

THE WILDLIFE SOCIETY

85(1): January

PRESIDENT'S CORNER

It's been a long winter and most people are anxious for warmer days and a little fun. It may be a little too early for shorts and tennis shoes but the annual meeting of the Idaho Chapter of The Wildlife Society promises to be lots of fun mixed with liberal doses of education. It will be held in Boise on March 7-9 at the Red Lion Downtowner. And, as promised, we'll be meeting with the American Fisheries Society. As you can see by the enclosed agenda, it's going to be a good program. Please plan to attend.

GENERAL MEETING AND RIPARIAN SESSION

March 7-9, 1985 - Boise

The programs for the general session and the day-long session with the American Fisheries Society are found on the following pages. I think you'll agree, after looking them over, that there's something there for everyone.

The meeting will be held at the Red Lion Downtowner in Boise. The sessions and Friday night social and auction will all be in one place. This means that those of us who stay at the hotel won't have to be concerned about driving and drinking on Friday night.

This brings up an important point. The more of us who stay at the hotel, the less it will cost the Chapter to rent meeting facilities, so please use the enclosed card to make your reservations before February 13. Members who reside in Boise should also consider staying at the hotel at least one night

to help out the Chapter. Besides, it's deductible, as are your other expenses. All of the officers will be staying there, as well as several other locals who will be doing likewise. If you don't use the enclosed card to make your reservations, be sure to tell them that you're with The Wildlife Society, as we are getting a special room rate, which is \$38 for a single and \$45 for a double. This is \$10 off the regular rate. The rooms are wonderful. Arrangements have been made to provide free housing for students. Any students wanting to take advantage of this offer should call Karen Steenhof for details (334-1582).

So plan to attend the meeting March 7-9. It promises to be an informative and enjoyable session.

	Riparian Ecosystems and Issues
March 7, 1985	Session I: Overview of Riparian Ecosystems
0830-0900	A. Physical and hydrological characteristics - Walt Megehan
	B. The biological component - Fish, wildlife and plants

1155-1215	Habitat and population characteristics of Columbian sharp- tailed grouse in western Idaho - Jeff Marks
1215-1235	Opportunities and challenges to elk management in the Upper Snake River watershed - Tracy Trent

AUCTION - AUCTION

The Idaho Chapters of The Wildlife Society and the American Fisheries Society will be holding a fund-raising auction at this year's social gathering. The American Fisheries Society has been conducting auctions at their state meetings and have done quite well. All auction items are donated by members.

Example: Sam Mattise will donate a one-day pheasant hunt in Hagerman Valley. Bring your gun, shells, lunch and hiking boots.

The Idaho Chapter will receive the money from items donated to The Wildlife Society and the American Fisheries Society from items donated to them.

We would appreciate donations from anyone interested. It should be a lot of fun. For more information or to donate items, contact Sam Mattise at 334-1582 or Signe Blair at 334-1931.

HELP WANTED SECTION

The Idaho Chapter's secretary-treasurer, Donna Gleisner, has left the tranquility of Idaho for the wilds of Vancouver, Washington. Her present

position is as a regional information-education person for the Washington Department of Game.

So, this is an official call for volunteers who want to be the new secretary-treasurer. It's a time-consuming job but also rewarding. The following are a few of the requirements and duties:

- 1) Reside in the Moscow area
- 2) Belong to the parent Society
- 3) Write newsletter articles
- 4) Handle printing and distribution of 4 or more newsletters each year
- 5) Maintain Chapter files
- 6) Handle financial transactions of the Chapter
- 7) Prepare financial report for Chapter meetings
- 8) Maintain Chapter membership list, including the collection of dues
- 9) Handle registration at the annual Chapter meeting
- 10) Answer selected correspondence
- 11) Miscellaneous duties, as assigned.

For anyone that might be interested, contact Lew Nelson no later than February 15.

CHAPTER DUES ARE DUE

The new year has arrived and with it comes an opportunity to renew your belief in our Chapter. Be one of the supporters by joining at the low cost of \$3.00. You can't beat that for a bargain.

Many of you pay your Chapter dues with your national dues. That's a good method so keep doing that. For those who will attend the annual meeting in Boise, you can pay your dues there.

For people not attending the annual meeting, there are two arrangements. First, give your dues to someone attending the meeting and have them pay for you. Or, send a \$3.00 check to Lew Nelson, Department of Fish and Wildlife Resources, University of Idaho, Moscow 83843.

Please be sure and pay promptly so that you will continue to receive the newsletter. We simply don't want to lose you as a member. You're very important to us.
