UNIVERSITY OF IDAHO DOME ROOF SEARCH COMMITTEE

c/o Betsy A. Larson, Chairperson
324 North Main Apt. 4
Moscow, Idaho / 83843

President Richard Gibb and Executive Assistant, Terry Armstrong:

Presidents Office.

University of Idaho / 83843

Dear President Gibb and Assistant Armstrong:

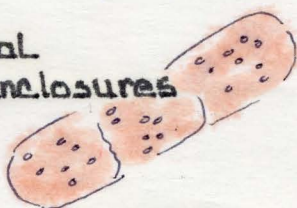

As a concerned member of the Associated Students of the University of Idaho and part owner of the ASUI Kibbie Dome. I have taken it upon myself to organize the DOME ROOF SEARCH COMMITTEE.

The enclosed cover letter and REQUEST FOR QUOTATION, have been sent to the Johnson & Johnson Co. in hopes of solving our leaking Dome roof problem.

We realize that a Bandaid is not the most attractive alternative, but if it can solve the leaking problem inexpensively we could direct our energy and surplus finances to other needs of this institution. Another area of concern is the Graphics Art Department. It is in dire need of new colored pencils, assorted felt tip pens, tracing paper, spray stick glue, new desk tops, etc. Realizing the importance for 'thrifty shopping', K-mart will be having their "Dollar Days" sale in January, most of these items could be purchased at that time.

We just wanted you to know that you're not alone in your thoughts and worries about the Kibbie Dome roof.

Dear Mr. Barker:

We are in the process of obtaining a suitable replacement for the University of Idaho Kibbie Dome roof. The Kibbie Dome is a large Quonset hut type building (illustration attached) used for protecting the University of Idaho Vandal football team from inclement weather.

The Kibbie Dome was constructed in 1975 and began to leak shortly after its completion. Since that time we have been searching for a suitable replacement for the roof.

Due to the financial crisis that has hit our institution, we are looking for an inexpensive, durable, leakproof cover that will "STICK, EVEN WHEN WET". Our Dome Roof Search Committee has considered other possibilities for coverage, such as BAGGIES, ALUMINUM FOIL, and Saran WRAP, but felt your BAND-AID would be our best choice.

The winter season is approaching northern Idaho very rapidly so we must act without delay. Your expeditious reply will be greatly appreciated.

c.c: President R. Gibb
