

war is over and as soon as we can
get transportation & we may have
to march through to Washington
one hundred & eighty miles but
we may not have to march
we can go by Rail road to the
sea coast then by water around to
New York there is a very large
army to go home, General Lee
surrendered up his whole army to
General Grant & then old Abe
Lincoln got shot some how &
Johnson he had desired came
as Lee, but we expect some
news from Washington in a
few days so we will know
what we will do march to the
coast or not we are anxious to
be on the road home I think
I will be home by the first
of June, & I hope so at any
rate as Grandfather Wre says,
I am tired of this kind of life
