Porter had been in ill health for some time but was about the city that day as usual. He returned to his hotel at 5:15 and asked that Dr. Shaff be summoned as he was suffering from his affliction. He then passed to his room and died within a few minutes after the arrival of his physician.

Mr. Porter came to Lewiston more than 20 years ago and was well known throughout the Lewiston country. He is survived by a wife, divorced, and three daughters, Nellie and Mabel, residing in Spokane, and Mrs. Ed. Steits, residing on the reservation southeast of Genesee, and two sons who are attending school at the Mission near Caldwell.—Lewiston Tribune.

Mr. Porter is well known to many people in the Genesee country having farmed south of town for many years. His friends here regret to hear of his sudden death.

The funeral was held from the Vassar chapel last Saturday afternoon.

SETTLERS WILL GET LAND.

That homesteaders and not the state of Idaho will gain title to the disputed Marble creek timber claims valued at 4,000,000 to \$5,000,000, is indicated in a letter of Secretary of the Interior Ballinger made public this week.

The letter was written in November to former Governor Brady of Idaho, and states that a decision in favor of the settlers is being delayed only to give the state a chance to protect itself by gaining title to other lands to make up for the loss on Marble creek.

It is expected that the decision may mean the ouster of settlers from sections numbered 16 and 36 in the recently opened Coeur d'Alene reservation, the secretary holding that the state had no right to give up title to those lands.

Some of the settlers who are interested in this decision are Mr. and Mrs. N. M. Welch, of St. Joe, formerly of this place, who have one of the most valuable claims in the disputed territory.

—According to law, the taxes which had not been paid became delinquent Monday morning, Jan. 2nd. County Assessor Geo. Griner states that he had not yet completed the delinquent list, which he thought would include considerable more names than it did last year. It will probably include about 800 taxpayers this year.

Isaac C. Hattabaugh, of Idaho county, endorsed by Governor James H. Hawley as his appointee for insurance commissioner, will probably never be ratified by the senate of the eleventh legislature. Sam Rich, of Bingham county, will take the office of commissioner of immigration and statistics about February 15, by which time the present Commissioner Patton will have prepared his biennial report. At least these are the two intimations given out by the majority wing of the senate through the affairs committee, which reported this week Tuesday, recommending that the appointments of Hattabaugh and Rich be held up and that all other appointments of the governor be ratified.

SOLVES A DEEP MYSTERY.

"I want to thank you from the bottom of my heart," wrote C. R. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitter in one use of both a severe case of stomach trouble and of rheumatism from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons the same rheumatism, Electric Bitter has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c at F. E. Dicus & Co.

SAVES TWO LIVES.

"Neither my sister nor myself might be living to-day, if it had not been for Dr. King's New Discovery," writes A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8, "for we both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best I ever used or heard of." For sore lungs, coughs, colds, hemorrhage, lagrippe, asthma, hay fever, croup, whooping cough, all bronchial troubles,—no cure. Trial bottle free. 50c and \$1.00. Guaranteed by F. E. Dicus & Co.

Artificial light is bad enough without having big lighting outlays and clogging troubles; you don't have to have either. The Argie Lamp has come to town, and now there's a better way. See it at Herman's.

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It alleviates the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Every man and woman is anxious to buy some article—necessity or luxury—every day at the home of E. E. Emmett, his brother. Mr. and Mrs. Emmett were recently married and were on their honeymoon trip.

—The home of Mrs. Mary Herman was quarantined last Friday on account of scarlet fever. Rosalia, the oldest daughter of Mr. and Mrs. E. E. Miller is also sick with the fever, and that home has likewise been quarantined.

—While walking about on the A. Butzinger place Thursday last week, David Spurbek slipped on an icy walk, and in falling broke his leg and sprained the ankle. He is laid up in bed now, but is slowly improving, and it is expected he will be able to be out in a few weeks.

—At the meeting of the baseball team last Sunday afternoon the following officers were elected for the coming season: Manager, Ed. Smolt; captain, Chas. Whalen; treasurer, Robt. Emmett; field manager, Glenn Sampson. No schedule has been made as yet, but the officers expect to make early arrangements with other teams. This (Friday) evening the boys will give a basket social and dance at the opera house, for the purpose of defraying expenses which they will have to meet at the beginning of the season. This is a worthy affair and deserves the support of every citizen of Genesee.

Arch Fig Senna Syrup

A very pleasant yet efficient remedy for constipation, sick headache, biliousness, and all diseases arising from disordered liver, and stomach or bowels. The special advantages of this preparation are its mild action and its safety as a laxative. It does not gripe nor sicken the stomach. As a remedy for constipation it is greatly to be preferred to the various pills and mixtures advertised for that purpose, which enfeeble the muscular action of the bowels and eventually do harm. When you need a laxative try Arch Fig Senna Syrup. Two Sizes, 25 and 50 cents.

GENESEE WINS BOTH GAMES.

Genesee high school won both games of the double-header Saturday night from the local high school. The games were witnessed by a large crowd of yelling spectators.

The girls' contest was one of the best and closest games played in Lewiston for some time. Both teams were at it hammer and tongs from start to finish and the result was in doubt until the final whistle was blown.

The Lewiston girls started off with a rush and had a lead of three points before Genesee woke up; but they soon closed the gap and won the first half 6 to 5. In the second half each side made three points, making the final score 9 to 8.

The stars for Genesee were Misses Bell and Meyer. The guarding of the Genesee backs were exceptionally good.

For Lewiston Misses Whitcomb, Orth and Conklin were the stars. They were all over the field and fighting hard all the time.

The boys' game was one of the hardest-fought contests ever palled off here. It was rough, both sides playing this way. In spite of the fact that it was tough it was so fast that one could hardly follow the ball. In the first half Genesee started off with a rush and they were never headed throughout the game. The score at the end of the first half stood 17 to 14 with Genesee at the long end of it. The second half was so fast that if either team started any game work it was immediately smashed up by the opponents backs. In this half Spurbek was rendered unconscious for a couple of minutes, and was unable to resume the game. M. Wardrobe taking his place.

A Wardrobe was Genesee's star and point-maker, totalling up 18 points. He was closely followed by Gray with 13 points. The score at the end of the game was 35 to 24.

The Lewiston team, though out-weighted and out-generated, put up a fight that will long be remembered by local patrons. Every man showed the fighting spirit and gave the school all there was in him. Although they were beaten, the high school students should be proud of their scrappy little team.—Lewiston Tribune

—At the meeting of the stockholders of the farmers' union held last Saturday afternoon the following officers were elected for the year 1911: H. J. Herman, president; B. H. Scholer, vice-president; James Nisbet, secretary and treasurer; John A. Nisbet, chaplain; Charles Griener, conductor; Albert Cathcart, door-keeper. The executive board elected were: Thos. Dwyer, Joseph Knapp and Anton Borgen.

SCHOOL NOTES.

Herbert Martinson played center in the boys' game at Lewiston. John Wardrobe, the regular center, was unable to go with the team on account of sickness.

There were several Genesee people at the Lewiston game, and their rooting, augmented by that of the normal and the Business college, as well as by Clarkston, helped our boys considerably.

Last Saturday's game was the first one of this season for the girls. They have been practicing throughout the season according to girls' rules, and were compelled to play at a disadvantage in Lewiston where they used the collegiate rules.

The pupils in two rooms of the city schools, those of Miss Kimbrough and Miss Keane, were dismissed last Friday morning and the rooms were thoroughly fumigated the same day. This action was taken by the health officers on account of the presence of scarlet fever in those rooms on that and previous days.

POULTRY SHOW JAN. 30-FEB. 4.

The Panhandle Poultry and Pet Stock association which incorporated recently with its home office in Moscow, has issued a handsome little booklet containing the constitution and by-laws of the association, a premium list for the big show to be held in that city from Jan. 30 to Feb. 4th and other interesting information. The officers of the association are: G. P. Mix, president; W. W. Robertson, vice-president; W. J. Hunter, secretary; J. F. Nicholson, assistant secretary; H. Melgard, treasurer.

E. R. Headley will superintend the show this year and Miller Purvis of Windell, Idaho, will act as judge. True to its name the association is offering premiums for every known variety of poultry as well as for such ornamental fowls as pheasants, quails, pea-fowls, guineas and parrots. Premiums will also be given for pure bred pigeons of all varieties and pedigreed dogs.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup, prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all dealers.

THREE FACTS!

Fact No. 1. The Idaho National Harvester, made in Moscow, is the best built piece of harvesting machinery in the world. It is built to stand the strain. It is ball and roller bearing from end to end and side to side.

Fact No. 2. The Idaho National does the best threshing of any machine in the world. It does not crack the grain, and when we make this claim we mean it. The machine not only does not crack grain, but positively does save the grain.

Fact No. 3. The Idaho National puts the grain from the field into the sack cheaper than any other machine or by any other method.

Keeping this in mind: The profits on an acre of wheat are not measured by the size of the machine; it is not determined by the length of the sickle, nor by the weight of the machine. It is determined entirely by the COST per bushel and by this only. The Idaho National decreases the cost and increases the profits.

NOTE—Wouldn't you like to own a few shares of Idaho National stock? Don't the above facts mean something to you? Think it over.

STATE ITEMS.
The Cour d'Alene Commercial club has decided to ask the legislature to give Bonner and Kootenai counties separate judicial districts.
During the year 1910 the Lewiston Orchards company sold between \$400,000 and \$500,000 worth of orchard land in its large tract, most of the land selling at \$400 per acre.
In compliance with a recent order issued by the state board of health all drinking cups have been removed from trains in this state and the public will have to resort to the use of private cups in the future.
Idaho stands second among the states of the union in the production of lead, only Missouri showing a greater output. The annual production is about 100,000 tons, or almost one-third of the total for the entire country. The lead mines of Idaho are among the richest in the world.
Owing to the scant snowfall there are some fears entertained for the fall wheat about Grangeville. The wheat obtained a fair growth before the cold weather set in and was in fine shape, but for the last month the ground has been frozen and there has been no snow to provide a covering for the plant life.
Of the 38 officials and attaches of the state legislature, 20 in the house and 18 in the senate, four, come from north Idaho, the rest, 34, come from south Idaho. Of 30 appointments in the house, including speaker, Ada county received seven, and six of the 18 appointments in the senate.
Dr. C. L. Henderson who has been in charge of the Lewiston territory for several years has been transferred to Moscow to take the position of government inspector in the new packing plant just completed by Hagen & Cushing. Dr. Henderson will make his home in that city.
That the year of 1911 will see the vast development of irrigation projects in territory immediately tributary to Boise, bringing under water great tracts of lands, is the opinion of men interested in irrigation matters. They say, will be the center of irrigation activity in the state during the next few years. The completion of the Boise project in the next three or four years, involving an expenditure of \$7,000,000, means a monthly payroll of close to \$300,000 and most of this money will come to Boise.
The executive committee of the Idaho State Dairy association has decided to hold the next state dairy convention at Twin Falls on January 23 and 24. While the program has not been entirely completed the committee is far enough along with it to justify the prediction of the most interesting and instructive convention ever held in the state of Idaho. Chief R. H. Rawl and F. H. Scribner of the United States dairy division have both signified their intention of being at this convention.
As a result of the annual meeting of the Northwestern Live Stock association, recently held at Grangeville, farmers are taking a lively interest in the possibilities for hay and pasture. Game prairie is a natural pasture for timothy and it is the main hay crop, but all speakers at the stock association meeting dwelt upon the diversified possibilities of alfalfa and the few prairie farmers who have tried the crop give such glowing reports that many prominent farmers are announcing their intention of sowing 10, 20 and 30-acre patches in the spring.

ELECTING OUR SENATORS.
At last, after many years of suppression in committee pigeonholes, the proposal to amend the constitution in such a way as to allow voters to elect United States senators will be reported favorably to the senate itself. The people of this country are in favor of electing their senators. They have been trying in all sorts of ways to get around the constitutional difficulty. In a number of states we are now to witness Senatorial deadlocks where the matter ought to have been determined at the polls in November. Governor-elect Woodrow Wilson, as the people's chosen leader, has been trying to prevent the election of James Smith, Jr., to succeed Senator Keen. The voters should have had a chance to save their governor-elect from all this bother. In the state of New York, it is a question of bringing Tammany around to consent to the election of the Hon. Edward M. Sheppard to succeed Senator Dewey. If it were left to the voters of the state, regardless of party, to say whether they would rather have Mr. Sheppard or Mr. Sheehan they would elect Mr. Sheppard 3 to 1. But Mr. Murphy, boss of Tammany Hall, controls the majority of democratic votes in the legislature. A committee of the United States senate has just now decided that it finds no impropriety in connection with the election of Senator Lorimer, of Illinois. But if the people of that state were to pass upon the question, Mr. Lorimer would have no more chance to be elected senator than to be chosen as President Taft's successor. Very few suggested constitutional changes are clearly demanded by public sentiment, but the election of U. S. senators by the people is thus demanded. Nearly all of the state offices now elective ought to become appointive, but the senators should be elected by the whole state, as are the governors. —From "The Progress of the World," in the American Review of Reviews for January.

HARVESTER HAS PROFITABLE YEAR.
The regular annual meeting of the stockholders of the Idaho National Harvester company was held at the office of the company in this city Monday, and was attended by a large number of the stockholders, seventy-five per cent of the issued stock being present.

The annual report of Jerome J. Day, president of the company, was read and ordered filed. Mr. Day reviewed the past and outlined business policies for the future. He advised against any haste, and to exercise caution in every step. He said he was proud of the record made and the work accomplished, and pointed to the financial condition of the company as evidence of the conservative and efficient methods pursued in the past. Mr. Day spoke in the most hopeful terms of the future outlook, and showed plainly that he had the utmost faith in the future of the business.

The secretary and treasurer of the company, A. M. Anderson, submitted his annual report, showing the financial condition of the enterprise. This showed assets over liabilities aggregating \$141,703.44, a showing that is almost phenomenal considering all the circumstances, particularly the fact that the company has up this time been under a heavy financial strain of perfecting the machine at great expense and have been in position only a few months to manufacture machines on anything like a commercial basis. In fact some of the machinery ordered a year ago was late in arriving, reaching Moscow only recently. This was true of the Bulldozer and other equipment, all of which require additional time for installation. After these matters were settled they were useless until dies could be made and this, as any practical man knows, is a slow process, requiring months and years. The progress of the company has, viewed from the standpoint of practical manufacturing, been nothing short of phenomenal, and is so considered by every competent man who has recently visited the plant.

The new directors are: J. J. Day, president; R. Hodgins, vice president; A. E. Anderson, secretary and treasurer; F. A. David, S. R. H. McGowan, E. S. Barton and Albert Anderson, the latter of Garfield, Wa.
Immediately after the meeting of the stockholders the newly elected directors went into session and spent the afternoon discussing plans for future progress. G. F. Mix was re-elected general manager.

After the meeting it was announced that future plans call for a doubling of the present plant the coming summer, and that an effort will be made to install a steel-casting plant at an early date. The manager was instructed to ascertain at once the cost of such a plant. A steel-casting plant would enable the company to improve the machine in many particulars, as casting requiring great strength could be made of steel and therefore increase the strength and yet not increase the weight. This equipment will cost between \$5,000 and \$10,000.—Star-Mirror.

PRIZE CUP FOR BEST BUTTER.
With the hope of improving the quality of Idaho butter, J. H. Franson, professor of dairying at the University of Idaho, has offered a beautiful silver cup to be awarded to the person exhibiting the best 30 pounds of butter at the Idaho State Dairy convention to be held at Twin Falls January 23rd-24th, 1911.
Professor Franson hopes that many will be interested to the extent of sending a 10 pound sample of butter. This butter will be scored by an expert butter judge and the cup will be awarded to the exhibitor whose butter shows the highest score. The judge will point out how the various samples could have been improved so that the educational value alone will fully repay the contestants for the small expense incurred and the winning of this prize will be an honor well worth the effort.

It is understood that the butter becomes the property of the dairy association and that it is to be sold to help defray the expenses of the association.

WORLD ANNEX TO LATAH.
After circulating petitions which were almost unanimously signed by the farmers in the affected district, a representative was sent to Moscow and appeared before a representative number of business men with a proposition looking to the annexation of a portion of Nez Perce to Latah county. J. R. Hepler, a prominent farmer of the section desiring annexation appeared before a meeting of Moscow business men last week and explained the situation, saying that after fully considering all the facts and conditions the farmers of the Potlatch wanted to become a part of Latah county; that they were tired of the continual jangling over county division, and as they naturally belonged to Latah county desired to be annexed.
The meeting was a representative one, being well attended, and which prolonged discussion it was decided practically unanimously that it would be a desirable thing for not only Moscow, but Latah county.
It was shown that it would add something like a million and a quarter of dollars to the taxable property of Latah; that it comprised one of the most fertile and most highly improved agricultural sections in the state, and would be a good business proposition. Politically it would give Latah more influence in the state. It was pointed out to Mr. Hepler that Latah county was now facing the proposition of building a new court house, and was plainly told that his people would, if annexed, be compelled to pay their proportion of this expense. In reply he said he was sure his people would favor such a move, as they were progressive, and would recognize the necessity of this matter.
The territory as proposed for annexation lies on the southeast and southern side of Latah county, running east to the meridian and south to the Clearwater. The section, a portion of old Shoshone county, is approximately seven by fifteen miles, and will give Latah county not only some 25 miles of added railroad, but all of the proposed new road to be constructed down to the Potlatch from Potlatch to Lewiston. The plan also includes a strip of good land all along the south side of Latah county, south of the Genesee country, comprising some 35 sections running to the break of the Clearwater and the Snake. The Big Potlatch country to be annexed includes 105 sections. The discussion covered the matter of roads, bridges and cost of government, but from every angle it was considered favorably by the majority, and by a vote of fourteen to three the chairman of the meeting was instructed to send a wire to the Latah delegation asking favorable action on the proposed plan to add to Latah county's population and wealth.

SOLVING A DEEP MYSTERY.
"I want to thank you from the bottom of my heart," wrote C. H. Bader, of Lewiston, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case in every way just for me. For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c at F. Z. Dixon & Co."

MOSCOW MILL PROSPEROUS.
The current edition of the Commercial Review of Portland, Oregon says: "There is one milling concern on the North Coast that is doing good business, the Moscow Flour Mills of Moscow, Idaho. Mr. Mark P. Miller, proprietor, early in 1910 found that the mill there was running full time and made 250 barrels per day and could not keep up with orders, concluded to take another mill and found that one in the Colfax flour mills of Colfax, Wash., with 250 barrels more capacity, giving his two mills a daily capacity of 500 barrels. Both of these mills have been in active operation all year and only had to stop for minor repairs. The two mills not only enjoy a large trade at home and surrounding country but are shipping flour constantly to Portland, Seattle, California, and whenever they have it to spare, they accept orders for the Orient. Mr. Miller is one of the aggressive millers, not being content with the flour trade, he is an extensive warehouseman and has almost a dozen warehouses for handling grain of all kinds."
These are the two mills in which Mr. C. E. Wood of this city is heavily interested, and to whom this periodical fails to give due credit. Mr. Wood was equally instrumental in building up the business of these two mills, and keeping them in the profitable class.

MAKING A BIG MISTAKE.

The Post has from time to time criticized the taxation method employed in Idaho. While we admit that it is much easier to criticize a condition than to improve it, we also believe that criticism is one of the most fertile of improvement producers.

The state law provides the basis of taxation shall be the actual cash valuation of the property assessed. Now we all know this law is being violated by every assessor in the state. An assessor with properly profound regard for the law of his state mixed in equal proportions with a proper regard for the financial interests of the people of his county, assesses the property of that county on the basis of 50 per cent of the actual cash valuation. Some other assessor without the "properly profound regard for the law of his state" and with an abnormal regard for the "financial interests of the people of his county," fixes 25 per cent as the basis. It is easy to figure out from this that some counties pay more and some less than they should pay. They arrange a meeting at Boise to plan uniform methods of "reaching" each other in the assessments for the coming year. What we need is a man. This is not saying that our present assessors are not men. They are. What we need is a man who is willing to take the lead. If one assessor in Idaho, next year, would carry out the law, to the letter, he would be hailed as a benefactor to the whole state. He might not be able to realize it, and he would probably be about as dead politically in his own county, as man ever gets. But the innovation would probably result in some other assessor conforming to the letter of the law, and at any rate the noise that would be raised in the one county would be heard in every corner of Idaho. Until such a man arises, the eastern man who contemplates moving west, will read in the Idaho statutes that the basis of taxation is the actual cash valuation. Then he will look up the rate of taxation, which, for property in the city of Moscow, happens to be 68 1/2 mills on the dollar, this year. He will figure according to this that the taxes on \$1,000 worth of property would be \$68.50, when as a matter of fact it is only about one-third of that amount. Not understanding our peculiar disregard for the law in this respect, he figures it out that he would rather live in Washington or Oregon, or Missouri, or the Fiji Islands or most anywhere else.

An assessor who will be willing to sacrifice his political perpetuity by obeying the law, would bring more settlers to the state of Idaho than the whole immigration department of the state.—Moscow Post.

LEWISTON NORMAL LEADING.

It is a fact not generally known that the Lewiston State Normal has for its student body a greater average mileage than any other normal school in the west today. Last year the average mileage for the student body at Lewiston was 119.5. This year it is 138.4 miles, that is, the average distance traveled by each student attending the Lewiston normal is 138.4 miles. There are now at the normal over two hundred eighty students enrolled and it is estimated that the total enrollment for the year 1910-11 will be three hundred fifty, an increase of seventy five over the previous year 1909 to. Students have enrolled from every section of Idaho and from the states of Washington, Oregon, North and South Dakota, Missouri, Michigan, Iowa and Maine.

The new gymnasium building for the University of Idaho at Moscow is almost completed. It will be a great addition to the university in the way of assisting in athletic work and training.

SAVES TWO LIVES.

"Neither my sister nor myself might be living to-day, if it had not been for Dr. King's New Discovery," writes A. D. McDonald of Fayetteville, N. C., R. F. D. No. 8, "for we both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best I ever used or heard of." For sore lungs, coughs, colds, hemorrhage, laryngitis, asthma, hay fever, croup, whooping cough, all bronchial troubles,—its supreme. Trial bottle free. 50c and \$1.00. Guaranteed by F. E. Dicus & Co.

GENESEE 27—FULLMAN 12.
In a slow and uninteresting game with the Pullman boys at the opera house last Saturday night the home high school team were easy victors, carrying away the long end of a 27 to 12 score. Although the Pullman boys felt confident of an easy victory, they were never dangerous at any stage of the game.

In the first half Genesee was credited with four goals and the visitors 6. In the second the home team 2 and Pullman 4. The game was characterized by rough playing, and un-called for fouls. The condition of the floor was probably responsible for much of the poor playing. The stars for the visitors were Hincheliff and Butler, while the two Genesee guards, Spurbek and Keane had things their own way for the home boys, easily holding their men down to only one field goal.

The line-up and summary was as follows:
Genesee Position Pullman
Wardrobe, A. M. P. Moose
Morgan, J. C. F. Brownlie
Wardrobe, J. C. C. Glover
Keane, J. C. G. Hincheliff
Spurbek, J. C. G. Butler
Summary: Field goals: Butler 4, Brownlie 1, A. Wardrobe 2, Morgan 4, J. Wardrobe 2, Spurbek 1, Keane 1. Foul goals: Moose 2 out of 6 attempts, J. Wardrobe 7 out of 8 attempts. Fouls: Genesee 6, Pullman 10.

Next Friday the high school team will leave for a trip on the Nezperce prairie, playing the Culedeas high school Friday and Saturday night with Nezperce. The boys have every reason to believe that they will win both these games. On Saturday night the local girls' team will meet the Moscow high school girls' team at the opera house and a very interesting game is promised. The game is called for eight o'clock, admission charges, 25c and 35c.

Arch Fig Senna Syrup
A very pleasant yet efficient remedy for constipation, sick headache, biliousness, and all diseases arising from disordered liver, and stomach or bowels. The special advantages of this preparation are its mild action and its safety as a laxative. It does not gripe nor sicken the stomach. As a remedy for constipation it is greatly to be preferred to the various pills and mixtures advertised for that purpose, which enfeeble the muscular action of the bowels and eventually do harm. When you need a laxative try Arch Fig Senna Syrup. Two Sizes, 25 and 50 cents.

—James Edwards was a visitor in Pullman last Sunday between trains.
—W. W. Gray was a business visitor in Moscow the latter part of last week.
—Mrs. Ed. Maguire, of Pullman, was visiting here last week at the E. O. Cathcart home.
—Prof. J. W. Smith, of the city schools, was a Moscow visitor last Saturday and Sunday.
—Clarence Jain and Chas. Whalen resumed their respective duties this week after several days sickness.
—Mr. and Mrs. F. Burdick returned last Wednesday afternoon from an extensive visit with their daughter, Mrs. F. D. Hasbrouck, in Troy.
—D. Nebelsieck lost a valuable milk cow last week, caused by bloating from eating too much alfalfa hay. Mr. Nebelsieck valued the animal at \$50.
—A farewell surprise party was given at the home of the Burger Bros. last Thursday evening in honor of their sister, Miss Clara, who left the fore part of this week for Tekon.

—While turning around on the "V" last Monday afternoon, the engine of the local freight jumped the track, and it required a hour to get it back on. The evening freight did not get out until 6 o'clock.
—Miss Myra Brown, of Moscow, has accepted a position as teacher in the Genesee schools and will assume her duties next Monday. She will teach in Miss Merle Kimbrough's place, who has resigned, the resignation to take effect after today.
—W. H. Gage returned Tuesday afternoon from a six weeks' visit in Butler, Mo. He states that he was very much pleased with the eastern country and was surprised at the wonderful development of Kansas City, where he had not been for 33 years. He sees in it the greatest city in the middle west within a few years.
—A dispatch from Boise states that it is very probable that the Sunday rest law will be radically amended by the present legislature. One of the members states that there is no intention on the part of the judiciary committee to allow objectionable places open on Sunday but that merely those places of harmless amusement should be permitted to open.

—Thos. H. Brewer, who was a business visitor here this week, stated to the "News" that he was very much pleased to learn of the road improvements which are to be made by the progressive farmers in road district No. 37. Mr. Brewer who is now vice president of the Exchange National Bank, Spokane, was an old resident of this section and probably knows the country as well as any man here, and in speaking of the roads said that the permanent improvements of these highways, especially the main traveled roads, was by far the most important matter, which our people have to deal with. Not only will the betterment of the roads be a matter of genuine economy to every farmer who uses them but they will, as well in increase the value of every farm, along which they pass, to the extent of \$10 per acre, at least. Mr. Brewer considers the Genesee country the very cream of the Inland Empire, and hopes that the building of this road will be an incentive to many more miles hereabouts. A country with the wealth of ours should have every important highway paved.

The dance given by the baseball boys last Friday night was a very successful affair, both as an evening's diversion and as a financial proposition. There were 36 baskets sold, only two of that number bringing less than \$1, and the majority bringing over \$2, one of them selling as high as \$3. There were also 54 dance tickets sold, and the total amount which the boys cleared was over \$80. B. H. Scholer acted as auctioneer, and Ed. Smolt as floor manager. The boys were well pleased with the help the people gave them and especially thank the ladies who prepared the baskets.

At the annual meeting of the stockholders of the Genesee Exchange Bank, which was postponed from Tuesday afternoon to Wednesday the 18th, the following directors were elected for the year 1911: Thos. H. Brewer, T. Driscoll, F. K. Bressler, W. H. Ehlen and W. J. Herman. The directors then named the following officers for the same period: Thos. H. Brewer, president; T. Driscoll, vice president; F. K. Bressler, cashier and E. O. Cathcart, assistant cashier, being the same directorate and official regime that has been in charge for several years. The Exchange Bank is one of the best banks in the northwest and the stockholders were more than pleased with its showing during the past year. As an evidence of the splendid success which this institution has enjoyed, it has set aside, during the 13 years of its existence, an earned surplus of \$25,000, aside from cash dividends which it has paid annually.

A Word to the Business Men

John Wanamaker said: "To discontinue an ad is like taking down your sign. You have a sign above your door to let people know who you are and what you are doing. That is what your ad does. Space in newspapers merely multiplies your sign. It lets thousands of people know what you have to sell."

The man of the standing ad is the backbone of the newspaper and the solid man of the community. In summer or winter, in sunshine or rain, his name always greets the public eye with every issue of the paper, and people come in time to regard him as well established in a successful business whether they have patronized him or not. "Nothing Succeeds like Success," and the public, having once gotten the idea that a man is doing well, naturally stands ready to patronize him when they want anything in his line. Here, in fact, lies the whole secret of success in persistent advertising.

The time to advertise is all the time. Advertise when times are good, for your share of the trade, and when times are dull to stimulate trade—to inform the buyers of the bargains and inducements you are prepared to offer. The merchants who have achieved success are those who have kept their announcements persistently before the public.

THREE FACTS!

Fact No. 1. The Idaho National Harvester, made in Moscow, is the best built piece of harvesting machinery in the world. It is built to stand the strain. It is ball and roller bearing from end to end and side to side.

Fact No. 2. The Idaho National does the best threshing of any machine in the world. It does not crack the grain, and when we make this claim we mean it. The machine not only does not crack grain, but positively does save the grain.

Fact No. 3. The Idaho National puts the grain from the field into the sack cheaper than any other machine or by any other method.

Keeping this in mind: The profits on an acre of wheat are not measured by the size of the machine; it is not determined by the length of the sickle, nor by the weight of the machine. It is determined entirely by the COST per bushel and by this only. The Idaho National decreases the cost and increases the profits.

NOTE--Wouldn't you like to own a few shares of Idaho National stock? Don't the above facts mean something to you? Think it over.

STATE ITEMS.

Governor Hawley has called a convention of the county assessors of the state to meet at Boise on January 24th for a three days' conference on official assessments.

Official announcement is just made by the Oregon Short Line of extension and improvements within the present year aggregating a cost of approximately \$7,000,000 and providing for 111 miles of new railway within the state.

The O. W. R. & N. Co. has announced that it will put a gasoline motor car on the Colfax branch between Moscow and Colfax. This will give Colfax, Pullman and Moscow persons of that road three motor trains a day each way, besides the freight train, and greatly improve the service for these cities.

It is estimated that the state of Washington has railroad projects under way involving an aggregate expenditure of over \$4,500,000. Adding to this what is planned for Idaho and Oregon the railroad development of the Pacific Northwest this year will be enormous. Over 275 miles of railroad were built in Idaho during 1910.

The four state educational institutions, University of Idaho, Moscow; Academy of Idaho, Pocatello; Albion State Normal and the Lewiston State Normal School, will this year ask the legislature to appropriate approximately \$1,000,000 for maintenance, building and extension work, according to schedules prepared, but not yet made public.

The new steel bridge across the Pocatello river at Jalletts which was jointly built by the counties of Nez Perce and Latah, was finished the first of the week. The work of filling in between the two wagon bridges in the eastern part of town, where the washout occurred last spring, has been finished, making a great improvement in the street.

Articles of incorporation have been filed by the Orofino Publishing company with a capital stock of \$5,000. The incorporators are J. M. Shaw and J. B. Hurley of Kamiah; Dr. J. M. Fairly, J. M. DeCoursey and H. L. Walcott of Orofino. The new company was formed for the purpose of purchasing the plant and business of the Orofino Tribune, one of the strongest weekly newspapers in Nez Perce county, the paper being purchased from W. C. Foreman. Mr. Foreman retired January 4.

IDAHO CITIES MAKE BIG GAINS.

While the population of Idaho increased 101.3 per cent in the last census, the cities of the state having a population in excess of 5,000 increased 248.3 per cent. Statistics of the thirteenth census announced this week show five cities in this class compared with one in 1900. These cities contributed 19.6 per cent of the 163,822 increase in population of the state. Large increases were made in all the five cities. Twin Falls was not in existence in 1900, and no comparison thereof is possible. Coeur d'Alene made the remarkable percentage of increase of 1,335.2 per cent. The growth of the other cities were:

Boise, 191.3 per cent; Lewiston, 149.1 per cent and Pocatello, 125.2 per cent.

The director of the census announced the population of the following cities in Idaho having in excess of 5,000:

Boise.....	1910	1900
.....	17,358	5,907
Coeur d'Alene.....	7,291	508
Lewiston.....	6,043	2,248
Pocatello.....	9,110	4,406
Twin Falls City.....	5,250	

MOVABLE SCHOOLS ARE POPULAR.
The Agricultural college faculty under the direction of Dean Carlyle has been unusually active this winter in conducting institutes, movable schools, demonstration trains, and the like. Following is a list of dates showing its activity along this line in the immediate future.

January 30-31. Institute a Hagerman. Professors Frandsen, Farrell, Ellington, and Dean Carlyle will lecture there. Mr. O. O. Gregg, of Minnesota, dairy expert, will assist. January 23-24. State Dairyman's association meeting at Twin Falls. A school will immediately follow to about January 28 at which there will be lectures on dairying, fruit growing, agronomy, irrigation, potatoes.

CONNELL FARMER LAUDS COMBINE.

Judging from the interest manifested by the farmers from every section of the northwest, and even the Pacific coast, the impression made by the Idaho National Harvester of Moscow has been most pronounced and favorable. Farm organizations like the Farmers Union and the Grange are sending almost daily representative men to Moscow who come to see the factory and make arrangements to buy combines. Particularly is this true of Utah where there is an immense demand.

Another section where the farmers are making urgent demands for these wonderful machines is the Big Bend country in eastern Washington. From Connell a letter has been recently received from the secretary of the Farmers Union asking for detailed information and pictures, one request being for a large picture which the farmers want to frame and hang up in their barns.

The secretary of the Connell Farmers Union is P. F. Oehlshoeger, a man who owns considerable land in that section and also manager of a farmers' warehouse at Connell. Wednesday of this week Mr. Oehlshoeger visited Moscow for the purpose of personally inspecting the machine of which he heard so much, and which had appealed to him and his neighbors as just what they must have if they are to make a living raising wheat. He said that the time had come when the farmers must have just such a machine as the Idaho National, and illustrated his statement with his own experience the past season. Mr. Oehlshoeger said:

"The past season I harvested 240 acres, averaging a little better than thirteen bushels to the acre. The heading cut me, figuring only my actual cash outlay, not including feed for horses and board for the men, \$9.25, and my threshing bill, also omitting feed for men and horses, was \$20. This was a total of \$313 in cash that I had to pay out, and is more than any farmer can afford from a thirteen-bushel crop. Add to this my outlay for board for men and horse feed, you will see that my balance is not very much."

Regarding the Idaho combine Mr. Oehlshoeger said: "I am now thoroughly convinced, after seeing the machine and investigating its record of work accomplished the past season, that it is just what we want in the Connell country, and from what I have heard the farmers say, know that there will be a heavy demand for these machines from my neighbors. They are simply forced to have these Moscow machines, the only regret being that the Moscow plant is not able to turn out as fast as the farmers will want them. For example, I came to Moscow to buy four, this in the face of all kinds of stories told by the Holt combine people to the effect that the Idaho combine of Moscow is a failure. I had made up my mind to buy a big combine, but heard of the Moscow machine and after investigating the new combine decided that it was the machine for me. This made the other people wild, and the agents are continuing their fight trying to prejudice the farmers. However, the farmers are judging for themselves from the actual work the Idaho has done, and that is sufficient to satisfy any farmer that these new combines are superior to anything yet placed on the market."--Star-Mirror.

Late census returns all point to the fact that the cities of the northwest are developing more rapidly than the rural districts surrounding them. This condition is causing local economists to pause for reflection in an effort to find a means for building up the country districts. One view of the fact that large sums of money are sent to Iowa for butter and eggs and to New York and Utah for cheese each year, it is pointed out that no better project could be undertaken by the commercial organizations of the northwest than to try to build up the dairy and poultry business. Many parts of Idaho, Washington and Oregon offer ideal opportunities along these lines. It is proposed to exert concerted effort to bring dairy farmers and poultry raisers to the northwest now, who will help to supply our growing cities and thereby keep the money right at home, which is now going east.

BE LARGEST DAM IN THE WORLD.

The Reclamation Service headquarters in Boise has just been notified by Secretary Ballinger that \$1,000,000 of the reclamation bond issue appropriated by congress at the last session will be used immediately to commence construction work on what the service asserts will be the largest irrigation dam in the world. This dam will be on the Boise river, 35 miles north east of Boise city. The water will be used on the Payette-Boise irrigation project, comprising 270,000 acres.

The dam will be 318 feet high, raising the water in the reservoir to 223 feet. It will cost \$5,159,000, and create a reservoir of 150,000 acre-foot capacity.

Arrow Rock, the site of the dam, was selected by Arthur D. Davis, chief engineer of the reclamation service, following a visit to Boise and the canyon to the north by the board of army engineers.

It is estimated that it will take about four years to complete the gigantic receptacle.

MINING COURSE IS POPULAR.

One of the most interested and hard working groups of men about the university is composed of those who are taking the miners' short course offered for the first time, this year. The youngest of them is twenty-five and the oldest sixty-three. The latter has two sons who have graduated from the university. The men have come from all parts of the state and have varying degrees of experience in mining work. The man who traveled the farthest for the course is from Salmon City. One man has been superintendent of timber construction in a Coeur d'Alene mine. The men are here for work and do not complain because they have to attend lectures and laboratory work from 7:35 in the morning to 5 o'clock in the evening. The same hours are observed on Saturday as on other days. The courses most popular with them include mining methods, hoists and compression, gold milling, cyanide process, mining geology, mineralogy, chemistry, assaying. They are under the direction of Professors McCaffery, Chessey, von Ende, Delury.

NORTHWEST IS THE CHARMED LAND.
"If you have never seen Idaho, Oregon, Washington or British Columbia in summer, or California in winter, you lack important qualifications for imagining what the climate of heaven may be like." So writes Dr. Woods Hutchinson in his latest volume on Travel, which has just been published by Houghton, Mifflin & Co. Being one of the best known physician-literatures of the country, this tribute to the Pacific coast in general and the Northwest in particular is bound to attract a lot of attention. Speaking further, Dr. Hutchinson says: "It is the charmed land of the American continent, where a temperate sun, a mild climate and a fertile soil give man the stimulus of the green and rain swept north; with the luxuriant returns for moderate effort of the teeming tropics. The most restful and soothing climate on the world, the land where 'it is always afternoon,' the ideal home for the blonde races upon this American continent and not half appreciated yet at its full value."

BOYS HAVE SUCCESSFUL TRIP.
The high school team added two more victories to its list of laurels last week when they defeated Caldwell on Friday night by the overwhelming score of 66 to 15 and Nespeere on Saturday night by the close score of 14 to 11. In Nespeere the boys met the best team they have been up against this year, with the exception of the South Central high school, Spokane. In the game at Caldwell the home team was represented by A. Wardrobe and Chas. Gray, forwards, Herbert Martinson, center and Dave Spurbeck and James Keane, guards, in the first half. In the second half J. Wardrobe put in center and Mel Wardrobe as guard. After the game the boys were given a banquet and a royally good time by the Caldwell high school.

At the Nespeere game the boys went up against a much heavier team than their own, and besides this, the ceiling of the room in which the game was played was only 12 feet high, which made it very difficult for our boys to shoot baskets. At the end of the first half, Nespeere had the better end of a 4 to 3 score, but in the second the Genesee team clearly demonstrated their superiority by running up 11 points while the opponents made but 7, leaving the score at the end of the game, 14 to 11. The boys were not very well pleased with the way they were treated at Nespeere, and hope to use that team much better when they play here tomorrow (Saturday) night. The Nespeere team will come here primed for vengeance, and will beat our boys if possible. This promises to be the best game on the local court so far this season. Other good games which will probably be scheduled here are: Rathdrum (which defeated Spokane, South Central, early in the season) on Saturday night, February 18th at Spokane, South Central, on Friday or Saturday, February 24th or 25th.

The Moscow high school girls in a fast and interesting game, defeated the Genesee girls, at the opera house last Saturday night by a score of 12 to 10. The game was quite rough, although but one foul was called. This is the second successive victory for the Moscow girls, they having beaten our team in Moscow last year by a score of 7 to 3, although they were decisively defeated here earlier in the season—46 to 2.

—Messrs. B. H. Schooler and Geo. Follett left Thursday morning on a three or four week's trip to eastern Kansas and Nebraska and Missouri and Iowa, where they expect to buy some thoroughbred stock in the way of horses, which they will have shipped here. During their trip they will also visit with some of Mr. Schooler's people in Missouri.

—T. E. Miller caught a polecat in his cellar this week, which was one of the strangest animals of this sort he has ever seen. The animal was very small, about the size of a squirrel, striped in front and a white stripe on each side of the head, and three white spots on either side of the body. The tail was shaped like a feather, covered with white hair and about four inches long. Mr. Miller has done considerable trapping, but never saw any animal of the polecat species like this one.

Arch Fig Senia Syrup
A very pleasant yet efficient remedy for constipation, sick headache, biliousness, and all diseases arising from disordered liver, and stomach or bowels. The special advantages of this preparation are its mild action and its safety as a laxative. It does not gripe nor sicken the stomach. As a remedy for constipation it is greatly to be preferred to the various pills and mixtures advertised for that purpose, which enfeeble the muscular action of the bowels and eventually do harm. When you need a laxative try Arch Fig Senia Syrup Two Sizes, 25 and 50 cents.

—The following new ads appear in this week's News. Do not fail to read them: Genesee Exchange Bank, Pollett Bros., Casbolt Saddlery Co., Potlatch Lumber Co., W. J. Herman (Angle Lamp) and Laho National Harvester Co.

—Mr. and Mrs. G. F. Bernicle of Kitchitkat county, Washington, were visiting here this week at the G. L. Shull home. They returned to Lyric, where they have a fruit ranch, Thursday morning. Mrs. Bernicle is a sister to Mrs. Shull.

—The "Jesters" will put on a play at the opera house on Friday, February 10th. It is a drama entitled "The Mountain Wall" in four acts. This play is given for the benefit of the baseball team, the proceeds to be used to help the boys build a fence around the grounds.

—Probably two of the largest hogs ever seen in this country were bought Tuesday by Rader & Westensee from Mr. H. Ingartner, who raised them on his farm seven miles east of here on the Potlatch. The two hogs, when weighed, tipped the beam at 145 pounds, and brought in a check to Mr. Heimgartner for \$108.

—Mr. and Mrs. F. K. Bressler will leave next week on an extended trip of three or four months in Lower California, New Mexico and Arizona, visiting for the greater part of the time in the Golden state. This is Mr. Bressler's first vacation in four years, and during his absence, Mr. T. Driscoll, who is vice president, will fill the former's position in the Exchange Bank. Mr. and Mrs. Fred Follett will also leave for California next Monday, stopping enroute in Portland where they will be joined by Mr. and Mrs. Bressler.

By special request Herman's have decided to extend their Annual Clearance Sale another week, ending February 4, 1911. This is your chance to save money. W. J. HERMAN CO.

OLD SOLDIER TORTURED.
"For years I suffered unspeakable torture from indigestion, constipation and liver trouble," wrote A. C. Smith, of Lewistown at Erie, Pa., "but Dr. King's New Life Pills fixed me all right. They're simply great." Try them for any stomach, liver or kidney trouble. Only 25c at F. E. Dicus & Co.

C. L. Jain was a business visitor at the county seat the fore part of this week.

—Miss Mary Meldrum visited with friends in Moscow last Saturday and Sunday.

—Mrs. C. J. Emmett, who has been visiting here at the home of her son, Robert, left for Spokane last Saturday morning.

—Herbert Scharbach came in last week from Montana for a short visit with his parents. Mr. Scharbach has claims in the Montana country near Great Falls.

—The Y. P. S. C. E. of the Congregational church will hold an "extortion social" in the church parlors this (Friday) evening at 7:30. The admission charge is 5 cents and a cordial invitation is extended to all. Don't forget to bring along a good supply of pennies.

—Mr. and Mrs. E. O. Cathcart left Sunday morning for Spokane where Mrs. Cathcart was operated upon for appendicitis by Dr. Southland on Monday. Word was received from Mr. Cathcart Wednesday that the operation, although quite severe, was successful and that Mrs. Cathcart is doing nicely.

—Frank Brant, a son of Mr. and Mrs. W. C. Brant and a brakeman on the W. I. & M., had the misfortune last Friday at Deary to lose his left arm. He stepped between two cars in switching to fasten the clutch when the cars came together, fracturing his arm at the elbow. Mr. Brant's father is an engineer on the extra stationed here.—Kendrick Gazette.

—Sunday and Tuesday of this week were the spring-like days. On Tuesday afternoon at 2 o'clock the thermometer registered above 50 degrees. So far this winter the Genesee country has known no real winter weather, and there has been too little snow for sleighing more than a day or two at a time, it having at no time been as much as three inches deep. However, the farmers do not as yet consider that the lack of snow has been detrimental to the fall wheat and a good crop is expected next fall.

—Dillon Smith, who a year ago last fall lost a wallet containing \$50 in bills and other valuable papers, received notice this week from Probate Judge Morgenside, that the money would be returned to him. This wallet was found by the late John Schultz and was among the possessions found in his cabin after his death a few months ago. Judge Morgenside was the administrator of the Schultz estate. Immediately after his loss Mr. Smith wrote to certain friends for copies of the papers which were lost, and which he received in due time, so that he now has two copies of each of these papers.

LOOK BACK ONLY THREE YEARS

And recall how, in the fall of 1907, a young man, with faith in the future, struggled to induce a few business men of Moscow to help him build what was to be the Idaho National Harvester, now admitted to be the greatest piece of harvesting machinery in the world. After weeks of discouraging effort some \$12,000 was raised from the sale of stock at 25 cents on the dollar, and this was after the machine turned out in 1907 had actually harvested one hundred acres of wheat on the farm of Jerome J. Day, near Moscow. Men with money turned it down as an impractical machine, but a little handful of working people around Moscow put their few dollars of savings into this stock. The men of money and experience, except Jerome J. Day, preferred to invest in other things, including farm lands, city lots and even wireless telephone.

LOOK AT IT TODAY

Wireless promoters are being criminally prosecuted, and this stock sold by strangers, is worse than worthless; city lots and farm lands are sound and safe (at least most of them are) but where is the investment that has, since January 1, 1908, risen steadily and certainly in 36 months to an increase of 400 per cent? Palouse farm lands and there is no better, will not today bring the price paid for them in 1908, 1909 or 1910. And yet Palouse farm land is absolutely all right, and will eventually bring higher prices than it has ever sold for.

Now compare Idaho National Harvester stock with Palouse farm lands as an investment. Three years ago had a man invested \$10,000 in each he could not today get more than his money out of the land. But his \$10,000 investment in Idaho National Harvester stock is today worth \$40,000, and within a few days will be worth \$80,000.

CANNOT SELL IT

"You can't sell it," says one. Let us see. Go out today and try to sell your farm. You can't do it. There are no buyers. If you doubt this, try it. Where farms have recently sold they have not brought the purchase price of 1909. And few farms have paid interest on their value in 1910.

But the man who bought Idaho National stock can sell at a profit; and there is no trouble to convert this stock in either lands or city lots. Nor is this all. Idaho National has increased and will continue to increase more rapidly than the best farm in the Palouse or any other country.

IT CAN'T BURN UP

Here is an investment that cannot burn up, grows in value while you sleep, and within 36 months at the outside will begin paying regular dividends. A small block of this stock purchased today will make you independent tomorrow

STATE ITEMS.

Bingham county is asking the legislature for an appropriation of \$30,000 with which to construct a stretch of macadam road in the south-easterly section of the state.

Representative Hamant of Lemhi county, has introduced in the house of representatives a joint resolution intended to provide for a constitutional amendment increasing the membership of the house and senate of the Idaho legislature to provide for future growth and development and the creation of new counties as conditions may make necessary or advisable.

A meeting of the farmers of the upper Clearwater valley was held Monday evening to discuss the feasibility of a cooperative creamery at Skies G. V. Fevert of the experimental station at Moscow explained methods. A committee was appointed to confer with the Kooekia and Clearwater committees on organization. Meetings to be held January 21 at Kooekia and January 28 at Clearwater.

Stockmen from the Salmon and Snake river ranges report less snow in the river districts than for a number of years, and the cattle are in the best of condition. The weather has been very mild to date, and none of the herds have yet been taken to the winter feedyards, the pasturing on the river bluffs having proved sufficient for their needs. Three inches of snow in the heaviest fall reported, and this remained but a few hours.

The attention of the commercial club officials is now concentrated upon the work of good roads committee now holding daily sessions to complete plans for raising the necessary funds to construct the Cour d'Alene end of the Great Apple Way between that city and Spokane. A communication from Frank W. Gulliver, secretary of the Spokane county good roads association, states that the Spokane end of the road has been provided for and work will be commenced by the first of April.

Many acres of good timber land will be ready for settlement by April 1 in the Idaho panhandle, according to a statement made by Registrar Hal J. Cole of the United States land office at Spokane. The tract consists of 20,000 acres of land and lies along the Idaho line. It is known as the Priest River reserve and was closed to entry in July, 1906. Now that it has been opened by the secretary of the

interior, all settlers who squatted there prior to its being withdrawn have the first rights. The land is located between Priest lake and Lone, along the Pend Oreille river.

The legislature is asked to allow the people of Latah county, especially those in the southern portion, to vote on annexation of the southern portion of Latah county to Nez Perce, so that part of Latah can be included in territory to be placed in a new county of Clearwater, to be created out of old Nez Perce. A bill asking for this special election was introduced in the house Tuesday morning by Representative Morgan of Latah county, minority leader in the house.

Announcement has been by officers of the Northern Pacific railroad company that the present steel and wood bridge spanning the Clearwater river at Spalding will be replaced in the spring by a steel and concrete structure, construction work to begin as soon as the water will permit. The new bridge, which will be over 1000 feet long, will be about 300 feet upstream from the present one and will eliminate a sharp curve. An appropriation for the work was made over two years ago, but because it was necessary to secure a permit from the war department operations have been delayed.

A petition to the governor and state legislature has been circulated among the settlers along the Cour d'Alene, St Joe and St Maries rivers, praying for assistance in the fight against the Washington Water Power company. The petition sets forth the history of the events that led to the revocation of the Washington Water Power company's permit by the interior department, the settlers' various attempts to prevent the overflow of their lands by raising the bestrap dam at Post Falls and the state land board's act of November 8, 1908, granting a perpetual easement to the Washington Water Power company to 542 acres of school lands along these rivers.

THOS. H. BREWER ACQUIRES BIG BANK.

After 30 years at the helm of the Fidelity National bank, George S. Brooke, one of the oldest bankers in the Inland Empire and Spokane, has sold the majority of his stock, and the bank which enjoys the name of being the oldest in Spokane will pass into the control of Thomas H. Brewer, formerly vice president of the Exchange National, and his associates, including the Dorman brothers of Spokane and William Kroll, a wealthy lumberman.

The deal was closed practically yesterday morning following negotiations of a six-month duration, which took a 45-day bent about a month ago, and involved negotiations not only by Mr. Brewer, but according to current rumor, also by three local national banks, the Old National, the Traders National and the National Bank of Commerce, besides three Inland Empire bankers, of whom Barney F. O'Neil of Wallace was one. Mr. Brewer, however, triumphed over the other interests and a deal involving a cash payment of about \$200,000 and the transfer of 1045 shares of stock was closed. Immediately following the setting of the important details Mr. Brewer sent in his resignation as vice president and director of the Exchange National and will be elected president of the Fidelity at the next meeting in a few days. George S. Brooke, who has been the guiding hand of the Fidelity since its organization in 1882 at Sprague, Wash. retains enough stock to maintain a place in the directorate. A. W. Lindsay, who has been with the bank for 20 years, will continue as cashier. The board of directors will be changed slightly and enlarged by several members.

The stock in the Exchange National bank held by Mr. Brewer will be taken up by the Exchange stockholders and a definite assurance that the move is not a step in consolidating the Fidelity and Exchange banks is given by Mr. Brewer and E. T. Coman, president of the latter. Mr. Brewer's stock in the Exchange has a book value of \$136 and a variable market value of about \$160 a share.

Mr. Brooke has sold 710 shares and J. M. Teal and the D. P. Thompson estate of Portland 335 shares at a figure between \$120 and \$140 a share. There are 2000 shares of stock in the Fidelity organization and the remaining 955 shares are held by scattered interests in Spokane and other cities of the northwest. It will be the purpose of the new regime to purchase a number of these shares and place them in the hands of local investors. Mr. Brooke is expected to leave for Seattle in December and to take a prolonged vacation in southern California and will engage in other business on his return to Spokane.

The successor to Mr. Brewer in the Exchange National will not be named for some time, although it is rumored that Barney F. O'Neil, the Idaho politician and banker, negotiating for sufficient stock to bring him into the Exchange bank, possibly as vice president.

The new controlling interests in the Fidelity National are men of wealth and banking acumen. Mr. Brewer has been identified with banking circles in the Inland Empire for almost 20 years. In 1894 he was associated with the First Bank of Genesee, Idaho, the bank owned by John P. Vollmer. In 1897 he organized the Exchange bank at Genesee, associating with E. J. Dyer and Fred K. Bressler, and in the meantime he acquired interests in the banks at Troy and Culdesac, Idaho, and Colton, Wash. In 1906 he came to Spokane and purchased stock in the Fidelity National and became vice president, and in 1908 associated himself with the Exchange National bank as vice president.—Saturday's Spokesman.

"Whatever I ate distressed me," he wrote, "I'll I tried Electric Bitters, which worked such wonders for me, that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at F. E. Dicus & Co.

GIVES \$10,000 TO POOR.

John P. Vollmer of this city, prominent in banking and business circles throughout the northwest, has set aside to charitable and benevolent purposes the sum of \$10,000, the interest accruing therefrom to be realized annually by the beneficiaries and the principal fund to be permanent in character. The handsome gift was made public last night through the receipt by the city council of Lewiston of a communication from Miss Norma Vollmer, daughter of Mr. Vollmer, in which she specifies the conditions of the bequest. The communication was addressed to the council, as that body would become custodian of the fund arising which will accrue for the use of the poor of the city. The other communities, besides Lewiston, that are to receive the benefit from the fund are Astoria, Grangeville, Genesee and Vollmer, Mr. Vollmer having through business channels been identified with the history of those points.

The sum donated is to be known as the Evangeline Vollmer Fund, in memory of Evangeline, a deceased daughter of Mr. and Mrs. Vollmer. Miss Vollmer cites the conditions of the gift as follows:

"My father, John P. Vollmer, has placed in my hands, as a beginning, \$10,000 to be known as the 'Evangeline Vollmer Fund.' This sum I am to place at interest, at 4 per cent per annum, with some bank or trust company, dating from December 15, 1910, so that the interest may be available and turned over on the 15th of each month to the trustees for Christmas and New Year's gifts to the poor of the city. The apportionments are as follows:

"St. Joseph hospital, Lewiston, interest from \$1,000.
"Children's Home, Lewiston, interest from \$1,000.
"Episcopal church choir, interest from \$1,000.
"The poor in general, interest from \$1,000.
"Library at Vollmer, interest from \$2,000.

"Children's Christmas celebration at Astoria, interest from \$1,000.
"Children's Christmas celebration at Genesee, interest from \$1,000.
"Children's Christmas celebration at Vollmer, interest from \$1,000.
"The conditions upon which the beneficiaries named can accept the sums offered are that each shall, by December 15 following, have raised and have ready to pay over a sum equal to the amount of interest to be derived from the said \$10,000 trust fund. Then upon satisfactory showing to the trustees that this has been done, she shall also pay over to the proper recipients the respective amounts allotted to them. Where no organization is to be dealt with, I hope to deal with the several municipalities, relying upon their kind efforts to collect the full amounts from each source and to distribute the same where the greatest good will result to their most needy."—Lewiston Tribune.

SAN FRANCISCO WILL GET EXPOSITION.

The house of representatives this week by a vote of 188 to 159 decided in favor of San Francisco and against New Orleans as the city in which an exposition to celebrate the opening of the Panama canal in 1915 shall be held. This vote was taken on a roll call to determine whether the San Francisco resolution or the New Orleans bill should have consideration. On a final vote, the San Francisco resolution was adopted 259 to 43.

The advocates of San Francisco are claiming tonight that their fight is won and that the senate will ratify the action of the house. San Francisco won by capturing the republican vote in the house, New Orleans' support coming from the democrats. Only 30 republicans voted for New Orleans. Thirty-six democrats voted for San Francisco.

The San Francisco resolution does not ask for governmental aid in any form. It simply authorizes the president of the United States to invite foreign nations to participate in the fair.

The New Orleans bill called for an appropriation of \$1,000,000 for a governmental exhibit and the creation of a government commission. The proceedings marking the culmination of the exposition fight were unique. The galleries held the greatest throngs of the present session and there was no attempt to restrain an applause that came from the spectators as the fight progressed. The claims of the two cities recently were put up to the rules committee of the house. That committee would not undertake to say which measure should have the right of way, but gave a solemn-like declaration that there should be a call of the house and each member was to rise in his place and vote "San Francisco" or "New Orleans," instead of "aye" or "nay," as is usual on roll calls.

WHEN YOU HAVE AN OIL STOVE

What do you care about the price of coal? Lots of people who have bought Oil Stoves here tell us that they plan to use them all winter, even if coal does the wonderful and comes down to reasonable prices. They find that oil stoves are very economical and very practical. You use them when you want them and turn them out when you don't, and, if you buy the kind we handle, they are neither smoky nor smelly.

COMMERCIAL CLUB HELD MEETING.

After having been dormant for some time the commercial club met last Friday night for the purpose of formulating plans for a new hotel, a dining hall and to get in touch with the O. W. R. & N. officials to find out what inducements they wished to build their railroad into the Genesee country. The meeting was one of the best attended ever held here, and there was much enthusiasm shown in these subjects.

The club elected officers for the ensuing year, those chosen being: H. W. Bruce, president; F. S. Casbobl, vice president; J. T. Nelson, secretary and D. C. Burr, treasurer. The executive committee chosen was: C. E. Wood, J. K. Bell and T. Driscoll. On motion of F. K. Bressler a committee of three was chosen to look into the matter of transforming the upper floors and the lower west floor of the Vollmer building into a hotel. The committee named was J. T. Nelson, F. S. Casbobl and John Meyer and they are to furnish the club with figures on the various costs as well as plans for the transformation of the building.

A second committee composed of J. N. Hasfarther, Robt. Emmett and W. M. Thompson was named to confer with C. E. Wood to learn what inducements might be made by the business men to get him to rebuild his flooring mill.

A committee composed of Fred Pollett, F. K. Bressler and C. E. Wood was chosen to confer with the O. W. R. & N. officials in Portland in regard to extending their lines into Genesee. It was also brought out in the meeting that there were rumors of that line building down the Union Flat through Uniontown and into Genesee. This company owns a considerable portion of a right-of-way through this country, it having been surveyed several years ago. The line as surveyed from Uniontown comes into Genesee on the north of town, passing back of the A. A. Raymond place and coming into the flat about one mile northeast of here. There is also talk of their extending their present Colfax Moscow line from Moscow to Genesee, coming down the Cow Creek flat. The latter seems to be a feasible route, and it could be built for the entire distance almost without grades.

The various committees have been instructed to make their reports to the commercial club in the near future, so that something definite, at least regarding the hotel and mill, may be announced in a short time.

PNEUMONIA TAKES YOUNG MAN'S LIFE.

The home of Mr. and Mrs. Fred C. Spencer, who live about 5 miles east of Genesee, was saddened by the death of their son, Norval, last Friday evening at 8 o'clock. The young man had been sick less than a week with pneumonia which last Thursday turned into a complication of disease, and resulted in his death within 36 hours.

Norval was born in the town of Genesee on Nov. 1, 1894, and has lived in Genesee and on the home place east of here all his life. At the time of his death he was aged 16 years, 1 month and 26 days. The funeral services were held from the First Methodist church on Sunday afternoon at 2 o'clock, the Rev. Harry P. Nelson officiating. Interment was made in the Odd Fellows cemetery.

Deceased leaves a father, mother, three brothers and two sisters. He mourns his loss, and the News joins with a host of friends in extending them the most sincere sympathy.

CARD OF THANKS.

We wish to extend to the friends and community our heartfelt thanks for their kindness and sympathy in our hour of bereavement. Also to Dr. Tuomy for his special care to our son and brother in his sickness.

CHURCH NOTICES.

The meetings will continue at the Christian church, with services every evening except Saturday, until Sunday evening, with the usual Sunday morning services. After Sunday Miss McCready and myself go to Melrose, Idaho, to conduct evangelistic services. N. E. BRACH, Evangelist.

Services will be held in the First Methodist Episcopal church on Sunday, February 9th, as follows: Sunday school at 10 a. m. Preaching service at 11 a. m. Epworth League at 1:45 p. m. Preaching service at 7:30 p. m. Services held in the Nisbet hall. All are cordially invited.

CHARLES D. FLETCHER, Pastor. The theme of the sermon, at the Congregational church, next Sunday morning, will be, "Our Source of Strength." The evening theme will be, "Able to Save." The topic for study at the mid-week meeting will be, "The Bible Teaching About Peace." We extend a most cordial invitation to all to attend our services. G. L. SHULL, Pastor.

Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Subject for morning, "Going Fishing." Subject for evening, "An Illiterate Sailor Converted." Prayer meeting every Thursday at 7:30 p. m. All are welcome. Special music at all services. HARRY P. NELSON, Pastor.

GENESSEE TEAM EASY VICTORS.

The Genesee high school team easily defeated the Nezperce high school aggregation last Saturday night by the decisive score of 46 to 11. At no time were the visitors dangerous, and the home boys could score at will. A Wardrobe's basket shooting being one of the features of the game.

The home team started out with a rash and had scored before Nezperce was fairly into the game. In the first half Nezperce made 2 field and 4 foul goals, while Genesee piled up a score of 29 with 12 field and 5 foul goals, the score at the end of the half favoring Genesee—29 to 8. The playing throughout the game was quite rough, and was as fast as any game yet played here, and although the Nezperce boys had almost as many chances for field goals as our team, their shooting was very erratic.

In the second half the home team put in Substitute Mel Wardrobe in place of James Keane. Science was thrown to the winds in this half, and the ball was on the floor a greater part of the time. The interference was about rough as it could get in a basket ball game, the home boys trying to keep the visitors from scoring rather than increase their already large lead. They merely toyed with the visitors throughout this half. Gray had his usual form in throwing foul goals.

The crowd at this game was the largest of the season and everybody there got his money's worth. The lineup was as follows:

Genesee	Position	Nezperce
Wardrobe, A.	F.	McFinahan
Morgan, J.	F.	Stelman
Wardrobe, J.	C.	Booth
Keane, S.	G.	Swank
Spurbeck, G.	G.	Miller
Wardrobe, M.	G.	Wardrobe

Summary: Field goals, A. Wardrobe 10, Gray 6, J. Wardrobe 3, Spurbeck 1; McFinahan 1, Stelman 2. Foul goals: Gray, 6 out of 6 attempts, Stelman, 5 out of 6 attempts. Final score, Genesee 46, Nezperce 11.

There will be no game here this week as Newman, the hypnotist, will be at the opera house on Thursday, Friday and Saturday nights. On Wednesday night, February 15th, the boys will meet the Coeur d'Alene high school, which is said to have a very good team.

At Genesee Opera House

Newman, the famous hypnotist is to be here on Feb. 2, 3 and 4. This is the best opportunity our readers will have to shake off the blues and enjoy a hearty laugh.

Everyone comes away from Prof. Newman's entertainment, completely satisfied, as there is nothing coarse and low in its making the spectators laugh genuine. In his own domain, Professor Newman is unequalled, but he does not appeal to—nor support superstition, as his lectures make his demonstrations very easily understood. Though everything is scientific, the situations are so funny that the spectator simply roars with laughter and delight for two solid hours. Popular prices.

Arch Fig Senna Syrup

A very pleasant yet efficient remedy for constipation, sick headache, biliousness, and all diseases arising from disordered liver, and stomach or bowels. The special advantages of this preparation are its mild action and its safety as a laxative. It does not gripe nor sicken the stomach. As a remedy for constipation it is greatly to be preferred to the various pills and mixtures advertised for that purpose, which enfeeble the muscular action of the bowels and eventually do harm. When you need a laxative try Arch Fig Senna Syrup Two Sizes, 25 and 50 cents.

FRIDAY, FEBRUARY 3, 1911

\$1.00 for 14 Gold Fountain Pens at Olson's.
—Miss Katie Tobin was a county seat visitor this week.

—Isaac Isaacson is visiting with relatives in Spokane this week.
Born to Mr. and Mrs. Frank Harris, on Wednesday, February 1st, a son.

—Mr. and Mrs. John Vandenberg were visitors in Palouse the fore part of the week.
—Mr. and Mrs. John Keane were Uniontown visitors last Tuesday and Wednesday.

—Miss Crystal Spurbeck went to Spokane last Friday for a visit with friends and relatives.
—Mrs. Frank Scharbach, of Colton, was visiting here this week on account of scarlet fever, Mrs. Gardner and Ada Schooler being the two sufferers.

—Harry Vandenberg left Thursday morning for Lewiston where he has a position in one of the barber shops.
—Mr. and Mrs. F. K. Bressler and Mr. and Mrs. Fred Pollett left Wednesday morning on their trip to the southern states.

—Mrs. Geo. Raymond and little daughter, Marion, are visiting this week with Mrs. Raymond's parents, Mr. and Mrs. J. W. Tice.
—Mrs. R. R. Gray and children returned last Saturday from Willola, Idaho, where they had been during the illness and death of William F. Pollett, Mrs. Gray's father.

—Mr. and Mrs. G. N. Hollister, of Bluefield, Wash., arrived here last Sunday afternoon and will remain at the F. K. Bressler home during Mr. and Mrs. Bressler's sojourn in the southern states.

—The masquerade ball given at the opera house last Friday night was a very successful affair, 87 numbers having been sold. The first ladies' prize was awarded to Miss Rebecca Williams and the second to Mrs. Kimberling. The first gentlemen's prize was won by Adam Craig and the second by Chas. Steltz.

—Dr. Gritman, of Moscow, was called over last Tuesday for consultation with Dr. Tuomy on the case of Ada Schooler. She has been quite ill this week, pneumonia having set in after she was taken sick with the scarlet fever. A trained nurse was also brought over from the Gritman hospital, and Miss Schooler's condition is much improved at this writing.

—Mr. and Mrs. D. H. Haylett entertained a party of friends last Friday evening, the occasion being Mrs. Haylett's birthday. The evening was spent with music and games after which a lunch was served. All report an enjoyable time. Those present were: Misses Mary Primus of Uniontown, Mary Rosgen of Bald Butte, Louise and Carrie Scharnhorst, Etta McLaughlin, Mrs. McLaughlin, Mr. and Mrs. Chas. Scharnhorst; Messrs. John Sullivan, Ben Jutte, Harrison Dugget and Carl Rickard.

—A county convention of the road overseers of Latah county has been called to meet at the courthouse on 9 o'clock a. m. Saturday, Feb. 11th. At this time there will be a general discussion of matters pertaining to the public highways. Auditor Homer E. Estes has sent written notices to all overseers requesting them to be present. The movement for good roads is gaining impetus in the county and perhaps no other body of men are doing more for the development of the county, generally, than are the overseers. It is thought that a comparison of methods will be of great benefit to all.

FALLS VICTIM TO THIEVES.
S. W. Hends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for twelve years. They were a liver and kidney trouble. Then Dr. King's New Life Pills thrilled them. He's well now. Unrivaled for constipation, malaria, headache, dyspepsia. 25c. F. E. DICUS & Co.

—A. F. Zabel, who moved to Sunnyside, Wash., last fall, writes that he has purchased a 20-acre irrigated farm near that city.
—Those wishing to take part in the Sunday school week at the Church of Christ will please meet at the church Sunday, Feb. 5th, at 10 a. m.

—Mrs. Hanna Wilkins, of Portland, Oregon, arrived here last Friday afternoon for a visit at the home of her parents, Mr. and Mrs. W. J. Botjter.
—The following have new ads in this week's News: Bell & Emmett, O. W. R. & N. Company, Wm. Smolt & Son, J. S. Larabee and O. Olson. Do not fail to read them.

—The homes of Bert Gardner and B. H. Schooler have been quarantined within the past week on account of scarlet fever, Mrs. Gardner and Ada Schooler being the two sufferers.
—Thursday, February 2nd, was groundhog day, and that animal had plenty of opportunities to see his shadow. This is supposed to mean that we will have six more weeks of winter.

—Myrtle Anderson, the 4-year-old daughter of Thomas Anderson, died yesterday morning at 6:35 at their home 3 miles north of Genesee. Funeral from the residence on Saturday at 11 a. m.
—Miss Anna Heitstamm, of Uniontown, and Mrs. Mary Porter, of Rathdrum, the former a charge of Dr. Tuomy and the latter of Dr. Ehlen, have been patients in the Tuomy hospital for the past week. Both have been quite sick but are now convalescent.

—The following is what the Grangeville Globe has to say about the Genesee basket ball team: "The Genesee team is maintaining an unbroken record of victories. Lewiston high went to grass before the Geneseeans and last Saturday the Nez Perce Indians across Lawyers canyon were taken into camp on their own battle field. Where the 'whiteman's hope' is to come from to stop this monotonous 'scoop,' has not yet been divulged."
—At the regular annual meeting of the Genesee Belgian Horse Co. held last Saturday afternoon the following officers were elected for the ensuing year: Frank Gieser, president; A. A. Hayward, secretary; L. J. Jelin, treasurer and Fred Scharnhorst, Herman Broemmeling and John Trautman directors. The annual reports for 1910 were also read and showed that the company was in a very prosperous condition.
—Many friends here of Dr. J. L. Conant, Sr., who was for many years one of the prominent physicians of this state, regret to learn of his death in Weiser, last Saturday morning at the hospital of his grandson, Dr. C. C. Conant. He was 80 years of age, and the immediate cause of his death was paralysis, the stroke Saturday morning having been the second one in the last few months. Mr. Conant was for many years a resident of this city, having run a drug store in the old Conant building which was erected here by his son. For the past 8 years he has resided in Weiser. The body was interred this week in the Weiser cemetery.

OBITUARY.

William F. Pollett, a civil war veteran, died at mid-night Sunday, Jan. 22. Mr. Pollett was born in Cayuga county, New York, Jan. 30, 1825. He was married to Naomi Paine, on the 25th of March, 1866, at Humbolt, Kansas. Of this union four children were born, three of which survive him—Mrs. Eliza Gray of Genesee, Idaho, E. Ida Pollett and Sara Pollett of Willola, Idaho.
He served in the civil war under General Schofield. He was a pioneer of this state, having crossed the plains in 1880, and homesteaded on the Little Potlatch, near Genesee, where he resided twenty-two years. Afterwards he and the family lived in Genesee, Idaho, for three years. He then moved to Willola, Idaho, at which place he died, having lived to the age of 86 years, lacking seven days. Mr. Pollett was a member of the Christian church. All his children were at his bedside when he passed away.

LOOK BACK ONLY THREE YEARS

And recall how, in the fall of 1907, a young man, with faith in the future, struggled to induce a few business men of Moscow to help him build what was to be the Idaho National Harvester, now admitted to be the greatest piece of harvesting machinery in the world. After weeks of discouraging effort some \$12,000 was raised from the sale of stock at 25 cents on the dollar, and this was after the machine turned out in 1907 had actually harvested one hundred acres of wheat on the farm of Jerome J. Day, near Moscow. Men with money turned it down as an impractical machine, but a little handful of working people around Moscow put their few dollars of savings into this stock. The men of money and experience, except Jerome J. Day, preferred to invest in other things, including farm lands, city lots and even wireless telephone.

LOOK AT IT TODAY

Wireless promoters are being criminally prosecuted, and this stock sold by strangers, is worse than worthless; city lots and farm lands are sound and safe (at least most of them are) but where is the investment that has, since January 1, 1908, risen steadily and certainly in 36 months to an increase of 400 per cent? Palouse farm lands and there is no better, will not today bring the price paid for them in 1908, 1909 or 1910. And yet Palouse farm land is absolutely all right, and will eventually bring higher prices than it has ever sold for.

Now compare Idaho National Harvester stock with Palouse farm lands as an investment. Three years ago had a man invested \$10,000 in each he could not today get more than his money out of the land. But his \$10,000 investment in Idaho National Harvester stock is today worth \$40,000, and within a few days will be worth \$60,000.

IDAHO NATIONAL HARVESTER CO.

CANNOT SELL IT

"You can't sell it," says one. Let us see. Go out today and try to sell your farm. You can't do it. There are no buyers. If you doubt this, try it. Where farms have recently sold they have not brought the purchase price of 1909. And few farms have paid interest on their value in 1910.

But the man who bought Idaho National stock can sell at a profit; and there is no trouble to convert this stock in either lands or city lots. Nor is this all. Idaho National has increased and will continue to increase more rapidly than the best farm in the Palouse or any other country.

IT CAN'T BURN UP

Here is an investment that cannot burn up, grows in value while you sleep, and within 36 months at the outside will begin paying regular dividends. A small block of this stock purchased today will make you independent tomorrow

A FLYER AT ADVERTISING

IN THIS PAPER IS NOT AN ADVERTISING EXPENSE. Our rates are right—they let people know your goods and prices. Run a series of ads in this paper. If results show, other conditions being equal, speak to us about a year's contract. THAT PLAN NEVER LOST A MERCANTILE ONE CENT.

SUBSCRIBERS MUST PAY.

Editor Fay, of Lyons, Iowa, has been called to Washington city because his subscription had not well paid up as the law requires. He will have to explain to the government officials why he has not complied his subscribers to pay up according to the postal rates. An inspector had visited him two months previously and his list was said to be pretty thoroughly paid up, but evidently it was not sufficiently so. It seems a little tough that the country editors have to be hauled up before the government under the charge of violating federal laws just because they do not eternally keep donating their subscribers for the small sums they owe on subscriptions. But it is like the end of the world—no one knows when it will come, and no editor knows when the inspector may pop in and ask to see his list. And if too many subscribers are behind on their papers it means trouble with the government. It puts an editor in such a shape that he is compelled to force his collectors unless he has an unusually prompt paying list of subscribers.—Des Moines Capital.

LIFE SAVED AT DEATH'S DOOR.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years. Quick, safe, sure, is the best remedy on earth for coughs, colic, lagrippe, asthma, croup, and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by Dr. E. Deas & Co.

STATES THAT MAY LOSE SEATS.

The enormous growth of population which the census of 1910 records has been spread very unevenly over the country. In Iowa there has been no growth at all. In other states, as Missouri, Kentucky, and Maine, the growth has been very slight. In such states, obviously, to raise the representation ratio would mean to reduce the number of representatives to which the state is entitled. This sort of thing has happened again and again, but naturally no state enjoys it. Thus, Virginia, which after the census of 1790 was given 19 seats and in the next decade 23, was compelled by reason of her comparative slowness of growth to see them stripped from her until in the seventies she had but 9 and today has but 5. Maryland has been reduced from 8 to 7, New Hampshire from 11 to 7, Connecticut from 7 to 5, Maine, from 11 (in 1830) to 4. Massachusetts has barely preserved the same number (14) with which she started in 1790. —the last one in 1890—which did not entail the loss of seats by one or more states.

It has been practically conceded that the Hill interests are behind the Gilmore & Pittsburg, which line has already been built from Armatost, Montana to Salmon City, Idaho, a distance of 120 miles, thus invading the Harriman territory, and surveys have been completed down the Salmon river and the Snake river to Lewiston. The next move of the Gilmore & Pittsburg will be to close the gap between Armatost and Twin Bridges in Montana, connecting with the Northern Pacific at the latter point. The result of the invasion of the Hill interests in the Harriman territory must give an outlet to the Gilmore & Pittsburg and it is practically certain that the Hill interests will take the south bank of the Snake river from Lewiston to Riparian.

The most disastrous flood in the history of Pocatello swept down through the east portion of the town, flooding all the houses along the north and south First streets, filling cellars and covering yards with debris in the residence district on the east side. Surface waters running over the frozen ground from the hills, as a consequence of a downpour of rain lasting for over 24 hours, produced the flood that has caused thousands of dollars of damage.

"The Elusive Eleventh" is the euphonious title which has been given to the solons of the present house and senate. The members themselves are entirely innocent of it all; in fact, they may not agree to the name at all. However, the third house, with membership as large as that of the first and second combined, has decided that this is the time for the session to be properly branded and christened, and that from what has happened thus far, no more appropriate title could be given to any such aggregation of lawmakers "than the 'Elusive Eleventh,'" they say.

TORTURED FOR 15 YEARS by a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Molders, of Moldersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "Whatever I ate distressed me," he wrote, "I'll try Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It cured my stomach trouble, and I feel grand now. Buy for stomach trouble." Just as good for the liver and kidneys. Every household should have. Only 50c at F. E. Deas & Co., Genesee.

FOR PUBLIC UTILITIES COMMISSION.

A bill whereby all corporations furnishing telephone, electric light, gas or power companies must furnish the same at such reasonable rates and under such regulations as local commissions of five members each shall decree has been introduced in the house by Strode and Black.

Two commissioners are to be selected from the town, city or village where the service is being given, and who are not connected in any way with any telephone, electric light, gas or power company. Two will be selected by the company giving the service, and the four commissioners are to provide a fifth. The bill also then decides that if any company shall fail to provide commissioners it shall forfeit \$100 per day for every day it is in default.

Any commission shall have the authority and power to subpoena witnesses to produce any documents relating to any matter under investigation by the commission. The commission will also be able under the provisions of the act to have expert accountants, and incur any expense that may be necessary to aid them in investigating such power, electric light, gas or telephone service rates.

The bill further provides that any of the companies supplying the service mentioned which fail or refuse to abide by the rates fixed by any commission so appointed, shall forfeit to the city, village or county the sum of \$500 per day for each day of refusal and all forfeitures provided for in this act shall be collected by a suit filed in any court of competent jurisdiction.

The bill goes further by providing that each person who shall refuse to appear and give testimony, or who shall refuse to submit for the inspection of the commission any of the books, papers, documents or records pertaining to the particular service under investigation, in his possession,

NEEDED—MORE GOOD ROADS.

The News has been glad to chronicle from time to time the succession of improvements which have been made in Genesee and the surrounding country, and especially in this regard to improving our roads. During the late fall season and early winter there are probably no worse roads in the northwest than those of this valley. In fact they are almost impassable at times, and the farmers who must use these roads are the ones who bear the burden of their bad condition. It is dollars and cents out of their pockets, in fact, those who are well posted on the subject tell us that it costs our farmers one cent for every sack of wheat hauled a mile through these bad roads. Taking as an average load, 60 sacks of grain, hauled 5 miles, in order to get it into the warehouse, we find that the cost, from bad roads alone, amounts to the sum of at least \$3. Thus we may estimate that the farmers who live several miles from town are paying on an average of at least \$75 every year to our bad roads. If this sum of \$75 for each farmer had been applied to the macadamizing of our main thoroughfares, in the various road districts, for the past ten years, the Genesee country would today have the best roads in the whole nation.

Several of the districts hereabouts have taken a step forward and have demanded the betterment of the highways. Not only have they demanded it, but they are actually at work making these improvements. Modern farm methods—such as are followed in this country—demand modern transportation methods, and our roads are not in keeping with our farms. Mr. Farmer, isn't this dollars and cents proposition worthy of your deepest consideration?

The university of Washington plans to offer correspondence instruction by mail in all of the subjects taught by its various departments. This sort of work is being done by some of the well-known schools of the east. Surprising results are obtained, in that instruction is given to many people who find it impossible to enroll actively at the university. President Kane has asked the legislature to appropriate \$10,000 in order that the work may be started. This popularizing of higher education is regarded as a step in the right direction and will make it available for the many, instead of being a privilege for the few, as it is now.

The designation of San Francisco as the place for holding the Panama International exposition is of vast importance to the west. By this action, congress has focused the attention of the world on the Pacific coast for many years to come and the good work started by the Alaska-Yukon-Pacific exposition in 1909 will be carried forward. Many people who visit the 1915 fair, will pass through the northwest, coming or going. At the very outset, the lumber interests of the northwest, will reap the benefit of business resulting from extensive construction.

JOHN WINTERFELT PASSES AWAY.
After suffering with a lingering illness for the past several months, John Winterfelt, an old resident of the Genesee country passed away at his home in the west part of town, late Tuesday afternoon at 2 o'clock. The direct cause of his death was dropsy. Deceased was 74 years of age and the funeral was held on Thursday afternoon from the First Methodist church. He leaves a wife and five children, three boys and two girls to mourn his loss. The family has the sympathy of the community in their hour of bereavement.

The extension of the Pacific & Idaho Northern railway, of which Weiser is the southern terminus, has been completed from Evergreen to the new town of Meadows, a distance of 16 miles. Work on the extension was begun late last summer.

CHURCH NOTICES.

There will be no services in the German Lutheran church next Sunday as the pastor will occupy the pulpit in the Fairfield, Wash., church.

A. F. WOLFF.

Bible school will hold at 10 o'clock at the Church of Christ next Sunday. All children not attending other Sunday schools in our city are invited to meet with us and begin the new graded course, and especially older people to join our organized A. B. C. class.

The theme of the sermon, at the Congregational church, next Sunday morning, will be, "Care for Souls." The evening theme, "Treasures in Heaven." The topic for study, at the Bible Teaching About How to be Saved." We most cordially invite all to attend our services.

G. L. SHULL, Pastor.
Services in the First Methodist church next Sunday will be at 10 o'clock. Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Subject for morning service, "Is Methodism in the Bible?" Subject for evening, "What is a Conversion?" or "The King's Pet Pig." Prayer meeting every Thursday at 7:30 p. m. Special music at all services. All welcome.

HARRY P. NELSON, Pastor.
The series of meetings closed at the church of Christ chapel Sunday evening. The house was filled with eager listeners and there were three conversions. Twenty-one took a stand for Christ and His church, six men, thirteen women and two girls. The offerings during the meeting amounted to \$53. A Sunday school was organized to meet each Sunday at 10 a. m. I. C. Peterson was chosen superintendent; L. A. Darr, assistant superintendent; Laura Trail, secretary and Mrs. John Hall, treasurer. A "Training for Service" class will meet each Tuesday evening in the basement, and all are invited to come and more fully understand the bible. Prof. E. M. Patterson, D. D., of the Pullman bible chair will preach morning and evening Feb. 19th and regularly thereafter. Mr. Patterson is highly educated and a lover of God and humanity.

DR. J. L. CONANT, PIONEER, DEAD.
One of the oldest, most respected, and widely known pioneers, Dr. J. L. Conant, died Saturday morning at 1:30 of paralysis, in the Conant hospital in the Haas building. Dr. Conant was eighty years old at the time of his death, and had resided in Weiser for some eight years immediately previous to his demise, having practiced medicine in other states and in northern Idaho for ten or fifteen years before that time.

Dr. C. C. Conant, his grandson attended him to the time of his death, and he was constantly and faithfully nursed by Mrs. Conant, Jr., and Mrs. C. C. Conant since he was stricken with paralysis some months ago.

The deceased is survived by a daughter, Mrs. Frank Standish, of Cunningham, Washington, who attended the funeral yesterday afternoon, which was conducted from the Northam & McCann undertaking parlors.

Dr. J. L. Conant, Jr., who died last May, was a son of Dr. Conant, and his senior doctor has been failing rapidly ever since that time. A number of friends accompanied the body to its last resting place.—Weiser Signal.

FRIDAY, FEBRUARY 10, 1911

\$1.00 for 14k Gold Fountain Pens, at Olson's.

—Miss Mary Meldrum was visiting friends in Moscow the latter part of last week.

—Miss Helen Linehan returned home Sunday afternoon from a short visit with relatives in Coitton.

—H. J. Heiman attended the tri-state convention of the 18th reg. union held at Walla Walla last week.

—C. Baldus went to Fairfield, Washington, last Sunday, where he was a business visitor this week.

—Chas. F. Burr was a Spokane passenger on Tuesday's train where he is a business visitor this week.

—Mrs. A. J. Darr and two children, who have been visiting relatives in Missouri for the past two months, returned home last Saturday afternoon.

—Miss Anna Heitstamm, who had been a patient in Dr. Tuomy's hospital previous to last Sunday, left that morning for her home in Uniontown.

—There will be a Valentine social at the Aurora schoolhouse (district No. 15) 4 1/2 miles northeast of town on the Cow creek road, on Friday evening, February 17th. Everybody invited.

—Mr. and Mrs. Frank Scholer, of Pummer, Lusho, who were called here on account of the serious illness of Mr. Scholer's sister, Ada, returned to their home Wednesday morning. Miss Scholer is very much improved this week and will be able to be up in a few days.

—B. Phipps lost a valuable horse last Sunday. The animal was turned out of the barn for exercising and some way started to roll down the hill which was quite steep and covered with snow, and was unable to stop until reaching the b. tem. The fall was sufficient to kill him.

—Foreseeing the need of a modern theatre building and amusement hall, capable of meeting the requirements of the rapidly increasing population of the city of St. Maries, Mr. M. L. Speer who is well known to many of our readers and who has been planning for some time to put up such a building, has come to the conclusion that the time has arrived to put his plans into execution. The plans call for a building 60x100 feet, with a basement for dressing rooms and furnace for heating the theatre.

—The Farmers' Union has appointed James Tobin and H. J. Herman as a committee to wait on President Robt. E. Strahorn, of the North Coast Railway company, to see what inducements can be made to that railroad to build into Genesee. Similar action was taken by the commercial club a week ago, in sending a committee to J. F. O'Brien, at Portland, general manager of the O-W. R. & N. railway, the parent road of the North Coast. It is expected that the commercial club will appoint another committee to confer with Mr. Strahorn in Spokane. Farmers in the Genesee valley as well as our business men are anxious to have a competitive road into this country, and the enormous tonnage which goes out of here, and the territory through which this road has been proposed would easily make that branch the banner feeder of the O-W. R. & N., the same distinction which the Genesee branch of the N. P. now enjoys.

—The groundhog seems to be a poor judge of the weather.

—A fine baby girl was born to Mr. and Mrs. David Sampson this week Sunday.

—Mrs. Chas. Stamps and Mrs. J. L. Klapp were Lewiston passengers on Saturday's train.

—Mrs. John Kambitch was a Pullman passenger on Monday morning's train where she visited relatives this week.

—The Masons have issued invitations to their families, for the annual banquet of that order which is to be held on Thursday night, February 16th.

—Read the following new ads in this issue of the News: F. E. Dicuss & Co., Fuller Bros., W. J. Herman, Bigatch Lumber Co., and Driscoll's Hardware Store.

—Several of the young friends of Miss Edna Rice very pleasantly surprised her last Monday night, the occasion being her birthday anniversary. The evening was spent in games, followed by a fine luncheon.

—The Jesters will present a four-act drama entitled "The Mountain Wail" at the opera house this (Friday) evening for the benefit of the baseball club. The play will commence promptly at 7:30. Prices, 25, 35 and 50 cents. Tickets on sale at Dicuss' drug store. Immediately after the play a social dance will be given.

—A "Training for Service" class has been organized to meet every Tuesday evening in the basement of the Christian church. This is an international, inter-denominational course of study, and anyone taking the work may graduate and receive a diploma. Everybody is invited to meet with this class, for a systematic review of the bible, whether believers and workers in any church or not.

—Mr. and Mrs. J. C. Hanson were Moscow passengers on Thursday morning's train where they will visit for a week with friends.

—E. E. Oylear was a business visitor in Spokane this week where he was purchasing the spring stock of goods for the Lambert & Oylear store.

—N. E. Beach and Miss Bertha McCready, who have been conducting revival meetings in the Christian church, left Monday morning for Gifford.

—Word was received from Portland this week that Mr. and Mrs. Fred Follett and Mr. and Mrs. Fred K. Bressler were enjoying that city and would leave last Tuesday for San Francisco.

—C. C. Kinman, who has been contractor on the Genesee branch for the past year, has been placed on the local run from Pullman to Lewiston, and Conductor Till, who has been on the Clearwater branch, now has the Genesee Pullman run.

—County Assessor Gemmill and his office have completed the delinquent tax list. It shows that there are \$12,343.47 due from delinquents, including the penalty added to the amount of taxes which were not paid. The amount of penalties added to the sum is \$1,122.47. The total taxes for Latah county for the year 1910 was \$233,611.90. This shows that about 5.2 per cent of the total amount of taxes became delinquent.

—Word was received here from Spokane last Saturday that the South Central high school would not be able to play the Genesee team here. The reason given is that the team will depart on the 17th of this month, and no games will be scheduled after that date. It was understood that the Spokane boys would have played here on the 24th. Next Tuesday night, the 14th, the Coeur d'Alene high school five plays here, and on Saturday night the Rathdrum high school team. Both are fast teams, and two good games are promised.

—Chas. Ebel was a business visitor in Moscow this week.

—Carl Baldus arrived from Toppish, Wash., Tuesday for a visit with his parents.

—Geo. Mochel has been in charge of the Potlatch yard this week during the illness of I. C. Peterson.

—Miss Crystal Spurbeck has accepted a position in one of the millinery stores in Spokane and expects to remain there this spring.

—Mr. and Mrs. J. H. Henry, of Spokane, came in last Friday for a short visit with Mr. and Mrs. John Owen, Mr. Henry returning to Spokane Thursday.

—Among those who are on the sick list this week are: E. A. Parlett, R. S. Woodley, Elva Fitz, the daughter of Mr. and Mrs. A. J. Fitz, Mrs. Belle Larson, John N. Hasfurther and Mrs. Rachel, the mother-in-law of O. C. Hellekson.

—W. M. Thompson left Thursday morning on a two-days' business trip to Pullman and Moscow.

—Mrs. J. H. Jackson returned home Sunday from a brief visit with friends in Pullman and Moscow.

—Willis Bolton was an arrival here from Spokane last week and is visiting at the Geo. Mochel home.

—Wm. Harris, who was formerly a resident of this city, came down from Pullman Sunday to visit with relatives.

—Mr. and Mrs. J. C. Hanson were Moscow passengers on Thursday morning's train where they will visit for a week with friends.

—E. E. Oylear was a business visitor in Spokane this week where he was purchasing the spring stock of goods for the Lambert & Oylear store.

—N. E. Beach and Miss Bertha McCready, who have been conducting revival meetings in the Christian church, left Monday morning for Gifford.

—Word was received from Portland this week that Mr. and Mrs. Fred Follett and Mr. and Mrs. Fred K. Bressler were enjoying that city and would leave last Tuesday for San Francisco.

—C. C. Kinman, who has been contractor on the Genesee branch for the past year, has been placed on the local run from Pullman to Lewiston, and Conductor Till, who has been on the Clearwater branch, now has the Genesee Pullman run.

—County Assessor Gemmill and his office have completed the delinquent tax list. It shows that there are \$12,343.47 due from delinquents, including the penalty added to the amount of taxes which were not paid. The amount of penalties added to the sum is \$1,122.47. The total taxes for Latah county for the year 1910 was \$233,611.90. This shows that about 5.2 per cent of the total amount of taxes became delinquent.

—Word was received here from Spokane last Saturday that the South Central high school would not be able to play the Genesee team here. The reason given is that the team will depart on the 17th of this month, and no games will be scheduled after that date. It was understood that the Spokane boys would have played here on the 24th. Next Tuesday night, the 14th, the Coeur d'Alene high school five plays here, and on Saturday night the Rathdrum high school team. Both are fast teams, and two good games are promised.

DR. PRICE'S CREAM BAKING POWDER

A Cream of Tartar Powder Made from Grapes NO ALUM

LOOK BACK ONLY THREE YEARS

And recall how, in the fall of 1907, a young man, with faith in the future, struggled to induce a few business men of Moscow to help him build what was to be the Idaho National Harvester, now admitted to be the greatest piece of harvesting machinery in the world. After weeks of discouraging effort some \$12,000 was raised from the sale of stock at 25 cents on the dollar, and this was after the machine turned out in 1907 had actually harvested one hundred acres of wheat on the farm of Jerome J. Day, near Moscow. Men with money turned it down as an impractical machine, but a little handful of working people around Moscow put their few dollars of savings into this stock. The men of money and experience, except Jerome J. Day, preferred to invest in other things, including farm lands, city lots and even wireless telephone.

LOOK AT IT TODAY

Wireless promoters are being criminally prosecuted, and this stock sold by strangers, is worse than worthless; city lots and farm lands are sound and safe (at least most of them are) but where is the investment that has, since January 1, 1908, risen steadily and certainly in 36 months to an increase of 400 per cent? Palouse farm lands and there is no better, will not today bring the price paid for them in 1908, 1909 or 1910. And yet Palouse farm land is absolutely all right, and will eventually bring higher prices than it has ever sold for.

Now compare Idaho National Harvester stock with Palouse farm lands as an investment. Three years ago had a man invested \$10,000 in each he could not today get more than his money out of the land. But his \$10,000 investment in Idaho National Harvester stock is today worth \$40,000, and within a few days will be worth \$60,000.

CANNOT SELL IT

"You can't sell it," says one. Let us see. Go out today and try to sell your farm. You can't do it. There are no buyers. If you doubt this, try it. Where farms have recently sold they have not brought the purchase price of 1908. And few farms have paid interest on their value in 1910.

But the man who bought Idaho National stock can sell at a profit; and there is no trouble to convert this stock in either lands or city lots. Nor is this all. Idaho National has increased and will continue to increase more rapidly than the best farm in the Palouse or any other country.

WOULD REVEAL SCHOOL SYSTEM.

Complete revelation of the entire school system of Idaho is the object of a bill introduced in the state house of representatives last week by Warnick, Featherston. It provides for an amendment to the state constitution to place the entire school system of the state under the control of a board of regents. One of these regents will be chosen from each judicial district in the state. The entire board will be appointed by the governor with the advice and consent of the judge or judges of the several judicial districts. These regents will serve for a term of six years, one-third of the number to be appointed every two years. The regents will have it in their power to employ a commissioner, the best school man to be selected, and this commissioner will have in hand the general supervision of the educational system of the state, embracing the entire field of educational supervision and administration. The commissioner will be under the control of the regents at all times.

Under the measure to be presented the first meeting of the board of regents will be held in Boise on the second Tuesday after the first Monday in February, 1915. One-third of the first board will be appointed for two years, one-third for four years and one-third for six years.

The men having this measure in hand, especially Mr. Warnick, have given the subject much thought. The plan agreed upon is a copy of the plan that has proved such a success in New York. The main object is to bring about harmony and unity of purpose in all the educational institutions of the state. The commissioners and the regents will have supervision not only over the state institutions, but the high schools and rural schools.

The strongest claim made for the new system is that it would put an end to lobbying for special state institutions; it would take the entire educational system out of politics as far as that is possible, and it would compel every institution to confine itself to the line of work for which it was established. The sponsors for the measure announce that they have been given assurances of support from all sides.

A deal was consummated in Clarkston last week by which Dr. Orin of Moscow became owner of W. M. Ladd 1100 acre ranch south of Clarkston and a 4-acre orchard in South Vineland on Clemon's Addition, and will establish a large dairy on the ranch. It is understood the price paid for the land was about \$50 per acre.

E. T. Jacobs sent his order for incubators this week, says the Clifford Wireless. The order consists of eight of the Wooden hens and each of 150 to 200 eggs capacity. It is expected that each one will bring forth four hatches during the season and this will make 9,600 additional inhabitants to the poultry population of this section. It is reasonable to expect two-thirds will be hens and if they are of the royal blood, each hen should lay 200 eggs during the succeeding season, which will be 1,200,000 or 1,000,000 dozen of the cackleberries. The price should average thirty cents a dozen, thus adding \$30,000 to the wealth of this section. This is counting the chickens before they are hatched.

GOOD ROADS PLANNED FOR IDAHO.

Good roads for Idaho is the object aimed at in a bill of 67 sections introduced by Senators Gooding and Shannan. It provides for a complete system of government aid for highway districts, and provides for an independent treasurer and its own system of warrants.

The first section of the bill says: "The improvement of highways is hereby declared to be the established policy of the state of Idaho, and the duty is hereby imposed upon the highway boards provided for by this act of improving and maintaining the public highways within their districts and of securing as rapidly as the public revenues will permit, and of maintaining permanent good roads of hard surface, properly graded and available for public travel thereon throughout the state."

This bill was referred to the committee on highways, bridges and ferries. The real spirit of the bill is the introduction in the legislature are clearly set forth in the following statement by an official of the Ada County Good Roads association:

"The proposed highway district law provides for the voluntary creation of highway districts within the territory affected, of highway districts within the limits of any county, to be not less than 20,000 acres in extent, and having all powers and jurisdiction over the subjects of roads and bridges vested in a board of three highway commissioners serving without salary. The plan of organization follows to a large extent that of irrigation districts, a recognized statutory political subdivision.

"For simplicity and because of the practical convenience of making use at various points of the existing machinery of county government, the highway districts authorized by the bill are limited by the requirement that a district must be wholly within the limits of a single county. Districts containing land in two or more counties would require more complicated provisions of law and involve considerable additional expense in their creation and should there be a demand for the creation of such districts the law may hereafter be so amended as to provide for them, but it is believed that at least for the next two or three years districts lying wholly within single counties will meet every public demand.

"The grant of power to the districts and its officers is expressly made broad and general; power and jurisdiction over highways is vested in the highway board with the same exception as under existing laws, namely, that the highways within incorporated cities, towns and villages remain under the jurisdiction of their own municipal authorities, and that 25 per cent of the general taxes for road purposes contributed by such municipalities is returned to their own treasury. The county commissioners retain the power to levy road and bridge taxes, with no change in maximum and minimum rates paid of all road and bridge taxes but from any highway district the district receives back in its own treasury for its own purposes 95 per cent thereof, less the 25 per cent belonging to any municipality included in the district. After the county commissioners have made their levy for bridges, the highway district board makes its own levy for the district. This tax is limited to a maximum of \$1 per \$100 for roads and 25 cents per \$100 for bridges, with the further limitation after the first year that the amount of the district levy shall not, when added to the county levy, exceed \$1 for 25 cents for bridges. To provide against an inequitable cutting down of the county's general revenues, a section of the bill provides that when the repair or construction of a highway in the county at large outside of the district would also be for the benefit of the district and the cost thereof would, if borne by the county alone, be an unreasonable burden or vice versa, the highway board and the county commissioners may agree upon a fair and equitable apportionment of the cost, and that if they cannot agree the matter may be determined by the district court. The bill also provides that the highway board may accept contributions from any persons of political subdivisions toward the

SALE BY LAND BOARD STANDS.

The decision written by Judge J. F. Aikie and concurred in by Justices Stewart and Sullivan, the supreme court last week sustained the action of the state land board in offering for sale to the Potlatch Lumber company or to any higher bidder, the 6,000 acres of land in Latah county, the timber upon which the company had already purchased under certain restrictions some eleven years ago.

There was more or less politics involved in the bringing of this case, as was shown in the personnel of the prosecution, as well as the fact that this land deal was used by the democratic orators all through last fall's campaign as a good ground for many charges and statements which no attempt was made to prove when the case was presented for hearing. In fact it is pointed out, as rather remarkable, says the Boise Capital-News, that despite the charges of secrecy and corruption which were made by the complainant, not an iota of evidence was introduced to sustain those charges.

The counsel for Charles F. Pike, who brought the original action in the supreme court, asking for a writ of prohibition against the land board, was composed of John F. Nugent, already mentioned in connection with Martin, T. L. Martin, J. T. Pence, W. B. Davidson, F. B. Kinyon and J. R. Smead.

The court holds that the Potlatch company, in order to secure the lands in question must not only give certain additional considerations. In the opinion of the court these conditions and concessions will tend to increase the price of the land per acre bid by the company instead of decreasing it.

"At any rate," says the court, "the state land board must have considered that these relinquishments of the company's rights of possession of lands that have been cut over are worth something to the state. The transaction was given the widest publicity and there was no secrecy about the proposed sale so far as has been made to appear in this case."

GENESEE 57, COEUR D'ALENE 18.

That tells the story of one of the fastest and prettiest games of basket ball ever seen on the local court. Although coming here as one of the strongest teams in north Idaho, the Coeur d'Alene bunch was simply helpless against our boys, and the home team had no trouble in scoring at will. Although Bartges, for the visitors, did some pretty "grandstand" work, he was unable to shoot a single goal, and that's what counts in basket ball.

Starting in with a rush, the home team scored before the visitors loosed the ball. J. Wardrobe in center, encountered the biggest odds, against Campbell, who was a much heavier and taller man, but Spurbek was too quick for his man and almost invariably got the ball. The teamwork of Spurbek and Keane was the best that has yet been seen here, and some of their long shots were spectacular, especially one by Keane in the second half, from the center of the court drew forth a round of applause from the side lines. The "stars" of the game were Spurbek and A. Wardrobe. For the visitors Campbell showed up best.

In the first half the visitors secured 6 field goals for a total of 12 points, and were called for fouls twice. The home team scored 14 field and one foul goal for a total of 29 points. One foul was called on them. In the second half the visitors added 3 field goals to their score, while the Genesee high school scored 13 field and two foul goals. But for a few minutes the home boys could have prevented the visitors from scoring in the last half.

As is usual with visiting teams, the Coeur d'Alene boys were much pleased with the clean playing of the Genesee team. In fact the only kick that has been registered by any team this year, was that of Newport, but we notice that every team that visits that burg is given somewhat similar credit, especially if the Nezperce team is defeated. The Genesee team now has a very enviable record, and no high school quintet in north Idaho has, as yet, been able to show them up.

The next game to be played is with the Challengers on Saturday night, February 18th, and it looks now as if the Genesee boys had the best of it. The following is the line up and summary of Tuesday night's game:
 Genesee Position Visitors
 Wardrobe, A. F. Purdy
 Gray, F. Davey
 Wardrobe, J. C. Campbell
 Keane, G. G. Campbell
 Spurbek, G. Dewall
 *Mel Wardrobe substituted for Gray in the second half.

Summary: Field goals: Purdy 1, Davey 3, Campbell 5, A. Wardrobe 10, Gray 6, J. Wardrobe 5, Spurbek 4, Keane 2. Foul goals: Gray 3 out of 4 attempts. Campbell 0 out of 2 trials. Final score: Genesee 57, Coeur d'Alene 18.

RECIPROcity BILL PASSES HOUSE.

President Taft's reciprocity agreement with Canada was passed in the house of representatives Tuesday night through the support of an almost solid democratic vote. The McCall bill carrying the agreement into effect was passed 221 to 92.

The majority of the republicans present voted against the bill, the division being 78 ayes and 87 noes. The democratic division was 143 ayes and only five noes. A majority of the republican insurgents present voted for the bill. The McCall bill now goes to the senate. What its fate will be in that body is problematical. President Taft believes that if a filibuster can be avoided and a vote taken the bill will pass. He is insistent that the senate shall act one way or the other, and has indicated that he would call an extra session of congress if it does not do so.

The passage of the bill in the house came at the end of a long debate which at times was as bitter as has been heard on the floor of that chamber in years. The fight was confined almost wholly to the republican side. Democratic members joined in from time to time and taunted the majority members for their lack of unity.

Virgel Sampson came over from Moscow Tuesday afternoon for a short visit with friends.

A. N. Sagar, of Ironside, Wash., a former resident of this country, was shaking hands with friends here this week.

John Tracy left overland last Monday morning for the Columbia river, with a bunch of twenty horses, which he will sell in Kennewick and Richland.

John G. Denner, of Julietta, was operated upon here by Dr. Ehlen last Tuesday. Although the patient is an aged man he is resting very nicely and a rapid recovery is expected.

Last Wednesday night was the coldest night of the winter. At 7 o'clock Thursday morning the thermometers registered 2 above zero, but by noon of the same day it was over 40 above.

The Rebekahs and a number of invited lady friends enjoyed a Valentine social and masquerade at their hall last Tuesday night. A "big feed" was served at the conclusion of a very pleasant evening.

By a vote of 10 to 7, the bill to attach a part of Nez Perce county to Latah, was advanced to the third reading in the state senate last Tuesday. This bill has already passed the house, and it now appears that the bill will also go through the senate. If the governor signs the bill the annexation will be subject to approval by a vote of the people of the district affected.

Wednesday morning's freight was delayed several hours by the engine jumping the track at Staley. This is the same place that the railroad company has been having trouble with for the past several years, and freight cars have frequently been derailed there. It seems that the company could repair this piece of track without a great deal of trouble. As a consequence of this last delay the passenger train did not get out of here until noon, thereby inconveniencing several people who had intended to leave that morning.

Word was received here Wednesday evening by George F. S. Casbolt in Spokane, that he and H. J. Herman had succeeded in getting an immediate audience with Robt. E. Strahorn, president of the North Coast railway, and that the interview had been, indeed, very gratifying. Neither Mr. Casbolt nor Mr. Herman has yet returned to Genesee as we go to press this (Thursday) afternoon, but we hope to give our readers the full text of the interview in next week's paper.

Will M. Mahon, of Forest, Idaho, was a visitor here the fore part of the week.

Dr. J. E. Reilly visited at the home of his parents in Moscow last Saturday and Sunday.

Mrs. John Kempf and son, Rupert, were visiting relatives in Uniontown last Saturday and Sunday.

Wm. Botjter and daughter, Mrs. Hanna Wilkins, were county seat visitors here the fore part of this week.

Miss Clara Dahm, of Uniontown, a relative of the Moersch family, has been a visitor at their home during the last week.

Geo. McMahon and Thos. H. Herman came over from Pullman Sunday for a social chat with the boys, returning Monday morning.

John Meyer and Emil Thoma were business visitors at the county seat the latter part of last week. They returned home Sunday afternoon.

James Tobin received a message from Omaha last Sunday, stating that his brother, William had died there at 10 o'clock on that night. He left for that city on Monday morning. The funeral was held Thursday.

The high school is making arrangements to put on a mid-winter carnival at the Genesee opera house on Saturday night, February 25th. This carnival is given for the benefit of the Genesee high school athletic club. Among the attractions will be fortune telling, jubilee singers, etc., and the price of general admission is 10 cents. Admission to the side shows 5 cents.

Rev. A. F. Wolf left last Saturday morning for Fairfield, Wash., where he occupied the pulpit in the German Lutheran church last Sunday. On Monday morning he went from that city to Lind to attend the Spokane district conference of the German Lutheran church, which is holding sessions this week. He will return here in time to occupy his pulpit next Sunday.

Mrs. E. O. Cothran returned last Friday afternoon from Spokane, where she was successfully operated upon for appendicitis by Dr. Sutherland. While she is still quite weak, from the effects of the operation, it is but a matter of a few weeks until she will have fully recovered. Her nurse, Miss Mabel Hyndman, who accompanied her down, returned to Spokane on Saturday morning.

The lower house of the state legislature by a vote of 38 to 16 passed the railway commission bill Tuesday. An effort to send the measure to the committee of the whole was defeated and when it was thus revealed that there was a possible majority for the bill there was a stampede of republican members to the band wagon. A canvass made Saturday showed 25 votes in the house for the bill and 11 doubtful. Two that had been listed as opposing the measure evidently joined the doubtfuls. Bell, Morgan and Hellekson of Latah county favored the passage of the bill, although the latter paired with Parker of Cottonwood, who was opposed to it and neither voted on the bill.

DRESSMAKING.
 Miss Brahm will open dressmaking parlors in Miss Clemens' military store on Wednesday, March 1st. The ladies of Genesee and vicinity are invited to call any time after that date.

John Broemmeling was a business visitor in Pullman the latter part of last week.

B. H. Schooler and Geo. Follett left Lincoln, Nebraska, last Monday night and are expected home today. They brought four fine horses.

Mrs. James Tobin and daughter, Katie, are Spokane visitors this week, where the latter is undergoing an operation in one of the hospitals.

Mrs. Geo. Martin and little daughter, Sarah, were Spokane passengers on last Saturday's train. They will visit friends there several days.

James L. Fuller, of Dayton, Wash., was an arrival on Monday's train, and will visit for a few days with his mother and the family of his sister, Mrs. Ben Mochel.

County Assessor E. J. Gemmill has started out on the assessment work for 1911 in Latah county. The first precinct to be assessed is Julietta, which Mr. Gemmill is doing this week.

J. M. Rapelle, superintendent of the Idaho division of the N. P., and T. J. Cutler, master mechanic, were visitors here last Friday morning, having come in on an inspection trip.

D. C. Burr has received official notification from Hon. Thos. R. Hamer, that his appointment as postmaster at Genesee has been confirmed by the U. S. senate. The postoffice department has not as yet forwarded his appointment, but he is expecting it at any time. He will probably take charge of the office about March 1st. Miss Dora Burr will be the assistant.

"The Mountain Wolf," the drama presented by the Jesters at the opera house last Friday night was very well attended, and a gross amount of over \$102 was taken in from the sale of tickets. This left about \$80 which was turned over to the baseball association. The baseball boys desire to thank the Jesters for this donation, as well as the people of Genesee for their patronage, which made possible the success of the play.

H. J. Herman, representing the Genesee Local No. 4 of the Earners' Union, and F. S. Casbolt, representing the Genesee Commercial club, Tuesday morning for Spokane, where they appeared before President Robt. E. Strahorn of the North Coast railroad, presenting him with data of the Genesee country and urging Mr. Strahorn to construct his road through this country. There is tonnage enough in the Genesee valley to make it a paying investment for two or three railroads to go after, and now that things have been started it is expected that we may know something definite of the North Coast's intentions in the very near future.

It's "going some" when you can get a lamp that burns ordinary very dry kerosene oil and yet neither smokes nor smells, and may be turned on or off like gas. But The Angle Lamp is unusual in lots of ways. Come in and look it over at Herman's.

Mr. and Mrs. A. Murphy were Moscow visitors Saturday and Sunday.

Will Burr arrived here from Spokane last Monday afternoon for a few days' visit with his parents.

Mrs. John Tracy left Tuesday morning for a visit with friends and relatives in Pullman and Spokane.

On Friday night, Feb. 24th, the Jesters will present the drama, which was given here on the 10th, at the opera house in Uniontown.

Will Roderick and Miss Mabel Goodwin, of Ogden, Utah, were united in marriage in that city on Wednesday, February 15th. Both were former residents of this city and will be remembered by many of our readers.

Mr. and Mrs. John Platt and children returned last week from a two-months' visit in the Sacramento and San Joaquin valleys in California. Mr. Platt was not very favorably impressed with the parts of California, stating that it had rained nearly every day he was there. The family will leave this week for their home in Forest.

Although a heavy snowfall covered the various parts of the Inland Empire country last Sunday, the Genesee valley got but a very small portion of it, three inches having fallen here on that date. In nearby towns, such as Tekoa, Winona, Grandville, Volmer and Neperewitz, there was a snowfall of from 8 to 14 inches, accompanied by high winds, making it one of the most severe blizzards ever known in those parts. Our heaviest fall of snow so far this year occurred on Monday night, when about 5 inches covered the ground. This snow makes a splendid blanket for the wheat, and the farmers are rejoicing over the good crop prospects.

A light that costs one-third less to burn than the old style kerosene lamp and is clean, safe and easy to handle ought to interest anyone. Go see The Angle Lamp at Herman's.

You are probably aware that pneumonia always results from a cold, but you never heard of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle? For sale by all dealers.

ROUTE NO. 1 ITEMS.

Mrs. Phoebe Wilson, who has been spending the winter in Moscow with her daughter, Mrs. Clinton Wilson, has returned home for a few weeks.

B. F. Banks, a former resident of this section, after proving up on his claim near Chelan Falls, went to Alberta and took up some land there.

Mrs. Frank Jones has recovered from her recent illness.

A Valentine party will be held at the Cow Creek school house Friday night. Everybody invited.

E. Q. Rich, formerly of this section, underwent an operation for appendicitis at the Walla Walla sanitarium recently. He is getting along nicely now.

Antone Borgen has been quite sick with lagrippe during the past week.

The members of the K. F. Lodge enjoyed a smoker and lunch in their club room last Tuesday night.

George, the little 10-months old son of Mr. and Mrs. Chas. Scholer, died last Monday night at 8 o'clock, of stomach trouble. He was buried Wednesday morning in the Odd Fellows cemetery, the funeral services having been held from the Congregational church, at 11 o'clock. Rev. G. L. Shull, officiating. The parents have the sympathy of many friends in their hour of bereavement.

An apple tree in an orchard at Moran Prairie, five miles north of Spokane, has the distinction of producing apples having neither seeds nor cores. While seedless apples are no longer uncommon, and coreless apples are occasionally heard of, yet coreless apples in general are held to be a decided freak of nature and something that apple growers have been trying to develop for years. The variety of the freak fruit is unknown and experts seem unable to classify it. It is the plan of the grower to try to develop the variety by grafting and if the experiment is successful it will represent a great triumph in apple culture, one of the great and growing industries of the west.

If you could get kerosene quality light without the trouble of the ordinary lamp would you like it? The Angle Lamp does that—and more. See it at Herman's.

LOOK BACK ONLY THREE YEARS

And recall how, in the fall of 1907, a young man, with faith in the future, struggled to induce a few business men of Moscow to help him build what was to be the Idaho National Harvester, now admitted to be the greatest piece of harvesting machinery in the world. After weeks of discouraging effort some \$12,000 was raised from the sale of stock at 25 cents on the dollar, and this was after the machine turned out in 1907 had actually harvested one hundred acres of wheat on the farm of Jerome J. Day, near Moscow. Men with money turned it down as an impractical machine, but a little handful of working people around Moscow put their few dollars of savings into this stock. The men of money and experience, except Jerome J. Day, preferred to invest in other things, including farm lands, city lots and even wireless telephone.

LOOK AT IT TODAY

Wireless promoters are being criminally prosecuted, and this stock sold by strangers, is worse than worthless; city lots and farm lands are sound and safe (at least most of them are) but where is the investment that has, since January 1, 1908, risen steadily and certainly in 36 months to an increase of 400 per cent? Palouse farm lands and there is no better, will not today bring the price paid for them in 1908, 1909 or 1910. And yet Palouse farm land is absolutely all right, and will eventually bring higher prices than it has ever sold for.

Now compare Idaho National Harvester stock with Palouse farm lands as an investment. Three years ago had a man invested \$10,000 in each he could not today get more than his money out of the land. But his \$10,000 investment in Idaho National Harvester stock is today worth \$40,000, and within a few days will be worth \$60,000.

CANNOT SELL IT

"You can't sell it," says one. Let us see. Go out today and try to sell your farm. You can't do it. There are no buyers. If you doubt this, try it. Where farms have recently sold they have not brought the purchase price of 1909. And few farms have paid interest on their value in 1910.

But the man who bought Idaho National stock can sell at a profit; and there is no trouble to convert this stock in either lands or city lots. Nor is this all. Idaho National has increased and will continue to increase more rapidly than the best farm in the Palouse or any other country.

IT CAN'T BURN UP

Here is an investment that cannot burn up, grows in value while you sleep, and within 36 months at the outside will begin paying regular dividends. A small block of this stock purchased today will make you independent tomorrow

For Three Years You Have Turned This Opportunity Down

STATE ITEMS.

The commercial club at Lewiston has decided to ask the legislature to purchase ground at Lewiston, instead of Boise, for a permanent state fair. An appropriation of \$30,000 is asked.

A new monthly magazine published in Idaho has just made its first appearance. It is called the "Illustrated Idaho," and is published in Boise. The editors and promoters of the new publication are Fred Flood and H. K. Silversmith.

Former Governor J. H. Brady has retained a property loss of \$100,000 by the floods at Pocatello which destroyed the transformer house of his power company, necessitating the blowing out of a dam in the Portneuf river before electric lights could be restored in Pocatello.

The Potlatch Lumber company's big mill at Potlatch, Idaho, is now running about 20 hours out of 24, and has good prospects for successful year ahead. Although last year was not up to expectations from a business standpoint, the coming year looks unusually bright, and it is expected that the lumber demand will exceed the supply.

Charles H. Miller has been appointed to the position of superintendent of the fish hatchery at Sandpoint by Game Warden B. R. Gray, and E. B. Matthews was named as his assistant. The hatchery has been closed since last October. Next week 500,000 brook trout eggs will be shipped to the hatchery. Thousands of native eggs will likewise be brought there. It is the purpose of Mr. Gray to keep the streams of the state stocked in the best condition to maintain the reputation of Idaho as being the sportsman's paradise of the country.

A sight that is unusual on the streets of any city in the west was witnessed in Sandpoint last week when Frank Clements of the City Stables appeared on Main and First avenues with a well trained team of deer hitched to a small hand sled. The deer were equipped with a neat set of light harness and were quite tractable, willingly obeying the master's desires as to the route to be taken. The deer was guided by tight reins attached to their halters. Mr. Clements secured the deer when they were only a few weeks old and has trained them well so that they will perform a number of tricks.

IRRIGATIONIST AT UNIVERSITY.

Mr. Frank Beach, of Idaho Falls, has come to the university to spend six weeks with the college of agriculture, teaching the principles and practice of irrigation to the students in the various agricultural courses. Mr. Beach is a graduate of the Colorado College of Agriculture, was professor of irrigation engineering in the Montana Agricultural College and has had several years practical experience in organizing and developing large irrigation enterprises in Colorado, Wyoming and Idaho.

The courses in irrigation are given to the agricultural students that they may know the general principles that govern the flow and the various methods of measuring water and particular attention will be paid to the application of the proper amounts of water to crops, and the behavior of such crops under the application of such water. Enough practical work will be given with the level and other surveying instruments that those boys who finish the agricultural course and who conduct farms of their own, or become farm managers for others, may be able to run their own farm ditches, lay out farm drains, and do other simple but necessary and extremely beneficial engineering work.

STRAHORN WILL VISIT GENESEE.

The Genesee country is soon to pass out of the domineering iron rule and will of the Northern Pacific railway is evidenced by a recent interview by representatives of the Genesee local of the Farmers' union and the Genesee Commercial club with Robert E. Strahorn, president of the North Coast railway and general manager of the Third district of the O.-W. R. & N. lines.

As told in last week's News these representatives were H. J. Herman and F. S. Casbolt, and they explained to Mr. Strahorn the advantages of his company building into Genesee, and showed him the immense tonnage of this country as well as the easy means of access his road had into here. They also explained to him how willing the farmers and business men were to co-operate in the building of his road, and asked that a representative be sent down to look over the field. Mr. Strahorn, however, was not satisfied with sending down a representative man and stated that he, himself, would come to Genesee in the near future, in the early part of spring, in fact, when the snow was off the ground and a more intelligent observation of the territory could be made.

The majority of the business men and farmers here are elated over the prospects of a competing road, and are especially pleased to learn of Mr. Strahorn's interest in this country. In explaining his idea of an extension into Genesee, Mr. Strahorn stated that he thought the most feasible route would be the extension of the present O.-W. R. & N. Colfax-Moscow line, from Moscow to Genesee and that he understood it could be practical to go either through or around the mountains. It is more than probable if the line is built it will be the extension from Moscow, cutting through the mountain and passing through Blaine and down the Cow Creek into Genesee. The territory which such a line would serve is large, and would draw tonnage from a radius of at least 8 miles on each side of the line, besides drawing an enormous amount from its terminus, Genesee. It is estimated that from Genesee alone there is over 1/2 million bushels of grain shipped annually, and to this may be added at least that much more from the districts north of here, which is now delivered to the N. P. at Joel, Howell and Troy. These figures cover the grain alone, and when one considers the enormity of the various other products of this part of Latah county, it can be easily understood that such an extension would be a paying proposition from the start.

Genesee has tried for years to get another railroad, but efforts heretofore have failed. We now probably have one of the best opportunities ever presented to us to get another road, and it is up to the business men to keep the ball rolling now that it has been started. The Farmers' union will gladly give all possible aid in securing the road, and at their meeting last Saturday the question was very enthusiastically discussed. All who are interested in the railroad question, farmers, business men and all, are urged to turn out to the Commercial club meeting in the office room north of the First Bank this (Friday) evening at 7:15 o'clock, when it will be more thoroughly discussed.

F. Waldon, one of the best known horticulturists in the northwest, has prepared the text for a booklet which the Chicago Milwaukee & St. Paul railway is distributing extensively in the east. It calls attention to the excellent chances in fruitgrowing in the northwest, particularly in that part of the country penetrated by the Milwaukee. The observations are conservative. The booklet is well illustrated with catch orchard scenes.

The Milwaukee's exhibit on its coming a four months' tour of the middle western states. Reports reaching here are to the effect that large numbers of interested farmers have inspected the exhibits and had their desires to come west whetted.

Secretary Harris, lack of outdoor exercise, insufficient mastication of food, constipation, torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

ROAD OVERSEERS HELD MEETING.

Fifty-one out of the sixty-two road supervisors in Latah county met at the court house Saturday and spent a day in the consideration of matters of interest to all who are interested in better roads. There was much discussion of the problems of road building and road repairing and a very general sentiment was expressed to the effect that it is now time to inaugurate far reaching plans for the future. Professor Little of the state university gave a most interesting and instructive discourse on the building and repairing of roads. He declared that the cost of sixteen cents per ton per mile for hauling can be reduced to ten cents. He deplored the lack of definite plans for state road work and declared that there should be a state highway commission established. He advised farmers and overseers to enter into correspondence with the Deary Clay Products company and to ascertain the cost of tiles for culverts and for similar purposes. He stated that the King split log drag was effective on our dirt roads and advised the overseers to write to the department for copies of Farmers bulletin No. 231 which has to do with road building.

George Fields spoke briefly of the good work that has been done in many districts by the supervisors and asked them as representatives of the various districts of the county to investigate the conditions of the present county road commission, urging that a new building should be built. Commissioner J. E. Hall gave some very interesting figures on the cost of the roads in the county and was given close attention by the overseers.

This is the first meeting of its kind ever held in this county and good results are expected to accrue from it.—Moscow Post.

ROOSEVELT IN MOSCOW APRIL 9TH.

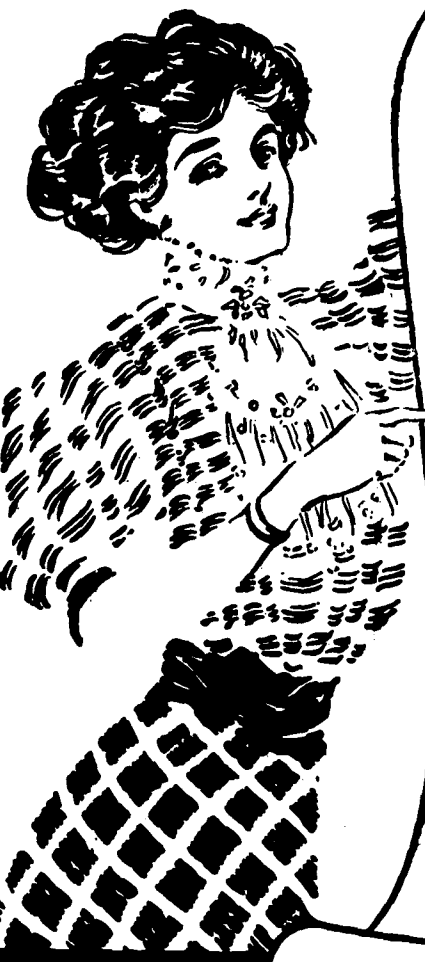

It is now practically an assured fact that Moscow and Latah county people will have the opportunity of hearing ex-president Roosevelt talk in that city on April 9th. When it was announced several weeks ago that Roosevelt was coming to Spokane to talk, business men of Moscow got together with the idea that he should be induced to come to that city while on his western trip. Inquiry showed that Senator Borah has a great deal to do with the program of the ex-president while in this part of the nation.

A letter to Mayor Byrnes from Senator Borah states that the ex-president will have a day or so at his disposal, and that he can come to Moscow provided Billings, Mont., can be reached by April 11. The president is also billed to speak in Coeur d'Alene on April 10, so that there is time for the noted American to come to Moscow on Sunday, April 9, and remain over until Monday noon, the 10th.

The matter has been taken up with the railroads and an effort will be made to secure a special train to carry the ex-president back to Spokane on Monday in time to make eastern connections with Sandpoint, where he is scheduled to speak on Monday evening. In the event of this arrangement being made it is planned to have him speak from a specially constructed stand on the University campus during Monday morning if the weather is such as to make an outdoor meeting possible. Should the weather be bad, the address will probably be delivered in the new gymnasium at the university. Moscow and Sandpoint will be the only two points in Idaho where Roosevelt will give addresses.

Mrs. Trill will clean and press your clothes at reasonable prices. Call phone No. 142.

TORTURED FOR 15 YEARS
by a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Molders, of Modderville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I do distressed me," he wrote, "till I tried Ellicott's, which worked wonders for me that I can now eat things I could not take for years. Its surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at F. E. Dicus & Co.

GENESSEE NORTH IDAHO CHAMPIONS.

Because of Rathdrum's failure to come here last Saturday to meet the Genesee high school team, the former team forfeited the game by a score of 2 to 0. This gives the Genesee boys the undisturbed title to the north Idaho championship. When called up on the phone last Saturday afternoon, after the arrival of the train, the Rathdrum boys claimed that they could not come because of failure to get games in other towns in the Palouse. This was a poor excuse, and it is taken for granted around here that the Rathdrum boys were afraid to go up against the Genesee team.

Word was also received from Spokane this week by Manager Andrew Wardrobe that that team would not be able to meet our boys. Spokane has given our team a dirty deal all around this winter, and they likewise knew that they took chances on losing their assumed prestige if they played the Genesee team on its home court. The Genesee quintet is the strongest team in the Idaho panhandle, and probably the whole state. We have been beaten but once this year, and that by the Spokane team on its coast.

Two games were played in the open house last Saturday night to ascertain the crowd which had expected to see Rathdrum beaten, one between picked sides of the business men and the other between the sophomores and seniors of the high school. The former game was characterized by very rough playing, affording considerable amusement to the side lines. The latter was won by the seniors with an overwhelming score.

BOUGHT TWO FINE STALLIONS.

Messrs. B. H. Schooler and George Pollett returned last Friday from Nebraska where they purchased two fine imported French stallion colts. The animals were shipped as far as Moscow in a special express car, Mr. Schooler accompanying them the entire distance, and were brought over here from Moscow Saturday. The animals virtually come direct from France, as they were unloaded in Lincoln, Nebraska, on Friday, Feb. 10th, and were purchased by Messrs. Schooler and Pollett the following morning. These two horses were the first to be picked from a large importation, and immediately reshipped to this point and they are probably the finest ever brought into the Genesee country.

The animals are two-year-old black Percherons, and a distinguishing feature about them is the fact that they are not fat, which is a common failing of most imported horses. They are graceful, and well built, and will develop into the finest stock we have here. The News is glad that these two gentlemen have taken an interest in getting a class of better stock into this country, and no doubt our farmers will take enough interest in these animals to see that they are not allowed to leave the country as we understand the colts are to be sold.

—Miss Anna Michaels was a visitor here from Uniontown last Tuesday to attend the wedding of her brother, Theodore.

—Mrs. Kimbrough, of Lewiston, the mother of Mrs. F. E. Lambert, was a visitor here during the past week. She returned to Lewiston Thursday morning.

—Wednesday, February 22nd, was Farmers' Union day, and in common with the locals all over the country, the members of Genesee Union, No. 4, participated in the holiday. They spent the day with a social gathering in the opera house and a big banquet in the K. of P. hall.

—A large number of the friends of John Lorang very pleasantly surprised him at his home northwest of town last Wednesday night, the occasion being his birthday anniversary. The evening was spent in card playing and music, after which Mr. Lorang talked about his trip to the old country and showed them his large collection of souvenirs which he had brought home with him. The prize, a hatchet trimmed with ribbons, was won by Miss Bertha Lorang. Mr. Lorang was presented with a fine bunch. The evening closed with a splendid luncheon.

We extend a most cordial invitation to all to attend our services. G. L. SHULL, Pastor.

SCHOOL NOTES.

At a meeting of the school board last Monday evening it was decided that the flag should float every suitable day for the remainder of this school year; it being made possible by a daring deed of a dignified senior, who climbed up the flag pole and secured the rope.

Don't forget the play which is to be given by the senior class March 17. It is a comedy drama in four acts. The class is working faithfully in order to make the play a grand success, and they cordially invite everyone to be present on that date.

Remember the big mid-winter carnival which will take place Saturday evening, Feb. 25, at the opera house for the benefit of the Genesee high school athletic club. This will be instructive as well as entertaining. You cannot afford to miss having your fortune told by Madame Spongalii and her wonderful troupe which will reveal to you things you will long remember and never regret. You also should hear Professor Kastus Johnson's noted jubilee singers, which will be very amusing. These are only some of the many attractions which will be present. You cannot afford to miss them.

The school has enjoyed the pleasure of having a number of visitors during this week, among whom were the Rev. Shull, Mrs. John Hall, Mr. and Mrs. J. T. Nelson, Mrs. C. F. Tuomy, Mrs. Henry Meyer, Mrs. J. W. Smith, Mrs. J. E. Moore and Mrs. Payne.

—Otto Stucker was a business visitor in Lewiston the fore part of this week.

—A Pre-Lenten dance will be given by Broemmeling's orchestra, at the opera house, next Monday night, February 27th.

—Mrs. Chris Steltz left Tuesday morning for Walla Walla where she will visit for a short time with her sister, Mrs. Meador.

—Mrs. Martha Heppner and little baby were Spokane passengers on Tuesday morning's train where they will visit for a few days with Mrs. Heppner's sister, Mrs. Gus Boesche.

—Mr. and Mrs. E. M. Patterson of Pullman, were visitors here last Saturday and Sunday, Mr. Patterson having conducted church services in the Christian church in the latter date.

—Seats for the Carl Grissen concert will be sold by the members of the Y. P. S. C. E. and ladies' aid society. Price of admission 50 and 35 cents; children of 12 years and under, 25 cents.

—Miss Tillie Herboth and John Busch two of the popular young people of Uniontown, were united in marriage last Tuesday by the Rev. Metz. The bride is quite well known to several of our readers and is a niece of Henry Stracker.

—Mrs. Otto Kretschmer and brother, Carl Baldus, left Tuesday morning for Tucson, Arizona, where they expect to remain several months. Carl has been in ill health for some time past and he hopes that the change of climate will be beneficial to him.

—The employees of the two local banks, the telephone office and the N. P. railway enjoyed a holiday on the 22nd, Washington's birthday.

—The following have new ads in this week's News: J. Rosenstein, Genesee Exchange Bank, Bell & Emmett and Dr. Price's Baking Powder.

—Dr. Tuomy has installed a medical device in his hospital known as the "Human Bake Oven." It is used for the treatment of rheumatism and other kindred diseases.

—Mrs. Konzeski and sister-in-law, of Walla Walla, who have been visiting relatives here for the past week, left for their home Tuesday morning.

—J. C. Hanson was a Moscow passenger on Wednesday morning's train. He and Mrs. Hanson, who has been visiting there for the past two weeks, will return home in a few days.

—While chopping wood on the Wardebe place last Monday, Horace Hill was struck with the axe, cutting a deep gash across the forehead. He was brought to town for medical attention and is doing nicely now.

—Mrs. Cook and daughter of Florida, are here visiting at the home of the former's daughter, Mrs. E. E. Oylear. They are looking for a location in the northwest and expect to leave for western Oregon and Washington in a few days.

—Mrs. May Williamson and family left Wednesday morning for Sunday, Wash., where she has purchased a 5 acre tract, and where they will hereafter make their home. Her many friends here wish her much success in her new home.

—The Carl Grissen Concert Company will give a first-class entertainment at the opera house, Friday night, March 3. Mr. Grissen is considered the most expert violinist in the northwest. Price of admission, reserved seats, 50 cents; general admission, 15 cents; children of 12 years and under, 25 cents.

—That the apples of the Genesee country are the equal of any produced, has been proven time and again, and the latest testimonial we have of our fruit is from Messrs. Geo. and Chas. Mason, of St. Peter, Minn., the two brothers of Mrs. C. F. Tuomy. Dr. and Mrs. Tuomy sent them a few boxes of apples a few weeks ago, and in speaking about them in a letter this week, Mr. Mason stated that they were finer than any apples they had seen from either the Yakima or Wenatchee countries. Genesee fruit has the size, flavor and color, and is the equal of any fruit grown in the northwest.

LOOK BACK ONLY THREE YEARS

And recall how, in the fall of 1907, a young man, with faith in the future, struggled to induce a few business men of Moscow to help him build what was to be the Idaho National Harvester, now admitted to be the greatest piece of harvesting machinery in the world. After weeks of discouraging effort some \$12,000 was raised from the sale of stock at 25 cents on the dollar, and this was after the machine turned out in 1907 had actually harvested one hundred acres of wheat on the farm of Jerome J. Day, near Moscow. Men with money turned it down as an impractical machine, but a little handful of working people around Moscow put their few dollars of savings into this stock. The men of money and experience, except Jerome J. Day, preferred to invest in other things, including farm lands, city lots and even wireless telephone.

LOOK AT IT TODAY

Wireless promoters are being criminally prosecuted, and this stock sold by strangers, is worse than worthless; city lots and farm lands are sound and safe (at least most of them are) but where is the investment that has, since January 1, 1908, risen steadily and certainly in 36 months to an increase of 400 per cent? Palouse farm lands and there is no better, will not today bring the price paid for them in 1908, 1909 or 1910. And yet Palouse farm land is absolutely all right, and will eventually bring higher prices than it has ever sold for.

Now compare Idaho National Harvester stock with Palouse farm lands as an investment. Three years ago had a man invested \$10,000 in each he could not today get more than his money out of the land. But his \$10,000 investment in Idaho National Harvester stock is today worth \$40,000, and within a few days will be worth \$60,000.

CANNOT SELL IT

"You can't sell it," says one. Let us see. Go out today and try to sell your farm. You can't do it. There are no buyers. If you doubt this, try it. Where farms have recently sold they have not brought the purchase price of 1909. And few farms have paid interest on their value in 1910.

But the man who bought Idaho National stock can sell at a profit; and there is no trouble to convert this stock in either lands or city lots. Nor is this all. Idaho National has increased and will continue to increase more rapidly than the best farm in the Palouse or any other country.

IT CAN'T BURN UP

Here is an investment that cannot burn up, grows in value while you sleep, and within 36 months at the outside will begin paying regular dividends. A small block of this stock purchased today will make you independent tomorrow.

For Three Years You Have Turned This Opportunity Down

And now you are receiving your last call from Dame Fortune. Opportunity that you have spurned has been accepted by others, and you are even now hesitating while the other fellow with more nerve and better judgment is becoming what you could have become, and may yet become—fixed for life.

DO IT NOW---TODAY

You have it in your power, now, the beginning of a New Year to answer opportunity's call. Will you do it?

STATE ITEMS.
The lower house at Boise has passed a bill making October 12, "Columbus day," a legal holiday.
The passage of the Clearwater dam bill through the legislature means the saving of millions of feet of fire killed timber along that stream. It is said if the timber is not logged this year and thrown into the river reservoirs it will be a total loss.
Z. A. Johnson, who recently completed the Nezperce & Idaho railroads between Nezperce and Vollmer, has decided to extend his electric power line from Nezperce to Illo and will furnish that town with lights when the extension is completed.
A machine for saving flour gold and for separating black sand is soon to be placed in operation in Snake river near Lewiston. The owner states the black sand is worth from \$500 to \$500 per ton and that the gold saved will run about \$2 to the yard.

FRANCS LEWISTON NORMAL.
The joint committee of the senate and house, appointed to investigate the educational institutions of the state, made a very careful investigation and as a result accorded high praise to the Lewiston State Normal. The report relative to the Lewiston normal was in part as follows:
"Your committee made a careful investigation of the needs of the Lewiston State Normal school, the character of the educational work being done and the training department, and we found that the institution at the present time is working within the provisions of its charter. Under the efficient supervision of George H. Black, president, the Lewiston State Normal school has obtained a high standing, its graduates being placed on a level with those of normal schools in other states. As to the standing of the Lewiston normal, as a state institution apart from that of a local school, we found, basing our figures on the enrollment of last semester, that the total number of students doing normal work with the intention of becoming teachers to be 377, with 32 additional students doing special work; of these 377 students, 111, or 40 per cent gave Lewiston as their home, 115, or approximately 42 per cent, reside in the state outside of Lewiston, and 51, or 18 per cent, came from other states. We recommend an appropriation for the Lewiston State Normal school of \$100,000 for the biennium."

COLLINS LOSES IN SUPREME COURT.

The supreme court has sustained Judge Wood, of Shoshone county, in the decision favorable to the defendant in the action entitled O. M. Collins vs. Wilbur R. Brown, Leonard Brown, John Trautman and T. Driscoll.

The action was instituted in Nez Perce county to foreclose a crop mortgage of \$13,091 and was transferred to Shoshone county upon an application for a change of venue filed by the plaintiff. It developed the plaintiff had leased to Wilbur and Leonard Brown, a tract of about 600 acres located between Lewiston and Uniontown and had sold livestock and machinery to operate the land. He was secured in the transaction by a crop mortgage of \$13,091 and which extended over a period of five years. It was also shown that the defendants Brown had secured from Collins a permit to sell their summer crop and mortgaged the same to Driscoll.

The decision of Judge Wood, which is now affirmed by the supreme court, is to the effect that a crop mortgage is valid where drawn before the crop is seeded in the event the mortgagee afterwards seeds the crop but is not holding on a crop seeded by an innocent third party. Judge Wood, however awarded to Mr. Collins a sum of \$1,770 representing the amount remaining unpaid to the Browns for the summer fallow.

The case aroused unusual interest because of the various actions growing out of the original contention. Mr. Collins pronounced the permit to sell the summer fallow a forgery and brought criminal proceedings against Wilbur R. Brown on a charge of forgery. He afterwards secured the arrest of Brown on a charge of selling mortgaged property and the case was tried before the district court of Nez Perce county resulting in the acquittal of the defendant.

The outcome of this case has been watched with considerable interest by parties in this section. The trial really hinged about whether or not the mortgage which Collins held could cover a crop which was afterwards planted by the third party, who in this case was John Trautman and after the original mortgage had been given. The attorneys for Collins attempted to have the present law on the subject, which was made some 15 years ago out of a case arising here at Genesee, declared unconstitutional, but the decision of the supreme court sustains the present law. The case has been in the courts for the past 15 months, having been instituted in the district court at Wallace, in December 1910.

WILL IMPROVE COUNTY ROADS.

A special meeting of the board of county commissioners was held at the court house last week for the purpose of discussing good roads, and the letting of orders for road machinery for the coming of spring work. All members of the board were present. After due consideration the board placed orders for two large graders, two small graders, three King drags, one for each commissioner's district, fifteen Fresno scrapers, seven plows.

The intention is to push the matter of improved public roads, and in harmony with this plan the famous King drags are to be tried out. Experience has demonstrated that good roads can be made and maintained by the use of these drags, which may be made at little expense. By buying one of these drags for each commissioner's district, where they may be tried out, it is hoped to stimulate an interest that will result in better highways.

WILL NOT BUILD HOTEL.

At the regular meeting of the commercial club last Friday night it was decided not to do anything further with the hotel proposition, at present, the cost having been ascertained to be anywhere from \$4,500 to \$5,500, which is probably more than the business men would be willing to contribute. Besides this, the fact that the Grand Central had been reopened was instrumental in delaying the proposition for the time being. The committee on the hotel building was discharged and the report spread on the minutes.

The report of F. S. Casebolt, who represented the club at an interview with Robert E. Strahorn, which was published in last week's News, was heard in detail, and was adopted, the secretary of the commercial club being instructed to keep in touch with Mr. Strahorn and the North Coast officials, to ascertain definitely what date Mr. Strahorn would visit Genesee. It was also suggested that the secretary ask C. E. Wood to call on that gentleman in case he should visit Spokane at some time in the near future.

A suggestion was made by F. S. Casebolt that the club make an effort to get the employees of the Spokane postoffice to make Genesee their destination for their annual outing, which is held in July. A baseball game could probably be arranged with the local team, and the business men could take a hand in helping to entertain them, as the trip will be made on Sunday. Mr. Casebolt was instructed to get into correspondence with these people and find out if they would accept an invitation from Genesee. This visit would be good advertising for Genesee and would make a pleasant trip for these employees.

On motion it was decided to hold the next meeting of the club in the dining room of the Grand Central hotel on Monday evening, March 6th, at 6:30 o'clock. All the business men and citizens of Genesee are invited to become members of the club, and those desiring to be present at next Monday's meeting will kindly leave their names with J. T. Nelson, secretary, at the First Bank, before Saturday evening so that the Grand Central management may know how many to expect for supper. More than usual interest is now being manifested in the club and what is trying to do for Genesee and it is hoped that a large number will be present at the next meeting.

PROMOTION AMENDMENT IS KILLED.

The death knell of the constitutional amendment was sounded in the senate this week, thereby banishing all hopes of the most ardent prohibitionists that they will secure statewide prohibition through an expression of the people at least within the next two years. But thirteen votes were registered for it and ten against. Three more votes or a total of 16 are required to pass it on a two-thirds vote. The case came on a motion to pass the measure under suspension of the rules and on the vote for suspension.

Senators Coste, Eckert, Harris and Whitcomb, republicans, voted against the motion. Senators Day, Fisher, Freebairn and Pugmire, democrats voted for it. Senator Ravenna MacBeth endeavored to have the resolution embodied by sending it to the committee on mines and mining but failed through the vote to suspend the rules.

The republican caucus resolution was carried out to the letter through the passage by a vote of 19 to 3, the bill being introduced by these senators opposed to the railroad commission bill and which provides for a submission to the electors of the state at the next general election to secure an expression of opinion as to whether or not Idaho should have a railroad commission. Senator Kerns, of Wallace, scored those senators who voted against the railroad commission bill, reviving the somewhat bitter feeling that has existed by declaring that the bill providing for an expression of opinion by the people in the railroad commission issue is but a "mere sop" and was only introduced and presented to the senate to ease the conscience of those senators who voted to kill the measure.

LEWIS COUNTY BILL PASSES.

The second county to be carved out of old Nez Perce is that of Lewis, which comprises that portion of Nez Perce lying south of the west-central part, and taking in the towns of Nezperce, Kamiah, Illo, Vollmer, Forest, Winchester, Rubens, Russel and Mohler. The bill passed the senate last Tuesday and was approved by the governor the following day.

The county seat of the new county will be Nezperce, the largest city in the territory cut off and will rival other cities in northern Idaho in importance. Senator Perry Mitchell of that city was instrumental in putting through the bill.

The territory included in the new county is one of the richest agriculturally in the Pacific northwest. It will be the smallest county in the state in area as well as in population. A peculiar condition of affairs will arise with the formation of this county in that there can be no state senator from the county, unless the laws are modified. The present law provides 22 senatorial districts, the last of which will be assigned to Clearwater, the new county also created out of the east portion of Nez Perce. The officers in both counties are appointed by the governor within 10 days after he signs the bills, and the new county commissioners must immediately convene and organize the new county on a business basis. The officers hold their seats until the next regular election in November, 1912.

POLITICS IN THE POST-OFFICE.

The glaring impropriety of turning over the management of the postal business of the United States to the manager of a presidential campaign, has become obvious to all men of all parties. Mr. Hitchcock, as we have always gladly admitted, could learn to manage the business of the post-office department as well as he has learned the ins and outs of party politics. He is the unhappy victim of a situation that he did not create. But it is impossible for him or any other man to serve these two divergent interests at the same time. How could any man, in so distracting a predicament, give wise thought and direction to postal affairs, or sid his mind to political motives when he has decisions to make? The scheme to penalize the magazines, though preventing to have a postal-revenue measure, has no merits whatever from the revenue standpoint. If second-class at one cent a pound is not paying enough, a very simple and obvious device would be to increase that rate by 25 per cent, or even 50 per cent. Such an increase would immediately wipe out the existing deficit, would change no relative conditions, and raise no questions in that broad, shadowy zone between newspapers and periodicals, that no man can safely allow to determine.—From "The Progress of the World," in "The American Review of Reviews" for March.

A million and a quarter—that's the appropriation made by the directors of the Union Pacific and Southern Pacific railroads recently. This huge sum, the largest ever set aside by any transportation company for advertising, is to be used in peopling the west—to fill up the fertile lands of Colorado, Wyoming, Utah, California, Nevada, Idaho, Oregon and Washington. It is the greatest development of the science of railroad building, the creating of traffic. While it is true that the railroads expect to make all of the money back, at the same time they will help to make this vast section productive. Of the appropriation, \$500,000 has been apportioned to the northwest and will be spent through the Oregon, Washington Railroad & Navigation company. The major part of the advertising is to be done through newspapers. In addition to exploiting lead opportunities, the development of industries and communities will also be fostered.

From all reports, central Oregon is going to be the scene of the greatest development this season. After many years of isolation, it has at last been unlocked, with the advent of the Oregon Trunk railroad which is a branch of the Great Northern system. The new train service started from Clarke, Washington, on March 1. Operation extends as far as Madras, Oregon, now a distance of 113 miles. Vast stretches of government land are available in the Deschutes Valley for homestead filing. People have been going in to settle on them, for the last six months, with teams.

AGED PIONEER PASSES AWAY.

After a short illness, brought on by his age, Christian Scharnhorst died at his home, 5 miles west of Genesee last Monday morning. At the time of his death the deceased was aged 76 years and 5 months. The funeral was held on Wednesday afternoon at 1 o'clock from the German Lutheran church, Rev. A. F. Wolff officiating, and interment was made in the Lutheran cemetery.

Christian Scharnhorst was one of the pioneers of the Genesee country having moved here in the fall of 1876. He was born September 20, 1834, in Germany and came to America with his parents at the age of 10 years, living in the state of Iowa until 1874. In that year he crossed the plains with a team and wagon and settled temporarily at Eugene, Oregon, for two years. He came directly from Eugene to this place in 1876, and settled on a homestead, 5 miles west of town on which place he lived to the close of his earthly career. He was married in Iowa in the year 1857 to Frederika Neubauer.

Deceased is survived by his wife and 8 children—5 daughters, Mrs. H. Nebelsieck, Mrs. Matt Carburn, Mrs. J. J. Schlegel, Mrs. Frank Slater, Mrs. Henry Herman, and 3 sons, Diederich, Fred and Charles Scharnhorst, all of whom live in Genesee and the immediate vicinity. A host of friends of the wife and children join with the News in extending heartfelt sympathies to their hour of sorrow.

MRS. THERESA JACOBS DIES.

After a lingering illness from heart trouble with which she had been ailing for the past few months, Mrs. Theresa Jacobs, a most respected resident of the Genesee Valley living 3 miles west of town, died last Friday morning at 9 o'clock. The immediate cause of her death was weakness of the lungs, brought on by gripple and a fatty heart. She had been sick in bed but one day prior to her death. The funeral services were held on Wednesday morning from the Catholic church, the Rev. Fr. Billeau conducting the last sad rites. The body was laid to rest in the Catholic cemetery. A large funeral cortege accompanied the remains to the cemetery.

Deceased, who was aged 48 years, was born at St. James, Minnesota, in September 1862, and came west in 1883 at the age of 20 years, first settling at Uniontown. She came to the farm west of Genesee in 1892, where she has since lived, her husband having died about 9 years ago.

Eleven children survive her, 5 boys, John of Tacoma, Theodore of Great Falls, Mont., Peter of Ronan, Mont., Willie and Frank, both formerly married—and six girls, Mrs. Andrew Schmidt of Lewiston, Mrs. Mary Lambert of British Columbia, Mrs. Fred Scharbach and Mrs. Sim Carrin of this city and two little girls at home, Rosa and Bertha. The sympathy of the community is extended to the bereaved ones.

On Thursday afternoon at 5 o'clock, Mr. James Niabet and Nora Alice Broberg were united in the holy bonds of matrimony at the home of the groom by the Rev. B. E. Koontz of the Moscow Methodist Episcopal church. Only immediately relatives of the families were present. An elaborate wedding dinner was held at 6 o'clock.

Mr. and Mrs. Niabet are two of the well known people of the Genesee country and will make their home on the groom's farm just east of town, where he has erected a fine new home during the past fall. The News joins with a host of friends in wishing them a happy and successful voyage through life.

—Oliver Niabet spent last Friday and Saturday with relatives in Moscow.

—Mrs. Nora Broberg returned last Thursday afternoon from an extensive visit with relatives in Wisconsin.

—Friday night, March 3, the Carl Grissen Concert company, who were secured through the ladies' aid society and Y. P. S. C. E., of the Congregational church, will give a high class entertainment, consisting of violin, piano and vocal music. It is hoped the people of Genesee will take advantage of this rare opportunity to hear some excellent music. You will not be disappointed. Price of admission, 50, 35 and 25 cents.

John W. Sirkelamuth, Greensboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

If you could get kerosene quality light without the trouble of the ordinary lamp would you like it? The Angle Lamp does that—and more. See it at Herman's.

—As soon as spring opens up the N. P. railway company will replace all ties along the Palouse and Lewiston branch with new crooked ties. These ties are now being shipped into the various stations along the line preparatory to this work. A few will also be placed on the Genesee branch, one carload having been received here to date. The ties are good for several years more than the old ones which were not treated.

—The annual inspection of the National Guard of Idaho for the year 1911, in accordance with orders from the War Department, will be made by Captain Edwin A. Lewis, 24th Infantry, U. S. A., and the itinerary covers the 10 companies in this state. The date for the inspection at Genesee is March 11th. The commanding officer of Co. H. requests that the members of the company be present for drill on Thursday, March 2, Sunday March 5, in the afternoon and Thursday, March 9th.

BENEFIT GAME CLEARS \$15.

The basket ball game given by the business men for the benefit of the high school athletic association last Wednesday night, cleared over \$15 after all expenses were paid, and that amount has been turned over to the association.

The game was well attended, and was characterized by rough playing and poor goal throwing which caused considerable excitement for the side lines. The final outcome of the game was a score of 7 to 2 in favor of the Holy Terrors. The lineup of the team was as follows:

Holy Terrors—Follett center, Cook and Emmet forwards, Whalen and Broemmeling guards.

Hotstuffs—Nelson center, Cathcart and Smolt forwards, Hall and Armstrong guards.

After the business men's game the high school gave an exhibition game, playing the members of the regular team on both sides which was captained by Gray and Wardrobe respectively. The latter team won by a score of 42 to 23.

REV. FR. BILLIAU PASSES AWAY.

After a short illness of less than a week's duration the Rev. Fr. A. M. Billiau, rector of the Genesee Catholic church, died early Thursday morning. The immediate cause of his death was pneumonia, with a complication of pleurisy and kidney trouble, and although three doctors were in attendance, they were unable to save him. The sickness first set in the latter part of last week.

Fr. Billiau was born in the Kingdom of Belgium on the 29th of March, 1863. He became a priest in 1890, his first work being in Canada. Later he was in the eastern states, and in the year 1903 he went to the Philippine Islands, where there was a demand for American priests after the Philippine insurrection. He remained in the Islands two years, being compelled to leave in 1905 as he could not stand the climate. He was stationed in Boise for two years after returning from the Philippines and in the summer of 1907 came to Genesee, where he served until the end. At the time of his death he was aged 47 years, 11 months and 14 days.

During his work here of almost four years he made a host of friends in Genesee. He was most highly esteemed and in his death, a good and sprightly man passes from our midst. All of these friends deeply mourn his loss.

A brother, who is a missionary priest in Africa, a sister, who is in a convent in Holland and an uncle, who is a priest in Canada are the direct relatives who survive him. The funeral will be held on Saturday morning at 10:30 from the Catholic church, and the remains will be interred in their last resting place in the Catholic cemetery.

Colonist day was observed in all parts of the northwest on March 5th. The governors of Washington, Oregon and Idaho issued proclamations calling on all people to write to their friends "back east," telling them of the wonderful opportunities to be found here. The railroads are offering exceptional colonist rates this year, so that annual travel is expected. But colonist day should not be limited to one day in the year. It would be well to keep on writing to friends in season and out. You're doing them a favor by bringing this part of the country to their attention.

The states of the northwest are being urged to appoint commissions to plan for their representation at the Panama-Pacific exposition which will be held in San Francisco in 1912. An official of the big fair has been in Olympia for the past week, seeking to interest Washington lawmakers. By beginning now, it is contended that things will be shape for a tangible start in the way of appropriations, by the time the next legislature meets. California was one of the first states to come to the front for the Alaska-Yukon-Pacific exposition. Hence, it is pointed out that Washington, Oregon and Idaho can do no more than reciprocate.

Geo. Carbahn and little son returned from a short visit in Spokane last Wednesday afternoon.

J. G. Wright left Tuesday morning on a week's business trip to Nezperce. He will return here next week, and expects to remain for several months.

Mrs. Mayfield and little son left Thursday morning for Uniontown where they will visit for a few days prior to going to Stites where they will join Mr. Mayfield who has recently purchased a farm in that country.

A light that costs one-third less to burn than the old style kerosene lamp and is clean, safe and easy to handle ought to interest anyone. Go see The Angle Lamp at Herman's.

ATTACKS SCHOOL PRINCIPAL. A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands have tried several kinds of rough medicine, he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

CHURCH NOTICES.

Services will be held in the Lutheran chapel on Sunday afternoon at 3 o'clock. All welcome.

REV. O. C. HELLEKSON
Bible school will held at 10 o'clock at the Church of Christ next Sunday. All children, as well as older people are invited to meet with us and take part in the new graded course which is being given.

I. C. PETERSON, Supt.
English services will be held in the German Lutheran church next Sunday morning at 10:30. Sunday school at 9:30. Luther League Sunday afternoon at 2 o'clock. English Lenten service next Wednesday evening at 7 o'clock. Everybody invited.

A. F. WOLFF, Pastor.
The theme of the sermon, at the Congregational church, next Sunday morning, will be, "New Creatures." The evening theme will be, "Our Thoughts." The topic for study, at the mid-week meeting will be, "The Bible Teaching About Meekness." Our new singing books, "Songs for the King's Business," have arrived. Let everybody come to the evening service and enjoy the new books. You are most cordially invited to attend all our services.

G. L. SHULL, Pastor.
Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Subject for morning service, "Forty Years of Insurrection." In the evening a unique service will be conducted, "The Walking Bible," and many songs and music and an old fashioned Methodist prayer meeting. Prayer meeting every Thursday at 7:30 p. m. Special music at all meetings. All are welcome.

HARRY P. NELSON, Pastor.

H. A. Morgan has been on the sick list for the past 10 days.

Rev. O. C. Hellekson returned from Boise last Monday evening.

J. H. Rader was a business visitor in Uniontown the fore part of the week.

Mayor and Mrs. W. M. Thompson have both been quite sick for the past ten days. Both are convalescent now.

Miss Mary Shull, who has been very sick and was threatened for a few days with pneumonia, is reported much better today.

Paul Cann has been confined to the house the past ten days on account of illness. Mrs. Cann has just recovered from a siege of erysipelas.

Chas. Herman, who has been working on the Uniontown Press for the past winter season, returned home Sunday, and has resumed his ranch work.

Miss Rose Harris, of Caldwell, Idaho, a sister of Miss Adelaide Harris, arrived here Wednesday afternoon for a visit at the G. L. Shull home.

Mr. and Mrs. Johnnie Bottjer arrived here last Friday from Pendery for a visit with relatives. Mr. Bottjer was recently married to Miss Beatrice Batch, of Polatch.

A fair sized house turned out to the Carl Grissen concert at the opera house last Friday night. The Congregational ladies' aid, under whose auspices the entertainment was given, realized a profit of about \$5 after defraying all expenses.

An attraction of unusual merit is to be given at the opera house on the 3rd of April, when The Palmatier Sisters, five musicians of well-known ability, are to appear here. They have visited Genesee before and pleased a large audience.

The district Sunday school convention of this district was held in the Christian church at Moscow last Thursday. Those who attended from here were: Mr. and Mrs. E. A. Hardin, Mrs. Frank Darr, Mrs. John Hall and Miss Imogene Hardcastle.

Genesee Camp No. 249, Uniontown Camp No. 248 and Johnson Camp No. 230, of the Woodmen of the World, are preparing for a big log rolling here on the 6th of April when a joint initiation will be held and a big class of newly graduated dates put through. A big social is also planned in connection with the work and such prominent men of the order as Head Manager, John Patterson, Deputy Head Counsel, D. J. Bealey and District Manager, J. H. Austin will be in attendance. The degree team of Lewiston Camp No. 205 will have the degree work in charge.

John W. Sicklefemith, Greensboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of rough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

REV. O. C. HELLEKSON.

—A large crowd of business men turned out to the Commercial club supper last Monday night. After the feed the members were entertained in the K. of P. club rooms.

—Mrs. F. S. Casbolt arrived home Sunday afternoon from a week's visit with relatives in Spokane. Her father, who has been quite sick, was somewhat improved when she left.

—R. Pickering came up from Lewiston last Friday afternoon and was visiting with friends for a few days. He is very much pleased with the Lewiston country and thinks that the orchard tracts, where he has his home, has a splendid future before it.

—The very celebrated play "Esmeralda" will be presented by the senior class of the Genesee high school, Friday evening, March 17. Everyone remember the date. This is the second copyright play ever presented in Genesee. On its first production at the Madison Square Theatre, New York, it ran 350 nights and was one of the greatest successes of the season. Come out and see the seniors behind the footlights.

—John Platt and Arthur Keane left the latter part of last week for the Salmon river country. Art will work for Mr. Platt this spring and summer. Reports from the Forest and White-bird countries state that livestock of all kinds has wintered exceptionally well in Genesee. The Wrong Way To Read

If you have to hold the print too far away to see clearly, the eyes will be strained to make out the small letters. If you have to hold it too close, the muscles of the eyes will be strained. Either way is bad.

To read small print with comfort, you should have your Optometrist carefully test your vision, and a pair of right-fitting right-seeing glasses used. REMEMBER, no matter how difficult your case may be, IF GLASSES IMPROVE YOUR VISION I CAN PRESCRIBE FOR YOU.

STATE ITEMS.

A bill signed by President Taft adds to the national forest an area of mountainous grazing land to the south of Pocatello for water supply of that city from contamination by flocks of sheep.

By resolution just filed, residents of Harrison have declared their intention of hereafter calling Harrison a city of the second class, and it will no longer be known as a village. The population is 1,000.

At Sandpoint prominent democrats say the printing plant of the Northern Idaho News, the official paper of Bonner county, has been taken over by the Bonner Publishing company, which recently filed articles of incorporation. It is claimed the transaction involves \$16,000. Don C. Moore, late of Heleus, will have charge.

If plans which are now under way materialize, the various fire fighting organizations of this state will meet in Boise within the next six or eight weeks in conjunction with the state land board, to outline plans for future activity and to discuss means of co-operation in keeping down disastrous blazes in the timber lands of Idaho.

Chiefly to eliminate the danger of fire along its route, the I. & W. N. has decided to do away with coal as fuel, and to install oil burning equipment on all of its locomotives, including the two new ones which are to be delivered by the Baldwin company this summer. The estimated cost of installing the equipment is \$50,000, says the Spirit Lake Herald.

Ed Knorr, a prominent stock buyer and leader of Idaho county has just completed an investigation of shipping means of stock from the Cassia practice during 1910 and reports 500 cars of livestock shipped from the practice over the Cassia Prairie railroad, from points between Grangeville and Steensenberg. Each car, he asserts was worth from \$1,500 to \$2,000 and at the record prices paid for cattle most of the year, it is asserted that an average each car was worth \$1,500.

Uncle Sam will go to tree planting on a big scale this spring in the way of reforestation of the great areas burned over by the forest fires last summer. Several tons of seed are stored at Wallace for the work planned this spring on the Coeur d'Alene forest. The seed is chiefly walnuts, hickory nuts and acorns shipped here from the Appalachians watershed and the government will experiment this season on growing hardwood trees in this new environment.

To pave or not to pave the streets of Moscow is to be made an issue in the city election this spring. Political lines are not to enter in the campaign, according to those who are advocating the paving of the streets. It is claimed that since Main street is paved and the government will be held in April searching for candidates in progress for the various offices, but no announcements have been made.

FARMER SORRY HE DIDN'T INVEST.
D. W. Driskel, one of the responsible farmers of Latah county, and owner of a fine farm near Moscow, recently had occasion to write a letter to his old friend, George G. Fenn of Nez Perce county. Mr. Fenn had operated one of the Idaho National combines on his farm during the season of 1910, and incidentally Mr. Driskel inquired of Mr. Fenn how he liked the new machine. Here is what Mr. Fenn wrote in reply:

"I am well satisfied with our machine. We were bothered some with the drive chain breaking. It was not heavy enough for the work it had to do. This year the company are putting on a much stronger chain. That was all the bother we had to speak of. We made an average of twelve acres a day working with it. We made a year of twenty-six days and in that time thrashed our own crop and cleared \$450 on the outside. I thought that was doing very well."

GEORGE G. FENN
Mr. Driskel, in commenting on the statement of his old friend said: "Here is the testimony of a practical farmer, who has told just what he actually knows from practical field tests and a year's experience. Our best don't doubt each proof, and while I have always felt that the Idaho National was to be a great success, I am now thoroughly convinced that the machine is today a success. The testimony of Mr. Fenn has settled the matter in my mind, and I have only one regret. I am now convinced that this great invention of shipping livestock had I bought Idaho National Harvester stock instead of mining stock. If I could get my money I would certainly buy Idaho National Harvester stock today."

Mr. Driskel, like many careful, conservative men, looked with some doubt upon the proposed harvester which its promoters were putting in the field, and during the years 1907, 1908, and even the following year, a little doubt as to the ultimate success of the new invention. This doubt kept him from investing in the stock when it was being peddled at \$2.50 and \$3 per share, and at other figures under \$10. He felt that he couldn't take the chance that was involved while the inventors were working out the invention, and the many others waited for the machine to be perfected. He has discovered, just as thousands of others have, that the day of perfection always means the loss of the opportunity to buy stock in a successful industrial invention at bottom prices, and that he has permitted a chance to make to some of an opportunity pass.

But with this enterprise the opportunity has not passed. Stock at \$10 is not high. Stock today at \$10 with a demand many times greater than the company can supply, and with the day of dividends in sight, is cheaper and a better investment that it ever was during the period of development with its uncertainty. Up to the completion of the harvest of 1910 Idaho National was an experiment and therefore a speculation; today it is a proven success, and therefore an investment.

ELBOTION PROCLAMATION.

The Jersey Separator

I have secured the agency for this machine, which is one of the popular models made by the well-known Sharples Company (manufacturers of the world-famous "Sharples Tubular") of West Chester, Pennsylvania.

The "Jersey Separator" is a disc or bucket bowl type of separator, and is guaranteed by us to be better, in every particular, than any other of its class. It will skim cleaner at full capacity, will run easier, is more simple in construction, runs with less oil, requires less attention, and is more durable than any other disc machine, no matter what the name or price may be.

PRICE, ONLY \$45

The price of "The Jersey Separator" in 500 pound capacity is only \$45 at my store. Compare this price with those of mail-order houses, and you will find that it is cheaper than you can buy of them, let alone the additional freight charges.

Speaking of the Divorce Evil

Trying to succeed in business without advertising is like the case of the man who, trying to outstep, divorced his wife and alone attempted to keep house and raise his children. It cost him more money for doctor bills and funeral expenses in a year than he gave his wife in a lifetime.

When advertising is divorced, business success becomes failure.

This paper is building your neighbor's business. He has reasons. He tried advertising and it helped him. It is not an experiment—the paper brings results. Good, bad, convincing results—*delivers.*

enforcement for the years to come. A certain amount given is necessary to pay the expenses of the state government and of the various county governments. This amount is not increased or decreased by the increase or decrease of the assessment roll of the state or of the several counties. If a man who has property of the value of \$1000 is required under the present system to pay five per cent of such valuation his taxes for the current year, the sum of \$50 so paid, will be the same sum he is compelled to pay for such purpose if such property is assessed at its real value of \$200, and all other property of the county is assessed in the same proportion, because in such event the tax rate would be one and one-fourth per cent instead of five per cent under the old system.

"This great reform, when carried out will greatly advance every man in the state interest in the state, will cause vast sums of money to be invested in enterprises within our borders, will impel thousands of emigrants each year to make their homes in our midst and will inaugurate an era of prosperity in the state that will soon make us, as of right we should be, the foremost community of the northwest. Instead then of hampering and impeding the county officers in the discharge of their duties, instead of endeavoring to secure petty advantages for individuals or localities by urging a violation of duty on the part of assessors, let each and every citizen of this state rise to the full measure of good citizenship; uphold the express intention of the state board of equalization and the efforts of the county officers, especially the assessors, in assessing all property at its full valuation; give each officer your active assistance and your support in the discharge of his duties; be ready to supply them with all required information; see to it that not only your own property is legally assessed but that others in the community are compelled to bear their full share of the public burden; place full confidence in the state board of equalization, fully supplementing the efforts of the county officers in securing a full valuation of taxable property by seeing to it that all property assessed by said board will also have placed thereon its full cash value, and thereby do your full part in assuring the future development of Idaho and the prosperity and well being of its people."

"The strict enforcement of the hitherto ignored laws of the state depends to a great extent upon the county assessors, the boards of county commissioners and the prosecuting attorneys of the several counties. If each and everyone of these officers does his full duty, this great reform will be inaugurated in its entirety during the present year. Myself as governor, and the attorney general and his assistants, will strenuously endeavor to have a strict compliance with the provisions of the law and will exercise the civil and criminal remedies provided for by statute for its enforcement. I realize, however, the difficult position that the county officers mentioned, especially the assessors, will be placed in. Property values will be increased on an average four fold in this state. Many citizens will believe at first that their taxes will be increased on account of such increase in value add, unless the matter is thoroughly understood, pressure may be brought to bear in the different localities upon the officers named, urging them to overlook the duties imposed upon them by statute and supplying reasons for such requested violations of law. Such course would only result in serious trouble for the officers without relieving the individual so arguing, because the officers composing the state board of equalization are deeply in earnest in this matter and propose the law shall be absolutely enforced in its entirety at once, and thus cause its

MUST PAY ROAD POLL TAXES IN CASH.

The road overseers of the various road districts have received the following notice from the board of county commissioners pertaining to the new law on the payment of road poll taxes:

Dear Sir: I wish to call your attention to the enactment of a law by the legislature of our state, at the session just adjourned, requiring that all road poll taxes be paid in money. The law became operative March 7th inst. I quote for your benefit sections 1 and 2 of said law.

Sec. 1. All road poll taxes levied or assessed or fixed in any manner by law, shall be paid or collected in money.

Sec. 2. No road poll tax shall hereafter be paid by the performance of labor upon the roads, bridges, aqueducts or highways of any county.

The road poll tax receipts which you have heretofore received can be utilized pursuant to the provisions of the above quoted legislative enactment by striking out the words "in work performed by" which appear on the receipts.

Under this new law it becomes very important that the receipts delivered to you be accounted for at the proper time. Any unused blank road poll tax receipts must be returned or you will be liable for the amount represented by each receipt unaccounted for.

LATAH LEGISLATORS MADE GOOD.

The Star-Mirror has nothing but praise for our returning members of both houses of the Eleventh session of the Idaho legislature. They did their duty well, and have the satisfaction of knowing that they can return home with an honest and pardonable sense of pride in their work. Placed under the necessity of accomplishing certain things, and bound by party pledges to support certain measures, they can, at the end of one of the most strenuous sessions in the history of the state, look their fellow citizens in the face without a sense of shame. They kept their pledges. They stood to a man for the things and measures the people of Latah county were vitally interested in, and through this drew forth bitter opposition from the most powerful interests in the state, Latah did suffer. The state university, always made a Latah county institution, was fairly treated; our members were accorded a respectful hearing at all times, and by their honorable bearing towards all sections of the state, exercised an influence on the members that was beneficial. They achieved honor, not alone for themselves, but for the county that had the good sense and the discriminating business judgment to elect men of their caliber and peculiar fitness.—Star-Mirror.

Commenting further on the work of James K. Bell, that paper also says, in its editorial column: "It ought to be a matter of much concern to the republican party in Latah county to know that whatever charges of platform repudiation that may be raised against the republicans of Idaho in the coming campaign, (for the party platform was not carried out), so part of it can attach to the party in this county. Representative Bell, the only republican in the legislature from Latah, stood from the opening day to the close of the session, for every measure promised in the republican party's state platform; he voted for statewide prohibition and with the state railroad commission forces at every turn. Where others stood for republican dishonor, James Bell stood for the spirit and the letter of those measures that his party, in its state platform, had given its solemn and binding word it would maintain."

—P. J. Hall visited with his parents in Uniontown last Saturday and Sunday.
—Emil Thoma has rented the James Keane ranch on the Postlath and will farm it this year.
—Mrs. Strate, the mother of Mrs. O. C. Hellekson, is very sick at her home north of town.
—James Edwards was a Moscow passenger on Sunday morning's train, returning home Tuesday afternoon.
—Mr. and Mrs. Robt. Emmett and baby went to Spokane Sunday, called there on the serious illness of Mr. Emmett's mother.
—Bert Roderick, the young son of Mr. and Mrs. E. D. Koderick, has been quite sick for the past ten days, but is now convalescent.
—A county Sunday school convention will be held at the Congregational church in Genesee on Wednesday and Thursday, March the 29th and 30th.
—Fred Morscheck, who has been visiting with relatives in New Jersey and other eastern states for the past several months, returned home last Wednesday afternoon.
—J. B. Davies arrived home last week from his winter's sojourn in California. Mr. Davies was at Long Beach the greater part of the time, and was very much pleased with that part of the golden state.
—Major Shattuck, of the 25th Infantry, United States Army, stationed at Fort Wright, Washington, was a visitor here last Saturday, inspecting the property of Company H, as well as the members of the company. His report was favorable.
—The funeral of Rev. Fr. Billiau was held Saturday morning from St. Mary's Catholic church at 10:30. Very Rev. Fr. Berthold, O. S. B., of Cottonwood, being the celebrant, assisted by Rev. Fr. Fret, of Colton, as deacon and Rev. Fr. Pecoul, of Marysville, as sub-deacon. Rev. Fr. Haegy, as master of ceremonies, and Rev. Fr. Metz, of Uniontown, assisted in the choir. The funeral discourse was delivered by Very Rev. Fr. Berthold. Interment took place in St. Mary's cemetery, attended by all the Reverend Fathers. It was one of the largest funerals ever seen here. Rev. Fr. Haegy, the trustees and congregation of St. Mary's church express their sincere appreciation to the business houses of Genesee and those closed during the funeral hour and to all who showed their sympathy in their bereavement.

—While carrying one of the fine stallion colts last Saturday, which he and B. H. Scholer recently purchased in Nebraska, the animal suddenly turned around, throwing Geo. Follett against the wall of the barn and breaking his right collar bone. The bone was immediately reset and Mr. Follett is doing nicely this week.
—House Bill No. 132 providing for the annexation of a strip of Nez Perce county to Latah county was vetoed by Governor Hawley last Saturday. This is the strip lying south of here, and it was the hopes of the friends of the city schools that it would go through the legislature, to the annexation of this district and putting School District No. 2 in better financial condition. The bill was introduced early in the session by Bell and Morgan.
—James H. Dye last week completed the sale of five shares of stock in his fine imported Shire stallion, Togo VII, to a stock company composed of John Krier, J. H. Broemmeling, Perry Shirod, Wm. Botjjer, Ernest Peterson and J. H. Dye. Togo VII is said to be one of the best imported horses in the Genesee country and was imported to America in 1907, having been purchased from E. P. Roell of Downham market, England. The young men who have formed this company have taken a step in the advancement of better horses for the Genesee country. Mr. Dye, the former owner of this splendid animal, came here from Missouri a year ago and through only a young man, had the reputation of being one of the best judges of horses in northwest Missouri, where he dealt extensively in horses. During his short acquaintance here, he has proven himself a man of good business ability as well as a thorough horseman.

—The erection of the grandstand at the new Recreation Park was started last Monday morning. The seating capacity of the new stand will be three or four times as great as the old one, and is semi-circular in form. The ball team will also purchase new uniforms for this season, and if the warm weather holds out, practice will begin at once. Genesee expects to have a winning team this year, in fact the best team in years is looked for. No definite schedule has yet been provided but games will be played with all the surrounding towns.

ATTACKS SCHOOL PRINCIPAL.
A severe attack on school principal, Chas. E. Allen, of Sylvania, Ok., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them. Only 50c at F. E. Dicuss & Co.

—The following teachers have been offered positions in the city schools for the coming school term of 1911-12, their applications having been received by the school this week: Miss Clara Kaester, who is one of the present teachers, Miss Nellie Kaester of Antway, Wisconsin, and Miss Maggie Nisbet, of this city.
—D. C. Burr received his commission as postmaster at Genesee last Tuesday, and took charge of the post office on Thursday morning. Mr. and Mrs. Owen, who have held that position in Genesee for the last fourteen years, expect to go to Spokane and Seattle within a short time, and will make their future home in the latter place. During these many years of service in Uncle Sam's employ they served the patrons of the local office without fear or favor, and administered its affairs in a business-like manner. In this time they made a host of friends, who all wish for Mr. and Mrs. Owen a life of contentment and happiness in their new home. Mr. Burr, the incoming postmaster, is a young man of ability, and the News is satisfied that he will make a splendid and capable postmaster for Genesee.

The Wrong Way To Read

If you have to hold the print too far away to see clearly, the eyes will be strained to make out the small letters. If you have to hold it too close, the muscles of the eyes will be strained. Either way is bad.

To read small print with comfort, you should have your Optometrist carefully test your vision, and a pair of right-fitting right-seeing glasses used. REMEMBER, no matter how difficult your case may be, IF GLASSES IMPROVE YOUR VISION I CAN PRESCRIBE FOR YOU.

SPRING SESSION AT NORMAL.
President Black of the Lewiston State Normal school has just announced a six weeks' session beginning April 10th. According to the new state law, just adopted by the state legislature, candidates for first, second and third grade certificates must at least have finished a six weeks' course in methods of teaching history, geography, arithmetic and English, and school law. Those already holding second or third grade certificates may renew such certificates by attending six weeks at any regular or summer session of a normal school, and receiving therein credit in two subjects. The session just announced by President Black will meet all the conditions of the new school code. No tuition fee will be charged.

At the same time a special course will be given in those subjects which are required for the coming examinations as well as a review in common school branches. Those attending this session will be exempted from examination in professional subjects.

STATE ITEMS.
A dog afflicted with rabies was killed last week at Sweetwater after it had broken loose and bitten several other dogs.

According to reports from Orofino the Spokane ball team will reach that place about March 23d and will practice there for about four weeks before the league season opens.

I. C. Hattabaugh, of Grangeville, who early in January was tendered the appointment of state insurance commissioner by Governor Hawley, succeeded in having his appointment nullified by the senate late last week just prior to adjournment, by a vote of 14 to 9.

The sundry civil bill passed by the United States congress carries the following Idaho items: For the purchase of sites and commencement of work on public buildings: Coeur d'Alene, \$20,000; Idaho Falls, \$20,000; Moscow, \$20,000; Twin Falls, site, \$10,000; Lewiston, completing building, \$20,000.

A cannery is now assured for Kendrick this year in time for harvest. The business men of Kendrick met in the club building, discussed the move and gave it their hearty endorsement. It was then taken up with the fruit growers who seeing the advantages therein, liberally subscribed and with Messrs. Hammett of Big Bear and Garby of Big Postlatch two of the largest fruit growers, at the head of the movement, the plans will be executed in the next few weeks.

The annual spring inspection of the national forests began on Tuesday. Supervisor W. G. Weigel of the Coeur d'Alene forest, accompanied by T. S. Spaulding and Billie Koch of the Lolo forest, will make a tour on snowshoes to the head of the St. Joe river and thence to Avery, covering more than 100 miles each way. Assistant District Forester F. A. Wilcox, of Missoula and Department Supervisor Roscoe Haines, of Wallace, will cover the Little North Fork territory, starting from Hayden Lake.

NOXIOUS WEED BILL IS PASSED.
There is general interest in the agricultural sections of the state over the Horriblock and Eckert noxious weed bill indorsed by the farmers' unions and the Granges of Idaho, which has been signed by Governor Hawley, notice of the attachment of his signature having been placed on the bill being transmitted to the senate.

The important sections of the bill are as follows:
Section 1. When 25 per cent of the resident freeholders residing in a regularly organized road district shall petition the board of county commissioners for the extermination of certain noxious weeds to be exterminated within the said road district, it shall be the duty of the said board of county commissioners at their first meeting after receiving said petition to use an order of the supervisor of such road district for the extermination of all such weeds as prayed for in said petition. It shall be the duty of the road overseer in charge of the road district where such petition has originated to post in three conspicuous places in said road district a copy of the order of said board of county commissioners, and serve said order on the owner of the said property if an individual, or upon the superintendent of managing agent, if a corporation, association of persons or a joint stock company.

Section 2. After receiving such petition, it shall be the duty of the board of county commissioners of every county in this state to petition to be entered of record as order declaring and specifying the kind of noxious weeds as are named in said petition to be detrimental to the agricultural interests of the road district named in such petition and by such order, shall fix the time for the destruction of such weeds and direct that notice of such action shall be given to the road supervisors of the respective districts by the county auditor—Capital News.

Good roads are of the utmost importance to every farmer, for they are his first means of reaching markets for his crops. Every pound he produces not consumed on the farm, must be hauled over the public roads. Therefore roads are an element in the economy of the farm. They determine the size of the loads hauled, the wear and tear on horses, harness and wagons, and in addition determine the periods during which the farmer may market his products. This is taking no account of the social side of the item of time; of whether the farmer can travel six miles an hour or drag through mud at the rate of two miles an hour; of whether the trip to town requires two hours or a half a day. Money spent on good roads adds to the value of every contiguous farm.—E.

The Jersey Separator

I have secured the agency for this machine, which is one of the popular models made by the well-known Sharples Company (manufacturers of the world-famous "Sharples Tubular") of West Chester, Pennsylvania.

The "Jersey Separator" is a disc or bucket bowl type of separator, and is guaranteed by us to be better, in every particular, than any other of its class. It will skim cleaner at full capacity, will run easier, is more simple in construction, runs with less oil, requires less attention, and is more durable than any other disc machine, no matter what the name or price may be.

PRICE, ONLY \$45

The price of "The Jersey Separator" in 500 pound capacity is only \$45 at my store. Compare this price with those of mail-order houses, and you will find that it is cheaper than you can buy of them, let alone the additional freight charges.

Watch my ad this spring and summer for bargains on everything in the implement line.

Speaking of the Divorce Evil

Trying to succeed in business without advertising is like the case of the man who, trying to outstep, divorced his wife and alone attempted to keep house and raise his children. It cost him more money for doctor bills and funeral expenses in a year than he gave his wife in a lifetime.

When advertising is divorced, business success becomes failure. This paper is building your neighbor's business. He has reasons. He tried advertising and it helped him. It is not an experiment—this paper brings results. Good, hard, convincing results—Adverts.

IDAHO'S AGRICULTURAL STATISTICS.

Census Director Durand issued this week the first official statement of the census bureau relative to the agricultural statistics of the state of Idaho collected at the thirteenth decennial United States census April 15 last. It is based on a preliminary comparative summary submitted to the director by Dr. LeGrand Powers, chief statistician of the division of agriculture in the bureau of the census. This summary shows, for both the census of 1910 and that of 1900, the reported total value of farm land, buildings, implements, and machinery; total acreage; improved acreage; average acres per farm; average value per acre of farm land and buildings; average value per acre of farm land alone; and the aggregate expenditure for labor and fertilizers. It also distributes the total number of farms according to color of farmer; specified character of tenure; whether held free or mortgaged by owners; and by certain acreage groups.

The director gives notice that the summary's figures are subject to revision later, owing to the fact that a number of farms whose returns are incomplete will be included in the final tables. These additions will not, in all probability, modify any of the amounts or rates contained in the present statement.

The census of agriculture was taken primarily for the purpose of obtaining an accurate inventory of all classes of farm property existing on April 15, 1910; a complete exhibit of farm operations during the year ended December 31, 1909; and a statement of the number and value of domestic animals in cities and villages on April 15, 1910.

Statements relative to acreage and yield of crops and the domestic animals of Idaho will be issued by Director Durand as soon as the tabulation of this data has been completed.

The total value of all farm land and buildings was given in 1910 as \$244,420,000, an against \$24,318,000 in 1900, an increase of \$200,102,000, or 478 per cent.

The total value of all farm land alone was reported in 1910 as \$229,346,000 compared with \$35,486,000 in 1900, a gain of \$193,860,000, or 518 per cent.

The total value of farm buildings alone was given in 1910 as \$25,074,000, an against \$6,832,000 in 1900, an increase of \$18,242,000, or 267 per cent.

DEMAND BETTER PHONE SERVICE.

At the meeting of the commercial club last Monday night, a committee of three members from the farmers' union was received to discuss the matter of better telephone service for Genesee and the surrounding country. The question was thoroughly discussed for an hour or more, and it was decided that the club was ready to take some definite action, in conjunction with the farmers in this vicinity, towards putting in an up-to-date and dependable telephone system, and a committee of three, J. N. Hasfurther, Dr. C. F. Tuomy and F. S. Casbolt, appointed to confer with Mr. Morgan, manager of the Genesee system, and so inform him, and further advise that unless he took immediate steps to better the deplorable condition of the present service, a new system would go in without further notice.

The chief complaint of the present service lies not in the prices charged, but in the service rendered. Many complain that their phones are old and out of order, the lines cross with every slight windstorm, the batteries worn out, etc., and statements were made at the meeting that there were phones on the system out of working order for weeks at a time. Most of the subscribers seem to think that Mr. Morgan has not given the attention to the system which was needed to keep it in good working order.

The kick about the poor service has been gradually breaking out, and came to a climax last week, when Mr. Morgan announced through the News that a night service would be put on April 1st, and an extra charge of 20 cents per phone per month made. The people want a night service, but certainly will not stand for the extra charge, with the phone system in its present condition, and the service which is now being given with Mr. Morgan will make a report at the next meeting, Monday night, April 3rd, and unless the present system is bettered, and that at once, the Genesee country will have another telephone company.

In the year of 1910, the Harriman lines operated 17,950 miles of railroads in the United States and Mexico without a fatal accident to a single passenger. This record is unprecedented in the railway annals of this country. The lines referred to are the Union Pacific and the Southern Pacific. This showing is the result of the general installation of block signals and safety devices. The Harriman railroads operate more miles of automatic block signals than any other road in the world. This is a record to be proud of.

TWO TICKETS IN THE FIELD.

The coming city election on Tuesday, April 4, promises to be a warmer fight than was expected by many. Since the latter part of last week two tickets have been put into the field, each with a sufficient number of signers to permit filing.

One ticket, known as the "Citizens Ticket" contains the following nominees: For mayor, E. E. Oylert; city clerk, C. F. Barr; city treasurer, E. O. Cathcart; councilmen First ward, Henry Martinson and C. R. Spurbek; councilmen Second ward, J. T. Nelson and John Meyer. No nomination was made for city engineer.

The second ticket known as the "Progressive Ticket" contains the following nominees: For mayor, F. S. Casbolt; city clerk, C. F. Barr; city treasurer, E. O. Cathcart; city engineer, no nomination; councilmen First ward, W. R. Hickman and W. J. Hermas; councilmen Second ward, R. E. Emmett and E. E. Miller.

HALVER HALVERSON.
After a short illness, of but a few days, with pneumonia, Halver Halverson, died at his home, 7 miles north of Genesee, on Wednesday afternoon, March 15th. The funeral services were held last Friday afternoon from the United Lutheran church, north of this city.

Halver Halverson was born in Stavanger, Norway, in 1856, and after moving to America, came west to the Pacific coast in 1883. In 1884, he removed to a farm north of Genesee, where he has since made his home. At the time of his death he was aged 54 years. He leaves to mourn his loss a wife and nine children besides three brothers, John Halverson, of Genesee, Andrew Halverson, of Bancroft, South Dakota, and Henry Halverson, of Canada, and a sister, Mrs. Julia Putnam, of Conning, South Dakota. The news joins with a host of friends in extending their heartfelt sympathy in their bereavement.

CARD OF THANKS.

We wish to thank our neighbors and friends who so kindly assisted us during the illness and death of our beloved husband and father.

Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Subject for morning service, "How to do Your Spring Work." Subject for evening, "Behold a Hole in the Wall." Prayer meeting every Thursday at 7:30 p. m. Special music at all services. All are welcome.

HARRY P. NELSON, Pastor.
The theme of the sermon, at the Congregational church, next Sunday morning, will be, "Ashamed of Jesus." The evening theme, "The Prayer of the Gadarenes." On account of the county Sunday school convention, the mid-week meeting, Thursday evening, will be omitted. As that meeting would have been the preparatory meeting before the communion, if any wish to unite with the church at our communion, April 2nd, they can see me about it, and I will find a time for the church to vote on the names. All are cordially invited to attend our services.

OBITUARY.
Mrs. H. P. Strate, mother of Mrs. O. C. Helleson, died at the home of her daughter on Friday evening, March 17th, at 10:30 o'clock, after a brief illness from diabetes. She was 54 years, 6 months and 17 days old. She has been ailing a little for the past six weeks but was not sick above more than 3 or 4 days.

Mrs. Strate was born in Rolag, Nummedal, Norway, August 28th, 1857, and at the age of 15 came to this country with her parents, brothers and sisters. They located at Hawley, Clay county, Minn. In 1879 she was married to Mr. H. P. Strate, of Moorhead, Minn. On the 9th of January, 1908, Mr. Strate died, and in the spring of the following year Mrs. Strate came to Genesee to make her home with her daughter and son-in-law, Mrs. and Rev. O. C. Helleson.

Mr. and Mrs. Strate were the parents of 7 children of which 4 are now dead. Of the 3 surviving children, Thom Henry lives at Minneapolis, Minn.; Bessie Mabel, wife of Rev. O. C. Helleson, and Edwin Martin who is a student at the Idaho State University. She has 2 brothers and a sister, Mrs. Bell Larson here at Genesee. Mrs. Helleson, Edwin and her sister, Mrs. Bell Larson, were present at her deathbed while Tom left Minneapolis on Thursday evening, arriving here on Sunday morning after his mother had died.

The mourning services were held at the parsonage and Our Savior's church on Monday, Rev. C. H. Nordgard, of Spokane, Wash., preaching the sermon. Many beautiful floral tokens of sympathy were offered. The remains were shipped from Moscow on Tuesday, to Moorhead, Minn., where interment will be made Friday (today) from the Lutheran church and on the family graveled beside the husband and 4 children.

Mrs. H. P. Strate was a loving and kind christian woman, a faithful wife and good mother and will long be remembered by her many friends.

We wish hereby to express our sincere thanks to our many friends who so kindly assisted us and showed us so much tender sympathy during the illness and bereavement of our dear mother, Mrs. H. P. Strate.

—Frank Terhaar and family left Wednesday morning for Cottonwood, where Mr. Terhaar has purchased a farm of 75 acres on the edge of town and will hereafter make that their home. The Terhaars have been residents of the Genesee country for many years and their many friends wish them success and prosperity in their new home.

—The assessors of the northern counties of Idaho are planning to hold a meeting at some accessible point probably Spokane, to take concerted action concerning the sweeping innovations that will be made in the work by the recent ruling of the governor and state board that all assessments shall be made on a full cash value basis. They are awaiting the official notices which are to be sent from Boise. It is thought that these notices will throw the burden of making the cash value assessment squarely upon the assessors, with no hope of shifting the responsibility.

We will be pleased if the ladies of Genesee and vicinity will consider this as an invitation to visit this department and inspect the new styles that will be so popular this spring. The showing is very complete and you may rest assured that the styles are right. Descriptions would hardly do justice to the many new style innovations, and we can assure you that a visit of inspection will be one of much pleasure to you. The many style changes and the great variety of new goods that have been brought out this spring, makes this showing of special interest, giving one a splendid idea of the season's requirements.

STATE ITEMS.

The Lewiston bank defalcation cases are being tried again this week at Boise.

Two million dollars will be spent by a big New York concern in constructing a big electric power plant at Priest Lake, in northern Idaho. They expect to develop about 30,000 horse power and the power will be conducted to Spokane and other cities.

The special election Wednesday held at Troy for the purpose of issuing bonds in the sum of \$12,000 for the installation of a water system resulted in a vote of 54 to 4 in favor of the issue. The contract will be let at once and work will soon begin.

Stockholders of the Interstate Telephone Company, Ltd., operating in the Idaho panhandle, held their annual meeting at the company's office at Spokane. The company is in flourishing condition and among the big improvements now being carried out are an \$18,000 exchange building in Palouse, and a new long distance line on which \$150,000 is being expended. This is the company which has just installed the new "girlie" automatic system in Spokane.

Under the new law passed by the legislature, authorizing the calling of a district judge to serve as temporary associate justice of the state supreme court in case one of the justices being for any reason incapacitated, Justice J. F. Altkie has written District Judge E. C. Steele asking him to serve with him and Justice Sullivan during the session of the supreme court which will convene in Lewiston on the 20th, on account of the serious sickness of Chief Justice Stewart.

The Camas Prairie is making a bid for eastern settlers this spring and representatives from both the Oregon-Washington Railway & Navigation company and the Northern Pacific met with a fair gathering of Grangeville citizens at the Commercial club rooms Wednesday night of last week and presented to them plans for advertising Idaho country with a purpose of settling on Camas Prairie a reasonable number of the homeseekers which it is known are coming to the west this season to make their homes.

It looks as if 1911 will see a large influx of new settlers in the northwest. The advance guard is now arriving, as a result of the homeseekers' rates which went into effect on all transcontinental railroads, the tenth of this month. All trains leaving Chicago, St. Paul, St. Louis and Omaha for the northwest are heavily loaded with passengers. It is expected that many will stop off in Montana and Idaho, but ultimately continue through to the coast. In inquiry among the travelers by rail road new indication that they are mostly interested in Oregon, Washington and Idaho lands.

The Northwest Development congress will be called into life in Seattle, next September. The Seattle commercial club has invited all commercial organizations in Washington, Oregon, Idaho, Montana and Wyoming to send delegates. Ways and means to promote the development of the great northwest will be considered. It is to be a mammoth booster meeting. At the same time, a carnival will be held for the entertainment of the visitors. President Telfer will be invited to make an address.

STRAW FOR HIGHWAYS.

The Post is indebted to C. J. Litch for the following interesting article concerning straw roads. The article was first published in Walla Walla and later published in a Grand Forks, North Dakota paper. There may be wisdom in its application to the Palouse.

Wheat straw will play an important part in many miles of new good roads that will soon be built throughout this county. Straw has been used for years on roads in this state and has been found to give the best results when put on wet and mixed with the soil. When spread loosely on the roads it scatters and ignites and the work of days and weeks is lost.

The newer plans are better yet for the application of straw. In the first place the roads should be plowed and graded and brought to a crown. When the road bed has been harrowed and made level the straw is put on. It is placed on the soil to a depth of six inches. A disc cutter is used to cut and mix the straw with the earth. If all the straw works into the road bed, more straw is put on, until a cushion is formed. The loose ends of the straw stick up and travel does not work the straw to the side of the road. A steam roller is then used to pack the earth and straw into a hard surface. A disc cutter is used to cut and mix the straw with the earth. If all the straw works into the road bed, more straw is put on, until a cushion is formed. The loose ends of the straw stick up and travel does not work the straw to the side of the road. A steam roller is then used to pack the earth and straw into a hard surface.

The new method of mixing straw with the soil costs more than that of merely throwing straw into the ruts, but it makes a road that will outlast even gravel and cinders. Gravel is very expensive and the cost of hauling it great. In all the lowlands and in this county straw will be used to mix the clay soil into a good road bed.—Moscow Post.

IDAHO'S LATEST ROAD LAWS.

House bill 157 is a general revision of that portion of the revised code relating, among other things, to the office of road overseers. There will be no more overseers elected, but they will be appointed by the county commissioners, and as the act is now in force the various boards throughout the state must proceed at once to make the appointments. It would appear from this that the elections held last fall are of no account. The intention is to increase the direct authority of the county commissioners.

The commissioners are specifically authorized to appoint a road supervisor for the county and to fix his compensation. He must be skilled and experienced in the building, maintenance and repairing of highways and bridges. The commissioners may appoint the county surveyors if they so determine.

A new section is introduced broadening the powers of the commissioners, the improvement of highways is specifically declared to be the established and permanent policy of the state, and the duty is imposed on county boards in their respective counties of improving and maintaining the public highways within their jurisdiction and of securing as rapidly as the public revenues will permit, the improvement of highways to roads of hard surface and properly graded and convenient for travel throughout the year. Boards of commissioners are authorized to accept contributions for road purposes, and to contract with cities or other bodies politic, for the construction of roads and division of the cost thereof.

In February of each year the commissioners shall publish a financial condition of the county in respect to highways and of their expenditures and appropriations for highway purposes, and are requested to file a report of the condition of the work, construction, maintenance and repair of the highways accompanied by a map or maps thereof and any other facts for the setting forth generally of the situation and the condition of the highways of the county.

Section 92a is amended by striking out the statutory imposition of \$1 to \$4 road poll tax, and in place thereof authority is given the commissioners to levy a road poll tax of not more than \$4. The principal amendments in regard to poll taxes are the abolition of all existing provisions for levying road poll taxes, and the new requirement that such taxes must be paid in cash. Employers must on demand of the commissioners furnish a list of all their employees and must deduct from the wages or salary of any person employed for more than two weeks in any one year the amount of any road poll tax. Failure to do makes the employer liable in double the amount of the tax. A tax receipt showing the payment of one road poll tax exempts the holder from the payment of any other road poll tax anywhere within the state for that year.

Under the new law the commissioners may levy as high as \$1 on each \$100 for road purposes. Previously the maximum was 60 cents. Section 901 permits a levy of a special property tax of not more than \$1 on the hundred on property outside of incorporated cities and villages, but this tax must also be paid in cash. In running water across the road the bridge, pipe or culvert must be constructed under the direction of the road overseer; and no material other than metal or concrete may be used without written permission of the commissioners.

There are also provisions for issuing bonds for road purposes, and for the creation of highway districts in which each district may have complete jurisdiction of its own highways through a set of three commissioners, serving without salaries. This board has all the power and jurisdiction over roads in their respective districts that county commissioners have.

THEODORE ROOSEVELT AT MOSCOW.

One of the few universities in the west on the calling list of Theodore Roosevelt in his present western trip is the University of Idaho and elaborate preparations are being made to give him a very favorable impression of the institution. A faculty committee and a committee of the Moscow commercial club have practically completed all the arrangements for entertaining the famous visitor.

According to the schedule, ex-President Roosevelt will arrive in Moscow, Sunday, April 9th. Special arrangements have been made with the Inland Electric company for its finest special car in which the Roosevelt party will come from Spokane. A special train will carry the party back to Spokane in time to leave for Missoula, Montana, at two o'clock Monday afternoon.

A troop of horsemen dressed as rough riders will welcome Colonel Roosevelt at the station and escort him to the Moscow Hotel. Mr. Roosevelt has requested that no plans be made for a public reception or address Sunday evening as he will not arrive until late and will need a rest Monday morning a battalion breakfast will be served, the cadets who had planned to start Sunday for their annual encampment being held over till Monday. It is not certain that Mrs. Roosevelt and daughter Ethel will come to Moscow, but plans are being made for their entertainment at a domestic Science luncheon if they should come. If possible the party will be given a ride over the surrounding farm lands but since they must leave about 10:30 this plan may have to be given up.

Mr. Roosevelt will speak at nine o'clock Monday morning on the campus of the university. The reception committee has chosen the tennis court and the adjacent slope as the place for an outdoor address if the weather permits. He will probably speak from a huge pile of Palouse wheat as a platform. In case of bad weather he will speak in Lewis Hall, the new gymnasium, which will accommodate several thousand people.

Agent W. E. Smith of the Genesee station has taken up the matter of securing a special train for the Genesee branch on Monday, April 10th, with the Northern Pacific officials, and Genesee people, as well as those of the other branch points may have an opportunity to go to Moscow and back the same day, if the people here will take enough interest in this event to pay the railroad company for operating a special train.

The "Polmatier Sisters" have never failed to "make good." They have the confidence of the public. They always give their patrons a grand treat, and this has given them many friends and boosters throughout the country. At the opera house next Monday night. Mrs. Trail will clean and press your clothes at reasonable prices. Call phone No. 142.

TEACHERS MEETING IN SPOKANE.

The Country Life Commission and The Inland Empire Teachers' association will meet in joint session at Spokane, April 6th, 7th and 8th.

A round table conference will be one of the special features, for the general discussion of "The School Curriculum and its Adaptability to Life and Living." One hundred farmers, business men, mechanics, and laborers have been invited to join with educators in this conference.

The main speakers during the three day session will be James L. Hughes, Toronto, Canada, W. H. Weir, New York City, A. P. Hollis, Valley City, North Dakota, Samuel Stern recently from China, and Colonel Theodore Roosevelt who is making a tour of the west.

The general public are cordially invited to attend, and membership to the association may be had for fifty cents which will admit the holder to all lectures free.

The Spokane city schools and the normal department of the Academy of Holy Names will be open to visiting teachers, and all are invited to visit during the forenoon period Thursday and Friday the 6th and 7th. Secure a directory at "headquarters." Special rates on the certificate plan given by all railroads in Washington, Oregon, Montana and Idaho.

The session rooms of the Grangeville high school remained vacant this week as a result of the clash between the students and the school board over the removal of Miss McCutcheon, one of the high school teachers. Out of a total enrollment of sixty pupils, but four were in attendance last Monday.

FIFTEEN-YEAR-OLD GIRL DIES.

Anna Eikum, the fifteen-year old daughter of Mr. and Mrs. A. J. Eikum, died at 4:30 o'clock last Wednesday morning, March 29th, of brain fever, after a very short illness of less than five days. She first took sick last Friday evening, and had attended school on that day. She died at the home of I. C. Peterson, where she was staying while attending the Genesee schools.

She was born near Genesee on the 5th of May, 1895, and has lived here all of her life. The funeral services will be held from the Norwegian church, north of Genesee, this (Friday) morning, and the services will be conducted by the Rev. O. C. Hellekson. Interment will be in the Lutheran graveyard cemetery north of Genesee. The members of the eighth grade, her classmates in the city schools, will attend the funeral in a body.

Deceased leaves to mourn her loss a mother, father, five sisters, Syneve, Marie, Agnes, Christine, Ruth, all of Genesee and two brothers, Hans, of Genesee and John of St. Maries. The family joins with many friends in extending sympathy to the bereaved family in their hour of sorrow.

—Miss Mollie Keane was a visitor in Colton last Saturday.

—J. H. Brakebill was a business visitor to branch line points last Friday.

—Orie Kretschmer and Miss Nellie Baldus were Colton visitors between trains last Sunday.

—Miss Smith, of Palouse, is visiting here this week at the John Vandenberg and Nate Edwards homes.

—Mrs. J. L. Conant and daughter, Mrs. Asbury, and Mrs. F. D. Hasbrook returned to Troy last Monday morning.

—About 20 delegates to the county Sunday school convention, held here Wednesday and Thursday, were arrivals on Wednesday's train.

—L. T. Babcock, superintendent of the Genesee city schools for the term 1911-12 Miss Olive Larabee has accepted the second and third grade rooms for the same term.

—Geo. Teglund arrived here Tuesday afternoon from Tacoma, where he and Mrs. Teglund have been spending the winter. He will remain here for several weeks assisting his sons in their farm work. He states that both he and Mrs. Teglund like the Sound country very well.

—Although the Genesee country experienced a slight touch of winter the latter part of last week, the change was of short duration, and spring seems here to stay. Automobile owners have been getting out their cars for the past ten days, as the roads are now in fairly good condition. It is expected that there will be several new cars in and about Genesee this year.

—Traveling Passenger Agent A. J. Jordan of the Northern Pacific Railway, was a business visitor here last Wednesday morning in connection with running a special train from Genesee to Moscow on Monday morning, April 10th, to hear the address of ex-President Roosevelt. He further states that he will give the Genesee branch a special train if Genesee can get 100 people to go there, and besides that will make a special rate of \$1.40 for the round trip. Mr. Jordan states that the train would leave Genesee on the morning of the 10th at 6 o'clock and arrive in Moscow about 8:15. Mr. Roosevelt's address will be made at 9 o'clock and will take about an hour's time, he being scheduled to leave Moscow at 10:30 o'clock. The cars of the special train from the Genesee branch, returning home, will be attached to the regular train leaving Moscow at 10:40 and will be brought into Genesee on the regular afternoon train at 1:30. Thus the time taken for the trip virtually amounts to half a day. Those desiring to go are requested to phone or leave their names at the Genesee News office or the First Bank of Genesee, today, (Friday) as Mr. Jordan must be informed tomorrow morning as to whether we can get the required number. This will probably be the last opportunity we will have of hearing this famous man, and the very low rate of \$1.40 for the round trip, and the little amount of time required should be an incentive for at least 100 people going from Genesee.

—Born, a baby boy to Mr. and Mrs. Peter Casper, Thursday, March 23rd.

—Chas. Jain and daughters were Moscow visitors last Saturday and Sunday.

—Mrs. Wm. McMahon, who was visiting relatives here last week, returned to her home in Pullman Monday morning.

—George Gardner, a brother-in-law of E. E. Oylear, who has been visiting here for some time, left Sunday morning for Spokane.

—J. A. Nisbet returned Monday afternoon from a several days' business trip to Bossburg and other northeast Washington cities.

—E. A. Harden, assistant cashier of the First Bank was quite sick with lagrippe the fore part of the week. He is convalescing now, and able to be at his work.

—James Lewis has sold his interest in the dray business here and will leave, with his family, about the 10th of April for Unionville, Mo., where he and his brothers will farm a 700-acre ranch belonging to their father.

—W. N. Gibb, who returned last week from his winter's sojourn in California, has been quite sick with lagrippe since arriving home. Although he has been able for the past two days his condition is somewhat improved now.

—Rev. O. C. Hellekson was a visitor in Clarkston and Winchester last Sunday, conducting church services at the former place in the morning and at the latter place in the evening. He reports that the big lumber mill at Winchester will resume sawing in a few days.

—It is seldom that one has the opportunity of hearing such talented artists as the five Polmatar sisters, each one of them a specialist in the part she takes. If you want to forget your troubles and enjoy a real musical treat for two hours, come to the opera house next Monday night at 8 o'clock.

—County Assessor E. J. Gemmill sent out notices this week to the taxpayers of Latah county informing them that their assessed valuation had been increased 300 percent of the original amount assessed at this time or three weeks ago. This is in line with Governor Hawley's order that hereafter all assessors must take full valuations. This order is being carried out in every county of the state and while the figures seem large, the levy will be correspondingly much lower, and in the aggregate the taxpayers will not have to pay any more than under the old system.

ATTACKS SCHOOL PRINCIPAL.

A severe attack on school principal, Chas. H. Allen, of Sylvan, Ok., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them. Only 50c at F. E. Dicus & Co.

If you have trouble in getting rid of your cold you may know that you are not treating it properly. There is no reason why a cold should hang on for weeks and it will not if you take Chamberlain's Cough Remedy. For sale by all dealers.

The New Spring Styles

The First Showing of the NEW SPRING MODES in Suits, Coats and Jackets is now being made at FOLLETT'S, in their Ladies' Furnishing Department. We will be pleased if the ladies of Genesee and vicinity will consider this as an invitation to visit this department and inspect the new styles that will be so popular this spring. The showing is very complete and you may rest assured that the styles are right. Descriptions would hardly do justice to the many new style innovations, and we can assure you that a visit of inspection will be one of much pleasure to you. The many style changes and the great variety of new goods that have been brought out this spring, makes this showing of special interest, giving one a splendid idea of the season's requirements.

HELLEKSON EXPLAINS VOTE.

Genesee, Idaho, March 24, 1911.

Editor Genesee News,

Genesee, Idaho.

Dear Sir: Kindly accept the following into your honorable paper:

In the Spokesman-Review of recent date dated Boise, Idaho, Feb. 11, we read as follows:

"In the house today the first test vote was taken on the proposed constitutional amendment prohibiting the manufacture and sale of intoxicating beverages. The vote was 11 to 10 in favor of the amendment. While the pending motion favoring the measure was carried, the vote shows that the friends of the amendment lack 11 votes of having enough to submit the amendment so far as the house is concerned. The majority of the committee in favor of the resolution, Hutton of Shoshone county submitted a minority report and the vote was taken upon adopting this minority report, which would have killed the resolution. It was saved from death by a vote of 24 to 29 on roll call and the majority report was then adopted which sends the resolution to the general committee in line for final action early next week. The vote: Ayes—Bradford, Caesar, Danning, Reckles, Featherstone, Friend, Hamer, Hill, Holmberg, Hutton, Jayne, Jensen, Johnson, Kirby, Leaf, McCabe, Nelson, Parker, Sorenson, Stephens, Strade, Walker, Wilson and Wood. Nays—Alfred, Baldrige, Bell, Berry, Black, Bower, Bradley, Burrell, Crow, Davis, Edington, Elmes, Farmin, Hellekson, Hendricks, Hyde, Jacobs, Johnston, Nelson, Nihart, Oakes, Pincock, Sanborn, Taylor, Terrill, Thompson, Warnick, the speaker."

Because my name here is recorded, so, some have inferred that I have voted unfavorable to statewide prohibition of intoxicating liquors. The above article does not state that nor is it the truth. The House Joint Resolution providing for a constitutional amendment prohibiting the manufacture and sale of intoxicating beverages within the state of Idaho was referred to the Privileges and Elections committee of which I had the honor of being a member. In this committee we sought to obtain a unanimous report in favor of the resolution but were unable to do so. A majority report, signed by Bradley, Johnston, Jones, Thompson, Hendricks and Hellekson, was handed in recommending that the resolution do pass. A minority report, signed by Hutton, recommended that it do not pass. It was then moved and seconded that the majority report be adopted. As a substitute for this motion it was moved and seconded that the minority report, i. e. that it do not pass, be adopted. A vote was then taken on the adoption of the minority report. The question virtually being: Shall statewide prohibition be killed, all friends of prohibition voted no, I among them. The vote on this motion stood 24 for and 29 against and thus the resolution was saved from death by those who voted in the negative. When the resolution then in due order came on third reading and final passage I voted yes, to be sure. Who would believe it, anyway, that the preacher-legislator voted yes? I devoted much time in the interest of "dry" legislation and, though we did not get all we wanted, some very gratifying results were obtained.

Yours very respectfully,

OSCAR C. HELLEKSON.

GENESEITE LIKES HAWAIIAN ISLANDS.

Stanford Evans, who recently went to the Hawaiian Islands from Southern California, for his health, seems to be well pleased in his new location and has written the following letter to his son, Edgar, which will interest our readers:

Honolulu, H. I., March 16, 1911.
My Dear Edgar: Your letter and M's received and I was glad to hear from you. You, no doubt, have my letter that I wrote from the hospital by this time. I stayed there a week and then came to the place where I am now. I have two nice rooms here and am enjoying life immensely.

The doctor says that it is simply a case of grippe and overworked nerves. Rest and quiet is the cure, he says, and I am certainly going to get that here. I cannot tell you how fine the climate is, but it beats California all to pieces. Doors and windows are wide open day and night, children go barefooted on Christmas day as well as the fourth of July.

Not much fruit here, save tropical kinds, such as bananas, mangoes, papaya, pineapples, etc. I can only tell you about the climate now, because I have been feeling too weak and sick to go out. I just lay around on the porch all day. It is yet too early to say whether I should like to stay here always, yet I do like the climate and know that it would be the making of me, if I could have a little place here. If my Lemon Grove home were only here now, I would be contented. The thing is that it seems so far away from all you folks, but the people tell me that everyone feels that way at first, and that if I went back to California I would not be satisfied until I got back here again. I guess that it will be best to let things take their course, and shall try to enjoy the next few months here, and if I am well by that time I shall know what to do.

It costs more to live here than on the coast, and you cannot get everything as you can there. People, however, are very friendly, and easy to get along with.

Homes here do not have heating stoves at any time of the year, and cooking stoves are heated with gas. I have had to take off all my winter underwear. Nearly all the men wear white suits and hats. Guess I will have to get one. People here live out on their porches the year round—at all meals on them, even breakfast at 6 a. m. in December.

There was a very heavy rainstorm last night, lasting about one-half hour; then the moon came out. It was a pretty picture to see it shining through the cocoa-nut trees.

When I get out to see the rice fields and sugar plantations, I will have lots to write you concerning the islands and natives which are called

A Gift on a Birthday.

Means more to the person who gets it than a gift at Christmas time; for Christmas is everybody's day, while the birthday is her's, or his, very own. The beautiful custom of remembering birthdays with gifts has not received the attention in Genesee which is given to it in other places. And yet our people are not lacking in sentiment, and surely not in filial, paternal, and maternal love.

There is no greater compliment can be paid than the remembrance of a birthday by a gift. Each one of the family, in turn, should be thus remembered on the annual recurrence of this most important day in the year to that person. And the dear friend outside the family should be similarly remembered. Who'll begin? Who'll start this beautiful fashion in Genesee? And you can feel sure the gift will be just right if you get it at

WILL RUN SPECIAL TRAIN.

The Northern Pacific officials have announced that the Genesee branch will run a special train to Moscow on next Monday morning, April 10th, to hear the address of ex-President Roosevelt. A special rate of \$1.40 has been made for the round trip and tickets are good returning the following day. The train will leave Genesee at 6 a. m., and arrive in Pullman about 7:30 a. m., where special cars from that city will be added. It is due to arrive in Moscow at 8:15 a. m. Returning, these special cars will be added to the regular train, northbound, leaving Moscow at 10:40 a. m., and the cars from the Genesee branch will be brought down on the regular afternoon train, arriving here at 1:30 p. m.

Eighty seven from here have signified their intention of hearing the famous ex-president, and since the school board has decided to close the city schools on that date, this number will be swelled to more than 100.

Mr. Roosevelt's address will be given at the U. of I. campus, at 9 o'clock Monday morning, and will be delivered from a pile of wheat of sacks, the largest that any president has ever stood on. "Today" has the same of going after big things, and Moscow is going to give him a big thing to speak from.

A committee of three has been selected from here to join the reception committee to Mr. Roosevelt in Spokane, and escort him to Moscow. These are H. W. Brane, president, and J. T. Nelson, secretary, of the commercial club, and Mayor W. M. Thompson. Besides these Hon. O. C. Hellekson and Hon. J. K. Bell of the state legislature are members of this reception committee.

The theme of the sermon, at the Congregational church, next Sunday morning, will be "Being with Jesus." The evening theme, "Learning of Christ." The topic for study at the mid-week meeting will be, "The Bible Teaching About the Use of Intoxicating Liquor." The annual offering for ministerial relief will be taken Sunday. We extend a most cordial invitation to all to attend our services.

G. L. SHULL, Pastor.

Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Prayer meeting on Thursday at 7:30 p. m. Rev. A. L. Thoroughman, the presiding elder of the Spokane district, will preach both morning and evening, and will hold the third quarterly meeting at 7:30 p. m. on Saturday. Communion service on Sunday morning. Special music at all services. All are welcome.

HARRY P. NELSON, Pastor.

SELL FINE PERCHERON STALLION.
Follett and Scholer last week, sold one of the two fine imported Percheron stallion colts, which they recently had shipped into Genesee, to Mr. Julius Geise, one of the wealthiest farmers of Pix Ridge, 10 miles east of Genesee, on the state of Idaho. The animal being \$7,000. Mr. Geise purchased the animal within three hours after he had seen him, concluding that it would be impossible for him to get a better horse anywhere in the northwest. The price of \$7,000 paid for the animal was a very reasonable one when it is considered that this is undoubtedly one of the best three-year old colts ever brought into Latah county or the state of Idaho.

In writing to a party here at Genesee, regarding these animals, Prof. W. L. Carlyle, dean and director of the Idaho State College of Agriculture and Experiment Station, Moscow, says:

"Will say that a week or two ago I had occasion to visit the barns of Messrs. Follett and Scholer in Genesee, Idaho, and had the pleasure of inspecting their new importation of Percheron horses. I was very much pleased with the individuals that these gentlemen have had the enterprise to bring into this country. We have had an over-supply of the colts from the east in the breeding horses that have been brought into our immediate section of the west.

The two black Percheron colts this firm has recently brought to our county are certainly excellent representations of the breed. They have all the essentials of the best type of the draft horse, and one of them in particular I consider as good a type of this breed as I have seen in the state. He is thin in flesh at present, but that is to his advantage rather than to his discredit; has good feet, clean flat legs, good deep heavily muscled body with short back, long quarters, good smooth heavily muscled shoulders and a good neck and head. Barring a little dishing motion in his action in front, there are very few things to criticize about him. If this horse is maintained in this district, he should be productive of a great deal of good, and I only wish that more such horses were brought into the country.

The other black colt exceeds the one mentioned in quality a trifle, but is not of quite so good a draft type, somewhat shorter in his quarters, of equally good depth, and quite as compact; may not develop into quite as heavy and drafty a type of animal as I do not have the opportunity of inspecting the Belgian colt outside of his box stall, but from what I saw of him there, I was very favorably impressed indeed.

This firm of importers are certainly to be commended for their selections. They have looked for quality of bone, tendon, good feet, good legs, and have not given so much attention to a surplus of fat. I am very glad indeed to give this testimony of these horses.

Very truly yours,
W. L. CARLYLE,
Dean of Agriculture."

—J. Rosenstein was a Uniontown visitor between trains last Sunday.

—J. O. Wright was a business visitor in Ho for several days during the past week.

—Miss Jane Brennan came over from Uniontown Sunday to visit for a few days with friends and relatives.

Always something a little better, always something a little different and always something new, at OLSON'S.

—Miss Hattie Linn, of Stites, Idaho, was an arrival here last Sunday afternoon and is visiting at the John Acrea home.

—Mrs. Bert Cook, who was a neighbor of the Nisbet family in Wisconsin, several year ago, was here from Malden, Wash., last week visiting at the Nisbet home.

—C. F. Burr was a Spokane visitor the latter part of last week, where he spent two or three days with his sister, of Illinois, who passed through Spokane enroute to the coast.

—Mr. and Mrs. A. N. Long, who were former residents of this city, arrived here from Spokane last Saturday afternoon for a visit with G. L. Shull and family and other friends.

—Misses Kate and Alice Tobin left Thursday morning for Fincher Creek, Alberta, Canada, where Mr. Tobin has a 12-mile piece of construction work for the Canadian Pacific Railway.

—E. O. Cathcart and C. L. Jain have been selected as representatives from the Genesee Lodge (Star No. 5) Knights of Pathias, to attend the grand lodge sessions of this state to be held at Sandpoint in the second week in June.

—The Genesee high school baseball team will meet the Caldwell high school team on the new ball field here tomorrow, (Saturday) April 8th. The Caldwell team is a very strong one, and a good game is expected. There will be an admission charge of 25 cents. Game called at 2:30 o'clock.

—Rev. Fr. Haegy has been assigned to the position of rector of St. Mary's Catholic church of this city, which position was recently made vacant by the death of the Rev. Fr. Billau. No appointment has as yet been made to fill Fr. Haegy's place in the Thorn Creek church.

—The Genesee country experienced quite a snowfall last Monday night and Tuesday morning, a white blanket covering the ground to a depth of 3 inches. The snow was wet, and melted rapidly and will be of material benefit to the crops. Farmers here say that the grain is looking fine, and although it is not nearly so far advanced as it was last year at this time, prospects are for a better crop than that of 1910.

—Maud Saxton, who has been employed as a domestic at the James Tobin home north of town, attempted to pass a forged check for \$30 at Follett's store, Wednesday. After purchasing a small bill of goods she presented Mr. Jackson with a check for \$30 on the Genesee Exchange Bank, made payable to herself and to which she had forged the name of Mrs. Tobin. Jackson was dubious about the genuineness of the check and immediately took it to the bank, where he found it was no good. He returned to the store in time to get back the goods which the woman had purchased. She also stole a check which Mr. Tobin had written to a party here for an amount of over \$100, and which he had not missed until the bank called up regarding the other check. Joe Tobin and Marshal Fitz succeeded in getting this check from her before she got out of town. She left on Wednesday's freight for parts unknown.

The New Spring Styles

The First Showing of the NEW SPRING MODES in Suits, Coats and Jackets is now being made at FOLLETT'S, in their Ladies' Furnishing Department. We will be pleased if the ladies of Genesee and vicinity will consider this as an invitation to visit this department and inspect the new styles that will be so popular this spring. The showing is very complete and you may rest assured that the styles are right. Descriptions would hardly do justice to the many new style innovations, and we can assure you that a visit of inspection will be one of much pleasure to you. The many style changes and the great variety of new goods that have been brought out this spring, makes this showing of special interest, giving one a splendid idea of the season's requirements.

FACTS ABOUT HOME TRADING.

W. J. Pilkington, a well known Iowa journalist, writing in the Merchants Trade Journal, says: "It cannot be denied that if all goods were bought by mail there would be no town to keep up the values of farm land. There would be no schools, no churches, no places of amusement, and the value of all the surrounding land would deteriorate in price.

So far as profits are concerned, none can contend that the mail-order houses do not make enormous profits. Think of it! Sears Roebuck & Co. and Montgomery Ward & Co. have piled up millions. It has been stated that their families are the most extravagant ones in the city of Chicago.

Now, there is one other thing that it seems to me ought to be taken into consideration. The more we can keep money at home the better it is for all of us. Every dollar sent outside for goods that should be bought in this state either by the farmer or by the merchant, takes an extraordinary effort to get it back in here again. Did you ever stop to think that there are just two ways in which to get money which has left your community back into it? One is to borrow it and pay interest on it, and the other is to produce something that someone in the east must have, and in that way the money is returned.

You and I and all of us "holier" our hands off because the east, in a financial way, has its hands on our throat all the time. Why is it? Just simply because we send our money there. We send it for life insurance; we send it there for fire insurance; we send it there for goods of all kinds, instead of keeping our money at home.

If all of us would patronize the fire and life insurance companies of our own state, we would take millions of dollars away from the east every year. If we would buy goods at home, both the farmers and merchants, all we could of them, we would build up our own states so rapidly that we would astonish ourselves.

It is not generally known that the land in Massachusetts, Connecticut, New Hampshire, Maine and a large part of Pennsylvania and New York and the Virginia, is practically worthless! For instance, Massachusetts, which is covered with factories, has in it thousands upon thousands of acres that would not raise a stalk of grain in a thousand years. If it won't raise anything. And yet you and I, by sending our money east, have made Massachusetts what it is.

Why not turn around and make our own states and cities instead of building up the east? Why not look out for our interests at home instead of looking out for someone else's? You can bet your boots that the people in the east, catalogue houses, manufacturers, and all don't care a boot for you and me. They are looking out for themselves and we ought to do the same thing.

TOGO VII, 9288

COLOR: Brown Bay REGISTER NO. 983

Togo VII, 9288 was transferred from E. P. Randolph 12 Hanover square, London, England to Charles R. Kirk, Chariton, Iowa, one of the most noted importers of our U. S., and was brought to Genesee, Idaho by James H. Dye. He is now owned by a company of six of the most prosperous and enterprising young farmers of the Palouse Country, composed of the following members: J. H. Dye, J. P. Krier, Wm. Bottjer, J. H. Broemmeling, P. A. Shirrod and E. R. Peterson.

Togo VII is considered one of the best draft horses ever brought over the waters. He is six years old, dark brown bay, with two white hind feet and short blaze on forehead. He weighs 2030 pounds in breeding condition, and has the color, size, quality, large flat bone, fine style, good action and a disposition that cannot be excelled. He is a perfect draft horse in every respect.

Togo VII will make the season of 1911, beginning March 25th, as follows:

SUNDAYS—At Ernest Petersons, Cow Creek

MONDAYS—At Jas. H. Dye's, Brichons Ranch

TUESDAYS—At Wm. Bottjer's, Thorn Creek

WEDNESDAYS—At Krier and Broemmeling's one mile west

THURSDAYS—At P. A. Shirrod's, on the Reservation

FRIDAYS and SATURDAY—At Hickman's Barn

ROOSEVELT GIVEN GREAT RECEPTION.

Last Monday was "Roosevelt Day" for the state of Idaho, and Idaho did her duty well. At no time during the ex-president's entire trip has more enthusiasm been shown than the ovation given him when he arrived in Moscow last Sunday evening at 7:30 on a special train over the Inland Empire system.

As soon as the special reached the Inland depot he was transferred to an automobile and with Governor Hawley of Idaho and ex-Governor McConnell taken to the Hotel Moscow. The streets were so densely packed with people it was with difficulty the automobile could find its way to the hotel.

At the depot a corps of cadets from the state university were present to act as escort, and at the hotel another division was stationed.

The colonel upon reaching the hotel immediately went to his room, but at 7 o'clock appeared on the stairway in the lobby on his way to dinner. He stopped for a brief minute to say a few words to the crowd that occupied every available foot of space in the lobby. He was in exceptionally cheerful mood and had the warmest and most friendly words for the women and children, and the pretty Idaho girls. He said that 35 years ago he had visited Idaho when he was a cowboy in the Wyoming country and had always felt a keen interest in this commonwealth and her people.

At the dinner table with Colonel Roosevelt were Governor Hawley, ex-Governor McConnell, President McLean of the State University, President Black of the Lewiston State Normal school, William Dwyer of the Potlatch Lumber company and ex-Senator Heifield of Lewiston. Discussion throughout the meal was of extremely informal nature, and in the course of it Colonel Roosevelt and Dr. McLean exchanged some views on the works of Kipling.

At the close of the dinner the colonel immediately retired to his apartments for the night. As early as seven o'clock Monday morning crowds began to arrive from all directions from the country tributary to Moscow. In spite of the rain and sleet that were prevalent during the early morning the number of eager people did not diminish.

Beginning at eight o'clock people began to assemble at the university campus, where seats had been prepared, but owing to the uncertain condition of the weather it was not known whether he would address the people from the stack of wheat sacks prepared for him at the entrance of the administration building or in the gymnasium. The matter of location was left entirely to Mr. Roosevelt's preference, and the large gymnasium was early crowded with people who were of the opinion he would prefer in-door speaking.

At 8:30 o'clock, however, the clouds lifted, and the atmosphere cleared which assured the throngs that he would speak from the outside stand.

As the large clock in the administration building announced the hour of nine, President McLean introduced Governor J. H. Hawley who in turn in a short address of welcome introduced Theodore Roosevelt. Shouts and cheers from the 15,000 assembled listeners pierced the air for several minutes, immediately after which the cadet band played the patriotic air "The Star Spangled Banner."

After a few remarks dwelling upon his appreciation for the magnificent welcome which the people of Idaho had accorded him he told of his former visit to the west, and particularly to Spokane and Sandpoint. He also related how twenty-six years before he had come to Idaho with a pack train. He stated that it was with keen interest that he came to Moscow for he always made it a point to visit state universities, as it is from these institutions that the leaders in the next fifty years will spring. He dwelt upon the numerous changes which have taken place in the past fifty years and told of the extreme importance of securing leaders to cope with the questions of national importance that will face this government during the next fifty years. He said: "Citizens of the commonwealth, we have now passed the pioneer stage of the progress of this country. There are many natural resources not yet developed. We have now to thoroughly

inform ourselves to these new conditions of development.

In the past pioneers cleared their land and burned the timber with but little thought and precaution as to the welfare of the future generations. We have now to regulate and control the usage of our natural resources so that they will not diminish in value for the inheritance of our children. The farmer who wants to clear his land without a thought as to the future is a poor citizen. We should use every endeavor to utilize our resources and at the same time use them in such a manner that will not cause their total destruction."

He then spoke of the wonderful future of the country and the immense crops grown from the rich fertile lands. He also added that from present appearances one of the chief crops and one he liked to see best was the "baby crop."

"The west is leading the east in the matter of resources but," he said, "Remember that in making progress it is essential to make it cautiously. If you go forward be sure you go straight and not to one side. Go on with the progressive movement; but be careful. Do not hesitate to make progress but do it in the right way and do not let the ardent reformer go too fast."

"I believe emphatically in the election of United States senators by popular election and have no patience with those who say not, and give as their adverse reason that senators should not be elected in this manner because our forefathers did not incorporate it in the constitution. The trend of the times demands it."

Back to educational lines, Mr. Roosevelt said: "Idaho will demand like all other states, the highest grade of efficiency in men for public service and consequently demand the highest type of men. Efficiency is the keynote of men in public and private life. The times demand university training; train to make the best of your chosen work. You must produce a certain percentage of scholars who can do these things. If not it shows that a state has not obtained the highest efficiency."

In closing Mr. Roosevelt said that he wished to congratulate the university of Idaho, faculty and regents on the special efforts being made to attain that efficiency. He also said although he enjoyed the football and social activities of the college he did not wish to see them supersede the primary duty of the college, training along intellectual lines. He added: "I have talked longer than I had expected, and in closing will say that I have sincerely appreciated your hospitality and to this I bid you all good bye, men, women, and small folks."

At the close of this speech the shouts and cheers from the congregation thronged rang in the air for several minutes. The party then proceeded to the side entrance of the administration building and while going to a waiting automobile, many snapshots of the ex-president were obtained. Amid the cheers of thousands he was then taken to the Inland Empire station and at 10:30 o'clock left for his return trip to Spokane which place he reached at 1:30, departing at 2 p. m. for Sandpoint.

A Gift on a Birthday.

Means more to the person who gets it than a gift at Christmas time; for Christmas is everybody's day, while the birthday is her's, or his, very own. The beautiful custom of remembering birthdays with gifts has not received the attention in Genesee which is given to it in other places. And yet our people are not lacking in sentiment, and surely not in filial, paternal, and maternal love.

There is no greater compliment can be paid than the remembrance of a birthday by a gift. Each one of the family, in turn, should be thus remembered on the annual recurrence of this most important day in the year to that person. And the dear friend outside the family should be similarly remembered. Who'll begin? Who'll start this beautiful fashion in Genesee? And you can feel the gift will be just right if you get it at

CLEANING UP TIME.

Now is the time to make a start to clean up around the home and the alleys, where all kinds of rubbish has accumulated during the winter months. It is also the time to plan and prepare for the flower and vegetable garden, the grading and seeding of lawns; the planting of fruit and shade trees and shrubs. A well kept lawn is not only a source of pride to its owner, but a pleasure to the public. A lawn is a very attractive feature, and in this country, a luxury within the reach of every household; all that it takes being a few cents invested in clover and grass seeds and a liberal use of the spade and rake. Nature will do the rest and the keen pleasure and satisfaction one feels in watching the results is in itself reward enough for the time and money expended.

The mayor has set Monday, April 24th, as a general clean-up day, when wagons will be furnished by the city to haul away the trash. Our citizens should take enough pride in our town to carry out the spirit and letter of the mayor's order, which will be found in another column of this paper.

JULIETTA 11, GENESEE 10.

In the game with Julietta last Sunday, played on the Julietta grounds, the Genesee boys were defeated by a score of 11 to 10. The batteries for Julietta were Hampton and Jones and for Genesee, Albert Gray, Halverson and Smolt.

Although our boys were able to bat Hampton almost at will, they played a very poor game in the field, which resulted in Julietta's victory. Next Sunday, Uniontown will play here instead of Pullman, and an interesting game is expected. On Sunday the 23rd, Julietta plays here, and on the 30th Genesee plays at Uniontown. Pullman will come here on May 7th.

—Chas. McDonald, an attorney of Lewiston, chief state deputy of the order of Knights of Columbus, addressed the local lodge here in the Odd Fellows hall last Sunday afternoon. An organization will be initiated into it. Visitors are expected from several surrounding towns.

I. C. PETERSON, Supt.

Services will be held next Sunday, April 16th, at the 1st Methodist Episcopal church as follows: Sunday school at 10 a. m. Teaching service at 11 a. m., subject, "Easter." Epworth League at 6:45 p. m. Preaching service at 7:30 p. m., subject, "Taking the Initiative." All services held in the Nisbet hall. Everybody welcome.

CHAS. D. FLETCHER, Pastor.

Easter will be observed, at the Congregational church, next Sunday, with an Easter sermon at the morning service, and an Easter service by the Sunday school, in the evening. On account of so many of the Endeavorers being on the program for the evening, the Y. P. S. C. E. meeting will be omitted. The topic for study, at the mid-week meeting, will be, "The Bible Teaching About the Duties of Christians to Each Other." We most cordially invite all to attend our services.

G. L. SMULL, Pastor.

Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 7:30 p. m. Sunday school at 10 a. m. and Epworth League 6:30 p. m. Prayer meeting on Thursday at 7:30 p. m. There will be special Easter service at 11 a. m., subject, "Why Seek Ye the Living Among the Dead." Subject for evening, "The Governor that Signed a Pardon with His Own Blood." Special music at all services. Collection will be taken Sunday morning for our mission work. Come one and all.

NOT MUCH WHEAT LEFT.

From the best figures available, it can be said that the farmers of the Pacific Northwest are now holding not to exceed 10 per cent of the crop, or between 4,000,000 and 5,000,000 bushels of wheat, says the Portland, Oregonian.

In the past month, or since the Japanese demand for wheat first developed, there has been a steady selling movement. At no time has there been any great activity, the lots changing hands generally being small in size, but the aggregate proves to have been very substantial, and the reserves have melted away in a manner that has surprised the grain trade, now that the smallness of the available stocks is known.

From 15 to 20 per cent of the crop remains in all hands—farmers, millers and dealers—in the three states. As for the supply in dealers' and millers' hands it is probable it will all go out in the way of flour or wheat before the season ends. The exact amount of wheat held at tidewater points is not known, but it is not believed to be large. The Puget Sound docks and warehouses are not holding much and the supply held by Portland dealers is rather small.

As the farmers are not holding over 5,000,000 bushels at present, it can be seen that the statistical position of the northwestern market is a strong one. Not all the wheat that is left will be marketed, no matter what the prevailing prices may be. The northwestern farmers, generally carry over into every new crop from 5,000,000 to 10,000,000 bushels. Allowing that they will take only half of their present holdings into the new season, it will be seen that a very small supply will be available for regular trades requirements from now on.

California will no doubt be the principal buyer during the remainder of the season, and the orders from that state should make a large hole in the supply that is left over. Some of the well posted dealers declare that the demand from Japan for wheat has been satisfied. It is said also that new orders are being placed for export flour. It is known, however, that certain of the mills which accepted flour orders sometime ago, are still skimming around the country trying to buy the necessary wheat. In view of the situation as disclosed, it certainly looks as if the farmers who are still holding their grain are in the saddle and can come near naming what prices they please.

COST OF BAD ROADS.

That the United States suffers a direct loss of \$40,000,000 annually on account of incorrect and inadequate methods in the construction, maintenance and administration of public roads, is the assertion of L. W. Page, director of the United States office of public roads and president of the new American Association for Highway Improvement.

This enormous loss is nothing compared with the indirect loss, through excessive cost of transportation, which is caused by the burden which bad roads impose upon the farmers and others who use the highways, and this amount, according to Mr. Page's report reaches the impressive total of \$25,000,000 every year. The American farmer is paying two or three times as much to get his products to market as the man who tills the ground in Europe, and this added cost of transportation is known to be an important factor in the high cost of living problem.

France is said to use her fine system of roads just about one and one-third times as much as her railroads for transportation, whereas, in this country, the public roads are so poorly maintained and administered, as a whole, that the highways carry only much produce as the railroads. Road experts say conditions here and abroad are almost exactly reversed, due entirely to bad roads.

Director Page has described the conditions of the roads of the United States, in making an announcement that the American Association of Highway Improvement has opened offices in Washington. The organization of the association followed a conference several weeks ago of some of the leading road engineers of the country, the presidents of five of the large railroad systems, and representatives of automobile manufacturers and publishing interests.

The principal work ahead is to correlate and harmonize efforts of all existing organizations working for road improvement, to get uniform road legislation in every state, and to seek continuous and systematic maintenance of all roads. Information on every phase of the good road movement will be furnished to road engineers, state officials and organizations requesting it.—Walla Walla Bulletin.

PLANS FOR NEW COURTHOUSE.

L. R. Stritecky, a Spokane architect, was a Moscow visitor this week. He came here for the purpose of conferring with the board of county commissioners relative to a new court house. A set of plans were submitted and will be placed on exhibition where the people may inspect them. It has so far cost the county nothing for this work, the firm of Stritecky & Rooney preparing them with the understanding that the county is under no obligation to use them. If they should happen to be accepted Latah county will have the most beautiful court house in Idaho, and yet one that is not expensive.

It would require a block of ground to accommodate the proposed buildings, which include the main structure with a large jail and heating plant in the rear. Ample vault room is provided for every department, also plenty of room for the transaction of all public business. The vaults will be of the most modern construction, absolutely fire proof, and make impossible the destruction of public property. The court room and necessary rooms for attorneys, jury and witnesses, are convenient, affording every accommodation for the prompt and efficient dispatch of business.

The estimated cost of the court house and jail is \$125,000, and will give Latah county a set of buildings that will not be outgrown by the time they are paid for. The present old shack illustrates this point. It will be a court house that will amply repay the cost of its construction, and of such architectural beauty that no citizen of the county will feel the need of making apology when forced to mention the subject in the presence of visitor.—Star-Mirror.

GENESEE WINS HARD FIGHT GAME.

In a game full of hits and errors, in which neither side could claim victory before its finish, Genesee, by a lucky ninth-inning rally, defeated the Uniontown baseball team here last Sunday by a score of 11 to 10.

The day was anything but ideal for a ball game, the wind and dust being responsible for the greater part of the errors. There was a good crowd out at the start at 2:30, but the dust was too much for the greater part of them, and only a few of the most rabid fans stayed out the entire nine innings, which required almost 2 1/2 hours to play.

Genesee started in with a rush, Cook driving out a safe hit on the first ball thrown. In this inning the home boys tallied twice. Uniontown failed to score until the fourth inning when one run was made, while in the fifth they ran in four men, due to Genesee's errors, which tied the score. The score was again tied in the eighth inning, at that time being 9 to 9. In this inning Uniontown replaced Komenda with John Myers, and although our boys were unable to find him in that inning, in the ninth, after Uniontown had added another score, Albert Gray, Will Gray, Smolt and Vandenberg made four hits in rapid succession, bringing in two runs and making the final score 11 to 10.

The score by innings was as follows:
 Genesee . . . 2 0 1 1 3 1 0 2—11
 Uniontown . . . 0 0 1 4 0 2 2 1—10
 Batteries—Uniontown: Komenda, Myers, and Schweene. Genesee: Halverson and Smolt. Umpire, L. C. Cook. Time of game, 2 hours and 20 minutes.

COMMISSIONERS HOP FOR OVERSEERS.

County Auditor Homer E. Estes, has sent the following notice to the road overseers of various Latah county districts, the changes therein made being in compliance with the laws passed by the recent session of the legislature.

Dear Sir: The recent legislature enacted legislation relating to the highways which has made it necessary for the board of commissioners to rescind its order, made at the January session and to make new orders in conformity with and pursuant to said legislation.

The new law requires that road overseers be appointed and in conformity therewith you are hereby notified of your appointment by the board as road overseer of road district No. —. You will herewith find blank bond and official oath which you will execute and forthwith return for approval by the board at this session.

The road poll tax has been fixed at \$5.00 and is payable in money only and collected by you from persons liable therefor within your district, and turned into the county treasurer through the auditor's office with your monthly report. You can use receipts in your possession by changing the amount.

The board has rescinded its action made at the January session, levying a special property road tax of 5 mills, as this levy, according to the new law, must be made at the time the other levies for state and county purposes are made, and in order that the district shall get the benefit of this levy, must be made upon petition of the taxpayers within the district. You will this year not receive the usual supplies for the collection of the special property road tax as this tax, when levied, must be collected as other taxes are collected.

The law requires that each overseer must, within twenty days after his qualification, deliver to the clerk of the board a list of residents of his district liable for road poll tax.

If any further information is required, write this office.

Yours very truly,
 HOMER E. ESTES, Clerk.

WILL HAVE STOCK SHOW.

At the regular meeting of the commercial club held last Monday night, it was decided that the success of last year's horse show warranted putting on another show this year. The date has been set for Wednesday, June 14th. No committees were appointed to get up the show, but a special meeting will be held next Monday night, for the purpose of going into more details.

The regular election of officers was also held, the following being elected for the year: President, F. S. Casebolt; vice president, C. L. Jain; secretary, J. T. Nelson; treasurer, D. B. Barr; and executive committee, C. Driscoll, C. E. Wood and J. K. Bell. All the members are urged to be on to the special meeting next Monday evening, to assist in the arrangements for the horse show, which the club intends to make even better this year than last.

EDWARDS-MCCRACKEN.

A very pretty wedding was solemnized here last Tuesday evening at the home of Mr. and Mrs. Nathan Edwards when their son James W. and Miss Addie McCracken were united in the holy bonds of matrimony. The wedding ceremony was performed by Rev. Harry P. Nelson of the First Methodist church, and over fifty friends of the bride and groom were in attendance. The home was very tastefully decorated for the occasion, and an elaborate wedding dinner followed the ceremony.

Mr. and Mrs. Edwards are two very estimable young people and are both well known to our readers. They have the sincere wish of many friends that their wedded life may be one of happiness and success. They will make their home with the groom's parents at the time being.

WOMEN MUST PAY THE ROAD TAX.

The general road law passed by the eleven sessions of the Idaho legislature contains a "joker," according to George W. Suppiger, county attorney, which it is claimed, will require all "adult" women as well as aged cripples to pay a road poll tax. Section 94 of house bill No. 357, and which is now the law in Idaho, reads: "The board of county commissioners may, in its discretion, levy a road poll tax for the highway purposes of the county upon each adult person within the county, including persons within unincorporated cities, towns and villages, such road poll tax to be of such amount as may be fixed by the board, not exceeding \$4, to be paid into the road fund of the county."

The act also repeals all acts and parts of acts in conflict with this act, which would do away with the exemptions that have heretofore been recognized as not including women, old soldiers, firemen and others. "No adult person is exempt if the new law is enforced," says Attorney Suppiger.

—Don't forget that next Monday is clean-up-day. Have all your trash in cans or boxes at convenient places in the alleys where it can be removed by the dray.

—The high school track team left for Lewiston yesterday afternoon to participate in the track meet there today. This (Friday) afternoon the baseball team will go to Clarkston, where they play that team tomorrow. Next week the team will make an extensive trip over the Nez Perce prairie playing with the Neperce, Caledonia, Cottonwood, Lapwai and Grandville high school teams.

—Mrs. Ed. Roderick went to Troy last Sunday, where she visited with her folks for several days this week.
—Rev. Fr. Haegy, Dr. C. F. Tuom and Henry Martinson were business visitors at the county seat last Monday.

—Messrs. T. Driscoll, H. A. Morgan, Wm. Sault and Dr. W. H. Ehlen were business visitors in Troy yesterday driving over in the doctor's automobile.
—Several local Sunday school workers will attend the Inland Empire Sunday school convention which will be held in Spokane, next week, Tuesday, Wednesday and Thursday.
—Messrs. Leo Miller and Fred Brazier last week purchased the Brady farm on the Little Lost Lake, 12 miles east of town. The farm contains 120 acres and the consideration was \$7000.
—The Genesee baseball team will meet the Julietts team here, next Sunday, April 23rd. This is the only team that has defeated Genesee, the far this year, and the game promises to be an interesting one. The game will be called promptly at 2:30 o'clock Sunday, April 30th, a return game will be played with Uniontown at the place.

—Mrs. E. Sanford was a visitor from Pullman a few days last week returning Saturday morning. Where she disposed of her residence property in Old Town to Mrs. M. O. S-erson, mother of Mrs. M. Nordby, for a consideration of \$550. Mrs. Sanford left Tuesday on a two month's visit with relatives in Minnesota and other eastern states.
—A burglar entered the room in the Grand Central hotel occupied by Miss Zoe Ireland, a waitress, last Thursday night, and stole a suit case containing articles of clothing, a gold watch and \$15 in cash. He was first seen by little Ethel Healey, who gave the alarm, but was too frightened to give a good description of the robber, except that he was masked. The robber evidently made a quick getaway after the girl had seen him, and in running through the hotel yard cut open the suit case and scattered its contents. The watch was found in various parts of the yard and restored to their owner. No trace of the burglar has been found yet.

—John L. Klapp of the Lewiston Orchard Tract was a visitor here last Monday. He states that while some of the earlier fruits, such as peaches, cherries, apricots, etc., were pretty well frozen out, he expects a fairly good crop of apples, and later fruits. Reports from all parts of the Snake river valley, from Lewiston down, seem to indicate that there was a general freezeout, with some prospects of a light crop.

A Gift on a Birthday.

Means more to the person who gets it than a gift at Christmas time; for Christmas is everybody's day, while the birthday is her's, or his, very own. The beautiful custom of remembering birthdays with gifts has not received the attention in Genesee which is given to it in other places. And yet our people are not lacking in sentiment, and surely not in filial, paternal, and maternal love.

There is no greater compliment can be paid than the remembrance of a birthday by a gift. Each one of the family, in turn, should be thus remembered on the annual recurrence of this most important day in the year to that person. And the dear friend outside the family should be similarly remembered. Who'll begin? Who'll start this beautiful fashion in Genesee? And you can feel sure the gift will be just right if you get it at

THE TARIFF ON CANADIAN LUMBER.

The proposed legislation presented to the reciprocity agreement with Canada puts rough lumber on the free list. The present law taxes it \$1.25 a thousand feet; the Dingley law taxed it \$1. On planed lumber, however, the proposed law retains charges ranging from 50 cents a thousand for lumber planed on one side to \$1.50 for lumber planed on both sides. All these rates, except the 50 cents for rough lumber planed on one side, exceed the whole cost of planing. For lumber planed on four sides, the duty may be two or three times the whole cost of planing.

Shingles were taxed 30 cents a thousand by the Dingley act, but were raised to 50 cents by the present law. The proposed law reduces the shingle rate to 20 cents, the Dingley rate. Lath paid 25 cents a thousand under the Dingley act; they pay 30 cents at present; the proposed law puts them at 20 cents.

Telephone poles, pickets, and staves pay 10 per cent at present. The proposed law puts them on the free list.

While the present law reduced the Dingley rates on sawed lumber, the change in the quantity imported was not great. Imports of sawed lumber were 1,008,993,000 feet in 1906, 766,877,000 in 1908, and 950,459,000 in 1910. The latter quantity is about a per cent of the quantity sawed in the United States.

The three factors that have been chiefly responsible for the waning of our forests have been: (1) The discriminating tariff schedules on lumber; (2) the timber land laws and the method of their administration; and (3) the burdensome taxation of standing timber by states and counties. And if these factors are not eliminated, they will certainly result in the entire destruction of our forests.

Each year that passes without the application of efficient measures of conservation will make it more difficult to provide for a future timber supply. The single object of our lumber tariffs and forest administration hitherto seems to have been to secure the lowest possible prices for lumber, without regard to the questions of economy, the future welfare of the public, or the equitable treatment of those engaged in the lumber industry.—From the American Review of Reviews for April.

—From all parts of the northwest come reports of bumper crops in prospect this year. The Big Bend wheat country expects to break all past records. The fruit sections look for materially enlarged outputs in apples. Soft fruits also promise well. On the west side of the mountain, there is every reason to count on a horn of plenty being realized. To be able to handle this increased yield, all railroads are planning to add to their rolling stock. Financial conditions continue to improve in the face of all these bright prospects.

Catching Mrs. Jones

If Mrs. Jones buys her coffee at Smith's each week—
If the coffee in your store is better than Smith's and cheaper—
Why, TELL MRS. JONES!
Don't dash wildly across the street to tell her, though; she'd laugh at you. Insert a sane, forceful advertisement in this paper about your coffee.
We'll catch her eye by making your ad attractive. Then all that is left for you to do is to take in the money for the coffee Mrs. Jones buys.

WILL MAKE LOANS TO FARMERS.

The state land board will use every endeavor to assist the farmers of the state of Idaho and is prepared to make loans on improved farm lands at six per cent interest per annum and Register N. Jenness, of the state land board, has just sent out communications relative to the subject.

The object of the state in loaning its surplus funds is to encourage the development of the lands of the state and to give the residents an opportunity of securing a loan at a low rate of interest. The letter sent out to the farmers to applicants for loans is to prevent agents from securing a bonus or a commission from the borrower for attending to the work of securing the loan especially when the borrower may accomplish this through correspondence himself and without the assistance of an outsider.

The work along this line in the northern district of the state comes under the jurisdiction of W. E. Dugger, state land agent, whose headquarters are in Lewiston. Under the law the county treasurer has also authority to receive applications for loans. The following instructions accompany Mr. Jenness' letter, who is recorder of the state land board, for the application of these loans:

"Send to register of state land board for blank application.

"Carefully fill in the application, certify to it before a notary public and return to the register.

"The register will submit it to the land board and notify you as soon as action is taken thereon. If you do not hear from him as soon as you expected you will know your application has not been acted upon by the board.

As soon as the loan is authorized the state land commissioner will approve the land and make his report to the register.

"When the applicant has been notified that his application has been passed upon favorably he should have an abstract of title prepared. The abstract must show clear title. The state accepts first mortgages only.

"Final certificates or other evidence of ownership, except warranty deed or United States patent, do not constitute such title as will be required by the state. See that the abstract is brought down to date and shows good title before sending it in. Much delay is caused by sending imperfect or incomplete abstracts.

"The state makes loans of from one to five years with interest at 6 per cent, payable semi-annually. Interest payments are payable January 1st and July 1st of each year.

"When a loan is made near an interest payment date, the first coupon may be made payable at the next succeeding date. For example, when a loan is made in December the first interest coupon should be made payable July 1, with interest computed to that date. This will make the last interest payment payable when the note is due.

"The state loans up to one third of the appraised valuation of the land exclusive of improvements. Papers must all be complete in the register's office before money will be sent.

"The applicant must pay the expenses of the appraiser except railroad fare.

"It is not necessary to hire agents or pay agents' commissions to look after loans pending before the state land board."

SUPERINTENDENT EXPLAINS CODE.

Miss Grace Shepherd, state superintendent of public instruction, who was in Lewiston last week in attendance as a member of the board of trustees of the Lewiston State Normal school, gave out the following interview, relative to the certification of teachers. Speaking of the changes made by the new school code, she said:

"Under the provisions of the new school code passed by the last legislature several changes were made in the school law relative to the certification of teachers. Every applicant for third grade certificate must not only pass a satisfactory examination in the common school branches, the manual for the elementary courses of study of the schools of Idaho, and the elementary of agriculture, but must also have attended a professional school for teachers for at least six weeks and therein received credit in the following subjects: The school law of Idaho, school management and methods of teaching reading, languages, arithmetic history and geography. This provision of the school code, however, relative to attendance at a professional school for teachers does not apply to persons who have taught for eight months successfully, prior to July 1st, 1911. Furthermore, a third grade certificate may be renewed if the holder shall, during the time for which the certificate is valid, attend a professional school for teachers, for a period of not less than six weeks, receiving credit in school in at least two subjects.

"Applicants for second grade certificates shall have taught successfully in the public schools for at least eight months and must have passed a satisfactory examination in all branches required for a third grade certificate and in addition, in Physical Geography, American Literature, English Composition, and cataloging and use of school libraries. A second grade certificate may be renewed without examination provided the holder thereof has taught for two years during the life of such certificate and has attended a professional school for teachers for at least six weeks and received credit in at least two subjects.

"Those applying for first grade certificates must have taught successfully for at least eight months in the public schools and shall pass a satisfactory examination in all branches required for second grade certificates and in addition English literature, principles of teaching, algebra, physics or botany, and mediaeval and modern or English history. The county superintendent may transfer the status of second grade certificate in force to a first grade certificate if the holder of such second grade certificate has taught a school successfully for eight months and has attended, since receiving such second grade certificates, a professional school for teachers for at least six weeks and received credit in at least two subjects.

"The new school code creates a summer normal school commission consisting of the state superintendent and the principals of the state normal schools at Lewiston and Albion, which commission was authorized to establish three summer schools this summer. This year the summer normals will be held at Boise, Pocatello and one in the north, either at Coeur d'Alene or Sandpoint. The length of the term will be six weeks. The subjects of instruction will be those usually given at summer normal sessions, that is principles of education, and all other subjects upon which applicants are required to write in the county and state examinations. Due credit will be given for work satisfactorily completed. Those having immediate charge of the summer normal sessions this year are Mr. S. W. Brown, of Lewiston Normal School, for the North Idaho summer normal, Superintendent Meek of Boise, in Boise, and Mr. Miles Reed, of Pocatello."

The Milwaukee railroad announces that it will inaugurate its through passenger trains from Chicago to Paget Sound May 28. This will be an important event in the entire northwest, marking one more means of transportation to bring in newcomers and help the work of building up the country. The westbound train will be known as the Olympic Limited, while that leaving Seattle will be the Columbian Limited. The equipment for this service represents an investment of \$2,000,000.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from leaf sugar, and the root used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

Because of a misunderstanding in the first half of the fifth inning of the Julianna-Genesee baseball game last Sunday, when the Julianna boys were at the bat, the latter team refused to abide by a decision of Umpire Cook, and walked off the field, thus forfeiting the game to Genesee by a score of 9 to 0. The cause of the controversy arose from a muffed ball by First-baseman Vandenburg, and Hampton of the Julianna team went on to second base, claiming he was entitled to the base on a blocked ball, although he was put out by Gray several feet from the base. In reality the ball was not blocked. The ball thrown to Vandenburg was high, but he practically stopped it with his glove, however, muffed the ball, but running back in time to get it, and threw the base runner out on second.

Up to this inning Genesee had by far the best of the game, batting Robinson at will, and having scored four runs against Julianna's one. Halverson pitched a splendid game for Genesee, holding the visitors down to but two safe hits. The consensus of opinion here is that the Julianna boys were in the wrong, and in fact, several of their players wanted to finish out the game.

In order to give all those who paid to see last Sunday's game, an opportunity to receive full value for their money, the Genesee ball team will lead a professional school for teachers, for a period of not less than six weeks, receiving credit in school in at least two subjects.

On May 14th the team will play with Clarkston on the latter's field.

LOGGE ORGANIZED LAST SUNDAY.

Genesee Council of the Knights of Columbus was organized here last Sunday afternoon in the Odd Fellows hall, and over 30 candidates from Genesee and the surrounding country were initiated into the order. The initiation was conducted by state deputy, Chas. L. McDonald assisted in the degree work by teams from the Lewiston council and the Moscow council, the former team putting on the first degree work and the latter team the second degree.

There were present for the occasion about 40 visitors from many outside places, including Spokane, Lewiston, Uniontown, Cottonwood, Moscow and Pullman. In the morning at 10:30 o'clock Rev. Fr. Haegy of St. Mary's church talked to the candidates as well as the visitors on the "Purposes and Benefits of the Order." Following the initiation work, which required from 8 a. m. until 10 p. m. to put through, the members went to the armory where an elaborate banquet had been prepared for them by the Christian Mothers' society and the Young Ladies' Sodality. Toasts were given by prominent visitors and new members.

The officers elected to fill the chairs for this term are: Dr. C. F. Tuomy, grand knight; Joe N. Haefliger, deputy grand knight; Henry Loring, chancellor; Henry Moersch, advocate; Edwin Smith, financial secretary; C. P. Whalen, corresponding secretary; E. E. Miller, treasurer; Andrew Trautman, outside guard; Chas. Griener, inside guard; Joe Tobin, warden; Reverend Father J. M. Haegy, chaplain; George Ebel, Martin Haefliger and Theo. Dwyer, trustees.

With the organization of Genesee council of the Knights of Columbus with an initial membership of 35, there are now nine councils in the state of Idaho with an approximate membership of 900 and the order is growing stronger in number with each year. The order now has approximately a membership of 260,000 in the United States.

NOTICE.

At the meeting of the commercial club Monday night arrangements were made for a monster stock show to be held at Genesee June 14th, and feeling confident that a big event will be the result, no expense is to be spared to furnish amusement for the day.

The stock show last year was in the nature of an experiment and it being a success, many features will be added this year to make the celebration one worth coming many miles to see.

To insure success, will necessitate the co-operation of all the stock raisers tributary to Genesee and if you have any stock you are proud of, shape it up and bring it along; if you are not proud of it, bring it anyway; there will be others worse than yours.

Valuable prizes will be distributed to winners, and every minute of the day will be crowded full of amusements in the way of races, pulling contests, tug of war, etc., and the home baseball team in searching for some team to play with on that date which will be in their class and give them the exercise they desire.

When you read this, throw down the paper and go to your barn and see what you have to shape up for this show.

Large posters will appear later giving list of prizes that will be given, also keep your eye on this page for later announcements.

—While unbiting a team of mules from a wagon last Friday evening, at his home in east Genesee, C. H. Wheeler was quite badly hurt. The team became frightened, and started to run away, throwing Mr. Wheeler to the ground and spraining it very badly. While the sprain is very painful, it is much improved in the last few days.

—Messrs. Geo. Follett and B. H. Schooler this week Monday, sold to Messrs. Henry Thiessen and J. R. Larrimore, two wealthy and well known farmers of the Sweetwater country, the second of the two black percheron stallions which they brought out from the east some weeks ago.

Follett & Schooler state that they expect to import more of this class of horses into the Genesee country, probably making another shipment after harvest this fall.

—Farmers report that the grain crop this year is looking fine. Practically all the spring planting is completed in the G-nese country and with a good rain anytime within the next 30 days, a splendid crop is assured. On the reservation south of town the wheat is up high enough to completely hide the ground, and the mustard is in full bloom. It is also said that there are fewer squirrels than heretofore, and the impression is that the methods of extermination employed heretofore are successful and will eventually result in the total eradication of this rodent.

GENESEE H. S. MADE GOOD SHOWING. At the interscholastic high school track meet held in Lewiston last Friday afternoon the Genesee high school team was one of the best teams competing and captured several of the second and third places of the event as well as two first. Caldesac won the event with 38 points, Genesee being second with 32.

The following is a list of the Genesee winners and their places in the events: J. Wardrobe—Second in 200-yard dash, second in 440-yard run, second in shot put, second in broad jump. A. Wardrobe—Second in 100-yard hurdles, first in hammer throw, first in shot put. Herbert Martinson—Second in the discus throw, third in shot put. James Keane—Third in half-mile run. The high school debate was also held that night and was won by Clarkston. Julius Nordby was ruled out of both the track meet and the debate on account of his age. It is possible Genesee could have won both the track meet and debate, could he have participated.

In the baseball game Saturday afternoon with Clarkston the Genesee boys won by a decisive score of 10 to 7. Early in the game our team secured five hits which enabled them to retain the lead in scores. Other than a little bad luck, the Clarkston boys played a good game, and the last of the contest was decidedly in Clarkston's favor, they having run the score from two up to seven in the last two innings. Charles Howard pitched the entire game for the Clarkston aggregation while Wardrobe twirled for Genesee, striking out 19 of Clarkston's batters. This was the first game with the Clarkston boys this season and a return game is expected.

Idaho wheat ranks first in condition, according to a report April 1, by the department of agriculture on winter wheat. The rating was 98 per cent, whereas 14 per cent above the average for the United States. The winter season has been favorable and the cool weather and snows of the spring months ought to insure a first class crop this year.

GOOD ROADS MOVEMENT SPREADING.

All over the country the movements to secure good roads are taking larger and larger proportions. The idea is old, dating back to the earlier years of the government, but a great impetus has been given to it by the advent of the automobile in recent years. This vehicle now represents millions, both in private ownership and manufacturing plants, and it is one which to be of any value must have good roads. The forced interest of the wealthy ones of the country will thus necessarily bring good results and these will benefit not only those who own automobiles, but the farmers, who have to haul their products to market.

In Missouri a beginning has been made by the Arcadia Country Club by starting the building of a hand-drawn automobile boulevard reaching from St. Louis to the club house in Arcadia Valley and the running through some of the most beautiful and picturesque country in Missouri, passing a number of historic spots. Plans have been made also for a road from St. Louis to Springfield, Mo., and one from St. Louis to Kansas City. The latter road was much talked of a year or so ago, when it was being furthered by John H. Curran, former immigration commissioner of Missouri, and men associated with him. The original plans for this road have been abandoned, owing to the failure of the Missouri legislature to provide an appropriation for the department. But it is still proposed to build a road by private capital. Mr. Curran, Curtis Hill, state highway engineer, Gov. Hadley and others are taking an interest in this matter. The idea now is to build a zigzag road, interesting to us on the way and utilizing sections of road already built. Mr. Curran says a route can be found by which only about one-third of new road will have to be made.

Arkansas a bill has been introduced in the legislature providing for a state highway from Little Rock to Pine Bluff. A Little Rock paper, commending this measure, says that it is really the beginning of a good roads movement that means something. Extending from Little Rock to Pine Bluff, the road will be completed by many shorter roads that will bring into touch all that section of the country lying between the two cities for a radius of thirty miles on every side.

In Texas it is stated that progress is being made by the Gulf Coast Good Roads association. A meeting was held recently at Beaumont, which was attended by many representatives and good reports were made. Several counties are preparing to vote bonds for road building in the Texas Coast country, and in these counties the association is doing work of an educational character calculated to induce the fullest co-operation in financing and building good roads.

A concerted effort is being made throughout the northwest for the construction of a series of highways, which will link together the various farming districts of that section of the country. In Idaho large appropriations have been made for the building of new and the extension of old roads. A beginning has also been made in Oregon.

In the state of Washington \$1,500,000 is to be spent in highway construction, the expenditure, however, being spread over a period of two years. The state is to have two main crossroads, the one leading east to west from the borders of Idaho to the Pacific, and the other from Blaine, in the coast section, west of the Cascades, to Vancouver, in the same section of the Columbia river, facing the Willamette.

But the lead in the northwest has been taken by British Columbia, which has outdistanced all by setting aside more than \$4,000,000 to be spent on road construction in the twelve months after April 1 of this year. This is a per capita tax on the population of British Columbia of not less than \$10.27. Tennessee is alive to the need of good roads. Gov. Hooper is at the head of a movement to build a fine highway across the state from Memphis to Bristol. The County Court of Blount county, in that state a few days ago voted \$200,000 bonds for the construction of a road in the county. M. O. Eldridge, representing the

SEVEN AMENDMENTS PROPOSED.

Idaho voters will be asked to pass judgment on seven amendments to the state constitution when they go to the polls in the general election in the fall of 1912. These proposed amendments take a wide swing from working convicts on the public roads to enacting laws independent of the legislature.

S. J. R. No. 13—Provides for the initiation of laws by the voters and the enactment of such laws independent of the legislature when supported by a majority of the legal voters at the general election. H. J. R. No. 13—Provides for a new apportionment of the state giving to each county a senator, and providing for three times as many representatives as senators. H. J. R. No. 24—Provides for amending the state constitution to authorize the working of convicts outside the walls of the penitentiary as well as inside. H. J. R. No. 30—Provides for the appointment of a state board of education to be composed of expert educators and defining their power and duties.

S. J. R. No. 12—Provides for giving the people power to veto any act of the legislature through a referendum vote. H. J. R. No. 191—Provides that the voters of the state or any electoral district shall have the power to recall any public officer except judicial officers. S. J. R. No. 16—Provides for a limitation of \$2,000,000 on the indebtedness the state may incur except in time of war.

After a short illness of but a few days with Bright's disease, Tames E. Miller, one of the pioneers of the Genesee Valley, died at his home in Genesee last Friday night at 10 o'clock. Mr. Miller had been a sufferer with Bright's disease for several years, but he only became seriously ill a few days previous to his demise. At the time of his death he was aged 71 years, 8 months and 21 days.

Tames E. Miller was born in Norway on August 6, 1840, and at the age of 9 years came to America with his parents, brothers and sisters in 1849, settling on a farm in Wisconsin, where he remained until the outbreak of the civil war in 1861. He first enlisted as a private in the Union army, in Company D, Sixty-seventh Illinois, and later, in 1863, he re-enlisted in the First Wisconsin Heavy Artillery. He fought in the battle of Missionary Ridge, and later served on General Slocum's staff as chief bugler.

After the war he again returned to the farm in Wisconsin, and was married in 1866 to Miss Anna Halverson, of Waupaca county. On the 9th of April, 1878, he started with his family for Idaho, coming out from San Francisco and Portland, and settling in the Genesee country in May of the same year, taking up a homestead claim of 160 acres and an 80 acre timber-culture claim. This farm lies about two miles east of Genesee and is known as Cottage Grove, one of the prettiest country places of Latah county.

In 1894 he was elected state senator on the Populist ticket, serving two years in that capacity, and was instrumental in having the university located at Moscow. He also named the town of Genesee. He was a talented musician and painter.

The funeral services were held Sunday afternoon from the Congregational church, the Rev. G. L. Shall officiating. Interment was made in the Odd Fellows cemetery. The funeral was one of the largest ever seen here, his many friends coming from miles around to attend the last sad rites.

A wife and six children survive the deceased, four sons, Rodney C. of Kennewick, Alfred of Nepeace, Frederick of New Mexico, and Leo of this city; and two daughters, Mrs. Frank Brazier of Clayton, Wash., and Mrs. Fred Brazier of this city. Two daughters are dead. These mourners have the sympathy of this community in their hour of sorrow.

CARD OF THANKS.
We desire to thank those who so kindly assisted us during the late illness and death of our dearly beloved husband and father.

—The largest number of farmers seen on the Genesee streets for some time was in evidence last Saturday. This is conclusive proof that most of the spring work has been done, which is a week or two ahead of the usual time for its completion. The ground has been in excellent shape to receive the spring crop, and with the light rains of this week, there are most excellent prospects for a big harvest.

UNIONTOWN WINS GAME.

In the prettiest game of baseball ever pulled off between the two towns, Genesee was defeated by Uniontown last Sunday, on the latter's field, by a score of 10 to 6. It required eleven innings to finish the contest, the two teams being tied at the end of the sixth inning, and with two men out in the last half of the eleventh, Uniontown ran in the winning score, ending the game. The Genesee boys were especially pleased with the fair and impartial decisions of Umpire Taggart and say it was the fairest and best-matched game of the two teams have ever played.

For the Genesee team, Will Gray was in the box, and his pitching, after the first inning when Uniontown got 5 runs, was very effective, the Uniontown boys being unable to hit him. Komenda was Uniontown's star batsman, and although they failed to make safe hits, the Genesee boys were able to find him, for several long drives only to be caught out by Uniontown's fielders. The Genesee team made 4 runs in the opening inning, and tied Uniontown's 5 tallies in the second. Barring the first inning both teams played "League ball."

The playing of the two teams may be summed up by saying the Uniontown boys did the better fielding while the Genesee team was superior at batting. The score by innings was as follows:

Genesee . . . 4 1 0 0 0 0 1 0 0 0—6
Uniontown . . . 5 0 0 0 0 1 0 0 1—7

Graduation Presents, at Olson's.
—That was a million-dollar rain.
—J. G. Wright left Saturday morning for a visit with his family in Nezperce.
—Mrs. Mary Wahl was visiting with relatives in Johnson the fore part of this week.
—Al. Miller, of Nepeace, and Rud Miller, of Kennewick, were here last Sunday to attend the T. E. Miller funeral.

—E. E. Oylear who has been in Moscow the past two weeks as a juror in the district court, returned home last Tuesday.
—Genesee had a most deserted look Sunday afternoon when all who could get hold of a buggy or automobile, attended the baseball game at Uniontown.
—The graduation exercises of the Genesee high school will be held on Friday night, May 19th. This year's graduating class is composed of the following eleven students: Martha Magee, Mandane B. Bell, Frieda M. Meyer, Wesley C. Morgan, Alfred W. Schambach, Oliver M. Nisbet, Ellis D. Lambert, Antone Kamibach, Jesse A. Borgen, Julius M. Nordby and David E. Spurbuck.

—The high school baseball team returned from its trip over the Nezperce prairie last Sunday afternoon, having played five games only one of which was lost, the game with Cottonwood on Thursday, by a score of 5 to 7. The Cottonwood team was not a high school team, and was made up of members of the city team of the prairie league. On Friday the boys defeated Grandview by a score of 8 to 5, and in Nezperce they were again successful Saturday with a score of 6 to 4, after a hard fought 14-inning game.

—The new city council was organized last Tuesday night, at the first meeting of the newly elected officers, and Mayor E. E. Oylear appointed the following committees: Committee on accounts and finances, Meyer and Nelson; committee on streets and public property, Nelson, Martinson and Spurbuck; committee on health and police, Martinson, Meyer and Dr. Adams in conjunction with Dr. Ehlen, secretary; fire and water, Spurbuck and Nelson. George Mosher was appointed city marshal, John Meyer, president of the council and Dr. Adams made a member of the health board.

—The committee on arrangements for the horse show has secured Prof. W. L. Carlyle, dean and director of the college of agriculture at the U. of I. as judge for the big show to be given here on Wednesday, June 14th. Mr. Carlyle is one of the most capable horse judges in the west, and has judged some of the finest stock in America at such places as Chicago, Portland, Vancouver, Canada, etc. The committee is to be congratulated on securing such a capable man as a judge for our show, and every one who makes an exhibit of his stock here may rest assured of an impartial and expert opinion from Mr. Carlyle.

—The music pupils of Miss Adelaide Harris will give a recital consisting of instrumental and vocal numbers at the Congregational church, Wednesday evening, May 10th, at 8 o'clock. The public is most cordially invited. Admission, 25 and 15 cents.

—Mrs. H. A. Thatcher and daughter, Elizabeth, of Moscow, were visiting friends here last Saturday and Sunday.
—Mr. and Mrs. H. J. Herman were visitors in Spokane the latter part of last week. They returned here Sunday afternoon.
—Mr. and Mrs. Frank Brazier, of Clayton, Wash., have been visiting here for the past week. Mrs. Brazier is a daughter of the late T. E. Miller.
—Mrs. C. F. Tuomy left last Monday morning for St. Peter, Minnesota, where she will visit for several months with old friends and relatives. Her two children and Miss Elsie Lawrence accompanied her.
—T. Driscoll, of Genesee, is on the verge of grand jurors drawn for the May term of the federal court at Moscow. Leo Miller, J. W. Fuzzell and Otto Kretschmer are among the trial jurors summoned for the same term. The former is to report on May 5th and the latter three on May 18th.

—What came near resulting in a disastrous blaze occurred at the John Loring home, 2 miles northwest of town, last Sunday night. About 2 o'clock in the night the family was awakened by dense smoke in the house, and on investigation it was discovered that the fire was in a room occupied by Mr. Loring's hired man. When found the fire had burned up the bedclothes, and the smoke was so dense that it was almost impossible to see through it. The bedding was thrown out of a window and the fire quenched with a bucket of water. Mr. Loring is of the opinion that it was caused by a cigarette which the man was probably smoking, and which fired the bedding after he had fallen asleep. The man was only awakened by the fire burning his skin, and he had a narrow escape from entrapment in the room.

J. M. Howell, a popular druggist of Greenburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

—Richard Kiso and Mrs. Mollie Swenson were married in North Yakima April 27th. Mr. Kiso is a business man at Grand View, Wash., and Mrs. Swenson was a former Genesee woman and has many friends here who extend congratulations.

—Mrs. Ole Flamoe, the mother of Nels and Ole Flamoe died at the Palouse home last Sunday, and was buried Tuesday afternoon in the Lutheran Synod cemetery north of town. The funeral services were held from the Norwegian Lutheran church. Mrs. Flamoe was aged 81 years and leaves 5 children, two sons and three daughters to mourn her death.

—The Genesee baseball team expects an interesting game with Pullman next Sunday. This Pullman team is one of the strongest aggregations in this part of the Palouse, and defeated our boys twice last year, so a hotly contested game is looked for. The ball boys will give five tickets to all who attended the Julietta game, if they will call at Smolt's store for them before Sunday noon. Those not having tickets will be charged the usual admission, 25 cents.

—Under an order issued by the postmaster general of the United States, all postoffices, during the month of May, will count every piece of incoming and outgoing mail. The local postoffice began this work last Monday, and not only is each piece counted, but in addition it must be segregated into first, second, third and fourth class and totaled, besides tabulating the congressional franked matter, foreign and registered mail. No explanation is given by the postoffice department as to the reasons for this count, which is of infrequent occurrence, not having been done for many years.

—Swell line of lace curtains and draperies, at Herman's.

—Flower, field and garden seeds, at Herman's.

—Mrs. Trill will clean and press your clothes at reasonable prices. Call phone No. 142.

DO GHOSTS HAUNT FARMERS?
No, never. It is foolish to fear a fanciful evil, when there are real and deadly perils to guard against in swamps and marshes, bays, and lowlands. These are the malarial germs that cause ague, chills and fever, weakness, achos in the joints and a muscular and nervous decay which will not be cured until the blood is purified. But Electric Bitter destroys and casts out these vicious germs from the blood. "Three bottles drove the malaria from my system," wrote Wm. Fretwell, of Laramie, N. C., and "I've had fine health ever since." Use this safe, sure remedy only. 50c at F. E. Dicus & Co.

STATE ITEMS.

J. E. Tourtelotte, architect of the state capitol, has returned to Boise from an extended trip east, in company with State Treasurer Allen, where they have been examining various public buildings, for the purpose of obtaining ideas for the capitol.

Half a hundred farmers, led by D. C. Mullen, state master of granges, met in Boise last week and adopted resolutions protesting vigorously against the action of Governor Hawley and the state board of equalization in raising the assessment rate to full value of farm and city property.

Perhaps the largest meeting of farmers in the history of Moscow will occur May 23-25, when the farmers' union convention, consisting of delegates from Idaho, Oregon and Washington will convene in the First Methodist church for a three days' session. Between 400 and 500 delegates are expected to attend the convention.

Adjutant General F. A. McCall is on a tour of inspection in the northern part of the state. He will visit Moscow, where it is proposed to organize a militia company, and Lewiston, where it is proposed to organize a militia company and a military band. His office has received an order from Washington to send either a regimental or battalion quartermaster and one company officer to San Diego, Cal., for training.

Because of the new laws passed by the last session of the Idaho legislature requiring the study of certain branches by Idaho school teachers, it is said the normals to be held at Boise, Pocatello, Coeur d'Alene and Sandpoint will be largely attended.

Incidents have been flooding into the office of the state superintendent concerning the work. Prominent educators from all over the country are being secured to instruct the teachers; and it is promised to be a most useful session for each of the normals.

The office of the state fish and game warden at Boise is receiving queries every day as to licenses. It is announced that under the new fish and game law enacted last winter, licenses are no longer issued by justices of the peace and probate judges; but by the deputy game wardens themselves. These officials usually have them on sale in convenient stores or offices for the convenience of the public. There has been no change in the cost of licenses. The trout season opened May 1.

The Coeur d'Alene and Pend d'Oreille Railway company has completed its new line into Coeur d'Alene and is now ready to commence to handle business into the city. They have already hauled considerable timber for the Stacks-Gibbs Lumber company from points along the Spokane International Railway company's line and from Pend d'Oreille lake, and in the next few days expect to be ready to accept all kinds of shipments of freight and passengers. The officials of the road are more than pleased with the outlook and figure on a prosperous business for the road.

WASHINGTON SHOWS BIG GAINS.

A digest of the federal census returns for Washington, contained in the May issue of Pacific Northwest Commerce and prepared by H. O. Stebbins, shows that the Evergreen state has more rapidly growing cities than any other commonwealth in this country. Wenatchee leads them all, showing 798 per cent increase in population since the 1900 enumeration. Pasco comes next with 720 per cent, and Prosser is third, with 466.8 per cent. The growth of all cities over 1,000 is analyzed and tabulated in such a way as to bring out the most important population facts, which have been lost sight of heretofore. As spokesman for Seattle chamber of commerce, the May issue calls attention to many other vital matters. Special attention is given to the forthcoming Rose Festival of Portland, and the Seattle Potlatch in July.

The city council at Ilwaco is taking steps to secure a water system for that town to provide protection in case of fire.

TESTS PROVE BLUESTEM BEST WHEAT.

The chemistry department of the state agricultural experiment station at the Washington State College at Pullman, has completed all the work of its five years' study of the chemical composition and milling quality of Washington wheats. A report of this work has been prepared as a bulletin of the station and will soon be ready for distribution.

The first samples collected were of the crop of 1905 and the last of the crop of 1909. In all, 431 samples have been tested. These included 126 samples of bluestem, 65 of little club, 27 of fortyfold, 17 of red Allen, 8 of Red Russian, 13 of macaroni, 8 each of white amber and sonora and 53 samples of 20 other varieties. The samples came from every part of the state where wheat is grown for milling purposes.

Wheat from each sample was analyzed. A weighed quantity of it was then ground into flour in a small experimental roller mill, and the yield of bran, bran and shorts determined. Finally the flour was tested for gluten and the food or feeding value of the flour, bran and shorts determined by analysis. Numerous baking tests of the flour were made and the size and quality of the loaf of bread which could be produced from the flour under standard conditions was determined.

The averages of all the results of these tests show that Washington wheats, as a rule, contain less protein, the constituent which yields the gluten in flour, than do the average hard winter wheats of the Dakotas, but that they are similar in composition to the wheats of Iowa, Illinois, Indiana, and the other central Mississippi Valley states.

The eight leading varieties grown in this state showed the following average protein content for the five years: Bluestem, 12.44 per cent; Little club, 10.75 per cent; turkey red, 11.27 per cent; Jones' winter fls, 11.61 per cent; fortyfold, 10.74 per cent; red Allen, 12.04 per cent; red Russian, 9.76 per cent; white amber, 11.11 per cent. The average gluten test of flour from these same samples was: Bluestem, 32.60 per cent; little club, 26.85 per cent; turkey red, 31.01 per cent; Jones' winter fls, 29.15 per cent; fortyfold, 23.90 per cent; red Allen, 33.45 per cent; red Russian, 23.35 per cent; white amber, 29.15 per cent.

These results show that of the varieties now commonly grown in this state, bluestem and red Allen stand in a class by themselves as superior to all others. Turkey red and Jones' winter fls come next, the turkey wheat being slightly better than the fls.

Turkey red, when first introduced in any part of the wheat belt, shows quality nearly equal to bluestem, but deteriorates after it has been grown for a number of years under the climatic conditions. Little club, white amber, and fortyfold form a third class of lower milling and food value, their relative rank being in the order named. Red Russian is lowest of any of the common varieties in its protein and gluten test.

Comparisons with the weather bureau records of rainfall in the localities from which the samples came shows that if the district be arranged in the order of their total rainfall for the five years, there is a regular decrease in the average percentage of protein and gluten as the rainfall actually increases.

Experiments were conducted by transferring soil from Riverville to Pullman and from Pullman to Riverville, to find out whether differences in soil have anything to do with the quality of the wheat grown on it.

The United States department of agriculture has conducted similar experiments by shipping a carload of soil from Kansas to California and vice versa. All these experiments showed that the soil has nothing to do with the quality of the wheat grown on it; but that this is determined altogether by climatic conditions in the locality where the wheat grows.

WOULD REMODEL COURTHOUSE.

At a special meeting of the F. E. and C. U. of A. of Latah county, held at Moscow, May 6, 1911, delegates from the various locals met and passed the following resolutions, on the court house agitation.

First. We are unalterably opposed to the removal of the courthouse from its present site.

Second. We favor the immediate remodeling and building of such additional office rooms, and all vault rooms necessary for the proper protection of the books and records of the county, and office rooms sufficient for the accommodation of all county offices.

Third. We favor the building of a jail and sheriff's office separate and apart from the present courthouse, out on the present courthouse grounds, with such additional jail facilities as are necessary to safely keep all prisoners that may be confined therein.

GEO. SEEVERS, Sec'y.
PROF. BABCOCK WILL LEAVE TROY.
L. T. Babcock, who has been principal of the school for the past term, will go to Genesee in the fall to take up the work as principal of the school at that place. The school board at Johnson, Wash., where he taught some twenty years ago, also offered him the principalship of their school, but he declined their offer. The Troy school board, as well as the pupils and patrons, were highly pleased with Prof. Babcock's excellent work and the manner in which the school was conducted, and the board tried hard to persuade him to stay in Troy, but the offer from Genesee was so good that he felt it was his own personal duty to accept it, and in the fall will move with his family to that place. He has the highest words of praise for the school board, the pupils and Troy and its citizens, and says that with no exception was the most pleasant term of school he ever taught, and he has been teaching for the past twenty-four years. Mr. Babcock came west from Kilmunby, Ill., last August for his wife and son's health and since then they have regained perfect health. When the Professor and his family arrived from Illinois his certificate was here in waiting for him. He possesses a life certificate in Illinois and expects to go back there after the next term of school—Troy News.

COMPANY SHIPS MANY MACHINES.
In the past month the Idaho National Harvester company has shipped out seven carloads of machines from the factory at Moscow. Five of these carloads have gone to the Nez Perce and Camas Prairies, and the other two carloads to Grass Valley, Oregon. The "Little Idaho" was used with much success in both these sections last year, and their successful operation has resulted in a demand that cannot be satisfied by the company's present equipment.

The factory is still busily engaged in turning out machines, and the work will not be suspended at all this year. Every machine it is possible for the company to put into the field for this year's work will be made, and the entire force will begin at once then to prepare for the tremendous demand for the harvest season of 1912.

It is now planned to build two new buildings during the present year. One of these will be a blacksmith shop, 40x60 feet, and the other will be a machine shop that will be 40 feet wide, and from 200 to 400 feet in length. This will enable the company to put out from 300 to 500 machines next year.

One of the features of the harvester factory that should be gratifying to the people of Latah county is the work done in casting by the foundry of this company. With their up-to-date equipment they are enabled to turn out on short notice the most difficult and complicated brass and iron castings. This saves the expense and delay of sending east for castings, which has been necessary heretofore. The fact that the foundry can keep far ahead of the balance of the plant in its regular work, enables them to turn out castings for any one at a nominal cost.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

ARRANGEMENTS COMPLETED.

The horse show committee now has arrangements for the big day—Wednesday, June 14th—about completed, and complete announcement of the events of the day, such as the stock parade and judging of stock, foot races, premiums, prizes, etc., will appear on large posters which will be distributed throughout the Palouse country the fore part of next week.

The prize list, has been very liberally contributed to by the business men of Genesee, as well as by the Farmers' union and several of the horse companies of the Genesee Valley, and the amount in prizes which will be awarded is in the neighborhood of \$500, which is far in excess of last year's premium list. A feature which is to be added to this year's show, is the "novelty team" part of the morning's parade. The idea for this originated in a stock show held in Eastern Oregon last year, where a large male and a small goat were hitched to an ordinary buggy, causing much merriment to the throng of spectators. The committee would like to see several turnouts of this order, and a substantial award has been set aside to the most comical "novelty team."

After the parade in the morning, the judging of stock will be done by Dean W. L. Carlyle, who will be the sole judge of stock in the show. Mr. Carlyle is the best horse judge in the northwest and his decisions will be absolutely fair and unbiased.

The afternoon will be taken up with sports at the city park numbering among which will be: Pulling contest, open to all teams; tug of war; foot races for men, boys and girls, etc., and suitable prizes will be given to the winners in these tests. Following the games the baseball team will play a game with Lewiston. Arrangements have been made with the Northern Pacific Railway, whereby the afternoon train, leaving Genesee at 6 o'clock, will be held until after the ball game, affording those who come from Uniontown, Colton and other branch points, an opportunity to put in a full day here, and be assured of a means of returning home that evening.

The band is holding regular practice meetings and promises to add much to the value of the show. They will head the stock parade in the morning and otherwise live up the day by playing at different places. The opera house has also been rented for the day, and dancing can be enjoyed both in the afternoon and evening. Arrangements for feeding the people are also completed, so that all are assured of something to eat.

The day promises to be one of the biggest seen in Genesee for many years, and Genesee, as it well did last year, will show herself capable of entertaining hundreds of visitors, and show them a royally good time.

LEWISTON WINS GAME.

The Genesee baseball team was easily defeated by Lewiston W. O. W. team, at Lewiston last Sunday, by the score of 6 to 1. The Genesee boys played a very loose game of ball, punctuated with many errors and poor hitting, which resulted in their defeat.

For the Lewiston team, Thompson pitched not only puzzling ball, but was steady as well, one Geneseeite only being given a base on balls during the contest. Carlson caught as fast as game behind the bat. In the hit column the honors went to the Brutzman brothers, to Sertain and to Jordan. The latter also played a classy game at center field, scooping in flies in a manner that was a delight to the big crowd that had assembled at the Holbrook Island grounds to see the play.

Next Sunday the Genesee team plays here with a team of college students from W. S. C. The game for Decoration day has been called off.

SAVED CHILD FROM DEATH.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had had cough all the time. We tried many remedies without avail, and doctor's medicine seemed useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is now as healthy and happy. VEGETARIAN HOSPITAL FOR GENESEE.

Last Friday Dr. J. D. Adams concluded the purchase of the brick building between the Meyer & Flower implement store and the Tracy livery barn, and will begin at once remodeling it into a sanitary and up-to-date veterinary hospital. The building was purchased from C. F. Barr.

Dr. Adams states that the new hospital will be up-to-date in every way, containing stalls for the keeping of such horses, well as appliances for handling them when under the doctor's care. Water will be piped into the building, and a heating plant installed for heating the water. In the front will be a large office room.

Mr. Adams has built up a splendid business in the little more than a year that he has been located here, and it has grown to such proportions now that he feels warranted in giving the stock owners of this country the most up-to-date facilities, for treating any injured or sick animals which may come under his care.

T. Driscoll was a business visitor at the county seat last Monday and Tuesday.

W. M. Thompson was transacting business in Uniontown between trains last Wednesday.

Hubert Scharbach left Tuesday morning for Concord, Montana, where he will work on his homestead during the summer months.

John Brigham was taken sick with scarlet fever last Friday. The Larrabee home, where he is rooming has been under quarantine since that day.

The entertainment given by the pupils of the city schools at the Armory last Friday night, was enjoyed by a capacity house. All the numbers showed much careful preparation and the play by the little folks was especially pleasing. Both teachers and pupils are to be commended on the success of the entertainment.

John Schettler and Nick Krick arrived here from Uniontown the fore part of the week, and Wednesday morning started work remodeling the buildings back of Nisbet's hall. It is Mr. Nisbet's idea to make these buildings into a very comfortable home, which will add materially to the appearance of the block on which they are located.

Birthday Presents, at Olson's.

J. G. Wright left last Monday morning on a short business trip to Peck, Idaho.

John McMartin, of Spokane, was visiting with friends here for several days the fore part of this week.

Read the big double-page announcement of Robert Emmett & Co.'s Stock Reducing Sale in this issue.

J. B. Davies was a business visitor on the upper Salmon river for several days during the past week.

D. I. Clelland has been very sick during the past week with Bright's disease. His condition was very low yesterday.

John Cunningham was a Moscow passenger on last Saturday's train, where he spent several days during the past week.

Mr. and Mrs. John Keane and Mike and Ed. Keane were visiting with the Misses Brennan in Uniontown last Tuesday.

P. J. Hall was a Pullman visitor last Monday evening, where he attended a special meeting of the Knights of Pythias lodge of that city.

Mrs. R. E. Emmett, and little son, left Tuesday morning for Missoua, where she will visit for several weeks with her folks, whom she has not seen for three years. She expects to return home sometime in July.

Roy Evans sustained a very painful accident last week Friday, when he had his leg broken by being kicked by one of a bunch of horses which he was herding in a field. Dr. Tuomy was called to dress the injury, and it is getting along very nicely now.

J. B. Davies last week bought 80 acres of Indian land, located in the Nez Perce reservation, six miles south of town. The sale was made by Agent Sharp of the Lapwai Indian agency, and was through bids. Mr. Davies bid of \$4000 for the tract being the highest.

Mrs. J. W. Smith was given a very agreeable surprise at the Ira Hanson home last Saturday afternoon by a large number of her lady friends, who had gathered there previous to her coming to make a call on Mr. Hanson. The surprise was in the nature of a farewell to her, and the afternoon was spent in conversations, concluded by a luncheon. Mrs. Smith was presented with a very handsome gift by the ladies.

Washington leads all northwest states in wheat acreage. Oregon comes next and Idaho and Montana are a stand-off for third place. Census figures indicate that the value of Washington farm lands increased 419 per cent during the last ten years. They have reached a total value of \$515,918,000 which denotes an increase of \$416,607,000 in ten years. All told, there are \$4,745 farms operated by whites in the state.

Is there anything in all this world that is more important to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy activity. For sale by all dealers.

A MURDERER'S AWFUL DEED may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. They gave me wonderful benefit in constipation and female trouble," writes Mrs. M. C. Dunlap, of Louisville, Tenn. If ailing, try them. 25c at F. E. Dicus & Co.

Graduation Presents, at Olson's.

Mrs. Wm. McMahon was an arrival here from Pullman on Tuesday's train, and is visiting with friends and relatives here this week.

The teachers of our city schools were entertained last Saturday evening by Miss Mollie Keane. The evening was very pleasantly spent in conversing and was concluded by a delightful luncheon. They were entertained Monday evening by Mrs. W. E. Smith, Tuesday evening by Miss Maggie Nisbet and Wednesday evening by the ladies' aid at the W. J. Herman home.

COMMENCEMENT EXERCISES TONIGHT.

Commencement exercises of the Genesee high school will be held this (Friday) evening at the Genesee opera house. It will partake of the usual features and is looked forward to with interest, not only by the members of the graduating class, but by their host of friends as well. The class, which is one of the largest in the history of our high school, is composed of the following members: Julius Neudly, Ellis Lambert, Mandana Bell, Martha Magee, Frieda Meyer, Wesley Morgan, Alfred Scharbach, Oliver Nisbet, Antone Kambsich, David Spruback and Jesse Borgesen.

The following is the program which will be given tonight:

DO HORNS HAUNT SWAMPS?

No, No, No. It is foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bays, and lowlands. These are the malarial germs that cause fever, chills and fever, weakness, aching in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. F. Powell, of Louisiana. "I had I've had fine health ever since." Use this safe, sure remedy only. 50c at F. E. Dicus & Co.

STATE ITEMS.
Several Stites citizens recently installed a water wheel in the Clearwater above that town and small streams are now running through that place on both sides of the main street.

Governor James H. Hawley decided finally May 5 that the Idaho state sanitarium for the feeble-minded and the epileptics of the state shall be located within less than two miles of Nampa on 80 acres of land secured from the Dewey estate.

In Ada county, near the little town of Kuna, a large cave has been discovered. An opening 30 feet below the surface branches off, and it has been explored for a quarter of a mile under the ground. The ends of the cave have not been found.

The purchase of all the ranches on the western border of Wyoming and the northeastern line of Idaho, to furnish a refuge for the native elk in that region, will be urged upon the grand lodge of the Order of Elks by the Pocatello lodge at the next grand lodge meeting.

Citizens of Atlanta, Idaho, are trying to influence Governor Hawley to allow the prisoners in the state penitentiary to build a road from that place to Red Fish lake, which can now only be reached on horseback. It is said this would unite Boise with Salmon City much more closely.

There is considerable agitation at present for the commission form of government in Boise. By the terms of the bill passed the last session of the legislature through the efforts of Roy L. Black, representative from Kootenai county, the cities of the state are allowed to adopt the commission form.

Three sales of state lands have been arranged by the state land commissioner, George Day, to be held during the month of June. By the Idaho constitution none of this land can be sold for less than \$10 per acre.

There are more than 100 feet of water in the reservoir which is to irrigate approximately 150,000 acres of land in Lincoln county, and the water is rising at the rate of two feet a day. The Big Wood River, the source from which the water is taken, is now in flood, and is rapidly filling the reservoir. When filled the reservoir will be nearly 10 miles long, with a maximum width of close to two miles, and 125 feet deep. The dam is the highest of its type—earth filled—in the world, so far as known.

As part of the campaign initiated by the government in the effort to drive "blows" better from the markets of the country, E. W. Ellington, deputy expert in charge of the government work in Idaho, is now engaged in gathering samples of the butter made by every creamery in the state, some 33 all told, and these he will forward to Washington, where they will be tested to ascertain the amount of moisture each parcel of butter contains. The state authorities are likewise engaged in trying to ascertain the sources of those creameries who are guilty of putting water in butter, which is done for the purpose of increasing the weight, and a vigorous campaign is to be waged against the practice.

FULL VALUATION WORKS HARDSHIP.
Farmers in Nez Perce county and other places in that part of the state have made the discovery that it will be money in their pockets to sell their farms and go to renting, if the order of Governor Hawley and the State Board of Equalization is to be carried out in the matter of assessing the land at its full cash value. Farmers in that part of the state have figured it out that their tax will run from \$5 to \$6 to the acre, while land equally good can be rented for only \$3 per acre.

The enforcement of the state law by Governor Hawley, which provides for a full value assessment will embarrass the farmer and land owner of the central Idaho country to the extent that the renter of Indian lands will have the use of the soil for approximately one-half the cost of the farmer who tills his own soil.—Nez-Perce Herald.

According to reports the pure food commissioner is soon to put a ban on green tea in this state. Black tea is dried naturally but the green variety is colored in drying and has been termed an "artificially colored" article.

CLASS OF 1911 GRADUATES.

The opera house was packed to its capacity last Friday night to witness the graduation exercises of the class of '11, the largest class ever turned out of the Genesee high school, and to hear the address of Dr. Paul Vogt of the Washington State College.

The hall and rostrum were abundantly decorated with the class colors, green and lemon, and flowers, producing a very attractive setting for the event. In the center of the rostrum was a large emblem bearing the figures "1911."

The exercises started off with a piano solo by Miss Dorothy Driscoll followed by an invocation by Rev. G. L. Shull. Ellis Lambert gave the Salutatory, followed by a Class History and Prophecy by Miss Mandane Bell. The Valedictory address was given by Julius Nordby. All three of the speakers handled their parts exceedingly well and were roundly applauded by the audience. A piano solo by Miss Brown preceded the talk by Dr. Vogt, whose subject, "The Twentieth Century Citizen," dealt with the modern methods and customs as compared with those of past centuries. Supt. Smith gave a few remarks preceding the presentation of diplomas to the graduates in which he said the schools were thankful to the people for their hearty cooperation, which has made it possible to bring the schools up to the present standard. The program closed with a piano solo by Miss Driscoll. Following this the graduates were presented with many flowers and gifts as kindly tokens from their many friends.

Of the eleven young men and women who graduated in the class of '11, special honors were won by Miss Martha Magee, who received the highest general average in the class; John Nordby, who received a scholarship in Whitman college at Walla Walla; Miss Mandane Bell, who gave the class history and Ellis Lambert, who gave the salutatory address. The other members who received diplomas were: Frieda Meyer, Wesley Morgan, Alfred Scherbach, Oliver Nisbet, Antone Kambitich, David Spurbek and Jesse Brogen. It is the intention of most of these young people to continue school work in advanced colleges, while others will enter different fields of activity. The class has been a credit to the school and the community and has the heartiest wishes of all.

DECORATION DAY TO BE OBSERVED.

Decoration Day will be observed in the usual manner in Genesee on Tuesday, May 30th. In the morning at 9 o'clock the members of Lyon Post No. 24, will assemble at the Post headquarters, and go to the cemetery for the purpose of decorating the graves of deceased comrades. Resisting the temptation the members will go to the city park where they will join the public and listen to the address of the day, which will be given by Pres Geo. H. Black, of the Lewiston State Normal. The following program has been prepared, to commence at 10:30 o'clock:

Invocation.....Rev. F. P. Nelson
Song, "Lincoln's Favorite Hymn"
.....Forest Cartwright
Recitation, "Lincoln's Gettysburg Address"
.....Mrs. Forest Cartwright
.....Pres. Geo. H. Black
Music.....Band
Ritualistic exercises at the cenotaph erected to the memory of the unknown dead.....Band
At noon the old soldiers and their families will have dinner in the basement of the Christian church.

In connection with the exercises, Mayor E. E. Oylear wishes to extend a very cordial invitation to all the people of Genesee and the tributary territory to observe the day with the old soldiers. Let us set aside this day in remembrance of departed comrades, relatives and old friends who have passed into the great unknown. Let their resting place be strewn with flowers as silent tokens of our love and friendship. All are invited.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

WOMEN MUST PAY ROAD TAX.

County Auditor Homer E. Estes has mailed the following notice to all road overseers in the county, which is the final decision of the state and county officials regarding the new road tax law passed by the recent session of the state legislature:

"Moscow, Idaho, May 16, 1911.

Dear Sir: In reference to the question of exemptions from road poll tax, we quote for your benefit, an extract from a letter just received from the office of D. C. McDougall, attorney general of the state of Idaho, as follows: "We desire to say that the only exemptions we can find are those applicable to the members of the state militia. I believe the failure to include exemptions was perhaps an oversight on the part of the legislature, and is perhaps lamentable, but, of course, with this matter, the officers of the law have no concern." This letter makes it plain, that all adult persons must pay poll tax.

Yours truly,

HOMER E. ESTES, Clerk."

Regarding the National Guard exemption, Adjutant General F. A. McCall has written the various militia officers throughout the state that members of the National Guard of Idaho do not have to pay this tax, his letter to Major J. K. Bell being as follows: "Sir: I have the honor to call your attention to the following: I am informed that the impression prevails in certain portions of the state that under the provisions of House bill No. 357, members of the National Guard of this state may be subjected to the payment of road poll tax, in the event that the county commissioners see fit to levy such a tax.

I have taken this matter up with the attorney general, and he holds that the members of the National Guard are exempted from the provisions of this law. I would suggest that you so notify the members of your company and advise them that in our opinion this tax cannot be collected, and that in the event the authorities attempt to force payment of same, that we shall be glad to extend to them any assistance we can render.

Very respectfully,

F. A. MCCALL,

The Adjutant General

LEWISTON GRADUATES IN DEMAND.

The graduating class of the Lewiston State Normal school is the largest in the history of that institution. There are thirty-nine graduates, the following towns being represented: Orofino, Caldwell, Southwick, Lewiston, Middleton, Juhanna, Wesler, Lardow, Salmon, Kendrick, Caldesac, Bonners Ferry, Payette, Coeur d'Alene, Rathdrum, Nez Perce, Valley, in Idaho, as well as the following outside points: Clarkston, Washington; Weston, Oregon; Athena, Oregon; Hillsdale, Michigan; Valley City, North Dakota; Spangie, Washington; and Ackley, Iowa.

Such is the demand for Lewiston Normal graduates that all of these have secured desirable positions in the state. In addition to the members of the outgoing graduating class there will be about forty who will receive first grade five year certificates. Many of these have also concluded contracts for the coming year.

GENESEE WINS BALL GAME.

The Genesee baseball team easily carried away the long end of a 13 to 5 score last Sunday on the local grounds, in a game with students from W. S. C. The visitors, however, were without their regular pitcher, who probably would have made things more interesting for the Genesee boys.

In the start, the game was anybody's, and it looked in the first half of the third inning as if Pullman had a splendid chance of winning, but when the Genesee team opened up the fireworks in the fourth and fifth, getting in 9 runs, the visitors lost heart and the game was Genesee's. The score of the game by innings was as follows: Genesee.....0 0 0 4 5 1 2 1 X-13 W. S. C.....0 0 3 0 0 0 2 0-5 Next Sunday the boys will play the W. O. W. team of Lewiston who defeated them so badly a couple of weeks ago. This team is not the one that will play here on Horse Show day, the regular Lewiston team being scheduled for that date.

THE PROFITABLE FARMER'S HOG.

The following article is a bulletin issued by E. J. Diddings, head of the department of animal husbandry of the State Agricultural college at Moscow.

"One of the prime considerations in the hog business is the selection of a profitable type. Our unimproved hogs are too many in build, yield too little...

The ideal form of this money-making hog is the lowest set, most compactly built and highest quality animal, providing that these characteristics do not interfere seriously with general health and prolificacy.

FARMERS VISIT HARVESTER PLANT. Tuesday, May 23, was a red letter day for the Idaho National, it being the occasion for the visit on the part of several hundred visiting farmers who were in Moscow attending the Farmers' Union convention.

The plant was inspected, and if one may judge by the remarks made by the visitors they were agreeably surprised by the showing made.

The plant was inspected, and if one may judge by the remarks made by the visitors they were agreeably surprised by the showing made.

Among the visitors was J. C. Harner of Genesee, and Charles Watson of Pomeroy, both prominent farmers who last season harvested their crops with these machines, and both men were kept busy explaining to the assembled grain growers the practical working side of the Idaho National harvester.

Both men said without hesitancy that they considered the Idaho the greatest harvester ever invented and assured their fellow farmers that there was no question about the success of the machine.

The interest on the part of the Farmers' Union was certainly encouraging to the company, and the numerous inquiries as to where the various harvesters would run the coming season indicated their intention to see them in operation.

Some of the farmers said they would be compelled to travel many miles to see a machine run but that they intended to take the time. Everywhere was the wish expressed that the company would meet with abundant success.

WINS FIGHT FOR LIFE. It was a long and bloody battle for life that was waged by James B. Merston, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and run-down."

For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim for it. For weak, nerveless, obstinate coughs, stubborn colds, hoarseness, influenza, grippe, hay-fever or any throat or lung trouble the supreme cure is Dr. King's New Discovery. Guaranteed by F. E. Dicus & Co.

DECORATION DAY OBSERVED.

Decoration Day was very appropriately observed in Genesee. The banks and some of the business houses were closed on account of the legal holiday, while business at all the stores was suspended during the morning's exercises. The old soldiers drove out to the cemetery where they decorated the graves of their comrades who have gone before them.

At the city park the program of speaking and music was carried out with credit to all. The assistance of Mr. and Mrs. Cutwright in this program was very much appreciated by the many people who had gathered at the park.

The address of the day, given by Pres. Geo. H. Black, of the Lewiston Normal, was especially fine and enjoyed by all. Mr. Black is an able talker and handled his subject well. After the morning's program and the ritualistic exercises, at the cenotaph of the unknown dead, the old soldiers went in a body to the Christian church, where they partook of a splendid and sumptuous dinner which was served by the ladies of the Post.

An interesting and commendable feature of the days program was the music given by the band, both at the morning exercises and on the street in the afternoon. This music was greatly enjoyed by the many people on our streets that day.

Through their committee the old soldiers wish to express their heartfelt thanks to those who assisted so generously in the celebration of Memorial Sabbath and Decoration Day. They would make special mention of the work of Miss Herman in drilling the children.

QUALITY-HARDCASTLE.

Mrs. Clarence T. Qualey and Miss Imogene Hardcastle were united in the holy bonds of matrimony at the First Presbyterian church in Moscow last Sunday morning at 8 o'clock, by Rev. Hare of that church. The wedding ceremony was attended by only a few of the very near relatives, Mrs. W. A. Iagie, the mother of the bride, being one of the attendants. After the ceremony, Mr. and Mrs. Qualey left for Spokane, in which city they will make their home. The honeymoon will be spent at Portland attending the Rose Festival.

Both the bride and groom are two of Genesee's well-known young people, the bride being a daughter of Mrs. W. A. Iagie and the groom, who is in the employ of the Northern Pacific railway, a son of Mrs. H. N. Qualey, who is making her home in Spokane. The many friends here of the contracting parties wish them a wedded life of happiness and prosperity.

MRS. ALBERT BECKMAN DIES.

Mrs. Albert Beckman, the young wife of Albert Beckman, one of the well-known farmers of the Astoria country, died at the home of her parents, 8 miles east of Genesee, last Monday evening at 6 o'clock. The cause of her death was consumption, from which she had suffered for some time. During the past winter she had been in California in hopes of recovering her health but the change of climate failed to be of benefit to her. Mrs. Beckman, who was the oldest daughter of Mr. and Mrs. Al Whitted, was born on the 5th day of August, 1887, and at the time of her death was aged 23 years, 9 months and 24 days. The funeral services were held Wednesday morning at 11 o'clock from the First Ridge church by Rev. Groenlose of Arrow, and the burial was in the First Ridge cemetery.

Deceased leaves a husband, father, mother, three brothers and six sisters to mourn her loss. The Nawa joins with a host of friends in expressing deepest sympathy in their hour of sorrow.

FORMER GENESEE DEAD.

W. C. Brant, who was for many years a resident of Genesee, and whose service with the Northern Pacific railroad dates back to its completion into west, died last Saturday evening, May 27, at the Sacred Heart hospital, Spokane, after an operation for ear and spine trouble. At the time of his death he was aged 69 years.

Mr. Brant's death was a great shock to the people of this community, and although it was known that he was a sufferer from an ear affliction, his sudden demise was more than a surprise. He was for many years the engineer on the Genesee Branch train, going from here to Kendrick about a year ago, where he was in the employ of the same railroad.

The funeral services were held last Tuesday afternoon at the Turnbull undertaking rooms in Spokane, the Rev. W. C. Fowler, formerly of the Congregational church of this city, officiating. The interment was in Fairmount cemetery, Spokane.

Deceased is survived by a widow, two sons, C. L. Brant of Seattle, and F. B. Brant of Potlatch, and two daughters, Mrs. B. W. Bandy of Spokane and Miss Nellie Brant of Spokane. The Nawa joins with a host of friends here in extending sympathy to the bereaved ones in their sorrow.

—Miss Lottie Davies, a daughter of Joe Davies and Esther Miller, a niece of Mr. Davies, arrived here from Walla Walla, where they have been attending school, last Tuesday afternoon. They expect to visit here for some time.

GENESEE 12, W. O. W. O.

In a one-sided game at the Recreation Park last Sunday, the Genesee baseball team easily defeated the Lewiston W. O. W. team by the decisive score of 12 to 0, thus avenging their defeat by the same team at Lewiston a few weeks ago. The visitors were not in a class with the home team on Sunday and only once during the game did they have a chance to score.

An unfortunate accident in the first half of the eighth inning stopped the game, when Herman Bruzeman, first baseman for the visitors, was struck on the head by a pitched ball. The injury was very painful and he was removed to Dr. Tommy's hospital for treatment, but was well enough to accompany the team home that evening. Reports from Lewiston this week state that he is getting along very nicely. This is one of the unfortunate accidents that happen at times, and in this case, as in most others, no one can be blamed for this sad mishap.

Next Sunday the boys will play a game with the second team of the W. S. C. This is a good team and a far better game may be expected than was played with either of the teams that were here from Pullman this season. The boys were disappointed with the playing of the other two teams and promise a very interesting game for Sunday.

Pearl is the birth stone for June. Set in jewelry of different descriptions, they can be had at Olson's.

—J. C. Cathcart, of Elberton, Wash., was visiting here this week at the home of his son, E. O. Cathcart.

—Miss Mollie Keane returned home last Saturday afternoon from Uniontown, where she had been visiting for a week with relatives.

—The Luther League of the German Lutheran church gave an ice cream social in the Rosenstein building Tuesday afternoon and evening. The social was well patronized.

—Mr. and Mrs. B. T. Buckner arrived here last Monday afternoon from Asheville, N. C. Mr. Buckner, who is a blacksmith by trade, will work for John Loring on the farm north of town.

—Mr. and Mrs. C. E. Blackburn arrived here last Sunday from Cottonwood and are visiting this week at the Mrs. Laura Staber and S. L. Hall homes. Mrs. Blackburn is a daughter of Mr. and Mrs. Hall.

—J. A. Peterson of Snohomish, Wn. and a former resident of Genesee, has sold his saloon in the former city and has retired from that business. He has not yet decided what line of work he will take up in the future.

—The quarantine for scarlet fever, which has been on the Larrabee home for the past several weeks, was raised last Monday by the health officer, W. H. Ehlen. Mrs. Larrabee and Miss Olive will leave next Monday on an extensive eastern trip.

—Mr. and Mrs. D. C. Denniston, of Dowagiac, Mich., the latter a sister of Mrs. James Nusbet, arrived here on Monday for an indefinite stay.

—Mr. and Mrs. Herman Broemmel and daughter, Ross, left Tuesday morning for Cadogan, Alberta, where they will visit with Stephen and Gerhardt Broemmel for several weeks. They expect to return about the first of August.

—Orville Livensparger came down from Spokane Monday on a brief visit with friends and relatives. Mr. Livensparger was formerly a mail clerk on the Genesee branch of the Northern Pacific, and has many friends here who are always glad to renew his acquaintance. He returned to Spokane Tuesday morning.

—Ernest Miller has opened an automobile garage in the building formerly used as a blacksmith shop by Hampton & Gardner. The place is being remodeled and equipped with machinery to handle the auto work, and Mr. Lester realizes the convenience in having these things handy, and as one of our most progressive farmers, is to be complimented on his ideas in making his farm home and farm life as attractive and full of comforts as that of the city.

SELZ GUARANTEE

To the Wearer of this shoe:

Look at the sole; you will find the name SELZ on it; that name guarantees these shoes to give entire satisfaction.

If you don't find the name SELZ on the sole, it isn't a Selz shoe and you don't get the guarantee.

Selz shoes can be guaranteed because they are honestly made of good leather throughout; they are never cheapened by the frauds so common in shoe making, such as pasted innersoles, pieced counters and composition heels. We could not guarantee poor shoes.

Remember, your dealer is authorized to see that you get absolute satisfaction from every pair of shoes bearing the SELZ trademark.

THE GENESEE NEWS.

REGULAR SERVICES WILL NOT BE HELD AT THE GERMANS LUTHERAN CHURCH NEXT SUNDAY, AS THE PASTOR WILL BE ABSENT ATTENDING THE DISTRICT CONVENTION IN PORTLAND, ORE., ON THAT DATE.

A. F. WOLFF, Pastor.

Bible school will hold at 10 o'clock at the Church of Christ next Sunday. All children, as well as older people are invited to meet with us and take part in the new graded course which is being given.

H. C. PETERSON, Supt.

Services at the First M. E. church will be conducted next Sunday, June 11, as follows: Sunday school at 10 a. m. Children's Day at 11 a. m. Epworth League at 7:15 p. m. All services held at the Nisbet hall. Everybody cordially invited to worship with us.

CHARLES D. FLETCHER, Pastor.

Services at the First Methodist church will be held at 10 o'clock as follows: Sunday school at 10 a. m. Children's Day exercises at 11 a. m. speaking and singing by the children. Preaching at 8 p. m., subject, "Am I My Brothers Keeper?" Labor and Capital." Epworth League at 8 p. m. Prayer meeting Thursday at 8 p. m. Special music at all services. All are welcome.

H. P. NELSON, Pastor.

Next Sunday is Children's Day, at the Congregational church. The pastor will preach a sermon to the children in the morning. In the evening there will be a Children's Day program by the Sunday school. The Children's Day will be for the Congregational Sunday school society's work in Idaho and other states. Please bring a liberal offering. All the children who are not in Children's Day exercises in other churches, next Sunday, are most cordially invited to attend, both morning and evening, and to bring their parents and older brothers and sisters with them. The topic for study at the mid week meeting, Thursday evening, will be "The Prophecies About Christ in the Old Testament."

G. L. SHULL, Pastor.

Birthday and Wedding Presents at Olson's.

—Max Rosenstern left last Friday morning for Portland where he is attending the Rose Festival this week.

—David Snider, of Tins, Mo., the father of Mrs. Robt. E. Emmett of this city, died at his home in that city on Wednesday night at 10 o'clock of old age and a complication of diseases. The funeral services will be held today. He was aged 84 years.

—Dedrick Scharnhorst, George and Albert Carburn, Geo. Follett, and Mrs. Conrad Martin and little daughter, Bernice, drove over to Troy last Friday in Mr. Scharnhorst's auto. Mrs. Martin remained with friends in Troy until Monday, when she returned to her home in Nezperce.

—One of the most troublesome weeds with which our farmers have to contend, once it gets started, is the Sorrel Dock, also known as the Oregon sorrel and sheep sorrel. The tap root of this weed, when allowed to grow, reaches great length, and all the plowing and grubbing one does, only tends to spread the weed. John Loring recently had this weed start on a small portion of his ground, it having come in some clover seed which he recently planted. He states that the only way to kill it is by placing straw over the weed to a depth of several inches, thus smothering it out. He used up an entire straw stack in covering this patch, thus preventing the weed scattering over his farm.

NOTICE TO SEPARATOR USERS.

I have secured the agency for the Empire cream separator, manufactured at Portland, Oregon. This machine is one of the best makes out and is guaranteed by the company to give entire satisfaction. Anyone contemplating the purchase of a separator in the near future should call and inspect our machine now on display at our office in Genesee. We also handle the best separator oil on the market. Don't forget that the Commercial Cream Company is paying the highest market price for butter fat.

HARVESTER DOES NOT EFFECT QUALITY.
 With the advent of the combined harvester, and with the Idaho National Harvester, which is nothing but a harvester, in that it is not a combination of either a binder and a thrasher or a header and a thrasher, there has arisen a tendency on the part of millers and grain buyers in some sections to discriminate against the man who harvests with the improved harvester. So serious did this discrimination become in Utah that the farmers appealed to the agricultural college of that state. The department carried on a series of extended experiments to determine whether or not there was any real basis for this attitude. It was so serious that it threatened to retard development in many agricultural sections of the west. If the producer could not sell in competition with the man who harvests with the combined harvester, he must of necessity go out of business. In those sections where wheat yields do not average above ten or fifteen bushels per acre.

Herewith is published extracts from Bulletin No. 113, issued in December, 1910, by the Utah Agricultural College giving the results of these experiments:
 The extension of the dry farming area in Utah and the bringing of many thousands of acres of virgin land under wheat cultivation, in large farms, has in recent years, caused much improvement in the use of farm machinery. One great improvement has been the adoption of the Combined Harvester, which cuts, threshes and sacks the grain in one operation in the field at a minimum of cost. This has been an important factor in the success of the dry-farming movement.

Recently the millers of certain sections of Utah have made the claim that the cutting of the grain with the Combined Harvester renders it unfit for milling purposes. The claim of the millers is that the wheat must be stacked before harvesting in order that it may undergo the sweating process before threshing. This sweating process, according to their conception, is for the purpose of causing the grain to become hard. Hard grain, they claim, makes a better grade of flour. However, the sweating process hardens the grain is not entirely clear. The millers holding this conception, of course, discriminated against the wheat cut with the harvester by offering a lower price, which threatened to seriously retard the growth of the dry-farming movement. The farmers appealed to the experiment station for help and as a result the present investigation was undertaken.

Through the suggestion of Director Merrill of the station, a series of studies were made of the question to the attention of the authors, Grace Brothers of Mopli, Utah, very kindly furnished us with the samples of wheat used in the investigation. Grace Brothers were able to furnish us with three samples of each variety cut with the Combined Harvester. One sample of each variety was cut with the Combined Harvester in 1910; while one sample of each variety was cut with the header in 1910 and stacked for six weeks before threshing. The wheat cut with the binder was cut from the same field as that cut with the harvester. We thus were able to secure two samples of each variety cut with the harvester, one cut in 1910 and one cut in 1911; and one sample of each variety cut from the same field with the binder and stacked before threshing. The information obtained by a study of the milling, chemical and baking values of the several samples of wheat ought to give us some reliable data regarding the influence of the harvester on the value of the wheat and also the comparative value of the two varieties of wheat.

The results of these investigations show quite conclusively that the method of harvesting with the combined harvester does not effect the value of the wheat for bread-making purposes. Wheat cut with the harvester is just as valuable for flour production and bread-making purposes as is that cut with the binder or header. The comparative value of Turkey Red and Kofod for bread making purposes show distinctly that Turkey Red is far superior. The baker desires a flour which will absorb the maximum quantity of water and produce the maximum volume of loaf; the flour produced from Turkey Red will give him this. The consumer desires the largest loaf containing the maximum percentage of food value; the flour produced from Turkey Red will give him this. The miller desires a variety of wheat which produces the highest yield of flour, which he can readily sell to the baker. Turkey will do this. From all conclusions obtained from a study of the results of this investigation, it would seem that the millers of this section of the state are unjustified in the claim that the harvester affects the value of the wheat produced. It may be, and it is quite probable, that there is some cause for complaint, but it is distinctly not against the method of harvesting but against the variety of wheat grown. The Kofod variety of wheat is grown largely in the section where the complaint is loudest. The remedy obviously is to grow Turkey wheat, which yields better, produces a better yield of flour which is richer in protein and which absorbs the greater amount of water and which makes a loaf of greater volume.

HOW THE OIL TRUST IS AFFECTED.
 The Standard Oil Company is made up of a large number of subsidiary corporations, the stock of which is held in whole or in major part by the Standard Oil Company of New Jersey. The individual shareholders are more or less ignorant of the affairs of the New Jersey corporation. The decree of the court amounts to a reviving of the full corporate activity of each of the subsidiary corporations. It would seem that in the first instance the holder of a share of the New Jersey company must take his respective proportion of the shares of all the lesser corporations. The Circuit court had allowed a month for the winding up of the New Jersey company, while the Supreme court allows six months. The Standard Oil Company has a vast aggregation of properties, consisting of oil refineries, pipe lines, tank lines, oil wells, and so on. There is no confiscation of any of this property. It all remains the property of its present owners. The object of the decision is to prevent the continued use of all this organized capital in such a way as to constitute an illegal monopoly or a combination exercising an unreasonable restraint upon interstate trade in the kinds of articles as Standard Oil products. There is no practical way by which the Standard Oil Company's assets and business undertakings can be thrown back into an old-fashioned and undesirable kind of competitive warfare with one another. But if the remedies that the court attempts to prescribe are successful, it will not be either feasible or safe for the Standard Oil interests in the future to use unfair methods to crush out independent oil refiners or competing concerns. The Standard Oil Company has not yet announced its exact plan for reorganization. From the standpoint of its practical business,—that is to say,—the carrying on of its refineries, its pipe lines, and its various factories for the making of commercial by-products, together with its admirable systems for the distribution of its oil and other products,—the public is not likely to see any difference at all.—From "The Progress of the World," in the American Review of Reviews for June

SECOND HORSE SHOW A DECIDED SUCCESS.

Finest Horses in the Palouse Viewed by Hundreds of People—Show Pleases Everyone—Far Surpasses Last Year

Genesee's Second Annual Horse Show, surpassing the big exhibit of last year in size and attractiveness, was one of the greatest events ever known in this county—and the most successful. Starting in with an ideal day—a finer day for the show could not have been selected—the program was carried out in clock-like order, and the hundreds of people who were our guests on that day, were more than pleased with Genesee's hospitality.

Genesee has a reputation of doing things right at any event scheduled in this city and she did not fail herself last Wednesday. The prizes given by the business men and the horse companies would have done justice to a show twice as big, and were far and away ahead of the usual premiums given by other cities in Genesee's class. This year's prize list was three times as big as last year's, and that the people appreciated this good will on the part of our merchants is evidenced by the stock that was brought in from miles around this county.

The effective advertising work by the committee brought people from points as much as 100 miles distant, and the big crowd has been estimated to have been in the neighborhood of 1500 people. To the committee much credit is due for the big success this show secured, and everyone interested in the show is indebted to them for their hard work and painstaking efforts to make the day one long to be remembered.

The parade formed at the depot at 9:30 in the morning and marched out and back on Main street. The judging of the stock followed this, and the following is the complete prize list, and the winners of the first and second prizes:

FULL BLOOD DRAFT STALLION
 First Prize—Suit of clothes, value \$20 donated by Follett Bros.
 Second Prize—Pictures, value \$5, donated by Peter Hall.
 Won by Belgian Horse Co.

GRADE DRAFT STALLION

 Second Prize—Pair high top shoes, value \$6, donated by J. H. Larrabee.
 Won by Henry Borgel.

SUCKLING DRAFT COLT
 First Prize—Cash \$12.50, donated by First Bank of Genesee.
 Second Prize—Pair shoes, value \$5, donated by J. Rosenstein.
 Won by Wm. Mayer.

FULL BLOOD DRAFT MARE
 First Prize—Harrow attachment for a gang plow, value \$18, donated by Ernest E. Miller.
 Second Prize—Cash \$5, donated by Dr. C. F. Tuomy.
 Won by Dan Haylett.

GRADE DRAFT MARE
 First Prize—Two barrels of flour, value \$10.40, donated by C. E. Wood Co.
 Won by J. R. Watson.
 Second Prize—Box of 50 Gato cigars, value \$6, donated by Smolt & Son.
 Won by D. R. Davis.

Ray Edwards and Albert Gray won the \$10 prize. These two teams caused considerable amusement to the crowd.
 The sports were held at the city park at 10:30 a. m. The races were changed to 10:30 because Dean Carlyle could not get here in the morning, and the judging of the horses was delayed until after dinner. The following were the events and the winners:
 100-yard dash for men—Won by Will Kennedy. Second, Perle Rogers.
 100-yard dash for boys of 15 years and under—Won by Mahlon Follett. Second, George Post.
 50-yard dash for boys of 10 years and under—Won by Mike Meyers of Uniontown. Second, Armond Nelson.
 25-yard dash for girls of 12 years and under—Won by Tracy Springer. Second, Mamie Stricker.
 25-yard sack race—Won by Perle Rogers. Second, Will Kennedy.

The ball game in the afternoon was won by Lewiston by a score of 10 to 5. For the first 6 innings the game was a pretty one as it was seen here this year, but in the seventh inning home team went to pieces, and Lewiston got in 8 runs in the last three innings. The game was marked by many errors and lots of hits, and although more of the latter can be credited to Genesee than Lewiston, the home boys failed to have men on bases when hits were made. Lewiston was lucky enough to get their few hits at opportune times, with men on bases, thus running up their big score. The runs of the game by innings were as follows:
 Genesee.....0 3 0 1 0 0 0 1—5
 Lewiston.....0 0 0 0 2 0 1 6—10

CONVENTION HERE NEXT DECEMBER.

A large number of the members of the Farmers' Educational and Co-Operative Union was present at the semi-annual county convention which was held in Troy last Friday and Saturday. The order has gained considerably in membership, and is making progress in co-operative work, but like all other organizations, have still good and vacant grounds to cover by greater co-operative efforts. The meeting was a success in every sense of the word, and much enthusiasm prevailed. Questions of general interest were discussed, such as the fall cash value assessment and road law, and it is very encouraging to know that the voters are getting alive to the important and vital issues of the day. After all the business was disposed of and just before adjournment a vote of thanks was extended to the Troy locals and citizens for their hospitality. It was decided to hold the next county convention in Genesee on the first Friday and Saturday in December.

Those present from Genesee were: A. C. Linehan, E. Thoma, George Carburn, Joseph Moersch, George Follett, John Krier, Theo. Schleuter, Frank Scharbach, J. P. Kiser, D. Scharnhorst, Chas. Kraut, Otto Kretschmer, Antone Borgen, Albert Carburn.—Troy News.

DAVID I. CLELAND.
David I. Cleland died at his home in Genesee, of Bright's disease on Saturday afternoon, June 10th, at 1 o'clock, after suffering the past three or four weeks from this disease. At the time of his death he was aged 67 years, 5 months and 27 days. The funeral services were held Monday afternoon from the Christian Church, Rev. J. M. Patterson officiating. Interment was made in the Odd Fellows cemetery.

Mr. Cleland was born on the 13th of December, 1843, in the state of West Virginia, and came to Genesee in 1901, ten years ago. He was married in 1872 to Miss Charity Crawford of Dallas county, Missouri, and they were 8 children born to this union, 7 of whom survive. Of these children are boys, Edgar, Elmer and Ralph having their homes in southern Idaho, and Henry and Carl in Genesee; and two girls; Mrs. Cora Lockett of Genesee and Mrs. Henrietta Nier of Spokane. The widow, who also survives, and these children, have the sincere sympathy of the people of this community in their hour of bereavement.

CARD OF THANKS.

We desire to thank those who so kindly assisted us during the recent illness and death of our dearly beloved husband and father.

MRS. D. I. CLELAND AND CHILDREN.

PLAY MOSCOW NEXT SUNDAY.

The Genesee baseball team will drive to Moscow next Sunday where they will play the Moscow city team which is considered one of the strongest baseball aggregations in this part of the Falls. Moscow plays a return game here on the following Sunday, June 25th. On July 4th the boys will go to Culldesse, where a two-days celebration is to be held, and will play with the Culldesse team on Tuesday, July 4th and Wednesday, July 5th. The boys will receive \$100 from these two games, lose or win. The game last Sunday with the Fix Ridge team was an uninteresting one, in that the visitors were not in class with the Genesee boys. An Tegland pitched in fine form for the Genesee boys and Fix Ridge was able to get but one run off him, while our boys piled up a total of 15 runs. This game was Tegland's first tryout with the Genesee team as a pitcher, and he showed he had all kinds of speed and curves, at least his work was very effective against the Fix Ridge team.

A CHARMING WOMAN
is one who is lovely in face, form, mind and temper. But this hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c at F. E. CHURCH NOTICES.

Rev. Patterson, of Pullman, will preach at the Christian church Sunday, June 18th. Services at 11 a. m., 8 p. m. Everybody invited.

English services will be held at the German Lutheran church next Sunday evening at 7 o'clock. Luther League meets at 1:30 p. m. All are invited. A. F. WOLFF, Pastor.

Bible school will be held at 10 o'clock at the Church of Christ next Sunday. All children, as well as older people are invited to meet with us and take part in the new graded course which is being given.

I. C. PETERSON, Supt.
The theme of the sermon, at the Congregational church, next Sunday morning will be, "The Blessings of Sabbath Keeping." The evening theme, "Selling Our Birthright." The topic for study, at the mid-week meeting, will be, "The Bible Teaching About the Fool." A most cordial invitation is extended to all to attend our services.

G. L. SHULL, Pastor.
Services in the First Methodist church next Sunday will be as follows: Preaching at 11 a. m. and 8:00 p. m. Sunday school at 10 a. m. and Epworth League 7:00 p. m. Prayer meeting on Thursday at 8:00 p. m. Subject for morning, "The Contrivance Between God and Job." Subject for evening, "What is Included in Repentance." Special music at all services. Everybody welcome.

Birthday and Wedding Presents at Olson's.

The Congregational ladies aid will meet with Mrs. Leon Follett next Wednesday afternoon.

Miss Amy Archibald left last Monday morning for Colfax, where she will remain for an indefinite time.

Rube Bixby, a newspaper man with the Lincoln, Nebraska Journal, was an arrival here last Tuesday afternoon, and is visiting here with his cousins, the Follett brothers.

Bert Brown came over from Moscow Tuesday afternoon and is working in the John Barber shop. He will be here all of next week during Mr. Jain's absence attending K. of P. grand lodge session at Sandpoint.

A party of Rebekahs were visitors in Pottlatch last Friday and Saturday, where they attended the state convention of Rebekahs which held a two-days' session there. They were driven over in the D. Scharnhorst and Henry Martinson automobiles. The following were in the party: Meadames C. F. Burr, J. C. Hanson, Con Steltz, Iva Hanson, W. M. Herman, Aloha Marby, Robt. Gray and Misses Helen Linehan, Hazel Ouse and Elva Gray.

Postmaster Burr recently purchased the old "Star Saloon" property, located on Main street, opposite the postoffice, from Joseph Geiger of Los Angeles, Calif. Work was started this week, renovating the interior of the building, by putting in new floors, repairing and papering. Mr. Burr has made application to the post office department at Washington for the removal of the Genesee post office into this building after the repair work is completed, and if the gets permission he expects to move into it within the next few weeks.

CARD OF THANKS.

The children of the late Rev. J. M. Harris wish to extend their sincere thanks, through the columns of the News, to the people of Genesee who so kindly assisted them during the illness and death of their beloved father.

Everyone Knows the Value of Lumber These days, but the housebuilder who listens to the cry of "wait until lumber is cheaper" is not apt to be any nearer his goal on his deathbed than he is today. The government recommends TIMBER CONSERVATION and this alone is proof that lumber has a fixed value.

Our years of experience in buying and selling lumber lead us to advise our friends that NOW IS THE TIME TO BUILD. There's but one crop of timber for most of us. If you contemplate a new home we want to talk with you—we have all grades of lumber. The lowest quality starts at good and goes up. Give us a call and learn the facts about lumber values.

NEW RULING FOR USE OF WATER.

A ruling of gigantic importance to the people of the state in general and more particularly to the users of water for irrigation purposes is announced from the state engineer's office.

The water laws of the state provide that the holder of a permit upon completion of ditches and other necessary equipment for the handling of water shall make proof of completion of work and the user of water shall file proof of beneficial use. This proof of beneficial use may be filed by the resident using the water any time within four years after he has given notice of completion of works and he is then entitled to a water license. The interpretation of this law by different authorities over the state has been for years varied, irregular and inconsistent. It has been the bone of contention from which has evolved a vast amount of litigation.

A recent instance which illustrates the various phases of the question is cited in the case of water users in Kootenai county and the Interstate Irrigation company. Some time ago the irrigation company purchased several hundred acres of rich fruit lands in the vicinity of Hayden lake and placed the same upon the market for sale in five and ten-acre tracts. The tracts were sold readily and the community was thickly settled with fruit growers in a short while. Recently there came to the state engineer's office a request from the Interstate company to make proof of beneficial use. The supposition prevailed in the engineering department that these people would cover all the land originally owned by the corporation. Later, however, application to make a similar proof was filed by 47 settlers of the district. This was done through an attorney of Coeur d'Alene.

Therefore the problem put up to the state engineer was to inaugurate a system that would be agreeable to both the company's interests and to the settlers and one that would insure a complete record of filings and proofs in regard to each tract of land. It is also necessary at this time that a precedent be established in order that the matter will be definitely settled and future controversies avoided. In line with these facts the engineering department of the state has ruled that hereafter both the corporation or original owners and the settlers who are actually using the water shall make applications for proof of beneficial use. By a strict adherence to this rule the rights of all parties concerned shall be observed and a correct record obtained.

GENESEE 22; MOSCOW 7.

In the ball game played on the Moscow grounds with that team last Sunday afternoon, the Genesee boys easily carried off the honors, running up a big total of 22 points, while Moscow barely made 7 runs. The game was a very long one requiring almost three hours to play. Halverson, the Genesee pitcher, was in the best of form, and had the Moscow sluggers at his mercy throughout the game. The most sensational feature of the entire contest was a home run made in the 9th by Harry Vandenburg, with three men on bases, adding 4 scores to the three the county seater were able to get in the other 8 innings.

The Moscow team will play here next Sunday, but expects to be considerably strengthened over what it was last Sunday. This will be the last game of the season on the home grounds, as the team will disband after the Fourth of July game at Caledonia. The Genesee team is composed largely of farmer boys of the nearby country, and the summer work and nearness of the harvest season prevents further baseball here this year.

No more will the deafening report of the "cannon cracker" be heard in Seattle on Old Glory's birthday anniversary. The public safety committee of the city council has put its foot down. It will be a safe and sane Fourth in the Queen city. Some of the large business houses appealed to Mayor Dilling to intervene, saying they had laid in a large stock and only wanted a chance to dispose of them this year. His Honor refused to take a hand. The result is that no fire cracker longer than two inches will be allowed to be sold.

ECONOMY OF GOOD ROADS.

The economic loss due to bad roads is beyond computation and the indifference of the general public toward any projected improvement of our highways is not easily understood. Each owner of property must be held accountable for the condition of the highways of this locality.

Of our public works the condition of none reflects our business status more accurately than the condition of our highways. To make good roads so that products of the farm are easily and quickly brought to this market is to increase the value of every farm along those roads and is practically to increase the farmers' facilities and lessen their expenses; at the same time making this town a bigger and better market for farm produce.

If every citizen could see in actual money the financial return on his investment in good roads he would contribute his share thereafter with alacrity. He has drained the swamps on his land and converted them into arable land. He has bought improved farm implements—he has, in fact, adopted all modern methods—in order to increase the productivity of his land. But the marketing of his farm products is still seriously hindered by defective highways. The actual returns on any investment in improving the roads to market are just as direct and even more prompt than are those from farm drainage and improved farming methods.

In these days of automobilizing good roads open up a much wider range of vision for the rural inhabitants and the same conditions that enable our residents to visit other sections induce residents of other communities to visit this locality. This intercommunication results in a kind of advertising that inevitably increases the value of property by bringing in desirable purchasers. In fact, the results accruing from the building of good roads comprise an endless chain of benefits to the community that builds the road.—American Lumberman.

THE STATE PURE SEED SHOW.

Each year the State Pure Seed Show is held in connection with the meetings of the Idaho Agronomy Association. The purposes of this association are two: 1st. To present and discuss the best methods of crop culture and soil manipulation; 2nd. To ascertain by experiences and discussions the best varieties of grains and grasses for specific localities.

The association usually holds its meetings after the fair and street carnivals are over and during this time exhibits of pure seed are made. A long premium list is offered to encourage exhibitors. The compilation of this list will be completed by July 1st. But the present idea is to notify everybody so they can grow something for this exhibit. If you have planted your crop tend it a little better, or if you haven't planted yet, then get some pure seed, plant them in a little richer ground, add a little stable manure (experience has shown that this will not hurt) and have something for this show. L. F. CHILDERS, Secretary, Moscow, Idaho.

OMAHA LAND SHOW IN OCTOBER.

The many thousands of people who have become interested in the development of the west and who depend upon the Omaha Land Show for instruction and information are looking forward with more than ordinary interest to the Idaho exhibit, which promises to be one of the greatest attractions to be seen there in October. Not only will the luscious fruits and perfect grains of that state be exploited in attractive fashion, but the resources of the Snake river will be presented in novel form. There is being prepared a series of oil paintings designed to show the great force that lies in the river for hydro-electric power development; also the great volume of water that can be diverted from the Snake river for irrigating purposes.

James H. Hawley, governor, has written to W. O. Paisley of the Land Show management, accepting the vice presidency of the show for Idaho and he expects to be present with a number of other prominent men of that state to boost for the Gem state. One big feature of the show will be Idaho Day, which has been fixed by the governor for Thursday, October 19th. On this day special attention will be drawn to Idaho through addresses and illustrated lectures.

Tobacco culture on a large scale is to be attempted in the vicinity of Kennewick. A man who has had considerable experience in this form of soil culture in Kentucky expects to transplant the "weed" to the northwest. Investigations made for some time past lead to the belief that a high grade leaf tobacco can be produced. A colony of negroes will be brought from the south to tend the plants. If this crop can be added to the possibilities, it will be another important source of revenue. Wild tobacco is already found thereabouts.

BRACEBELL-WOODLEY.

Mr. J. H. Bracebell and Miss Carrie Woodley, two of the popular young people of this city, were united in the holy bonds of matrimony at the home of the Rev. W. C. Fowler in Spokane last Wednesday evening at 8 o'clock, by the Rev. Fowler. Mr. Harry Ratkey and Miss Mabel Robertson, intimate friends of the bride and groom, acted as best man and bridesmaid respectively. The wedding was a quiet one, some of the relatives attending. The honeymoon is being spent in Spokane and Coeur d'Alene, and Mr. and Mrs. Bracebell will be at home to their friends, at the home of the bride in the first part of town after the 1st of July.

Both Mr. and Mrs. Bracebell are well known to all our readers, the former being the local manager of the Puget Sound Warehouse company and the latter, a daughter of Mr. and Mrs. R. S. Woodley, prominent farmers of the Genesee Valley, having lived here from childhood. The News joins with a host of friends in wishing them much success and happiness in their voyage through life.

Persons using the railroads a great deal in the northwest note material improvements in the accommodations of late. All the lines are bringing their accommodations up to a much higher standard, in order to be able to give their patrons better service. The North Coast Limited, the Northern Pacific's best train, has been amplified with a number of notable additions and begins its last Sunday observation cars were added to regular equipment trains 41 and 42, the Burlington trains, between Puget Sound and St. Louis. These cars are of same pattern as those on the North Coast Limited.

SHULL, Pastor.

Birthday and Wedding Presents at O'Connell's.

—John Sullivan was a business visitor in Troy the first part of this week.

—Mr. and Mrs. Thos. L. Yang, and son, Robert, of Spokane, who have been visiting here with the John Loring family for the past week, returned to their home last Tuesday morning.

—Mr. and Mrs. N. M. Welch, who have been visiting here for the past two weeks with relatives, left last Wednesday morning for Spokane, in which city they will make their home for the time being.

—Prof. and Mrs. Babcock, of Troy, were visiting here last Wednesday. Mr. Babcock will very probably rent the J. C. Hanson house, formerly owned by J. K. Bell, and expects to move here with his family within a few weeks.

—Work has been started on the erection of the United Lutheran church, 6 miles north of Genesee, in the Cow Creek valley. Subscriptions to the amount of several hundred dollars were collected in and around Genesee and Moscow, and it is expected that a very fine edifice will be put up.

—Mrs. H. A. Boughpin and little daughter, Irma, of Kiona, Wash., arrived here last Wednesday afternoon and are visiting at the Walter Jain home south of town. Mrs. Boughpin and Mrs. Jain are old friends, having been brought up together, and it has been several years since they last saw each other.

—The Seattle Grain Co. is planning several improvements for their warehouse opposite the depot. The west end of the building is being torn down, and an addition will be placed on the east end extending to the road. The building, proper, will also be widened 20 feet. A gasoline hoist will also be installed to handle the grain.

WORK WILL SOON START after you take Dr. King's New Life Pills, and you'll quickly enjoy the results. Constipation and indigestion vanish and fine appetite returns. They regulate stomach, liver and bowels and impart new strength and energy to the whole system. Try them. Only 25c at F. E. Dicus & Co.

DON'T BUY HALF A WATCH

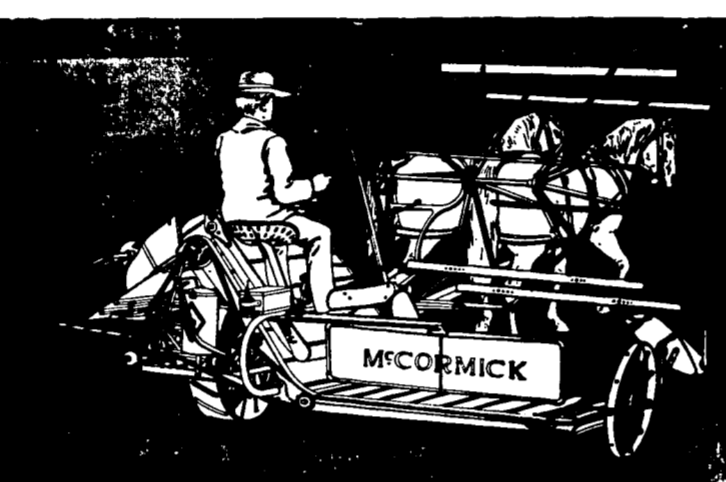

A poor timepiece is only half a watch—really worse than none, for it misleads you. I sell low-priced as well as fine ones, but no watch trash. I guarantee all my watches to be timekeepers, and you are safe in buying here, whatever price you may pay.

I always carry in stock Hamilton, Rockford, Illinois, Waltham, Hampden and Elgin watches in all grades, ranging in price from \$6.00 up. I also have on hand a limited number of the famous Howard Watches at \$37.50.

1000 UNFILLED HARVESTER ORDERS.

The demand for the Idaho National Harvester machines still keeps up. Over 1000 orders have been received by the company above their capacity to fill for the present year. This means that the demand for the machine is now ten times greater than the capacity of the factory.

The wonderful success of the machine in actual service is the direct cause for the big demand for machines. These orders have come to the company without solicitation upon their part. The work of the machine in the field has been so successful that hundreds of farmers have placed orders simply because they are convinced that there is no machine made which compares with the Idaho. Many manufacturing concerns have to spend thousands of dollars to introduce their particular output, but this is not so with the invention being manufactured in Moscow. One thousand unfilled orders means that the company has \$1,000,000 worth of business which it cannot take care of for this year. It means that the stock is going to be one of the best investments in manufacturing circles in existence. One implement dealer in a town not far from Moscow said that he alone could place 300 machines this year in his territory. Some orders are already being sent in for the coming season. The company is now planning to build an additional assembly room. This new structure will be either 80x200 feet in size, or 40x400 feet. Another 60-foot addition will be built on the south part of the present building, to be used for a forge shop.

Word came from southern California this week that the Idaho harvesters are now in the field there, and are doing splendid work. The future for the company looks brighter each day, and the machine is destined to be a big thing in the farming industry.

STATE ITEMS.

Petitions are being circulated in Canyon county calling for an election on the local option question. Canyon is one of the "dry" counties of the state.

F. W. Kettenbach of Lewiston and George Kester of Spokane have sold to a Minnesota firm 50,000 acres of white pine timber land adjacent to the North Fork of the Clearwater. The deal involves \$1,000,000.

Mrs. E. H. Harriman, widow of the late railroad magnate, will spend the summer months at the Railroad ranch in Island Park 35 miles north of Boise, where the Harrimans about three years ago, erected a beautiful summer home.

The state fish and game department is taking steps to place a complete check on the custom of the Indians catching and selling fish. The custom has existed for many years unhampered and has become quite an industry among the Indians throughout the state.

There is general indignation among the veterans of Phil Sheridan post G. A. R. of Boise that the church people of that city should contemn a baseball game played by their own church members on Decoration Day, the one day in the year held sacred by the old soldiers of the country.

By a vote of 82 to 35, 12 more than necessary for two-thirds, the people of Kendrick school district No. 24 last Monday voted to bond the district for \$15,000 for a new schoolhouse. The plans include a \$12,000 building and \$3,000 equipment, with manual training, domestic science and gymnasium.

The Salmon river is higher than for several years and many ferries between Whitebird and Salmon City have been compelled to suspend operations, the swift current and the masses of drift with which the stream is encumbered rendering it unsafe to attempt to cross. Old timers say there is still more snow lying in the mountains along the headwaters than for the last 30 years and with the sudden rise in temperature the last few days they predict an unusually high stage.

Idaho is still doing a land office business in one may judge from figures given out at the office of the state land department. Up to April 11, 1911, the date of the last regular report, there had been conveyed by the state under the Carey act a total of 1,176,393.77 acres. This with the acreage represented by the applications still under consideration by the department in Washington runs the total well up toward 3,000,000 acres. By three separate acts of congress 3,000,000 acres have been granted to the state to be reclaimed under the Carey act.

STANDARD LUMBER CO.

EDWARD ABERNATHY, Agent, Genesee, Idaho

Everyone Knows the Value of Lumber

These days, but the homebuilder who listens to the cry of "wait until lumber is cheaper" is not apt to be any nearer his goal on his deathbed than he is today. The government recommends TIMBER CONSERVATION and this alone is proof that lumber has a fixed value. Our years of experience in buying and selling lumber lead us to advise our friends that NOW IS THE TIME TO BUILD. There's but one crop of timber for most of us. If you contemplate a new home we want to talk with you—we have all grades of lumber. The lowest quality starts at good and goes up. Give us a call and learn the facts about lumber values.

TAX QUESTION IMPORTANT ONE.

S. D. Taylor of Bonners Ferry, state auditor of Idaho, who has just returned from a trip in the Potlatch country with other members of the state land board on an inspection of the timber land which the Potlatch Lumber company desires to purchase, is very much opposed to the method of taxation which Governor Hawley intends to carry out in this state.

Mr. Taylor has opposed the attitude of Governor Hawley all along in his idea of assessing property at its cash value. He is called the "father of the opposition," because he was the first to oppose when the matter was put up to the board of equalization.

Following in his footsteps Secretary of State Gifford and Treasurer Allen renounced their former position, leaving Governor Hawley and Attorney General McDougall as the sole sponsors of the new idea of assessing property at its full cash value.

Mr. Taylor clearly defines his position on the tax question as follows: "The tax question overshadows all other questions in this state. The center of interest will soon be focused on the board of county commissioners of the various counties of the state, sitting as boards of equalization. The county boards of commissioners meet on the second Monday in July as a board of equalization, and must complete their labors in time to enable their county auditors to mail an abstract of their assessment roll to the state auditor on or before the first Monday in August. This gives the commissioners but 30 days in which to complete their labors. In some counties there are over 8000 assessments. "If the commissioners would hear to taxpayers an hour, which would be only every six minutes, they could accommodate but 100 a day, or 300 in the time allotted to them. How they will take care of the other 8000 is puzzling to the commissioner. It is safe to say that every taxpayer will be on hand to protest against his assessment in many of these counties. "The fight is not against full cash valuation, but its present application. The foundation has not been laid. The full cash valuation law has been obsolete for 40 years, and our entire revenue system is built up on a low valuation basis. To enforce full cash valuation at this time means one of two things, either to raise millions of dollars more revenue than is needed, or to violate a half dozen laws, and usurp the functions of the state legislature. In any event there will be gross inequality, higher taxes and endless confusion. An extra session of the legislature may yet be necessary as the only solution."

GENESEE 11; MOSCOW 6.
In the ball game with Moscow on the local grounds last Sunday, the home boys defeated the county seaters by a decisive score of 11 to 6, this being the second game which our boys have taken from the Moscow team in the past two weeks. Halverson was in the box for Genesee and showed his usual good form. For the visitors, Vandenberg was the star pitcher. Two times during the game the score was tied, but the poor infield work of the Moscowites, gave our boys the advantage, and they had no trouble in winning. The score by innings was as follows:
Genesee.....0 1 2 3 3 0 X-11
Moscow.....1 0 1 2 0 0 2 0-6
The season for the Genesee ball team will be concluded next Tuesday and Wednesday, July 4th and 5th, when the team plays Caldwell at that place. No game is scheduled for next Sunday.

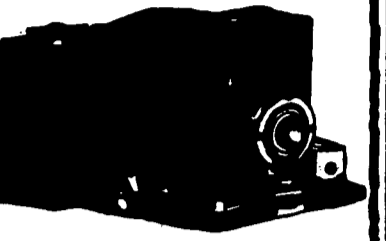

Everyone is jubilant over the change of ownership of this big road and with the advent through service on the Chicago, Milwaukee & Puget Sound road during the past few weeks, the northwest now looks forward to the most rapid and substantial development it has seen in years.

CHICAGO & N. W. ACQUIRES N. P.
An associated press dispatch of last Friday's date states: "Fifteen hundred cars of the Northern Pacific, according to reports from the east, are in the St. Paul shops, having the lettering 'Chicago Northwestern Pacific' placed on their sides. This report is confirmatory of rumors in existence for some time that the Northern Pacific has been, or is about to be, taken over by the Chicago Northwestern. That announcement of the new lineup, and that it is organized to fight the Milwaukee, will be made in a short time in the belief of local railroad men. Local agents of the Northern Pacific profess ignorance of the elimination of the Northwestern deal. Passengers and freight agents of the railroad operating out of St. Paul, however, have been carrying reports of the pending negotiations into this territory almost daily, and most of them profess the belief that the sale of the Northern Pacific has been concluded. One report is that on July 1 the first Northern train from the coast will run into the Northwesters depot at Chicago. In the division of lines in Washington between the Great Northern and Northern Pacific the new alliance would mean that the Chicago & Northwestern would operate the steam roads into the Palouse and Inland. The Great Northern would take over the S. P. & S. feeder and probably would enter an alliance with the Burlington as close to that road's former dealings with the Northern Pacific as possible. Everyone interested in the development of the northwest country is glad to see this change. The passing of the Northern Pacific from the Hill control means that this country will see in the Chicago & Northwestern a competitive transcontinental line, instead of merely the feeder it was for the Great Northern under the old regime. For the Palouse country it is of more than passing interest. It means that the Hill interest will be their hand in the Lewiston country unless the Spokane & Inland electric is extended from either Colfax or Moscow into the Lewiston and Walla Walla counties, and the prospects look very favorable at present for the completion of the electric line from Moscow through Genesee, to Lewiston.

Everyone is jubilant over the change of ownership of this big road and with the advent through service on the Chicago, Milwaukee & Puget Sound road during the past few weeks, the northwest now looks forward to the most rapid and substantial development it has seen in years.

METHOD OF ERADICATING SQUIRRELS.

The extermination of squirrels has no doubt caused the dry sections of Idaho more trouble than any other problem. Heavy losses are caused by their every year.

The College Farm has always donated a part of the crop to the squirrels, until the last two years. It no doubt is nearer free from squirrels now than any other farm in the Palouse country, it will at least compare very favorably with an area that has come under my observation.

We have tried every method that has been suggested to us, except dynamite. I suppose we would have tried that only for the lack of courage. I have known of instances where men have been seriously effected from the use of it in that way.

I do not believe it necessary to mention all of the different methods we have tried, some of which were very effective, but the expense makes them prohibitive for the farmer, while others were complete failures in so much as our experience was concerned. We have found trapping to be a very certain method. It requires considerable time, with but little other expense. The farmers who have children can find amusement for them in this way, as they seem to take a delight in the sport. Trapping must be done systematically or the results will not be satisfactory. Buy about one hundred traps. (Traps should not cost to exceed \$12 per hundred.) Start on one corner of the farm by placing a trap in each hole. Do not miss any. After a short time the squirrels near the edge of the farm will be caught, then the traps may be moved beyond the ones farther in, in a few days more move them up, and so on, always moving the ones farthest back ahead. Traps should be looked after twice daily. Bait is not necessary.

In the season of 1909 the College Farm leased twelve acres for corn, in order to have a stand, it was necessary to clear the land of squirrels, this we did with traps, and in ten days' time caught 437. These were not all on the twelve acres, but it was necessary to go farther back in order to protect the corn. This trapping was done by hired help and the cost was \$10.20. During the season of 1909 we caught a total of a little over 3000 squirrels. In 1910 some of the fields had an acre or more in them, yet we caught over 10000 squirrels. This season we have caught 350. We have used the Bourne Chemical Squirrel Tube on some land joining the College Farm, and found it very effective, in fact so much so that no squirrels dug out where smoked. I believe that one application of smoke from this machine, loaded according to directions, and used in April or May, will insure, if not entirely exterminate the squirrels on any farm. It matters not how numerous they may be, it is only a matter of a little more time and smoke. If the smoke comes from every hole, every squirrel is dead. This means a great saving of time and money, for time is money these days.

In order that farms may be made more profitable it is necessary to run them on more economical basis than is the general practice. The twelve acres on which we trapped could have been smoked with an expense not to exceed \$300, including material, hence a saving of \$7.20.

I have seen squirrels leave one field and travel for a quarter of a mile to another. The farmer, whose neighbor does not make an effort to kill the squirrels, finds it rather up-hill business on his own farm. For this reason, there should be a law enacted compelling the farmers of the state to use some effective means of exterminating these pests.

LEWISTON—PRINCE OF ENTERTAINERS.

In connection with the reception and entertainment, provided for the members of the North Idaho Press Club, by the citizens of Lewiston and its Commercial Club of live wires, the News has nothing but words of praise. From the moment the press boys landed at the Snake river metropolis until the time of their departure, they were the guests of Lewiston, and Lewiston "did the handsome" as a host.

On Saturday afternoon the boys were taken in automobiles over the beautiful Lewiston orchard tracts, south of the city, and over the Lewiston-Clarkston Orchard Company's big tract across the river. During the trip stops were made to give the boys an opportunity of seeing the bearing orchards, as well as to help themselves to the bountiful supply of cherries with which these trees were loaded, and we can truthfully say that we have never seen nor eaten any finer cherries than grow in the Clarkston country.

Saturday evening the club was entertained with a smoker, by the Commercial club. Talks were given by various prominent men of the state, interspersed with music and singing. Among the interesting talks given was that by Riley Atkinson, secretary of the Boise Commercial club who was there to present the plan for state publicity and he made a strong plea for endorsement by the Lewiston Commercial club and recommendations for county appropriations.

He said that Portland, Seattle, Tacoma and Spokane were expending large sums annually to pull their weight through Idaho to settle in Oregon and Washington, while the eastern and middle states were working equally as diligently to keep their people at home. He said that in securing public subscriptions to carry on publicity work locally that the burden was borne by a few enterprising citizens, while many of the wealthy property owners were never subscribers to such funds. He told of the efforts to get a large appropriation for the immigration department so that state publicity could be carried on through that department, but the legislature had cut down the bill to about \$25,000, so that not more than \$5,000 could be used for publicity purposes. He urged that the time had come when Idaho must take action to overcome the efforts of the people on the coast and the people in the east and middle west. He suggested that people coming to seek new homes seldom selected certain communities to visit, but started for the northwest, and at best only made their selections by states. He referred to the measure passed by the last legislature which authorized the boards of county commissioners to make levies to the amount of one-half mill for publicity purposes and in view of the shortage of funds in the department of immigration commissioner, the boards of county commissioners should make appropriations from \$500 to \$1250 to assist in the work.

The two days' visit of the Press club was made a continual round of pleasure for the members and we believe we can safely say that the hospitality and favors which were shown by this beautiful little city to them will be returned tenfold.

PRESENT CONDITIONS All point to bumper crops for the year 1911, and it is a good time right now for you to figure on your supplies for harvest. We are in a position to figure with you, and guarantee that we can save you money. Make out your list, buy from us under the same terms and conditions that you are buying elsewhere, and compare the results. We assure you that they will speak for themselves.

We believe that every person in the surrounding country, tributary to Genesee, would rather patronize the home merchant than some outside concern, prices and quality of the goods being equal. We realize the fact that we have got to meet competition, if we expect to do any business, and will prove to you that we can do so, if you will let us figure on your wants.

THE TAXATION FARGE CONTINUES.

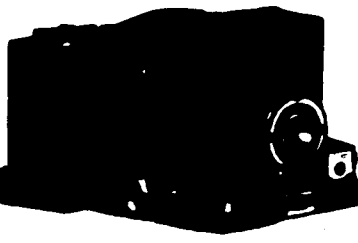

The Post has advocated the assessment of property with the state of Idaho at its full cash value, for several years. We believe that all property should be assessed as nearly as its actual value as is possible. We admit the difficulty of establishing an absolute value on any property, at any time, or in any place, and yet believe that it would be quite as easy to assess property equitably, at something like its value, as to assess equitably at a small fractional part of its intrinsic worth. Before our plan can be brought to a practical and successful application, however, there must be a foundation laid for it. We consider the policy of Governor Hawley, in attempting to enforce such an assessment at the present time, as most unwise, and most ill-timed. It may be said, that we are advocating a disregard for the laws of the state, and we have something to say elsewhere in this issue about the fast growing practice of law breaking in Idaho. We do believe that a technical violation of the law is much better in this case than a strict enforcement of it; just as we would consider it inadvisable and without warrant for an officer of the law to kill an innocent bystander in the discharge of his official duties. The whole trouble lies in the fact that Governor Hawley is attempting to do something that he cannot do at a time when the effort is proving disastrous to the best interests of the state. Governor Hawley declares that the plan is "working out successfully." He states that he has visited all but a few of the county assessors, and finds they are conscientiously endeavoring to enforce the order of the Equalization Board. We are sorry that Governor Hawley did not go farther and discover whether or not it is merely an "endeavor" on the part of the assessors. We are sorry that he did not discover what is very patent,—that the assessment proposition in Idaho, is as completely and inextricably tangled, as it is possible for twenty ordinary assessors to tangle it. We have a concrete illustration in the instance of a Moscow man whose property in Latah county is assessed at about three times the figure established last year, while the same man's property in Kootenai county is assessed at ten per cent less than last year. We have statements to the effect that Ada county is assessing at five times the valuation established last year, while some other southern counties are not changing the valuations at all. The question is not one whit nearer to a solution today than it was when the governor began to declare that the actual cash value assessment would be enforced. If Governor Hawley sincerely believes that all the assessors of Idaho are making an effort to follow out his plan, he is woefully mistaken, as the facts cited above will prove to any fair minded person, and the very fact that some have attempted to carry out the plan, while others have not, makes the situation one that must yet be dealt with to avoid the payment by certain localities, of exorbitant taxes, while other localities are allowed to escape by paying less than their equitable share. We give Governor Hawley credit for one great act,—that of producing the greatest tangle in state affairs that has been brought about by any man during the short history of the state. We admit our inability to foresee the outcome.—Moscow Post.

THE SUMMER FALLOW HABIT.

Summer fallowing is justified in some localities where the moisture of two seasons is required for one crop. But in the wheat belt of the Northwest it is a grand waste of time, money and opportunity aside from the useless waste of the soil's store of humus.

Its loss of time and money is apparent; and of opportunity, because there are highly remunerative crops which are well suited to fill the gap. But the unpardonable sin of summer fallowing is the utter waste of humus. Cultivation produces nitrification by stimulating bacterial action and in the presence of moisture and oxygen these bacteria fairly burn the humus of the soil. The result is that more nitrates are liberated than are required for the succeeding crop. Leaching is, therefore, encouraged and an excess of straw produced which the

WILL TAFT SUPPORT THE DEMOCRATS.

Since President Taft has laid a relentless hand upon congress and compelled it to deal with the Canadian bill, it can be no less than appropriate that congress should pass up to him a series of bills revising Payne-Adrich schedules, and giving him the responsibility either of approving them or of vetoing them. He had no possible chance to get his reciprocity measure, except as it became the Underwood bill, bearing the name of the democratic chairman of the ways and means committee. Since Mr. Underwood and his friends have given the president his reciprocity, might they not fairly expect that the president in turn would help them to have their wool bill and their cotton bill, and also their free list bill, brought to a successful enactment? There is the more reason for taking this view of it, because it was well known two years ago that Mr. Taft strongly desired the revision of those textile schedules. By a stroke of his hand, Mr. Taft could easily qualify as the logical candidate of the democratic party for the presidential nomination next year. He has not been in any sense, on any subject, a partisan president,—his original cabinet containing several democrats; and he has worked more efficiently and harmoniously with the democratic party in congress than he has at any time with the republicans. All of which goes to show that when practical emergencies arise, our parties have become rather a nominal affair and do not seem to stand out very clearly for contrasting programs. Perhaps we are approaching a period of party re-organization—or perhaps partisanship is outgrown.—From "The Progress of the World," in the American Review of Reviews for July.

STATE ITEMS.

Because of the rapid increase in the number of prisoners at the state penitentiary and the consequent demand for cell room, Warden Snook proposes to at once begin the installation of forty more cells in the new cell house in the prison yard.

A party of government surveyors that is going through the country taking elevations has fixed the elevation of Lewiston at 741 feet above sea level. This is slightly higher than it was believed to be. The highest elevation on the road between Lewiston and Geneese was given as 2900 feet.

The long haired Indians of the Nez Perce tribe are making preparations for a big celebration of the Fourth at Lapwai and will try to make the affair larger than ever before. A war dance and parade will be features of the celebration and the whites will be invited to witness the affair.

State Commissioner of Horticulture Huntley estimates this year's fruit crop in Washington at 85 per cent of the normal. That is about one-half the amount yielded last year. For the country at large, the government reports a normal fruit crop. So far as northwest fruit-growers are concerned, it is predicted that better prices will prevail this year than last.

A great number of the ranchers in the vicinity of Spirit Lake are rejoicing over the news that the surveys made by the government were accepted and that the land will be open for filing on and after July 17 at the land office in Coeur d'Alene. A number of the ranchers have been living on this land for the last six or eight years, and a part of it has been surveyed before, but owing to some error in the work the survey was not accepted. In all something over 250 homesteaders living in the vicinity of Spirit Lake will be able to file.

MUST PUBLISH SCHOOL REPORT.

Section 61, Article VI, Chapter 158, of the Idaho Session Laws for 1911, reads as follows:

REPORT OF TRUSTEE.

Sec. 61. It is the duty of the Board of School Trustees to make a report in writing, on the first day of July, of the financial condition of their respective school districts, showing the amount of money received, from what source, the amount expended, and in what manner and for what purpose expended, and the amount of money in the treasury of the district or to the credit of the district on hand at the date of the report, the said report to show in full the financial condition of the district at the date thereof; Provided, That the report of any expenditure shall contain the specific items, amounts, and names to whom such expenditures were made. It is hereby made the duty of the Board of School Trustees of each district to cause the said report to be published in a newspaper published nearest the school house of said district and posted in three (3) conspicuous places in the district, and to retain a copy of the said report in the office of the clerk of the school board of said district, where the same may be at all times open to examination and inspection by any person.

Governor Hawley has offered a reward of \$300 on behalf of the state for the apprehension and arrest of Miss Grace Loughran, former superintendent of schools of Bennecke county. Being in need of money, having to support a widowed mother and a sister, she began to forge the name of a young farmer by the name of Watts, it is charged. In this way she managed to get over \$1,000 of the state's money. When discovered, her mother paid back the money, but the girl had escaped. The warrant is yet out for her arrest.

EARNING THEIR EDUCATION.

A circular has been issued by the Y. W. C. A. of the Lewiston Normal which undoubtedly will be of interest to earnest and ambitious young people who desire a higher education, but who lack the necessary means. President George H. Black will send a copy upon request. In the circular are described the various opportunities in Lewiston to earn enough money to pay expenses while attending the normal. At least twenty-five per cent of the normal students earned a part or all of their expenses during the past year. There are available, too, at the normal, three loan funds, the loans being made with the understanding that it is to be paid in small monthly installments when the student obtains a position.

MOVE POSTOFFICE TOMORROW.

Postmaster D. C. Barr received permission from the United States post-office department, the fore part of this week, to move the postoffice from its present location, where it has been for many years past, into the building recently purchased by Mr. Barr across the street from its present site. This building has been entirely remodelled by putting in a splendid new floor, painting, etc., and by the addition of a modern set of postoffice furniture, all combination lock boxes of the latest design.

The transfer of the office will be made tomorrow, July 8th, and Postmaster Barr expects to have everything in smooth working order in the new place by the fore part of next week.

WIN ONE—LOSE ONE.

Although a game had been scheduled with Troy last Sunday, that team failed to put in an appearance, and a game was played between the Genesee regular team and a picked nine, resulting in an overwhelming score for the Genesee boys.

On Tuesday the team went to Caledonia, where two games were played with that team, the one on Tuesday resulting in a score of 9 to 7 in favor of Caledonia and the second game, on Wednesday, resulting in a score of 6 to 2 in favor of Genesee. The latter game was picked by Genesee's young "phenom" twirler, Tony Halverson, who on last Monday, in a game between Moscow and Palouse, struck out 18 of the Palouse sluggers, and winning for Moscow one of the prettiest games of the season.

SELL THEIR HOME FOR \$20,000.

John Koses was in town yesterday in company with a Mr. Foster from the Salmon River country south of Forest and informed us that Vincent and Joseph Loring had disposed of their place claims six miles below the mouth of Maloney creek to an eastern company for \$20,000. Mr. Foster, who represents the company, was here having some freight and supplies hauled out to where they could be packed to the claims. An attempt had been made to get the things in by boat but they only succeeded in reaching a point 18 miles below the mine and the supplies had to be taken back to Lewiston and shipped to this point.

The Loring brothers have been on a deal for the sale of their property for the past several months and now that they have disposed of it they will go with other relatives to California for an extended visit.—Cottonwood Chronicle.

Vincent and Joseph Loring are the sons of Mr. and Mrs. Frederick Loring, now of Spokane but who were for many years residents of this country. The many friends here of these boys are glad to learn of their good fortune.

FORMER GENESEITE DIES.

Hans Erickson, who was for many years a resident of the Genesee country, having been one of the prosperous farmers, living 6 miles north of town, but who, since last fall, has made his home on his 320-acre homestead near Galata, Montana, died at that place last Saturday morning of kidney trouble after an illness of two weeks. The body was shipped here for burial, arriving Wednesday afternoon and the funeral services, conducted by Rev. Sweger of Moscow, were held in the Lutheran church, 6 miles north of town. Interment was made in the Lutheran Synod cemetery.

Hans Erickson was born in Norway in 1856, and in 1872, at the age of 16 years he left the old country coming to America. He settled in the Genesee country 22 years ago at the age of 33. At the time of his death he was aged 55 years.

Deceased is survived by a sister, who has been in Montana, but who will make her home with a nephew here, Andrew Erickson, and a brother who lives in Norway. These have the sincere sympathy of many friends here in their hour of sorrow.

KILL MORE THAN WILD BEASTS
The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel those deadly disease germs from the system. That's why the chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at F. E. Dicus & Co.

FRIDAY, JULY 7, 1911

—Ed. Keane was a business visitor in Colton last Saturday.

—Geo. Martin and Henry Phipps came up from Roparia last Monday to spend the Fourth with home folks.

—Mrs. Geo. Mudgett, of Spokane, is visiting here this week with the B. Phipps and the Geo. Martin families. Mrs. Mudgett is a niece of Mr. Phipps.

—Chas. Whalen left last Tuesday morning on a two-weeks' vacation, and will visit with relatives and friends in North Yakima, Cheney and Spokane during his absence.

—Miss Adalene Bressler, who has been visiting with her cousins, the Misses Mainline and Atta Scroggin, of Spokane, for the past two weeks, returned home last Saturday afternoon.

—At the meeting of the Literary Club last week it was decided to hold meetings every two weeks instead of once a month. The next meeting will be held next Friday, July 14, at the home of Mrs. E. A. Harden.

—Amos Johnson, agent of the Northern Pacific Railway at Edwall, Washington, was visiting here this week with his friend, Edw. Abernathy. He left Thursday morning for a trip of several weeks in the eastern states.

—Mrs. Grant Clark and little daughter, Esther, who were visiting in Pullman with relatives and friends returned home last Saturday afternoon. Miss Cyrena Gannon accompanied them down, and visited at the Clark home over the Fourth.

—Prof. and Mrs. L. T. Babcock and daughter arrived from Troy Wednesday and will make their home in Genesee, having rented the J. C. Hanson house in the east part of town. Mr. Babcock is the principal of our schools for the 1911-12 term.

—Miss Fowler, representing the Ohio Varnish Company of Cleveland, Ohio, and demonstrating the durable and handsome qualities of Chi Namei, one of their varnishes, was a visitor at the Driscoll hardware store Wednesday and Thursday. Miss Fowler is an expert in her line, and showed the many people who called at the store, that the product was indeed a remarkable varnish.

—Genesee presented a most deserted appearance last Tuesday, the Fourth of July, when there was an exodus of our people to Moscow, Uniontown, Caledonia and Lapwai to celebrate with the people of those places. Everything that had wheels was put into service that day, and the Northern Pacific added an extra car to the equipment of the regular train carrying the people to Uniontown, which city drew the most of our people. Agent Smith states that over 75 tickets were sold to that place on the Fourth, and fully that many more went overland.

The equipment of the plant is being taken out and removed to Pullman.

—Mrs. Glenn Sampson suffered a painful accident last Tuesday while attending a picnic on the Fred Vanouck place west of town. In running down a hill, she slipped and fell, breaking her arm at the shoulder. She was brought to town immediately and Dr. Tommy was called to set the break, which is now improving and it is hoped will be fully mended within a few weeks.

—Old times were recalled in Genesee last Sunday afternoon, when Will Kennedy and Perle Rogers entertained a large crowd of people on Warehouse street and settled a dispute of long standing between themselves as to who was the fastest 100-yard man. The race, which was as pretty a one of its kind as was ever seen here, was won by Kennedy, by the bare margin of probably half a step. The time was eleven seconds flat, and was necessarily slow on account of the roughness of the street.

Get Together and Boost. It Pays, Says Gerrit Fort

Idaho, the state of satisfied people, became more pleased with herself recently when the Union Pacific announced that \$75,000,000 was to be spent to double track the Union Pacific system from Omaha west to the Pacific coast. A short time later when Gerrit Fort, passenger traffic manager of the system, told the world that \$1,200,000, the greatest amount ever appropriated by any one concern for a like purpose, was to be expended in telling the world of the advantages of Idaho and the rest of the Union Pacific territory, Idaho took on even a more satisfied smile and chuckled: "Before they found out what a great water supply I had, and what my lands would do, these double tracks weren't needed and they didn't think of advertising on such a scale. I had a big part in it."

"Idaho did have a big part in our plans," said Mr. Fort. "In fact it was the possibilities of Idaho and other parts of our territory that caused this big appropriation to be made. Then, too, the great exhibits of the United States Land & Irrigation Exposition company at Chicago, the Chicago and the Western Land Products Exposition held in Omaha opened our eyes wide. The way the people crowded into their exhibits and gathered about the exhibits of the wonderful fruit and grain products took our breath away. It was the last summer that also helped do it."

Did Not Know Where to Go.

"You know where to go," said Mr. Fort. "that six-tenths of the people who go to the newer states in search of farm homes or new locations for business come to Chicago and Omaha territory. Government statistics tell us that. These people, many of them, are not satisfied with their present lots of our territory. They are not satisfied but they cannot leave much, for the expenses of the city take away the money almost as fast as it is possible to get it. Consequently the land owners gave them an opportunity to find the new home."

"When we began our plans for this country, we looked to the West for Northwest and in the South and Southwest there was a strong 'community spirit' prevailing, and the people were working together to see the best they produced to Chicago and Omaha. Then we went into our own territory in Idaho and looking it over, we saw Chicago and Omaha territory. Government statistics tell us that. These people, many of them, are not satisfied with their present lots of our territory. They are not satisfied but they cannot leave much, for the expenses of the city take away the money almost as fast as it is possible to get it. Consequently the land owners gave them an opportunity to find the new home."

Probably the first coal to be mined in the much disputed Alaskan area will be taken out by the government. The latest project is to establish a naval coal reserve. From this, fuel will be produced for naval operations in the Pacific ocean. Although this will be a step forward, it will not relieve the situation with regard to the people of Alaska who need coal, as well as those of the Pacific states. As an indication of what may be expected if the northern fields are opened, the Copper River & Northwestern Railway has already declared that it will build one hundred miles of track as soon as the government says "go ahead." And now all are waiting on Uncle Sam.

FARMERS OPPOSE POLL TAX.

A mass meeting of representative farmers of Latah county was held at Moscow Monday to discuss the new poll tax law of Idaho. The county commissioners, as a board of equalization, and the farmers met in the courthouse to discuss the law with the commissioners. Indignation was expressed by farmers of whom there were about 75 present, and not one spoke in favor of the law. The law does not exempt women, the crippled or the aged from paying the road poll tax. The law leaves it to the discretion of the commissioners whether the road poll tax is levied in any county. The farmers asked the commissioners to rescind the levy, because they considered it an unjust law. Nearly \$7000 has already been collected in Latah county through this tax. Can the county commissioners refund this sum if they rescind the tax, ask the farmers. The commissioners say they can not. Another question which grew out of last Monday's discussion, which became heated at times, was whether the property of parents could be levied upon for the nonpayment of the road poll tax by an adult son or daughter who has no property. There will be about \$10,000 raised this year by the road poll tax, and the county commissioners told the farmers that if this tax was not levied that the mill rate tax would have to be raised sufficiently to raise that sum by taxing the property of the county. The sage hen season opens on the 15th of this month and it is evident that the birds will be a great deal smaller in number this year than usual. Range riders and hunters who made investigation claim that the flocks will be smaller than usual, also, as the season has not been a favorable one.

CALIFORNIA FARMERS PRAISE COMBINE.

J. A. Keener, after a month in Brawley, California, looking after his half section farm, returned to Moscow Friday afternoon. It was his privilege to see some of the Idaho National Harvester working in barley on irrigated lands, and took the time and interest necessary to inquire as to the results of the tests. Mr. Keener says that he was in the field and saw one of the four machines running, and asked the farmer how he liked it. The reply was: "Fine." He says the harvest commenced there about the first of May, and four of the Moscov machines were in operation in that neighborhood. He saw only one in operation, but inquired and found that all four were doing the finest kind of work. "They told me the machines were entirely satisfactory," said Mr. Keener. "And, continued the doctor, 'you may say for me to the people of Moscow that there can be no question about the success of this machine. It has now made good in California. I heard lots of people inquiring about it, and many boasting. I found that those who owned them and were harvesting with them were entirely satisfied.'"

Mr. Keener told the Star-Mirror reporter that in his opinion the Idaho National that he saw in operation near Brawley was working under conditions as difficult as could well be imagined, and explained that it was doing excellent work in barley that was down and badly trampled. Some of the straw lay on the ground to get it, and while the Idaho was not getting all of this, for such a thing would be impossible for any machine in the world, it was getting enough to satisfy the farmer that it was alright, and he did not hesitate to tell me so. I did not tell him who I was nor where I lived, for I wanted

his unbiased opinion, and after watching the machine in operation I was convinced of the truth of what Mr. Keener, the owner, told me. "I heard a great deal of inquiry, and from what I saw and heard know that there is going to be a big demand for Idaho National harvesters from the Imperial valley. There ought to be a big demand from other sections of California where the conditions are more favorable, and where the Moscov harvester will work even better than at Brawley. The biggest thing in favor of the Idaho Harvester is its great saving in labor, for it is next to impossible to get help in the harvest fields in California. With the Idaho this question is solved, and now that it has demonstrated its ability to do the best kind of work there will come a demand that will require a large factory."

The reporter suggested a factory that would employ a few hundred men. Dr. Keener said: "It will require a plant that will employ many men, for California is only one of many sections that will want these harvesters, and the demand is going to develop rapidly."

The machine referred to which was owned by a Mr. Theodor, had, at the time Dr. Keener left for Moscow, harvested over 400 acres this season, and was still in operation.—Star-Mirror.

GOOD JOB FOR BROOKS.

F. D. Brooks, who entered Baker University last fall, and who leaves with this year's class, having taken the post-graduate course and received the A. M. degree, has been elected to the superintendency of schools for Guthrie, Okla. Guthrie is a city over 18,000. Brooks will draw a salary of \$1800. He has had several years' experience as a teacher and superintendent, his position last year being at Genesee, Idaho. Very rarely do college graduates step at once into positions which compare favorably to the one Mr. Brooks has secured for next year, and heartfelt congratulations are extended.—Baker University Orange.

The many friends here of Mr. Brooks are glad to learn of his having attained the A. M. degree and his good fortune in securing the splendid position in Guthrie.

ROBBINS-BRYANT.

Mr. C. M. Robbins, proprietor of the Grand Central hotel, and Mrs. Carrie M. Bryant of Harlowton, Montana, were married in Lewiston Monday by the Rev. Lattimore of the Presbyterian church. Mr. and Mrs. Robbins are making their home in the Grand Central hotel, Mrs. Robbins taking an active interest in the management of the hotel.

The News joins with its many readers in wishing the newly wedded couple a happy and prosperous married life.

ABOLISHMENT OF THE DRINKING CUP.

XXXVII. Whereas, It has been repeatedly demonstrated that the use of what is usually known as the common drinking cup is dangerous, and is an undoubted source of communication of infectious diseases, now, therefore in the interest of the public health,

BE IT RULED BY THE IDAHO STATE BOARD OF HEALTH.

That the use of the common drinking cup on railroad trains, in railroad stations, in hotels, in stores, in the public and private schools and the state educational institutions of the state of Idaho is hereby prohibited, from and after January 1st, 1911.

No person or corporation in charge of or control of any railroad train, or station, or public or private school, hotel or store, or state educational institution shall furnish any drinking cup for public use and no such person or corporation shall permit on said railroad train, or station, hotel, store or at said public or private school, or state educational institution, the common use of the drinking cup.

—Wm. Roeman is erecting a five two-story house on his farm 2 1/2 miles northeast of town.

—A fire on the W. A. Ross place, east of town on the Potlatch and 2 miles below Leaville, about 10 o'clock Wednesday morning completely destroyed his new barn and contents, consisting of farm implements, lumber and about 30 sacks of last year's bean crop. The barn was splendidly constructed, being one of the best in that vicinity, and the loss is estimated at \$1000. A calf and a few minor articles were saved by the timely arrival of J. C. Ovelar, Mr. Ross having been absent from home at the time of the blaze.

COLORADO POTATO BEETLE IN IDAHO.

Now is the time to watch potato vines closely for this insect, which has already become widely distributed in the northwest part of the state, and is spreading considerably each year. Shortly after the potato vines come up, in May or early June, the beetle makes its appearance on the vines in new localities; if taken in time its spread can be prevented for the year. It does not fly to amount to anything later in the season.

The insect, which is the common bug of the country east of the mountains, is a plump beetle, half an inch long, reddish brown, with yellow and black spots on its back. It clusters on the potato vines, and when it emerges and begins to devour the potato leaves.

It occurs at present in Latah, Blaine, Nez Perce and Shoshone counties, but may make its appearance at some distance from these places next year, as the beetle is in the habit of migrating in the spring. To prevent its introduction, it is suggested that a single adult beetle was taken from a potato patch at the Experiment Station in Moscow, in June, and already deposited several hundred two or three adjacent to the potato vines.

The insect was taken from the surrounding vines of all the eggs which were laid, which were found on the potato vines. The beetles were found up to the introduction of the insect, and at least two of these being present, nearer to the Experiment Station.

FARMERS CAN CUT COST OF LIVING.

Within the grasp of the farmers is a solution of the high cost of living problem.

This is the contention of B. F. Yoakum. Mr. Yoakum is one of the big railroad men of the country. He is chairman of the St. Louis & San Francisco road and has a long list of other important positions.

The high cost of living problem has received his special interest and attention, so he avers. Now he advances the belief that if the agriculturalist and the railroads get together they can cut down the living cost.

"It is too far from the farm to the table," Yoakum declares.

"The trouble with farm products is that it takes them too long to get from the farm to the table," said he in a recent interview. "The value of farm production in the United States is \$9,000,000,000. Of this \$4,500,000,000 goes to the middleman. I don't suppose that we could devise any system by which that entire \$4,500,000,000 could be saved to the consumer."

"But half of it ought to be saved. It is perfectly possible to devise a plan by which half of that total loss could go into the pockets of the consumer. What the trusts have done has been to discover that you can save money both in manufacturing and in distributing." The chief saving is in distributing.

"The time will come when the farmers of this country will work under a strict business organization for their own protection, and the consumers will reap the real advantage of it as much as the farmers will. The farmers will have shipping agencies at the farm, and they will do this through co-operation with the railroads. In the big cities they will have their marketing agencies. There will be a direct connection between the farm and the table."

"No farmer gets rich by producing a certain amount of potatoes, cabbages, or onions. If he gets rich at all it is because of the price for which he can sell these things, and the waste he can cut out between the farm and the table. It is not the farmer's profits that make living expensive. It is what it costs him to get the things to the railroads and to the consumer."

"After a careful investigation a table was made which showed the respective amounts received by the farmers and paid by the consumers for ordinary articles of food in New York City. It is hardly worth while to reproduce that table, but your readers might be interested to know that eggs paid the farmer \$17,238,000, and that the consumer paid for them \$28,730,000; that the farmer received \$1,825,000 for cabbages, and that New York paid \$9,125,000 for them; that milk paid the farmer \$22,912,000, and that you New Yorkers paid for it \$48,880,000; that potatoes netted the farmer only \$8,437,000 and that you paid \$60,000,000. I might go further and give you many other figures, but what's the use?"

"The freight paid on the ordinary farm article received in New York in that period was approximately \$25,045,000. Mind you, these are only articles of food. On them the farmer received in that time \$274,289,000. The middleman, after paying the freight bill of \$25,045,000 made in expenses and profits \$164,813,000. What this means, put in plain language, is that the expenses of handling and profits were over 60 per cent, in addition to the freight. If you would cut that thing down one-half you would make a saving of \$82,406,500 a year in New York on those products alone."

"The articles referred to are eggs, coffee, rice, cabbages, onions, milk, potatoes, meat and poultry, and the sum total received by the farmer last year for what he sold in New York is \$274,289,000, while the consumer paid for it \$464,147,000. These articles represent approximately five-eighths of the annual food bill of New York."

"The farmer and the railroad ought to realize the fact that they are meant to be partners. The channels through which food products reach the consumer are the producer, the transporter, the wholesaler and the retailer. Men who are suffering from high prices have been so prejudiced against the railroads by demagogic politicians that they believe the railroads are responsible for increased living ex-

penses; while, as a matter of fact, the average freight rates within the last 35 years have been cut in two. But the reductions have not been for the benefit of the consumers.

"Why not? In 1886 the price of flour was \$3.25 a barrel. In 1910 it was \$5.40, an increase of 60 per cent. With the retailer's profit added, the consumer was paying 90 per cent advance in price for flour, while the railroads were hauling both wheat and flour for 10 per cent less from the west and from the mills to the markets."

"In 1896 steers were selling at \$4.65 per hundred. In 1910 the price was \$8. In 1896 butchers paid 5 1/2 cents a pound. In 1910 they paid 8 1/2 cents, an increase of 50 per cent."

"The department of agriculture made an investigation and turned up the fact that the retail butchers had made 20 per cent profit in New York, 42 per cent in Washington, 46 per cent in Chicago, 64 per cent in Mobile; and on an average from 50 principles cities the retail butcher made 38 per cent."

"The railroad rates have been generally decreased from 10 to 15 per cent on beef. Yet it has gone up from 50 to 75 per cent to the consumer. In 1896 ham cost 10 cents a pound wholesale. In 1910 it cost 14 1/2 cents. The increase was 45 per cent. In the same period the freight rates on hogs were decreased 15 1/2 per cent."

"The railroad commission reduced the rate on coal in Oklahoma from 20 to 25 per cent. The price of coal was not reduced to the consumer."

"The same commission reduced the rates on lumber by 48 per cent, but the farmers of Oklahoma are paying the old price for lumber."

"I think it is about time the railroads and the farmers got together. Whatever antagonism has been made between them is purely demagogic. They are cut out to be partners and they should be."

IDAHO STATE FOREST, FIRST IN WEST.

While another meeting will be required to dispose of the details it has been practically agreed upon that Idaho will have a forest reserve of her own. As a result of conferences in Boise between state officials, Associate Forester Potter and other forestry officials, the differences of Idaho and the national government over forests have been about adjusted. Idaho secures undisputed title to approximately 75,000 acres of the best timber land in the Clearwater national forest and the foundation is laid for the complete and prompt settlement of all other phases of the public school land question that has so vexed the state for a number of years.

Under the agreement the state will be enabled to relinquish all its scattered school sections 16 and 36 and select in lieu thereof land of equal character and value in compact bodies. This is the desire of the state as expressed by the members of the board and is agreeable to the federal government. This, it is confidently believed, permanently solves the public land question and removes all possible cause for friction between the state and the federal government.

The situation in general was explained by Forester Potter. "The result," he said, "will be to eliminate four and one-half townships from the Clearwater national forest, and of this the state will own approximately 75,000 acres. This under the resolutions adopted, will result in the establishment of a state forest."

"This will be the first state forest established in the west. Idaho takes the lead of all her sister states in this important particular. It means that the state has set aside this area for forest purposes to be held by the state with a view to the preservation of favorable conditions as to stream flow and to the protection of forests."

J. H. RADER DEAD.

J. H. Rader, who for the past four months has been suffering with heart trouble, passed away last Friday morning, July 14th, at 2:10 o'clock. Although changes of climate had been made by the deceased in hopes of improving his health, they were of no avail, and for the past two months he had been confined to his home here, unable to get out of bed. At the time of his death Mr. Rader was aged 53 years, 11 months and 4 days.

The funeral services were conducted at the home on Sunday morning by Rev. A. F. Wolf, and following this the body was taken to Uniontown for interment. Many of the friends of the deceased accompanied the body on the train to Uniontown, attending there the last sad rites which were also given by Rev. Wolf.

John Hamilton Rader was born in Push county, Indiana, on the 13th day of August, 1857, where he lived until after he became of age, moving in the late '80's to Missouri with his parents. After remaining in Missouri but a short time he came west in 1888 to Uniontown, Washington, where on the 20th of April, 1890, deceased was married to Miss Amelia Fix. In Uniontown Mr. Rader was engaged in the butcher and stock business which he followed after moving to Genesee in 1908.

He became sick last winter from heart trouble, and these attacks became more frequent and serious, resulting finally in his demise.

Deceased leaves a widow, 6 children, a father and 5 sisters to mourn his loss. The children are: Oscar, Milton, Willie, George, Florence and Margaret all of Genesee, the father, Milton Rader, resides at Midvale, Idaho, and the five sisters are: Mrs. Douglas Steel of Indianapolis, Indiana, Mrs. Walter Ayers of Pendleton, Oregon, Mrs. J. T. Mayfield of Stiles, Idaho, Mrs. Effie Whitehead of Midvale, Idaho, and Mrs. Cora Whitman of Little Falls, New York.

The news joins with an entire community in extending to the family of the deceased its most sincere sympathy in their hour of sorrow.

CARD OF THANKS.

We desire to thank those who so kindly assisted us during the recent illness of our beloved husband and father.

ROY AND PRENTICE BURR MARRIED.
Chas. F. Burr received a lettergram last Thursday night from his son Leroy Burr, at Boise, Idaho, announcing that he had been married on Wednesday, July 12th, to Miss Maudie Roberts of Boise. They have gone to housekeeping in that city and are at home to the their friends at 304 West Bannock Ave.

Word was also received at the same time from his son S. P. Burr at Bannock, Montana, that he also had been married on Monday, July 3, to Miss Myrtle Harris, of Dillon, Montana, at that place, and will make their home at Bannock.

These two young men enjoy a very favorable acquaintance here and in the surrounding country, having spent the larger portion of their boyhood days in this city. Their many friends here wish for them a happy and prosperous wedded life.

LEO ROSENAU DROWNED.

A most sad and unexpected death occurred at 9 o'clock last Saturday night, July 14th, when Leo Rosenu, 17-year old son of Mr. and Mrs. Wm. Rosenu, was drowned while swimming in the Brigham pond 9 miles east of Genesee. Leo had gone bathing with a number of neighbor boys and in attempting to swim across the pond and back, he was seized with a cramp and sank before help could reach him. It had grown quite dark at the time of the accident, and although the other boys knew his cries for assistance they were unable to see him. Help was summoned among the neighbors, but it was almost 2 1/2 hours before the body was recovered. Leo Herman Rosenu was born in Fairbault county, Minnesota, on the 8th of March, 1894, and came to Genesee with his parents a little over a year ago, in March, 1910. At the time of his death he was aged 17 years, 4 months and 7 days. The funeral services were held on Wednesday afternoon from the German Lutheran church, Rev. A. F. Wolf officiating, and interment was in the German Lutheran cemetery.

Deceased leaves a father, mother, two brothers and four sisters to mourn his loss, and the news joins with a sympathetic community in extending condolence to the bereaved ones in their hour of sorrow.

HERBINE For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

Constipation is the most common disorder of the bowels. It affects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exertion than the occupations of men; therefore women suffer most from its baneful effect.

A constipated person is an easy victim when exposed to any serious disease—Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated.

Even though they escape these diseases, such persons are always illing more or less. They have headaches, bad digestion, distention, vertigo (blinding staggers), slow complexion, flatulence, loss of strength, and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a prompt check on biliousness, wind in the bowels, nervousness, heartburn, bad breath, low spirits, drowsiness in the daytime and nervous wakefulness at night.

Price 50c per Bottle.

STATE ITEMS.

Heading has been commenced in the Tamaqua country south of Lewiston and it is stated that barley there will average about 40 bushels and wheat 35 bushels per acre.

Kenneth Gordon of Lewiston, a prominent citizen connected with the Kenneth Gordon Preserving company, disappeared mysteriously about June 13. Since that time, no information has been received as to his whereabouts.

Mr. Gordon was an active worker for civic improvement in Lewiston and it is believed by many that he has been the victim of foul play.

In addition to the Idaho National harvester combine, another combine is now under construction in Moscow. The second invention is being built by J. J. Anthony. One of the principal features of the new machine is a self-leveling cleaver. The machinery part of the combine is to be run by a 20-horse power gasoline motor, the leaving horses to push only the weight of the machine. It will require eight horses.

The northwest needs a mint and Seattle has set out to get one. The banks of Washington, Oregon and Idaho have asked for more coin and the government says it has no money to pay shipping charges.

An appropriation of \$300,000 for that purpose having been exhausted. As preliminary work is found in abundance in this part of the country, it is urged that they should be minted here, thereby effecting an economy. This issue has been brought to the front as the result of a revision in the assay office charges which threaten to militate against the Seattle branch.

LEWISTON NORMAL IN THE LEAD.

The coming year of the Lewiston State Normal school promises to be the best in the history of that state institution, according to Dean Hollowell, who is quoted in a Spokane paper. The student enrollment in 1910-11 was 332, and in 1911-12 it is expected that it will be at least 400.

Several new instructors have been added to the faculty, which now numbers twenty-eight. Of the seven normals in the Pacific northwest, Lewiston leads, from the point of view of equipment, efficiency of faculty, courses offered, and student enrollment. It is expected that the senior class which will graduate in June 1912 will number at least fifty. No normal school in the west has grown so rapidly as the one at Lewiston.

ONE-YEAR COURSE IN DAIRYING.

In addition to the four-year work in dairying, which is planned especially for those who want to prepare for teaching dairying, or to do United States government, state or municipal inspection work, the university offers a one-year course in commercial dairying. This course is especially planned to meet the demand of those wanting to acquire a knowledge of practical dairy methods as well as something of the scientific principles.

This course has been offered for the past three years and proved very popular. The work covers a period of two semesters. During the first semester, beginning September 18 and ending February 2, the student will be given lectures on secretion and composition of milk, cream ripening, butter making, milk and cream testing, bookkeeping, breeding and judging dairy stock, factory management, dairy bacteriology, dairy engineering and dairy chemistry.

During the second semester, beginning February 5 and ending June 12, lectures will be given on cheese making, feeding dairy cows, scoring butter and cheese, dairy bacteriology, factory management, dairy chemistry and ice cream making.

In addition to the lecture and class room work the students are required to do practical work in the university creamery. This creamery is run on a commercial basis that it may offer the largest possible opportunity for practical work. Practice of this kind enables the student to gain a thorough knowledge of the practical as well as theoretical phases of creamery work.

There are no scholastic requirements for entrance to this one-year course in dairying. Tuition is free. All the facilities of the university, including the library, gymnasium and dining hall are open to students in this course. Students completing this course satisfactorily will receive certificates. Should the student decide to take other work in the college, due credit will be given for the work completed.

Those interested in a course of this nature should write to the Department of Dairying, Moscow, Idaho, for a free circular which fully describes the course.

"ACROSS THE CONTINENT."

There is a striking significance, a wealth of romantic atmosphere, of the awakening of a new era, and a vivid, elaborate picturing of the wilderness responding to the genius of western constructive civilization in the beautiful book written by Isabelle Carpenter Kendall, entitled "Across the Continent," a copy of which has just come to the reviewing desk. It is the first book of the Chicago, Milwaukee & Puget Sound Railway, and as a luxuriously designed and printed volume descriptive of the wonderlands between the Mississippi and the Pacific ocean it compels attention as a superb work of art. The book contains some seventy large quarto pages of heavy calendered paper and the elaborate picture work in colors throughout, as well as the distinctive letter press and art, disarm criticism. Its chief significance lies in its demonstration of the grandeur and magnitude of the 1,600 miles of new railway through new territory in the prolific west. The text is a concise, impressive descriptive story of a trip over the entire line, and the production of photographs in colors are splendid examples of engraving and printing art. The principal towns and districts along the line are comparatively described, as well as the chief elements of improved railroad building that have attracted world-wide attention to the Milwaukee road, which represents in some respects the most remarkable of modern accomplishments in railroad construction. The book is issued by the publicity department of the Chicago, Milwaukee & Puget Sound Railway which is in charge of General Passenger Agent Geo. W. Hibbard and Traffic Manager R. M. Collins, Seattle, Washington.

There will be three big land shows in the east this fall. New York, Chicago and Omaha are planning to hold exhibits that will let prospective home-seekers know what the entire country has to offer. All transcontinental railroads are aiding in these projects, lending their generous financial assistance. The exhibits of the various shows have been active in the northwest for some time, lining up the various districts. It is safe to say that Washington, Oregon and Idaho will be well represented.

GOOD ROADS AN ECONOMIC NECESSITY.

"A complete system of roads," said Logan Wallen Page, director of the United States office of Public Roads in Washington, D. C., recently, "is an economic necessity." This statement carries conviction to the minds of thoughtful, or ordinarily observant men, but for the benefit of the masses who must be awakened to the necessity of the good roads movement that is now being agitated is to receive the support that is its due, Director Page submits facts and figures that virtually close the case without argument.

We are accustomed when speaking of travel and traffic to regard railroads as the main factors in carrying it on. This assumption is generally correct by statistics which show that there is nearly half a million automobiles in the United States at the present time, the value of which, roughly estimated, is close to three quarters of a billion dollars. Despite the advent of these and other motor vehicles there are 21,040,000 horses and 4,123,000 mules in the United States. The total value of which is \$277,536,300. Of wagons used for commercial purposes there are 576,300, the value of which is \$314,800,000. The wear and tear on this equipment as a result of bad roads is about 25 per cent, and a complete system of improved highways would cut this loss in half.

Without going further into detail, figures carefully compiled show that between half a million and a billion dollars would be saved annually in the United States if every state would improve and maintain its main highways to the highest point of efficiency. To effect this enormous saving careful calculations recently made by the office over which Director Page presides show that it is only necessary to improve about 20 per cent of the public roads in the United States, some 200,000 miles or about 10 per cent is improved in some manner and to bring this up to 20 per cent it will be necessary to improve 250,000 more miles. This probable average expenditure for this improvement is \$7,000 a mile, or \$1,750,000,000 for a fairly complete road system. The computation is concluded by the statement that were each state to put \$4,000,000 into the systematic improvement of its roads the work could be accomplished in a few years, and would more than pay for itself in the saving effected in a short time in road equipment and in the expeditious movement of farm products.

This good roads movement is fully completed by the statement that wherever a new road is built or an old one improved the value of contiguous land rises automatically. The increase in most cases being sufficient to pay for the improvement. Much of this is but "repetition hammered on the ear"—the reiterated evidence of undisputed facts. More striking evidence of the wastefulness and the menace of bad roads is not wanting in personal inconvenience and not infrequently in disaster to human life and the destruction of valuable equipment. The shocking accident that occurred on the Crescent City road near Grants Pass on the night of July 5 is in evidence of the calamity that lurks in rough roads for automobiles and their occupants. "On either side of the road," runs this story of disaster and death, "where deep ruts made by the wheels of heavy vehicles and in the center was a rocky ridge, a projection from this ridge struck the bottom of the automobile, ungered the machine, leaving the driver powerless to control it and punctured and knocked loose the gasoline tank until it swung down from the axle." An explosion followed from which frightful suffering and death resulted, completing a tragedy primarily due to a road which was unfit for travel.

The evidence adduced by this tragedy proves that good roads are more than an economic necessity; they are an asset of humanity.—Portland Oregonian

GENESEE TO HAVE LYCEUM COURSE.

Geneesee is to have a 4-number Lyceum course this winter, to be given by the Britt Lyceum Bureau of Portland, Oregon. The first number on the course will be "The Aller Trio," singers and musicians, composed of Miss Charlotte Beigh "the Girl Soprano of the Northwest," Herr Neil Elliott, pianiste, and Miss Jessie June will be Carter's Original Virginia Warblers, a company of negroes similar to the Dixie Jubilee Singers. The third number will be Alvah Green, comedian, who has a reputation of being one of the most polished fun-makers on the stage today. His sketch is entitled "A Barrel of Fun." The fourth and last number will be the famous lecturer, Edward S. Gault, whose subject will be announced later. This course was placed by Mr. A. N. Mouglin of Portland, Ore., representative of the Britt Company.

It has been decided to sell season tickets for the four numbers for the small sum of \$2.00, entitling the buyer to reserved seats for each number, and for those who do not wish to buy the season tickets, the single admission tickets will be 75 cents each with the exception of the Gault lecture which will be 50 cents. The season ticket will mean a saving of 75 cents on the course.

The different numbers will be given at different times during the winter at the opera house, and the securing of this course promises for Genesee the best entertainments which have been seen here. Supt. Babcock of the city schools and J. T. Nelson have charge of the details of the course.

PREDICTS ENORMOUS CROP.

Thomas H. Brewer, president of the Fidelity National bank and a recognized authority on Palouse grain crops, returned to Spokane yesterday morning after an automobile trip of several hundred miles through the Palouse territory in company with M. J. O'Neill.

Mr. Brewer returned with a report, which, on the eve of the threshing season, is as promising or more so than any which has emanated from the grain belt expressly to estimate the crop and varied courses through the grain fields were taken. Following are extracts from a report which Mr. Brewer will make at the next meeting of the directors of the Fidelity National bank:

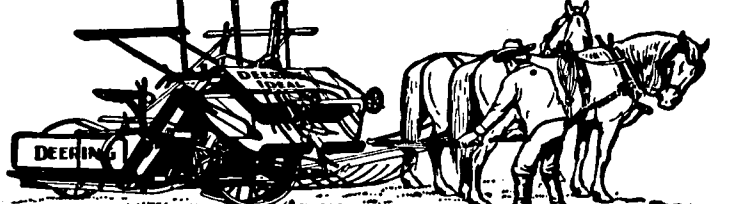

"The average shows an increase of from 25 to 35 per cent over last year as the wheat crop is the best I have seen in the Palouse country since 1897. It is a beautiful site to look over the vast fields of evenly ripening grain. I don't know that I ever saw a better prospect of standing grain. "The cutting is well under way and much of the grain is fence high.

"In the entire trip, covering more than 200 miles, I think there were only two or three fields where the grain shows up poorly. It is uniformly good in the entire territory I visited.

"There is no talk of damage by the hot weather and except on the scattered dry points the warm weather has had no damaging effect discernible." The route taken by Mr. Brewer and Mr. O'Neill was through Genesee, Moscow and Palouse and back through Pullman and Colfax—Saturday's Spokesman.

FULL VALUATION WRIT PREMATURE.

Nothing in recent years has aroused the people of this state more than the present tax issue. From every part of this commonwealth come reports of general dissatisfaction with "the new order of things" as instituted by our present administration, and as the people begin more to realize what they have been led into, a howl has gone up that can be heard from Postville to Bonners Ferry. The present status of affairs is going to work a hardship on parts of the state, and we believe that north Idaho will, as usual, bear the burden of this untimely writ.

Different localities seem to have different ideas concerning the subject, and like dozens of other places, Genesee has here coming too. Genesee is located in the extreme southern part of Latah county, within one-fourth of a mile from the line between Nez Perce and Latah counties, and the kick most prominent here is the difference in valuation between farm lands here and in our sister county. Valuations in Nez Perce have been made lower than in Latah county, and we know of cases where the mere line of fence marks a difference of \$10 in the valuations made by the counties. Other cases are cited where farm land within a very short distance of the line on this side is assessed at \$5 per acre, while farm land of exactly the same nature, and the same value on the market, was assessed at \$30 per acre in Nez Perce county. This seems like an unreasonable difference, and throws a burden on the taxpayers on this (the Latah) side of the line, in the way of the state taxes, which have set their teeth.

While we have always believed that the proper method of taxation was at the full valuation of property, it is quite evident that this state was not prepared to take up this advanced idea when our governor issued his orders to the county assessors. The last session of the legislature passed many bills, with appropriate corrections by various levies, from 1/4 mill up, and these levies were based on the valuations in 1910. If Governor Hawley intended to have the property in this state assessed at its actual value, which we may say for brevity is about three times what it has been heretofore, why did he not so inform our last legislature in due time to make proper allowance in the levies for these appropriations? This state tax has now practically been set by law, and probably the only way to remedy it is to call an extra session of the legislature, with its attendant expense. So far as we can see, and this is an opinion expressed by many, the real beneficiary in capital city, with its "brownstone palace."

The proposition is further unfair in that mines are assessed according to the net profits which they return to their owners. Our merchants, banking houses, and other institutions must pay taxes according to the value of their property, and not on the profit they make. The miner possibly has a mine worth a half-million dollars, but he pays taxes, possibly on \$10,000 profit he makes in 1911. Our merchant has a \$30,000 property and he pays taxes on \$30,000 and not on \$5,000 profit he may make in 1911. Our farmer has land valued at \$60 per acre, and his taxes are paid on that valuation and not on the \$2,500 profit this year's crop brings him. Is this a fair proposition?

The tax question this year is truly one for our governor to handle with gloves, and while we have no doubt that our chief executive is a man of more than ordinary ability, we're from Missouri when it comes to believing that he can conveniently swallow this big chunk he has bitten off.

FORMER GENESSEE DEAD.

Mrs. Homer A. Thomas, died at her home in Artesia, California, a suburb of Los Angeles, on Wednesday, July 12th, at 11 o'clock, p. m. The immediate cause of her death was paralysis, and she had been sick but 6 days prior to her demise. She was aged 75 years, and had been married 55 years. She is survived by her husband, one of the very successful farmers of the Artesia country, 2 sisters: Mrs. Lucretia Gilman and Mrs. Francis Funston of Plattville, Wisconsin, and a niece, Bessie Gideon and nephew Z. A. Gideon, who have made their home with Mr. and Mrs. Thomas at Artesia.

Mrs. Thomas was very well known to many of our people, having lived 6 miles northeast of Genesee for many years, but for the past two years she and Mr. Thomas made their home in the "Golden State." The News joins with many friends here in extending deepest sympathy to Mr. Thomas, and the surviving relatives.

FRIDAY, JULY 28, 1911

The birthstone for July is Ruby. Olson sells them--set in all kinds of jewelry.

A baby daughter was born to Mr. and Mrs. C. R. Spurbuck on Friday, July 21st.

Mrs. Peterson and children, who have been visiting here at the T. R. Qualey home, returned to Portland last Sunday.

Miss Jeanette Smith, of Lewiston, is visiting with her friend, Miss Ruby Carr, this week.

Ed. Keane and H. L. Hardy were Spokane passengers on Wednesday morning's train, where they are business visitors this week.

Mr. and Mrs. Ben Plyman arrived here last Friday from Westmond, Idaho, and visited for several days with friends and relatives.

Miss Edna Schiebe, of Lewiston, was an arrival here last Sunday and visited until Wednesday at the home of her aunt, Mrs. H. A. Morgan.

Mrs. W. H. Ehlen and little daughter, Maxine, were Pullman passengers on Thursday morning's train, and are visiting there with relatives.

Mrs. C. G. Crawford and son, Perry, left Wednesday morning for Moscow, where they will visit for several days prior to returning to their home in Spokane.

Mrs. H. Fleischman, of Uniontown, the mother of Mrs. John Jacobs, is a patient in Dr. Tuomy's hospital this week. She was operated upon Thursday morning for appendicitis.

Miss Grace Brogan was an arrival here this week from St. Peter, Minnesota, and has a position as nurse in Dr. Tuomy's hospital. She was formerly with the St. Mary's hospital at Minneapolis, Minnesota.

Messrs. W. M. Thompson of this city and Mark P. Miller of Moscow have leased the Hanson hay house and will operate it this summer. They have also leased the Discolli warehouses and will handle grain in them this season.

Mrs. W. M. Herman was hostess to several of her lady friends at a luncheon last Tuesday. Those attending were: Misses Mabel Reed, Iva Billings, Ilena Wood, Hazel Ouse, Carolyn Bressler, Mollie Keane, May Herman, and Mrs. Ira Hanson.

F. J. Cornish, of Spokane, has been appointed manager of the local warehouse of the Seattle Grain Co., opposite the depot, and will assume his duties August 1. Mr. and Mrs. Cornish have rented the Mrs. T. E. Miller property here and will move into it at once.

Leslie, the 9-year-old son of Mr. and Mrs. Schroeder of Montana, who is visiting here at the T. R. Qualey home, suffered a very painful accident last Friday, when he fell off a poplar tree, on his grandfather's place, and broke his arm. The little fellow had climbed the tree in an effort to get a bird's nest, some 20 feet from the ground. Dr. Ehlen was called to dress the injured member and he is now improving very nicely.

NOTICE TO HORSEMEN. Togo VII, the English Shire Stallion will hereafter be at Hickman's barn.

ESCAPED WITH HIS LIFE. "Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harremon, N. C. "Doctors said I had consumption and the dread cough had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." It's positively guaranteed for coughs, colds, and all bronchial troubles. 50c and \$1. Trial bottle free at F. E. Dicus & Co.

See Olson's new line of Silverware.

Miss Louise Jacobs, of Gifford, is visiting at the F. K. Bressler home.

John Jacobs and family spent last Sunday with relatives in Uniontown.

Rev. Fr. Haegy was visiting with Rev. Fr. Fred at Colton last Saturday.

Dr. J. D. Adams was a business visitor in Pullman and Moscow last Wednesday.

Mr. Spierley, of Spokane, arrived here Tuesday afternoon and is working for Oscar Larson.

Chas. Mochel arrived here from Colfax last Saturday afternoon, and is spending a 10-days' vacation at the parental home.

Mrs. C. F. Tuomy and children arrived home last Monday afternoon from a two-months' visit with friends and relatives in Minnesota.

Little Robert and Julius Struble, of Spokane, were arrivals here last Saturday and are visiting at the James Tobin home. They will spend the entire summer here.

The ladies' aid of the Congregational church will be entertained at the country home of Mr. and Mrs. Chas. Spurbuck next Wednesday.

The ladies are requested to meet at Herman's store at 8 o'clock.

Mr. and Mrs. Geo. Bolton and son, Cecil, arrived here from Kimberly, Idaho, last Saturday where they have been for the past winter and spring. They expect to leave for their farm at Westlake in a short time.

The first grain to be received in Genesee this season was brought to the Spurbuck Chop Mills last Tuesday morning by J. B. Davis. It was a load of heavy wheat which Mr. Davis had cut with his combined harvester, and was of excellent quality.

Mr. and Mrs. J. T. Nelson and children arrived home last Sunday from a 4-weeks' visit with friends and relatives in the Dakotas and Minnesota. Mr. Nelson states that the weather was very warm in those states, and lack of moisture will cause short crops of grain there this year.

A professor has discovered among some ancient ruins what is supposed to be the oldest corn yet known. The text is as follows: "Enas rot yltompteyap not seenu repapwan a deer ton tials uob." The commandment is easily translated by beginning at the end and reading backward--ix.

Some of the finest samples of grain that have been seen in Genesee were brought into the News office last Monday by J. E. Lovell who has a farm on the Little Potlatch, 7 miles northeast of town. These samples were taken from an 18-acre plot on a south hillside and include the following varieties: Jones' Fife, Red Russian, Bluestem, Forty-fold, Turkey Red and Jenkins' Club and two samples of oats. Mr. Lovell states that his estimate of the patch would be 50 bushels per acre, and that the samples brought in were a very fair average of the field. This was the first crop ever grown on the land, it having been sold ground prior to the planting of this grain. Mr. Lovell has had the patch cut for hay, which averaged over 3 tons to the acre. This is another instance of the great yielding qualities of our soil, the finest in the northwest country.

NOTICE TO FARMERS. I will operate the portable barley crusher in this vicinity through the months of August and September. The mill is equipped with a long elevator to discharge chop into granaries. Can sack chop if so desired by farmer. Prices, \$1.00 per ton for delivering in granary, and \$1 25 per ton when sacked at the mill. Progressive farmers will note the saving in time and money by employing me to do the work. Orders received by C. M. Robbins, at the Grand Central Hotel, Genesee, Idaho.

COUNTY ASSESSMENT \$15,466,611.

The assessment rolls for Latah county for 1911 show an assessed valuation of \$15,466,611, an against \$5,930,350 for the preceding year, an increase of \$9,536,261, exclusive of valuations of railroads, telegraph and telephone lines, which are assessed by the state board. The only cash in the county, as disclosed by the rolls, is that reported by the Potlatch Lumber company, \$12,000. That corporation will this year pay taxes on nearly three times the valuation of last year, last year: Moscow \$1,688,092, against \$725,955; Genesee, \$347,827, against \$172,873; Troy, \$179,942, against \$82,475; Kendrick, \$230,180, against \$92,223; Juliaetta, \$155,091, against \$50,035. The village of Bovill, which was incorporated this year, shows a valuation of \$76,223. The amount in exemptions this year totals \$230,741, as against \$178,247 for 1910.

Mr. Bert Wilcox, a brother-in-law of F. E. Dicus, arrived here from Corral in southern Idaho, last Friday afternoon, driving overland. He was accompanied by his son, and they left the following day for Colfax.

I have never had a cut, wound, bruise, or sore it would not soon heal," he writes. "The greatest healer of burns, boils, scalds, chapped hands and lips, fever-sores, skin eruptions, eczema, corns and piles. 25c at F. E. Dicus & Co.

We Have Learned A Lot About Shingles

Since we first hung out our shingle, and particularly red cedar shingles—always have known they were good, but our close observation has taught us that while all shingles may look alike, they don't wear alike. Maybe you've noticed the same thing. Well, there's a reason for it. We found the trouble starts with their drying and if you buy shingles that have been hurriedly dried by excessive heat, you will be greatly disappointed. Maybe our cost a little more because of slow drying, but first cost and longevity of the roof should be considered together. The last car we unloaded was a pippin—come in and see them—want cost a penny to ask questions.

FOR HUMAN OR ANIMAL FLESH

A remedy that is equally efficacious in healing the wounds, sores, sprains or other ailments of the flesh of man or beast.

BALLARD'S SNOW LINIMENT

A healing remedy to effectively meet the needs of animal flesh need not be a harsh, strong mixture, too drastic for the human body; Ballard's Snow Liniment is proof of this. It ranks with the best of the best healing remedies for man and beast. It is a simple, safe, and effective remedy for all the common diseases common among animals. Owners of blooded horses prefer it to any other liniment because it leaves no disagreeable scars in any of the minor accidents or ailments. It heals by a mild power, so that the flesh of horses responds readily. It is used in healing horses' calls, barbed wire cuts, wounds, festering sores and many other ailments to which horses are subject. In the relief of human suffering, it has done a world of good, particularly in easing the pains of rheumatism, in curing the neuralgia, in relieving the pain of neuralgia, in relieving the pain of neuralgia, in relieving the pain of neuralgia. As a household remedy for cuts, burns, bruises, sprains, contracted muscles, stiff neck, frost bites, swellings, chilblains, ivy poisoning, there is nothing better on earth.

CARE OF PIGS DURING THE SUMMER.

The present hog markets demand hogs from 180 to 225 pound weight and pay best for them finished early in the fall. In order to realize the most profit from his stock the grower must meet this demand. This can be done by having early litters and getting the maximum growth. The purpose of this article is to deal with the feeds and care to get the best growth after weaning and during the hot weather.

Weaning should be done when the pigs are about ten weeks old, although if only one litter a year is raised and the sows are in good condition, it is often advisable to let them run longer. But in this case they should be receiving feed separate from their mothers. After weaning, the pigs should be provided with a fresh pasture. In the irrigated section, alfalfa can be used but it should be fresh and over six or eight inches high. In other sections the alfalfa will be getting too coarse and other pasturage will have to be provided. Rape or peas are both good and probably the best.

Care must be taken to provide plenty of shade and to keep this as free from dust as possible. Dust irritates the air passages causing coughing and is a decided check to growth. Provide plenty of troughs so that all can eat at once without too much crowding. Fresh water on hand at all times is of special importance. A few days neglect of this will materially affect the growth of the pigs.

By putting in an artificial wallow filled with a disinfectant the pigs will be kept free from lice and scurfiness and their comfort materially aided during hot weather. Feed must be added to the pasturage. Mixtures of different grains are better than any single grain as being more palatable and better supplying the different needs of the pig.

For the bulk of the ration nothing is better than wheat shorts. These are very palatable to the pig, nutritious, easily digested and serve well in working the feed into a slop. Tankage, the by-product from the packing houses, has proven very valuable as an addition to a ration. It appears to act as an appetizer causing the pigs to eat heartier. These two feeds mixed with some grain will give good results. The ration used at the Idaho Experiment Station is made up of shorts, a parts, corn chop, a parts, tankage, a parts.

The amount to feed depends on a number of factors; the size and age of the pigs, their condition and how they take to the pasturage, etc. Enough must be given to keep them thriving, but care should be taken not to get them too fat as they will suffer more during hot weather and thus check their growth. The best plan is to feed a little less than the pigs appear to want and gradually increase it with the growth of the pigs. By this method the full value of the pasturage is utilized without checking the growth and when they are put into the feed lots they will be prepared to make the best gains.

It takes good care and good feed to produce a 180 pound hog at six months but it pays. A. E. CHASE, Superintendent of Live Stock, Idaho Experiment Station.

THE ANNUAL WASTE OF STRAW.

Every farmer should know that the straw from his grain, his grain comes in part from the black vegetable mold in the soil, and that the black or brown color of the soil is a good index of its power to grow crops. This discoloration is caused by the annual growth and decay of wild plants long before civilization began. Therefore, any system of farming which reduces this quantity of vegetable mold or prevents its further accumulation will result in diminishing yields.

What consideration then shall be given the excess straw and stubble in our fields? Let us give the question some serious consideration. In the first place this straw contains the element nitrogen, which is necessary for plant growth, but it is in an unavailable form. Its decay, however, gives rise, through bacterial action, to a form of nitrogen useful or available to plants. Suppose this straw to be burned or otherwise destroyed each year, what will be the ultimate result? Reasoning it out as follows we find that it requires approximately two pounds of nitrogen to produce a bushel of wheat, or one pound for each bushel of oats with the necessary straw for each. A fifty bushel crop of wheat or one hundred bushels of oats will require one hundred pounds of nitrogen. The average amount of nitrogen in the soil of the field will run from 2,000 to 5,000 pounds per acre foot. It is estimated that by average methods of cultivation a per cent of this nitrogen will be made available for plant food, as all nitrogen cannot be used by plants. This will mean from 40 to 100 pounds of nitrogen food per year, which would be a total loss to the soil when the grain is removed and the straw burned. In our best soils this would be a 1,000 pounds loss in ten years (one-fifth of the original amount present), or a decrease of ten bushels of wheat, a bushel of wheat per year. What farmer can withstand such a loss?

Disposing in the stubble after harvest will approximately save 25 per cent of the nitrogen after wheat and 33 per cent after oats. The presence of this straw under favorable conditions, will enable the nitrogen fixing bacteria of the soil to manufacture a further quantity of nitrogen food from the air. Hence on one hand we have a destructive method of soil erosion, and on the other a legitimate and worthy system of farming.

Don't burn your straw. If it is in the stack spread it as manure.

FLIES AND TUBERCULOSIS.

The impression is becoming quite general that the so-called typhoid fly is a carrier of the typhoid germ only. This is a wrong idea. The fly is not a carrier of any disease in the sense that the germs develop within the body of the fly. On the contrary the fly carries germs upon its body by virtue of the germs adhering to its coat. In some cases the fly may leave the body of the fly through the elementary canal unimpaired. In this latter case the "fly speck" may become a dangerous thing.

The tubercle germ may adhere to the body and legs of flies, as well as typhoid or pneumonia germs, and be transplanted upon the skin or in the food of a healthy individual; or the germ can be swallowed by the fly and voided, without loss of virulence, upon food stuffs prepared for human consumption.

Some poor sick mortal expectorates upon the street. This material will soon be circled by flies walking in and eating of it. The result is that the germ of tuberculosis present in the expectorations of consumptives, are successfully carried from place to place with always a possibility of disastrous results.

The fly is ubiquitous, no matter from what point of view he is looked upon. His life is swallowed by the world has not been discovered. The mass of people must realize the significance of the crusade against the fly. There should be no stopping until the fly is exterminated in the United States. Each one can help a little which in the aggregate will help very much.

JOHN P. NICHOLSON, Bacteriologist University Experiment Station.

VALUE OF FARMS DOUBLED.

Of marked interest, because of the many statements made during the Canadian reciprocity debate, was the census bureau's announcement last week of the latest general farm statistics of the United States, showing that land in farms more than doubled in value the last ten years, having increased \$15,252,788,000, or 118 per cent.

In 1900 they were valued at \$13,051,033,000 and returns of the thirteenth census show they are worth \$28,384,821,000.

Farm lands, farm buildings and farm implements are valued at \$35,859,663,000, compared with \$17,357,425,000 ten years ago.

The number of farms in 1910 was 6,340,120 as compared with 5,737,372 in 1900, an increase of 11 per cent.

The land increased in 1900 from 835,092,000 acres to 873,793,000 in 1910 or 5 per cent; but a larger increase, 15 per cent, is noted in improved acreage, which in 1900 was 414,490,000 acres and in 1910 477,424,000 acres.

More conspicuous than the increase in number and acreage of farms has been the increase in improved values of farm properties. The lands rose in value from \$13,051,033,000 in 1900 to \$28,384,821,000 in 1910, an increase of 118 per cent, and during the same period the average value per acre of all land in farms rose from \$15.60 to \$32.50, or 108 per cent.

Farm buildings which in 1900 were valued at \$3,556,614,000 were reported in 1910 as worth \$6,294,025,000, an increase of 77 per cent.

Farm implements and machinery, reported in 1910 as worth \$1,461,817,000 and ten years previously as worth \$749,778,000, show an increase of 68 per cent.

LAND SHOW INTERESTS HOMESEKERS.

By a streak of good fortune a large per cent of the 120,000 people who are expected to file for claims in Mellette and Bennett counties, South Dakota, will pass through Omaha and will be given an opportunity to see the Omaha Land Show at which the resources and opportunities of the entire west will be exploited. Thus it will be possible to directly interest thousands of persons who are actually seeking homes and who will be in the proper frame of mind to receive and absorb all the information that is thrust upon them.

As an example of the great number of land seekers who will pass through Omaha in October it is set forth that in 1904, 106,000 people registered in Bonesteel. Four years later at the Dallas registration for Tripp county lands 114,000 seekers made filings. On these figures is based the estimate that there will be at least 120,000 registrations at Dallas, Gregory, Rapid City and Chamberlain for the Mellette and Bennett county lands. At least 60,000 of these are expected to pass through Omaha, which is the gateway to the west, and it will be possible to interest a great many of them in the opportunities offered in the region further west. The South Dakota registrations will be made between October 2 and 21, and the drawings begin October 24, while the Land Show will be from the 16th to the 28th. The dates of the show will give the homeseekers an opportunity of visiting in Omaha both before and after they go to South Dakota.

During the last South Dakota drawings most of the applicants came from Iowa, Illinois, Missouri and other states in the middle west, and the bulk of the coming registrations will be made by people from these states.

HAGEN-SCHLEE.

Mr. John Hagen and Miss Minn Schlee, a daughter of Mrs. J. Schlee, both popular young people of the Cow Creek Valley, living about 6 miles north of town, were united in marriage by Probate Judge W. F. Morgareidge at his office in Moscow on Monday, July 24th. The newly married couple will reside in the valley north of here and their many friends hereabouts wish them a happy voyage through life.

KRAUT-NICKEL.

Mr. Joseph Kraut, one of the well known and prosperous farmers of the Genesee country, and Miss Paula Nickel, a recent arrival here from Pottendorf, Austria, were united in the holy bonds of matrimony by the Rev. Fr. Haegy, on Tuesday morning, August 1st, at the Catholic church. After the ceremony a wedding dinner was served at the groom's home attended by only the near relatives. In the evening all the neighbors were invited to the home to partake of a luncheon of ice cream and cake. The newly married couple have gone to housekeeping on the groom's farm, 5 miles northeast of this city.

The Mays joins with the many friends of Mr. and Mrs. Kraut here in wishing them a happy and prosperous wedded life.

MRS. FRIEDERICK SCHARNHORST.

Mrs. Friederick Scharnhorst died at the home of her daughter, Mrs. M. Carubuh, on Friday night, July 28, at 8 o'clock. Death was due to heart trouble, from which she had been a sufferer for some time. Her husband, Christian Scharnhorst, died just 5 months prior to her demise, and his loss was a great sorrow to her. The funeral services were held Sunday afternoon from the German Lutheran church, the Rev. A. F. Wolf, officiating. Interment was made in the German Lutheran cemetery.

Deceased was born in Seeligsfelde, Germany, on the 2nd day of October, 1830. Her maiden name was Friederike Neuberger. She moved to America at an early age and in 1856 was married to F. H. Christian Scharnhorst in Keokuk county, Iowa. In 1873 Mr. and Mrs. Scharnhorst and their children moved to Kansas, and in 1874 to Oregon, settling in Idaho, with the pioneers of this country in 1876. At the time of her death Mrs. Scharnhorst was aged 80 years, 9 months and 26 days.

8 children, 40 grandchildren and 18 great grandchildren survive to mourn her loss. The children are: Mrs. H. Nebelsieck, Mrs. M. Carubuh, Diederick Scharnhorst, Mrs. H. J. Herman, Fred Scharnhorst and Charles Scharnhorst, all of this neighborhood, and Mrs. F. Slater of Moscow, and Mrs. J. J. Scheie of Uniontown. The New joins with hundreds of friends of the deceased in extending sympathy to these bereaved ones in their hour of sorrow.

CARD OF THANKS.

—O. Olson has rented the vacant room north of the First Bank of Genesee, which was formerly occupied by the C. E. Wood Company's office, and will move his jewelry store into it just as soon as the alterations can be made. He is now conducting a Removal Sale at his old stand.

—Last Tuesday night's rain will be of material benefit to potatoes, peas and garden stuff. It was a heavy rain, but without wind, and consequently did not hurt the wheat. Genesee seemed to get the biggest part of it, farmers from a few miles out stating that only small showers fell there.

THIRTY YEARS TOGETHER.
Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of Thos. Aris, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for forty years. It's the most reliable throat and lung medicine on earth. Unequaled for laryngitis, asthma, hay-fever, croup, quincy or sore lungs. Price 50c, \$1.00. —Rev. G. L. Shull left Tuesday morning for Hailey and Caldwell, Idaho, where he expects to spend his vacation visiting with relatives. He will return home by way of Lyle, Wash., where his wife and daughter are visiting.

—Mrs. W. L. Schroeder and two sons who have been visiting here for the past several weeks with her parents, Mr. and Mrs. T. R. Qualey, left Thursday morning for their home in Glasgow, Mont. Leslie, the younger of the two boys, who had his arm broken by a fall from a tree, two weeks ago, is now recovering quite rapidly.

—The farm house of U. G. Dickson, located on the Lewiston road at the crossing of Hatwa creek, was completely destroyed by fire Tuesday afternoon of last week entailing the loss of at least \$2,500 with no insurance. The fire was caused by an oil stove which was being used in preparing fruit for canning but none of the members of the family were in the kitchen at the time and when the fire was discovered the entire kitchen was in flames. The fire spread with such rapidity that all efforts to save the furniture from the house or the personal effects of the members of the family, were fruitless. The fire spread to a wagon shed near by and this building and contents were destroyed. The barn was on fire several times and was saved only by the greatest effort. The Dickson ranch was formerly known as the Watson place and the house was located a short distance from the road on the left hand side at the Hatwa crossing. The members of the family saved only the clothing they were wearing at the time. The loss will be a most severe one to Mr. Dickson who purchased the property about five years ago.

—A fine baby girl was born to Mr. and Mrs. John Acrea last Monday.

—Mr. and Mrs. Bernard Hofer, of Uniontown, were visitors here last Friday.

—Miss Mabel Reed returned to Spokane last Friday morning after a 10 days' visit with her parents.

—Miss Josephine Olson was a Spokane passenger on last Friday morning's train and is visiting there with friends and relatives.

—A son was born to Mr. and Mrs. Fred Miller, of Palouse, last Tuesday. Mr. Miller was formerly manager of the Potlatch lumber yard here.

—The Rebekahs will give an ice cream and sherbet social in the Volmer building, east of the First Bank, on Saturday, August 5, afternoon and evening.

—Mrs. Ferdinand Roos and daughter, Margaret, of Lewiston, the aunt and cousin of Mrs. E. O. Cathcart, spent the latter part of last week here at the Cathcart home.

—Mrs. F. E. Dicus and little son, Freddie, returned last Monday afternoon from a two-weeks' visit with relatives in Spokane. Her sister, Mrs. D. S. Waskey, of Oswego, Kansas, accompanied her home and will visit here for several weeks.

—It was necessary to perform an operation on Mrs. Glenn Sampson, in order to set the bone in her arm which was broken by a fall some time ago. Dr. Titus of Spokane, assisted by Doctors Tuomy and Burg, performed the operation Sunday.

—Geo. W. Vanbuskirk this week purchased from H. L. Hardy his property on the east hill consisting of 10 lots, house and other buildings. The consideration was \$1500 and Mr. Vanbuskirk will utilize the property for enlarging his garden. Mr. Hardy has not yet decided where he will move to.

—Geo. Martin returned to his ranch at Riparia Tuesday morning, after spending a week with his family. He has almost completed his irrigation system on his ranch, having installed a large pump in the Snake river and dug a main canal of over 4,000 feet. Mr. Peterson, the irrigation engineer of Clarkston, superintended the work.

—Miss Kate Kennedy, this week disposed of her millinery stock, which has been located in the First Bank block, to Misses M. Clemens and Anna Carubuh. The stock was moved on Tuesday, August 1st, to the Clemens millinery shop in the First Bank block, which will hereafter be conducted by these two young ladies. A large supply of the latest hat styles will hereafter be carried, and the entire store devoted exclusively to the millinery trade, they having decided to dispense with the services of a dressmaker, which Miss Clemens heretofore employed.

The News wishes the new firm much success, and we are sure the ladies of Genesee will appreciate their efforts in trying to give this city one of the best millinery stores in the state.

BIG REDUCTIONS ON TRIMMED HATS.
The remaining stock of trimmed hats will be closed out at less than cost in order to make room for the new fall supply.

W. J. HERMAN CO.

See Olson's new line of Silverware. —Mr. and Mrs. Geo. Bolou, Miss Iva Billings and Chas. Mochel were Lewiston visitors last Saturday.

—Mrs. A. J. Fitz and little daughter went to Garfield Wednesday morning where they will visit with relatives for a few weeks.

—Geo. Vanbuskirk, the father of G. W. Vanbuskirk, was an arrival here from Indiana last week and is visiting with his son and family.

—The following new ads appear in this issue of the News: Robert Emmett & Co., O. Olson W. J. Herman Co. and First Bank of Genesee. Read them.

—Geo. Martin and family moved this week into the D. R. Forsythe property, west of the W. E. Smith home. This was formerly the Geo. Steltz place.

—Mrs. Tim Sullivan, of Spokane, and Miss Josephine Reilly, of Moscow, both sisters of Dr. J. E. Reilly, were visiting here this week with the John S. Sullivan family and other relatives.

—John Ramsey suffered a severe injury in a runaway last week, when he was thrown from the hay baler and had a severe gash cut in his leg. Dr. Ehlen was called, and it was necessary to take 14 stitches to close the wound. He is reported as considerably improved this week.

—The harvest season is here again. A large number of threshing outfits have been assembled in Genesee and during the past week, every day has seen these machines start for the grain fields. Several new machines will also be added this year to those that were already in the country, and next week will see everyone of these threshers in operation. The cutting of wheat has been in progress now for the past week, and farmers state that the fall grain will yield one of the largest crops in the history of this country. The grain is in good condition for threshing, being dry and hard, and weather conditions have been all that could be asked. Warehousemen expect to begin to receive the grain about the 15th of this month and it will continue to come in until the first of November. Late reports from the market centers indicate that grain is steady, the prices at present being from 65 cents for red to 65 cents for bluestem. The large crop in the northwest country with the fair prices which are being offered assures our farmers of good financial returns for the year 1911.

—Messrs. Frank Robinson and Geo. Steltz, of Moscow, were visitors here last Sunday. They drove over in Mr. Robinson's auto.

—Mrs. Caroline Bressler and Miss Minnie Larson, who have been visiting with relatives in Cheney and Spokane for the past six weeks, returned home last Sunday.

—Mrs. J. H. Jackson, who was called to Prairie du Chien, Wisconsin, in the latter part of June by the serious illness of her mother, Mrs. Schwartz, returned home last Friday afternoon. Mrs. Schwartz died shortly after Mrs. Jackson's arrival in Prairie du Chien.

—Nancy, Basil and Agnes Taylor, who have been visiting here at the Thos. Linehan home all summer, returned to Lind, Washington, on Thursday morning. Miss Helen Linehan accompanied them as far as Pullman. Alice, the little girl, has been adopted by Mr. and Mrs. A. Murphy, and the baby will remain at the Linehan home.

—A correspondent, writing to the Palouse Republic, says: "A few of the farmers around Diamond are trying a new variety of wheat which is called Australian Club, a winter variety which is said to be a little nearer perfection for the Palouse country than anything yet tried. It has all of the good qualities of other varieties, and none of the bad, so we are told. It is a good milling wheat, yields heavily, and does not shatter readily, and is not inclined to smut."

Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by F. E. Dicus & Co.

THE GENESEE NEWS.

PRINTED AT THE POST OFFICE AT GENESSEE AN SECOND-CLASS MAIL MATTER.
H. W. MADON, PUBLISHER.

OBSERVE THE NEW GAME LAWS.

The last session of the legislature saw fit to make some changes in the fish and game law which may get innocent parties into trouble with that department unless they become familiar with its provisions.

Heretofore we have been able to go into the woods and kill pheasants on August 15. The open season now opens September 1. The deer law was originally September 1 to December 1, but is now September 20 to December 20. The change was made in the bird law for the reason that birds are not yet mottled by August 15, and also the new law will have a tendency to keep hunters out of the woods during the dry season. There had been a great many complaints of the old deer law because it did not allow the killing of deer at a time when they could be tracked in the snow. Snow rarely falls in the lower country sufficient for tracking until after the first of December.

—Miss Cora Mochel was a Pullman passenger on Wednesday morning's train.

—Mrs. M. Connell returned to Troy Thursday morning after a two week's visit here with her mother Mrs. Cunningham and sisters, Mrs. A. A. Haymond and Mrs. John Magee.

—Ed. Keane this week purchased the Hardy & Acres store and equipment full charge Tuesday evening. Mr. Keane states that he intends to make several improvements in the store and will have it first-class in every respect.

—The First Bank of Genesee, The C. E. Wood Co., and W. J. Herman Co. have added the latest models of visible Remington typewriters to their office equipments. The machines are all model 10's and were sold by Agent O. G. Schaaf of Lewiston.

—Although the rains of last week stopped harvest operations for a few days, the yield is still being this week, and from reports which have begun to come in from the fields, it appears that the Genesee farmers will have some of the largest yields ever known in the history of the country. Ed Steltz reports that from 30 acres of wheat he threshed 800 sacks, averaging 55 bushels to the acre, and J. P. Michaelson reports a total of 330 sacks from a 10-acre field of Jenkin's club, which will average over 40 bushels to the acre. The News would like to hear of all large yields and asks the farmers to phone us this information.

—Information comes from Blaine county to the effect that the assessor of that county applied the "cash value" principle at least to the assessment of farms. Here are some of the farm values established by this county official: On Camas prairie dry virgin land is listed at \$10 to \$20, if cultivated at \$30 or \$35. On Lower river the same, but cultivated an average of \$35. Near Hailey \$50. At Carey, including the Gooding and Albrethson tracts, average \$42; other nearby ranches, \$40. Between Hailey and Bellevue, if cultivated, about \$40; in the Wood river valley and on Silver creek \$35 to \$50, if cultivated, about \$10 if alkaline.

THIRTY YEARS TOGETHER.
Thirty years of association—think of it, how the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no question in this evidence of Time, Arise, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its best cough and cold cure I ever used." Once it finds entrance in a home can't get it out. Many families have used it for forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quincy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by F. E. Dicus & Co.

—W. M. Thompson is on the sick list this week.

Olson's Alarm Clocks are the best on the market and the price is right.

—Mr. and Mrs. Ben Plyman are visiting with friends and relatives here this week.

—Mrs. Martha S. Brant, who has been visiting here with friends, returned to Spokane yesterday morning.

—The following have new ads in this week's NEWS: Robert Emmett & Co., Ernest E. Miller and Potlatch Lumber Co. Read them.

G. W. Vanbuskirk, sr., who has been visiting here with his son, Geo., and family, left this week on his return to his home in Indiana.

—Geo. Raymond was a business visitor here from Spokane Wednesday. He is representative for the Merchants Produce Company and is buying fruit in carload lots.

—C. E. Wood has purchased a tract of 80 acres lying 8 miles south of town on the reservation. The land was purchased from the Indians, through the agency at Ft. Lapwai, and Mr. Wood's bid was \$4300 for the 80-acre tract.

—During a cloudburst south of town last Friday afternoon, a mare and her colt, belonging to J. W. Archibald were drowned, as well as a colt belonging to Frank Nichols. These animals were grazing in two different canyons and were caught in the downpour before they could escape. It is estimated that a foot of hail and water fell during the half-hour's duration of the cloudburst.

—The department of agriculture at the state university has under consideration the construction of a piece of model dirt road leading from the university campus west through the experiment farm, a total length of something like a mile and a half. It is probable that the King drag will be used, and a practical demonstration made of dirt road construction. In addition to this it will enable visitors to be shown through the farm, something that is now practically impossible.

—County Assessor E. J. Gemmill has been appointed by the board of county commissioners to represent Latah county at the meeting of the state board of equalization which convened at Boise this week. This meeting is held to make an equalization of taxes in all of the counties of Idaho, and as Assessor Gemmill is thoroughly conversant with the tax situation, he will ably represent this county. It is expected that shortly after his return full announcement will be made of the various levies for 1911. This will probably be the latter part of this month.

Another shipment of Owl Creek Screened Lump Coal is due to arrive about August 28th. We will make a special price to those wishing to haul their coal from the car.

FRIDAY, AUGUST 11, 1911

—Mrs. B. Phipps is visiting with the Chas. Gray family in Johnson this week.

—Frank Jacobs, a son of the late Theresa Jacobs, is confined at the Tuomy hospital with typhoid fever.

—Mr. and Mrs. Martin Meyer arrived here from Hilliard last Sunday afternoon and will visit with relatives for several weeks.

—Mrs. J. A. Ball and son, Harry, were arrivals here from Twin Falls last Tuesday afternoon and are spending the week with friends.

—Mrs. John Kempf and son, Rupert, and Mrs. John Trautman and little baby, were visiting with relatives in Uniontown the latter part of last week.

—Peter Kones, who has been in the Coos Bay country in Oregon for the past three weeks, returned home last Saturday afternoon. He liked the country quite well and may locate there.

—Miss M. Clemens left Monday morning for a two weeks' visit at the millinery markets in Seattle and Portland, and will purchase the fall supply of hats for the Clemens & Carburn store while there.

—The addition to the Seattle Grain Company's warehouse has been completed and the storage capacity of the house has been increased by about 50 per cent. The addition is 20 feet wide and 128 feet long. A Brown stacker will also be installed to make the equipment complete and up-to-date.

—J. A. Peterson, was an arrival here from Snohomish, Wash., last week and is visiting with his brother, and looking after his farm which is being rented by Nels Flumoe. He states that the crops in this part of the Palouse are the best he has seen in any part of the northwest, and are better than he has known of in years.

—Although heavy rains fell here during the latter part of last week, so far as can be determined no damage has been done in this immediate neighborhood. Rains on the Camas Prairie combined with heavy winds and hail storms have ruined large fields of grain in spots, but generally spared there. The only harm done here was the setback in harvest operations for several days.

—Mr. and Mrs. W. M. Welch were arrivals here from Spokane last Monday afternoon. Mr. Welch is representative of the Ideal Iron Company of Newark, New Jersey, and has the territory embracing the Panhandle of Idaho and eastern Washington, in which district he is placing agents for the selling of these irons. The iron which is of recent invention, burns a pure carbon compound, consuming only 2 cents worth of the carbon in a 7-hour day, and is kept hot the entire time, different degrees of heat being maintained by a draft regulator. Mrs. Welch will demonstrate the iron at Follett's store every day.

—Mr. and Mrs. F. K. Bressler were visitors in Moscow last Sunday.

—Mrs. W. J. Herman was visiting with friends and relatives in Pullman during the past week.

—G. H. Rogers was a Spokane passenger on Monday morning's train, where he was a business visitor for several days this week.

—Morris Phipps, who has been night operator for the Northern Pacific at Sagle, Idaho, has been transferred to the Garfield, Wash., station, where he is day clerk.

—Louis Otness, of Moscow, was a business visitor here this week in the interests of the Western Union Life Insurance Company of Spokane.

—Miss Amanda Arp, who has been visiting in Colfax for some time past, returned home last Saturday afternoon. Her friend, Miss Verma Jeffries came over with her and will visit here for two weeks.

—Miss Zulu Taylor, who has been visiting here for several weeks, returned to her home in Spokane Wednesday. Her sister-in-law and brother, Mr. and Mrs. F. F. Taylor, will remain here all summer.

—John Trautman returned last Saturday from New Norway, Alberta, Canada, where he has been for the past few weeks looking over the country and where he purchased a 300-acre farm. Although Mr. Trautman bought the land as an investment at present, he expects some day to move onto it.

At the special meeting of the school board last Monday night, it was decided to bring the matter of a new schoolhouse before the voters of District No. 2 in the near future. The present building is old and dilapidated and has served its term of usefulness. Its sanitary condition is unquestionably bad, and its dingy, dark rooms are not conducive to the best efforts of the pupils nor the best results from the teachers. The board is of the opinion that, generally speaking, the people of this community are favorable to building a schoolhouse to which we may point with pride, and the new assessment for 1911 has raised the valuation of the district so high now, that no one will feel the effects of bonding the district, extending over a period of many years, for the amount of a modern edifice.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no superior for bowel complaints. For sale by all dealers.

There is considerable speculation among business men as to the ultimate effect of the decision of the Interstate Commerce Commission in the so-called Spokane case. This cuts out the "back-haul charge" from tidewater to interior points. Spokane has been fighting for such a decision and believes it will reap important trade advantages therefrom. However, the coast interests hold that it will really prove a boomerang, in that every other interior city gets the same advantage. On top of all, comes the report that the railroads intend to readjust all freight rates, because of the decision.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without maturation. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by all dealers.

HERBINE

A Medicine of Power in All Liver Disorders.

When the liver is torpid, it throws impurities into the system, which hamper every organ in the body. The result is that functional processes are not properly carried on. Impurities get into the blood, the stomach is bilious, the kidneys weak and all bowels irregular—generally constipated. Herbine clears out all bowels, opens up the obstructed channels, strengthens the torpid liver, cleanses the blood, purifies and regulates the bowels. After the system has been thus overhauled, there is an immediate improvement. Appetite returns, digestion is good, the spirits rise, the mind clears of gloomy forebodings and everything looks bright and cheerful, which means, sound, healthy conditions everywhere in the body.

APPLE SHOW PRIZES AT SPOKANE FAIR

Now that the National Apple Show has been given up for this year, the Spokane Fair will be the only large fruit exhibition held in the Inland Empire. The fair fruit prizes have been largely increased on account of the Apple Show decision and \$1468.50 is offered in Cash prizes for Apples alone. New classes have been made both for district and individual displays. Many of the prizes are duplicated, one prize being offered for irrigated fruit and a similar prize for non-irrigated fruit straight through the apple and pear list. More than a thousand cash prizes are given for fruit and grain exhibits, enough so that every exhibitor should win at least one or more blue ribbons. The apple and dairy prize list have also been carefully revised and largely increased, and new cases built for these displays. Many interesting exhibits will be shown in both departments, and Professor Frank G. Odell, the famous bee wizard, of Nebraska, will exhibit his exhibits daily. Professor Odell holds from Lincoln, Nebraska, and has a reputation in Bryan's town as a man who knows more about bees than any other man ever written in the books.

GOVERNOR EXPLAINS TAX QUESTION.

In a recent letter to F. S. Casebolt, of this city, Governor James H. Hawley, states that the taxes for the year 1911 will not be materially increased, and his reasons are set forth in full in this letter, which follows:

"Dear Sir: Your favor of the 31st ultimo, asking me if the increase in the valuation for the present year will materially increase taxes is received and I will say that such will not be the case. It requires just as much money to run the state and the various county governments whether the assessment roll of the state shows a hundred million or a thousand million dollars. This talk about fixed levies for state purposes is the very best nonsense. It is being indulged in by men who do not know what they are talking about; they have just enough knowledge of the law to mislead themselves and to deceive others. No matter what the status of the state may say in regard to a fixed levy, under our constitution an exorbitant levy could not be made. Our state statutes in regard to this are simply directory. The controlling board can be compelled to levy the full amount if necessary; any citizen interested could by mandamus proceedings force them so to do. They cannot, however, legally raise any more than is sufficient for the purpose for which the tax is levied. The State Board of Equalization will set in accordance with this idea which is the law. You need have no fears whatever of any great surplus being raised by reason of the assessment roll being increased. There is a question with reference to the levy for school purposes resting on a somewhat different foundation and it is possible that in some counties a fund will accumulate on this account. It amounts to but very little though anyway and I am of the opinion after only examining into the subject that the county commissioners will have the same power upon the school levy to exercise their discretion if more than enough would be raised by the minimum statutory levy so as to fix the levy at the proper basis. In other words I have about come to the conclusion that the statute even on the school levy is directory instead of being mandatory. That is it is directory when it can be clearly shown an excess would be raised by levying the minimum rate. I am glad to say to you that the theory of full valuation is being acquiesced in all over the state. A great majority of the people are firm believers in it. The assessors are attempting so far as we can learn to do their full duty. The only ones that are making objections are a few newspapers animated by personal or partisan motives. This reform has come to stay and the people of the state will be greatly pleased at the outcome I believe.

Yours very truly,

J. H. HAWLEY.

GOOD ROADS IN GREAT SOUTHWEST.

But ten years ago, the highest percentage of bad roads—roads of a badness almost impassable—was in the southeast and southwest. This is no longer true. From being a bad, good roads have become in the southwest a public passion on which all men are united, irrespective of party, and on which some of the smartest counties threaten almost to bankrupt themselves. The bicycle was, perhaps, the first evangelist of the new movement. Then came the motor. In a land of no winter and little rain and almost perpetual sunshine and tremendous distances of the line of the railroad, the motor became almost a daily necessity. The railroads necessarily follow the easiest grades, and easiest grades in the southwest mean the desert region. The ranches, the heavy timber open and splendid, like German parks, the noble land, the scenic grandeur—all lay more or less back of the beaten highway.

For instance, to go to the Cliff Dwellings of the Jemez by team, takes the better part of a hard day's driving and necessitates rising at four and six. By motor, you can leave at nine, be out in time for lunch at the ranch house, and be back by sundown. The same may be said of the wonderful sulphur springs of northern New Mexico, the game resorts of the White Mountains, Arizona, and the best scenery of the Grand Canyon.

Then came the influence of the tourist; and that clinched the evangelism of good roads as far as the southwest was concerned. California suddenly realized that the tourist traffic yearly left her \$10,000,000 to the good San Joaquin county alone in 1910 issued bonds for nearly \$4,000,000 for road improvement; and the whole state of California put the stamp of public approval on a plan to issue \$18,000,000 of state bonds. Colorado has just voted \$10,000,000 of bonds for the improvement of public highways.

The contagion has spread—not gradually but like wildfire—to Arizona and New Mexico and Colorado and Texas and Wyoming. If France and Italy can attract 30,000 American tourists a year by sunny skies and good roads and old ruins, why not New Mexico and Arizona and Colorado, which have just as sunny skies and higher altitude and clearer, cooler air, with runs older than anything in Europe or Egypt, according to Archaeology, by 8,000 years?—From "New Scenic Highways in the Southwest," by Agnes C. Laut, in the American Review of Reviews for August.

Fire Destroys Wheat

(News Item from Spokesman-Review.)

The first field fire of this season in north Idaho occurred last Monday afternoon on the farm of Wm. McCormack, near Lewiston. Mr. McCormack is the largest individual holder in Idaho, operating several thousand acres in Tammany and Webb ridge sections.

The fire originated from a smut explosion in the separator, and resulted in the destruction of the machine and three stacks of wheat, containing about 1500 bushels. The loss is about \$2000, partially covered by insurance. Mr. McCormack ordered another machine and will resume work Wednesday.

INCREASING MILLING VALUE OF WHEAT.

As a rule comments upon the benefits derived from well planned rotations is confined to the resulting higher state of fertility of the soil and to the increase in yield and consequent increase in value of the products taken from it during a term of years. With reference to wheat in rotation with other crops, one point, that of the milling quality of the grain, has apparently escaped serious attention.

With common milling wheats, quality depends largely upon their protein content. Generally speaking, the higher the protein will be the purer the kernel the better will be the flour milled from it for bread making purposes. The protein content, seen in a measure by the wheat grower himself, as the tests mentioned below and conducted last year by the department of chemistry of the Idaho State Experiment Station, indicate. The tests were part of a general plan devised for the purpose of ascertaining the effect of different rotations upon the quality of wheat.

Seven 1-10 acre plots were used in these tests. In each plot blue stem wheat of the same quality and at the same rate per acre was sown. Plots 1, 2 and 5, had produced wheat the preceding year. In plots 3, 4 and 7, the wheat succeeded peas, and in plot 6 it followed potatoes. At harvest time plots 1, 2 and 5 yielded wheat which upon chemical analysis gave 9.73 per cent, 10.21 per cent and 10.53 per cent of protein respectively. The wheat from plots 3, 4 and 7 was found to contain 13.81 per cent, 13.56 per cent and 13.29 per cent of protein respectively. The wheat from plot 6 contained 13.47 per cent protein. The average protein content of the wheat grown after wheat, was 10.16 per cent.

The average protein content of that grown after peas was 13.22 per cent. The peas, and potatoes increased the protein content 3.06 per cent and 3.31 respectively, or nearly 1/3; the wheat held the protein content down practically to where it was the preceding year. The wheat from plots 3, 4, 6 and 7 averaged 11.4 pounds per bushel or better than that produced from plots 1, 2 and 5.

Although, as stated above, these results were obtained on small plots on the Experiment Station farm, I believe there is no question but that they can and are being duplicated on a much larger scale by wheat growers in the vicinity of Moscow who have for several years made it their practice to grow a limited acreage of potatoes, corn, field peas, beans, and similar crops. It is a matter of common remark, too, with these growers that wheat grown on potato and corn land attains a heavier growth and gives a substantially greater yield of grain per acre than does land that produced wheat or oats the preceding year. Millers of the Inland Empire are frank in stating that good milling wheat commands a premium. The figures given above indicate that if wheat is bought strictly on its merits for milling purposes, that grown on potato and field pea land is especially entitled to the premium.

J. S. JONES, Agricultural Chemist, University Experiment Station.

Marvin Harrah, a young man 20 years of age, was struck by lightning and instantly killed at the Bailey Chamberlain place near White Bird on Thursday of last week. He was alone at the time and the body was not discovered until about three hours afterward. One side of the body was burned to a crisp.

STATE GRAIN LAW TO BE ENFORCED.

"It is the intention of the Idaho State Grain Commission to enforce to the letter, every part of the Idaho grain law in every particular," according to Dan W. Greenburg, chairman of the commission who was here on business last week, says the Cottonwood Chronicle. Mr. Greenburg states that the commission is desirous of cooperating with both the farmer and the buyer and information relative to the working of the grain commission law will be gladly given when requested. In speaking of some of the features he said:

"Every warehouse and each buyer must be licensed before doing business. Warehouses must use the uniform warehouse receipts, such form as has been adopted by the grain commission. "Where grain is piled special in a warehouse it is incumbent on the farmer to brand each and every one of his own sacks. The state grades will be fixed by the commission during the present month."

Mr. Greenburg further stated that the state inspector will soon visit all sections of Idaho where grain is grown and all scales will be thoroughly tested. He regards the crop conditions throughout the state as the heaviest in the history of grain growing.

Watch it grow! Advertising is the fertilizer of dull business. Its work is magic. This week's trade becomes a thing of power when its roots feel the healthy sunlight of publicity. YOUR AD IN OUR NEXT ISSUE WILL PROVE IT.

DIRECTORS PLAN NEW SCHOOLHOUSE.

At the regular meeting of the school board of District No. 2 last Monday night, it was decided to investigate some of the new schools which have recently been built hereabouts, before deciding definitely what amount the district should expend in the erection here of a modern and sanitary schoolhouse. The board spent yesterday at Troy looking at the building there, which was erected last year. They will also submit their plans to an architect, to find out somewhere near a definite cost. It is expected, however, that about \$25,000 will be put into the new building.

Although the new school laws of Idaho give the school directors of any district full power to go ahead and bond the district, without the additional authority from the voters, for a certain percentage of the valuation, (in this district it could be over \$50,000) the board feels that they would rather put the matter before the voters and get their opinion on the question. Furthermore, they have decided to keep well within the limit allowed by law for bonding, and think that a very good building could be put in here for about \$25,000, which is much less than half of what they could call for. They have furthermore decided to place the bond issue over a long term of years, and at the same time create a sinking fund, so that the expenditure of \$25,000 to \$30,000, for a school building which the district could take pride in owning, would hardly be felt by any of our taxpayers. Although the valuation of the district has not been announced this year, it will be somewhere in the neighborhood of \$700,000, so that a levy of about 3 mills each year would create enough for interest on the bonds and a sinking fund large enough to pay off the entire principal in not to exceed 20 years.

Right Sort of Men Make State; Advertise for More

"Idaho and the Union Pacific railroad have had two things to be grateful for," said Gerrit Fort, passenger traffic manager of the Union Pacific railroad recently while on a trip over his lines in Idaho. "One is that there are so many of the right sort of people in the state and the other is that all these people are to have a splendid chance to get more of the same kind at the Omaha and Chicago land shows this fall. I have been particularly gratified by the evidences of the 'get together' spirit that is animating the members of the commercial clubs and the people generally. As individuals I believe the people of Idaho stand on a mighty high level, but until recently they have stood as individuals. Now there is a community spirit becoming prevalent that means that the individuals are to be bound together by ties that will work much good for all."

THE COLISEUM, CHICAGO, TO WHICH THE UNION PACIFIC INVITES EVERY TOWN AND COUNTY IN IDAHO TO SEND ITS LEGTURES AND MOVING PICTURE FILMS TO BE USED TO ADVERTISE THE STATE IN CHICAGO.

Results of last year's land shows at Omaha and Chicago the facts we learned were such that we immediately made application for space for 1911. We have just received word from Chicago that the railroad has been awarded what I regard as the choicest space in the whole of the big Coliseum. It is the largest space of any single exhibitor. We also have an excellent location at the Omaha exposition. "In the space we have secured we will build two lecture halls at each show. These will be equipped with chairs, lights and stereopticon and moving picture machines manned by experienced operators. They will be thrown open free to all the towns, cities and communities along our lines in Idaho. We want every locality that has any message to the public to come there and deliver it. There isn't a station along the Union Pacific lines that has not some highly attractive advantages and while of course the Union Pacific knows it, and the people that live here know it, it has not been told enough to the thousands who are looking for homes. Properly Told, Will Draw Settlers. "That's where the lecturers that we want out here to send to Chicago and Omaha will do their good work. A straight talk, without frills, but backed by little stories of what has been done here, will do more to convince the man looking for a new home than anything else. "Then if the people of Idaho want to make exhibits they may secure space and gather their products and we will hand them free of charge to the exposition. "It takes money to do these things, but there is not a man, woman or child in the state too poor to do his share. The commercial clubs in the towns should take hold for these places and in the smaller communities some one should be selected to gather the funds to send good lecturers, and displays if they are wanted. "Every dollar thus spent will come back in many ways. The merchant that gives \$50 or \$100 will receive his reward in the trade of the settlers who will come in answer to the call. The farmer will get his in the increased value to his land due to the greater demand for it and the greater crop production that comes from intensified farming methods. And the laboring man will prosper in the greater population will make the demand for him greater and consequently boost his wages. "Railroad's Business to Help State. "It is the railroad's business to help boost Idaho. We know that Idaho is well worthy of all the boosting we can give her, and then too by bringing people here we are making them our friends because we cannot bring

COUNTY FAIR SEPTEMBER 27-30.

Several meetings have been held during the past week, at which active preparations have been made for the Second Annual Latah County Fair to be held in Moscow from September 27 to September 30 inclusive. The premium list which is the most elaborate ever arranged in this county, will be issued in a few days. The committee in charge of this list and of the advertising of the fair consists of P. L. Orcutt, George Fields, W. L. Carlyle, N. Williamson and E. E. Ostroff. Dean Carlyle has been very active in assisting in the preparation of this list, and it is believed that the premiums will tempt exhibitors from every part of the county.

P. L. Orcutt, who has been employed by the Chamber of Commerce as secretary, will also have charge of the fair work as secretary of the County Fair Association. He left last Saturday with instructions from the board of directors of the fair association, to get each town in Latah county represented in the advertising to be carried in the premium lists. It will be a part of Mr. Orcutt's work to make the other sections of Latah county feel that this fair is not a Moscow fair, but is intended to embrace the entire county. Every opportunity will be afforded the different districts to exhibit, and every aid will be offered them in getting their exhibits in shape. Last year Genesee made an enviable showing at the fair, and any district that does not come in and assist in the fair this fall, will have no one to blame but themselves.

A feature of the fair will be the offering of a silver trophy cup for the best general exhibit from any district. Moscow will be barred from the competition, and the district winning the trophy cup twice will be allowed to keep it.

Negotiations are pending for the use of the university athletic field for the fair and stock is now being placed on the market to raise sufficient funds to construct modern fair buildings.

The committee on grounds consists of J. Keane, George Fields, and Prem Moore. The finance committee consists of H. Whittier, F. A. David, C. B. Green and N. Williamson—Moscow Post.

IDAHO'S VALUATION \$338,000,000. With the turning in of the abstract from Ada county all kinds of calculations were started in the various offices of the state house. It was soon ascertained that the total assessed value of the state was \$74,259,011.47. The total value of the patented lands of the state is found to be \$144,332,080.25. That is by all odds the greatest item of value in the state, representing 52 per cent of the total value.

These totals make it possible to estimate closely the effect of the cash value propounded on the valuations in the state. Last year the value of all property, exclusive of the corporations whose valuation is fixed by the state board of equalization, was \$103,328,055.69. The gain therefore for this year is \$171,039,954.78. This shows a percentage of gain of 166. No information is given out as yet with reference to the valuation to be placed on the corporation property. Last year it was a little less than \$4,000,000. If the percentage of gain enforced in all other classes of property is made to apply to the corporations—166 per cent—it will raise the assessed valuation of this class of property to approximately \$64,000,000 and make the total for the state \$313,800,000.

These figures afford room for the widest possible speculation as to what the state board of equalization will finally do, and for this reason the actions of the board will be watched with greater interest than ever. It is now a firm conviction in the minds of all who have paid attention to the assessments that some of the counties are assessed on a much higher basis than others. The state board of equalization has it in its power to raise all the counties 15 per cent or lower them 15 per cent; or it can lower some of the counties and raise others to bring about an equalization; but if the object aimed at is the establishment of the actual cash value of all the property in the state, then the problem becomes all the more complex.

TO THE PEOPLE OF THE INLAND EMPIRE.

It is with a deep feeling of appreciation for the honor and the privilege, on behalf of the people of Lewiston, Clarkston and vicinity, and through the Le-vision-Clarkston Fair organization, to extend their hospitality to the people of the Inland Empire during the week of the annual fair, October 9th to 14th.

Other localities each year combine their efforts for entertainment and hospitality in some form of celebration. Seattle had its "Golden Gate Fair," Portland its "Rose Festival" and other places their "Pioneer" and other gatherings, but it remains for Lewiston, Clarkston and vicinity, at the close of each harvest period, to invite their friends of the Inland Empire to join with them in giving this great annual industrial exhibit as a tribute to the merits of their industry as evidenced by their products of forests, mines, fields and orchards. By October 9th your grains will be garnered and your season of labor closed, and it is our earnest wish for you to visit us and take part in this annual event.

We are striving to make the occasion entertaining and instructive and wish to reflect the results obtained by applying the efforts of an industrious and intelligent people to a well favored portion of a great commonwealth. We well realize that we can do but little without your co-operation, and wish not only your presence in person but your products, and with these, we will endeavor to please and be pleased.

WATCHING THE FAIR AMUSEMENT PROGRAM AT SPOKANE.

Not a chance for a dull minute at the Spokane Interstate Fair this fall. Every hour of the seven days, from Oct. 2 to 8, will have some pleasure all its own. Each morning there will be concerts by Ferrillo's big Italian Concert band, exhibits of blue ribbon live stock in the judging arena and a lecture by Professor Frank G. Odell, the "bee wizard." Promptly at 1 o'clock in the afternoon the band concerts will begin before the grand stand; at 1:20 the harness races for purses, which amount to \$2,000 daily; then the running races for purses equally as large, the always thrilling relay race, the big program of circus and vaudeville acts and, last, but far from least, the aeroplane contests between two of the most famous of the world's aviators.

Between the close of the afternoon program and the opening of the night show there are acres of exhibits to see and all the new attractions on the Midway. Many good restaurants will furnish everything to eat from a hamburger sandwich to a real dinner, and then it is time to hurry back to the grand stand for the big night spectacle, "Pioneer Days in the Palouse," and the always gorgeous fireworks displays. Not a spectator can go home unsatisfied this year, for the exhibits and amusements will be varied enough to suit every taste.

An intensely interesting program has been arranged in connection with this night show of frontier life, and many riders and other performers will be brought from Oregon, Wyoming, Idaho and Montana. Among others who will appear is Colonel W. A. Ellis, known as "Wild Bill From Up the Gulch," the famous representative of the Remington Arms company and one of the most expert rifle and pistol shots in the United States, who will perform every night feats with bullets which most shots would consider impossible in the daytime. In all more than 300 men, Indian and horse will be used to outline a thrilling living picture of "Pioneer Days in the Palouse."

GENESEE NEEDS A NEW SCHOOLHOUSE.

There is probably no other school district in the panhandle of Idaho having the wealth and population of the Genesee district, that has a schoolhouse which is in as bad condition as that one of District No. 2, and the visit of our school directors to the Troy school last week, convinced them all the more thoroughly of the need of a new home for the school children of this community. The present building is unsanitary; it is unsafe in the extreme, and one can only imagine the awful consequences of a fire in the present building during school hours; it is a disgrace to the city and community to have such an out-of-date fire trap; and the dingy rooms, and dirty floors are by no means the most inviting surroundings for the education of our children.

Most of the people of Genesee do not realize how badly a new building is needed here, for they have never taken the trouble to go through this building, and see its dirty, filthy, soaked floors, its small windows, its out-of-date heating methods and its dingy walls. A little visit to the schoolhouse which the board saw at Troy, while not large enough for this district, is an example of the pride the people of that city take in their educational facilities, and the Genesee board has decided to have a building very similar to that one, but considerably larger, and has sent in its plans to an architect to have a paper estimate of the necessary cost to be had before the date of the election is set.

The idea is to have, first, a building that is safe, one that is as nearly fire proof as a school building can be made. Second, to provide sanitary and comfortable conditions for the children. Proper ventilating and heating devices will be installed so as to keep the rooms at an even temperature, instead of it being very hot in one part of the room, while other parts are cold. Your children spend 9 months of each year in the school room, and it is a disgrace to our citizens to call this building a fit place to keep their children for the greater part of the time during three-fourths of a year. Last, but not least, to build an edifice to which we can point with pride, a schoolhouse that is worthy of the name.

Some have argued that to fix up the old shell will be good enough. Have you stopped to think what that means? It would require at least \$500 to paint the exterior of the building, not to mention the many hundreds of dollars of repair work that is necessary on the interior. And the building has reached that stage now where it would require an endless chain of repair expenses, year in and year out, which would fully equal the interest on a bond issue to build a respectable building. It needs a new roof, it needs new walls, new floors, new rafters, blackboards, interior remodeling, new floors, new stoves, etc., in fact it needs so many new things that the board, very rightly, considered it an absolute waste of the taxpayers' money, to put in anything but a few cheap stoves, to last through this season, and decided instead to invest this money wisely in an entirely new brick structure. The exact date as to when the taxpayers will have an opportunity to show whether or not they are progressive enough to desire nothing but the best and most approved facilities for the education of their children, has not been set, but will undoubtedly be shortly after the 20th of September. We would urge every patron of this district to go through the building and see for themselves the condition it is in. We'll assure you it will not take you long to make up your mind as to how you should vote, once you have gone through the old shell.

THIRTY YEARS TOGETHER.
Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guesswork in this evidence of "The Aris, Concord, Mich," who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't get it out. Many families have used it for forty years. It's the most infallible throat and lung medicine on earth. Unrestrained for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by F. E. Dicus & Co.

J. A. Peterson, who has been visiting in the city for the past month, left yesterday morning on the return to his home in Snohomish, Wash. He will stop enroute, at Spokane.
Mrs. Joseph Devanid, of near Leon, underwent an operation at the Tuomy hospital last Tuesday. Doctors Titus of Spokane, Burg and Tuomy performed the operation. Her condition is considered serious.

While no member of the state board of equalization has expressed himself on the subject, there are indications that an agreement will be reached to assess main lines of railroads in Idaho at a round \$40,000 a mile, as against \$16,500 last year.

A smut explosion, last Wednesday afternoon, set fire to and completely destroyed the threshing machine and a new \$400 feeder of Swenson Bros., while threshing on the Odberg Bros. ranch, 5 miles east of town. Besides destroying the machine, threshed grain and straw pile, the fire spread over the grain field, and burned up the balance of 75 acres of shocked grain before it could be stopped. The grain was saved, but the machine was not and is a total loss.

See Olson's new line of Silverware.
—Mrs. Geo. Martin was a visitor in Spokane the fore part of this week.
—This is ideal harvest weather, and the crop is one of the largest ever ever grown in this country.

—Miss Lulu Brennan, of Uniontown, was visiting with relatives here for several days this week.
—Mr. and Mrs. R. E. Emmett were visitors at the J. L. Klapp home on the Lewiston Orchard Tract last Sunday.

—Will Platt, who has been visiting with friends and relatives here for the past week, left for Spokane last Friday morning.
—Miss May Herman was visiting with friends in St. Joe, Coconino county and Spokane, for several days during the past week.

—Mr. and Mrs. Michael Everts of Visalia, California, who are here on a visit of several weeks with relatives, were Colton passengers on last Monday morning's train.
—Mrs. Wm. Starkey, of Spokane, and Miss Daisy Glidden of Moscow, who were visiting here last week with Mrs. Chas. Jain, returned to their homes Saturday morning.

—A social dance, the first of this season, will be given at the Genesee opera house next Saturday night, August 26. The music will be given by Brommeling's orchestra, and the dance will continue until a late hour.
—A two-story brick addition, 24x 28, is being started to the east end of the parochial schoolhouse here. This addition is for the purpose of enlarging the present class-rooms, which have been crowded, and to provide better quarters for the Sisters.

—Roy Evans, the son of Sanford Evans, was taken to Spokane last Friday morning, where he underwent an operation for appendicitis by Dr. Titus. Reports from there, this week, indicate that he is recovering rapidly. Roy has just recovered from a broken leg, and with the recent operation, it seems he has had more than his share of hard luck this summer.

—Mr. and Mrs. Herman Bremmeling returned the latter part of last week from Cadogan, Alberta, where they have been visiting during the past summer with their two sons, Stephen and Gerhardt. They report a very pleasant trip and the crop prospects in that part of Alberta are very good, although harvest will not begin there until after the first of September. The Brommeling brothers have several hundred acres of land, and while all of it has not yet been broken, they expect about 30 bushels per acre from the land in crop.

—Messrs. Will Gray and T. Driscoll returned last Friday from a fishing and outing trip on the Salmon river near Grangeville and on the Rapid river near Pollock.

—Mr. and Mrs. W. M. Welch, who have been here for the past two weeks, left Wednesday morning for Santa, Idaho, where they will teach in the public schools this season.
—All the members of Company H, and others who would be interested in the National Guard, are requested to meet at the Armory on Saturday night, August 26, at 8 o'clock, for the purpose of ascertaining whether or not the local company shall be kept here.

—Mr. and Mrs. H. L. Hardy, who have been residents of Genesee for many years past, moved this week to Colton, where Mr. Hardy will assume active management of his saloon. Their goods were shipped overland, Mrs. Hardy and the children going over on Wednesday morning's train.
—A fire on the Chas. Scharnhorst farm, 6 miles west of Genesee, last Monday night destroyed 210 sacks of grain together with a law straw pile. The fire started after the threshing machine had moved from its setting, and is supposed to have been caused by live coals in the cinder pile left by the engine, which communicated the blaze to the stubble and in turn to the straw and grain.

—Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by F. E. Dicus & Co.
Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.

—Rev. Fr. Haegy was a business visitor at Moscow this week.
—The little daughter of Mr. and Mrs. Geo. Carbyn has been quite sick for the past week with summer complaint.
—John Cunningham was a Troy passenger on last Saturday morning's train, and is transacting business there this week.

—Mrs. Frank McWilliams was an arrival here from Spokane last Tuesday and is visiting at a week at the F. S. Caswell home.
—The Cole and Rogers Railroad Shows gave two very creditable exhibitions here last Tuesday afternoon and evening. They had fairly large crowds at both performances.

—Mr. and Mrs. Ole Nelson, Andrew Bakken, Christ Odberg and Theo. Martinson all of Moscow, Mrs. Etta Jacobs of Seattle and Erick Rudd of Arizona, were visitors at the Chas. Nelson home here last Sunday.
—Thos. Keane was an arrival here from Spokane Wednesday afternoon for a short visit at the parental home. He has recently received appointment as a regular clerk in the Spokane post office and will assume his new duties on September 1.

—Andrew Trautman and Barpey Jacobs left Wednesday morning for New Norway, Alberta, where they will take charge of two ranches which Mr. John Trautman has recently bought. Besides the 320-acre farm which Mr. Trautman bought some time ago, he has also purchased within the past two weeks, another large farm of 320 acres, with all the stock, implements and improvements. Both these places are located near New Norway.

—Geo. Martin came up from Riparia last Wednesday afternoon and reports that he has sold his farm there of 53 1/2 acres to Malcolm Walters of Spokane, for a consideration of \$30,000. The sale was made through the Ham-Yearsley-Ryrie Co., of Spokane. Mr. Martin also states that he has purchased an improved ranch of 2,000 acres, 1,500 acres of which are under the plow, together with large house and farm buildings, at Krupp, Lincoln county, Wash., and, with his family, will move onto the new property shortly after the first of September.

NOTICE TO FARMERS.
I will operate the portable barley crusher in this vicinity through the months of August and September. The mill is equipped with a long elevator to discharge chop into graneries. Can sack chop if so desired by farmer. Prices, \$1.00 per ton for delivering in granery, and \$1.25 per ton when sacked at the mill. Progressive farmers will note the saving in time and money by employing me to do the work. Orders received by C. M. Robbins, at the Grand Central Hotel, Genesee, Idaho.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without malice. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by all dealers.

ACCUSED OF STRAYING.
E. E. Chamberlain, of Clinton, Me., badly accused Bucklen's Arnica Salve of stealing the sting from bees or sending the pain from sores of kindred distress from hell or pliers. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at F. E. Dicus & Co.

—Breeds of fine horses prefer BALLARD'S SNOW LINIMENT for all cuts, wounds or sores on their stock, because it acts both mildly and quickly and heals an ordinary wound without a scar. Price 25c, 50c and \$1.00 per bottle. Sold by F. E. Dicus & Co.

—Tom Sullivan, of Spokane, was a business visitor here the fore part of this week.

NOTICE OF BOND ELECTION.
The necessity of a new, up-to-date, sanitary school building being apparent in Genesee Independent School District No. 2, of Latah county, state of Idaho, the school Trustees of said district therefore decided at a meeting held August 30th to bring this matter before the voters of aforesaid district. The Trustees of said district have estimated the cost of a suitable building, improving grounds and equipping said building to be about the sum of \$20,000, and as the sum of \$20,000 together with the present bonded indebtedness of said district does not exceed twelve per cent of the value of the taxable property of said district:

Therefore, notice is hereby given that under and by virtue of an act of the eleventh session of the legislature of the state of Idaho, approved March 7th, 1911, entitled, "An act providing a code of laws on education for the public school system of Idaho; there will be a special meeting of the qualified electors of Genesee Independent School District No. 2, in Latah county, Idaho, on the 16th day of September, 1911, at the schoolhouse in Genesee, in said district for the purpose of voting on the following question:

Shall the Board of Trustees of Genesee Independent School District No. 2, of the county of Latah, state of Idaho, be authorized to issue the negotiable coupon bonds of twenty thousand dollars (\$20,000) for the purpose of erecting a school building, furnishing furniture, apparatus and fixtures for the same, all as provided by the laws of the state of Idaho?

The said election to be held under the School District Bond Election Laws of the State of Idaho, governing school district bond elections, on the above named date, to wit: Saturday, September 16th, 1911, at the school building in said district, the polls to be opened at one o'clock p. m. and close at five o'clock p. m.

By order of the Board of Trustees of Genesee Independent School District No. 2.
H. NEBELSON, Clerk.
Dated at Genesee, Idaho, this 1st day of September, 1911.

Mrs. Trail will clean and press your clothes at reasonable prices. Call phone No. 142.

Everybody is liable to "catch cold," but those who give a cold proper attention never have serious lung diseases. It is neglect that makes them serious. Prudent persons use BALLARD'S HOREHOUND SYRUP as soon as the trouble appears and the cold is cured at once. Price 25c, 50c and \$1 per bottle. Sold by F. E. Dicus & Co.

A sore throat can be treated best from the outside. The throat should be rubbed gently with BALLARD'S SNOW LINIMENT. Apply at night and cover with a cotton cloth bandage; by morning the soreness will disappear. Price 25c, 50c, and \$1 per bottle. Sold by F. E. Dicus & Co.

CHURCH NOTICES.

FRIDAY, SEPTEMBER 1, 1911

Sapphire is the birthstone for September. You can get them at Olson's. —A son was born to Mr. and Mrs. Fred Vanouck, on Sunday, August 27th.

—Ed. Koderick left yesterday morning on a brief business visit to Pullman and Spokane.

—Wayman left Thursday morning on a short business trip to Spokane and to his ranch near Mansfield.

—Mr. and Mrs. J. M. Henry returned to Spokane yesterday, after a three weeks' visit here with relatives and friends.

—M. F. J. Carish was visiting with friends in Spokane for several days during the past week. She returned home yesterday afternoon.

—P. L. Cann has been busy the past week doing interior decoration work on the new residence of John Magee, northeast of town, which was recently completed.

—Prof. L. T. Babcock was a visitor at Moscow and Okesdale last Saturday and Sunday, at which latter place he visited with Rev. J. G. Carrick, and delivered a lecture at a union church service Sunday evening.

—Miss Marjell Mayfield, of Stites, made a short visit at the N. Edwards and Mrs. M. Rader homes on Saturday last week. She has departed for Seattle where she expects to fill a position in a millinery store.

—Mrs. P. M. Brown of Fort Recovery, Ohio, is here visiting with her sister, Mrs. John Kempf. She expects to remain in this country several weeks, spending the time with other relatives here and at Uniontown.

—Rev. and Mrs. H. P. Nelson left Tuesday morning for Hesper, Ore., where they are attending the annual Northwestern conference of the Methodist church. Mr. Nelson will not return to Genesee as he expects to be assigned to another charge.

—A fire from an unknown cause, called the fire department to the City Restaurant Tuesday morning at 7:30. The blaze was confined to the attic in the second story and was quickly subdued. It is supposed that the fire started from a spontaneous combustion, as no electric wires, fuses, or other known sources of fire were in that part of the building.

—A movement that has long been needed in Genesee, was inaugurated last Wednesday evening at the Herman Olson's, secretary, Miss May Hermon, treasurer, Leon Larrabee, sergeant-at-arms, Wesley Morgan. All graduates and former students, who have completed two years of work in the Genesee high school are eligible for membership, and are invited to attend the next meeting which will take place at 8 o'clock, Thursday evening, September 7th, at the Driscoll home.

—The program given at the Christian church last Sunday night was enjoyed by a capacity house. The different numbers were very well rendered and interested the audience.

—Miss Dora Scott, who has been visiting at the G. A. Bumpass and Arthur Hampton homes here for the past 10 days, left this morning for her home in Harrington, Wash., stopping enroute with friends in Moscow.

—Andrew Risdal left Tuesday morning for Portland and Astoria, Oregon, at which latter place he will attend the Astoria Centennial. He will return home by way of Seattle and expects to be gone about 8 days.

—Prof. and Mrs. M. B. Dunkel were visitors here from Culdesa last Wednesday and have returned the Wed. Fr. Frei property north of the Catholic church, formerly occupied by the sisters. They are moving into it this week.

—Mrs. J. S. Larrabee and daughter, Miss Olive, who have been visiting for the past three months with relatives and friends in Wisconsin, Michigan and other middle west states, returned home last Saturday afternoon. They report a very pleasant trip, although they state the weather as having been very warm.

—Miss Rose Harris, who has been visiting here with her sister, Miss Adelaide Harris at the G. L. Shull home for the past several months, left Wednesday morning for Caldwell, Idaho, where she will teach in the schools this winter. She was accompanied by Miss Adelaide Harris, who will remain there visiting with relatives for a few weeks.

—Read the following new ads which appear in this issue of the News: Follett Bros., O. Olson and Robert Emmett & Co.

—Nick Kries, who is farming the Peter Gross ranch, east of town, reports that he took 80 sacks of barley from a patch which was planted with 2 sacks of seed and containing about 2 acres. From 45 acres of wheat land, he threshed over 900 sacks.

Apply a cotton cloth wet with BALLARD'S SNOW LINIMENT to all wounds, cuts, burns, sores or blisters, and note its wonderful healing power. It is prompt and very effective. Price 25c, 50c and \$1.00 per bottle. Sold by F. E. Dicus & Co.

—Take HERBINE for heartburn, sour belching or constipation, it cleanses and strengthens the liver, stomach and bowels. Price 50c. Sold by F. E. Dicus & Co.

—The Kerr-Giffard warehouse is being enlarged by the addition of a platform on the east end of the present building. Manager Primus states that the grain is coming in so fast this year that the present quarters will not hold it, and a 40x20 platform will be put in to accommodate the overflow. Other warehousemen report a very large crop of grain, and with the few sales which are being made it is expected every warehouse in town will be filled to capacity this fall.

NOTICE TO FARMERS.
I will operate the portable barley crusher in this vicinity through the month of August and September. The mill is equipped with a long elevator to discharge chop into granaries. NEW LAW ON VITAL STATISTICS.

A new law which was passed by the last session of our state legislature, provides for the immediate registration of all births and deaths throughout the state of Idaho by means of certificates with the Bureau of Vital Statistics at Boise, through various local registrars, and is now in operation.

The law provides that all births, deaths, or removal of corpses from the state shall be registered with the local registrar, within 10 days after the occurrence, and he in turn gives the record to the state board of health. In case of death a burial permit must also be secured, as is likewise the case of a removal of a corpse from the state. The law further provides that the failure of any physician or other person charged with the responsibility of reporting deaths, shall be subject to a fine of from \$5 to \$50, and failure to report births, shall be guilty of a misdemeanor and subject to a fine of from \$10 to \$200, and any undertaker or sexton, or other person acting as undertaker, who shall inter, remove or otherwise dispose of the body of a deceased person, without having received a burial or removal permit, shall upon conviction of the misdemeanor be fined not less than \$25 nor more than \$500.

Dr. W. H. Ehlen has been appointed the local registrar for the state board of health, and the proper blanks for making these various reports may be secured from him.

STATE ITEMS.

Merchants and others in Glenns Ferry have been fined sums aggregating \$500 for violation of state pure food and sanitary laws.

The citizens of Sittes are considering a proposition of damming the south fork of the Clearwater to provide electric light and power and furnish water for that town.

The state land board has ordered sale to be made of the state lands in northern Idaho which have been in controversy for a year or more and which are to be purchased by the Potlatch Lumber company, which owns the timber on the land. About 5,000 acres of the original lot were eliminated from the sale. The land is on the Clearwater.

Workmen engaged on an excavation on the Hotel De France property in Lewiston last week removed the walls of an old well and uncovered an old box hid behind the stones that, when opened, was found to contain gold and silver coins to the value of \$276. The money had evidently been hidden there years ago and its owner may have since died.

CASH PRIZES FOR FAIR SLOGAN.

The management of the Lewiston Clarkston fair can assure the visitors they will not be compelled to go elsewhere to witness all the best features of the northwest fairs. We have the flying attraction, the beam-man feature and Buffalo Vernon as a fitting complement of the best attractions.

Feeling confident of a big fair, we are desirous of fittingly designating the occasion by some popular slogan and we are therefore offering \$500 to any boy or girl under the age of 18 years who will propose the best one, and the same amount to the one proposing the best name for the carnival features. It is recalled that the world's fair at Chicago had its "Midway," the St. Louis fair its "Pike," the Portland fair the "Trail" and we are informed that Boise has adopted the "Big Ditch." Therefore this plan.

The committee appointed by President Mount to pass upon and make the selection of the best of each consists of Mayor J. J. Perkins of Lewiston, Mayor R. M. Yount of Clarkston, and former Senator Henry Heitfeld, president of the Lewiston-Clarkston fair. We ask any boy or girl who will propose both or either of the above to send the same to the secretary of the Lewiston-Clarkston fair, on or before September 10.

We are prepared to do all kinds of gray iron and brass castings. IDAHO NATIONAL HARVESTER CO., MOSCOW, IDAHO.

NOTICE TO PARENTS AND GUARDIANS.

You will please take notice that sections 159, 160 and 161 of the School Laws of 1911 provide as follows:

CHILDREN TO ATTEND SCHOOL.

SEC. 160. In all school districts of this state, all parents, guardians, and other persons having care of children shall instruct them or cause them to be instructed, in reading, writing, spelling, English grammar, geography and arithmetic. In such districts, every parent, guardian or other person having charge of any child between the ages of eight (8) and eighteen (18) years, shall send such child to a public, private or parochial school for the entire school year during which the public schools are in session in such district: Provided, however, That this chapter shall not apply to children over fourteen years of age where such child shall have completed the eighth grade, or may be eligible to enter any high school in such district, or where its trip is necessary for the own or its parent's support, or where for good cause shown it would be for the best interest of such child to be relieved from the provisions of this chapter: Provided, further that if a reputable physician within the district shall certify in writing that the child's bodily or mental condition does not permit its attendance at school, such child shall be exempt during such period of disability from the requirements of this chapter. It shall be the duty of the superintendent of the school district, if there be such superintendent, and if not, then the county superintendent of schools, to hear and determine all applications of children desiring for any of the reasons mentioned herein to be exempted from the provisions of this chapter, and if upon such application such superintendent hearing the same shall be of the opinion that such child is for any reason entitled to be exempted as aforesaid, then such superintendent shall issue a written permit to such child, stating therein his reason for so permitting. An appeal may be taken from the decision of such superintendent so passing upon such application to the probate court of the county in which such district lies, upon such child making such application and filing the same with the clerk or judge of said court, within ten days after its refusal by such superintendent, which no fee to exceed the sum of One Dollar (\$1.00) shall be charged, and the decision of the probate court shall be final. An application for release from the provisions of this chapter shall not be renewed oftener than once in every three months.

SEC. 161. Every child within the provisions of this chapter who does not attend school, as provided in the preceding section, or who is in attendance at any public, private, or parochial school, and is vicious, incorrigible, or immoral in conduct, or who is an habitual truant from school, or who habitually wanders about the streets and public places during school hours without lawful occupation or employment, or who habitually wanders about the streets in the night time, having no employment or occupation, shall be deemed a juvenile delinquent person, and be subject to the provisions of this chapter.

SEC. 159. In all cases where any child shall be a delinquent child, a juvenile delinquent person, or a juvenile disorderly person, as defined by this Act, the parent or parents, legal guardian, or person having the custody of such child, or any other person responsible for, or by any act encouraging, causing, or contributing to the delinquency of such child, shall be guilty of a misdemeanor, and upon trial and conviction thereof shall be fined in a sum not to exceed Three Hundred Dollars (\$300) or imprisonment in the county jail for a period of not exceeding six months, or shall suffer both fine and imprisonment. The Court may impose conditions upon any person found guilty under this Act, and so long as such person shall comply therewith to the satisfaction of the Court, the sentence imposed may be suspended.

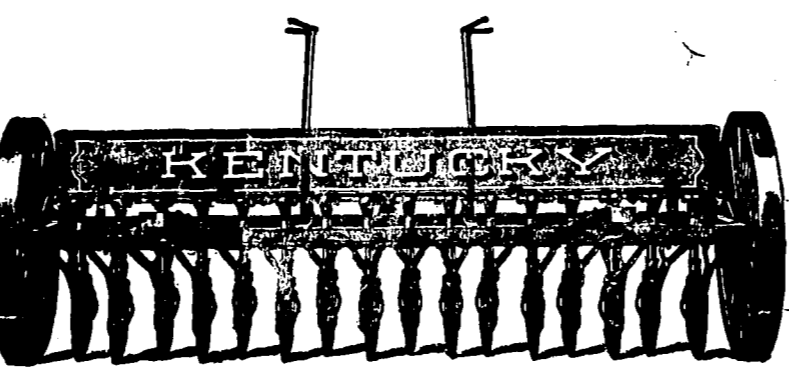

CATHERINE T. BRVDEN, County Superintendent of Schools.

NOTE FOR THE SCHOOL BONDS.

Genesee's greatest need today is a new school house, and the News believes that the people of this school district will show the spirit of progressiveness, when they go to vote on a \$20,000 bond issue for a new school building a week from tomorrow. The present structure, which is entirely out of date and in repair, is probably one of the shabbiest school properties in the Inland Empire, and many towns, half the size of Genesee, and with but one-fourth its wealth, have buildings which cost almost as much as our bond of trustees has decided to put into a new school building here. An example of this spirit, which is taking hold of the people in every hamlet, village and city in the United States, is shown in the \$20,000 Bond Issue Election at Cottonwood last Friday, when there were but 2 votes opposing the progressive step. This shows that the people of Cottonwood are no longer content with sending their children into poorly heated and ventilated school rooms; it shows that they feel that the teachers cannot get the best results from children who are compelled to study in dingy rooms, with filthy-soaked floors, and poor light; and that the children themselves cannot put the efforts into their work that they can with large, bright sunny rooms, and cheerful surroundings. Cottonwood's spirit is the right spirit, it is the spirit that the people of Genesee will show at the election on September 16th.

It must be remembered that only fresh voters (those who own real property—not personal property) will be allowed to participate in this election. The school laws of Idaho demand this and it behooves every freeloader in this district to get out and vote on that date. Turn out and make the vote here so nearly unanimous that there can be no doubt whatever of the result. The people of this part of the Inland Empire stand on the school question. Let us demand that our children shall have school facilities, than which there are none better, and we can do this by voting "YES" on the bonds.

LATAH COUNTY ENTERS FIRST DISPLAY.

Latah county, Idaho, has the distinction of formally entering the first display in the competitions on carload lots at the fourth National Apple Show in Spokane, November 23 to 30, when \$20,000 will be awarded in premiums in contests, free and open to all exhibitors. The entry was made by P. L. Orcutt, secretary of the Moscow Chamber of Commerce and the Latah County Fair association, who was here on August 22.

The growers in Latah county and other parts of central Idaho are greatly pleased over the announcement that Spokane has decided to continue the National Apple Show as an annual event. Mr. Orcutt said in the course of an interview at the rooms of the chamber of commerce, "and we are glad to have the privilege and pleasure of entering a display in the carload contests, which, I am informed by Ren H. Rice, secretary and manager of the show, was the first received from any district this season."

It will be recalled that we entered several displays at the first and second shows, in 1908 and 1909, when among our exhibits were apples that aroused the wonder of the experts for their keeping qualities. The apples exhibited by J. H. Forney in 1908 were shown the following year and were as good then as 12 months before. The fruit was kept fully 18 months without artificial means. Secretary Rice announced today that he has received inquiries during the last few days from most of the states and provinces in the Pacific northwest, asking for details of the coming show.

ADVANTAGES OF FALL PLOWING.

There are sufficient advantages in fall plowing to warrant a greater amount of it than is done by the average Palouse farmer. The practice on the College farm for several years has been to fall plow all of the land to be planted to crops the following spring if possible to do so. There have been times, however, when for lack of horses and work pressing, that it was impossible to get all of the land fall plowed. The crop in such instances never failed to show the results. Fall plowing always produces better crops. The difference is so great that the line where spring and fall plowing comes together is well marked, and can easily be followed with the eye from a distance by the difference in the appearance of the grain. Grain on the fall plowing is, if properly handled, free from wild oats. Fall plowing can be worked, and be ready to seed in the spring, by the time the land that has been left for spring plowing is dry enough to stir, consequently earlier seeding can be done. Plowing can be done as late as the 15th of December, and there are times when even later in the month, even till Christmas.

The land intended for summer-fallow should be fall plowed, thus admitting a greater amount of moisture into the sub-soil. Summer fallow so handled can be rid of the wild oats, and a better mulch or seed bed maintained. Crops depend upon the seed bed or the condition of the soil, if in poor condition a poor crop should be expected, and a good seed bed, all other conditions being equal, produces enough extra to pay for the handling of the entire crop. Fall plowing and better cultivation then gives us better crops.

SCHOOL OF AGRICULTURE POPULAR.

The Idaho School of Practical Agriculture was organized in 1910 to meet the needs of those young men who desire such agricultural training as can be immediately applied to successful farm operations. The school admits students from the 8th grade. The attendance last year was 33, made up of 14 from north and central Idaho, 11 from south Idaho, 7 from Washington, and 1 from Colorado. The average age of the students was 19 years and the ages ranged from 16 to 26 years.

The success of last year's work has resulted in wide-spread publicity for the school. To date 25 personal requests for information as to the Practical School have been made and 37 letters of inquiry and applications for admission have been received by the principal. A remarkable feature of the correspondence is that this school seems to be known in every part of the United States. Of the letters from outside of Idaho and Washington 2 have come from Illinois and 2 from Oregon and 1 each from Montana, New York, Wisconsin, Kentucky, North Carolina, Ohio and Massachusetts.

FREE LECTURES AT LEWISTON FAIR. The management has engaged this year as a free public attraction the services of Prof. Frank G. Odell of Lincoln, Neb., the world-famous "bee wizard" whose reputation as an entertainer extends wherever bee literature is read throughout the civilized world. Prof. Odell is also a national celebrity on the agricultural lecture platform and is the originator of one of the most unique and pleasing high class features ever offered to the public. His popular rapid-fire lectures on agriculture, apiculture and nature study are illustrated constantly by manipulations of his bees which he confines within a screened wire cage where he does sensations with the honey-makers beyond belief. This remarkable series of entertainments has been a premier attraction on the national state fair circuits for several years, playing to millions of deeply interested people. He comes to Lewiston direct from the Spokane fair, where he has entertained for two seasons. He delivers two lectures daily and every lecture is an educational as well as an entertaining treat.

WE ARE HERE & PLEASE YOU

WE ARE HERE TO PLEASE YOU IN THREE THINGS—FIRST, IN THE QUALITY AND STYLE OF THE GOODS WE OFFER; SECOND, IN THE PRICES WE MAKE ON OUR GOODS; AND THIRD, IN THE STORE SERVICE WE GIVE YOU. EVERYONE IN OUR STORE IS ALWAYS READY TO RENDER ANY POSSIBLE AID IN HELPING OUR CUSTOMERS SELECT GOODS. IT WILL PLEASE US TO PLEASE YOU. COME SEE OUR NEW GOODS.

NEVER BEFORE have we been in as good a shape to please everyone. Our assortment in Fall and Winter Merchandise will suit your needs, please your pocket-book and be the very best value for the money that you have ever obtained. Heretofore many in this community have practiced sending away for some of their goods. This, we frankly admit, should not be so and we intend to do every thing possible to lessen this practice in the future. If you do contemplate sending away for a bill of goods, do this much for your home merchant whoever he is. Make out your list as you would to send away for goods; make it an order worth while, accompanied by the cash and give your dealer first chance at it. If he can't fill it at the price the catalog house asks, freight considered, he'll frankly tell you so with no kick coming.

On the other hand don't, for goodness sake, expect your dealer to carry a big stock, pay heavy local taxes, insurance, etc., loan you money for a year or less, and maybe more (which is what buying on credit means), run the risk of losing a portion of his accounts, and still sell as cheaply as a Mail Order Concern which does business on a strictly cash basis. Bunch your orders as you do in mail ordering, pay cash, and see if conditions do not improve.

ENTERED AT THE POST OFFICE AT GENESEE AS SECOND-CLASS MAIL MATTER.

H. W. BURNE, PUBLISHER.

Subscription price, strictly in advance, \$1.50

President Taft is coming to the Pacific northwest one week earlier than he had originally planned. He enters eastern Washington at Spokane from Lewiston and Moscow on Saturday evening, October 7th. On Sunday, the 8th he will visit Mt. Ranier, where special facilities will enable him to inspect a goodly portion of the National park. The following day, he goes to Bellingham, Mt. Vernon and Everett, reaching Seattle Monday evening in time for an address at the Armory. The most of Tuesday will be spent in the Queen City. That evening he goes to Tacoma and thence through southwestern Washington, making quite a comprehensive site tour of the state. The president will be in Oregon October 13 and 14.

NOTICE OF BOND ELECTION.
The necessity of a new, up-to-date, sanitary school building being apparent in Genesee Independent School District No. 2, of Latah county, state of Idaho, the school Trustees of said district therefore decided at a meeting held August 30th to bring this matter before the voters of aforesaid district. The Trustees of said district have estimated the cost of a suitable building, improving grounds and equipping said building, to be about the sum of \$20,000; and as the sum of \$20,000 together with the present bonded indebtedness of said district does not exceed twelve per cent of the value of the taxable property of said district:

Therefore, notice is hereby given that under and by virtue of an act of the eleven session of the legislature of the state of Idaho, approved March 7th, 1911, entitled: An act providing a code of laws on education for the public school system of Idaho; there will be a special meeting of the qualified electors of Genesee Independent School District No. 2, in Latah county, Idaho, on the 16th day of September, 1911, at the schoolhouse in Genesee, in said district for the purpose of voting on the following question:

Shall the Board of Trustees of Genesee Independent School District No. 2, of the county of Latah, state of Idaho, be authorized to issue the negotiable coupon bonds of twenty thousand dollars (\$20,000) for the purpose of erecting a school building and providing furniture, apparatus and fixtures for the same, all as provided by the laws of the state of Idaho? The said election to be held under the School District Bond Election Laws of the State of Idaho, governing school district bond elections, on the above named date, to-wit: Saturday, September 16th, 1911, at the school building in said district, the polls to be opened at one o'clock p. m. and close at five o'clock p. m. By order of the Board of Trustees of Genesee Independent School District No. 2.

H. NEBELSIECK, Clerk.
Dated at Genesee, Idaho, this 1st day of September, 1911.

RAILROAD LIBERALITY.

Unusually Low Rates Arranged For the Spokane Fair.
In these days, when it seems so peculiar for men, merchants and politicians to take a fall out of the railroad on every possible occasion, it is refreshing to note that the railroads are still able to give a hand and once in a while surprise us all by some unusual liberality. An instance of this is the rates granted this year for the Spokane Interstate Fair, Oct. 2 to 8. In addition to granting the usual low rates of a fare and one-third for all fair visitors they have agreed to make the same rate for all exhibitors who come in during the week preceding the fair and have also made very generous freight and express rates on exhibits. Full particulars may be had from the railroad agent, or they will be sent on request to Robert H. Cosgrove, secretary, 217 Hutton block.

We note in the Spokane Interstate Fair premium list that unusual attention has been paid this year to public comfort. A hospital, a day nursery, a complete fire station, a well organized police department, a telephone exchange, a telegraph station and many other conveniences not ordinarily found on fair grounds will be at the disposal of all fair visitors who come to Spokane during the week of Oct. 2.

Take HERRINE for heartburn, sour belching or constipation, it cleanses and strengthens the liver, stomach and bowels. Price 50c. Sold by F. E. DICUS & Co.

CHURCH NOTICES.

Next Sunday, September 10th, the German Lutheran church will hold their annual mission festival, Rev. H. G. Meske, of Farmington, preaching a German service at 10:30 a. m. and an English service at 2 p. m. All are invited to attend. Luther League meets at 7 p. m.

A. F. WOLFF, Pastor.
The theme of the sermon, at the Congregational church, next Sunday morning, will be, "The Law and the Prophets Fulfilled." The evening theme, "God's Forgiveness and Mercy." The topic for study, at the mid-week meeting, will be, "God's Reward." A most cordial invitation is extended to all to attend our services.

G. L. SHULL, Pastor.
Services at the Christian church are held as follows: Bible school each Lord's Day at 10 a. m. The school is organized according to the international graded series. The Teacher Training being used in the senior department. The training for service class meets each Tuesday at 8 p. m. Preaching every 3rd Lord's Day at 11 a. m. and 8 p. m. A cordial invitation is extended to all.

—For all practical purposes the total valuation of the state of Idaho for 1911 is \$139,000,000 and as the state board of equalization agreed that it had reached a basis of 70 per cent of cash value of all classes of property, the valuation of the state may be said to be \$471,000,000. Of this amount, \$253,000,000 represents the real and personal property in the state and \$77,000,000 the railroads, telegraph and telephone lines and private car lines. The railroads were increased 222 per cent. Latah county's valuation is \$15,368,800.

—At the election of directors of Independent School District No. 2 held last Tuesday afternoon, Leon Follett and John Meyer were re-elected for a term of three years. Mr. Follett received 49 votes and Mr. Meyer 54, without any opposition nominations.

—Rev. J. C. Carick has been appointed as pastor of the First Methodist church of Genesee, by the conference held last week at Hyppner, Ore. He will arrive, with his family, tomorrow, from Oakesdale, and will occupy the parsonage south of the church. He will preach Sunday morning at 11 o'clock, and in the evening at 8.

—"The Missouri Girl" which gave a very creditable performance at the opera house last Wednesday night, brought out one of the largest crowds yet known at the local theatre, and everyone was well pleased with the management's securing such a splendid attraction for the opening of the season here. That the house was pleased was demonstrated by the vigorous applause which greeted every act. The play has a good plot, with humorous situations. Several musical selections were introduced, also eccentric dancing, which added greatly to the evening's performance.

An Ad About Iron Bedsteads

There's a lot to tell you about them—more, we are afraid, than we will have room for.

But let's begin by saying that we have a nice large selection to show you.

They are heavily enameled—in all sizes.

Most of them have attractive ornamentation.

The best ones cost the most, of course, but you can get a bed good enough for anybody, for a very little money.

But you had better let us show you just what our line is like. Then you can make a selection. Our prices are lowest, too.

For Ladies, Misses and Children

Are carried by all first-class stores in the United States. We have just received a large shipment of them. You will find here the same styles, the same goods, the same fit, in fact, you will find everything the same here that you will find in the cities, except the price. It is only reasonable that we can undersell the cities on the same quality of merchandise when you take into consideration the difference in expense of running a store in a small town compared with the expense of a city store. Also remember, that catalogue houses can make a very nice looking picture from a decidedly cheap and shoddy garment. Don't you think it would be to your advantage, and be better satisfied, to come here and look at the garment, try it on, and pay for what you get and not what you THINK you are going to get.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. That means free fuel for four months.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

Its wonderful penetrating power affords a most gratifying sense of relief to the afflicted. It cures pain quickly, subsides all inflammatory conditions and rapidly restores strength and comfort in the aching joints. It is equally effective in relieving neuralgia and sciatica. Rub it in well, gently but thoroughly; its healing and strengthening influence is manifest as soon as it reaches the nerve at the seat of the disturbance. A few applications control the disorder and restore normal conditions. As a household remedy for curing cuts, wounds, burns, sores or the hundred and one accidents that are always occurring in the home, it has no superior.

FRANCESCO FERULLO.
Stellar Attraction Booked For the Interstate Fair This Year.
Francesco Ferullo and his band of fifty pieces will be the stellar musical feature of the eighteenth annual Spokane Interstate Fair.
Manager Cosgrove has closed a contract for the appearance at the fair next fall of the famous organization which is creating such a furore in the California musical world.
Spokane bands will furnish the regular music for the fair, and the big band will appear only in concert programs. A new band stand for their accommodation will be erected in front of the grand stand on the west side of the race track, and the concert numbers will be given between race events. The band will be the star feature at night, in addition to the spectacular number, including a strong pyrotechnic program.
Ferullo is fulfilling a musical triumph at Idara Park, Oakland, and is stated to have a musical organization second to none. Ferullo is a demon with the baton. In his hand the baton is a wand drawing forth the harmonies from the array of men who sit waiting for its every turn and curve.
Under the spell of this struggle of the martial with the unseen Ferullo twists, squirms, waves, and his raven locks wave and flutter. He arouses an audience into a state of suppressed excitement. Scarcely inces in volumes or are represented as a whiplow in answer to his every contention.
The organization which comes to Spokane for the eighteenth Interstate Fair, Oct. 2 to 8, carries vocalists, harpists and other soloists in addition to the regular instrumentalists, and the organization will put on a series of programs never equaled in Spokane.

NOTICE TO PARENTS AND GUARDIANS.
You will please take notice that sections 159, 160 and 161 of the School Laws of 1911 provide as follows:
CHILDREN TO ATTEND SCHOOL.
SEC. 160. In all school districts of this state, all parents, guardians, and other persons having care of children shall instruct them, or cause them to be instructed, in reading, writing, spelling, English grammar, geography and arithmetic. In such districts, every parent, guardian or other person having charge of any child between the ages of eight (8) and eighteen (18) years, shall send such child to a public, private or parochial school for the entire school year during which the public schools are in session in such district; provided, however, That this chapter shall not apply to children over fourteen years of age where such child shall have completed the eighth grade, or may be eligible to enter any high school in such district, or where its help is necessary for its own or its parents' support, or where for good cause shown it would be for the best interest of such child to be relieved from the provisions of this chapter: Provided, further that if a reputable physician within the district shall certify in writing that the child's bodily or mental condition does not permit its attendance at school, such child shall be exempt during such period of disability from the requirements of this chapter. It shall be the duty of the superintendent of the school district, if there be such superintendent, and if not, then the county superintendent of schools, to hear and determine all applications of children desiring for any of the causes mentioned here to be exempted from the provisions of this chapter, and if upon such application such superintendent hearing the same shall be of the opinion that such child is for any reason entitled to be exempted as aforesaid, then such superintendent shall issue a written permit to such child, stating therein his reason for such exemption. An appeal may be taken from the decision of such superintendent so passing upon such application to the probate court of the county in which such district lies, upon such child making such application and filing the same with the clerk or judge of said court, within ten days after its refusal by such superintendent, which no fee to exceed the sum of One Dollar (\$1.00) shall be charged, and the decision of the probate court shall be final. An application for release from the provisions of this chapter shall not be renewed oftener than once in three months.

SEC. 161. Every child within the provisions of this chapter who does not attend school, as provided in the preceding section, or who is in attendance at any public, private, or parochial school, and is vicious, incorrigible, or immoral in conduct, or who is an habitual truant from school, or who habitually wanders about the streets and public places during school hours without lawful occupation or employment, or who habitually wanders about the streets in the night time, having no employment or occupation, shall be deemed a juvenile delinquent person, and be subject to the provisions of this chapter.

SEC. 159. In all cases where any child shall be a delinquent child, a juvenile delinquent person, or a juvenile delinquent person, as defined by this Act, the parent or parents, legal guardian, or person having the custody of such child, or any other person responsible for, or by any act encouraging, causing, or contributing to the delinquency of such child, shall be guilty of a misdemeanor, and upon trial and conviction thereof shall be fined in a sum not to exceed Three Hundred Dollars (\$300.) or imprisoned in the county jail for a period of not exceeding six months, or shall suffer both fine and imprisonment. The Court may impose conditions upon any person found guilty under this Act, and so long as such person shall comply therewith to the satisfaction of the Court, the sentence imposed may be suspended.

SCHOOL NEWS.

(By Prof. L. T. Babcock.)
School is now well organized and is settling down to work and it looks like we are going to have an excellent year in all departments.

The Outlook will be on the reading table of the high school this year and the Little Chronicle will be on the reading table of the eighth grade room. Pupils will greatly enjoy keeping in touch with the big, busy, bustling world outside the school.

Mr. Dunkle's classes in geometry are enjoying the work in this subject very much as her students just what he is doing in mathematics, as well as the other subjects in his daily program.

Miss Snider's classes in history are settling down to their work very enthusiastically. Her work in physics is enlisting the interest of the large class taking it up.

An eight-inch trip gong will soon be installed in the schoolbuilding to be used in dismissing the various rooms and to be sounded for fire drills. This is the proper thing to do as electric signalling outfits in public buildings are generally very unsatisfactory.

Miss Byrnes and Miss Nisbet are to be supplied with desks for their rooms. These will be greatly appreciated by teachers and pupils.

The writer of this paragraph has the best interests of the school at heart and earnestly requests all patrons of the school to work together with the teachers for an excellent year of school work. With hearty co-operation by all the forces which go to make up the good school there is nothing in sight but what can be attained. Without this co-operation not much can be accomplished. The public school of today is beyond question the most potent factor for civilization and deserves the best attention of all. The very safety of the future depends upon our properly safeguarding the youth of today.

The best is to be attained. Without this co-operation not much can be accomplished. The public school of today is beyond question the most potent factor for civilization and deserves the best attention of all. The very safety of the future depends upon our properly safeguarding the youth of today.

The following pupils entered the grades below the high school this week: Lois Weeks, beginner; Stella Richardson and Fern Carrick, second grade; Leo Edwards, fifth grade; Willie Carrick, sixth grade; George Wheeler, seventh grade.

Among the new students enrolled Monday in the high school were Hazel Whitted and Hazel Armstrong in the first year, Oliver Carrick in the second year, Melvin Worrobie, Lewis Jain, Mamie Schierth, Cornelius Sweeney and Clyde Armstrong in the third year. This increases the total enrollment of the high school to 33 at present.

A course in the theory and practice of explosive motors is being considered for the senior boys. This is a new departure but in direct line with the vocational training so much discussed, and which there is so much need of in high schools.

The entire high school meets once a day for spelling, in an attempt to remedy the poor spelling that is so prevalent nowadays and so particularly noticeable among educated people. The first day's test lesson of every day words with its class averages of 62% percent fully illustrates this need. It is estimated that the year's work will cover the average person's accessible vocabulary.

Football practice started Tuesday with a promising looking squad. While it is too early in the season to make any forecasts the fine material and the energetic way the boys go at it, it is sure to bring in scores when the proper time comes. A definite school spirit is being developed this year for members of all athletic teams, so that athletic enthusiasm will not outrun the class room.

At the regular teachers' meeting on Monday of this week it was voted to conduct a campaign of school notes in the Genesee News each week.

—B. H. Weatherly, who lives 2 1/2 miles south of Lenville on the Mrs. J. E. Brigham ranch, reports that from a field of 30 acres, he threshed 850 sacks of wheat, which is an average of about 28 bushels per acre. 108 pounds of chaff, 100 pounds of bran, and from a large acreage, having threshed 2224 sacks of Red wheat from a field of 160 acres. This is an average of nearly 40 bushels to the acre.

NOTICE OF BOND ELECTION.

The necessity of a new, up-to-date, sanitary school building being apparent in Genesee Independent School District No. 2, of Latah county, state of Idaho, the school Trustees of said district therefore decided at a meeting held August 30th to bring this matter before the voters of said district.

The Trustees of said district have estimated the cost of a suitable building, improving grounds and equipping said building, to be about the sum of \$20,000; and as the sum of \$20,000 together with the present bonded indebtedness of said district does not exceed twelve per cent of the value of the taxable property of said district:

Therefore, notice is hereby given that under and by virtue of an act of the eleventh session of the legislature of the state of Idaho, approved March 7th, 1911, entitled: An act providing a code of laws on education for the public school system of Idaho; there will be a special meeting of the qualified electors of Genesee Independent School District No. 2, in Latah county, Idaho, on the 16th day of September, 1911, at the schoolhouse in Genesee, in said district for the purpose of voting on the following question:

Shall the Board of Trustees of Genesee Independent School District No. 2, of the county of Latah, state of Idaho, be authorized to issue the negotiable coupon bonds of twenty thousand dollars (\$20,000) for the purpose of erecting a school building and providing furniture, apparatus and fixtures for the same, all as provided by the laws of the state of Idaho?

The said election to be held under the School District Bond Election Laws of the State of Idaho, governing school district bond elections, on the above named date, to-wit: Saturday, September 16th, 1911, at the school building in said district, the polls to be opened at one o'clock p. m. and close at five o'clock p. m.

By order of the Board of Trustees of Genesee Independent School District No. 2.
H. NERSELICK, Clerk.
Dated at Genesee, Idaho, this 1st day of September, 1911.

Bring your poultry to Larrabee's store where you get the market price in cash.

FREEHOLDERS AND HOUSEHOLDERS CAN VOTE.

In last week's News the statement appeared that only Freeholders could vote at the school-board election to-morrow. That was the provision under the old school law of Idaho, but the new laws of 1911 provide that Householders may also vote. The attorney general of Idaho has given the following opinion regarding the qualifications of voters at bond elections:

"One, in order to be entitled to a vote, must be a citizen of the United States, must have resided within the state six months, and within the county thirty days previous to the date of the bonding election, and in addition to these qualifications must be at the time of the election, either a resident freeholder or a resident householder of the district. As to freeholders, there is no question or doubt, that husband and wife both may vote if the property which they own is community property.

"As to householders, the question is more difficult and in the light of our indefinite and uncertain statutes, an opinion cannot be rendered with the same degree of certainty and definiteness. 'Householders' as defined by the various legal dictionaries and decisions of the courts covers a more or less indefinite area, but the general and accepted definition of a householder is one who is at the head of a family. It means the occupier of a house being the head or master, and having and providing for the house."

Acting under the above authority, Messrs. T. Driscoll and W. W. Gray, who have been selected as judges of this election, have asked the News to state that those who will be entitled to vote tomorrow, are: Freeholders (either male or female, owning real estate within the district); Freeholders' Wives (provided the property is community property, i. e. property acquired by man and wife, both parties jointly, and after marriage); and Householders (as defined by the attorney general, either male or female, and not necessarily owning real estate within the district.) This decision of the judges, to keep definitely within the bounds prescribed by the attorney general, is given so that all residents of the district may know whether they can vote or not, and at the same time guard against any complications, which might otherwise arise in the sale of bonds, should the election carry.

At the election in Moscow last Monday for a new \$65,000 high school, the bonds carried a 2 to 1 vote, 477 ballots being cast for the bonds and 127 against. And at the same time Moscow District was in debt over \$40,000 which with the new bond issue will now amount to over \$100,000. Genesee's indebtedness is but a few thousand dollars, and with the \$20,000 asked for a new home for our school children, makes the burden so light on our taxpayers that not one is justified in opposing this progressive step. The health of your children, alone, is a factor that cannot be measured in dollars and cents,—but when you stop to think of the present building—and the awful calamity that might befall you should this fire-trap ever burn down—it is up to you, as parents, to provide a safe, healthful school for your children—and, as citizens, to show that progressiveness which is the spirit of the northwest. And we believe you will. Your vote may mean a new building for the district, and it is up to you, each and every one of you who is qualified, to turn out tomorrow and have a voice in this question.

TAXPAYER CITES PERTINENT FACTS.

Editor Genesee News: If the necessity of a new school building does not seem apparent to the average citizen, all that is necessary would be a visit to the old one and see for themselves the true condition of this relic of antiquity.

In the high school room, near the southeast corner of the floor has sagged from two to two and a half inches, which, while the writer does not regard as immediately dangerous, might in the future become a precipitate its human burden onto the students in the room below and its horror cannot be imagined. This must either be caused by broken joists or "dry rot" and to repair the floor in this room alone would involve a great expense which the board of trustees do not feel would be a judicious expenditure until the voters determine whether or not a new building should be built.

With its frame work seasoned by 22 years of service, and floors saturated with oil, it would be a difficult matter indeed to empty the old building of its occupants, should a fire get started, without some of the children being hurt or losing their lives. Is it best to flirt with the fire hazard any longer, with our school district in the great danger of being destroyed? The building being heated with stoves, some parts of the rooms are too cold for comfort while others are too hot, endangering the health of those who sit in close enough proximity to the narrow windows to afford the necessary light required to insure their future eyesight.

In the matter of increased taxation, should a district be bonded for \$20,000, you will note that the interest on this amount would be \$1,000 a year at 5 per cent, and to raise this amount from an assessed valuation of approximately \$700,000, that the district will have, would be but a joke, as the 2 per cent levy for sinking fund would remain as at present and be no more than it is now, and the individual taxpayer would scarcely notice the difference and at the same time have a school that could be pointed to with pride, and incidentally, we believe would be the means of increasing the values of real estate, which we all know are at low ebb.

Some will argue that the district is in debt on the old building. This is true, but the amount is not so great that it would be worthy of notice when compared with some of our neighboring towns who will be observed as prospering better than we are. There is at present enough money on hand to reduce the indebtedness to \$2800 when bonds are due and become payable and when the tax money and apportionments become available this winter the amount can be reduced considerably, same to be disposed of with the proposed \$20,000 bonds.

Should the "Bonds" be defeated, an amount something similar to that needed for interest would necessarily have to be expended on the old building every year or two to render it habitable and then we would have nothing to show for our money, and the students would not enjoy the comforts of a new building. To say nothing of the shame of having the worst school building in the whole country around.

Announcement of NEW AUTUMN STOCK

WE HAVE JUST UNPACKED our new line of Fall Goods—and a more complete and up-to-date Autumn stock of Men's and Women's wearing apparel, shoes, hats, and groceries never before so completely filled our shelves and counters.

FRIDAY, SEPTEMBER 15, 1911

—Vote for the bonds tomorrow. 14k Fond fountain Pens at \$1.00 and up, at Olson's.

—A fine baby girl was born to Mr. and Mrs. Chas. King last Tuesday. Sapphira is the birthstone for September. You can get them at Olson's.

—Miss Marie Stettin, of Moscow, is visiting here this week with friends and relatives.

—The Congregational ladies' aid will meet with Mrs. B. H. Schooler next Wednesday afternoon at two o'clock.

—Miss Carolyn Bressler returned home Wednesday morning from a visit of several weeks with relatives in Spokane.

—Arthur Keane came down from the Salmon river country last Sunday and is visiting for a few weeks at the parental home.

—Mrs. A. J. Fitz and little daughter returned last Monday afternoon from an extended visit to several weeks with relatives at Pomeroy.

—Miss Dolly Smith, formerly of the annual nurse work for Dr. W. H. Ehlen's patients hereabouts, accompanied by her sister, Anna, left last Sunday for Tacoma where they will spend the winter.

—Ed. I. Wheeler, who has been working for the Southern Pacific Railroad Company in California, for the past two years, was an arrival here last Tuesday afternoon for a short visit with his parents.

—The Alumni club of the Genesee high school will meet at the J. S. Larrabee home next Thursday evening, September 21. All members are requested to be present as important matters will be taken up.

—Geo. Raybold left last Sunday morning for Boise, where he is attending the grand lodge session of the Masonic order of Idaho, as representative of Unity Lodge No. 32, A. F. and A. M. The meetings were held during three days this week, Tuesday, Wednesday and Thursday.

—James Tobin came down from his railroad work at Pucher Creek, Alberta, and visited with home folks last Saturday and Sunday, returning to the north again Monday morning. He reports that crop conditions are very bright in that part of Alberta on account of rain and had storms, and generally speaking had growing weather. His contract there will be completed about the middle of November.

—The News office enjoyed a fine box of peaches this week, the compliments of John Lorang. Mr. Lorang states that when he first came to this country, people told him it was impossible to raise fruit of any kind, but he has proven the fallacy of this statement, by raising fine fruit for many years past. And we want to say that there are few places where better peaches can be raised than those of Mr. Lorang's.

MILINERY OPENING.
All the ladies of Genesee and surrounding country are cordially invited to attend our fall and winter millinery opening on September 21, 22 and 23. We will have on display a complete line of ladies' and children's dress and street hats, and a number of pattern hats of all the latest designs and styles. CLEMENS & CARBURN.

FORCED TO LEAVE HOME.
NO NEED TO STOP WORK.

When your doctor orders you to stop work, it staggers you. "I can't" you say. You know you are weak, run-down and falling in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength, and vigor to your system, to prevent breakdowns and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at F. E. Dicus & Co.

Buying Good Furniture

Is good business. Its sensible and IT PAYS. That's the rule we practice when we buy. We get the best that we can buy with our money. Of course we buy it as cheap as we can. That's natural and also good business.

By doing these things we come to you with an offer like this—We will sell you whatever you may need in our line as high in quality and as cheap in price as you could get it in the largest cities in the country. As a matter of fact our prices are often quite a bit BELOW what you are asked to pay at other places. Will you investigate?

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range? You can operate a Monarch Malleable Range for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. That means free fuel for four months.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

Redfern Suits and Coats

For Ladies, Misses and Children

Are carried by all first-class stores in the United States. We have just received a large shipment of them. You will find here the same styles, the same goods, the same fit, in fact, you will find everything the same here that you will find in the cities, except the price. It is only reasonable that we can undersell the cities on the same quality of merchandise when you take into consideration the difference in expense of running a store in a small town compared with the expense of a city store. Also remember, that catalogue houses can make a very nice looking picture from a decidedly cheap and shoddy garment. Don't you think it would be to your advantage, and be better satisfied, to come here and look at the garment, try it on, and pay for what you get and not what you THINK you are going to get.

SCHOOL NEWS.

The pupils are all rejoicing this week on account of the way the election went on the proposition to build a new schoolhouse. Not very many are going to be disobedient or unenthusiastic in their duties now. Work is quite satisfactory in all grades and a veritable educational revival will soon be in progress.

The children in the First Primary were delighted Tuesday morning to find a part of their room transformed into an Indian home. Freddie Dicus was dressed as an Indian. After the family was seated in front of their wigwam the children sang an Indian song and told stories.

Olaf Johnson and Carl Tidemann were enrolled in the eighth grade on Monday of this week, the latter being promoted from the seventh grade where he had been placed at the beginning of the term on trial.

Jeanie Hampton had rather a fast ride coming to school one morning last week. Her horse became frightened and ran away, going at full speed more than two and a half miles before it could be stopped. She was plucky and held on until the frightened animal was at last brought to a stand-still.

The girls of the eighth grade defeated the boys of the class in a spelling contest last Friday. Ethel Olson and Marie Burson were the winners. An athletic match was held later.

Edward Lawen, Harry Schooler, Irwin Schooler and James Keane are new students in the high school this week.

The second year Latin class has begun its long tussle with Caesar's Commentaries. These immortal writings by the greatest man of all antiquity judged from the standpoint of mere manhood are enlivening the interest of the pupils.

The boys of the high school met and organized the athletic association on Monday afternoon of this week. Robert Montague was chosen president; Loren Babcock, vice president; Lewis J. Lewis, secretary; Charlie Gray, treasurer, and James Keane, manager. A football team was organized with Clyde Armstrong as captain.

A movement has been started to give a series of entertainments the coming winter in lieu of the lyceum course which has been called off. These will be by the high school students, proceeds to go into a plan fund for the new schoolhouse.

GOING AFTER SMUT.

Wheat growers all over the northwestern country, especially Washington, Oregon, Idaho and Montana, should attend the annual convention of the Inland Empire Anti-Smut Association at Pullman, Wash., September 28 and 29," says R. C. McCrocker, president of the organization, in a letter to the Spokane Chamber of Commerce, adding:

"I believe it is a conservative estimate that the grain growers in the Inland Empire lose \$1,000,000 a year from this pest. It would be better than a better way to eradicate this scourge than is practiced at the present time, and it is up to us to find the solution of this problem. This gives importance to the convention at Pullman to start a definite campaign to rid this part of the country of smut and preventing the pest from returning to our fields.

Professor O. L. Waller, acting president of the Washington State College, has placed at the disposal of the association all the facilities for making and publishing a report of the proceedings of the convention, and Professor Thatcher, director of the Experiment station and his staff will be in attendance to answer questions. Professor Thatcher, however, is of the opinion that it would be best for the farmers themselves to work out the problem.

SOIL NEEDS CONSTANT STIRRING.

It is a good time of the year to see how much moisture has been retained in the subsoil by summer cultivation. In the Pacific Rural Press of June 3 we had a discussion as to whether it is desirable to cultivate whether the surface layer, often called the earth-mulch, had become compacted or not. We demurred to the statement that there was nothing to be gained by cultivation after the mulch was secured by earlier working. Those who remember that discussion will be interested in the position taken by Mr. Campbell, the dry farming apostle, in answer to a claim that the mulch ought to be let alone. The following is the occasion of the comments by Mr. Campbell:

"No necessity exists for any sort of cultivation if the surface of the field is already covered with a mulch of loose earth. The advice to keep dragging some form of implement through the field between the rows of corn whether it rains or not is ill founded. Nothing is gained by re-stirring a mulch that already exists, so that cultivation need follow only beating rains that spoil the mulch."—Nebraska Farmer.

These editorial remarks are based upon a publication by Professor Pugsley of the Nebraska station. In our comments on the same proposition in our issue of June 3 we dissented from the view that a summer mulch once formed should not be stirred. California experience has demonstrated increased moisture conservation by continued cultivation. The same position is taken by Mr. H. W. Campbell in his Scientific Farmer, as follows:

The conclusions (of Professor Pugsley) are based wholly on theory and cannot be substantiated by practical demonstration. There is no question in our mind regarding this matter of cultivation. During the very dry years of 1894, 1901, 1910, and the present year, 1911, we have proved the truth of our position. In 1894, in a cultivation of a potato crop, we, by accident, discovered a perfectly reliable rule to govern cultivation during periods of severe drought.

Watch carefully the top of the firm soil under the mulch. So long as this top remains moist, cultivation is not necessary, but when this top begins to dry, immediate cultivation is necessary. In the production of potato crops in 1894, we followed this rule explicitly. The correctness of this rule we proved time and again, by brushing away the mulch in a part of the field that had not been cultivated for from six to ten days. Here we would find the firm soil just beneath the mulch becoming dry. Then going to the part of the field that had been cultivated in 1894, we found the soil moist and found the firm soil moist, proving the value of stirring the dry mulch, although the cultivation was no deeper.

In 1901 we carried a crop of corn through that very dry season at Hill City, Kansas, and kept it growing perfectly, by maintaining the same condition up to the time of the wheat harvest. The weather being hot and very windy, we had much difficulty in cutting the wheat, owing to the fact of excessive heat and high winds. It yielded 42 1/2 bushels per acre, while the other wheat fields in the vicinity were not worth cutting. Being short of help, we neglected the corn for sixteen days, when we found that a crust had been formed that could not be broken without destroying the roots, so we left it and the corn ceased to grow, although there was moisture beneath the crust.

The present year we have sixty acres of corn on the Hudrege farm. When the excessive hot weather came we followed the foregoing rule and gave this field five cultivations between the last rain in May and July 8. On the seventh of July we examined this field in no less than a dozen places, and at every point examined, we could make a ball of the top one-half inch of the firm soil beneath the mulch. Great care was exercised to avoid disturbing the roots, which we found in large numbers from one-half inch to one inch below the top of the firm soil. This field of corn was, on July 24, fully six feet high, tassels were breaking out and ears beginning to show, while other fields in that locality were not to exceed three feet in height—most

of them badly damaged. The advantage of this method of cultivation is found in the fact that the heat of the sun penetrating the soil mulch to the firm moist soil beneath heats it to a degree that causes the moisture to be transformed into steam or vapor, which rises and to some extent moistens the mulch sufficiently to establish capillary action up and through the mulch. Now the longer the mulch is allowed to remain undisturbed the faster will the moisture escape by evaporation. This translocation of the moisture is what causes the crust to form. Once formed down to or beyond the point where the feeding roots of the corn are found, you are up against it and the corn will suffer.

As Professor Pugsley observed, to break this crust by deeper cultivation is very dangerous. Do not dare to cultivate deeper to break the crust when it has developed the feeding roots. It was the known fact of the damage to corn by this kind of cultivation that fixed the idea of the corn growers, a few years ago, that it was wrong to cultivate corn when it was dry. They were positive that it would ruin the corn.

Stay with your corn, keep stirring that mulch often enough to keep the top of the firm soil moist. Thus you can prevent the loss of your moisture by evaporation and keep it in the soil for the use of the plant. Last year, and this year too, there would have been millions of bushels of corn in Nebraska, if her farmers had cultivated according to the above rule.—Pacific Rural Press.

COMMISSIONERS FIX TAX LEVY.

After much figuring and consideration of the different proposals connected with the task, the county commissioners finished their work last week of fixing the county levies for the year 1911. The total state levy for 1911 is 2.99 mills, while the total county levies amount to 8.61. This is a total of 11.6 for state and county purposes.

A COMPARISON OF THE LEVIES FOR 1910 AND 1911 FOLLOWS:

STATE LEVIES.	
State general	2.16
Bldg. endowment	.21
Gen. interest	.62
Total state	2.99
COUNTY LEVIES.	
Current expense	2.40
Road	.50
Bridge	.50
School	3.00
Warrant redemption	2.21
Total county	8.61
Total state and county	11.6

After much deliberation the 5-mill levy provided by law for school purposes was cut to 3 mills. This was done in the face of advice which said that the 5-mill levy is mandatory, and cannot be cut to less. However, the same thing is being done in other counties of the state. An objection to this procedure may come from the independent school districts, for because of this reduction the special school tax levy will have to be increased. For each mill cut off of the 5-mill levy, a special levy of about 2 mills will have to be made.

SCHOOL BONDS HAVE BIG MAJORITY.
By the decisive vote of 130 to 37, a vote of 3 1/2 to 1, the people of Genesee Independent School District No. 2, last Saturday, expressed themselves most emphatically in favor of the school question and Genesee is soon to have a first-class \$200,000 school building. The wet weather undoubtedly kept many voters at home, but the bonds carried by such an enormous majority that there can be no doubt about the sentiment of the people, and had every one voted, the proposition of 3 1/2 to 1 would easily have stood, with the probability of increasing in favor of the bonds.

And the progressive spirit of our people was more thoroughly shown, when the word spread over town that the bonds had carried. Pandemonium reigned as soon as darkness fell. Bells rung and guns were fired. The band, followed by hundreds of people giving vent to their feelings and rejoicing in the victory, marched to the school house where a monster bon fire was started and around which the hundreds danced and paraded. The scene was truly one of great enthusiasm, and for two hours Genesee's business district presented a scene of carnival and merry-making the like of which had never been seen here before.

Architect Hubbell was a visitor here during the election, and in the evening met with the board of directors, when tentative plans were discussed for the new edifice. However, the detailed planning has been left to Mr. Hubbell, and he will proceed at once. Meanwhile the board is making arrangements for the sale of the bonds, and everything is expected to be in readiness to start work on the new structure with the opening of spring.

The News wishes to compliment the people of the district on the spirit shown in the election. That the progressive citizens would assert themselves in this matter, we never doubted for one minute, but when they so decisively declared themselves in favor of it, we were almost non-plussed. The victory was surely one to rejoice in, and none can now doubt just how the people of Genesee stand on the questions involving the education of their children.

Genesee is decidedly a school town, and our new school house will be one of the greatest assets which a town of this kind can lay claim to. It will be a drawing card to more families to educate their children here. It will stimulate more interest in the school work—both in pupils and teachers—and the increased efficiency will give Genesee's schools the worthiest name in the county.

SMOLT & SON BUY JAIN BUILDING.
Wm. Smolt & Son yesterday morning purchased the L. Jain building on Main street located between the Jain barber shop and the Sullivan block, and just as soon as they can make the necessary renovations and repairs on the building, which they estimate will take about four or five weeks, they will remove their stock of confectionery and ice cream parlors from the present location. Mr. Smolt has long felt that Genesee needed an up-to-date store of this kind, and the business has grown until the present quarters have become too crowded, necessitating a move. They will install a very large and beautiful new fountain and other modern furniture, so that when the move is made, Genesee can claim one of the finest stores of that kind in the Palouse.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. That means free fuel for four months.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

—J. S. Eckman and family will leave October 1st for Conlee City, Wash., where they will make their future home. Mr. Eckman having recently purchased a 250-acre farm near that city.

—F. E. Becker and Fred Spencer left last week for San Francisco and other California points, where they expect to remain for several months. Both these men are in poor health, and hope the change of climate will be beneficial to them.

—Henry Botjjer, who has been visiting here with relatives for some time past, left last Sunday morning for a short visit with his brother John and wife. He will go from there to Killam, Alberta, to look over that country.

—Dan Healey reports the largest profit yet sent in by any of our farmers on grain acreage. From 8 acres volunteer wheat he threshed 98 sacks last week, or an average of 25 bushels per acre. This is the third growth of wheat from one planting, the land having merely one plowing and harvesting this year, and that, with the interesting cost, was the only expense he was in in raising this wheat. Likewise from 30 acres volunteer barley he threshed 406 sacks, which will average almost 30 bushels to the acre. This is more proof that the Genesee country is the best in the northwest, and when we stop to consider that back in the Dakotas they harvested from 8 to 12 bushels per acre, and that from planted seed, this year, we have all the more reason for believing that there is no better land in the whole country.

—Will Burr, who has been visiting here at the present home for the past several weeks, returned to Republic, Wash., yesterday.

—Mrs. Henry Hanson left last Monday morning for various South Dakota points where she will visit for two months with relatives and friends.

—Mrs. Amo Gustafson, who has been visiting here with her brothers, the Odberg brothers for some time past, returned to her home in Roseland, B. C., last Tuesday.

—Mr. Calkin, the father of Mrs. E. A. Harden, accompanied by his daughter and family, all of Iowa, were arrivals here this week for a short visit at the Harden home. They spent yesterday in Lewiston.

—A party of 30 business men of Lewiston, making a "getting acquainted" trip overland through the Palouse country, stopped over here Wednesday morning for an hour's visit with our business men. The visitors were overwintering Lewiston business houses, and incidentally the big Lewiston-Clarkston fair to be held from October 9 to 14. Their trips included stops at Moscow, Potlatch, Palouse, Pullman, Johnson, Colton and Uniontown, and extended over two days.

—W. H. Cook has rented the vacant store room in the Vollmer block, east of the First Bank, and is making intensive renovations preparatory to putting in a stock of goods. The store will be known as "The Variety Store" and only small articles will be carried such as are usually found in Racket stores, and nothing exceeding 25 cents in selling price will be handled. This class of store will be quite an innovation in Genesee, and the people wish Mr. Cook success in his venture. It is expected that things will be in shape for starting by October 1st.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. This is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "I cured me of lung trouble," writes W. K. Nelson, of Calumet, Ark. "when all else failed, and I gained 45 pounds in weight. It cured the kind of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for coughs, colds, lagrippe, asthma, croup—all throat and lung troubles. 50c and \$1.00. Trial bottle free at F. E. Dicus & Co.

ROUTE NO. 1 ITEMS.

Mrs. Phoebe Wilson will reside in Moscow this winter.

Miss Rosa Armstrong will teach in Winchester again this coming winter.

Mrs. Emma Brigham and daughter Fleda returned to Pullman last Thursday.

Warren Brigham's three oldest children will attend school in Moscow this year.

Mrs. F. S. Riggins and two children, of Spokane, visited with her sister, Mrs. Lovell last week.

The farmers have all got their grain threshed and are busy hauling it to market. Nearly everyone in this vicinity had a better yield than was expected.

A tripple birthday party was held at the home of Mrs. J. E. Lovell on Sunday of last week, it being the birthday of Mrs. Wilson, Mrs. Lovell and son Gordon. Those present were: Mrs. Emma Brigham and daughter, Fleda, of Pullman, Mrs. F. S. Riggins of Spokane, Mrs. Wilson, Mrs. Nellie Jones, Mrs. Arthur Hampton, Miss Marks and Mrs. Lambert.

Sapphrie is the birthday girl for September. You can get them at Olson's.

—Henry Stricker and son, who have been visiting in Puget Sound and other coast points for the past few days, returned home Wednesday afternoon. He brings word from Mr. London, who owns one of Seattle's big department stores employing over 100 clerks, that the latter is doing very well, and sends his regards to old Genesee friends. Mr. London was formerly associated with John Gaffney in business here.

The L. H. M. S. of the M. E. church S. will hold a Food and Apron sale next Friday, Sept. 29, at 2 p. m., in the Jain building, next to Dicus' drug store. Everybody welcome.

For piano lessons see Mrs. J. G. Carriek, at the Methodist parsonage.

Everybody is liable to "catch cold" but those who give a cold proper attention never have serious lung diseases. It is neglect that makes them serious. SCHOOL NEWS.

Miss Byrnes and Miss Bond drove to Moscow last Saturday and returned Sunday.

Among the new pupils in the high school this week were Eugene Edwards, first year, Kitty Lawen and Henry Morschek, second year, on Monday.

The fourth year German class has completed the book, Immensee, by Storm and will now spend some time in a critical review of the story and written translations.

Laboratory work in physics will begin next week. It is to be hoped that the new schoolhouse to be erected next year will be equipped with better laboratory facilities.

Mary Lawen and Mabel Edwards enrolled in the eighth grade Monday. There are now fourteen boys and fourteen girls in the class and some lively contests are in prospect.

Cecil Gardner is a new pupil in the first grade this week. The little folks in the primary department are doing good work under the efficient management of their teacher, Miss Maggie Nisbet.

This week ends the first month of school, and teachers and pupils unite in declaring it a pleasant month indeed. The writer of this article most earnestly invites and urges patrons of the school to visit the various rooms during class exercises. The public school is one of the most potent influences of today which make for civilization and progress.

A lively interest is being taken by a large majority of pupils in the school in order to obtain their honor promotions. Any pupil keeping his daily grades and review grades above 90 per cent is entitled to advancement at the end of the semester and promotion at the end of the year without examination. This system is a powerful incentive to good work, and is called "honor promotion."

The high school boys went to Palouse last Saturday for a practice game of football, and they got the practice. Palouse has a fine team, over ten eleven-year-old boys, were tried out against our boys, and this, together with four years of football and long fall practice of 19 days it is year gave them decidedly the long end of the score. Our boys made several long gains from forward passes and a few from the backs, but their extreme weakness in defense gave the heavy Palouse backs every chance when they had the ball. The game was clean and hard played on both sides. The absence of injury to any of the players but emphasizes last year's experience throughout the country; that the revision of the game and its rules has removed any element of danger. The first regular game will be played with the Lewiston high school October 7th.

SCHOOL LEVY 8 MILLS.

At the meeting of the school directors last Monday night, the tax levy for Genesee Independent School District No. 2 was made, the levy being a total of 8 mills, 6 mills for the general fund and 2 mills for the sinking fund. It had been the intention of the board to levy a much lower general rate, but because the board of county commissioners fixed the general school levy at 3 mills, instead of 5 as provided by law, it was necessary for the independent districts to raise their levies. In the Moscow Independent District a 3-mill levy had practically been set by the school board, but when it was found that the commissioners had made a change, the rate had to be set at 6 mills in order to carry the school through the year. The valuation in the Genesee district this year has been announced by the county superintendent as \$616,496, or more than twice what it has previously been.

The Coeur d'Alene Independent school district has brought action to compel the commissioners to make the levy in that county 5 mills. This will be a test case, and if the writ of mandamus is successful, it may mean that other counties will be compelled to raise the general levy to 5 mills. The case will be watched with interest, because of its local application, and if it is successful to the plaintiff, the rate in this district may be made considerably lower.

COUNTY FAIR NOW ON.

Every citizen of the county ought to attend the Latah county fair being held in Moscow this week. The University Athletic grounds have been secured, and workmen have erected buildings and tents to house the exhibits and live stock. Sixty stalls have been made for cattle and horses, and there will be pens for hogs and sheep. A big vaudeville company will supply sport for the children. Deary held a fair the 23rd and has sent her exhibits to Moscow. Kendrick is up with a fine lot of products, while other sections are also represented. There are at least four exhibits to compete for the best display of products produced by one man, and this is one of the best features of the fair. It is worth coming miles to see. From the work that has been done the exhibit of vegetables will surpass anything ever seen at any western county fair. Don't overlook it. Come and see what your county is doing.

The fair this year is the best ever held in the county. It opened on Wednesday with a big parade and closes tomorrow night. You still have two days to see it.

At this fair you will see exhibited more than twenty diplomas that Latah county has already won at various big exhibitions like St. Louis, Portland and Seattle, a feature that will surprise you.

During the fair there is a daily exhibition of apple packing by the horticultural department of the University of Idaho. You have a chance to get the advantage of this free information. Let the boys see this.

Take HERBINE for heartburn, sour belching or constipation, it cleanses and strengthens the liver, stomach and bowels. Price 50c. Sold by F. E. Dicus & Co.

REGULAR PRICES AT LEWISTON HOTELS.

Owing to the large number of people in Lewiston and Clarkston to be present at the reception of President Taft on October 27th, it has been decided to expand every energy toward making their visit pleasant until the big fair gets fully under way. It is being planned to have a great dance on the pavement on D street to be opened by a grand march, the music to be furnished by a full band. Several thousand people may take part in this dance and it will doubtless be a great success. On Sunday the grounds will be thrown open to visitors with an appropriate and entertaining program commencing at 2 p. m. and not a dull moment will be permitted. The formal opening of the fair will occur on Monday and is in the hands of the traveling men which assures a "wide" opening.

In connection with the program on the first day it is well to understand the "mule race" is no joke but a real contest and a feature in itself.

One of the things which made the fair a success last year and has been a distinct feature of the Pendleton Round Up this year was the co-operation of the hotels, restaurants, lodging houses and residents in maintaining regular prices for meals and lodgings. We can assure all who visit Lewiston this year that this same policy will prevail and should any case of overcharging develop, the fair management asks it to be reported immediately.

C. J. JAIN SELLS BARBER SHOP.

C. J. Jain last Saturday disposed of his barber shop on Main street to Will Gage, the latter taking possession on Monday morning of this week. Mr. Jain has been in charge of this shop for many years past, and it was the close confinement to his work that caused him to sell.

Mr. Gage, the new proprietor has served his apprenticeship under the Sampson brothers, and is a capable and careful barber. We predict for him a successful career as one of Genesee's business men.

JULIE-SCHARNHORST.

A pretty home wedding was solemnized at the Fred Scharnhorst home, 5 miles west of Genesee, last Tuesday evening at 6 o'clock, when Louise F., the oldest daughter of Mr. and Mrs. Scharnhorst, and Barney H. Jutte were united in the holy bonds of matrimony by Justice C. F. Burr. The wedding was attended by about 50 relatives of the bride and groom and immediately following the ceremony a sumptuous wedding banquet was served.

Mr. and Mrs. Jutte are two estimable young people of the Genesee Valley. They will make their home on one of the Peter Jutte ranches west of town. The News joins with a host of friends in wishing the couple a married life of much happiness and prosperity.

FRANK KNAPPS PASSES AWAY.

After patiently suffering for many weeks, Frank Knapps, a well-known resident of Genesee, passed away at the home of his daughter, Mrs. John Fredericks, last Thursday afternoon at 2:30 o'clock. Death was due to old age, although poor health had overtaken him sometime ago and his last days were ones of hardship for him. The funeral was held on Saturday morning from St. Mary's Catholic church, Rev. Fr. J. M. Hiegy preaching the last and interment was made in St. Mary's cemetery and the funeral was attended by many friends of the deceased and family.

Frank Knapps was born in Germany and after his marriage to Johanna Behringer immigrated to America, first settling in Pennsylvania, where they made their home at Allegheny City for many years. He afterwards moved to Minnesota, and became a resident of Idaho a little over to years ago, in the spring of 1901. At the time of his death he was aged 74 years and 9 months. Of the five children which he raised four survive him to mourn his loss: Joseph and John of this city, Mrs. John Fredericks of this city and Sister Mary Thilda of St. Mary's Convent in Pennsylvania. The News joins with scores of friends here in extending sympathy to the bereaved ones in their hour of sorrow.

CARD OF THANKS.

We desire to thank those friends and neighbors who so kindly helped us to care for our dearly beloved father, Frank Knapps, during his recent illness and death.

Mr. and Mrs. John Acres and little baby left Tuesday morning for St. Maries where they are visiting with Mrs. Acres' folks. They expect to be gone about two weeks.

Mrs. Edward Abernathy and little daughter, Bernice, left Sunday morning for Spokane where they will visit for several weeks with relatives. Mr. Abernathy accompanied them as far as Pullman.

John Kambitsch this week sold to Ed. Roderick, the house and two lots located just across the street and north of the E. O. Catholic place and formerly rented by Mr. and Mrs. John Tracy. The consideration was \$700.

Last Saturday afternoon, at the home of Mrs. Wm. Shull, a very pleasant affair in the nature of a surprise shower, was given in honor of Miss Christel Spurbek, an October bride. The rooms were prettily decorated with hearts, truelovers' knots, butterflies and flowers. Needless to say the scene was one of rare beauty, as a large number of Genesee's most charming young ladies were present and passed the time in laughter, games and music. Over thirty guests offered good wishes to the prospective bride, and she was also the recipient of many tasteful and valuable gifts, and as a fitting close to a most pleasant afternoon a dainty luncheon was served.

The Rader & Westensee meat market last week installed a modern glass counter and refrigerator combined adding greatly to the appearance of the shop. The counter is one of the very latest designs, with plate glass top, sides and ends, and having compartments for storing ice as well as the fresh meats. Mr. Westensee states to the News that the firm contemplates a big improvement in the shop next spring, when a large, new brick building will be erected, having, besides the room for retail department, a complete refrigerating plant, which will cool the meats by continuous pipe strands as well as to manufacture ice, and a packing department and office. The building will be modern in every respect and will add materially to the appearance of our main street.

Mrs. Ed. Peterson is a patient at Dr. Tuomy's hospital, having undergone an operation the fore part of the week. She is considerably improved now.

Mr. and Mrs. A. B. Scroggin, of Spokane, were arrivals in Genesee last Sunday, called here on account of the serious illness of the latter's mother, Mrs. Caroline (Grandma) Bressler. Mrs. Bressler's condition, however, took a turn for the better on Monday and her friends are very glad to know that she is greatly improved this week.

The L. H. M. S. of the M. E. church S. will hold a Food and Apron sale next Saturday, Sept. 30, at 2 p. m., in the Jain building, next to Dicuss' drug store. Everybody welcome.

It will probably not be amiss to call attention to the bad condition of the sidewalks about town. In many places the boards are broken leaving the walks in a state that may result in a bad accident at any time, which may terminate in an expensive lawsuit against the city. It would be well for the property owners to fix up any defects in the walks in front of their property.

If you don't believe that corn can be successfully grown in the Genesee country, just step into the lobby of the Genesee Exchange Bank and see some that was raised by Gus Buecher on his ranch several miles south of town. The ears are nearly a foot long and are filled with grains that would bring eye to the heart of any farmer in the "cornhucker state" and the stalks are from 7 to 9 feet high and well filled with ears. It is material proof of this kind that convinces us that the Genesee country is adapted to a greater range of farming than is now practiced and when our lands are fitted with grains that would bring eye to the heart of any farmer in the "cornhucker state" and the stalks are from 7 to 9 feet high and well filled with ears. DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. That means free fuel for four months.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

VAN BRUNT DRILLS

Are strong and durable and owe their success to their practical construction. The wearing part of the disc itself is the bearing. The Van Brunt Bearing is absolutely dust-proof and runs constantly in a bath of oil. No chance for this Bearing to work loose or wobble. One good oiling for every quarter-section is sufficient. The Van Brunt is handled exclusively in Genesee by

TREATING GRAIN FOR SMUT.

Prominent men of the Inland Empire are at this time endeavoring to formulate some plan whereby a concerted effort may be put forth that will reduce the effect of smut to a minimum.

Farmers are anxious to grow clean grain, and much interested about securing a formula that is effective.

The crop this year throughout the Inland Empire was badly effected with smut, more so than usual. The following formula has been in use for the last six years on the college farm:

Into 10 gallons of water pour 1/2 pound of formaldehyde, and 1 pound of copper sulphate, (commonly known as blue-stone or blue-vitrol). The copper sulphate should be thoroughly dissolved in a small quantity of warm water before adding to the solution.

All of the formulas and methods of treating that have ever come to our attention have been tried. Copper sulphate alone and formaldehyde alone have been tried, either of which is good. We have tried them at different strengths of solution, leaving the grain in the solution for three minutes to 15 hours, the length of time depending upon the strength of the solution. The 3-minute treatment with the stronger solution (1 pound of formaldehyde to 40 gallons of water, or 5 pounds of copper sulphate to 40 gallons of water), has always proved to be the best of these treatments when used alone.

The hot water treatment is very effective and when on test gave better results than any of the methods of single treatments, but is too tedious, and requires too much time to be practical when a formula is available that will give equal or better results, and is easier to apply.

On the college farm formaldehyde and copper sulphate in the proportions as above described have never failed to entirely prevent smut. The method of application is important.

If a good floor free from slivers is not available for use, a canvas can be spread upon a smooth surface and made secure at the corners by nails or stakes to hold the surface of the canvas smooth. Pour the grain to be treated upon the canvas. Apply the solution to the grain with an ordinary hand sprinker. Scoop the grain continuously while sprinkling till it is thoroughly wet. It is not necessary for the solution to run from the grain in quantity, but great care should be exercised that the grain is thoroughly wet. The amount to be treated at one operation can be governed according to the shelving space. Small quantities will insure a thorough treatment. Thoroughness is one of the secrets of success in treating grain for smut. Sack the grain immediately after treating (about 1 bushel to the sack) and lay it out to dry, always avoid piling it up.

Never depend upon a solution that has stood for some time, and never try to strengthen an old solution by adding more formaldehyde, as the effect may prove very serious. Always mix about the amount of solution necessary for the present need.

Grain should be treated as needed, and sown at a time when immediate germination will result, as formaldehyde is not effective if the grain is sown into dry ground and lies there some time before germination.

The mixing of the solution must be done with the utmost care, as an excess of the constituents, especially formaldehyde will destroy germination.

At first thought it would appear that to sprinkle in this manner would be tedious, but it is the quickest and easiest way to treat grain. The grain on the college farm was effected with smut this season. The formula and method described was not used at seeding time last fall. A shorter and easier method was tried, but was found to be more tedious, and from present indications was not at all effective.

SCHOOL NEWS.

(By Prof. L. T. Babcock.)

Clyde Meyers and Clarence Peterson returned to school and took up their work in the eighth grade Monday.

Beatrice Armstrong has gone to the Pine Grove district where she will enter school and continue her studies.

On next Saturday, "Tat Day," our boys will play the Lewiston high school football team at Lewiston. The boys are finding their positions now and beyond doubt will put up a lively fight.

A large gong has been installed in the school building and fire drills were begun this week. It is a fact that the present wooden building with its floors soaked full of oil is a veritable fire trap. Pupils and teachers should unite for the best possible work in this line.

An effort is being made in all grades to raise the standard of work done and to improve the scholarship of all the pupils. If this is done the blame for failing in the county eighth grade examinations will not rest entirely on the eighth grade as it has done heretofore. hearty co-operation of parents is hereby earnestly solicited.

A brief summary of the attendance in the high school might be of interest to the patrons of the school and is as follows:

Girls enrolled.....18
Boys enrolled.....24
Total enrolled.....42
Average number enrolled.....34.20
Average attendance.....33.60
Average absence.....6.84
Percent of attendance.....98.24

It is of interest to parents to inquire of pupils concerning their grades during the month. The grade cards were not here so they could not be given out this month, but they will be on hand next month with both months' grades on them. If a pupil falls too low in his monthly grades he will be given an opportunity to take another examination on the work gone over. A pupil who does not fall below 90 per cent in a subject is granted what is called "honor grades" which exempts him from monthly and semester examinations.

ROLL OF HONOR.

The following pupils in the various grades were neither absent nor tardy during the month of September. Next month the honor roll will include the names of all pupils making an average of 90 per cent or over in the month's work.

PRIMARY ROOM.

Victor Casbolt, Jesse Gray, Gladys Hanson, Carrie May Hickman, Iva Lambert, Jesse McMahon, Arnold Matson, Bergetta Matson, Lesie Nelson, Floyd Rogers, Maggie Scholer, Ida Peterson, Frances Rose, Clarence Hoffman and Robert Wells.

SECOND GRADE.

Howard Smith, Albert Steltz, Beatrice Armstrong, Isabel Edwards, Nora Evans, Edith Green, Emma Lambert, Blanche Payne, Alpha Payne, Elizabeth Sampson, Iner Uher, Ruth Wolf, Alfred Carr, Hartzell Edwards, Cecil Gray, Grand Mayer, Fred Meyer, Tom Platt, Max Rice, Carl Runney, Ora Rolerick and James Swenson.

THIRD GRADE.

Mildred Bumpass, Maxine Eblen, Katie Esler, Lucile Gray, Lonesa Herman, Myrtle Moore, Mildred Rogers, Anna Scharnhorst, Joe Evans, Louis Herman, Harold Jackson, Chester Mochel, Arthur Mayer, Harry Oylear, Edwin Peterson and Lenox Trail.

FOURTH AND FIFTH GRADES.

Cecil Bolton, Loren Bumpass, Walter Casbolt, Harold Edwards, Harry Edwards, Ruth Gardner, Constance Hall, Paul Hanson, Milo Hanson, Loretta Kimbel, Everett Oylear, Hazel Roderick, Wilhelmina Sampson, Gertrude Sampson, Kenneth Sampson, Bonnie Scholer, Lilly Schleiter, John Vandenberg, Lola Bumpass, Walter Cann, William Edwards, Henry Esler, Walter Gardner, Hazel Gardner, David Hickman, Royce Knopf, Louis Mertes, Armand Nelson, Vernie Wells and George Rader.

LEWISTON FAIR NEXT WEEK.

Through the press we are taking advantage of the last opportunity to advise the people of the Inland Empire of the Lewiston-Clarkston Fair October 8th to 14th. We shall give a general outline of the events as they will happen.

Saturday—Preceding the fair the people receive President Taft. The Big Pavement Dance.

Sunday—Fair grounds thrown open to visitors.

Monday—Traveling Men's parade, Male race, Buffalo Vernon, Frank G. Odell, Currier flying machine, the races, the open air vaudeville, good music, with the Parker Carnival Company closing a day.

The balance of the week will be varied with other wild west features: the flying machine making 2 or 3 flights daily, the Odd Fellows, football, the floral exhibits together with the stock now assured makes this a great fair.

Very respectfully yours,

PRES. TAFT IN MOSCOW TOMORROW.

For the first time in the history of the Palouse country, the president of the United States will be entertained in Moscow for one hour on the evening of Saturday, October 7. According to the schedule furnished by Secretary Charles D. Hilles, the president's special train will reach the N. P. depot in that city at 5 o'clock sharp on that evening. A committee on arrangement at the station will have provided for special officers and will have ropes arranged to keep the crowd back from the passage way between the train and the automobiles that will be waiting for the presidential party.

The party will immediately proceed from the station along the usual route traveled to the university buildings. A platform will be erected immediately in front of the Administration building, as when ex-President Roosevelt was there last April. This will be used if the weather permits but in case of inclement weather, the speaking will take place inside Lewis court, which will hold several hundred people.

At the conclusion of the address, which will be thirty minutes in length, the party will ride directly to the waiting train and will leave immediately for Spokane, where they are scheduled to arrive at 9 o'clock.

The music for the occasion will be furnished by the Moscow city band under the leadership of E. J. Carey.

The committee on arrangement, with P. L. Orcutt as chairman, is sending out information to the various papers relative to the affair, and William E. Lee, as chairman of the committee on invitations has invited the leading officials of the counties contiguous to Moscow to be present as well as state officials and other prominent persons.

STATE ITEMS.

Thirteen carloads of fruit have been shipped this season from Kendrick to the cannery at Lewiston.

Three new additions to the agricultural department of the University of Idaho have been announced by Dean W. L. Carlyle. They are C. E. Temple, assistant professor of botany; E. T. Baker, professor of veterinary science; and E. W. Hamilton, assistant professor of agricultural engineering.

A petrified tree—roots, trunk branches and all—has been found in Clover creek in Lincoln county and portions of the mammoth car to be to the state historical department to be placed on exhibition.

Farmers of Peck are getting fabulous prices for timothy seed. One man sold six sacks of the seed for \$50, another four sacks for \$50. In one instance \$160 worth of seed was threshed from four and a half acres. Ben Chaney took the biggest single load of seed to the warehouse, receiving \$1,000 for it.

The finest flour mill between Denver and Spokane is now in operation in Twin Falls. All of the necessary machinery has been installed in the magnificent new yellow brick building adjoining the elevator across from the Oregon Short Line depot, and sacks are now being filled with Twin Falls flour. The present capacity of the mill is 400 barrels per day.

MRS. CHRISTINA PETERSON DEAD.

After suffering for a considerable time with cancer of the stomach, Mrs. Christina Peterson, an aged and respected pioneer of the Genesee country, passed away at the home of her son, Lenus last Tuesday. At the time of her death she had passed her 79th milestone in life, and her demise came as a shock to her many friends here.

Christina Fredericks was born in Sweden on the 29th day of August, 1832 and in 1855, at the age of 23, was married to E. J. Peterson. To this union were born seven children, one of whom, Mrs. Martin Anderson died last year. In 1871 Mr. and Mrs. Peterson came to America, and in 1877, settled, with the pioneers of this country, on the Peterson ranch north of Genesee. Mr. Peterson died in 1909.

The funeral was held in Our Savior's church, 5 miles north of town, yesterday afternoon at 2 o'clock, by the Rev. O. C. Hellekson and interment was made in the Lutheran Synod cemetery.

Deceased leaves six children to mourn her loss, 4 boys and 2 girls. They are Edwin, Lenus and Albert Peterson, all of this city, J. A. Peterson of Snohomish, Wash., Mrs. W. C. Owen of Spokane, Wash., and Mrs. Tillie Morris of Seattle, Wash. The News joins with hundreds of friends of Mrs. Peterson in extending sympathy to these children in their hour of sorrow.

He has a brother living on a farm near this claim.

—The Van Moore Stock Company played to two small houses at the local theatre on Monday and Tuesday nights of this week, presenting "In Old Arkansas," a drama, on the former night and "What Happened to Smith," a comedy, on the latter date. The company was an exceptionally strong one, and those who were fortunate enough to be present at either performance were more than pleased with the shows. The company was far above the average, and the playing of all the members, especially that of Mr. Moore, was very good. The management of the opera house is making a special effort this year to give Genesee only a high class of entertainments, and every show so far this season has been of unusual merit, and deserving of far better patronage from our people, than has been given them.

Gage ranch south of here, for several years past, left Tuesday morning for Calistoga, Alberta, where Mr. Queensbury will head a half-section of Canadian government land. He has a brother living on a farm near this claim.

—The Van Moore Stock Company played to two small houses at the local theatre on Monday and Tuesday nights of this week, presenting "In Old Arkansas," a drama, on the former night and "What Happened to Smith," a comedy, on the latter date. The company was an exceptionally strong one, and those who were fortunate enough to be present at either performance were more than pleased with the shows. The company was far above the average, and the playing of all the members, especially that of Mr. Moore, was very good. The management of the opera house is making a special effort this year to give Genesee only a high class of entertainments, and every show so far this season has been of unusual merit, and deserving of far better patronage from our people, than has been given them.

LANGRISH RANCH.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all druggists.

—T. O. Miller left Tuesday morning for a short visit with his brother at Tekoa.

—L. H. Olson, Ole Flamoe and Geo. Bershaw were Spokane bound passengers on Tuesday morning's train to attend the Interstate fair.

—Geo. Raybold left Monday morning for Lewiston where on that day and Tuesday, he attended the reception given to Imperial Potentate J. F. Treat of the Mystic Shrine of North America by Calam Temple of that city of which he is a member.

—Messrs B. H. Schooler and Geo. Follett left Wednesday morning for Nebraska and Iowa where they expect to remain for several weeks. They will purchase two thoroughbred stallions during their absence.

Tiger Springs are guaranteed for 25 years. Sold by Herman.

When you have a bad cold you want the best medicine obtainable so as to cure it with a little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years," says Knos Lollar of Sarasota, Ind., "and consider it the best on the market." For sale by all druggists.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all druggists.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a **whole year** on the amount of fuel that you will pour into the ordinary stove or range in **eight months**. **That means free fuel for four months.**

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

CAPITOL TO COST OVER A MILLION.

Work on the construction of Idaho's capitol has again been resumed, and James Stewart & Co., the contracting firm, who were recently awarded the contract for the finishing of the central section of the building, are assembling material on and about the premises and have at present engaged on the construction of the building about 45 men.

The cost of the building in its present state is approximately \$430,000. The architects estimated that it would cost to finish and decorate the central section ready for occupancy \$750,000 in addition to the above. As the general contract for this central section was let some \$60,000 below their estimate, they figured at the present time that to complete the central section of the building will cost \$670,000, which will make a total cost, for the central section ready for occupancy of \$1,100,000.

The building as it now stands consists of the exterior walls, the interior walls and the steel work. The exterior walls are constructed of Idaho sandstone and granite, and it is considered an excellent piece of architectural masonry work.

The building of the scaffolding for the support of the derrick and the raising of material in the construction of the dome, has been commenced, the scaffolding extending 30 or 40 feet above the top of the building. The excavation for the power house has been made, and also for the tunnel, and work on this building will be started the fore part of this week.

It is the intention of the contractors to get the main portion of the building under roof within the next 60 days and put a temporary roof over the base of the dome, so that the interior of the building can be finished complete during the winter months and during the same period, the cut stone, terra-cotta and all materials entering into the dome will be prepared at the yards ready to be placed in position early the coming spring.

About March 15, 1912, this temporary roof over the base of the dome will be removed, and the construction of the dome proper will be commenced. The first floor of the building will be completed ready for occupancy on or about July 1, 1912, and the whole building will be completed on or before October 1, 1912.

NOTICE OF SALE OF BONDS.

Notice is hereby given by the Board of Trustees of the Genesee Independent School District No. 2, Genesee, Idaho.

That, at an adjourned meeting held by said board, September 28th, 1911, it was voted to issue the sale of negotiable coupon bonds of said Independent School District No. 2 to an amount aggregating the sum of \$20,000, and to issue 20 bonds of the par value of One Thousand Dollars each, which will be dated January 1, 1912, and due in twenty years and redeemable at any time after ten years at the option of the district, with interest at the rate of 5 per cent per annum, interest payable semi-annually on the first day of January and the first day of July of each year at the office of the Treasurer of the District in Genesee, Idaho. Bids will be received for such bonds up to and including the 10th day of November, 1911, the bidder to specify if the bid will or will not furnish the bonds to be issued.

Should the bonds not be issued until after the first day of January, 1912, all accrued interest after that date to the time of issue to be refunded to the district.

The bonds hereby proposed to be issued are for the purpose of building and furnishing a school building for the use of said district. Bids for the bonds to be filed with the Clerk of the Board of Trustees of Independent School District No. 2, Genesee, Idaho, and to be accompanied with a certified check for two per cent of the par value of the bonds bid for.

The Board of Trustees reserves the right to reject any and all bids.

SELECTION AND CARE OF SEED CORN.

Now is the time to select the seed corn for the 1912 planting. Don't wait until husking time or worse still, until spring, to perform this important task. After the corn is ripe and in the bin it looks pretty much alike and in selecting either at husking time or in the spring, nothing can be told of the individuality of the plant from which the ear came. The plant is the unit of selection not the ear alone.

In this state where late spring and early fall frosts are common, corn that will mature in the shortest possible season and still make a good yield is the one that is wanted. The mistake is often made of sending to some eastern corn state for seed. The result is that a good crop of stalks from eight to ten feet tall with the ear in the silking or milk stage is raised. If you have no good variety of your own, secure seed that has been raised under similar climatic conditions and select your seed carefully from this for a few years and you will have a strain that not only will make good yields but will mature without danger of frosts.

Now assuming that you have an acclimated strain this year, go into your field and select your seed. Every farmer has his own idea of a type that approached as near as possible the ideal for his locality and will select his seed toward this ideal.

There are a few general rules however, which must be observed:

1st. Early maturity. In every field will be found ears that are a week or ten days earlier than the main part of the crop. Other things being equal, select these for your seed.

2d. Don't select the largest ears that you can find. A medium sized ear, well formed, well filled at tip and base with straight rows close together is preferable to a large coarse one.

3d. The stalk should be of medium height, strong, stocky and preferably one of two or three in the hill. An ear selected from a stalk which occupied the hill alone should and will be larger but would it have been had it been in competition with two or three others?

4th. The height of the ear on the stalk is important. Select for uniformity here. In this state there is little danger of getting them too high. Select those that are at a height that will allow of husking without stooping too much.

5th. The shank should be long to allow the ear to drop to protect from rain. An ear that stands erect not only allows water to enter but is hard to husk.

Having these points fixed in your mind go into your field and select your seed before frost. If it is mature, gather as you select. If not, tie a tag on the stalk where it can be readily seen and gather later or at husking time.

It requires twelve or fifteen ears to plant an acre. Select at least twice as many as you expect to use. A considerable number of ears you have selected in the field will not come up to standard when the husks are removed. These will be discovered when you make your final selection and tests for germination early in the spring. This particular phase of the question will be treated at some later date.

After the seed is gathered the question of storing comes up. There are many ways of caring for the seed. A good one is to string the ears on bind or twine. The ears should be placed far enough apart to prevent touching. After they are arranged on the twine hang in a dry, well ventilated building. They may be left thus until spring or after they are thoroughly dry piled like cord wood on shelves. The greatest disadvantage to the latter is the danger of mice.

Another way is to dry on shelves. Place the ears on the shelves one row to the shelf spacing them so they do not come in contact with each other. The shelves should be of slats so as to allow free circulation of air. Make the room mouse proof.

After the corn is dry the essential thing is to keep it cool. Freezing will not injure the seed but it does retard its vitality if wet or moist.

SCHOOL NEWS.

(By Prof. L. T. Babcock.)
Not many school notes this week.

For the present the forenoon and afternoon recesses have been discontinued in the departments of the school up-stairs.

The pupils of the second year high school work have about finished the first year's work in algebra ready to take up the second year's work in that branch.

Mrs. Leon Follett was a welcome visitor in the eighth grade room on Tuesday of this week. She expressed herself as being well pleased with the order and work in that department.

Donald Bressler has so far recovered from his serious mishap at the football game in Lewiston last Saturday as to be back in school. All unite in hoping that he will soon recover fully from the injury.

The Outlook is now a regular weekly visitor to the reading table of the high school. Pupils are much interested in reading the splendid articles it contains from time to time, and are enabled to keep in touch with the big, busy world outside of the school-room.

The First Year students in the high school are now reading with a great deal of interest the life story written by George Eliot entitled Silas Marner. Under Mr. Dunkle's instruction a high degree of appreciation is being attained in the study of English in this department.

Parents will greatly assist the teachers in maintaining regular attendance if they will send written excuses for any of the children's absences and tardiness. This is the hard thing for teachers to control and is the source of some of the greatest difficulties encountered in school work.

The third year English class has decided to take up the state wide debating proposition. The question to be discussed this year by the Idaho high schools is as follows: "Resolved that Immigration to the United States Should be Restricted by a Reading and Writing Test." The instructions for the debate are given in a bulletin from the university at Moscow. Lewiston, Moscow, Grangeville and Genesee constitute the so-called sixth district. It is to be hoped the subject will receive the attention it deserves.

Under the regime of its newly elected president, J. D. Farrell, the Oregon-Washington Railroad & Navigation Company promises to continue on its program of expansion. Mr. Farrell is well equipped to take charge of the 1600 miles of trackage under his jurisdiction, having learned the railroad business from the bottom up. He becomes one of the big features in the management of an important part of the Harriman system. His headquarters will be in Portland.

our state laws cannot or do not reach the evil; and yet over which, a certain type of American lawyer tells us, that our national congress has no authority, no power. Canada constitution furnishes no such refuge. The Canadian Parliament can pass any law which the welfare of the whole Canadian people requires.

In short, it is for Canada's people to determine what is best for them—their statement can give no "constitutional limitations" of any kind as an excuse for not writing the people's demands into law.

This, combined with the most effective of "recalls," which is the heart of Canada's system of responsible party government, makes this new nation at once the most popular and national government on earth.—From "Federalism in Canada and in the United States," by Albert J. Beveridge, in the American Review of October.

LEWISTON WINS FOOTBALL GAME.

The football game with the Lewiston high school last Saturday at Lewiston was won by that team with a score of 11 to 0. The Genesee boys played a good, strong game, but were unable to check the line bucking made possible by the organized team work of the Lewiston boys. However, our boys showed much better form than at the Palouse game three weeks ago, and will make a good showing tomorrow (Saturday) afternoon, against the Potlatch team when it makes its initial appearance here. Lewiston also worked the forward pass and on-side kick to good advantage. Genesee's lineup at the game was as follows: Gray, l. e.; Martinson, l. t.; Montague, l. g.; Edwards, c.; Wardrobe, r. e.; Bressler, q. b.; Armstrong, l. b.; Keane, r. b.; Sheldon, f. b.

During a scrimmage of the game, Donald Bressler, who was playing quarterback, had the misfortune to have his collar bone broken. Medical attention was immediately given him, and the bone reset. He is able to attend school work this week, and it is hoped the break will be completely healed in a short time. Although the smallest member of the squad, Don is one of the best players, and the team will greatly miss him in the lineup against Potlatch tomorrow.

—Bishop Giorieux of the Boise diocese of the Catholic church, which diocese includes this part of Idaho, will be here next Sunday to give confirmation at St. Mary's church.

—Mrs. Mattie Vase of Walker, Mo., was arrested here last Wednesday afternoon and will visit for several months with her daughter, Mrs. A. J. Darr. Mrs. Darr went up to Pullman on the morning train to meet her.

—Mrs. C. F. Tuomy, Mrs. John Keane, and Misses Grace Brogan, Mollie Keane and Gladys Larrabee drove to Lewiston last Saturday to hear President Taft and see Florence Roberts at the Temple theatre that evening.

—County Auditor Homer E. Estes this week Wednesday turned over to Tax Collector E. J. Gemmill, the assessment rolls for 1911. This is about one month earlier than the auditor's office usually completes the extensions of the rolls, and Mr. Gemmill will at once begin sending out the assessment notices. The grand total of the taxes for the county this year amounts to \$315,628. This amount is composed of: State taxes, \$52,000, or \$3000 more than last year; county school specials, property road specials, livestock, predatory animal and all city and town taxes, totaling \$151,909.24. The valuation of Genesee is \$364,579 and a levy of 9 mills is made for city purposes.

14k Gold Fountain Pens at \$1.00 and up, at Olson's.
—Miss Carol Byrnes was visiting with her parents in Moscow last Saturday and Sunday.
—The two local banks observed yesterday (Thursday) as a legal holiday, it being Columbus Day.
—Mr. and Mrs. F. K. Bressler and Will Gray were Lewiston visitors to hear President Taft last Saturday.
—A son was born yesterday morning to Mr. and Mrs. Robt. Powell, who live on the Little Potlatch, 10 miles east of Genesee.
—Rev. A. F. Wolff left Monday morning for Fairfield where he attended the annual conference of the German Lutheran church this week.
—The Misses Christina and Emalia Loring, accompanied by their brother Henry, took advantage of the opportunity to hear President Taft and drove down to Lewiston last Saturday.
—Mrs. J. E. Blackburn and 2 sons who have been visiting here for some time part with the S. H. Hall and Mrs. Laura Stuber families, returned to their home in Cottonwood last Friday morning.
—A movement is on foot to hold a series of revival meetings in Genesee in the near future. An evangelist and singer from Kansas will very likely be secured and a union meeting held.

—Miss Clara Odenberg of Moscow, and Oscar Larson of Genesee, were married at the Norwegian Lutheran parsonage in Moscow last Thursday morning by Rev. T. E. Sweger. Immediately after the ceremony the bridal couple left on a wedding trip to Spokane. They will make their home in the Genesee valley.

—Genesee high school plays its first football game at home tomorrow afternoon, with Potlatch high. The boys are deserving of your financial support and ask your attendance at the game. Come out and convince yourself that football is a good, clean sport and not the rough game many imagine it to be.

—The invitational dance given by the Knights of Pythias at their hall last Friday night was a very enjoyable affair to the 45 or 50 people who attended. A splendid luncheon, on of the kind the K. P.'s are noted for, was relished by the guests. The evening was a splendid success in both social and financial way.

—Mr. and Mrs. J. W. Tice left last Friday morning for Spokane, where they expect to remain for some time with the George Raymond family prior to going to Wenatchee, where they will make their future home with their son, LeRue. Mr. and Mrs. Tice have been residents of Genesee for many years past, and in that time have made many friends here who regret very much to have them leave but all of whom wish them happiness in their new home. As a parting good wish to these most estimable people, the ladies of the Congregational church gave them a farewell surprise at the Larrabee home last Thursday evening, at which they were the recipients of many good wishes and several presents as tokens of the high esteem in which they were held by our citizens.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a whole year on the amount of fuel that you will pour into the ordinary stove or range in **eight months**. That means **free fuel for four months**.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

STATE ITEMS.

Congressman Burton L. French is in Portland and was operated on Wednesday for appendicitis. Being run down in health his recovery will be rather slow.

According to the last geological survey the altitude of the Lola pass on the divide between Idaho and Montana is 5100 feet. Former surveys placed the altitude at 5300 and 5500 feet.

The power from the Grangeville electric plant was turned on at Volmer for the first time Wednesday evening and gave perfect satisfaction. In the future the lights at that town will be provided by the new service.

For the first time in the history of Lewiston the moving picture shows and vaudeville houses were open Sunday, the permission to conduct the houses seven days in the week having recently been granted by the council.

District court in Lewis county was adjourned Saturday afternoon and Judge Steele departed for Orofino where he opened the first session of court in Clearwater county on Monday. The dockets in both of the new counties are naturally very short this term.

It is reported that a postal savings bank is to be established at Nezperce, Post Falls and Parma on October 16th. This will make seven postal banks for north Idaho, the other towns already having them being Coeur d'Alene, Lewiston, Grangeville, Moscow, Wallace and Sandpoint.

The business men in Idaho county who are endeavoring to restore the licensed saloon, filed petitions at Grangeville last Friday, carrying over 2000 names, asking for the calling of a special election, at which will be again submitted the wet and dry question. Idaho county was voted dry over two years ago.

Ben F. Tweedy, who resigned in April as mayor of Lewiston, after a stormy reign of 18 months, last Saturday announced himself a candidate for the republican gubernatorial nomination in 1912. Mr. Tweedy, it is claimed, will have the support of a large element among the law enforcement league and local option forces, and it is generally believed that he is being brought out by the opponents of Paul Clagstone, in the hope of splitting the dry vote in the northern part of the state.

A second dividend of 10 per cent to be paid by Receiver L. C. Wilson of the defunct State Bank of Commerce Oct. 15, was authorized by Judge W. W. Woods of the district court at Wallace, Sept. 29. With the previous dividend this will bring the total payment to 25 per cent, or about \$13,000. Assets of the bank yet to be realized upon will advance this amount at future dates from 25 to 50 or 60 per cent, but probably not more than the latter figure.

In an effort to make a fight against poor hotel service and extortionate rates, the traveling men who cover the north Idaho district at a meeting held in Lewiston, Sept. 30, effected a permanent organization in the nature of a welfare league. A memorial to the state sanitary inspector, asking that he investigate conditions in some of the hotels in the northern part of the state, is being circulated, and in the event of no relief being secured in this manner it is intended to send a delegation to Boise to confer with Governor Hawley in regard to the situation.

THE BUSINESS SIDE OF DAIRY FARMING.

There can be no question about the progress which has been made along various lines of agriculture in the last few years. Through scientific breeding and management new records have been established for high production in dairy animals. Many farm crops have been improved by plant breeding thereby making the same land yield more abundantly, while improved machinery has reduced the labor and cost of handling. These improvements have made farming more attractive and profitable, but this has been the work of experts. What can the farmer do to make his business more profitable?

Many of the most successful business houses of this country have grown from small establishments in spite of the keen competition, their growth being due to the business foresight and careful management of the proprietor. Cannot the average dairy farmer increase his profits by the same means? There are too few who can tell with any degree of accuracy, how much profit their herds yield. Owing to the complicated nature of the business, a complete set of books would, of course, be correspondingly complicated but this is not a sufficient reason why the business should be conducted from year to year without any records whatever.

Even the simplest records would aid in locating those little losses which are so disastrous to any business. Not only this but such records make the business much more interesting. The one record which the dairy farmer has so often been urged to keep is a record of the milk and butterfat produced by the individual animals in his herd. Some farmers do this but there are far too many who do not. It is not difficult to keep such a record and it shows conclusively which animals are profitable and which are not. Anyone who undertakes to feed live stock should, of course understand the principles of feeding and how to figure a balanced ration. Knowing the amount of feed fed to each animal he can easily locate those that do not pay for their keeping. A timebook properly kept would enable him to determine the total cost of keeping each animal and if extended to the other lines of farm work would make the record still more valuable.

Could the average farmer be induced to employ these elements of cost accounting it would add much to his profit and he would certainly derive much more satisfaction from his business than he does now by merely guessing at the source of his profit or loss.

Invest in Diamonds

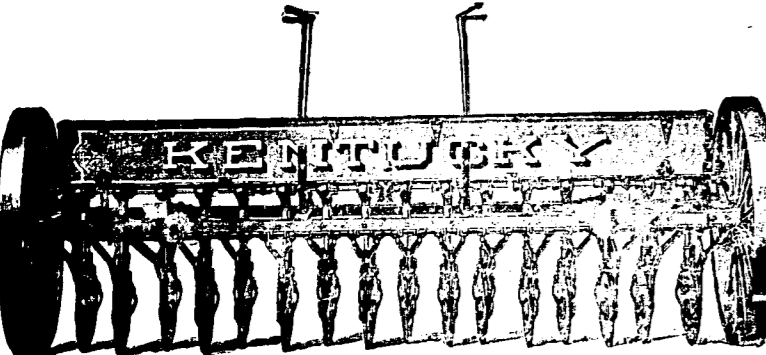

To buy Diamonds is an investment, because Diamonds increase in value while worn. Diamonds in recent years have advanced in value as much as 15 per cent each year. Is not this a good percentage of gain on an investment?

I now have a larger stock, of Fine Diamonds, than was ever before shown in Genesee, and offer them for sale at the very lowest prices. I have them set in Watch Cases, Earrings, Stickpins, Studs, Brooches and Rings from \$10.00 to \$160.00.

Buy a small stone to start with. It is returnable for the same price as you paid for it, when buying a larger stone, at any time.

GRANDMA BRESSLER PASSES AWAY.
This community was bereaved last Wednesday morning when it awoke to learn that Mrs. Caroline Bressler, familiarly known to everyone in southern Latah county as Grandma Bressler, had peacefully passed away at her home, at 4:45 o'clock that morning. Although all knew she was quite sick, it was not generally supposed that her condition was so low and the sudden news of her demise came as a shock to her hundreds of friends here.

Caroline Bressler was born in Detroit, Michigan, on the 22nd day of February, 1852. In 1885, at the age of 3, she moved with her parents to Columbus, Georgia, where she resided until her marriage to George Bressler in 1872, they making their home in Belleville, Illinois. To this union five children were born, two sons having died in their infancy. George Bressler died on the 17th of August, 1867. In 1890 Mrs. Bressler came to this city and has since resided here. At the time of her death, on the 18th of October, she was aged 79 years, 7 months and 26 days. Deceased is survived by 2 daughters, 1 son and 12 grandchildren. The children are Mrs. Mary Amelia Stroggins of Spokane, Wash., Mrs. Anne Louise Katieloffe of Cheney, Wash., and Fred K. Bressler of this city. The funeral services will be held this (Friday) afternoon from the residence of her son, Fred. Rev. G. L. Shall will conduct the funeral services and interment will be made in the Odd Fellows cemetery.

The News joins with the people of this community in extending the deepest sympathy to those who were near and dear to this good old lady, and who so mourn her loss.

C. L. JAIN TO LOCATE IN PULLMAN.

Mr. and Mrs. C. L. Jain were visitors in Pullman the fore part of this week and while there Mr. Jain purchased the Aeme barber shop of Joe Dew, located on Main street. The shop has four chairs and is one of the best in Pullman and with the changes Mr. Jain contemplates it will be made the most modern and up-to-date of any like place in the Palouse country. Mr. Jain has rented a home in Pullman and just as soon as he can conclude his business affairs here they will move to their new location.

Mr. and Mrs. Jain have been residents of Genesee for several years past, the former was born and raised here, and are two of Genesee's most estimable young people. Their many friends here regret very much to see them leave, but wish for them all kinds of success and prosperity in their new home.

—Mr. and Mrs. Leon Follett and daughter, Faith, left last Friday morning for Walla Walla, Wash., by way of Lewiston, stopping there for a day to take in the fair. At the former place they are visiting this week with relatives and attended the wedding of Mrs. Follett's niece, Miss McGee which occurred Wednesday.

—Mrs. Elizabeth Mochel, who has been visiting here for the past 4 months with her son George and family, left last Friday morning for Walla Walla, where she will remain during the winter months with her sister daughter, George Mochel accompanied her as far as Colfax where she spent a couple of days with his son, Chas.

—After the regular business meeting of the Rebekah's last Tuesday night, the ladies of that order planned a surprise for Mrs. C. L. Jain in the way of a social evening. A luncheon was served and the evening was enjoyed in conversation. The K P's also entertained Mr. Jain in a similar manner at their hall the same evening. Mr. and Mrs. Jain expect to leave for Pullman in a few days.

—One of the most delightful social affairs of the season was the basket supper and dance given by the Knights of Columbus at the opera house last Thursday night, Columbus Day. The fore part of the evening was spent in card playing, after which baskets were sold, one of them bringing \$10, and many went at \$5 and over, and the jolly crowd enjoyed the lunches at small tables. The social was concluded by a dance lasting until a late hour. All report a most enjoyable evening.

—Dr. J. D. Adams is installing a steel stocks in his new veterinary hospital this week. This is used for holding animals for operating purposes. He is also putting in a concrete floor, and with the completion of the work he has in view his hospital will be the equal of the best that are to be found in the Inland Empire. That the doctor is making good is evidenced by the many calls he has from territory entirely foreign to Genesee and he is gradually increasing his prestige in the nearby towns.

The people of Genesee and the surrounding country appreciate the progressive spirit which Mr. Adams has shown in giving them an up-to-date hospital, and this appreciation is more than manifested by the good patronage they are giving it.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a **Monarch Malleable Range** for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. **That means free fuel for four months.**

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

Ballard's Snow Liniment

is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgia, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disagreeable scars. This remedy is tried in every home. Its great power and efficacy was generally known, no family would be without it.

STATE ITEMS.

Three inches of snow fell at Burke October 10, and the hills above Wallace were snow covered.

A petition for local option election was filed last week at Coeur d'Alene and bore 550 signatures of petitioners, covering 251 pages. The vote last fall in Kootenai county was 5821.

It is predicted that the government will soon abandon the military post at Boise and move the squadron of cavalry now there to the Presidio, San Francisco, where quarters are now being erected for it. The change may take place next year.

Complete returns to the department of the interior showing that survey work has been finished in 14 townships in the central parts of the state and that 323,560 acres of land are now ready for the settler, have been made by the Surveyor General Darwin A. Utter of Boise, the reports being sent in last week.

J. J. Keane, president of the Latah County Fair association, and who was one of the men sent to Spokane to boost the exhibit, says that the fair this year was the best ever. There were many counties represented by exhibits, and for this fact the honors which were captured by Latah county are all the more desirable. He states that the advertising which Latah county got out of sending the exhibit there this fall is more than all other advertising received in the past twenty years.

With only 22 people present at the opening of the sale of that part of the white pine timber lands in Elk River district, within Latah county, Charles A. Frantz of Moscow sprung a surprise on the representatives of the Potlatch Lumber company, when he became an active bidder on a large number of 40-acre tracts, scattered throughout the sections, sold to W. D. Humiston, land agent of the Potlatch Lumber company. George A. Day, chief clerk of the state land board, Ben E. Bush and W. E. Daggett, agents, conducted the sale on behalf of the state, which resulted in the sale of 914 acres of land at a price from \$10 to \$14 per acre, and which lands had been appraised at from \$10 to \$12 per acre. The Potlatch company secured a total of 8701 acres and Mr. Frantz 440 acres.

NOTICE OF SALE OF BONDS.

Notice is hereby given by the Board of Trustees of the Genesee Independent School District No. 2, Genesee, Idaho, that, at an adjourned meeting held by said board, September 28th, 1911, it was voted to authorize the sale of negotiable coupon bonds of said Independent School District No. 2 to an amount aggregating the sum of \$20,000, comprising 20 bonds of the par value of One Thousand Dollars each, which will be dated January 1, 1912, and due in twenty years and redeemable at any time after ten years at the option of the district, with interest at the rate of 5 per cent per annum, interest payable semi-annually on the first day of January and the first day of July of each year at the office of the Treasurer of the District in Genesee, Idaho. Bids will be received for such bonds up to and including the 12th day of November, 1911, the bidder to specify if he will or will not furnish the bonds to be issued.

Should the bonds not be issued until after the first day of January, 1912, all accrued interest after that date to the time of issue is referred to the district.

The bonds hereby proposed to be issued are for the purpose of building and furnishing a school building for the use of said district. Bid for the bonds to be filed with the Clerk of the Board of Trustees of Independent School District No. 2, Genesee, Idaho, and to be accompanied with a certified check for two per cent of the par value of the bonds to be bid for.

The Board of Trustees reserves the right to reject any and all bids.

ANIMAL HUSBANDRY AT UNIVERSITY.

Idaho has always been, and promises to continue a live stock state; as one of her principal industries, and as a necessary part of her farm practice, the live stock business needs and deserves the very best support, encouragement and improvement.

The University is rapidly putting in an equipment to qualify her to lead in the development of the state's live stock business along scientific and practical lines.

Modern barns are now in the course of erection, for housing beef and dairy cattle. A main section with calf pens for 20 animals, stalls for 10 steers or beef and feed room and silo in connection will take care of the beef cattle, the bull and the young dairy stock. A wing separated by sliding doors, with stalls for 26 cows, is being erected in connection therewith. Both barns will have concrete floors, large window space, will be amply ventilated and will be thoroughly modern and sanitary in every respect. Particular care will be taken in the dairy section to construct the flooring, walls, window space, stalls, litter carrier, etc., according to modern and the most approved methods.

In a prominent location and near the new barns a live stock judging pavilion, steam heated, and with raised seats for 150 students is now under construction. This building will serve as a live stock class room and will greatly facilitate comparative judging and other live stock class work. At the present time the departments owns 16 head of milking Short Horns; 5 head of Holstein Friesians; 7 head of Jerseys; 70 head of pure bred hogs divided among the Berkshire, Poland China and Duroc Jersey breeds, and 35 head of sheep made up of Rambouillet, Hampshire, Shropshire, Oxford, and Lincoln. Pure bred Shires bought for the Farm Department number 4 head.

Four thousand five hundred dollars was appropriated by the late legislature for additions to the herd, and this will be spent on a beef herd of Herford and Short Horns, some Percheron and Shire mares, and an additional number of high quality animals for the sheep and hog departments.

DIVERSIFY—PEAS AND HOGS.

"I have not seen so good a live stock show in many years as I saw at the Interstate fair today. The cattle, hogs, horses and sheep were good enough to show any where in the east," said C. C. McAllister, of the Portland Union Stockyard company at the close of the Interstate fair to day ago.

"To me this is a very encouraging sign, because the greatest need of the Pacific northwest is diversified farming, with particular attention to the raising of live stock. Take your own section here. It does not raise enough hogs to supply the local packing houses. The northwest as a whole imports annually between \$8,000,000 and \$12,000,000 worth of live hogs and packing house products, all of which should be produced at home.

"The tendency of late years has been towards larger wheat farms, which necessarily mean a smaller population, instead of a farmer smaller plot following half his land each year, that ground should be planted to field peas to be harvested by hogs. By so doing the land would be in better shape for the following crop of wheat, while the farmer would have earned off 80 acres between \$1200 and \$1800.

"In those portions of the country where alfalfa is or can be raised, hogs should be the main product, because, with a little finish feeding of grain, hogs could be produced more cheaply than in any other place in the world.

"No country in the world is better adapted to raising cattle and hogs, especially if the land holdings are small. A few years ago the northwest stock raiser had a poor market. This is no longer the case. The big packers now have plants in this territory ready to buy at every season of the year.

"So much as I believe in the diversified farming that I would like to see the various states in the northwest purchase all of the logged-off lands within their boundaries and sell them to actual settlers, in small holdings, to be paid for in instalments extending over 20 to 40 years. If this were done and the present large holdings broken up into smaller farms, the population of the territory would be enormously increased and its prosperity would be greater than seems possible at the present time."

SCHOOL NEWS.

(By Prof. L. T. Babcock.)

The Hallow'en Poster was made this week in the first primary department.

Mrs. S. Rogers was a welcome visitor in the primary room Tuesday forenoon of this week.

Martin Kimberling was a new beginner in the primary department on Tuesday of this week.

Altha and Blanche Payne returned to school on Monday of this week after a two-week's absence.

Adaline Bressler, Faith Follett and Olaf Johnson returned to school in the eighth grade on Monday of this week.

Johnnie Kimberling and Mable Kimberling entered the second room on Tuesday of this week, the latter enrolling in the third grade.

A good fountain pen has been found and is in the possession of Miss Kuester. Owner can have same by calling and proving ownership.

The seats have been re-arranged according to Dr. Ehlen's suggestion in the primary room and in the fourth room so as to have the lighting at a better advantage.

Current Events will have a place in the daily program after this week. Twenty-seven copies of "The World's Chronicle" are in the hands of the pupils each week.

At the spelling match in Miss Kuester's department on Friday of last week Irene Babcock was the champion. The spelling match was based on the second month's work.

Rev. Shull, pastor of the Congregational church, was visiting in several departments of the school on Tuesday of this week. In behalf of the school we extend a cordial invitation to him to visit us again and often.

Physical, political and commercial maps of Asia and Africa are being drawn in the eighth grade. This is valuable exercise in developing the judgment and beyond doubt will result in a clearer conception of the geographical and commercial importance of those great regions.

TRUANCY OFFICER APPOINTED.

Probate Judge Will F. Morgensrider, in accordance with the power conferred upon him by the statutes of the state, last Thursday afternoon appointed a probation officer for Latah county. W. H. Mason was the man appointed to this position, and he was sworn into office the same afternoon by the county clerk, Homer E. Estes.

This is the first time a probation officer has been appointed for Latah county. Heretofore, the work of this kind has been carried on in connection with the sheriff's office, but it has become of such importance throughout the county that it was thought best to have a separate officer. There are a number of cases reported since school opened which will demand the attention of the probation officer at once, the first of which was one at the Applegate school, 9 miles southwest of Moscow, which Mr. Mason investigated Friday. He found the 11-year-old boy in question plowing and seeing no reason why the boy should not be in school, the father was given until Monday to start the boy to school again.

Speculators who make a practice of buying up delinquent tax certificates are the only beneficiaries of the high rate of interest now fixed by law, according to the belief of Will H. Hanna, treasurer of King county, Washington. Hanna points out that the county seldom or never receives this interest, as the property on which taxes are delinquent is always bid in by speculators who either come finally into ownership absolutely or collect big sums in interest upon redemption by the original owner. A reduction of the tax rate is suggested so that the investment may not be attractive to speculators.

LATAH PRODUCTS BIG ADVERTISEMENT.

Here is evidence that ought to convince the most skeptical of the value of advertising Latah county. When it was proposed to send an exhibit to the Spokane fair there were some who could see no value in such a move. There were some who opposed it. There were some who could see nothing but disaster, declaring that anything that would increase the value of Latah county land would result in no good other than increased taxes for the farmer. The Star-Mirror cannot agree with any of these views. We cannot believe that increased prosperity, increased population, and increased wealth are detrimental to the man who may happen to own a few acres of land in Latah county. In other words we are not ready to admit that the doubling of the value of any man's property is a bad thing for the owner. If a man has a farm worth \$5000 we cannot understand how it is detrimental to him to have his wealth increased to \$10,000. But this is getting off the track. We have a letter received Friday morning by the Chamber of Commerce that is printed in full because it shows something of the value of the work accomplished because Latah county was creditably shown at the Spokane fair.

The letter follows:

Starbuck, Wn., Oct. 11, 1911. Moscow Chamber of Commerce. Gentlemen: Please advise me in regard to Latah county. I want to know about the land in that section. Can I get a small piece? What terms can land be bought on, say about fifty acres?

I was at the Spokane Interstate fair and saw the display from Latah county and will say that I have been at the state fair at St. Louis, Missou, and at the fairs throughout Illinois, but never saw anything like what I saw from Latah county at Spokane.—Star-Mirror.

SCHOOLS COST \$17.48 PER PUPIL.

It cost just \$17.48 per pupil to educate the children in the schools of Latah county last year, according to the annual report of County Superintendent Bryden, which was made public this week. Of this expense 18 cents was due to school books.

The report shows that there are 97 school districts, six high schools, 12 grammar schools and 85 one room schools in the county. In these are employed 35 men and 121 women as teachers. The men receive an average of \$75 per month, and the women an average of \$65.

There are 6525 children of school age in the county. Of these 2367 boys and 2251 girls are enrolled in the schools, making a total of 4618. The average daily attendance was 3384; in the towns there are 2305 enrolled; in the county 3133.

There are nine town school libraries and 66 libraries in the rural districts. Miss Bryden's report of the school fund finances is given below:

Invest in Diamonds

To buy Diamonds is an investment, because Diamonds increase in value while worn. Diamonds in recent years have advanced in value as much as 15 per cent each year. Is not this a good percentage of gain on an investment?

I now have a larger stock, of Fine Diamonds, than was ever before shown in Genesee, and offer them for sale at the very lowest prices. I have them set in Watch Cases, Eardrops, Stickpins, Studs, Brooches and Rings from \$10.00 to \$160.00.

Buy a small stone to start with. It is returnable for the same price as you paid for it, when buying a larger stone, at any time.

WANT EXHIBIT FROM GENESEE.

Fred K. Bressler has received the following urgent invitation from Thos. H. Brewer of the Apple show committee, asking that the Genesee section be represented at the big Apple show to be held from November 23rd to 30th. It might be well for the commercial club to take up this matter and if it is thought best, an exhibit made. The following is the letter in full:

"The National Apple show is very anxious that all the towns in the Inland Empire have displays at the Fourth National Apple show which will be held here November 23rd to 30th. Would you kindly see your commercial club or parties usually interested in such matters and see if you cannot get them to be represented here.

The Apple show this year will be larger than any of the previous shows and in addition, there will be an E-Nak-Ops Jubilee down town every evening which will be a hummer.

This show is not a Spokane show; it is an Inland Empire show and your town should have just as much interest in it as Spokane. Spokane raises the money and puts forth the energy to make the show a success, but it will be a still greater success if the towns of eastern Washington and northern Idaho will assist. The advertisement of your town in the different exhibits should be worth a great deal to you.

Will you kindly get your people behind this matter and assist in getting a display from your section; also have them represented with a float in the different parades and send your band to compete for the band prizes."

FRIDAY, OCTOBER 27, 1911

14k Gold Fountain Pens at \$100 and up, at Olson's.

—C. G. Crawford, of Spokane, was visiting here with relatives from Saturday until Tuesday.

—J. Rosenstein returned home last Friday afternoon from a three-weeks visit at Soap Lake, Washington.

—Mr. and Mrs. Chas. Grieser and little children returned last Saturday from a visit of three weeks in St. Louis.

—Mr. and Mrs. A. B. Scroggins of Spokane, and Mr. and Mrs. C. A. Ratcliffe of Cheney, who were here last week, returned to their respective homes, Sunday.

—J. S. Larrabee and Dr. C. F. Tuomy left last Saturday morning on a hunting trip in the Bitter Root mountains. They will hunt up the Locksaw and over the Lolo trail, expecting to be gone for 2 or 3 weeks.

—The Young People's society of the United Lutheran church of Genesee Valley will give a basket social, at the parsonage, Friday evening, November 3rd, at 7 o'clock. The girls are expected to bring baskets. All are cordially invited.

—Victor Hasfurter, who has been quite sick with cancer of the stomach for some time, was taken to Spokane last Monday for consultation with one of the physicians there. Mrs. Hasfurter and Messrs. Andrew Hasfurter and Chas. Grieser accompanied him.

—Broemmeling's orchestra, assisted by M. W. Ebel, of Moscow, will give a social dance at the Genesee opera house this (Friday) evening. The dance begins at 8:30 and the usual admission charge of \$1.00 will be made. Supper will be served at the Grand Central hotel.

—Mrs. C. E. Hibbs of Coeur d'Alene was an arrival here last Friday afternoon and visited at the J. C. Hanson home until Wednesday of this week. Mr. and Mrs. Hibbs, who were former residents of our city for several years, will be remembered by many of our readers, Mr. Hibbs having been engaged in the warehouse business.

—The high school football team will meet the Pullman high school team in a game of football at Recreation park tomorrow (Saturday) afternoon. The game will be called at 3 o'clock sharp, and the usual admission charges will be made to defray the expenses of the visiting team. This is Genesee High's last game and as Pullman has a very strong aggregation, Saturday's contest is deserving of liberal support.

—Rev. O. C. Hellekson, who has been pastor at Our Savior's church, north of town, for the past many years, has resigned the pastorate and will move his family to Portland, Oregon, as soon as he returns from the conference in Iowa. Rev. G. I. Breivik of Parkland, Wash., formerly of New York City, has been selected as the new pastor of the church, and he preached his initial sermon there on Sunday, October 15. He and Mrs. Breivik have moved into the parsonage near the church.

—The ladies had prepared a bountiful dinner which was relished by the gathering and after the dinner Mr. Breivik presented with a purse of silver, the gift of the congregation. The afternoon was spent visiting with the family and all wished him success as their new pastor.

—Smolt and Son are now putting the finishing touches on their new store and expect to have everything in readiness for opening the new place by the first of next month. A beautiful new "Liquid Carbonic" fountain has been installed having a frontage of 10 feet, and finished in mahogany and marble, equipped with all the latest fountain accessories including trimmings in leaded glass. Furniture to correspond with the fountain is also being put in and with the opening of the new store Genesee can boast of one of the finest confectionery shops in the Palouse country.

—After the morning service at Our Savior's church last Sunday, the members of that church very pleasantly surprised the new pastor, Rev. G. I. Breivik, by gathering in a body at the parsonage to spend the balance of the day with him and his family.

—BIG REDUCTION IN MILLINERY. Beginning Saturday, October 28th, all ladies' and children's trimmed hats will be sold at greatly reduced prices. CLEMENS & CARBUEN.

—WANTED—Girl for general housework. Three in family. No children. Apply to Mrs. Ben F. Morris, 508 Fifth Street, Lewiston, Idaho.

—AVERTS AWFUL TRAGEDY. Timely advice given Mrs. C. Wiloughby, of Marango, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. She had last said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been told it for some time," she wrote, "and the awful cough has almost gone. It also saved by little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by F. E. Dicus & Co.

—22 head of spring calves and yearlings for sale. D. Sweeney, box 99, Genesee, Idaho. 13-15

—J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all druggists.

How About Floor Coverings?

Something needed? If there is you couldn't strike this store at a better time. We've an immense showing of the newest designs in all sorts of Carpets—and Linoleums—and Mats and Rugs.

Everything used to cover floors. We bought big and we bought RIGHT.

And we are awfully anxious to show you housekeepers.

We can't take the display to you, so must ask you to come to it. Consider this an invitation to visit us. The beauties of design and coloring are beyond our ability to describe.

Special prices on Rugs for the next ten days.

—Mr. and Mrs. Clarence Jain left Wednesday morning for their new home in Pullman.

—Mr. and Mrs. Wm. Camberlain, of Friday Harbor, San Juan Island, Washington, visited here for two days this week with their niece, Mrs. Wm. Thompson and family.

—Mrs. A. E. Wiloughby, of Cottonwood, visited here the fore part of this week with her daughter, Mrs. F. J. Cornish. She left Tuesday morning for Calgary, Alberta, to visit with another daughter, Mrs. Dan Nichols.

—A large number of Geneseeites took advantage of the fine weather last Friday and drove to Moscow to see the Washington State-Idaho football game. Weight, together with a veteran team, won the game for Pullman, although the Idaho boys put up a plucky fight. The final score was W. S. C. 17, U. of I. 0.

—Mr. Henry, the father of Mrs. H. L. Hardy, who has made his home with his daughter for many years past, and who will be remembered by many people of this vicinity, died at the Hardy home in Colton last Thursday night. He had been quite feeble for a long time and death was not unexpected. The funeral was held in Pullman on Saturday.

VICTOR HASFURTHER PASSES AWAY.

Victor Hasfurther, one of the most prominent residents of this city, and well known throughout Latah county, died at his home in west Genesee last Monday afternoon at 4 o'clock, the immediate cause of his death being cancer of the liver. Mr. Hasfurther had been a resident of this vicinity for over 21 years, and during that time he made hundreds of friends who were grieved to learn of his demise. He also took a prominent part in county and city political affairs, forming a large circle of friends throughout the county.

Victor Hasfurther was born in Bavaria, Germany, on the 26th of February, 1867, and in the same year was brought to America with his parents, first making his home in Chicago. In 1875 the family moved to Carol, Iowa, where they resided for 14 years. In 1890 they came to Genesee and have since made their home here. His mother died here in August, 1895. In 1892 he was married to Miss Francis Hennen of this city and 6 children were born to this union. He died on the 30th of October at the age of 44 years, 8 months and 4 days.

The funeral services were held Thursday morning at 9 o'clock, from St. Mary's church, the Rev. Fr. Haegy, preaching the last sad rites. The funeral was a very large one, and interment was made in St. Mary's cemetery.

Deceased leaves a wife, 6 children, 5 girls, Katie, Dora, Mamie, Martha, Madeline and an infant son, Wilfred; a father, John N., four brothers, Joseph, Andrew Martin and George and 4 sisters, Mrs. Paulina Broemmeling, Mrs. Mary Terhaar, Mrs. Annie Griener and Mrs. Maggie Scharbach to mourn his loss. All of these are residents of the Genesee country with the exception of Mrs. Terhaar of Cottonwood, and Mrs. Scharbach of Colton. The NEWS joins with hundreds of friends of the deceased in extending most sincere sympathy to the family in their hour of sorrow.

The topic for study, at the mid-week meeting, will be, "Events Connected With the Rivers and Lakes of the Bible." A most cordial invitation is extended to all to attend our services.
G. L. SHULL, Pastor.

Services at the Christian church are held as follows: Bible school each Lord's Day at 10 a. m. The school is organized according to the international graded series. The Teacher Training being used in the senior department. The training for service class meets each Tuesday at 8 p. m. Preaching every 3rd Lord's Day at 11 a. m. and 8 p. m. A cordial invitation is extended to all.
E. M. PATTERSON Pastor

Both subjects at the First Methodist church next Sunday will be special Morning subject, "Sanctification—the Doctrine and the Life." Evening subject, "Why More Liquor Was Sold Last Year than Ever Before." Sunday school at 10 a. m. Song and praise service at 7 p. m. each Thursday evening. Special music at each service. "Come With Us and We Will Do These Good."
J. G. CARRICK, Pastor.

PULLMAN HIGH 27; G. H. S. O.

In the football game last Saturday afternoon between teams representing the Pullman high school and the Genesee high school, the former won by the overwhelming score of 27 to 0, although the Genesee boys put up a very brilliant fight. The game was full of dirty playing, the visitors being the chief offenders in this respect, and the big score which they rolled up on our boys can be accounted for by their better team work, and the referee's decisions which were favorable to Pullman.

Those who saw the game were surprised at the good showing made by G. H. S., it being so much better than anticipated, and superior to their playing in former games, that the boys were cheered time after time for their work. In the last half the time-keeper also allowed the game to run 5 minutes overtime, thus giving Pullman an extra touchdown.

Manager James Keane states that there are no more football games scheduled for this season. However, with the revival of school work, next week, basketball will again come in to the lime light and G. H. S. promises another championship team for this year.

—A. A. Haymond and Arthur Linehan left Wednesday morning on a two to three weeks' hunting trip at Chateaufort.

Just received another shipment of that beautiful Rose Pattern Silverware. Call and inspect the large assortment. Olson, the Jeweler.

—Mrs. Fred Rice, of Midvale, who has been visiting here with the E. S. Rice family, returned to her home in southern Idaho yesterday morning.

—Mrs. Adams, the mother of Dr. J. D. Adams, was an arrival here from Portland, Ore., last Saturday, and will make her home with her son. They have rented the Mrs. C. Bessler property.

Neglected wounds produce old sores and these in time develop ulcers which eat away the vitality.

Ballard's Snow Liniment

Is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slow and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgic aches, it has done and is doing a wonderful work. Many chronic victims of these diseases have found their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disagreeable scars. This remedy is needed in every home. If its great power and efficacy was generally known, no farm would be without it.

STATE ITEMS.

Kamiah is preparing to call a school bond election for the purpose of voting a \$25,000 bond to build a new brick school house.

Thirty-two big loads of timothy seed were marketed in the 110 markets one day last week, the sum total amounting to about \$25,600.

James B. Wallis, deputy food inspector, discovered and destroyed the carcass of a deceased hog on sale in Boise store last Friday. The penalty for selling or disposing of diseased or putrid meat is heavy.

Approximately 6,000,000 fine young trout were distributed in the streams and creeks of the state by the special fish car sent out by the state game and fish department and which returned from the final trip last week.

Five early Sunday morning at Coeur d'Alene destroyed the Idaho Mercantile company's store and gutted the U. S. land office, doing damage to the amount of \$125,000. Most of the land office records were saved.

By a vote of 106 to 8 the citizens of Nezperce voted last week to bond the school district at that place for \$45,000 for the purpose of erecting a modern 10-room brick school building. It is expected the building will be ready for use at the beginning of school next fall.

Robert N. Bell, state mine inspector for Idaho, says the southeastern Idaho possesses one of the best developed and highest grade phosphate deposits in the United States. This, he says, is the Waterloo mine near Montpelier, Bear Lake county, which is owned by the San Francisco Chemical company. The mine has a conservatively estimated resource of 20,000,000 tons of high grade calcium phosphate.

Ex-Governor Brady states most emphatically that he will not again be a candidate for governor under any circumstances whatever, and that since the expiration of his term of office that he has had no desire to be again the governor of Idaho. Attorney General McDougall, now visiting in Hailey, is authority for this statement and says that the ex-governor so assured him three weeks ago while they were aboard the president's special.

E. H. Moffit of Wallace, is the new president of the board of regents of the University of Idaho, having been elected to the place made vacant by the resignation of M. E. Lewis of Moscow, at the meeting of the regents last Friday afternoon. Those present at the meeting were E. H. Moffit of Wallace, Mrs. S. H. Hayes of Boise, George R. Barker of Sandpoint and E. S. Sweet of Grangeville. Regent Clark of Pocatello, was unavoidably absent.

If plans which are now under contemplation fully materialize Cottonwood people are destined to see the local flour mill develop into a manufacturing plant of no small importance to this community within the next few months. While the capacity of the mill has been steadily increased within the past two years until at this time it is able to turn out ninety barrels of high grade flour every twenty-four hours, there is still room for improvement and it is now the aim to enlarge the mill to a daily capacity of 125 barrels and operate a double shift if the necessary arrangements can be made.—Cottonwood Chronicle.

FINAL ACTION ON LAND SALE.

Final action was taken this week in the transfer of 18,000 acres of land to W. D. Humiston acting for the Potlatch Lumber Company. Secretary of State Gifford, who has been absent from the capital, Thursday affixed his signature to the deeds, the documents had previously been signed by Governor Hawley and Register Jenness. By this transfer the endowment funds of the state was enriched to the amount of \$190,000, which the land board will proceed to loan to the farmers of the state at 6 per cent interest, and the revenue to be derived therefrom can be used for the support of the educational institutions of the state.

The sale of these lands has been a long drawn out controversy. The matter first came up more than a year ago, and the sale was attacked in the courts on the ground that the land board had no right to transfer these lands. The matter was threshed out in the supreme court of the state, and a unanimous opinion handed down sustaining every contention of the land board. The sale was, however, deferred until the new land board could make a personal inspection of the lands, which inspection was made last June, Governor Hawley, State Auditor Taylor and Secretary of State Gifford, personally visited the lands.

As a result of their inspection the land board again voted to proceed with the sale, but some 6,000 acres of possible agricultural value was cut out of the original application, so that instead of selling 24,000 acres, the number of acres sold was approximately 18,000. The lands actually sold are of mountainous character, and of little value for agricultural purposes. While the matter was under consideration by the board numerous communications were received both for and against the sale. While the majority of the members of the land board are republican in politics the most enthusiastic letters approving the sale came from democrats high in the councils of the party, thus precluding the possibility of this question becoming a partisan one. The regents of the university, which institution is the chief beneficiary of the sale, were pronounced in their approval of their transfer. The land board claimed by taking advantage of the peculiar necessities of the Potlatch Lumber Company, which had previously purchased the timber standing upon this land, they were enabled to make a business transaction resulting in decided advantage to the state and to secure a price for the land very much in excess of its actual worth.

THE YOUTH'S COMPANION IN 1912.

Another paper is quite like The Youth's Companion. It is taken in half a million homes where the choice of reading is made with as much care as the choice of friends. It entertains, it satisfies the keen zest for thrilling adventure, it is rich in wit and humor, and all the while its purpose is to be to every reader a help onward—never a drag backward.

Among the contributors to the 1912 volume will be General Baden Powell, the defender of Manking and founder of the Boy Scouts, Walter Camp, the celebrated football coach, Hudson Maxim, the inventor of high explosives, Governor Harmon of Ohio, Percival Lowell, the astronomer, Jacob A. Riis, Marion Harland, Harriet Prescott Spofford, Rev. Francis E. Clark, founder of the Society of Christian Endeavor, etc.

The serial stories alone, which will follow one another the year through, will be worth \$1.50 each when published in book form. By subscribing to The Companion you get them all and 250 other complete stories for \$1.75, and the Articles, Miscellaneous, Boys' Page, Girls' Page, Household Page, etc., put in for good measure. Now is the time to subscribe, sending \$1.75 for the 52 weekly issues of the new volume, for on January 1, 1912, the subscription price will be advanced to \$2.00.

Don't forget that the new subscriber for 1912 receives free The Companion's Calendar for 1912, lithographed in ten colors and gold, and all the issues for the remaining weeks of 1911 free from the time the subscription is received.

VAN BRUNT DRILLS

Are strong and durable and owe their success to their practical construction. The wearing part of the disc itself is the bearing. The Van Brunt Bearing is absolutely dust-proof and runs constantly in a bath of oil. No chance for this Bearing to work loose or wobble. One good oiling for every quarter-section is sufficient. The Van Brunt is handled exclusively in Genesee by

If You Didn't Have A Nose . .

I couldn't help your failing eyesight with Eye Glasses. But the nose is barbarously treated, and the French name for Eye Glass, pinch-nez (pinch-nose) was well selected.

Come in and see a new thing in Eye Glasses which was contrived for nose comfort. If you buy a pair your nose will be as lucky as your eyes.

—H. J. Bielenberg, who has been here visiting with relatives, returned to Cottonwood last Tuesday.

You will never have the chance to buy Rugs at such low prices as at Herman's for the next 10 days.

—Mrs. Lise, of Stites, and daughter Fanny, of the Lewiston state normal, were visiting here with Mrs. John Acrea and family this week. They returned home, by way of Julietta, yesterday morning.

—Mr. and Mrs. Fred Hall arrived here last Saturday afternoon from Hot Springs, Alaska, and will remain here with relatives during the winter months. Mr. Hall was formerly engaged in the butcher business here with Chas. Stuber, but has been a resident of Alaska the past 4 years.

—Members of the G. A. A. C. held a practice game of basketball between picked teams, on the Army courts last Tuesday night, and some very promising material shows up for the team. The high school teams held their first practice of the season on Wednesday night. Their big game this year is with Spokane high which is scheduled to play here on the night of December 21st.

A GIFT WITH A THOUGHT IN IT.

What other Christmas present costs so little and means so much as a subscription to The Youth's Companion—52 weeks for \$1.75? It is a gift which benefits not only the one who receives it, but every member of the same household. With many Christmas presents the sense of the novelty wears off by the week's end, but The Youth's Companion is as new and sought after the fifty-second week of the year as the first. It is elastic in its adaptability, too; for it does not matter whether the present is for a boy or a girl, young married people, sedate couples, grandparents—there never was one yet who did not get a copy of The Youth's Companion. You cannot make a mistake if you give The Companion—and it is only \$1.75 a year now. On January 1, 1912, the price will be advanced to \$2.00.

The one to whom you give the subscription will receive free The Companion's Calendar for 1912, lithographed in ten colors and gold, and you, too, as giver of the subscription, will receive a copy of the Calendar.

THE YOUTH'S COMPANION, 144 Berkeley St., Boston, Mass. New Subscriptions Received at this Office.

CHURCH NOTICES.

English services will be held at the German Lutheran church next Sunday morning at 10:30. Luther League suppers at 7 p. m. All are invited to attend our services.
A. F. WOLFF, Pastor.

The theme of the sermon, at the Congregational church, next Sunday morning, will be, "The Proof of Our Mission." The evening theme, "Christian Sympathy." The topic for study, at the mid-week meeting, will be, "Events Connected with the Cities of the Bible." A most cordial invitation is extended to all to attend our services.
G. L. SHULL, Pastor.

Services at the Christian church are held as follows: Bible school each Lord's Day at 10 a. m. The school is organized according to the international graded series. The Teacher Training being used in the senior department. The training for service class meets each Tuesday at 8 p. m. Preaching every 3rd Lord's Day at 11 a. m. and 8 p. m. A cordial invitation is extended to all.
E. M. PATTERSON, Pastor.

Epworth League reorganized at 7 p. m. Preaching services at 7:30. Subject, "The Need and Scope of a Revival." Are you attending service anywhere? If not, come to these services and we will do our best to help you.
J. G. CARRICK, Pastor.

—T. Driscoll left Wednesday morning on a business trip of several days in Spokane.

—Mr. and Mrs. Frank Terhaar, who were here last week to attend the Victor Hasfather funeral, returned to Cottonwood Friday.

—Peter Gross left Wednesday morning for southern California where he will remain during the winter months. He will spend the greater part of the time in Los Angeles.

—L. G. Evans returned last week from Pashley, Alberta, where he filed on a homestead of 160 acres of Canadian government land. He expects to move up there some time next year.

—One of the first and prettiest social events of the season, was a party shower given by Mrs. E. O. Cathcart last Saturday afternoon in honor of Miss Kate Kennedy, whose engagement to Dr. J. E. Reilly is announced.

An attractive feature of the entertainment was the arrangement of the house, the rooms being decorated with autumn vines and red mountain ash berries, and lighted with electric lights. The many beautiful gifts of the guests were effectively displayed in an alcove, decorated with a large red bell, through the center of which a light was suspended. The guests enjoyed the afternoon in miscellaneous games, the hostess being assisted by Miss Ruth Martinson in receiving, and by Misses Kate Kennedy and Mabel Kennedy and Mesdames D. C. Burr and A. A. Haymond in serving a three-course luncheon in the dining room. Prizes for the afternoon were awarded to Mrs. Will Herman and Mrs. A. A. Haymond. Those present were: Mesdames A. A. Haymond, J. H. Jackson, F. S. Caswell, E. E. Emmett, Glenn Sampson, F. E. Lambert, H. A. Thatcher, I. C. Peterson, D. C. Burr, Alonzo Hanson, Ira Hanson, T. J. Keane, Geo. Follett, B. H. Schooler, W. E. Smith, C. F. Tuomy, F. E. Dicus, Alonzo Murphy, J. P. Linehan, Will Herman, Fred Follett and Leon Follett and Misses Kate Kennedy, Letta Snider, Alice Nisbet, Maggie Nisbet, Mary Shull, Kate Magee, Olive Larrabee, Grace Brogan, Lulu Brennan, Mollie Keane, May Herman, Anna Carluhn, Iena Wood, Mary Clemens, Edna Driscoll and Ruth Martinson.

14k Gold Fountain Pens at \$1.00 and up, at Olson's.

—Mrs. Carrie Platt is visiting in Julietta this week.

—Glenn Sampson has been redecorating the interior of his barber shop this week.

—Misses Mollie Keane and Lulu Brennan spent last Saturday here with relatives and friends.

—Mrs. Geo. Blume and little daughter, who have been visiting in Moscow, returned home last Monday afternoon.

—John Trautman, who has been with his son, Andrew, on the ranch in Bitter Lake, Canada, for the past 3 weeks returned home Saturday afternoon. He reports a good crop and prosperous conditions in that part of Alberta.

—A Lincoln Kirk, a well known speaker and entertainer, will appear at the Congregational church on the night of December 6, 1911, under the auspices of the Christian Endeavor society of that church. The program will consist of monologues by Mr. Kirk.

—Mr. and Mrs. Edw. Abernathy and little daughter went to Spokane Tuesday morning to attend the funeral of H. Richards, an uncle of Mr. Abernathy. Mr. Richards died of apoplexy on Monday, having previously been in the best of health and the funeral was held Wednesday.

—R. F. Lambert and W. W. Gray left last Saturday morning for California where they will remain during the winter months. Mr. Lambert expects to make the greater portion of his stay in the neighborhood of San Francisco, while Mr. Gray's sojourn will be chiefly in the southern part of that state.

GOOD ADVICE FOR GENESEE PEOPLE.
People in Genesee who have constipation, sour stomach or gas on the stomach, should use simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the new German appendicitis remedy. A SINGLE DOSE brings relief almost INSTANTLY because this simple mixture antiseptically cleanses the digestive organs and draws off the impurities. F. E. Dicus & Co., druggists.

TURKEYS AND CHICKENS WANTED.
We are large handlers of turkeys and chickens. Portland is one of the highest priced markets in the west, and we would like to have a lot of turkeys for Thanksgiving. Write us what you have. Turkeys must be dry picked and chickens shipped alive. Goodrich-Waitley Co., 205 207 Washington St., Portland, Oregon.

WILL ADVERTISE GENESEE COUNTRY.

The most interesting and best attended meeting of the Genesee Commercial Club held in years was that of last Monday night, when the club was entertained at the W. J. Herman Co.'s store. Talks were given by the delegates who attended the Idaho-Washington Development League meeting in Lewiston the week before, explaining the purposes of the league and what was expected of the various commercial clubs. It was also stated that an officer of the league would visit Genesee in the near future, to assist in the work here.

The most important step taken by the club at Monday night's meeting was a decision to publish a large number of pamphlets for distribution to all parts of the country, by the business men, school children, and in fact any way to get them to home-seekers in the eastern states. A committee consisting of C. E. Wood, J. T. Nelson and E. O. Cathcart was appointed to draft the matter to be used in the pamphlet. E. O. Cathcart was also appointed corresponding secretary of the club, to assist the secretary in the publicity work.

Refreshments, consisting of doughnuts and coffee, were served by the hosts and greatly enjoyed, followed by cigars. The next meeting will be held on Monday, November 27th, in the Genesee Exchange Bank rooms, when more definite action regarding the publicity work will be taken by the club. The membership is now taking a deeper interest in the welfare of Genesee, and with several coming meetings, such as that of last Monday night, a great deal of good can be accomplished.

Genesee will soon be privileged to use some new styles in postage stamps. A report has been received at the local postoffice that a number of marked changes in the design of the stamps now used are to be made in the future. The object of the change is to make the stamp more easily distinguished. The eight cent stamp, as at present printed, bears a strong resemblance to the one cent stamp and the two are frequently confused. It is rumored that the one cent stamp is to bear the picture of George Washington instead of Franklin, and that the eight, ten and fifteen cent stamps will have Franklin substituted for Washington. There will be no change in the five and six cent in the two, three and four cent stamps.

Notice for Publication of Time Appointed for Proving Will, Etc.

In the Probate Court of the State of Idaho, in and for the County of Latah.

In the matter of the estate of Victor Hasfurther, deceased.

Pursuant to an order of said Probate Court, made on the 11th day of November, 1911, notice is hereby given that Thursday the 14th day of December, 1911, at 10 o'clock p. m. of said day at the court room of said Court, at the Court House in the County of Latah, has been appointed as the time and place for proving the Will of said Victor Hasfurther, deceased, and for hearing the application of Frances K. Hasfurther for the issuance to her of Letters Testamentary when and where any person interested may appear and contest the same.

DAIRY INSPECTOR VISITS GENESEE.

Assistant State Dairy, Oil and Sanitary Inspector Smith, of Boise, was a visitor to Genesee last Tuesday afternoon, and in his rounds of the local grocery stores, drug stores and meat market he found things in a far more satisfactory condition than the average. He was especially pleased with the city water system and the quality of the water, and the general cleanliness found in all of our stores, and was convinced that the merchants of Genesee were endeavoring to live up to the requirements of the pure food laws of Idaho.

It was necessary for the inspector to levy but three fines here for infractions of the law. J. S. Larrabee was fined \$25 and costs, a total of \$28, for having on hand 2 one pound rolls of butter, which when weighed by the inspector were found to be short of the full 16 ounces. The butter was made by Mrs. Crosssett. J. Rosenstein was fined \$25 and costs for having two rolls of butter without any wrappers. Chas. Westensee was fined \$25 and costs for not making a proper disposition of the offal at the slaughter house. This is one of the smallest number of fines that has ever been imposed by the pure food department upon towns the size of Genesee, according to Mr. Smith.

Regarding the law on butter, it is well for our farmers to have a full understanding of this statute. The law plainly reads that "each package of butter offered or exposed for sale shall have stamped upon the wrapper or package the actual number of ounces contained in said package. Each square or roll of butter kept, exposed or offered for sale to the state of Idaho, which is represented to contain one pound in weight, shall contain (full sixteen ounces); and each square or roll of butter kept or offered for sale in the state of Idaho, which shall be represented to contain two pounds in weight, shall contain full thirty-two ounces."

There is no way for the merchants to get back of this law, and the only thing for the farmers to do is to see that the rolls contain the full weight of 16 or 32 ounces. The merchants will hereafter be compelled to accept only full weight butters as they cannot afford to take chances on having an inspector come in and catch them with short weight rolls. In the case of the fines Tuesday evening, it cost the two merchants \$14 per pound for the 4 pounds of butter taken by the inspector, and no doubt the makers of this butter are as much to blame as those who offered it for sale. It is up to those who make butter to play fair in this deal as well as those who sell it.

ROUTE NO. 1 ITEMS.

Mr. Robert Powell and family have gone to Oregon to reside.

The basket social held in the church at Lenville was well attended. J. E. Lovell, who went to Washtucna, Wash., three weeks ago, returned last Friday.

Mr. Geer, who has been in Oregon for the past five years, has moved back on his ranch.

The S. D. Adventist school has opened with Miss Louise Schnepfer, of Viola, as teacher.

F. O. Starr, of Forest, Idaho, spent a few days visiting the members of the Adventist church.

Warren Shadbolt, Percy Armstrong and Lewis Young expect to go to California to spend the winter.

Mr. Ben Davis, who was visiting his sister, Mrs. Abe Rasmussen, left for Cambridge, Idaho, last Monday.

The schools at Pine Grove and Lenville are progressing nicely under the efficient instruction of Mr. Good and Miss Gladys Nevitt.

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Campbell, of Lavinia, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by all druggists.

DO YOU REALIZE

That the ordinary cooking stove or range costs you about enough in waste heat to run another stove or range?

You can operate a Monarch Malleable Range for a whole year on the amount of fuel that you will pour into the ordinary stove or range in eight months. That means free fuel for four months.

We make this statement in all honesty—we mean it—we know that the Monarch will do all that we claim for it. The Monarch is constructed of malleable iron and steel, the joints carefully fitted and riveted together. This method of construction absolutely insures the retention of heat—it can't get out, and cold air can't get in. There are no cracks thru which it can come and go.

MONARCH HEAT IS EVEN HEAT

The Monarch Duplex Draft operates in such a way that the heat is evenly distributed. The draft enters from two directions, and is thrown over all parts of the oven evenly. That is why the heat in a Monarch oven is exactly the same in every corner. With ordinary care, your cooking can't be underdone or burnt.

EXCHANGE BANK BUYS BONDS.

At the meeting of the board of directors of Genesee Independent School District No. 2, last Monday night, the bids for the \$20,000 bond issue, which was authorized by the electors of this district last September, were opened, and the bid of the Genesee Exchange bank, being the lowest, the bonds were awarded to them. There were 14 bids submitted, which ranged from 5 to 6 per cent.

Architect Clarence Z. Hubbell of Spokane, is expected here the latter part of this week or the fore part of next to meet with the board and go into further details of the new structure. The plans are practically completed and only await the approval of the school board, before they will be submitted to contractors for their bids. It is not expected that any work, whatever, can be done on the new building before the opening of spring, probably the fore part of March, but it will also require considerable time for the board to complete all arrangements, such as bids, etc., before the work can be started. It is expected that the new building will be located just south of the present structure, so that the grading and foundation work and probably part of the walls may be completed before the close of the school year.

ALUMNI ASSOCIATION TO GIVE PLAY.

"The Sophomore," a famous American college play, by Edward Bateman Morris, is the title of a comedy which will be presented on Monday night, December 4th, under the management of the Alumni association of the Genesee high school.

This play is being given by this association for the purpose of starting a fund for the building of a gymnasium. The voters gave us the assurance on September 16 that we will have a new school building. What Genesee now needs is a gymnasium, and we are going to have it. The Alumni association has started a campaign to raise funds to build this new gymnasium. It may take one year; it may take 2 years. The more you help the quicker it will be accomplished.

On December 4th you will have the opportunity to witness a modern college play and also help to swell this gymnasium fund. The play will be good and the cause is certainly a good one. Look in next week's NEWS for the cast of characters "Get the Spirit." ALUMNI ASSOCIATION.

At the Genesee Opera House

THE FAMOUS MUSICAL SHIRLEYS.

Next Monday night, November 20th, will appear at the Genesee opera house, the famous musical Shirleys, America's Greatest Saxophone players, playing 10 different instruments, in a program of musical selections which is bound to please our people. This program is made up of popular airs and old southern and negro melodies. It is worth the price of admission to hear Mr. Shirley play "Old Black Joe" with variations, while Maude Shirley is an expert on violin, drum and several other instruments. Curtain promptly at 8, and following the musical program, a dance, with music by this troupe, will be given, commencing about 9:15. A good time is promised to everybody. Tickets on sale at Dicus' drug store. Prices, 50c, 35c and 25c.

SIMPLE MIXTURE USED IN GENESEE.

Many people in Genesee are now using the simple buckthorn bark and glycerine mixture known as Adlerika, the new German Appendicitis remedy. A SINGLE DOSE relieves constipation, sour stomach or gas on the stomach almost INSTANTLY. This simple mixture antisepticizes the digestive organs and draws off the impurities and people are surprised how QUICKLY it helps. F. E. Dicus & Co.

CHURCH NOTICES.

There will be no services at the German Lutheran church next Sunday on account of the absence of the pastor from the city.

The theme of the sermon, at the Congregational church, next Sunday morning will be, "The Perfect Example." The evening theme, "Good Works not the Ground of Justification." The topic for the mid-week meeting will be, "Special Prayers in the Old Testament." A most cordial invitation is extended to all, to attend our services.

G. L. SHULL, Pastor.

Services at the Christian church are held as follows: Bible school each Lord's Day at 10 a. m. The school is organized according to the international graded series. The Teacher Training being used in the senior department. The training for service class meets each Tuesday at 8 p. m. Preaching every 3rd Lord's Day at 11 a. m. and 8 p. m. A cordial invitation is extended to all.

E. M. PATTERSON, Pastor

Revival services are in progress at the First Methodist church. Preaching every night at 7 p. m. Sunday services as follows: Sunday school at 10 a. m. At 11 o'clock will be the Sunday school rally, consisting of songs and readings by the children and older people. A 10-minute address to the children by the pastor. Epworth League at 7 p. m. and revival services at 7:30. You will miss a good opportunity of finding salvation if you fail to come to these services. My friends of Genesee, how about your souls and eternity. "Come Let Us Reason Together."

J. G. CARRICK, Pastor.

TEGLAND-HOVE

The John Hove home, five miles north of town, was the scene of a pretty wedding last Wednesday morning when Miss Anna, the daughter of Mr. and Mrs. John Hove was united in the holy bonds of matrimony to Mr. Arthur Tegland. The wedding ceremony was performed at 10 o'clock by Rev. G. I. Breivik, of Our Savior's church; Mr. Jesse Tegland acting as best man and Miss Mabel Sather as bridesmaid. The wedding was attended by only the very near relatives of the two families, and immediately following the ceremony, a sumptuous wedding dinner was served.

Mr. and Mrs. Tegland are two of the very estimable young people of this community, the former being a son of Mr. and Mrs. Geo. Tegland, well known farmers of the Genesee country. The young couple are native to the Genesee Valley and hosts of friends here wish for them a successful and happy voyage through life. They will make their home on one of the Tegland farms, and have gone to housekeeping in the Tegland home.

SAVED MANY FROM DEATH.

W. L. Mock, of Mock, Ark., believes he has saved many lives in his 25 years of experience in the drug business. "What I always like to do," he writes, "is to recommend Dr. King's New Discovery for weak, sore lungs, hard colds, hoarseness, obstinate coughs, la grippe, croup, asthma or other bronchial affections. For I feel sure that a number of my neighbors are alive and well today because they took my advice to use it. I honestly believe it's the best throat and lung medicine that's made. Easy to prove he's right. Get a trial bottle free, or regular 50c or \$1.00 bottle. (Guaranteed by F. E. Lucas & Co.)

SCHOOL NEWS.

(By Prof. L. T. Babeock.)

Mrs. Victor Hasfurth visited the first primary department recently.

Josephine Long enrolled in the first primary grade on Monday of this week.

Miss Leta Snider was absent from school the latter part of this week and Mrs. L. T. Babeock took her place in school while she was gone.

Mabel Emmett is the only one on the honor list of the eighth grade for the month of October. This means an average grade of 90 per cent or above.

Clarence Flomer has received a grade of 100 per cent at each of the written examinations in arithmetic this term. Pretty good for a boy, don't you think?

Clarence Peterson and Bryan Trail have been absent for several days. It is to be hoped that as little absence as possible will occur in any of the grades, as when a gap is left down there is no fence.

Charles Nave had the misfortune to have his collar bone broken at school on Friday of last week. It was merely an accident and no especial blame attaches to anyone.

The high school basketball team won an easy victory over the G. A. A. C. team last Friday night. A game is scheduled for Friday night of this week between the high school boys and the U. of I. Preps.

The present week finishes the first three months of school. Think of it! The year's work in school is one-third gone. Let us all work together to increase the efficiency of the school for the remaining two-thirds.

There will of course be no sessions of the school on Thursday, November 30, as this is the National Thanksgiving day. It has not been decided yet whether the school will convene on Friday, the first of December or not.

The experiment of self government is being tried out in the high school. James Keane is chairman of the parliamentary work and Laura Trail is secretary. It is to be hoped the experiment will be a success and we earnestly ask the co-operation of parents and patrons in the good work.

HIGH SCHOOL 42, G. A. A. C. 13. In the first game of basket ball of the season, played on the Armory court last Friday night, the high school showed up in its usual good form and trimmed the local athletic club by a score of 22 to 13.

The amateur's put up a better game, however, than most people expected and in the first half it looked like they almost had a chance to break even. In the second half the high school got down to business, and with pretty team work scored at will.

Jesse Teagland was easily the star performer in the game, but was at a disadvantage in having been out of the game for several years.

This (Friday) evening the high school plays its first regularly scheduled game with the U. of I. Prep. team of Moscow. The boys fully expect to beat this team, but need the encouragement of a good-sized bunch of rooters to help them do it.

Get out the root for the GeneSEE team which has now mighty promising prospects of being the championship team in the Inland Empire this year.

Please Take Notice

There was a slight mistake in last week's ad. which I wish to correct. The drawing for the Big Water Set will take place on the evening before Thanksgiving, Wednesday, November 23rd, at 7:30. Don't fail to be on time with your tickets.

Remember, with every 25c purchase you make at the "New Store" you get a chance on a beautiful Water Set. Some one must get it. Why not you?

Winning ticket must be in the store at the time of the drawing. If unable to be here, send your tickets with your name plainly written.

Another bradside is about to be fired at Alaska by Gifford Pinchot, the untried, who has given notice that he differs with the program announced for the far north by Secretary of the Interior Fisher. When named, this official was hailed by all the conservatives, because he was one of them.

But before doing anything, Mr. Fisher made a trip to Alaska. He modified his views after being on the ground and Mr. Pinchot intends to call him to task. Unfortunately indeed in Alaska because it is a constant bone of contention. The result is stagnation, for development cannot proceed under present conditions.

The sale of undrawn poultry (i. e., poultry containing the entrails or intestines) is forbidden under the food laws of Idaho, which prohibit the sale of "any part of an animal unfit for food." The following sections of

the law cover the same, as construed by this department:

"An article of food shall be deemed to be adulterated if it consists in whole or in part of a diseased, filthy, decomposed, infected, tainted, putrid or rotten animal or vegetable substance or substances: Or any part or portion of an animal diseased or otherwise unfit for food."

"It shall be unlawful for any person or persons, corporation or corporation to sell or offer for sale the meat of any cattle, sheep, swine, fish, game, fowl or poultry which is blown, tainted, heated, soured, raised, stuffed, putrid or impure, or which, for other reasons, is unfit for human food."

The possession of any food, the sale of which is forbidden by law, is prima facie evidence that it is for sale.

PURE FOOD BULLETINS.

State Dairy, Food and Sanitary Inspector James H. Wallis has issued the following bulletins on vinegar and undrawn poultry, dated November 15th, 1911.

BULLETIN ON VINEGAR.

It is against the laws of Idaho to sell vinegar from any cask or keg unless the said cask or keg is branded or stenciled on the head with the true name of the vinegar, name of the article or articles from which it is made, and the name and address of the manufacturer. The placing of a printed label on the cask or keg is neither branding nor stenciling. Dealers should see that the head of the cask or keg containing this information is on top, exposed to the view of the consumer, for whose benefit this information is required by law.

All dealers should get guarantees from the wholesaler or jobber or manufacturer, that the vinegars they buy comply with the pure food laws of Idaho. We have lately been clearing off the market a lot of distilled vinegar, colored to imitate the cider vinegar. Idaho farmers who are manufacturing a good grade of pure cider vinegar from their apples are going to be protected from this spurious stuff, and notice is therefore given to all interested that the laws of Idaho demand a product adulterated if it be mixed, colored or stained in a manner whereby damage or inferiority is created. In our opinion the addition of coloring matter to any type of vinegar is for the sole purpose of concealing damage or inferiority, and is therefore prohibited.

BULLETIN ON UNDRAWN POULTRY.

The sale of undrawn poultry (i. e., poultry containing the entrails or intestines) is forbidden under the food laws of Idaho, which prohibit the sale of "any part of an animal unfit for food." The following sections of

REILLY-KENNEDY.

The marriage of Dr. John E. Reilly to Miss Kate Kennedy was solemnized at St. Mary's church last Tuesday morning at 6:30 o'clock, by the Rev. Fr. J. M. Haegy. Immediate relatives and friends of the bride and groom were present at the ceremony, and Miss Mabel Kennedy, a sister of the bride, acted as bridesmaid and Mr. Dan Reilly, a brother of the groom, was best man. Following the marriage a wedding breakfast was served at the T. J. Keane home, attended only by the near relatives. Mr. and Mrs. Reilly left on the 9:05 train that morning on a brief honeymoon trip to Spokane, and on their return here, they will make their home in the J. W. Tice residence. Dr. and Mrs. Reilly are two of Genesee's most popular young people. The former is a son of Mr. and Mrs. John Reilly, prominent farmers of the Moscow country, and has a splendid dental practice in this city. The latter is a daughter of Mr. and Mrs. Peter Kennedy of Moscow, but has made her home here for several years past with the T. J. Keane family. She is a most accomplished young lady and has won the friendship of a community during her few years among us.

The News joins with hundreds of friends of the couple in wishing them the most of prosperity and happiness in their voyage through life.

GRAIN CROP EXCEEDED 800,000 BU.

The grain crop raised in the Genesee country in the year 1911 was in excess of 800,000 bushels, and was one of the largest known in the history of this section. Grain men who have taken an accurate inventory of the crop that was stored in the several warehouses here give the following reliable figures on the crop: Wheat, 283,987 sacks, or 996,116 bushels. Oats, 54,974 sacks or 5,354,696 pounds. Barley, 30,412 sacks or 3,035,770 pounds. There are probably few other stations on the Northern Pacific system that can show as large or larger grain crops for this year and the large amount harvested in 1911 certainly proves that there is no more prolific land in the northwest.

Geneesee Opera House

"THE SOPHOMORE." The Alumni association of the Genesee high school will present "The Sophomore" a three-act college comedy at the Genesee opera house on Monday night, December 4, 1911. The following is the cast of characters:

Robert Stewart, "The Sophomore," star full-back on football team.....
"Bud" Kennedy, captain of football team.....
"Kink" Bannister, a sophomore.....
"Reddy" Simms, a sophomore.....
"Dutch" Hendricks, a sophomore.....
"Buster" Brown, Manager of the team.....
"Owl" Griggs, a "greasy grind".....
"Aunt Mary" Scott, relative of the Aldens.....
"Cousin Mattilda" Dwiggins, relative of the Aldens.....
Miss Olive Larrabee Violet, servant at Alden's house.....
Miss Edna Driscoll, Place-Lakeville University.
Time—Late November.
Several good specialties will be given between acts.

CHURCH NOTICES.

German services will be held on Thanksgiving Day, Thursday, November 30th, at the German Lutheran church, at 10:30 a. m. English services next Sunday at 10:30 a. m. A cordial invitation is extended to all to attend our services.

A. F. WOLFF, Pastor.
The text of the sermon, at the Congregational church, next Sunday morning, will be found in Psalms 119:124. The evening theme, "Excuses." On account of family reunions, on Thanksgiving Day, the mid-week meeting for Bible study will be omitted November 30th. Be sure to read the notice about the Thanksgiving service in another part of the paper. We extend a most cordial invitation to all to attend our services.

G. L. SHULL, Pastor.
Revival services still in progress at the First Methodist church. Services every afternoon at two o'clock and at 7 p. m. If you are staying away from home, the services you are desiring your soul an injury. Regular services on Sunday, with a big men's meeting at 2:30 p. m. Don't miss this service. Every man within five miles of Genesee ought to hear this lecture. It is not religious, but strictly moral and scientific.

J. G. CARRICK, Pastor.
Hereafter preaching services will be held regularly on the first and third Sundays of each month at the Christian church. Beginning with December 3rd the pastor will deliver a series of sermons on the "Sermon on the Mount." This will be an interesting and profitable series. The subject of the first one will be, "The Beginning and Growth of the Spiritual Life as Shown in the Beatitudes." A chart will be used for this series. All are invited to attend this series from the beginning. Bible school each Lord's Day at 10 a. m. The training for service class meets each Tuesday at 8 p. m.

E. M. PATTERSON, Pastor.
F. E. BECKER DEAD.
F. E. Becker, an aged and most respected citizen of Genesee, passed away at his home here on Wednesday afternoon at 3 o'clock. He had been failing gradually for the past year, and death was not unexpected. The immediate cause was dropsy.

Born in Stoney, a son of George of Germany in 1836, he came to America at an early age and settled at Winona, Minnesota, where he engaged in the milling business. The greater part of his life was spent in a most successful operation of this business. In 1902 he retired from the active affairs of life and came to Lewiston, Idaho moving to Genesee one year later, in the spring of 1903.

The funeral services will be held tomorrow (Saturday) morning at 9 o'clock from St. Mary's Catholic church and interment will be made in the Catholic cemetery.
Deceased leaves a wife, two sons, Ernest of Genesee and Morris of Hay, Wash., and three daughters, Mrs. Della McLean of San Francisco, Cal., Mrs. Lizzie Heaser of Plainview, Minnesota, and Mrs. Susie Steffens of Elva, Minnesota. Neither Mrs. Steffens nor Mrs. Heaser will be able to attend the funeral. The News joins with hundreds of friends of the deceased here and in his old Minnesota home in extending sympathy to the bereaved family.

—Knights of Columbus Council No. 1397 of Moscow held a big initiation at their hall last Sunday, when a class of some 30 were made members of that order. Big delegations from Potlatch, Genesee, Lewiston, Spokane and other towns were present to participate in the work. Speeches were given by such prominent men as Judge Flynn of Bonner county and J. W. McDonald of Lewiston. After the initiation a big banquet was served in the hall. Those present from Genesee were: Joe Tobin, Martin Hasfurther, A. J. Primus, Chas. Grieser, Thos. Dwyer, Joe Moersch, E. H. Miller, Andrew Hasfurther, Chas. Whalen, Edwin Smolt, John Broemmeling and Chas. Ebel.

FRIDAY, NOVEMBER 24, 1911

—A son was born to Mr. and Mrs. John Jacobs last Sunday.

—Dr. Baker of the U. of I. Veterinary department, was a business visitor here last Friday.

—Mrs. Henry Hanson returned last Saturday from an extensive trip in the middle west, where she visited with relatives.

—Dr. W. H. Ehlen was a passenger for Culdesac on Monday morning's train, where he was a business visitor the fore part of this week.

—Mr. and Mrs. Wm Beckman were Coner d'Alene passengers on Wednesday morning's train where they will visit a week with Mrs. Beckman's people.

—Mr. and Mrs. James Nisbet were called to St. Maries Wednesday morning by the serious illness of Mr. D. C. Denniston, a brother-in-law of Mrs. Nisbet.

—Mrs. C. F. Tuomy entertained several of the ladies at her home last Friday night with a "kitchen show" in honor of Miss Kate Kennedy. A feature of the shower was a fish pond, the presents all being placed in this and the bride-to-be made to fish them out one at a time. The evening was pleasantly spent playing hearts, a dainty luncheon also being served in conclusion.

—Mr. Christenson and two children, Emma and Harry, went to Harrison Monday where they visited with friends and attended the wedding of Mr. Emel Miller and Mrs. Laura Hackley on Wednesday. Mr. Miller is a son of T. O. Miller of the Little Potlatch country and Mrs. Hackley will be remembered as a teacher in the district 5 miles southwest of Genesee. Their many friends here wish them a happy wedded life.

Leave your orders for oysters for Thanksgiving with Smolt & Son.
The Spurbek Feed Mills will be closed down after November 30th, for two or three weeks, in order to make a few necessary repairs. Parties contemplating getting work done in the near future should do so before the last of the month.

FOR SALE.
I offer for sale my residence property in Genesee, consisting of Lots 3, 4, 5 and 6, Block 11, West Addition. Small cash payment required. Balance, terms to suit purchaser.

S. E. PICKERING, Lewiston, Idaho.
TURKEYS AND CHICKENS WANTED.
We are large handlers of turkeys and chickens. Potlatch is one of the highest priced markets in the west, and we would like to have a lot of turkeys for Thanksgiving. Write us what you have. Turkeys must be dry plucked and chickens shipped alive. GOODHUR-WIMPLE CO., 205-207 Washington St., Portland.

—Mrs. J. N. Hasfurther went to Julianna last Sunday morning.

—Mrs. C. E. Wood and daughter, Ilena, were visiting in Moscow last Friday and Saturday.

—Mrs. O. V. Porter, who was visiting here with her daughter, Mrs. Edward Steltz, last week, returned to Spokane Sunday.

—Miss Alice Nisbet went to Moscow Thursday morning, where she expects to visit with relatives until after Thanksgiving.

—Messrs. A. F. Wolff, Dedrick Scharnost and Peter Steltz returned Wednesday afternoon from a 10-days' hunt on the Selway. They brought back with them two fine deer as trophies of the hunt.

—The Thursday afternoon whist club was organized last Thursday at the home of Mrs. E. O. Cathcart. The club starts with a membership of 12 ladies. The members will entertain the club in alphabetical order.

—The News desires to make a correction of a statement which appeared in last week's issue to the effect that J. Rosenstein was fined \$25 and costs by Assistant State Dairy Inspector Smith, for having two rolls of butter which were not wrapped. This butter was wrapped but was not properly labeled, the maker having written the name on the wrapper instead of having it stamped on as the law requires. Regarding the new laws, we also learned that a person cannot offer dressed meat for sale, who has purchased the cattle from another party. Anyone, however, who butchers his own cattle may offer the dressed meat for sale, but it cannot be resold. This provision is made so that those who purchase dressed beef are assured of healthy and unadulterated meats. The inspector also announces that hereafter when prosecutions are made for short weight butter, the manufacturer as well as the dealer will be held liable, and both fined as the law provides.

—C. E. Wood was a business visitor in Grangeville the fore part of this week.

—W. M. Thompson was a business visitor in Pullman and Troy the latter part of last week.

—Miss Mollie Keane, of Colton, spent last Saturday and Sunday at the parental home here.

—Will Hall, of Cottonwood, was visiting with his parents, Mr. and Mrs. S. L. Hall, for several days during the past week.

—J. W. Roush left Monday morning for Los Angeles, Calif., where he expects to remain for some time.

—Rev. and Mrs. O. C. Hellekson and little baby, left last Monday morning for Spokane where they will remain until Mr. Hellekson accepts a definite assignment in his church.

—Read the following new ads in this week's News: J. Rosenstein, Potlatch Lumber Co., The Variety Store, Robert Emmett & Co., Driscoll Hardware Store, O. Olson, Follett Bros., Herman's and Wm. Smolt & Son.

—Mr. Peter Kennedy and sons, Will and Ray, of Moscow, and Miss Mabel Kennedy of the Lewiston normal were arrivals here on Monday afternoon's train, remaining over until Tuesday to attend the wedding of their sister and daughter, Kate, to Dr. J. E. Reilly.

—Union Thanksgiving services, will be held in the Congregational church, Nov. 30th, at 11 a. m. Rev. J. G. Carreck will preach the sermon. Music will be furnished by the united choirs of the churches. It is hoped that all the people, in accord with the request of our president and governor, will attend this service, and a most cordial invitation is given to them to do so, by the church where the services are held.

—Members of the Christian church regret very much that they had not been informed of the nature of the young people's rally at the Congregational church in our city last Saturday, as they desired to be represented, not in attendance at such services, but in meeting and caring for representatives from other Christian churches who come as delegates. It is possible that the information was sent but did not reach us. A request is made that hereafter communications regarding matters of interest to the Christian church of this place be sent to the pastor, E. M. Patterson of Pullman, Wash., or to I. C. Peterson, Genesee, Idaho.

REGARDING PURE SEEDS.
Every citizen of the state who reads a newspaper has learned, no doubt, that the last legislature passed an act to prevent fraud in the sale of agricultural seeds, that is, "all flower, garden, field and grass seeds." This act has become a law. It is now up to all good citizens of the state, to those who buy and to those who sell seeds, as well as to the authorities, to see that this law is enforced. The intent of the law is of the highest order; its enforcement is worthy of the co-operation of every citizen. It is intended that the planter of agricultural seeds in this state shall have a knowledge of exactly what he is planting. Without any cost to himself he has now an opportunity to know the correct name of his seeds, the amount of the impurities, if any, the names of the foreign seeds and the per cent of seeds capable of germination. To the farmer especially should this mean much. He knows well the strenuous means of eradication necessary to rid his farm of certain weeds. However, in the past many farmers have bought and planted whatever seeds their merchants offered them regardless of purity. For example, one dealer in Michigan sold some clover seed which was about 40 per cent narrow-leaved plantain. This weed is a vile pest and it has already found its way into our state, although it came originally from Europe. At the Nebraska Experiment Station, Prof. Wilcox reports a sample of alfalfa seed with more than 50 per cent of foreign seeds in it. He also reports for one year 75 samples of alfalfa seed which contained "weeds" in the proportion of another bad weed introduced from Europe. Just as long as the farmers will buy such impure seeds, that long will they be for sale; but if they refuse to buy those seeds that have not been analyzed and found relatively free from weed seeds, dealers will demand from the seed growers a better quality of seeds, and eventually the quality of agricultural seeds will be greatly improved.

A copy of this law may be had upon application to the Director of the Experiment Station or to the undersigned.

MAKING RANCHES INTO FARMS.
Driving along the streets of San Antonio—"San Antonio," the Texans call it—upon passing at intervals luxurious homes shining with considerable newness.

"Whose?" you ask.

"Rich rancher—bought land for a trifle and sold out to farmers—worth half a million."

Repeated is the story until one gains the impression that the small farmer has taken the Southwest to a degree he has—or is on the way to do so. His immigration came naturally. When the homesteads of Kansas and Nebraska had been exhausted and the Oklahoma rush had overrun the fertile Indian reservations, the only outlet remaining was the ranch country of the farther southwest.

There were millions of acres used only for grazing, yet with possibilities of agriculture. Up in the middle states were thousands of farmers seeking a place where they could obtain for investment more acres than they could buy at home. The railroads saw benefit to themselves by colonizing the unbroken reaches of the plains. Shrewd organizers were ready for a venture. Out of this came the greatest land movement known in the history of the west, not excepting the westward trek of settlers soon after the close of the Civil War.

It was thoroughly planned. Tons of "literature" were scattered throughout the agricultural states of the Mississippi valley. Special rates were made for homeseekers' excursions. Twice a month "home-seekers' days" saw the trains run in four or five sections, each filled from the front end of the "smoker" to the rear berth of the last Pullman. Land companies were equipped with their own special cars, with dozens of automobiles at the destination and the pick of the wide-awake, hustling agents who could paint the prospects in most glowing colors. From "The New Era of the Ranch Lands," by Charles Moreau Hager, in the American Review of Reviews for November.

STARTS MUGH TROUBLE.
If all people knew that neglect of constipation would result in severe indigestion, yellow jaundice or violent liver trouble they would soon take Dr. King's New Life Pills, and end it. It is the only safe way. Best for biliousness, headache, dyspepsia, chills and debility. 25c at F. E. Dicus & Co.

LIVE STOCK INSPECTION LAWS.
On shipments of live stock into Idaho from other states, no inspection of horses, mules or hogs is required. Dairy or breeding cattle must be tuberculin tested accompanied by the test chart. Sheep are shipped under federal regulations and must be dipped under state supervision.

Live stock shipped into Washington require "physical inspection" for horses, mules, hogs, and sheep, also for beef and feeding cattle. Tuberculin test for dairy and breeding cattle.

Oregon requires "physical inspection" for horses and mules that are part of settlers' effects and for contagious work, the Mallein test. Tuberculin test for all cattle except wild range stuff. Health certificates, ("physical inspection") for hogs and sheep. If sheep are from a state under quarantine for scab, they must be dipped at once.

Montana has the strictest laws of any of the states and the health certificate must have his horses and mules Mallein tested, cattle tuberculin tested, with test charts and health certificates. Health certificate, including statement of non-exposure, to cholera, on hogs. Sheep must be accompanied by a certificate and dipped twice at intervals of ten days.

For Utah, the health certificate ("physical inspection") is required for horses, mules, hogs and sheep, tuberculin test for dairy and breeding cattle.

Canada has exceptionally severe inspection laws, but they are only just and equitable in their efforts to keep down disease. Horses and mules must be Mallein tested, cattle tuberculin tested and health certificate for other stock issued by a veterinarian registered with the Bureau of Animal Industry, U. S. Department of Agriculture. Unless this properly done, the shipper will be stopped at the line for several days and subjected to a very rigid inspection.

Wyoming requires health certificate for horses, mules, hogs and cattle, including tuberculin test for dairy and breeding cattle. For sheep, send ten days notice to Secretary State Board Sheep Commissioners at Cheyenne, and sheep must be dipped twice on arrival.

A "Mallein test" for horses (the test for glanders) and a "tuberculin test" for cattle (the test for tuberculosis) requires practically two days. It is usually most convenient to have this done before shipping for then there will be no tiresome "holdups" at terminal railroad yards.

It is very important that the veterinarian issuing the inspection certificates be properly authorized one to do so, and uses official blanks. The cost of inspection depends entirely on whether it is a "test" of "physical inspection," and the number examined.

Live stock must be unloaded every twenty-eight hours, and in arranging a settlers' car, it is well to keep this in mind.

While these laws are often thought to be severe and expensive, they are wise provisions for the general good and health of the state. They prevent one state—perhaps your own locality—from becoming a common ground for diseased stock.

Veterinarian, Idaho Experiment Station.

SCHOOL NEWS.
(By Prof. L. T. Babcock.)

The high school is proceeding with a play to be given in the near future for the benefit of the athletic association.

The third year English class is now reading with a great deal of enjoyment and appreciation General Lew Wallace's masterpiece, Ben-Hur.

The monthly report of the high school is summarized as follows: Average number of pupils belonging, 44.59; average number present, 43.69; per cent of attendance, 97.98; per cent of absence, 2.02.

Bennie Johnson had the misfortune to get his left arm broken near the wrist on Friday of last week. He is in school this week and the injured arm is doing as well as could be expected.

Ruth Martinson and Jessie Wardrobe were chosen to divide the high school into two equally matched sections for literary work. Organization of the two societies will be completed as soon as possible.

The partial self-governing system which the high school adopted in a general meeting, has now been in force over a week and shows promise of awakening the appreciation of the problems of school as connected with those of life.

The basket ball game last Friday with the University Preps, was satisfactory from the point of score. But the expense question was not solved. Either a larger attendance must be assured or the price of admission must be raised for the more expensive games later in the season.

Following is the roll of honor in the Genessee schools for the month of October:

PRIMARY DEPARTMENT
Flora Alber, Madeline H. further, Gladys Hanson, Lester Bumpass, Victor Casebolt, Robert Wells, Irene Malley, Cecil Gardner, Leslie Nelson, Maggie Schuster, Jesse Gray, James Steltz, Floyd Rogers, Isis Lambert, Olive Mulalley, Rert Roderick, Frances Ure, Marcus Miller, Martin Kimberling.

LIVE STOCK SHOW IN DECEMBER.

The big fat stock show which is to be held in Lewiston on December 12, 13 and 14 promises to entertain one of the largest crowds of stockmen ever gathered in a northwestern city. At a meeting of the committee last Saturday it was decided to hold the show in Lewiston in preference to the intended exhibit place at the fair grounds in Clarkston. The site selected is located directly east of the business district of Lewiston, and the stock will be sheltered in a large number of tents.

The parade through Lewiston will take place on the second day of the meeting, the entire distance from the show grounds to the western limits of the city being paved.

Among the speakers will be Governor M. E. Hay of Washington, who is scheduled to arrive here on the second day of the exhibition. Others will be D. O. Lively, president of the Portland Union Stock yards; W. L. Carville of the Idaho experiment station, Moscow; R. W. Thatcher, Washington state experiment station; C. E. Joss, bureau of animal industry, Portland; G. H. McMillan, president American Percheron Horse association of Rock Rapids, Iowa, Paul Cragston, president of the Northwest Live Stock association, Clagstone, Idaho, and representatives of the United States bureau of animal industry.

C. M. McAllister of Portland, one of the most widely known stockmen in the northwest, with headquarters at Portland, has been selected as superintendent. Advice received at headquarters today assures many carloads of pure bred cattle and hogs to be entered and the finest lot of pedigreed horses possible to assemble under one roof.

The association members are elated over the prospects of the Spokane business men's excursion coming to that city in time to attend the show.

IDAHO BARLEY LEADS THE WORLD.
Two-row brewing barley raised on the farm of William von Berge, seven miles west of Grangeville, was awarded the highest prize at the international barley and hop exposition held at Chicago last week in competition with that variety of grain from every section of North America. This news was conveyed Saturday in a telegram to Mr. von Berge from Robert Wahl of the commission of awards at the show.

The 60 pounds of barley sent to Chicago was exhibited at the fall fair held in the Idaho county metropolis six weeks ago and failed to receive favorable mention. Von Berge is one of the most prominent farmers on Camas Prairie and has resided in that section for more than 30 years. The barley was harvested by the "Little Idaho" harvester at a dollar an acre, and he got the dollar.

NEED 58 MEMBERS TO HOLD CO. H.
Advice received here by J. T. Nelson, secretary of the Genesee Commercial club, from the adjutant general of Idaho, state that he is on an inspection trip, and will arrive in Genesee either the latter part of this week or the fore part of next for the purpose of checking over the property in the Armory which is being used by Company H. Unless the company here can show its full quota of membership, which is 58, the property will be checked out and removed to some other point, and the state will necessarily be compelled to abandon the payments of \$500 per year for the use of the Armory.

Following is the letter in full from the adjutant general:
"Major Jeffreys, the assistant adjutant general, accompanied by Lieutenant A. R. Emery, U. S. A., inspector-instructor of the National Guard, are now on tour of the state, checking up the property belonging to the state, in order that we may be ready to render an accounting to the U. S. government the last of next month. It is very necessary that some disposition be made of the property in Genesee.

If a company can be organized there, it will, of course, be put in the charge of the commander of such company, but if no company is to be organized it will then be necessary to either ship it to Boise or some other town where a company is located. If you can secure the required number of enlistments, to-wit: 58 men, who can successfully pass the physical examination, by the time that Maj. Jeffreys arrives in the north, which will be about the 2nd day of December, he will muster in the company at that time. If you find that it is impossible to do this, it will be necessary, at that time, to ship the state property to some point where it can be placed in the charge of some officer of the National Guard in order that we may make the required report to the war department. Please let me hear from you at once as to what progress is being made.

Very truly yours,
E. A. McCall,
The Adjutant General.
This matter was taken up by the commercial club Monday evening, but because of a lack of a quorum, no definite action could be taken on it. It was agreed however, that several would make an attempt to get the company back to its full membership before the arrival of the adjutant general, and a list of names, including 75 of the young men in this neighborhood, was drafted, and these men will be approached and asked to sign up. The matter of publicity for the Genesee country in the form of pamphlets and booklets was held over until a larger attendance can be had.

Word was also received from Wallace R. Struble, secretary of the Washington-Idaho Development league, that he would be in Genesee sometime after the 15th of December, and he will assist the local club in putting the advantages of this country before prospective home-seekers in the east.

Miss Jane Brennan came over from Colton last Saturday afternoon for a visit of several days with relatives and friends here.

Dr. and Mrs. J. E. Reilly returned from their honeymoon trip to Spokane and Coeur d'Alene last Sunday morning. They were remembered by their friends on Monday night with an old fashioned charivari.

CHURCH NOTICES.

There will be no services in the German Lutheran church next Sunday as the pastor will be absent, filling the pulpit in the church at Gifford.
REV. A. F. WOLFF

The text of the sermon, at the Congregational church, next Sunday morning, will be, "God's Nearness." The evening theme, "Paul's Question." The topic for study, at the mid-week meeting, will be, "Special Prayers in the Old Testament." A most cordial invitation is extended to all to attend our services.
G. L. STULL, Pastor.

Services as usual next Sunday at the First Methodist church in connection with the revival. Preaching at 11 a. m. and at 7:30 p. m. Special service at 2:30 for women and girls over 14. Revival services every night at 7 o'clock. Special music. Special instruction in salvation, and special uncovering of sin. Don't miss this meeting. Souls are being saved and God's people built up. Rev. L. C. Greenleaf, pastor of the train Tuesday afternoon to assist in the revival meetings. Come and hear him.
J. G. CARRICK, Pastor.

Hereafter preaching services will be held regularly on the first and third Sundays of each month at the Christian church. Beginning with December 3rd the pastor will deliver a series of sermons on the "Sermon on the Mount." This will be an interesting and profitable series. The subject of the first one will be, "The Beginning and Growth of the Spiritual Life as Shown in the Beatitudes." A chart will be used for this discourse. All are invited to attend this series from the beginning. Bible school each Lord's Day at 10 a. m. The training for service class meets each Tuesday at 8 p. m.
E. M. PATTERSON, Pastor.

Wm. Esser spent last Sunday with relatives at Leon.

Miss Iva Sampson, of Lewiston, is here this week visiting with relatives.

H. J. Herman was a business visitor in Spokane last Friday and Saturday.

Mr. and Mrs. W. M. Herman returned last Monday afternoon from a visit of several days to the Inland Empire capital.

John Jacobs went to Uniontown Tuesday to attend the wedding of his sister-in-law, Miss Mary Fleischman and Mr. Peter Kaufman.

GENESEE 60, U. OF I. PREPS. 3.

The Genesee high school basketball team showed old time style in last Friday night's game with the U. of I. Prep. team, when that latter bunch was given one of the most severe basket ball drubbings ever witnessed on the Genesee court, and came out with the short end of a 60 to 3 score. The Genesee boys had every thing their own way from start to finish, and their playing was so speedy, and their team work so perfect that it was impossible for the visitors to even locate the ball at times. James Keane carried off the honors of the evening as the star man in the combined aggregations. Charles Gray secured his usual quota of field goals, a total of 15 in the two halves, besides 2 foul goals. Andrew Wardrobe was credited with 7 field goals, John Wardrobe with 3, Keane with 2 and Mel Wardrobe with 1. The visitors failed to get a field goal, their 3 points being secured from 5 chances on foul goals.

The team looks better than ever this year and with the aid of a coach, who is expected here from Pullman within a few days, it is reasonable to surmise that Spokane will be given the hardest game she was ever up against when she plays here on December 18th. If Spokane can be defeated, Genesee can undoubtedly lay claim to the Inland Empire championship this year.

Following are some of the more important games in this year's schedule: Spokane High, December 18th. University of Idaho, December 21st. Pullman High, Jan. 6. Lewiston High, Palouse High and Lewiston Normal. The Christmas trip will be made to the Camas Prairie towns and games are scheduled with the Grangeville, Nezperce, Cottonwood, Culdesac and 10 high schools. Another trip will be made to southern Idaho. But two games have thus far been scheduled for this trip, one with Boise High and one with Weiser High.

You will find that druggists everywhere speak well of Chamberlain's Cough Remedy. They know from long experience in the sale of it that in cases of coughs and colds it can always be depended upon, and that it is pleasant and safe to take. For sale by all druggists.

FRIDAY, DECEMBER 1, 1911

Mr. and Mrs. John Matson were visitors in Uniontown the fore part of this week.

Will Cunningham returned home Monday from a week's business trip to Troy and Moscow.

The News is printed a day early this week on account of Thanksgiving falling on our press day.

Mrs. Harriet Hobson, of Hilliard, Wash., an aunt of Mrs. Geo. Follett, was an arrival here Monday and is visiting at the Follett home.

Miss Rosa Geselichen returned home Tuesday afternoon from Spokane, where she has been visiting for several weeks with relatives.

Among those who went to the Apple show the fore part of this week were: Robert Emmett, Chas. Kimberling, Nathan Edwards and Frank Lawen.

Mr. and Mrs. John Lorang, accompanied by their daughters, Christina and Amalia, and son, Charles, were Lewiston visitors Saturday and Sunday.

Jurors for the present term of the district court were drawn at the county courthouse last Friday afternoon by Judge Morgareidge, Sheriff Brown and Clerk Nelson. Those on the list from this neighborhood are: H. A. Morgan and J. H. Fritzell of East Genesee and Wm. Smolt, Frank Harris and John Hove, West Genesee.

A movement is now on foot to substitute incandescent electric lights for the large arc lights which are now used at the intersections of our principal business streets. The idea is to use 4 lights of the new high candle power variety at each intersection, giving a light at each corner. This would also allow for several additional lights in the residence districts of the city.

FOR RENT—Nice, clean quarters—4 rooms and kitchen—opposite Mr. Nisbet's property. H. NEBELSHECK.

FOR SALE. I offer for sale my residence property in Genesee, consisting of Lots 3, 4, 5 and 6, Block 11, West Addition. Small cash payment required. Balance, terms to suit purchaser. S. E. PICKERING, Lewiston, Idaho.

TURKEYS AND CHICKENS WANTED. We are large handlers of turkeys and chickens. Portland is one of the highest priced markets in the west, and we would like to have a lot of turkeys for Thanksgiving. Write us what you have. Turkeys must be dry picked and chickens shipped alive. GOODHUR, WENZEL CO. 205 207 Washington St., Portland.

When you have a bilious attack give Chamberlain's Tablets a trial. They are excellent. For sale by all druggists.

14k Gold Fountain Pens at \$1.00 and up, at Olson's.

J. A. Sanford, of Pullman, spent the week's end with friends here.

Geo. Martin is spending the Thanksgiving holiday with his family.

Miss Olive Larrabee spent last Saturday and Sunday with friends in Moscow.

Moscow won the sweepstakes prize for the best carload of apples at the Fourth National Apple show.

The city schools are closed Thursday and Friday of this week on account of the Thanksgiving holiday.

Mr. Ernest Peterson, who has been visiting in Blaine, Wash., for several weeks past, returned home last Friday afternoon.

Oliver Nisbet, who is attending the U. of I. at Moscow, arrived here Wednesday afternoon and is spending the week at the parental home.

Mr. and Mrs. C. E. Wood, Miss Hena Wood and the Misses Edna and Dorothy Driscoll are spending the week with friends in Spokane and taking in the big Apple show.

H. A. Morgan and Leon Larrabee returned the fore part of this week from their hunting trip on the St. Joe. Leon returned home by way of Spokane where he attended the Apple show for a few days.

Morris Becker was an arrival here from Hay, Wash., last Thursday afternoon to attend the funeral of his father, F. E. Becker. He expects to remain here for a few days, assisting his mother in making preparations for moving to San Francisco, where she will make her home with her daughter, Mrs. McLean. She expects to leave in about a month.

G. H. Rosenau and two sons, Walter and Adolph, left Tuesday afternoon for Le Duc, Alberta, where Mr. Rosenau recently purchased a farm. His son Arthur, who we learn will soon become a benedict, will have the management of the farm, while Mr. and Mrs. Rosenau will reside in the town of Le Duc. They have many friends in Genesee who regret very much to have them leave here, but who wish them the most of prosperity in their new home.

FOR SALE: From 4 to 5 tons of Rutabagas. Inquire of NICK GAERTNER.

The Spurbeck Feed Mills will be closed down after November 30th, for two or three weeks, in order to make a few necessary repairs. Parties contemplating getting work done in the near future should do so before the last of the month.

C. Baldus was a business visitor in Colton between trains last Monday.

Antone Fisher left for his ranch, near Palouse, on last Friday morning's train.

Don't forget the KKK entertainment at the Congregational church next Wednesday night.

Peter Geselichen and B. Phipps were business visitors in Lewiston the latter part of last week.

Mr. and Mrs. W. J. Herman and Mrs. Henry Fluener went to Spokane last Sunday to spend a few days at the Apple show.

John Tracy has rented the Ingel Swenson farm of 80-acres lying 4 miles east of Genesee. He moved his personal effects out there this week.

Mr. and Mrs. Fred Perkins and little daughter left Wednesday morning for Moscow where they are spending the Thanksgiving holiday with Mrs. Perkins' people.

The cold weather of the past 10 days has frozen the ground to a depth of from 3 to 4 inches so that it is practically impossible for the farmers to do any work in the field.

Mr. and Mrs. Wesley Taylor of Spokane, announce the arrival of a fine baby girl at their home on November 20th. Mr. and Mrs. Taylor were both residents of Genesee, and the latter will be remembered as Miss Joy Fellers.

Mr. and Mrs. E. O. Cathcart, Mr. and Mrs. E. Oylear and Fred Follett were Spokane passengers on Monday morning's train. The gentlemen of this party represented the Genesee commercial club at the joint meeting of Inland Empire clubs held in that city on Tuesday. They were also guests of the Spokane chamber of commerce at a splendid banquet given Tuesday noon.

STATE ITEMS.

Nezperce has started the work of macadamizing two of the principal streets of the town and intends continuing the work until most of the streets have been put into the best of condition.

Congressman Burton L. French has returned to Moscow from Portland where he recently underwent a successful operation for appendicitis. He will go on to Washington, D. C., within a few days.

14,000 acres of Idaho's best land will be sold under the Carey act at Jerome, December 11. These lands are part of the great north side tract (a Kamm enterprise) and are considered especially choice for apple and general fruit culture.

Nezperce is showing her usual spirit of progressiveness and has already raised over \$7,000 and will swell this sum to \$10,000 for a public utility fund for the next two years to be used in boosting Nezperce in the publicity campaign to be carried on by the Idaho-Washington Development League.

A receiver has been appointed to take over the control of the Lewiston Teller newspaper plant at Lewiston, the action being the result of a suit brought by the creditors of the company. It is stated that the liabilities of the corporation are \$24,000 and the assets not over \$10,000.

Cottonwood is soon to have a new theater and the work of arranging it is now practically finished. W. S. Newport, manager of the local electric light plant, was the first to realize that this town needed another opera house and to decide to engage in the business of providing the citizens with high grade attractions. With this end in view, he rented the Creelman building on Broadway and has been busily putting in the past week or more in getting it in shape to open to the public—Chronicle.

Last week's local option elections were held in Idaho and Kootenai counties, and the "wets," or those favoring the regulated saloon, rather than to continue the conditions which have existed in these counties during the past two years, came out victorious. Their majority in Idaho county was about 175 and in Kootenai 114.

It is understood that many of the leading business men in each county supported the anti-prohibition side with the determination that if they should return to the licensed saloon.

It is reported that the Potlatch Lumber company recently cut at a point about three miles from Bovill a white pine tree which is believed to have been one of the largest ever cut for lumber in the United States. The log is said to measure at its lower log 10 feet in diameter, and at its largest end 12 feet. The tree will scale from 75,000 to 100,000 feet of lumber, board measure. The Potlatch Lumber company proposes to set up the butt end of the tree near the depot in Potlatch as a monument and advertisement.

A Portland dispatch says the fact has been further revealed that the Pittsburg & Gilmore road is a Hill project through the fact that the crew which are razing the grade work down the Salmon river, are being paid with Chicago & Northwestern checks. From reliable sources it has been revealed that the Chicago & Northwestern will drop down the Salmon and Snake rivers where it will hook up with the Hill roads and from that point will reach Portland via Pasco and the North Bank and Puget Sound via Pasco and the N.

THE BALANCED RATION.

Feeds are divided into two great classes—those that are concerned with growth and are used to build up muscular tissue, and those that are used to produce heat and energy and are the principal sources of animal fat.

The former are called nitrogenous feeds, the latter carbohydrate feeds. Examples of the former are soy bean meal, oil meal, bran, shorts, alfalfa, clover and other legume hays, tankage, field peas, cotton seed meal, etc.

Carbohydrate feeds include corn, wheat, barley, rye, root crops, silage, straw, etc. Oats are more nearly nitrogenous.

Animals differ widely as to the kind of feeds they can use to best advantage. Young and growing animals need to build bone, muscle and tissue, and therefore require a rather high proportion of digestible nitrogen. Fatening animals have to a great degree accomplished the necessary growth of bone and flesh and are ready to utilize feed adapted to the storage of fat. Carbohydrate feeds are better suited to this purpose. Dairy cows require feed for maintenance of the body functions and for supplying the fat and nitrogenous matter found in the milk.

In addition to grains and pasture, hogs need supplementary feeds such as charcoal, wood ashes, tankage, etc. In short, feeds must be fitted or adapted to the needs of the animal. When a ration is so fitted or adapted it is called "balanced." A man feeding corn alone to growing pigs is not feeding economically. The young pig cannot use to advantage a ration so strongly carbohydrate and will of necessity fail to develop fully in vigor and strength of bone and muscle. The horseman who feeds alfalfa hay, and alfalfa alone, to his brood mare is feeding too high a proportion of digestible nitrogen. To handle and eliminate through the kidneys this unusually large quantity of nitrogen is too severe a tax on a pregnant mare and is liable to result in the foaling of a defective colt. The brood mare needs a variety of balanced rations. In the same way the steer, the sheep, the brood sow, and in fact all classes of animals require rations adapted or balanced to their needs.

A pig five months old requires one pound of digestible nitrogenous feed to five pounds of digestible carbohydrates. A ration can be so balanced by using two pounds of shorts, 1 pound of corn, three-fourths pound of barley, and one fourth pound of tankage. A pure bred Poland China barrow sow fed on the university farm weighs 265 pounds at seven months. A 1000 pound dairy cow requires seven-tenths pound of digestible carbohydrates and one-tenth pound of digestible protein for maintenance. When producing 25 pounds of 3 per cent milk she needs in addition to her maintenance requirements one pound of digestible protein, four and three-fourths pounds of digestible carbohydrates, and four tenths pound digestible fat for sustaining the milk flow. This result can be accomplished by compounding a ration of four pounds of rolled barley, 7 pounds of alfalfa hay, and 31 pounds of corn silage.

By similar processes balanced rations can be calculated for other classes of animals. Standard and modern books that fully explain the nature and value of the feedstuffs in common use and that fully explain the compounding and balancing of rations are as follows:

"Profitable Stock Feeding" by Prof. H. R. Smith.
"The Feeding of Animals" by Prof. W. H. Jordan
"Feeding Farm Animals" by Prof. Thomas Shaw.
"Elementary Treatise on Stock Feeds and Feeding" by Prof. J. E. Halligan (A new book)
"Farmers' Bulletin on the Feeding of Farm Animals" contains a discussion of feeds and feeding and extensive tables for use in balancing rations. This publication can be obtained by writing the U. S. Department of Agriculture, Washington, D. C.

THIRD ANNUAL LIVESTOCK SHOW.

In connection with the meeting in Lewiston of the Pacific Live Stock Association on December 12, 13 and 14, it has been suggested to request the newspapers of the eight counties comprising this inland territory, to give the meeting such local publicity as will thoroughly advise the farmers and stockmen regarding the purpose of the meeting. You are aware that the Pacific Live Stock Association is an organization of stock raisers and others interested in the development of the stock industry in the Pacific Northwest and in this sense it is the annual meeting. The two former meetings were devoted to the organization and general discussion of the business but this year it was determined to enlarge the scope by holding a fat stock show and combination sale of all classes of stock. It was thought this the best plan of interesting the people as it would enable all to observe what was being accomplished by others and in this sense it is much like a fair and would serve as a market for any stock for sale and would permit the purchase of breeding animals by those wishing to exchange and improve their herds.

With this idea it is arranged for carloads of fat stock to be shipped here and the feeding in transit arrangement has been granted by the railroads. This permits stock to be shipped to Lewiston to this show and if sold, and the buyer ships to the Coast or any other point, the balance of the transport rate only will be charged; and this rule holds good should the stock remain unsold, when the original shipper can reship to other markets getting the original through rate.

Some of the best speakers, men engaged in the industry, will give addresses each afternoon. Among these will be Paul Clagstone, president of the association, Governor M. E. Hay of Washington, D. A. Lively, vice president of the Portland Union Stock Yards, W. L. Carlyle, director of the Idaho Experiment station, and others. You will recognize that to build up this territory it is necessary to diversify and develop the natural advantages we have every farmer and stock raiser attend. This show offers one of the greatest opportunities to farmers, purchase practically at their own prices pure bred horses, cattle, sheep, and hogs ever afforded them. A breeder's combination auction sale is announced to be held daily in connection with the show at which two and three-year-old Shire, Percheron and Belgian mares and stallions; Shorthorns, Gal laways, Herefords, Jerseys, Holsteins, and Ayrshire bulls and heifers; Poland and China Berkshire, Dorset Jersey and O. I. C. hogs and sows will be offered to bidders. This is a golden opportunity to buy pure bred stock of the above varieties at your own price. Those attending the show may take advantage of the one and one-third round trip railway fare to Lewiston.

Yours very respectfully,
JNO E NICKERSON,
Secretary.

WILL ENCOURAGE MORE DAIRYING.

At a recent meeting of the Lewiston business men it was decided to take up and encourage, in a practical manner, industries that would be of the most importance to the surrounding country. At this meeting it was decided that the dairy interests should be encouraged in every way possible. There is not enough butter made in the territory to supply the demand and the Northwest is sending millions of dollars east annually for dairy products.

In looking over the dairy districts we find that they are the most prosperous sections there are and we hope to be able to encourage the industry more in this territory. We believe that the first thing necessary to get many more and better cows into this country.

This committee was appointed to take up the matter and do whatever is necessary to further the interests of the dairy business. We desire that those farmers in your section, wishing to purchase cows, get into communication with us and if the situation demands a buyer will be sent to dairy sections of the east to secure the best dairy cows, not over 6 years of age, to be delivered to the farmers here at actual cost. We believe a great benefit will result from this plan because money that has been going east for dairy products will then be spent at home.

We would be glad to have you take this up through your paper, asking the buyers to get in touch with us, and advise us of any possible buyers.

Notice for Publication of Time Appointed for Proving Will, Etc.

In the Probate Court of the State of Idaho, and for the County of Latah.

In the matter of the estate of Victor Hafstrud, deceased.

Pursuant to an order of said Probate Court, made on the 17th day of November, 1911, notice is hereby given that Thursday the 14th day of December, 1911, at 10 o'clock p. m., of said day at the court room of said Court, at the Court House in the County of Latah, has been appointed as the time and place for proving the Will of said Victor Hafstrud, deceased, and for hearing the application of Frances K. Hafstrud for the issuance of her Letters Testamentary when and where any person interested may appear and contest the same.

Dated November 17th, 1911.

WILL F. MORGANRIDGE, Probate Judge.
First publication November 17th, 1911.

DIST. CONVENTION HELD IN MOSCOW.

Seventy-five representative farmers of Latah county, members of the Farmers' Union, were present at the annual district convention in Moscow last Friday and Saturday. The meeting was a large and enthusiastic one. Perhaps the most important business before the meeting was the discussion of the proposed plan of establishing a Farmers' Union mill. Nothing definite has yet been done, as there are many different ideas of the form the plan should take. It is probable that the mill, if established, will be located in Moscow, although several other towns are anxious to have it, it is understood.

The farmers were welcomed Friday by Mayor Clark, whose talk was greatly appreciated. The response to the address of welcome was made by State President L. C. Crow, after which the committee on credentials reported that it recognized 73 delegates representing the following 10 local unions: Moscow, Troy, Genesee, Fix Ridge, South American Ridge, Burnt Ridge, Bear Ridge, Joel, Gold Hill and Kennedy Ford.

Considerable discussion was made of the road poll tax law, but although the farmers are almost unanimously opposed to the law, no definite action was taken.—Star-Mirror.

Those present from Genesee were R. R. Gray, B. H. Schooler, A. Borgen, H. J. Herman, Frank Greiser, Chas. Greiser and J. C. Hanson.

—Joe Tobin left yesterday morning for Pincher Creek, Alberta, where he will assist his father in his railroad work. Mr. Tobin expects to have his contract completed in about 30 days.

—By an unfortunate error in an item published recently, we were unable to say concerning the young people's convention that we regretted we had not been informed of it, nor that we wished to attend, etc., whereas, we intended saying "not only that we wished to attend, but also to entertain our share of delegates." We did not intend the unkind remark the error made us make, but mistakes will happen you know.

English services will be held at the German Lutheran Church next Sunday morning at 10:30 o'clock. Luther League meets at 2 p. m. All are invited.

Subscription price, strictly in advance, \$1.50.

—Winnipeg Free Press—The hold which the old plantation melodies have upon the heart of the average individual was well illustrated when the William's Jubilee Singers gave their concert in Winnipeg last evening. Every seat in the largest auditorium in the city was filled, standing room was at a premium, and scores were unable to obtain admission. The price was a popular one and the singers appeared to be equally so. Throughout the two-hour program the enthusiasm of the audience lasted, and few, if any, of the selections were allowed to pass without an encore. Such old favorites as "Old Black Joe," "Sawane River," "Roll, Jordan, Roll," "Darky Camp Meetings," and "The Old Oaken Bucket," received as hearty a reception as any of the newer pieces and also found equal favor with septettes. The humor of Mr. and Mrs. Williams gave the finishing touch to an entertainment which provided 2,500 people with an evening's hearty and healthily enjoyment. The Williams Jubilee Singers will appear at the Genesee Opera House on the night of Thursday, December 21.

You will find that druggists everywhere speak well of Chamberlain's Cough Remedy. They know from long experience in the sale of it, that in cases of coughs and colds it can always be depended upon, and that it is pleasant and safe to take. For sale by all druggists.

CHURCH NOTICES.

There will be services at the English Lutheran chapel next Sunday morning at 11 o'clock. Rev. G. I. Breivik, pastor of Our Saviour's Lutheran church, formerly of New York City, will preach. You are cordially invited to attend.

The theme of the sermon, at the Congregational Church, next Sunday morning, will be, "Glorifying God." The evening theme, "Preconceived Ideas." The topic for study, at the Mid-Week Meeting, will be, "Special Prayers in the Old Testament." A most cordial invitation is extended to all to attend our services.

G. L. STULL, Pastor, preaching every two weeks on third Sunday, morning and evening. For Dec. 17 the morning theme is "The Higher Law and the Greater Lawgiver," the second in a series from the "Sermon on the Mount." These are vital discourses and should be heard with interest. In the evening, the pastor will discuss the timely subject "War and the Christian Conscience."

E. M. PATTERSON, Pastor, The services at the Methodist Church next Sunday will be as follows: Sunday School at 10. Preaching at 11. Subject: "The Righteous Shall Flourish like a Palm Tree." At 2:30 will be an old fashioned Love Feast Service. Don't miss this service. At 7 p. m. Epworth League and preaching at 7:30. Subject, "Hell." Such questions as the following will be answered: "What are the punishments?" "Do men go straight from earth to their future reward?" "Is it a place of eternal punishment?" And many others.

Be sure and come and hear what the Bible says on this important subject.

J. G. CARRICK, Pastor.

"THE SOPHOMORE" WAS WELL LIKED.

The campaign for raising a fund for a gymnasium at the Genesee schools, was opened last Monday night, when the Alumni Association of the Genesee high school presented the three-act comedy "The Sophomore" at the local theatre. The Opera House was crowded to its capacity, and the play was, in complete enjoyment by the entire audience, who showed their appreciation of the efforts of local talent by round after round of applause. The comedy, a dramatization of the efforts of Robert Stewart, a star back on the college football team who was conditioned by the head of the physics department, to play in the big Thanksgiving game, was presented in no less than professional style, and every member of the cast is deserving of the highest praise for his efforts in making the play so successful.

The singing of "Baby Mine" by Edwin Smolt and the boys of the company between the first and second acts was well received and the recitations by Prof. Babcock between the second and third acts were given a hearty encore.

That the people of Genesee are interested in the welfare of our schools, and believe in helping to give them all modern advantages, is evidenced by the box office receipts, which totaled \$97.50. When all expenses were taken out the association had clear an even \$70 from the evening's performance. This fund has been placed on deposit as a nucleus for one of much larger size, and the Alumni Association will be glad to receive additions to this fund at any time by those who desire to help this worthy cause.

FRIDAY, DECEMBER 8, 1911

—Dr. C. F. Tuomy was a professional caller, between trains, in Uniontown last Wednesday.
—Mrs. Eliza Bollen and Mrs. Harri- Hobson went to Pullman Monday morning for a short visit with friends.
—E. Dicus and little son, Freddie, spent last Thanksgiving day with the Mr. Dicus' mother, Mrs. C. Dicus, at Garfield.
—Mr. and Mrs. Wm. Beckman and two little children returned home last Wednesday afternoon from a visit of three weeks in Coeur d'Alene.

—Miss Carol Byrnes and Miss Anna Bond of the city schools, visited with their people in Moscow and Clarkston during the Thanksgiving holiday.

—John L. Klapp of the Lewiston Orchard tract was a business visitor here last Monday and Tuesday. He has rented his property here to D. C. Burr and family who moved into it this week.

The Ladies Aid Society of the Congregational Church will hold their annual Xmas bazaar on next Wednesday Dec. 13, in the Church basement beginning at 11:30. They will also serve a chicken pie dinner.

—John Krier and John Johann returned this week from a hunting trip on the Orofino river, 25 miles east of Orofino. They report game plentiful in that section and brought home 3 fine deer as trophies of the hunt.

—Bert Jain, of Ilo, who has been visiting here with Mr. and Mrs. L. Jain for the past two weeks, left Friday morning for Pullman, where he visited for a few days with Mr. and Mrs. C. L. Jain prior to returning to his home.

The monologue entertainment given by A. Lincoln Kirk at the Congregational Church on Wednesday night was very good. Although the entertainment drew only a crowd of about 75, all who were there enjoyed Mr. Kirk's impersonations. The receipts were in the neighborhood of \$25.

—The Minges Evangelistic Company, now in Portage La Prairie, Manitoba, report 648 additions to the Church of Christ at that place. The Company held one meeting before this of 25 days, making 50 days of invitation, and resulting in a total of 1665 additions to the church. It will be interesting to many to know that N. E. Beach, who conducted a meeting here last winter for the Christian Church, is a member of this Company.

—Architect C. Z. Hubbel came down from Spokane last Saturday and met with the school board at a special meeting that night, when the plans for the new \$20,000 school house were accepted in their final form. The building will be located south of the present site, and 8 feet in from the sidewalk. Specifications have been sent to contractors, and to date 5 bids for the erection of the building have been received by the board. It is expected that the contract will be let within the next two weeks.

EVANS-ERICKSON.

Mr. Edgar Evans and Miss Ellen Erickson, two popular young people of the rim country south of Genesee, were united in the holy bonds of matrimony on Wednesday, November 29, at the home of the groom's mother, Mrs. Sanford Evans, in Clarkston, Wash. The ceremony was performed by Rev. Morgan of the Christian Church of Clarkston.

The young couple have gone to farming on the Evans' ranch 5 miles south of town. The News joins with a host of friends here in wishing Mr. and Mrs. Evans a happy and prosperous wedded life.

—Miss Mamie Moore, of the Lewiston Business College, spent several days of last week at the parental home.

—Rev. A. F. Wolff was a Gifford passenger on Saturday morning's train, where he conducted services at the Lutheran Church on Sunday.
—James Hedricks, of Moscow, was a visitor here last week looking at the fine imported hogs which Follett and Schooler recently brought out from the East.

—Mr. and Mrs. Dahm of Uniontown visited with the John Lorang family, north of town, for several days this week. They will leave for California in a few days on an extensive pleasure trip.

—Mrs. Della Maximilien of Ohio who has been visiting here at the Martin Williams home, and with other relatives for the past 15 weeks, left for her eastern home last Sunday morning.

—Dr. J. D. Adams left Thanksgiving morning for his timber claim in Northern Washington, where he spent a week. During his absence Dr. Galbraith of Pullman looked after his business.

—Ed Oursland of Dakota, who has been visiting here at the Colvin Swenson home for the past three months, left Tuesday morning for San Francisco, Calif., where he will remain during the winter.

—In the basket ball game between the High School and G. A. A. C. teams last Saturday night, the former won by a score of 29 to 14. The High School meets the W. S. C. Stars on the court this (Friday) evening.

MILLER-LAMBERT.

A quiet home wedding was solemnized last Sunday afternoon at 2 o'clock at the R. F. Lambert home, several miles east of Genesee when Miss Effie Lambert and Mr. Christen M. Miller were united in the holy bonds of matrimony by the Rev. J. O. Siebert of the Corn-wal parish. Only near relatives were present for the occasion, and a wedding banquet was served after the ceremony.

The bride is a daughter of Mr. and Mrs. R. F. Lambert and the groom a son of O. E. Miller, well known farmers of the Genesee country. They have left on a 6 weeks honeymoon trip to San Francisco, San Diego and other California points, where they will visit with relatives. On their return to Genesee they will make their home on Mr. Miller's farm on the Potlatch. The News joins with the many friends of these most estimable young people in wishing them a happy journey through life.

The architect of the new schoolhouse was in town recently interviewing the school board in regard to the details of the building so that the specifications can be completed ready for advertising for bids. It has been thought unpracticable to build a gymnasium in connection with the new structure.

CARELESS ABOUT APPENDICITIS IN GENESEE.

Many Genesee people have stomach or bowel trouble which is likely to turn into appendicitis. If you have constipation, sour stomach, or gas on the stomach, try simple buckthorn bark, glycerine, etc. as compounded in Adlers-ka, the new German appendix remedy. F. E. Dicus & Co. state that A SINGLE DOSE of this simple remedy relieves bowel or stomach trouble almost INSTANTLY.

The Biggest and Best Line of Hardware In the City

TWO YEARS AGO

We engaged in the manufacture of Harness and Leather Goods in Genesee, during which time we have found out that if we make better harness than the other fellow we must have better machinery and use better leather. With our new

HARNESSTITCHING MACHINE

which we just recently installed, we are enabled to use the same sized thread with a much smaller needle than the one used on the old style machine, also pulling the stitch in tighter than is done by hand sewing.

Did you ever see a sewing machine in which the needle was not threaded? Come in and see it work.

Having contracted for our winter supply of famous "OAKWOOD" HARNESSTITCHING LEATHER

in quantities to secure as low a price as some dealers pay for the cheap leather, we can assure the harness users that none better is to be found in the leather market.

Come in and describe to us just the way you want your harness made and we can put it up for you on short notice and at a price you cannot beat.

Our saddlery and harness hardware stock is complete and we pride ourselves on "Always Having Just What You Call For."

Don't overlook our Christmas suggestions, including Robes, Saddles, Whips, Spurs, Bits, Riding Bridles, etc. Everything we sell is useful and your money gets its value.

F. S. CASEBOLT

STATIONERY AND POST CARDS

WE HAVE JUST RECEIVED a new line of Xmas Stationery and are positive that the line includes some of the best numbers we have ever offered for sale. They make fitting and acceptable gifts for the Holiday Season. Our Post Card line is the largest and most complete in the city. No other dealer offers such an assortment.

We ask for your business on these goods knowing that we can please you in every respect.

4 Per Cent Interest on Certificates of Deposit

Your idle money will earn interest with us, if left for six months, and yet be as much at your call as if you kept it in your pocket. Bring it here for deposit.

We will issue you a Certificate of Deposit in your name.

When you want the money you can have it, also the four per cent interest it earns, if left for six months.

NEW DOCTOR FOR GENESEE.

Dr. Wm. Wood, a graduate of McGill University, was an arrival in Genesee this week, and has decided to locate here for the practice of his profession. He has rented a suite of offices in the Exchange Bank block and expects to get located there some time next week.

Dr. Wood comes here well recommended. He graduated from McGill University in 1905, after which he took up post-graduate work in London, England, for one and one-half years. Following this he engaged in hospital work in New York City and Chicago for two years. For some time past he has been associated with Dr. Gritman at Moscow, from which place he comes to Genesee. We wish him well as a citizen and business man of Genesee.

CHURCH NOTICES.

German services will be held next Sunday morning at the German Lutheran Church at 10:30 o'clock. Luther League will not hold its next meeting until the first Sunday of the new year, January 7th.

Rev. A. F. WOLFF.
The theme of the sermon, at the Congregational Church, next Sunday morning, will be: "Abiding in Christ." The evening theme: "What God Sees." The topic for study, at the Mid-Week meeting, will be: "Miracles in the Old Testament." A most original invitation is extended to all to attend our services.

G. L. SHULL, Pastor.
Preaching every first and third Sunday, morning and evening. For Dec. 17 the morning theme is "The Higher Law and the Greater Lawgiver," the second in a series from the "Sermon on the Mount." These are vital discourses and should be heard with interest. In the evening, the pastor will discuss the timely subject "War and the Christian Conscience."

E. M. PATTERSON, Pastor.
Services at the First Methodist Church next Sunday will be as follows: Sunday School at 10. Our school reached the 70 mark last Sunday and is still climbing. Preaching at 11. Subject, "Ye Are Bought with a Price." Epworth League at 7 and preaching at 7:30, subject "Abner's Funeral Sermon." Our protracted meeting has closed and the revival is still going. Sacrament and Baptism at the morning service. Don't miss these services.

J. G. CARRICK, Pastor.

FRIDAY, DECEMBER 15, 1911

A fine baby girl was born to Mr. and Mrs. Al Mayer last Friday.

There are but eight more shopping days before Christmas. Do it now!

Mr. and Mrs. C. E. Wood were county seat visitors last Thursday and Friday.

E. C. Swenson and family, moved last Saturday, to Lewiston where they will make their future home.

Mrs. J. G. Carrick was a visitor in Moscow for several days this week, returning home Wednesday afternoon.

John Sullivan left Sunday morning for Spokane, where he was a business visitor for several days this week.

County Superintendent of schools, Catherine T. Bryden of Moscow, was visiting the Genesee schools the fore part of this week.

Walter McLaughlin, of Spokane, a cousin of Mrs. D. C. Burr, was an arrival here last week and expects to remain in the Genesee country until next fall.

Mrs. F. E. Erickson of Ruebens, Idaho, who has been visiting here with the Joseph Kratt family and other relatives, returned to her home last Saturday morning.

Petitions were being circulated last Saturday among those of our farmers who live across the line in Nez Perce county, asking that a local option election be held in that county next spring.

Jacob Stucky of Pullman, one of the owners of the Pullman Flouring Mills, and for several years a resident of Genesee, was calling on friends and transacting business here the fore part of this week.

W. A. Nixon left yesterday morning for Mt. Pleasant, Iowa, where he will remain for some time with his sister, Mrs. M. V. Cogier, who is quite sick. He also expects to visit with relatives in several other Iowa cities before returning home.

The J. S. Larrabee home was the scene of a jolly gathering last Saturday night when Misses Gladys and Ila entertained a number of their school friends. The evening was spent in playing games and music and was concluded by a dainty luncheon.

Word was received here from Lewiston Thursday morning that Follett & Schuller, who were attending the stock show there this week, had received first prize on two stallions which they have on exhibit in competition with horses from all over the Northwest. These stallions were recently imported to Genesee by these gentlemen, and their winning the first prize speaks well for their ability as judges of good horses.

The Misses Edna and Dorothy Driscoll entertained several of their young friends at a 7 o'clock dinner at their home last Sunday night. The evening was spent in music and songs and was thoroughly enjoyed by all the guests. Those present were: Misses Anna Bond, Carol Byrnes, Olive Larrabee, Edna Driscoll, Dorothy Driscoll, Messrs. Dr. J. D. Adams, Edwin Smolt, Leon Larrabee, Loren Babcock and H. W. Brune.

R. R. Gray was a business visitor in Moscow the fore part of this week.

Mrs. W. E. Smith was visiting with friends in Pullman the fore part of this week.

Edgar Evans who has been quite sick with diphtheria is now convalescent and able to be about.

Genesee merchants have lots of interesting Christmas novelties in their ads this week. Read all of them.

Mrs. Alonzo Hanson, who has been visiting for a week in Spokane, returned home last Friday afternoon.

Cashier J. T. Nelson was a business visitor at the county seat last week, returning home Friday afternoon.

Mrs. A. N. Long of Spokane, who was visiting last week with the G. L. Shull family, returned to her home last Friday morning.

After a brief visit with relatives here, Mrs. J. Jutte and children returned to their home in Uniontown on the Sunday morning train.

Mrs. G. N. Hollister arrived here last Wednesday afternoon from Kettle Falls, and she and Mr. Hollister have gone to housekeeping in their old home place here.

The following have new ads in this week's News: Follett Bros., Variety Store, W. J. Herman Co., F. S. Casbolt, Smolt & Son, Herman's Hardware Store and J. Rosenstein.

Miss Ida Schuler, who was operated on at the Toomy hospital last Sunday for inflammation of the bones above the knee, by Doctors Toomy and Gritman, is now resting very nicely. It is expected that a complete recovery will be brought about within a few weeks.

Mrs. F. K. Bressler and G. N. Hollister left Monday morning for Kettle Falls, Wash., where they attended the funeral of A. J. Favor, who died last Sunday. Mr. Favor was an uncle of Mrs. Bressler, and for many years was a resident of Moscow and is quite well known to many of our people.

The race against U. S. G. Evans, charged with embezzling \$13,000 of the funds and with falsifying the books of the Farmers' Bank and Trust Company of Kendrick, Idaho, was still on in the district court yesterday.

Four of the jurymen on this case are from Genesee and include Wm. Smolt, H. A. Moran, John Howe and J. H. Fritzell.

Fred Brazier returned Saturday afternoon from Clifton, Wash., where he has been visiting for the past three weeks with his brothers, George, Will and Charles, and also his father and mother, Mr. and Mrs. R. Brazier who were recent arrivals in Clayton, Minnesota. Mr. and Mrs. Brazier have leased their Minnesota farm and will remain in the Northwest for their health.

A Genesee man informs us that some six weeks ago he gave an order for a club of magazines to an agent traveling through this country, paying the agent cash for the same. After waiting for what he considered a reasonable length of time for return on his investment, he wrote to the man of the magazines, who, in turn, answered him that they had absolutely no connection with this agent and could do nothing with the Genesee man's order, and also advised him to take up the matter with the police department. The moral of this story is that it is best to know that you are giving your money to responsible parties when you buy magazines. The News is authorized to take subscriptions for any magazine or club of magazines and our price is as low as any traveling agent can quote you.

"The Championship team of the Island Empire" is the proud name which the Genesee high school five won for itself last Monday night, when the unbeaten Spokane high team went down to decisive defeat at the hands of our boys, the final score of 24 to 20 telling the tale of the prettiest and hardest fought game ever played here. Although determined to win and retain their long held title, the Spokane boys found in Genesee's five a team of their equal, and better, who were also determined to win.

With the opening of the game at 8 o'clock, the teams looked very evenly matched, and it was several minutes before either side scored, Spokane shooting the first field goal.

At the end of the first half the Genesee team had the better end of a 7 to 6 score, and was playing the better game.

The second half opened in whirlwind style, Genesee scoring a basket before the visitors got into play. The home boys showed their superiority to the best advantage in this half and with cheering greeted their play, as they shot goal after goal and took a big lead on Spokane. This part of the game was characterized by rough playing, it being fully as hard fought as the one with the W. S. C. stars a week ago. Just before the close of the game, Spokane secured two field goals in quick succession, bringing their score from 16 to 20. The visitors played their hardest at this stage of the battle, but their desperate attempt to equal Genesee's score was brought to a close by the time keeper's whistle.

Of the game, Coach Van Cook of the Spokane team wishes himself quoted as saying: "We lost to a better team, in a good game." Mr. Van Cook's opinion is voiced by everyone who saw the big game, and it was the largest crowd that ever witnessed a basket ball contest here. The Genesee boys drew the greatest credit and praise for the work of Monday night, and that the people appreciated it was shown by the demonstration accorded them by the spectators at the conclusion of the game.

A feature of the game which was appreciated by most of those who saw it, was the absence of the din from horns and other noise-making contrivances which has characterized other games here. The work of the referee and umpire was very fair and impartial. Mr. Bohler, the referee, deserves the credit of being the most capable official that any of our games has seen.

Following was the line-up:

Genesee: Wardrobe, A.....F.....Visitors
Gray.....F.....Abrams
Wardrobe, J.....C.....Fancher
Kane.....G.....Torrence
Wardrobe, M.....G.....Tyrone
* Sanders substituted for Gibson in the last half.

Officials—J. F. Bohler, W. S. C. referee. Pynn, W. S. C., umpire. Field goals—A. Wardrobe 4, Gray 6. Sanders 2, Abrams 5, Torrence 3. Foul goals—Genesee, 4 out of 8 attempts. Spokane 0 out of 4 attempts. Score—Genesee 24, Spokane 20.

The Spokane team left Tuesday morning for Pullman, where they played the Pullman High that night, defeating them by a score of 18 to 7. The Genesee team leaves this morning for Asotin for a game with that high school this afternoon.

Seventeen members of the eighth grade class attended the game of basket ball on Monday night and for their Tuesday's composition work chose the subject, "Basket Ball." Among the best compositions were those by Adaline Bressler, Claude Bumpass, Irene Babcock, and Faith Follet.

A list of nearly a thousand words, often misspelled in grammar work, was substituted for the regular text for a period of two months. There has been a marked improvement in spelling in the eighth grade since this list was studied.

The first and second year English classes have finished their semester's work, done some interesting supplementary reading, and will take up their next classics, "The Merchant of Venice," and "Tale of Two Cities" immediately after the holidays.

Miss Bryden, county superintendent of schools, visited the various departments of the school last week and expressed herself as well pleased with the quality of work being done. In a talk to the eighth grade students she emphasized the requisite working quality—"Determination."

The writer of these notes wishes the pupils of the school, all the teachers and patrons of Genesee "A Merry Christmas and a Happy New Year."

MRS. EMMA E. BECKMAN DEAD.

Mrs. Emma E. Beckman, the wife of August Beckman, for many years residents of the Genesee country, but recently of Asotin, died at the latter place on Thursday, December 7, at the age of 59 years. The funeral was held on Sunday, December 10th, at 2 p. m. at the Presbyterian church, in Asotin, and interment made in the Asotin cemetery.

Mrs. Beckman was born in Germany in 1852, and in 1856 with her parents moved to Ontario Province, Canada. Later she moved to Michigan, where she was married in 1878 to August Beckman. They moved from Michigan into North Dakota, thence to Oregon and thence to Genesee, where they resided for 19 years, moving from here to Asotin 8 years ago.

Deceased leaves a husband and 7 children, 5 sons and 2 daughters, to mourn her loss. These bereaved ones have the sympathy of many friends in this community in their sorrow.

J. G. CARRICK, Pastor.

DEATH OF R. F. RICHARDSON.

Saturday evening a telegram apprised Mrs. R. F. Richardson and daughters of the death of Mr. Richardson which occurred at the Eastern hospital near Spokane. Mr. Richardson was taken to the hospital a couple of weeks ago and while it was known that he was very ill, every hope was entertained for his recovery. A few days before he passed away the doctor wrote telling them that he was getting well.

His oldest daughters, Misses Grace and Ellen Richardson, and A. C. Brown, left the following day for Spokane, where the body was interred for burial. Mr. Richardson's brother-in-law, Geo. Clay, and his niece, Mrs. Frank Crow, are residents of Spokane and were present at the New England Chapel with Rev. Knight in charge and interment was made in the Greenwood cemetery.

Mr. Richardson was one of Kennebec's pioneers and during the past six years that he has been in business here, many friends have passed in and out of his shoe shop and have met with courteous and honorable dealing at his hands. As one of our most respected citizens, his loss to the community is deep and his wife and children have the real sympathy of true friendship extended to them by the town and its people.

R. F. Richardson was born March 20, 1859, at Natick, Mass. In 1879 he moved to San Francisco and after three years he again changed his location, going to Northern Idaho where he had extensive land interests. In 1899 he opened a shoe store and repair shop in Genesee, Idaho, where he lived until six years ago when he made Kennebec his home after a few months' residence in Wala Wala. He is survived by a wife and nine children, seven girls and two boys. The youngest child is not three months old. Mr. Richardson was a member of the Methodist church.—Kennebec Courier.

FRIDAY, DECEMBER 22, 1911

—We wish you all a Merry Christmas, last Saturday afternoon.

—Messrs. Dedick and Charles Scharahorst were business visitors in Uatontown last Monday.

—Attorney John Nisbet of Moscow, was a business visitor in our city last Saturday afternoon.

—Ed Keane was a business visitor in Moscow the fore part of this week, returning home Wednesday afternoon.

—Alonzo Hanson, who has been in Spokane for the past several weeks, returned home last Saturday afternoon.

—Geo. Martin came in from Krupp, Wash., last Saturday afternoon, and will visit with his family during the Christmas holiday.

—Joe Raymond, who has been visiting with relatives here during the past week, returned to Spokane last Wednesday morning.

—Mrs. F. J. Cornish, who has been visiting with relatives and friends in Pullman and Johnson, returned home last Saturday afternoon.

—Fred Perkins, who attended the big Stock Show in Lewiston last week, returned home last Sunday. Mrs. Perkins and the baby who were visiting in Moscow, returned home Monday afternoon.

—Miss Rosa Broemmeling and Gerhardt Broemmeling, who have been in Cadogan, Alberta for some time past, arrived here last Sunday.

—Miss Rosa will remain here with her parents while Gerhardt expects to go back to the ranch in Canada with the opening of spring.

—James Tolan arrived here last Friday afternoon from Picher Creek, Alberta, where is engaged on a grating contract for the Kootenai & Alberta R. R., which is being built by an English syndicate to develop a large coal field in that vicinity. His son John also arrived this week and they will spend the Christmas holidays on the Tolan ranch, north of town.

—The little, four-year-old son of Mr. and Mrs. Sleeman, who live in the east part of town, suffered a painful injury last Tuesday morning, while playing in the kitchen, when in some manner he tipped over a kettle of boiling beans onto his head, the hot water and beans scalding his face, shoulders and chest. The mother was absent from the kitchen at the time of the accident and it is not known just how it happened. Dr. Tracy was called to see the suffering, and it is expected the injuries will soon be healed.

—Looks like a white Christmas —Messrs. O. E. Miller and M. P. Miller were business visitors in Uatontown, between trains, Wednesday.

—Mr. and Mrs. Wm. Thompson and little son, Lloyd, spent the latter part of last week at the county seat.

—J. F. Ramsey returned home from Weiser, Idaho last week called here by the serious illness of Mrs. Ramsey.

—Mr. and Mrs. F. F. Burdick left Tuesday morning for Troy where they will visit over Christmas with their daughter, Mrs. F. D. Hasbrouck.

—Mr. and Mrs. Alvin Halverson left this morning for Kennebec, where they will visit for about a month with Mr. Halverson's parents, Mr. and Mrs. S. Halverson.

—The Ladies' Aid of the United Lutheran church, north of town, will hold a bazaar at the parsonage on Thursday, December 28th beginning at 11 o'clock. Dinner will also be served.

—In the basket ball game between the Lewiston Normals and W. S. C. at Lewiston last Saturday night, the former won by a score of 23 to 19. Sparbeck, an old Genesee high star, was in the Normal line-up.

—The following new ads appear in this issue of the News: Sparbeck Feed Mills, Genesee Exchange Bank, F. E. Dicus & Co., Robert Emmet & Co., First Bank of Genesee, Wm. Smolt & Son, Potlatch Lumber Co., Pullman Mill Co., J. S. Larrabee, F. S. Caswell, The Variety Store and J. Herman Hardware Shop. Read all of them.

—Ed Peterson, who recently returned from a trip to Bellingham, Seattle, and Olympia, reports that while in the former city, he met J. W. Hopp, who was one of the former owners of the Genesee News, and who is now engaged in the manufacture of clay products in that city. Mr. Hopp states he is doing very nicely in the business and extends his regards to his many Genesee friends.

The Broemmeling farm home was the scene of a jolly gathering last Sunday night, when from 35 to 40 friends of John, very completely surprised and entertained him. The evening was spent in playing progressive high five, prizes for the best players being awarded to Miss Mary Kries and Bert Moersch. A splendid luncheon was also served, and the gathering had such a merry time that it was only morning before the guests departed.

—Will and Julia Platt were arrivals here last Monday from the Salmon river country, and are visiting this week with their mother, Mrs. C. Rie Platt. The latter, in conjunction with her father, Jones, of Grangeville, succeeded in carrying away several good prizes at the stock show in Lewiston last week, one of them being for the first prize on a carload of fat cattle, and another first on a steer over 3 years of age. They sold their cattle to the S & S Packing company of Portland at the rate of \$6.75 per hundred.

—The stag party and smoker given by the K. P.'s at their hall Tuesday night was thoroughly enjoyed by a large number of the members and invited friends. Pool and billiards, as well as cards, were played during the evening, and a splendid luncheon was given full justice by the gathering. The local K. P. lodge is among the strong fraternal organizations of this city, and an extra effort will be made after the first of the year to increase the membership. The new club rooms are a big drawing card for the order and it is hoped to make the Genesee lodge one of the largest in the state.

STATE ITEMS.

Mrs. B. L. Rigg has recently received notification from Washington, D. C., of her appointment as postmistress at White Bird, to take effect the first of the year.

A corps of engineers, supposed to be P. & I. N. Railway surveyors, are reported working in the vicinity of Pollock, extending the already located line on to White Bird. The work is preliminary to construction work to be done next year.

Lemhi county, which adopted prohibition by a majority sixty-five two years ago, went "wet" by an overwhelming majority last week. The exact vote will not be known until the vote is canvassed by the county commissioners.

Twenty owners of overflowed lands tributary to Coeur d'Alene lake, damaged by high water occasioned by the Washington Water Power company's dam at Post Falls, have been awarded \$24,214. They had expected \$50,000. About 675 acres in all are involved.

The Banker Hill & Sullivan Mining & Concentrating company, the biggest lead producer in the United States, has just paid the 17th dividend of \$65,000. Total dividends of this company to date are \$1,159,650. Its total production in about 25 years is close to \$42,000,000.

The village of Stites will hold a special election on the tenth of next month to vote on the issuance of \$5000 of negotiable bonds for the construction of a system of water works. The bond issue carries it is planned to have the system completed by the middle of the coming May.

A Bonner county woman has lost her suit for \$5000 against the Great Northern for destruction of timber on her homestead by fire in 1906, the court ruling that since she did not receive title for the land until after the fire she had no title to the timber at the time it was destroyed.

At the meeting of the capital commission at Boise last week awards were made for the heating, ventilation, plumbing and vacuum cleaning of the new state capitol. The contracts were given to John F. Cooney of Twin Falls on a bid of \$35,675, for the heating and ventilation, and \$18,900 for the plumbing and vacuum cleaning.

All candidates for second grade certificates for teaching in Idaho must now pass an examination in the cataloging and use of school libraries. Mrs. Theodora E. Brewster, librarian at the Lewiston Normal, has prepared a bulletin on the subject which will be extremely valuable to all teachers. This bulletin will be mailed free to all city and county school superintendents.

Complying further with the recommendation of Senator Borah, the president last week restored to entry 2,493,469 acres of land in the Snake River valley that had been withdrawn on the presumption that it contained coal. The geological survey failed to find any coal on this land. Senator Borah was advised that this restores practically all the land withdrawn for coal purposes in Idaho except a small area in the Blackfoot country which has not yet been examined.

U. S. G. EVANS NOT GUILTY.
It took a Latah county jury just 13 minutes by a stop watch to determine last Saturday that U. S. Grant Evans was not guilty of falsifying the records of the Farmers' Bank & Trust company of Kendrick.

Arguments were completed, and the case submitted to the jury at noon. The jurors went at once to their dinner, and upon returning went into session in the jury room, with the bank records, and a couple of magnifying glasses. It would almost seem that the jury did not have time to enter upon an examination of the exhibits at all, for within 13 minutes they had elected a foreman, taken a ballot, and announced that they were ready to report.

The record time made by the jury in deciding the case, would indicate that the evidence of Ed Atchison, the prosecuting witness, was not considered very seriously but that the jurors, impressed by the strong testimony of disinterested parties, as well as the unshaken evidence of the accused man himself, was convinced that Evans was not the guilty party, and was not a defrauder.

The verdict gives great satisfaction to Evans' many friends in this city, and to his many friends in the town of Kendrick who have actively kept in touch with the case through the daily reports of the Star Mirror—Saturday's Star Mirror.

REPORT OF FARMERS' CONVENTION.

The Latah County Convention of the F. E. and C. U. of A. was held at Moscow, on Friday and Saturday, Dec. 1st and 2nd, 1911.

The Convention was called to order by Pres. A. S. Lyon, of Moscow, and the committees on Credentials and Order of Business were appointed. On the Committee on Credentials were M. N. Harland of Troy, A. B. Crawford of Juliaetta, J. P. Thompson of Moscow and J. L. Naylor of Moscow, W. Chandler of Troy, B. E. Callison of South American Ridge, as the Committee on Order of Business; when adjournment was taken until 1:30 o'clock p. m. at which hour the convention was formally opened by Dr. J. N. Clarke, the mayor of Moscow, who gave an appreciative address of welcome which was responded to in a cheerful vein, by state president L. C. Crow of Pullman, Washington.

The convention then went into executive session. The Committee on Credentials reported ten locals, represented by seventy six delegates. Some members not delegates were also present, and took an active part in the interesting proceedings.

The Committee on Order of Business also reported at this time; and the convention settled down to business.

The report of the various county officers was had and approved; showing in general, a very satisfactory and progressive condition; although open to improvement, before success will have been fully attained.

Questions of interest and importance such as, "The Farmers' Flouring Mill," "The Road Law," "Full Cash Value Assessment," etc., were well discussed, but definite action was deferred until a later date.

A resolution to the effect, that we are opposed to the levying of a Road Poll Tax by our county commissioners for the coming year, was unanimously adopted, also that we are opposed to the convening of the state legislature, in special session, by the Governor of Idaho, if such should be his intentions.

Be it further resolved, that we the members of Latah County Union, stand as a unit, for the selection of honest and capable men, for public office; irrespective of party politics.

The recommendations of the Committee of Recommendations, that the farmers learn to transact their own business, and do it more on, or wholly on a cash basis, was well supported. In the election of officers, for the ensuing year, the following were elected:

President, A. S. Lyon of Moscow, Vice-President, M. N. Harland of Troy, Secy and Treas., Geo. Sievers of Moscow, Doorkeeper, F. A. Clark of Moscow, Conductor, F. I. Cunningham of Troy, Chaplain, J. Walker of Troy, Organizer, Geo. Lowry of Moscow, Stock Sales Agent, H. A. Whitted of Juliaetta, Executive Committee, Henry Herman of Genesee, J. L. Naylor of Moscow and J. P. Thompson of Moscow.

The next meeting will be held at Genesee, on the first Friday and Saturday of June, 1912.

The state president, L. C. Crow, presided during the greater part of the sessions and was ready at all times with suggestions and advice. After adjournment the delegates departed for their homes, in better spirits; and with greater vigor to push the work; which will be further encouraged by the county organizer, through an active campaign, outlined by the executive committee.

GEO. SIEVERS, Secy.
Governor Hawley has requested the Idaho delegation in congress to secure a congressional inquiry into the pardon of Robnett, the Lewiston bank embezzler.

A through Chicago-Seattle service, without change, has been put on by the Northern Pacific Railway, the North Coast Limited being the train to give it. This is one of the fastest passenger trains that crosses the continent. It is equipped with all the conveniences of travel de luxe. A tourist sleeper and day coach are also carried. The new Northwestern station is used in Chicago as the passenger terminal.

NOTICE TO SEED DEALERS.

The Idaho Pure Seed Law is now in force. All persons selling seeds or offering seeds for sale to parties within the state of Idaho, whether the place of business of such seed dealers is within or without the said state, are liable to prosecution unless they conform to the requirements of the Seed Law. Copies of this law have been sent to all seed dealers in Idaho, so far as their addresses are known; other copies are available and will be sent free to any address in the United States upon application for the same to the undersigned.

In brief, the essential requirements of the Idaho Pure Seed Law are as follows:
1. That every package or lot of agricultural seeds (flower, garden, field and grass seeds) sold or offered for sale in this state must be correctly labeled as to (a) name, (b) full name and address of seedman, importer, dealer or agent, (c) weight, (d) kind and percentage of impurities, (e) locality where grown, and (f) year when grown.

2. That agricultural seeds cannot be sold in this state unless they are free from the seeds of the following weeds: Wild mustard or charlock (Brassica sinapistrum), quack grass (Cirsium repens), Canada thistle (Cirsium arvense) wild oats (Avena fatua), clover and alfalfa dodder (Cuscuta epithymum), field dodder (Cuscuta arvensis), corn cockle (Agrostemma githago), Plantain (Plantago arvensis).

3. That certain standards of purity and viability are established for the various kinds of seeds. For these see copy of the Act.

4. That the provisions of this act shall not apply to: Those who grow or sell seeds for food purposes only, those selling seeds direct to dealers or merchants to be cleaned or graded before being offered for sale for the purpose of seeding, those offering for sale mixtures of seeds for lawns or pastures, except that the dealer of such mixtures shall not be exempt from the restrictions of this act.

5. That every retail seed dealer shall pay an annual inspection fee of license of two dollars. Provided, that no producer who is the sole and absolute propagator and producer of the seeds (such seeds to be inspected as to their purity and viability) shall be liable for such inspection fee.

6. That every wholesale seed dealer shall file with the director of the Idaho Experiment Station a guarantee bond of two thousand dollars (\$2,000) guaranteeing the purity and viability of all seeds sold by him and his several agents in the state.

7. That all moneys collected by the Experiment Station from any source connected with this act shall be paid quarterly into the state treasury.

It does not seem to be intent of the act that every retail dealer must send to this station a sample of every variety of seeds that he handles. On the other hand, it would seem that a sample sent by the wholesale dealer would suffice for the particular lot of seeds from which it was taken, even tho this lot of seeds might be distributed to retail dealers all over the state. The examination of the seeds may be made here or elsewhere. The quantity to be sent for examination is one pound of field seeds and one ounce of flower and garden seeds. Small quantities will be examined only when they are sent by the one who contemplates planting such seeds, and the result of these tests cannot be used by the dealer in offering the same lot of seeds for sale.

8. That all moneys collected by the Experiment Station from any source connected with this act shall be paid quarterly into the state treasury.

DEMONSTRATION TRAIN HERE JAN. 11.

Advices are received here that under the auspices of the University of Idaho, the Northern Pacific will operate a demonstration train leaving Moscow on January 8th, 1912, arriving at Genesee at 3:40 p. m., January 11. This train will also make many other towns on the Northern Pacific in this part of the state.

The train will be made up of two baggage cars, one large flat, two large day coaches, one sleeper and one business car. This is going to be one of the finest demonstration trains ever run in northern Idaho and will be under the direct charge of Prof. W. H. Olin, who has charge of the Agricultural Extension Work. Dr. Carlyle, Dean of the University of Idaho, and six or eight of the professors representing all the branches of the agricultural, horticultural and dairying departments will be on this train.

It is also being arranged to carry a few head of live stock which will be shown at every station.

PLAN SCHOOL OF ROAD MAKING.

Plans are now being made by Professor C. N. Little of the engineering department of the University of Idaho, and the board of county commissioners, for a short course school in the making of good roads.

The plan of the school will depend upon the probable attendance. If practically all the overagers are to be present, as was the case with last year's meeting, Professor Little would recommend a two days' session. The course offered will be devoted to practical lectures on road making and its principles, and illustrated with views and drawings, to be shown by a projection lantern.

If the attendance is to be voluntary, with only a small number of those deeply interested present, the school may be extended from Monday to Friday, with fuller instruction given.

The date of the School will probably be fixed as the week from January 29 to February 3, inclusive.

EASTERNERS ARE LAND HUNGRY.

After a trip covering 10,000 miles, State Senator Jerome J. Day, one of Idaho's representatives on the "Governors' Special," returned to his home in Moscow last Saturday, says the "Star-Mirror."

"Everywhere," declared Mr. Day, "there was the utmost interest in Idaho's products. People would call me aside, to ask whether the grain, the potatoes, or the wheat, had been really grown in Idaho. They seemed to be most eager to learn about the state, and to be surprised at the remarkable resources."

"I was in Chicago when we heard of Moscow's victory at the National Apple show. I was mighty proud of Moscow and Latah county. The apples that were sent from Moscow to the St. Paul Land show were fine stock, and attracted great attention. People were surprised to know that we raised fine fruit in the north part of the state."

"I believe the advertising value of the 'Governors' Special' to the North west is incalculable. The east is land hungry, and the country that has good, cheap land, particularly proven land, as we have here, will have a great growth in the next few years as the result of the interest aroused by this trip."

—Mrs. Mourning of Colton was visiting with relatives here during the fore part of this week.

—J. A. Sanford of Pullman spent the Christmas holiday with friends here, returning to his home Wednesday morning.

—Miss Frieda Meyer of the Lewiston Normal arrived home last week Thursday afternoon and is spending a two-weeks' vacation with her parents.

—Miss Mary Belle Melham of the Moscow Schools, who was one of the teachers here last year, was called to her home in Portland last week by death of her mother.

—Misses Winifred, Pearl and Margaret Spurbeck and David Spurbeck, of Lewiston, are visiting with their people this week.

—C. G. Cathcart of Elberton, Wash. arrived here Christmas afternoon, and is visiting this week at the home of his brother, E. O.

—Miss Alta Burr, who has been visiting with her sister in Spokane for the past several weeks, came home last Saturday afternoon.

—Mrs. W. H. Glidden and daughter, Daisy, of Moscow, a sister and niece of Mrs. Chas. Jain, were visiting here for several days this week.

—Miss Letta Snider left last Saturday morning for Bozeman, Montana, where she is spending the week's vacation from her school work with her people.

—Miss Minnie Winters left Tuesday morning for Topeka, Kansas, where she will visit with her folks for several months. She has been here since 1906, living at the H. Schlerh home, and will make her home again with them on her return in the spring.

—Read the following new ads in this week's News: Follett Bros. W. J. Herman Co., Driscoll Hardware Store, Genesee Exchange Bank, J. Rosenstein, Smolt & Son, O. Olson, First Bank of Genesee, Herman's Hardware Store, F. S. Casebolt, J. S. Larrabee, Variety Store and Robert Emmett & Co.

—Boemmeling's orchestra will give a new year ball at the Genesee opera house next Monday night, January 1st. The music will be furnished by a 4 piece orchestra and an especial effort will be made to make the music the best that has been given here.

The usual admission charges will be made and a lunch will be served at 5 o'clock. A good time is assured all.

—Tomorrow (Saturday) evening the G. H. S. Basket Ball team will play a team of graduate stars from Washington State College. This visiting team will include such well known players as Bohler, Anderson, Putnam and others, and will give the home boys a hard battle. The next big game for the Genesee Quintet will be on Saturday night, January 6th, when our boys will meet the W. S. C. regular team at Pullman.

—The Ladies Monday club entertained their husbands at a five o'clock dinner Christmas afternoon at the Casebolt home. The rest of the evening was spent in games, the principal event being a miniature Christmas tree, from the bottom of which was suspended a ribbon for each guest, having at the other end a present, which when chosen in this way was not in all cases appropriate and caused much merriment. The evening was a most enjoyable one for all those present.

NOTICE OF STOCKHOLDERS MEETING.

Notice is hereby given that the regular annual meeting of the stockholders of the Genesee Exchange Bank of Genesee, Idaho, will be held at the office of the Bank on the 16th day of January, 1912, at two o'clock p. m.

—Mrs. A. N. Cornwall and Mrs. H. Williams, the mother and grandmother of Mrs. John Gibbs, were arrivals here last Saturday and are visiting at the Gibbs home east of town.

—Will Platt returned to Grangeville Tuesday morning after a ten day's visit with his mother here. He expects to leave about the 20th of January on a pleasure trip, of several weeks, to California.

—Jesse Borgen, Alfred Scharbach, Martha Magee, Hazel Ouse and Cordelia Emmett drove up from Lewiston, where they are attending the Normal School, last Thursday evening, and are spending the Christmas vacation with relatives here.

—Mrs. Wm McMahon of Pullman, and sons, George of Pullman and Ormond of Spokane, were visiting with relatives here on Christmas day. They were entertained at a Christmas breakfast at the W. J. Herman home, and at Christmas dinner at the Mrs. Platt home.

—On the first Monday in January of each year all unpaid taxes are delinquent and a ten per cent penalty is added. The first Monday in January this year is Jan. 1; so Saturday evening, Dec. 30 at five o'clock is the last day and hour before the penalty attaches. Only two days more to pay your taxes.

—A party of 20-30 persons took a sled ride out to the Spokesman place yesterday afternoon where they were royally entertained by Mr. and Mrs. Chas. Snider. The evening was spent in games, music and a big oyster supper which everyone enjoyed greatly. All report a jolly good time, and hope to again enjoy the hospitality of the Spurbeck home.

—A change was made last week Wednesday at the Grand Central hotel, when the former owner, Mrs. Healy, bought the interest of C. M. Robbins. Mrs. Healy has in turn leased the hotel to Mr. and Mrs. A. Oth of Missoula, Montana, and they will take charge on after the first of the year, upon the arrival of Mr. Oth from Montana. The new proprietors contemplate several changes and improvements in the building, and hope to make it a far better hostelry than it has been for some time past. They solicit the patronage of the people of Genesee and surrounding country in helping to make it such.

CARD OF THANKS.

I desire to thank my kind friends for the beautiful doll and so many other kind remembrances and words of Christmas cheer and hope soon to be well again.

—Rev. J. G. Carrick and little daughter were visitors in Moscow for several days this week.

—Oliver Nisbo, of the W. of I., arrived here last Friday afternoon to spend his Christmas vacation at the parental home.

—Mr. and Mrs. Chas. Nelson and little baby went to Moscow last Saturday and visited over Christmas with Mr. Nelson's people.

—Miss Carrie Bressler of Washington State College, was an arrival from Pullman on Saturday morning's train, and is spending a two-weeks' vacation at the parental home.

—Mr. and Mrs. Conrad Martin and little daughter, Bernice and Miss Emma Nebelsteck of Nezperce were arrivals here the latter part of last week and are visiting at the H. Nebelsteck home.

—James Doyle suffered a painful accident the latter part of last week, when he slipped on an icy walk, near the Grand Central Hotel and in falling broke two ribs. Dr. Tuomy was called to set the broken bones and he is resting nicely now.

—Miss Letta Snider, who recently took the teacher's examinations in Moscow, received word from County Superintendent Catherine T. Hayden last Friday that she had successfully passed the tests and has been granted a first grade certificate by Grace M. Shepard the state superintendent.

—A jolly party of our townspeople took advantage of the recent snows to take a sled ride out to the palatial home of John Gibbs on Tuesday night last. The evening was spent in games, music, and an elaborate supper was served. The members of the party all report an excellent time and say that they would not miss another invitation to the Gibbs' home if it were twenty miles away.

—The members of the German Lutheran church made a present of a very handsome gold watch to their pastor, Rev. A. F. Wolf, a Christmas present. A large collection was taken up for a Christmas tree and program, and when all expenses were paid it was found that a considerable sum yet remained, and with this money the watch was purchased, and presented to Mr. Wolf as a token of the esteem with which his congregation holds him.

SPURBECK FEED MILLS

1911 - 1912

The year of 1911 is passing rapidly, and will soon be an epoch of history. On looking back we all see where we could have bettered our conditions, a little, by doing things a little bit different. We all learn by experience.

So far as we are concerned, we have the satisfaction of knowing that we have done the very best we knew how. We know that we have made mistakes—we all do—but with the knowledge we have gained in the years past, in the Merchantile Business, we feel we can commence the year of 1912 with a better knowledge of what we ought to do, of the kind of goods we ought to carry, of the treatment you are entitled to as our customers, and as a whole, make things more pleasant from your standpoint as well as our own.

Let us all pull together in 1912, and see if we can not make our state of Idaho a little bit better; Latah County one of the best counties in the state; and last, but not least, let us all keep in mind that Genesee is our home town, situated in the most productive locality in the world. Can't we make it a better town? We are willing to do our part.

We wish you all a happy and prosperous year in 1912.

FORESTRY BUILDING FOR U OF I.

The biggest Christmas present for Moscow comes to the University of Idaho. It is a gift of \$58,000 by the lumberman and timber interests of the state of Idaho to the Forestry department of the university; for the purpose of a Forestry building.

The announcement was made, by Professor C. H. Shattuck, head of the Forestry department of the University of Idaho last week, although the gift was tendered Saturday, at a meeting of the lumbermen at Spokane, a meeting at which Professor Shattuck explained his work in seeking a commercially profitable process of handling the by-products of the lumber industry, and at which President MacLean also explained the university's attitude.

The gift is not a present with a "string" attached. It was volunteered by the lumbermen as soon as they understood the aid such a building would be to the valuable experiments being conducted by Dr. Shattuck, some results of which have hitherto been explained in the Star-Mirror. The building will be erected with the funds provided by the lumber industry, and President MacLean will recommend that the state equip it for the Forestry department, and continue the experiments.

No site has yet been selected for the building, although several are in view, and definite plans have not been drawn. However it may be safely said that the building will be of brick and stone, and either slow-burning, or absolutely fire proof.

The tentative plans, upon which Professor Shattuck has been working for some time call for a three story building, with a one story annex for a practical saw-mill, and wood treatment laboratory. There will also be a basement, to contain the forestry-pathology department.

STATE ITEMS.

An effort is being made to induce Mayor E. H. Dewey of Nampa to become a candidate for governor on the republican ticket.

The timber sales in the Pend Oreille forest reserve up to the present time are 50 per cent heavier this year than in the same period last year.

Having been advised that there is no law in Idaho under which a municipal saloon could be operated, the council at Coeur d'Alene has passed an ordinance allowing eight licensed saloons in that city.

The supreme court has announced the dates of its regular terms for the coming year, 1912, as follows: At Boise, the fifth Monday of January, second Monday of May, the second Monday of September and the fourth Monday of November. At Lewiston, fourth Monday of March and the first Monday of October.

At a meeting of the farmers of the Ho-Vollmer section Saturday resolutions were passed asking the Camas-Prairie railroad to change the name of the station at Vollmer to "Finch" and pledged themselves to support the new town for the permanent county seat of Lewis county. If the railroad company grants the request the Ho-Vollmer town fight will probably be wiped out for good.

Henry Elfers of the Lucile section near Grangeville, states that he just completed the husking of ten acres of corn he had out on his ranch on the Salmon and the yield was easily fifty bushels to the acre. The ears are first-class, solid, well filled and fully matured and as this is the second successful crop of corn Mr. Elfers has grown in his mind there is no doubt as to the ability of the North Idaho country to raise good, big corn crops.

A CLASH WITH TURNER.

Retort of the Print Seller Who Longed to See the Artist.

Turner, happening one day to pass a printshop, noticed in the window a copy of one of the engravings from his famous "Liber Studiorum." The print was in a very dirty, ragged state. Entering the shop, Turner asked to see the master and when the man came forward proceeded at once to blame him in no measured terms for having neglected so valuable a print and for having allowed it to become so disfigured. The man protested that it was no fault of his, as he did but offer the engraving for sale in the same state in which he had bought it from some other dealer.

This did not satisfy Turner, however, and he and the man continued arguing for some time.

At last the print seller lost all patience. "Perhaps, sir," he said, "when you have quite finished what you have to say you will kindly tell me what you have to do with this engraving and what business is it of yours whether the print is clean or dirty."

"This is what I have to do with it," answered the enraged artist—"it was I who drew the original of that print. My name is Turner, and I did every line of that engraving with my own hand. Now do you wonder that I am angry at seeing my work in so disgraceful a state?"

"Indeed, sir!" replied the print seller. "So you are the great artist himself! All my life long it has been my wish that I might some day have the good fortune to see Mr. Turner. Now that I have seen him I sincerely hope that I may never see him again."

REGULATING BALLOONS.

France Made the First Laws Governing Aerial Traffic.

In 1871, when French balloons from beleaguered Paris were dropping on the "sacred soil" of Prussia, a royal decree declared them confiscate as contraband of war. And on the conclusion of peace a measure was passed through the German reichstag which forbade under penalty of death any future similar aerial violation of German territory during time of war.

So long ago as 1830, again, balloon ascents were made illegal in Turkey, so far as regards Constantinople and forty miles around, and in 1872 the prohibition was extended to include the entire Turkish empire. To France, however, belongs the distinction of having made the first laws for the regulation of aerial traffic. In 1784 it was solemnly decreed that nobody should be permitted to go up in a balloon "or any other kind of aerostatic machine" which was worked by burning spirits of wine or any other means of making a fire.

Later, in 1811, it was enacted in France that henceforth no balloon, whether free or captive, should be permitted to ascend with any species of furnace or stove, that no one should be allowed to ascend in a balloon unless he carried a parachute and that ascents were not to be begun later than one hour before sunset nor earlier than an hour after sunrise. Furthermore, no ascents whatever were to be undertaken during the garnering of the harvest nor for six weeks prior thereto.

The First New Woman.

"We new women are really not so new as we think we are," said one of them. "In the thirteenth century there were lots of us. Can anything 700 years old be new? The University of Bologna had for professor of jurisprudence Movella d'Andria. She was no more new than beautiful. Her charms were so overpowering that the trustees made her lecture behind a curtain. When she lectured openly the students, their minds wholly occupied with her beauty, could not attend to what she said. Madonna Manzolina was professor of anatomy, Matilda Tromboni taught languages and Marie Magnesi held the chair of mathematics. This university was by no means a second rate one. On the contrary, it was perhaps the leading university of Europe. It had 10,000 students."

Called For the Author.

The Friars, an organization of theatrical press agents, dined a manager more conspicuous for his shrewdness than for his culture. When the menu had been properly discussed the guest of honor amazed his hosts by making a speech notable not only for its grace and wit, but for some show of erudition. He sat down at last amid loud applause, when Augustus Thomas, at the same time joining the handclapping, shouted: "Author! Author!"—New York Tribune.

Emotional England.

Ours is a nation of sentiment. We are probably more sentimental in a tearful way than any other country in Europe. The strongest man in England can weep when he hears a hymn that used to be played on the organ of the village church when he was a boy, but there is not much depth in the tears. "They are not very salt."—London Ladies' Field.

A True Heroine.

"What is your idea of a heroine, John?" asked the wife of his bosom as she looked up from the novel she was reading. "A heroine, my dear," answered John, "is a woman who could talk back, but doesn't."—Chicago News.

Helps Some.

Church—And has he done anything to relieve suffering humanity? Gotham—Oh, yes; he has sent his daughter abroad to take her singing lessons. —Yonkers Statesman.
