As you know, Project WILD is an exciting new program that enhances student interest and learning by using wildlife examples. Teachers throughout Idaho are finding that WILD can be an important part of their teaching strategy.

Many of our members in the Idaho Chapter of The Wildlife Society volunteered to help Project WILD teachers by visiting classrooms as guest speakers. Their names are on the list below. Feel free to call on them for guest lectures. I will send you updated lists as they become available. Have a WILD teaching year.
