To Members of the University Faculty:

The University War Records Committee solicits your cooperation in carrying out the following assignment given it by President Dale:

1. To assemble names of students, alumni, and faculty serving in the armed forces. This compilation will be for permanent record. Part of it will serve as the basis for affixing stars to the University service flag.

2. To gather for historical purposes everything possible pertaining to the participation of the University faculty, students, and alumni in every phase of the war effort.

Therefore, will you please send to the office of William A. Olson, Alumni Secretary, U-Hut, chairman of this committee, the names of all students, faculty, and alumni you know who are in some branch of the military service. If possible include class and branch of service.

Also, please send to the chairman of the committee all clippings, letters, magazine articles, etc., which will contribute to the broad picture of what the University faculty, students, and alumni are doing in the war, not only in the combat field but in all phases of defense.
