Subject: mentoring at TWS meeting

+ Winnie Kerler + Rex
+ Chuck Harris

All,

Thanks very much for volunteering to be a mentor at our Monday evening social. I am very hopeful that many of the students attending the conference will try and take advantage of the opportunity to talk to professionals in their field of choice.

We will have some special name tags printed to help make you easily identifiable to students. We will hand those out at the social.

If you have any questions, please let me know.

Thanks again for your help.
