day morning. Judge Burr's office continues to be headquarters for idlers and jokers Genesee is full of sleighs loaded

with wheat. 26 teams were counted in front of Vollmer's Store. The Band has been resurrected and peals forth sweet music.

FISH-GAME QUESTIONNAIRES MAILED TO SELECTED GROUP OF IDAHO SPORTSMEN

About one sportsman in 20 who bought fishing or hunting licenses last year has been selected at random and mailed either a fishing or hunting questionnaire. The odds are very high that no one will receive both kinds. This means the department uses every year to gather vital information to improve Idaho's game and fisheries resources.

Everyone who received one or the other of these questionnaires is urged to take a moment and fill in the information requested—even if he did not fish for salmon or steelhead, or hunt birds or big game.

One of the cards states in part: "You have been selected as one of small group of anglers who can help us in the management of our salmon and steelhead fisheries by completing and mailing the attached card. From these cards it will be possible to determine the fishing intensity and catch of salmon and steel head in 1962 in Idaho and thereby help us determine the management needs of these fish."

The same kind of persuasion i used in the 1962 hunter questionnaire which covers a broader field of game, including migratory waterfowl, upland game birds, cottontail rabbits and big game. On this one there is even a question for the state's growing number of archers.

Remember, it only takes a minute to fill out either of these formsand no postage is required. And you will be doing your part toward im-proved game and fisheries manage-

Hunter Report Card Neither the fish nor game ques tionnaire are to be confused with the hunter report card which is attached to one end of all game tags. Everyone who brought a game tag should return this section, whether he hunted or not and regardless of his suc-

#### Youngsters Receiving Guns Should Also Get Handbooks By Jim Humbird

Christmas eve or morn, depending broken, infected arm: on individual family tradition, thousis approved by the rod and gun fraternity as well as other men and women who simply love the great out doors but have no particular bent for either the angling or shooting sports. Much has been written on the subject of Christmas guns and youngsters. One of the best and much-quot ed articles was published several yrs. ago by the National Rifle Association of America. It examines mother's anxiety, Junior's natural desire to

ity for making correct decisions. All are involved-and much more. For example, a popular myth is that just learning to fish or hunt au tomatically gives a person idealistic attitudes toward the wildlife resources, and, indeed, toward all mankind, It does not. A large proportion of angler and nimrod are princes among men. Others are stinkers.

shoot, and Dad's parental responsibil-

Sociologists and psychologists prob ably never will resolve the question as to why, the underlying motivations that drive some people one way and the overwhelming majority another. In any case, it's not enough to say that a person's basic nature comes to the fore, that he was born that way and that a given set of circumstances will bring out the best-or worst-

There is an increase of fish a game hogs in the field. But there likewise is a big upswing in the number of sportsmen with consciences who practice self-restraint and abide by the conservation laws and regulations. With over 50 million Ameri cans now afield, the numbers of both kinds have zoomed.

Other states are noting the same trend. Some recent remarks by Len Hoskins, Owyhee district supervisor of the Nevada Fish and Game de partment are to the point. He reveals that 1962 will be a peak year for total arrests, prosecutions and

"On the surface this might appear to be a good thing," he points out.

"Perhaps we are catching more those who disregard game laws or consider game law violations trivial sobering thought, however, is that maybe we are apprehending the same percentage of a large number of violators. It must be realized that there will probably always be game law violations since a portion of The coasting party at Chas. School- them are unintentional on the part

"The alarming feature which is Delpha Cameron and Bernice Isaksen are taking some 8th grade examinations this week.

ment people however is the increase in violations by juvenile hunters and fishermen," he opines. "We like to

Simple Foods Make a Meal Genesee Valley News

Now is the time to enjoy those famous Idaho-grown Russet Potatoes and huge delicate-flavored Sweet Spanish Onions—abundant, economical, and of their usual high quality. While you are shopping for these bargains, do note the Quick Idaho Potato Products on your grocer's shelves and in the freezer cases. New ones are joining the old stand-bys. These handy foods are of the same fine flavor and quality of potato you find under the skin of your favorite "Idaho."

Stuffed Baked "Idahos" with Crab Newburg: bake the desired

number of even-sized potatoes, scrubbed but not oiled, in a 400 to 450 degree F. (hot) oven to make a crisp skin. Test for doneness with a thin skewer, so skin will not be marred. When tender, roll each in mitted hands. Cut off top or in half, depending on roll each in mitted hands. Cut off top or in half, depending on size. Scoop out potato; prepare as for mashed potatoes, using hot milk and butter. Pile the mashed potato lightly into each shell, hollowing out the center to build up sides, thereby leaving a "dish" to house the Crab or Lobster or Shrimp Newburg, Chicken a la King, or even creamed dried beef. Just before serving time, place potatoes on a heat-proof platter. Brush tops with melted butter. If desired, sprinkle with grated Parmesan cheese. Bake in a 375 degree F. (moderately-hot) oven until tops are golden brown and the potato inside the shell is sizzling hot. Fill shells with desired creamed mixture. Good served with a jellied tomato salad and

French-fried Sweet Spanish Onion Rings: for hatter combine

French-fried Sweet Spanish Onion Rings: for batter, combine in flour sifter 1 cup sifted flour, 1 teaspoon baking powder, ¼ teaspoon salt. In a deep bowl, beat 1 egg until thick and lemon-colored. Add 1 cup milk, 1 tablespoon vegetable salad oil. Stir in sifted ingredients, beating until smooth. For Onion Rings, slice 3 large unpeeled Idaho Sweet Spanish onions about ¼-inch thick. Peel slices. Separate into rings. Take out the end pieces and centers to chop and freeze, easily done by spreading on a cookie sheet. Freeze quickly. Place loosely in jars or freezer containers. As much as is needed may be taken out.

To fry onion rings, heat shortening or oil about 3 inches deep in deep-frying kettle to 375 degrees F. Dip a few onion rings at a time into the batter so that each ring is completely covered, using a long-handled two-tined fork and letting drain a second before dropping into heated oil. (Easier not to use a deep-frying basket.) Fry until golden-brown. Lift out with second long-handled fork; drain on paper toweling. Sprinkle lightly with salt.

dled fork; drain on paper toweling. Sprinkle lightly with salt. Serve hot. These fried rings may be kept hot by placing in a 325 degree F. (moderately-slow) oven until all rings are fried. Keep in single layer.

Potlatch is people

From the man in the mill to the salesman in the city, progress is measured in terms of every man's efforts. Logs become lumber and pulp becomes paper because devoted people at Potlatch make it so. They know that quality products produce the sales that provide their jobs. That's why the Potlatch brand has become the symbol of quality.

#### Steelhead Punch Cards Are Explained

Fish and Game Department This department is receiving many questions again this year about steelhead regulations. Things to remen ber are that anyone who fishes for these trophy, sea-run rainbow trout must have in possession a steelhead nuncheard.

This is free and, when returned provides fisheries management data which is supplemental to the annua salmon and steelhead questionnaire survey now underway. Regulations require the punching of these cards mmediately after a steelhead has

day, Mr. and Mrs. David Cook

n Idaho's important waterfowl habitat during the annual winter water-fowl population survery the Fish and Game department records show there are at least 10,000 deer wintering in the Middle Fork; perhaps as many as Superintendent Paul F. Dempsey, Game department reported today. 15,000. Each spring a crop of fawns Genesee Idaho. This represents the largest winterng population of ducks ever countwhere between one-quarter to one-

ed in the state and one of the largest third of the winter herd numbers. goose concentrations, according to Thus for every 100 deer surviving pub dates: Jan. 17-24, 31; Feb. 2 ecause of the open winter so far, it probable that the ducks and geese vill stay until time to head north. He pointed out that southwesern ldaho's Deer Flat National Wildlife Refuge had 650,000 mallards during the survey on December 27 as compared to only 148,000 on this same area one year earlier. This was attributed to mild weather and an unusually late migration of ducks along the Snake River. The large lak Lowell concentration also explains why there were about four times as

many ducks present as during the same week the previous year. However, cumulative duck popula tion estimates taken weekly for all counting areas combined showed that the total volume of ducks use from early September through the end of December was down by about five per cent from 1961 and down about 17 per cent from the high year of 1960.

caigia7an?y s2rpsji
To illustrate the tardiness of duck
movement into and through the state last fall, Bizeau says that statewide populaion peaks were reached at the end of November in 1958, 1959, and 1960, the second week of November in 1961, and the thrd week of December

He added that north Idaho's Lake Pend Oreille had 8,740 of the scarce red head ducks on it during the December survey slightly more than the Overall results for all the Pacific Flyway states are not completed but 💠 will be released at a later date. U.S. Savings Bonds — Indestructible

## Cakes, Candles, Commemorations Light March of Dimes 25th Year

Throughout the nation this month, candles will be lit on birthday cakes to symbolize the 25th anniversary of the March of Dimes. The cakes will range from real ones of conventional size to monster, multi-tiered models as much as 12 feet in height and 10 feet in diameter—the approximate dimensions of the one to be erected in New York City's famed Times Square. Guests at anniversary events around the country, where cakes will be of more modest proportions, will be invited to decorate them with coins for the March of Dimes

Many "parties" commemorating a quarter of a century of disease fighting will be held at special treatment centers for birth defects, arthritis and polio which March of Dimes contributions are financing today in more than 40 cities across the U.S. Other gatherings will be held in county chapter offices held in county chapter offices of The National Foundation-March of Dimes, in the homes volunteers and elsewhere. In many instances, guests at these campaign "kickoffs" will include governors or their wives, mayors and outstanding authorities in health fields.

Other guests will be Americans of all ages who received March of Dimes aid during and after polio epidemics and outbreaks Also present will be children

To raise the millions required every year for patient aid and research in birth defects, arthritis and polio, each March of Dimes campaign is carefully planned many months ahead. There are millions of contribution envelopes and coin collectors to be distributed around the nation; hundreds of thousands of posters to be erected in every hamlet, town and city; two million volunteers to be organized for the Mothers' March (the climax to the campaign at the end of January), and March of Dimes and March of Dimes and March of Dimes and Special events for the Mothers' March (the climax to the campaign at the end of January), and March of Dimes films to exhibit to explain the work of the voluntary health organization.

Arrangements must be completed for the visit in January of the National March of Dimes

of aid to the crippled by the health organization.

Child—who this year is Jimmy Boggess, 5, Coy, Ark.—with White House and with various Senators and Congressmen and ther dignitaries as well as with personalities of the stage, screen and television.

Special events for the March of Dimes are staged in all these special events, and the Senators and Congressmen and of the organization. Highlights of the organization. Highlights of the story are:

Patients aided, 338,000; expended for the medical care program, \$385,500,000; for scientific research, \$73,600,000; and for professional education, \$38,000,000.

Basil O'Connor, president of The National Foundation-hampion, fashion shows, auctions, teleramas, Coffee Days, and street sales, neighborhood bread sales, airlifts and a long list of sports in our past 25 years of the organization. Highlights of the story are:

Patients aided, 338,000; expended for the medical care program, \$385,500,000.

#### Will Honor Early Territorial Governors Marking Idaho's Territorial Cen-

units at the university after early territorial governors, President D. R. Lost Theophilus announced this week. In the \$3,325,000 Wallace Dormitory complex now under construction there will be two dormitory units as |well as a central cafeteria. One dor-31/2 mitory will be called Lyon hall after

Lost very different-added something to assay office in Boise June 28, 1869.

capitol from Lewiston to Boise. That on, Oregon. caused some hard feelings, but there were other threats to peace with which Lyon had to cope. An influx of Southerners after the Civil War to work in the mines led to feuding between pro-Confederate and pro-

Union factions. Then there were the threats of Indian uprisings. Lyon was Ph. TU 2-8011 MOSCOW, IDAHO busy soothing angry men. He successfully negotiated a treaty for lands with the Shoshone Indians. A ready orator, he was formidable in debate because of his memory and knowledge of statistics. He ran into economic difficulties, however, when his secretary absconded to Hong Kong with the entire territorial treasury of more than \$41,000. Born at Lyondale, New York, Dec. 1822, he died at Rossville, New York, September 8, 1875. He was a United States congressman a New York state senator, a poet, an authority on ceramics, a world traveler and lecturer. His interest in the arts was rewarded when he received an

honorary doctorate degree from his

alma mater, Norwich University, in

1851. A wealthy man, he lived in

the famed Lyon mansion in Lyonsdale

When it burned, he restored the country-seat in New York state known as Ross Castle ,and spent his Ballard, who by training was a Won Lost physician, followed Lyon as territorial governor—with an empty trea-sury. When Ballard called for "rigid economy and stringent revenue act-36½ 31½ ion" to establish financial solvency, 341/2 331/2 the territorial legislators jumped at 291/2 381/2 his suggestion and proposed elimina-40 tion of extra compensation to the 211/2 461/2 governor and his secretary. Their

suggestion would save \$4,000 annually by cutting the governor's salary When the bill was submitted to him Ballard endorsed it with a "slight amendment." He called for the legislators to join him in self-denial to save \$16,080 inscread of \$4,000 by cuttings out extra compensation for the legislators as well. "A howl of indignation" ensued. The governor quietly signed the act to cut his salary, ut the legislators declined to share in his sacrefice.

President Andrew Johnson began feuding with Ballard, and tried four times to remove him as governor. The lard's pay for eight months, and the governor had to support himself by

Who knows water better than a fish?

The fish we employ as water experts are tiny Sticklebacks. We pay them liberally in brine-shrimp, no salary deductions.

It's all because we use millions of gallons of water daily in our refineries. After use, it is treated with algae, bacteria, chemicals, sunshine and oxygen, to make sure the water is clean and pure when we return it to stream or sea.

As an ultimate safeguard, we let our Sticklebacks test the water, before it is released. If they like it, we know it will be happy water for any fish.

The object is to keep our streams and coastal waters pollution-free with abundant fish to nibble your hooks, and clean playgrounds for your water sports. Many other industries which depend upon water are

equally careful. Our common concern is to protect a priceless heritage. Planning ahead to serve you better

Conservation officers report, for mple, that Idaho's 1961-62 cour harvest exceeds the estimates of ent seasons considerably, even ack beyond 1959 when statewide ndies were paid for bagging the g cats. Last season's kill was 164 compared to the last five-year verage of 105. Ninety per cent of e state's cougar kill always is made central Idaho, while eastern coun-

es are poorest. Ethel Kimball writes in the Sal-mon City Recorded-Herald that cat unting with professional guides is beginning to be recognized as a unique sport for anyone who wants a ing-sized thrill, plus a trophy that s the envy of all who see it. She menions Andy Hagel as one of the most uccessful in the comparatively new lougar-guide business. During the past winter he and his hunters bagged three outstanding lion toms that should make the official Boone and Crocket alli-time records for North

Incidentally two Idaho hunters already are in the the Boone and Crocady are in the the Boone and Cr kett records with cougar skulls placing 5th, 15th and 23rd places in this division. Andy Eatmon killed the 5th 🐟 ranking cougar in Clearwater county while Bob Hagel bagged the other two cats in two successive seasons in the Salmon river country. It is noteworthy that there are only seven-sixteenths of an inch difference between the overall measurements of the cougar skull now in first place and Eatmon's fifth place winner. The late President Theodore Roosevelt, one of the founders of the Boone and Crockett Club, bagged the top ranking cougar skull near Meek-er, Colorado, 1901. Total measurements are 15-12/16ths inches. The greatest length of skull without the lower jaw is 9-5/16ths inches, and the greatest width of jaw is 6-7/th

The 1st annual ball given by the K. of C. Monday night of this week in the Genesee Opera House was preeminently the social affair of the season. The grand march was started at a little past 9 o'clock and was led by Mr. and Mrs. Jno. Kries. The music was furnished by a 5-piece orchestra. A very prettily decorated booth was arranged in a corner of the hall from which delicious punch was served by the little Misses Viola Lorang, Rosalia Miller and Sophia Kambitsch. Floor managers were Edwin Smolt, Chas. P. Whalen, Geo. Bersihaw, Jake Hermann, Geo. Johann. Committee on arrangements were J. H. Broemeling, Edwin Smolt, Chas.

P. Whalen.
On Sunday and Monday night 10 to 12 inches of snow was already added to what we have. Mr. and Mrs. Delbert Rogers are the parents of a baby girl born Tues.

PLANT FOOD BY PRESCRIPTION THEME OF IDAHO SEMINARS

Plant food "by prescription" is the latest trend in boosting farm and ranch production through more effective fertilization, according to U. S. Steel's chief western agronomist, Dr. Roy C. Lipps, right, who shows pretty helper, Kathy Smart, the idea behind the new approach. The modern agricultural concept calls for more exact tailoring of nitrogen and other fertilizer applications to Individual and crop needs.

Advanced research information on how to meet this goal will be presented this month to more than 300 Southern Idaho commercial fertilizer businessmen at special seminars with U. S. Steel officials. The sessions will be held at Nampa, Twin Falls and Idaho Falls on Feb. 14.

## Phones by Mail!

That's a fact! Genuine, up-to-the minute hand-crank battery telephones, just \$13.50, listed in Sears-Roebuck & Company's latest catalog. A bargain, including "two cells of dry battery," and described as follows:

"A battery call answers very well for short distances, but for a distance of 1 to 12 miles or more . . . the magneto call is generally employed."

1 to 12 miles. Long distance! Compare that with today's story of continued progress in telephone service for both home and business.

For example, the number of telephones served by GEN TEL in the Genesee-Moscow-Pullman area has increased 61% in just ten years. Now General Telephone of the Northwest has started another major expansion and service improvement program for the next 36 months to cost over nine and a half million dollars.

This is what your phone bill pays for . . . not only service to you, but to a prosperous region . . . and, of course, remember that direct taxes account for more than one fourth of your monthly telephone bill.

# "TAILOR-MADE" ELECTRIC HEAT

That cozy, clean, radiant warmth is just one of many advantages your family enjoys with "tailor made" electric heat!

If you have added a new room, or want to provide extra heat in the nursery. you can fit your heat exactly to your needs with electricity. Just set the control and it will hold exactly the heat you want.

Whether your home is large or small, new or old, electric heat can be tailored to fit. Each room has its own built-in "heating plant"—you use all your space for living. Installation is quick, neat and inexpensive.

Call your IEEL Contractor today or mail this request to W.W.P.Co. to find out how electric heat can be "tailored to fit" your needs. To: General Sales Dept., The Washington Water Power Co.

Spokane, Wash. P.O. Drawer 1445, Spokane, Wash. Dear Sirs: I would like your advice about electric heat.

# Money is always a problem

At this time of the year, before the work around many farms and ranches picks up, men are taking the time to go over their records, and prepare an expense-income budget for the year. It helps them see just how well they did last year, and what the prospects are for this year.

Some farmers find it very difficult, what with taxes the way they are, to save enough money to make the major improvements necessary to do a really good job of farming. It could be they need to supplement their fertilizer program for higher yields, expand or modernize their feed lot to increase efficiency or to buy new equipment. This may be where First Security Bank can help — by providing needed financial assistance.

Come in and pick up one of our budget sheets for computation of income and expense. We will be happy to discuss it with you. You will be talking business with home-town people, thoroughly familiar with local conditions, market prices and prospects—and our agriculture specialists may be able to show you how the proper use of credit will make your farm or ranch operation more successful and increase your profit!

# Why a Budget?

This is the time of the year when many farmers and ranchers take time from their work to review their records and prepare an expense-income budget for the coming year's operation.

They do it for a number of reasons. It helps them see just how well they did last year, what their actual operating costs were, and what the prospects are for the coming year. Lets them see if they are operating at top efficiency.

Through their budget and summary, many farmers have found they just do not have the necessary capital to do a really good job of farming. But with some financial help in the form of operating capital, money to buy equipment, purchase livestock or feed, or to modernize and build new buildings, etc., they can bring their operation up to its potential.

> We invite you to stop in at your nearest First Security Bank and pick up a budget sheet for computation of income and expense. Fill it out. Then let us discuss it with you. In reviewing your problems and prospects for the year you may find that the proper use of bank credit could improve your operation and increase your profit. First Security Bank is prepared to give financial assistance when it can be beneficial to farmers and ranchers.

> The advice of our agriculture specialists is available without cost or obligation.

DRIVERS REMINDED OF RESPONSIBILITY AFTER ACCIDENTS

Idaho motorist are being reminded that all drivers involved in traffic accidents in most cases have multiple responsibilities beyond the duty to stop and give reasonable aid to those

In any accident resulting n death or injury to any person or total property damage to an apparent extent of \$50 or more, the driver of every vehicle involved must immediately notify the nearest law enforcement agency, according to the Department

In addition to the immediate notification each driver must file a written report withn five days after the accident with the Department of Law Enforcement in Boise. "Even though an officer investigates the accident, each driver must file the written report when there is a death, an injury or total property damage of \$50 o more" a Department spokesman said. Copies of the official form for drvers to file their report are available from any law enforcement agency

and from almost all police officers, it was reported.

"The voice with a smile" . . . via long-distance . . . carrying the story of our town, our region to friends and customers throughout the nation. It's one of our favorite duties, here at General Telephone!

And what a story it is, too! A generation of growth, improvement, expansion as a wonderful place to live, work, invest and play.

For example, the number of telephones served by GEN TEL in the Genesee-Moscow -Pullman area has increased 61% in just ten years. Now General Telephone of the Northwest has started another major expansion and service improvement program for the next 36 months to cost over nine and a half million dollars.

And we're partners with you in other ways, too. Like taxes. Last year, we paid over \$3,250,000 in direct taxes alone. That accounts for more than one fourth of the total amount of your telephone bill.

Why a Budget?

This is the time of the year when many farmers and ranchers take time from their work to review their records and prepare an expense-income budget for the coming year's operation.

They do it for a number of reasons. It helps them see just how well they did last year, what their actual operating costs were, and what the prospects are for the coming year. Lets them see if they are operating at top efficiency.

Through their budget and summary, many farmers have found they just do not have the necessary capital to do a really good job of farming. But with some financial help in the form of operating capital, money to buy equipment, purchase livestock or feed, or to modernize and build new buildings, etc., they can bring their operation up to its potential.

> We invite you to stop in at your nearest First Security Bank and pick up a budget sheet for computation of income and expense. Fill it out. Then let us discuss it with you. In reviewing your problems and prospects for the year you may find that the proper use of bank credit could improve your operation and increase your profit. First Security Bank is prepared to give financial assistance when it can be beneficial to farmers and ranchers.

The advice of our agriculture specialists is available without cost or obligation.

Christian Science Church Service The deep, spiritual nature of real "Substance" will be the subject at Christian Science services this Sun.
Bible readings will include these
verses from I Corinthians (2:9, 10): "As it is written, Eye hath not seen, nor ear heard, either have entered into the heart of man, the things which God hath prepared for them that love him. But God hath revealed them unto us by his Spirit: for the

Spirit searcheth all things, yea the deep things of God." Other scriptural sections will bring out what Christ Jesus taught about substance and will be accompanied by this passage from science and health with Key to the Scriptures by Mary Baker Eddy (p. 313): "Jesus of Nazareth was the most scientific man that ever trod the globe. He plunged beneath the material surface of things and found the spiriual cause."

kills wild oats as they sprout!

By the time you can see wild oats in your fields, part of the damage has already been done. That's why farmers are using Avadex, the post-planting wild oat killer, in their fields. Avadex kills wild oats as they sprout.

One application—properly incorporated—controls wild oats all season long. Avadex eliminates delayed seeding, so you can plant longer maturing crops. There's no critical timing with Avadex ... just spray your fields before the wild oats germinate. Avadex eliminates wild oats in Barley, Dry Peas, Flax, Lentils, Sugar Beets, Durum Wheat and Green Peas.

These Farm Chemical Dealers Have Recently Received Their First 1963 Avadex and Avadex B-W Shipments.

HELLO, WORLD - I THINK I'M GOING TO MAKE IT!

When we first met Tommy he had lost all hope. He wouldn't even speak to us-let alone try to walk.

But hope is our business. So we coaxed and needled and loved him until he crawled out of his shell and stood up. Now he is walking, and talking, and full of hope.

Hope raises up crippled children. So does money. We've got hope. But we're looking to you for the money. Not a lotjust enough to put one kid one day closer to walking.

We believe that Color Television has reached a stage of development where we can, with good conscience, recommend it to our customers. Recent developments by Zenith Engineers have produced circuits which hold color quality even in fringe areas

More and more of the better programs are now produced in color and many daytime shows, while only produced on color tape, are definitely more interesting with the addition of even this quality of

Because of certain fundamental knowledge of precautions, adjustment and care are necessary if you are to get the best color reception, we have tried to prepare ourselves completely before offering to sell or service color television. Having attended both the fundamental and refresher Zenith Color technical schools, under one of the best color technicians in the West, and having been checked out by him as capable of installing and servicing Color Television, we now offer our services in this field. We have the very latest in color servicing equipment and feel we can give you satisfactory service.

We have been associated with the Zenith Radio and Televison company for nearly twenty-five years. The high quality of their products and their continued progressive leadership has been a source of satisfaction to us. We invite you to come and watch any of the daytime color shows at any time. Because our space is limited, we are scheduling small groups for evening watching of the better shows. Let us know when you would like to come. We are sure you will enjoy watching color with Zenith.

#### Creamed Crab Meat Delight

The menu challenge is greater when meals are to be meatless. At moments like this, experienced cooks turn to recipes which are tasty and satisfying like this Creamed Crab Meat in Potato Nests. This new recipe, developed and tested by the Borden Kitch-Creamed Crab Meat in Potato Nests

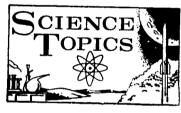

- 2 cups water 1 teaspoon salt
- 2 tablespoons butter 2 eggs, beaten

In medium-size saucepan, combine water, salt and pepper. Cover and bring to boil. Remove from heat. Add milk, potato flakes and butter. Stir gently with fork or wire whip until flakes have absorbed liquid. Whip briskly. Add beaten eggs and whip until well blended. On a buttered baking sheet, divide potatoes into six even portions. With the back of a spoon, shape into nests that are four inches in diameter. Brush with melted butter. Bake in vower between (450%) 10 minutes until refer to the control of the contro in very hot oven (450°F.) 10 minutes, or until potatoes are golder brown. To serve, fill with Creamed Crab Meat. Creamed Crab Meat:

- 4 cup butter
  1 tablespoon instant minced
- 14 teaspoon pepper 1 teaspoon Wyler's Parsley
- 3 cups (two-6½ oz. cans) cooked crab meat, flake 34 cup (one 4-oz. can)
  Brandywine Fancy Sliced
  Button Mushrooms,
  drained

1 (8 servings) package Instant Whipped Potato

In medium-size saucepan, melt butter and saute onions until golden brown. Blend in flour, salt, pepper and parsley flakes. Stir until smooth. Gradually blend in milk and cook over low heat until thickened, stirring constantly. Add crab meat and mush-rooms. Blend thoroughly. Cook 5 minutes longer, or until thoroughly heated. Makes 4 cups. Fill each potato nest with \(^2\)6 cup of the hot filling.

Mastitis Is a Costly

Disease For Dairy Herds Dairymen can save \$20 per cow every year by stopping mastitis. The amount is the average cost of the udder disease. It includes drugs, veterinary fees, loss of milk, and loss of

Ways to lick the disease are outined in a leaflet "You Can Prevent Mastitis" just published by the University of Idaho extension service. The authors are Eric Wilson, engineer; and George Cleveland, dairy specialist. Free copies can be obtained from the county agricultural

The bulletin covers such points a milking procedure, adjustment of milking machines, and elimination o hazards around the dairy setup that can cause mastitis.

Here are some of the recommend Avoid abrupt changes in feeding. Provide a clean, dry loafing area that is well ventilated, free from drafts, and not crowded. Provide clean corrals and feeding areas. Eliminate slick floors and ramps. Keep accurate breeding records for all cows. When purchasing animals have them checked by a veterinarian and solate from the milking herd one When raising heifers, select them from cows with good udders. Don't feed mastitis milk to calves. Keep calves clean and dry. Dehorn all dairy animals.

TEELHEAD START MOVING One of Idaho's biggest steelhead runs on record is on the move again. Steelies are ocean-run trout, big and sassy. They enter the larger rivers in the fall but stop their spawning migration when water temperatures dip below 40 degrees. The as mild weather warms the water in the early spring they begin moving again upstream in the Snake, Clearwater and Salmon rivers and tributaries. Regulations which went into effect January 1, 1962 require all steelhead fishermen to punch a hole in the pro-

per place as soon as a fish is caught and write in the name of the water where the big trout was caught. The cards are issued free by license ven-dors. But it is hard to get a dupli-If a steelheal punch card is lost or mutilated beyond further usefulness, the owner must sign an affidavit to

What do the young essay writers have to say that will command the attention of their elders around the state? They realize as future sports-men that their natural heritage is priceless—and want to keep it that way. In the main, the essays hit three central points. These are water pollution, soil erosion and the drainage of swamps, marshes, farm ponds and other wetlands. Related problems are hydroelectric dams and overgrazing. The following are quotes from the ssays in the senior division of the

Penny Simmons, Coeur d'Alene, "Water is generally considered one the most important matters on earth. Scientists tell us that it was in water that life originated, and most people realize that it is the basis of

the plant-animal-food cycle. Plants are dependent on it for food and all animals must have some form of it. Many animals live and reproduce in water. In needing water, the human being is no exception. Man can live for less than a week without fluid Janet Davis, Caldwell, second place

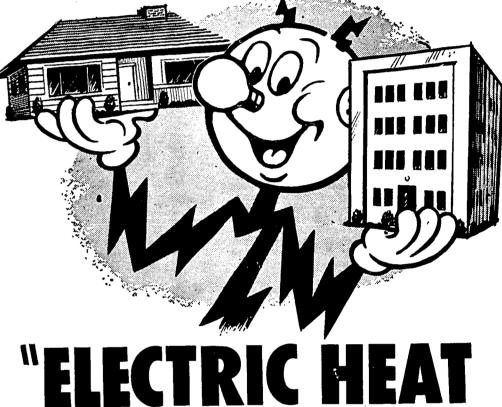

"Men began studying the earth and its resources. They discovered what seemed to be a balance of nature; that is; left to themselves, soil, water and living things tend to reach a condition of natural balance. When man uses for his own advantage any of these three natural resources, he upsets the natural balance of nature. If it is disturbed, he must help rebalance it. In other words if he takes something out of the earth, then he must help return the same thing that he took out. If he doesn't, he finally will destroy both nature and him-

Lee White, Coeur d'Alene, third

"The supreme danger to our wealth probably is our own apathy when conronting this issue. If, however, thru its importance, we can all see what is at stake, then our interest surely will become enlivened. While search-

# Did you know:

This is a fact. Each time you paid your monthly telephone bill last vear. more than 25% of it was in taxes assessed by the government. The total paid in this manner by General Telephone customers was over \$3,250,000.

Taxes are only one means whereby we demonstrate support of our nation and our community. Another is confident investment.

For example, the number of telephones served by GEN TEL in the Genesee-Moscow-Pullman area has increased 61% in just ten years. Now General Telephone of the Northwest has started another major expansion and service improvement program for the next 36 months to cost over nine and a half million dollars.

Thus, we look forward to sharing with our neighbors both the rewards and the responsibilities of good Americans. And we hope that the current expansion program will consistently bring better and better telephone service . . . for you.

Palouse country pea and lentil growers know from actual experience what a good job Avadex does eliminating wild oats. Now for the first time Avadex B-W is available to give the same safe sure wild oat kill in Palouse country barley and wheat.

By the time you see wild oats in your fields, part of the damage has already been done. That's why farmers use Avadex and Avadex B-W—the modern wild oat killers. Avadex and Avadex B-W kill wild oats as they sprout.

One application—properly incorporated—controls wild oats all season long. There's no critical timing with Avadex and Avadex B-W.... just spray your fields before the wild oats sprout. Even cold weather doesn't stop effective wild oat kill.

These Farm Chemical Dealers Have Recently Received Their First 1963 Avadex and Avadex B-W Shipments.

# We believe that Color Television has reached

stage of development where we can, with good conscience, recommend it to our customers. Recent de velopments by Zenith Engineers have produced cir cuits which hold color quality even in fringe areas such as ours.

More and more of the better programs are now produced in color and many daytime shows, while only produced on color tape, are definitely more in teresting with the addition of even this quality of

Because of certain fundamental knowledge of precautions, adjustment and care are necessary I you are to get the best color reception, we have tried to prepare ourselves completely before offering to sell or service color television. Having attended both the fundamental and refresher Zenith Color technical schools, under one of the best color technicians in the West, and having been checked out by him as capable of installing and servicing Color Television, we now offer our services in this field. We have the very latest in color servicing equipment and feel we can give you satisfactory service.

We have been associated with the Zenith Radio and Televison company for nearly twenty-five years The high quality of their products and their continued progressive leadership has been a source of sat isfaction to us. We invite you to come and watch any of the daytime color shows at any time. Because our space is limited, we are scheduling small groups for evening watching of the better shows. Let us know when you would like to come. We are

**Editorial** 

Morals, Business and The City Council

It has been a long time since an issue took control over public conversation as has the recent attempt to change the city ordinance so a second liquor license might be issued in Genesee. A reasonably complete resume appears on page one so we won't go into details here.

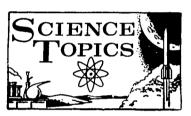

When some of the minor charges and counter-charges are cleared away, three positions seem to stand out. One is a moral issue . . . will adding this second hard liquor outlet harm our town's standards? One is a business issue... will allowing this new business to come in hurt our present cafe or taverns? . . . Will not allowing it cause us to lose our bowling alley and a potentially promising new in Colorado mountains, air-shipped to are Roger Williams, Boise game bio enterprise? The third issue, as we see it, is a composite Boise, trucked to lower Salmon river logist; William J. Davidson, Malad of the first two, plus a little bit more . . . do we, as citizens country and released to find new conservation of the Colorado Fish of this town, have an obligation to welcome, or at least produce a huntable population is and Game department permit, legal, legitimate growth even if it means burden-Turkey Hunting GOAL ing some of our friends with added competition?

In the center of this controversy is our mayor and city the wild mountain turkey in Idaho the president. The president asked looks promising, the Fish and Game us to sing Camp Fire Law and to say council. When the final arguments are heard, these men, department noted this week. The oband these men only, must make the final decision. We is to establish a huntable population talked about our display and our cerdon't envy them their task. We can only hope the out- of turkeys in the state. come of the entire matter brings the most good to the yearly intervals since 1961, was made greatest number. Its that way in any democracy.

Area 1 regulations where, for special reasons, the daily bag limit on kokanee is 25 fish (no possession limit) 1 to May 31. anee on Lake Pend Oreille. and lakes are listed alphabetically within each area. This makes it easier to find what the fishing season is on waters where there is an exception to general season regulations. A ruleof-thumb is that if a certain stream, lake or reservoir is not listed among the exceptions, it is controlled by the general statewide regulations. Punch cards are required this year for all steelhead fishermen, but not salmon. Only one steelhead punchcard is issued to each licensed fisherman, and this is free. On catching a steelhead, the angler must punch a hole through the card in the proper space, then write in the date and the name of the stream where the fish was caught. The bag limit on these big ocean-going trout is two fish per day or in possession. It is unlawful to catch more than four steelhead in seven consecutive days, or more than 20 steelhead during a calendar year. Steelhead under 20 inches in length are classified as trout and the bag and possession limits for trout apply. Essentially the same regulations are spelled out for salmon fishermen except as already stated, no salmon

punchcard is required. The bag limit for chinook or sockeye (ocean-run blueback) is two fish over 20 inches in length of either species or in the agfregate per day. Salmon under 20 inches in length are classed as trout and the bag and possession limits for

reference and convenience unless a tions banning the use of more than regulations, effective April 1 through December 31, will be available for free distribution through authorized license vendors around the state within a few days. A slight delay in the massive job of printing, packaging and mailing over 100,000 folders was unavoidable this year because of last unavoidable this year because of last in jacket pocket or tackle box. The sinute logislative changes in the over "picture shows fishermen in state of more than bag limits all are in one spot for easy local exception requires special mentons to those of previous years. Its printed and one single hook measuring not more than one-half inch from point to shank in the waters of the South Fork of the Salmon and its tributaries and limit on kokanee is the same as on trout—not more than seven pounds and one fish, but not to exceed 15 from the mouth of Gedney creek to the Meadow creek bridge from April

for higher yields and greater profits Farm profits don't just happen, as you know so well. They result from a combination of hard work, good planning, intelligent practices and proper financing. That is where First Security Bank comes in — to help in financing. But when we make farm loans, we like to be sure that these other factors are all being taken Good practices include efforts to increase the productivity of the soil through proper application of the right fertilizer, at the right time, and in adequate amounts. A soil test will tell you about your fertilizer needs. Your county agent will be happy to show you how it can be done, and advise you on the right kind and amounts of fertilizer to use to give you higher yields and maximum profits.

And we'll be pleased to talk to you about the financial aspects of your farm, ranch or livestock operations — because that is important business

Mr. Jackson is employed by the As-A loving heart is the truest wisdom. A Subscription To The Genesee News was taken only for a sampling of multiple opinion and was never intendpublic opinion and was never intended to be a complete canvassing of the

town. Councilman Homer Schooler defended the poll by saying the purpose of the whole thing was to gain information and "the council knows a lot more about the whole matter than we did a week ago." After hearing more discussion from both the council and the audience, Mayor D. F. Scharnhorst asked for a definite motion from the council. He explained to the audience that the council could not vote on the proposed change at this meeting since it was a special meeting. Ordinance adoptions and changes can only be

advertised as being such and state the purpose of the meeting. Homer Schooler moved that the survey be discontinued and that the council proceed with the third reading of the proposed change; the vote to be taken at a special meeting with the time and date advertised properly. The second was made by Kal Pell. The motion carried by majority vote. The legal notice of the special meeting will be found in this issue of

Nonagricultural employment in the state continued through 1963's first quarter at approximiately 1,000 more than reported a year earlier, the Newsletter says. Unemployment has been running slightly lower than 1962

"Construction as reported by build n permits in Idaho for the first two months were 83 percent above those shown in early 1962," First Security reports. "Increases were in all categories, with new dwelling units alnost 10 percent higher." Department store sales in leading daho cities continues above 1963 levels. New car sales for the first wo months were far ahead of 1962

If I wished to punish my enemy, should make him hate somebody. Hannah More

AUTOMATION COMES TO FISH HATCHERY

> Trout at Hagerman hatchery are and deposited within a few seconds into fish-hauling trucks without ever being touched by human hands, the Idaho Fish and Game department reported this week.

This automation, achieved through an endless belt fish loader reaching from truck to hatchery pond, prevents possible damage to trout and saves many hours of manpower According to Paul Cuplin, state hatchery supervisor, 4,200 pounds of fish now are loaded into tanker truck and trailer units in 30 minutes. The former hand-labor method required

two-to-three hours Cuplin says that the number or weight of fish going into the trucks is 🔖 easily and accurately determined by

them up in nets and placing them into the conveyor hopper. Thus the family of Lewiston spent Sunday ter and family, Mr. and Mrs. R. ELI and RAMONA RICE

Palouse country pea and lentil growers know from actual ex-perience what a good job Avadex does eliminating wild oats. Now for the first time Avadex B-W is available to give the same safe sure wild oat kill in Palouse country barley and wheat. By the time you see wild oats in your fields, part of the damage has already been done. That's why farmers use Avadex and Avadex B-W—the modern wild oat killers. Avadex and Avadex B-W kill wild oats as they sprout. Monsanto

One application—properly incorporated—controls wild oats all season long. There's no critical timing with Avadex and Avadex B-W.... just spray your fields before the wild oats sprout. Even cold weather doesn't stop effective wild oat kill. These Farm Chemical Dealers Have Recently Received

Their First 1963 Avadex and Avadex B-W Shipments. GENESEE - Genesee Union Whse. PULLMAN - Christianson Aqua Mark Means Co. JOHNSON - Johnson Union Whse. UNIONTOWN - Uniontown Coop.

#### Letter To Editor

Do We Care Enough . . .

Most of us are Genesee residents rom choice. We like what we have League Standing here; a pleasant home community. Team The bountiful soil, the generous supply of good pure water, the favorable climate—free from flood, hurricane, or tornado—these are ours with little or no effort on our part. The good schools, adequate minis-

try, and medical care; community spirit and institutions are the result of considerable planning and effort by someone. More often than not it has been through the unselfish effort of a small group, far-sighted Genesee Hardware enough to see that what we have is Pastime worth-while, and willing to make a Esser Construction real effort to preserve it. The old "Civie Cluo" the local

Town Hall" was long the soundingboard of community opinion and the nursery of community projects. It still could be if enough of us are willing to put a little more effort into preserving what we consider worthwhile and less into deploring their League Standings

Are we going to be so interested in Unity 32 our own affairs that we lose sight of Pastime and consideration for the welfare of our neighbors and the community as whole? Are we going to let such hings as Community Day go by default because too many of us are willing, even anxious, to let someone else earry our share of responsibility and

There must still be more than enough of us here, willing to take enough time off from the pursuit of Team pleasure and the almighty dollar to Kuehls Keglers nelp preserve the things in the community that make it the kind of a Pastime place to want to live in. Let's get busy talking and planning Mr. and Mrs. Ray 'rautman. Mary and working on a design for the bene-Riley of Lewiston spent spring vaca- fit and preservation of our good way

PROGRAM

YOUR TAX DOLLAR going into the Idaho General Fund will be spent over fiscal years 1963-65 in the manner shown above. The Legislature approved a total budget of \$101,908,992. The State Bureau of the Budget furnishes this graph showing percentages for each cate-original states are shown by the total budget amount figured as 100 per cent. The black portion of the bars gory, with the total budget amount figured as 100 per cent. The black portion of the bars shows how much was appropriated for 1961-63 for each service, and the white represents shows how much was appropriated for 1961-63 for each service, and the white represents the amount of increase in each service. The overall increase came to \$13,432,618, with most of it going to education. The education bar represents public school support and all other of it going to education. The education bar represents public school support and all other vocational and higher education programs partly or wholly supported by state funds. In addition to the general fund expenditure, \$164,145,554 will be spent from the dedicated fund balance on such things as our state highway programs, and another \$7,696,612 will be spent on capital construction, the money coming from the permanent building fund.

#### FIFTY YOUNGSTERS RECEIVE DENTAL EXAMINATIONS

Fifty children were given free dental examinations at a state sponsored clinic held last Monday and Tuesday at the Genesee Public Schools. Four year olds and children in the second and fifth grades were given the examinations by two dentists from the Idaho Dental Health Service. Local volunteers assisting were Mrs. Winston Mader and Mrs. Wayne Schwenne.

Russell Zenner, son of Mr. and Mrs.

Al Zenner, and Kenneth Roberts, son of Mr. and Mrs. Merle Roberts, were the two boys chosen to represent Genesee at the annual American Legion sponsored Boys State which will be held in Boise in early June. Both of the young men are juniors this year at Genesee High School. Their expenses to this affair will be paid by the local American Legion.

Among the traffic violations issued thus far in April by Policeman Jim Watkins were citations for stop sign violations 2; loud pipes 2; improper display of plates; expired drivers license; driving while license revoked; no drivers license 2, and a failure to display 1963 plates.

Clean-Up Day In Genesee May 18

A city-wide Clean-up Week will be limaxed on Saturday, May 18, when the city will provide free pick-up of garbage and trash around town. The city council has urged that all resilents of Genesee make an effort to clean up their homes, basements and yards, especially removing any old trash that might be a fire hazard. Ray Edwards will be handling the pick-up of garbage and trash and if anyone is missed during Saturday operation, they are requested to con-

It has also been requested that any one leaving garbage out, divide the trash into that material which is burnable and that which is not.

M. to 7:00 o'clock P. M

on said day. That at said election: 1. One trustee to serve for a term of three (3) years will be elected. 2. One trustee to serve for a term f three (3) years will be elected

Trustee Dist. No. 5. 3. One trustee to fill out the unexpired term of Trustee. None. 4. One trustee to fill out the unexpired term of Trustee. None. The name or names of all candidates or election of trustees, together with the term for which nominated, shall e placed on file with the Clerk of the Board of Trustees at least six (6) days prior to the day of election, ex-

cluding the day of election. (May 7th, That the election at said meeting will be by secret and separate ballot. Annual Meeting will be held on Second Monday of June.

Dated this 15th day of April, 1963. MAHLON E. FOLLETT, Clerk of Jt. Class B. School District No. 282, of Latah and Nezperce County, Idaho. Pub. dates: April 26-May 3-10, '63

Christian Science Church Service Man's search for his real place in the universe will be taken up by the Christian Science churches this Sunday in a Bible Lesson entitled, "Adam and Fallen Man." The service begins at 11:00 a. m. in Christian Science Society, Moscow. A main theme of the Lesson will be

resented in this verse from I Cornthians (15-22): "For as in Adam all die, even so in Christ shall all be Related readings include this pass

age: "Christ presents the indestructible man, whom Spirit creates, constitutes, and governs. Christ illustrates that blending with God, his di-vine Principle, which gives man dominion over all the earth" (Science and Health with Key to the Scripture y Mary Baker Eddy, p. 316).

#### **BEER IS A NATURAL**

Brewed slowly, by a centuries-old natural process, beer is Idaho's traditional beverage of moderation - light, sparkling, delicious.

And naturally, the Brewing Industry is proud of the millions of dollars it contributes to this state's economy through wages, advertising, rentals, insurance, transportation and utilities. Money made in Idaho, spent in Idaho. In Idaho, beer belongs, enjoy it.

UNITED STATES BREWERS ASSOCIATION, INC. IDAHO, MONTANA, NEVADA DIVISION

IT'S NOT TOO LATE FOR AVADEX

Here's How to Save Time:

1. Remember Avadex and Avadex B-W can be applied either be-

fore or after seeding . . . . before wild oats germinate. If you have already seeded but haven't used Avadex and your wild oats haven't germinated, apply Avadex B-W immediately.

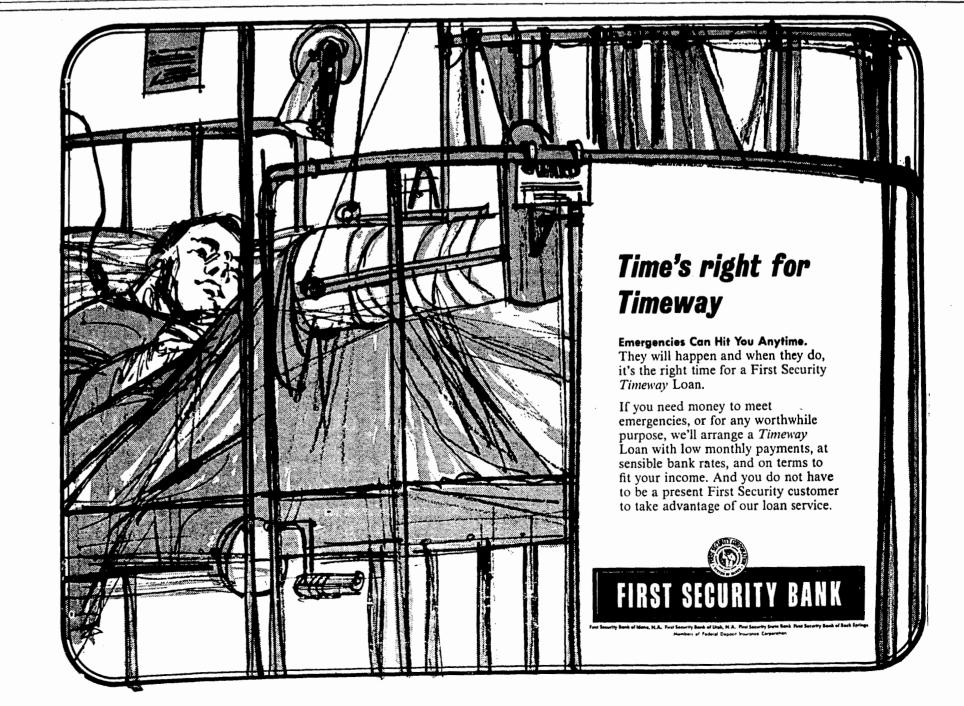

Incorporate as shallow as possible. If you have already applied Avadex but must work your ground before you seed, keep your cultivation as shallow as possible and seed deep.

LEGAL NOTICE

IN THE PROBATE COURT OF LATAH COUNTY, STATE OF

In the Matter of the Estate of JOSEPH A. WAGAR.

NOTICE OF HEARING PETITION FOR DETERMINATION OF HEIR-SHIP AND SEITLEMENT OF ESTATE AFTER LAPSE OF TWO YEARS

NOTICE IS HEREBY GIVEN that EDITH E. WAGAR has filed in the Probate Court of Latah County, State of Idaho, her petition praying that said Court proceed to a determination of the time of death of Joseph A. Wagar, deceased, and of the heirs of said decedent, the degree of kinship and right of descent to the real property hereinafter described, and that a decree be made and entered that upon the death of said decedent legal title to the said property descended to and vested in Edith E. Wagar, his widow. That petitioner alleges that the said Joseph A. Wagar died intestate on the 28th day of June, 1959, and that the said decedent was a resident of Latah County, State of Idaho, at the time of his death, and that at the time of the death of the said decedent, he and Edith E. Wagar, his wife, were the owners of the following destah County, State of Idaho, to-wit:

cribed real property situated in La-Lots 1 and 2 in Block 12 of the Original Town of Genesce, according to the recorded plat The petitioner further alleges that

the said property was the community property of Joseph A. Wagar and Edith E. Wagar, and that upon the death of the said Joseph A. Wagar, legal title to the said real property descended to and vested in Edith E. Wagar, and that the said Edith E. Wagar is now the owner and in possession of the said property. Reference is hereby made to the petition on file in this Court for further particular.

All creditors and heirs of the said Joseph A. Wagar, and all other persons interested in the estate of said decedent, are hereby notified that the said petition will be heard on Tuesday, the 28th day of May, 1963, at 10:00 o'clock A. M. on said date, at the countrees of the Probate Court at the courtroom of the Probate Court of Latah County, State of Idaho, a Moscow, Idaho, at which time and place any creditor, heir or other person interested in the estate of said decedent may appear and show cause why the prayers in said petition should not be granted. DATED this 26th day of April, 1963. /s/ C. L. WOODWARD

Probate Judge FELTON & BIELENBERG, Attorneys for Petitioner 114 East Third Pub. dates: May 3, 10, 17, 1963

A light frost Monday morning. 50 odd teams are breaking on the reservation near Genesee. The farmers are well pleased with the crop prospect.

Strawberries are reported plentiful in Uniontown and Colton. Mr. DeBow, brother of our towns-

man, Wm. DeBow has purchased a ranch of M. C. Harris and is hauling lumber for a new home and barn. Mr. Sampson of the S. & P. Livery Stable has sold his interest therein to Mr. M. McLaughlin.

#### SOCIAL SECURITY

People who work for social security old-age benefits may often qualify for higher benefits because of their additional work. If you have earned over \$1200 in any year since retirement, there is a possibility that your check can be increased. Anyone who became entitled to social security oldage benefits before 1959, and who has earned \$4800 a year since that time, can definitely get a raise.

To have your benefit amount re computed, you must apply for the increase. You may also need proof of your income. If you work for holding Tax Statement) will If you are self-employed your federal income tax return, schedule C (Schedule F in you are a farmer), and a cancelled check or money order stub as proof of tax paid will

A brief visit to your social security district office will help you determine whether or not your benefit can be increased. The office in Lewiston is located at 1113 Main Street and is opened from 8:30 a. m. to 4:30 p. m., Monday through Friday.

It is difficulties which show what

### BEER IS A NATURAL

From nature's light grain comes sparkling, light beer . . . Idaho's traditional beverage of moderation — it's light, sparkling, delicious.

And naturally, the Brewing Industry in Idaho is proud of the nearly two million tax dollars it contributes to the state of Idaho each year-money that helps support our schools, our hospitals and our parks. In Idaho, beer belongs, enjoy it.

UNITED STATES BREWERS ASSOCIATION, INC. IDAHO, MONTANA, NEVADA DIVISION

If you or your doctor advocates a the form of nonfat dry milk," recommends Mrs. Esther Wilson, University of Idaho Extension Nutrition of milk, add from one fourth to one megicalist.

Wilson has this calorie note: A one-chalf cup of vanilla ice cream contains of milk, add from one fourth to one milk, add from one fourth to one compared with 420 calories.

You can "pad" milk drinks by adding from two tablespoons to one third cup of powdered milk. This will make a firmer custard that browns more readily and is less likely to wateroff. And to "pad" soups, add fluid milk, eggnog, or milk shakes, extra powdered milk to any soup in Mrs. Wilson says. Cereals, custards which you like to use milk.

June 25, 1891 C. F. Burr had a neat sign printed on the money order window of the PO J. Rosenstein, pioneer merchant has had the front of his store ornamented with a new sign.

Nelson and Steltz have contracted to furnish material and build a fine two-story residence for State Representative J. W. Brigham on his ranch near Genesee. They have also contracted to build a new two-story house for George Daggett at his

home near this city.

Conrad Steltz has been busy the past week excavating the foundation for the new bank building.

FISH SCREENS DIVERT DEATH TO FINGERLING About 170 mechanical fish screens

have been built by the Fish and Game Department and installed during the past three years in the upper Salmon river drainage, including the North and East Forks, most of the Pahsimeroi, part of the Lemhi and the main stem of the river from Gibbonsville to Stanley, it was reported to

Another 80 mechanical screens, de signed to meet the physical demands of each location, will be built and installed to prevent countless thousands of fingerlings from being diverted into irrigation canals and certain

James C. Simpson, chief of fisheries management, says embryo development begins immediately after fertilization of the egg. The rate of development varies with water temperatures. In hatcheries where the water temperature can be held constant at 50 degrees, eggs may be hatched in 50 days. In a natural stream development usually takes several months.

After hatching, the fry remain bur ied in the gravel, receiving nourishthe abdomen. By mid-February the yolk sac is completely absorbed, and the small fry begins to wriggle up through the gravel.

Although the female chinook sal mon may lay an average of 4.000 eggs, this does not mean that an average of 4,000 fry with hatch. Studies on the Lemhi river show only 42 per cent of the eggs laid emerged from the gravel, smothering by silt, egg and fry too deeply buried, all account for the mortality.

Growth of the fry during the sum mer months is rapid, and by Septem ber they are about four inches in length. Throughout the summer there is a gradual drift of fish downstream This is when they are diverted into irrigation ditches. In 1958, the loss of salmon fingerlings in canals on the Lemhi River alone was estimated to be 422,000.

FOR THE SAKE OF OLD TIME'S SAKE Come and stand beside my cot. Hold me close and dry my tears, As in days almost forgot Come to me across the year

For the sake of old time's sake O-come back to me again, Even though my heart would break It will not have been in vain

And from dreams that still live on May I nevermore awake, If it be to find you gone-FOR THE SAKE OF

OLD TIME'S SAKE. -Bert Gamble

Christian Science Church Service The basic power behind change and evolution will be explored in all Christian Science church this Sunday. The Bible lesson is entitled: "Is the Universe, Including Man, Evolved by Atomic Force?"

Bible references will include this verse: "Behold, I create a new heavens and a new earth: 'and the former shall not be remembered, nor come into mind." (Isa. 65:17).

Among the related readings will b this sentence: "Let there be light, is the perpetual demand of Truth and Love, changing chaos, into order and discord into the music of the spheres. Science and Health with Key to the Scripture by Mary Baker Eddy, p.225.

Newspapers deliver more ready-tobuy prospects. The greater part of progress is the desire to progress.

(Robert Kuhn), thought that it was to the land where he was born, Ger- Deary Strawberry Festival.

and I boarded the West Coast Orient hind the one-hit pitching of Darrell Airlines from Spokane to Chicago. Green. Darrell gave up a run in the The ride aboard the airlines was a third on two errors and a run in the The ride about the arrives. We fifth on a hit and three walks. Gensaw a lot of land and also some snow in the mountains of Montana and North Dakota. The trip aboard the the fourth. Dan Moser, and Doug West Coast Airlines took about 31/2 Springer hit home runs for the Genhours. After a 3-hour layover in esee boys. Chicago we were boarding a jet, the Lufthansa. This jet could seat about It traveled at an elevation of 39,000 feet, going 500 miles paced the Little Leaguer's to a 14-1 per hour, in 26 degrees F. The speed of the jet was so tremendous that we of the jet was so tremendous that we could hardly feel the movement of the registering his second victory. Doug friend went to Seattle where Mary plane. When leaving Chicago it was dark and the next morning when the shutters were pulled up we could see that we were flying over England. We didn't get a chance to see any of the occan on the way over but on the way back we could see it. Then around noon we landed at Frankfurt, Ger-The Lufthansa was a nonstop flight from Chicago to Frank-The trip across from Chicago took around 9 hours.

After this long trip we boarded a train, and then two hours later we came into a territory that was familiar to Dad. We had arrived at one of Dad's brother's places, Siegen, Westfalen, Germany. After spending some time at his place we went to Dad's other brother's place and stayed there the rest of our time.

visited many relatives and also many wonderful scenic places. To Dad. everything seemed as a renewal after being away for such a long time. To Mother and I everything was new and different. After a little time and experience we got used to their way of life and we really enjoyed

Among the many places that we visited, one was the trip to the Cathedral at Kohn. It is the second largest church in the world. After viewing this we headed to the Rhine River where we took an excursion up the river. After two hours up the Rhine we had a short stop and then we headed back down the Rhine where our vehicle was parked. The steam ship we rode on could hold around 1,000 people and it was nearly always served dinner on the ship.

We also visited many old castles campout. went under round where they had a dugout shelter for people during the war. This formerly was a mine, and it was rather creepy, too. In another castle, this one at Dillenburg, In anwe saw the cool, damp place where the prisoners were kept during the war, and also where the Germans took shelter in some dugout rooms in the rocks of the earth.

In different places throughout Germany there are high towers where you could view the whole countryside. These are usually located on a hill amongst the many trees of the land.

Another place was at Attordorn, the Tropsteinhohle. This is a cave that was found hundreds of thousands of years ago. It is better than 100-ft. under the earth. This place has never been built or destroyed. Ιt was found and is kept as a place to be visited by people who want to see some of the magnificent rock forma-

The many places that we visited are too numerous to mention each and everyone. So to conclude I will say ums. The banks of the Rhine are that of all the places that I visited filled with vineyards and orchards. the Rhine river to me was the most beautiful place. The water of the Rhine is a clear blue which is never had a very good time, enjoyed ourmuddy, and the banks along the Rhine selves very much, but are glad to be are very high in places. On these back home again,

#### Little League Takes

Genesee's Little League baseball team opened this summer's season in After 52 years of hard work and from a Deary squad. The first game, labor in the United States my father, played last Saturday, June 29, was not a regular league game, but was rewarding enough to make a trip back played as part of the attraction of the

What are you saving for tomorrow ... besides money?

It takes more than money to make the future secure. It takes freedom, too.
Consider how little your saved-up dollars would be worth without the freedom to spend them as you wish.

This is why U. S. Savings Bonds are such a good investment.

Each dollar comes back 33% larger at maturity. It also goes

to work for your country, protecting freedom all over the world.
Good reasons to buy some soon—and regularly, from now on.

Keep freedom in your future with

# Why Not?

For two weeks we have advertised fans and room coolers for the warm weather we expected and it A friend suggests we advertise heaters, and just

maybe we will get some fan weather . . . . We do have a nice stock of electric heaters for

those cool mornings when you don't want to start the

... and we still have fans and room coolers, too!!!

## The Electric Shop

# Announcing A CHANGE OF OWNERSHIP

It is our extreme pleasure to announce that on July 1st, 1963 we became the new owner-managers of Kuehl's Clothing Store. For the most part, things will remain somewhat the same as in the past as far as brands of merchandise, etc. are concerned. It is our hope to add some new lines as time will permit and it may be that some will be discontinued.

Dave and Charlotte are retiring, but plan to make their home in Genesee. Dave will remain in the store for some time as advisor, etc. We hope that in the coming weeks and months you will bear with us while we learn the stock and do other things such as painting and changing things around. Because of the location next to Genesee Hardware Company, a doorway has been opened between the two stores for your shopping convenience.

We invite you to come in and see us, and be met by familiar faces, Verla, Myra, Judd, and of course, Dave.

You will still be able to pay your phone and Washington Water Power bills here. Also, the Washington Water Power office will remain in the building. It is our intent to serve you to the

IDAHO'S TOURIST BUSINESS PAYS BIG RETURN FOR EACH DOLLAR SPENT ON PROMOTION The State of Idaho gets at least \$500 in tourist business for every dollar it spends in advertising and related promotion, according to statistical estimate made by the Idaho Department of Commerce and Development headed by Louise Shadduck The analysis also points out that compared to the spending of each one dollar in advertising the state treasury takes in an estimated addition \$8.50 in taxes.

Tourism in Idaho pays off in higher proportion, Miss Shadduck indicates, because many wactors today are operating in Idaho's favor compared to the longer established and more populous sections of the nation. "A state like Florida, for example, reports getting about \$125 in tourist business for every dollar spent in its advertising and enriching the state rteasury by \$6.36 for each of these advertising dollars. However, Idaho spends a great deal less promotional money in proportion to the amount spent by states of the Florida class, and Idaho is comparatively new as a vacationland and has its big new period of growth ahead of it. Idaho is new host to about four and a half million tourists and travelers a year. That may look big to Idaho, but the U. S. Department of Commerce esti mates an average of about four million people a day are traveling for pleasure in the United States. Idaho can easily get a bigger share of America's billion and a half a year crop of

"Tourism is not only a highly pro-fitable end in itself," Miss Shadduck adds, "it is a direct channel for at tracting other big business to the state. The U. S. Department of Commerce emphatically advises the states and communities that the most effective way to attract industry to a state is by first attracting tourists. Industrialists in selecting plant locations, are seeking for their employees the same kind of "community atmosphere' that appeals to the

#### MANY AGENCIES HELP

Providing space for all kinds of people to enjoy all outdoors is a big order, but equally big are the pro-blems of development and mainten-

be limited to people who hunt and fish even though the properties were acquired by people who buy licenses, tags and permits. And a trend is appearing around the state to make the velopment and maintenance of pubc access sites community projects.

For example a group of Elmore and men, civic leaders and others met recently at southwestern Idaho's Sand Dunes park to organize group action to meet a growing littering problem at this favorite resort area. The Sand Dunes lakes provides excellent bluegill and some bass fishing, as well as waterfowl hunting in the fall. It also attracts picnickers and swimmers. Littering, however, is only a part of the problem. The area is fast-becoming a garbage dumping grounds for many people. Others bring car hoods and corrugated iron, the remains of metal latrines erected by the Fish and Game Department which replaced older wooden ones torn down for fire wood, and use them to slide down the sand dunes. These large pieces of metal are left for others to

#### Driver Training Benefits Traffic. Commission Says "Idaho's statewide driver training

program in Junior and Senior High Schools is beginning to show its start in 1962, Weiser, Idaho, has in beneficial effects on young drivers, one year built a tourist attraction E. R. Hopper, Commissioner of the Department of Law Enforcement, an-Hopper reported that records show partment of Commerce and Developa decline in the percentage of dri-vers under 25 years of age who are involved in traffic accidents. "We

had to base our findings on that age a small Idaho community can do to JULY & AUGUST AT ST. JOHNS group because of the universally used record system," he commented. "In actuality, those drivers from 20 years old through 25 years probably didn't have the beautiful actuality the beautiful actuality. have the benefit of driver training, so those from 15 years through 19 are doing an extraordinarily good job." the Commissioner continued "It's difficult to quote actual or June 26, 975 people representing 26 job," the Commissioner continued.

"It's difficult to quote actual or states, signed the guest book. A great percentages because of the rapidly number come to view but do not sign. Hopper explained. "Last year, for "This proves that determination instance, there were slightly more and cooperation can do the job, from turning throughout the year. See than 10,000 drivers less than 25 years scratch. First it was decided to get their advertising in this paper. old involved in traffic accidents. Only 9 per cent of them had previously received driver training training,"

Emrich was picked to head the prohe said. "There have been several ject because she had done much in thousand youngsters trained since exhibiting antiques. They started that time which will completely with a room in the basement of the change the picture during the next Washington Hotel. Volunteers cleanreporting period," Hopper went on ed and painted it, electricians donated

In expressing praise for the driver was donated and the only cash given training program, the Commissioner said, "We are dealing with many intengibles in this trace" said, "We are dealing with many intangibles in this traffic business. If the expense and effort put forth saves even a few lives and keeps the driving public from leaving a trail of blood and broken bones, we can honestly say the program is paying big dividends without columns of statisblood and broken bones, we can hontics to prove our point."

#### **Building Authorized for** Hayspur Hatchery

os oldest lish hatch ery in the Wood river valley south of Hailey, will begin a new building expansion program this summer as part of the "five points for the future" program, the Fish and Game departnent said this week

Director John R. Woodworth explained that expansion of existing facilities and building new ones are parts of the five point program passed by the last state legislature. A new building will provide office space and warehouse storage for feed

and equipment. Its dimension will b approximately 38x102 feet.
Scheduled to be built next year are six raceways which will be in three subdivided units. They will be 400 feet long. Woodworth said the original hatch-

ery was built on Silver creek during the fall and winter of 1907. A department report the following year contains the following description: "The hatchery consists of a onestory commodious building, with troughs and other appurtenances necessary to the propagation of fish. including an eight-inch pipeline one mile in length, carrying an ample supply of fresh, pure spring water, a residence for the use of the superntendent, ice house, stable and out-

ouildings.' A new reservoir and hatchery building were constructed during the 1921-22 biennium, and a new pipeline laid. Latest additions to the plant were made in 1945-46 when the old wooden lead troughs in the hatchery were replaced with two controughs. Ten new concrete vats were added and general repairs and painting were completed.

gingerly transferred the cargo—hundreds of salmon fingerlings—into a waiting truck.

Minutes later the salmon were swimming in tanks at the University of Idaho Small Animals laboratory waiting to play a part in a drama which may lead to the control of scrap fish in lakes and streams.

Dr. Craig MacPhee, associate prosor of fishery management in the niversity of Idaho College of Forestry, Wildlife and Range Sciences. has received a \$25,000 grant from the Bureau of Commercial Fisheries to ntinue his work on fish toxins.

His plan is to use poisons which ef fect only the scrap fish either by controlling their reproduction or killing noxious fish themselves. Work spermacides, ovacides and larvaides is being done at a laboratory on Rochat Creek on the St. Joe river. Studies on piscicides are being conducted

t the campus laboratory. The small salmon were whisked b to the Idaho laboratory as ai travel permits the fish to arrive i perfect condition, a necessity for bic assav research.

In special tubs in the laboratory, scrap fish fry swim along with salmon fingerlings and trout fry. Toxin nillion of water or less and tried on the fish. A 24-hour period is used as base time in the study. If the toxin

Thousands of toxins are being tested. After a group of them which work effectively on the scrap fish are found, more work must be done to select the proper one which will not injure vegetation or have an effect

on the drinking water. "We are taking several approaches to the problem of scrap fish control." said Dr. MacPhee. "We may find toxin which operates economically to kill the sperm of the male scrap fish at a critical time or which will kill the egg. Either way will accomplish our end. Our work on larvicides and piscicides also looks very promising as considerable selectivity by toxins has already been obtained."

#### Don't you read before you buy?

Most people generally do. Not only do they read; they cut out and show coupons for information and samples. When people see an advertisement in print, they can compare designs...features... and prices of nationally known products and services. (And people do compare before they buy.)

Advertising in print is a handy thing. You

can always check back; the message is still kind you read in this newspaper-makes sense. And because it measures up to the buying habits of most consumers, print makes sales.

#### North Idaho Dam Blown To Aid Ocean-Run Fish

A new twist in the story of power their threat to ocean-going fish with ly when one of the region's oldest operating hydroelectric projects was blown out of the South Fork of the ment. Clearwater river about ten miles east

Saturday, August 3, was a day to remember for all conservationists because this probably is the first time on record that a power-producing facility ever was blasted to smithereens for the benefit of fish. Between four and five tons of dynamite were used for the demolition project. Fisheries biologists say that the dam was removed in good shape, but that the condition of the channel will be unknown until after the snow runoff known until after the snow runoff mented, "and we hope that this coopnext spring washes downstream all eration will help preserve the fish resources which are important to the the silt accumulated behind the struc-The dam was placed in service in Idaho Fish and Game Department,

New!-Conserve Purple Plum Pie

Of all the good things to be made with Idaho's fresh purple plums, Pie is undoubtedly the favorite, especially with men. Two-crust, deep-dish, open-face—all are good. Of the counterpaned variety, this pie is the best by way of "plum good eating"! Use fresh purple plums now, easy-to-do home-frozen later on. 4 cups Idaho fresh purple 1½ teaspoons grated orange

1/2 cup coarsely-chopped 1 cup granulated sugar 1½ teaspoons grated lemon

3 tablespoons flour ½ teaspoon cinnamon bread crumbs pastry for 9-inch double-crust pie

will go down to DREAMWOOD

And watch the waves roll in from

BAY once more

far-off lands,

Cut halved, seeded purple plums once crosswise. Mix together sugar, grated rinds, spices, flour. Lightly stir into plums and dish, then fill with plum mixture. Dot with butter. Cover with fruit as it cooks. It is well to use pie tape or strips of aluminum Bake in a preheated hot oven (425 degrees F) for about 50 Bake in a preheated hot oven (425 degrees F) for about 50 minutes. Take from oven, remove pie tape or foil strips. Best served warm with slightly sweetened whipped cream, ice cream, of a nippy Cheddar cheese. Makes 6 to 8 servings.

Note: why not make up a pie or three to freeze now and enjoy after the all-too-short season of purple plums has gone. Freeze unbaked. To use, remove wrappings. Make slits in top crust. Bake as above. The pie need not be thawed.

DREAMWOOD BAY

Remember When You First Read 30 YEARS AGO

Mr. and Mrs. Jack Hasfurther are the parents of a daughter born Sun- I will dream on as memories bless At the Penny Fair Friday afternoon, Miss Joyce Beckman was voted the most popular girl. The Fair was attended by 50 children and grownups at the T. H. Herman home where a new porch has been built and where a new porch has been built and the play.

While unking things—

Bloodspots In Eggs A Major Problem For Poultrymen

Blood spots in eggs cost the poultry ndustry 60 million dollars a year. n addition to this monetary loss, blood spots also cause dissatisfied customers. Can this loss be reduced by feeding laying hens the right kind

Reporting before the National Poutry Science meeting at Oklahoma State University, August 19-23, C. F. Petersen, head, University of Idaho Department of Poultry Science, said that indications are that such a reduction is possible.

For the past three years, E. A. Sauter, poultry scientist at the Idaho Agricultural Experiment Station, and Petersen have conducted experiments into the blood spot problem. They found that the elimination of one common poultry feed ingredient reduced the incidence of blood spots in eggs by 40 per cent.

"The feedstuff that appears to be responsible for a major portion of blood spots is dehydrated alfalfa meal," Petersen reported.

The two Idaho poultry scientists compared a basal ration containing all known nutritional requirements with a similar experimental diet to which three per cent dehydrated alfalfa meal was added. The work was carried out with hens in individual laying cages.

"During one of the three years, the rations were intentionally reversed

ter, Mrs. Norma Smith of Asotin and Mrs. Belle Isaksen were Saturday dinner guests of Mr. and Mrs. Raleigh Hampton. Joining Mrs. Hampton for a picnic on the porch Sunday were Mrs. Elvon Hampton and Adrian Nelson. Saturday over night guests in the Hampton home were Mr. and Mrs. Lloyd Donnelly of St. Maries. Mrs. James Cameron of Lewiston visited with Mrs. Hampton Monday, and Mrs. Deason was her Tuesday luncheon guest.

Debbie Irby, daughter of Mr. and Mrs. Bob Irby had her tonsils removed at the Moscow Clinic Wednesday. She is getting along fine.

Dave Eckholt and daughter, Janice of Lewiston were Sunday evening guests in the Wayne Roach home.

Mr. and Mrs. Ray Trautman attended the Spalding-Rimrock pioneer picnic at Spalding park Sunday. Mrs. Ida Mayer was a Wednesday dinner guest of the Trautmans.

Mrs. Wayne Roach and Nyla, Mrs. Thelma Pelfrey and Mrs. Dewaine \$12 per month. The father thought Roach and son, Bradley spent Sunday with Mr. and Mrs. Ed Grieser at Le- horse down and tell the old farmer nore. Nyla remained for a longer stay in the Grieser home.

U. S. SAVINGS BONDS SALES

in the state totalled \$707,608.

He compared this with sales of \$680,133 for the same month a year

"This brings purchases of bonds in the state to \$4,657.302 for the January July perod of 1963," the chairman noted, adding-"locally, county residents purchased \$31,116 worth of Sav- and Chiang Kai-shek trade islands. ings Bonds to help the state reach its record July sales mark."

"Federal Income Tax deferment features of Series E Bonds seem to be one reason why more people are buyng U. S. Savings Bonds," the Chairman noted. "E-Bond interest, unlike earnings of so many other forms of savings and investment, need not be reported each year for income tax. Thus owners of these

for a ten-week period. The percentage of eggs containing blood spots also reversed during this period and returned to previous levels when the hens were changed back to their original diets," Petersen reported.

Once upon a time there lived in Genesee, two hardheaded Dutchmen. One had a horse and no pasture, and the other one had pasture and no horse. The first farmer sent his son down to the second farmer to find out how much he would charge to pasture his horse. The boy returned and told his father that the price would be \$15 per month. The first farmer yelled, "Unreasonable, go back and get a lower price."

The boy returned after a second session and reported to his father that the price had been cut to \$14 per month. Again the father yelled. 'Unreasonable, go back and find out what his lowest cheapest price is."

The boy returned again and said that after much arguing he had arrived at the lowest cheapest price of a while and then said, "Son, take the that we will accept \$12 per month, but we want to know how much he will allow us for the manure."

After several hours the boy returned to his father and said, "Father, the old farmer told me that at the lowest cheapest price there will not be any manure."

## Pea Harvest **Sets Record**

Asgrow Seed Company's Genesee plant reported this week that the 1963 pea harvest is practically complete in this area, with only a few scattered fields left to come in and finish what has been the most successful year on record for this branch.

It was reported that the total amount of peas, under Asgrow contract, brought into the plant this season reached 13,630,000 pounds. This figure included all the different varieties, both wrinkled and nonwrinkled. This total poundage greatly exceeded the 1962 crop brought into the plant which reached a figure of 9,500,000.

Near perfect growing conditions this spring, absence of aphids and excellent harvesting conditions all figured into the making of the record

An idea of the yields in the Genesee area can be obtained when Asgrow said that the 1963 crops produced 39.6 per cent above what they were supposed to produce with the poundage

Asgrow's available storage space, in- ticated near Quincy, Washington. cluding the new bins completed this | "The farmer in that area, John year, and it became necessary to store Blaine, now is confident he can beat some 1,750,000 pounds outside. The peas outside the regular storage spaces were placed in large wooden state will hit 200 bushels." boxes and given temporary covering until they can be processed.

Must Be Cleaned and Graded

For workers at Asgrow, the end of will be one and the same." harvest spells only the beginning of their labors. All of the 13-million- ments at WSU last year were aimplus pounds of peas must now be ed at 200 bushels per acre under cleaned, all weeds and foreign sub- optimum growing conditions. But stances removed, graded and packag- a fungus disease knocked all the ed for shipment. It is expected that leaves off six weeks too early-and this work will go on all winter, with "it made only 107 bushels per acre." crews working three shifts around

ally find their way to canner and that "increased use of Gaines will freezer companies, who will, in turn result in upping new wealth in the plant them for processing and retail state by at least \$15 million-or consumption. Asgrow is a seed plant 33 times the entire cost of developand produces only seed crops. They ship from Genesee to all parts of the nation and even overseas.

### **Employment Situation** In Latah County

Twenty-one Latah County job seekers found work through the Moscow office of the Idaho Employment Security Agency during the past week. This is just slightly above the 18 tries that participate in this proworkers placed during the previous gram is clearly shown by the fact week, and the 18 placed during the that they have chosen to spend more of acutal methoxychlor in at least and the Valley Church are: corresponding week a year ago.
that they have chosen to spend more
than half the dollars they secure in
than half the dollars they secure in
this manner for wheat. Wheat reprewent pesticide residues in meat and
will do not permit animals to get the week were farm workers, construction laborers, office workers, waitresses, and domestic workers.

New claims for unemployment insurance were all out of proportion to the time of the year. The grand 12½ bushels per acre. In the five-year for slaughter or by animals being total of 17 new claims filed, is many more than were filed during either the previous week, or the corresponding week a year ago. The major portion of the new claims, however, were accounted for by two factors. One invoved the closure of a small sawmill in the northern part of the county; the other factor involved was that many workers have come into the area with other members of the family who are connected in some way with the University of Idaho, primarily wives of students who will attend this coming semester. Most of these workers are good, competent workers, and should find suitable employment here within the very near future. It is expected, however, that the number of persons filing claims for unemployment insurance will remain at about the same level for the next month or so. It might be noted that despite the fact that 17 persons filed new claims the overall total of workers still drawing such benefits decreased, indicating that many workers have returned to gainful employment.

Currently, there are needed in the Moscow area, competent secretaries, a bookkeeper-receptionist, a keypunch operator, a cosmetic saleswomen, a registered nurse, a nurses' aide, cooks, waitresses, and domestic workers. There is also a need for combination welders, journeymen painters salesmen, a bartender, and a truck driver with his own light truck.

### RODNEY GILGE INJURED WHEN MOTOR BIKE STRIKES PICKUP

Rodney Gilge, 16-year-old son of Mr. and Mrs. Clarence Gilge, suffered cuts, bruises and a possible leg injury when the motor bike he was riding collided with a pickup truck in front of the Post Office Thursday noon. The truck was driven by Thomas Jay Meyer, an employee of a Mosrow Construction Company.

The truck, loaded with lumber was backing out of a parking spot in front of the post office when the Gilge boy turned the corner at Fir Street onto Main. The lumber, which extended from the back of the truck knocked the boy from the vehicle and onto the street. He was taken to the local medical clinic for treatment and the extent of his injuries are not yet

### TOMER BUTTE BARRACKS AND AUX. TO MEET SEPT. 3

Tomer Butte Barracks and Auxiliary will meet at the Latah County JoAnn Kasper gave a project report the female is killed by cold weather. Grain Growers Hall Sept. 3rd, at 8:00 present.

> COUNCIL WILL MEET TUESDAY The regular monthly meeting of the Genesee City Council will be set back to Tuesday September 3. Ordinarily they would have met on Monday, September 2, which is Labor Day.

> Experiments with a small bale of hay suggest that it may become standard in the future. Idaho specialist are studying reports from Minnesota indicating that a 12-inch cube cures better, is easier to handle, and costs less than the customary size.

Purple and red stamps placed in meat by inspectors and graders are Sept. 5: Genesee HD Club meets with seals of approval certifying quality and wholesomeness.

## **Peak Of Grain Harvest Appears Over; Crops Good**

Warehouse Company.

Rain Friday evening and smaller amounts Saturday brought the harvest to a halt temporarily, but by Monday the harvest was on the upswing again, and amounts of grain brought into the local elevators showed a sharp and steady rise all week long.

The peak of the harvest was probably reached Saturday, August 17, creasing. when 5,686,360 pounds of grain came taken in.

### **Building Permits** Are Required

(Ed. Note: This is another in a series of articles designed to acquaint residents with some of the more commonly used city ordinances. This LORANG RANCH-HOME week the subject is building codes).

Chapter One, Section Four of the City Code of Genesee sets forth our Building Code. Genesee has always m. for the picnic dinner at about 1:00 had a building code but with the adop- p. m. which was supplied by the vartion of the new ordinance building jous families and served on the lawn a building permit is needed whenever in real picnic-style-barbecue and allconstruction is planned within the ity limits.

Edition, recommended by the Nation- eryone. al Board of Fire Underwriters of New York as the guide for this city's code.

der this Chapter.

### MRS. LEE JOHANN ATTENDS SALES TRAINING SEMINAR

Mrs. Lee (Madelene) Johann returned last Saturday from attending a 4-day sales training seminar conducted by Tupperware Home Parties at Logan, Utah. Included among the instructors were Dr. G. Herbert True of National Labor management foundation; Ruth Pomeroy, Editor Red Book Magazine; Dottie Walters, author and owner of hospitality service hostess; and Agnes Berton, director of division of safety department

of Allstate Insurance Company. The delegates numbering 1200. were entertained by the entire cast of the broadway production of the play, Flower Drum Song, and flew out from New York. Bob Crosby and son, Chris sang several songs.

### Diane Krier to Work At Spokane Hospital

Diane Krier, daughter of Mr. and Mrs. Elmer Krier of this city left for Spokane Sunday where she will be a nurse at Sacred Heart Hospital, assigned to the Artificial Kidney Center. Miss Krier recently completed her nurses' training and has been en-

joying a short vacation. Douglas Krier left Wednesday to return to Spokane where he also has employment.

### Saturday Night

The Genesee Youth Activities Center will present their final dance of the current summer season Saturday night, August 31. This last dance of the summer will be a street dance in front of the Genesee Motors.

Jerry Lange of KXLY radio, Spokane, will furnish records for the dance. The dance will begin at 9:00 and end at midnight.

### SLUMBER PARTY

Connie and Sheri Herman were ning. hostesses at a Slumber Party Tuesday evening in their home. The young ladies guests at the Tuesday evening weiner roast and Wednesday morning breakfast were Kaye and Lois Jen- Dick Barbee. sen, Jill Linehan, Karen Spence, and Donna Carbuhn.

Invited, but unable to attend were Penny Barbee and Cammie Wishard.

### RIMROCK 4-H CLUB

The Rimrock 4-H club met Monday, August 26 at the James Busch home. Demonstrations were given by Roy and Mark Busch, Mike Myers, and Nick and Mike Egland.

Next meeting September 6th in the Dewey Moser home.

### COMING EVENTS...

Sept. 3: First Day of School September 5: Ladies Society of St. John, 2 p. m. church parlors

Mrs. Harry Egland, Jr. Sept. 9: St. Vincent de Paul pickup

The peak of the 1963 small grain into both elevators. This was 94,773 harvest in the Genesee area appears sixty-pound bushels. The East End to be over but considerable amounts elevator took in 3,661,790 pounds of of wheat, outs, and barley are still grain that day. The West End ele-coming into both the East and West vator received their argest amount of End elevators of Genesee Union grain last Friday, August 23, when 2,378,010 were brought in.

Deliveries of barley took a quick rise early this week as it dried out more than the wheat after the weekend rains. Farmers were able to get into the barley fields and then stayed with the crop until the field was cut before coming back into their wheat harvest. By Wednesday of this week deliveries of wheat were again increasing. Some oats were also being

The yields of grain have been good this year. Yields of 100-plus per acre for the new Gaines wheat have been common and even the more established varieties of wheat, such as Brevor, have been yielding exceptionally well. The quality of all grains have been likewise good.

### "Stay In School"

Program Launched Several outstanding figures in the field of sports and entertainment have launched a program urging teenagers to stay in high school until they receive their diplomas. This was reported to day by Frank Hartstein, manager of the Moscow, Idaho Employment office. Those backing this program are Sports and TB Stars Mickey Mantle, George Maharis, Merv Griffin, and John Nash. Their concern is with the hundred of thousands of teenagers, nation wide, who should be returning t school in the next few weeks, bu will fail to do so. According to Mickey

Mantle, "Education and training are points out that a high school diploma He states, "It means practice in learning how to learn, and that's what aployers are interested in." Hartstein pointed out that with the rapidly changing condition in today's labor market, a teenager who is looking at the job he might have today, is ignoring what the value of his services would be were he to have his

diploma. The monetary difference and not having one could mean an inin a working lifetime. Hartstein stated that it is extremely difficult for a high school dropout to achieve Hartstein said he hopes that the

messages presented by these stars wil influence at least one potential dropout in this area to return t school. If this should happen all sec tions of our nation, the number who

The whole world is a classroom FOR THIS LESSON

When it comes to knowing the best way of handling your hard-earned money, all you need to do is look at the experiences of others. College students, teachers, housewives — people in all walks of life have found a Checkway account one of the best ways to help them manage their money.

Note these CHECKWAY Features

• Now you don't need to buy checks in advance. You pay for them only as

• Less chance of running out of checks. We supply you with 100 checks at a

• No worry about lost or spoiled checks. You pay for checks only when they No minimum balance required. Keep on deposit as little or as much as you

In addition of course, as with any checking account, you save time and effort in paying bills—you have a record of where your money went (especially helpful at income tax time)—you have legal proof of payment—your money is safe, yet always immediately available.

And you establish an excellent credit reference when you bank at First Security Bank. Open a CHECKWAY account today

TREASURY DEPARTMENT

U.S. SAVINGS BONDS DIVISION

1. They are Government bonds especially designed for individuals and backed by the full faith and credit of the United States of America.

FACTS ABOUT UNITED STATES SAVINGS BONDS

2. They are unexcelled for safety, liquidity, guaranteed interest return, and freedom from market fluctuation.

There are two types: Series E and Series H United States Series E is an accrual bond. You buy it at ¾ of its face value. The interest is compounded semi-annually. They

range in size from \$25 to \$10,000. Series H pays interest by Government check two times each year. You pay face value for the bond. They come

in convenient sizes from \$500 to \$10,000. The interest from both Series E and Series H is not subject to state and local income taxes and personal property tax.

Both Series E and H are registered bonds and will be replaced FREE if lost, stolen or destroyed.

8. They are easy to buy. Over-the-counter at most any bank or automatically through the Payroll Savings Plan. Easy to cash too-at your bank.

9. You can exchange E Bonds for Series H any time you wish. No charges for this service.

With Series E and H Bonds you pay no commissions and clip no coupons. And they keep on earning interest for you—and building strength for America—as long as you

All of the

Try The Classified Section of Pacific Coast States, Texas, New The News to buy, sell or trade.

The law works this way. A fiscal note must be attached to any bill affeeting public finances before it can PECIAL VALUES! NEW, EXCLUSIVE 💬 FEATURES! e introduced. However, in order to cut down the work load, other states propose that fiscal notes be attached only if requested by the committee which is considering the legislation or at the request of either the House or the Senate, if the bill is favorably reported out of committee. Such a note prepared by the proper state financial agency shows the estimated amount of change in revenues or expenditures for the proposed legislation. The finance agency in turn consults with the agency responsible for the new or expanded activity, and presents a firm estimate of the cost. Legislators often do not have all the necessary information to estimate the cost of new proposals. This results in the introduction of measures appropriating an unspecified amount, only a token amount, or an extremely rough estimate. Legislation has been enacted where costs were **AMAZING** grossly underestimated. Proposals for fiscal notes have several advantages. It would provide an

### Idaho Quail Provide Outstanding Hunting

By Michael Throckmorton

Sportsmen from other states always are impressed with the variety and quality of hunting and fishing enjoyed by Idaho residents. But sooner or later, after adjustment is made to the readily available supply of game here, the dyed-in-the-wool quail shooter asks the inevitable question:

shooter asks the inevitable question:
"Where can we locate some quail?"
Quail may be found although Idaho habitat does not produce the quail safe avenues by which quail extended safe avenues by which quail extended the continuous of the safe avenues by which quail extended the continuous of the safe avenues by which quail extended the safe avenues avenue numbers that exist in some other parts of the country. Quail needs are specific, a fact not readily recognized by the gunner who accepts without question the pheasant, grouse and partridges—not to mention the water fowl that find conditions suitable in this area.

This is not to say that those die-hards who know where to go cannot find good quail shooting. Many do find good quail shooting. Many do.
Most gunners, however, pick them up incidentally in their pursuit of the larger and more abundant upland seeds and insects. Feeding areas, weed and open, near tangles of escape cover, with a year round supply of clean water will support quail in our latitude.

Four species of quail inhabit Idaho blem if food, water and cover is adecover. Two of these were native to the pacific Northwest long before the first explorers arrived; others were introduced. The journals of Lewis and Clark referred to a hitherto undescribed quail along the Columbia river in what is now Oregon, someriver in what is now Oregon, somewhat larger that the Bobwhite and California 'quail, a beautiful dark bird with reddish throat and long the bead which we recognize any the head which we recognize the bead which we recognize t plume on the head which we recognize as our plumed quail, or Mount-

... FOREST MANAGEMENT IS RESEARCH IN ACTION

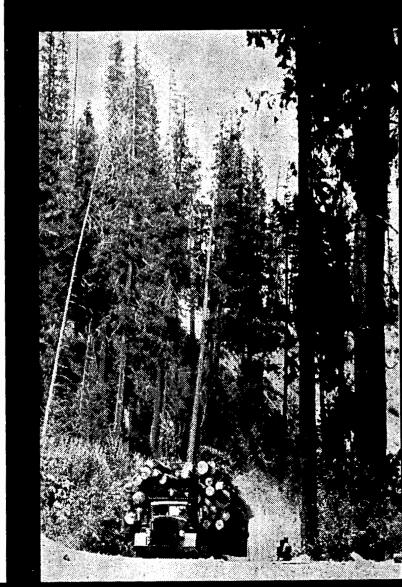

OUR

FULL OF LIFE ON THE WARRENCE OF LIFE O

The miracle of LIFE - is expressed again and again in our forests. Potlatch, through proper conservation assures a continuing 'cycle of life' - by providing the natural habitat for wild life . . . and planned conservation for tree life. Because Potlatch foresters harvest their trees wisely, there will always be timber. There will always be employment in the woods and in the mills. There will be hunting, fishing and camping areas for your children and your grandchildren . . . assuring them the security and prosperity we now enjoy.

TREASURY DEPARTMENT U.S. SAVINGS BONDS DIVISION

### FACTS ABOUT UNITED STATES SAVINGS BONDS

- They are Government bonds especially designed for individuals and backed by the full faith and credit of the United States of America.
- 2. They are unexcelled for safety, liquidity, guaranteed interest return, and freedom from market fluctuation.

There are two types: Series E and Series H United States

- Savings Bonds. Series E is an accrual bond. You buy it at ¾ of its face value. The interest is compounded semi-annually. They
- range in size from \$25 to \$10,000. 5. Series H pays interest by Government check two times each year. You pay face value for the bond. They come in convenient sizes from \$500 to \$10,000.
- The interest from both Series E and Series H is not subject to state and local income taxes and personal property tax.
- Both Series E and H are registered bonds and will be replaced FREE if lost, stolen or destroyed.
- They are easy to buy. Over-the-counter at most any bank or automatically through the Payroll Savings Plan. Easy to cash too-at your bank.
- You can exchange E Bonds for Series H any time you wish. No charges for this service.
- With Series E and H Bonds you pay no commissions and clip no coupons. And they keep on earning interest for you—and building strength for America—as long as you hold them.

Introducing your newspaper ... The North Idaho Report WHY SHOULD YOU ADVERTISE IN "THE NORTH

**IDAHO REPORT"?** 

This is a question we want to answer. "THE NORTH IDAHO REPORT" is a tabloid-size newspaper. It will be distributed free to every home in the ten North Counties of Idaho. It will reach a total of 153,209 people which is the total population of the ten North Counties.

## When You Advertise You Want Exposure.

This is the only paper designed to meet this need in North Idaho. "THE NORTH IDAHO REPORT" will be distributed via the U.S. mails. There will be no carrier boys . . . there will be no subscriptions to collect. This is the only method of TOTAL EXPOSURE.

"THE NORTH IDAHO REPORT" will concentrate on news of interest to the people of North Idaho. It will be a monthly publication. It will delve into news of a controversial nature. It will not sidestep an issue. "THE NORTH

IDAHO REPORT" will report both sides of a controversy. "THE NORTH IDAHO REPORT," although not a crusader. will work for the betterment of the people of North Idaho. It will encourage laws that mean something to the North. It will fight laws that work adverse to the North.

"THE NORTH IDAHO REPORT" will hold A-1 reader interest ... THAT IS WHY YOU SHOULD ADVERTISE IN "THE NORTH IDAHO REPORT."

A representative for "THE NORTH IDAHO REPORT" will visit you soon. For further information, write or call . . , "THE NORTH IDAHO REPORT," 407 Main Street, Lewiston, Idaho. Phone SH 3-5361.

## The '64s from Ford are here: The Year of the Test Drive starts today!

Ford cars have changed. Only a test drive can tell you how much. Races and rallies, economy runs, braking and acceleration tests have bred into our 1964 models the kind of total performance you just can't create on the test track alone. They are hard-muscled, fast-moving, sure-footed. Open competition helped make them that way. They offer you substantially more car than anything at their price. You don't have to take our word for it. We're willing to rest our case on our cars.

1964 SUPER TORQUE FORD Strongest, smoothest, steadiest car in its field-by hundreds of pounds . . . More steel in frame and suspensions . . . Unique suspension lets wheels move

1964 FAIRLANE Unique combination of family-size room, sports car feel and modest price ... Optional 289-cubic-inch V-8 so lively backward as well as up and down to flatit was adapted for famous Cobra sports mission choices, eight different models.

1964 FALCON All new except the economy that made Falcon famous...Falcon's Six still holds all-time Mobil Economy Run record for Sixes or Eights . . . Plushest ride ever built into a compact car . . . 14 models plus 3 extra-duty wagons.

# A SALUTE TO THE WHOLE WOOD WORLD

Wood and wood products are meeting the challenge of an era which demands greater versatility, durability and quality from ALL products of modern industry. From the nurturing of the seedling, harvesting of the mature tree, through a myriad of processes in laboratory and factory, the Forest Products Industries provide us with wood products ranging from the familiar to the unbelievable! The material which helped to build a nation . . . wood remains indispensable today. So diverse are the uses found for wood in this age of technology, that Forest Products Week, 1963, is indeed a salute from the nation to an industry and the products which comprise a "whole wood world."

North Idaho Communities are observing Forest Products Week with special events. WATCH FOR ANNOUNCEMENTS BY YOUR LOCAL MERCHANTS AND SERVICE ORGANIZATIONS.

Clown with a partner or three. Fun to make while dinner's Pot-o-Beans slow-bakes unattended, sending its tantalizing fragrance all over the house. These Baked Beans have something which cannot be bought—the flavor of Home! The bean "receipt" is traditional except for the use of Idaho-frown large white Great Northern variety of dried beans. Some-ime, break with tradition and use instead Idaho's dappled Pinto

Old-Time Pot-O-Beans

2 pounds (4 and % cups) Idaho Great Northern Beans, washed and soaked
2 medium onions, chopped (1 cup) 2 teaspoons salt 1 cup molasses

2 cup brown sugar Wash beans; add 3 quarts water. Bring to boiling point rapidly. 3oil 2 minutes only. Add ½ teaspoon soda. Cover; let stand 1 hour. It is not overnight in measured amount of cold water and the soda. Either method—bring to boiling point in the soaking water. Add over and simmer until beans are tender but firm, about 1 hour. Ising a slotted spoon, place beans in cooking pot in alternate layers

vith chopped onions and the salt pork cut in ½-inch slices.

Mix together remaining ingredients with the bean liquid. Pour wer the beans, adding enough boiling water so that beans are overed. Put on the tight-fitting lid or foil and lid. Bake in a 50 degree F. (slow) oven for 8 hours, adding some boiling water f beans are not quite covered. Just before serving, remove lid; aise oven heat to brown surface. Makes 12 hearty servings. fours for the asking: If you would like a pattern for the Clown sean Bag, send a post card to Idaho Bean Commission, 212 Coninental Life Building, Boise, Idaho.

'Speaking of Taxes"

### Visitors Now Spending More Time In Idaho

and stopover visitors, that 1963 became Yellowstone's record year for

The warm weather which has con-tinued into October in Idaho this year has created a continuance of the upward rise in tourism the state enjoyed toward the close of the summer, she commented. In the Yellowstone counts, the number of trailers entering the area were up 80% and the number of pickup campers more than doubled. Cars bringing in boats Cars bringing in -boats were counted at 68% more than in 1962 and the overall tourist count was up 30%. These increases are on the way to compensate for the inclement weather which got the seaon off to a slow start last spring.

Did you retire completely, receive social security, and then go back to work? If so, you should get in touch with your social scurity office and tell them how much you expect to make. If you are under 72, the number of checks you get depends on how much over \$1200 you make during

## Engine trouble, and not a service station in sight

It was such a tiny speck on the ocean that our tanker almost missed it!

Far out in the Sulu Sea, beyond the direct ship They found seven shocked, tired men, took them lanes, the little Ermedita ran into trouble: a shat- aboard, gave them medical care, and towed their tered crankshaft. The captain and some of the stricken vessel to the Philippines, saving their crewmen left in small boats for help—but help means of livelihood.

Seven days had gone by. There was no radio, just a white flag fluttering from the mast. Not a ship had passed. Supplies were running low. And hope, too.

Aboard our tanker, outbound to Sumatra, a lookout thought he saw a flash of white on the far horizon. The captain altered his course to investigate.

It's only one of many times our tanker men have made friends for our Company by giving aid at sea.

On land, Standard men and women seek to make equally good friends for our Company-by the character of our public services, the integrity of our products, and our behavior as a citizen.

tial nine months of 1962. The figures violations must lead to arrests, whetare 874 this year compared to 607 her wilfull or not. It is the responarrests last year from January 1 sibility of everyone who hunts or through September 30. This is a gain fishes to know the regulations.

of over 40 per cent. Commenting on this situation, the If you are 65 or older, apply for Idaho Daily Statesman" for October social security benefits now. If you 5 editorialized in part as follows: | delay, you could lose some benefits "Some of these violations are doubt-

less unintentional and due to ignorance of the prescribed rules. So the importance of continuing and perhaps stepping up educational effort is in-"There is little doubt, though, that a good many of these violations are premeditated or deliberate. And that

emphasizes the importance of the need to continue and perhaps stepup vigilance on the part of the conservation officers, and the imposition of penalties that really make a lasting impression.'

Hawley Hill, state chief of enorcement for the Idaho Fish and Game Department, says the philosophy of conservation enforcement is an affirmative one of prevention as well as apprehensions. The department regards money assessed by the courts as a relatively small budgetary item, a by-product of enforcement. During the nine-month period this year for which figures are available, a total of \$19,823.50 was collected in fines, and half of this remains in the 44 counties and is apportioned betwen the school and the general funds.

In other words, conservation officers are responsibile for developing and maintaining within their districts public information campaigns with the sole purpose of keeping people out of trouble. The officers, as well as the state office, study arrest reports. Whenever a local or statewide pattern begins to appear in a particular type of violation, the support of all public information media is enlisted. The officers go to the newspapers and broadcasting stations and invite their help in spreading information designed to clarify a regulation, thus reducing unintentional violations. They also place information place cards in store windows, distribute explanatory leaflets to hunting and fishing license vendors, tack posters on trees regarding loca closures, bag limits and the like, conduct gun safety and other classes in the schools, and give talks before sportsnen's clubs and other groups.

In addition, the Information-Education division of the department re leases statewide a weekly news package of 2,000-3,000 words for newspapers and broadcasters. The mailing list is about 265 outlets. A Sunday news-feature averaging 800 to 1,000 words is published extensively every week in many daily and weekly newspapers throughout the state. And a weekly picture mat gets good coverage, especially in the weeklies. The department's bi-monthly magazine i the demand for leaflets and bulletins from schools and sportsmen is increa-

sing rapidly. The department film library of 151 reels fulfilled about 2,000 requests last year from schools, civic groups, churches and others. A weekly taperecorded program on department activities was sent to 24 radio stations every week of the year. Regular and special television programs are pre-

pared as required. Keeping the public informed about all the seasons, bag limits and other regulations is a big job. The state contains 82,769 square miles of land and 788 square miles of water, excluding the high mountain lakes. This means that the 64 district conservation officers patrol an average of about 1,420 square miles of land and

water.
During 1962 the department sold 225,059 resident and 23,625 nonre sident season fishing and hunting licenses of all classes, excluding 39 958 temporary nonresident tourist fishing licenses. If these 288,642 lic ense holders of one kind or another could be portioned equally among the 64 conservation officers-which obviously cannot be done because some fishing and hunting areas are more popular than others-each o the 64 men would be responsible fo about 4,500 sportsmen using the Idaho hunting and fishing resources some time during the year.

The general statewide trout sea-son ended October 31, but big game unting continues in many places through November, and some on int cember. Last year, a total of 198 365 big game tags were sold, not in cluding another 4,365 special hunt tags for moose, elk, antelope, moun tain goat and bighorn sheep. Thus, over 200,000 hunters were afield throughout the state during

the year. Naturally, all sportsmen whether hunters or fishermen, are never observed by conservation officers. It would be perfection if they could be. But the total of 90,925 lic ense checks were made by these 64 conservation officers during 1962 That is over 1,400 persons interviewed per man while hunting or fishing It is noteworthy that the arrest figure for 1962, as compared with the nearly 100,000 license checks made, is only 1,175. Many sportsmen violate the regulations unwittingly o through ignorance. The license checks average 15-20 minutes, and much

information is given and many speci-

# CIVIL RIGHTS & LEGAL WRONGS

## CIVIL RIGHTS BILL OF 1963

A package of legislation called "The Civil Rights Act of 1963" now is pending in the United States Congress. The title is a misnomer. This bill is but ten per cent civil rights. The rest-90 per cent-is an extension of Federal executive power created at the expense of individuals, States, and municipalities. The bill is, in fact, the blueprint for a controlled system of life; it would establish new principles of law of drastic and far-reaching implications.

Consider the bill's principal provisions: Under the cloak of "Civil Rights"—if this bill becomes law—the Federal government henceforth will dictate to whom If you are the proprietor of an establishment that offers

goods and services for use or hire-not just public accommo-

dations (hotels, restaurants and such) but any kind of business that offers anything to the public-then, under this bill, your

In like manner, the bill covers all "contractors and subcontractors" in every program or activity where direct or indirect financial aid is rendered by the government. It will apply to you: If you borrow money from or deposit money in a overnment-insured bank; if you have an FHA, VA or Small usiness Administration loan; if you are a realtor or developer if you are a farmer who has financial dealings with the Farm redit Administration, the Commodity Credit Corporation, or the Soil Conservation Service, or if you have Federal Crop Insurance, or deal with the REA or participate in any agricultural program involving Federal funds.

Nor is that all. The bill boldly seeks for the Justice Department unprecedented powers to gain Federal control of the electoral machinery.

of the electoral machinery.

In 1961, the United States Commission on Civil Rights recommended—contrary to express provisions in the Constitution—that the Federal government impose new control over the qualification and registration of voters. "The Civil Rights Act of 1963" would implement these recom-

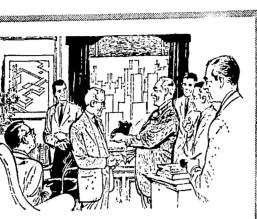

It follows, then, if this Act were made law, a politically-minded Attorney General could go into an area where the voting might be close and swing the election. See how it would work: The language of the bill allows the Attorney General, at his own discretion, to file a "discrimination" will and without proof.

suit and, without proof of his allegations, register tens-of-thousands of voters. The ballots, then, could be cast

The bill goes on: In giving the Federal government new control over the hiring, firing, promoting, demoting and payment of employees, the Act also would give Fed-

eral Commissioners new powers to destroy not only the seniority system of unions, but also an employee's rights within the company for which he works. This is so be-cause the Act gives full and unlimited power to Federal

or fired, whenever a charge is made that racial

### **EMPLOYERS & EMPLOYEES**

shall handle their employees.

Under this Act Federal inspectors would be empowered to rule that racial or religious imbalance exists in a business. Thereafter, that business could not employ or promote the people it might prefer but only such "racial" or "religious" individuals as the Federal inspector designated. His ruling could require that "racial" or "religious" balance be obtained and apply to all job classifications: to common laborers, to skilled laborers, to the secretarial staff, to supervisory employees, and to vice presidents, all alike. A Federal agency would be prosecutor, judge, jury and executioner.

### **ENFORCEMENT**

Enforcement of the Federal inspector's findings would be simple; failure to comply would mean the end of all participation in Federal programs. Your loan could be called; you could be blacklisted for further loans from banks or financial institutions insured by the government; and you could be prevented from taking part in any activity that had to do with Federal financing. In certain injunctive situations, an employer could be jailed without the protection of a jury trial.

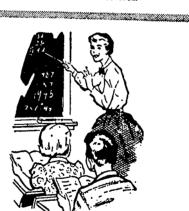

And that is only part of it.

### PROFESSIONAL AND SMALL BUSINESS

"The Civil Rights Act of 1963" would also bring under ederal control individuals and businesses never before rederal control individuals and businesses never before thought to be constitutionally subject to such regulations. Under the bill's Title II, any person who pays a business license to a State or municipality could be included.

Thus, the Act brings under Federal supervision almost every profession and every business—lawyers, realtors, small establishments, doctors, restaurants, gasoline stations, theaters, hotels, motels and lodging houses. The smallest "soda fountain" would be covered.

### **SCHOOLS**

The bill goes even farther. If this Act should become law, between 100 and 200 statutes now in effect would be amended. Everyone who has dealings with Federal educational programs, for instance, would be subject to new requirements. Under the provisions of the Act, the United States Commissioner of Education could influence the transfer of children from one school to another—back and forth—until racial balance and religious balance existed. (The correction of "racial imbalance" is of such importance to the sponsors that the phrase appears eight times in a single brief section of the bill).

Under the authority proposed in connection with Tables. In a single price section of the pin).

Under the authority proposed in connection with Federal financing, school lunch programs, research programs, the building, of schools, Hill-Burton hospitals—all such programs and organizations would be subject to new Federal controls.

## EVERYONE

UNIONS

A careful reading of this Civil Rights Act of 1963, we believe, will convince the impartial citizen that the administration is here proposing, under an emotional and racist appeal to 'civil rights,' to destroy agg-old libertles of the individual and to cast off constitutional restraints upon Federal power. The bill would intimately and immediately affect every parent of school-agg children, every businessman, every professional man, every home-owner, and every wage earner in the United States.

Many of the provisions of the Act for the second content of the content of t Many of the provisions of the Act, in our view, violate the Constitution of the United States. They are also contrary to existing decisions of the Supreme Court of the United States. But, no one can foretell what the Supreme Court would hold, if Congress were to make "a legislative finding" in the areas mentioned—that is, if "The Civil Rights Act of 1963" were passed by Congress.

THE SO CALLED "SOFTENING AMENDMENTS" PROCESSED BY ATTORNEY GENERAL KENNEDY DO NOT ACTUALLY

# WRITE CONGRESS

do not want your personal liberties snatched from you in the areas covered by the bill, If you want to preserve liberty under the law, then write to your Senators (both of them) and to your Congressman, today. Ask them, earnestly, to vote against this legislation. Tell them the truth, that 90 per cent of "The

SEND ME A STUDENT WHO READS and I won't worry about his

It's quite possible that my reader may neglect his studies now and again for the little volume he carries n his pocket and reads at every opportunity. But even though he isn' perfect, I won't care. It isn't always easy to patternize him. From a private education in a fine library he may never progress to the ephemeral states of mind of an Ellen Glasgow or a Virginia Woolf. He may instead become a sound citizen, a man of facts and good sense who avoids the pastimes that would take up too much of the time he has to spare to study and who creates useful advantages for himself like Benjamin Franklin. He may never be-come the liberated mind that explores the areas beyond the border and finds his intellectual home in the universe like Bertrand Russell. He may prefer to road through history

like Arnold Toynbee. He may become the eloquent law yer, the character analyst, the critical realist, the engineer whose reading adds a little color, daring, or fancy to the fact, the independent thinker who is his own authority, the full man who would walk miles to borrow | a book, or a poet like Shelley, who drew "words which were weapons"

from a "magic store." Give my student a rather good mind to begin with and he'll become some-thing—even when he hasn't been to

### |Speaking Of Taxes

The story is told of the little boy who was watching an old-time stage coach driver demonstrating his prowess with a whip. This old-timer would stand off eight or ten paces from a fence, and with a crack of his long whip, pick off gnats and dragon flies. A hornet flew by and the admiring youngster excitedly shouted to the driver, "Mister, let's see you kill

The driver looked at the hornet and hen turned to the boy.

Wonderful way to communicate the Christmas spirit

No other gift speaks so well of your thoughtfulness as a bright little STARLITE® phone for someone in your family. It's especially convenient for the bedroom because it has a dial that glows in the dark for easy dialing, and comes in a variety of decorator colors.

We've made the STARLITE phone easy to give, too. Take one home now to put under the tree, and we'll install it right after the holidays.

Another nice thought - spread the spirit of Christmas and New Year's by phoning faraway friends and relatives. And make those calls a day or two ahead of the Holiday, when folks have more time for relaxed conversation.

## **Yuletide Greetings**

Just a friendly holiday greeting To bring a wish well worth repeating **MERRY CHRISTMAS!!** 

THEISSEN AND SON Bill and Joe Theissen

What are you saving for tomorrow ... besides money?

t takes more than money to make the future secure. It takes freedom, too.

Consider how little your saved-up dollars would be worth without the freedom to spend them as you wish.

This is why U. S. Savings Bonds are such a good investment. Each dollar comes back 33\% % larger at maturity. It also goes to work for your country, protecting freedom all over the world. Good reasons to buy some soon—and regularly, from now on.

Keep freedom in your future with U.S. SAVINGS BONDS

## Suggestions for that unexpected extra gift

TREER REPORTED TO THE REPORT OF THE PROPERTY O

Give the Christmas gifts that last all year from First Security Bank. Start youngsters — or oldsters — on the lifetime habit of thrift. Open a SAVINGS ACCOUNT in their name, in any amount you wish. We'll help make their money grow by adding guaranteed bank interest twice a year.

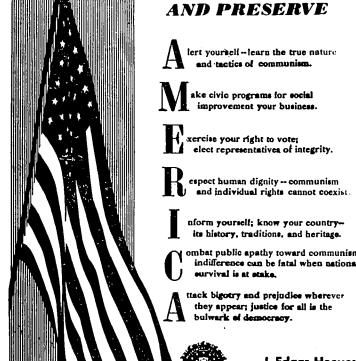

A personal CHECKING ACCOUNT makes a wonderful gift for wife or college-age children. Puts the management of their money on a business-like basis and controls overspending. Open the account early, we'll have checks and deposit slips personalized with their name and address FREE, ready for you to gift wrap and put under the tree on Christmas, morning.

It's fun to save with one of the attractive SAVINGS BANKS. Addo-matic Bank \$1.75; Book Bank \$1.50; and the fascinating, new Sort-a-Coin Bank which automatically sorts, stacks and counts coins \$1.75. These banks make wonderful companion gifts to a gift

NEW YEAR'S DAY—when life begins anew When you turn your back on failure Aud look ahead to success and happiness! The Genesee News, Genesee, Idaho, December 27, 1963

No question about it, the 1963 Violations. These resulted in fines Idaho fishing and hunting licenses, amounting to \$4,932 and brings the individually or in combination, were among the year's best buys. Hunters ber 30, to \$33,522. Half of this sum may enjoy post-season elk hunting remains in the counties where the in game management unit 6, which ncludes portions of Kootenai, Sho. between the general and school fund

shone and Benewah counties, through December 31. Archers may hunt deer through December 31 in five eastern Idaho management units. And upland game bird hunters may shoot qua and partridge through December 31 two important sectors of southern Idaho. Check 1963 regulations for de-

Hunters planning migratory waterfowl or cottontail rabbit excursions January 1 or later must have 1964 licenses in their possession. The current "duck stamp", however, is valid until the duck and goose season ends on January 5. Fishermen also must have new licenses by January 1 before trying their luck through holes in ice or in open streams in any of the designated waters where year-round angling is permitted. Licenses and new fishing regulations have been
