Dear Jim:

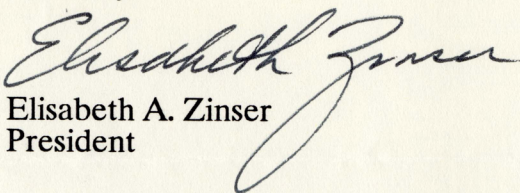

Earlier in April we spoke about my plans to recommend to the Board of Regents that the new mining and earth resources building be named in your honor. This recommendation was made to recognize the many contributions you have made to the State, the University of Idaho and this nation in areas of energy and natural resources, science and technology.

I am pleased to tell you that the Board of Regents unanimously approved our request to name the new building "The James A. McClure Hall" at its April meeting.

This naming is a way to permanently and publicly recognize your significant contributions.

Congratulations! I look forward to seeing you next week in Washington, D.C.

Sincerely,

Elisabeth A. Zinser  
President
