

very time to keep out
of their site & escape all of this
getting wet in very high water
timed wood got me a mule
that was left side of the road
turned loose & side thru the water
some of our men would be to work
in the water & wood side & through
& not notice them.
But as old Jim said when
I would get my clothes out
of this steel trap I will never
try it again. the weather
is very nice and warm the
trees are leaved out nice.
I want to be there to help
you eat some strawberry short
cake & it will be so good &
to eat bread once more, if
get home by the first of June
I can cut some hay for my
sheep & help you father in
harvest & I want it to be nice
